Editor's Note: The Devil's River Philosopher on his bitterweed ranch attacks the spending problem this week, but not too successfully.

Dear editar:

According to all the newspapers that have turned up on this bitterweed ranch out here during the past two weeks, some members of Congress are 2-5 p.m., Sonora Woman's Club saying we've got to have more spending cuts, we've got to economize shaving the budget is the first order of business.

I have run across one idea which might help in this direction in a small way.

A Harvard University economist has come up with a plan to eliminate subsidies to farmers, now running into millions of dollars a year almost but not quite as much as subsidies to airlines, shipping companies, manufacturers, etc.

He says the government should give marginal farmers a subsidy to leave the farm, and after they all get safely into jobs in town, all subsidies would stop, to them and to the farmers left in the country.

On the other hand, other economists are contending the answer to the crowded conditions in cities government expense.

Don't use two sets of busses. When the government its accurate, small-scale illustrahauls a bus load of farmers to the city, why tions of the prairie dog colonies couldn't the same bus be turned around and used which once blanketed this area to haul city people out into the country? Casualty Livestock Repersenting Southwestern Life Insurance Co. WEB ELLIOTT

The goal of Texas Farm Bureau members in forming their own insurance companies was to provide members with the best insurance available, at the lowest possible cost. This is still true today and now members have all lines of insurance available from their own companies.

The job of providing this service is big today. The people necessary to keep pace with Farm Bureau growth are increasing. The companies now have 41 men around the state to handle the claims of members. As agriculture changed, it became important to have trained specialists to oversee

some of the complex insurance needs of members, we have added 13 Field Underwriters to do this.

The Agency force, full time dedicated men who contact members about their insurance needs, has grown also. These 20 years have seen this group increase from 11 to 275.

The Texas Farm Bureau is a membership organization dedicated to pre-serving the free independent way of life for the Texas farmer and rancher. Southern Farm Bureau Casualty is proud to be a part of this and proud of its 20 years of helping Texas grow through Agriculture.

# Thanks!

We greatly appreciate the many ways in which merchants, ranchers, and individuals worked, bought, promoted and donated toward the 4-H Livestock Show. Your contributions to prize money and the Chinese auction and the buying of stock were what made the show a success. Without the hours of labor you gave and the equipment you loaned the show would not have been possible.

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nahis community and na-tion. (4) For the sake of the Church itself, which needs his moral and ma-terial support. Plan to go to church regularly and read your Bible daily. on earth, but in all of them you will find His teachings, Go to your church next Sunday.
