Thank you, Texas Newspapers!

22 pts.

28 pts.

20 pts.

For 20 years, Texas newspapers have been giving the government free space in which to advertise U. S. Savings Bonds.

You've seen the ads: you save more than money with U.S. Savings Bonds. Those ads have sold an impressive number of bonds in Texas, bonds that have helped, and are helping, your government defend freedom at a precarious moment in history, when freedom is in desperate need of defending.

When you buy these bonds you serve well the cause of liberty. You enable your country to build up her own defenses without doing damage to her economy. You insure the future for this and succeeding generations.

The space occupied by the ads that sold those bonds was donated to your government - and that means to you — by the newspapers of Texas.

We thought you'd like to know.

"The public-spirited newspapers of Texas have made an important contribution to the well-being of this country," says Ed Gossett, Co-Chairman of the Texas State Savings Bond Committee.

"We are happy to salute the generous newspapers of this State. They have done their part, and more, in giving the public an understanding of the importance of Savings Bonds — to individual buyers, and to the cause of freedom. And they have certainly made this Committee's job easier."

You save more than money with

March of Dimes Mothers Hold Key In Fight Against Crippling Disease

ing Mothers, wearing the symbolic Golden Key of Hope, will appear on America's doorsteps toward the end of January asking support for the 1962 New March of Dimes fight against crip-pling birth defects, arthritis and polio.

Why do these women brave winter weather to ask their neighbors for funds?

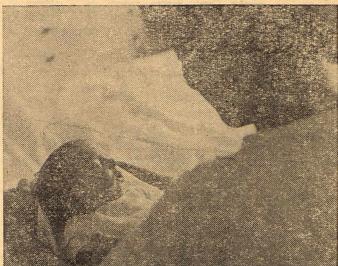

Mrs. Phyllis Sublett of Evansville, Ind., does it because ex-perience with her fourth child, three-year-old Stevie, who was born with a birth defect, has shown her the need to have medical help more readily available in the community when an imperfect child is

"Stevie was born with an open spine and water on the brain in 1958, the year The National Foundation expanded its program to include birth de-fects," says Mrs. Sublett. "I had never heard of either condition. Since then I have learned that these malformations, and hundreds of other birth defects, afflict one ou of every 16 babies born in this country

"These children need help, their parents need to know where to find the specialists who can give prompt and effec-tive treatment. I know now that the March of Dimes sup-ports work in clinics to im-

to great medical institutions.
"The March of Dimes already supports nearly 50 centers cause I know firsthand how important this work is."

Marching Mothers across the

"IS MY BABY ALL RIGHT?"-More than 250,000 mothers of babies born with birth defects in the U.S. each year hear a heartbreaking reply to this question. Marching mothers will seek public support late in January for March of Dimes research and patient aid to control crippling birth defects and rheumatoid arthritis, just as polio

thing you got when you reached with it each year. It can twist and cripple little bodies with permanent disability if it?

prove treatment, in laboratories to find the causes, and is building a network of diagnostic and treatment centers to make new knowledge available to everyone, not just those for the new knowledge available to everyone, not just those for the new knowledge available to everyone, not just those for the new knowledge available to everyone, not just those are working hard to find out 40,000,000 households they call what causes arthritis and how to prove of the meaning the new forms of the new form able to everyone, not just those are working hard to find out fortunate enough to live close what causes arthritis and how it can be prevented or cured.
I'm a Marching Mother because I know firsthand how will be identified by a distinction.

this help and hope exists. I want to ask their support so the 250,000 American babies born each year with birth defect, marched actively until the past year. But then her own arthritis forced her to "retire" to a quieter paperwork and record-proper treatment."

In Denton, Tex., Mrs. Mona Grisham says, "Until our lit-"

Devil's River Philosopher Claims Canada Has Worst Foreign Policy --It's Those Canadian Cold Fronts

weed ranch on Devil's River dis- is Canada. cusses foreign policy this week, It's those Canadian cold fronts or cold weather, it's hard to tell Canada is always pushing down which.

Tabulation, and Statistical Ser-

The Current Records program is responsible for registering all births and deaths in the State, completing and correcting these records, filing new birth certificates based on adoption and legitimation, and filing amendments based on court orders of change of name.

Nearly all Texans, at one time or another, require the services of the Records Services program. These include requests for certificates which are filed in Austin, searching the files, filing delayed certificates of birth, and processing more than a half million pieces of mail annually.

Busiest season for the year is middle and late summer, when he opened a closet door in a visions of charts, computing tens of thousands of mothers request certified birth certificates to submit to schools as proof-ofage for entering first-graders.

