Little League All-Star Team Selection Made

The Little League All-Star team players were announced this week by Oliver Wuest, director of Little League play. They will play July 20, at 8:30 p.m. at the local Little League field. The final game of the season pitting local players will be played tonight (Thursday). Chosen to represent Sonora in playoff and as members of the

All-Star team were Johnny Ramos, Mark Hemphill, Clay Hicks, Armando Dominequez, John David Cook, Tobin Joy, Craig Parker, Gregg Parker, Chip Savell, Nelson Brown, John Webster Elliott, Robert Harris, Johnny Creek and Juan Samaniego. Alternates chosen were Louis Samaniego and Arturo Lopez.

18 to 20-Year-Olds To Vote In All County Elections

Erma Lee Turner, County Clerk, received an official notification from Martin Dies, Jr., Secretary of State, in regards to voter status of 18, 19 and 20-year-olds.

The release states: "This is to formally notify you that persons 18, 19, or 20 years of age who are presently registered to vote for federal elections only may now vote in all elections in your county and other political subdivisions.

The 26th Amendment to the United States Constitution lowering the voting age to 18 in all elections has been duly ratified by the state legislatures as prescribed by the Federal Constitution. The Federal Register in Washington D.C. confirmed July 1, 1971, that this new amendment went into immediate effect. This United States Constitutional Amendment overrides Article VI of the Texas Constitution insofar as it requires an otherwise qualified voter to be 21 years of age to be eligible to vote. Thus as of July 1, 1971, any registered 18, 19 or 20-year-old may vote in any election, federal, state, county, city, or other political subdivision."

Coast To Coast Route Interstate-10 Scheduled For Completion In 1975

Within the next five years or so, it will be possible to drive from Jacksonville, Florida to Santa Monica, California—a distance of 2,457 miles—in roughly 40 hours, 57 minutes at an average speed of 60 miles per hour.

Making it all possible is Interstate Route #10 (I-10)—a coast to coast superhighway now scheduled for completion in 1975.

Progress on I-10 as it passes through eight states along the southern tier of the nation is reported in the current issue of "Highway User", a quarterly magazine published by the Highway Users Federation for Safety and Mobility in Washington, D.C.

At present, according to the magazine, I-10 is about 63 percent complete. Of its 2,457 miles, 1,544 miles are already open and in use. Another 429 miles are under construction; and 484 miles are in a stage where design plans are being drawn and right of way is being acquired.

Where and how far can one travel on I-10 at present? "Highway User" provides the answer in a state-by-state status report.

In Florida, the magazine reports that a lot of work still needs to be done with only 158 miles open out of a total of 363 miles. From its start in Jacksonville, I-10 heads due west to Live Oak, where the route comes to a halt. From that point the motorist is obliged to use U.S. 90 through Tallahassee and on to Pensacola and the state line.

In Alabama, there are 66 miles of I-10 planned and 49 of them are already open. Crossing the state line, the car stays on I-10 until a point just east of Mobile Bay before switching back to U.S. 90. The seven-mile viaduct style bridge that will carry I-10 traffic over the bay is not yet built. Beyond Mobile, the switch is back to I-10 and along the Gulf Coast to the Mississippi line.

In Mississippi, progress on I-10 is slow. Of the 77 miles of superhighway planned, only three are presently open. The motorist is obliged to use U.S. 90 for his journey across the Magnolia State.

In Louisiana, 156 miles are open out of the state's total I-10 mileage of 275. One-hundred miles are under construction. Through New Orleans to Lafayette the motorist uses U.S. 90. Then I-10 is regained all the way to the state line at Lake Charles.

In Texas, there is still much to be done on I-10. Out of a total of 878 miles, 544 miles are open and in use with another 112 under construction. Crossing the Sabine, I-10, passes through Beaumont and on to Houston. I-10 continues from that point to Flatonia where the motorist again switches to U.S. 90. After 50 miles, I-10 is again regained for the trip to San Antonio. Heading into the Texas hill country, I-10 heads northwest to Com-fort, where the switch is to U.S. 290 and short, completed sections of I-10. Eleven miles

west of Van Horn, I-10 resumes for the next jump of 108 miles to El Paso, and then it's straight ahead for another 28 miles to the state line.

