TWENTY-SECOND WEEK

Sutton Countians Still Copping Honors At San Antonio Livestock Exposition

Roger Langford, son of Mr. and Mrs. D. C. Langford, showed the Reserve Champion Finewool Lamb of the San Antonio Livestock Show this week. Other top honors in the Market Lamb division went to Sutton County 4-H Club for the first place group of 15 finewool lambs and for the first place group of 15 finewool crossbred lambs.

Other placings were: Finewool Lambs: 2 and 5, Roger Langford; 14, Bert Bloodworth; 17, Mark Jacoby; 35, Robert Brown; 36 and 44, Bill Green; 46 Gil Trainer, and 58, Scott Jacoby. Finewool Crossbred Lambs: 22, Royce Mearns; 28, Mark Jacoby; 29, Roger Langford.

Chris Berger, son of Mr. and Mrs. W. F. Berger, exhibited the Champion Delaine Ram, Champion Delaine Ewe and Reserve Champion Delaine Ewe as well

as first place Get of Sire in the Junior Breeding Sheep division. In the open show Chris showed the Champion Delaine Ram. Chris also exhibited in the junior show, the second and third place ram lambs; first and second place two-tooth rams; first and second place ewe lambs; first and third place two-tooth ewes. In the open show he had fourth and fifth place ram lambs; first place two-tooth ram; first place four to six-tooth ram; first, third and sixth place ewe lambs; third and eighth place two-tooth ewes; second place exhibitor's flock, first place pen of lambs and first place get of sire.

Mr. and Mrs. L. P. Bloodworth, Jr., Buck, Bert and Lee were among those attending the stock show in San Antonio last weekend.

FAMILY LOSES BELONGINGS 'N TUESDAY HOUSE FIRE

The home of Torivio Cerda was totally destroyed in a fire early Tuesday afternoon, February 12. The house was burning out through the roof when Sonora Volunteer Fire Department arrived on the scene, according to Fire Chief Lee Patrick. The home and the family's personal belongings were a complete loss. Patrick said the youngest of five children in the motherless Cerda family was at home when the fire occurred. The father's ranch hand, was at work at the time.

Sonora Receiving Widespread Publicity Through Newspapers-Magazine-Textbook

Sonora as a tourist attraction is receiving extensive promotion and publicity throughout Texas and neighboring states.

The Caverns of Sonora will be featured in advertisements to appear in 136 newspapers, including the Devil's River News, in four states. The Caverns ad will be the first of a series of 11 advertisements underwritten by General Telephone Company of the Southwest featuring towns in the four states which have attracted new industry, developed tourist attractions or accomplished something out of the ordinary to improve the economic structure of their areas.

The Caverns also will be a main feature of the new "West Texas Travel Guide", a travel brochure with a guaranteed circulation in excess of 100,000. Colored pictures of the cave will

appear throughout the magazine and a half-page cover ad also appears.

Also in the offing is the inclusion of information and pictures of the Caverns in a new seventh grade Texas geography textbook to be published by Steck and Co., Austin. A spokesman for the publishing firm says the new text will appear in print for the 1963-64 or 1964-65 school year, dependent on the State Board of Education's calling for adoption of a new seventh grade geography.

REV. BRACKNEY SPEAKER

The Rev. Bob Brackney spoke on "The Christian Home" at the Brotherhood Sweetheart Banquet at the Eldorado Baptist Church on February 11.

Office Supplies At News Office

Ralph J. Finklea, principal of Sonora's Central Elementary School, was named Tuesday night to head the Sonora Chamber of Commerce for the coming year. Finklea, fifth president, succeeds Thomas B. Thorp. Other past presidents are Edwin Sawyer, Carl J. Cahill, Dr. Charles F. Browne.

Cecil Westerman was elected vice-president succeeding Finklea. Calvin Howell was named to the treasurer's post held last year by W. J. Thompson, retiring director.

H. V. (Buzzie) Stokes was re-elected secretary and manager. Installed as new directors were Vestel Askew, Stanton Bundy, Marion Elliott, Jimmy Hugh Harris and Raymond Morgan. They succeed Thomas B. Thorp, W. J. Thompson, Dick Black, Jack Mackey and Edwin Sawyer whose terms expire this year.

Holdover directors are Max G. Hardegre, Calvin S. Howell, Santo Lopez, Albert C. Ward and Cecil Westerman.

Besides electing officers, directors heard a financial report from Secretary-Manager Stokes who stated that the Chamber's

financial condition was improved some \$450.00 over January 1 of this year.

Thomas B. Thorp, president, presided over the meeting which was attended by directors Westerman, Ward, Lopez, Howell, Hardegre, Sawyer, Mackey, Thompson, Thorp, Morgan, Harris, Elliott and Bundy.

SONORA PUBLICIZED IN RODEO PARADE

Sonora was well represented in the opening day parade of the San Antonio Livestock Show and Rodeo. The Sonora High School Bronco Band was one of 50 bands participating in the five-mile parade.

Convertibles containing Francis Fields, Candace Cauthorn, Mary John Espy and Betty Jack Cooper bore placards publicizing the Caverns of Sonora, the Annual Sonora Wool and Mohair Show and the Spring Sonora Race Meet and Quarter Horse Futurity.

The Rev. Bob Brackney attended the District Baptist Training Union Conference in San Angelo on February 12.

Heart Fund Contributions Aid In Combatting Number One Killer

Maximo E. Sada, Aged Sonoran, Buried Here Sunday

Funeral services for Maximo Espina Sada, one of Sonora's oldest residents, were held at the First Latin-American Baptist Church here Sunday, February 10 with the Rev. Raul Soliz of Ozona officiating. Sada died Saturday, February 9, at Hudspeith Memorial Hospital.

Sada's exact age was not known, one record showing him to be 101 and another stating his age as 98. He came to Eagle Pass from Mexico in July 1906. His name originally was Maximo Espina Orosasada but was shortened to Sada by an employer who either misunderstood the surname or was unable to spell it. Sada was married to Tomasa Falcon in December 1910 at Brackettville and the couple came here 1911. His wife died and in 1939 he was married to Maria Martinez in Sonora.

Sada did yard work and gardening for many Sonora people during his more than 50 years of residence.

He was a charter member of the local Latin-American Baptist Church and was one of the ten members to be baptized in the Ozona church when the Sonora church was organized in 1936. He had been a faithful member since that time and at the time of his death was under the care of the local congregation, living in one of the rooms of the church.

There are no known survivors although it is known that he had one brother, Maximo Zaragoza; three half-sisters, Maxima, Antonia and Luisa Zaragoza; and three half-brothers, Doroteo, Tomas and Felipe Macareno. Their whereabouts are unknown. Pallbearers were Isabel Esquivel, Jose Esquivel, Jose Sanchez, Mario Duran, Leo Urias and Santos Lopez.

Burial was in Sonora Cemetery under direction of Ratliff-Kerbow Funeral Home.

The age-old practice of blood-letting may be coming back. Drs. George E. Burch and Nicholas P. DePasquale, New Orleans, report that frequent small bleedings have proved valuable in relief of angina (chest pain) and other coronary disease.

Moderate bleedings have reduced the thickness of the blood, permitting freer flowing, according to the New Orleans physicians.

This is just one phase of the vast research going on in an attempt to alter the huge toll of lives heart diseases claim every year. Conservative estimates are that cardiovascular disease accounts for the death of one of every 16 living persons in the United States. In Texas alone, about 619,456 had some kind of heart disease according to 1961 state health statistics.

