

Whittlin'

By Dolph Moten

BUSY TOWN

Bovina was a busy town Saturday afternoon. It was the Saturday, of course, that marked the first time in several months there hasn't been a Boost Bovina drawing. Also, it was the first Saturday since I wrote in last week's column that there would be no parking problem on North Street when there wasn't a drawing to attract prospective customers.

Feel sure many of those people were in town just to make this poor misinformed department wrong one more time.

One fellow claimed to be especially mad at me. He, however, stays mad to keep from getting mad, but this time was worse than usual. He said he read here last week that there would be plenty of room to park. Then Saturday afternoon, he went to town to mail a letter and ran out of gas driving up and down the street in hopes that some car would vacate a parking space so he could get out and go to the post office and send his letter on its way.

"I was afraid to double park because the new sheriff (Deputy Jim Roberts) was watching me," he explained.

Those are just two examples of the problems of folks who are members of a growing community. But they're such great problems to have!

NOT A BAD DEAL

That problem business reminds me of something I heard, read or something one time.

Fellow said, "Growing old ain't so bad, because if you're not growing old, you're dead!" There is much more truth than poetry there.

Next time you feel you're getting old and feeling sorry for yourself, think about that. It'll help you.

NEW COACH

Bovina's PeeWee baseball players—that's the next size under Little Leaguers—have a new coach. Or, at least, they did have last week. Hope he hasn't quit yet.

He's Leon Grissom. I was up at the diamond recently waiting for Bull practice to begin and Leon was working with his PeeWees. He looked over at me once and wondered aloud disgustedly, "I don't know why I ever got myself into a mess like this."

Don't think he was really minding it though. Bet by the end of the season he won't be ready to quit.

ALL WRONG

Last week's Blade had short stories scattered all over page one about the "Atoms for Peace" exhibit that finally got here Wednesday. Really the stories weren't scattered; there were just two. But the sad part about it was that they were both wrong.

One—the first, at the top of the page—said the exhibit wasn't here Monday as it was supposed to have been. The second story said the exhibit had been detained by high water downstate and would be in Bovina that very (Wednesday) afternoon.

The "Atoms" did show up on Wednesday. However, high water hadn't held the vehicle up. The schedule had been changed. The Blade never did get a notice that the date had been set back two days. The schedule in The Blade office said the exhibit would be in Bovina Monday, June 3. The revised schedule said it would be here Wednesday, June 5.

So much for that, but it was embarrassing to you know who. The exhibit was sorta disappointing anyway. If you didn't know something about atoms and atomic energy before you went in the exhibit, you didn't know anything when you came out.

I know just about as much about atoms as I do about Ike's sickness. But I would have tried harder to like the atoms display had it been here on the day The Blade said it would.

MAKE MONEY

Local fellow was telling me a few days ago that he wouldn't do anything he didn't think he could make some money at. In other words, more than a living. His wife, who was listening, looked up and said, "We've been trying for a long time and have never made more than a living." My friend crawled out from under his original statement with, "Yeah, but I'm still not convinced we aren't going to make some money."

For day in and day out living comfort, you can't beat an optimistic outlook.

CONGRATS

This department's congratulations go out to H. J. Charles and Ed Hutto on the grand

(Continued on Last Page)

About Water Bills—

People Have No Serious Gripes

"No serious complaints," Water Superintendent John Wilson commented Monday when asked about how local folks reacted to the 50 cents increase in water rates and the compulsory sewer charge. This was the first month for the additional charges to be made.

They were put into effect at the first of May by the city commission. Monday was the 10th and supposedly the last day for paying the charges. "Generally it went over in a good way," Wilson went on.

"Once the people understood the situation the city was faced with they didn't mind paying it," Henry Minter, city secretary, who was listening to the conversation, said. The men both said that several people asked for an explanation for the increased charges, but few made serious complaints.

All water bills were raised 50 cents each.

The increase brought in an additional \$160, Wilson estimates. There are something over 300 water users tied onto the city system.

The sewer charge of \$1.50 for residences and \$2 for businesses was also made compulsory whether the sewer is used or not.

The additional charges make the minimums for water and sewer \$4.60 per residence and \$5.40 for businesses.

The \$4.60 figure broken down shows \$2.50 for water, \$1.50 for sewer, 35 cents for trash hauling, and 25 cents for the fire department.

For businesses, the breakdown shows \$2.50 for water, \$2 for sewer, 65 cents for trash hauling, and 25 cents for the fire department.

For this minimum rate, up to 3000 gallons of water may be used per month. There is an irrigation rate available for those who use a lot of water. That rate is \$6.50 per month and up to 30,000 gallons may be used.

Wilson and Minter feel the compulsory sewer charge caused more dissatisfaction among citizens than did the water rate increase. "Most of those who complained said they felt they shouldn't have to pay for something they weren't getting," Minter said. "However, we do feel that it has encouraged people to tie onto the sewer," he went on.

A total of 152 residences and businesses are using the sewer now. That's approximately 50 per cent of the number that could be using it.

By A. M. Wilson—

Scouts Awarded Tuesday Night

Twenty members of Bovina Boy Scout Troop were awarded Tenderfoot badges in a special Parents' Night program last (Tuesday) night in the American Legion Hall.

John Bloomfield, scout district director, presented the badges. The main address was delivered by Karl Schreiner, scout field director.

J. W. Wright, scoutmaster, served as master of ceremonies for the program.

The scouts themselves presented opening and closing ceremonies. Receiving awards were Butch Wolton, Lynn Hudson, Ronnie Suddarth, Ken Horn, Buddy Turner, Eugene McConnelly, Jimmie Wright, Jerry Wright, Phillip Lloyd, Don Cumpston, John Sikes, Roger Ezell, Olen Johnston, Talley Kelson, David Lowrie, Delbert Morris, Bobby Gonzales, Wendol Davies, Jerry Lorenz, and Don Caldwell.

Six scouts will attend the National Jamboree this summer. Bob Wills, high school coach, will go with the boys on the 19-day trip and will serve as adult leader.

This Week—

Bovina Boy's Ball Begins

Parmer County Little League play gets underway Friday afternoon. Farwell meets Lazbuddie at Lazbuddie. Bovina drew a bye on opening day and will begin play Tuesday against Lazbuddie here.

All Little League games will be played as a part of a doubleheader. A Minor League, or PeeWee, game will be the lid-lifter of the doubleheaders.

Bovina, Farwell, and Laz-

Funeral Services For J. B. Ridling Held Here Friday

Funeral services were held for J. B. Ridling, 87, at Bovina Methodist Church Friday afternoon. Rev. Virgil Goodwin, pastor of First Baptist Church, officiated.

Ridling passed away Tuesday, June 4, in the Methodist Hospital at Lubbock. He had been in failing health for the past year.

Interment was in Bovina Cemetery.

Judson Byers Ridling was born in Camden, Ark., November 8, 1869. He moved with his family to Bell County, Tex. while still a small child. He was the last survivor of a family of eight children.

Ridling married Sara A. Cunningham. To this union was born nine children. Three died in infancy. He was preceded in death by his wife in 1939; one daughter, Martha, Mrs. Floyd Patterson, in 1940; and his youngest daughter, Doris, Mrs. Elmer Schrieber, in 1945.

Survivors include two sons, Ray of Folsom, N. M., and Glenn of Ontario, Calif.; two daughters, Mrs. P. T. Findley, Lubbock, and Mrs. William L. Hardesty, Folsom, N. M.; seven grandchildren and two great-grandchildren.

For many years a farmer and civic leader in Bell and Haskell counties, Ridling was in-

New Station!

