WATCHING THE FIRST TRAFFIC turn onto the newly completed 20-mile stretch of Interstate 10 is Joe Lane, resident engineer with the Texas Highway Department. The 4-lane highway is now in use from Caverns Road to the Taylor Box Road in Crockett County. The road from Sonora to the caverns Road is scheduled for completion this fall.

20 Miles of Interstate 10 Opened West Of Sonora

After finishing touches of marking center stripes and removing barricades, Tuesday morning traffic on U.S. 290 west was directed onto the newly completed stretch of Interstate 10. About 20 miles of the super-highway in Sutton and Crockett counties will be open for use, starting at the Caverns road in Sutton County and ending at Taylor Box Road in Crockett County.

J. A. Snell, district engineer with Texas Highway Department, San Angelo, accepted the completed highway job Monday from R. N. Adams Construction Company of Kaufman. Work was begun December 4, 1966, on the Sutton County portion of the highway. Contract price was \$5,100,000.

Still to be completed, probably

by early fall, is the 7½ mile link from Sonora's city limits to the Caverns Road. This section will end at the overpass structure just west of the Sonora Park Association race track.

Joe Lane, resident engineer, explained that traffic west of Sono-

ra would use the overpass and access road in front of Sonora Veterinary Clinic so that the interstate construction could be brought across old 290 and up to the overpass.

The section of Interstate 10 from the Caverns Road to the

city limits is the last portion of highway under contract. Still to be let are interstate jobs bypassing Sonora and extending to the Sutton-Kimble county line.

Bob McCulloch, resident engineer, said a contract for 14 miles of interstate from 4 miles east of the Ft. McKavett Road to a spot near the Baker Road would be the next contract let.

Land through which the 14 miles of road will pass includes that of Clara Allison, Annella Sities, Alfred Schwiening, Lea Allison, Shannon Clarkson and Albert Schultz.

About 450 working days will be required for completion. He said the project had been delayed from time to time and may be let in August, but he said there had been no confirmation. His department also has a set of plans for an eight mile section extending on eastward to the Ft. Terrett Store. Joe Lane will be in charge of the sections nearest the county line and around Sonora.

Thus far Interstate 10 construction has involved an engineering staff of 22 people with the Texas Highway Department, and the contractor's work force has been well over 100 employees during the peak work period, according to Lane.

Community Worship Service Cancelled

Sonora's "Annual Homecoming Service" which had its beginning in 1965 during the Diamond Jubilee celebration, and designated as a community worship service

will not be held this year apparently due to apathy.

The worship service was set originally for the second Sunday in July of each year. Some outstanding speakers have led the services annually. The first service following the jubilee celebration was conducted by the Rev. Dr. Tom Shipp, pastor of Lovers Lane Methodist Church in Dallas.

At the jubilee service the late Mr. Lloyd P. Bloodworth led the old time gospel singing. Since then Joe Lane has led the singing at the community services held on the courthouse lawn each year.

In a recent meeting of the Ministerial Alliance, the group decided they would not jointly sponsor the service this year.

The Indians used Favila, Milliken and Browne as pitchers. They gave up eight runs on nine hits and had 4 BB's and 14 SO's.

\$6,200 Collected For BCRIA Locally

A total of \$6,200 has been collected so far this year in Sutton County by the Brush Control and Range Improvement Association.

County chairman W. B. McMillan said the association was formed last November by a group of ranchers to raise funds to help fight brush invasion of rangelands and to study range improvement methods.

The brush situation is considered to be one of the state's major agricultural problems.

McMillan said the plan is to collect 1 cent per acre from each cooperating landowner each year for five years. The goal for Sutton County for 1969 has been set at approximately \$9,000.

The BCRIA is a non-profit organization not directly associated with any university, company or agency. A 16-member board of directors, representing different areas of the state, is directing activities.

State BCRIA chairman John Matthews of Abilene said the goal is not to wipe brush off the ranges entirely. Instead, ways will be sought in which the landowner can economically control undesirable brush and weeds.

He said that not only does the brush reduce animal carrying capacity of ranges but it also wastes water. About 10 million acre-feet of water could be saved each year in Texas by controlling the worthless brush and weeds.

More and more ranchers, Matthews said, are aware that they must help solve the brush invasion problem. The BCRIA offers a convenient and effective vehicle for that help.

Ranchers in Sutton County who would like to contribute to the fund are urged to leave their contribution at the First National Bank or give it to a committee member.

