CINDERS

By John T. King

I note that our fellow publisher in Eldorado, Fred Gunstead, has an optimistic way of looking at the drought: "When something bad happens it is usually accompanied by something good. Since this severe drought set in, I don't have to mow the lawn anymore."

Perhaps the answer to the drought is to get the Tulsa rainmaker out in this area. At last count San Angelo had raised \$4,000 of the \$10,000 required by the rainmaker to produce results. Of course \$500 is guaranteed, "to cover travel," whether or not the man fulfills his promise. That's pretty good money in my book. In fact, for \$500 I'd make my wife do a rain dance in the street.

But the Devil would never lift his nose to snob such goings on. Rain in this area is a miracle any way and any time it comes.

In fact, The Devil would be glad to handle the kitty in case some Sutton County people want to pay for a little overflow to the south of San Angelo.

Local sentiment about the rainmaker ranges anywhere from enthusiasm to scornful opposition. One man said he didn't believe in man trying to do the Lord's work.

Either way, the anonymous Tulsa rainmaker made his appearance at a time dry enough to make him the talk of the town in Sonora.

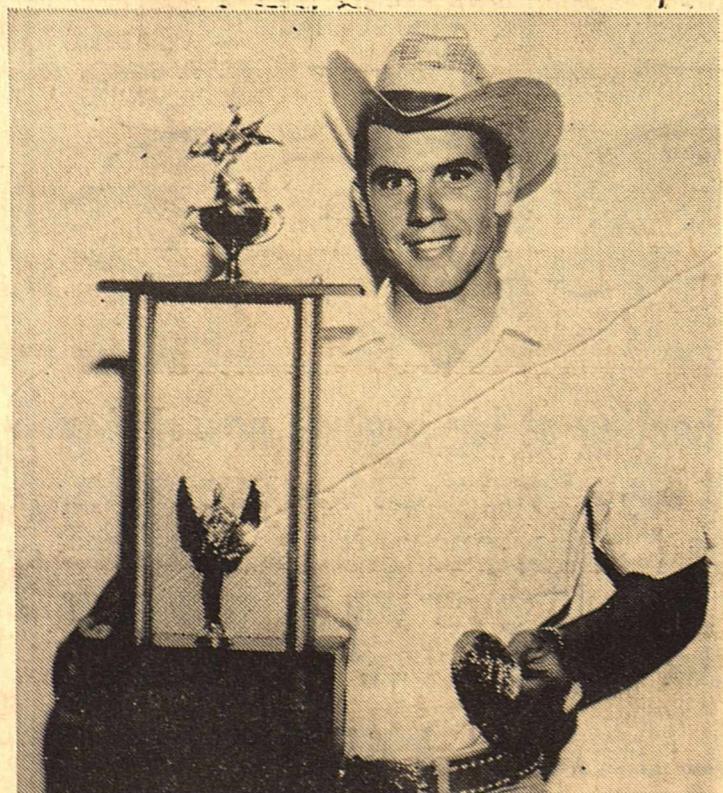

And James Stewart, east of town, reports that mosquitoes are so big around his house that he's catching them every night with a mouse trap.

One young man, writing home from the Mediterranean about a Russian ship pulling up next to the vessel he was on: "It made you feel like you do when the immigration officers come driving up to the ranch."

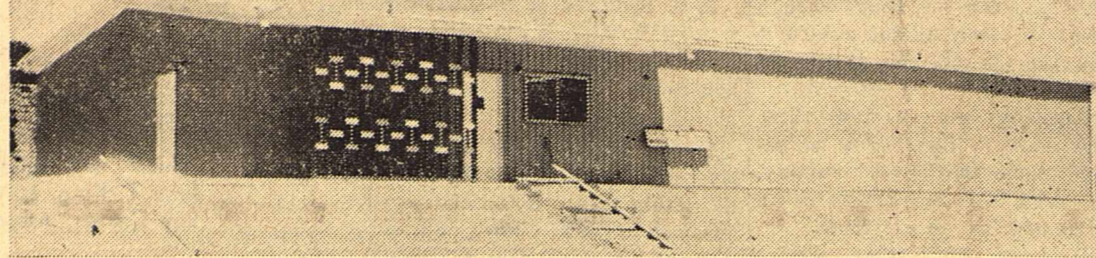

Zane Powers Wins Bull Ride Event At Junior Rodeo

Winner of the bull-riding event for boys 16 to 19 at the annual West Angelo Kiwanis Club's junior rodeo last weekend was Zane Powers. He also split a first and second in breakaway roping, which gave him a fourth place average in that event. He was within one point of being named all-around cowboy.

