4-H Horse Show For District Six Set In Monahans

The District 6 4-H Horse Show will be held at Monahans Tuesday, July 26, announced Clint Langford, county agent, recently. Langford advised Sutton County 4-H Club members who plan to enter horses in the district show to contact him at once for entry forms.

Twenty horses will be selected at the district horse show to represent District 6 at the State 4-H Horse Show to be held in San Antonio August 12 and 13.

Scotch Foursome Draws Thirty-Six

Thirty-six golfers played in the Scotch Foursome Sunday at Sonora Golf Club. Winners were Pauline Thompson, Clayton Hamilton, George Johnson and Stanley Mayfield with a 59.

Sammie Espy, Rusty Horton and Jerry Duncan came in second with a 61. Third place was decided by a flip of a coin and winners were Bobbie Fawcett, Jimmy Powers and John McClelland.

SONORA ALL STARS—top of the crop of Sonora little leaguers, are shown here ready to warm up for the game with Ozona Tuesday. The team was composed of players from the Indians, Dodgers, Cardinals, and Colt 45's. Shown here are (bottom row) Steve Street, Eddie Alex-

ander, Mark Rousselot, Freddie Virgen, Jessie Solis, James Benson, Rick Street, (second row) Chuck Browne, Frank Halbert, Tom Green, Felipe Bernal, John Martin Beckham, and Joe Ray Wilson, Dr. Charles F. Browne, Dick Street, Norman Rousselot, and Corky Schwiening with the boys.

All Stars Blast Ozona, Defend Title Tuesday

by Rick Street
The Sonora All Stars, behind the pitching of Felipe Bernal, bombed Ozona 18 to 4 Tuesday night in the first little league play-off game.

The win pits Sonora's 11 and 12-year-old baseball pros against the winner of the Big Lake-Midkiff game scheduled in Midkiff Thursday. The play-off between Sonora and the winner will be held at the Sonora Little League Park at 8 p.m. Tuesday.

Should Sonora's All Stars win, they would play here again the following Friday and another victory would send them to the regional tournament at Levelland.

In the game played at Ozona, Tom Green, Frank Halbert, Steve Street and Rick Street got the leading hits for the Sonora All Stars.

Each got two singles. Chuck Browne got the only double.

Getting singles for Sonora were Mark Rousselot, John Martin Beckham, Eddie Alexander, James Benson, Jesse Solis, and Felipe Bernal.

The Sonora Stars erupted with 8 runs in the second inning, got seven runs in the fourth, and scored three more in the sixth.

The losing pitcher was Mike Jenkins, and Ruben Tambunga

also pitched for Ozona. Doing the three hits for Ozona were Art Tambunga with a double, Womack with a double, and Olson with a single.

Playing for the Sonora All Stars are John Martin Beckham, Rick Hill, Frank Halbert, Chuck Browne, Felipe Bernal, Tom Green, Joe Ray Wilson, James Benson, Jessie Solis, Eddie Alexander, Freddie Virgen, Mark Rousselot, Steve Street, and Rick Street.

Draft Quota Increased For July and August

State draft boards will be called upon to furnish 1,585 men for the armed forces in September, Colonel Morris S. Schwartz, state Selective Service director, said Friday.

Colonel Schwartz also announced that the August quota for Texas had been increased from 1,636 to 1,837 and the July call from 1,284 to 1,381.

These monthly quotas compare with 878 for June, 1,927 for May, 979 for April, 1,068 for March, 1,372

for February, and 1,475 for January.

The state director of Selective Service said that Texas local boards should probably be called upon to send between 4,000 and 5,000 men for pre-induction mental and physical examinations in September.

Calls on the local boards for September, with quotas for both induction and pre-induction examination, will be sent out by state Selective Service headquarters on or about August 10.

The Texas quota of 1,585 for induction in September is the state's share of a national call for 31,300 men, all for the army.

The number of men classified as available for armed forces service by Texas local boards has increased since the end of May, the state Selective Service director pointed out.

At the end of June, Texas boards had a total of more than 68,000 men in Classes I-A and I-A-O. This pool was increased from about 44,000 at the end of May. The number of men classified as students declined during this period. Texas boards had 93,000 men classified in Class II-S at the end of June and 98,000 at the end of May.

