## Odds And Ends

One might expect this last paper to be filled with sentiment or saved-up editorials. It isn't. But we can't resist one parting shot in the general direction of our two main editorial policies of eight years' standing:

We should buy and wear wool and mohair—there's little point in selling one make of automobile and buying a competitive make—and we should definitely, DEFINITELY buy at home.

-oae-

We have had this slogan thrown at us with increasing frequency lately: "Only a few short miles to better bargains". I submit that this slogan together with the fact that the "few short miles" to San Angelo happens to be excellent highway, and with the added ingredient of a lack of civic loyalty on our part (I, me, us, the Bundys and a large portion of Sonora residents) pretty well expresses the general attitude of the Sutton County buying public.

And what folly this is! New homes are continually being built here, expressing a faith in the future of Sonora. Yet home-owners are among the worst offenders when it comes to driving those "few short miles". And this very act is virtually the same as undermining the foundation of that home—draining the economy which is the underpinning of our home town.

-oae-

Sonora merchants, who support our schools (not San Angelo's), our churches (not San Angelo's), Sonora Scouts, our 4-H Club, our golf course, and all the other things which go to make Sonora the finest town in West Texas, need your business.

Our school system needs more tax money to provide more and better teachers. This lack of funds is an indirect result of driving those "few short miles".

We need a new swimming pool. It will be difficult for Sonora merchants to say "yes" with their financial aid when this project gets underway; BECAUSE of our traveling those "few short miles" to shop San Angelo first and Sonora second.

-oae-

As editors of The Devil for the past eight years we have not always tried to make everybody feel good; on the other hand, we have made many people angry. We have said what we believe in, and that is the integrity of the people of Sutton County.

Think twice before you are influenced by "only a few short miles to better bargains". Think twice before you take the money you have earned her at home to San Angelo to support ITS schools, ITS churches, ITS Scouts. I am guilty of this, we are all guilty but now is the time to build Sonora's economy—not San Angelo's.

It is difficult (and possibly illegal) for an editor to turn down out-of-town advertising or advertising competitive to home town merchants; but such advertising can be discouraged and has been by us for eight years. We have never solicited this type advertising.

And this, I understand, will be the policy of the new editor.

-oae-

Had we wanted to make out living off San Angelo people we would be in business in San Angelo, not here among the people we love in the town we love.

-oae-

The Devil has been good to us and the support you have given us during these eight years has been wonderful. It would be impossible to put into words what it has meant to us. We solicit your continued support of the new editors in keeping The Devil the historic and influential newspaper it has been since 1890.

## Candace Cauthorn Representing Sonora At Miss Mohair Coronation August 1

Candace Cauthorn will represent Sonora as a duchess to the 25th annual Miss Mohair Coronation to be held in Fredericksburg on Thursday, August 1. Candace is sponsored by the Sonora Chamber of Commerce.

The coronation will take place at a gay and colorful pageant under the direction of the Fredericksburg Jaycees and in conjunction with the 44th annual show and sale of the Texas Angora Goat Raisers Association.

## Sutton County Remains Free Of Screwworms

Sutton County remains free of screwworm cases this week. The county has now had no reported screwworm infestation since June 14 and only seven cases have been positively identified since January 1, 1963.

Continued vigilance on the part of ranchmen is advised, especially with fall goat shearing underway in portions of the county. All shearing wounds should be treated before stock is returned to the pasture to prevent any infestation.

All suspected cases should be treated at once, with extra attention given to cleaning wounds completely, and larvae specimens turned in immediately to D. C. Bruce or Pat Clifton at Twin Oaks Motel.

## Angora Goat Men Slate Annual Show & Sale Aug. 1

The 44th annual Angora goat show and sale and membership meeting of the Texas Angora Goat Raisers Association will be held in Fredericksburg August 1-3. Two full days of judging and events are scheduled Thursday and Friday, August 1 and 2. The doe sale is scheduled for 9:30 Saturday morning, August 3, and the buck sale will begin at one o'clock that afternoon.

The selection committee have selected one of the finest group of does and bucks ever offered for sale in Texas. Fifty flocks were sifted and 318 bucks and 142 does considered in collecting the 59 does and 118 bucks for the sale.

For the first time the show will have two judges in each division, excepting the Bob Davis Special Class. The bucks will be judged by Fred T. Earwood and Athur Davis and the does by S. F. Lackey and Marvin Skaggs. The Bob Davis Special Class will be judged by Armer F. Earwood.

## Mrs. Allison

### Honor UT Grad

Mrs. Pascal Allison of Sonora was one of the honor graduates of the University of Texas College of Arts and Sciences.

According to Dean J. Alton Burdine, Mrs. Allison was graduated Magna Cum Laude.

We are still and always will be Sonorans. We feel that Stan, Margaret, Dick and Lucy are students in one of the best schools in Texas and have every confidence that they are receiving as good a public school education as can be offered.

Don't forget to deal us a hand when it comes time to get in on 4-H, Scout, Lions, Chamber of Commerce and other drives. We want to help. After all, we live here!

-oae-

At the coronation, a panel of judges will select three finalists from those eligible candidates, one of whom the judges will designate as Miss Mohair-Elect. One of these finalists will receive the crown of "Miss Mohair of 1964" at next year's coronation.

A highlight of the evening will be the crowning of Miss Sandra Dietz of Fredericksburg as "Miss Mohair of 1963" by TAGRA president Armer F. Earwood of Sonora. Miss Dietz will succeed the retiring "Miss Mohair of 1962", Miss Nancy Friend of Ozona.

Following the crowning of Miss Dietz, she and her court will be honored at the annual Miss Mohair Dance.

Other entertainment planned includes a luncheon for all visiting ladies and members of the TAGRA Auxiliary at the Nimitz Hotel at 12:30 Thursday, August 1.

## Fire Department Wins Top Prize In Junior Rodeo Opening Parade

The Sonora Volunteer Fire Department's "hot domino game" float was judged best all-round entry in the Thursday afternoon parade which launched the fourth annual Sutton County Junior Rodeo. A cash prize of \$25.00 was presented the organization by the Sonora Park and Horse Show Association which sponsors the rodeo.

