Hunting Season Comes To Close With Over 600 Deer Processed

Barrier Extended In Screwworm Eradication Plan

Officials of the Southwest Screwworm Eradication Program have announced that the artificial barrier of sterile screwworm flies along the international border in Mexico has been extended from Laredo to above Del Rio. A 25-mile-wide strip from Brownsville to Laredo has been seeded with sterile flies since early last month.

The barrier zone, which is eventually expected to extend from Brownsville to the New Mexico-Arizona state line, is designed to prevent the migration of native screwworm flies from Mexico into the Southwest. A weekly average of 600 sterile flies per square mile is being dispersed in the 13,000 square mile barrier at the present time.

The recent freezing temperatures made many people uncomfortable, but officials have stated that weather of this nature will do much toward wiping out native screwworm fly populations and thereby make eradication through fly release easier. During the week of December 9-15, only 311 screwworm specimens were submitted to Mission for identification and 525 additional cases without samples were reported. During the same week, 64,290,650 sterile flies were dispersed in the Southwest.

27 Auto Accidents Within City Since August '62

Automobile accidents reached a total of 27 for the last four months of the year in Sonora. Only 24 were reportable, as three were minor accidents not requiring accident reports.

Seven persons were injured in these. Fifty per cent of the accidents within the city limits were rear-end collisions. The accident causing the most damage was the October 20 collision of a produce truck with the Santa Fe engine, which resulted in \$5,000 in damages.

In releasing the accident summary, City Marshal Allen Groda said the following locations were trouble spots accident-wise within Sonora city limits: Highway 290 and Main, Highways 290 and 277 intersection on the Eldorado road, and Water and Oak Streets by the post office.

The 1962 hunting season closed with the year, resulting in over 600 deer brought in to local businesses. The end-of-season hunting awards have been announced.

Philip Pring, Jr., of 1205 Tanglewood Trail, Hurst, Texas won the engraved trophy from Barrow Jewelry and Sporting Goods for the best all around deer reported in points, weight and spread. Pring, grandson of former Sonora rancher Ben Meckel, killed his trophy winning exhibit on the Bill Tittle ranch. The Barrow trophy was awarded on a point grading system: one point per pound in field dressed weight, five points per inch in spread of horns, 10 points for each point of horns. Pring's entry rated a total of 285 to win the prize.

Cecil Nettle, Jr., of 3600 Rosedale Drive, Dallas, won the \$25 Saving Bond presented by Sonora Food Locker for the heaviest deer brought in by a hunter under 14 years of age. Young Nettle's prize-winner weighed 127 pounds. Ray Glascock with a 100-pounder brought down on his father's ranch was in the running for the young hunter's award.

Local people won the end-of-season awards from Lambert's Drive In Grocery. Mrs. Howard Westfall with a 14-point buck won Lambert's most points award, a K-4 Weaver Scope. Pete Thompson with a 145-pounder won Lambert's heaviest deer prize, a radio.

The last week of the season turned up few wild turkeys, and no startling statistics weight or points-wise. Most of the award winning deer were brought in early in the hunting season. Local ranchers and businessmen say it was a good season in Sutton County. Sonora Food Locker alone processed 567. This did not include some deer brought in already skinned out.

La Diabla

By Lindy Groda

It's time to present La Diabla awards of 1962. From our vantage point of less than a year in Sutton County and after every bit of ten minutes consideration, this is the way it stacks up:

Most controversial male award: John Otey, the man that did away with the devil as a permanent arrangement!

Most energetic and versatile female: Maxine Browne.

Brightest young political star in the firmament: Pat McBride, after some needed and expected changes in ideology.

Best actress, most beautiful, intelligent female: Betty Jones. (Mrs. Jones was selected for this award in spite of the fact that she contributes a column to this newspaper.)

Best cake baker—the only tie of the season: Velma Berger and Allen Groda. (This decision was made under duress and without due process of law.)

Best all around radio girl: Little Irene Davis.

Best local newspaper: The Bronco. (The Devil has plans for winning next year.)

Pharmacist, most likely to succeed: Cecil Westerman. Altho' Castro beat him out internationally as heap-much-big-medicine man by several million dollars' worth.