Ed's '66' Service Plans Grand Opening Saturday

ANOTHER NEW BUSINESS—This new Phillips '66' station, located east of Warren Auto Supply on Highway 60, will observe its Grand Opening Saturday. H. J. Charles is the station owner. Dealer is Ed Hutto. Ed's '66' Service is the name of the business.

Saturday marks the grand opening of Bovina's newest business.

The recently-completed Phillips service station, east of Warren Auto Supply on Highway 60, will swing open its doors in a formal welcome

to the public. Name of the business is Ed's '66' Service.

Ed Hutto will be the dealer for the new business. Harry J. Charles, Phillips '66' jobber here, is the owner. The building, constructed of tile and painted in Phillips' colors, was built by Raymond Fleming, Friona contractor.

It is 50 by 28 feet in size. Included in the building are two car stalls—one for washing and one for lubrication—storage space, rest rooms, and office space.

The driveway is of the open type and is equipped with four pumps. The office section of the building is constructed of plate glass and Colorado pink stone.

Gifts for everyone will be the highlight of Saturday's festivities. Also, two Phillips clowns will be on hand for the entertainment of the children who attend.

In addition to Phillips gasoline and oils, the business will feature tires, batteries, accessories, washing, lubrication, extra clean rest rooms and the best possible service, Hutto says.

The business is scheduled to be open informally sometime this week.

Hutto, who has been employed at Charles Oil Co. for some four years, is experienced in the service station business. Before coming to Bovina he operated a station in Amarillo.

Future plans call for the business to offer S&H Green Stamps with purchases. However, details concerning the stamp plan have not been completed, Hutto says.

Plans call for the new station to be open from 5 a. m. until 12 at night. Two attendants, besides Hutto, will work with the business. All will have Phillips service station training. (Continued on Last Page)

Meeting Friday To Discuss Ball Park

Bovina Jaycees continued discussion of a plan that has been on the grill for several weeks—that of lighting a ball field here.

Warren Morton, school superintendent, met with the club and told them they had purchased, or would soon have control of, the area which the present diamond is now on. Morton told the Jaycees they could begin work toward raising money for lighting the field anytime they were ready.

Jaycee representatives are scheduled to meet with the school board at the next meeting to discuss details of the project.

Also, the club voted to have a special ballpark meeting Friday night at 8:30 in Bovina Restaurant. Letters of invitation and announcement of the change in meeting time will be sent to all Jaycee members and to others Jaycee leaders feel will be interested in the lighted ballpark idea.

Estimated cost on lighting the field for Little League and softball play is \$3000.

Earlier plans to build a park on land owned by George Trimble were abandoned when the school purchased the lots which the present diamond is on.

Sunday and Monday—

43 Enrolled In Methodist School

About 43 youngsters enrolled Sunday and Monday at the beginning of the Methodist Vacation Church School. Mrs. Thomas Beauchamp, superintendent, says. All of the teachers and six senior and intermediate girls were also present.

For the Monday afternoon meeting, the youngsters began their Bible study with the story of Ruth and, in the "play time" went on a scavenger hunt.

They also began a study of the work of Christians in the home and community. Later in the week, the study will be enlarged to the nation and the world.

Teachers for the Vacation Church School are Mrs. Beauchamp, Mrs. Leon Ware, Mrs. G. D. Anderson, Jr., Mrs. Don Sides, Mrs. Oakley Stevenson,

Mrs. Amos Shockley, Mrs. Durward Bell, Mrs. Bob Suddarth, Mrs. Gene Rea, Mrs. Jimmie Charles, Mrs. S. E. Redden and Mrs. Tom Caldwell.

Girls assisting them are Shirley Mayhew, Barbara Rea, Brenda Jones, Penny Lloyd, Harriette Lou Charles and Joy Redden.

The church school is held every afternoon of this week, from 3:30 to 5:30, and is open to all youngsters between the ages of 4 and 11.

Commencement exercises will be held Sunday evening in the Church.

At that time, a display of the work of the children during the week will be shown. Everyone is welcome to attend this or any of the meetings.

Construction on a new super market in Bovina is scheduled to begin within "the next few days."

The announcement was made this week by A. M. Wilson, owner of Wilson Food Store. Contract for the new business building has been let to Parker Bros. Hereford.

It's possible, Wilson says, that work will begin this week.

The new grocery store will be located at the intersection of Third Street and Ave. 'E'. It will be the first business to be built away from the two main business districts in many years. Avenue 'E' is the paved street that runs from Third Street to the school.

Completion date for the new building has been set for October. Wilson says, however, the contractors figure they can beat that completion date if the weather permits.

"It will be as nice as any grocery store in Parmer County," Wilson says of his proposed venture.

To be 52 by 102 feet in size, the building will be made of brick and tile. The front will be of Roman brick and plate glass. Customers will have a shopping area consisting of 3750 square feet.

Almost all the equipment in the refrigerated air conditioned building will be new, Wilson says. Only a meat case and a

frozen foods case will be moved from the present store.

Wilson has operated a grocery store at the corner of Third Street and North Street for the past 10 years. In December of last year, the business became a member of Panhandle Associated Grocers,

Inc.

"Our complete stock will be increased and new lines will be added," Wilson says. New fruits and vegetables and dairy departments will be added in addition to others.

Name of the new store will be Wilson's Super Market.

Elected Monday—

L. M. Grissom Is BWG Director

About 40 persons were present at Bovina Restaurant dining room Monday night for the annual stockholders' meeting of Bovina Wheat Growers, Inc.

A. C. Teter, manager, told those present that a substantial savings had been made in 1956. "It was substantial," Teter said, "considering that the elevator's capacity was increased from 90,000 bushels to 290,000 bushels during the year."

Wendol McCormick, auditor with Delozier and Delozier auditing company, Clovis, gave the auditors' report.

Ralph Meeham, representative of Producers Grain Corporation, Amarillo, was the featured speaker. He talked on the progressive history of Producers Grain Corporation.

A. R. McCutchan was re-elected to the board of directors in other business. L. M. Grissom was elected to replace Gene Ezell on the board. Ezell has served as president for the past three years.

A directors' meeting will be held in Wheat Growers' office Thursday night. Officers of the board will be elected at that time.

By Tulia, 21-17—

Bulls Are Dehorned

Bovina's Bulls came out on the short end of a 21-17 slugging contest Sunday afternoon in a Central Plains League game with Tulia, there.

Pitching and fielding for both sides left a lot to be desired, but the hitting was good. Both teams collected 17 base hits.

Robert Read, the Bulls ace pitcher, started and finished on the mound. But Jimmie Clements, oddly enough, was the losing hurler. Clements relieved Read after two innings. Read, in turn, relieved Clements after he had worked four and a third innings.

The local team got off to a bad start. An error and four hits, all singles, gave Tulia four runs in the first inning. They added another in the second on a walk, a hit, and two errors to lead at the end of two innings, 5-0.

The Bulls, however, got back in the game in the third. After Billy Richards struck out to begin the inning, Read and Robert McCormick singled, Eddie Smith doubled to plate Read and leave two men on with one out. Charles Don Smith struck out for the second out. Benny Lee Shelby slapped a three-run home run to make the score 5-4. Art Mast followed Shelby to the plate and duplicated the

home run feat to tie the score. Glenn Hromas struck out to end the inning.

Tulia didn't allow the score to be tied long. In their half of the third, an error, a base on balls, and a single scored one run. Jim Gomez, who was in the winning pitcher, then homered to left to give Tulia a four run lead. Clements took over on the mound and after hitting the first batter he faced with a pitched ball, struck out the next three in succession to end the inning.