Most original entry was that of Walter Pope. His entry was a buggy drawn by a white horse and carrying his daughter Cora and friend Melinda Earwood in horse-and-buggy-days costume.

## TWO SHS STUDENTS MAKE FIRST BAND

Mickey Hardegree and Janie Letsinger were both selected for the first band at McMurry College's band and twirling school.

Janie, daughter of Mr. and Mrs. J. A. Letsinger, was named first part third chair clarinet and Mickey, daughter of Mr. and Mrs. Max G. Hardegree, won first chair flute.

The girls, both of whom will be sophomores at Sonora High School, competed against students from high schools and colleges all over the state.

Cleverest was Alfred Cooper in the get-up of an old-time itinerant ranch and. Cooper, with false mustache and early day cowhand garb, was mounted on one horse and led a pack horse loaded down with yellow slicker, coffee pot, bed roll and the maverick -brander's "running iron".

Best entry awards for youngsters went to Pam Powers for entries 12 and under and to Joe Gail Willman in his Model T for entries aged 12 to 18.

Sonora's Little League All-Stars took a 5-1 win over Ozona here Monday night, July 22, to cop the Area Two championship and go on to inter-area play with San Angelo's West Side All-Stars, champions of Area One.

Jess David Cook was on the mound all the way for the Sonora team, striking out eight and allowing only two walks while fielding four balls himself. Terry Conn had Ozona's only run, that coming in the first inning Rich-

## Rev. W. H. Marshall To Preach Sunday

The Rev. W. H. Marshall, who was pastor of the First Methodist Church here for a number of years, will preach Sunday morning, July 28. The Rev. Marshall, now retired, is making his home in Bishop.

He will fill the pulpit while the pastor, the Rev. Allen G. Roe, preaches at Manchaca, near Austin, where his son, the Rev. Gordon Roe, is pastor. Mrs. Roe and their son Grady will accompany him to Austin and to Manchaca where they will be joined by their daughter Miss Glenda Roe.

ard Cox and Erasmo Lumberas had one each in the first. Jesse David Cook, Howard Minyard and Richard Perez.

Seeing service were Cook as pitcher, David Wuest as catcher, Mike Watson at first, Dick Hamilton at second, Erasmo Lumberas and Ismael Sanchez at third, Richard Cox at short stop, Sammy Bernea in left field, Richard Perez, Marty Martinez and Thurston McCutchen in center field and Mitch Trainer, Bill Green and Howard Minyard in right field.

Thursday night's game, to be played on the YMCA Diamond No. 2 in San Angelo, will likely find David Wuest pitching and Jess David Cook catching. The area champions will be taking on San Angelo West Side, a team which has two post-season victories to its credit, having defeated both the East Side and North Side teams to claim the Area One championship. Game time is eight o'clock.

Receipts at the Monday night All-Star game were \$71.00, according to League Director Oliver Wuest. Of this amount, \$33.60 went to Little League National Headquarters, \$22.40 (40 percent of the remainder) to Ozona, and \$33.60 remains with the local League.

## Lions Committee Recommends Build New Pool Or Close Old One

The Sonora Downtown Lions Club heard a report and recommendations from its swimming pool committee and a report from a construction engineer at its Tuesday luncheon meeting this week.

The committee, appointed by Lions President Rex W. Lowe earlier this year, made the following report: The present municipal pool has a capacity

of 170,000 gallons of water which should be changed daily through six skim filters. Installation of the necessary filters, plus an adequate apron, patching the present pool where necessary and addition of a drain field to relieve seepage would amount to \$20,000 with no guarantee of construction. A new pool, 35 feet wide at one end, 50 feet wide at the other end, and 75 feet long, complete with filter system, adequate apron and cyclone fence would cost \$30,000 with another \$10,000 for bathhouses, lockers and offices and \$4,000 for architectural engineering fees.

The committee was unanimous in its recommendation that a new pool, costing from \$40,000 to \$45,000, be built or the present one closed down.

Recommendation of closing down the present pool was made after investigation revealed that the pool in its present condition will not pass inspection by the state health department.

George P. Green, Lubbock construction engineer in charge of the sewage disposal plant now

being built and who was retained by the Lions Club for the pool survey listed the following de-

## Nicolas Garza

### Buried Tuesday

Graveside services were held Tuesday morning, July 23, for Nicolas Garza, 60, with the Rev. Cyril Hermann, O.F.M., officiating. Garza died Monday morning, July 22, at Hudspeth Memorial Hospital where he had been a patient for about a week.

He was born March 10, 1903 in Mexico and had made his home in Sonora for about 20 years. Garza was a ranch hand for several years and for the past few years had been shearing with the Ralph Gomez shearing crew.

He is survived by one sister, and a nephew, Frank Fuentes of Del Rio.

Ratliff-Kerbow Funeral Home was in charge of arrangements.

## Angelo Boy, New Mexico Girl Best All-Round At Junior Rodeo

Bill Benson of San Angelo and Jacque McAskan of Hope, New Mexico won the all around best cowboy and cowgirl awards of \$25.00 Savings Bonds and trophy buckles presented by the Sonora Park and Horse Show Association at the fourth annual Sutton County Junior Rodeo concluded Saturday night, July 20.