Best actor-director (seriously): John Tedford.

Girl most likely to be elected: Betty Jack Cooper.

Best football fan: Calvin Howell.

Best basketball fan: Dr. Charles F. Browne.

Best barnyard centerpiece: By an exclusive designer. Went to L. P. Bloodworth for Christmas.

So that's the coveted awards. And this wraps up, winds up and runs down the good ole year of '62. We would have awarded one to Bob Brackney except we couldn't think how to word it. He throws stones at us as we proceed to church on Sunday a. m. We don't know if this is a modern Christian persecution, or if Rev. Brackney is following the Scriptures about "he, who is without sin." Or does he just think because he doesn't live in a glass house, he has to complete the converse in application?

Rah, rah, rah . . . eat lamb chops . . . wear wool . . . movies are better than ever . . . rah, rah, Oklahoma had John Kennedy sitting on the Sooner side at the Orange Bowl, but it didn't help the score. Alabama's Crimson Tide rose over and out . . . without America's most admired man of the year (according to Gallup's 1962 poll). The top ones made sense in this poll. Kennedy was followed by Eisenhower, Churchill, Schweitzer, Hoover and MacArthur. But the lower half of the list got funner. Behold trailing MacArthur was Truman! And properly so, probably. Then after Truman came Pope John, poor old "somebody has to take the blame for Cubar" Adlai, and tenth on the list was Billy Graham. Who would put Harry "Pendergast" Truman above Pope John or Billy Graham? Oh well, could be Gallup's 1962 Poll of America's most admired men is about as accurate as La Diabla's 1962 awards.

How do I know if it is Dr. Ross or his look-alike, Tommy Thorp? If there are swarms of little boys following him, it's the vet, for sure.

Best 1962 cartoon: Bill Mauldin's Cuban freedom fighter rushing through U. S. Customs—after the ransom—walking straight to the pay phone, "Hello Pentagon? What happened to our air cover?"

You wonder what would have happened down in Miami, when Jackie was telling them all in spades and Spanish how brave they were . . . you wonder what would have happened if some

really brace Cuban had risen up out of the crowd and said, "We would not have been in prison, Mrs. Kennedy, there would have been no \$70 million blackmail to build Castro up if your husband had supplied the air cover he promised. To keep one's word is above bravery, Mrs. Kennedy." It seems the good shows, the really good lines never come off—in this news parade. Cheers to the lines that might have been a Happy News Year.

HIGH LIGHTS AND SIDELIGHTS FROM THE STATE CAPITOL

By Vern Sanford
Texas Press Association
FAREWELL BUDGET—Outgoing Gov. Price Daniel has proposed the largest budget in the state's history, for legislative consideration. He says the budget can be met without new taxes.

Daniel recommends spending \$3,100,000,000. That is \$847,000,000 more than the present appropriation. His budget incorporates recommendations for salary increases in many state departments. State highway patrolmen would be among those getting raises under Daniel's plan. He suggested a starting salary of \$6,000 a year—\$1,000 more than they get now. He described the present policy of paying them on the same scale as city lawmen.

Daniel said, "These men frequently work around the clock and you can't expect such devotion from men who are paid on a 40-hour-a-week basis." He also asked the 58th Legislature to boost salaries of state-employed physicians; juvenile parole officers; employees of the Texas Water Commission and the Railroad Commission; and teachers in all levels of education, among others.

Basically, except for higher education, the Governor's budget proposes continued operations at present levels for all state agencies and services, plus necessary funds to meet additional demands due to population growth.

COLLEGES UPGRADED—Daniel also urged upgrading of public junior colleges and state-supported universities, and recommended larger library appropriations and 16 per cent teaching salary increases—two things college administrators have cried for a long time.

He proposed that the 34 public junior colleges be allotted \$16,000,000 for the 1964-65 school years. This is \$3,000,000 less than administrators requested,

but \$1,500,000 more than the current appropriation.

Much of this increase would be used to cover \$500 annual pay raises for teachers.

Daniel advocated \$15,200,000 to cover a 16 per cent increase in teacher's salaries; \$2,700,000 additional funds for research in the state's 20 state-supported senior colleges, and \$2,300,000 additional for libraries.