Powers, 18, is the son of Mr. and Mrs. Louis Powers. He plans to enter the National American Junior Rodeo Association finals to be held at Odessa August 21 through 24.

WINNER OF A TROPHY and a silver belt buckle for first-place bull riding at the San Angelo junior rodeo is Zane Powers.

AT DOWNTOWN LIONS MEETING

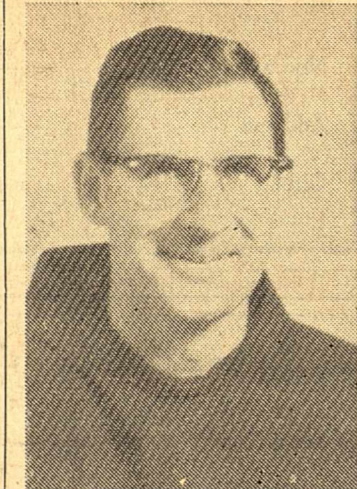

Stokes Suggests Old-Timers Ball Game To Raise Funds For Loud Speaker System

H. V. Stokes suggested that the Lions help sponsor an old-timer's baseball game to raise funds for a public address system for Sonora.

Stokes, speaking at the Tuesday noon meeting of the Downtown Lions Club, said that the present public address system, belonging to the school, was old and inadequate. He suggested scheduling an "Old-timer's Baseball Game" between the Lions Club and the Chamber of Commerce, with proceeds going to

Priest Arrives At Saint Ann's Catholic Church

Father Joel Byrne, O.F.M., arrived this week to serve at Saint Ann's Catholic Church. He comes from McCreary, where he has been pastor of Sacred Heart Catholic Church for two years.

He was ordained to the priesthood in June, 1951, and has five years' teaching experience.

His home is Syracuse, New York. Before joining the Franciscan Order, he was at Toronto University, Canada, for two years. For four years he served in Louisiana in parish and mission work.

Father Cyril Hermann, O.F.M., who has been at Saint Ann's since Nov., 1961, will assume duties in Gallup, New Mexico.

ward the purchase of the necessary equipment. The game to be set for the latter part of August would have a clown umpire and would end with a three inning game by the Little League.

In the process of rejuvenation is the school bus recently purchased for the people of Sonora. Stokes said that the bus cost \$375 and additional work would add \$225, but when finished, the bus would furnish transportation for non-political groups and organizations in the community.

Ten Little League All Stars were guests at the Lions luncheon. Jimmy Hugh Harris, manager of the Yankees, playoff winners, presented the First National Bank a plaque for sponsoring the team. Clayton Hamilton accepted for the bank.

SONORANS ATTENDING REUNION THIS SUNDAY

Mr. and Mrs. Sam Adams will attend the third annual reunion of descendants of S. D. Arthur to be held August 11 at Knickerbocker on Dove Creek. Mrs. Adams is a granddaughter of S. D. Arthur.

More than 100 people attended the reunion last year. The event is held annually on the second Sunday in August. A barbecue and picnic lunch is planned for the noon meal.

Sutton County stays free of screwworm cases this week, according to D. C. Langford, County Agent. The last reported case was June 14, almost eight weeks ago.

Speed Limits To Increase To 70 MPH On August 23

More than two-thirds of the Texas highway system will come under the new 70-miles-per-hour daytime maximum speed for passenger cars which becomes effective August 23, the Texas Highway Commission revealed.

Under the speed control law passed by the Legislature this spring, all highways not zoned down by the Commission will automatically go to the new 70-mph speed August 23. This means that some 41,500 miles of the state-maintained highway system will be allowed to come under the higher maximum speed.

The Commission passed a Minute Order which zoned some 18,640 miles of the highway system at a maximum of 60 miles per hour daytime and 55 miles per hour at night for passenger cars, effective August 23. These highways will be restricted to the lower speed limit because engineering studies indicate they are inadequate to accommodate a 70-mile-per hour maximum.

The Commission's action followed a series of engineering traffic studies conducted throughout the state by the Highway Department's 25 highway districts.

