Tommy Doc will be a sophomore in Sonora High School this fall.

## County Cancer Leaders Commended By State Office For Work In Crusade

Leaders of the 1961 Cancer Crusade in Sutton County have been commended by officials of the Texas Division of the American Cancer Society for their part in what appears to be a record-breaking year for cancer control education and fund-raising in Texas.

Crusade Chairmen Mrs. W. B.

McMillan and Mrs. Alvis Johnson have been notified by the Society that predictions call for the 1959 record contribution of \$1,189,563 to be broken since \$1,100,000 has already been donated to the Society whose fiscal year ends in August.

Sutton County has reported total Crusade funds raised of \$1,117.39. The county's assigned minimum share of state goal was \$700.00. It is one of 112 counties in Texas which have already gone over the top.

In a letter of commendation received by Mrs. McMillan and Mrs. Johnson, Texas Division Chairman Edwin T. Phillips, Jr., and President John H. Childers, M.D., pointed out that the key to this promising report is the thousands of hours of volunteer work done.

"Your efforts exemplify the spirit of the Society and its desire to 'get the job done'. We know that because of you more funds will be available during the coming year to expand our program of research, education and service," they said.

## Notice

All Little Leaguers are asked to immediately turn in their uniforms to their manager or to Oliver Wuest.

# June And July Wettest Recorded By Many Ranchmen In Sutton Area

Unusual July rains again covered the Sonora area on Saturday, July 22, with more showers on Sunday and Monday. Many ranchmen have recorded near record rainfall for June and July, while others have received only normal or below.

The heaviest rainfall Saturday fell southwest and south of Sonora, with V. J. Glascock receiving 3.60 and the Paul Turney ranch 4.50. Rainfall, however, with George Brockman reporting only .35 to .60, for the Saturday rain.

Rainfall reports gathered by E. B. Keng, Soil Conservation

between Beth Walsh, Del Rio, and Betty Baggett.

Finals: 1st, Gloria Biehle; 2nd, Nancy Friend, 3rd, Stephanie Rigdon; 4th, Mary John Espy.

Serville, included Ranch Experiment Station 2.47; E. S. Mayer and son 1.5 to 1.9; Wesley Sykes 2.1; Sears Sentell 1.5; Alvis Johnson 2.5; Billy Galbreath 1.6 to 2.2; Mrs. Hattie B. Epps 2.7; Page Bros. 2.1; and W. F. Berger (O'Leary) 1.00.