CINDERS

Juan Manuel Sanchez sent word by his sister, Ophelia Torres, that he was enjoying reading the "Devil." Juan, like several other Sonora boys, is in Vietnam. He joined the Navy June 24, 1968, after graduation from Sonora High School. He is on the Navasota and helps refuel other ships. He said that he reads each issue about 2 hours and "felt like he was home, for a little while."

The Downtown Lions Club and Sonora Chamber of Commerce will sponsor a river float in the Miss Wool of America Pageant being held in San Angelo. Harold Broom, chairman, said Sonora was the first city to enter a float, and it will be the eighth in the parade of river floats.

Pat Brown, who compiles the weather statistics here, noted that we had our first 100 degree temperature for the year June 18—with seven consecutive days of 100 and over. Only Sonoran happy with this weather would be Bob McMillan.

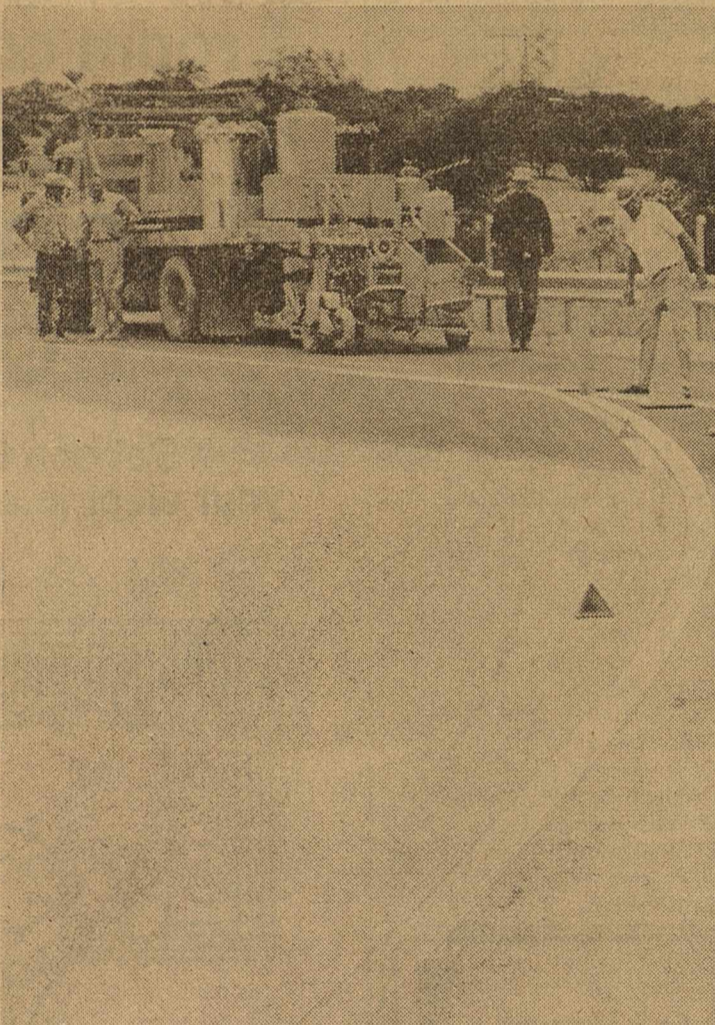

Twenty miles of Interstate 10 highway was opened west of Sonora Tuesday morning. Joe Lane, resident engineer with the Texas Highway Department, said he was through with the project and was (happily) turning it over to Cullen Luttrell, maintenance supervisor.

There was some question by local ranchers on how to maneuver around and through the cross overs, and there was some discussion on whether there should be signs saying "Get on Carra" and "Get off Carra."

Carra (Simmons) did make it to the ranch and back Tuesday morning, but she said the highway department had made a heck of a mess, and that she SURE wasn't going to go to Ozona any more.

NIECE OF MRS. E. B. KENG KILLED IN CAR WRECK

Miss Christi Brown, niece of Mrs. E. B. Keng, was killed in a car wreck near Gatesville, June 23. Mr. and Mrs. Keng left Tuesday to be with the family.

UPKEEP OF THE NEW HIGHWAY will be under the direction of Cullen Luttrell. Here he places cones to help direct traffic off old US 290.

Conservation Supervisor Makes Area Range Review With SCS Officials

by E. B. Keng, SCS Technician

Top officials of the USDA Soil Conservation Service spent Monday studying range work in the Edwards Plateau Soil Conservation District, as a part of a tour in the San Angelo-Abilene area.

Those making the tour included Kenneth E. Grant, administrator of the Soil Conservation Service, Washington, D. C., and SCS State Conservationist Clyde W. Graham of Temple. Grant worked with local SCS officials to get a first-hand look at methods and techniques used by SCS to help ranchmen improve West Texas grasslands.

