BOVINA, TEXAS

VOL. VI, NO. 45

WHITTLIN'

BY DOLPH MOTEN

Part City of Bovina will play in proposed housing development here has caused us to keep an ear closer to ground than usual in regard to city business.

Here are some things we've learned and there are a lot of things we haven't learned:

---Projects the city is currently working on, which will cost money, include curbing and guttering Third Street, Highway 86, and FM Road 1731 south where it is in city limits, keeping city park in better condition for more use and enjoyment by citizens of community, and plans are underway, according to our understanding, to remodel and improve American Legion Hall for use as a community center as well as other things. Also, of course, the city is faced with possibly some expense for water and sewer for the proposed housing development.

Only the latter has a chance to pay for itself. The other things will be all outgo to make this a better community but will have no monetary return, as such, to the city.

---City commission members do get paid. If we had known that before, we had forgotten it. This week we learned that the mayor is entitled to a salary not to exceed \$50 a month and commissioners may draw a maximum of \$25 a month. Custom here has been for the mayor and commissioners alike to draw \$5 a meeting unless this exceeded the \$25 maximum. This is paid as the commission members see fit to draw it--monthly, annually, or however.

---Editor of The Bovina Blade doesn't have to be invited to city commission meetings. As a matter of fact, meetings can be conducted when the editor has been told that he isn't invited. That, we naturally think, is poor business on part of commission. Meetings of that kind have a tendency to make a poor impression on public whether majority of people agree with decisions reached at such meetings or not. Few meetings of that nature have been conducted, certainly, but one is too many. We don't expect to have many like that in future.

A lot of planning and a little action is going on in regard to night Little League baseball and softball here this summer. We have full confidence that both will be organized and in full swing by June 1--the time when such programs should begin.

Several things remain to be done before the programs get off the ground, so to speak. First, the football field, which the school has agreed could be used this year, needs to be converted and added to for night Little League baseball and softball. This, we hope, can be accomplished by next week.

Next, there's quite a bit of organizational work which needs to be done for both groups.

While nothing is definite, we figure that official workouts for Little Leaguers will begin latter part of this month, then the boys will be divided into teams and a league organized. We think that playing at night will give more boys an opportunity to play than have participated in the past.

Several Little League-age boys have been working out on their own a couple of days a week for past month. They're getting ready, and looking forward to, an interesting season. Spectators are going to enjoy it, too, we're predicting.

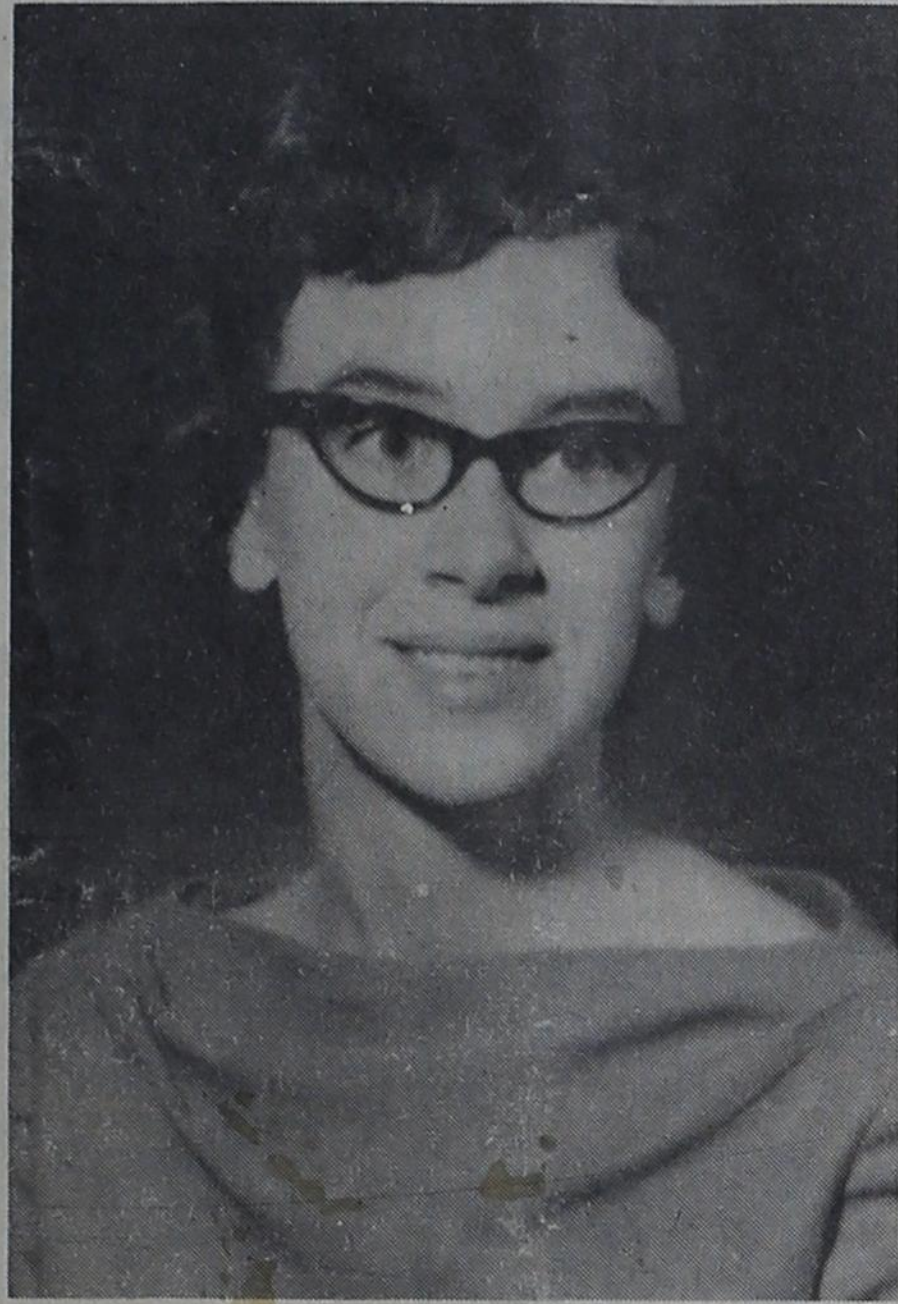

Interest in a men's softball league is also running high. This is partially a carry-over for the volleyball tournament which was conducted a couple of months ago. It was a tremendous success, you'll remember, and a softball league will probably be equally as successful.

Possibly because we lend a sympathetic ear, we're still hearing complaints and expressions of disappointment because the school has elected to drop baseball from its sports program.