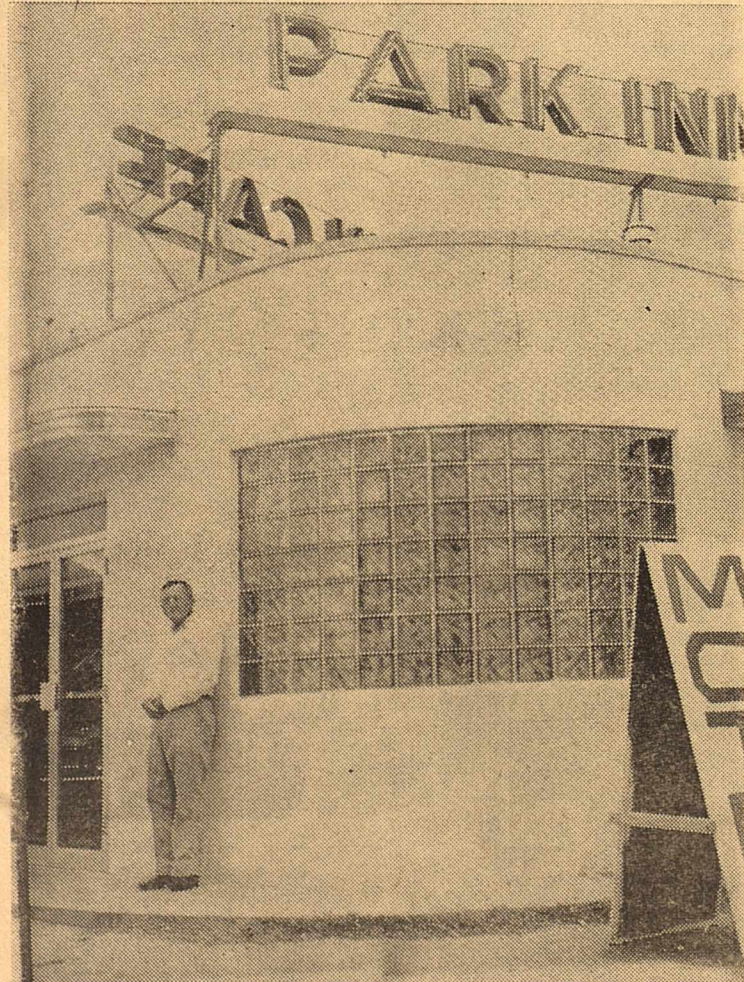

John A. Martin Jr., fire marshal, warned recently that ranch fires were increasing in frequency because of dry conditions following a good growing season. He urged Sutton County people to use extreme care with fire to keep range losses to a minimum.

SUTTON COUNTY LANDMARK, The Park Inn, closed Saturday. John Fields, ranchman and owner, said he did not wish to continue the business, and was not able to find a buyer by the time the lease expired on the building. Notable as a favorite with ranchers, The Park Inn saw many a transaction between buyer and seller take place under its roof. Efforts are still being made to find someone to continue the operation.

Big Lake Boys Golf Tournament Slated

The third annual Boys Golf Tournament will be held by the Big Lake Golf Association Saturday, July 23 at the Big Lake golf course. Aubrey Edwards, Norman Guess, and Dr. Royce Whitefield are tournament directors.

Boys between 8 and 18 from surrounding towns are invited to attend the tournament which is sponsored by the Big Lake Chamber of Commerce and the Reagan County Lions Club.

Four flights are arranged by age brackets, and four trophies will be awarded for 4 places in each flight.

Tee-off time is 8 a.m. July 23. Entries will be accepted upon arrival, and \$2 is the fee.

Scout Lifeguard Advancement Emblems Presented To 49 At Recent Camping

Scout Lifeguard, the top aquatic advancement emblem of the Boy Scouts of America, was presented

to 49 Boy Scouts during the last seven weeks of summer camping at Camp Sol Mayer and Camp Fawcett, camps of the Concho Valley Council, according to Mr. Robert McNeil, waterfront director from Uvalde.