The American Heart Association and its affiliates continued during the past year to be the most important non-governmental source of support for scientists in the cardiovascular field. The Sutton County Heart Fund, headed up by Lea Allison and Bill Savell, helps support such research.

Heart Sunday, February 24, is the only day door-to-door solicitations are made. Anyone who wishes to help with the one-day fund drive should contact the local heart fund secretary, Mrs. Marie Ellis.

License Plate Sales Still Slow

License plate season opened February 1 and Sutton County showed the following sales on February 12. Passenger plates sold numbered 85; commercial, 25; and farm trucks, 23.

Vehicle owners are urged to buy 1963 license plates as soon as possible to avoid the deadline rush when sales close on April 1.

Mrs. Birl V. Davis and daughter Claire Adele of Grapevine were guests here last week of Mrs. Lois W. Young, Wesley C. Young, and Mr. and Mrs. Birl Davis and Glen.

Houston H. Stokes, Former Resident, Dies At El Paso

Funeral services for Houston H. Stokes, 56, of El Paso were held Wednesday, February 13, in the First Methodist Church of Sanderson. Stokes, a retired ranchman, died in El Paso Sunday, February 10. He had suffered from a heart ailment for several years.

Stokes was born in Sonora November 4, 1906, the son of the late Mr. and Mrs. Lem C. Stokes. He attended Sonora schools. He made his home in Sanderson for several years but had been living in El Paso for about 15 years.

Survivors include his wife; two stepsons, Jimmy Davis and B. F. Davis; one sister, Mrs. Miers Savell of Sonora, and several grandchildren.

Golf Club Members Voting On Proposed Building Location

Members of the Sonora Memorial Golf Club are balloting by mail this week to determine the club's desires in the location of a proposed golf club building. Members are being asked to state their preference for locating the proposed building on the golf course or on private property offered by the J. D. Lowrey Estate.

Ballots are to be returned by mail to the club or may be presented to Mrs. Raymond Morgan, Mrs. Lee Fawcett, Clayton Hamilton, H. V. (Buzzie) Stokes or G. C. (Son) Allison.

A meeting of the club was held Monday evening but bad weather limited attendance and those present felt that a mail ballot would be necessary to determine the decision of a majority of the members.

Central Elementary To Crown Queen At Valentine Program Here Tonight

Broncs Very Much In Running For District 7-AA Basketball Honors

Sonora High School edged nearer District 7-AA honors in basketball competition by winning their last two games with Stanton and McCamey. The Broncos now have a season record of four wins, two losses.

The Friday afternoon game with Stanton was one of the most exciting games of the year, ending with a jump shot by Bill Elliott, just as the final buzzer sounded, breaking a 72-72 tie which would have gone overtime. The Stanton Buffaloes took a six-point lead in the first quarter which was narrowed to four points in the second period. Half-time score was Stanton 29, Sonora 25. The Broncs came back to score a scorching 30 points in the third to lead 55-50 as that period ended. A last-quarter rally by Stanton saw the Buffs rack up 22 points to Sonora's 19.

Next Week In Sonora

- Friday, February 15
 - 2:30 p.m. Basketball-Sonora vs Alpine, there.
 - 7:30 p.m. Music Club-Louie Trainer home.
- Sunday, February 17
 - Church today.
- Monday, February 18
 - 7:30 p.m., Art Club at new headquarters.
- Tuesday, February 19
 - 9:30 a.m., Girl Scout Neighborhood Meeting, Girl Scout Hall.
 - 12 noon, Lions Club, Methodist Church-Heart Program.
 - 6:30 p.m., Basketball-Sonora vs Crane, there.
 - 7:30 p.m., Episcopal Adult Study group-Mrs. Marie Ellis' home.
- Wednesday, February 20
 - 9:30 a.m., Women's Missionary Union-Rip Ward home.
 - 11:45 a.m., Ladies Golf and Bridge, French's Big Tree.
- Thursday, February 21
 - 12:30 p.m., Sonora Woman's Club-Clubroom.
 - 7:30 p.m., Dee Ora Lodge-Masonic Lodge.
- Friday, February 22
 - The Devil's River News is happy to print notices of meetings. We will add them to the calendar, if notified by Tuesday p.m.

Students at Central Elementary School will have their annual Valentine Queen coronation and program at the school Thursday evening, February 14. The program will open at seven o'clock with the presentation of the Court of Honor and coronation of Linda Ann McBride as Queen of Hearts.

J. V. Cook, King of Hearts, will place the crown on the Queen's head and a program for the entertainment of the court will follow.

"The Magic Story Book" will present music dancing and will feature characters for such childhood favorites as "Christopher Robin", "Alice in Wonderland", "The Wizard of Oz" and "Robin Hood". Mrs. W. T. Hardy is general program director and dancing are under direction of Mrs. J. L. Steed and Mrs. Ruth E. White.

Forming the Court of Honor will be these princesses and their escorts: Nancy Jo Smith and Bob Whitehead, Cora Pope and Bill Finklea, Susan Scott and Jack Sykes, Cindy Cavness and David Mathis, Donna Cooper and Wesley Richardson, Marilyn Morgan and Rick Street, Molley Morriss and Mike Dillard, Kay Kerbow and Roger Langford, Kathy Morgan and Ted Fish, Kay Archer and Jess David Cook, Shelley Morriss and Dale Selzer and Gail Espy and Steven Whitworth.

With an excellent chance of tying for first place conference honors, the Broncs travel to Alpine Friday for an afternoon game and to Crane Tuesday night for the season closer.

At their regular monthly meeting at the administration office of Sonora Public Schools, members of the board of trustees called a school board election for Saturday, April 6. At that time two board members will be elected to succeed R. S. Teaff and Harold Friess, whose terms expire this year.

Names of candidates for the offices may be filed at the office of Superintendent of Schools Rex W. Lowe. Final filing date is Wednesday, March 6.

Absentee voting will begin 20 days prior to the date of the election and continue until three days prior to the election. Voting will be at the county courthouse.

Sheriff's Department Duties Cover More Than Just Law Enforcement

Herman Moore is a big man in stature. So are his title and duties as sheriff, tax assessor-collector in a county that sprawls out over 1,493 square miles with property valued last year at \$8,530,355 with records on over 200 landowners, alone, involved.

Sheriff Moore has been in law enforcement a total of 14 years, with 11 of them spent here in Sonora. He was with the Texas Department of Public Safety as patrolman until 1959 and in 1960 was elected to his present office. Moore is current president of the West Central Texas Law Enforcement Association.

The county office employs three other people, including a deputy sheriff. Mrs. Zilpha Wheelis, chief office deputy since 1956, and Mrs. A. H. Adkins, employed since 1955, jointly handle county tax records, the source of all county income.

Mrs. Wheelis says tax collections are 97 percent. Property evaluations made every ten or 15 years are currently set at 14 percent of actual value. School evaluation of county property is set at 28 percent, with a 1962 total of \$13,135,815.

Property evaluation is made on home, vehicles, livestock and land, including oil and gas, which according to records is showing a marked depletion. Money is not taxed by the county, although this is legally allowable. The most lively facet of the office since frontier days, law enforcement, involves the checking of accidents, disturbances and all violations. Transients, guilty of wrong-doing, are checked by radio with neighboring towns. Identification and Criminal Records in Austin is checked, if circumstances indicate this need. County officers determine if photographs and fingerprints are

to be made. The sheriff and his deputy execute all the duties of criminal checking within the county office.