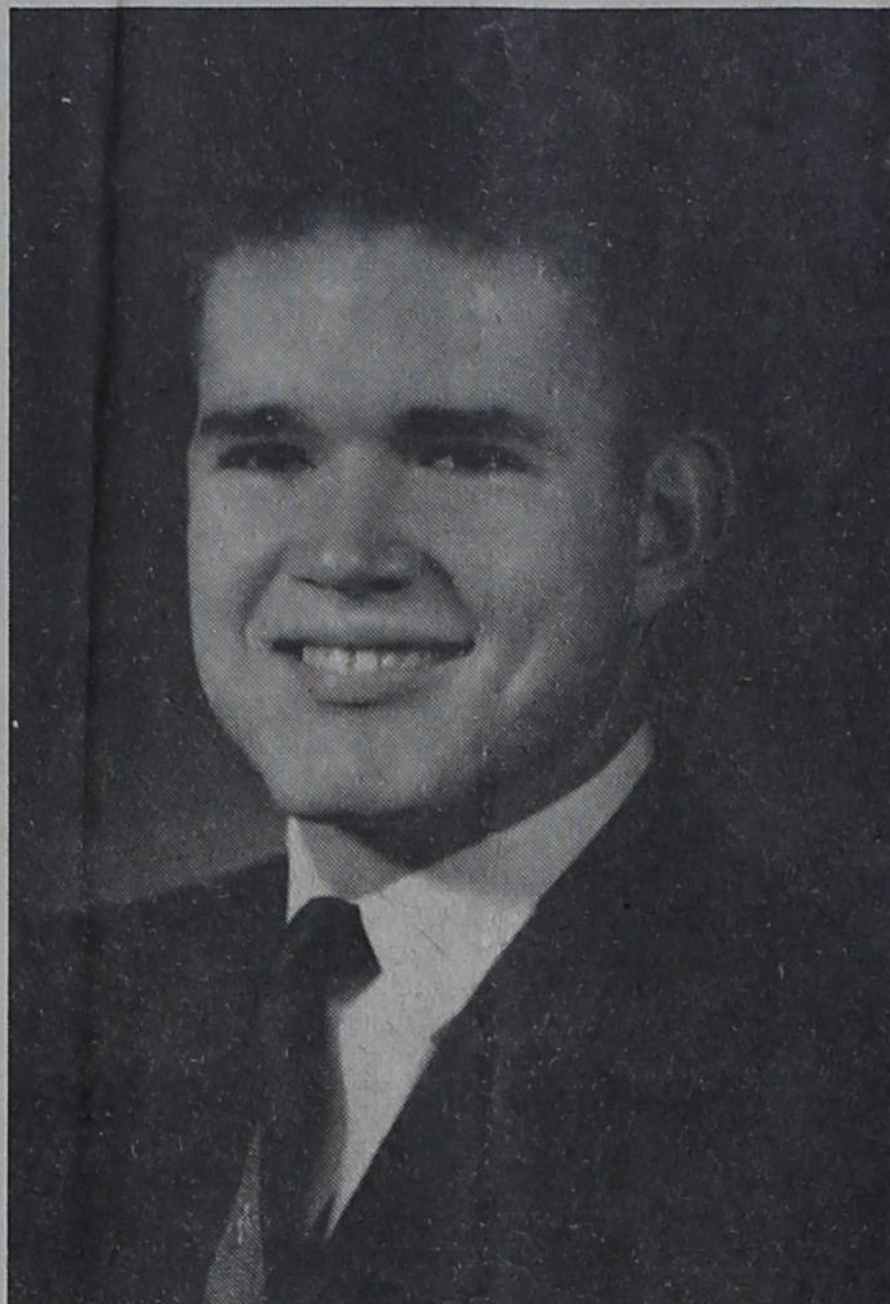

Our sincere hope is that base-

(Continued on page 8.)

School Year Ends May 19

Cynthia Patterson

Roger Ezell

Brenda Jones

Commencement Set Same Day

Bovina Schools will end 1960-'61 school term Friday, May 19. This is a week earlier than "usual."

In recent past years, school has been dismissed a week later than that because days had been lost during school year due to extreme bad weather or flu epidemic.

Such delays were escaped this year, however, and thus will allow the early dismissal date. One day was missed because of snow and none because of sickness.

As is usually the case, school calendar is loaded with activities during final three weeks of school.

Topping activities list is senior commencement which is set for May 19 -- last day of school -- at 8:30 p. m. Exercises will be in school auditorium.

Jack Walker, speech instructor at West Texas State College, will be speaker.

Senior class valedictorian is Cynthia Patterson, daughter of Mr. and Mrs. Jack Patterson, with a four-year average of 93.9.

Salutatorian is Brenda Jones, daughter of Mr. and Mrs. O. H. Jones. Her average for four high school years is 93.79. High boy in scholastic achievement is Roger Ezell, son of Mr. and Mrs. Gene Ezell. His average is 91.8.

Those three students will have parts on commencement program.

Baccalaureate services will be in auditorium Sunday, May 14. Rev. John Ferguson, pastor of First Baptist Church, will deliver sermon. Other ministers of community will also be on the program.

Junior High -- eighth grade -- commencement exercises will be Thursday night, May 18, at 7:30 p. m., also in auditorium. Valedictorian and salutatorian of that class will be announced next week.

Details of both commencement exercises are yet to be worked out, High School Principal James McLeroy says.

Annual athletic banquet, to be sponsored by student council, will be Saturday, May 13, in school cafeteria.

Featured speaker will be a coach from Texas Tech staff. This event, which will honor all students who have participated in athletics during school year, will begin at 7:30.

Awards will be given to outstanding individuals as they are annually.

Senior trip will begin Saturday morning following commencement. Destination will be Rockaway Beach, Mo.

Final examinations will be completed Thursday of the final week, McLeroy says. Books will be checked in on Friday. Report cards will be issued the following Monday. If students don't pick up report cards, they will be mailed, the principal says.

FFA Team In Contest At Lubbock

Bovina FFA Chapter and judging team participated in Area I and II vocational agriculture contests at Texas Tech in Lubbock Saturday.

With some 60 teams entered, the Bovina group failed to place among first five teams, Chapter Advisor Roy M. Crawford says.

Team members are Jackie Dane, Phillip Lloyd, and Jerry Lorenz. Ronnie Williams served as alternate.

Crawford accompanied the boys to the contest.

Mr. and Mrs. Norman Killough and son, Mike, and Mr. and Mrs. Carl Cook, Mrs. Killough's parents from Medford, Ore., visited recently in the home of his parents, Mr. and Mrs. Lloyd Killough.

They left last Thursday for Salinas, Calif.

Two Convicted Of Car Theft

Raymond Henderson and Bobby Coffington, two 20-year-old youths from Lamb County, were convicted in district court last week for car theft and sentenced to four years in the state penitentiary.

The theft occurred a couple of years ago and the two men had previously been indicted by the grand jury.

They were never tried in Parmer County because they were convicted of another felony in Lamb County and placed on probation.

The pair was arrested and brought to Farwell to face charges after they failed to comply with some of their probationary requirements.

Both Henderson and Coffington were taken to Huntsville to begin serving their terms last week after they plead guilty to the charge and were sentenced by District Judge E. A. Bills.

ON WATER AND SEWER--

Commission Makes Offer To Housing Developer

A proposed housing development for Bovina is still hanging in the air.

In a regular city commission meeting Monday night, city officials made an offer to Bill Christian, Inc. of Roswell, the proposed developer.

Christian was notified of the city's offer by telephone Tuesday morning by Mayor Emmett Tabor. Tabor said that Christian did not commit himself as to whether the plans for the development here would continue. However, Tabor said that he did seem to be favorably impressed. "Sounds like the city is trying to get along," Tabor quoted Christian as say-

ing. The development is proposed for a several-block area west of South Ninth Street.

Christian had requested, at a meeting last week, that city install water and sewer facilities to the project. Paving for the area, Christian pointed out, would be paid for by him.

City officials agreed in the Monday night session to pay one-third of the cost of approximately \$13,000 worth of water and sewer additions. Then when 10 houses have been completed, the city will pay back Christian's expenditure at rate of \$300 per house until his investment in water and sewer is

returned. When the project grows past the area which can be served by the \$13,000 worth of water and sewer lines, the city will pay entire cost for the

2 Bovina Students WT Grads

Two students from Bovina are among 300 candidates seeking degrees to be awarded at West Texas State College during spring convocation May 21, according to Dean Walter H. Junper.

Included are Billy Richards and Merlyn Keith Huggins.

Richards, a 1956 graduate of Bovina High School, is the son of Cash Richards of Bovina. He is seeking his Bachelor of Science degree and is a member of the T-Club at WT.

A 1957 graduate of Amherst High School, Huggins is the son of Mrs. Wanda L. Berryman of Bovina. He is seeking his Bachelor of Science degree at WT.

He was treasurer of Buffalo Bills, local service club, as well as treasurer of the Industrial Arts Club.

additional. "In other towns in this area," Tabor says, "it is customary that developer pay 80 per cent of initial water and sewer cost. But because of Bovina's need for housing, we felt we should make a better offer than that." Commissioners also agreed

to allow two streets in the area to be narrowed to 36 feet widths. The city had suggested that new streets be 40 feet as are other paved streets in town. Christian had preferred 32 feet wide streets so the 36 feet width was a compromise of the two ideas.