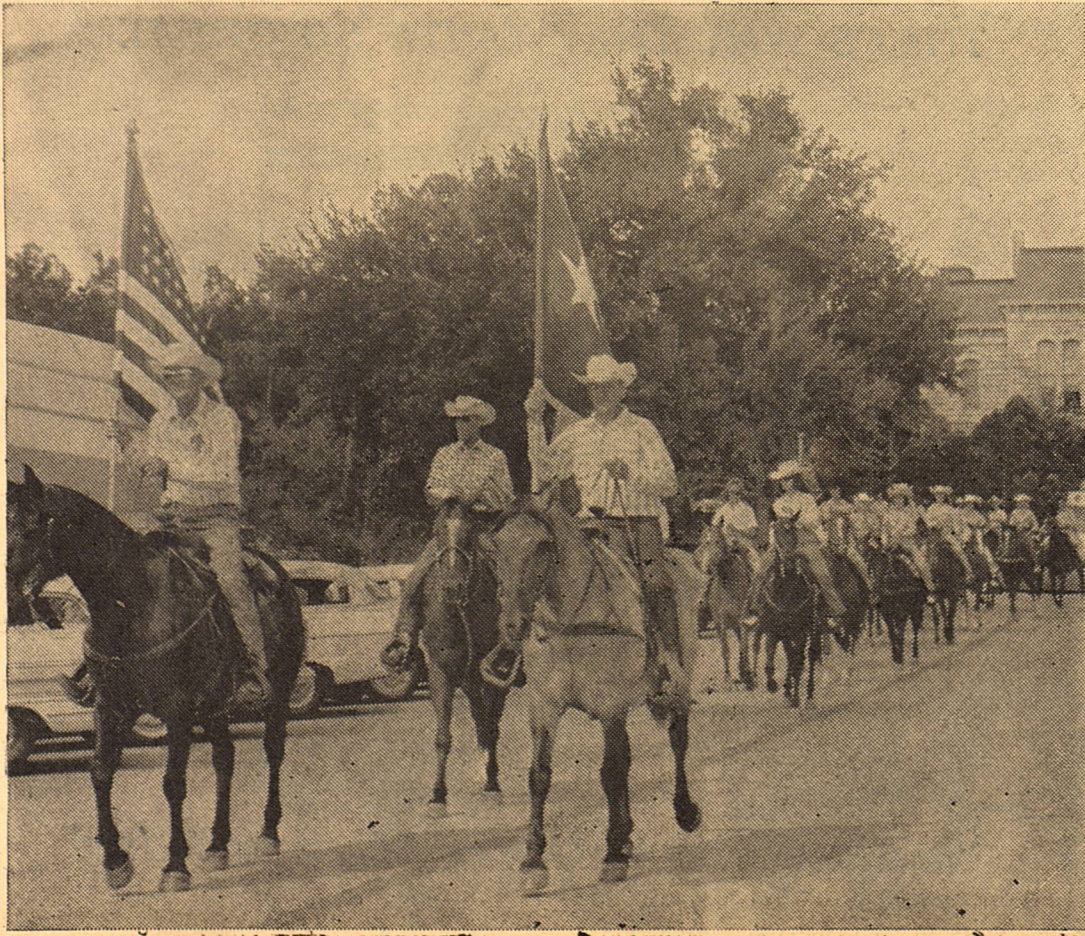

Aldwell Bros. 1.86; Travis Glascock 2.5; Henry Wyatt 1.3; H. T. Espy 1.7; Lawrence Finklea .3 to .55; Roy Valliant .80; Jack Turney 2.4; Mrs. Howard Espy 1.8; Phillip Jacoby 2.3; J. M. VanderStucken (Wyatt) 2.6; Fred Earwood 2.7; John Cauthorn 2.00; Dan Cauthorn 1.4; Dorothy Baker 2.5; W. W. Renfro 1.25; Thomas Morris 2.5; Ben Cusenbary 2.4; Edgar Glascock .70 to 1.4; Hillman Brown 1.8; W. L. Davis 1.6; J. A. Cauthorn 3.0 to 3.85.

Recording rain gauges in Lowrey Draw watershed measured 1.09 and 1.85 on the Stella

Keene ranch! 1.18 and 1.42 on Vestel Asked; Hunt and Neill (near hospital) 2.26; Joe Logan 1.52 and 2.14; W. L. Miers 2.25 and 2.65; James Hunt and Nancy Powell 1.4 to 1.91. Flood structures on Lowrey Draw caught only a small amount of runoff.

The moisture will go for toward restoring good grass cover on ranges plagued by a dry summer in 1960 and a dry spring in 1961. With added grass production many ranchmen will be able to defer pastures to permit seed production. The good grass cover will also reduce germination of bitterweed this fall.

Where a good cover of grass was present most of the weekend rainfall was soaked into the soil. Where some runoff occurred the water was clear, indicating very little soil loss from erosion.

Down Main Street comes the parade which opened a weekend of junior rodeo-ing last Thursday afternoon. Heading the parade are Howard Westfall, left, Louis Powers, rodeo chairman, and Olin Altizer of Del Rio. Rodeo queens from visiting towns, Sonora Rodeo Queen Mary John Espy and candidates for the 1961 title follow.

## HIGH LIGHTS AND SIDELIGHTS FROM THE STATE CAPITOL

House members burned midnight oil in an effort to get a tax bill to the Senate before the mid-point of the brief 30-day session.

In the long, long sessions and

seemingly endless succession of approaches, amendments, substitutes and substitutes for the substitutes, it was often difficult to tell who was winning what. Showdown votes indicated

that it is still easier for members to agree on what they don't want than what they do.

Rejected, at least for the time being, was a package bill recommended by the Revenue and Taxation Committee. Its main money-raiser was a sales tax, with exemptions, on items costing \$5 or more. It also included more utilities taxes, natural gas taxes, a transfer of funds from the permanent school fund, a revised franchise tax and a book-

keeping transfer.

Also turned down were proposals for a 4 percent corporate income tax by Rep. Bob Eckhardt of Houston and a 1 percent general sales tax by Rep. Tom Andrews of Aransas Pass. Rep. Charles Ballman of Borger, chairman of revenue and taxation, was pushing for a package bill that closely tracked Gov. Price Daniel's recommendations at the beginning of the session. It differed from the committee-written package chiefly in that it included a Pennsylvania-type tax, applying only to items listed in the bill.

