Editorials... Features... Columns...

THE SOFT TOUCH

The soft touch is the right touch. This statement could apply to any number of things, but one of the most important applications is in the public relations aspect of business.

Often the public relations function is misunderstood even among executives. For example, three managers were asked to define public relations. Their three answers were as follows:

"The art of soft-soaping editors into saying nice things about your company."
"Public relations' aim is to put an ogre through a well-oiled grinder and turn him out looking like a hero."

"Public relations is to impress upon people that the sun is shining—no matter how hard the rain happens to be pelting down."

Public relations in general falls into three categories: (1) your relationship with your boss; (2) your relationship with other employees; and (3) your relationship with the general public.

In establishing good relations with your boss you must learn to please him. The first requirement of any job is to be helpful to your boss. That's the reason you were hired in the first place—to help your boss carry out the duties for which he is responsible. He judges you whether you do this or not; so, you might do well to pattern yourself after that employee who stated, "I never clash with my boss." "You don't?" asked another employee. "No sir-ee. He just goes his own way, and I just go his own way."

Bosses are not born happy—they are made happy. To keep him happy, you must learn the things you can do to smooth his path, as well as the pitfalls to avoid. These vary with each boss. But your boss is the most profitable subject you can study;

your success depends upon how well you serve him. For an ideal relationship with your boss, remember these seven rules:

1. Establish a friendly, yet impersonal, relationship with him.
2. Respect and admire your boss, be proud of him, and be sure your conduct is such that he will respect and admire you.
3. Try to satisfy him.
4. Learn to appreciate his problems.
5. Do your best to help him.
6. Do things his way, not your way, and do them to the best of your ability.
7. Remember anew each and every day that the boss is the boss. Use "The Soft Touch."

Be a good will ambassador for your company. Speak well of your company to your family, your friends, your neighbors and even to your casual acquaintances. Be a civic-minded citizen. Accept places of responsibility and service in projects that mean improvement for your neighborhood and the community, avoid arguments and be careful that your personal actions do not cast a shadow on the company you work for. Such service creates good will.

In dealing with your boss, department head, secretaries, other employees, and with the general public, whether you are getting your first job after graduation or a 16-year employee—THE SOFT TOUCH IS THE RIGHT TOUCH.

—Thomas Jefferson

FAMILY POT LUCK

BY HELEN HALE

Don't Skimp, Skip or Stuff
There's no easy way to lose weight, but it's not an impossible task either. Here are some basic tips which may help. Skip a meal and you may not wait until the next meal. Often dieters skip breakfast. Before lunch they will have eaten sweet rolls or candy bars which will total more than a sensible breakfast.

Make up your mind to write down everything eaten for a period of three days. Those who say they don't eat anything will have a surprise if they make a count of the calories consumed on this so-called "nothing."

Cut down on how much you eat. You can then eat what others have and not feel deprived which is often devastating.

When you bolt your food, you'll need more of it. Try to eat in leisurely way, with pleasant conversation and friends. Unhappy people or lonely ones often eat more than those who are in congenial company.
Learn to eat food in its natural form to cut down calories — vegetables without sauces, salads with low calorie dressings or with lemon juice, fruit out of hand, etc.

Helen's Favorite: Cream of Corn Soup (6 servings)

- 2 cups corn (canned or leftover)
 - 2 cups boiling water
 - 2 cups milk
 - 1 slice onion
 - 2 tablespoons butter
 - 2 tablespoons enriched flour
 - Salt and pepper
- Place corn, boiling water, milk and onion in saucepan. Simmer 20 minutes. Rub through a sieve. Melt butter, and flour and blend until smooth. Stir in corn mixture. Simmer 5 minutes.

Christian Science Celebrates 100th Anniversary

"With contemporary developments in physics, biochemistry, and psychotherapy challenging men to explore more vigorously the relation of matter to mind, the practical experience of Christian Scientists yields a kind of datum not to be found elsewhere," the Christian Science Board of Directors declare in the forward of a new book, "A Century of Christian Science Healing," published to commemorate the denominational anniversary.

This year is the 100th anniversary of Christian Science, which traces its origins to a healing experienced by Mary Baker Eddy in 1866. The book opens with this incident and on succeeding pages seeks to put on record "something of the character and variety of Christian Science healing" since then.

Emphasis is given to the broader concept of healing as "spiritual wholeness" applied to all aspects of human living.

"This is not church history nor medical history," they emphasize, "but the story of people who have felt the Word made flesh in their own lives."

