FIFTY-FIRST WEEK

MOST PROGRESSIVE HERD I'VE EVER SEEN!!!

Broncs Open AA Grid Season With Iraan Here Friday

LIONS ROAR

Sonora Lion's Club met at noon Tuesday in Fellowship Hall of the First Methodist Church. Luncheon was served by the Methodist Parsonage Committee. Guests were Rodney Davis and R. G. Nance. The program was presented by Bobby Joe Granger on the "Highlights of Southwest Conference." The Broncos first game of the season was announced. President Jack Kerbow announced that Edwin Sawyer will show a film on "Pioneer Days of 1938." at the September 11 meeting.

Adults To Form Speech, Drama Club

Sonora High Speech Instructor Smith Neal has announced an adult organizational meeting for a Speech and Drama Club to be held at 7:30 p.m., Tuesday, September 11, in the high school auditorium.

This group will work with the school in planning and promoting all plays, the annual speech meet, and related activities. All parents or interested persons are encouraged to be present for the initial meeting. Anyone who might be able to help coach drama or speech students in their homes, work on drama sets, or anyone just interested overall in any phase of speech-drama activities should be on hand.

Parking Cars, Herman E. Moore, Louis Rutherford and Allen Groda. Out-of-town Buyers, H. V. (Buzzie) Stokes, George H. (Jack) Neill, Fred T. Earwood and Bryan Hunt.

Kerbow Names Lions Auction Committees

Lions Club President Jack Kerbow has announced appointment of the following committees to work with the club's annual Auction Sale to be held Tuesday evening, September 18, at the 4-H Club Center.

Rex W. Lowe will be General Sale Chairman and will be assisted by the following committees: Barbecue, G. H. Hall and Boyd W. Lovelace. Merchandise Solicitation, Leon Neely, chairman; Cleveland Nance, Bobby Joe Granger, R. S. Teaff, W. J. Thompson. Livestock Solicitation, J. M. VanderStucken, W. L. (Tom) Davis, Herbert Fields, E. B. Keng and Gene Wallace. Livestock Receiving, D. C. Langford, Nolan W. Johnson and 4-H Club members.

Howell To Head Bronco Booster Club Bloodworth, Nance Other New Officers

Calvin Howell was named to the presidency of the Bronco Booster Club at its first meeting of the year Tuesday night. Howell succeeds W. B. McMillan. Named to serve with Howell were L. P. Bloodworth, Jr., vice-president, and Joe Nance, secretary-treasurer. New directors elected were G. H. Hall and Herman E. Moore. They succeed outgoing directors John Fields and John R. McClelland. Holdover

directors are Dr. Charles F. Browne, Pedro Galindo and W. B. McMillan.

The club heard the reading of the financial statement and discussed proposed organization activities.

Head Coach Jerry Hopkins gave a rundown on the football team and a film of the highlights of the 1961 Southwest Conference was shown.

Shorty Taylor Takes Medalist Honors In First Labor Day Member Tourney

J. M. (Shorty) Taylor took first medalist honors in the first membership golf tournament held here Monday, September 3. Taylor received a medalist trophy presented by the First National Bank and engraved by George Barrow who will also engrave the names of all winners in the tournament.

In championship flight play J. W. Neville was first and Jerry Hopkins runnerup. Paul Page of Eldorado took top consolation spot followed by Jack Bell, also of Eldorado.

Jack Munn of Eldorado was first in the first flight with Vernon Rogers of Eldorado as runnerup.

Sutton County Courthouse Awarded Texas Historical Society Medallion

The first Historical Building Medallion for Sutton County has been awarded for the old Sutton County Courthouse in Sonora, according to Mrs. Mike Butler of the Texas State Historical Survey Committee.

The building is the site of all land transactions incident to the development of the county. The water well, a few feet from the

District Governor To Pay Visit To West Side Lions

Sonora West Side Lions Club will meet at 7:30 p.m. on Tuesday, September 11 at St. John's Episcopal Church.

District Lions Governor David M. Ellis will visit the meeting to advise and assist President Abelino Sanchez, Jr., Secretary Robert Duran, and other officers and members on matters pertaining to club administration and Lions' program of humanitarian service.

Ellis, is Lion District Governor, District 3-A1, Lions International, which includes 59 clubs in this section of the state. Ellis is a Justice of Peace, Precinct 1, Place 2, Midland County. He is a charter member and past president of the Midland Downtown Lions Club. He holds all the key awards offered by the Association including the International Key for sponsoring 200 new members. Ellis has been very active in Lionism having helped organize over 30 new Lions Clubs. He has served his community in civic affairs for many years.

Junior Tourney Held Saturday

The Sonora Junior Golf Tournament began at 8:00 a.m., Saturday, September 1 for boys of all ages.

Trophies were awarded to winners and runnerups by chairmen Clayton Hamilton, Reggie Trainer and Wallas Renfro. Tourney results were as follows: Age 10 and under-David Wuest, 1st, Tony Renfro 2nd, Bobby Granger 3rd. Age 11-13-Gary Hardgrave 1st, Dorr Scherb 2nd, Ed Lee Renfro 3rd. Age 13-16-Lawrence Holland 1st, Gary McGilvray 2nd, Wynn Saunders, 3rd.

The Sonora Broncos will host the Iraan Braves at eight o'clock Friday night, September 7, for the season opener. It will be the tenth consecutive year for the two schools to match their football teams.

During these ten years Sonora has won seven games, tied two and lost one. That was in 1953 when the Braves took a 26 to 12 victory over the Broncos. The following year it was a different story with Sonora sailing 44 to 7 over Iraan. In 1957 the two teams ended in a 6-6 tie as they did again in 1959. Last year saw the Broncos win 27-0.

Iraan Coach Carlin Wicker will bring a fast and tricky team reportedly much improved over last year. Spark plug of the team is Fullback Freddy Dry, a flashy runner who won All-District 7-A honors last year.

Bronco Coach Jerry Hopkins reports his team in good shape

and ready to try their wings for the 1962 season. All 37 boys will be suited out for this game, Hopkins said.

