Livestock Theft Fight By TSGRA Brings 3 Arrests

One of the primary reasons for organizing the Texas Sheep and Goat Raisers' Association forty-five years ago in Del Rio, was to combat a wave of sheep thefts. Since that time, the TSGRA has employed field men to control theft problems as the need has risen.

The work of the Association's current Field Representative, Frank Fenton of Coleman, employed in January of this year, has resulted in three arrests, two indictments, and one three year suspended sentence. Over 250 lost and stolen sheep and goats have been recovered through Fenton's efforts in cooperation with local peace officers. Fenton, who holds a special ranger commission, has worked on twenty-three cases in ten counties of Texas wool and mohair producing area.

Mrs. Tom Driskell has recently gone to Tallahassee, Florida, where she is a guest in the home of her son, Major C. T. Driskell, and his family. Mrs. Driskell will return home after a stay of six weeks.

Presbytery Rejects Proposed Campsite At Slated Meeting Here This Week

Wonder what the younger set is doing? Here's all the latest on their activities, for this column will be devoted each week to the summer projects and frolics of Sonora teenagers and "college-agers".

College is attracting several Sonora graduates this summer. Nanette Stokes, daughter of Mr. and Mrs. H. V. Stokes, is in Fort Worth attending Texas Christian University. Nanette, who began her freshman year last Monday, June 5, was an honor graduate of Sonora High School this spring.

Sarah Lu Hardy will leave for Austin Sunday, June 11, where she will attend the University of Texas. Sarah Lu, who also graduated from Sonora schools this year, will begin registering for her classes Monday, June 12. She is the daughter of Dr. and Mrs. W. T. Hardy.

Annette Johnson and Janie Fay Hill are taking a business course at Midland Commercial College. The girls left Sonora last Thursday, June 1, and are well established in their apartment, and have begun their business training, which will last about eight months.

Still other of the college crowd have chosen to take a much-needed rest from school. Diana Lopez, who has been attending Texas Woman's University's School of Nursing in Houston, is home from school and has just completed a two-week vacation in the home of her parents, Mr. and Mrs. Santos Lopez. Diana now intends to attend the summer session at TWU.

Ben Castillo of North Texas State College in Denton is home from school, as is Rodney Davis, who attended Tarleton State College in Stephenville. Rodney, a 1958 graduate of Sonora High, is the son of Mr. and Mrs. G. H. (Tom) Davis. A high school classmate of Rodney's Tommy Espy, is also in Sonora now. Tommy, who has been attending Southern Methodist University, is the daughter of Mrs. Howard Espy. Another SMU student, Sara Stewart, is also home for the summer. Sara, the daughter of Mr. and Mrs. James N. Stewart, is a geology major.

The Potmesil boys, both Frank Joe and Jerry, are home from Brownwood, where they attended Howard Payne College, and are now employed by their father, Frank Potmesil, at Frank's Body Shop. (FLASH! Jerry is not presently employed, at Frank's Body Shop, that is.)

Sue Greenhill, a drama major at the University of Texas, is making a short visit in the home of her parents, Mr. and Mrs. Henry Greenhill, before returning to Austin for the summer session at UT. Also visiting with the Greenhills is Carolyn Gregory of Austin, who will be Sue's roommate at the University this summer.

Many of the younger set have chosen to attend summer camps. Waldemar, near Kerrville, is evidently a superb vacation spot, for seven Sonora girls left for this camp Monday, June 5. Namely, Cissy and Yvonne Young, Mary John Espy, Jessie Lem and Janet Johnson, Elsie Earwood, and Lesa Whitehead. The camp session lasts six weeks.

Other summer campers include Francine Fields, Mike Ellis, and Dick McMillan, who are at Camp Capers, an Episcopal Church camp, near Boerne. The three left Sonora Tuesday, June 6, and will return to Sonora in ten days. Mike will re-

The Presbytery of the Southwest held its eighth stated meeting at the Presbyterian Church of the Good Shepherd here Tuesday and Wednesday, June 6 and 7. Ruling Elder Estes M. Lynn of Ballinger, Retiring Moderator, called the meeting to order and Ruling Elder Ralph J. Finklea of the host church welcomed guests.