A large percentage of Texas' vast Farm to Market Road System will come under the 70-mph maximum, although some of these roads (and some of the older primary routes) will be restricted to the lower 60-mph maximum where conditions warrant.

Sewing With Wool Contest Planned

Mrs. A. E. Prugel reminds women to plan for the Make It Yourself with Wool contest. The district contest will be held in Del Rio the first part of December. Garments entered must be 100 per cent loomed American wool.

Mrs. Prugel is the county chairman of the contest and has the entry blanks.

She says, "When planning your fall wardrobe, why not plan to make at least one garment of wool? How about a walking suit in cranberry red? Or an Empire coat in brushed wool plaid? Or a dress of double knit? Even if you don't win a prize, you still have a lovely garment, designed and made especially for you."

Devil's River Philosopher Admits He Is Confused About All The Talk About The Test Ban Treaty

Editor's Note: The Devil's River Philosopher on his bitterweed ranch on the Devil's River is worrying with the test ban treaty this week, his letter indicates.
Dear editor:
I don't want to throw cold water on the hopes of man, but this test ban treaty everybody's talking about has me confused.
As I understand it, the United States, Russia and England will agree not to test any more nuclear bombs in the atmosphere, underground is all right, and this is a step in the right direction, but compared with the distance we've got to go, I'd say it covers the first two feet on a thousand-mile hike.
What I mean is, the United States alone now has, according to an article I read last night,

enough bombs stored away to destroy every major city in the world 125 times, Russia has enough to do the same thing, and England has whatever number her credit with us will allow.
As you can see, that's enough to get not only all the cities but you and me and this bitterweed ranch too.
Agreeing not to test these any more is fine, since we already know they'll work anyway, but what I'd like to see is an agreement not to use them.
However, for those who're afraid Russia's word won't be any good, the treaty also includes a clause saying the ban can be broken merely by giving three-months notice. If some scientist thinks he's invented a newer type bomb that'll weigh half as much as the ones we've got and kill twice as many and he'd like to try it out, the treaty won't stand in the way of progress.
And as far as Russia's word goes, if she keeps it for three months, that's progress.

YOUR MINISTER SAYS

By Rev. C. S. Pena, Pastor First Mexican Baptist Church Steps To Christ

Unless we are constantly vigilant and prayerful, we find times in our lives when we are suddenly aware of a feeling that we are very far from God. It is the most lonesome, desolate feeling anyone can have. But if

we are well founded in faith, we realize at once that though, through sins and neglect we may be far from Him, He, through Jesus Christ, is never far from us. The wise men; too, were far from Christ. But heavenly guidance, and one small, human step after another in the right direction brought them to his side. We need but emulate them to make their joy our own.
We need to follow Him in the right direction, to be able to feel His presence, which we need a lot. And if we do follow the right direction, we can be sure that His presence is with us always.

Unfortunately, we were disappointed to see the drops falling from an almost clear sky.

I suppose we shall have to be hope that was just a trial run and maybe tomorrow will produce a better effort.

This week we have had the pleasure of getting acquainted with Sonora and the Devil. We have enjoyed shaking hands and visiting with the people who have dropped in to say hello and make us feel welcome.

A newspaper office is a delightful place to explore. The machinery that clanks, clicks, and grinds to produce a newspaper is always fascinating. Poking my nose into corners and looking on high shelves, I found interesting old pictures and stories. Here is an item I found in a 1926 Devil:

R. M. Sends us the story of a young bride who asked her husband to copy off a radio recipe she wanted. He did his best, but got two stations at once, one of which was broadcasting the morning exercises and the other the recipe. This is what he took down: "Hands on hips, place one cup of flour on the shoulders, raise knees and depress toes and mix thoroughly in one-half cup of milk. Repeat six times. Inhale quickly, one-half teaspoon of baking powder, lower the legs and mash two hard-boiled eggs in a sieve. Exhale, breathe naturally and sift into a bowl."

Edwards Plateau Soil Conservation District News

By E. B. Keng
Soil Conservation Service

Continued high temperatures and rainless skies are causing ranchmen and others in the Edwards Plateau Soil Conservation District to become more weather-conscious daily. The following interesting weather facts were quoted in a recent Soil Conservation Service release:

"Some facts about the weather extremes around the world are so remarkable that they defy belief. But they are authentic, based on data compiled by the Earth Sciences Division, Quartermaster Research and the Engineering Command of the U. S. Army.