Offensive starters for the Braves will be Ends Terry McAnally and Orville White; Tackles Tony Patterson and Bruce Jackson; Guards Bobby Beckett and Edwin Sullivan; Center Larry Elliott; and Backs Bobby Morgan, Rodney Morgan, Fredy Dry and Glen Robinson.

Offensive starters for the Broncos will be Arthur Bermea and Mike St. Clair ends; Alfred Perez and Louis Perez, tackles; Pat Castro and Bob Nevill at guards; Buck Bloodworth at center. In the backfield will be Primo Gonzales at quarterback, Julio Samaniego and Johnny Merck at halfback posts and Danny Rutherford at fullback. On defense, Larry Bob Moore will go in for Merck and Richard Sanchez for St. Clair at end.

Annual Lions Club Auction Sale Scheduled For Tuesday, September 18

The annual Sonora Lions Club Auction will be held Tuesday,

September 18 at the 4-H Club Center.

Free barbecue will be served at 6:30 p.m. Proceeds from the auction go to the following projects: Boy Scouts of America, Girl Scouts of America, Wool Show, Summer Recreation Program, Little League, Community Welfare Council, National 4-H Wool Judging Contest, Fire Department, Boys Ranch of West Texas, School projects, sight conservation, and the 4-H Lamb and Calf Show.

Any ranchers who would like to donate livestock should take it to the Sonora Food Locker. Lions Club will pay for butchering and freezing.

Sheep Producers Referendum Called For September 10-21

A referendum is to be held from September 10 through September 21 in order that wool and lamb producers may decide if they want to continue product promotion on a nationwide organized scale through the American Sheep Producers Council, Inc.

Promotion will be continued through this organization if "Yes" is voted by either two-thirds of the total number of producers or two-thirds of the volume of production represented.

Ballots to be valid must be mailed or delivered not later than September 21, 1962 to the Agricultural Stabilization and Conservation Service (ASCS) County Office serving the county in which the voter's farm or ranch headquarters is located.

Funds used for promotion are deducted from incentive payments based on wool and unshorn lambs marketed at the maximum rates of one cent per pound of wool marketed and five cents per hundred pounds of unshorn lamb marketed. This amount averages around \$3 million a year.

The referendum is to implement Section 708 of the National Wool Act of 1954, which authorized the Secretary of Agriculture to enter into agreements for the conduct of advertising and sales promotion programs for the industry's products and the financing of such programs by deductions from incentive payments to producers made

under the same act. The American Sheep Producers Council, Inc., was organized to conduct the sales-advertising programs. The Council is governed by a board of directors elected from delegates who represent sheepmen in every State or area.

The Council's activities in separate programs for sheep and wool include: advertising to create consumer interest, promotion and merchandising work to urge cooperation by all related industries, and an education program for retailers and consumers through films, booklets, publicity.

The referendum, deadlined for September 21, pertains only to advertising-sales promotion program for lamb and wool by the American Sheep Producers Council, Inc. and to the deductions finance the program. It has nothing to do with continuance of the wool payment program.

There is nothing compulsory about deductions from incentive payments, if a majority of the qualified sheepmen vote to have organized advertising under the American Sheep Producers Council.

Section 708 of the 1954 National Wool Act provided for setting up an advertising appropriation. This money has never come out of tax funds, and is unrelated to any other industry or group of people. This money comes out of duties levied on imported wool. Sheep growers have approved the self-help idea by overwhelming margins in referendums in 1955 and 1959.

If you believe that advertising is bad . . . if you believe that sales and product promotion is bad . . . then you believe the sheep-wool business should revert back to its level of near extinction . . . and you should vote "NO" in the upcoming election.

Wool-wise, sheep-wise and otherwise you should vote "YES".

Odds And Ends

Things begin to hum the minute school opens in the fall. Kids from kindergarten age on up take a new lease on life, and parents greet the official opening with a sigh of parting or a sigh of relief.

Shoes suddenly disappear just at school time, books refuse to remain where they were last opened, hair will not comb properly and no one but no one can find a pencil.

However, after the first two weeks, routine suddenly appears and most households are limited to one crisis per day per capita.

We were well pleased with the response to the football contest and highly flattered to find one entry from former high school principal Norman S. Davis now in Goliad.

We also appreciate the cooperation of the Bronco Booster Club and their committee. Without the aid of the committee, all of the members of which have been Bronco fans for at least the 10 or 11 years covered in the contest, it would have been impossible to conduct the contest.

What with the Labor Day weekend just behind us we feel very fortunate that there were no bad accidents in Sutton County even though the volume of traffic was up considerably.

Charlie Schreiner is having his annual field day at the YO Ranch near Mountain Home this coming Saturday. On the program are Fred T. Earwood who will talk on goat selection, Jimmy Gray, and Ace Reid among others.

All-Time Class A All-Stars Selected, Contest Winners Named

Sonora's All-Time Class A All-Star Team has been named by members of a special anonymous committee from the Bronco Booster Club. Judges for the contest, sponsored by the Devil's River News, have announced their decisions and contest winners are James D. Trainer, first prize; John Mittel, second prize, and Jack H. Sharp, third prize.

The judges selected a full team of eleven members and awarded two honorable mentions. All-Time All-Stars are George Wright, George Johnson, Gene Henderson, Primo Gonzales, Sammy Gonzales, Jack Johnson, Donald Fuqua, Tommy Ray Adams, Augustine Chavez, Jimmy Cahill and Bob Nevill. Honorable mention goes to Pedro Galindo and Joe Renfro.

Interesting to note was the fact that two of the All-Time All-Stars are now coaching the sport in which they were standouts in high school while another two will be on the field for the Broncos this fall.

George Wright and Gene Henderson are he coaches. Wright played college football for the University of Tennessee and is now coaching in Lubbock. Henderson played for San Angelo College and Texas A. & M. College. He is now coaching in Odessa.

Still playing high school ball are Quarterback Primo Gonzales and Guard Bob Nevill, who have been elected Captains of this year's team.

As first place winner Trainer will receive two season tickets

to all home games and two stadium seats. Second place winner John Mittel will be awarded two season tickets and third place winner Jack H. Sharp will receive a Bronco red all-wool stadium robe. Prizes may be picked up at the news office.