Despite the House problems, an August 8 finish may still be possible. Senate, generally, is swifter and more nearly of one mind on money matters. It agreed on a tax bill in the regular session in approximately one-third the time spent by the House.

Hardest part is getting agreement on one plan from both House and Senate and finally from the governor.

**FUND BILL PROGRESSES:** House has given second reading approval to a bill appropriating \$2,527,000,000 for the next two years.

It is slightly higher than the bill passed earlier by the Senate, and eventually differences will have to be worked out by a conference committee of the two houses.

A group of conservatives in the House were foiled—at least temporarily—in an effort to cut the bill by \$27,000,000 through economy measures. Among

items they felt could be deleted or put off were recarpeting the House chamber and refinishing members' desks for \$250,000, adding an office for the governor's mansion for \$50,000, installation of a sprinkler system on the Capitol law for \$20,000 and several other expenses of that nature.

Economy group also wanted to trim back some increases in the bill for salaries and travel expenses for state personnel and eliminate paying legislators a salary for the period between November, 1960, when the annual pay amendment was approved, and the start of the session in January.

**SCHOOL BILLS MOVE—**A bill to provide more liberal state aid for sparsely populated school districts has been approved by the House Education Committee.

Rep Sam F. Collins of Newton is sponsor of the measure which would provide \$378,000 to pay for 90 additional teachers in rural areas. Most of the extra teachers would be for Negro schools.

Objectors to the bill said it would perpetuate the problem of having school districts too small to provide a strong school program.

On the other side of the Capitol, the Senate Education Committee gave reluctant approval to a more economical teacher pay raise plan than the Hale-Aikin plan it already had approved. Sent to the floor was a bill by Sen Bruce Reagan of Corpus Christi which would give teachers a \$600 a year raise this year, \$200 more in 1963 and \$200 more in 1965. Hale-Aikin provides for \$810 a year more immediately.

**TEXAS LAWMEN**

**NOAH SMITHWICK**  
the "Peaceful" Ranger  
*"With the courage of his convictions . . ."*

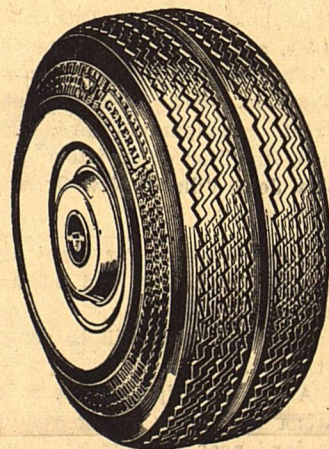

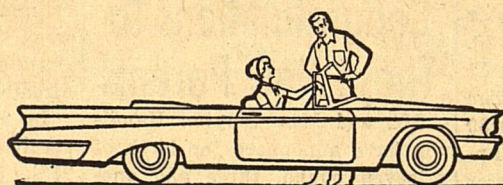

In 1827, a peace-loving blacksmith of 19 years drifted into Texas. He soon found anything but peace. As a skilled gunsmith and armorer, Noah was on hand to prepare the fighting hardware for the Texas revolutionary battle of Concepción, and to participate with enthusiasm. Later he was one of the San Jacinto combatants who pursued the retreating Mexicans far south of the Rio Grande. After that he joined the Texas Rangers for a very active two years of frontier duty, leaving the service in 1838 when the force was disbanded temporarily. Then, as a justice of the peace at Webber's Prairie, a Lieutenant of Texas Militia, armorer at Fort Croghan, life continued in a fairly unpeaceful way—until 1861. Because he opposed secession so strongly, Smithwick shook the dust of Texas for California. History does not record his later years, but he found time to record a great deal of history—his highly colorful reminiscences of early days in the Lone Star State.

Texas never could have become a great state without the courage and devotion to duty of her lawmen—not without the commerce and industry that have provided prosperity and the good life. The brewing industry, too, has had a part in this development. Providing payrolls and the pleasure of moderate beverages, revenue and relaxation—"beer belongs." The United States Brewers Association is constantly at work with brewers, wholesalers, retailers and local authorities to assure the sale of beer and ale under pleasant, orderly and law-abiding conditions.

