Ozona and Eldorado will be the strongest competitors for the championship of District 8A, Hopkins said. He also said he expects to have a lighter defensive team this year, but thinks the Broncos' chances for top spot in district are good.

Army Reservists Have Full Day At Local Armory Sunday, July 30

Sunday, July 30 saw 23 United States Army Reservists spend a standard military day beginning at 0730 and ending at 1630 (4:30 p.m.) training in and around Sonora Armory. Reservists included Captain Merton M. Skaggs of Junction who commands sprawling Troop "B" of the 15th Cavalry with his first and second platoons in Sonora.

But this is not a good picture of the Sonora USAR Platoons. Of the 23 men assembled, four come from San Angelo, seven each come from Eldorado and Ozona, while five men live in Sonora.

Another 15 men belonging to the platoons are away on six-month active duty with the Army. Of these, four are from Sonora, five from Eldorado, and six from Ozona.

United States Army Reservists from Sonora are as follows: Sp 5 Henri Berlanga, Sp 4 Jesus E. Gutierrez, S/Sgt. James H. Skinner, SFC Bobby J. Granger, and S/Sgt. Charles L. Haines.

Sunday's full day of drill saw the Army Reservists study the Military Code of Conduct, this instruction being presented by 2nd Lt. James G. Kimrey of San Angelo who commands the First Platoon, and included films on the subject.

The USAR personnel ate a strictly military noon meal prepared by Mess Sgt. Smith of

Junction on a M1937 Field Range.

The afternoon saw Reservists rehearse and prepare for instruction for coming drill periods, take the lumbering M-41 tank out for an exercise period down a country road, repair and adjust two jeeps, and soberly go about their business of being worthy components of General Earl Rudder's famed Texas 90th Division, on call.

LOCAL NEWS BRIEFS

Guests in the home of Rev. and Mrs. Alvin Loiry and family last week were Rev. and Mrs. R. A. Guthrie, Ronnie and Allen, of McNary, Arizona.

Lt. Col. Savell Lee Sharp of San Antonio spent the weekend here visiting his brother and family, Mr. and Mrs. Jack Sharp and Kathy.

Mr. and Mrs. Wilfred Berger and children are vacationing in New Mexico. They will return home after a two week stay.

Mr. and Mrs. Fred Trainer, Jr. and family visited in the home of Mrs. Rena Trainer last week before returning to their home in Pasadena.

Mr. and Mrs. Johnny Honeycutt of Ozona were in Sonora this weekend visiting friends.

The Sonora Little League All-Stars finished the most successful postseason series in the League's history at the hands of the Pecos All-Stars there Saturday night, July 29.

The local team had previously defeated Ozona in Area play-offs and then downed the Big Lake All-Stars 11 to 4 here Thursday night, July 27, in bi-Area play. Noe Chavez was the winning pitcher, striking out 6, giving up no walks and allowing 10 hits. Noe also hit one home run and one hit. Laney Cook had one homer and two hits, J. V. Cook two hits, Nicky Esquivel, Alex Castro and Johnny Ramos had one each.

Officials were H. L. Gardner of Big Lake, Jack H. Sharp and Clayton Hamilton.

The All-Stars went down to the Pecos team 11 to 4 but Laney Cook had a spectacular night on the mound, striking out

14 while walking six and allowing nine hits. Johnny Ramos scored a home run and Nicky Esquivel had two hits. J. V. Cook and Brent Johnson had one each.

As the season closed, League Director Oliver Wuest again urged that players return their uniforms at the earliest possible moment. "If we don't get these uniforms in, we just won't have enough for a season next year," Wuest said.

Wuest also expressed on behalf of the team, the managers, parents of the team and fans appreciation to Mr. and Mrs. Benny Babb for their hospitality in serving supper to all the Sonora delegation to the Pecos game. "Even if they didn't win, the boys had a great time," Wuest concluded.

Clothing Sale At Elliott School Set August 26

The Community Welfare Council will hold a sale of used clothing each Saturday for one month beginning Saturday, August 26. The sale will be held from nine o'clock until noon and from two o'clock to five o'clock in the afternoon at the clothing room of L. W. Elliott School on four consecutive Saturdays; August 26, September 1, 8, 15 and 22.

Mrs. Ernest McClelland, clothing chairman for the organization, says the Council is badly in need of used children's clothing, most especially coats for the coming fall and winter. She asks anyone with clothing to contribute to this worthwhile cause call her at 23831 and she will arrange to have the clothing picked up and delivered to the school.

