Give You Texas

By Boyce House

Life is becoming too standardized. People are getting stereotyped. We don't have "characters" anymore, except in small towns—and, pretty soon, we won't have any small towns.

Now when I was a boy, there were roaming ex-convicts who lectured on prison atrocities, human flies who climbed buildings with no aid except their hands and feet; and, every now and then, there would be a visitor

who was hard to classify. One such individual came into town in a buggy drawn by a big shaggy horse; and, trailing on a rope, was the sleekest, silkiest racing mare you ever saw.

"Doc" Martin (that turned out to be the stranger's name) hadn't been in town any time at all before the sports were badgering him a race with "Red" Traylor's big bay. The visitor seemed reluctant but, when mention was made of \$100 bet, his eyes brightened and he said, "All right—in a couple of days."

There was a half-mile track out at the grove and quite a crowd was there for the race, which was to be 400 yards. Each owner rode his own horse. Martin's mare won by a length but the bay was gaining. Everybody had been pulling for the local entry and there was clamor for another race—and over a longer distance.

"Doc" didn't say "Yes" and he didn't say "No"—in fact, he didn't say anything. They kept after him for two days, though, and finally he said, "I'll run my horse against Mr. Traylor's next Saturday—half a mile, but the bet this time will have to be \$500." This was a rather sizeable amount but Traylor put up \$200

and other sportsmen provided the rest.

The approaching race was the talk of the town and there must have been close to 500 people at the track. It was almost 2 o'clock which was the time for the start, and only Traylor and his bay had put in their appearance.

Then "Doc" rode up—only he was on that shaggy plowhorse that had been hitched to the buggy. There was a general laugh.

It was well that the crowd laughed before the race for that uncouth creature made a runaway of it.

There was some haggling to the effect that the mare was supposed to have run but Martin declared, "The only stipulation was that my horse was to run—and he is my horse and he sure did run."

So he collected and departed—to "take" the sports in some other town.

The world no longer has such a figure as "Doc" Martin, wearing a slouch hat and a shapeless blue serge suit with grease spots, with his buggy and his sleek, silky racing mare and an old clodhopper of a horse that was a disguised thoroughbred.

And so our lives are duller.

TEXAS WILL HAVE A NEW U. S. SENATOR because:

TEXANS WANT . . .

A SENATOR "OF THE PEOPLE". John Tower, a native Texan, is not a wealthy man. He understands fully the struggle of the average man to educate himself and to raise a family, for he has first-hand experience in both.

TEXANS DO NOT WANT . . .