HIGH LIGHTS AND SIDELIGHTS FROM THE STATE CAPITOL

By Vern Sanford

Texas Press Association
Senator Culp Krueger of El Campo, a newspaper publisher and radio station owner, is planning to "put the big pot in the little one" sure-enough when he becomes Governor-for-a-Day on September 8.

Gruger not only is inviting all his friends and neighbors to help him celebrate the event at El Campo, but he is bringing a lot of state officials to show his hometown folks how government works.

At least a dozen state boards will have their September meetings in El Campo. For example, the State Highway Commission will be on hand to explain why by-pass loop highways are good for small towns.

Theme of the state agency meetings and exhibits will be "Program of Progress for the Small Towns of Texas."

Senator Krueger's aim is to show that rural districts like his can be, and are being, helped by the state government.

He has drawn fire from a colleague, Sen. Doyle Willis of Fort Worth, for having a lot of state officials and employees make the trip to El Campo for the day. But he's going ahead with his plans, and many state agencies are cooperating.

WHAT'S AN INDUSTRY?
School Land Board is going to have to decide before long what the Legislature meant when it said state-owned islands and submerged lands along the inland waters of Texas could be leased by the Land Board for "industrial purposes" only.

For example, Port Aransas wants to lease some state land for a city airport. Is that an "industrial" use?

Land Commissioner Jerry Sadler, chairman of the board, thinks

it is. He wants to give a liberal interpretation to the term.

A study of law by the Attorney General's department has provided no judicial interpretations by Texas courts of the term "industrial." But they can take their choice from courts of other states. There the interpretations range from "manufacturing only" to one case where the courts held that rice farming was an industrial activity.

CONVENTION TIME—Democratic and Republican leaders are busy planning their state party conventions to be held on September 18. Republicans meet in Fort Worth, Democrats meet in El Paso.

For the first time in many years careful attention is being paid to the party platforms.

Two big endorsements given to John Connally, the Democratic nominee for governor, hinge on what the platform says. The State AFL-CIO and Political Association of Spanish-Speaking Organizations both want to make sure the platform is not in opposition to some of their hoped-for legislation before their en-

dorsements take effect.

Because many Texans remain undecided, both parties hope to gain votes by what they say in their platforms. But the problem is the same as usual. They have to keep the friends they now have, while trying to attract new ones.

So, the careful, slow and demanding process of democracy goes on and on.

ANOTHER PARK—The poverty-stricken State Parks system, which doesn't have enough money to hire someone to pick up paper in some of its parks, is getting two more huge park areas. It will not be able to develop them unless the Legislature loosens the pursestrings.

International Boundary and Water Commission, which is building a huge new reservoir on the Rio Grande near Del Rio, notified the Parks Board that it will give a 550-acre tract for a state park.

Parks Board has hopes of getting 2,700 acres on Dam "B" in the Piney Woods country from the U. S. Army Corps of Engineers. It wants to develop seven camping and boating areas around Dam "B", to be called Town Bluff State Park. Name comes from a town that was once the port through which supplies came to Tyler County before the railroads arrived.

TEACHERS' NEST EGG—If teacher comes back to school smiling, it might be because she and the other 180,000 school and college faculties and employees have more than half a billion dollars in the bank.

The state's teacher retirement

fund ended its 25th years with \$552,000,000 invested in stocks and bonds.

Investments are now advised by a group of leading bankers and investment experts. The Chase Manhattan Bank of New York is hired to advise on investments. Income from investments was almost \$17,000,000 this year—enough to pay the retirement benefits to the 13,000 teachers or their survivors who are collecting from the fund. This year, 1,229 more retired.

The teacher retirement fund is larger than either the permanent school fund or the university permanent fund.

Sept. 30 Deadline To Apply For Gas Tax Refund

Want to add a nice chunk of cash to this year's ranch income? Farmers and ranchers who do are reminded that they may now submit claims for federal gas tax refunds.

The refund may be received for all gasoline used for agricultural purposes on a farm or ranch. Claims should include fuel used by the operator himself or by custom operators working for him. However, fuel used in vehicles on roads and highways is not eligible for refund.

The claim for federal refunds must be made from July 1 to September 30 on gasoline used between July 1 of 1962 and June 30 of 1962. The procedure is simple and all ranchers who filed claims last year will receive Form 2240 in the mail this year. Ranchers who did not file last year may obtain the forms from their county agent or from the Internal Revenue Service.

The federal gas tax refund should not be confused with the state refund which is for a shorter period of only six months. This refund involves a more complicated process and additional information should be obtained from the State Department of Revenue in Austin.

Any points that are uncertain should be checked on before the claim is filed and that ranchers should keep their records to verify claims submitted.

MOURNING DOVE—WHITE-WINGED DOVE

MOURNING DOVES: Daily bag limit—12. Possession limit—not to exceed 24.
WHITE-WINGED DOVES: Daily bag limit—10. Possession limit—20.
NOTE: When both mourning doves and white-winged doves are possessed—Possession limit—24. In the aggregate, and not more than 20 may be white-winged doves.

SPECIAL NOTE: Unlawful to take white-winged doves or chachalacas South of U.S. Highway 83, formerly State Highway 4, in southern tip of Texas, marked on map as "Game Sanctuary," and the Big Bend National Park in Brewster County. One feathered wing must remain attached to each bird taken during the two-day whitewing season.

SHOTGUNS: Must be plugged permanently to three-shell capacity, may not be larger than 10 gauge. Hunting doves with rifles prohibited.

SHOOTING HOURS: Mourning doves, 12 noon to sunset—except in areas having whitewing season, where the shooting hours will be from 2 p.m. to sunset on September 7 and 9 only. White-winged doves, in season, 2 p.m. to sunset.

Fisher Writes On Mohair Market

By Congressman O. C. Fisher

OUR MOHAIR MARKET, which has been relatively sluggish the past year, remains uncertain due chiefly to continued lack of interest being displayed by foreign importers.

At the same time, USDA reports indicate the world outlook is favorable for continued consumption, which in recent years has been increasing steadily.

