The chances are good that Bobby will get the right answer . . . that is, if Bobby has been given sufficient knowledge to put this problem within the limits of his capability! And don't believe that any of these new electronic brains

are any smarter than Bobby. Before one of them undertakes its task it must be fed every fact essential to arriving at an accurate solution. Many folks worry about the youth of our nation. Too

many boys and girls are coming up with tragically wrong answers to some of life's crucial questions.

But there is nothing inherently wrong with our youth. We simply must provide them, early enough and continuously, with the moral and spiritual understanding which life's problems demand.

The right program of religious training today will make possible right answers tomorrow.

THE CHURCH FOR ALL ALL FOR THE CHURCH
The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
