West Texas Lakes Promise Good Fishing This Summer

Fishing prospects for the lakes in Texas Game and Fish Commission Region I were released recently by aquatic biologists working with the Commission. Headquarters for Region I are located in San Angelo and these lakes are all within weekend driving distance of Sutton County fishermen.

Abilene Lake, 17 miles southwest of Abilene, surface area of 641 acres. Boat launching areas and concession facilities available. Fishing will be good throughout most of the year. One of the few lakes in Region I where large sunfish are present. The prized Georgia bream

and large green sunfish abound, making this a splendid lake for flyrod fishermen.

Ascarate Lake, at El Paso, surface area 47 acres. Boat launching, picnic areas, concession facilities and ski jumps available. Bass production is good but catches are generally in the 8-12 inch class since most fish are caught before reaching maturity. Continued good fishing is forecast for 1962.

Balmorhea Lake, one mile south of Balmorhea, surface area 573 acres. Facilities include boats for rent, camping area and fishing by permit. This lake was recently restocked with over 32,000 game fish. Fishing should be fair early this summer, excellent by fall.

Baylor Lake, nine miles northwest of Childress, surface area 600 acres. Boats, camping areas and bait available. A very good black bass lake with good promise for 1962. This spring an 11 pound, two ounce bass was caught in this lake.

Buffalo Springs Lake, ten miles southeast of Lubbock, 4,780 acre feet capacity. Cabin sites, boats for rent and bait available. In the beautifully clear water, excellent bass fishing is expected although bass will be small. Channel catfish and crappie fishing will be fair this summer, and very good by October.

Champion Creek Lake, 7.2 miles south of Colorado City, surface area 1,840 acres. Access difficult and no concession or improved launching facilities. Bass, sunfish and catfish are all in excellent condition and fishing success should be high this summer.

Childress Lake, seven miles northwest of Childress, 100 surface acres. Boats, camping areas and bait available. Excellent prospects are forecast for crappie and channel cat fishing this summer.

Colorado City Lake, six miles south of Colorado City, 1,850 surface acres. Boat launching, concessions, park area. Excellent fishing expected in 1962.

Devil's Lake, 16 miles northwest of Del Rio, 11,700 acre-foot capacity. Launching, cabins and concessions but shoreline access limited. Fishing prospects good at present but will be better following increases in water volume.

Fort Phantom Hill Lake, 12.5 miles northwest of Abilene, 4,246 surface acres. Cabins, boat launching and concessions with limited picnicking areas. Sporadic plug fishing success can be expected and trotline fishermen should catch some large yellow cat this summer.

Imperial Reservoir, 35 miles north of Fort Stockton, 17,000

Goldberg Driving For Bracero Control Says O. C. Fisher

AN ALL-OUT DRIVE by the secretary of Labor to take over complete control of agricultural labor in this country is being

acre feet capacity. Boats, cafe and bait available. White bass fishing will continue to be better than most lakes. Salt water fish (redfish and flounder) should be caught occasionally weighing six to ten pounds, but promptly release them without injuring them so they may have opportunities to reproduce. Report all salt water fish catches to the nearest concessionaire.

J. B. Thomas Lake, seven miles west of Ira, 30 miles north of Big Spring, ten miles southwest of Snyder, 7,820 surface acres. Concessions, cabins and boat launching. Prospects are excellent for white bass and catfish. Crappie fishing should be good and even better by the winter of 1962-63.

Lytle Lake, three miles south of Abilene, 6,300 acre-feet capacity. Privately owned with limited conveniences. Good prospects for catfish and fair for largemouth bass and sunfish.

McClellan Lake, 25 miles south of Pampa, 5,005 acre-feet capacity. Boats, bait and camping areas available. McClellan is noted for its fine channel catfish. Except for stunted crappie populations, game fish species are in good condition. White bass populations are fair with some reaching three pounds.

To be continued about the lakes in Region I.

pushed. By Executive order, interpretations of existing laws, and by legislation, the drive is on.

Already over in the Senate a half dozen bills have been quietly passed which restrict private control of workers on farms and give Labor Secretary Goldberg ever-increasing powers in that respect.