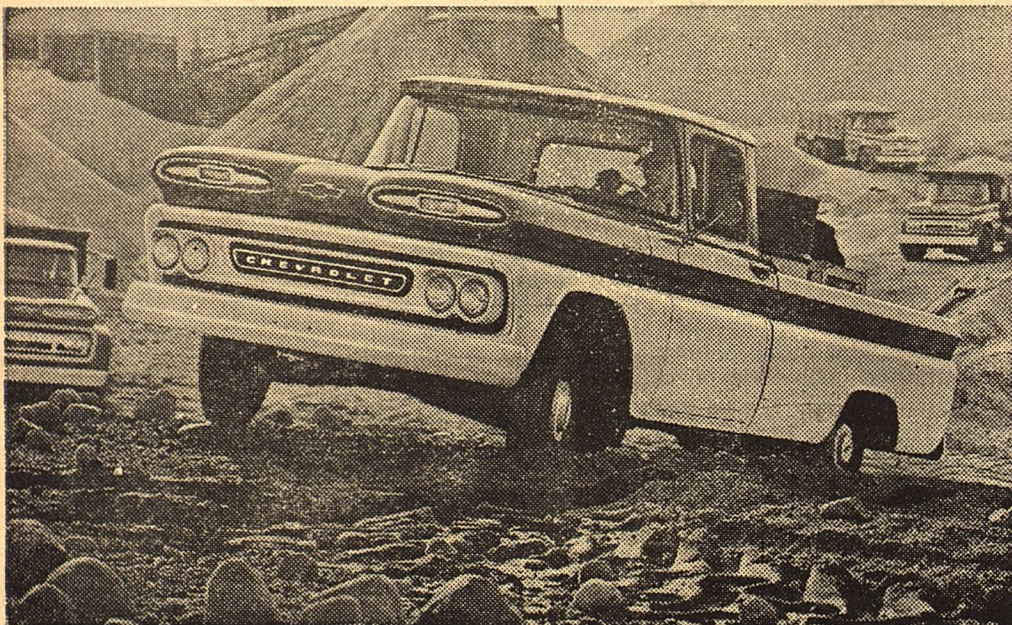

A "MILLIONAIRE" SENATOR. Wm. Blakley, native Missourian, is reputedly one of the nation's richest men. He is a heavy contributor to political parties and candidates. In 1952 he gave \$16,000 to Adlai Stevenson's campaign. Columnist Doris Fleeson reported recently that he was "possibly the nation's largest contributor" to the campaign of Lyndon Johnson and Jack Kennedy.

Ahoy primer Domingo de Mayo, en que se festeja con veneracion el dia de las Madres aqui en los Estados Unidos, porque en nuestro Mexico se festeja siempre con fecha 10 de Mayo. No quiero pasar desapercibido este gran dia seres sobre la tierra honrramos con amor y santa dignidad.

Este dia la Santa Misa en la Iglesia Santa Ana, fue dedicada a todas las madres. Y en lo especial a todas las madres de la localidad. Al presentar nuestras oraciones ante el altar, de nuestro divino Salvador, y reconcentrar, todo el amor y todo el carino tan santo y tan puro que uno tiene para la autora de sus dias. Me pongo a meditar, bajo el recuerdo de mi infancia, cuando era un niño y que mi madre me cobijaba con la proteccion diaria de sus cuidados maternales. Y ahora que soy padre que, so lo que es amor de hijos, reconozco y comprendo que nada hay tan grande y tan puro en esta vida como el amor de su madre, que todo lo da, hasta sus propia vida de por medio, sin reelamarnos nada, nada, unicamente su comprension.

Es inutil buscar entre las acciones o hechos de los hombres, considerados como herues ninguna semejanza siquiera a la actitud del hombre conciente, que se posttra reverentemente ante su madre para rendirle el homenaje, de pleitesia que nunca llegara a ser lo bastante bastante manifestado, para que se estime como justo, porque si hombre es se lo debe a su madre, ya que sin ella no existiria la vida del hombre.

La mujer que es madre, da a su hijo la vida la inicia, la encausa y la protegela educa en el conocimiento de la virtud para que su hijo la sienta, y la practique al correr del tiempo. La madre es en la vida del hombre faro que guia en el mar agitado de la existencia, puerto seguro en el que no hay tempestades, en el que los pegrios desaparecen como el conjuro de la voz maternal enchida de amor y de ternura.

Tanto en llanto como en la alegria del hombre, la madre es companera insustituible. Ella rie o llora, como un eco de las alegrías o de las penas, de su hijo. Su personalidad se esfuma, desaparece, y toma la de su hijo, al que quiere tanto como a si misma. Una madre es por excelencia el modelo supremo de la abnegacion humana. Digase Amor De Madre, Y se habra expresado la fuerza

mas intensa y poderosa que rige los destinos de los hombres. La madre es el ser que va por el mundo sembrando bondad para que otros recojan. Son las madres las que conceden una fisonomia especial a nuestro universo, son ellas quienes dan un alto significado a la existencia. Dichosa la madre que ve a su hijo acudir junto a ella para rendirle homenaje, pero mil veces mas bienaventurado todavia el hijo que ya convertido en hombre, pede ir a postrarse a sus pies.

Es por esto que esta mana al bajar del altar de Dios para venir a regalar a sus madres un clavel rojo, ellas con todo su amor, responderian gracias hijo. Pero yo convertido en un padre que conoce los insabores de la vida y gracias a la voluntad de mi Dios tambien tengo mi madre, yo contesto madre querida vendita seas.