He based his proposals on the recommendation of the Commission on Higher Education that tuition be doubled to \$200 a school year. But he explained that 4,500 scholarships for \$100 a year would be available, "to keep young people in college."

Personal Income Climbs—Texans entered the final two months of 1962 with their personal income up 4.6 per cent over the first ten months of 1961.

This year, according to figures released in Austin by "Business Week," Texans' total personal income for the first ten months of 1962 was a whopping \$16,854,000,000.

Last year during a similar period it totaled \$16,105,700,000.

LAW PARTNERS—Leonard Passmore, chief assistant to Attorney General Will Wilson, has joined Wilson in the private practice of law in Austin.

Passmore has been Wilson's chief aide for the past three years.

Both Wilson and Passmore left office on January 1.

PRISON PRODUCE—Texas Department of Corrections did a whopping big job of farming in 1962.

Asst. Director Byron W. Frierson, who is in charge of the vast farming operation, reports that the Department either "sold for cash or consumed, utilized or stored for use in lieu of purchased items," \$4,583,600 in farm products.

Cotton is the big cash crop on the prison system farms. "Our 10,000 acres of cotton

Beware The Safety Button

Many a hunter has shot himself, or somebody else, simply because he relied too heavily on the safety catch on his shotgun.

Safeties on shotguns are apt to give a sportsman a false sense of security. All the safety snap does is block the triggers so they can't be pulled.

It doesn't block the hammers so they can't fall and hit the firing pins. And hammers are what fire the guns!

Picking Best Pup In Litter
Often the best looking pup in a litter won't necessarily make the best hunting dog. It's the nose that counts, not the looks.

To find the sharpest nose among the pups, turn them out in the yard and scatter a fistful of meat chunks around. The pup that noses out the most meat has the sharpest hunting nose.

Keep him!

this year averaged better than a bale per acre for a total value of \$2,100,000," says Frierson. "And our rice crops put \$35,000 into the state treasury with \$13,650 worth held for consumption."

Edible crops had a total value of \$708,287. Total value of cattle slaughtered was \$364,660.

More than 11,000 hogs were raised for pork.

Other farm products included eggs, milk, turkeys and chickens.

\$1,000,000 SLANT—The Attorney General's office reports that over \$1,000,000 monthly oil allowable was cut off in the East Texas and Hawkins fields because of deviated-well discoveries.

Mr. and Mrs. Calvin Howell, Eddie, Prissy and Jimmy were in Ballinger last weekend for a visit with relatives.

Finding Camp In Dark

Coming in to camp on a dark night takes precision and a certain ability many of us don't have.

You can find the camp on the blackest night if you will tack up car reflectors on trees in a circle some distance from camp.

Your flashlight then will guide you in.

Teaching The Retriever
Now and then a retriever will acquire the bad habit of chewing the ducks he retrieves.

This can ruin a lot of good meat if carried to excess. Habit is hard to break, but it can be done.

Train him with a "duck" made of a tin can, weighted, and with duck wings and tail attached to it realistically.

Don't Stall Car In Midstream

There are few situations more annoying than having your car stall in midstream on a cold wintry day. Not only do you get thoroughly soaked trying to get the car out, but it sometimes takes hours to get the engine started again.

You can lessen the danger of having this tragedy happen to you if you will, before entering the stream, loosen the fan belt so it won't splash water on the spark plugs and the ignition system, or ruin the fan blades by

rotating too fast.

Also as you enter the stream, pull out the choke or throttle and ride the clutch to keep the engine revving high.

If yours is a late model passenger car, just don't try to ford the stream.

Car Stuck In Loose Sand

Almost as tragic as having your car stall in midstream on a cold day is to traverse some black road and have the wheels of your car sink deep in loose sand.

The more you spin the wheels, the deeper they sink. So, don't do it!

Stop at the first wheel spin, get out, walk to the nearest water, fill a pail, or your hat, then douse water around both rear wheels to pack the sand. This will enable you to drive out with relative ease.

Hub Cap For Water

Your dog needs water often, when running in the field, and he cannot always find it. So carry a special container for him.