Around 80 men registered. They included pastors and ruling elders from the churches comprising the Presbytery.

The sacrament of the Lord's Supper was observed Tuesday afternoon with the Rev. Allan Guthrie, host pastor, and the Rev. Daniel R. Sebesta of Eldorado and ruling elders of the local church serving. Mr. Lynn delivered the Retiring Moderator's sermon.

Named Moderator of the Sonora meeting was Ruling Elder William M. Osborn of First Church, Midland.

Men of the local church served a barbecue supper to delegates at the Lea Allison ranch Tuesday evening. Women of the church served the Wednesday noon meal in the fellowship hall of the First Methodist Church.

Doughnuts and coffee were provided for the Wednesday morning coffee break by the Sonora Chamber of Commerce.

Dr. Andrew Edington, president of Schreiner Institute and a widely known lay speaker, delivered the Tuesday evening sermon on "What Jesus Christ Wants of His Church Today".

Wednesday morning's session included worship led by Emmett C. Adair, candidate for ordination and pastor-elect of the Ruidoso, New Mexico, church.

Most important item of business on the docket was action on the proposed purchase of a campsite on the Johnston Ranch near Lubbock. After extensive discussion, the proposal, presented by Richard H. Schmidt, chairman of the ad interim committee on the proposed campsite, was defeated by seven votes.

Late Wednesday afternoon Frank L. Crown of Andrews was named Moderator in Nomination.

Site for the next stated meeting was selected as the First Presbyterian Church in Levelland. Date of the next meeting is January 16-17, 1962.

189 In Sutton Receive \$10,238 In Social Security

In the first week of January, 1961, 189 persons in Sutton County received \$10,238 in old-age, survivors, or disability insurance payments under the Social Security Act, according to F. B. Ellington, San Angelo district manager for the Social Security Administration.

In the thirteen county district serviced by the San Angelo office, 9,985 beneficiaries received \$537,703 in the first week of January this year, as compared to 8,983 persons who received \$469,413 in January of 1960. Ellington stated that was an increase of about 14 per cent.

For the entire State of Texas, old-age, survivors, and disability insurance payments are being paid to about 600,000 persons at the rate of \$54 million per month. Benefits totaling approximately \$400 million were paid in Texas during 1960.

Nationally, the number of men, women, and children who receive monthly payments from this program passed the 15 million mark a few weeks ago. The average payments made in January 1961 were \$74 for retirement or disability, \$124 for a retired couple where both received payment, and \$58 for an aged widow.

Ellington suggested that all persons who have reached retirement age (62 for women, 65 for men) write him for the free booklet, "21 Questions and Answers on Retirement Benefits" which may result in many persons realizing they are due payments now instead of later, as a result of 1960 changes in the law. Write to Social Security Administration, 204 Continental Building, San Angelo, Texas.

Mr. and Mrs. Ralph Finklea and son Peter plan to leave Sonora Sunday, June 11 for a 3 week trip which will take them through Raymondville, Port Mansfield, and Rockport.

During the first week of their vacation, the Finkleas will be accompanied by Tony Beall of Austin and Andy Moore, son of Mr. and Mrs. Andrew Moore of Sonora.

Mrs. W. H. Hill left Sonora Thursday to join her husband, Pvt. W. H. Hill, who is stationed at Fort Reiley, Kansas.

Mohair Finds New Use In Three-Way Fabric Blend

(Editor's Note: A firmer foundation is being built under our domestic mohair market, according to a recent market newsletter mailed by the Texas Sheep and Goat Raisers' Association to its members. In recent years the major portion of our domestic mohair production has been exported. With the addition of a sound domestic demand for the fiber, the future of mohair seems bright.)

It is hard to analyze or account for the buying lull which has prevailed in the market for the past six weeks when the South African market continues active at strong prices.

If the law of supply and demand has any place in our souped-up economy, we should feel a strong upward trend in the market as fall shearing gets underway. Especially in view of the new uses being found for the product.

The TS&GRA letter follows)

Should Strengthen Market

Texas mohair producers should be encouraged over prospects of manufacturers' plans to merchandise early next spring clothing of a mohair wool-synthetic blend.

