One of the nicer aspects of the newspaper business is that it allows the newspaperman to share in the events important to the lives of others. He gets to see how certain occurrences affect others; essentially his main business is a study of local history. There are those events which happen though, that are not pleasant and that must also be shared which takes away some of the "niceness".

One pleasant occurrence last week happened during the processing of some wedding pictures for a local family. As the pictures developed the whole story of the lives of those people unrolled. The expressions on the faces of the bride and bridegroom before the wedding told one story; a story of fear or perhaps apprehension while during the ceremony the faces were quite different. Most of the family was gathered near the altar and the faces showed serenity, restfulness and contentment.

After the ceremony happiness seemed to be the most prevalent with the exception of the most powerful picture of the series; the father of the bride embracing his daughter. He was a short man; a working man; with weathered features and dressed in a Sunday suit. It was impossible not to feel strongly for him because it was obvious he felt very strongly about his daughter on the biggest day of her life. It was a combination of a happiness and sadness.

The reception pictures all reflected happiness; the strong emotional feelings had been worked out and everyone was joyful. The families of the young married couple were smiling, the bride was smiling, the bridegroom was smiling, everyone was happy. I found that I was smiling too.

EDWIN SAWYER, W. B. McMillan, Joe B. Ross, and E. B. Keng, attended the annual meeting of Texas Soil and Water Conservation District Supervisors in Austin. Keng is a Soil Conservation Service technician in Sutton County.

New Supervisors Attended State Meet

Edwin Sawyer, W. B. McMillan, and Joe B. Ross attended the 26th annual meeting of Texas Soil and Water Conservation District Supervisors at Austin. They are supervisors of the local Edwards Plateau Soil and Water Conservation District. E. B. Keng, Work Unit Conservationist, Soil Conservation Service, and Mrs. Keng; Mrs. Edwin Sawyer, Mrs. W. B. McMillan, and Mrs. Joe B. Ross also attended as guests of the conservation district.

Governor John Connally highlighted the state-wide meeting by speaking at the banquet Wednesday night, October 12.

"Today's Challenge: To Meet Tomorrow's Needs" was the theme of the convention.

Supervisors, who are local landowners elected to govern local conservation districts, attended committee meetings and other business sessions. They are strengthening their soil and water conservation

efforts to help rural and town people.

Other distinguished speakers included C. G. Scuggs, Vice-President and Editor, Progressive Farmer; John E. Hutchinson, Director, Texas Agricultural Extension Service; A. E. Cascino, Group Vice-President-Agriculture, International Mine and Chemical Corp., Skokie, Illinois; and Sam Studebaker, President, National Association of Soil and Water Conservation Districts, Tipp City, Ohio.

Highly Ranked Devils Defeated By Powerhouse Broncos 28-14

Beneath the clouds of an approaching norther the Sonora Broncos swept past the highly-touted Rankin Red Devils 28-14 for their third conference and fifth win of the season, Friday in Rankin.

On the first play from scrimmage in the action-packed first quarter Ed Lee Renfro took a hand-off from quarterback Laney Cook and raced 87 yards for a TD. The extra point kick by Cook was good to give the Broncos a 7-0 lead within the first 30 seconds of the game.

Rankin got back into the ball game on a 60-yard drive after the following kickoff. Quarterback Billy Brown alternated backs Wayne Hale and Gary Upham through the line behind their twin powerhouse guards, Ronald and Donald Ivey. Upham finally punched the ball

over from the 5-yard line. Joe Clark made the extra point to tie the game up 7-7.

After the Red Devil kickoff Laney Cook connected with an aerial to Ernest Barrera that went 60 yards for the second Bronco score. Cook's kick was again successful to bring the score to 14-7. The play was on the second play from scrimmage after the kickoff. Quarterback Laney Cook had moved the Bronco team to two touchdowns on only three plays from scrimmage.

The half ended with no scores in the second quarter as both teams tightened up their defenses.

Another Bronco score came in the third quarter when Laney Cook connected on a pass from his own end zone to Renfro, the play covering over 100 yards. The strength of the Bronco passing game became apparent on the extra point play. On the first try the Broncos were penalized 15 yards. On the second play from the 18-yard line Laney Cook passed to end Nino Perez for a two-pointer to raise the score to 22-7.