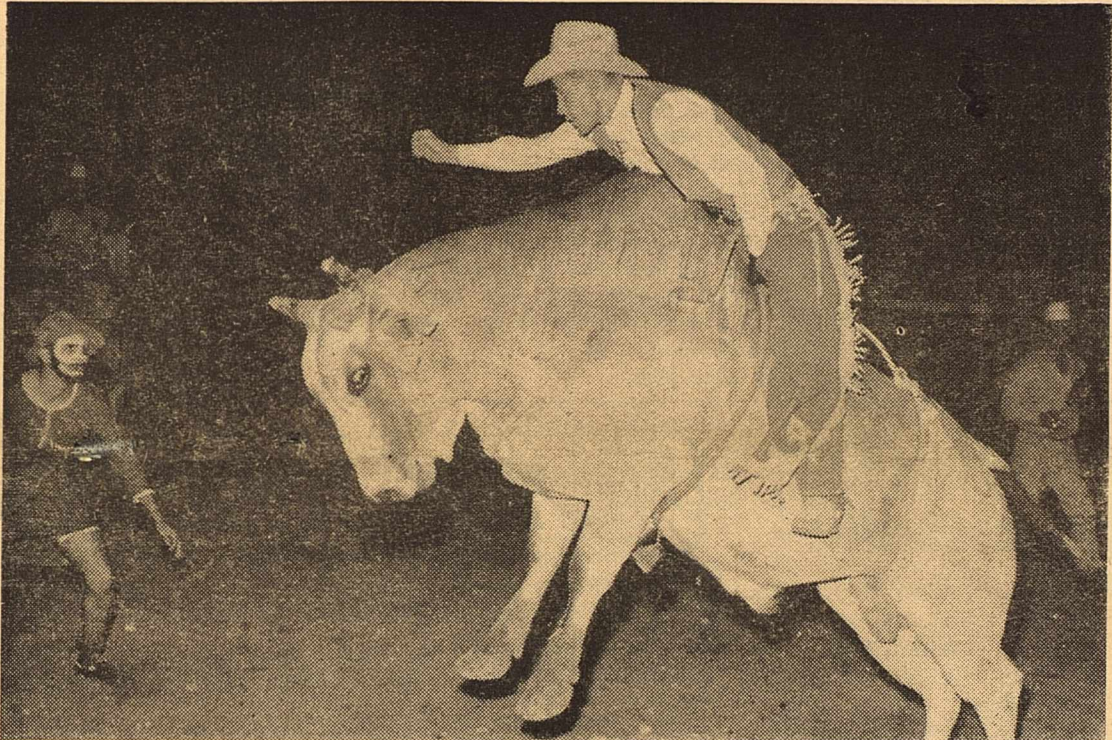

To qualify for the Scout lifeguard emblem, a Scout must hold swimming and rowing merit badges, the lifesaving merit badge or Red Cross junior or senior life saving certificate, instruct one Scout for 3 hours in swimming or an aquatic merit badge, and swim 1/4 mile.

The Scout must also demonstrate water rescue methods by accurately throwing a 15-inch ring buoy, act as a coxswain of a lifeboat and make a "rescue" and demonstrate water rescue by entering the water feetfirst, swimming 30 feet, properly rescuing a "victim", and towing him to shore.

Other aquatic merit badges earned by great numbers of Scouts during this summer's camps were lifesaving merit badges, 139; swimming merit badges, 298; canoeing merit badges, 112; and rowing merit badges, 58.

In addition, 79 Scouts were awarded the mile swim badge for swimming one mile under conditions and at the time given by the waterfront director.

Camp Sol Mayer, 3 miles from Fort McKavett, opened on May 29 and operated for four 1 week periods during which time 624 Scouts, 10 Explorers and 62 Leaders enjoyed the program. At Camp Fawcett, one mile North of Barksdale, 395 Scouts, and 28 Leaders attended this unique experience.

Angermiller, Black Honored Over 160 At Junior Rodeo

Roy Angermiller of Uvalde was named all-around boy and Carla Black of Marfa was named all-around girl at the Seventh Annual Junior Rodeo last week.

One hundred and sixty-three contestants turned out for the event, with 20 entering from Sonora. One official said that local support in helping put the rodeo over left much to be desired in the way of audiences and workers.

The event, sponsored by the Sonora Park Association, is approved by the American Junior Rodeo Association, and draws contestants from over the southwest. Nine of

this year's entrants were from New Mexico.

Winners were as follows: Pole Bending, Girls 12 and under—Carla Black, Tiada Sharp, Marien Sharp

Barrel Racing, Girls 12 and under—Ann Miller, Carla Black, Kerry Redden

Break-Away Roping, Girls 12 and under—Janet Stover, Marien Sharp, Terry Lewis

Pole Bending, Girls 13-15—Debbie Furguson, Kay Cooke, Kay Fisher

Barrel Racing, Girls 13-15—Debbie Furguson, Jana Jackson, Agatha Johnson

MORE AMERICANS TO VACATION BY CAR

More Americans will vacation by car this year than ever before. Many older citizens will be among these travelers.

Research done in connection with the recent national driving test indicates that many drivers need to brush up on their driving skills. Additionally, older citizens, especially, will want to check up on these safe-driving points:

1. With the aid of a road map, plan the route you will take by dividing the distance into even periods of driving. Outline rest stops, scenic points, and overnight lodging to provide variety in each day's travel.
2. Allow plenty of driving time. Schedule arrival in major cities to avoid rush hour traffic.
3. More people travel on weekends than during the week. Plan your long trips during the week, and schedule weekends for visiting.
4. Summer means that more vacationers will be

traveling. When possible, plan trips before the close of school in the spring and after the start of school in the fall.

5. To reduce eyestrain, wear sunglasses for daytime driving and keep night driving to a minimum.

6. All stopping, passing and turning distances are more difficult to judge after dark. Plan most of the driving during the daylight hours.

Research indicates that many medicines can affect the way a driver handles the wheel. Certain drugs such as antihistamines, cold tablets, and sedatives may dull your reflexes or impair your coordination.

Tranquilizing drugs can cloud your judgment and interfere with your driving skills. Stimulants may cause undue nervousness. Consult your doctor about side effects of any drug he prescribes. Don't drive until you know that the drugs you take won't affect your driving skill.