COMPARED WITH YEAR AGO--

Bank Deposits Hold Steady

Bank deposits at First National Bank here are on a comparison with a year ago.

Deposits totaled \$1,534,287.02 at close of business April 12. Last year's first quarter call was a month earlier. Total deposits at close of business March 15 were \$1,555,397.06.

Loans were up this year over last by approximately \$100,000. In '60, loans totaled \$694,934.94. This year the total was \$802,157.11.

Varying only slightly were

total assets and total liabilities. This figure was \$1,705,990.03 a year ago and \$1,703,720.64 this year.

Three more bank calls will be made this year. They customarily come with the season--one each quarter--and are on varying dates with exception of the final one, which is always December 31.

First National Bank's official statement of condition appears elsewhere in this issue of The Blade.

FOR STREETS--

BC of C Directors Talk Improvements

STOP--Deputy Sheriff Henry Minter, with posthole diggers, erected 10 stop signs at intersections in Bovina early this week. Assisting Minter temporarily was R. L. Hopingardner, left. Minter says the signs were erected at intersections which have proved to be most dangerous. Background of signs is red with white lettering.

Discussion of proposed curbing and guttering for streets here highlighted a Bovina Chamber of Commerce and Agriculture directors' meeting Monday night in Bovina Restaurant.

Property owners on Third Street, Highway 86, and FM Road 1731 south are partially "signed-up" for the improvement, Tom Bonds, committee chairman, reported.

Additional sign-up will now be done by volunteers who have agreed to work on the project, the directors decided.

State has agreed to do additional paving on the streets in question if city will provide curbs and gutters. Chamber directors hope city's portion of the improvements can be completed this summer with the additional paving to be done next year.

Manager-Secretary Jack McCracken was instructed to write a letter to district state highway supervisor, Oscar Crane, explaining to him progress that is being made on project.

Proposed housing project for city also took up discussion time but no action was taken in regard to it.

Directors present other than McCracken were Jack Keslery, Dolph Moten, Roy Crawford, Jim Russell, Warren Embree, Bonds, and Bedford Caldwell.

BE HAPPY? GO WACKY! -- That was title of senior class play presented Tuesday night in school auditorium. This scene shows five members of the cast in action. At left are Cynthia Patterson and Bill Strawn, a pair of recently-rich hillbillies who are in town for a visit; Patsy Hart and Don Caldwell, portraying Dixon twins who get blamed for all "trouble" caused, are in background; Patricia Patton, Aunt Molly Millarkey, is in black dress.

Commissioners Make Road Recommendations

The Commissioners Court of Parmer County has made seven recommendations to the Texas Highway Department for farm-to-market roads.

Okla. Lane Circle Presents Program

Young Women's Circle of Oklahoma Lane Methodist Church presented a program on love to members of Charity Circle of Bovina Methodist Church Friday morning in church parlor.

Those presenting the program were Mrs. Donald Christian, Mrs. Troy Christian, Mrs. Wendol Christian, Mrs. Louise Foster, Mrs. Mildred Cooper, Mrs. Johnny Rundell, Mrs. Bobby Jones and Mrs. Karen McMann.

Present were Mrs. Leon Grissom, Mrs. Vernon Willard, Mrs. Leon Ware, Mrs. Mark Charles, Mrs. Halle Gee, Mrs. Ralph Roming and Mrs. Glendon Sudderth.

Following the program refreshments of coffee and rolls were served by Mrs. Gee and Mrs. Grissom.

The proposed road improvements are merely the recommendations of the court according to the needs of road improvement in the county.

Whether all, part, or none of the roads are built is up to the State Highway Department according to the amount of money that becomes available. The recommendations are from one point to another. The routing will be left up to the state engineers.

The recommendations in their order are:

1. In the Rhea community from the end of FM 2013, north and west to the Texas-New Mexico line.

2. From the end of FM 1172 north of Lazhuddle, starting at State Highway 86, north to US Highway 60.

3. From the south end of FM 1172 in the Lazhuddle community south to the Parmer-Balley County line.

4. In the Oklahoma Lane community, on what is known as Sudderth Lane from a point on FM 1731, approximately 6 miles south of Bovina, northwest to US Highway 60.

5. From a point on State Highway 214 approximately 6 miles north of Friona, north and east approximately 2 1/4

miles to connect with proposed farm-to-market road from Deaf Smith County.

6. From a point on FM 2290 about 3/4 mile northwest of Bovina, south to US Highway 60 at the intersection of US 60 and SH 86.

7. From a point near the east city limits of Friona on US 60 north and east about 1 1/2 miles to the Friona Cemetery.

Cumpton, McLeroy Have WMU Study

Mrs. Allan Cumpton and Mrs. James McLeroy presented programs to the Nellavine Whitten and Dorene Hawkins circles of WMU Tuesday afternoon at First Baptist Church.

Those attending were Mes. Ovid Lawlis, Don Murphy, P. A. Adams, R. N. Williford, C. W. Crisp, J. O. Combs and W. W. Wilcox of the Dorene Hawkins Circle.

Members of Nellavine Whitten Circle present were Mes. Charles Vickers, Malcolm Kennedy, Jerry Rogers, Paul Holcomb, Bobby Englant, Earl Hise, Keith Garner and A. B. Kent.

Children's Clinic Plans Complete

Arrangements and staff for the sixth annual crippled children's clinic in Hereford were announced this week by the Oasis Shrine Club, the sponsoring organization.

The clinic this year is being drastically expanded to handle more children, says Claude Miller, Friona, one of the Shrine's directors.

Children with physical, speech, and hearing defects will be examined on Saturday, May 20, by an outstanding group of medical specialists. These specialists, including some from Dallas, Lubbock, Galveston, Amarillo and Denver, donate their time and service to the clinic.

Miller emphasizes that there is no charge for those attending the clinic and that all children up to 19 years of age in the Panhandle area are eligible to attend.

In order to speed up processing and routine clerical work, parents of children who enroll at the clinic are asked to fill out a pre-registration form and mail it in advance. These forms may be obtained from any Shriner or from your local physician, Miller says.

The annual affair is held in the Hereford Medical and Surgical Clinic.

During its past five years, the clinic has examined more than 600 children with physical, hearing and speech defects. Members of the Oasis Shrine Club make arrangements for the specialized treatment and service of medical specialists if the parents are unable to pay.

The Shrine Club takes over various projects in order to finance the expense of the clinic, and this year they will be selling vehicle bumper strips in Deaf Smith, Castro and Parmer Counties, the three counties which make up the club.

There is no set amount for the bumper stickers which will be given to persons who make donations.

Those who wish to donate to help with the annual project, and are not contacted, may mail donations to Dub Reeves, at P. O. Box 246, Hereford.

Blade Sawdust by SUE MOTEN

I have a complete mental block about writing anything concerning Loy Harris. Not so very long ago I mentioned that he was married and he wasn't and now that he is about to resign to that state I boldly announced that the wedding would be June 31 instead of June 30. What is even worse is that I had to stop and recite the "30 days hath September" bit before I realized that I had made a prize booboo.

I watched the civil defense program on T.V. the other evening and am in a quandry as to whether I am too unconcerned or if I should be radically opposite and worry about fall out, bomb shelters etc. Think civil defense is a good thing but I am just too lazy to buy canned goods, bottled water and have a lot of things prepared for an emergency. The narrator on the program said it would take approximately 30 minutes for everyone to be notified and get prepared, guess if we are invaded I will rush around like the proverbial chicken without head in the emergency.

From time to time have heard people complain about the telephone service. Now it is my turn. During the course of a morning's work I tried to call a number on the Tharp exchange several times and kept getting the wrong party when I was certain I was dialing the right number. Likewise, made a call in town and got the operator. Don't really understand these difficulties but they are more than annoying when ones work is done mostly via telephone.