The local informal Christian Science group meets Sundays at 11 a.m. in the Norman Rousselot home. Norman Rousselot is the 1st reader, and Mrs. Gene Wallace is the 2nd reader. The public is invited.

Philosopher Likes Federal Aid Idea When No Federal Strings Are Attached

Editor's note: The Devil's River Philosopher on his bitterweed ranch on the Dry Devil's River seems impressed by the way cities are seeking Federal aid.

Dear editor:
Now that cities have stopped denouncing farmers and ranchers for getting Federal subsidies, which occurred about the same time the cities started getting some themselves, I was pleased to read an

item I ran across in a newspaper last night. According to it, an official in a big city has come out with a proposal I could kick myself for not thinking up years ago. His idea is that, since the Federal government wants to help the cities out financially, and apparently every city in the nation needs help, or will take it, which is nearly the same thing, once they get used to it, the best way to handle the distribution most efficiently is to "provide a lump sum to every city based on population," and then—and here's the kicker—"let these amounts be without strings for the cities to use in any manner they deem best in their local wisdom."

Why didn't we think that up? It's one thing to get a check from the government, but invariably there's a bunch of rules and regulations tied to it. You've got to plant this much, or you've got to keep the weeds off the un-used part, etc., etc.

How could Washington know better than I what ought to be done out here on this bitterweed ranch? Always insisting on some kind of bureaucratic interference. Then coming around to make sure you've compiled.

Depend on the cities to out-smart us.
Of course, it should have been done a long time ago, the sensible way is to just turn the money over, whether it's a city or a farm, and let everybody work out his own problems without any outside advice.
The next time we need a new farm program, if we're smart we'll get somebody in town to help us write it.
Yours faithfully,
J. A.

JUNO RANCH COMPANY SELLS REGISTERED ANGUS BULLS

Juno Ranch Company recently sold an Aberdeen-Angus bull to Buddy Shanklin, Rocksprings, and one to Finklea Brothers.

If you haven't examined a new Chevrolet since Telstar II, the twist or electric toothbrushes,

1966 Impala Sport Sedan—a more powerful, more beautiful car at a most pleasing price.

shame on you!

- You've been missing out on a lot that's new and better since '62:
- A more powerful standard Six and V8 (155 and 195 hp, respectively).
 - New Turbo-Jet V8s with displacements of 396 and 427 cubic inches that you can order.
 - A fully synchronized 3-speed transmission as standard.
 - A Turbo Hydra-Matic transmission available.
 - Deep-twist carpeting on every model.
 - Six-month or 6,000-mile lubrication intervals.
 - Self-adjusting brakes.
 - A Delcotron generator that extends battery life.
 - Self-cleaning rocker panels.
 - Up to 3" more shoulder room; increased leg and head room.
 - A smoother coil-spring suspension.
 - New sound and vibration dampeners throughout.
 - A longer body, a wider frame and tread.
 - Items you can add, such as AM-FM Multiplex Stereo radio, Comforton automatic heating and air conditioning, and a Tilt-telescopic steering wheel (or one that tilts only).
 - Standard safety items on all models, including front and rear seat belts, back-up lights, windshield washers, padded instrument panel, padded visors, 2-speed electric wipers, outside mirror, shatter-resistant inside mirror and non-glare wiper arms. (Use them to best advantage.)
 - And of course the great buys you can get right now from your Chevrolet dealer.

Immediate Enlistment Now Available To Those Seeking To Join Air Force

For the first time in several months, the Air Force can offer an immediate enlistment to qualified applicants, according to Sgt. Holly Yates, Air Force recruiting representative.

Yates says this is made possible because of the accelerated basic training program now in effect. For the past two months Air Force has been trying a stepped up program of only 4 weeks basic training. As quality of personnel change so should quality of training, states Yates, and this the Air Force has done. In March the Air Force recruits holding high school diplomas was 96.3 percent.

"It's a cinch to train these boys," a training officer said, "You only

Ag Prices Noted

Texas Agricultural Prices—April 15 prices received by Texas farmers and ranchers for all farm products were down less than one percent from a month earlier but up ten percent from a year ago, reports the Texas Crop and Livestock Reporting Service. The livestock and livestock product index dropped from the previous month while the all crop index was up 6 points.

3 years could not re-enlist, unless he had participated in the Active Air Force Reserves for the past two years.

"This is the biggest single change we've had to our recruiting program in several years," said Sgt. Yates.