Powerful Rankin came back with

a 65-yard drive to the Sonora end zone with Gary Upham moving the ball in for the score. Joe Clark kicked the point after touchdown to bring the score to 22-14.

The last score of the game came after a long drive with Renfro moving to the end zone through the middle of the Rankin line completely untouched. The two-point conversion failed with 43 seconds left in the game.

The final score stood at 28-14 to

give the Broncos a win over their highest ranked opponents. This week Sonora meets Eldorado at Bronco Stadium at 7:30 p.m., Friday.

Junior High and "B" The Junior High and "B" teams won their games and the seventh grade tied with their adversaries from Eldorado Thursday.

Scores were 6-0 in the Junior High game and 6-6 in the seventh grade conflict.

In "B" team action, the Broncos defeated the Eldorado Eagles 32-13. Bronco tallies came in each quarter with two touchdowns coming in the second quarter. Eldorado scores were made in the second quarter and fourth quarter.

The first Bronco score came on a run early in the first quarter with the second touchdown coming on a run by Thurston McCutchen with the extra point being good to give Sonora a score of 14-0.

With one-minute left in the half, Sonora broke loose for another score on a 55-yard run. With the score 20-0 the extra point failed.

The "B" team defense, rushing Eldorado punters, decided the next Bronco score. Twice the Broncos forced the Eagles to kick short which gave the Broncos the ball deep in Eldorado territory. On a series of short gainers the Broncos pushed the ball into the end zone.

One of the best executed scoring plays of the game was the final Bronco score. Quarterback, Thurston McCutchen, threw a long pass to end, Dennis Schmidt which covered 60-yards. Schmidt reversed his field at the Eldorado 30-yard line and moved to the end zone without being touched by an Eagle defender.

Timberlake's to Speak at St. John's

ROLAND TIMBERLAKE

Guest speakers at the October Parish dinner of St. John's Episcopal Church will be Mr. and Mrs. Roland Timberlake of Victoria. The dinner will be held at 6 p.m. in

the Parish Hall Sunday, October 23.

The subject of their talk will be related to stewardship within the church.

Mr. Timberlake is a long-time resident of Victoria, graduate of Victoria schools and the University of Texas. He holds a bachelors degree in business administration. Until 1958 he served in the navy as an aviator aboard the aircraft carrier, U.S. Princeton.

As a church leader, Timberlake has served as Sunday school superintendent, layreader, vestryman and men's club treasurer. As a youth he was an acolyte and president of the Acolytes of West Texas. He and his father, R. H. Timberlake, own and operate Timberlake Motor Company in Victoria. He is also a member of various civic organizations including the Lion's Club, Victoria Jaycees, Salvation Army and the Red Cross.

Timberlake's wife, Alice Jean, is a native of Victoria and is a graduate of the University of Texas. She has a degree in business education.

She has served as a Sunday school teacher, is presently serving as the President of the Women of the Church and is a member of several civic organizations.

The Timberlakes have three children, ages ten, eight and six years.

Summer Fun Results In "Catastrophe"

Children and their summer fun can often result in alarm for adults... fire alarm, that is.

Sonorans who wondered where the fire was Sunday morning can ask the Rev. Rollin Polk. He said that some of the children who attended Sunday school during the summer had left some crayons in one of the gas heaters in the Sunday School building.

When the heaters were turned on Sunday morning the crayons melted and began to smoulder. By the time Rev. Polk and some of the other church leaders found that the smoke was not serious and there was no danger of fire they calmed down.

There was, however, a break in communications. It seems as though not everyone got the word that the danger was over.

One of the members called the fire department leaving Rev. Polk to explain about the "catastrophe".

According to Polk the firemen were very understanding about the whole matter.

Horse Short Course Scheduled At A&M

Special entertainment and demonstrations will add a new dimension to Texas A&M University's annual Horse Short Course November 6-8.

Program Chairman B. F. Yeates, Extension Service animal husbandman, said the overall session is still in the planning stage, but tentative plans for the extra attractions all for a Shetland show, polo game, and performance demonstrations with a wide variety of horse types.

Demonstrations will include cutting horses, Shetland harness, Arabian native costumes, polo techniques, Tennessee Walkers, and gaited and jumping horses.

Topics of the course will be ethics of the horse industry in Texas, subjects in nutrition and reproduction and health programs for horses.

The short course ends with a question-the-experts session.

Sponsors of the overall event are the Animal Science Department and the College of Veterinary Medicine at A&M.