With the score 9-5, Eddie Smith led off the top of the fifth with a home run. After Charles Don Smith grounded out, Shelby singled, Hromas and Clements walked to load the bases. Richards hit a two-run double down the left field line to make the score 9-8.

Bovina tied the score again in the sixth on singles by Eddie Smith and Shelby.

Again the tie was short-lived. Tulia scored twice in the sixth to go ahead 11-9. But Bovina added one in the seventh to make it 11-10.

The roof caved in on the Bulls in the seventh. Clements got the first man on a routine fly to left. Then a single, a hit batsman, and a three-run home run brought Read back to the mound.

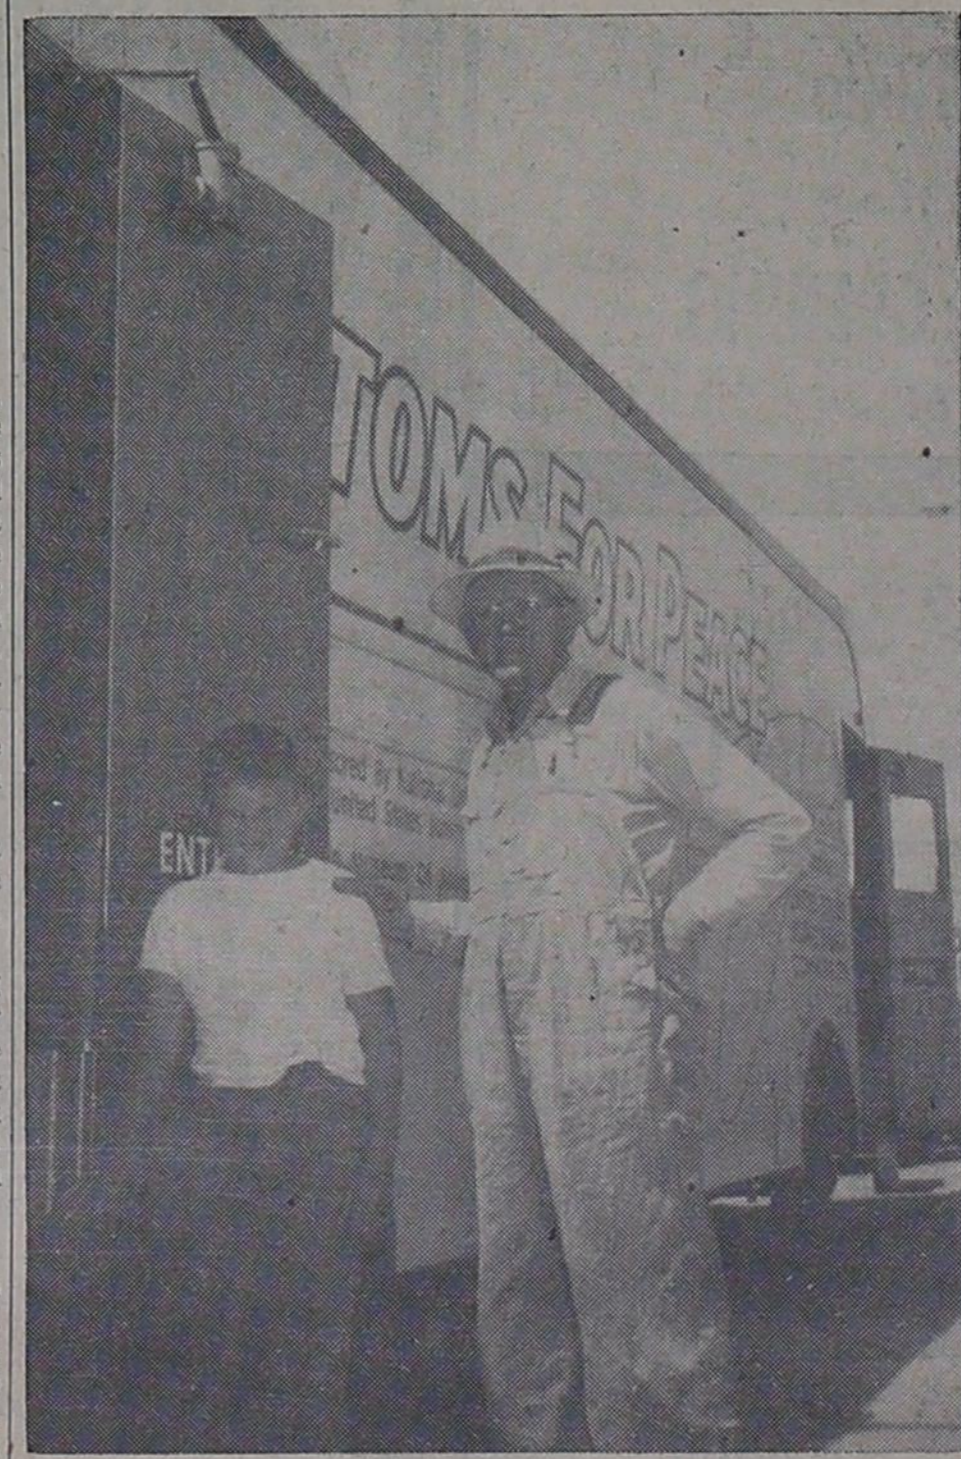

Three walks, three singles, and an error allowed six more runs to score before the Bulls could get the fire put out and the score was 20-10. Bovina broke lose for six runs in the eighth inning to make the score 20-16. Tulia added one in the eighth and it was 21-16. Walks loaded the bases for Bovina in the ninth, but they were able to produce only one run. Richards drove it in with a single.

The game was Clements' first appearance on the mound this season. His record is now 0-1. Read's is 3-1.

Team record is 3-2. Having now lost two straight after winning three in a row, the Bulls will go to Plainview next week in an attempt to get back in the win column. Bovina downed Plainview earlier in the season, 6-3.

ATOMS EXHIBIT VISITORS — Ike Quicquel and his grandson, Bill Quicquel, pose for the cameraman as they prepare to enter the "Atoms for Peace" mobile van which was in town Wednesday. A total of 184 persons saw the displays. Bill is the son of Mr. and Mrs. Wilfred Quicquel of Farwell.

Wednesday—

184 View Atoms

A total of 184 people toured the Bovina Jaycee-sponsored "Atoms for Peace" exhibit which was in Bovina Wednesday afternoon of last week, says Charles Don Smith, Jaycee chairman for the showing.

The exhibit was parked in front of Wilson Food Store. Smith says he wasn't disappointed in the crowd that saw the exhibit but added that he feels there would have been many more viewers had school still been in session and if more farmers hadn't been working. The weather, which was pretty and sunny, made it "too pretty" a day for farmers to take off from their work, Smith feels.

Also, the number of people attending was probably made less by the fact that announcement had been made that it would be here Monday instead of Wednesday. However, a change in schedule downstate made the exhibit two days "late" here.

Tom W. Allen was the manager for the bus-type vehicle. Expenses for the exhibit are paid by Oak Ridge Museum of Atomic Energy.

Be There

A special meeting to discuss lighting a ball park for the community will be Friday night in Bovina Restaurant. The meeting will be held in place of the regular Jaycee meeting which is each Saturday noon. However, the public is invited and urged to attend the meeting.

Citizens are urged to attend even if they just want to tell the Jaycees to "either build the park you've been talking about so long or quit talking about it and not doing anything."

The park can't be built by one group, club or organization. Possibly one group could take charge of the project but financial help, if nothing more, will be needed from the individuals of the community.

We join the Jaycees in urging you to be present at the Friday night meeting to voice your opinion and ideas.