Texas Department of Public Safety Accepting Applications Until June 6

Col. Homer Garrison, director of the Texas Department of Public Safety, has announced that Monday, June 6, is the deadline for application to the next DPS recruit training school for patrolmen.

"We have several new benefits to offer qualified young men," Garrison said. "For instance, the pay during training has been increased from \$375 to \$400 per month, and upon graduation this increased (effective September 1, 1966) to either \$468 or \$484, depending upon the branch of service to which the patrolman is assigned.

"Also, for those who prefer one branch of the uniformed service over another, we can let the men select their service (Highway Patrol, Driver Licensing, License & Weight, and Motor Vehicle Inspection) and they can also choose the geographical area of the state where they will be assigned, consistent with openings."

To qualify for employment in the uniformed services of the DPS, a man must be between the ages of 21 and 35, not less than 5 feet 8 inches tall, have a high school education or its equivalent, be in sound physical condition with good vision and must be a citizen of the United States and a resident of Texas for at least one year immediately prior to the date of application.

"Among the many benefits that patrolmen enjoy," Garrison pointed out, "are two weeks annual vacation, all holidays provided for by the Legislature, modern liberal retirement systems and group hospitalization and life insurance plans, traveling expenses and longevity pay, and they are furnished with

Shatter Resistant Glasses Protect Little Leaguers

The 1966 Little League schedules have barely started and already reports are coming in of eyes injured or blinded by glasses broken in baseball accidents, states the National Society for the Prevention of Blindness, Inc.

"Regular glasses and sunglasses worn on the baseball field are a real threat to eyesight," says John W. Ferree, M.D., executive director of the national sight saving organization.

"Think of what happens to a pair of easily shattered spectacles that are hit by a ball travelling at high speed," he says, citing the case of a young New Jersey fielder whose glasses were smashed during an evening game. Glass particles penetrated his right eye and surgery was required.

"Because a boy wears corrective glasses does not mean he must sit on the sidelines while his friends enjoy themselves on the sports field. The use of shatter-resistant lenses in a safety frame will provide complete protection to the young ball player who requires prescription glasses," continues Dr. Ferree. He recommends plastic or tinted safety lenses in sunglasses for other Little Leaguers and urges them to follow the example of several leading major leaguers who protect the sight so necessary in their profession by constant use of impact-resistant safety lenses.

Parents are advised by NSPB that their boy's prescription be ground into three millimeter industrial thickness safety lenses, with quality safety frames. Anything less than these reduces the sight-saving potential of the eyewear. For sunglass wearers, plastic lenses or shatter-resistant tinted lenses offer protection absent in street sunglasses.

Free pamphlets on eye-health and safety may be obtained by writing to the National Society for the Prevention of Blindness, Inc., Box 426, New York, N. Y. 10019.

Safety Precautions Insure that Water Outing Is Fun

With the approach of the Memorial Day weekend Americans throughout the land already are busy with spring chores of scraping and painting small boats, in eager anticipation of another summer on the lakes and streams.

Memorial Day weekend will launch a summer of boating and fishing accidents and deaths from drowning. Most of these accidents need not happen. Most boating and fishing accidents could be prevented if outdoorsmen would observe a few simple precautions.

Good manners and common sense in boating will prevent most accidents. Don't overload the boat; have life preservers for each occupant; don't stand up or change seats in a small boat while under way; keep a watchful eye out for other boats, swimmers and fishermen, and give all a comfortably wide berth.

Some 49,000,000 Americans now living will eventually develop cancer—one in four persons at present rates. Only one out of three will be saved, but the American Cancer Society says that with present knowledge, one out of two could be saved. An annual health check-up for every adult, making possible early detection and treatment, could accomplish this.

Increased Claims Blamed For The Rise In The Cost of Auto Insurance

The cost of auto insurance is determined to a large degree by the amount paid for claims. For 20 years, claims costs have been rising steadily. The principal factors influencing this trend are increases in: traffic accidents, hospital and medical costs, new auto prices, parts replacement prices, labor repair costs, auto thefts, jury awards, exaggerated, padded or fraudulent claims, and unethical practices by some lawyers and doctors.

Here are some examples of the inflation that besets the insurance industry:

An all-time high of 48,000 persons were killed in traffic accidents in 1964—an increase of 4,400 over 1963. A total of 2,000,000 men, women and children suffered disabling injuries.

Auto thefts in the U.S. in 1964 increased 17 percent over 1963 to a record high of 466,805 stolen cars. A hospital room cost 86 percent more in 1964 than it did in 1954 (or 295 percent more than 1946!)

