the Office of Civil Rights that the district was in violation of the 1964 Civil Rights Act.

Pointing out that HEW officials are determined to achieve an arbitrary and fixed racial grouping without regard to the interest of Sonora children, the board labeled most of the allegations not only as erroneous, but obviously designed to force a unitary school system on Sutton County no matter how far children may have

Here is their statement:

The Board of Education of the Sonora Independent School District wishes to make the following statements regarding the report of the HEW team that the local schools are in violation of the Civil Rights Act of 1964.

1. For many years, students attending Elliott School were housed in a new building while those attending Central Elementary were in an old building which was very poorly and improperly lighted and contained rest rooms below ground level such as students at Elliott never had to use. In any case, no two elementary schools in any town are alike with exactly equal facilities.

2. The Board has twiced zoned the town in an effort to equalize student loads. After each attempt, parents on each side of the line moved in order to send their children to the school of their choice. The Board could find no way to achieve a racial balance or even a semblance of one without resorting to arbitrary raphy physical nearness natural have naturally created a separa- will vie for district honors in tion of the races. The board had no intention of artifically creating such a separation. No students living in the Central Elementary zone, regardless of race, have been refused admission since the last zoning change.

3. At the junior high level, the Board has remodeled the old building in order to create a unified junior high school. This was done voluntarily, and there was no thought given to the fact that races would be together - only that children's needs would be better served.

4. Regarding employment of

However, on the one or two occasions when a teacher of a minority race has applied, the applicant was not employed because he was obviously not qualified. The mere possession of a teaching certificate does not automatically qualify an applicant, in the opinion of the Board.

> To employ such a person in order to comply with some govermental guildeline would be an injustice and a disservice to the children. The Board wishes to emphatically state that every effort has been made to employ a staff at Elliott as well qualified as the staff at Central. Reading of the board's statement was followed by a discussion of the ramifications of the charge and how compliance with H.E.W. wishes went to Elliott. A racially balancwould affect Sonora's school system in the future.

At the time of the board meeting, H.E.W. had not revealed steps they would recommend to correct the situation. Board members said they held no ill will toward the investigating team, as it was only following orders when it examined the school system. Members of the team said the Sonora School Board was one of the most informed and concerned boards they had worked with, but that the law was the law, and the schools would have to integrate, even though the system now in use was good.

Also discussed was the fact that H.E.W. was not concerned with educational welfare, just the integration of Elliott School, no matter how far children of both races had to walk.

The possibility of a resulting lowering of educational levels was also discussed, although board members felt that this would depend on the quality of the teachers. They agreed that proficient teachers would be required if educational standards were to remain the same.

I'm sure that I don't need to mention that I have a hard time understanding the Post Office's reasoning in this matter, since I am of the belief that most editors are quite qualified to use sound judgement in determining whether a raffle is for a good cause or not-and whether the public will be hurt by advertising the same-Such fund raising drives happen every day-and this doesn't seem to concern Uncle too much-but to let anyone know that they're happening is the 'No, No.' So now you know why such events (important to a small community) do not receive any publicity in

**AUSTIN REPORT** By Hilary Doran Jr.

When the legislative session closed for the weekend it seemed every member was completely exhausted, yet there were not a multitude of things on the surface that one could point to as being accomplished.

Most of the tension, intrigue, etc., went on behind the scenes. The main battle centered around whether we will have a

two-year appropriation or a oneyear appropriation. Several other members of the House and I conducted an informal poll which showed a good majority of the House favored a two-year appropriations at this time. #### **Vaccinations for** Rabies Up--Barely

Rabies vaccinations have picked up, but not very much. According to Vivian Miears, there is little increase in the number of rabies shots given, although a second rabied cat has bitten a person. This happened on the John Cauthorn place Saturday a week ago. The cat was killed, sent off for examination, and found rabid.

Joe David Ross, D.V.M., said that cats have caused more of this trouble than any other type of animal since he had come here to work.

He said that people were good about vaccinating dogs, but that he was seldom asked to vaccinate a cat. And kids usually get the worst end, he said. Rabid cats become tame and friendly and are usually in the yard playing with the children before the parent knows they're around.

#### Which Taxpayers To File Estimate Of Income Tax?

One of the popular questions at Internal Revenue Service this year has been "Who must file an estimate?"