## Devil's River Philosopher Claims Future Of The Family Size Ranch Is About As Secure As World Is

Editor's Note: The Devil's River Philosopher on his bitterweed ranch on Devil's River discusses the future of the family-size ranch without doing anything about his.

Dear editor:  
The future of the so-called family ranch has been discussed thoroughly back and forth in recent years, especially by big city newspapers and magazines trying to get their minds off the uncertain future of cities, and they all conclude that

there's no point in trying to artificially prop up the family-type ranch if it can't stand alone, without of course interfering with the urban renewal plans designed to prop up cities that can't stand alone.

It was therefore with a certain amount of puzzlement that I read an article by a columnist in a paper I found out here on this bitterweed ranch yesterday reporting that he had found out that the House Agricultural Committee in Washington had

"voted that family ranch should not be preserved."

The reason I'm puzzled is that I had no notion the future of this ranch was in the hands of a committee in Washington. The power of the vote is tremendous, but I don't believe they've made the ballot yet that's strong enough to determine the future of this ranch. As best as I can tell, it's future is in my hands, and right now I ain't predicting which way it'll go. It'll take more than a vote by Congress to eradicate the bitterweed out here, not to mention several other improvements staring me

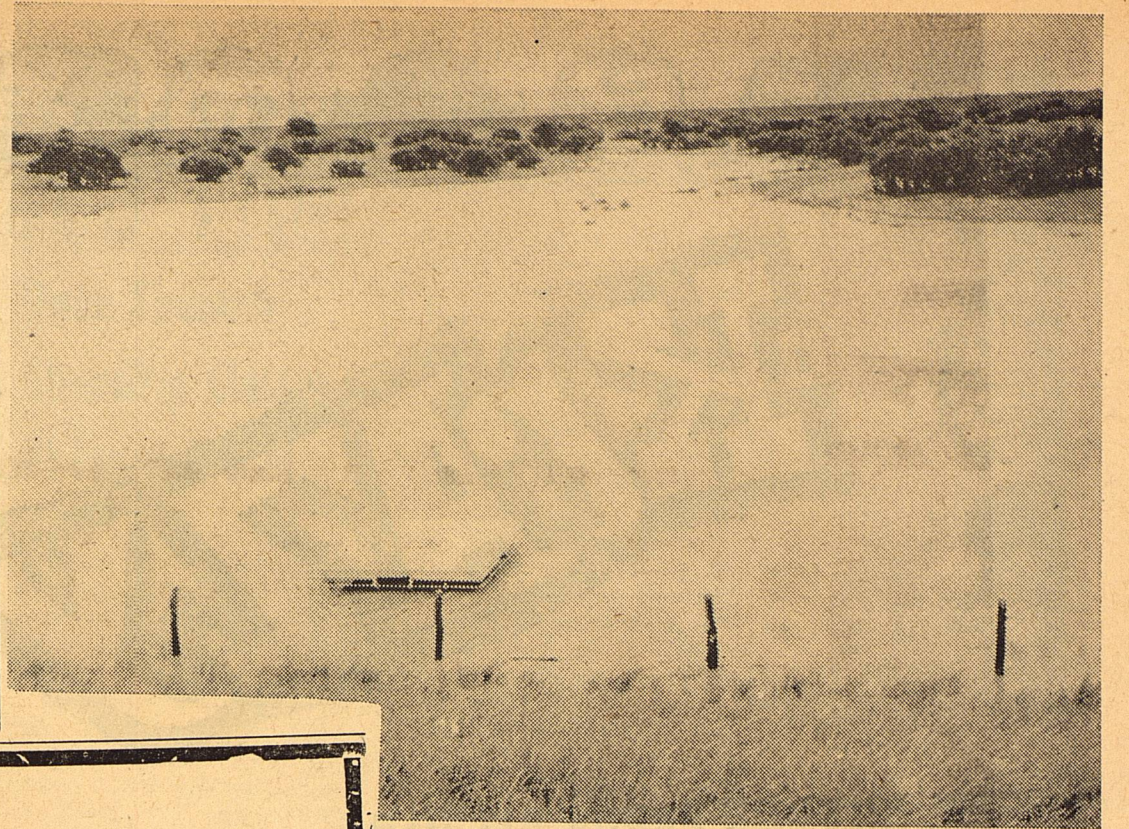

in the face.