**At C. T. Jones Ranch**

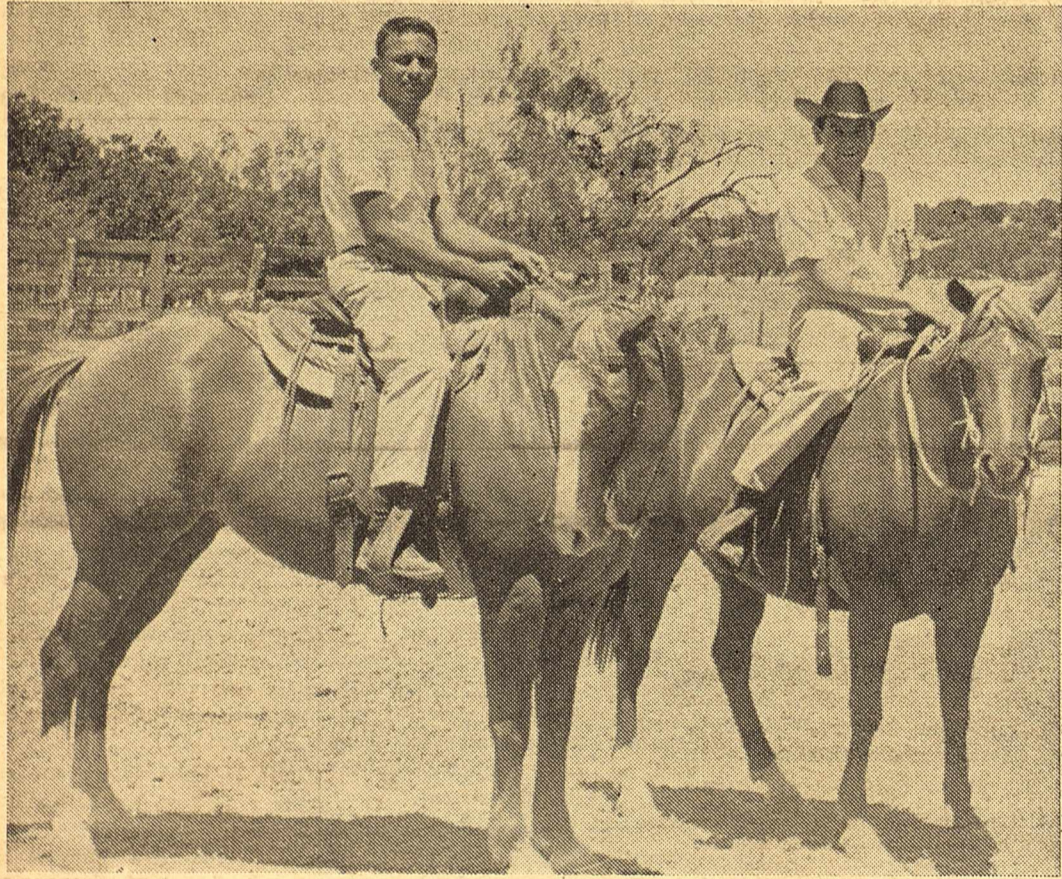

Students from five countries pose for cameraman Walter B. Satterfield just before enjoying lunch at the C. T. Jones ranch last Saturday. In front are Jambu Nathan of Trichinopoly, Madras, India and Taylor Jones. Standing are Shogo Iguchi of Kokurashi, Japan; Cleve Jones; Miss Aleya Rouchdy of Cairo, Egypt; George Vernez of Lausanne, Switzerland; Drew and Dorr Scherz, and Ismail Saadi of Damascus, Syria.

**In The Horse Corrals**

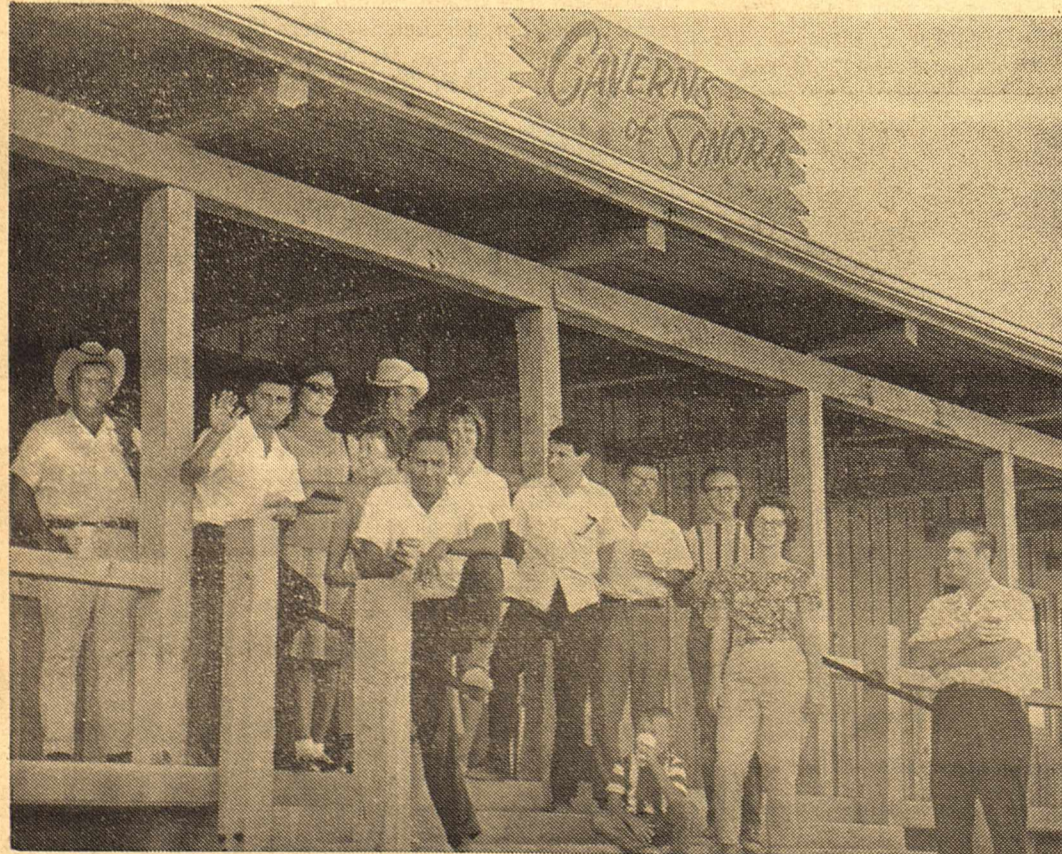

Getting a good idea of a working ranch, the five are pictured in the corrals at the Jones ranch. Assisting Jones were (at left) Don Cooper, Taylor Jones, Cleve T. Jones, Mickey Powers and Claire Jones, and (far right) Dorr Scherz.