FAMILY POT LUCK

BY HELEN MALE
Feminine Touches
When the "girls" come over, they appreciate those dainty, thoughtful touches you've added to food.

There'll be oh's and ah's if you serve candied ginger with clove-studded lemon slices for tea.

Artichokes are a fancy item but they go further in a salad if the canned hearts are halved and placed on a bed of watercress, garnished with flecks of pimiento in Italian dressing.

Squares of angle food cake can be topped with a spoonful of instant lemon pudding, then a fluff of whipped cream and whole, sugared strawberries.

Fresh golden touch is provided green vegetable salads with rice or sieved hard-cooked eggs.

Meringues are easy to make, so long as you have a slow oven. Do this the day before, then serve with ice cream and fresh peach sauce.

- Helen's Favorite:
Cheese Rice (6 servings)
3 cups water
1 tablespoon butter
1 teaspoon salt
1 1/2 cups uncooked rice
1/2 pound shredded American cheese
2 tablespoons finely chopped onion
1 teaspoon prepared mustard
Bring water to a boil; add butter, salt and rice. Reduce heat and cook slowly for 25 minutes or until tender. Stir in cheese, onion and mustard. This is delicious with Shrimp Creole.

DEVIL'S RIVER PHILOSOPHER SEZ:

Russian Farmers Use Students

Editor's note: The Devil's River Philosopher on his bitterweed ranch on Dry Devil's River discusses a subject he's an authority on—laziness.

Dear editor:
According to an article I read buried under an ad on page 19 of a newspaper I found out here yesterday afternoon, there may be more human nature in Russia than we'd figured.

This article reported that Russian officials in Moscow are complaining because Russian farmers are lazy. They said here's what they do: they wait till about a month before the first freeze is due in the fall, then send out an emergency call for university students to be sent out to help dig their potatoes before the ground freezes.

Sure enough, knowing the potatoes are needed, Moscow officials take thousands of students out of classes for a month, the spuds are dug and the crop saved.

The first time this happened, the article said, it made sense, but the officials are beginning to wonder why it has to happen year after year.

I can tell them. Those Russian farmers have figured, why dig the potatoes when the students will do it for us? Especially since those potatoes belong to the state in the first place.

Russian officials can call it laziness if they want to, but it looks different to me. In fact, if I could call up Governor Connally and ask him to send me a batch of University of Texas students to help me get in a crop free of charge, you know I'd do it, and if it worked once, the governor could expect a call from me every year from then on.

The Russian officials argue this interrupts the students' class work and it ought to be stopped. I have a notion that if the students themselves can't catch on to this on their own, they've been studying too many books and not enough human nature. The books probably say the farmers should joyously dig the potatoes themselves, but the farmers have an advantage. They haven't read the books. But they have dug potatoes.

Yours faithfully,
J. A.

Trans-Pecos Area Antelope Decline

A possible slight decrease in Trans-Pecos adult antelope was indicated by the annual aerial census by the Texas Parks and Wildlife Department.

The loss in the adult population was about four percent as compared to last year. Bucks showed a slight gain but this was more than offset by the count of doe. The fawn crop was 44 percent this year and 51 percent in 1965, an unexplained decrease.

The total Trans-Pecos antelope population was set at 5,630 as contrasted with the 1965 count of 6,259. The 1966 adult population was placed at 4,423 and that of last year 4,694.

The 1965 antelope season for "buck antelope only" west of the Pecos yielded a harvest of 449.

Refrigerators Claim 17 Annually

When discarded and abandoned, an old refrigerator, ice box, or home freezer may easily become a death trap—as lethal as a gas chamber—a national industry association warns.

Old, used refrigerators—often unwittingly abandoned and discarded in basements, on back porches, and in garages and junk yards—have snuffed out the lives of 326 children between the ages of two and twelve in the United States during the past 19 years—an average of 17 children annually—statistics compiled by the Refrigeration Service Engineers Society indicate.

Frank Adkins is cooperating with other members of the organization throughout the country offering without charge to remove the doors of old refrigerators no longer being used.

Willis Stafford, executive manager of this world-wide, nonprofit, educational organization with headquarters in Chicago, Ill., says that these death traps and their resultant tragedies could easily have been eliminated or avoided "if only the doors had been permanently removed when the units were discarded and abandoned."

The design of most old-style refrigerators, including many still in current use in homes throughout the country, Stafford explains, is such that "an airtight seal results when the door is closed. Hence, a child can suffocate in 15 to 30 minutes."