A recent issue of the Daily News Record (New York) said, "there is a definite awareness of mohair and all major worsted system mills have incorporated mohair in their man-made fiber blended fabric ranges. Last year, initially only one volume unit incorporated mohair in a blend of one-third mohair one-third Dacron polyester fiber, and one-third wool."

"This year," the paper continued, "many of the blends have 55 percent of the Dacron fiber, while mohair is about 25 percent

and the remainder 20 percent wool."

The cloths are slightly heavier than the generally accepted 7½ ounce for blend tropicals and this is said to be the main reason, along with general consumer acceptance, for the thought incorporating these cloths into the early spring clothing package.

Foreign fabric mills supplying some of the imported mohair blends indicate sales in their individual cases are becoming very extended. Cloths of the mohair-wool-synthetic blend are expected to be in the hands of the retailers by spring 1962 the paper added.

Trading in Texas mohair has

been on the quiet side during recent days. Offering prices have been 91½ cents per pound for grown hair to the warehouse and original spring kid, \$1.40 to \$1.50 per pound to the warehouse. Unsold spring mohair in Texas is estimated at about 3.5 million pounds.

Latest information on mohair sales in South Africa indicated a slight price decline, but prices are still very strong when compared with Texas mohair prices.

In sales at Fort Elizabeth at mid-May, prices were quoted as follows: superfine kid, \$2.91 to \$2.97; fine \$1.86 to \$2.29; young goats, \$1.36 to \$1.86; fine adult hair, \$1.21 to \$1.36; medium, \$1.10 to \$1.21; stained, \$1.07 and lox, 81 cents.

Devil's River Philosopher Admits Watching Television All Day May Be Boring, But Ranching Is Also

Editor's Note: The Devil's River Philosopher on his bitter-wood ranch on Devil's River discusses the television situation this week, without any noticeable effect.

Dear editor:

I was reading a newspaper last night while my wife was watching television, you can say this for television, it's easier to read while it's going on than while your wife is, I mean, whatever faults television has, it sure cuts down on the conversation; at any rate, what I was reading was an article by

the new chairman of the Federal Communications Commission, the outfit that's supposed to supervise the airways.

According to Chairman Minnow, television has got to get better if it's to stay on the air. He said if you want to find out how bad television is, "sit down in front of your set when your station comes on in the morning and stay there until it signs off that night." He said you'd see a procession of junk, violence, silliness, and commercials, with only a few things you'll enjoy, and most of all, he added, "boredom."

Now I'm no authority on television, but I'm not sure watching the thing fourteen hours in a stretch and complaining because you came out bored, is any test. I have a notion if Chairman Minnow will get in my pickup, glue himself to the seat, and his head over, and watch the fence lines fourteen hours a day while he goes up one and down another, he'll get off extremely bored, not to mention other things.

As for violence on television, I'll admit it's bad, but saying it'll have to be eliminated if TV is to stay on the air is like saying crime stores will have to be eliminated from newspapers if they're to stay in business. It's like saying violence will have to be eliminated from history books if they're to be read. It's like saying Shakespeare would have been an enduring

success if he had cut out all them suicides and stabbins and but where the Federal Communications Commission will be no trouble is when it tries to convince the kids only fake bullets are used in wars.

Understand, I'm not in favor of violence. For one thing, it takes more energy than I'm interested in spending, but on television, when an outlaw gets shot, even the kids know it's only acting, the bullets are fakes and the same characters will get shot again next week.

The Texas Sheep and Goat Raisers Association will pay a reward of \$500.00 for information leading to the arrest and final conviction of anyone for stealing sheep or goats from a member or members of the Association. Law enforcement officers are excluded from this offer. The information must be furnished to any law enforcement officer or to the Secretary of the Texas Sheep and Goat Raisers Association at its office, Cactus Hotel Annex, San Angelo, Texas, Telephone 6242 or 25612, San Angelo.

Mesquite Becoming Increasing Problem To Ranchmen In Edwards Plateau Area

The rapid spread of mesquite brush, particularly during the past four years, is causing Edwards Plateau SCD ranchmen considerable worry.

Mesquite, a heavy user of moisture, was restricted for many years to an occasional old tree in deep valley sites. Mesquite is a native of Central America, and is thought to have been originally brought to this area as horse feed by Indians and early pioneers.