Increased production is noticeable in all mohair-producing countries. In the U. S. it has jumped from 14 million pounds in 1955 to 26.4 million last year. In Turkey it increased during the same period from 16.4 million to 19.6 million. And in South Africa production went up from 5 million to 10 million pounds. Total world production last year was 57.2 million pounds.

Most of our domestic fleeces are exported. Between 1957 and 1961 exports have averaged 75% of production, with the U. K. taking between 55 and 65%. The Netherlands, Belgium and Japan are our other chief customers, in that order.

The USDA reports that future demand will depend largely upon foreign economic prosperity, and fashion trends; also upon price, as man-made fibers can be substituted in apparel fabric, which is at present mohair's principal use, to achieve similar results.

BEEF IMPORTS are up. This year they're taking almost 12% of the U. S. market, compared with 7.9% in 1961, 5.9% in 1960, 8.6% in 1959, and 3.9% in 1958. It is estimated that at times imports have depressed cattle prices as much as \$2 per cwt.

THIS ELECTRONIC AGE is giving some people the jitters. A West German court recently sentenced a mechanic from a village near Nuremberg to three years in prison for attempted witch burning. In an attempt to rid himself of a witch who brought bad luck whenever she appeared, he tried to burn down her house. At the trial the burgomaster testified that even he believed in witches, and a physician asserted that the belief in witches was widespread and growing as a result of the magic that technology made manifest every day.

THE U.S.A. IS NOW PRODUCING about 52% of the world's automobiles, but Italy, West Germany and France each export more of them each year than we do.

At the beginning of last year there were 127 million motor vehicles registered in the world, of which the U.S. had 73,928,000 of them. We averaged 2.4 people per vehicle; the Soviet Union registered 3.9 million, or 52 people per vehicle.

Master Gland Key to Health

Why can some persons quickly and easily throw off every infection while others constantly wage a losing battle against one germ after another?

Why do most individuals react with overwhelming success to a vaccine, while it has very little effect on other persons?

Is there perhaps a master gland that triggers the immune reactions?

"Yes, it's the thymus gland," says Dr. Robert A. Good, research professor of pediatrics at the University of Minnesota, and March of Dimes grantee.

Dr. Good recently won the annual award medal of the American Society for Experimental Pathology, much of his work being done with National Foundation financial support.

Dr. Good presented new evidence greatly strengthening this theory about the thymus gland in a paper he delivered before the Federation of American Societies for Experimental Biology at Atlantic City.

He detailed the results of experiments carried out in collaboration with other scientists which, he said, provide evidence that the thymus is a key organ in the body's endless struggle to protect itself against harmful substances. The thymus is located behind the breastbone in humans.

Much of Dr. Good's study was based on observation of 125 patients with agammaglobulinemia, a rare disease occurring most often in children whose bodies fail to produce gamma globulin, the substance in the blood which forms antibodies to fight off invasion by germs and other foreign substances.

Further study showed the association of other diseases with agammaglobulinemia, including a high incidence of rheumatoid arthritis and related diseases; leukemia and Hodgkin's disease (cancer of the lymph glands), and other disabilities suspected to result from malfunction of the immune system.

This led Dr. Good and his associates to the thymus as the important organ of immunity. The theory was tested by removing the thymus of rabbits less than five days old.

In his Minneapolis laboratory, Dr. Robert A. Good, March of Dimes research grantee in arthritis at University of Minnesota School of Medicine, checks an X-ray film.

They proved later to be unable to form antibodies in any way and thus could not throw off disease.

Secondly, Dr. Good found that these same animals would accept skin grafts from other rabbits. Normally, skin can be transplanted only between identical twins. By this means the doctor was able to show how the natural barriers to tissue transplantation can be knocked down merely by removal of the thymus in the newborn. This phenomenon, the Minnesota pediatrician believes, has a human parallel, namely agammaglobulinemia, where antibodies are usually absent. For example, one of the children with this disease now under study by Dr. Good's group has been carrying an intact skin graft for more than seven years—even though the skin had been taken from a unrelated donor.

Studies of this sort, Dr. Good pointed out, have been possible only during the last decade since modern treatment has enabled the survival of children with immunologic deficiency diseases, and new laboratory techniques made possible the accurate analysis of blood and tissue components.

"We are gradually getting much closer to understanding the whole process of immunity and its relation to disease," Dr. Good said. "We now can see a real possibility of learning how to manipulate and overcome the natural barriers to transplantation of human organs, such as the kidney, as well as other tissues."

"It's tempting to speculate that someday we may have thymus gland banks just as we now have blood banks and bone banks, in order to supply thymus tissues for persons whose immune response is below par. This may also provide us with a means of altering an individual's immunologic pattern by implanting foreign thymus cells when the need arises."

The March of Dimes-supported scientist pointed out that further studies of animals artificially deprived of the ability to produce antibodies are urgently needed to provide insight into rheumatoid arthritis and other diseases which occur in patients with agammaglobulinemia.

Fundamental research aimed at unraveling these disease mysteries is already under way with March of Dimes support at medical centers throughout the country, including Dr. Good's laboratory.

Fishing Without Licenses Is Big

July Offense

Fishing without a license accounted for 60 per cent of the game and fish violations during July, according to the monthly violation report of J. B. Phillips, coordinator of law enforcement of the Game and Fish Commission.

There were 196 fishing violations and 129 other hunting and fishing violations. In all there were 325 violations with fines and costs totaling \$5,904.15.

Among hunting violations were nine charged with hunting in a closed season and eight hunting at night.

Besides the large number of persons apprehended without fishing licenses, there were 18 violations for illegal fishing methods.

Despite warnings that fishing licenses should be brought by all persons between the ages of 17 and 65 who fish with rod and reel, or who fish outside their home county, there are those who continue to disregard the need for a \$2.15 fishing license.

Miss Garrett Honored With Supper Saturday

Miss Patsy Garrett, bride-elect of Dan Carter Cauthorn, was honored with a Mexican supper and miscellaneous shower in the dining room of the Commercial Cafe Saturday evening, September 1.