A Very Sudden Stop . . .

Injured three young men in this one-car accident at 1 a.m. Sunday morning. The collision occurred at the corner of Main Street and U.S. Highway 290 and 277. Injured in the accident were Richard Robledo of Eldorado, Armando Flores and Gilbert Garcia, both of Sonora. Robledo and Flores are in Hudspeith

Hospital with serious head and chest injuries. Garcia was treated for an arm and leg injury and released. The left picture shows the damaged utility pole which was sheared off by the impact and which left the city without electricity for several hours. City watchman, Beal Freeman looks at the damaged late model car.

"If a Child Lives..."

Rarely is someone's writing found worthy of framing in offices for all to see and think about. This honored treatment is being given in a number of California schools to some thoughts by Dorothy Law Nolte.

We believe her eloquent message to both parent and educator deserves consideration in Texas, as well.

Here is her message:

"If a child lives with criticism, he learns to condemn..."

"If a child lives with hostility, he learns to fight..."

"If a child lives with fear, he learns to be apprehensive..."

"If a child lives with ridicule, he learns to be shy..."

"If a child lives with jealousy, he learns what envy is..."

"If a child lives with shame, he learns to feel guilty..."

"If a child lives with encouragement, he learns to be confident..."

"If a child lives with tolerance, he learns to be patient..."

"If a child lives with praise, he learns to be appreciative..."

"If a child lives with approval, he learns to like himself..."

"If a child lives with recognition, he learns to have a goal..."

"If a child lives with sharing, he learns generosity..."

"If a child lives with honesty and fairness, he learns what truth and justice are..."

"If a child lives with security, he learns to have faith in himself and in those about him..."

"If a child lives with friendliness, he learns that the world is a nice place in which to live..."

"If you live with serenity, your child will live with peace of mind."

The truth of these observations, while obvious, are not so easily practiced. They deserve to be placed in a prominent position where they can be read and reread.

DEVIL'S RIVER PHILOSOPHER SEZ:

Fly To Beat The Rush Hour

Editor's note: The Devil's River Philosopher on his bitterweed ranch on Dry Devil's River tackles another problem this week.

Dear editor:

Sitting out here on this bitterweed ranch, sometimes you can get a better view of a problem than the people afflicted by it.

For example take a city problem. I read in an article in a newspaper I borrowed from a neighbor yesterday that city people are having more and more trouble getting from one place in the city to another, it takes them longer to get from the airport to town than the flight took, even in the slack hours.

And at rush hours, when everybody is going to work in the morning or returning in the afternoon, traffic is stacked up so you inch along about half a mile an hour, slower than you could walk.

Of course, I don't guess it ever occurred to them to follow my practice—I don't have a rush hour out here—so I have been giving the problem some thought and I've hit on an idea.

Say a man in New York for example needs to get from one side of the town to the other. If

there's an airport on both sides, he'd save time if he went the other way around. Get in one of those high-speed jets, fly around the world, and come in on the other side.

I don't know why city people haven't thought of this, but you know how people are. They get habit-bound, they get submerged in their problems, and can't see a way out, consequently they continue to bog down.

Eventually, if airplanes keep getting faster and faster, distance is going to be almost eliminated, and finally we'll reach the point where you're not over 15 minutes from any other place on earth, or to put it another way, a man can fly around the world in the same time it takes me right now to sit here and do nothing, and no telling how many gallons of gas I save and I can do it in any kind of weather.

When progress reaches the point where a man can sit still in the same time it takes another man to fly around the world, maybe people will settle down.

Yours faithfully,
J. A.

Prison Rodeo Lists Top Entertainment

"Dizzy" Dean, a member of baseball's Hall of Fame and a popular sportscaster, will make his third annual guest appearance here at the Sunday, October 23 performance of the 35th Annual Texas Prison Rodeo.

Noted as a humorist, Dean, the last major league pitcher to win 30 games in one season, proved his popularity with prison rodeo fans during his last two presentations in the prison stadium.

Candy Barr, first ex-inmate from the Texas prison to perform as a free-world entertainer, will sing and be backed musically by The Frames, an inmate combo composed of Morgan White, Jesse Sheridan, Clarence Evans and Charles Collins.

