Devil's River Philosopher Comes Out With Fool-Proof Way To Find Out If Country Well Off Or Not

Editor's Note: The Devil's River Philosopher on his bitter-weed ranch on Devil's River is misinterpreting the economists, his letter this week indicates.

Dear editor:
The trouble with a lot of business men in this country is that

they don't pay any attention to the economists.

For example, I was reading last night in a copy of a newspaper a man in town handed to me earlier in the day, I imagine to get rid of me, that an economic adviser told a group of business men the other day "America's economy is geared to a general expansion of prosperity." He said if everybody stopped buying, the economy would collapse. We've got to keep using all these things business is producing, or we'll be in trouble, he said.

In this connection, I notice Washington is concerned over the present economic state and is taking steps to inject a little stimulation.

Therefore, taking both the economic experts and Washington at their word, I have been trying to do my part, but you'd be surprised at the number of business men who don't seem to know about the importance of injecting new life into business.

There are plenty of things I could use and would be glad to help stimulate the economy by buying them, but stores don't see it that way.

One of them just flatly told me, "You haven't finished paying yet for the stimulation you gave my business eight years ago."

This is what I'm talking about. How are you going to have an ever-expanding economy if people keep dragging in things that happened years ago and letting them get in the way?

I could use a new pickup, new fences, new gates, a new roof, a new back porch, new front and back steps, a new well, a new pump, fifteen gallons of paint, etc., every one of which would go toward stimulating business and expanding the economy, but business men just don't pay enough attention to the experts.

I hope you're not in this category, and if my subscription to the Devil's River News is coming due, just renew it, and you and me will do our part to stimulate the economy.
Yours faithfully,
J. A.

New '61 Chevy with Jet-smooth ride!

Impala 4-Door Sedan—Jet-smooth traveler that rivals the luxury cars in everything but price

The '61 Chevy loves to go because it goes so well. Purrs along pavements like a happy tabby. Takes rough roads in stride and all roads in style.

Just why does a Jet-smooth Chevy treat riders as royally as the high-priced luxury cars? It all came about through a delightful blend of Full Coil suspension, precision-balanced wheels, unique chassis cushioning, and a superb Body by Fisher insulated to hush away road sounds. All this adds

up to less sway, less jounce, less dip, less dive, less tilt, less noise, less... well you name it.

Now combine this Jet-smooth ride with conveniences to pamper you and roominess to relax in. Add a full measure of quiet good looks. Voilà, you've got Chevy's formula.

And the proof is in the riding. When you sample a Jet-smooth Chevy at your Chevrolet dealer's we think you'll find it just to your taste.

Best Season in History For Big Game

From the standpoint of big game, it has been without a doubt the most successful season in the history of legal hunting, writes Howard Dodgen, in his editorial in the February issue of TEXAS GAME AND FISH. "For those who have been around during most or all of the first half of the 20th Century, it has been something we dreamed about."

Dodgen, executive secretary of the Game and Fish Commission, writes that during the past season, with the population more than doubled since 1930, Texas hunters harvested the largest deer crop in the history of the state. "And there still is a surplus seed crop for next year in the best areas."

"Thanks to the ceaseless efforts of landowners," he con-

tinues, "their guests, the hunters, and official conservation help, this extraordinary progress has been made possible."

Other interesting features in the February issue include one by Curtis Carpenter on Texas' only elk hunt. "Sometime in 1927 the late Judge J. C. Hunter of Van Horn imported 44 head of Canadian elk, *Cervus canadensis*, from the Black Hills of North Dakota and released them in beautiful McKittrick Canyon deep in the heart of the Guadalupe Mountains," writes the author. That was the beginning of the state's only elk herd.

Today J. C. Hunter, Jr., Abilene, owns the 110 section ranch on which the elk roam. Each year he has invited some of his very close friends up to hunt mule deer. In 1959, elk were added to the list of legal game and the first elk hunt was held. Last year, the second one occurred and 9 elk were bagged.

Guests of Mr. and Mrs. Sam Odom and Sammy last week were Mrs. Odom's parents, Mr. and Mrs. L. O. Biggs, and Joe Gatlin and Mrs. Virgil Baugh, all of Marble Falls.

Devil's River Philosopher Willing To Stimulate The Economy But Finds Business Men Won't Cooperate

Editor's Note: The Devil's River Philosopher on his bitter-wood ranch on Devil's River discusses economics this week, a subject he may be as well qualified on as any other, if you follow us.

Dear editor:
You couldn't call me an economist, although I have one qualification a good many of them have—I have more ideas on economics than I have credit at the bank—but I have been puzzled lately by what the experts are saying about the state of the national economy.