Hostesses were Mrs. Curt Schwenning, Mrs. Carl J. Cahill, Mrs. Duke Wilson, Mrs. Roy Cooper, Mrs. Rex W. Lowe, Mrs. Marion Elliott, Mrs. Estes Adams, Mrs. Elsbeth Street, Mrs. D. L. Locklin and Mrs. Rex Merriman.

A Western theme was carried out in decorating and the honoree's table was centered with an arrangement of summer flowers and dried chilis. Seated at the table were Miss Garrett; her mother, Mrs. Harold Garrett; her grandmother, Mrs. Joe Lambert; her cousin, Miss Cindy Lambert; and the mother of the groom-to-be, Mrs. Dan Cauthorn.

Dinner was served to 45 guests. Mrs. Rex Lowe read a poem "How To Cook Husbands".

Congratulations To These New Parents

Mr. and Mrs. Turney Friess are parents of a daughter, Paula Ann, born in a San Angelo hospital Tuesday, September 4, and weighing ten pounds, five and a half ounces.

Grandparents are Mr. and Mrs. Harold Friess and Mrs. Dorothy Baker. Mrs. Paul Turney of Sonora and Mr. and Mrs. Tate Jarvis of Junction are the great-grandparents.

Coffee Break

By Lindy Groda

Sometime ago, before anyone knew that Arthur Goldberg was more than a labor lawyer that had made "good" . . . before anyone knew he was being considered for the supreme court, Mrs. Arthur charmed us with a suggestion that artists be given a place to work, a place to live and some form of tax depreciation on their work, such as businesses receive. She said this need not be given in the form of a subsidy. This was the part that charmed us the most. Would a subsidy under any other name be any sweeter? Or any less a subsidy?

Stick around, this is going to be a pretty good old world after all . . . for artists anyway. With Mrs. Arthur supplying the ideas for laws and Justice Goldberg interpreting them, we can all run out and buy some sketch pads.

It would be one way to get away from the phone. The old New Englander that let the phone ring off the wall had the right idea. "Had the thing put there for my convenience," he said.

The legitimate calls, even the apologetic wrong dialers, we don't mind. But when the monster jingles, we make a run for it, and our own phone answers, "The number you have dialed is not a working number. Will you please hang up and . . ." Sure will. We'll hang up and call Washington to see if Mrs. Goldberg has our government garret ready. We'll specify it has to be Sonora sans telephone.

Poet Robert Frost has been with our Secretary of the Interior on a little exterior trip into the interior of Moscow. Poet Frost is reported to have told a couple of poker-faced Soviet poets, "If Russia beat my country in everything, then I would become a Russian."

Frost had had some difficulty in getting the Soviets to laugh, out at this they roared. Presumably, the Russians found the remark humorously prophetic . . . the Russian victory and our poet's supine acceptance.

This is unfunny and uncalled for, from where we sit. If the Russians need to laugh so badly let's send them a recipe, nam-

PASTIME CLUB MEETS AT TRAINER HOME

Mr. and Mrs. Trainer entertained the Pastime 42 Club last Thursday at the Louie Trainer home.

Members present were Mrs. O. Babcock, Mrs. Joe Berger, Mrs. R. B. Kelley, Mrs. Robert Lee, Mrs. C. E. Stites, Mrs. Jim Cauthorn, Mrs. R. V. Cook, Mrs. Lee Labenske, and Mrs. Tom Sandherr. Guests were Mrs. Karen Peterson, Mrs. B. W. Hutcherson and Mrs. Auther Simmons.

Mmes. Babcock, Stites and Cauthorn tied for high; Mrs. Labenske held low score; and Mrs. Simmons won high for guests.

A frosted drink was served.

ed after one of the Johnson boys, I forgot his first name. Anyway, the recipe for Johnson omelet is making the rounds and it goes like this, "First, you steal two eggs . . ."

But the sad thing is an amoral society with the real Communist there is no right, there is no wrong. And there is no joke, because most every joke hinges on a moral point.

The real truth of the matter is that the Bolsheviks don't really want to laugh. If they did, they wouldn't have sent home Newsweek correspondent Whitman Bassaw. His crime was making people laugh with things like, "If you want to know how much butter and eggs each Russian family, plug your refrigerator into your radio." And the proletariat laughs. And the soul lives with laughter. Totalitarianism knows this, as the masses know it. So Bassaw had to come home. It's our gain.

Dictatorships have always been afraid of the poets and the joke makers. And bureaucracy has the same fear, mostly because you can't spend or eat balleyhoo, unless it's subsidized. The poets and the jokemakers are straight as an arrow in exposing American balleyhoo or Soviet propaganda. And nothing in this world is quite as bad if we can still laugh.

It was Herbert Hoover that said this age needs a Will Rogers, but this age still has him in the form of books. Who can resist this typical Rogers advice, "Stay out of Europe. That's a tough business game to enter into. Their diplomats are trained, it's their life business. Ours makes a campaign contribution and wakes up in Belgium, and don't know what ocean he crossed to get there."

Will wrote just this way with the wrong number and tense and he spelled something short of right, but his one agreement with his publisher was that he not be edited in any way. If you took Will Rogers, you took him straight.

Once when the New York Times repudiated some of Will Rogers' thoughts expressed in their paper, he issued an unedited statement: "I am in no way responsible for the editorial or political policy of this paper. I allow them free rein as to their opinions as long as it is within the bounds of good subscription gathering . . . Their editorials are not always to be taken seriously and never to be construed as my policy." Well, we are boycotting Robert Frost. All our reading business is going to Will Rogers wherever we find him in libraries, book stores and publishing houses.

Building Owners Allow Shelters

SHELTER AGREEMENT is signed by Mayor Warren Whitson of Denton, Texas—an act being duplicated in communities across the nation as fallout shelter space in existing buildings is made available by property owners for emergency public use.

Others in picture are W. C. Orr, Jr. (left), who signed as president of the First State Bank of Denton—owner of the building containing the basement shelter space—and Bill Cox, representing Region 5 of the Office of Civil Defense, Department of Defense. The agreement provides that the bank will allow emergency use of the 350-person shelter area, the Defense Department will furnish survival supplies for the shelter and the City of Denton will place them in the shelter.