It matters not if you're interested in playing ball or have children interested in playing ball. A lighted ball park will make Bovina a better place to live. It will provide another means of recreation during the summer months.

You might think we're getting along pretty good without a lighted ball field. And that is probably true. But there's little or no point in doing "good" when you can do "better."

In the interest of the community and in making it a better place in which to live, be present at the Friday night meeting.

Help build a bigger, better Bovina.

FIRST BAPTIST CHURCH
Virgil Goodwin, Pastor

Sunday School, 9:45 a. m.; morning worship, 10:50 a. m.; training union, 7 p. m.; and evening worship, 8 p. m.

The commencement exercises of the annual vacation Bible school will be held Sunday evening in the church, at 8 p. m. All boys and girls and their parents who attended Bible school are urged to attend. Everyone is welcome. There will be an exhibit of articles made by the children in the VBS classes.

Last Sunday, there were 191 in Sunday school and 71 in the training union classes.

Cuptowels for Girls

About 54 cuptowels were completed by members of Bovina Good Neighbor Home Demonstration Club Monday afternoon.

The meeting, held in the American Legion Hall, was one originally planned for last Friday.

To be donated to Girls Town, near Whiteface, the cuptowels were hemmed packed by the club members and plans were made by the group to take them to Whiteface Wednesday, June 19. Mrs. J. D. Stevens, president, announced that anyone caring to go on the trip to deliver them is welcome. Those going will meet at her home at 9 a. m.

During a brief business meeting, plans for the semi-monthly "42" parties, sponsored by the club, were made. It was decided that, because of the heavy work schedule of the farm women at this time of the year, the parties will be postponed until further notice.

Mrs. J. E. Sikes was hostess for the afternoon. She served refreshments of party sandwiches, cookies and punch to

IN STUDIES OVER A PERIOD OF 15 YEARS, Dr. Weston A. Price analyzed 20,000 samples of dairy products obtained from all over the world. For the U. S. he found the vitamin content lowest in the samples from eastern and far western states where the soil has been farmed the longest, and highest in those from DEAF SMITH COUNTY, TEXAS, where the soil and pasturage are highly mineralized. He also found evidence that the mortality from heart disease and pneumonia was lowest where the vitamin content of the dairy products was highest.

Mrs. Williams Is OES Matron

Mrs. W. E. Williams was installed as Worthy Matron of the Bovina chapter of the Order of Eastern Star Thursday evening.

regular form and delivered the Epilogue of she and her husband, H. J. Charles, outgoing Worthy Patron. Mrs. Charles then asked the Marshall to present their gifts of farewell to the outgoing officers of the past year.

Hubert Ellison, Mrs. Margaret Charles, Mrs. Lorena Brock and Mrs. Thelma Perkins, Examining; Mrs. Jewell Tabor, Mrs. Julia Leake, Mrs. Annie Derrick, Mrs. Evelyn Macon and Mrs. Jewell Barry, decoration. Members of the Life Membership committee are Mrs. Lillie Fuller, O. W. Rhinehart and Earl Derrick.

In Goodwin Home

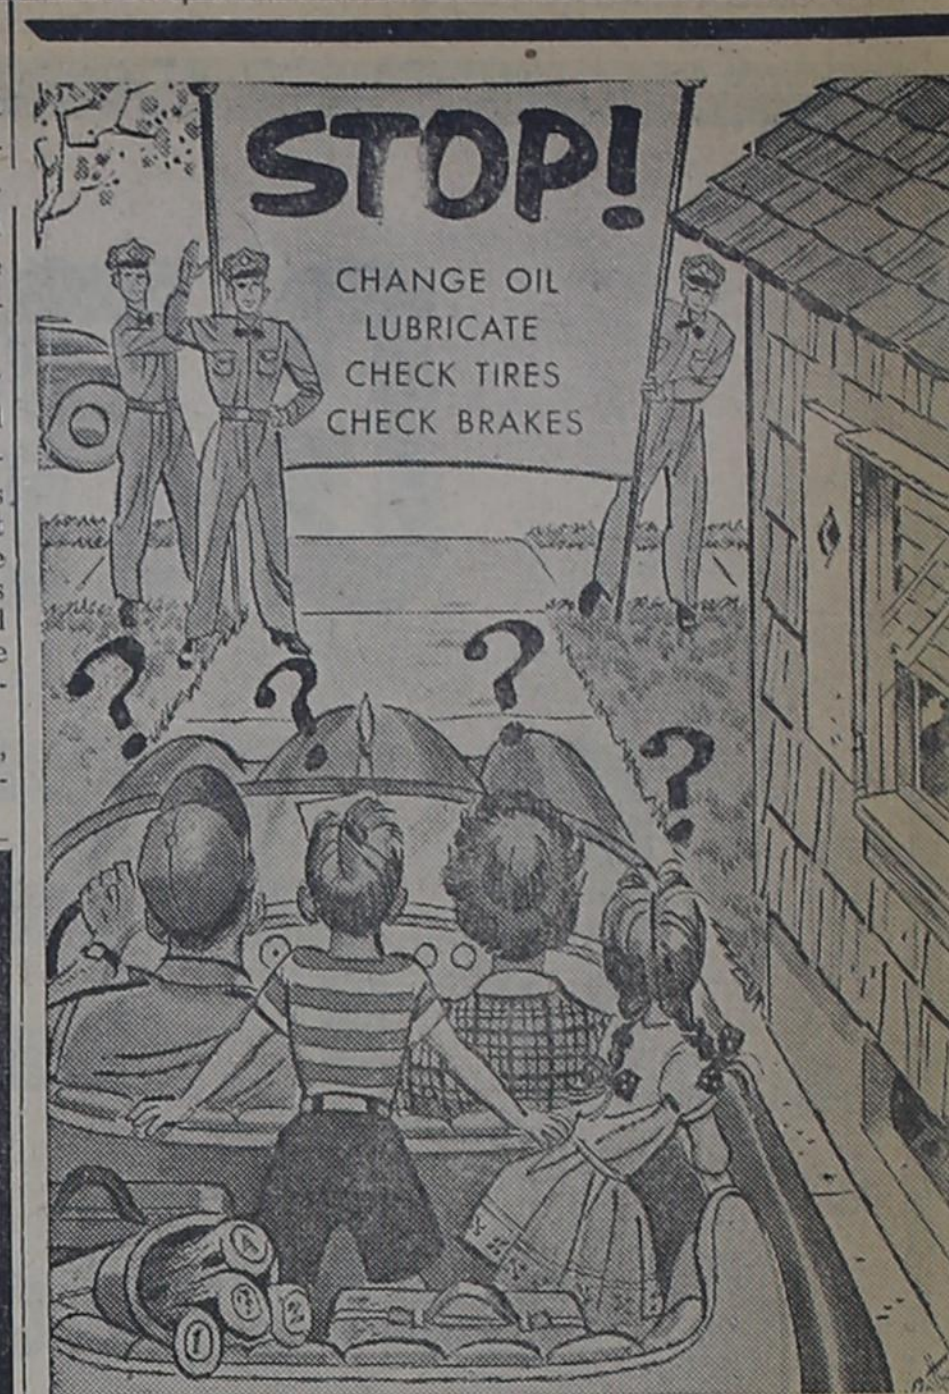

Visiting for several days of last week in the home of Rev. and Mrs. Virgil Goodwin and family were his brother and children, Mr. and Mrs. Jack Goodwin and children, Darrell and Ann, of Carlsbad, N. M. Also visiting was a friend, Ike Seymour, also of Carlsbad. The guests arrived Tuesday and left for Shamrock later in the week.