Another outstanding entertainer to be featured with Dean and Candy Barr will be Leon Adams, whose unique "Roman Style" Brahman bull and horse riding acts caught the imagination of the enthusiastic crowds the past two Sundays.

Fans will also be treated to a number of spectacular rodeo contests highlighting the prison's best cowboys, who throw caution to the

wind in an attempt to win prize money.

One contest that has gained public applause is the Hard Money event. In this thriller, some 90-odd hopeful convicts attempt to remove a sack tied between the horns of a wild Brahman bull within the five-minute time limit. To the winner, this daring feat is worth a \$50 cash prize.

The rodeo begins at 2 p.m. with a pre-rodeo convict musical show scheduled at 1 p.m.

4-H Awards Supper Planned October 22

The annual Sutton County 4-H Achievement Program and supper will be held at the 4-H Center at 6:30 p.m., October 22.

Members and adult leaders will be honored for their accomplishments and contributions to 4-H work during the past year.

Menard County Agricultural Agent, Allen E. Turner, will be the guest speaker with Mark Jacoby, president of the Sutton County 4-H Club acting as master of ceremonies.

A Parson's Eye View of Sonora

By Rev. Ross T. Welch
The spirit of the pioneer woman is still with us, thanks be to God. Our accolade of the week goes to Mrs. J. F. Langford of Bandera, whose temporary address is the Peterson Memorial Hospital, Kerrville, the mother of our Sutton County Agricultural Agent.

Last week Mrs. Langford was driving from her ranch toward Bandera with a hired hand in the jeep with her. A blow-out caused her to lose control of the jeep, it hit a boulder and overturned throwing the man clear, but pinning Mrs. Langford underneath.

We do not know Mrs. Langford's age, but she is old enough to be Clint's mother, yet she remained conscious, and must have suffered intensive pain as one hand was crushed and one arm almost severed. When her hired hand regained consciousness, she directed him where to go to look for help. He went to the house, but returned, reporting no one was there. While he was gone on the second search for help, a neighbor and his wife came along. The man stayed with her and applied a tourniquet while his wife went for the ambulance.

Clint visited his mother over the weekend and reported her chief concern seemed to be to get out and get going again. Every generation has its own hazards. I would nearly as soon take my chances with the Indians as lying under a jeep with my life blood staining the rocks beneath.

Long live the spirit of the Pioneer.

Clean-up projects on the banks of our usually dry river continue as man power and equipment are

available and every section that is cleaned adds to the neatness of our town.

Most of the early settlements were established where they were because of springs or rivers. Some communities have developed their natural resources not only into places of beauty but also into sources of revenue.

Where would New Braunfels be without Landa Park? Starke Park is almost as important to Seguin. And San Antonio has capitalized on its winding river that lends distinction to its down-town area.

We may not have enough water in our stream-bed to make it pay very great dividends, but it does not have to be a weed and brush-grown eye sore.

The Glen Richardson family should have had a very satisfactory football weekend. They were in Rankin Friday night and watched the Devil's River Broncos take the measure of the high flying Red Devils. Saturday they witnessed two big ones: In the afternoon they watched the hapless Longhorns fumble away a game to the Bear-bitten Razorbacks. That night they watched A&M trounce TCU 35-7. You could call that a perfect-Aggie Saturday.

For several years now I have had on the carriage of my typewriter a small magnet about as large around as a shirt button and less than half an inch thick. All that time it has resisted the constant pull of gravity and ignored the jostling of my machine as I type, and clung to its position.

It has little practical value—occasionally I 'pin' a reminder note to my typewriter by means of this magnet, but it has a good therapeutic value, just hanging there.

We studied in physics about how magnets are made. But why doesn't this tiny bit of metal lose its strength? Why does some of its power not go into the larger machine?

But it seems as strong and clings as tightly as when we first placed it there. When I grow tired, I have but to look at this tiny magnet, which never grows tired, even though it has continuously carried its own 'weight' for many years. No human frame that I know anything about is capable of doing anything comparable to this. All of God's creation is wonderfully made—not just man. Do you have a magnet on your typewriter? (not literally).

I've never figured out why women like big hats—(My wife loves them). It seems to me it is like putting too big a frame on a picture. It seems that the hat on a lady's head should emphasize the beauty of her face and hair, just as the frame of a picture should emphasize the importance of the subject matter that is boxed in by the frame. If you over-do the hat, you under-sell the face.