If no container is handy when he gets thirsty, pry a hub cap from your car wheel and use it as a drinking dish for the pooch.

Keeping Bread Fresh

Bread is a hard commodity to keep fresh on a camping trip. You can do so, however, if you will buy bread that is packaged in a plastic bag. Or use your wife's plastic clothes-dampening bag.

Place the bread inside the bag, squeeze out the air, then zipper up the fastener.

This will keep the bread in good condition.

Fresh Bread On Pack Trips

Bread is especially difficult to carry on pack trips. It is bulky and easily mashed.

Save space by taking the slices from the original package and inserting waxed paper between the slices. Return the bread to the original wrapper and press down to one-third its original size.

This process will also make bread less liable to crush.

March of Dimes Helps Youngster With 'Assist' from Coincidence

Kathy Anderson is too young at 18 months to understand coincidence. This is the story of how it tipped the balance in a life-and-death battle for her—hopefully, in favor of life.

The first child of Mr. and Mrs. James Anderson of Grundy, Va., Kathy was born in December, 1960 with spina bifida—a severe birth defect in which the spinal column fails to close completely. Its cause is unknown and there are too few specialists in its treatment.

Mrs. Anderson had been sent home, uncertain of her baby's future, while Kathy remained in the hospital. The doctors were undecided on the next move.

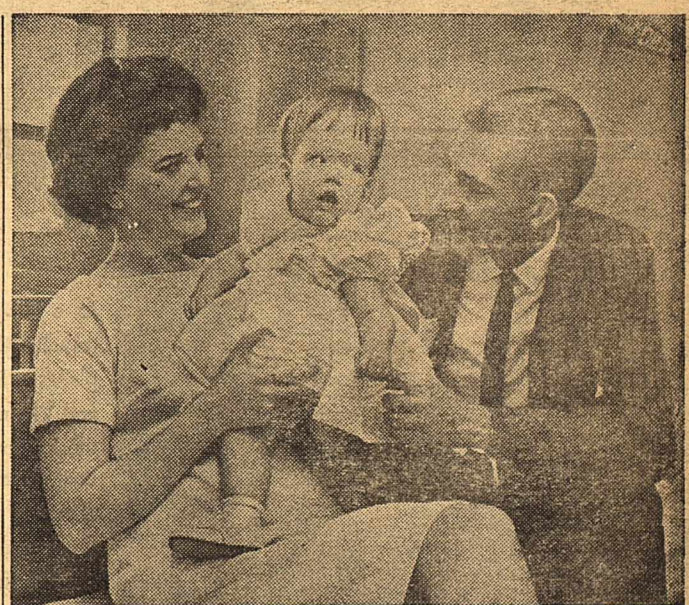

Helpful Neighbor Phones
Ten days passed. Then the Andersons' telephone rang. It was a neighbor who had just read a magazine story about Linda Brees of Columbus, Ohio, the 1961 March of Dimes Poster Girl.

The article, in the monthly publication of the Loyal Order of Moose, told how Linda, also a spina bifida victim, had undergone an operation at Children's Hospital in Columbus, and was now making steady progress under a program of treatment and rehabilitation at the March of Dimes-financed Clinical Study Center there.

Mrs. Anderson, whose father-in-law is a Moose member, read the article for herself and promptly called her family physician, Dr. Thomas McDonald. They agreed on an immediate call to the Brees family, 200 miles away.

Mrs. Brees confirmed the story. She also praised the skills of Dr. Martin P. Sayers who had performed the operation on Linda and of Dr. William O. Robertson, director of the March of Dimes-supported Center.

With Dr. McDonald making the arrangements, Kathy was soon taken to Columbus for surgery by Dr. Sayers. The operation was successful, but Kathy then began to develop hydrocephalus, or water on the brain, which frequently accompanies the open spine condition. Dr. Sayers inserted a plastic tube which drains the excess fluid from Kathy's head

During reassuring check-up visit to March of Dimes-financed Birth Defects Clinical Study Center at Children's Hospital, Columbus, Ohio, Kathy Anderson, 18 months, gets loving embrace from parents, Jim and Barbara Anderson of Grundy, Va.

into her body to be absorbed. Kathy went back home to Grundy in February of 1961 after spending a month at Children's Hospital, but she's been a regular visitor since. Faithfully each month from March through October, Mr. and Mrs. Anderson drove 650 miles, round trip, between Grundy and Columbus, leaving home at midnight to reach Children's Hospital at 8 a.m. and returning the same afternoon.