To Band Camp

Three members of the local school band are in Portales, attending the Eastern New Mexico University band camp. Held annually, the camp is for the instruction of students in advanced music.

To California

A local woman, her children and her sister from Dumas left Friday morning for California to visit relatives. Mrs. R. G. Sparks and children and her sister, Mrs. Luthar McColough of Dumas, are visiting in San Bernardino, California with their father and family, Mr. and Mrs. G. C. Dial.

Before you start out on that vacation — stop at our service station for a final check-up. We'll do our part in making your vacation dreams come true by putting your car in good shape for care-free vacation driving.

Homeowning Car Be Hazardous Too!

The deep sea diver lowered into the murky depths of the ocean is threatened by many dangers. Although the homeowner's hazards may not be as dramatic they can be just as deadly.

A contralto solo, "My Best to You," was sung by Mrs. Hodge Rigdon, dedicated to Mr. and Mrs. Charles by Mrs. Williams. Mrs. Gladys Everett accompanied the singer on the piano.

Mrs. Charles called the installation officers. They were Mrs. Aubrey Brock, Installing Matron; Hubert Ellison, Installing Patron; Mrs. Charles Ross, Installing Marshall; Mrs. Hubert Ellison, Installing Treasurer; Mrs. Gladys Everett, Installing Secretary; Mrs. Maude Trimble, Installing Organist; Mrs. H. J. Charles, Installing Warden; and Charles Ross, Installing Sentinel.

Mrs. Williams presented each installing officer with white daisy corsages and boutonnières. Those being installed were Mrs. Williams, Worthy Matron; Carl Rea, Worthy Patron; Mrs. Joyce Hammonds, associate Matron; O. W. Rhinehart, Associate Patron; Mrs. Elmer Lowrie, Associate Conductress; Mrs. Ona Pesch, Conductress; Mrs. Mary Ruth Martin, Secretary; and Mrs. Flossie Rhinehart, Treasurer.

Others were Mrs. Hazel Rigdon, Chaplain; Mrs. Julia Leake, Marshall and Star Points; Mrs. Annie Derrick, Ada; Mrs. Joann Underwood, Ruth; Miss Jimmie Lou Waincott, Ester; Mrs. Louise Jamerison, Martha; Mrs. Lucy Jones, Electra; Mrs. Ona Ruth Martin, Warden; and H. J. Charles, Sentinel.

Mrs. Williams gave her address of appreciation and presented her Installing Officers with gifts of hand painted plates with the Lord's Prayer inscribed on them. She also appointed committees for the coming year.

Committees are Mrs. Mary Ruth Martin and Mrs. Bessie Rea, registration; Mrs. Jo Looney, Mrs. Willie May Ross, Mrs. Ona Pesch and Mrs. Lillie Fuller, instruction; Miss Jo Ann Underwood, H. J. Charles, Mrs. Flossie Rhinehart, Mrs. Pearl Dodson and Elmer Lowrie, finance.

Congratulations

Mr. and Mrs. Robert Jackson of Fort Worth became the parents of a girl, Kay Lynette, Saturday, June 1. The little girl, adopted by the couple last week, weighed in at 4 lbs., 14 ozs., and is still in a Fort Worth hospital.

Maternal grandparents are Mr. and Mrs. Boye Taylor of Bovina, and paternal grandparents are Mr. and Mrs. J. P. Jackson of Clovis. Relatives expect the little girl to be released from the hospital the latter part of this week.

G. A.'s Have Joint Meeting

Members of the Junior and Intermediate Girl's Auxiliary of the First Baptist Church met Wednesday evening for a joint study on their forward steps. The meeting was held in the annex of the church and Mrs. Ovid Lawlis, counselor, was in charge of the meetings. The girls spent the evening in memory work for their stations in the G. A. organization. Opening the meeting with their Worth hospital.

Wheat Approaches Combining Stage

Parmer County's 80,000 acres of winter wheat will soon be ready for the combine, if the dry, sunny, and sometimes windy weather holds for the next few days.

Tall irrigated wheat, with the promise of the lushest yields ever, is turning a golden hue under the late spring sun. Cool weather and the series of wet days during the past month have retarded development and maturity dates, but generally improved prospects considerably. In fact, had it not been for the spring rains, the estimated 40,000 acres of this crop still not irrigated would be written off by now—having been planted under very drouthy conditions last fall.

As it is, dryland wheat is expected to make fair yields in the area, which will be the first time that dryland has been cut on a wide scale since 1949.

Most fields of irrigated wheat that have had adequate water will yield from 35 to 55 bushels per acre, observers believe. The dryland yield will be considerably less, of course, but some fields may cut 25 bushels.

As of presstime, no loads of 1957 wheat had been reported, but the arrival of the first cuttings at the elevator is expected momentarily. Usually, the first 10 days in June brings in a load or two.

For the first time in several years, most of the dryland wheat of the area will be cut this year. This is Keith McCutchan, 6, of Bovina, who strolled into the field near town to show the cameraman how the wheat looked.

Farmers Starting Early Season Control of Insects

It's time for the early season insect control programs in the Parmer County area, and some poisoning for lice and thrip has already taken place, reports County Agent Joe Jones this week.

"Normally," he points out, "the early insect control program should begin in the four-leaf stage for thrip and flea-hopper control." He suggests that cotton growers "disregard the first two leaves which are cotyledon and not true leaves."

Cotton is off to a somewhat slower start than last year, and Jones is emphasizing the need of such a control program to insure setting of the first fruit. "That's about the only means the farmer has at his control to try to catch up," points out the agent.

"Be sure to keep in mind that cotton grows from day to day and a poison program based on every seven days for fleahopper must be followed to insure good control," he adds.

The early season insect control program should begin in the four-leaf stage and be repeated every seven days until cotton has been poisoned two to four times. Regardless of the number of poison applications, stop treatment at least 30 days before the bollworm usually appears, unless flea-

hopper infestations are heavy. This period allows sufficient time for the beneficial insects to build up, and aid the bollworm control. Usually, bollworms begin to show up the latter part of July.

"Remember to follow the guide for controlling cotton insects, put out by the Texas Agricultural Extension Service. 'Don't try to double the amount of poison at any one application and extend the effective period,'" Jones warns.

"Cotton is growing every day and the young fruit is putting on new growth. This requires frequent applications to insure a reasonable coverage of poison from week to week," he says.

Guides for controlling cotton insects can be secured from the county agent's office, ginners, insecticide dealers, and others.

NEWS FROM THE FARM BUREAU

By RAYMOND EULER

Texas Farm Bureau membership is 1,000 above the same time last year. We hope this trend will continue through the end of the year so that the membership for convention action will exceed that of any past year. Our county membership is about 20 above the same period last year, too.

Senator Andy Rogers is due expression of appreciation from the farmers of Texas for his staunch support of legislation affecting farmers favorably. He supported all of Texas Farm Bureau's bills. He also stood pat for the REA bill to protect the present and future of REA, in spite of great pressure from big private utilities to let it fall by the wayside. He would be glad to hear from you. Write him a letter after looking at his voting record.

Texas Farm Bureau was successful in gaining enactment of 17 bills it had sponsored as a result of county and state conventions last year. Some of these bills were never even mentioned in newspapers, but still are mighty important to every farmer in Texas. One of these is the law making it legal for you to use your farm licensed pickup to take your family to church or town for fun. This has been illegal in Texas. Another provides raises in pay for certain groups of school teachers. The commercial feed bill is one that should prove valuable to purchasers of feeds, insuring that they have in the sack what the tag says.

The weed committee, with Raymond Schueler as chairman, and with the assistance of extension service and ASC staffs is getting underway with a very active program against the spread of bindweed this year. We hope you are giving attention to this program if you have any bindweed on your place.