One Senate-approved bill restricts the rights of youngsters under age 14 to do farm work; another forces registration of farm labor contractors; another would create a National Advisory Council on Migratory Labor. Other pending legislation would give more authority to the Secretary in fixing farm wages, working conditions, housing and a multitude of other things. All of these are being advocated by the Labor Secretary.

When Jerry Holleman was Assistant Secretary of Labor, he triggered the big drive to make the Mexican bracero program unworkable, and he had the backing of Secretary Goldberg. By controlling the United States Employment Services the Labor Department has been flexing its control muscles by spelling out the terms and conditions of employment on farms and ranches which must be met before the USES will lend a hand in recruiting employees. And, although never authorized by Congress, the Labor Department has on occasions decreed that if USES is used wages and working conditions for those employed through it must be on a par with braceros. And the same Department has made the conditions for contracting braceros next to impossible to meet.

IT IS ALL A PART OF A grab for power by Empire builders. About every month some new decree or announcement is

made by the Labor Department regarding restrictions on agricultural labor. And the drive for more power by legislation is being quietly but relentlessly pushed by Administration forces.

Yvonne Young, daughter of Mrs. Lois W. Young and Wesley C. Young, is attending Camp Waldemar near Hunt this summer.

Colonists Of 1776 Based Declaration On English Idea

American colonists were simply taking a page out of English history when they declared their independence on July 4, 1776.

Many of the ideas contained in the Declaration of Independence had been used by the English to justify their own revolution of 1688.

"The Glorious Revolution", as the English called it, set James II fleeing to France and brought to the throne William and Mary. It also resulted in a bill of rights that reads suspiciously like the forerunner of the American Declaration.

The "self-evident truths" and "unalienable rights" noted in the Declaration, for example, recall the "true, ancient and indubitable rights" of the English document. Both complained about taxes, although for different reasons, and condemned the maintenance of a standing army.

While the Americans studied their history books, however, the British ignored the lesson—with the result that another glorious revolution rocked Great Britain and a new nation was born.

MRS. TRAINER HOSTESS TO THURSDAY BRIDGE

Mrs. Louie Trainer was hostess to members of the Tuesday Night Bridge Club at her home this week.

Mrs. Cleveland Nance entertained members and guests of the Twice Tuesday Bridge Club with a luncheon at her home this week. Arrangements of dahlias decorated the party rooms.

Mrs. Doyle V. Morgan held high score for guests and Mrs. D. C. Langford for members. Mrs. Bill Tittle won the slam prize and bingo prizes went to Mrs. Bob McMinn for guests and Mrs. Robert Pfluger for members.

Others attending included Meses. Nolan W. Johnson, Joe Nance, W. A. McCoy, James Hunt, Clayton Hamilton, George Wallace and Norman W. Rousselet.

Eight Texans Will Die On Highways Next Wednesday

The Director of the Texas Department of Public Safety reported today the past experience indicates eight persons will be killed in traffic accidents during the coming Fourth of July holiday in Texas.

Colonel Homer Garrison, Jr. announced that "Operation Motorcide" will be in effect from 12:01 a.m. through 11:59 p.m. July 4, and that during this period the regular Highway Patrol force will be joined by units of the License and Weight and Motor Vehicle Inspection services in the general traffic supervision effort.

Mrs. W. J. Fields, Jr. spent last weekend in Austin visiting her son and family, Mr. and Mrs. Fred E. Fields and Michelle, and in San Marcos with her daughter Francine who is attending San Marcos Baptist Academy.

Garrison called for the "cooperation of all Texas drivers to help prove that the estimate of eight traffic deaths compiled by our Statistical Services Section is too high." He continued:

"The Fourth of July marks the mid-point of the summer vacation period, when Texans are really on the move. It is the time of the year when they go more places to see the wonders Texas offers its vacationers.

"With the tempo of travel picking up it is important to drive according to traffic laws and regulations—the rules set down for the protection of the driving public.

"Common sense says it is hard for a person to enjoy a trip if he is constantly squirming out of dangerous traffic situations caused by unlawful driving—his own or someone else's."

