Golf Course Fire Friday Afternoon Merely Routine

Where there was smoke, the wail of the siren and the rumbling of fire trucks there was fire Friday, February 22 about 6 p.m. at Sonora Memorial Golf Course.

The Volunteer Fire Department answered a call to the golf course, where it turned out Son Allison was routinely burning off grass. A passerby had reported it to be out of control. Later in the evening, Fire Chief Lee Patrick said they again checked the grass fire when it appeared to be spreading. No damage was done.

An estimated 1,500 to 2,000 Sutton County residents will receive Type One Sabin oral polio vaccine Sunday afternoon, March 3, at Central Elementary School. The mass immunization was set by local doctors after a canvass of the county showed an overwhelming desire for the program.

The first of the series of three doses of the vaccine will be given beginning at 12:30 Sunday afternoon, continuing through 2:30. The second dosage (Type Two) will be dispensed on Sunday, April 14, and the final Type Three on Sunday, May 26.

Health authorities recommend that everyone from three months old up take advantage of this free vaccine, if they have not previously had the oral vaccine. Local doctors say polio victims have been as old as 90 years of age. The Sabin vaccine also increases effectiveness of the Salk injections which many persons have already received.

The vaccine is to be administered under the auspices of local doctors, under sponsorship of the Sonora Lions Club. Financing

The group held a business meeting, followed by Bible study on the office of a minister, taken from Timothy. A "pot luck" supper was served, followed by Sonora Caverns slides, shown at the close of the evening by Allen Groda.

Mrs. Glen Reeves of Mansfield, Arkansas has been visiting here with her mother, Mrs. D. Q. Adams and other relatives.

details are as yet incomplete. Anyone wishing to help defray expenses for the vaccine may contribute at the school on the dosage dates.

Results of the community poll taken through the schools and the Devil's River News showed more than 1,500 persons favored mass immunization and fewer than 50 opposed.

In co-operation with doctors and the Sonora Lions Club, the West Side Lions Club is setting up an automobile service to persons who do not have a means of transportation to the school. West Side President Abelino Sanchez has appointed telephone committees who are attempting to contact persons without known means of transportation. Anyone who will need a ride to the school Sunday may contact Sanchez or one of the following club officers: Ernest Castro, Pedro Galindo, Sr.,aul Favila, Robert Duran, Euladio Gonzales, Arturo Trevino, Billy Gonzales, Arturo Trevino, Billy Gonzales, Trinidad Ramirez, Nick Esquivel and Rodrigo Santos.

4-H Grass Team 2nd At San Antonio

The Sutton County 4-H grass judging team won second place in the 4-H division at the San Antonio Livestock Show.

Sutton Ranchers Donate Liberally In Effort To Keep Screwworm Program

Sutton County ranchmen and others have contributed another \$18,000.00 in funds to keep the screwworm eradication program in operation. The second drive was deemed necessary in order to raise a total of \$3,000,000 which is the producers' share in the program.

Theme of the drive here has been, "If the program fails it will not be the fault of Sutton County." While producers were requested to donate one-half of their initial contribution of \$50.00 per section of land, many ranchmen felt the program so valuable that they gave again the full amount.

Many organizations have aided the fund drive on a statewide basis, including sportsmen, private foundations and breeders' associations. Locally generous contributions have been made by the First National Bank, the Southwest Texas Electric Co-operative, Kimble Electric Co-operative, Inc., R. M. McCarver, Sonora Feed and Supply and by the "Sutton County Head Hunters", a group of 12 Dallas men who hunt in the county each year.

Officials of the Southwest Animal Health Research Foundation, which is collecting the funds, expresses confidence this

week that the \$1,000,000 needed to keep the program operational will be raised by March 1.

There are definite signs that progress toward eradication has been made and success could be reached this year if the money is available and producers cooperate by preventing screwworm infestations from developing on their ranches. All of the cases now being found are located in deep South Texas. Officers hope it will be possible to contain them in that area and prevent their northward migration. Producers are being urged to check their animals faithfully, treat wounds and send in samples.

CENTER OF THE SOUTHWEST

That is why we are investing millions in new electric generating capacity and in new distribution facilities to keep pace with this area's exciting growth.

But of more significance, this fact explains why we are planning vast additional expenditures in anticipation of even greater growth to come.

Texas Highway New Tourist Map Now Off Presses

The strikingly colorful 1963 edition of the Official Highway Travel Map of Texas is ready for the asking.

Designed to show Texan and tourist alike how to discover the Lone Star State's vacation "fun-tier", the Texas Highway Department publication is free to the public. Copies may be obtained by writing the Texas Highway Dept., Travel Division, Austin. It is also available at the 25 highway district offices and eight Tourist Bureaus operated by the department. County tax offices have special cards for ordering copies of the map.