In New Mexico, "Highway User" magazine described I-10 as being "in pretty good shape" with 146 miles open out of a planned total of 164. Except in about three cities—Las Cruces, Deming and Lordsburg—I-10 is now open across the state.

In Arizona, progress on I-10 is also good with 267 miles of I-10 open out of a total of 393. Another 74 miles are under construction. Crossing the Grand Canyon State's eastern boundary the motorist cruises I-10 all the way to Tucson and then Phoenix. From that point, U.S. 60/70 leads west to Quartzite where I-10 is resumed and continues to the Colorado River.

In California, "good news" for I-10 with 221 miles open out of I-10's total of 241. Nine more miles are under construction. Entering the state, the motorist continues on U.S. 60/70 for a few miles until coming back to I-10. Then straight ahead through desert country to Alhambra, through Los Angeles county to Santa Monica and the sea.

I-10, of course, is but one of several routes that will make up the 42,500 miles Interstate Highway System now scheduled for completion in 1977. When it is finished, this network of divided, limited access superhighways will link up all major metropolitan areas, as well as providing several safe, efficient and convenient routes coast to coast and border to border.

FOUR GRADUATE STUDENTS WHO WILL ENROLL this fall in a master's degree program at Texas Tech University for counselors in schools with large numbers of Mexican-American students confer with Dr. Robert D. Gold, left, associate director of the 12-month course. They are, from left, Rev. Rodney Howell, pastor of

FOUR GENERATIONS ATTENDED THE TRAINER FAMILY REUNION held here over the July 4 weekend. Pat Nicks of Golden, Colorado, holds two-year-old Patrick. Pat's father, Sam R. Nicks, formerly of Sutton and Schleicher Counties, now lives in Colorado Springs, Colorado, and his mother, Mrs. R. D. Stallings, former Cora Trainer, the oldest living child of the late Mr. and Mrs. Fred Trainer, makes her home in Pasadena. Eighty-two people attended the reunion, returning to the home now owned by Mr. and Mrs. Jack Trainer, hosts for the event. The family members came from Rocksprings, LaPorte, Pasadena, Houston, Lubbock, Arlington, Eastland, as well as from Colorado and Alabama.

HOSPITAL AUXILIARY PLANS MONDAY MEETING

Members of Lillian M. Huds-peth Hospital Auxiliary plan to meet Monday, July 12, at 3 p.m. at the nursing home. All members and interested persons are invited to attend, a spokesman for the group said.

Brown Electric To Re-Open

Buddy Brown has re-opened his electrical business, which he operated before closing and moving to Snyder last year.

Brown will take service calls from his residence at 708 Poplar Street.

Maj. J.D. Eaton Special School Graduate

Major John D. Eaton, III, son of Mr. and Mrs. John Eaton, was one of four graduates of the General Dentistry Residency Program in ceremonies held June 18, in the chapel of the U.S. Darnall Army Hospital. The officers, upon graduation from this special program, are awarded a military specialty designation in General Dentistry and are assigned in responsible leadership capacities.

Major Eaton attended the University of Texas, Dental Branch from 1960 to 1964, receiving the DDS degree. His assignments since commissioning as a US Army Dental Corps Officer in 1964 include Fort Sam Houston, Fort Hood and Vietnam. He attended the Army

Medical Career Course at Fort Sam Houston in 1968. Major Eaton and his wife, Dianne, have two girls, Terissa and Alicia. He is now stationed in Fort Huachuca, Arizona.

Amistad Report

Amistad elevation Saturday morning was 1057.30, up .01 from Friday. Depth of the water at Amistad Dam was 157.30 feet, up .01. Water storage amounted to 939,771 acre feet, an increase of 232 acre feet. Water surface measured 23,169 acres Saturday morning, an increase of 5 acres. Downstream release was 1,120 second feet in comparison with 1,100 acre feet Friday.