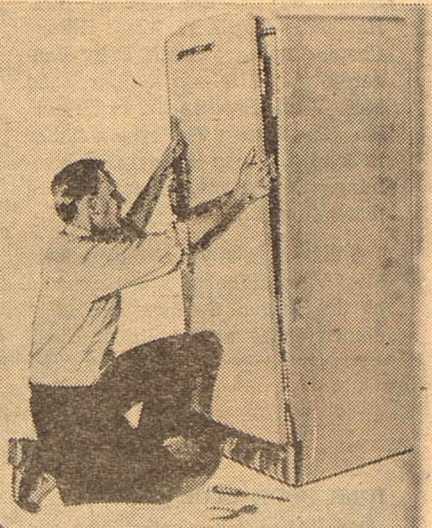

When a refrigerator or ice box has been discarded and abandoned, the refrigeration service association official points out, it becomes a potential death trap that all too frequently holds a fatal attraction and fascination for children.

Why? "Because, he says, "it offers a perfect hiding place for youngsters when playing hide-and-seek or provides a wonderful 'jail' for locking up the 'bad guys' when playing cops and robbers. A child can hide or be locked up by his captors and never released until someone opens the door from the outside—and then it may be too late."

It is this factor, Stafford says, that "so easily, so quickly, so innocently transforms the old, discarded refrigerator into a death chamber."

Today, all newly manufactured refrigerators are required by law to be equipped with an inside safety release, according to Stafford. Nevertheless, it is estimated that more than 1,000,000 old units not equipped

with such a safety device are retired from service annually and are potential death traps.

They can be eliminated only if homeowners and others in every community make certain that such refrigerators are made harmless by removing the door.

Throughout the country, Stafford war against "the menace of the said, R.S.E.S. members in 250 cit-

ies will gladly perform this service without cost, in the interest of saving a child's life, for anyone who encounters trouble removing the door from his old refrigerator or freezer.

National Farm Safety Week Proclaimed To Stop Accidents

While farmers and ranchers have achieved more progress than in all previous history, there is still one area of farm and ranch life that needs improvement.

There are still too many farm and ranch accidents, according to County Agent D. C. Langford. To call attention to the need for preventing accidents, the week of July 24 has been proclaimed National Farm Safety Week.

One accident is too many, and we wish we could stop it there but the problem is still around, the agent said. In 1964, for example, farm-resident accidents accounted for 8,300 deaths and 760,000 disabling injuries in the nation. And 1,900 of the deaths were accidents and 2,500 work accidents, he said.

NATIONAL FARM SAFETY WEEK
JULY 24-30, 1966

YOU CAN'T ALWAYS PREDICT ACCIDENTS

but you CAN prevent them

The U. S. Department of Agriculture and the National Safety Council co-sponsor the observance of National Farm Safety Week nationally. The Texas Farm & Ranch Safety Council, Agricultural Extension Service, farm organizations, the farm press, radio, television, and other groups cooperate with the national sponsors on the state level in an effort to make rural residents aware of what they can do to prevent farm and home accidents.

Careful With Fires, Parks Department Warns Outdoorsmen

The Texas Parks and Wildlife Department asked campers, fishermen and others now patronizing the outdoor recreational season to be careful to preserve the beauties of nature.

Spelled out that means "Be careful with fire."

The tremendously heavy vegetation growth during the wet spring and early summer is beginning to mature.

This means converting vast areas into dry grassy tracts, highly susceptible to fire.

The mid-summer sun, intensified by the drying winds, creates a definite fire hazard.

As part of the constant effort to prevent fires, all recreational and scenic state parks permit fires only in designated places.

Even with this state-wide precaution, fires sometime break out and spread devastation. Two years ago a trash fire got into dry grass at one northeast Texas state park and burned some trees so severely that a major transplant program had to be authorized.

Wildlife authorities stress the danger to habitat. Both animals and birds are particularly vulnerable to fire hazards, particularly this time of the year, they said.

The greatest individual threat comes from careless smoking, even the mere flicking of a lighted cigarette from an automobile. But campers and picnickers should be on the alert to be certain that the most innocent fire in the open is completely extinguished before departure.

Cooke, VanderStucken Married June 27

Mr. and Mrs. Eugene E. Husting of Locust Valley and Boston have announced the marriage of Mrs. Husting's daughter, Miss Hillary Chapin Cooke, to Emile Felix VanderStucken III, son of Mr. and Mrs. VanderStucken Jr. of Princeton, New Jersey. The bride's father is John J. Cooke of Jackson, Wyoming. The marriage took place there June 27.

A debutante of the 1963-64 season, Mrs. VanderStucken was presented at the Boston Cotillion and at a dinner dance at the Piping Rock

club there. She is a graduate of the Beaver Country Day School and attended Garland Junior College. The bride is a member of the Vincent Club and the Junior League of Boston.

Mr. VanderStucken attended Blair Academy and was graduated from George Washington University. He will attend the Air Force Officers' Training School and will enter the services in September.

Mrs. VanderStucken visited Mr. and Mrs. J. M. VanderStucken and Jan in Sonora and San Angelo in the early summer.