TEXAS WILL HAVE A NEW U.S. SENATOR because:

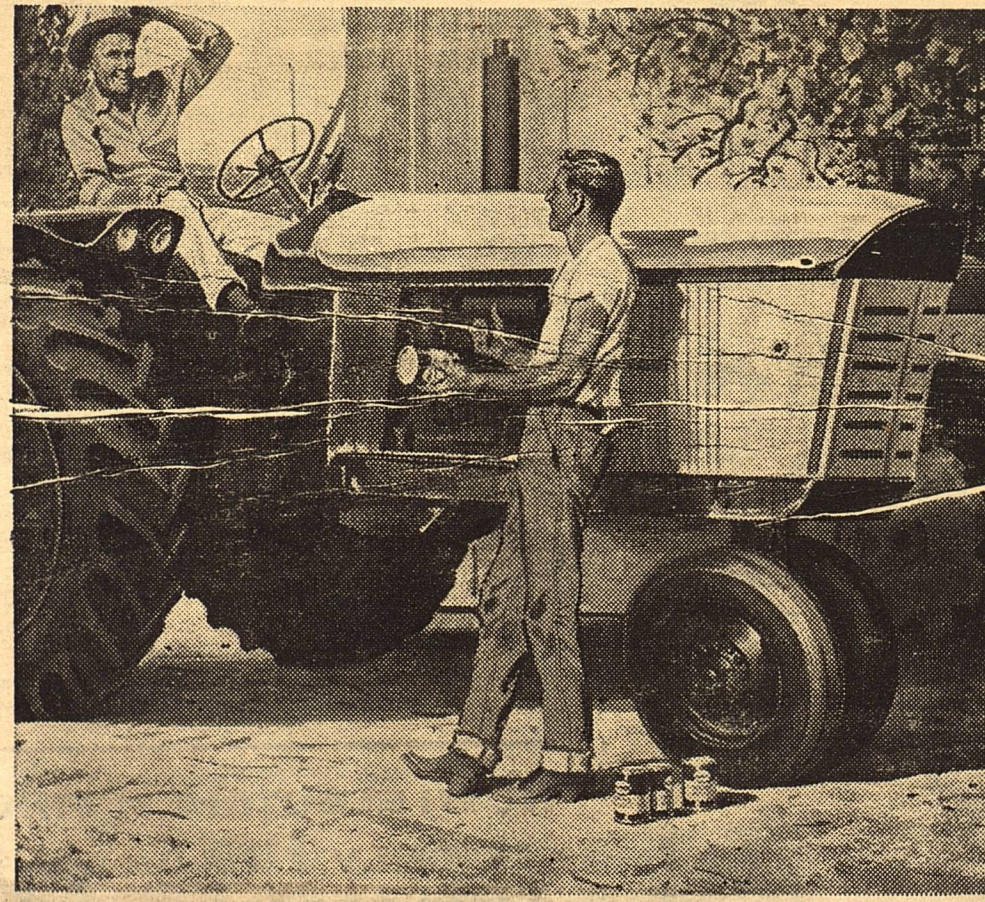

TEXANS WANT . . .
A STAKE IN THE FUTURE. John Tower, by virtue of his youth and dynamic personality has a brilliant political career before him. He is destined to lead Texas into a new chapter of political history. He has already been assured of important committee assignments in the United States Senate where his qualities of leadership and knowledge of government will bring him to the fore in short order.

TEXANS DO NOT WANT . . .
AN HONORARY SENATOR. Blakley himself has said: "I don't assume to have the qualifications of the office and I have no interest in a political life." He is presently on only two committees of the Senate and is the lowest ranking member of each.

Test of NEAR Warning Device

The first successful device for indoor warning of impending enemy attack, tornadoes, flash floods or other disasters will be tested on a large scale in Michigan by the Office of Civil and Defense Mobilization.

OCDM Director Frank B. Ellis has announced that the National Emergency Alarm Repeater, or NEAR device, will be tried out on a statewide basis. Afterwards it is hoped to mass produce it for the American public.

THE RECEIVER plugs into ordinary house electrical outlets, and buzzes when a warning signal is sent out over electric lines. This would alert people to turn on their radios for emergency instructions.

Signal generators have been installed at Grand Rapids and Battle Creek, Mich., for more than a year for local tests already concluded successfully. Additional generators will be installed elsewhere in Michigan to operate the home devices for a statewide test.

The NEAR receivers will function only where power systems are equipped with the NEAR generators. From 400 to 600 generators in power systems could make the NEAR device usable throughout the whole country.