The average verdict in the New York Supreme Court increased 245 percent between 1940 and 1963, while the cost-of-living index rose

only 119 percent. In San Francisco between 1952 and 1962, the average injury verdict rose more than seven times as fast as the cost of living.

Every citizen—especially every automobile owner and driver—can help keep the cost of automobile insurance at a reasonable level. Here are some simple suggestions to follow:

- (1) Be a courteous, careful driver; help reduce the nation's rising accident rate.
- (2) Express your indignation to the press, to local officials and to legislators when enforcement of the motor vehicle laws is lax and courts are lenient with irresponsible drivers.
- (3) Support traffic safety programs.

(4) If you have an insurance claim, ask only for what you are entitled.

(5) Remove the keys from the ignition and lock the doors whenever you leave your car.

(6) Do your duty and serve on a jury. Good citizens make good jurors.

(7) As a juror, render a just, equitable verdict. Remember that the money to pay claims comes from the insuring public.

Top Gainer Remains On Eligibility List

Top Gainer, owned by R. W. Wallace and James Hunt, is among the 164 (47 from Texas) quarter horse juveniles eligible for the 1966 All American Quarter Horse Futurity to run at Ruidoso Downs, N.M. in late August.

The 400-yard race, usually sprinted in approximately 20 seconds, will boast a purse of nearly half a million dollars and now has a list of eligibles some 15 ahead of last year.

Twenty states are represented in the list of eligibles for this year's running of the All American.

The summer racing season at Ruidoso Downs begins May 28, Memorial Day weekend, and continues each Friday, Saturday, Sunday and holiday through September 5th. Post time is 1:30 p.m.

Visiting the B. E. Cartwrights and Tommy Smiths this weekend were the W. A. McCoy Jr. family of San Antonio.

EXAMINING AN ACE REID round-up poster for West Texas Boys Ranch are James Eaton of Crane County and Sammy Branum of Lubbock County. Both are 9 years old.

Bill Morriss Appointed As Wagon Boss For West Texas Boys Ranch Round-Up

Bill Morriss, wagon boss for Sutton County for the 1966 West Texas Boys Ranch Annual Round-Up announced today that the week of May 23rd has been designated as "West Texas Boys Ranch Week" in Sutton County with a concentrated effort being put forth to obtain as many sheep and goat contributions to the round-up as possible.

"Due to recent rains and market conditions, and the fact that our Boys Ranch needs help now, we have asked for this help during this special week during the round-up," Roddy Peoples, general round-up chairman said. "We know that each county will want to take advantage of this effort during the week of May 23rd and pitch in and do their part by cooperating with their wagon boss to help the hard

luck boys at West Texas Boys Ranch near San Angelo", Peoples continued.

The annual round-up is one of the major fund raising drives conducted by the ranch each year. The ranch is supported solely by the free will cash or livestock contributions of West Texans. West Texas Boys Ranch has served over 750 boys since 1947, currently has 64 boys in residence, and is opening additional space for 32 more boys May 28.

"Sheep and goat donations will be accepted any time during round-up, we are just trying to get as many contributed at one time as possible during the week of May 23rd to show the Boys Ranch that do their part by cooperating with their wagon boss to help the hard

Retired Execs Urged To Join SCORE

"Uncle Sam wants you!" Jack Teddlie, Lubbock, Texas, Regional Director of the Small Business Administration, issued this call today to retired military and civilian personnel with government contracting experience.

Those answering Teddlie's call will have an opportunity to serve their country again. All the action, however, is confined to the home front.

The unpaid volunteers will be serving as new members of SCORE (Service Corps of Retired Executives). They will help small businesses in their communities, advising them how to obtain government prime and subcontracts.

Persons interested in joining SCORE should contact the local SBA regional office at Room 204 Federal Office Building, 1616-19th Street, Lubbock, Texas.

CHURCHES

Make STRONG COMMUNITIES

Forgetting

"And their sins and inequities will I remember no more."
—Jeremiah 31:33

Forgetfulness can be a failing. We sometimes "forget" our responsibilities, our obligations to family, friends and business associates. More likely, we excuse ourselves by saying we "forgot". We did not forget; we ignored.

On the other side of the coin, when we are offended, slighted, or when someone does us "wrong", what do we mean when we tell them that we have "forgotten" it. Are we truthful? Have we really put it aside or does it come back to haunt and bother us on infrequent occasions? Of this we can be quite sure: we can never forget a "wrong" or a personal affront until we have forgiven. We cannot forget without forgiving.