E. B. Keng, local SCS Technician, headed the group here to inspect conservation work and wildlife management on the George Brockman ranch. Range practices being tested on the Sonora Experiment Station by Dr. Leo Merrill were studied Monday afternoon.

Other SCS men making the trip with Grant and Graham included R. W. Williams, head range conservationist from Washington, D. C.; Howard Passey, state resource conservationist of Temple; J. P. Kuykendall, head of the SCS regional technical service center at Fort Worth; and H. L. Leithhead, regional range conservationist of Fort Worth.

VanderStuckens Scout Honorees

A hundred and fifty-five people attended the Marker Dedication Ceremony honoring Mr. and Mrs. Joseph VanderStucken at the Girl Scout resident camp Jo Jan Van in Real County.

The 195-acre tract of land was given to the El Camino Girl Scout Council by the VanderStuckens in 1953 and site development was begun in 1960. The camp opened in 1963 and the sixth camping season is now in progress.

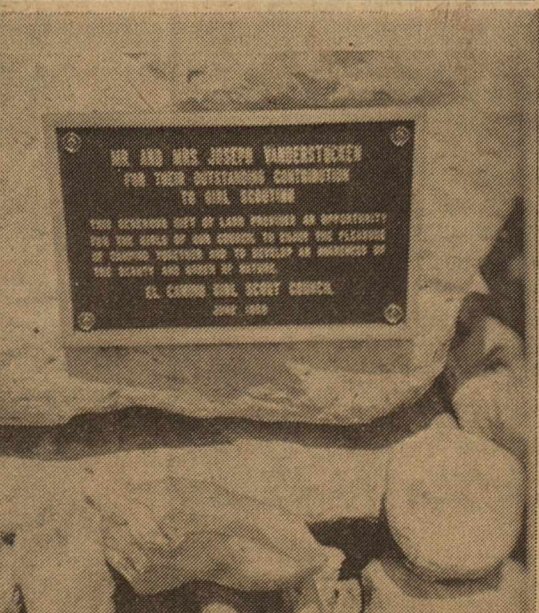

Mr. and Mrs. Jim Jackson, Irving, and members of the Council Board of Directors were among special guests attending from throughout the Council. The camp was named in 1953 in honor of Mr. and Mrs. VanderStucken's daughters, Mrs. Jackson and Miss Jan VanderStucken.

The Reverend Norman Griffith gave the invocation and Jim Lane, council president, gave the dedication address.

A picnic lunch with the campers and guests was held on the waterfront in the pecan grove. Following lunch guests were invited to tour the camp.

THIS PLAQUE honoring the VanderStuckens reads: "Mr. and Mrs. Joseph VanderStucken for their outstanding contribution to girl scouting—this generous gift of land provides an opportunity for the girls of our council to enjoy

the pleasure of camping together and to develop an awareness of the beauty and order of nature. El Camino Girl Scout Council, June 1969." The 195-acre camp is located in Real County.

essary disciplines of the classroom is a wholesome thing to see. This is pure escape, the kind that adults dream about but never achieve. Even for the children, pure untrammelled freedom loses its shine in the latter days of summer when the "nothing to do" stage sets in. Freedom, to be enjoyed, must be earned, and even then, its richness is lost where there is no ultimate sense of direction or minus factor such as household chores that tend to preserve an appreciation of freedom.

The ending of the school year, and the watching of the children in their new-found freedom and the manner in which they use—and abuse—that freedom, should have a special meaning for the adult world where freedom is being used and abused in ways no one could have foreseen a few short years ago.

THE DEVIL'S RIVER PHILOSOPHER SEZ . . .
He Heard Of A Man Near Here Who They Say Doesn't Owe A Cent Of Money
Editor's note: The Dry Devil's Philosopher on his bitterweed ranch on the Dry Devil's River probably doesn't know enough people, his letter this week indicates.
Dear editor:
I was busy reading a newspaper out here yesterday and really didn't have time to talk but a man's got to be neighborly and when this neighbor brought me a bunch of vegetables out of his garden I put the paper down and got to talking.
"Did you know," he said, "that there's a man living over in the other end of the county who doesn't owe any money?"
"Whatta you mean?"
"I mean he doesn't owe any money. His house is not mortgaged, his ranch is clear, he paid cash for his car, doesn't owe any installments on his refrigerator or furniture or television set, doesn't owe the bank anything."
"I don't believe it. Let's go see him. What does he look like? Never seen anything like that."
But my neighbor said he could not go right then, had to go by the bank, and I settled down to thinking.
How many people do you reckon there are in the United States who don't owe anything? I figure if you put them all together they'd still be lonesome.
I learned long ago that the length of the car has nothing to do with the shortness of the mortgage, and that some of the

HURRY UP and RELAX

Highways, superhighways, turnpikes, freeways, expressways—they crisscross America, leading in every imaginable direction. And, they get you there so fast, you are past the right exit before you know it. We live in such a speed-oriented world that, when we are not working, we feel we must “hurry up and relax.” At times we even feel guilty when we are not busy about something.