The fifth annual Farm Bureau queen contest for Parmer County will be held on the night of July 20. Mrs. J. T. Jones and her helpers are making steady progress with the event and it will surely be better than ever. CONSIDER THIS: Do they not err that devise evil? but mercy and truth shall be to them that devise good. Prov. 14:22

THE HAPPY HOMEMAKER

A motto that would not be out of place in any kitchen is this one: "Happiness is not so much position as disposition." Every homemaker should strive to acquire a disposition toward happiness. By so doing she can contribute much to the betterment of her family and in this way make the world a more cheerful place in which to live.

Another motto which we like very much was brought to our attention by a teen-age girl. She ran across it hanging in one of her friend's rooms. The title of it is:

MY MOTTO
I don't worry about yesterday, IT'S GONE.

I don't worry about today, I DON'T HAVE TIME.

I don't worry about tomorrow, THAT'S GAMBLING.

I can't live yesterday over, and I can't live tomorrow today.

But I can be careful what I THINK, DO, OR SAY.

The plainest of dishes may be made more interesting by the use of spices, herbs, and sauces. If your family doesn't go for the "different" taste, try using the new flavoring agent very sparingly at first. Another thing to remember is that some of the spices get stronger when cooked.

Any clever homemaker can educate her family to new tastes in foods if she does it in small doses. Of course, if there are children in the family, she will have to enlist her husband's support in the project in order to be able to put it over.

No amount of coaxing or suggesting on the mother's part has as much effect on the children's acceptance as a few words of praise spoken by the man of the house.

For a quick, easy and creamy fudge, try this recipe for "Philly Fudge".

- 1 3 oz. pkg. cream cheese
- 2 cups sifted confectioner's sugar
- dash of salt
- 2 1 oz. squares unsweetened chocolate, melted
- 1/4 teaspoon vanilla
- 1 tablespoon cream
- 1 cup miniature marshmallows

Place the cream cheese in a bowl and cream it until soft and smooth. Slowly blend the sugar into it. Add the salt and melted chocolate. Mix well. Add the cream and vanilla and mix until well blended. Fold in

MELTON STUDIO

the marshmallows, which have been melted. Press into a well greased pan and place in the refrigerator until firm. Cut into squares.

Do you want your next angel food cake to be a little bit different without changing the texture or taste? If so, substitute two tablespoons of decorative sugar for the same amount of granulated sugar called for in your recipe.

The current styles for skirts and dresses of all ages seem to call for rickrack or lace. If your growing daughter has a "last summer" dress that is too short, a contrasting band will make an attractive length stretcher. Then to achieve the current look, just decorate the band with rickrack, beading, braid, or lace.

As the children change from regular play clothes into sun suits, a bottle of good sun tan lotion will prevent sunburned shoulders and legs.

In the past few years a lot of study has been directed toward the possibility of drilling wells for the purpose of taking care of the run-off water from our irrigation wells. The idea seems very sound and if it could be worked out, the underground level could be raised.

If wells of this type could be drilled and used for the purpose of taking care of the run-off water from rain, as well as from irrigation wells, there would be some years when the

water level could be raised enough to offset part of the drop during dry years.

Of course, in our area this spring there has not been too much run-off water from rains, but in some sections of the high plains a lot of water has run off that might have been stored for future use.

Wild flowers along the roadsides have never been prettier than they are this spring. The additional rainfall has also made the flower gardens very colorful. At the present time, there are so many rose bushes in bloom that it would be difficult to enumerate the different kinds. All of them are pretty and it is hard to tell which ones are the prettiest.

Thomas A. Edison was dismissed from a job as a young man for sleeping while on duty.

Herbert Hoover is the only man of Swiss descent to be president of the United States.

Parmer Farmer In House

W. L. "Preach" Edelman is to meet before a house agriculture committee in Washington this week to push for "a cotton program that will put farmers back in position to compete with other fibers."

Edelman left yesterday after meeting with Parmer County Cotton Growers Association in Bovina Tuesday night. He attended a cotton meeting recently in Memphis, Tenn., and explained the program which was adopted in Memphis. He is representing Plains Cotton Growers, Inc., in Washington.

"Cotton farmers need to have a domestic and export allotment. Spinners in foreign countries want to buy American cot-

ton, and we could produce it if farmers were allowed to grow part of their crop for export," he says.

"Foreign spinners want our American cotton because it is more uniform, but before they purchase cotton from us, they want a stable program, assurance of supply, and a stable price at about 25 to 27 cents a pound.

"And we need producer protection in this country. We are

recommending the two-allotment plan. Under it, a farmer could plant a portion of his crop to be eligible for Commodity Credit Corporation parity payments. The rest of his crop could be sold on the world market at prices competing with foreign producers."

Those who were to attend the Bovina meeting were President of Parmer Cotton Producers Arlin Hartzog of Oklahoma Lane, W. H. Long of Friona, secre-

RESULTS OF RECHARGE EXPERIMENT
ALLMON LAKE, FLOYD COUNTY

again installed and after a few hours of pumping several yards of sand and silt were removed from the well and it produced equally as good as after the first development. This original test proved that the lake water could be drained by gravity into the water bearing formation; but it also proved that unless the mud and silt were removed during the recharging period the formation would become clogged and would no longer take water.

During the last week in April 1957, the area again had about 5 inches of rain and again the lake became filled with water. In the meantime a concrete meter box was built at the pit-end of the 18-inch concrete pipe, and an 8-inch steel line, equipped with a flap valve, was laid from the meter box to the well. The pit was filled and a pump base was built around the well.

On April 30, 1957, at 10:35 a. m. the valves were opened and the water entered the well at the rate of 1700 gallons a minute, going into the formation and filling the well casing. The rate at which the formation took water is indicated in the chart.

It is significant to note that during the first 24 hours the well took water at the average rate of 920 gallons a minute, and that during the fourth day the rate was 620 gallons a minute, showing that the silt was gradually clogging the sand.

On Saturday, May 4, a 7-stage number 10 pump, bowls, and 180 feet of 8-inch pump column pipe and 10 feet of suction pipe were set in the well. The pump was operated for 4 hours and produced a large quantity of silt, sand, and water at the rate of about 1,000 gallons a minute.

The pump was stopped, the valve was opened, and again water started pouring into the well.

During the next 20 days the recharge is shown graphically in the illustration. Again it is significant to note that whereas the rate of recharge during the first 4 days of the experiment decreased from 920 gallons a minute to 620 gallons a minute, with pumping only once a day to remove silt, the rate of recharge was maintained at a rate of about 920 gallons a minute until the lake was drained.

Just as the lake was drained the rains came again and the lake refilled to the previous level and the operation of recharging continued.

Although the problems of artificial recharge are not fully solved by any means, the work that has been done by numerous individuals, by the cooperative work of the Texas Board of Water Engineers, U. S. Geo-

logical Survey, City of Amarillo at the McDonald Well Field in Randall County, and the work of the Water District shows that the problems can be solved and in the future millions of acre-feet of surface water can be salvaged that otherwise would be wasted.

Farmers Getting Maps

About 18 soil and water conservation plans received approval of the SCS district supervisors during May, according to Floyd Crume, work unit conservationist.

Part of the plans have already been issued to the farmers and others are to be issued as work allows, Crume says.

The 18 plans recently approved brings the total number of plans in the district to about 400. Potential number of plans for the district is 1,056, Crume says.

