Broncs Again Track Meet Champs- Take Top Honors At Plateau Relays

Sonora High School's track team added another championship to its 1961 season record last weekend by winning the Plateau Relays held at Eldorado. The Broncos had previously won the Ozona relays and were co-champions of the Sonora Relays.

Sonora shaved two records in the annual event with their mile relay team of George Roberson, Julio Samaniego, Danny Rutherford and Ram Castillo turning in a time of 3:35.1. Primo Gonzales was responsible for the second record-breaker, running the 880-yard run in 2:03.6 to defeat Felix Valles of Sanderson who also ran under the old record with a time of 2:05.2.

The Broncos took four first places with the mile relay, the

880-yard run by Gonzales, the 190-yard low hurdles by Ram Castillo and the mile run by Joe Garcia. David Archer was second in the shot put.

Thirds were won by the 880-yard relay team, Danny Rutherford in the 440-yard dash, Fernando Gomez in the mile run, Bill White and Arthur Bermea in the high jump and Ram Castillo in the broad jump.

Ruben Castillo and Buck Bloodworth ran fourth in the 880-yard run and 220-yard dash respectively. The 440-yard relay team was fifth as were Joe Hernandez in the 880-yard run and Jim Flores in the 440-yard dash. Johnny Merck was sixth in the 100-yard dash.

Flood Prevention Program Complete As County Accepts Final Structure

By E. B. Keng

Construction on Sonora's flood prevention program on Dry Devil's River and Lowrey March was completed Wednesday, March 29, when Judge J. W. Elliott made final acceptance of Site 3 on the

Ben Mittel ranch.

Started in February, 1956, when supervisors of the Edwards Plateau soil conservation district made application for planning assistance, the one and one-half million dollar project has moved rapidly toward completion.

The system designed by the Soil Conservation Service includes 13 flood prevention structures which will "detain" some 38,000 acre feet of flood water at emergency spillway elevation. This amounts to water one foot deep over 38,000 acres of land—which is a lot of floodwater. The water will be automatically released and the structures drained to a small sediment pool in 10 to 14 days following the flood.

The system is designed to reduce damages from a severe flood by 96 percent, and should eliminate damages from lesser floods. The various structures are designed to store the largest rains expected in periods of 140 to 250 years without losing water through the emergency spillways.

Sponsors of the project include Sutton County, the Edwards Plateau SCD, City of Sonora, Schleicher County, and the Eldorado Divide SCD. The Sonora Lions Club was also instrumental in obtaining original consideration of the project.

Sutton County assumed the big task of obtaining easements, administering contracts, and maintaining completed structures—and has done an outstanding job. The Soil Conservation Service, Under Public Law 566, planned the work and provided construction funds.

The project has received excellent cooperation from landowners, oil and gas companies, and from all local sponsors from the very beginning. Complete harmony between local sponsors and with Soil Conservation Service personnel made for rapid progress in completing the project in record time.

Six of the structures are completely rock blanketed and should require practically no maintenance. Seven structures have partial rock blankets and maintenance is expected to be very light. Sutton County does not assume maintenance of the seven fenced earth-fill structures until an adequate stand of native grass is established by the Soil Conservation Service.

Records indicate that the last severe flood occurred between 1882 and 1884—about the time Ben Ficklin was wiped out. The City of Sonora was not established, but generally accepted facts indicate that floodwater extended to about the Courtyard wall at the east end of Main Street.

Such a flood could occur again—and Sonora citizens can well be proud of their timely and harmonious efforts in obtaining protection—BEFORE THE FLOOD.

Presentation is in pantomime, supported from a broadcasting booth by readers and background music. Stages have been arranged among the rugged boulders on the hillside below the Everburning Cross. TEXAS LAWYERS
Captain L. H. McNelly, Ranger
"Speak softly, but say something . . . You'll be heard!"

One of Texas' most respected Rangers was described by historian Walter Prescott Webb as "a tallish man of quiet manner, with the soft voice of a timid Methodist preacher." It was said that as a scout during the Civil War L. H. McNelly had been able to disguise himself, successfully, as a woman.

But no one of Captain McNelly's special Ranger force would ever believe it. Some had known him since, at the age of 17, he enlisted in Co. F, 5th Reg., Texas Mounted Volunteers. Many of them were with him during the Civil War, at Val Verde, Brasher City, LaFouche, Mansfield, and knew all about this quiet man's contempt of danger. After the reactivation of the Texas Rangers in 1874, they saw him step into the sizzling Sutton-Taylor feud in DeWitt City, and chill it thoroughly. They went with him to the Rio Grande to suppress border trouble, and saw the border bandits simmer down to drowsy peace. This was the last service he was able to perform for his state. Not long after his outstanding border clean-up, Captain McNelly contracted tuberculosis and died, September 4, 1877, at his plantation home in Washington County. He was only 33 years of age.