**Getting First Horseback Ride**

Aboard horses for the first time are Nathan and Vernez. The students, all in graduate school at the University of Texas, had their first opportunity to visit in American homes and get a glimpse of West Texas ranch life as guests of the congregation of the Church of the Good Shepherd here. Another member of the group, Ismail Saadi of Syria, remarked he had ridden camels many times but a horse, never.

**Visiting Caverns Of Sonora**

As a conclusion to a weekend in Sutton County, the group visited the Caverns of Sonora with Jack Prince (far right), Presbyterian missionary to Korea and an early day explorer of the Caverns, as guide. Making the trip with the international guests were Sam E. Jones, Jr., Mr. and Mrs. E. H. Grobe and daughter Peggy Lynn, and Mrs. Harold Scherz and sons Dorr and Drew. The students also attended services at the host church Sunday morning at which Mr. Prince presented the sermon.

**Devil's River Philosopher Put Out  
By Washington Official Who Finds  
Ranchers' Handshakes Are Flabby**

Editor's Note: The Devil's River Philosopher on his bitter-weed ranch on Devil's River seems a little miffed this week, but he'll get over it.

Dear editor: While it never has bothered me, some ranchers I've been reading about are worried over the public image they present to the rest of the country.

As I understand it, some city people think ranchers are getting rich because the price of meat at the grocery store is so high, and some ranchers think they ought to hire a public relations outfit to correct this and tell the true story.

Well, I've never had much trouble along this line myself, don't ever recall having a city man come out here to this bitter-weed ranch asking for a loan, not even a newspaper man, but there is one image of the rancher some people have that ought to be corrected.

According to an article I ran across in a newspaper last night, Interior Secretary Udall toured a ranch area a while back and reported later he was shocked by the flabby handshakes of ranchers.

This is what I'm talking about. Us ranchers are still considered by some to be horny-handed sons of toil who're getting soft if we don't shake hands like a grizzly bear, whereas actually of course we're scientists producing food so fast that if the space scientists were up on our level the missile gap between Russia and the U. S. would be reversed. In fact, if our space scientists were as far advanced ahead of Russia as us agricultural scientists, we'd

have already been to the moon twice and raised our debt ceiling four times to pay for it.

How a rancher shakes hands ain't no index to the complicated ranch planning going on inside his head, and a rancher sitting on his front porch in deep thought can be as constructive as an Einstein doing the same thing.

This is the image the public ought to have of us ranchers dedicated, underpaid scientists, and I have pioneered in trying to bring it about. I've done my part. I've been sitting on my front porch for years.

Yours faithfully,  
J. A.

**Sutton Bond Sales Reach 69.4% Quota**

During the first half of 1963, the citizens of Sutton County purchased \$48,585 in Series E and H Savings Bonds according to a report received from George H. (Jack) Neill, chairman of the Sutton County Savings Bonds committee. This means that 69.4 percent of the county's 1963 goal of \$70,000 has been achieved. Sales in the county for the month of June totaled \$15,252.

Savings Bond sales in Texas during the first half of 1963 were \$76,246,599 or 50.6 percent of the 1963 goal of \$150,600,000.

Wednesday the seventeenth was the Auxiliary's luncheon day. Bridge players played in the morning, as did the golfers. Nancy Trainer, Jo Neville and Joyce Kemper were hostesses.

Golfers who played were Jerry Tittle, Bobbie Fawcett, Ernestine Hext, Wanda Cahill, Dorothy Ratliff, Mary Barrow, Jackie Hopkins and Monica Davis. There was a tie between Bobbie and Jerry for low gross; Ernestine won low putt and Dorothy was winner for low net.

Bridge players were: Velma Berger, Libby Lowe, Phoebe Kelley, Joyce Kemper, Christine Morris, Mildred Nance, Mary Jeanne Hamilton, Phil Bond, and guests were Mary L. Shurley, Joyce Mayer and Joyce Rooker. Joyce Rooker won high, Christine was slam winner and bingo was won by Joyce Mayer.

Blanche Smith and Wanda Allison joined us at the Longhorn for lunch—a nice cool, colorful summer plate was served.

You know, you have heard about the "built-in baby sitters", but have you ever heard of a built-in caddy? Donnie Letsinger has one—his dog "Tinkie" spots his ball for him and stays with it 'till Donnie gets there. We could all use such a caddy, especially on Number Two fairway.

Sunday afternoon 40 golfers had a lot of fun playing a mixed Scotch Golf Tournament—honestly, we all had a ball. Two teams tied for first with a three below par.

It took six "sudden-death" playoff sorta deals before it was finally established which team was winner. The kibitzers were giving the contestants a bad time—and a family feud really sent fur flying with Ernestine Hext on one team and her husband Jack on the other. Ernestine won that sixth "sudden-death" for her team! Mary Barrow did all right for her team too. You know, we really have some good lady golfers.

The winning team players were Ernestine Hext, Bobby Lou Mayer, W. J. Thompson and Lee Fawcett. The next best team, and right there on top, consisted of Mary Barrow, Jack Hext, Milton Cavaness and Tommy Thorp.

We will all miss the Bundy Clan on the paper. We all liked to listen to Mac's cheerful chatter. From a golfing point of view ONLY, Bob Teaff, Carl Cahill and Joe Ed Harrell are reporting a decrease in earnings for the next year due to Stanton's concentration on ranching. (This was written by a casual friend . . . not me (Monica).

**Congratulations To These New Parents**

Mr. and Mrs. Dan Carter Cauthorn have announced the birth of a son, Dan Carter II. Born at Hudspeth Memorial Hospital here Thursday, July 18, the baby weighed nine pounds.

Grandparents are Mr. and Mrs. Dan Cauthorn and Mr. and Mrs. Harold T. Garrett. Mr. and Mrs. Aldie Garrett and Mr. and Mrs. Joe Lambert are the great-grandparents.

**MRS. ARCHER ENTERTAINS MONDAY NIGHT CLUB**

Mrs. Francis Archer was hostess to the Monday Night Bridge Club at her home this week. A permanent arrangement was featured in decorating and refreshments of strawberry shortcake and coffee were served.