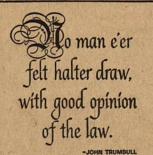

If you don't have tax withheld from your salary you are usually liable for filing an estimate since this is the way Congress set up the pay-as-you-go system.

If withholding is not enough to pay all the tax you owe then you may need to file an estimate. If you are not going to owe more than \$40, you don't have to

file an estimate in any case.

Since a large part of the Nation's taxpayers do have a salary or wages and do pay withholding, they simply drop exemptions by changing their Form W-4, or request their employer to withhold additional amounts to assure that they have paid enough through withholding to cover their tax bill for the year.

words: The children of those who selfishly mis-use the soil today will reap bitterweed tomorrow.

When the HEW officials made their report recently regarding the schools in Sonora, we wonder why they did not make mention of the fact that free kindergarten training is provided children in the Elliott School while parents of the children who attend the other Elementary School must pay for their pre-school training? We also understand that the Elliott school teachers are provided the finest available teaching aids.

If the Mexican-American children are being discriminated against in any fashion, this is wrong and I am opposed to it. But, if HEW can come up with a better plan than the homogenious grouping we have in Sonora, I for one shall be greatly surprised.

Certainly the children from the Spanish-speaking homes face serious problems their first years English-speaking classrooms. Will the solution be made easier by placing them in classrooms with many other children who do not have the same problem?

As we watched the colorful parade last Saturday, Frances and I commented that the Mexican-American have a heritage that ought to be preserved. They really have a dual heritage and for that reason are richer than many Anglo-Americans, in this respect.

We understand that the food served to the prospective grad-

them far more appreciative of the food served them regularly in the school cafeteria.

It seemed most appropriate that the sounds that could be heard as the large crowd of sorrowing friends gathered around the burial place of Joe Brown Ross last Saturday morning and during the graveside rites, were bleatings of sheep grazing nearby, the distant whinney of a horse and the sharp calls of the birds whose sanctuary we had invaded.

The ministerial alliance will meet Friday at noon at the Commercial Cafe. One of the problems they will discuss is the selection of a speaker for the annual homecoming service on the courthouse lawn, usually scheduled for about mid-July.

I have not preached the baccalaureate sermon for a graduating class in Sonora, but I have attended each year and each time have been distressed by the small attendance.

Since the weather remains delightfully cool, there is really no good reason why Brother Hancock should not preach to an SRO crowd at the high school auditorium Sunday night. (I hope you know - SRO -means "Standing Room Only")

That reminds that my son-inlaw wrote us recently that their nickname for our nearly-one-year old grandson is "Srog," and is thus explained: "We call him Srog, which is baby talk for Frog because he makes and sleeps in

- SHS -

Meanwhile back at SHS, classes were still going on. The hall was as silent and motionless as downtown Sonora after six o' clock. Many SHS'ers invaded the drive inn show Saturday night and enjoyed themselves as much as the seniors. A group of about 30 students congregated at various cars to discuss the coming summer's activities and the new school term.

End of school activities will begin with the junior-senior banquet and prom Saturday night followed by the Baccalaureate services Sunday night. The banquet is scheduled to begin at 6 p.m. followed immediately by the prom. Baccalaureate services will begin at 8 p.m.

- SHS -Final exams will begin Tuesday afternoon and continue through Thursday. Sixth and seventh period exams begin Tuesday with periods 1, 3, and 5 falling on Wednesday and 2, and 4 Thursday. Each exam period will last for an hour and a half with the students required to remain for at least an hour. A student is not required to attend a class when a test is not scheduled.

The climax comes Friday, May 23, at 8 p.m. when the seniors of 1969 receive their diplomas. Report will be handed out Friday morning ending the school year for everyone except the sen-

Well I know everyone is busy this time of year, but I know of no one who has been as busy as the parishioners of Saint Ann's the weekend of May 10-11.

Thirty children made their first Holy Communion at 10 a.m. Mass May 11. Father Michael Fernandez and the teachers worked hard with these children, teaching them their catechism lessons.

Then there was the Spring Festival. It was a stupendous, colossal event, and one not to soon be forgotten.

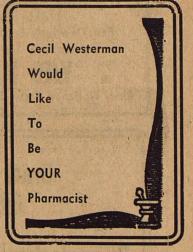

Barbeque and mexican dinner both days made a hit with everyone. The parade was lots of fun, and the lovely queen, Carmen Galindo, was crowned by city manager, Jimmy Harris. She was so proud.