Odds And Ends

One of our favorite columnists is George Dolan whose "This Is West Texas" appears on page one of the Fort Worth Star Telegram. Dolan paid a visit to the Caverns several months ago and then devoted one portion of his column to his trip through the cave, recounting, among other things, the history of the naming of "Vicki Lake".

Last week he came up with another, we quote: "Those spectacular Caverns of the Sunday paper are all they're cracked up to be.

"But the management pulls one dirty trick on visitors. "While the customers are 100 feet underground, oohing and aahing at the formations, someone on the surface goes around plastering green stickers advertising the caves on the customers' car bumpers."

Ah, here, Mr. Dolan, you see another of the many unique features of the Caverns. The only place in the world where devious deeds are done in the open, above ground, in the bright light of day. A real switch on "The Third Man". Also on the termite ads on TV.

On the other hand, Kate Smith—yep, she of the big beautiful voice—didn't object to having a sticker on her car bumper.

Miss Smith paid a visit to the Caverns Sunday and spent a couple of hours just visiting with the tourists, guides and staff.

NOW, Mr. Dolan—start looking! The car with the Caverns of Sonora sticker just may contain Kate Smith.

Lucky Fishermen Recovering Tags To Get Free Lures

Saltwater anglers who catch tagged fish and return the tag and catch data to the Game and Fish Commission, will be rewarded with a jackpot of fishing lures. This has been announced by Tarrance Leary, assistant director of the marine fisheries division of the Game and Fish Commission. Four lure manufacturers, will send sample fishing lures for each salt water fish tag returned to the Game and Fish marine laboratory at Rockport.

When a fisherman sends in his tag and catch data, he will receive his four sample lures by mail, one lure from each of the four companies sponsoring the reward program.

The small, numbered metal tag clips usually on the lip of the fish are attached by a biologist of the Commission in an effort to follow the movement and growth of individual fish in their native habitat.

The information needs by the biologists from the fishermen who catch the tagged fish is: length and weight of the fish and where it is caught. This catch information added to other tag returns enables the biologist to map migration routes, plot growth rates and estimate the population size and fishing pressure.

Devil's River Philosopher Comes Out Against Nationwide Zoning Law For His Bitterweed Ranch

Editor's Note: The Devil's River Philosopher on his bitterweed ranch on Devil's River probably is misconstruing the matter he's discussing this week. It's not the first time. Dear editor:

Whenever a city gets a certain size, say big enough to have uniformed policemen and one-way streets, the next step naturally is what's called zoning, which, as I understand it, gives the city the right to decide what

sort of building can be put up in any given area. This idea started out I think to keep livery stables from going up next door to ice cream parlors and saloons next to churches, and is used now to keep supermarkets from invading residential sections, junk yards away from city parks, etc.

What brought this up was an article I read in a newspaper clipping somebody sent me through the mail, reporting a government official in Washington has demanded that what this country now needs is a nationwide zoning system to prevent further losses of America's agriculturally productive lands.

According to him, about a million acres of productive land are being taken for such things as highways, airports and housing projects every year, and he thinks all the land ought to be zoned so this thing can be headed off.

At first I thought this was a good idea, anybody can figure that a million acres a year, if kept up very long, would eliminate ranching and therefore eating, although you can say this for it, it certainly would solve the ranch problem.

But if Washington gets the right to decide which land can be used for a housing project, which land has to stay in cultivation, it wouldn't be far to the point where it could decide not only which land has to stay in cultivation, but how it should be cultivated, or even worse,

Notes of a traveler: The original Brown Palace Hotel in Denver is a relic of nineteenth century grandeur. The marble columns, some round, others square, in the lobby are, appropriately, brown. The rotunda has five galleries, each with copper (or perhaps bronze) railing and the center of the lobby has a partition—of glass.

Colorado's state Capitol is an impressive edifice. Nearby is a fountain with the figures of a scout on horseback, hunters, trappers and a pioneer woman. Other buildings and a stately colonnade grace the beautifully landscaped area.

On a June day in Jackson, Wyoming, it was still light at 8:25 p.m. (sun, not daylight

how often. This is where I draw the line.

If city people want to give their city government the right to decide whether you can open up a TV repair shop in your garage or a beauty shop in your spare room, that's entirely their business, but the last thing I want is Washington zoning this bitterweed ranch and telling me I can't graze cows in my front yard or that my propped up fences and sagging gates don't meet the nationwide zoning standards.

Yours faithfully,
J. A.

saving, time).