(Courtesy Harmon Perryman, Denton Record-Chronicle)

'EYES' FOR FALLOUT SHELTERS

Radiological detection instruments will be a vital component of supplies for community fallout shelters stocked under the Federal shelter program of the Department of Defense.

A nuclear attack might threaten large areas of the nation with radioactive fallout. Some areas could receive a heavy fallout deposit requiring stays in a shelter of two weeks or more, while shelter occupants in lightly-affected areas might begin coming out in a few days or less.

Radiological instruments are needed by occupants of community fallout shelters to tell them when they might emerge safely.

Radiation cannot be detected by the senses. Grouped around the shipping case in the picture of the radiation monitoring kit are: (1) A geiger counter with earphones, batteries and accessories for use in measuring low-range radiation such as might be dangerous in food and water; (2) Three pencil-like dosimeters and a dosimeter charger (square box with two black knobs)—the dosimeters, worn by individuals, indicate total radiation absorbed, while the charger returns dosimeters to zero settings for re-use—and (3) A survey meter for measuring high-level radiation such as might occur outside a fallout shelter.

A message from the Treasury of a free people

How to help
keep freedom in
your future for
\$4.33 a week

The sum of \$4.33 a week will buy you a dozen Savings Bonds in a year. A few years of this and you'll be \$1,000 richer.

Nothing wrong with being rich. The more savings strength we have as individuals, the more strength we have as a Nation.

But there are some other rather remarkable wheels you set in motion when you buy U.S. Savings Bonds.

As your Bond dollars grow, your country uses them to protect the things America stands for. And to make sure that you and your family will always enjoy the freedoms which a handful of brave Americans set their names to on July 4, 1776.

Buy Bonds for freedom now. All you need to make this investment is a few dollars a week and a belief in America.

Buy an extra Bond during the Freedom Bond Drive

Keep freedom in your future with **U.S. Savings Bonds**

Devil's River Philosopher Not Worried About Plan To Move 2 Million Farmers Into Town

Editor's Note: The Devil's River Philosopher on his bitter-weed ranch on Devil's River has found out about the suggestion to reduce the rural population, his letter this week indicates.

Dear editor:

A lot of farmers around the country I understand are up in arms because the Committee for Economic Development, a group of 200 leading industrialists and business executives, having studied the farm problem, has come out with the pronouncement that the way to solve the problem is to move two million farmers of the farms in the next five years.

Economic Development Committee is saying is that if you move two million farmers to town, the ones still left may not make any more, but there'll be less of them to complain.

I have thought about this proposal all week now and I find it doesn't disturb me, mainly on account of I ain't going. The reason I'm not going to a city is that in the first place I like it out here on this bitterweed ranch, and in the second place, where would you find a city so hard up it'd need me?

I know it's kind of galling to

a rancher to look up from his problems and have some city people tell him the only solution is to move in with them, but the Committee for Economic Development could have come up with a lot worse solution.

For example, what if they had decided the solution was the other way around, that more city people ought to move to the country? If there's anything that'll make a rancher madder than telling him he ought to quit and get a job in town, it's telling him he ought to make room for city workers in the country.

What some people don't understand is that, as bad as the ranch problem is, it's not as bad as us farmers and ranchers make out. We make it sound worse than it

is mainly to keep city people from crowding in on us.

Solving the farm problem by moving two million farmers to town is like solving the problem of under-paid school teachers by cutting the number of teachers in half.

I suppose there are some farmers and ranchers who wouldn't object maybe to moving to town, but the trouble is they've already looked around a little in town, studied the financial status of a lot of town people, and had just as soon stay in the frying pan as pump in the fire.

If you can't quite make ends meet anyway, why move to town when you can do it just as well in the country?

Yours faithfully,
J. A.

YOUR MINISTER SAYS

By Rev. Doyle W. Morton

Pastor, First Methodist Church
At the beginning of another school-year, we are reminded of the words that Saint Paul wrote to Timothy, "Study to show thyself approved unto God, a workman that needeth not to be ashamed, rightly dividing the word of truth." II Timothy 2:15. Adults, as well as children and youth, should study to know and use God's truth. The technical truths that help man send the Mariner 2 to Venus are God's truths, as also are the words of John 3:16 "For God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish,

but have everlasting life." We need to recognize God's spiritual truth as well as God's physical truths. In fact, we can seldom, if ever, separate the two.

This demands diligence on the part of each of us. One translator says this passage should read, "Do your best to present yourself to God as one approved." Only our best is good enough when we handle God's truth. It is not enough to win the acclaim of our fellow man. We should seek to win God's approval. All of us need to study and apply the truth from God's specific Word, the Bible. It not only tells us about God and Jesus Christ, but helps us better understand and use all of God's truth.

Fire Marshal Reminds Citizens Of Fire Laws

Sonora Fire Marshal John A. Martin, Jr. reminds everyone of the following laws pertaining to fires. Excerpts are quoted from the Texas State Motor Vehicle Laws issued by the state highway department.

Article VIII-Sec. 75-Operation of vehicles and street cars on approach of authorized emergency vehicles.

(a) Upon the immediate approach of an authorized emergency vehicle equipped with at least one lighted lamp exhibiting red light visible under normal atmospheric conditions from a distance of five hundred (500) feet to the front of such vehicle and when the driver is giving audible signals by siren, exhaust, whistle or bell;

(1) The driver of all other vehicles shall yield the right of way and shall immediately drive to a position parallel to, and as close as possible to, the right hand curb of the roadway clear of any intersection and shall stop and remain in such position until the authorized emergency vehicle has passed, except when otherwise directed by a Police Officer.

(2) Upon the approach of an authorized emergency vehicle, as stated, the mortorman of every street car shall immediately stop such car clear of any intersection and keep it in such position until the authorized emergency vehicle has passed, except when otherwise directed by a Police Officer.

Article XIII-Sec. 95-Parking is prohibited within 15 feet of a fire hydrant.

Sec. 100-Following fire apparatus prohibited. The driver of any motor vehicle other than one on official business shall not follow any fire apparatus traveling in response to a fire alarm closer than 500 feet or drive into or park such vehicle with the block where the fire apparatus has stopped to answer a fire alarm.