Garrison said the Fourth of July could be the turning point in the battle against death on the highways this year. During the first five months depart-

The Devil's River News-Sonora, Texas, Thursday, June 28, 1962

ment records showed a six percent decrease in the number of fatalities as compared with the same period in 1961.

The public safety director cited the large number of bad wrecks which have occurred in recent weeks. The first few days in June five accidents killed 24 persons and, in each accident at least one traffic violation was a causative factor. As is usually the case, he said, the most common of these were excessive speed, driving while drinking, improper passing or driving with defective equipment.

"Operation Motorcide" is a program designed to focus public attention on the added dangers of travelling by motor vehicle during holiday periods, Garri-

son explained. During the 24-hour period of the Fourth of July, all fatalities resulting from traffic accidents over the state will be tabulated. Motorcide bulletins will be issued at 10 a.m., 3 p.m., with a summary bulletin to be issued the morning of July 5.

Devil's River Philosopher Comes Out With A Cat-Equalizing Tax Program For The Non-Cat-Lovers

Editor's Note: The Devil's River Philosopher on his bitterweed ranch on Devil's River may have made a few cat-lovers mad with his tax proposal last week. He completes the job this week by making the non-cat-lovers mad.

Dear editor:
I notice that Congress is trying to raise the Federal debt limit again despite the fact I furnished a new source of tax revenue last week amounting to at least 100 million dollars. If you recall, all I suggested was that all taxing units assess a \$5 tax per cat on the estimated 10 million cats in this country.

Some cat lovers I understand didn't go for this idea much, but I wasn't trying to find a popular source of new tax revenue, only a dependable one. The only popular tax I've ever seen is one that has just been repealed, and you don't find more than one or two of those in a lifetime.

The midnight ride of Paul Revere was only one of the patriot's contributions. He cast bullets and cannon during the Revolutionary War, designed and printed the first issue of Continental paper currency, and built the first copper-rolling mill in the United States.

Now I promised to report on another new revenue source, and it too involves cats.

According to a newspaper account I read last night, in one city of 500,000 people there are an estimated 175,000 unclaimed cats, cats just running free, roaming the city, scrounging a living wherever it turns up.

All right, just as there are millions of people who would pay \$5 to keep from giving up their cats, there must be an equal number willing to pay that much to avoid owning one. There you are. If the taxing units are on their toes, they'll gather up these hundreds of thousands of stray cats and give the non-cat-lovers a choice: pay a \$5 tax, or accept a cat. The money would roll in.

As a matter of fact, a city wouldn't even have to gather up all the stray cats. Just give them a number, like a non-existent West Texas fertilizer tank, and collect the five bucks from the cat-haters.

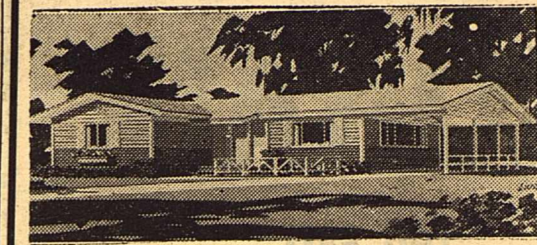

Under this system, everybody gets taxed, the cat population remains healthy, all government units have more money to spend, and the people can continue to holler for more government economy in the adjoining states and more government services in

their own.
If Sonora runs short of cats in this program, there are some extra ones running wild out here

on this bitterweed ranch they're welcome to.
Yours faithfully,
J. A.