Entering Jackson, one goes down a long stretch of highway with a lofty rocky cliff on one side and a swift, clear river, flowing over stones on the other side.

Jackson itself is a glorified dude-ranch center: tourists in wild Western costumes—the colors especially wild; a stage-coach; and early-day type of theater; buildings in pioneer architecture and, contrasting, fine hotels with neon signs. Indians do native dances. Souvenir shops abound. Grand mountains look down.

It is a thrilling experience for one accustomed to the plains of Texas—to go through the mountains approaching Denver from the west. The highway looks narrow and the view is straight down on one side, with the snowy sides of mountains a few yards away on the other. The highest point we reached was 11,307 feet. I sure was glad I wasn't driving. (The trip was by bus.)

WE DON'T LIKE IT-2 of our fine members leaving Sonora. Tige McLaury has moved to Plainview, has taken his fine family and other Sonora fine families. Frank Rholes and his fine family are locating in East Texas. Well, you can't keep 'em all.

OCTOBER is going to be a busy month in Sonora. The 11th District of Music Clubs, the Peace Officers and the All Texas Air Tour are all to meet here that month. The All Texas Air Tour will spend the night here, October 8th, on their tour of Texas. The theme of their tour this year is to boost the "March of Dimes" and the "Good Neighbor Policy". Planes from more than twenty states are expected. SEPTEMBER brings to Sonora our annual Quarter Horse Show, September 2nd. This show usually attracts many of the top Quarter Horses of the County and many of the best horsemen. L. P. Bloodworth and Billy Galbreath are chairmen of the show this year. Stanley Mayfield was the Chairman last year and Gay Copeland the chairman the year before.

September brings another note worthy event, the beginning of school. Good ole golden school days. Just think, it will only be ten months until school will be out for summer vacation.

August is a void month in Sonora, for outstanding events. August is a good month in which to rest up from your vacation or even in which to snitch a short one. August is a month of family reunions, for preserving, for visiting and for that frenzied preparation for school. We find that the merchants of Sonora are already well stocked with school supplies. Why not buy now and avoid the rush?

JULY has come and went. Our biggest event in July was the Junior Rodeo, the 20, 21, 22. It was a wonderful show with more than 140 boys and girls participating. The arena had been completely revamped and is now as good as the best.

To put on an event like a Junior Rodeo do you have any idea how many man hours must be put into it? Louis Powers put hundreds of hours into this project all, without pay, just because it is good for the youth and for the town. He even worked Jamie several days and nights. Joe B. Ross did yeoman service on this project. Then Marie Ellis helped by Mike cut the stencils for three pages of program for each of the three days, then mimeographed them then stap-

ed them together, all a stupendous job and all for the good of the cause. L. P. Bloodworth worked three nights and many others did a lot of work.

The Altizer family deserve special mention, in connection with the Junior Rodeo. Olin help-Louis manage the show, Ora (Riggs) was a time keeper, Blanche, (Smith) was secretary and what a headache! Her old man, (Bud) served as Judge. Jim Bob couldn't be here but was represented by his son Mackie, who rides like a wild injun. He is three. Vernon West of Del Rio also each night worked his legs off. All of these people came and helped with our show, all for free, just because it is good for the youth and for the community.

The weakness of the Junior Rodeo this years was in local attendance. And just think, it brought a general rain to all Sutton County. Anybody want to buy a ticket yet?

HAVE YOU noticed the work at the Gold Course? Those grass greens are beginning to show off. It won't be long until the final fairway clearance work will be done, all the lines laid and all the greens turfed. Then the driving range will begin to get a work out. Norman Rousselot suggests that five members adopt a hole and work toward making it the best hole on the course. At the end of a year a contest could be held, during a tournament, awarding a prize to the team who developed the best hole, fairway and green. Tommy Thorp and Jo Hardgrave have already been caught in this trap. They are working on No. 1 and No. 7.

CLEAN UP- Many Sonora ladies, in general, Mrs. Robert Halbert, in particular, think Sonora should have an all out clean up campaign. Their argument is, "this is where we live," and people should keep where they live clean. There is not only the appearance angle but in destroying the weed patches all over town we are destroying the breeding ground of mosquitoes, flies, snakes, etc. Then there is the future fire hazard.

The bountiful rains have brought on a bountiful weed crop and its related problems. J. Wray Campbell is the first to begin a weed cutting campaign. You'll be next.

LITTLE LEAGUE: Last Saturday morning, early, our phone began to ring. On the other end of the line was Lena Babb, from Pecos. She had just heard Sonora was playing Pecos at