State-federal highways are covered by Highway Patrolmen Les Strawn, Joe Willie and Jim Harvey of Ozona. Texas Ranger L. H. Purvis primarily checks cattle brands, livestock thievery and safe cracking. His work may mesh with other state officers and with county officers. Ranchers and other citizens have always in an emergency hunt joined up with all law enforcement men, including the U. S. Immigration Service, headed up in Sonora by Senior Border Inspector T. C. McCutchen.

Another dimension of the county sheriff's office is community welfare, administered to travelers or other applicants in need. This is a local fund provided by the city, churches and civic organizations.

Texans Responding Quickly To Call For Screwworm Donations

Early reports indicate that livestock producers and sportsmen are giving their all-out support to prevent the Screwworm Eradication Program from having to be terminated because of the exhaustion of funds. Even some California livestockmen have sent in their contribution for \$500.

The Southwest Animal Health Research Foundation has set its sights on collecting the remaining \$1 million of the \$3 million goal by March 1 and intensive campaigns are being conducted locally throughout the state to achieve that goal.

Governor John Connally re-

cently stated he would await the result of the fund drive before considering an emergency appropriation by the State Legislature. He said he believes the livestock producers and sportsmen have an obligation to fulfill their commitment, and to demonstrate that belief he gave a personal contribution, his second as a Texas rancher.

The Foundation's president, C. G. Scruggs, said the Governor's statement makes it imperative that the money be raised by March 1. Every livestock producer, regardless of whether he donated before, will be asked to contribute on the basis of 50

cents per animals unit or, in Sutton County \$25 per section of land. Many of the state's sportsmen are actively participating by contributing one dollar for each deer they killed in 1962.

Screwworms in 1962 had been almost totally confined to the Southwestern states, whereas in the previous year, 17 states reported infestation. Livestockmen and sportsmen are urged to make their donations at the earliest possible moment.

Sutton County ranchmen may make their contributions to Ralph P. (Buddy) Mayer, county chairman, or to H. V. Stokes or the First National Bank.

Devil's River Philosopher Finds Something To Worry About In Population Figures For World

Editor's note: The Devil's River Philosopher on his bitter-weed ranch on Devil's River has found a new problem to worry about, his letter this week reveals.

Dear editor:
I know people are worried about Cuba, Canada, De Gaulle, Russia, China, Congress, etc., but I have run across a problem that worries me more than all those put together.

According to an article I read last night in snatches during television commercials and station breaks, the population of the world will double in the next 40 years. It took from the start of time to 1830 to reach one billion. But it took only 100 years to reach two billion in 1930, and only 30 years to reach three billion, which is what it is now, assuming the count was accurate in the African and Australian

brush country and the Siberian prison camps. In other words, the world's population is like the national debt. The bigger it is, the bigger it gets.

Consequently, in a few more years, the world's population will double again, and we'll have six billion people on earth. There's no way of estimating the national debt at that time, but I have confidence it will keep pace.

What worries me about this is another set of statistics. In 1800, if a rancher supported himself, he was considered doing his job satisfactorily. But in 1900, with more people moving to town, he was supporting himself and four city people. By 1963, the thing had got all out of hand and he was raising enough for himself and 23 people in town. Furthermore, as the population in-

creases, the number of ranchers decreases, and it doesn't take a mathematical wizard to see what a burden this puts on us ranchers.

As I calculate it, in 40 more years, if the trends continue, one rancher will have to produce enough for 46 people in town.

Now you may think what's worrying me about this is that I'll have to work twice as hard to carry my end of the load.

You're wrong. What's worrying me is how those 46 people are going to get by on half of what they're getting now.

Yours faithfully,
J. A.

Florida Turkeys Released By Texas Game Department

On January 26, Biologist Dave Austin and Pilot Forrest Neujahr, of the Florida Game and Fresh Water Fish Commission, flew into Huntsville with 16 adult Eastern Wild Turkeys. The birds then were taken by Texas Game and Fish Commission biologists Bill Wright and Bill Hudgins to an area about 12 miles north of Huntsville and released.

One of the 13 hens died before release and one of the three gobblers had grown very weak. The remaining turkey flew into the tall pines immediately and appeared to be making themselves at home when last seen. Given two or three successful breeding seasons, this seed stock could develop into a huntable population of wild turkeys for the northern part of Walker County, according to Ernest Marsh, wildlife supervisor, Region IV.

Regulations governing wild turkey transplanting require that a large tract of land in a single block, sufficient and suitable for turkeys, be brought under agreements to protect the turkeys from hunting for five years. Several sportsmen and landowners in Huntsville have worked very hard to get the release area under these agreements.

Numerous transplants of the Rio Grande turkey in eastern Texas in the past had limited success for a year or two after release, then gradually disappeared. Such experiences caused biologists to recommend only wild-trapped, adult Eastern Turkeys for stocking in East Texas. The birds for the Huntsville transplant were trapped from the Fisheating Creek refuge, just west of Lake Okeechobee in south central Florida.

Ysleta in El Paso County is the oldest community in Texas.

Human cross-circulation-permitting a second person's heart and lungs to pump the blood of a person under surgery-was developed by an American surgeon, C. Walton Lillehei, in 1954.

A mechanical heart and blood purifier was used successfully for the first time in 1953 by John H. Gibbon, an American surgeon.

The stethoscope was invented by a French physician, Rene T. H. Laennec, in 1816.

William Harvey, an English physician, first described the circulation of the blood through the body in 1628.

The King Ranch, one of the world's largest cattle ranches, includes about 995,000 acres.

Magazine Tells Of Prehistoric Texas Animals

Most people are dinosaur conscious because of publicity perpetrated by Hollywood movies, oil companies and newspaper and TV comics. Yet, few realize that the dinosaurs represent only one small group of animals that once lived in the rather dim past," writes C. C. Reeves, Jr., in the February issue of TEXAS GAME AND FISH, the official publication of the Game and Fish Commission. "For instance," explains Reeves, "Most people have heard that the great grizzly bear once roamed Southwest Texas, the antelope grazed the Llano Estacado, the black bear beat the East Texas thickets and elk, bighorn sheep and buffalo enjoyed the solitude of various locations. But few people know that great 50-foot 'Crocodiles' once lived in the Trans-Pecos or that 30-foot sea monsters terrorized the seas of southern Texas."

Giant crocodiles, sea monsters, in the Lone Star State? That's right! And C. C. Reeves, a professor of geology at Texas Tech., knows his business. According to geologist, primeval life in the state, in the form of bivalves, first appeared 400-500 million years ago. "But," writes the author, "it was only about 210 million years ago, in what geologists call the Permian Period, that the reptiles and amphibians for which Texas is best known, suddenly appeared."

There's quite a story in store for the readers of TEXAS GAME AND FISH, about "Far Back Fauna." In fact, the popular magazine has a number of surprise features this month. It has a good one on "Game Guardians," an adventure hunting dinosaur tracks and finding geodes, a very educational article about prairie chickens, hunting snipes with a muzzle loader, a lake story and a very touching poem about a dance in the Brazos brakes. If you're interested in taking the magazine, send \$2.04 to the Commission office in Austin.