As I understand it, the experts

are split. One group says the country is in pretty good shape, nothing to worry about, the other group says we're in rather serious shape, there's plenty to worry about.

Now personally I have never had to wait on a group of experts to tell me whether I was well off or not. I have never based my economic position at any given moment on what a national survey has found out about me. No doubt it takes a group of experts to find out what the national economic growth rate is, but in my case all I have to do is look out the back door with

a view of this bitterweed ranch and remember what my last bank statement showed.

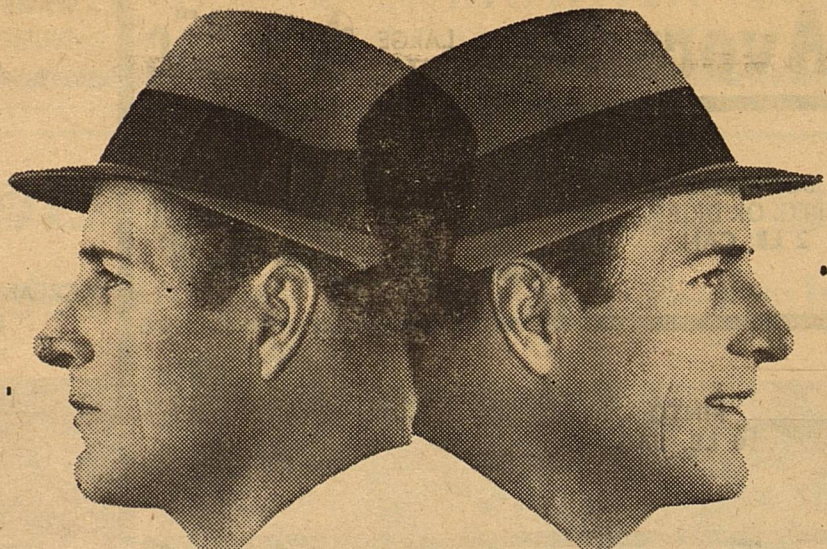

However, I recognize that what my economic position is and what the national economic position is, are two different things. I don't reflect the country as a whole, and I hope the country as a whole doesn't reflect me. The situation couldn't be that serious.

But it does seem pretty confusing to have the experts in Washington disagreeing so completely on whether the country is well off or not, it's not fair to have Congress not knowing whether to raise taxes because a booming country can afford it or to lower them because a declining country can't, and therefore I have hit on an idea for settling the matter.

The thing to do is to let the Supreme Court decide it. Let some lawyer bring suit, I don't

know who against, the United States Treasury, I guess, claiming the country is in bad shape and therefore taxes ought to be lowered. He could start the suit in a local court, work it on up through the state court and finally on up to the Supreme Court, and along about this time next year, or the year after, the court would rule, and its opinion would thus become the economic law of the land. Then we could all settle down and look back and know for sure that back in February, 1961, the country was either well off or bad off, by a five to four decision of the Supreme Court.

Yours faithfully,
J. A.

Costs least... saves most—that's the '61 Ford! And here's why. Fact: The '61 Ford Fairlane, equipped as you like it, is America's lowest-priced, full-size 6-passenger car. Fact: You can enjoy all this full-size room, ride and zoom for less than some "new name" compacts. Fact: This stunning Ford saves hundreds of dollars in operating costs while you own it because it's beautifully built to take care of itself. Come in and figure it out with our free folder, "Here's Proof—" and you'll see you can't afford not to own a '61 Ford. And our Winter SAVE-MOST DEAL will be the clincher! Hurry!

HERE'S HOW THE '61 FORD TAKES CARE OF ITSELF
Lubricates itself—You'll go 30,000 miles between chassis lubrications (which cost only about \$4.00 and take about 20 minutes) because Ford has replaced conventional grease fittings with a sealed-in lubrication system.
Cleans its own oil—You'll go 4,000 miles between oil changes because Ford's Full-Flow oil filter gives you filtration through fibers... trapping more dirt than any other type of filter made.
Adjusts its own brakes—New Truck Size brakes adjust themselves automatically.
Guards its own muffler—Ford mufflers are double-wrapped and aluminumized to last three times as long as ordinary mufflers.
Protects its own body—All vital underbody parts are specially processed to resist rust and corrosion, even to galvanizing the body panels beneath the doors.
Takes care of its own finish—Just wash and clean Ford's new Diamond Lustre Finish to make it glisten like new. It never needs waxing.

CHAMBER OF COMMERCE COMMENTS

HOPE. This is ranch country and with the best moisture in the ground possible 1961 looks like the year for the livestock men. Indications are that prices will be firm and fair. Some losses have naturally been suffered in goats and lambs but the loss is negligible compared to the potential benefits from the ice, snow and rain.