Sec. 101-Crossing fire hose. No driver of a street car or vehicle shall drive over an unprotected hose of fire department when laid down on any street, private driveway, or street car track, to

Amendments

Following are digests of the last three of 14 proposed amendments to the Texas Constitution to be voted upon—yes or no—in the November 6 general election:

NUMBER TWELVE ON THE BALLOT (SJR 19)—Will enable the Legislature to authorize the governing body of any county bordering on the Gulf of Mexico or the tidewater limits thereof, to regulate the littering of public beaches and to regulate and restrict the speed, parking, and travel of motor vehicles on beaches available to the public.

NUMBER THIRTEEN ON THE BALLOT (SJR 6)—Provides that taxes or bonds previously voted in any Independent School District, the major portion of which is in Dallas County, would not be abrogated, canceled or invalidated by any change in boundaries, and would authorize the levy of taxes after such a boundary change without elec-

tion, excepting cases of annexation or consolidation.

NUMBER FOURTEEN ON THE BALLOT (HJR 32)—This would give the Legislature power to pass laws to cause the courts of Texas to hear and determine appeals relating to any and all actions of administrative agencies and executive departments of the State of Texas, even though such appeals involve court action that is not judicial; any other provision of the constitution notwithstanding. Also provides for trials de novo on all appeals from actions, rulings, or decisions of administrative agencies of government.

Fifteenth Annual Ram Progeny Test

The fifteenth annual Ram Progeny and Performance Test will begin Wednesday, September 19, at Sub-Station 14 near here. The Test is open to both commercial and registered breeders.

Rams will be received between September 5 and September 12. September 12 will be the last day rams may be received and they will be shorn on September 12 and 13, weather permitting.

Breeders will assume full costs of feed, shearing, vaccine and drench materials used. Labor of feeding, veterinary supervision and fleece scouring will be fur-

nished by the Station. All wool sheared from rams tested at the station becomes the property of the station to offset the costs of feed preparation. As in the past a deposit of \$25.00 per head will be made on all rams entered.

Rams should be submitted in sire groups of four each; however, singles and doubles may be placed on test and included in open lot groups. Sire groups will be accommodated in the sire group pens insofar as facilities permit and pens will be assigned as entries are received.

Rambouillet rams may be entered on test to participate in the Registry of Merit program adopted by the American Rambouillet Breeders Association.

Both fall-dropped and spring-dropped lambs may be consid-

ed as candidates for the ROM program. Fall-dropped lambs must have been dropped between November 15, 1961 and January 15, 1962. Spring-dropped lambs must have been dropped between February 15, 1962 and April 15, 1962.

Rams of any breed without restriction as to pedigree may be submitted for testing. General age requirement is that only animals aged five to ten months be tested.

A new supplement to the Ram Progeny Test Program is being offered this year. Sire groups (four lambs, ewes and/or wethers) will be fed a fattening ration starting approximately the same time as the Ram Progeny Test and will be fed 90 to 100 days. The lambs will then be

slaughtered in the Meats Laboratory at Texas A. & M. College and complete carcass information will be obtained. The breeder will be expected to pay for the feed and incidental expenses and will be required to make a deposit of \$15.00 per head at the beginning of the test. Final settlement will be made at the end of the test.

The breeder is also required to pay \$5.00 per head for slaughtering and for processing the data. The cooperator will be paid the slaughter day's Fort Worth top price for his grade of lambs. These lambs may be brought to the Station at the same time as the ram lambs for the progeny test.

Additional information and application forms may be obtained from Jim Menzies at the Experiment Station.

ATTEND CHURCH SUNDAY

NEW 16-PAGE BULLETIN ISSUED BY SCS

help air travelers understand what soil and water practices look like from the air has just been issued by the U. S. Soil Conservation Service.

A new publication intended to help air travelers understand what soil and water practices look like from the air has just been issued by the U. S. Soil Conservation Service.

A copy of the publication, **THAT LAND DOWN THERE**, may be obtained from the local Soil Conservation Service office, E. B. Keng, work unit conservationist said today.

Keng said the publication consists of 16 pages well illustrated with pictures taken from the air along with some from the ground showing close-ups of what is going on "down there".

These and other land features are well illustrated in this new publication.

How to help keep freedom ringing from every mountainside

High up on a mountainside in South Dakota, there's a famous tribute to four American patriots who did much to mold the shape of freedom.

But even if there were no Mt. Rushmore, we'd remember men like Washington, Jefferson, Roosevelt, and Lincoln. For the landscape of freedom is shaped by what they did, not by the mountainside that pays tribute.

Even today, freedom is shaped by the work of individuals—men and women, like

you. Of course, only a few Americans will ever have their faces up on a mountain. But millions of Americans are playing a real part in the defense of freedom today simply by buying U.S. Savings Bonds.

When you invest in U.S. Savings Bonds, you put some money to work for your country right now. At the same time you're putting it to work for your own future.

Aren't those good reasons to buy one soon?

Keep freedom in your future with

U.S. Savings Bonds

Children Request Pupil Packages Of Game And Fish

Every day the Information-Education Branch of the Texas Game and Fish Commission receives a large number of letters from youngsters of the state requesting colored pictures of game and fish.

The pictures are available in a package of five to all students of Texas. These student packets are especially designed for youngsters in elementary grades but are available to students of all grade levels. Teacher packets of wildlife conservation materials are also available from the Commission.

Commission policy requires individual students to write instead of allowing teachers to request bulk packets for their students, although some exceptions are made for first and second grade students. The aim is to make the request an educational experience for children.

For many, the note to the Commission is their first attempt at a business letter. Scores of youngsters quickly and efficiently state their business, as this

one, "I would like to have some bird pictures you have. I would like to get them as soon as possible."

Others begin with a business-like air but drift into a more chatty tone. One wrote, "My name is . . . I am 11 years old. If I may ask may I have some of those game and fishing picture. I hope you like my litter. I try my best for yow. I think I better go now because I have nothing to say. Good-by, thank yow for everything."

After a polite request, another offered, "I have a opossum, and if you would like to see him, come on down."