Plans approved in May included the following farms: E. C. Seifert of Levelland, Glen C. Stevick of Friona, Claude Rose of Farwell, Paul D. Johnson of Friona, J. W. Langston of Lubbock, Oran Mauldin of Friona, Joe Blair of Farwell, G. Jongman of Dimmitt, Dalton Mimms of Lazbuddie, Thomas Lewellan and Sons of Black, Glenn Floyd of Friona, Claud Ellis of Modesto, Calif., C. Warrell of Lubbock, J. T. Atkinson of Farwell, E. F. Readhimer of Bovina, C. D. Cooper of Friona, and Gilbert Wenner of Friona.

If these farmers have not received their plans yet, they will get them as soon as possible, Crume says.

The soil and water conservation plans allow a farmer to plan his operation for an entire farm in such a way to better use and treat every acre in keeping with its needs for protection and improvement, Crume says.

To get a map, a farmer may contact the SCS office or the board of supervisors and make arrangements for a plan for his farm.

Upon the farmer's application, the SCS takes a land inventory and soil survey, and plots each acre on a map showing the class of land to which each acre belongs. Farmers and SCS technicians work out a plan for different fields. This allows the farmer to know what he should grow on each field and what conservation practices should be carried out.

"It is a progressive step for a farmer, because he usually has been using some of his land for specialized treatment. With a soil and water conservation plan, he takes a step from conservation on part of his farm toward conservation on every acre in the farm," Crume says.

FB Queen Contest To Be in Bovina

Parmer County's fifth annual FB queen contest will be held in the Bovina School Auditorium Saturday night, July 20. Mrs. J. T. Jones of Bovina is county chairman in charge of the event this year. Her co-chairman is Mrs. A. R. McCutchan, also of Bovina.

Entries turned in from the Bovina area last week are: Nita Beth Estes, by Gaines Hardware; Arvis Williams, by Joe M. Brown Gin; Kay Hartzog, by Lawlis and Ely Gin.

Community chairmen appointed by the chairmen are: Mrs. Franklin Bauer, Rhea; Mrs. Bruce Parr, Black; Mrs. Roy V. Miller, Friona; Mrs. M. T. Glascock, Farwell; Mrs. Les Bruns, Lazbuddie, and Mrs. Gilbert Kaltwasser, Oklahoma Lane and Lariat.

Any individual, group or business may select entries for the contest. Entry fee is \$10 which goes to the fund for financing the contest. The county winner will receive a check of \$100 and all entries will receive token awards. District winners will receive an expense-paid trip to the state convention in November. The state winner will be allowed \$500 for herself and matron to attend the national Farm Bureau convention in Chicago in December. The remaining 12 district

winners will receive a beautiful watch.

Eligibility rules are as follows: 1. Must be the daughter or sister of a Farm Bureau member actively engaged in agricultural production. Membership should be in Parmer County.

- 2. Single.
- 3. Age 16-22 (16 by September 1, 1957, and not over 22 by September 1, 1957.)

4. County must have at least 25 members.

5. To enter district elimination, county must have a queen contest with at least two entries.

6. Exceptions: daughters of state directors, county presidents and previous state winners are not eligible to enter this contest.

Cotton dresses will be worn in the county contest this year, and corsages will not be worn.

Previous winners in Parmer County have been Denise Magness, 1953; Phyllis Jean Fairchild, 1954; Clara Jean Jesko, 1955; and Judy Bruns, 1956.

Recharge Well Takes Over Million Gallons Water Daily

By W. L. BROADHURST

At last—the rains came—as we have believed they would for eight long years.

Many people in the High Plains, who are now aware of the diminishing supply of underground water, are concerned

with the problem of saving the large quantity of water that has recently collected in the thousands of wet-weather lakes by draining the water into the underground reservoir for storage and future use.

Numerous farmers throughout

the High Plains have installed dual-purpose wells near lakes for the purpose of draining the lakes and producing irrigation water. Such practice has been described by them as highly successful.

Although the practice is not yet fully acceptable to economists and engineers, many of whom are naturally skeptical until shown, the High Plains Water District has developed some important information from the recharge experiment that is being carried out at the Allmon Gin in southwestern Floyd County.

In the fall of 1953 a well was drilled near the edge of the lake. Total depth was about 380 feet. It was cased with 12-inch steel casing, the bottom 150 feet being slotted. It was developed by pumping with a test pump and produced about 1,100 gallons a minute.

A pit was dug around the well and filled with cotton burs. An 18-inch concrete pipe was laid from the bottom of the lake to the pit, the lake end being equipped with a valve and the pit end had a meter for measuring the flow of water from the lake to the well.

In June 1954 the area received a heavy rain and the lake caught 52 acre-feet of water. After a few hours wait, in order to let the coarse silt settle to the lake bottom, the valve was opened and the water flowed by gravity into the pit. However, it was soon discovered that the cotton burs, although fully composted, did not prove satisfactory as a filter. Nevertheless muddy water entered the well at the rate of 1,050 gallons a minute.

The well was not equipped with a pump and as a result, after eight days of recharging, the formation became clogged with silt. A test pump was

Wheat Farmers To Vote Thursday

Wheat farmers will decide by referendum on June 20 whether or not they want market quotas on the 1958 wheat crop.

The outcome of the referendum will decide the level of available price support for the 1958 crop, as well as whether quotas and penalties on excess wheat are to be used.

Under legislation, the secretary of agriculture must proclaim marketing quotas for the next crop when available supply is 20 percent above normal supply. The estimated supply of

1,825 million bushels available for the 1957-58 marketing year is 56 percent above normal supply of 1,170 million bushels. Normal supply is based on estimated domestic consumption and exports plus a 20 percent carry-over.

Quotas will not become effective unless at least two-thirds of the producers voting in the referendum favor quotas.

If quotas are not approved the allotment will remain in effect and wheat growers who comply with their allotment will be eligible for price support at about \$1.18 per bushel. Non-complying farms would not be eligible for price support if quotas are not approved.

If quotas are approved, wheat growers who comply with allotments will be eligible for price support at \$1.78 per bushel on their entire production.

Persons who will have an interest in more than 15 acres of wheat next year will be eligible to vote. This includes farm operators, owners, and wives of each.

William Howard Taft was the first U. S. president to receive a salary of \$75,000 a year.

4-H'ers Attend Camp

(Editor's note: The following is a story written by Richard Chitwood, Lazbuddie 4-H member, who was a county delegate to 4-H camp which was held last week.)

On June 3, 4 and 5, Richard Chitwood, James Brown and Beverly Smith of Lazbuddie, Jim Roy Wells of Frona and Gladys and Lindy Dean of Bovina attended the District 1 4-H Club camp at Don Harrington Boy Scout camp near Canyon, Tex.

After we registered, we took training courses in recreation, nature study, rifles, camp making, wildlife study, 4-H records, electrical safety and others.

We enjoyed a flag program, talent times, stunts and vespers each evening. We also had plenty of free time for games and other recreation.

Including all the delegates, county agents and visitors, there were 188 present for the camp session.

Everyone had a good time and enjoyed the good food.

ORANGEGG—A "QUICKIE" BREAKFAST—Getting family members to eat an egg for breakfast may be pretty hard to do on these hot summer days. Oranegg, served in a frosty cold glass is a fine way to get not only egg, but also orange juice. It's easy: simply beat one egg thoroughly. Mix well with eight ounces of fresh or frozen orange juice and serve immediately in frosted glasses.