SONORA'S GOING TO THE DOGS ... AND

SONORA CATS ARE CLIPPING, SKETCHING AND SHOOTING

FOR A CONTEST

PRIZES - PRIZES - SEVEN IN ALL!

GRAND PRIZE: FIVE SILVER DOLLARS
BOOK OF MOVIE PASSES - EACH CLASS

Prize in each class, one to winner 12 years and under one over 12—Seven prizes in all to be presented February 24 on Sunday afternoon, when Judy Garland in "GAY PURR-EE" premiers at La Vista Theatre.

BEST CAT OR DOG PICTURE in each of following classes:

- (a) Best magazine or newspaper picture.
- (b) Best amateur sketch or painting.
- (c) Best snapshot by amateur photographer.

RULES

1. Pictures cannot be returned.
2. Contest open to all, except employees and families of Brown Theatres and The Devil's River News.
3. One entry in each class per contestant.
4. Each entry must be made with an official entry blank, printed below, or available at either box office.
5. Entries must be mailed to Box 615, Sonora, or turned in at either box office by Friday, February 22.

O. C. Fisher Writes Golden Eagle Bill Still "Under Fire"

By Congressman O. C. Fisher

REPORTS REACHING HERE are that the field team sent to Texas by Secretary of Interior Stewart Udall, to collect information on the depredating habits of the golden eagle and the best means of controlling them, resulted in an avalanche of evidence confirming (1) that the eagles virtually live on lambs and kids during the Winter and Spring months, and (2) that the only effective means of destroying them is through the use of airplanes.

Despite our vigorous protests, the Secretary of Interior saw fit to issue a regulation to prohibit the use of airplanes. Everyone familiar with the problem knows that the only effective means of finding and killing the eagles is through the use of planes. We repeatedly assured him of that fact before he issued the regulation.

It is hoped that as a result of the disclosures that have been made to the field specialists, Udall will recognize his error and take immediate steps to correct it. This he can do with one stroke of the pen. The Congress has never made it a violation to kill golden eagles from airplanes. That was strictly the idea of the Secretary, by the issuance of a regulation.

SINCE THE DEPARTMENT is now engaged in seeking information on the subject it would be helpful for every farmer, ranchman and game conservationist who is familiar with

Hospital Notes

Patients receiving treatment at Hudspeth Memorial Hospital during the period from Tuesday, February 5, through Monday, February 11:

Mr. and Mrs. C. T. Jones, Mrs. Pat Cooper and Betty Jack attended the San Antonio livestock show last weekend.

the destructive habits of these birds of prey to write detailed accounts of their experiences and address them, promptly, to: Hon. Stewart Udall, Secretary of Interior, and to Mr. Daniel Janzen, Director, Bureau of Sport Fisheries and Wildlife, Department of Interior, Washington 25, D. C.

Hearts And Flowers On Valentine Day! Not For Scientist

Valentine's Day with its hearts inspires most lads to think of love, courtship and dainty morsels of chocolate candy.

But to Robert Janus, the heart means an organ that does enough work in 12 hours (obviously a non-union heart) to lift a 65-ton tank car one foot off the ground.

Not content with such an unhappy comparison, Janus goes on to report that the heart pumps blood through about 100,000 miles of blood vessels—a distance equal to five round trips between New York and Sydney, Australia.

A man's heart is only about the size of his fist, yet it pumps approximately 1,800 gallons of blood through his body each day.

In its first stage of development, the human heart is like the heart of a fish—only a simple tube. Then it resembles the heart of a frog, then that of a snake. When it's fully developed, it resembles the heart of a bird.

Janus, unfortunately, should know. He's science editor of World Book Encyclopedia. Mrs. Janus doesn't care—she'd better get her heart-shaped box of candy, or else.

Rita Smith, Phyllis Buttram, Linda White, Lucy Black and George Meeks, all senior students at Eastern New Mexico University, were recent guests of Janis Sykes on the ranch. Also home for the weekend were Alfred Sykes and Albert Sykes, students at Southwest Texas State College.

75 Million Heart Fund Dollars For Heart Research Since 1949

SYMBOLIC CHECK is displayed to 3-year-old Ronda Weed, a beneficiary of heart surgery, and her mother, by Herbert and Melvin Greensfelder of Logansport, Indiana, identical 67-year-old twins who suffered "identical" heart attacks 10 months apart and have since fully recovered. The \$75,000,000 shown on the check represents the total channeled into medical research by all Heart Associations in the nation since the first Heart Fund campaign was conducted in 1949. The 1963 Heart Fund campaign extends through February.

SOCIAL SECURITY MAN TO BE HERE FRIDAY

B. Paul McCowen, Social Security Field Representative, will be in Sonora at the County Judge's office in the courthouse on Friday, February 15 from 9:30 to 11:30 a.m.

Anyone wishing to file a claim or having questions should meet with the representative at the above time.

JUNIOR GI FORUM MEMBERS WIN IN ANGELO SHOW

Five members of the Sonora Junior G.I. Forum were awarded prizes in a San Angelo talent show held last weekend.

Miss Carmela Torres was presented with a silver platter, Miss Josephine Torres was presented with a large teddy bear, Robert Bermea, a finger nail clipper, Bobby and Ruben Castillo, a traveling bag.

Pedro Virgen, Ralph Gorzales and Isael Perez were presented gifts in recognition of their service to the organization.

Local GI Forums Attend Meeting In San Angelo

Sonora Senior G. I. Forum, the Ladies Auxiliary and the Junior Forum attended the San Angelo District meeting on Sunday February 3. Speaker for the afternoon was Mrs. Ed Idar from San Angelo.

Mrs. Alma Sanchez was nominated district secretary for the Junior Forum. She is also a Sonora candidate for the Queen Contest in the July convention. The next district meeting will be held at Ozona on March 10.

PVT W.A. McCOY, JR., ENDS FORT KNOX ARMOR SCHOOL

Army Reserve Private William Adrain McCoy, Jr., whose parents live in Sonora, completed eight weeks of advanced individual armor training under the Reserve Forces Act program at The Armor Center at Fort Knox, Kentucky, January 26.

McCoy was instructed in the duties of the four members of a tank crew: the gunner, loader, driver and tank commander.

McCoy, 19, is a 1962 graduate of Sonora High School.

Local Flu Cases Not True "Asian" But Shots Needed

Local medical authorities say the flu-like disease presently experienced in Sutton County is not a true Asian Flu, which has reached epidemic proportions in other areas of the nation.

Federal and state public health sources recommended influenza injections earlier this year, as epidemics were predicted. Local doctors are in agreement that this is wise. The serum for Asian flu is two injections, two weeks apart with a booster in three

The Chisholm Trail is one of Texas' many famous trails over which cowboys drove cattle to northern markets. More than 11 million cattle were herded up these trails between 1866 and 1885 when railroads were introduced to the area.

SUBSCRIBE TO THE NEWS

months. The booster would probably not be needed this late in the season.

What are you saving for tomorrow... besides money?

Any American who's read his history books knows it takes more than money to make the future secure. It takes freedom, too.

Just consider, for example, how little your saved-up dollars would be worth without the freedom to spend them as you wish. Consider how little the costly education you hope to give your child would be

You won't find it printed on a Savings Bond, but one of its big benefits is the strengthening of freedom itself.

worth without his freedom to put it to use.