Talked to Delores Carter the other afternoon. She has recently returned from Alaska. She was telling me some interesting things about said state. It seems that in order to keep a car in running condition during the long winter a device is rigged up to plug in the car whenever it isn't in use. It costs a dollar a day or 10 cents an hour for this necessity. Also for those of you who think groceries are high, how would you like to pay 69 cents for a cucumber or 53 cents for a loaf of bread? Bowling is 70 cents a line and regular movie is \$1.50 and 40¢ for children. Think that Alaska would be a nice place to visit but not to live. That is, unless you were one of those T.O.M. we are always hearing about.

DEKALB Sorghum

PLANTED BY MORE FARMERS THAN ANY OTHER BRAND

"DEKALB" is a Brand Name.

By Vern Sanford

A speedy retrieve isn't always the fastest way to fill a stringer.

In fact, the fellow who whips out the lure and then retrieves it at slightly less than super-sonic speed is usually a guy who winds up getting most of his fish at the fish market.

Speed of retrieve is very important in fishing artificial lures.

All lures can't be worked at the same speed or in the same manner. There is a certain retrieve speed for each lure. Some will work best at a dead slow speed. Others must be worked moderately fast. Still others, particularly those used in offshore trolling in salt water, are designed to operate best at a rather fast speed.

I've seen fishermen buy artificial lures, take them out of the packages and start right in using them, without ever noting the instructions. After a couple dozen casts and no strikes, they will discard them into the tackle box in favor of something else. Never once did they even attempt to read the directions that came with the lure. Small wonder they failed to raise any fish. You must use a lure properly.

Reputable artificial bait companies spend a lot of time and money testing each make of lure before it is released for public consumption. Follow the directions that come with your lure and you'll enjoy better fishing.

Fishing with a sinking lure presents something of a problem. Good sinking lures are designed to run at a constant depth. For example, if you let your lure sink five feet and then start the retrieve, the lure will maintain that five-foot depth almost all the way to the boat.

How Deep To Fish
Suppose you're fishing in water 20 feet deep and you want to determine the depth at which the fish are working. Try some experimenting.

Start off by working the lure near the surface. If you get no results, then determine how fast the lure sinks in the water.

To do this, measure out five feet of line—then drop the lure into the water. Count the number of seconds it takes for the lure to reach the five-foot depth. Unless a lure is unusually heavy, it will sink at a rate of about a foot a second.

Start counting as soon as it hits the water. Work the lure at different depths. Give each depth a good try before going to a new level.

Then, when you get a strike, remember the count that you used. Cast out and use the same count again.

You'll find yourself doing a lot of counting, but you'll also find yourself catching a lot of fish.

How long does it take to fish out a cast?
That depends on the type of lure used.

I've watched many an expert top-water-lure fishermen in action. I've seen them take as long as five minutes to fish out a cast. It's interesting to note that these fellows fish the lure all the way to the boat. Often I've seen them get a strike just 10 or 12 feet from the boat. Sometimes closer.

A cast is fished out much faster with a sinking lure fished at a constant depth.

There are times when a sinking lure can be worked dead slow and it will catch fish. It's called bottom-bumping.

The lure is tossed out and allowed to sink to the bottom. Then the angler twitches the rod tip and takes a few turns on the reel handle. This makes the lure hop off the bottom and swim a few feet before it sinks back to the bottom.

Fish Plastic Worms Slowly
Slowest of all lures are the

leadhead plastic worms and eels.

When you use these, you really fish slow. First you let the lure sink to the bottom. Then you wait 10 or 15 seconds, twitch the rod tip and move the lure just a foot or so. After another 10 or 15 seconds you twitch the rod and move the lure again.

On a long cast, it might take as much as 10 minutes to work the lure all the way back to the boat. This is time-taking, but it's a deadly method of fishing for black bass. Often it will produce a strike when nothing else will.

Important thing about lure fishing is to remember everything you did on a retrieve that produced a fish. Then just repeat the action. One thing for sure—you can't daydream when you're lure fishing and expect to score any great amount of success.

Only A Few Lures Needed
Another thing about lures. You don't need a tackle box full of lures to catch fish. For proof of this, go out with some experienced guides. Note the contents of their tackle boxes.

Usually they'll have a wide assortment of hardware. But notice how few of these lures they actually use. They stick with a few old standbys and they catch fish.

That big assortment of hardware in the guide's box is just part of his business. His client might be one who believes in switching lures every few minutes. So the guide carries along a wide assortment to please the tastes of the customer.

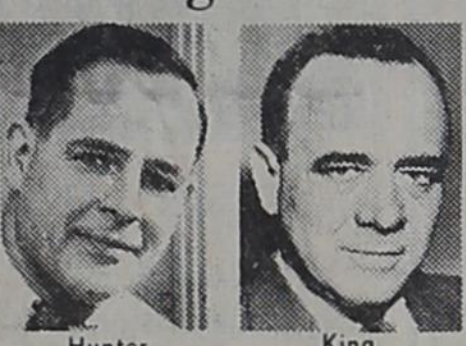

But if the customer is wise he'll follow the guide's advice and stick with the old standbys that are cinch fish-getters in that area.

Best way to learn how to fish an area is to hire a guide for your first few trips. Your money will be well spent for you'll learn many tips and secrets from him.

Remember that a guide makes his living by finding fish for his customers. He's going to do everything in his power and use every trick at his command to see that you score.

Absorb some of his knowledge, and you can cut your waterhaul fishing trips to a minimum.

IPS Cartoonists Win High Honors

Cartoonists Warren King and Graham Hunter, whose Industrial Press Service editorial cartoons are widely used in America's weekly press, have again won Freedoms Foundation awards.

Freedoms Foundation honor certificates will be presented to them for cartoons which the judges felt contributed to a better understanding of basic political and economic freedoms of the American Way of Life. Hunter's cartoon, entitled "Hitch Your Wagon", illustrated the choice confronting the American voter in last year's Presidential election; King's prize-winner, "Lest We Forget", eulogized George Washington's leadership. A year ago the cartoonists were recipients of the Foundation's George Washington honor medals.

SUPER MARKET BOVINA

Last-Minute Change Makes Feed Bill More Attractive

SIGNING UP for the new feed grains program at the ASC office Tuesday morning was George Douglas, who farms near Bovina. Filling out the papers is Mrs. Jo Schell. Farmers started signing up for the program Monday morning. Deadline for signing up is May 31.

Farmer County grain sorghum producers this week were given a new incentive to sign up for the one-year emergency feed grains program with a last-minute directive from the U. S. Department of Agriculture.

A new order, released only Sunday, permits grain sorghum and corn growers not satisfied with their average yield index, to produce production records on the last two year's crops

and have the index elevated to a "more realistic figure."

This zero hour change in the new feed grains program came as a welcome surprise to most of the farmers, and according to Prentice Mills, Farmer County ASC office manager, will probably result in almost 100 per cent participation in the new program.

Under this new measure, the 4,267 pound county productivity index which had been es-

tablished by the Agricultural Marketing Service, will have little bearing on the amount of grain a farmer will be able to sell at the government price support.

The change will also increase the payments a farmer will receive for laying out either 20 per cent or 40 per cent of his established acreage, since payments are based on the yield index.

As an example, here's the

way the last-minute change in the program will work:

Say that a farmer's average yield index on grain sorghum had been established by the county ASC committee at the 4,267 pound county average. If the farmer can produce production records, (i. e. elevator receipts) showing that his average yield was 4,600 pounds (or higher), his index will be raised accordingly.

"We will no longer be held to the 4,267 pound figure as a county average," Mills explains. "Quite likely the county average yield will be more like 4600 or 4700 pounds," he adds.

There was no reason given for the change in the program, but Mills indicated that it was probably due to widespread dissatisfaction with the averages established.

Even though the 4,267 pound average for Farmer County was the highest on the High Plains, most farmers here felt that the average was much too low. The same was probably true all over the country.

In order to qualify for this change in the individual farm index, farmers must report to the ASC office in Farwell with their production records no later than May 14, Mills says.