At the end of play Mrs. J. A. Letsinger held high score and Mrs. Joe Berger low. Mrs. Virgil Potter won the slam prize and Mrs. Lee Patrick won at bingo. Cut prizes went to Mrs. Howard C. Kirby and Mrs. Potter.

Those present, all club members, were Mmes. R. B. Kelley, H. V. Morris, James Morris, Berger, Letsinger, Potter, Patrick and Kirby.

**Shower Honors Recent Bride**

Mrs. Charles Land complimented Miss Frances Crawford with a bridal shower in her home Friday, June 28. Miss Crawford was married to Gene Ray West here Saturday, June 29.

Guests were received by the honoree, her mother, Mrs. Doyle Crawford, and Mrs. C. W. West, Sr., mother of the bridegroom.

The serving table was covered with a white lace cloth over blue and centered with an arrangement of blue stock. Arrangements of mixed garden flowers decorated the other rooms.

Miss Sandra Skinner served the cake and Miss Nova Crawford, sister of the bride, the punch. Another sister, Miss Shirley Crawford, registered guests.

Gifts were received from over 200 friends.

QUALITY THE PRESCRIPTION PHARMACY SERVICE

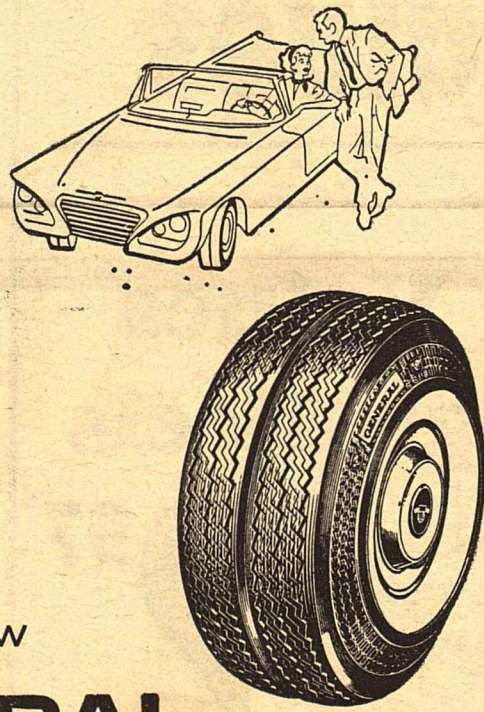

IT NEVER WAS NECESSARY TO "Enjoy" POOR HEALTH...

Many people seem to "enjoy" poor health. They would not care to be without a cupboardful of odd medicines for self-treatment—some of which may not be in keeping with competent medical advice.

The better way is to enjoy good health—by careful planning. Consult your Doctor at regular intervals; more often if required. He will prescribe only the preparations that you need—preparations of the highest quality, such as those from the laboratories of Parke, Davis & Company—prescriptions which we will be pleased to compound for you. The necessity for medication will pass, and life with abundant health can become a pleasure indeed.

### "B" Team & Colts Schedule Released

The "B" football squad of Sonora High School will have a schedule of seven games this year. These will be:

Thursday, September 19: Ozona, here.

Thursday, September 26: Eldorado at Eldorado.

Thursday, October 10: Ozona at Ozona.

Thursday, October 17: Eldorado, here.

Thursday, October 24: Big Lake, here.

Thursday, October 31: Junction at Junction.

Thursday, November 7: Junction, here.

A New Yorker named Walter Hunt invented the safety pin in just a few hours one day in 1846 when he twisted a piece of wire into the familiar shape still used today. The people of Italy, however, are believed to have used similar devices as long ago as 2,000 B.C.

A U. S. Senator from Maine, who helped to improve the patent laws in 1836, received the first patent under the new system. Senator John Ruggles was granted Patent No. 1 for his device "designed to give a multiplied tractive power to the locomotive and to prevent the evil of sliding of the wheels."

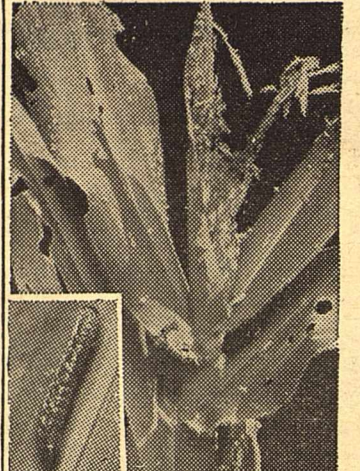

All "B" games will begin at seven o'clock. The Junior High schedule is the same with all games to begin at 5:30.

#### FALL ARMYWORM

Droves of fall armyworms on the march present an awesome sight. More significant is the great destruction of crops they leave in their path.

Fall armyworms eat foliage and tender stems of many plants, leaving a field barren as though scorched by fire. Corn, sorghums and other plants in the grass family are the preferred food, but these hungry pests also attack alfalfa, beans, tomatoes, cotton and similar crops.

Actually, fall armyworms cannot survive winter except in Southern Florida and along the Gulf Coast. But each year, new migrations of the 1 1/2-inch long, grayish, mottled moths swarm northward. Moths may fly hundreds of miles before stopping to lay masses of eggs. Each female lays up to 1,000 eggs on green plants and covers them with hairs from its body.

Tiny larvae feed gregariously, then spread out and move to other food supplies. At maturity, almost 2 inches long, the fall armyworms vary from light tan to green or nearly black. Yellowish hairs line the back.

After marching across several fields, devouring nearly all vegetation in their paths, fall armyworms may suddenly seem to disappear. At maturity the worms burrow into the soil to pupate, emerging as moths in about 10 days.

Poison bran baits had been useful in stopping marching worms. However, scientists, working closely with farmers, developed a more effective insecticide to halt armyworms. This new type chemical, called Sevin, is a car-

bamate. It is potent against fall armyworms, but safer to humans and warm-blooded animals than many other insecticides.

Where hay and forage is to be fed to livestock, Sevin insecticide does not create a problem, because no residue will show up in meat or milk.