Kathy Checked Closely
This enabled Dr. Robertson and all the other members of the Clinical Study Center's medical team to keep a close check on Kathy in the important early months and to act promptly on any changes in her condition.

Now that the critical stage is past, the Andersons must make that long auto trip only once every three months. But it doesn't seem so long to them now because it leads to hope for Kathy's future.

Despite her continued improvement, Kathy's problems are far from over. Says Dr. Robertson: "Kathy is a cheerful little girl who seems to be respond-

ing well to much of the treatment we are prescribing for her. However, like most children with severe birth defects of the central nervous system, she has complications which we can't fully correct because we don't know enough about them yet."

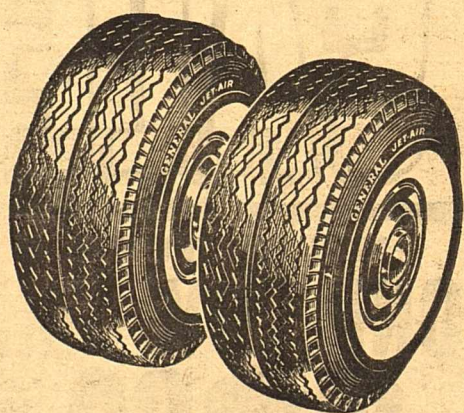

Centers Fight Crippling

The expert medical team at the March of Dimes-supported center in Columbus and those in more than 50 other centers are working to improve diagnosis, treatment and rehabilitation techniques to help make possible nearly normal lives for the victims of crippling birth defects, arthritis and polio.

Jim and Barbara Anderson can only hope that the work of Dr. Robertson and his associates will bring a promising future to Kathy. But they can personally endorse his diagnosis of their daughter's disposition.

"She's a lively, happy baby who loves to have people around her," says Mrs. Anderson. "We try to keep her from getting spoiled but it's not easy. What can you do with four grandparents who have only one grandchild to fuss over?"

-GREEN NEWS-

By Betty Jones

We have had a few cold days this week but it didn't seem to cause a slump in the weekly average of registered golfers. There were 162 registered golfers this week. Of course, some of these golfers were the young people home for the holidays. And this gives me the chance to tell you about the Golf Club interest expressed by this group. Yvonne Davis Meitzen read about her mother's style setting in slim-jims and promptly wrote home asking about details. Bill McClelland said he keeps up with Uncle John and other golfers via Green News.

"I enjoy golf at home as much or more than I do at school."

"How many members do we have in the Golf Club now?"—and other questions and compliments were heard from Bill Karnes, Jimmy Cahill, Sarah Sawyer, Mary Adele Wilson, Claire and Cleve T. Jones, Charlie Howell, Johnny Morris, Mike Evans and Johnny Fields, to mention a few. It was nice to see all of them during the holidays.

Charlie Howell shot a 45 this week and bogied all but two. He shot a 45 and I also heard that he and his dad, Dr. Howell, played golf the day the thermometer reached 35 degrees. Oh yes, Charlie got a new set of golf clubs Christmas and Dr. Howell was surprised with a grand leather golf bag.

Speaking of cold weather, Mrs.

O. L. (Janita) Richardson, Jr. told me about a three-hole golf course in the mountains in Peru that O. L. played on. I thought, "that's about my speed", until I heard details about the course. This golf course is around 14,000 feet high and three holes of golf there is equivalent to 18 holes of golf here. The Americans who work in the copper mines there built this golf course. Want to hear more about this course, but am not planning to play golf there.

She said it was so cold there that the horses have long curly hair and the native Indians have large barrel-chests. From breathing—you know. Guess that's when you could really say, "I'm worn out, I've been breathing all day." This must prove that even the golfers in Peru see the necessity for a course—and build it. And they must be "real golfers."