These are reasons why so many Americans are buying U.S. Savings Bonds today. Each dollar you invest in a Bond comes back to you 33 1/3% larger at maturity—but it does more. It also goes to work for your country. Bond dollars all together—yours and everybody's—make a tremendous and important fund Uncle Sam can use to stand strong for freedom all over the world.

With U.S. Savings Bonds, you save money—and the freedom to enjoy it, too. Good reason to buy some soon—and regularly, from now on.

The communists hope to overtake us economically. One way we can stay in front is to stay strong financially—individually and as a nation.

Keep freedom in your future with U.S. SAVINGS BONDS

IN TEXAS BEER IS A NATURAL

As natural as the wholesome grains and tangy hops from which it is brewed, beer is Texas' traditional beverage of moderation—light, sparkling, delicious.

And naturally, the Brewing Industry is proud of the good living it provides for so many folks in Texas. Not only for employees of the Brewing Industry itself, but also for the farmers and other suppliers of beer's natural ingredients. In Texas, beer belongs—enjoy it.

Piano Duo Plays At February 7 Woman's Club Meet

Mmes. Louie Trainer, Harold Scherz, Cecil Westerman and Clayton Hamilton were hostesses at the Sonora Woman's Club luncheon meeting held at 12:30 p.m. Thursday, February 7.

A valentine theme was carried out. Mrs. Norman Rousselot and John Tedford presented selected piano duets. Plans were discussed for the spring production of a melodrama with the Music Club. Three new members were welcomed: Mrs. Dan Carter Cauthorn, Mrs. Jerry Hopkins and Mrs. Charles G. Davis.

Mrs. Albert Ward, president, appointed a nominating committee for incoming officers. Mrs. George Barrow was named chairman, to be assisted by Mrs. Shelley Lowe and Mrs. Jerry Shurley.

The annual meeting for 1963 officer election to be held on February 21.

MONDAY NIGHT CLUB MEETS AT KELLEY HOME

Mrs. R. B. Kelley entertained the Monday Night Bridge Club in her home on February 11.

Guests were Mrs. Earl Duncan who held high score, Mrs. L. C. Newell, Mrs. Belle Steen and Mrs. A. W. Awalt.

Members present were Mrs. Robert V. Kelley who held high for members, Mrs. Frances Gibson who won slam prize, Mrs. H. V. Morris who won bingo, Mrs. Howard Kirby, Mrs. J. P. Smith, Mrs. Ted Letsinger, Mrs. James Morris and Mrs. Francis Archer.

LADIES GOLF AND BRIDGE GROUP MEET FEB. 20

The Ladies Golf and Bridge Club will hold its monthly luncheon Wednesday, February 20. Hostesses will be Mrs. Lea Allison, Mrs. Louis Davis and Mrs. J. W. Elliott.

All members are urged to contact one of the hostesses this week for reservations.

MRS. GRANGER HOSTESS TO FIREMEN'S WIVES

Mrs. Wes Granger was hostess to the Women's Auxiliary of the Sonora Volunteer Fire Department at the Fire Hall at 7:30 p.m. on February 12.

The Valentine motif was carried out. Strawberry shortcake and coffee were served. Bridge and 42 were played. Mrs. Fred Adkins won high in bridge and Mrs. Bobby Granger winning high guest. Mrs. Billy Wright Taylor was high in 42. Mrs. Johnny Martin, Jr., and Mrs. Phillip Cooper won traveling prizes in 42. A total of 17 members was present.

The project of the auxiliary is to provide necessities for the Cerda family, whose home was destroyed by fire on February 12.

MRS. HOWELL HOSTESS TO JUST US. IDLE HOUR CLUBS

Mrs. J. F. Howell entertained the Just Us and Idle Hour Bridge Clubs jointly on Monday afternoon, February 11.

A valentine motif was carried out. A molded salad and cake with coffee and tea were served.

Mrs. Leo Merrill held high score for Just Us; Mrs. C. A. Tyler, second high; and Mrs. Rip Ward, bingo.

Mrs. Sterling Baker held Idle Hour high; Mrs. J. F. Hamby second high; and Mrs. G. H. Davis, bingo.

Mrs. Joe Brown Ross won the traveling prize.

Others present were Mes. Ed Mayfield, R. A. Halbert, W. R. Cusenbary, B. H. Cusenbary, Charles Davis and Belle Steen.

Congratulations To These New Parents

Mr. and Mrs. W. A. McCoy have announced the birth of a seven pound, 14 ounce daughter, Jo Lyne, born Monday morning, February 11, at Hudspeth Memorial Hospital. The new arrival has two brothers, W. A. McCoy, Jr. and Richard McCoy.

Mr. and Mrs. B. E. Cartwright of Sonora are the grandparents.

THE WOMEN' PAGE

J. A. Cauthorn, Sutton County Pioneer Observes 90th Birthday February 11

J. A. Cauthorn marked his 90th birthday February 11. Mr. Cauthorn, one of the pioneers of the Sonora country came to Sutton County more than 75 years ago, before the town was founded.

One of Sutton County's pioneer citizens, J. A. Cauthorn, observed his 90th birthday February 11 at the home of his daughter, Mrs. Rip Ward. Although the birthday itself fell on Monday, relatives and close family friends called Sunday afternoon to extend Mr. Cauthorn birthday wishes.

A cake forming the numerals "90" was featured on the serving table and members of the family present included his half sisters, Ida Cauthorn of Sonora and Mrs. Stella Altizer of Del Rio, and two of his half brothers, Dan Cauthorn and John Cauthorn, both of Sonora. Another half brother, Mack Cauthorn, was unable to be present. Also extending good wishes were the Cauthorn's only grandchild and his family, Mr. and Mrs. Albert C. Ward, Cathy, Kelly and Gus.

Mr. and Cauthorn was born February 11, 1873 in Mexico, Missouri, the son of the late Mr. and Mrs. Albert Russell Cauthorn. The family moved to Texas in 1882, settling in Bosque County, five years later, in 1887, Mr. Cauthorn and his family, came to Sutton County before the town of Sonora had been founded. Of these early days Mr. Cauthorn recalls, "I put up the first improvements in Sonora-I built a brush pen where the courthouse is now."

The Cauthorns took up land, with the father settling on the ranch now owned by Mack Cauthorn. Some years later, Mr. Cauthorn, together with "Short" Turney took up the land some 20 miles south of Sonora where Mr. and Mrs. Cauthorn made their home until about five years ago when they moved nearer town to live with their son-in-law and daughter.

Mr. Cauthorn married the former Miss Ada Earwood in Rock-springs August 2, 1905. The couple observed their 50th wedding anniversary quietly in 1955.

Until 1958, Mr. Cauthorn was active in ranching, raising fine sheep and cattle. It was in search of the ideal country for raising sheep and cattle that the Cauthorns came to Sutton County, and over 75 years of residence here have convinced Mr. Cauthorn that they found it.

Eisenhower Asks Support for 1963 Heart Fund

EACH AMERICAN has a highly personal stake in the conquest of heart diseases, according to former President Dwight D. Eisenhower, Honorary Board Chairman of the American Heart Association. In a special statement, he said: "Your Heart Association is mobilized for the conquest of heart disease and I urge you to join with me in aiding the Heart Fund."

La Diabla

By Lindy Groda

Under present law, assets passed on at death are not subject to capital gains tax. If I buy something for \$100, that is worth \$1,000 at my death, my children under present law would pay inheritance tax on \$1,000. Proposed law would have them pay capital gains tax on the \$900. And every plain ole mother, father and grandparent should protest this one.