School Trustees Discuss '71-'72 Operating Budget

The Board of Trustees for Sonora Independent School District summarized and discussed a \$726,038 operating budget for the 1971-'72 school year. This is a slight reduction over last year's budget which will probably stand at \$735,000 at the end of August 31, Ken McAllister, superintendent of schools, said. Board members set the tax rate at the same figure as last year with \$1.22 designated in the maintenance fund and

.16, sinking fund, or a total of \$1.38. Value of land in Sutton County for taxable purposes is as follows: Oil and Gas—\$10,681,940 Real and Personal Property—\$21,960,291, making a total of \$32,642,231. Under the current rate, local taxes will provide \$450,462.79, with an anticipated 97% collection. To provide funds for the budget, revenue other than tax collection calls for \$258,805 from State sources.

In the special meeting set Tuesday for the purpose of budget discussion and other miscellaneous matters, some discussion was held in regards to insurance due on school buildings. No definite action was taken as the rate to be charged by the insurance companies has not as yet been determined. It is expected that insurance premiums in the amount of \$25,000 will be due in the near future.

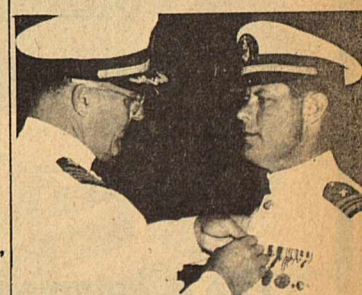

The L. W. Elliott School building may be offered for rent if suitable tenants can be found. Considerable discussion was held in regards to renting the property.

In other school business, McAllister said the school is still trying to locate a counselor to work with the high school age group. Funds for a counselor have been included in the cur-

IH-10 Construction Approved Here

The Texas Highway Commission has approved construction of a section of Interstate Highway 10 in this county. The work includes construction of grading and structures from 0.9 mile east of US Highway 277 eastward to 0.9 mile east of Ranch to Market Road 864, a distance of approximately 4.0 miles. Estimated cost of the project is \$1.8 million.

rent budget and efforts to locate one are still being made, he added.

Chaplain Decorated

A native of Sonora who served as priest-in-charge at Santa Fe Church in 1961 and 1962 in San Antonio, Navy Chaplain (Lieutenant Commander) Thomas D. Bond has been presented the Navy Commendation Medal for meritorious service in Vietnam. A son of Mr. and Mrs. Tom Bond of Uvalde, he was ordained deacon by Bishop Jones in 1961 and priest by Bishop Dicus in 1962. Chaplain Bond entered the Navy after serving at Santa Fe and later in Mexico.

His citation was "for meritorious service while attached to and serving with Commander Amphibious Force, U.S. Seventh Fleet, from Jan. 30 to July 31, 1970, during combat operations."

The citation continues by stating "Chaplain Bond displayed exceptional initiative and resourcefulness in providing spiritual and moral guidance for men on the rivers of the Mekong Delta. Despite the adverse conditions of a combat environment, he demonstrated an unrelenting and untiring effort to identify with the sailor of the 'Brown Water Navy'. In his concern, compassion, and pastoral care of this vast congregation, he brought encouragement, hope, and cheer..." Chaplain Bond returned from Vietnam in January and is now senior chaplain at Naval Air Facility, El Centro, Calif.

St. Philip Church at Shallowater and St. Anthony Church at Anton. Olga Vecchio, Mary Lou De La Cerda, and Alma Perez, all of Lubbock. Mrs. Perez, a Sonora High School graduate, is the daughter of Mr. and Mrs. Alfredo Sanchez, and is married to Louis Perez, also former Sonoran.

Editorials-Features-Columns

The most effective single force in building a good community is a good newspaper.

"Grassroots Opinion"

EVERETT, WASH., HERALD: "What would you guess is the fastest-growing business in the United States? Electronics? Wrong. The correct answer is government. Roughly one of every seven employed Americans now works for the government—federal, state and local. And government employment is growing much faster than employment in private enterprise. In effect, every six private workers in the U.S. must

support themselves and the seventh who theoretically works for them. It is now apparent why taxes at all levels are high and going higher?"