Two churches were represented at the Sunday afternoon consulta-

tion on the unification of the Sunday evening program for junior high and senior high school groups. Those present were in favor of the proposed union, and it will be discussed further at joint meeting of the youth of the First Methodist and Good Shepherd Presbyterian churches, to which others are also invited, Sunday afternoon at 5:30 o'clock at the Methodist Church.

It was agreed that a Youth Council would be formed by electing two representatives from each age group from each church. They, in turn, will elect their officers.

The list of undefeated ball teams is growing smaller in the State of Texas. It is a fine tribute to our coaches and players that Sonora remains in that select group. But then we expect to see Sonora's name there for a good many weeks to come. Some of the younger boys say, "Let's make it years!"

After the Eldorado game Friday night, even if we win it and we are assuming as much, there will be a tendency to let down. We hope the second string will get a lot of playing time in the rest of the district schedule—but we must not let down too much.

Smiths' Entertain Seven-at-Seven Club

Mr. and Mrs. Joe Neil Smith hosted the Seven-At-Seven bridge club at their home Monday, October 17. High guests were John and Della King and high members were Mr. and Mrs. Joe Lane, Bob McMinn and his wife won guest bingo while there was a tie for the club bingo title. The tie was between Mr. and Mrs. James Alexander and Mr. and Mrs. Jamie Parker. The traveling prize went to Mr. and Mrs. Jim Harris. Also present was club member, Mrs. Bill Savell.

Closed Public Roads Denied Maintenance

The Sutton County Commissioners Court adopted a new policy effecting land owners having county roads through their property.

In the commissioners meeting September 12 it was decided to pass an order to the effect that no road maintenance would be done on county roads that had locked gates across them.

County Judge Web Elliott said that it was too much trouble for road crews to find landowners to open their locked gates.

GREEN NEWS

The men's handicap tournament was played as scheduled Sunday afternoon. There weren't very many entrants but those that played had a lot of fun.

For those of you that don't know what a handicap will do for you just look at this—Pete Thompson won medalist! I really don't mean anything personal in that, Pete.

The team of Mickey Powers, Shelley Lowe, Jimmy Powers and Lea Roy Aldwell won first place.

Second place went to John McClelland, Raymond Morgan, Tommie Thorp and Buddy Brown. Pete Thompson, James D. Trainer, Whiskey Hill, Ed Grobe and Hut Moore won third.

GN

Hero Story of the Week:

There was a play-off for first place in the men's tournament—the team of Powers, Powers, Lowe and Aldwell vs. McClelland, Morgan, Thorp and Brown.

The tension was mounting and the gallery gathered to watch the tee-off. All the way down the fairway the two teams were neck and neck and onto the green they were still tied. The putters putted and the crowd turned to go on to number two when somebody remembered—good ole Shelley hadn't finished playing the hole.

There he stood like the Rock of Gibraltar. He gritted his teeth and whammo! He ran in a sixty-five yard putt to break the tie and win the match. (Actually it was only about a ten-foot putt but it was a long way back to the club house and you know how golfers stories go.)

GN

Eulah Newell was out Sunday afternoon visiting with the golfers. She probably heard enough bull to last a lifetime.

GN

I'm sure most of you have already heard, but for those who haven't, Sammie Espy drove the green on number eight the other day. She didn't even three-putt it either.

GN

Another one of our golfers is about down and out. I'm real anxious to see how Jackie Sharp is going to play with that cast on his leg. If anybody has any suggestions I'm sure he'd welcome them.

GN

Among the few women golfers

out Sunday were Lu Morgan, Wilma Friend and Allison Powers. I think the rest of them decided it was too cold to try.

GN

Sammie Espy and Jo Neville won the women's play last Wednesday. They drew for secret partners.

Like Floeing Christmas Trees . . .

...is this relatively new type of brush control taking place on the Hunt Ranch 9 miles out ranch road 1691. Norman Sachnik of Range Engineering Development Corporation, San Angelo, explained that the use of foam to carry chemicals had applications in broadcast and selective (shown here) spraying for both bitterweed and brush. The foam approach allows economical distribution and stays on the plant until chemicals can be absorbed. Reproducing and leaf-manufacturing systems are ef-

fectured as the plant translocates the chemical through its system. Inability of the plant to carry on these two functions leads to its eventual decline and death.