There's a difference of 263 degrees between the highest temperature ever recorded and the lowest. The all-time high came

on September 13, 1922 in El Azizia, Africa, and was a fantastic 136 degrees Fahrenheit. At the other extreme, the lowest temperature ever was 127 degrees below zero in August 1960, in Vostok, Antarctica. The highest wind speed ever measured was a 225 mph gale on April 12, 1934 at Mt. Washington, N. H.

Heaviest snowfall in 24 hours in the U. S. was 76 inches that fell on Silver Lake, Colorado, on April 14-15, 1921. And the greatest single season snowfall was 1000.3 inches that fell on the Paradise Ranger Station in the State of Washington in 1955-56.

The world's greatest average annual precipitation is 472 inches

at Mt. Waialeale, Kauai, Hawaii, which amounts to more than an inch of rain a day. Most rain to fall in one year—August 1960 to July 1961, was 1,042 inches—in Cherrapunji, India. The same spot had the most rain—366 inches in one month, July 1861.

Heaviest 24-hour rainfall on record was 46 inches and took place July 14-15, 1911 in Baguio, Luzon. World's greatest 42 minute rainfall totaled 12 inches on June 22, 1947 at Holt, Missouri. And the greatest 20-minute rainfall was 8 inches on July 7, 1889 at Curtea-de-Arges, Romania.

Unofficial greatest 12-hour rainfall in the United States was 32 inches on September 9, 1921 in Thrall, Texas."

Where but in print can you get so close to the advertising messages that interest you? Where else can a woman clip the coupons and recipes that intrigue her? Or tear out tips to try on leftovers? Or mark,

for future marketing, any of the colorful food ideas which strike her fancy? And where else can she circle and compare the colors and styles of clothing and furnishings that appeal to her?

Where else, in fact, can any message be re-run at will by an interested audience? So make sure a good part of your advertising message gets into print. Let somebody's eyes linger over it as long as

they like. Let somebody's scissors clip it free of competition. And then watch someone's pocket or purse carry it to the place of purchase. Print makes sense because print makes sales.

Does Right To Own Property Include Right To Choose Customers?

If, IN THE USE AND ENJOYMENT of private property, freedom is to be respected, then what's the difference between the right of an Innkeeper to refuse to rent a bed to Mr. X, and the right of Mr. X to refuse to rent the bed from the Innkeeper?

That question was tossed into the lap of the Senate Commerce Committee last week by Governor Farris Bryant of Florida. And none of the Senators present could answer it. The Committee was holding hearings on Bobby Kennedy's bill to force the Inn-

keeper to do business with Mr. X—but not to force Mr. X to trade with the Innkeeper.

Any traveler can decide not to stay at a certain motel because he doesn't like the owner, his moustache, his accent, his prices, his race or his other customers, Bryant said.

The motel owner should have exactly the same right, the Governor said, to refuse to serve the traveler.

"That's simple justice," Bryant added. "The wonder is really that it can be questioned."

It's The Law In Texas

RIGHT OF WITNESSES

By far the most vital people in our system of justice are witnesses. Everyone else in a trial exists to hear what they have to say.

Our courts need witnesses. A jury to find the facts. The judge to apply the law. The lawyer to tell his client's story.

Chances are you worry about stepping up, taking an oath, and telling your story in court.

On some rare occasions you could be called upon to testify about something affecting your own standing in the community.

As a witness you too may have the right, for example, not to testify against yourself in somebody else's lawsuit or crime trial.

If you are ever in such a bind, consult a lawyer of your own choice on what to do. The lawyer who called you to testify has a sworn duty to protect his client, not you. But your lawyer is sworn to keep what you tell him secret and to advise you in your own interests within the law.

Wise lawyers tell their witnesses to obey twelve rules:

1. Go to the place (say, the scene of an accident). Check your memory before you go to court. People forget and get caught up on details. But if you check what you saw and heard you are on solid ground.
2. Visit a court. Hear how other witnesses testify. It will help you see your role on the witness stand.
3. Wear clean, conservative clothes.
4. Don't memorize your story word for word. That is the surest way to sound bad. But think of what you saw and heard.
5. Listen to the questions you are asked with care and answer thoughtfully.
6. Give a simple, direct answer in your own words. Don't be rushed.
7. If you err—and people often do—correct yourself at once. If you can't remember some detail, say so. Don't bluff.
8. Tell the truth. Don't figure which side you may help. Don't identify yourself with either side.
9. Stop when the judge breaks in, and don't try to sneak an answer in before he can stop

THE TEEN SCENE

By Mary Davis

Remember Charlie and Glen Chenault? Well, Charlie spent a week here with his grandparents, and his friends were very happy to see him back in town. Glen is working in Kerrville; so he couldn't make it down here.