KEY LEADERS in the nationwide civil defense (seated) of the Office of Civil and Defense Mobilization, who will lead the Alert, receives a report on arrangements from L. Berwyn Ullstrom, OCDM Executive Assistant Director. (OCDM Photo)

Texas now has a total of more than 60,000 miles of highways—enough to stretch around the world twice at its equator.

The average highway improvement will produce more than three dollars in direct savings to motorists for every dollar it costs.

Completion of the 41,000-mile National System of Interstate and Defense Highways will save an estimated 4,000 lives a year.

Since World War II, the United States has added 163,000 miles of new highways but in the same period automobile manufactures have turned out 264,000 miles of motor vehicles, humber to bumper.

**YOUR
MINISTER
SAYS**

Rev. Doyle W. Morton
"When the day of Pentecost
had come they were all together
in one place." Acts 2:1.

In this day of strife, dissen-
sion and division, we need to
renew in our lives the experience
of Pentecost. We, like the early
disciples, find it is difficult to
believe the promises of Jesus
Christ. We do not really believe
that we can have the power of
Pentecost today. The early dis-
ciples were driven together, at
least in part, because they had
no other place to go. When they
"were all together in one place"
something happened in their lives
and in the world.

Into a world torn by hatred,
distrust and military maneuver-
ing, came a power that was to
change the world. The little band
who received this power did not
worry about the terrific odds
against them. They simply set
to work to do what they could.
It might take generations, or even
centuries, to take this power
of Pentecost to the whole world,
but they did what they could
where they were. We need the
power of Pentecost in our lives
today so we can do what we can

where we are in our world. Let
us pray for a renewal of Pente-
cost in our lives. We need a re-
newal of Pentecost, and our
world needs it. And it can hap-
pen!

Behind the pitching of Laney
Cook, the Cubs whipped the
Tigers. Laney struck out 14
Tigers and then got two hits
against them. Alex Castro also
had two hits for the Cubs. Noe
Chavez had the only hit on the
Tiger team. Cook was the win-
ning pitcher and Chavez was the
loser.

The Giants won their first
games of the season as they slip-
ped by the Yanks. It was the
third loss for the Yanks. Mike
Holley hit his first Little League
homer and then added a single to
his record. Bud Smith, Richard
Cox and Brent Johnson had two
hits each for the Giants. Hector
Noriega led the Yanks with two
hits. Martinez was the losing
pitcher and Brent Johnson was
the winner.

paper through the operations of
deposit accounting.

An innovation in the banking
field, the program will usher in
banking operations here, accord-
ing to George H. (Jack) Neill,
bank president. New electronic
equipment, to be installed later,
will make possible faster and
more efficient service for bank
customers with a higher degree
of accuracy than ever before
in banking operations.

The new program is being in-
augurated because check hand-
ling has become a formidable
problem for banks today as a
result of an expanding economy
and the rising level of living.

"The volume of checks handled
by banks is increasing at a fan-
tastic rate," Neill said. "Banks
are literally swamped with
checks. Almost 10 billion of them
passed through the American
banking system last year and the
number is expected to double by
1970."

"Traditional manual methods
are no longer practical. Automa-
tic processing by the new elect-
ronic machines will not only in-
sure the continuation of prompt
and efficient service, but also
will effect economies in operating
cost so that no increase in ser-
vice charges will be necessitated."

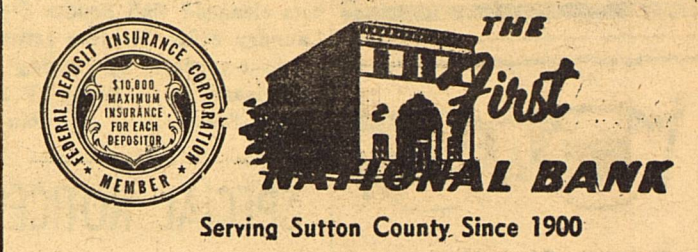

Before the benefits of automa-
tion can be realized, he added, an
identifying number must be as-
signed to all checking accounts.
This is being done at the present
time. Such numbered checks and
deposits can be sorted and posted
with more accuracy than ever
before.