A lush grass cover, and probably the occurrence of frequent range fires, restricted the growth and spread of mesquite for many years. When the country was fenced up, and heavy stocking reduced the grass competition, many mesquite seedlings survived and the plant spread rapidly.

Drought periods in 1917-18, 1933-34, and particularly the 1951-56 drought aided the growth and spread of mesquite. Since 1956 the plant has increased alarmingly on sheep bed grounds and other shallow soil areas on the hills. Many deep soil areas in valleys and on the divide are covered with a heavy stand of brush. The problem is now the most widespread and important brush problem in Texas.

Experimental work to find a cheap and efficient means of control of mesquite has been in progress during the past 20 years. Grubbing and oil poured around the root is efficient, but the cost of material and application is usually excessive.

The hormone chemical 2-4-5-T has been used widely in recent years, but at best is only a control measure. A good top kill of brush results, and some 20 to 30 percent of the plants will usually be root killed. In 5 to 7 years the sprouting mesquite brush can be sprayed again, with a gradual reduction in infestation. At the present cost of some \$3.00 per acre for materials and application, the

control cost will run about 60 cents per acre per year over a five year period.

Several thousand acres of mesquite have been aerial sprayed in the Edwards Plateau SCD in 1960 and this year. Local ranchmen point out that grass recovery has been much faster where mesquite has been controlled. With the rapid spread of mesquite to thousands of acres of hill land the control program is expected to increase rapidly. Cost sharing assistance is provided by the Sutton County ASC program.

Good range management—production and maintenance of a good cover of grass—is still an important key to mesquite and other brush control. Every brushy plant starts from a very small seed, which can seldom emerge and survive in a strong grass cover.

Fishermen Pay Fines For Lack Of Licenses

Too many fishermen still try to get by without buying a \$2.15 fishing license. As a result, they wind up in court with fines and costs. During April, 138 of the 232 arrests by game wardens were for failure to have a fishing license.

There were also numerous hunting violations, including mostly shooting of game out of season. One man was arrested for dynamiting fish. Four were picked up for using a motor boat while intoxicated.

Capt. Spratt also called attention to the requirement of having a life preserver for each occupant of a boat while on the water. This safety factor frequently is overlooked.

In all, the 232 persons paid fines and costs amounting to \$6,388.40 during the month.

**Tower Victory
Seen As Reaction
Says O. C. Fisher**

By Congressman O. C. Fisher
THE REPUBLICAN VICTORY in Texas has provided a field day for the Monday morning quarterbacks, the crystal gazers and the commentators—both amateur and professional. Democratic leaders, while blushing a big, try to discount the partisan significance. They remind that the light vote did it for Tower—the drop from 2.2 million who voted in November to 900 thousand in May. And some say Bill Blakely was a bit too conservative to suit the liberals—liberals who are forever yakking about party loyalty.

AFL-CIO, for example, announced before the election: "There has been on state COPE recommendation in the Senate race—and there will be none." ON THE OTHER SIDE, seasoned observers here (whose views are shared by many Blakely supporters) view the Tower victory as an upsurge of conservatism, a Texas reaction to the New Frontier's budget-busting spending and welfare program.

"Just packing the Rules Committee in January lost enough Texas Democrats to turn the tide to Tower", one man commented. Another thought the Administration's minimum wage legislation soured enough Democrats to do the trick.

Even though Senator Blakely did not embrace these and other proposals that are believed to be generally unpopular in Texas, yet it was convenient for him to play the role of the scape goat.

IN A LIGHTER VEIN, a telegram received by Attorney General Bobby Kennedy from Texas said: "Tower and Republicans have captured Texas. Imperative you send 500 Marshals at once for rescue, or send 500 tractors for ransom".