A message from the Treasury of a free people

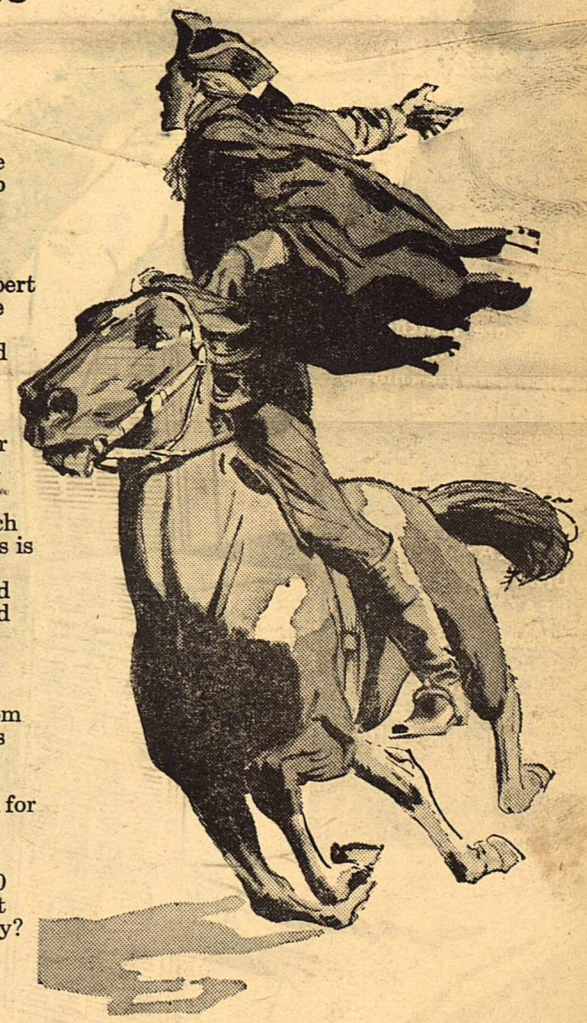

You, too, can help put down a threat to freedom

Uncle Sam has had some pretty conscientious help in the "freedom department" over the years.

Some of the best-known contributors were an expert horseman named Revere . . . a group of amateur stevedores who made iced tea in Boston Harbor . . . and a party of revolutionaries who created an unsplit nation under the shadow of a cracked bell.

Today the freedom which those patriots won for us is being challenged. And freedom will always need brave men to defend and preserve it. Men and women, like you.

You can do your share toward defending freedom by buying United States Savings Bonds today. The dollars you invest this way go right to work for your country now, as well as for your future. How about buying a \$50 Savings Bond (the most popular size) next payday? The cost is only \$37.50.

Best known for his midnight ride to Lexington, famous patriot Paul Revere also designed the first Continental currency, the first official seal of the Colonies, and the state seal of Massachusetts, still in use today.

A BOND OF FREEDOM! That's what MISS AMERICA (Maria Beale Fletcher of Asheville, N. C.) is displaying—although you, and she, know it better by its official name of U. S. Savings Bond, Series E. Maria became a bond-owner the day she was born, 19 years ago, and knows the patriotic and practical benefits of regular bond-buying. That's why she recommends that Americans purchase extra Savings Bonds during the 1962 Freedom Bond Drive.

YOUR MINISTER SAYS

Notes On The Meaning Of The Church

Have you ever considered seriously what the church is all about? Time and again, a minister considers this problem. On the one hand, he hears that the church is a bunch of hypocrites, patting themselves on the back over what they don't do. On the other hand, he must take seriously the scriptural word that the church is the called people of God, regardless of whether or not their hypocrisy and orneriness sometimes shows. Some of the criticism comes from a lack of understanding, both within and without the church, of what the church really is supposed to be.

First, there is the country-club misunderstanding. There are those, many of them members of the church, who view the church as being a country club exclusively for the "Saints of God on Earth, Inc." Heaven forbid. It should rather be compared to a hospital for sick souls, for the church members are not the "good" people but those who recognize that they are sick with a sickness unto death and have turned to Him who is the Great Physician for healing.

Again, there is the Ark misunderstanding. Many see the church as an ark, much like Noah's into which all those who are to be saved must go. Now, it is true that one of the ancient pictorial symbols for the church is a boat, but it is a fishing boat. It is not a comfortable luxury liner on a cruise to nowhere, and neither is it just an ark for the few, in which case the choice is between enduring the smell inside and taking one's chances on drowning outside.

Whatever you want to compare the church to, remember, please, to compare it to a working institution. Church membership is not an end in itself, rather it is a means, indeed God's means, of proclaiming good news, the joyful tidings of God's love.

Emil VanderStucken of Princeton, New Jersey, was a Sonora visitor last week.

The British sang "Yankee Doodle" to make fun at American colonists. But the Americans adopted the song and made it popular throughout the colonies and played it as the march to the surrender.