GREEN NEWS

by Lunetta Morgan

Do you know what friends are? Maybe they are people who you talk with and pass the time of day everyday, or they may be someone you see once a month, or they may be people you see only every now and then. But they are people who won't talk to you about leaving, without tears coming to their eyes. Or they are small children, bouncing up to you and asking if you are leaving, when you answer "yes", they look you straight in the eyes and say "Oh" and slowly walk away. These are friends, and we have found we have quite a few.

Ed and Frances Grobe have been on their vacation. Substituting for Ed was Loran Halbert of Crane, both on the job and on the golf course. Loran lived in Sonora back in the late forties. Welcome back.

The James Trainers have had as their guests the L. M. Rouches of Arizona. L. M. says he is only a beginner at golf but he was giving the Sonora boys a lesson. A "41" does not sound like a beginner to us.

We received a card from the J. W. Nevilles who are vacationing in Colorado. Jo said J beat her but at least she didn't hit any pine trees. Wonder what she meant?

After the tournament Sunday, the "stay-onners" were entertained by music. Betty Jones brought a few boys out with their musical instruments and they rehearsed a few numbers. Thanks Betty.

Overheard after the tournament Sunday: There was only one true ABCD team. It consisted of Archer, Bishop, Cahill and Davis.

Mr. and Mrs. Dick Preston of Eldorado played golf Monday. They said after playing on the short course in Eldorado, this one was a booger.

Birthday Greetings to Peggy Trainer, Hut Moore and Linda Hamilton.

The Club has purchased a new machine. It is called a "Top Dresser". Hope it improves someone's game.

Two spectators Sunday were Vicki and Charlie Shannon.

Another new golfer is Cindy Hopkins. She seemed to be holding

her own with the boys. Stay with them Cindy. You maybe able to beat them one of these days.

The Wilfred Bergers have returned from Houston where Wilfred has been receiving medical treatment. Glad you all are back.

The Bill Tittles were golfing Sunday. Bill has a new job which may interfere with his golfing. He has been appointed on the Draft Board. Better hide your draft age boys.

The Buddy Browns were in Kerrville this week-end and the Caverns were in Del Rio. Missed you all Sunday.

Bud Smith is on the mend. Heard he has tried to challenge the "easy" golfers to a game. Somebody had better watch out. Bud may have just faked his accident so he could drag in a few suckers.

I hope I haven't forgotten anything. I lost my notes and am disorganized to boot, so please be a little forgiving.

SCORPIONS ARE NEW MUSICAL GROUP

The Scorpions, a newly formed band consisting of Ed Lee Renfro, Bert Bloodworth, Bill Green, and Taylor Jones, made their initial appearance at the Sonora Golf Club Sunday. Oscar Galindo and Deral Moody have been working with the group for the last two months teaching drum and guitar techniques. The Scorpions will play at the Chuck Wagon Inn Saturday between 7 and 8 p.m.

Mr. and Mrs. Sam E. Jones Jr. and Taylor recently visited with the brother and relatives of the late H. L. Taylor, Mr. and Mrs. Horace Taylor of Mexia. They also visited Mr. and Mrs. Fred Owens and family and Mrs. J. J. Taylor of Teague. Mr. and Mrs. Horace Taylor will be the guests of the Sam Joneses in August while plans are made for the Taylor reunion which will be held in Sonora.

Mrs. James Stewart left Monday for a two-week visit with her mother, Mrs. E. B. Hayes, in Whitney.

A Parson's Eye View of Sonora

by Rev. Ross T. Welch

This is an age of wheels. Almost forgotten is the art of walking for pleasure's sake. I am grateful for a town that affords many pleasant paths for leisurely walking.

When I want exercise, I go to the track, but that is for another purpose, when I want serenity, I like to walk the tree shaded streets.

If there are any kindred spirits, let me suggest that you walk up the hill on the east side of the Courthouse and drop in at the St. John's Episcopal Church. I believe it is kept open for meditation. It is a beautiful sanctuary. If you will enter that church reverently and sit or kneel for a few moments,

worship will be a natural consequence, and you will rise a better person.

Take a close look at Dr. and Mrs. Howell's neatly kept yard as you pass by, and notice how many persons along the way are designing their yards and patios for outdoor enjoyment.

Beauty is not easily come by in West Texas. I take it back. We have the beauty of the wide open spaces, the unmatched beauty of the sunrise and sunset where you see the whole expanse of the heavens, the firmament at night has breath-taking beauty. The thorny cactus has colorful and beautiful flowers.

What we meant to say is it is difficult to keep the beauty of green trees and flowers and shrubs through long dry summers. But it is well worth the effort—and we are proud that so many Sonorans feel the same way.

If your TV is acting up a bit these days, it may be due to the work of improvement that is under way. Edwin Sawyer reported before he left that reception in the area will be greatly improved due to the work that is being done. Also some new stations will be added for your listening pleasure.