Vance Everett came home from summer school just long enough to get ready to go to Ruidoso, California, and Colorado. Believe that boy is really having a big summer.

Allene Groda won't be coming back to school here this year. She got her diploma in Virginia and is going into nurses' training. Lots of luck to her.

The Cheerleaders, Allison Espy, Diana Cahill, Jan McClelland, Diana Black, and Susan Allison, left last Sunday for Dallas and SMU for a week at cheerleading school. Karen Davis and Carla Whitworth went to TCU to twirling school.

John Paul Friess, Larry Bob Moore, and Dick McMillan are in San Antonio at a Student Council Workshop. John Paul is next year's president of the student council; Dick is vice-president; and Larry will be treasurer.

Diana Cahill, who will be secretary, was unable to attend because she went to cheerleading school.

Jody Mooreland left Monday to return to Pecos after visiting here for a while. It was real nice having you here, Jody. Come back sometime soon.

James Stewart has spent the entire summer at Whitney working on his grandfather's farm. We understand that he has become quite a farmer now.

Poor Nancy Prugel had her wisdom teeth pulled and was temporarily silent, a state Nancy is seldom in.

Dick Hardgrave, Bill Elliott, and Bobby Kelly came home from their trip to Canada. They all had fun but said the trip wasn't all play and that they were a wee bit tired.

Goodness, things are beginning to point toward the beginning of another school year about to begin. Football practice will be starting soon. Time surely has flown this summer.

10. Keep cool and don't sass back.

11. If they ask you: Certainly, you have talked to other people—the lawyer, for example; and yes, you may be reimbursed for certain of your expenses incurred in attending the trial.

12. Remember, without witnesses our law would fail to do justice. If you are called, be a good witness.

(This newsfeature, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

TV TODAY AND TOMORROW
BY RALF HARDESTER
Feature Editor of TV GUIDE MAGAZINE

ABBY DALTON, JOE BESSER AND CORBETT MONICA ALL RETURN next season as regulars on The Joey Bishop Show . . . Howard K. Smith will return

Abby Dalton
...will return with

to ABC next fall as a frequent, if not regular, participant in the network's Sunday afternoon Issues and Answers. ABC will drop Smith's current Sunday evening show after this season . . . David Susskind and co-producer James Fleming plan to turn out 20 Festival of Performing Arts programs for next season. Among the artists tentatively signed are choreographer George Balanchine and the New York City Ballet, John and Hayley Mills in an hour of poetry, soprano Birgit Nilsson, Harry Belafonte and British ballet star Dame Margot Fonteyn . . . Veteran actor Edward Binns has signed on as an in-and-out regular on The Nurses.

SIR LAURENCE OLIVIER WILL STAR in a 90-minute dramatic special to be produced by David Susskind next season, most probably for CBS. While the play has not yet been selected, Olivier reportedly will receive \$100,000, the same fee paid the British star for "The Moon and Sixpence" which Susskind produced several seasons ago . . . Part of the canceled Empire will return to TV next season. Richard Egan and the character he portrayed in Empire Redigo, will take over on NBC Tuesday nights 8:30-9 P.M. (ET) in a show titled—what else?—Redigo. This time out he'll be the master of a small spread. The scheduling shuts the door on the possible return of Ensign O'Toole or graduation of The Match Game to a nighttime spot.

Laurence Olivier
...in special

ALFRED LUNT, LYNN FONTAINE AND ALFRED DRAKE WILL CO-STAR next fall in a CBS special about the origins of Greek drama titled "Athens, Where the Theater Began." First of a series, the program was taped in a 5th-century B.C. amphitheater near the Parthenon. Subsequent programs, all produced by Perry Wolff, will spotlight early Roman comedy, taped in Rome; the commedia dell' arte from Florence; and medieval and Elizabethan drama, from England . . . David L. Wolper has started work on six additional hour-long documentary specials for next season. Titles: "December 7—A Day of Infamy," "The American Woman in the 20th Century," "Berlin: from Kaiser to Khrushchev," "The Rise and Fall of American Communism," "The Yanks Are Coming," (World War I) and "10 Seconds That Shook the Earth" (about the A-bomb).