Several cultural methods also help hold down fall armyworm infestations. Fields in which worms have been found should be cultivated lightly, where possible, to break up pupae and expose them to natural enemies and the weather. Also, weed control will deprive the moths of preferred places to deposit eggs.

### THE TEEN SCENE

By Mary Davis

The rodeo is over now and there are considerably fewer people out horseback riding in the early morning. In fact there are considerably fewer people out horseback riding at any part of the day. A stranger riding through our small city would have wondered if all teens had abandoned hot-rodding in favor of the safer pastime of walking a horse all over town.

Seriously, though, the rodeo was great fun. The dances were tons of fun. And the Western music was the best ever.

We noticed that Corky Fields made it home for the rodeo. A lot of strangers were in town too. They all seemed to be enjoying the West Texas hospitality.

Wonder how the Scouts that went to Canada are doing. Knowing Bill Elliott, Robert Kelley and Dick Hardgrave, bet that they have the whole northern part of this continent in a mild state of confusion.

Mickey Hardegree and Janie Letsinger both made the first band at McMurry College. They are attending a band and twirling school there. Our congratulations to them for winning the honor.

Danny Rutherford and Johnny Glascock left last Thursday or Friday to go out to California and begin their duty in the Marines. Lots of luck to them.

Linda Thiers was here in Sonora visiting her cousin Joyce Hearn and attending the first night of the rodeo.

Dick McMillan had Kenney Nunley as his guest during the rodeo. Dick left for Ruidoso Tuesday and will be gone until Monday.

Bonnie McKinney and Yvonne Young are back from San Marcos where they went to summer school.

Allison Espy had four girls from Dallas as her visitors during the rodeo.

Grady Roe dropped by and told us he planned on doing some more city slicking. This time he plans on hitting two cities and to live it up.

It's nice to see Herschel Strawn home now.

The weather seems to be getting hotter and hotter. Anyone for a nice cool swim?

### The Devil's River News promises:

"Once you've typed on an electric portable, you'll never type on a manual typewriter again!"

- 5 repeat actions
- Fastest typing
- No pounding
- Even typing
- 10 clear carbons

Electricity lets you underline a full row of words just by holding down the key, rat-tat-a-tat, just like that. The same is true for dashes, spaces, dots and the letter "X" for crossing out.

Electricity lets you type as fast as you want even if you're a speed champ. And there's no jumbled letters, no jumpy lines, no uneven spacing.

Electricity does the work for you. There's no pounding the keys. And you can adjust the touch from featherlight to the same as a manual's.

Electricity gives you an expert's even touch on the keys. All letters are typed with the same even blackness... your typing looks perfect.

You adjust a dial and can make up to ten carbon copies. More important, the tenth is just about as clear and readable as the first.

SMITH-CORONA CORONET—Crisp, modern styling. Four decorator colors. Full office keyboard. Choice of many type styles. Lightweight all-steel carrying case. ONLY \$10 DOWN.

### Services For Sonoran's Father Held In Big Lake

Funeral services for A. J. Jolly, 59, were held Monday morning, July 22, at the First Baptist Church of Big Lake with the Rev. Bob G. Fulmer, pastor, officiating. Jolly died at his home in Mertzon Saturday morning, July 20.

He was born June 2, 1904 at Lohn and had made his home in Big Lake for 38 years prior to moving to Mertzon two months ago. He was a truck driver for Southwest Butane Gas Company.

Survivors include his wife; 3 daughters, Mrs. J. D. Smith of Brownwood, Mrs. Cora Laughead of Big Lake, and Mrs. Samuel Cook of Pullman, Washington; 3 sons, Jerry Dean Jolly of San Angelo, Billy John Jolly of Sonora, and Harvey Lee Jolly of Big Lake; two stepdaughters, Mrs. Winnie D. McMurray of Mayhill, New Mexico and Mrs. Zella Ann Warren of Albuquerque, New Mexico; one sister, Mrs. Winnie D. Browning of Brady; one brother Lester Jolly of Fort Worth, and eight grandchildren.

Burial was in Glen Rest Cemetery in Big Lake.

### YEARS AGO

May 25, 1912

Mrs. Alfred Schwiening and baby were in town this week the guests of mother and grandmother Mrs. Geo. S. Allison.

Miss Gladys Wyatt daughter of Mr. and Mrs. Chris Wyatt of Owenville was the guest of Mr. and Mrs. G. W. Smith this week.

Jap and John Holman were in Sonora Wednesday from their fathers ranch in Edwards County.

THE FOURTH OF JULY-

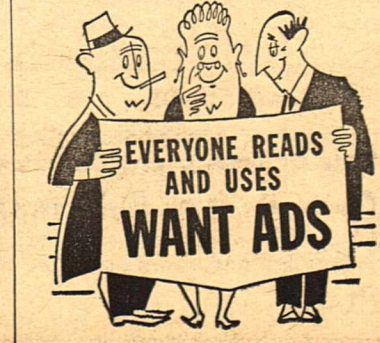

There is not a more patriotic town in Texas than Sonora—there is not a better entertaining town in Texas than Sonora—There is not a town in Texas that people who know us would rather assemble in than Sonora.

### WINS.

Now to the Point. Let Sonora celebrate the Fourth and make arrangements now.

July 4 comes on Thursday so let us have our celebration on Wednesday, Thursday and Friday third, fourth and fifth. Have a barbecue, races, tournament, music and dances, and ball games, etc. A moving picture show, a street carnival and there is no telling how many candidates would like to be with us on an occasion of this kind. Lets get busy and do it now.

The place, grounds, tracks for races and tournaments will be of small cost. Sonora has a club room of maple flooring 50 x 50 feet. The finest kind of a track for races or tournament and cigar, needle, bottle, potato or any kind of races on straight tracks. Business men get together Monday and arrange for this event.

The F4D, better known as the "Skyray", was built by Douglas Aircraft Company. It's overall dimensions are 36-foot 6-inch wing spread, 45-foot 5-inch length, and 13 feet high. Powered by one turbojet engine, this fighter set five world records for climbing in 1958 at Navy Air Missile Test Center, Point Mugu, California.