Texas lawmen have always served their state well — as have Texas industry and commerce. Providing payrolls and community revenues, one industry has also provided the refreshment of moderation. In Texas the brewing industry "belongs." Brewers, wholesalers, retailers and the United States Brewers Association are working constantly in cooperation with today's lawmen, to assure the safe and ale under pleasant, orderly conditions.

and gone and we believe that all who helped to celebrate in Sonora had a pleasant and enjoyable time. More than 500 people attended the barbecue and were easily pleased and went home satisfied. The day's celebration was begun by the San Angelo band playing the national airs. Hon. T. D. Newell as master of ceremonies then spoke a few words of welcome and introduced Miss Mona Rountree who read the Declaration of Independence in a most praiseworthy manner.

At night those who enjoy tripping the light fantastic toe attended the ball at the court house. The music furnished by Prof. Wurtemburg's San Angelo band, the fine hall, the cool evening, the beautiful ladies and gallant gentlemen made the evening one long be remembered. It was the largest in attendance ever given in Sonora. The balance of the visitors and citizens enjoyed themselves associating, singings, musical, conversation and play parties in various portions of the town.

There was considerable betting on the first race. They finished in order. Warner's bay winner by 20 feet, Morris' mare second, Palmer's brown Jo a close third, and Limber Jim a close fourth.

Devil's River Philosopher Corners City Man On Washington's Plan To Save Cities From Blight And Decay

Editor's Note: The Devil's River Philosopher on his bitterweed ranch on Devil's River asks a question this week that's hard to answer.

Dear Editor:

A friend of mine who went to grammar school with me and now lives in San Angelo came by this bitterweed ranch out here the other day and after parking his car carefully to avoid a stack of wire and posts I've been mean to move since I left them there three or four years ago, got to kidding me about the farm situation.

"Well," he asked, after I'd showed him which side of the front step to step on without getting hit with the other end, "your government checks coming through on time every month? What's the support price now on bitterweed? How much extra you getting this year to retire some more land? How you tell your retired land from your cultivated land? Just thought I'd stop by and see where us city folks' tax money is going."

I'm not much at talking, but I had been reading a newspaper earlier in the day so I asked him:

"By the way, how much is San Angelo going to get out of the Administration's urban renewal program?"

"How's that?" he asked.

"Don't you keep up with the news?" I asked. "I see by the paper today that there's a drive on to save the cities. It's a fact. We got marginal cities the same as marginal farms. Looks like cities have been planted too thick, the same as crops. Here, read this."

I showed him the paper, which said President Kennedy has sent Congress a \$3,250,000,000 (that's three and a quarter billion) bill to "save the cities," in the form

- Mary Ellen Glasscock
- Mrs. Joe Berger
- Thursday, April 6, Ralph Jones Karen Whitley T. R. Chappell Mrs. T. R. Chappell

of outright grants plus loans to "reinforce the big cities in their desperate struggle against blight and decay." Under the program, a city man could get a 40-year mortgage with no down payment to build a house, in order to "upgrade decaying neighborhoods."

"What's the matter with you

city folks?" I asked. "Can't you run your towns without help from Washington?"

"I don't think you have a true appreciation of what this particular piece of legislation is designed for," he said, or words to that effect, adding that he had to be going, it was getting late, and he sure enjoyed visiting with me.

I'm not saying the cities don't need this money. All I'm saying is that if I'm supposed to get a government check every month, what happened to it?

yours faithfully,
J. A.

Edwards Plateau Soil Conservation District News

By E. B. Keng
Soil Conservation Service

Strong north and west winds during the past ten days, plus the demands of a growing cover of vegetation, has rapidly depleted the soil moisture. Moisture is badly needed, particularly on shallow soil sites to promote the growth of grasses and winter weeds. Deep soil sites with good grass cover have good deep moisture, and new grass growth is rapid.

Shinoak and various other woody plants have begun to put on new leaves. Some liveoak trees are blooming, and a new crop of leaves will follow shortly unless another cold snap stops growth.

J. M. VanderStucken has started pitting operations on about 100 acres of valley rangeland. He plans to seed the area to a mixture of sideoats grama, green sprangletop, cane bluestem and blue panic, with about one half pound of sorghum alnum per acre.

Experience of ranchmen in the Edwards Plateau Soil Conservation district during the drought proved pitting to be a very beneficial practice. The pits hold the rain where it falls and grass rapidly covers the area. The Sutton County ACP will provide cost shares of \$1.00 per acre for pitting, plus an allowance for seeding.

The Texas Game Commission has recently trapped, banded and released a number of wild turkeys on three ranches in the District. A study will be made of migration and nesting habits. If you see a banded turkey, please record the date, sex, location and color of the band, and promptly notify Bill Tutor or Calvin Van Hooser, Game Commission biologists in Sonora. Bands may be green, red or orange. Cards are being provided to ranchmen to record and mail in the information. Your cooperation in making this study a success will be appreciated.