Lt. Wayne Hock Completes Course By Air Command

Reno, Nev. — First Lieutenant Wayne Hock, son of Mr. and Mrs. John R. Hock, who reside on West Delaware Trail, R.F.D., Medford, N.J., has completed the rigorous U.S. Air Force survival and special training course conducted by the Air Training Command at Stead AFB, Nev.

Lieutenant Hock, a KC-135 Strato Tanker pilot, received combat-type escape and evasion training for survival under adverse climatic conditions and hostile environments.

The lieutenant is being assigned to Wright-Patterson AFB, Ohio, with the Strategic Air Command which maintains America's constantly alert force of intercontinental missiles and jet bombers.

A graduate of St. Luke's High School, Ho-ho-kus, N.J., he received a B.S. degree in business administration from Seton Hall University, South Orange, N.J. Lieutenant Hock is a member of Alpha Kappa Psi.

He was commissioned in 1963 upon completion of Officer Training School at Lackland AFB, Tex. His wife, Janice, is the daughter of Mr. and Mrs. A. L. Harkrider of 1603 Lincoln St., Big Spring, Tex.

Federal LAND BANK Association

Mr. Farmer— Mr. Rancher:

Too many short-term debts can cripple your total credit program, tie up operating capital and cause you to miss opportunities that require immediate funds. For these reasons, it can pay you to consolidate your short-term obligations with a long-term, low cost Land Bank loan on your farm or on your ranch.

WHO OWNS MY BANK?
Only Production Credit Association borrowers say, "I DO!"
Borrowers of the Texas PCA own their own loan company. That's the reason the interest costs are low. He is assured of courteous and interested consideration because he can say: "We get our money from our own 'outfit'!"

Point Theatre To Open Season With 'Mary, Mary'

The Hill Country Arts Foundation has announced the opening of the Point Summer Theatre June 15 with a production of Jean Kerr's comedy "Mary, Mary."

Season tickets are now on sale at \$15 or \$11 from Point Summer Theatre, HCAF Ingram, Texas 78025, or patrons may call (512) EMpire 7-5710.

The schedule for performances through the summer is as follows: "Mary, Mary", June 15 through July 3; "Ten Little Indians," July 6-17; "Pools Paradise," July 20-31; "The Great Sebastians," August 3-14; and "Fantasticks," August 17 through September 4.

Performances are given Wednesday through Sunday evening beginning at 8:30 p.m.

Laney Cook Places Third At State Meet

Laney Cook, Sonora's only entrant in the State and field meet in Austin, ran the 180-yard low hurdles in 20.3 seconds to finish third in the Class A division.

Cook qualified for the State meet by placing second in the district competition and then going on to win the regional meet held in Lubbock.

Ahead of Cook in the hurdles were Tommy Watson of Calallen with a 19.9 and Jerry Watson of Ranger with a 20.2 timing.

GREEN NEWS

by Lunetta Morgan
Thought for awhile that we were going to have to start writing boating or fishing news, but doesn't everything look pretty. It is hard to find balls now, but if it is not one gripe it is another.

A belated "Happy Birthday" to Dr. Howell. The Howell family ordered Dr. Howell a golf cart for the happy occasion and it arrived this week. Wednesday, Dr. Howell tried it out with George Barrow, Vernon Rogers and Bud Smith. During the game a slight accident happened but nothing a doctor couldn't take care of.

The Sonora Golfers did real well in Kerrville. Bobbie Fawcett won low gross, and Ernestine Hext took the low net in their flight. Marilyn Bloodworth and Lunetta Morgan won door awards. We found out where some of the 1100 Springs are and also why it is called "The Hill Country!" You were either going uphill, downhill or in the water on every fairway.

An added player to the High School group is Ed Lee Renfro. Welcome Ed Lee.

The ladies are starting a handicapped tournament. We qualify this week and will be flighted the next. This is one of those endurance

affairs and will last a month. You have a week to play your opponent.

Seen on number six "lake" Tuesday, a crane.

Overheard at the clubhouse: "How's your Golf?" "It is about to mildew."

Annabelle Wuest spent Mother's Day driving the cart while the rest of the family golfed. That's what we call "togetherness".

Wednesday, May 18 is luncheon day. Sammie Jean Espy and Jodie Finklea are hostesses.

The directors met Monday night at the club house and voted to purchase a larger coke box and drinking fountain. No money will be involved. The profits from the machine will make the payments.