Within the year, 750,000 or more of the free maps depicting Texas delights in vivid full-color photographs will find their way to glove compartments all over the United States and the world.

Keyed to the swelling Texas tourist industry-up 14 percent in visitor volume last year-the new travel map urges users to "Discover Texas-Today's Fun-tier". The map and its "fun-tier" theme are links in a promotional package of publications and other materials aimed at enhancing the image of Texas as a vacation paradise.

Purpose of the map is to stimulate travel in Texas both by Texans and visitors, and to make it easier for motorists to get from place to place. Scenic and cultural diversification of Texas is capsuled in a message by Governor John Connally urging prospective visitors to "visit our historical sites, vacation playgrounds, inland lakes and Gulf Coast beaches-our mountains, plains and piney woods-our cities and towns. The Texas Highway Department will be happy to provide you with any information you may need for your visit."

Eighteen full-color photographs illustrate the Governor's description of Texas' varied vacationlands. Depicting activities ranging from big-league baseball to bass fishing, the photographic cross section and easy-to-read map comprise a useful showpiece of the many-splendored charms of Texas.

The 28 x 36-inch map shows that highways have been growing with Texas and contributing to the growth of its tourist industry. Multi-lane-divided highway miles now completed and indicated on the new map total 2,808 miles.

Nearly 50,000 miles of highways are shown on the current map. Some 22,000 miles of Farm and Ranch to Market roads are shown and all Interstate, U. S. and State highways are indicated. Located on the new map are 854 Roadside Safety Rest Areas.

The 1963 map lists 1,837 towns and cities. Major routes in the state's 12 largest cities (over 100,000 population) are shown in inset maps. Cities covered: Amarillo, Austin, Beaumont, Corpus Christi, Dallas, El Paso, Fort Worth, Houston, Lubbock, San Antonio, Waco, and Wichita Falls. Elevations and population symbols are also given for cities.

Mahogany trees are traditionally cut by moonlight.

Natives of Monte Carlo are not permitted to gamble at the casino.

Only one state, Washington, has been named for a U. S. President.

Patagonia is at the southern end of South America.

Martin Van Buren was the first President born in the USA.

The first barbed wire was made in 1873 by Joseph F. Glidden of DeKalb, Illinois.

committed himself to vote to provide general tax revenues to support the parks system once they are merged.

COUNTY SCHOOL SUPERINTENDENTS- A heavy majority in the House favors ousting county school superintendents in 83 counties. They voted to cut off state aid to them. Aim is to force the voters to say "yes" or "no" on whether they want to keep them at county tax expense, after their present terms run out in 1966.

If this proposal gets through as it now stands in the House, the state saving will be more than \$1,000,000.

Counties affected are those with no more than two rural school districts under the county official's supervision.

COUNTY BUILDING HIKE OKAYED-A bill by Rep. Vernon Beckham of Denison, designed to solve a local problem, may prove helpful for rural counties.

It would allow county commissioners' courts to spend up to \$200,000 for county buildings outside the county seats. Present law limits this expenditure to \$150,000.

Bill was passed by the House, 143-0.

County seat of Grayson County is Sherman. But Denison-in the same county-is almost as big and as busy. Therefore an adjunct county courthouse building is under construction there. Building and property costs have risen so that the Denison courthouse can't be finished until the increase is authorized.

GOVERNOR'S APPOINTMENTS-Governor Connally has made these new appointments:

Everett Fulgham of Lubbock has been named to the State Securities Board.

Appointed to the Board of Regents of State Teachers Colleges are Clayton Heare, Amarillo; Otis Lock, Lufkin; and Dr. Joe San Martin, San Antonio.

W. S. Bellows, Jr. of Houston will fill the unexpired term of Joe Ed Winfree, also of Houston, on the Board of Control.

VENDORS WIN- The state cannot collect the two per cent sales tax on sales through vending machines, where each sale is less than the minimum 24-cent taxable range.

Justice John C. Phillips of the Austin Court of Civil Appeals pointed out that the sales tax is a levy on the consumer, not the vendor.

VACCINATION REMINDER- Texas Health Department currently is reminding travelers to foreign countries of the need for certificates of vaccination.

Citizens planning to go abroad to visit the interior of Mexico must obtain a smallpox vaccination certificate.

U. S. citizens returning from another country are required to have a valid International Certificate of vaccination against the disease.

SHORT SNORTS Texas again led the nation in 1962 as the foremost interstate highway builder, with 3,000 miles of highway construction contracts awarded during the year.