However, deadline for signing up for the program will still be May 31.

Farmers started signing up for the program Monday, but due to the last-minute change there were only 21 contracts signed on the first day. Reason for this small number was due largely to the fact that most of the farmers who went to the ASC office to sign up returned home for their production records after being informed of the new measure.

Mills says that the new measure will probably affect about 40 per cent of the farmers in the county.

Training Course Conducted

A special leader training "Selection, Use, and Care of Electric Skillet" was conducted Friday afternoon, April 28 at 2:00 in the Friona State Bank Community Room. Leaders of the home demonstration clubs will present the same demonstration to their respective clubs during May club meetings.

In the training of the twelve volunteer leaders Miss Ettie Musil, county home demonstration agent, stressed the advantages and disadvantages of an electric appliance. Many of the same features to consider in purchasing an electric skillet could be used in selecting any automatic, electrical appliance.

Look for shape, size, metal, features, and ease of cleaning and storage of electrical appliances. Homemakers should ask themselves, "How often will I use it, is it large enough for size of my family, is it well constructed free from flaws, and will it cook as I expected it to?" These and other questions were discussed during the training.

The following leaders attended the training: Mrs. W. H. Long and Mrs. T. I. Burleson, Jr. of Hub, Mrs. Preston Martin and Mrs. W. T. Magness of Oklahoma Lane, Mrs. Elmo Dean and Mrs. Carl Schlenker of Rhea, Mrs. Kenneth McLellan of Friona, Mrs. Harvey Blackstone and Mrs. Dean Powell of Lazbuddie, Mrs. John Terry of Northside, and Mrs. Helen Fangman and Mrs. H. H. Elmore of Black.

Quite a bit of indignation is caused by people having to eat their words.

THE HIGH PLAINS FARM AND HOME

HD Agent's Notes

BY MISS ETTIE MUSIL

What happened to the warm days of Spring? For a while we thought Spring was really here to stay and then what happens! Shiver, shiver. It's almost cool enough to get the woolen sweaters out of moth balls or summer storage.

According to the calendar Spring is here just the same. Have you been spring cleaning? Do you hate to launder cotton shag rugs because they seem to look so shaggy and matted afterwards?

First decide whether your washer can take your rug. Specialists say any rug of more than five pounds dry weight probably is a bit heavy for a washer and dryer regardless of size. Better send heavy ones and those larger than three by five to a laundry.

If you decide you can wash your rug in your washing equipment, do so before the rug becomes very soiled. Vacuum it thoroughly first. Use hot water if the rug is quite soiled, warm water if it's not so dirty. Use the soap or syndet (synthetic detergent) you like for colored cottons.

Place one rug or two smaller ones in the washer. Be careful how you load some machines. Balance the load. With one rug you may have to add bath mats or bath towels for balance. A wash period of six to eight minutes should be enough. Rinse well to remove every bit

of washing compound. Any left will increase future soiling.

A dryer fluffs shag rugs beautifully. Overdrying has a tendency to mat the pile, so check the drying time carefully. Rugs can be successfully dried on a line, too, whether they are washed in an automatic or non-automatic machine. With a wringer type machine, loosen the rollers before you pass the rug through.

A fabric softener added to a last, clear rinse water makes shag rugs more fluffy. For added safety to the back of small rugs spray the non-skid rubberized solution available.

Is getting youngsters dressed for school always quite an ordeal? It is a hurry-up affair in many families. Time is important but so is training the child to become independent, responsible and neat in dressing himself and caring for his clothes. Do they ask, "What can I wear this morning?"

Here are some tips that will help. First of all, help children arrange their school clothes separately from party, church and miscellaneous clothes in their own closet. Separate shirts from the trousers or slacks for the boys. Blouses together, skirts together, and dresses together makes a well planned or arranged closet for the girls, too. Another help for hurry-up dressing encourage the chil-

dren to arrange matching socks, ribbons and ties on hangers with dresses or shirts. You could even help them to plan what they will wear each day the night before. Everything will be ready to go in the morning.

Now is the time to check your chrysanthemums for aphids. They suck the tender new leaves on chrysanthemum plants as they do on the roses. Usually the brown or black aphids attack the chrysanthemum and the greenish aphids like the roses. Spray both aphids with 1 or 2 tablespoons of malathion in each gallon of water according to directions on the insecticide.

Be careful not to allow the mist of the spray to blow on your skin or your clothes. Wash your hands and face if the mist or spray comes in contact with your skin. You can't be too careful while handling insecticides or fungicides.

You'll never be popular if you spend all your time taking advantage of your right of free speech.

Cotton Congress Meets At Lubbock

Of tremendous importance to the South Plains area and to all of West Texas and Eastern New Mexico, will be the 22nd Annual Meeting of the American Cotton Congress to be held May 8 and 9 at the Pioneer Hotel in Lubbock, Texas.

Theme of this year's Congress is -- "Cotton, a \$22 Billion United States Industry."

lighted by experts in all fields of the cotton industry and top representatives of the Federal Government, including the Honorable James T. Ralph, Assistant Secretary of Agriculture, Washington, D.C., and the Honorable Edwin Martin, Assistant Secretary of State for Economic Affairs, Washington, D. C.

To remove fruit stains from cotton fabrics, pour very hot water through the discolored area.

Hereford, Texas

The above picture of WAC 700 was taken in January 1961. During the second week in March, this hybrid sorghum was harvested with a combine in the normal way. More than 65% of the grain was saved.

WAC 700 is resistant to head smut and in addition has good standing ability, and is high yielding.

In one test block near Hereford, it yielded over 9,000 lbs. per acre. In several tests in this area, WAC 700 yielded over 8,000 lbs. per acre under irrigation.

WAC 700 is 5 to 6 days later in blooming than RS 610 and is approximately 10 inches shorter in height.

WAC 750 is being released for the first time this year. It is a red seeded variety which is in the maturity range of 6:0. It has a good stalk and under ideal growing conditions it has exceptional high yield potential. We recommend that you try this hybrid if you are an irrigation farmer. Our tests in Mexico showed this seed to be very pure.

FOOTSAVING EDUCATION

By James E. Edwards
Are Good Shoes Better

Values Than Cheap Shoes Per Dollar?

There isn't much difference. When we buy something cheap we think (we hope) that we are saving somebody else's profit. Ironically, the best dividend paying stocks of shoe companies on the market are the stocks of companies that make cheap shoes. The factories are not in business for the sole purpose of saving money for the customer. Assuming that profits are necessary for any business the savings on cheaper shoes must be made on labor or materials. Labor costs are about the same per hour so any savings must be made by using less time per pair. Workmanship is important in shoemaking.

The leather market is so highly competitive that the only way the factory can save a significant amount on materials is to use inferior leather.

There are no secrets in the shoe business. As in every line of merchandise you get what you pay for.

ACTIVITY A-PLenty is what one will find this week at the Farmer County ASC office in Farwell, as farmers begin signing contracts under the new one-year emergency feed grains program. Here, Prentice Mills, left, ASC office manager, discusses the program with one farmer as others wait their turn.

270 Cattlemen Sign Petitions

First step toward getting Farmer County certified a Type II Brucellosis Control Area were completed last week when petitions signed by 270 cattlemen were mailed to the Texas Animal Health Commission. With the petitions, county cattlemen have requested the

state to send personnel into the county to test cattle for the disease and declare the area free of brucellosis. When this is done, cattle can be moved from here to any area in the country without restriction.

Lee Thompson, county tax assessor-collector, certified that the 270 signers represented more than 75 per cent of the cattlemen rendering cattle for taxes, and that the petitioners owned more than 51 per cent of the cattle in the county as reflected by the tax rolls.

After a 90-day waiting period, during which time a hearing will be held for protests, actual work on getting the area declared free of the disease will get under way.

A state veterinarian and his crew will come to the county, probably around August 1, with a mobile laboratory to run blood tests on cattle.