John McClelland is looking for a new partner. He did not win a hole Sunday. Maybe he should look for an easier sixsome.

To Betty Jones: There were a lot of nice comments on our golf invitations from the ladies at the Kerrville tournament. We are fortunate to have someone as talented as Betty interested in the club.

McCamey is having their Men's Tournament this weekend and Big Lake is having one over Memorial Day. To the ladies: Winters is having a tournament May 17. Ozona's is Saturday, May 14.

John Bell may have to trade his new golf shoes for snow shoes. Pennsylvania just had a new snow fall.

Area Livestock Prices Generally Higher

(Compiled from the Texas Livestock Market News, weekly publication of the U.S. and Texas Departments of Agriculture.)

Slaughter steers, heifers and cows sold steady to \$1.00 higher at Texas markets during the past week under the influence of higher dressed beef and live prices at most major shipping centers. Bulls and slaughter calves were steady to 50 cents higher. Feeder cattle and calves were uneven with sales generally steady to \$1.00 higher, however fleshy steers over 600 pounds and yearling heifers sold to 50 cents lower in Fort Worth.

Slaughter lambs sold steady to \$1.00 higher, ewes mostly steady. Feeder lambs were steady to 50 cents higher.

Distributive sales of steer, heifer and calf carcasses were 50 cents to \$2.00 lower at San Antonio, but steady to \$1.00 higher elsewhere. Cow beef was mainly steady to \$1.00 higher, although 50 cents lower in Houston. Beef cuts were mostly steady to \$2.00 lower. Fresh pork cuts sold weak to \$2.00 lower in San Antonio, while smoked hams and picnics were 50 cents to \$1.50 higher.

Trading on wool and mohair was slow in Texas. In New Mexico prices were steady to \$.05 lower at sealed bid wool sales.

SAN ANGELO Cattle and Calves

(May 6) Cattle and calf auction: 1600: Compared with 1,354 for same day last week and 2,325 for comparable day last year. Supply near 50 percent standard to choice feeder steers, heifers and calves; with standard and low good predominating. Cows 40 percent with balance mainly slaughter bulls and heifers. Bidding active and atten-

dance good. Few slaughter heifers steady. Slaughter cows steady to strong. Slaughter bulls steady. Feeders strong to fully \$1 higher, with most advance on weights under 500 pounds. Few light weight feeder calves under 300 pounds \$1-2 higher. Stock cows and pairs mostly \$1 higher.

(May 5) Sheep auction for week, 7,800. Compared with 10,053 for last week and 18,819 for same week last year. Supply 50-55 percent mainly spring and shorn old crop slaughter and feeder lambs and shorn slaughter ewes. Ewes 40 percent with balance mainly slaughter bucks. Good rains over the area sharply limited supply. Attendance normal and bidding fairly active on Tuesday and early Wednesday. Only moderately active late Wednesday. Slaughter lambs steady to strong, 50 cents-\$1 higher, compared to last week. Slaughter ewes and bucks fully steady. Feeder lambs fully steady, spots \$1 higher, with old crop lambs showing most strength. Stock sheep strong to \$1 higher.

TEXAS AND NEW MEXICO WEEKLY WOOL AND MOHAIR REPORT

(May 5) Trading rather slow on wool and mohair in Texas as general rains curtailed wool shearing operations and bulk of wool has not arrived at warehouses. In New Mexico wool activity centered around seal bid sales. Demand not as good as last series of sales, however quality not as attractive. Prices ranged to five cents per pound lower in Roswell area. 160,000 pounds wool, 62-70, estimated yield 33-41 percent, length 2½ inches up, grease price 33-65¢ cents, bulk 45-52 cents, estimated clean price East \$1.30. 150,000 pounds wool, 60-62, yield 49-52 percent, length 2½ inches up, grease price 61-66 cents, estimated clean price East \$1.28-1.30. 250,000 pounds wool, 64-70, yield 31-48 percent, length 2½ inches up, grease price 39-60 cents, estimated clean price East \$1.25-1.35.

Wool shearing operations scheduled to resume late this week or early next week in most sections barring future rains. In Central Texas door price on adult mohair is 50 cents with kid hair at 85 cents net producer.

ROYCE REGEON RECOVERING

Royce Regeon is reported to be recovering satisfactorily after surgery last Thursday. He is in the Santa Rosa hospital in San Antonio, according to Mrs. Cashes Taylor.

Little League . . . from Page 1