Rep. Bill Rapp of Raymondville and Rep. Maurice Pipkin of Brownsville introduced a bill to repeal the 1961 Sunday Blue Law.

State Comptroller Robert S. Calvert said a new cigarette vending machine permit-a gold, pressure-sensitive decal-must be displayed on all machines March 1.

Texas Railroad Commission ordered an oil allowable of 28 per cent for March. This would be a production decrease of 56,569 barrels per day from the 29-per-cent February allowable.

On March 20, principal executives from oil purchasers throughout the nation will come to Austin to testify on the demand for Texas oil.

Ether is produced by distillation of alcohol with sulphuric acid.

BAPTIST WMU PLANS MISSION PRAYER WEEK

Annie Armstrong Week of Prayer for Home Missions to be observed every morning at 9:30 beginning March 4 by the Women's Missionary Union at the First Baptist Church.

Mrs. Ward Named President Of Woman's Club

Mrs. Albert C. Ward was re-elected president of the Sonora Woman's Club at its Thursday, February 21, meeting. New officers to serve with Mrs. Ward will be Mrs. Armer F. Earwood, vice-president; Mrs. Robert Pfluger, recording secretary; Mrs. Bill Morriss, corresponding secretary; Mrs. Leo B. Merrill, treasurer; Mrs. Geore Wallace, parliamentarian, and Mrs. Tommy Smith, auditor.

Students from the speech department of Sonora High School presented the program. Irene Davis gave an oratorical declamation, Carl Whitworth a humorous declamation, Nancy Prugel and Diana Black a duet acting excerpt and Cindy Galbreath and Gary McGilvray read poems.

In a business meeting which followed, the club voted to landscape the clubhouse grounds and to install a sprinkling system as the club project for the 1963-64 club year. Mrs. Ward announced that the District convention will be held in Ozona March 25 and 26.

Hostesses for the social hour were Mrs. Rex W. Lowe, Mrs. Albert M. Everett, Mrs. A. E. Lowe and Mrs. Jimmy Harris.

Game And Fish Law Violations High During December

Game and fish law violations ran high in December, according to J. B. Phillips, law enforcement coordinator for the Game and Fish Commission. When all the cases filed for the month were tallied, 488 individual charges had been handled by Commission law enforcement officers. The most violations reported were for hunting at night, according to Phillips, with 80 persons being charged.

Fifty-five persons were charged with failing to have the required resident hunting license. Nearly that many, 44, were filed on for fishing without a license. The highest hunting violations were: 27 hunting from a motor vehicle; 27 hunting in closed season; 22 headlighting game animals; 20 untagged deer; 14 killing does; 15 killing ducks in closed season; 11 possession of deer with evidence of sex removed; and 11 illegally killing or hunting deer.

Of the 488 persons filed on, 23 were dismissed, 14 served jail sentences, five were suspended and 9 juvenile cases were dismissed. In all, \$19,716.30 were paid for fines and \$909.00 for court costs.

"It was a month of hunting," said Phillips, "so naturally hunting violations ran high." With fishing weather just around the corner, fishing violations may run high in February. If fishermen will get their \$2.15 fishing licenses now, and obey the regulations, law enforcement officers won't have many cases."

Religious Survey Re-Scheduled For Sunday, March 3

Due to bad weather, new dates had to be set up for the religious survey to be conducted in Sonora city limit by members of the First Baptist Church. The survey is to be taken from Sunday, February 24 to Sunday, March 3.

Information gathered will be shared with all of the denominations.

The Iris was traced back to early Bible times through its years of propagation and hybridization to its present rare beauty by Mrs. Lawrence Callen of Menard before Sonora Garden Club, the afternoon of February 25 in the home of Mrs. Joe Berger.

The club re-elected its complete slate of incumbent officers as follows: Mrs. Charles F. Browne, president; Mrs. Joe Berger, vice president; Mrs. James Hunt, secretary-treasurer; and Mrs. Norman Rousselot, parliamentarian.

Plans were made for spring work on the present Garden Club project. Mrs. J. C. Stephen, chairman of beautification, says help is needed to get the Bermuda grass out at the War Memorial site to be planted in Ajuga. There is a great need to get water piped to the sunken garden so some of the plants, already donated, may be set out and cared for, according to Mrs. Stephen. She says both are community projects, jointly handled by the Chamber of Commerce and the Garden Club, and the community's help is needed.

There's an arrowhead collection in the lobby of Twin Oaks Motel worth seeing. Also, a painting by the late Mrs. M. M. Stokes that's an Indian scene, all orange and green with mountains and covered wagons. It's painted on a window shade.