All together, there must have been fifteen or more different booths, all sorts of games and food, besides the dinners. One

could get anything from elotes, (corn on the cob), snow cones, and hamburgers, plus beverages.

On top of all the activities going on, and in spite of the rains, for which we are very thankful, work on the new church is pro-

gressing very well indeed.

Uncle Charlie is very concerned about world problems...

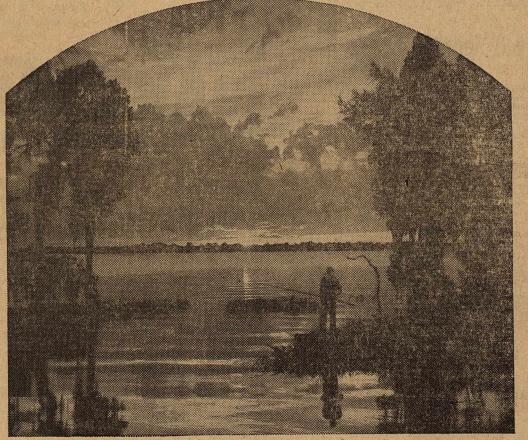

### We're very concerned about Uncle Charlie!

You see, being concerned is about as far as Uncle Charlie ever goes. He worries about this...he gripes about that...but actually getting out and doing something to solve some of those problems...well...that never occurs to him. So, the problems remain...some get worse...new ones arise...and good old Uncle Charlie always has plenty to voice concern

At Lone Star Gas, we believe in concern plus action. And we put that belief to work in the communities we serve, and for our more than one million customers. There are over 6000 of us at Lone Star Gas, and we like to think there isn't an "Uncle Charlie" among us!

to have you worship with us.

He marvels at the majesty of the clouds and the vastness of the sky. He thrills at the reflections cast upon the water by the rainbow palette of the setting sun. He is awed, humbled - yet, at the same time, fiercely proud. His feelings contradict each other. For he knows he is a

small creature dwarfed by the overpowering glory of nature, yet, at the same time, a man - a man created in the image of God.

Of course, we all need to be humble, but we also need to be proud. In one sense we are insignificant, and in another we are all-important. The problem lies in finding the proper balance between the two.

To understand the whole man — the all of you, you must turn to His Church where God is forever revealing the mysteries of His universe. Here we are taught truths that have endured throughout the ages. Here we must come if we are to find the proper balance in life.

By contrast no new furniture has been bought for Central in in the past 20 years. No re-painting has been done on the inside and the trim on the windows has been painted only once. The rooms at Central are smaller than most of the rooms at Elliott and are much hotter and more uncomfortable during the opening and closing weeks of school.

6. Elliott School has more audio-visual equipment than Central. Much of the equipment at Central was purchased not with tax money but with money made by students at the annual carni-

Money for library book purchases has been allocated on the same basis as that at Central. While it is true there may be fewer books per capita at Elliott than at Central, this is the result

> A. More books lost at Elliott B. More books donated by private citizens to Central

A central library, in any case, is just a meeting place or a storage place for books unless a school has a librarian. Without a librarian, any school official recommends that the books be kept in the classrooms. (It was indicated this procedure was used at Elliott. ed.) In addition, funds allocated for library purposes are used at times for audio-visual equipment, if in the opinion of the principal this better serves the needs of children.

7. Regarding the clerk and principal having separate offices or having one unified office, the Board regards this as of minor importance. Any parent desiring a confidential conference with the principal at Elliott can certainly have such. The secretary merely carries her work to the adjoining room during conference.

8. Regarding the cafeteria the Call No. 469 Board has furnished free trans- Charter No. 5466 portation in its newest bus, driveen by a driver with a chauffeur's license, to any Elliott School student desiring to eat at the cafeteria. Such students are picked up at the door of the Elliott School the only cafeteria the district under section 5211, U. S. Revised Statutes operates. These students have less distance to walk from the door of the bus to the cafeteria than students at the secondary

9. Students at Elliott School and a far less crowded outside than the students at Central.

10. Any person desiring to make a fair and impartial study of comparative achievement test scores would discover that many Mexican-American children have scored higher than many Anglo-American children. However, i is irrefutable that the majority of scores of Mexican-Americans are lower than those of Anglo Americans. This is directly attributable to the inability andor failure of those children's parents to provide a pre-school enviroment and the ability to speak English that are so necessary for children to get an even start in school.