BUSY TIMES. Somebody is going to have to do a lot of hustling in Sonora from now until fall if the following coming events are properly conducted: First, March 4, the Fling Ding Dance Club annual dance with Shep Fields band. This attraction bring several hundred visitors to town. Then, March 10-11 the annual High School Speech Meet takes place. This brings several hundred students in from over Texas and really taxes the hospitality capacity of Sonora.

THEN, the Quarter Horse Futurity race meet take place the 29-30 of April and the 6-7 of May. The futurity offers the largest racing purse in Texas and this year there are twice as many entries of registered two year old Quarter Horses as the past year. The Presbytery of the Southwest will meet here June 6-7. Some 80 or more Presbyterian ministers and elders are expected from all West Texas and

New Mexico. **THEN,** the largest wool and mohair show in Texas, and this year our first national show, is to take place on June 13, 14, 15. The Sonora Wool and Mohair Show is sponsored by the Lions Club and this is their 24th annual show. Sonora's second annual Junior Rodeo will be held July 20, 21, 22 with Louis Powers as chairman. Sonora, Ozona and Eldorado are working together this year in staging this important youth activity, Ozona showing a week before Sonora and Eldorado this week after. And, on Sept. 1-2 the Sonora Quarter Horse Show will take place which will include youth events. L. P. Bloodworth is chairman with Billy Galbreath as co-chairman.

In October the Peace Officers association will convene in Sonora, some 200, and this same month we expect the All Texas Air Tour to visit us, overnite we hope and think. Then there will be the Lions Auction Sale, the opening party of the Caverns of Sonora and several other activities for which dates have not been set. Several other small conventions are being asked for by your Chamber of Commerce including the Western Square dance Club's annual affair.

SO, looks like Sonora has a job laid out, but with our type of citizenship these events are

bound to come to pass in a manner complimentary to the host. **IT'S DIFFERENT** - Sonora isn't the same. Mr. and Mrs. Arthur Stuart are now living in Bryan, Texas, 2100 Echols St., Hillcrest Apt. 2. The Stuarts were outstanding citizens of Sutton County for more than 60 years. They moved to be near their children. Then, the Gomer Minnicks have moved to Strawn, Texas, where Gomer has purchased a business. They have sold their home here to Mr. and Mrs. Darcy Carroll. Gomer was one of Sonora's characters.

Mr. and Mrs. J. Preston Smith sold their new home in West Sonora to Mr. and Mrs. Sam E. Jones and are partially moving to Del Rio where Smitty is opening an electric appliance business. They will continue their business in Sonora and will split their

time between both towns. Others we will miss are: Howell Whittitt, who has moved to Angelo to be with J. H. Russell Real Estate Co. Howell was with the Soil Conservation Service here and made Sonora a fine citizen. Another, Weldon Nustbaum and family have moved to Jackman, Maine where Weldon is with the Border Patrol. Weldon was very active in Senior Scouting and with the Army Reserve while in Sonora. They'll be missed. Another bunch we are missing are the Atlantic crew. We have never known a nicer group of folks and their leaving Sonora was keenly felt, not only sentimentally but economically, as well.

AT RANDOM. Do you know a better game than golf? To play it you must exercise, and walking is recognized as one of the best

exercises. Three fine local citizens have offered to practically build us a good golf course. They say it is good for the youth, their Ma and their Pa. A golf course would tie in nicely with the Caverns of Sonora. Another tie-in plan is to reactivate the Gun Club and have weekly shoots, as a side attraction to the Caverns. AND, have you joined the Coliseum Club? Just think, your first four bucks buys your first two tickets. From then on you can quit when your please but on the other hand you can't get a ticket at any price unless you are a member. They have a few memberships left.

HOLE IN THE GROUND. Work on the fabulous Caverns of Sonora is progressing nicely. By the end of this week, likely, the tour will be open around the bend, by the butterfly and on into the

Diamond Re. passage. A tunnel expert is expected this week-end to plan and advise, housing plans are being completed and a brochure sales man will be here the first of the week. It is hoped that the formal opening can be on or about May 1, 1961 but it is planned to have tours every weekend in March and daily through April. This is possible because the work in the Cave will not affect last year's tour.