Cattle to be tested will include:
1) All registered cattle
2) All dairy cattle
3) All cattle in herds of 20 or less; and
4) 20 per cent of all commercial herds.

If a reactor is found among the 20 per cent of a commercial herd, each animal in the remainder of the herd will also be tested.

Efforts by interested cattlemen to get this area declared free of brucellosis were taken because a price differential from \$2 to \$6 has many times been noted between this area and certified areas which are participating in a brucellosis eradication program.

Cattlemen point out that there is little of the disease in the Farmer County area, but the market is still affected.

Results Released On District 4-H Contest

Results have been announced of the District 4-H Method Demonstration Contest which was held on the West Texas State College Campus, Saturday 29 beginning at 9:30 a. m.

Approximately 200 4-H club boys and girls, parents, Extension Agents, and special guests attended. Cooper Young, District 4-H Council secretary, of the Oklahoma Lane Community, presided over the general assembly and served at the information desk.

First and second place teams in the Senior Division in each of the Awards Programs will compete with teams from each of the 12 districts in the state. Four-H Roundup to be held in College Station on the Texas A&M College Campus June 6

and 7. Winners of the Junior Division Awards Programs are not eligible for State competition.

Listed below are the Farmer County 4-H contestants and how they placed.

Tractor Operators Contest--senior division, Gary Foster, son of Mr. and Mrs. Nelson Foster of Oklahoma Lane Community. He is a member of County 4-H Jr. Leadership Club. Gary will go to 4-H Roundup in June for State competition.

Farm and Ranch Management--senior division, third place, Gary Eubanks, son of Mr. and Mrs. Hoyt Eubanks, and Ronald Ashford, son of Mr. and Mrs. Ancel Ashford. Both boys are members of Lazbuddie Sr. 4-H Club Boys.

Farm and Ranch Management--junior division, first place, Bobby Gleason, son of Mr. and Mrs. Truman Gleason, and Johnny Gulley, son of Mr. and Mrs. Davis Gulley. Both boys are members of the Lazbuddie Jr. 4-H Club Boys.

Poultry Marketing Method Demonstration, senior division, second place, Judy and Bruce Billingsley, daughter and son of Mr. and Mrs. Leon Billingsley of the Oklahoma Lane Community. They are members of County 4-H Jr. Leadership Club. Judy and Bruce will represent Farmer County at 4-H Roundup in June.

Electric Team Demonstration--senior division, not in

first or second place, rating was not announced, Linda Lesly, daughter of Mr. and Mrs. T. O. Lesly, and Linda Gleason, daughter of Mr. and Mrs. Truman Gleason of Lazbuddie. Both are members of Lazbuddie Sr. 4-H Club Girls and Linda Gleason is also member of County 4-H Jr. Leadership Club.

Electric Team Demonstration--junior division, third place, Marquita Seaton, daughter of Mr. and Mrs. R. B. Seaton, and Brenda Tanner, daughter of Mr. and Mrs. V. T. Tanner. Marquita and Brenda are members of Lazbuddie Jr. 4-H Club Girls.

Beef Cattle Business--junior division, Steven Foster, son of Mr. and Mrs. Ben Foster, Jr., and Frank Hinkson, son of Mr. and Mrs. Frank Hinkson. Both are members of Lazbuddie Jr. 4-H Club Boys.

Soll and Water Conservation--junior division, 4th place, David Wimberley, son of Mr. and Mrs. Ira B. Wimberley, and Craid Schumann, son of Mr. and Mrs. D. L. Schumann. David and Craid are members of Lazbuddie Jr. 4-H Club Boys.

Public Speaking--junior division, second place, Marsha Aduddell, daughter of Mr. and Mrs. John Aduddell. Marsha is a member of the Lazbuddie Jr. 4-H Club Girls.

Farm and Home Safety--junior division, second place, Patricia Tannahill, daughter of Mr. and Mrs. C. W. Tannahill, and Susie Carmichael, daughter of Mr. and Mrs. D. L. Carmichael. Both girls are members of Friona Jr. 4-H Club Girls.

Vegetable Preparation and Use Team--junior division, first place, Marsha Schumann, daughter of Mr. and Mrs. D. L. Schumann, and Connie Harlan, daughter of Mr. and Mrs. W. G. Harlan. Marsha and Connie are members of Lazbuddie Jr. 4-H Club Girls.

Farmer County Extension Agents served as judges for two of the Awards Programs. Ettie Musil assisted in judging Dairy Foods record books. Joe W. Jones served as being in charge of Vegetable Production and Marketing Team judging.

NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

"Under the guise of providing 'social justice' for the weak, we are being sold on the idea that the use of force is good—that the end justifies the means. 'I am convinced that the great need of today is for a moral and spiritual revival which will turn our minds from the temptation to solve problems by setting force against force and return to God's way by helping individuals increase the power and purpose of their own lives.'"

Charles B. Schuman, president of the world's largest general farm organization, American Farm Bureau Federation, concluded his editorial with the above words in the May Nation's Agriculture.

Christian principles such as the above, continuously promoted by Mr. Schuman, are the things that make the membership respect and love him. He is not a flowery speaker, but a man of Christian principles. The extent to which Uncle

Sam is extending authority over county government was recently pointed out by a county by county survey of budgets in the state of Virginia.

For example, one county—King George—(adjacent to the county in which this editor lives) has completely lost its power over local institutions because more than fifty per cent of its expenditures were derived from federal sources. Each dollar King George county got from Uncle Sam had a string attached—the right of the federal government to control its use.

This is not an isolated case. Many other local governments are on the brink of federal domination resulting from the great game of "dollar matching." This is a quote from Glenn Martz in the Washington News Beat, April, 1961.

Nell Davis is notifying you farmers who have not filed for tractor gas tax refund in the last year that we will discontinue your file unless you specifically request us to continue it. Your secretary is glad to maintain the filing and notification procedure for all who want it.

Modeling a new dress made by her mother, Mrs. Joe White, is Joyce White. She was one of the ten children modeling at the show.

Another of the young ladies modeling was Susan Symcox, daughter of Mr. and Mrs. Vernon Symcox.

Mrs. Davis Guley of the Midway Home Demonstration Club models a dress and matching hat she made.

Another model, Mrs. Walter Kaltwasser, from the Oklahoma Lane Club models a traveling suit.

WITH THE COUNTY AGENT

JOE JONES

Most all cotton has been planted and, of course, the weather will determine just how much will be replanted. If the cold weather continues, much of the cotton already planted will be affected by the complex of seedling disease. How severe the disease complex will be depends on seed quality and how long it is before the soil temperature reaches 70 degrees.

Seedling cotton grows little when soil temperatures are below 70 degrees. Should your seedling cotton be diseased there is little you can do except cultivate to aerate a compacted soil and hope for hot weather. You should remember some of the seedling diseases cause permanent damage to the top root that affects the cotton all year.

Don't underestimate the value of vigorous seed of a disease resistant variety and a warm soil for getting cotton off to a good start. Most of you can plant your cotton in two places and select the better later. This has proven to be a very wise thing to do in some instances in the past. Some have made the mistake of making both plantings too early and getting in trouble with them both. Getting and holding a good stand of cotton is more important this year than in years past, the feed grains program being the reason for this.

It takes soil fertility and water to produce a good wheat crop. Most everyone has supplied the plant food, so don't limit your production by failing to supply the needed moisture. Wheat, wind, and temperature could take out four-tenths inch of moisture a day for the next several days. It will be a good idea to know what is happening to your wheat moisture. One of the best ways to find out is to do some soil probing or digging and take a look.

Those of you who are producing small grain for certification should get your applications in to Mr. Gene Cupp, 2814 34th St., Lubbock, Texas, within the next few days. This is very important so they can plan their inspection work and not hold you up at harvest.