When the summer TV schedule shows only re-runs—it is positively amazing how easy it is to get along without TV, but when the cold winter evenings come again, we'll enjoy better reception.

Thanks to Jimmy H. Harris and Stockmen's Feed Store for spraying the pecan trees at the Parsonage. The white mucus-like substance on the limbs seems to be drying up. We call no names but, Jimmy, are you forgetting that a lady higher up the hill asked you to spray TWICE?

Any furrier knows it is difficult to try to make a rabbit or squirrel skin look like mink. If mink were common and plentiful and rabbits and squirrels were rare and uncommon, do you suppose they would be reversing the process?

When country boys go to the big cities they learn in a hurry but it is sometimes costly. When the President of the Sonora Lions Club went to New York to the International Convention of Lions, he sent three of his wife's dresses out to be cleaned and a bag of laundry, without asking the price. His normally ruddy complexion blanched several shades whiter, when the clean things were returned with a bill for slightly over \$30.00.

(Local laundries and cleaning establishments will please disregard this story altogether.)

The trouble with opening the other fellow's mail is that you are likely—sooner or later—to open a Pandora's Box.

My chief vices in the community where I last served were bowling and playing Forty-two. I did not indulge either to excess; but here I have not had occasion to touch either a bowling ball or a domino. Does no one here indulge these vices?

How can Albert Ward always sound so cheerful—broadcasting from that isolated little cabin out there on a dry hillside?

More than fifty children enrolled for the Daily Vacation Church School Monday. The Pre-school children and first three grades are meeting at the Methodist Education Building. The fourth, fifth and sixth graders, and there is a good group of the latter, meet at the St. John's Episcopal Parish House.

Following next week's rehearsal, the Methodist Choir will take an August vacation. We expect them back, 'loud and clear'—come September.

Miss Annela Stites has been to San Antonio for a check-up at the Nix Hospital. Her mother was expecting her home Tuesday.

Some dogs apparently killed a pen of sheep at the stock yards, the other night. We wonder what makes a dog turn killer and destroy other animals, when it is obviously not to satisfy his hunger.

But we also wonder what makes a human killer destroy eight young nurses. Civilization is sometimes a pretty thin veneer.

It is a shame for the Sonora Park Association to have to take such a loss on the Junior Rodeo. The youngsters put on a good show.

We have been interested in the current discussion in our neighboring town as to whether they want to be known as citizens of Eldorado or El Dorado. In the Hebrew, the two letters El made reference to deity—and many of their names incorporated the syllable in their spelling—IsraEL, DaniEL, SamuEL, BethEL, etc.

In Spanish, of course 'el' is the article 'the', and El Dorado literally means, "the gilded" or "the golden"—anything surrounded by great riches. We notice the woolen mills have divided the title so it is El Dorado—and that is the largest tourist attraction they have.

Letter to the Editor

The Devil's River News
Sonora, Texas
Dear Editor:

My family and I were in Sonora from College Station, over the July 4th holiday and were expecting a very nice holiday until it was marred by someone's warped "prank"? My parents were keeping our 6 month old registered beagle for us until we were able to find a suitable home with a fenced-in back yard, such as my parents have. From the reports I received from my parents and their neighbors our little puppy never barked at all except to chase cats, etc. from the yard or as my father told me, on one instance to bay a rattlesnake that had gotten in their garage.

Our puppy was never let out of the fence, except maybe by accident, so therefore, never had the chance to disturb anyone or anyone's property. But someone decided to take it in their own hands and rid our neighborhood of several of its cherished pets, meaning that our dog wasn't the only one poisoned. We still don't know if our puppy got the poison inside or outside of the fence, but the fact remains that someone was throwing poison and if that person did happen to throw it in the yard, he or she could have very easily been called up on a manslaughter charge—for you see I have a small son who was running and playing with that dog not fifteen minutes before she ate that poison, and my son is still at the age where anything and everything goes into his mouth.

So to sum this up, I want to ask if the citizens of Sonora, which I still consider my home town, are going to sit back and let whomever this is throw poison until some child—maybe your own—will get the dose intended for your dog. It makes me shudder to think how close it was to being my son.

Sincerely yours,
Mrs. Annette Archer

The Devil's River News
Sonora, Texas

Dear Mr. and Mrs. King,
I just couldn't resist writing a note to you concerning the Parson's article in June 30 Devil's River News. His comment about some people not knowing where Sterling County was made me think of what happened to Sam in Coleman when we were home from Afghanistan on vacation in 1964—Afghanistan being in Asia with Russia to the north, Iran to the west, Pakistan to the east and south.

Sam dropped into a local barber shop in Coleman to get his hair cut when we were visiting Sam's sister and husband. The barber immediately inquired if Sam were a stranger in town. Sam replied that he had lived and worked in Coleman in 1935 so he knew the town. The barber then asked where we were living now and Sam replied, "In Afghanistan". Before he could say more the barber said, "Is that right? Now what part of Texas is that in?"