U.S. Steel's volume of business was up over a million tons, but net profits lagged \$6 million behind 1961. It's the same all over, sales are up . . . profits are down. So the proletariat will one day rule, production will be centralized in the hands of the state, which will in turn obligingly "with away". That's the way Karl Marx prophesied it over a hundred years ago, when he laid down the communist ground rules in the Manifesto, that there was to be no private ownership of property either by individual or by industry.

Celestial antithesis: The sun comes up like silent thunder in a sphere of fire . . . as the moon sinks like cold anger in what looks like a chunk of ice these mornings . . . all at once in the same sky . . . where east is east and west is just what it is . . . and who would ever want it any other way . . .

Even in this changing world

that's shrinking everyday, when people must all be alike. There must be oneness, where there is no oneness, where heathen and Christian must join hearts and the latter must not mention Christ. It might be offensive. We must all join hands and cry, "Peace, peace" when there is no peace.

It has been said by those unknowingly waving the Red flag that Tshombe's action in the Congo was selfish, that he wanted Katanga's riches for just Katanga. And what was wrong with that, for Tshombe, the head of the only anti-communist, free enterprise system left in Africa to want to keep it that way. Let's not be too proud to say that the whole United Nations and our own country was on the wrong side in that little African shindig.

Others say the mess in Cuba was simply because this country had too much "heart" to wade in and rock the Russians back on their atheistic heels.

Too much heart, indeed! War on a small, failing scale is more "humane" than forever showing the world that strong God-fearing men must come to the rescue of the weak in an all-out fight against naked, godless might? This is humane, like amputating a leg in small chunks. It doesn't hurt so much that way.

What kind of heart is it, that lets the present Cuban regime give candy to little children when they deny God? Then they are told, according to Cuban refugee teachers, that the candy comes from Castro. Is this unholy failure, that we permitted, now to be described as "heart" as we sit smugly in our land of the free and the home of the heart, with no guts to help the brave left in the world?

I am proud to be an American. I am not too proud to say we can be wrong. If I have but one "lie" to give for my country, let it not be told about Katanga or Cuba. It's time to practice the most beautiful diplomacy in the world-truth.

Truth-even if it hurts those of us who are too proud to ever be wrong.

now is the time for . . .

TRAVEL

NAVY

As a Navy man you'll have a chance to travel with the fleet and visit such far off places as Singapore and Bangkok, Paris and Vienna. And once you've anchored in the harbor, you're off in a speedy liberty boat, bound for shore to visit lands you've always wanted to see. And best of all, a sailor is at home anywhere in the world. A man of the world, a man with a career that combines responsibility and satisfaction with travel and adventure.

SCALE WATCHING IS AN EXCELLENT HABIT

A scale in every home might be very beneficial to personal health, for weight is an excellent guide to future well-being—and should be watched carefully.

There is no short-cut to weight control. With each person, it is an individual problem, and subject to personal discipline.

Normal living and eating are likely the keys to health. If over-weight or under-weight, see your Doctor. He is the one qualified to determine the necessity and prescribe for such treatment.

Only with his guidance should you engage in any weight control project.

Westerman Drug

Ann McKinney, Jim Fish Write Winning Soil Conservation Essays In 1963 Contest

Approximately 200 essays were submitted in the conservation essay contest just concluded. Winners in the High School division were Ann McKinney, Jimmy Wilson, Carla Whitworth, Irene Davis, Jerry Shurley, Alma Sanchez and Candace Cauthorn.

"Many excellent essays were submitted", said E. B. Keng, Soil Conservation Service technician. Essays, which did not place, but deserve honorable mention were prepared by Betty Jack Cooper, Mary John Espy, Frances Crawford, Patricia McLaughlin, Dick Hardgrave, Elsie Earwood, Joe Mendoza, Ronnie Cox, Diana Black, Debbie Cooper, Cindy Galbreath, Rande Fawcett, Maria Santos, Shurly Rutherford, Jessie Lem Johnson, Francine Fields and Andy Moore.

In the Junior High and Elementary group winning essays were prepared by Jim Fish, Margaret Bundy, Bert Bloodworth, Prissy Howell, Mary Jo Martinez and Bonnie McKinney. Essays deserving honorable mention in this group were prepared by Gilda Ingram, John Adams, Cindy Lambert, Carolyn Benson, Johnny Ramos, Jessie Villarreal, Kaye Ellis, Tomye Smith, Shelly Morris and Nedra Raye.

The essay subject was Conservation . . . A Way of Life. About twenty of the best essays will be entered in a state-wide contest sponsored by the Fort Worth Press. The contest was sponsored locally by the Edwards Plateau Soil Conservation District and the Sonora Wool and Mohair Company. Seven local prizes totaling \$32.50 for High School students and six prizes of \$21.00 were provided.

"More students participated in the essay contest than ever before", Keng stated. Credit is due to complete cooperation of the

High School English faculty under direction of Smith Neal; to Mrs. Nan Stokes of Junior High; and to Ralph Finklea of Central Elementary.

CONSERVATION . . . A WAY OF LIFE

Nature has planned a balance in the cycle of water, soil, plants and wildlife. Man upsets this balance by destroying plant life, polluting water, and allowing the extinction or over production of wildlife. These disastrous unbalancing forces begin waste. The extinction of predatory animals allows the over-production of other wildlife. The land becomes overstocked and, hence, overgrazed. With plant life destroyed there is nothing to hold the soil. Rainfall, once trapped by plants and soaked into the ground, now rushes into enlarging gullies, carrying soil and seeds. Unprotected by lack of plant litter, the soil is baked hard by the sun, blown by the wind, and leached of plant food, the organic remains, by water.

The land becomes unable to support life and is a menace. The greatest reservoir of water-the soil-is destroyed. Rivers, their beds choked by soil and swollen by excessive runoff, flood. Fish and other aquatic life diminish, for muddy polluted water is hard on wildlife.

The destruction of productive land is, unfortunately, commonplace. Unwise practices can cause water, food, shelter and clothing shortages, disasters, a wrecked economy, and the decline of a great nation. Each year the population increases and more land is needed for cities, reservoirs, highways and air-

ports. Three fourths of the remaining land needs treatment to remain productive.

The largest obstacle in the conservation of natural resources is the gap between the science of conservation and the practical, everyday use of this science. Corrective treatment and preventive measures are available to anyone. Unhappily, the land owner often lacks the funds necessary for conservation. He simply cannot afford to allow part of his land to remain fallow to increase its fertility. As a majority of the land is privately owned, it is the responsibility of the individual to act now and support conservation.

To insure future happiness and prosperity conservation work must be handed on and accepted by younger generations. Americans are free, and the choice is theirs whether or not conservation becomes a way of life to propagate democracy and prosperity.

CONSERVATION . . . A WAY OF LIFE

By Jim Fish
Everyday there is more of a need for conservation of our natural resources, because population is increasing very rapidly.

Every inch of our soil is needed to grow food for the people and animals. Its should become a way of life with all of the people who want themselves and their children to eat three meals a day to conserve our soil. It takes Nature 400 to 1,000 years to make one inch of topsoil. All of the minerals that plants need for growth are in the topsoil. All of our food comes from the soil. The plants we eat grow in the soil, the animals we eat live on the plants, and the trees we make our houses with and burn for fuel come from the soil.