We don't really like our foolish pace. We speak longingly of peace of mind and quietude, and we take tranquilizers by the ton. We search frantically . . . on vacations, on “lost weekends,” on “fun activities” . . . but tranquility is hard to find.

Perhaps we are seeking too hard. Perhaps tranquility is not to be sought. Rather, isn't it what happens when you are at peace with yourself, no matter the circumstances?

You can be at peace with yourself only when you are at peace with God. He is the very center of your being, and His peace is freely given when you accept it.

Accept this great gift of God in the very best place of all—His Church.

JANET POPE, 15-year-old daughter of Mr. and Mrs. Walter L. Pope, was one of the top exhibitors in the 1969 Sonora Wool & Mohair Show. Miss Pope received the Joe Berger Memorial Trophy as the premier junior wool exhibitor. Last year Charlie Joe Witten-

burg of Edward County won the trophy for the third consecutive year. Other than this coveted award, Janet was also exhibitor of the champion wool bag, the champion range wool fleeces, and the grand champion fleece of the junior division of the show, winning many trophies and ribbons as shown here.

**A Bishop Looks At
Life In New Dehli**

by Everett H. Jones, Retired
Bishop, Episcopal Church

After a stay in the world's largest democracy and second largest nation, it is impossible to make very profound observations. However, this week has included more than 550 miles by car through the countryside plus time in this modern and elegant capital city, so I hazard a few first impressions.

If Thailand is the land of smiling people, this is the land of tense and worried people, for whom the daily struggle for existence is an oppressive burden. Since more than 80 percent of the people live in small villages and rural areas, this is where all the problems are most acute; illiteracy, over-population, malnutrition, superstition, lack of machinery and modern methods, etc., etc.

A drive through the country is an exciting and frightening experience. The road is filled with people walking, sleeping, resting, they are on bicycles, in bullock carts with wooden wheels, gathered in small clusters at a well or under a tree. Sacred cattle wander on and off the road and add to traffic congestion; they share the scene with goats, sheep, burros, camels, water buffalo, and peacocks.

In all fairness, great strides have been made in the 22 years since India won her independence. The nation has been unified, untouchability has been eliminated, and a broad program of social and economic reform has been undertaken and is still being vigorously pushed under the leadership of Mrs. Indira Gandhi.

HOPE LUTHERAN CHURCH had a total enrollment of 33 young people attending the recent Vacation Church School sponsored by the church. In this class, instructed by Mrs. Martin Schulz, those shown include (reading from left to right) Dennis Thorn, Mike Carroll,

Texas Parks - Wildlife Plan Inventory

The Texas Parks and Wildlife Department is presently conducting an inventory of outdoor recreation areas throughout the state.

The inventory, contracted to the Parks and Recreation Associates of Austin, will itemize the facilities available in the outdoor area and will include areas administered by private interests and public agencies.

The work will be done by 10 college students, hired by the contractor for the summer, and personnel provided by the Alamo Area Council of Governments, Coastal Ben Regional Planning Commission, Houston - Galveston Area Council of Governments, and the North Central Texas Council of Governments.

The inventory is just one of the

inputs for a comprehensive statewide recreation plan to be completed in January of 1973. A demand study, in which interviewers took a poll to determine the outdoor recreation desires of Texans, has already been completed.

An on-site poll in recreation areas, with interviewers speaking with users of the facilities, is planned for the summer of 1970.

Parks and Wildlife Department personnel say they hope the inventory, to be completed in August, will result in a directory of recreation facilities throughout the state. This is the first real attempt on the part of the Department to institute a program with the Councils of Government throughout the State.

Looking Back . . . by Sonora Motor Co.

THE BANK SALOON was in fact built in one of the old banks of Sonora that failed. It was owned for a time by Jim Barton. The Craddock Building or the Medical Arts Building is pictured on the right. Evidently this picture was taken before 1911 when an explosion in the Craddock Building gave it a slightly tilted look.