PROGRESS. Work on St. John's Episcopal Church is in the finishing stages and each day this edifice is becoming more beautiful, in the eyes of the public. Work is progressing nicely on the home for Mrs. Harva Cooper as well as on the home for Mr. and Mrs. Joe Neil Smith. The stupendous building program for the Highway Department is

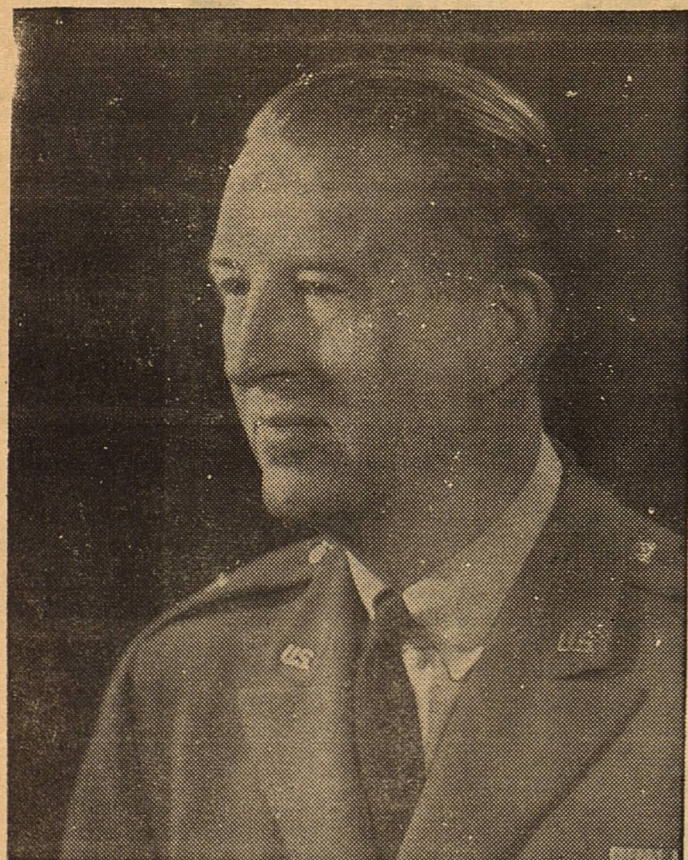

progressing nicely, in spite of bad weather, and these buildings are taking shape fast.

GUESS? What is your guess as to how many dollars were spent in Sonora in 1960 for new home construction? 1959? We'll give you our guess next week.

WELL, the Sonora Chamber of Commerce is off on its third year. With a fine group of officers, a cooperative membership and with a big job to do, 1961 should be a busy and fruitful year. We have 130 members and need, urgently, 20 more. Just think, 150 members, men and women who are willing to give of their time, talents and means in a cooperative effort to make their home town a better place in which to live and in which to do business. **IT IS WORTH WORKING FOR.**

Rev. R. Matthew Lynn To Be Preacher At Four-Day Presbyterian Meeting

The Rev. R. Matthew Lynn, pastor of the First Presbyterian Church of Midland, will be guest preacher for a four-day preaching mission to be held at the Church of the Good Shepherd Sunday, February 26 through Wednesday, March 1.

The mission will begin with the eleven o'clock morning service Sunday and evening services will be held at 7:30 each evening Sunday through Wednesday. A communion service will conclude the mission following the Wednesday evening sermon.

Dr. Lynn is one of the outstanding preachers and ministers of the Presbyterian Church, U.S. He has served as pastor of the Midland church since 1947. Prior to that time he was associate pastor of the First Presbyterian Church of Houston. He is a graduate of Virginia Union Theological Seminary, Richmond, Virginia, holding the degree of Doctor of Divinity.

In 1960 Dr. Lynn was nominated for the office of Moderator of the General Assembly, highest office in the Presbyterian Church. He served for many years as chairman of the Board of Christian Education for the Presbyterian Church, U.S.

Everyone is invited to hear this outstanding preacher. The Rev. Allan Guthrie, pastor, extended the invitation saying that the Session of the church feels extremely fortunate to have secured Dr. Lynn for this, the first, preaching mission to be held by the church.

Library Club News

By Nancy Reed

"The Story of Charles Dickens" by Eleanor Graham, is the biography of one of the greatest novelists of all time.

The story of Dickens' life is as strangely eventful as one of his own stories, full of warm-hearted gaiety, tragedy and dramatic surprises. It is interesting to realize that most of the outlines and ideas for his books were already in his head before he was 12 years old.

All of Dickens' books are mentioned, with the story of how they came to be written. As the London Times Literary Supplement said: "The writing is well attuned to the age of the book's probable readers. Miss Graham does not write down, and in describing the background against which Dickens wrote, his style and the new public he was trying to reach, she will help readers to appreciate more fully the intensely vital but perhaps to them rather perplexing long novels." This book also explains the purpose of Dickens' novels, why he wrote the way he did.