The salutations children choose vary widely. Some use a business-like, "Dear Sir," or "Gentlemen." Others choose "Dear Friend," or a simple, direct, "Dear Game and Fish Commission." Perhaps the most original is "Dear Mr. Who ever you are."

The mailbag sometimes contains letters from children who remember their friends or brothers and sisters in their requests. This little fellow was particularly thoughtful when he wrote, "Would you please send me two copies of each picture for me and a friend who has polio." Through the scrawls and unconventional spelling and grammar, the sincerity and charm of childhood shine in every letter.

-GREEN NEWS-

By Betty Jones

The first membership golf tournament was a success. The barbecue supper was, too. The thought and preparation that was spent before I finally typed that word "too" just amazes me. For those who participated as golfers or supper guests the words "success" and "too" are sufficient because their words of praise have included: wonderful, fun, delightful, great, and tops. Not all the supper guests were golfers but everyone joined in the lively chatter about golf. A special form of humor and friendliness is always a part of the tournament barbecue suppers.

Did you see the pride and "that's my Dad" look that Paul Page, Jr. of Eldorado showed when he received the trophy for Paul Page, Sr.?

A happy twosome: Kay Thomerson and her fiancée Pat Thompson.

There were 40 tournament golfers and around 215 were served at the supper.

Special thanks to Carl Cahill for the work and help he has given at the beginning of the local course and before each tournament. Recent work on number six green and watering the roads was appreciated by all of us.

-GN-

Ethelda Holland laughingly directed me toward the chocolate cake, knowing full well that I would eat three pieces.

We now have lights for our suppers. Thank you, Shelly Lowe. Had a round of applause when the lights were turned on.

A welcome for the new golfing families: The Jack Kerbows, Bob McMinns, Bill McGilvays and Troy Selzers.

An award for Mary Jeanne Hamilton for 24-hour baby sitting while Clayton practiced for and participated in tournament. Clayton displayed a golfers follow-through. Only thing that bothered us: he was not playing golf at the time. When we asked him about it, he said he would think twice before he played with left-hander Vernon Rogers again—dodging an unexpected swing all day thus equalized Mary Jeanne's baby sitting.

Some of the ladies seen at the supper: Jo Neville, Lunetta Morgan, Nancy Trainer, Billie Smith, Bobbie Fawcett, Jerry Tittle, Muriel Brown, Betty Stewart, Barbara Earwood, Mary Barrow, Gloria Kerbow, Marilyn Bloodworth, Guggie Thorp, Faye Morgan, Mrs. Bob Hallum, Margaret Dunnagan, Winnie Greer, Peggy Trainer, Maxine Browne, Phil Bond, Pauline and Anita Thompson, Betty Renfro, Mary Jeanne Hamilton, Libby Jo Lowe, Annabelle Wuest, Ethelda Holland,

PERSONALS

Miss Nina Jennings of Houston has been visiting here with her parents, Mr. and Mrs. Byron Jennings.

Barbara Wright will leave Sunday for Stephenville where she will attend Tarleton State College.

Mr. and Mrs. W. J. Thompson will accompany their daughter Anita to San Angelo Sunday where Anita will enroll in San Angelo College.

Ella Archer and Ernestine Hext, Lucy Page and Mrs. Jack Mund of Eldorado. If I failed to see some of you who were there—I'll try not to forget my glasses next time.

Big Spring Vets To Hear Program On Caverns

A special program on the Caverns of Sonora will be given Thursday evening, September 6, at the Veterans Administration Hospital at Big Spring by Mrs. Margaret Groom. Mrs. Groom is presenting the program for the Rehabilitation Committee of the Midland American Legion Auxiliary.

Mrs. Groom, in describing the program says, "The Caverns at Sonora impressed our family so much we were determined to tell and show others of its beauty on every possible occasion, by annotation of its wonders accompanied by color slides."

Mrs. Groom has visited areas of the caverns not yet open to the public, by special permission, and these are included in her slides. She has given this program in Lamesa, San Angelo, Big Spring and other cities in the area and it is scheduled to be given to the Lions Club in Fort Stockton in October.

- Nov. 2, Alpine, here.*
- Nov. 9, Crane, there.*
- Nov. 16, Stanton, there.*

*Denotes conference games.

Labor Day guests of Mr. and Mrs. Carl J. Cahill, Jimmy and Diana were Mrs. Cahill's sister and family, Mr. and Mrs. Lum Trainer and David Trainer of Mertzton.

G. W. SMITH FAMILY HAS REUNION SUNDAY

September 2, 1962 was a day for reminiscing for about 50 members of a Sonora pioneer family, the G. W. Smith family, who came here in 1904 with ten children, 8 of whom were present for the family get together at the home of Mrs. Dorothy Taylor and Mrs. Nell Holman.

Mr. and Mrs. Fred Smith gave a barbecue supper for the group. Mrs. Manilla Trainer was mistress of ceremonies and presented prizes for humorous family classifications to the following:

Mrs. James D. Trainer, Sanford Trainer, of Sonora Jackie Harris of Eldorado, Velma Smith of San Antonio, and Merwin Campbell of Carlsbad, New Mexico, who had just returned from three years as an engineer in Bahrain, Saudi Arabia.

G. E. "Bud" Smith was the only one of the G. W. Smith children born in Sonora. Four of the now-living five boys sat around and recalled days when Fred served the first sodas in Sonora to the late Judge Wardlaw, Sheriff E. S. Briant, and W. L. Aldwell in Harris Confectionery, next to the present location of the bank. Will recalled delivering mail to Juno in a

Mr. and Mrs. J. C. Trainer of Pasadena and George Trainer of Houston spent Labor Day weekend with their mother, Mrs. Rena Trainer.

Mr. and Mrs. J. C. Stephen have as their guests this week their son and daughter-in-law, Mr. and Mrs. Ernest C. Stephen of Fort Defiance, Arizona. Stephen, a former Sonora student, is a science teacher in a Navajo Indian school.

Mr. and Mrs. Curt Schwiening visited last weekend in Dallas with their son-in-law and daughter, Mr. and Mrs. Bob Gilbert.