Four Russian church leaders are to come to Austin next month. The president of the National Council of Churches will be there too. So be it.

Since 1943, there has been an acknowledged intimacy between the Orthodox Eastern Church in Russia and the Communist state. Life magazine once pictured a Russian church leader, complete with Orthodox robes, and identified him positively as a Communist agent in this country to check the students, entertainers etc.

I'm not just seeing Red. I wish it were not true that most every Russian diplomat, oilman, entertainer and even churchman arrives packing his clever espionage gift-wrapped in peace, science, art and religion.

WSCS members had drawn names for prayer sisters some time ago. The names were revealed at the Wednesday meeting, and names were drawn again.

The Kremlin does not let the first ballet dancer out unless he carries the Red banner cleverly but well undercover. If he honestly learned better from just one of us, who effectively demonstrated individual Christianity (as opposed to the mass secular religion of communism), there would still be his family, hostages behind the Iron Curtain. That's the way it is done. Let's send them home with our prayers and the courage to find a way to stop serving the strongest atheistic movement the world has known.

Overheard Mary Davis practicing a thing I like. She's the original gatepost! Good luck, Mary, in the Speech Meet.

The debating topic is good: "Resolved, That the United States should promote a common market for the western hemisphere." I'm going to hear every word of it, take notes and send it straight to our low-or-no-tariff, European-Common-Market-first president.

There is more political awareness in today's thinking youth than in some of us adults, who grew up knowing America was great and always would be . . . unchallenged.

A salute to whoever wrote the rules for Bible Reading: "The reader may use either a King James or a modern translation of the Bible. Because of the language of the King James Version, a person who reads from it WELL, will no doubt, have an ADVANTAGE." Good statement, literally, now and after the Speech Meet.

Best wishes to all the contestants. Those that win won't need congratulations. To the others, you are one degree more a hero, if you keep trying. What is it about "My reach exceeds my grasp, else what's a Heaven for?" For trying for, that's what.

Scanning The Movies This Week

The weekend double feature in Sonora is Disney in two directions. Walt Disney has understandably just been given the Freedom Foundations Award. "LITTLEST OUTLAW" is a story of courage and suspense, two devoted companions, two unconquered spirits, a boy and his horse. "LOBO", as the king of the wolfpack, teams with "Outlaw".

In the 19th century the great Jewish Englishman Disraeli called race the key to history. And today, the key is growing, growing larger than the keyhole. There has to be a "PRESSURE POINT," title of the Sidney Kramer-directed movie that depicts white hot rage and black gury.

Sidney Poitier is a colored prison psychiatrist, assigned to rehabilitate a vicious bigot, played by Bobby Darin in his first "heavy" role. Bobby wanted to make a picture with Sidney Kramer, and he did not want to become a straight romantic image, which is sometimes the way to a quick Hollywood death.

Mary Mundy literally backed her way into the plum role of "PRESSURE POINT." Bobby Darin and gang utilize her perfect shoulders for a sadistic tic-tac-toe game in a honky-tonk bar. "PRESSURE POINT" is not fiction. It is based on Dr. Robert Lindner's "The 50 Minute Hour." The incidents and character development are basically factual and clinically accurate. "Pressure Point" most definitely points up the fact that all races have a responsibility to "mind our manners."

From the dim reaches beyond the earth's ice age, an awesome beast is reborn in the atomic-jet age. "REPTILICUS" is an indestructible monster against which the military proves powerless. Tearing the invincible monster apart with explosives only makes miniature monsters spring up from the fragments. This is the ultimate danger—a whole new generation of giant reptilian monstrosities roaming the earth annihilating civilization. General Grayson, played by Carl Otosen, has to give the cease firing order. Does he have the courage in this science-fiction dilemma? "AN AFFAIR TO REMEMBER" concludes the Sonora movie calendar on Wednesday, Thursday and Friday. Sounds like a good finale. This one will be a surprise.

A salute to little nine-year-old Patti Richardson, who came out ahead of all ages in last week's movie contest. In addition to the under-12 sketching prize, Patti took the grand prize of five silver dollars.

Germans are not permitted to accept a Nobel Prize.

RANKIN COUPLE SPEAK

The Rev. and Mrs. Austin Masterson of Rankin both spoke on "Family Living" at a joint meeting of the Methodist Church, the Women's Society of Christian Service and the Wesleyan Guild the evening of February 25 at the church.

By Rev. Bob Brackney, Pastor

"If a messenger from the dead witnessed to my brothers, they would believe him" . . . Luke 16:19-31.