### First U. S. Patent Issued July 1, 1790

Necessity may be the mother of invention, but its Big Daddy is the patent.

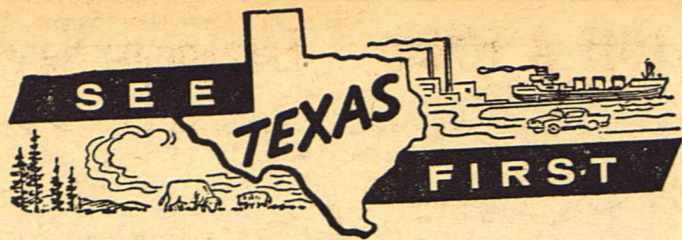

July 31 is the anniversary of the day when the first patent was issued in the United States. That was in 1790—little more than a year after the new government began operating. It was only a process for "making pot and pearl ashes", otherwise known as potash, but so important was the event that President Washington himself signed the patent awarded to Samuel Hopkins, of Vermont. Endorsing the document was the then Secretary of State Jefferson, no mean gadgeteer himself, whose inventions include the swivel chair and the dumb-waaiter.

Why all the fuss about the patent?

Statesmen before and after Washington have praised it as a spur to invention and hence, technological advance. And some observers have even credited it with the Western world's high standard of living.

A patent is simply a limited monopoly which secures to an inventor the fruits of his labor. For 17 years he has the exclusive right to make, sell, or use his invention. Of course, it may be a profitless 17 years — if some part of his invention has been patented by an earlier inventor who refuses to let him use it. But at the end of that period, the invention becomes accessible to the public at large and scientific knowledge is increased.

Women began making their contributions to scientific knowledge as early as 1809, when Mary Kies was granted a patent for a method of weaving straw

**Texas' Kissin' Trees**  
Texas offers an added attraction to out-of-state tourists.

with silk or thread. A few thousand patents later, a former Congressman from Illinois named Abraham Lincoln received one for "A Device for Buoying Vessels over Shoals". The device must have been a success, because Lincoln later declared appreciatively, "The Patent System added the fuel of interest to the fire of genius."

About this time, unfortunately, the fire of genius was just what the examiners were demanding proof of, before they would grant a patent. Inventors who labored long and hard over their creations but were unable to show that spark of "divine madness" were turned away, while less-than-brilliant tinkers who had stumbled onto an idea or a device by accident were rewarded.

The requirement, however, proved no obstacle to Mark Twain, who received three patents. In 1873 he was awarded one for "Mark Twain's Self-Pasting Scrapbook," a book of blank pages coated with gum or veneer. He sold 25,000 copies during the first royalty period, leading one writer to comment that this "was well enough for a book that did not contain a single word that critics could praise or condemn."

An abundance of mistletoe seasonally is found growing among trees in both town and country.

This is a common sight to Texans. But to many out-of-staters mistletoe is seen only a Christmas time . . . and then only in small bunches . . . bought at fairly high prices.

Mistletoe has a varied history. It was the instrument of death, in the form of an arrow, that was used to kill the Sun God, Balder, in Norse mythology. It also was known as a medical

charm to Europeans who once carried it around for good luck, as well as a cure for ulcers, epilepsy and infertility.

But Texans and the rest of the nation seem to prefer the modern use for mistletoe—an excuse to kiss some fair lady.

**Tour the Governor's Mansion**  
Near the entrance to the capitol grounds in Austin, you can see the white brick Governor's mansion standing just one block to the southwest.

As you approach the distinguished abode, with its well-kept lawn covering an entire block, you observe six huge Ionic columns are made of cedar logs hauled from Bastrop, Texas, in 1856, when the mansion was built.

Upon entering the mansion, you see a spiral staircase rising

at the back of the hall. Mounting the stairs you enter the mansion's famous room—the Sam Houston Room.

Here you see the bed used by Sam Houston, the man who served Texas both as its President and as its Governor. In the same room you also will see the mahogany desk of Stephen F. Austin.

Of all the features of this great mansion, the Sam Houston Room is best remembered by its visitors.

**Houston Has Three**  
There are two good reasons why Houston is the only city west of the Mississippi with 3 independently-owned newspapers. . . namely The Chronicle, The Post and The Press.

First, Texas enjoys a truly free-enterprise economy where

opportunity is unlimited, competition is strong, and the rewards of success can come to any who are willing to work hard.

Second, there just is more to write about in Texas than there is elsewhere.

**Panhandle Oil Plentiful**  
There are many areas in Texas where you can see Texas' fabulous oil industry in action. An excellent spot is in the Texas Panhandle.

In the short, 28-mile trip between Pampa and Borger, you'll find most all phases of this huge petroleum industry.

There are hundreds and hundreds of wells, not to mention refineries, carbon black plants and other structures familiar to oil and gas production.

Seeing so many facets of this industry in such a small area

enables one to more fully appreciate the great influence and benefit this industry has been to the Lone Star State.

**Indian Hotel?**  
Forty miles northwest of Amarillo in Oldham County is a strange hotel—the Pueblo Indian ruins. Ruins are located at Saddleback Mountain near Old Tascosa on the Canadian River.

These old "hotel size" Indian ruins have 33 rooms at staggered levels.

Perhaps the forerunner of the multi-level homes of today, these hillside ruins have been a popular attraction for tourists since they were excavated in 1932.

### YOUR MINISTER SAYS

By Walter B. Satterfield, Student Minister, Church of the Good Shepherd, Presbyterian U.S.

Scripture: Matthew 5:1-12. Christianity begins with you. The entire Christian life—both individually and collectively as a Church—is based on the commitment and character of believers as they respond to the call of Christ.

How often have you wished that there were a simple set of rules to guide your life? How often have you asked how you can make Christianity the guidepost of your life?

As we look at The Sermon on the Mount, found in Matthew 5-7, we find that Jesus is teaching that Christianity is goodness in action. But that goodness in action is not what we expect. Let us look more closely at the Beatitudes . . . for here is a summary of the true Christian life.