Another one: "How to get scalped on the New Frontier", by Bill Blakely. The self-styled Freedom Riders sent into the South to stir up

BUCKET SEATS ALONE DO NOT A MONZA MAKE

■ Gee! ■ Little did we know, when we introduced the Corvair Monza last year, that we were starting a Big Thing. We just thought it would be pleasant if you could buy a car that treats you, the driver, like you want to be treated. ■ The bucket seats, of course, are the most obvious evidence of our desire to please you. But they're not the most important thing. No sir. What's really vital is the way a Monza handles—something nobody in the U.S. has yet copied. Or can copy. Because Corvair is the only rear-engined car made in this country, and you know what that means: steering light as thistle-down. (You even park this one more easily, it steers so briskly.) Beautifully balanced braking—the car stays level even under panic braking, which we hope you'll never have to do. Traction and more traction, so you don't become a stick-in-the-mud. The kind of cornering that's sheer joy to experience. ■ You get more: a fully independent suspension that blots out road shocks before they can ruffle you. Clean, crisp styling. Thoroughgoing economy, from purchase price to operating cost. ■ You're not going to be satisfied with bucket seats alone, are you?

Terry Trainer, daughter of Mr. and Mrs. Louie Trainer of Sonora is spending this week as a guest in the home of Mr. and Mrs. J. O. Rudd of Robert Lee. She will return home Sunday, June 11.

A new officer, Thurston C. McCutchen of Presidio, has recently joined the ranks of the local Border Patrol. McCutchen, who is in charge of the Sonora station, replaces Albert A. Blake-way, who was transferred to Laredo.

Miss Linda Gayle Stroud of San Angelo, daughter of Mr. and Mrs. C. C. Stroud, is a guest in the home of Mr. and Mrs. M. C. Scott of Sonora.

Mr. and Mrs. Clyde Greer are spending the summer in San Marcos, where they are attending South West Texas State College.

Mr. and Mrs. Jerry Hopkins are vacationing in Austin this summer, where he is attending the University of Texas.

Mr. and Mrs. Clayton Tolliver and family are spending the summer in Hollywood, New Mexico.

Wild Animals Not For Pets, by Wardens

Warnings that individuals who catch young wildlife for pets or harm protected birds will be prosecuted, have been issued by the law enforcement division of the Game and Fish Commission.

"We get complaints every day that persons have been picking up young of the wild, particularly fawns," says J. B. Phillips, assistant director. "This is strictly against the law and wardens have been instructed to make arrests and file cases."

Every day complaints come in that fawns have been picked up, some of them when the mother deer is close by. He pointed out that the wild animal usually takes care of itself much better if left alone. Permits are required for raising wildlife in captivity and the permit must be held before the animal is captured.

At the same time, complaints also are being filed against persons catching protected birds or destroying nests. Among them were several filed in Austin against persons who invaded a swallow rookery on the Highland Lakes with air rifles and sling shots.

Baby birds are used to bait trot lines. If the bird is a protected species, complaints are filed and the guilty person usually is given a stiff fine.

Numerous arrests have resulted from pictures appearing in newspapers of persons displaying a baby animal. This is strong evidence which stands up in court when cases are filed.

IEH HOMES ON TV

Herman Smith, manager of Wm. Cameron & Co. here, announced this week that the IEH homes, one of which is on display here, are to be featured this month on the national television program, "The Price Is Right."

One of the prizes on the popular night time show will be an IEH home and pool.

CHAMBER OF COMMERCE COMMENTS

WORTY projects All Lions Clubs are collecting old eye glasses and frames to be used in their international project of aid to blind and sight impaired. Then the Boys Ranch at Tankersley is soliciting musical instruments of all kinds. Many attics are stocked with old instruments and eye glasses. Dig. NOW is the time to apply for refund of national gasoline tax on non highway use. It is your money and you either apply or else.

U.S. 290. A lot of people are asking about the relocation of Highway 290. Rumor has it moving in every direction. We don't know when it is going to move or where it is going to be relocated but we do know that the best way to keep it as now is

for Sonora people to respect it, to consider it belonging to the traveling public. Do not park on Highway 290, if possible, and travel alternate routes in town, when you can. By so doing you are delaying moving of the highway many years, likely. GOLFING in Sonora is within the foreseeable future. The land is being put into condition by employees of the El Paso Natural Gas Co., membership campaign is now going on, pipe will be purchased and buried soon, we think, then work on the greens will begin. There is much public interest in this project.

THE LITTLE LEAGUE season is off to a good start. A wonderful way to spend a late afternoon. Try it.