This is the only parable in which Jesus actually gave a name to an individual. In this instance he gave the name "Lazarus" to the poor beggar who went to heaven. Tradition has applied the name "Dives" to the rich man

who died and went to hell. Usually these "earthly stories with heavenly meanings" were introduced with "a certain man", etc. Why did He give this particular person a name?

The Jews asked for unequivocal proof and evidence as to the validity of Jesus' claims. The rich man in hell, probably himself a Jew, rationalizes that he did not have enough evidence in life. Both he and those to whom Jesus was speaking would agree that they would believe a messenger from the dead.

The rich man in hell begged God to send Lazarus from heaven to earth that he might provide this irrefutable evidence for his lost brothers. Jesus said, "If they will not believe the scripture, neither will they believe a messenger from the dead."

In a few days, however, Jesus would raise from the dead a dea

friend. His name was Lazarus. The only connection between the two men was in name only. They are not one and the same. Jesus had a definite purpose in borrowing the name of his friend for use in the parable. He would prove that the messenger from the dead would provide no more acceptable testimony than the scriptures. Did the resurrected Lazarus provide the proof wanted? Yes—but still they refused to believe his testimony. In deed, they sought to put him to death again. They even sought to put Jesus to death; He who had such power over life and death!

Jesus himself rose from the dead. Neither did they believe his testimony.

If you cannot trust the wisdom and truths of the scriptures, neither will you place your trust in any other testimony, however great it might be.

Mr. and Mrs. Henry Diebitsch were in Sonora Friday shopping. Henry thinks the rain was heavier out his way, which is about 9 miles northwest of town, and believes that few warm days will make the Stockman's Paradise a wheat field, or look like one.

BUYS ANGORAS
L. L. and C. B. Wardlaw bought 2,600 Angora goats from Mrs. M. M. Parkerson at private terms. The goat is a great money maker and the Wardlaws have selected one of the best flocks in the Sonora country for their start. This bunch was bred-up for many years by the late M. M. Parkerson and should be good

stuff. "Dutch" will fire the herders after 30 days and do the herding and rustling with just one amigo. There is no telling what he will do with the 1,000 or 2,000 kids, but the chances are they will keep him in or out of mischief.

The masquerade at the Court House Wednesday night was a genuine and pronounced success. The music by Storms band from San Angelo was splendid and much appreciated. The house was well lighted and the costumes of the ladies pretty and attractive. The boys also entered into the spirit of the game and there were many surprises after the masks were removed. The judges awarded the prize to Miss Dixie Hodges as "Mother Goose" and to G. M. McDonald as "George Washington".

Mrs. Arthur Stuart was in from the ranch Wednesday and attended the Mask ball.

Crime Incidence Up 6.6% In '62 According To DPS

Major crime in Texas continued its upward spiral in 1962, outstripping the population increase as an average of one offense was committed every two and one-half minutes.

Col. Homer Garrison, Jr., director of the Department of Public Safety, reported that crime jumped 6.6 percent in 1962 over 1961, with the crime of auto theft showing the largest increase of 10.5 percent.

The 1962 figures represent an overall increase in crime in Texas of about 71 percent since 1955. The crime rate per 100,000 population increased from 2,122.0 in 1961 to 2,261.5 in 1962, confirming

ing once again the alarming trend that set in after World War II.

The official 1962 crime report shows that murder was down 8.5 percent, rape decreased 8.2 percent, robbery dropped 2.1 percent, while burglary increased 4.9 percent, aggravated assault 6.4 percent, theft 7.4 percent, and auto theft 10.5 percent.

In urban areas, there was an increase in major crime of 8.4 percent, offset by a 3.9 percent

decline in rural areas. By population groups, the greatest increase was 14.7 percent in cities between 50,000 and 100,000, while the largest decrease was 15.5 percent in counties with under five rural population per square mile.

There was an 11.8 percent increase in 1956, a 9.2 percent increase in 1957, a 9.3 percent increase in 1958, a 3.9 percent increase in 1959, a 13.1 increase in 1960, and a 2.2 percent increase

in 1961. "The 1962 figures, according to our statistical services section, mean that on the average, there was one major crime every 2 1/2 minutes, one murder every nine hours, one rape every 7 1/2 hours, one robbery every three hours, on burglary every 9 1/2 minutes,

one aggravated assault every 40 1/2 minutes, one theft every four minutes, and one auto theft every 32 minutes," Garrison said. Overall, there were an estimated 216,650 offenses in 1962, which compares with only 126,791 in 1955.

Devil's River Philosopher Amazed To Find Out New Yorkers Prefer Local News, Same As Rest Of Us

Editor's Note: The Devil's River Philosopher on his bitterweed ranch on Devil's River uncovers a fact about people in his letter this week.