RAW VEGETABLES FOR "DUNKING"—Work more vegetables into the diet during the summer months. Extension foods and nutrition specialists suggest crisp, colorful raw vegetables for appetizers, between meal snacks, and tasty salads. For entertaining, add some carrot curls, celery sticks, radish roses, raw cauliflower or broccoli flowerettes to the refreshment tray. Serve a zippy sour cream cheese, or avocado dip for "dunking" the vegetables. Guests will enjoy the informal atmosphere of the party and appreciate the extra "vita-

Weed Committee Maps Control Plans

Members of the Farm Bureau weed committee met in Frona last Thursday night to continue plans for bindweed eradication and control. Raymond Schueler, committee chairman, said that cooperation is increasing among individuals and county, state, and industrial groups.

Prentice Mills, ASC office manager, reported that over a hundred of the questionnaires relating to bindweed location have been returned to his office. Maps showing infested plots are located in the ASC office, county agent's office, and the Farm Bureau office. Mills said that there is a fund of about \$3,000 available to farmers for assistance in field bindweed control. Interested persons should inquire at that office.

SOIL CONSERVATION DISTRICT NEWS

Most of you have already received the district's news letter on "Control of Insects Through Water Control." If you did not receive a copy, let us know and we will see that you get one.

Every community minded person should become familiar with insect control, especially mosquitoes, and their control. It may save your life.

Recent rains have caused washes to show up again on a number of the farms in the district. Most of these are at the end of the rows. This may even be stopped at this late date, to a great extent, by simply drilling grain sorghum at the regular planting rates across the beds on the end. This slows water down and reduces the cutting action of the water.

Do you have your vetch seed for interplanting in your cotton or grain sorghum? Now is the time to make arrangements for the seed and inoculant, so when the time to plant comes, you will be sure to have your seed supply. All legumes should be inoculated before planting.

As of June 1 the Soil Conservation Service technicians have assisted farmers in the district to install 60.2 miles of concrete pipeline for the conservation of irrigation water in Parmer County. This would be enough pipeline to run from Hereford to Clovis on U. S. Highway 60 with 5 miles left over. This is only the pipe that was laid the first half of 1957. There will be more this year.

Research Station Gets Second Well

After two delays, caused by rains, a new engine, pump and gearhead were installed in the new well located on the east quarter section of the 310-acre research farm of the High Plains station at Halfway.

Plainview merchants drilled and supplied the equipment to operate this well. Bud Gibbons drilled the well and installed the casing, George Taylor supplied and set a Fairbanks-Morse pump, Stapleton Brothers Machinery and Tank Company furnished the gearhead and Newman Motor Company supplied the Chrysler Industrial Engine.

"We appreciate very much the efforts of all those who helped provide this second well," stated Dr. Longnecker, head of the High Plains station. "Because we are now assured of an adequate supply of irrigation water to carry on our research program this summer."

Rains have handicapped the station planting as they have most of the neighboring farms in the Halfway community.

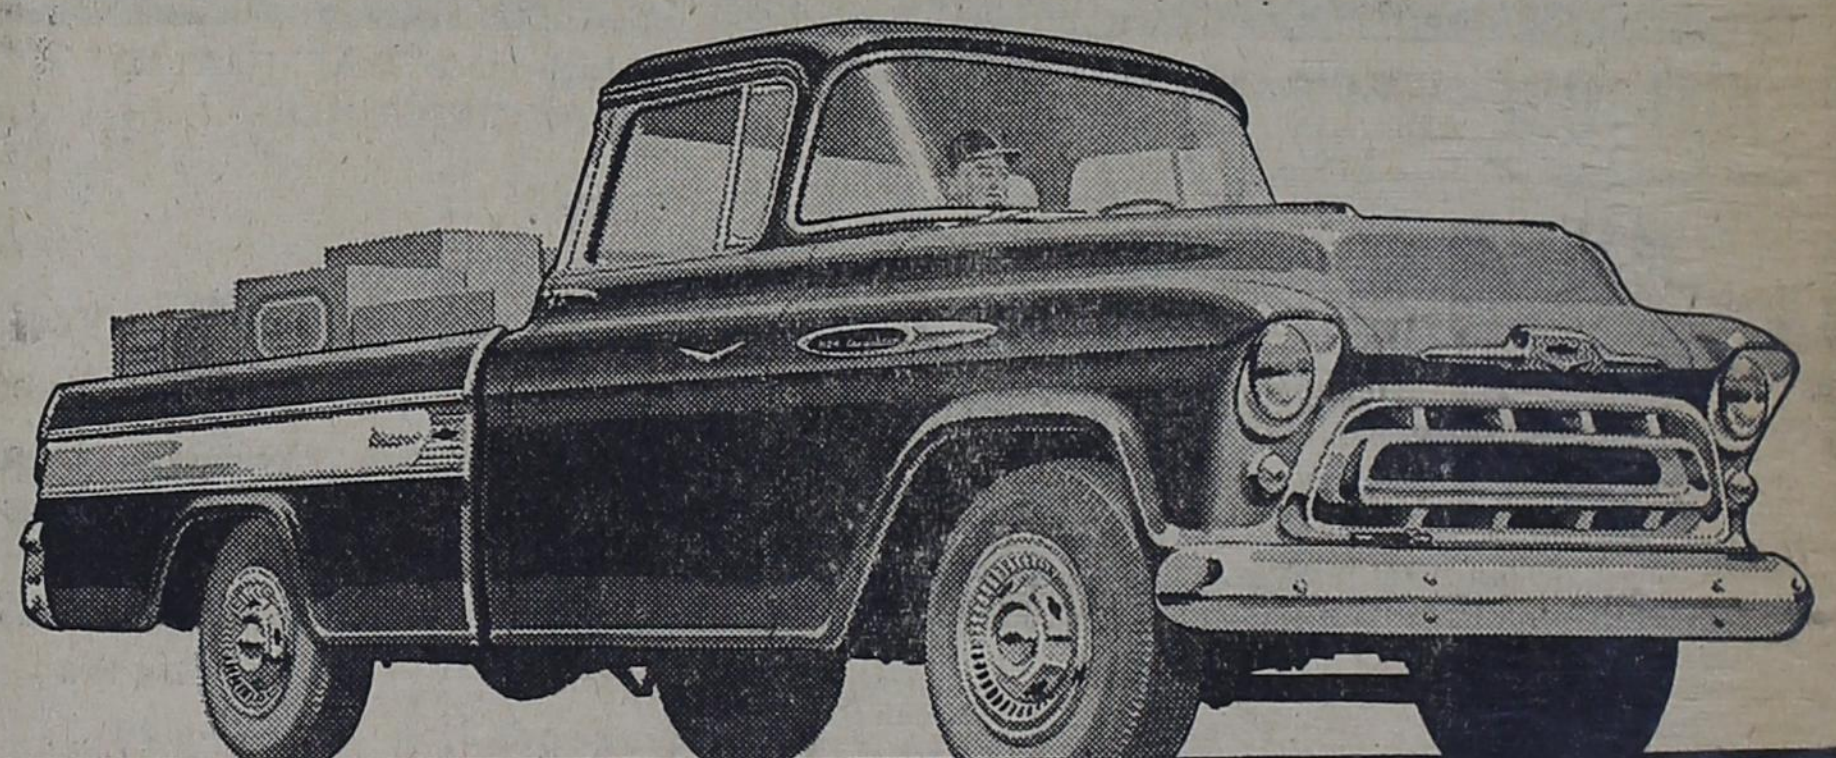

However, 24 varieties of experimental grasses have been planted in the dryland areas of the farm. On May 24 only eight acres of cotton, one and one half acres of grain sorghum, and 15 acres of corn had been planted on the research farm.

A Complete Service

We, at Adams Drilling Company, pride ourselves on offering a COMPLETE irrigation well service . . . everything from doing the drilling of the well to the smallest repair job. We'll welcome the opportunity to serve you and your irrigation needs.