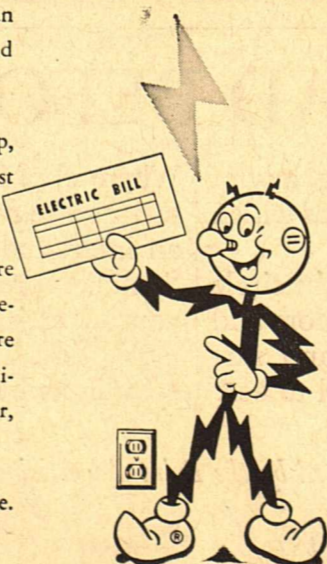

THE DOLLAR YOU SPEND FOR ELECTRICITY BUYS MORE THAN EVER BEFORE

How much is your monthly electric service bill? Probably more than in years past. But that's because you use more electricity today and NOT because the rate is higher.

Truth of the matter is that as the cost of living has gone up and up, the average cost of a kilowatt hour of electricity used in West Texas homes is 17% less than 10 years ago.

But the USE of electricity has increased; many homes today are using twice as much. Using more and getting more customer benefits, for today there are 166 wonderful electric ways to bring more comfort and convenience into the home, to save time and to eliminate drudgery. Use in the long summer months may be even heavier, because of continuous use of air conditioning.

Yes, the dollar you spend for electricity buys more than ever before. It's today's best value, biggest bargain.

When Texans are looking for fun, they are very likely to head for the water. And it should be no surprise to anyone that swimming tops the list of participant recreation. A recent Gallup Poll of sports participation of United States adults puts swimming first on the list. At least a third of the adults swim each year. No less than five million Texans use aquatic facilities annually.

and pass a written test will be awarded certificate of competency. Ordinances in some cities make attendance mandatory for its pool operators. During the first part of 1963, 25 swimming pool operator's short schools were held in Texas. The total attendance hit the 1,350 mark; and 850 operator's certificates were issued. These short schools first began in 1966. The ever-present possibility of drownings (there were 328 last year), accidents and disease-together with the phenomenal surge in popularity of water sports-are compelling reasons behind the Department's program for short schools for pool operators. Swimming pools, real estate developers are finding, make new houses and buildings lots sell like the well known hot cakes. Tourist court owners have found pools to be an attractive drawing card. Even during periods of normal tourist flow, the courts with pools fill up first.

By Monica Davis

Another Scotch Tournament and another afternoon of fun... Fifty-two golfers participated and each one had a BLAST!

The team to come in with the best score consisted of Francis Archer, Tommy Thorp, Charlie Howell, and Pauline Thompson. Each received three new golf balls... their score was 33.

The second place team consisted of Oliver Wuest, Charlie Howard, Bill Stewart, and Judy Letsinger. Each won gloves with a score of 34.

When it came to third place winners, we had three teams to come up with a score of 35. A play off was necessary and it was decided that a putting contest would be the way to make the decision.

Tommy Smith of the team of McClelland, Harrison, Smith and Wanda Cahill putted for his team. J.D. Trainer of the team of Baldwin, Trainer, Kemper, and Monica Davis putted for his team. Shelly Lowe putted for his team of Neville, Cahill, Lowe, and Betty Renfro. Shelly won for his and each member received a cart caddy kit.

Everyone was enjoying the club house, the cool evening, and each other so much that it was decided that we'd all eat supper together. We all bought picnic goodies, sat on the club house patio, and enjoyed ourselves immensely.

The greens, as I pointed out last week, are coming along fine, but those poor, poor fairways! The only thing that can help them would be a good rain—maybe soon, huh?

Reggie Trainer just has no appreciation of the better things of life. When one of his friends put down a ball marker so Reggie wouldn't hit his ball, Reggie complained. This good friend of Reggie's thinking that Reggie was just a little jealous 'cause he didn't have such a fine marker himself, very generously put the marker in Reggie's golf bag. It was some little while before it was found, but there was still no appreciation on Reggie's part when he did find it. For some reason or other, Reggie thinks a three pound ball marker was just a wee bit heavy to be carrying around.