Dear editor:
I know everybody is supposed to be international-minded these days, that it's only ten hours by jet from this bitterweed ranch to the other side of the world, if you could find a place to take off from, or land when you get there, that it's only 20 minutes by missile and one of those things doesn't need a landing field, and so I try to keep abreast of things and not upset world affairs, in fact, lots of times I have left off important work that should have been done around here until I had studied its effect on DeGaulle's thinking, if you want to call it that-not going to catch me repairing a fence if it's going to keep England out of the Common Market, but last night I ran across an item that makes me doubt if

some areas of the nation are keeping up with this advanced notion.

In fact, the area is New York City.

Now you'd think New Yorkers miss most while the city is without newspapers due to the strike is local news.

They can find out from out-of-town newspapers, shipped in what the Cuban situation is, or what it isn't, depending on who's saying it; what the situation is in Europe; what Khrushchev has pledged this morning but not necessarily what he has done this afternoon; what Congress has done, or thinks it's done, and things like that, but this doesn't satisfy them. What they want to know is what's happening in New York.

This bowled me over, or would have if I hadn't been stretched out at the time. You mean to say New Yorkers are just like people in Sonora? That New York women are interested in New York weddings first and the national budget second? That what happens to people they know for repairing a worn-out street on your way to work is more fascinating than building a foreign-aid dam on the Nile?

Understand, this doesn't mean the people in New York or Sonora aren't interested in the national budget and maybe even in the Congo, but a steady diet of the budget and the Congo leaves out a lot of flavor. As long as people are people, the New York Times and "The Devil" will never be replaced by distant papers without any home-town news. This may not be international-minded, but you and me and them New Yorkers just can't help it. Yours faithfully,
J. A.

The President is also plugging for another similar and overlapping project—a domestic Peace Corps. And still another overlapping agency he has come up with would channel more people onto the federal payroll, to work in so-called community service establishments—such as hospitals, playgrounds, welfare agencies, and migrant farm labor camps. It is proposed to limit enrollees to 50,000 the first year.

THESE ARE BUT A FEW of a number of pending proposals to expand governmental activities, and further involve the federal government in welfare projects which have always been treated as local responsibilities.

This reminds us that the deficit for this fiscal year is estimated to be \$8.5 billion, and next year at \$11.9 billion—plus any loss in revenue by reduction in taxes that may be voted this year.

UNESCO Aid To Cuba Welfare Measures Draw Fisher Fire

By Congressman O. C. Fisher
THE ANNOUNCEMENT that \$1.5 million is to be spent by the United Nations to promote agriculture in Castro's Cuba is both shocking and unbelievable. I have urged the Secretary of State to take appropriate steps to stop this unwarranted perversion of our taxpayers' money.

The spending was directed by UNESCO, a U.N. Committee, of which Paul Hoffman, our UNESCO representative, is chairman. The U.S.A. contributes 40 percent of the money that is spent by that group. If this goes through, the Congress should expressly prohibit any American money being contributed to UNESCO in the future. Indeed, this incident, along with some other strange developments that have taken place in the U.N., raises again the question of justification for our membership in that organization. Certainly, some drastic changes are overdue.

SHADES OF THE OLD NEW DEAL, reminiscent of depression days, turned up last week when the President asked Congress to revive the old Civilian Conservation Corps—a product of the depression. The cost, which would probably be fairly modest at first, can be expected to run into the hundreds of millions in the years ahead. But right now it appears likely this new welfare measure will sail through Congress.

A message from the Treasury of a free people

How to help give a new birth to freedom

Sometimes it's not easy to recognize a message of freedom.

In September, 1787, the framers of the U. S. Constitution released it to the States for ratification. Two States ok'd the document in a few weeks.

But it took until May, 1790—three years later—before the new nation was in accord on its basic law.

One of the strongest documents for freedom available to you today is a United States Savings Bond.