Sincerely,
Mrs. Sam Logan

NEW EQUIPMENT for better telephone service in Sonora is being worked on here by Monte Dillard and Bill Green in the new building next to General Telephone Company building. The new equipment will provide better service and will eventually establish a Direct Dialing System in Sonora.

Card of Thanks

We hope no one of you suddenly becomes ill and has to be hospitalized in a strange town; but if you should be, we pray God will let it happen in a place where the people are kind, friendly and sincere as are the ones in Sonora.

Your cards, flowers, visits, hospitality and interest have made us love Sonora as a second home. As our Mother says, we left our hearts, not in San Francisco, but in Sonora.

Our thanks go to the nurses and staff of Lillian B. Hudspeth Memorial Hospital, members of the First Methodist Church, the Rev. Rodney Dowdy, and the many friends we have made here.

Our special thanks go to Dr. Charles F. Browne for his faithfulness and long hours, to Rev. and Mrs. Ross T. Welch for their prayers and hospitality and to Mrs. Sydonia Wilson who helped so much when illness besieged us.

The Penalty

"The Lord shall judge His People."
— Deuteronomy 32:36

For every crime against the state, there is an established penalty. In the area of man's relation with God there is, as the Apostle Paul reminded, "a certain fearful looking for of judgement."

If we are responsible individuals, whether teenage or adult, we can face a certain temptation or challenge with an awareness of any "right" or "wrong" involved therein. More often than not, the "right" way is far from easiest. At least, this is true for the moment. A wrong word or a wrong act may take us out of a difficult situation or bring some temporary reward or profit. But we are ever aware of judgement. If it does not come in the due course of events, our conscience periodically reminds us that it is waiting somewhere in the days of tomorrow.

We cannot be perfect. We are human. Yet we can strive to turn away from that which is wrong and, with conscience as a guide, strive to do that which is right.

Rate Change in Automobile Insurance To Cost Sutton Countians \$4 More

The average motorist in Sutton County will pay \$4 more for automobile insurance if the proposed change in rates is made by the State Board of Insurance.

Present cost of insurance on a new Ford or Chevrolet private passenger car driven to and from work and not driven by a male under 25 years of age is \$138. The new cost would be \$142. This includes basic liability coverage of \$10,000 for injury or loss of life of one person, \$20,000 for two, and \$5,000 property damage; \$100 deductible collision; and full coverage comprehensive insurance.

Under the new rates, motorists would pay \$1 more for bodily injury and property damage liability and \$5 more for comprehensive. But the cost of \$100 deductible collision would be reduced \$2.

Cost for the same coverage but with \$50 deductible collision would be increased \$4 also, from \$151 to \$155.

Other types and older cars would have different rates. Texas has 26 rating territories and eight automobile classifications. The cost estimates given are for cars in classification 1B, which includes about half of the private automobiles in Texas.

For cars in this classification and insured under \$100 deductible collision policies, insurance would cost less in nine territories and remain unchanged in two. Costs for \$50 deductible policies would be lowered in seven territories and unchanged in one.

With the rate increases, Texas would rank about 90th among the states in the cost of automobile insurance to policyholders.

Garner Campers Get Ring-Side Seat Of Flash Flood

Some state parks have everything even to a veritable Hollywood staged flash flood.

That would be Garner State Park which didn't need the latest embellishment for its reputation as one of the favorite places for people to go and have fun.

The latest episode, with a happy beginning and end, reflects modern teamwork of state agencies, according to Donald Oliver, regional park ranger temporarily handling Garner affairs.

On a weekend morning the State Highway Department alerted Oliver that heavy rains in the headquarters of the Frio river, which roams benignly through the wooded park, would cause a substantial rise in the river.

Oliver noted the dripping trees from a light shower, observed the tranquil clearwater stream and the happy campers along its bank.

Then he did a massive double take. The friendly advisers had added that the rise would be six feet and the time would be 2 p.m. The ranger and his staff notified the unbelieving guests they had five hours to quietly fold their tents, pack up their equipment, move back up on higher ground and enjoy the water show.

Garner, the first state park ever to approach the 1,000,000 annual visitation mark, had its usual thousands. And they joined the river bank evacuees, all very skeptical, what with the sun shining and the birds singing and the air very fresh from the dainty shower.

But the highway folks had calculated well what would happen when up to seven inches of rain cascaded down the barren canyons. Almost on the dot at 2 p.m. here came a modest wall of water, about like a boat wake, said Oliver. Slowly the stream climbed six feet, covering the bank camp area. Nobody even got their feet wet. Soon the river was blue and clear again, back where it had been before the deluge. And the fishermen were smelling up the shaded area frying catfish that hadn't bitten good since the spring rains.