Actually, I don't know what the future of the family-size ranch is, but I doubt if it's any brighter than the future of the nation-direction you want to look, and always has been.

Everybody talks about the un-fair odds ranchers are fighting, and it's true, and in many cases it's true that you don't make any money ranching these days, still at the same time the picture isn't all black—some years you lose a lot less than you do others.

Yours faithfully,  
J. A.

Without doubt, many wells which were marked on the maps as dry holes in the 1920's and 1930's would have been producers and they the boom-day operators had the benefit of present-day processes.

This was proved west of East-

land, to cite one instance. A well drilled in the boom era encountered only a show. A score of years later, in this same farm, another well was drilled only a showing was found but a then new process was called into use (fracturing the formation through intense pressure) and an excellent well was the result.

In fact, a veteran operator, pointing out that the well was

producing through a choke (three-eighths of an inch), whereas the boom wells flowed wide open, declared that the later well wide-open would have rivalled the Norwood, which was the greatest gusher of the Ranger boom.

Sometimes an operator of those early days was too greedy; then, like the dog that turned loose the bone to grab the one he thought he saw in the water, he would end up with nothing. After getting a well, the owner - not satisfied - decided to drill deeper into the sand in order to increase the output—with the result that the sand was drilled through and salt water was struck, ruining the well.

Also, especially in boom days, failure to shut off the salt water properly in plugging a well resulted in ruining a wide area. In those days, there was a rush to drill because there was a market for all the oil and a man wanted to get down to the formation as soon as possible. Undue haste, or carelessness in drilling, or the use of defective pipe might cause the hole to be lost; then perhaps the owner could not obtain the backing necessary to start a new hole

and so he lost all that had been put into the venture. Sometimes, the operator did not want a producer—astonishing as this may sound to a layman. If he was a promoter who had "cleaned up" by the sale of shares to hundreds of persons, he did not wish to be bothered with all the work that a producing well would involve.

Sometimes wells were not drilled deep enough. In Eastland County, after the Caddo, the Ranger and the Marble Falls had failed to prove productive, the project was given up. It was not until years later that venturesome operators found that there were pays (notably the Mississippian) at a greater depth. Then there were instances where an adventure would file suit, claiming an interest in a lease and, although his claim was without merit, the defendant—to avoid costly delay—would settle for several thousand dollars. Or perhaps an heir would be overlooked in obtaining a lease. After a big well had been drilled, he would put in an appearance and demand—and receive—a greater share than those who had already signed the lease.

"I wonder why our Electric service (bill) is higher this month?"

**Beg pardon, lady, but aren't you enjoying the big reason why?**

OVER there in the window. Isn't that air conditioner new this summer? Naturally, every time you get some new electric servant you use more electricity. Naturally, your bill will be a little higher. But remember these two facts about the electric service you now enjoy:

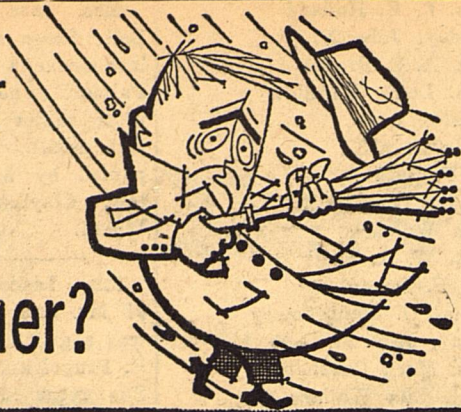

First, you do use more electricity for the simple reason that it's about the most efficient and dependable servant you can get! Second, the more electricity you use, the less you pay for it per average kilowatt-hour.

Can you think of a bigger bargain?

### Lions Roar

The Sonora Lions Club, in its regular weekly meeting Tuesday, July 24, viewed slides of the Atlantic City International Lions Convention. The slides were made and shown by Lions President, E. B. Keng.

V. S. Watson, a school teacher and spelunker from Oklahoma, spoke to the Lions on the newly-opened sections of the Sonora Caverns.

"I have been in over 300 caves in the United States, and the Caverns of Sonora is by far the most beautiful and the most spectacular," Watson said. He added that the Caverns will bring lots of business to Sonora, and emphasized that every citizen should not only see the cave, but should help advertise it.

Visitors present at the meeting were Victor Harbay of Detroit, Michigan, and Pet Logan of Eldorado.