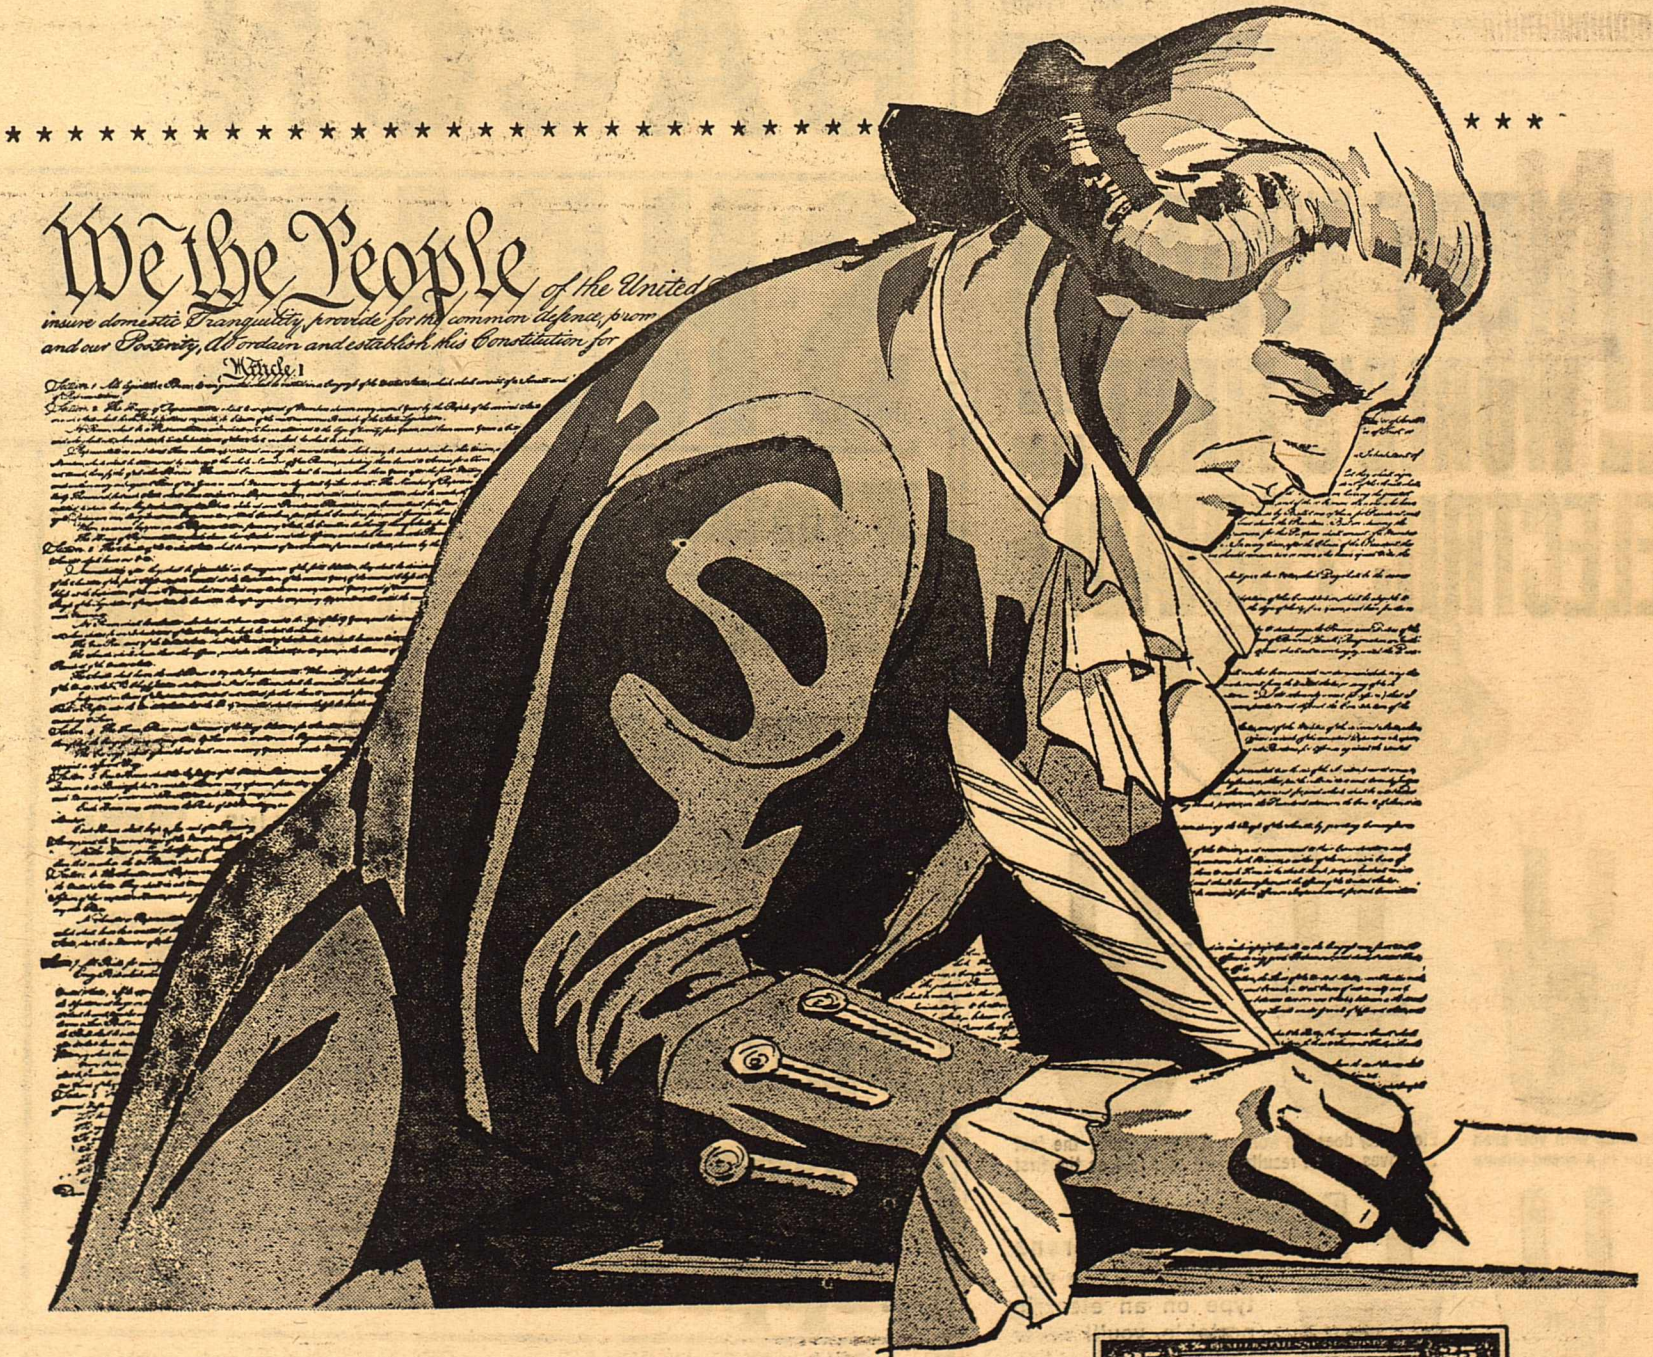

By buying Savings Bonds you help build peace-keeping machinery. You help keep the wheels of our

government turning smoothly. You help carry the message of freedom to hopeful people all over the world.

At the same time, your Bond money grows fast to increase your living standard and personal security—a goal that free people seem to have a knack for reaching.

All of which points pretty strongly to buying Savings Bonds today—at your bank or on the payroll savings plan where you work.

(Of course the decision is wholly up to you... another nice thing about being free.)

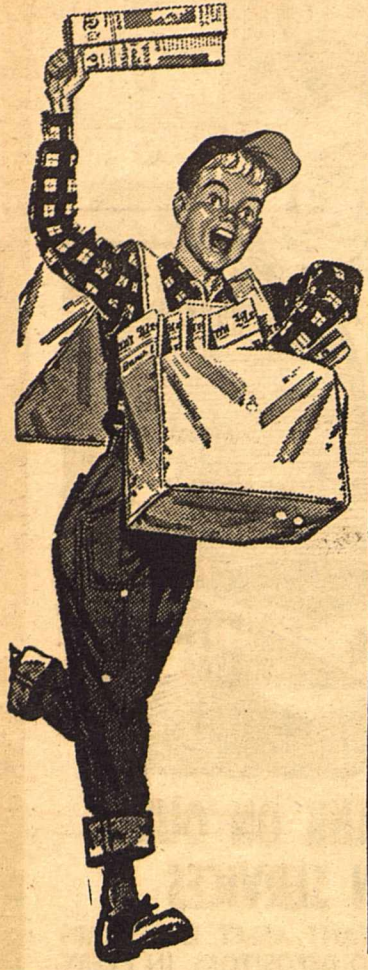

Keep freedom in your future with

West Texas Lawmen Have Abilene Meet

Sutton County Sheriff Herman E. Moore, president of West Texas Law Enforcement Association, greeted members as they arrived at the West Texas Utilities Club House, Lytle Lake in Abilene on February 19 for a one-day meeting.

President Moore stated to the 212 members in attendance that the meeting was to provide the latest information and guidance in law enforcement techniques for the 23-county group.

Abilene attorney David Hooper spoke on problems in serving writs, distress warrants and attachments. Bryan Bradbury, another Abilene attorney, spoke on Civil Rights. Sgt. M. K. Eoff of the Abilene Police Department demonstrated a composite pictures kit from which different pictures of eyes, hair and other facial features can be combined into a suspect likeness that has proven to be more accurate than artist sketches.

Moore said the next association meeting will be held in Menard in the fall, date to be announced.