Twosome on New Year's Day: Pauline Thompson and Wanda Cahill. Pauline said Anita got in a round of golf while she was home. Mrs. Jym Burnett of Winters visited the Thompsons during the holidays and complimented our course after her nine holes of golf. Wanda must have won her match with Pauline Sunday afternoon. She was smiling and humming while she loaded her clubs into the car and Pauline kept saying, "I just should have eaten black-eyed peas today."

Twosome: Mike Evans and Gene McCarver. Jimmy Trainer said, "If they make this last one, that's going to make 36 holes of golf for those two today." They made it.

The Ladies' Golf Tourney re-

sults with individual scores are on notes I can't find. But the winners for all events, I remember, and know I am correct. The winner for tournament, putting, etc. was Sammy Jean Espy. Really, she won them all. And it certainly simplified the reporting. Congratulations, Sammy.

Twosome: Betty and Bill Stewart.

Reggie Trainer said he stumbled through 18 holes of golf with Lee and Bobby Fawcett, Lunetta and Raymond Morgan. To make the game more interesting for himself Reggie "dared" Lee to hit the green on Number Nine. Lee "dared" and did. This did not spark Reggie's interest.

Charles Howard received a surprise Christmas gift: golf clubs, bag and cart.

Saw the Jack Mackeys at the driving range Saturday afternoon.

Lonnie Taylor is low man on top of the ladder. And that sentence confuses me, too. But just ask a golfer about the ladder and you will add your name and get to challenge and be challenged.

Twosomes: Win Saunders and John Bell; Gary Hardgrave and Dorr Scherz.

The revolving trophy that must be won 375 consecutive times in order to be kept permanently is still revolving. Without permission I'll tell you a few of the golfers in on this: Doyle Morgan, Clayton Hamilton and John McClelland. Hope we can all attend the presentation of the trophy to the permanent winner.

Twosome: Billie (Mrs. Tommy) Smith and Nancy (Mrs. Reggie) Trainer. Billie shot a 65. Nancy will let us guess who was the winner.

More Christmas golf gifts: Mrs. E. E. Sawyer—golf balls and I promised to caddy some morning (late); Libby Jo (Mrs. Shelby) Lowe—Golf clubs and bag; Bobby Lou (Mrs. Buddy) Mayer—golf bag and clubs; Tina (Mrs. Bill) Whitehead—golf bag and clubs.

Twosome: Louis Davis and Jack Adkins.

Golfers seen at the course this week: Dr. Frank Bond of San Antonio, Norm Rousselot, Red Nance, Jack Allen, Bill McGilvray and son Gary.

Mrs. Bill (Jerry) Tittle and Billie Smith—I didn't get the winner.

Our golf club is young but just look at the way it is growing.

The Sonora Golf Club wishes everyone a very Happy New Year.

Scanning The Movies This Week

"Young Guns of Texas" has three second generation stars carrying on the family name. James Mitchum, Alana Ladd and Jody McCrea are involved in a story concerning Confederate gold and the Union Army. The pursuers and the pursued play out their fate in danger and death amid Apache fights and shoot outs. Alana Ladd gives the film a life with her beauty and freshness, and her effective subdued portrayal augurs a long career. Chill Wills is in this one, too.

"Oceans 11" is a picture fans will long remember. Those who have seen it recall it's about the perfect crime in Las Vegas, where 11 men get away with the money, but it disappears. And that's the story unfolded by Hollywood's Rat Pack, names like Frank Sinatra, Peter Lawford, Sammy Davis, Jr. plus Dean Martin, Angie Dickinson, Richard Conte, Cesar Romero, Akim Tamiroff, Red Skelton and George Raft.

From crime to the sublime is the movie story this week in Sonora. "Magnificent Melody" is to be presented here Tuesday night, only, by the Sonora Music Club. The biographical film traces opera writer, Pietro Mascagna, deserting his law studies at 20 and entering a musi-

cal conservatory in Milan. This, he deserts to depart with a traveling opera company.