Fees are charged to defray the cords and Statistics Section. charges are \$1.50 for a certified One of Eastland's most in- Everyone is too busy to let much copy of a birth or death certificate; \$3.00 for filing a new birth certificate based on adoption; \$3.50 for filing a new birth certi-\$2.00 for filing an amendment based on a court order of change of name; and \$3.00 for filing a delayed certificate of birth.

sis, interpretation, and presenta-tion of data contained in records; other reasons for holding that geographic and cause-of-death up. coding of vital records; graphic arts; and microfilming.

Editor's Note: The Devil's I'm concerned the country with River Philosopher on his bitter- the worst foreign policy on earth

> on the United States, that's what I'm talking about.

People are always talking When the forecast announces about the United States' foreign a Canadian front is heading this policy, especially when they can't way, you can expect the worst. Tues., Feb. 13, Big Lake, there. figure out the answers to all our I know we can produce some cold Fri., Feb. 16, Eldorado, here. domestic problems, but as far as spells on our own, a low can develop in one part of the country and sweep cold air down on cords, Record Services, Machine but when it comes to the really jolting cold waves, Canada has us beat. There's a weather gap between our cold and Canada's that makes the missile gap look

> In fact, so many cold fronts have been coming out of Canada this winter you'd think we'd been sending foreign aid up there and missed our December installment.

Speaking of foreign policy. non-weather variety, there's one thing that has been puzzling me for a long time. Washington experts are always worrying about how a course of action will-affect some foreign country. "What will they think of us in Latin America if we do this or that?" they ask. Or, "How will this affect SouthAfr ica's opinion of us? We can't afford to make them mad at us."

Well, this is all fine and good, but what I'd like to know is: does any other country on earth ever stop to ask how its course cost of various services. These of action will affect the United States? How is it that we can't afford to make them mad, but they can all afford to make us mad? Isn't there just one country in the world which ocficates based on legitimation; casionally sits down and ponders how it's getting along with us? You mean to say the friendship between the United States and the world is 100 percent onesided?

I wish you'd use your influence ment and is responsible for the if you haven't mislaid it somecords to punch cards and the world-wide search for just one country which wakes up some The Statistical Services pro- mornings wondering how it's gram offers statistical services getting along with the United and consultation to all divisions States. DO YOU

DO BUSINESS LOCALLY? IF YOU DO, YOU SHOULD Advertise Regularly In This Newspaper **BECAUSE**

1. Our circulation is local. People who read this newspaper are your best customers.

2. Our circulation is paid in advance. Thus, people who get the paper read and respect it. They show they do by paying for it and sharing it with their neighbors.

3. This paper contains news vital to local residents and available nowhere else.

4. This paper is not so large that your advertisement will be "buried" in it.

5. The "long life" of weekly newspaper readership is an established fact. Papers are still being bought over the counter several days after publication, until the next issue comes out. Thus, your ad has a longer time which to be read.

6. This paper is published just before the weekend, at a perfect time for readership results.

7. Space cost is reasonable-much lower than any other method of getting your message to the public.

Robbery Suspects Arrested Here

Verde County Jail on charges of armed robbery after having been apprehended about four miles south of Sonora Friday afternoon.

The trio, and two women companions who were later released, were the object of a search after Val Verde County Sheriff Herman Richter notified Sutton County Sheriff Herman E. Moore that they were wanted for the armed robbery of a Del Rio liquor store. Only \$17 was taken in the holdup.

Following the message from Richter, Moore headed south on U.S. 277 and after spotting the car followed it some 15 miles to ward Sonora. Highway Patrolmen Les Strawn, waiting four miles from town, enlisted the aid of an unidentified driver of a large oil drilling rig who parked his rig crosswise at a bridge. Unable to bypass the block, the men gave themselves up without resistance.

The men were identified as George McIver, 29, of Boston, Massachusetts; Danny Dean Cooley, 24, of Houston, and Paul Lester Keyes, 20, of Seven Valleys, Pennsylvania. The car in which they were riding was reported stolen in Houston Wednesday, January 24.

Ford eliminates 10 out of 12 service stops required by most cars!

In a 1962 Ford Galaxie or Fairlane you can go all year-or 12,000 miles-with only two stops for service. This revolutionary new twice-a-year maintenance program-available only in the cars from Ford - frees you forever from the nag-nag-nag of month-after-month servicing. (See chart.) It's the biggest thing that's happened to cars since Ford introduced the 12-month or 12,000-mile warranty.* See your Ford Dealer soon-and start saving time and money with the convenience of twice-a-year maintenance. It's another Ford first!

*Ford Motor Company warrants to its dealers, and its dealers in turn, warrant to their customers as follows: That for 12 months or for 12,000 miles, whichever comes first, free replacement, including related labor, will be made by dealers of any part with a defect in workmanship or materials. Tires are not covered by the warranty, appropriate adjustments will continue to be made by the tire companies. Owners will remain responsible for normal maintenance service