Conservation of our water supply is also of much importance. All living things need water to survive. Our water supply is

limited, so it is our job to see that it is used well.

The running off of water is very harmful. It carries off much of our topsoil and is simply wasting the water that is a necessity for plant growth.

All ranching communities should work out pasture rotation systems to prevent overgrazing of the land. All farming communities should work out crop rotations, contour plowing, and strip planting methods.

Whether it is in your backyard or on a farm or ranch, you should obey all game laws, stop water runoff, stop soil erosion, and save our food supply.

If we make conservation a way of life, we shall have an abundant supply of natural resources for years to come.

Heart Fund Campaign's 1963 Poster

OFFICIAL POSTER for 1963 Heart Fund Campaign, being conducted here and in all other American communities throughout February, is shown above. Drive will be climaxed by a door-to-door residential canvass in observance of Heart Sunday, February 24.

Scanning The Movies This Week

A primeval bird-beast has been sighted many light years away from La Vista Theatre. The monster is bigger than a battleship and travels four times faster than the speed of sound. Best calculations are that the fowl will arrive in Sonora this Friday night, February 15. The flying beast is surrounded by an energy shield of anti-matter, which scientists Jeff Morrow and Mara Corday try to pierce. The military gets into the act before the thing's over. See it all film-recorded in "THE GIANT CLAW". This is scientific, fictitious, great.

"NO TIME FOR SERGEANTS" shows Andy Griffith in the zaniest boot camp the U. S. military has ever known. Disarmament would just come naturally, if world leaders could sit down and hold their sides together through this umilitary performance by the funniest native son-shine North Carolina has produced. Did you know Andy got his start doing serious drama with historical productions staged outdoors in Virginia-North Carolina? (Wonder if a potential Andy Griffith will show up in the Women's Club-Music Club melodrama currently in production right here in Sonora?)

"THE SUNDOWNERS" are fun people . . . fervent people with a tremendous urge to keep breathing. If this story had no plot, no beauty, no point . . . it has all three in abundance . . . master actor - writer - comedian Peter Ustinov would offset any inadequacies. Of British-Russian extraction, Ustinov is one enormous streak of talent. He is Orson Welles in dramatic depth sprinkled with humor that usually carries a sometimes subtle, sometimes not, message. Deborah Kerr and Robert Mitchum are among those present in this one. Music is composed and conducted by Dimitri Tiomkin.

"LADY AND THE TRAMP" is Walt Disney's happiest twosome in a picture that leaves even an ordinary human being knowing that no pasture is greener than home sweet home. Scamp is the Tramp. Lady is the pedigreed woman dog, who learns something about the cruel world and loyalty to a very human family of people. Fun is a family affair, and "LADY AND THE TRAMP" is family fare.

Win - win - win - when? Prizes are to be awarded the afternoon of February 24 when "GAY PURR-EE" premiers at La Vista. You can't win if you don't enter your dog or cat photo or sketch or painting or clipping by February 22. If you are 12 you may enter. If you are over 12, you may enter in a different classification. All the Sonora cats will be there in Purr-son, Sunday, February 24.

HIGH LIGHTS AND SIDELIGHTS FROM THE STATE CAPITOL

By Vern Sanford
Texas Press Association
TEXAS SELLS ITSELF—Legislators' proposals to add such slogans as "Lone Star State" and "Texas Has Everything" to auto license plates haven't found favor with Dewitt Greer, chief engineer for the State Highway Department.

"T-E-X-A-S is the only slogan this state needs," Greer told the House Appropriations Commit-

tee. He added that more wording on car tags just means additional expense.

"All law enforcement officers will tell you," Greer explained, "that the readability of the rest of the plate is lessened if you crowd in slogans."

PARKS-HIGHWAY TIE IN—Green testified before the same committee during hearings on a bill by Rep. David Haines of Bryan to put state parks under

the Highway Commission's jurisdiction.

Greer made it clear that his commission is not seeking an extra job. But he stated, "If you gave us the parks to administer, we would do an outstanding job of it."

Haines' proposal is an alternative to Gov. John Connally's suggestion that the Parks Board be combined with the Game and Fish Commission.

Rep. Haines said he thought Greer's agency could and should take over the parks, and make each highway district responsible for the parks in its district.

"If the parks were improved," Haines stated, "it would increase highway travel, which would increase gas consumption.

And that would increase the gas taxes to the highway commission, so they would have a high state in doing a good job."

DEATH OF POLL TAX? If the rest of the Senate feels like the Senate committee on constitutional amendments, the poll tax may be on its way to extinction.

Committee gave a nine-to-two approval of Laredo Sen Abraham Kazen's bill to submit to the people a constitutional amendment that would kill the poll tax as of February 1, 1965.

The two "no" votes in committee came from Sen. George Parkhouse of Dallas and Sen. Gallo-way Calhoun, Jr. of Tyler.

"Ayes" came from Sens. Kazen, Charles Herring of Austin, Roy Harrington of Port Arthur, Don Kennard of Fort Worth, Culp Krueger of El Campo, Walter Richter of Gonzales, Aaron Schwartz of Galveston, Franklin Spears of San Antonio and Jack Strong of Longview.

If Kazen's bill passes the full legislature, voters would make the final decision in the 1964 general election. So far, every state that has voted on the federal constitutional amendment to do away with poll taxes, except Mississippi, has voted to drop it.

ANTI-POLLUTION BILL—A bill to give a county health officer the power to enter and check business establishments and manufacturing plants "to discover threats to the public health" from air or water pollution was revived by Rep. Bob Eckhardt of Houston. He failed to get it passed in previous sessions.

Governor Connally is supporting the new bill.

PARENTAL PAY PLAN—Fifty per cent of a man's weekly wage could be attached to pay child support if Tyler Rep. Ben Jarvis' bill becomes a constitutional amendment.

COUNTY UNIT CHANGE PROPOSED—Rep. George T. Hinson of Mineola thinks it's time someone started doing something about "modernizing county government." So he has introduced a bill to require county commissioners to be elected by the county at large.

Each county precinct would have to put up resident candidates, which, Hinson explained, would assure continued local representation through polled knowledge of each precinct's problems, and prevent the largest community from filling a commissioner's court with its own residents.

Hinson believes his county-at-large election plan would get commissioners from all precincts to work at all times for the best interests of the entire county.

If his bill becomes law, Hinson sees it as a forerunner to eventual, economical pooling of the resources—capital, road machinery, manpower and equipment—of all a county's precincts into one central unit.

LBJ LAW HIT—Rep. O. H. (Ike) Harris (R-Dallas) has introduced a bill to repeal the so-

Russia has 575,000 automobiles; Texas has 3,259,896—nearly six times more than all Russia.

called "Lyndon Johnson law".

Present law permits a candidate's name to appear on the ballot twice, thus permitting him to run for two offices at the same time.

CARR DISCUSSES PROSE-

CUTIONS—Atty. Gen. Waggoner Carr and Polk County Dist. Atty. Sam Freas have held preliminary discussions toward possible state-county coordination of prosecutions for graft in Polk County.

Carr said the Polk County official has asked for help in prosecuting indictments returned by the county grand jury against four county commissioners and a county judge for malfeasance of office.