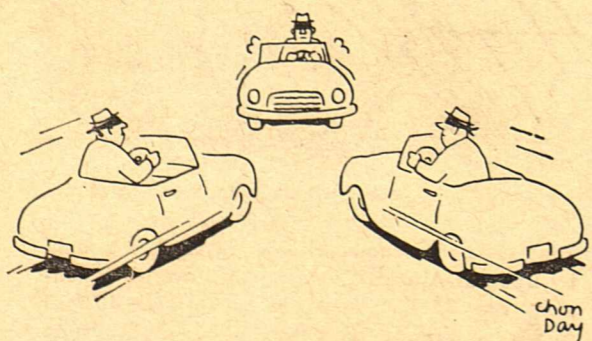

Christ teaches that happiness comes only when a person lives as a neighbor to every man. And

we today calmly nod our heads in agreement without realizing that as Christ intended these words to be lived, it is a radical step to be a neighbor. Our Common Sense tells us that we are happy when we are satisfied, when we are respected, and when we are free from pain or tragedy. The Beatitudes say, in contrast, that we are happy when we are aware that others do not have what they need, or when we are despised by the world because we dare to speak out against the evil of the world, or when we mourn the loss of a loved one.

In other words, we are truly happy when we break free from the selfish chains which bind us to our own interests. It is when we can serve others in humility and when we know that we are not really worthy of privilege that we begin to know the meaning of the One Life in Christ. Christ came, and served, and was obedient unto death. We are called to nothing less.

## Exchanging News

OZONA—Crockett County taxpayers will realize a saving of nine cents on the \$100 on their 1963 taxes by reason of action of the Commissioners Court this week.

The court cut 12 cents off the school bond sinking fund levy and added three cents to the school maintenance levy to make a net reduction of nine cents in the overall tax rate for the county. "Ozona Stockman".

STERLING CITY—A bull snake hitched a ride in the under side of the Clinton Hodges car Monday morning and came to town with Mrs. Hodges and the children. She parked the car in front of Zettler's Restaurant and the snake would peer out from under the car ever so often.

As you might guess, amused people gathered 'round and watched the snake as he acted as if he might "remove his body" from the car and travel snake-wise for a while.

Clinton showed up and caught the snake and killed it—by popping his head against the pavement. It was probably a country snake that wanted to come to town for a while and see the sights. "Sterling City News-Record".

FORT STOCKTON—In two double-barreled economy actions designed to relieve the citizens of Fort Stockton, the City Council voted Tuesday night to reduce the tax rate from \$1.65 to \$1.50 on the \$100 valuation, and to reduce water rates for summer watering.

Earlier in the year, City Manager Gene Higgins recommended a tax slash as result of the sound position of city finances and the probability that surpluses in utility operations would be transferred to relieve the burden of the general fund. "Fort Stockton Pioneer".

BRADY—A total of 8,879 books were loaned out by the Richards Memorial Library during the April-May-June quarter, a report to the county Library Board shows.

The number of books checked out daily during the quarter averaged 114. The library also signed up 116 new patrons. "Brady Standard".

KERRVILLE—The buying power of Kerr County for 1962 has been set at \$34,083,000, according to the Sales Management Magazine in the current issue. This is an increase over

\$31,152,000 in 1961 and \$25,725,000 in 1960. The buying power of the city of Kerrville is listed at \$18,251,000.

In the report, the population of Kerr County was listed at 18,400 and the city's population 9,800. "Kerrville Mountain Sun".

McCAMEY—A school for custodians and maintenance men was conducted at the McCamey Schools this week for schools throughout the area. The school started on Monday morning and was concluded at noon on Tuesday.

Forty-six attended the school. Representatives were present from Woodson, Sanderson, Mertzon, Crane, Rankin, Marfa, Jayton, Big Lake, Monahans, and Greenwood School, which is 11 miles east of Midland. "McCamey News".

The Rev. Billy Scott of Fort Worth is visiting here with his parents, Mr. and Mrs. M.C. Scott.

has been spent

recently for industrial

construction in our

service area.

Even today, \$28,000,000 is a lot of money. But a survey shows that this vast amount has been spent recently for construction of new industrial plants in our service area, and for expansion of existing ones.

The figure is evidence of two things. One is that our service area is becoming more and more industrialized. The other is that when we say "The Center of the Southwest" is one of the Nation's fastest growing regions, we have the facts to back it up.

The industrial figure is one fact. The commercial and civic improvement figures are others. Day by day we become more than ever convinced that this region faces growth unlimited.

... more proof that

the Center of the Southwest

is one of the Nation's

fastest growing regions.

**HAVE FAMILY REUNION**

Mr. and Mrs. Wesley Sykes and sons Albert, Alfred and Jack Martin attended a reunion of the Martin family at Petersburg Saturday, July 20. Mrs. Sykes, her seven brothers, and their mother, Mrs. Blanche Martin were all together for the first time in 23 years.

On Sunday they attended the annual White family reunion held in McKenzie Park at Lubbock. Mrs. Martin, who is 92 years old, is the only surviving child of the late Mr. and Mrs. Ed M. White, founders of Petersburg where Mrs. Martin has lived since 1891.

ficiencies of the pool:

1. The walls of the pool are not thick enough to support the volume of water in the pool.
2. There is only one skim gutter, located at one end of the pool, where there should be gutters all around.
3. The pool will not meet health department specifications that require filling and drawing for every 60 many users.
4. Water is not clear enough to satisfy health department requirements that a standard size disc be clearly visible at the deep end of the pool.
5. The high driving board is too close to the wall for safety.
6. Health department requirements call for a complete turn over of water every six hours.
7. One wall has a six-inch bulge resulting from inadequate wall structure.

Green further advised that a filter type pool, 40 by 75 feet, would be adequate for use here, meeting requirements of 20 square feet for each swimmer. The filter type pool would involve only addition of water instead of draining and refilling. Following the meeting, Lions and city and county officials paid a visit to the pool for inspection.