This is a good story in which Mascagna hears of a publisher's competition for a one-act opera. He feverishly begins to set a libretto sent to him piecemeal on post cards by his friends. His infant son dies at this point, he despondently refuses to enter the competition; but his wife secretly submits it. "Cavalleria Rusticana" wins, is produced before the queen in Rome with outstanding success. Music from the opera is heard in this film. The story is in English. The music knows no language.

"Flight of the Lost Balloon" stars Marshall Thompson and Mala Powers in a soar to adventure that involves the sinister James Lanphier plus erotic cannibals and a witch doctor in a ritual dance of death.

"The Loves of Salammbo" is about the hordes who lusted to conquer the pagan world of Carthage through the arms of the woman who held this ancient city's key. Jeanne Valerie is the woman with Jacques Sernas and Edmund Purdom leading the wars.

One of our New Year's Resolutions should be to support our churches more than in the past. All of us know that we need our churches. We see that our society needs the influence of our

When sorrow, or frustration, or sickness come to us, we want our church. We want strong, active churches in our community, but we fail to see that each one of us is responsible. Each person is responsible for his part in keeping his church strong. Each one must attend as often as possible, and we need to stop making feeble excuses. Each person should be willing to do his share of the work in the church. He must be willing to contribute financially. We cannot leave these things to other persons. We must become active in the church of our choice, because we help other churches as we become strong members of our own church.

Let us all resolve to be better Christians and better church members during this New Year.

**Devil's River Philosopher Says
1963 Is Fraught With Dangers,
But So Was 1962, Or 1800**

Editor's Note: The Devil's River Philosopher on his bitter-weed ranch on Devil's River maps his plans for 1963, his letter this week indicates.

Dear editor:
According to an article by an expert on world affairs which I read last night to rest my mind after mapping my plans for 1963, you can spin a globe of the earth and point your finger at it and regardless of where it comes to a stop, there'll be a crisis there.

This was supposed to convince you that times are serious, the world's in a ferment, and the days ahead are uncertain.

All this proves to me however is that this expert's not very familiar with the world's record.

There never was a time when you couldn't point your finger at any spot on the globe and show up a crisis. Even if you missed a country's capital and got only a ranch house or an apartment in town, there'd still be a crisis there, and nine times out of ten it'd be financial, the same as it is in the major trouble spots around the globe.

What this expert ought to realize is that if most individuals can live with crises all their lives, the world ought to be able to also. A majority of crises can be solved by money, but there never is enough money to whip them all at one time.

But what I started out to say was that I have not mapped my plans for the 1963 ranching year. What most people don't realize is the number of gambles a rancher faces. Oh sure, everybody knows a rancher has to gamble with the weather, worms and the market, but what some people don't seem to realize is that a rancher has

to gamble with himself. Just because the weather is pretty and the sprayer is ready to run, is no sign I am. How can a man predict that he'll be ready to fight when the flies are? Who wants to go fishing when it's raining?

My plans are all made, but they consist mostly of doing what I feel like each day after I've carefully weighed the prospects.

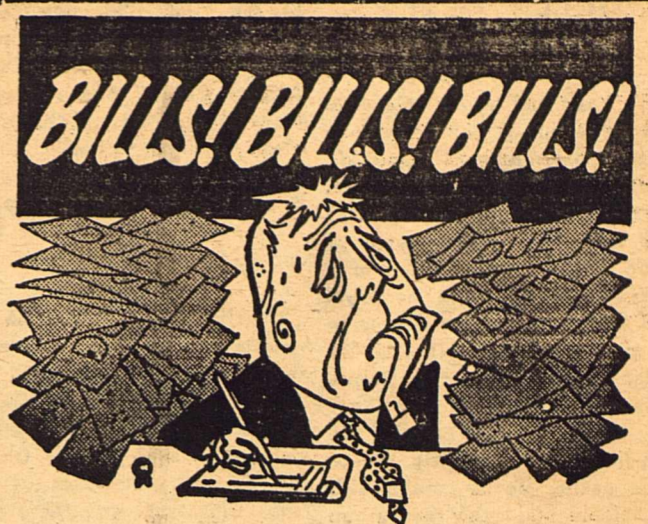

Sure, 1963 is fraught with uncertainties. So was 1962 or 1961, or 1960, or 1800, or the year