NATIONAL ELECTRICAL WEEK

February 10-16 1963

The three million men and women of the electrical industry observe National Electrical Week each year during the week of Thomas A. Edison's birthday, February 11. National Electrical Week is a time when attention is focused on the contributions that electricity makes to our economy, our high standard of living, and our progress as a nation

Do you know that..

Today the United States has more power capacity than the next 5 nations combined and almost three times the power capacity of the Soviet Union.

West Texas Utilities has increased its electric generating capacity over 6 times since 1942.

In terms of residential use, the American home uses nearly eight times the electricity of the Russian home. Americans use twice as much for lighting alone as the Russian total.

The average cost of a kilowatt hour to residential customers served by WTU has decreased 35% in the last 20 years.

...you can live better electrically

IN THE YEAR OF

February 4, 1911
Geo. Trainer bought from Sam Stokes the old Baugh place next to the Episcopal Church for \$1,000.

-1911-
Marion Adams has commenced his lectures to the Masonic Lodge.

-1911-
V. J. Turney was in from the ranch near Juno Thursday.

The Sonora Country tops the Texas market in mohair and should be so considered in this particular. Sonora country is the heart of the goat raising district because of circumstance of nature. Sonora in the heart of the Live Oak belt of West Texas. The Home of the Angora Goat.

-1911-
FIREMEN'S MEETING-
The Sonora Fire company met in the office of the Martin Commission Company on the 27th of January, for the purpose of electing officers for the ensuing year, passing upon applications for membership, and the transaction of any other business on hand.

W. B. Keesee was elected Fire Chief, Murdock McDonald Assistant Chief, and Bart C. DeWitt Secretary and Treasurer.
The applications of Fred Trainer, John Martin and Henry Bridge for membership were voted upon with the result that the three applicants named are now members of the Company.

There will be another meeting on the 10th of February, and it is especially urged that as many as possible of the members attend the meeting, which will be held in the office of the Justice of the Peace in the Courthouse. Proceedings of that meeting, as well as the personnel of the Company for the year 1911 will be published at an early date following the 10th.

-1911-
February 11, 1911
Basil Halbert visited San Antonio during his absence and saw the machines fly. Says it is a great sight and worth going miles to see.

-1911-
J. O. Eastland of Meridian, Miss. is visiting his cousin H. Eastland the sheepman on the Holland ranch.

-1911-
The Right Rev. J. S. Johnston D. D. Bishop of West Texas, will visit Sonora and conduct services at the Episcopal Church on Tuesday February 28. He is well and favorably known here and will have a large congregation.

Sheriff Moore To Preside At Lawmen's Meeting

Sutton County Sheriff Herman E. Moore, president of the West Central Texas Law Enforcement Association, will preside over that organization's conference to be held in Abilene Tuesday, February 19. Representatives of law enforcement bodies of the 23 counties comprising the association will be present. Speakers for the conference will include Abilene attorney David Hooper who will speak on "Writs and Civil Process"; Abilene attorney Bryan Bradbury, "Civil Rights"; Abilene Police Sergeant M. K. Eoff, "Composite Pictures"; Lubbock County Sheriff Grady Harrist, "Jail Procedures"; Abilene Judge of County Court at Law Theo Ash, "Juvenile Delinquency."

Elliott Students To Name Queen In Voting Today

Cupid's arrow will swerve and veer at the direction of the entire student body to select a Valentine Sweetheart of L. W. Elliott School this Thursday, February 14.

On the ballot are Elizabeth Avila, Noelia Sanchez, Isabel Chavarria and Beatrice Esquivel. One of the candidates will be presented as Valentine Sweetheart in a program to begin at 12:45 p.m. in the auditorium. The Sixth and Seventh Grades are to present the program with Mrs. Dennie Hays and Mrs. Edgar Glascock as sponsors.

Program Changes In Girl Scouting To Be Told Tuesday

Parents of Brownies and Girl Scouts are invited to attend a Girl Scout leadership meeting to be held at the Girl Scout Hall Tuesday morning, February 19. The meeting will begin at nine o'clock and continue until noon and mothers may come at the time most convenient for them.

Purpose of the meeting is to acquaint local leaders and parents with the new Girl Scout program which will be comprised of four Scouting groups instead of the former three. Age groups will be Brownie Scouts, aged seven and eight years; Junior Girl Scouts, aged nine through 11 years; Cadette Girl Scouts, aged 12 through 14 years, and Senior Girl Scouts, aged 15 through 17 years.

Screwworm Fund Honor Roll

- J. Lee Foster
- W. R. Cusenbary
- Jack Allison
- G. W. Stewart
- M. L. Schulz

The above are ranchmen who have contributed 100 percent to both fund drives, for a total contribution of \$50.00 per section of land.

Sutton County Still Death-Free On Highways

Sutton County continued to maintain a record of no rural highway fatalities as Texas Department of Public Safety statistics for the month of January 1963 were released this week. Two persons were injured in 1 accident in the county during the month and property damage in the amount of \$778.00 was suffered in a total of two accidents.

In the San Angelo Sub-District four persons died in four separate accidents during January. Another 28 persons were injured in 17 other accidents and property damage in the amount of \$36,345 was involved in 49 accidents.

For the month of January 1962, Sutton County had two persons injured and property damage in the amount of \$1,203.00 in two accidents.

Mr. and Mrs. Ernest McClelland spent last weekend in Sweetwater where they visited their daughter and family, Mr. and Mrs. George Thompson and children. The McClellands were accompanied home by their granddaughter, Tracy Thompson, who is spending this week here.

Mr. and Mrs. Norbert McIntyre and son Randy of Midland visited Miss Nettie Word here this past week. Miss Word, a Sutton Countian for many years, is temporarily making her home in Del Rio.

Joe Bryan Donaho To Preach Sunday At Good Shepherd

Joe Bryan Donaho, senior student at Austin Presbyterian Theological Seminary in Austin, will be guest pastor at the Sonora and Roosevelt Presbyterian Churches Sunday, February 17. He will speak at the eleven o'clock morning service at the Church of the Good Shepherd here and the seven o'clock evening service in Roosevelt.

Donaho received a bachelor of arts degree from Texas Christian University in 1960. He was a member of the English Club, the Chapel Choir, the Greek Council of Chaplains, and Sigma Alpha Epsilon fraternity.

He is married to the former Miss Kay Ferguson of Palestine, Texas. Donaho has his church membership in the First Presbyterian Church of Bryan.

SUTTON RAMBOUILLETS WIN SAN ANTONIO HONORS

Tom Glascock, Mark Jacoby and Scott Jacoby exhibited high place winners in the Rambouillet division of the breeding sheep show of the San Antonio Livestock Show Tuesday.

Exhibiting in the open show Tom, son of Mr. and Mrs. V. J. Glascock, placed eighth and ninth with his ram lambs and fourth with his four-to-six tooth ewe. In the junior show he showed the first and 11th place ram lambs, fourth and ninth place two-tooth rams, Reserve Champion Ram, second and 11th place ewe lambs, fourth and sixth place two-tooth ewes, Reserve Champion Ewe, and fourth place get of sire.

In the junior show Mark and Scott, sons of Mr. and Mrs. Philip Jacoby, placed as follows: Scott, fourth place ewe lamb and tenth and 12th place two-tooth ewes; Mark, first place two-tooth ewe.

Mr. and Mrs. Dick Black, Diana, Barry and Jimmy were in Del Rio Friday and Saturday visiting Black's mother who had sustained minor injuries in an automobile accident there last week.