Sachnik's company men and special brush-control vehicle are shown here, but he said that foam-producing units could be attached to present livestock sprayers to convert them for brush control.

Purpose

"With my whole heart I seek thee; let me not wander from thy commandments!" — Psalms 119: 10

How often do you acknowledge God? Once a week? Even less?
A good life is a life of faith day-to-day, sunrise to sunset, twilight until dawn. Let every action of your life be according to God's will. It is not always the easy and popular way; yet in faith there comes a certain wisdom and a lasting belief in God's eternal promise.

Applications Due For Wool Program

Applications for subsidies under the Wool Incentive Program are available in the Agriculture Stabilization & Conservation Committee office.

According to Marie K. Aldwell, office manager, very few unshorn lambs have been brought to the office. They must be brought to the office for audit before an incentive subsidy can be paid. Sales information should be brought in with the application and should reflect the number of sheep and goats that were shorn and the month and year of shearing. Information must also include the amount paid by the rancher for trucking or freight.

The last date for the sale of wool is December 31, 1966 and the last day that producers can file their wool, unshorn lamb and mohair application under the incentive program is January 31, 1967.

Teen Scene

by Margaret Bundy

What on earth is happening to Sonora? Our high school membership is increasing by leaps and bounds. Monday, we welcomed four new students into SHS. Rita Kniffen moved to town from Big Lake. She is a sophomore. Beverly Wagner, Barbara's sister, also arrived Monday. She is also classified as a sophomore, and came from Brownwood. Jessie and Linda Villarrel moved back from Ozona.

Jessie is a senior; Linda is a sophomore.

Joy was present in old SHS Monday morning, but even more joy was evident when the kids found out that Ceewee Johnson had laryngitis (just kidding, Ceewee!).

Susan Prugel was gone Monday, Tuesday, and Wednesday to a Human Engineering Clinic in Fort Worth. She was supposed to find out what she's "going to be" when she graduates.

Dot Cargill spent the weekend in Bryan with some relatives.

Several kids are driving new (or should I say "different") cars. Guy Askew is driving a new car. Louis Wardlaw now has an old army ambulance. Now remember that it isn't a real one when you are driving down the street! No one was really injured!

Say! Did you all hear what Dick Hearn is doing now? He's playing football in Uvalde! Good Luck, Dick!

Several college kids were home this weekend. Among these were Ray Glasscock, Gil Trainer, Jack Hearn, Barbara Trees, Carl Teaff, Joyce Hearn, Mike Wuest, and Dick Hearn (our football hero!).

Bryan Grelle was home again for the weekend.

Janet Johnson was driving Tim Thorp's jeep Sunday. Tim had a flat in Janet's car, and Janet ran out of gas in Tim's jeep!

Yvonne Young went to San Angelo during the weekend.

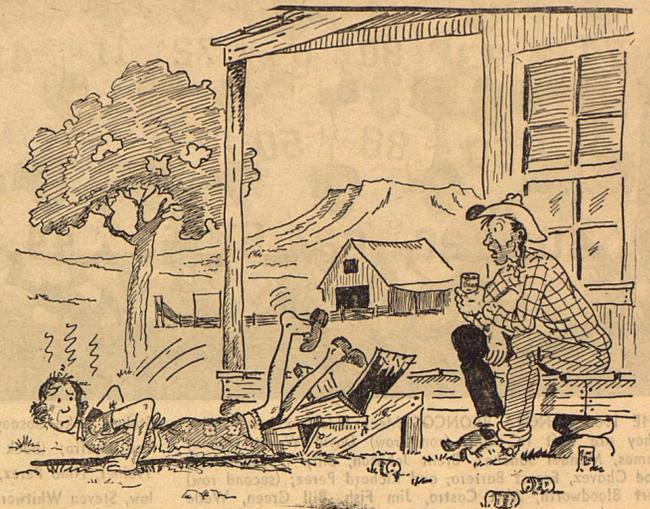

Ruthie Nichols, from Ozona, was in town Saturday night.

The cheerleaders had a picnic on the way to Rankin Friday night. While they were stopped, they all decided to go mountain climbing, so they took off up a big hill. Linda McCutchen, Susan Prugel, Nedra Raye, and Debra Wardlaw made it all the way to the top, but Maxine Davis and Prissy Howell had to quit about half way up!

Friday night marks the date of the annual battle with Eldorado. That should be a good game. Onward, Broncos!!!