Some of you may miss putting on your pre-planting fertilizer for one reason or another. If

so, be sure to get it on your cotton before the first watering, or to put it another way, do your fertilizing job in June. In case of corn or grain sorghum, get it on before the plants pass the ten leaf stage. Good results have been obtained on these crops from sidedressing alone, when applied early enough the crops never wanted for plant food. When sidedressing be sure you are not pruning roots to the extent you harm the plant. In case of cotton it would be very easy to harm the plant more, with such an application, than the expected benefits from the fertilizer.

Here's fashion's temperature control that you adjust to suit your needs. Wear the brief-sleeved button-front step dress alone . . . or cover up with its own checked jacket for air-conditioned rooms, sudden cool breezes. In an easy-care blend of cotton and Arnel triacetate. Black, green or blue with white 14 1/2-24 1/2, 12B-18B.

Style Show, Tea Highlights Of National HC Club Week

Highlighting National Home Demonstration Week in Farmer County, was an afternoon tea and style show held at the Oklahoma Lane Community Center and co-sponsored by the Oklahoma Lane and Midway Clubs. More than 88 persons attended the affair and saw the 32 models modeling garments including, dresses, suits, shoes, hats and bags as well as children's clothing. Copper pictures, various clothing, dolls, lamps, hats and glitter pictures were among the many items on display in the building. Guests were registered by Mrs. Dee Chitwood and presented with unique name tags in the shape of a woman upon entering the registration room. Refreshments of punch, coffee

and a variety of cookies were served from a table which was centered with a house made from confections. An arrangement of orchid and white bridal wreath and iris was used in the room. Models made their entrance to the stage through an archway entwined with roses. A cherry tree and other floral arrangements on the stage completed decorations. Mrs. Vernon Symcox from Oklahoma Lane was Mistress of Ceremonies for the occasion, and also presented two musical selections accompanied by Rev. A. R. Sander at the organ. Rev. Sander also provided background music for the style show. More than 20 guests were among the persons attending.

4-H Club News

Members of the Lazbuddie 4H girls club met on April 21 for their regular meeting. Charlotte Seaton called the roll before Linda Gleason, president of the 4-H council gave the report on the last council meeting.

The girls voted during the meeting to meet during the summer months at various member's homes.

A covered coat hanger sale will be held soon as a money raising project for the club. Demonstration for the afternoon was given by Kay Hassell and Jannette Slaton. Six members, an adult leader and three visitors were present at the meeting.

I Get 5% Dividends On My Money At . . . FIDELITY SAVINGS & LOAN

5th at Mitchell PO 3-5581 Clovis, N. Mex.

Your Neighbor . . . MARVIN GREEN Uses Sol-U-Phos LIQUID FERTILIZER

DIVISION OF GOODPASTURE GRAIN & MILLING CO., INC. Home Offices—Brownfield, Texas

MARVIN GREEN . . . Hockley county farmer . . . had this to say about Solutions: "I really gave Liquid Fertilizers a test last year. After all the heavy rains we had, I went back and side-dressed my cotton with Liquids. I saw a big increase in production in comparison to what some of the other county farmers gathered who didn't use another application of fertilizer."

This is Green's second year to use Solutions. He uses the tool-bar mounted applicator-cultivator with front-mounted saddle-type barrels. With this type rig—Green added: "I was able to apply 50 acres or more per day of fertilizer. And another thing, I have never been able to get the results from other types of fertilizers that I have received from Liquid . . . with the saving in labor expense, plus the low initial cost of SOLUTIONS, I don't know why everyone doesn't use Liquid Fertilizers."

Looking for a SOLUTION to your fertilizer problem? Then see your local Liquid Fertilizer Dealer . . .

Shower Courtesy Fetes Mrs. Dickie Steelman

Mrs. Dickie Steelman was feted with a bridal shower Tuesday afternoon in fellowship hall of First Baptist Church. Mrs. A.L. Kerby presided at the guest register. Corsages were presented the honoree, her mother, Mrs. J.D. Vaughn, and her mother-in-law, Mrs. A.E. Steelman. Mrs. Dick Martin provided musical selections. Serving table carried out the bride's chosen colors of blue and white. Out glass candelabra adorned with white sweet-peas and blue beauty branches graced the table which was laid with a white cutwork cloth over blue. Refreshments of punch and cookies were served to guests. Out-of-town guests included Mrs. Jack Smith and Mrs. Glenn Scott of Lubbock; Mrs. J. E. Vaughn of Farwell; Mrs. Albert Eggers of Muleshoe; Mrs. G.A. Brock of Friona; and Miss Beth Peeler of Reed, Okla. Others present were Miss Vivallah Steelman, Mrs. H.J.

Charles, Mrs. Ovid Lawlis, Mrs. J.L. Glover, Miss Myrna Downs, Mrs. Frank Turner, Mrs. Don Bandy, Mrs. Boye Taylor, Mrs. Cecil Berry, Mrs. Dick Martin, Mrs. A.D. Cumpston, Mrs. C.W. Crisp, Mrs. Don Murphy, Mrs. R.N. Williford, Mrs. A.M. Martin, Mrs. P. A. Adams, Mrs. Terry Adams, Mrs. Levi Johnson, Mrs. Bobby Englant and Mrs. Warren Embree. Hosting the occasion were Miss Opal Perry, Mrs. Earl Richards, Mrs. Jessie Williams, Mrs. J.D. Stevens, Mrs. R.S. Johnston, Mrs. A.L. Kerby, Mrs. Bill Hutto, Mrs. Lester Rhinehart, Mrs. Gene Rea, Mrs. Roy Dodson and Mrs. J. P. Macon.

Friendship Class Is Entertained

Fellowship hall of Methodist Church was scene of a social for members of Friendship class Friday evening. Following an evening of games the group was served refreshments of homemade ice cream and cake. Attending were Mr. and Mrs. Leon Ware, Mr. and Mrs. Jimmy Willard, Rev. and Mrs. Davis Edens, Mr. and Mrs. Allen Ethersman and Mr. and Mrs. Oakley Stevenson. Hosting the social were Mrs. Willard, Mrs. Stevenson and Mrs. Jimmy Ware.

Congratulations

Mr. and Mrs. Richard Baxter welcome the birth of a 6 pound 5 ounce baby girl born Sunday morning at Parmer County Hospital in Friona. The new arrival is named Andrea. Grandparents are Mr. and Mrs. Louis Baxter of Friona and Mr. and Mrs. William Reiszwig of Thomas, Okla.

Of Interest To THE WOMEN

Widow's Club Presents Program To Study Club

Three members of Widow's Club presented program, "Mental Changes," to members of Bovina Woman's Study Club Thursday afternoon at the club house. Mrs. J.R. Caldwell presented the topic "Youth"; Mrs. H. T. Hastings, "Middle Age"; and Mrs. Margaret Caldwell gave a talk on "Senior Citizens." Other members of Widow's Club were special guests for the afternoon and were recognized by Mrs. Ovid Lawlis, president of Woman's Club. During the short business session two new members were accepted into the club for the coming year. They are Mrs. Keith Garner and Mrs. Dolph Moten.

Following the program refreshments of punch and cookies were served from a table laid with a lace cloth and graced with an arrangement of garden flowers in a crystal bowl. Hostesses for the afternoon were Mrs. Joe Moore and Mrs.

Jesse Walling. Honored guests present included Mrs. Ida McSpadden, Mrs. G. E. Free, Mrs. J. R. Glover, Mrs. Maldee Brown, Mrs. W.W. Wheeler, Mrs. J. Sam Gaines, Mrs. J.R. Caldwell, Miss Lula Smith, Mrs. Rita Caldwell, Miss Ellen Reminslder, Mrs. Margaret Caldwell and Mrs. H.T. Hastings. Others present were Mrs. Rouel Barron, Mrs. Warren Morton, Mrs. H.D. Bradshaw, Mrs. E.C. Berry, Mrs. A.E. Steelman, Mrs. Robert Read, Mrs. Billie Sudderth, Mrs. Clarence Gaunt, Mrs. Charles Vickers, Mrs. Lawlis, Mrs. Walling and Mrs. Moore.

Candy Turner Has Party

The home of Mr. and Mrs. H. N. Turner was the scene of a birthday party honoring their daughter, Candy, Saturday afternoon. She was five years old. Following group games played in the yard the youngsters were served refreshments of birthday cake and ice cream. Favors of color books, balloons and gum were presented to guests. Attending were Margaret Minter, Shelly Bonds, Darla Hawkins, Darlene Murphy, Janie Russell, Jana Rogers, Rhonda Barbee, Bobby Wayne Englant, Bennie McCain, Jackie Adams, Stevie Turner and the honoree.

Jimmy McLeroy Has B'day Party

Jimmy McLeroy, four-year-old son of Mr. and Mrs. James McLeroy, celebrated his birthday with a party Thursday morning at his home. Favors of miniature cars, bracelets, balloons, suckers and gum were presented to the youngsters. Following some games refreshments of ice cream, cake and punch were served to guests. Attending were Randy and David Kennedy, Randy Gee, Jana and Joni Rogers, Patti and Debbie Mills, Gaylin Holcomb, Bobby and Lisa McLeroy and the honoree. Adults present were Mrs. Jerry Rodgers, Mrs. Paul Holcomb, Mrs. Malcolm Kennedy and Mrs. Hallie Gee.

Beauty seems to be determined more by the way you make up your mind than by the way you make up your face.

Clements Host Bridge Dinner

Mr. and Mrs. Jimmy Clements hosted Couples Bridge Club Thursday evening in their home. Covered dishes of salad, rolls, and vegetables complemented the baked ham dinner.

A.B. Wilkinson Has Surgery

A. B. Wilkinson underwent major surgery Friday morning at Parmer County Community Hospital in Friona for a stomach condition. He is reported to be improving but receiving few visitors.

New Couples Entertained

Mr. and Mrs. D.R. Bushnell entertained several couples with a get-acquainted snack supper Tuesday evening in their home. The buffet supper consisted of smoked turkey sandwiches, chips, relishes, homemade ice cream and cake. Among those present were Mr. and Mrs. Allan Ethersman, Mr. and Mrs. Nils Person, Mr. and Mrs. Charles Thompson, Mr. and Mrs. Burl Spears, Mr. and Mrs. Mark Charles and the hosts.

Mrs. Moody At Home

Mrs. E. H. Moody was hospitalized Wednesday at Parmer County Community Hospital in Friona. She is suffering with a heart condition. She was released Monday afternoon and her condition is improved.

Mrs. Jefferson In Hospital

Mrs. Charlie Jefferson was admitted to Parmer County Community Hospital in Friona Friday for medical reasons. Her condition is improved. Postman and dog stood eyeing each other at the gate when the lady of the house came to the door. "Don't be afraid of the dog," she said. "She's a female, you see, and she likes you." "Madam," countered the fellow with the sack on his shoulder, "the mere fact that she's a female does not assure me that she had any affection for me. I'm a mailman, not a male dog!"

B'day Parties Honor Miss Barbara Griffith

Mrs. Ralph Roming and Vernon Willard won prizes for the evening. Attending were Mr. and Mrs. Jimmy Ware, Mr. and Mrs. Leon Ware, Mr. and Mrs. Vernon Willard, Mr. and Mrs. Don Sides, Mr. and Mrs. Glenden Sudderth, Mr. and Mrs. Oakley Stevenson and guests, Mr. and Mrs. Roming.

Father Dies

Roscoe Meek, pioneer resident of Wheeler County since 1917, died at his home in Mobeetle at 9 a.m., April 25, while working in his garden. He was 81 years old. Funeral services were held April 25 at Mobeetle Baptist Church. His wife preceded him in death July, 1960. Survivors include Mrs. George Trimble of Alamogordo, N.M. and Mrs. Etherlee Dyson of Mobeetle.

Has Surgery

Terry Willard, daughter of Mr. and Mrs. Vernon Willard, underwent minor surgery Monday at Amarillo. She is expected to be released early this week.

Bridge Class Entertained

Mrs. Mark Charles entertained Thursday evening bridge class from Clovis in her home Thursday. Following an evening of party bridge refreshments of cookies, Cokes and coffee were served to guests. Those present included Mrs. Faye Edwards, Mrs. Scottie Kirby, Mrs. Billye Horton, Mr. and Mrs. Carleton Davis, Mrs. Nan Griffin, Mrs. Edna Stalker, Mrs. Helen Stone, Mrs. Beth Kibler, Mrs. Mary Kay Nobholz, Mrs. Mary Frances Graham, Mrs. Frances Blair, Mrs. Shelvey Johnson, Mrs. Lula Maye Sims, Mrs. Clem Collins, Mrs. Kathryn Shumite of Clovis and Mrs. Jimmy Charles. Assisting the hostess were Mrs. Erith Hawkins and Mrs. Dolph Moten.

IN MILER RUN--

Don Caldwell To State Meet

Don Caldwell, ace Bovina Mustang trackster, will represent the Maroon and White in state track and field meet in Austin this weekend.

Caldwell's event is mile run. To qualify for the state meet, he finished second in regional action at Lubbock 10 days ago.

His regional time was 4:40.4. Running in Red Raider Re-lays at Texas Tech in Lubbock Saturday, the Bovina miler ran to a fourth place finish against all-classification high school competition.

He outran all entrants from B, A, and AA entrants, but was outdistanced by three runners from Class AAA and AAAA schools.

At state meet, Caldwell will make his qualification run Friday. If he qualifies for the finals, he will run again sometime Saturday afternoon, according to his coach, Hallie Gee.

Accompanying Caldwell to Austin will be Gee and his parents, Mr. and Mrs. E. B. Caldwell.

Attend State FHA Convention

Highlighting state FHA Convention in Dallas last weekend was a talk by Billie Davis, famed "Hobo Kid." She spoke on "Life's China Closet." She is currently the Christian Education Consultant for Latin America.

Attending the convention from Bovina were Judy Roach, Janet Gooch, Patricia Crawford and sponsors, Mrs. Charles Thompson and Mrs. Roy Crawford.

Dr. Travis Shelton of Southern Methodist University was in charge of the music. Miss Roach was a member of state choir.

Exchange students from Sweden, Austria and Switzerland presented talks at the banquet meeting Friday evening. Theme of the banquet was "Those Wonderful, Wonderful Years."

Janet Gooch, Bovina's voting delegate, was present for the breakfast meeting Saturday morning. Following the business session officers for the 61-62 term were installed.

Other highlights of the trip included a shopping trip in Dallas and visits to points of interest.

The group returned Sunday afternoon.

Whittlin'--ball can come back into sports picture in near future. Maybe even next season.

It's not fair to boys, we think, to have them in a Little League program for four or five years, and then when they really get old enough to play a good brand of baseball to tell them they have to run track instead. Such just doesn't make sense to us.

A couple of Bovina athletes have earned college scholarships on their baseball playing ability in recent years. First was Darrel Read who played for Texas Christian. Now, Ramey Brandon is making a good impression as a sophomore pitcher for Texas Tech.

Neither of these boys would have had as good an opportunity to receive baseball scholarships without benefit of high school ball, which they both played for Bovina High.

Somebody once said, "Do something; it might be right." We think that's good advice.

GO MODERN WITH GULF WARRENGAS
DOWN...GO TRACTOR OPERATING COSTS-- UP GOES EFFICIENCY
when you use **GULF WARRENGAS FUEL**
Clean! Warrengas Fuel is free of lead additives --there's no carbon and lead deposits to gum up your engine. Warrengas keeps tractor engines clean year after year--cuts repair and maintenance costs up to 50%.
Powerful! 115-plus octane rating gives you greater pulling power, more lugging power, higher speeds. Saves you many valuable working hours.
Economical! Warrengas costs less than gasoline in most areas. So easy on your engine--you use 2 to 3 times less oil--and spark plugs last longer.
FOR MODERN FARMING USE

Warrengas is the LP-Gas member of the Gulf family of quality petroleum products.