ROSHOLT, S. D., REVIEW: "Beecham, Inc. is in the market for hair and is paying \$200 a pound for it. The hair is needed to test hair grooming products the company makes. A good long-haired male or female the company says, can collect about \$400 at a single clipping. That means, says the company, that a youngster starting high school this year could grow himself a trip to Europe by the time he graduates." Who says long hair doesn't have its advantages? "The Lord helps those who help themselves," is a saying from the good book. Some folks should take a close look at the spelling of that word LORD. It isn't spelled UNCLE.

ALAMO, TEXAS, NEWS: "The government mis-spends and wastes an enormous amount of money, but it may be worth that much to the taxpayers to have something to put the blame on for many of their frustrations and troubles."

COMMUNITY CALENDAR

SATURDAY, JULY 10
2-5 p. m., Sonora Woman's Club Library open

SUNDAY, JULY 11
Services at the church of your choice

MONDAY, JULY 12
8:30 a. m., City Commissioners meeting, City Hall

TUESDAY, JULY 13
12 noon, Downtown Lions Club luncheon in Fellowship hall of First Methodist Church

7:30 p. m., Firemen's Auxiliary meeting in Fire Hall

WEDNESDAY, JULY 14
2:30-5:30 p. m., Sonora Woman's Club Library open

BEDFORD, IND., TIMES-MAIL: "Being impressed by the mountains of pet foods on display in the supermarkets, we have long assumed that dogs have never had it so good. Now a couple of federal agencies are raising questions about the effects of exclusive feeding of all-meat dog food and fortified dog foods promoted as a 'complete' or 'balanced' diet. Poor things. And here we thought all along that dogs (and cats) have come a long way since the days when they had to settle for table scraps."

IDAHO FALLS, IDAHO, EASTERN IDAHO FARMER: "Education is a wonderful thing. Ten years ago, hardly anybody knew what the word 'ecology'

meant. Now everybody knows—and everybody also knows exactly what to do about it. In the brief span of a decade, they became authorities on the subject. Of course, there's wide disagreement on what should be done to protect and preserve the environment. What we really need, perhaps, is more ecology education. That's coming, too. It is generally agreed that all of the opportunities in an expanding field in the United States, ecology offers everything."

A Bishop Looks at Life

AMERICA'S DREAM

By Everett H. Jones
Retired Bishop of the EPISCOPAL CHURCH

When the late Peter Marshall was pastor of a church in Washington, D. C., and chaplain of the U. S. Senate, he preached a memorable sermon on "The American Dream." It was reprinted in a book called "The Man Called Peter" written by his widow, Catherine Marshall. It has a strong message for you and me today, as these excerpts will show:

"There have been periods in our history when the American Dream has faded and grown dim. Today there is real danger that the American Dream will become the Forgotten Dream. For freedom is not the right to do as one pleases, but the opportunity to please to do what is right. The founding fathers sought freedom not from law but in law; not freedom from government, but freedom in government; not freedom from speech, but freedom in speech; not freedom from the press, but freedom in the press; not freedom from religion, but freedom in religion.

"The plea of the Church today is not that people shall call upon God to return to democracy and bless it, but rather that we shall together cause our democracy to return to God and be blessed. Let us remember that we are a republic under God. Let us remember that each of the metal coins we jingle in our pockets bears the inscription "In God We Trust". Is that just blasphemy? What does it mean to trust in God? No conception of trust in God can make any sense which assumes He will prosper our ways or bless us, until our ways become His ways—until we begin to keep the conditions He has specifically laid down for national blessing.

"America may be humanity's last chance. Certainly it is God's latest experiment. But we cannot fool God about our individual or national goodness. Let us not be deluded into thinking we can fool ourselves.

"Here is God's word for America today: 'If my people, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land.'" (I Chronicles 7:14)

Lawrence Holland, Mike Holley, Johnny Ramos, Alex Castro, Bobby Ramos, Frankie SoRelle and Jimmy Trainer.

Mrs. Edith Phillips of Glendale, Calif., is in Sonora visiting relatives.

Johnny Fields and Charlie Howell were among the Sonorans attending the Rocksprings celebration.

James Morris and son Johnny and Penn Baggett of Ozona left Wednesday for a jaunt to Falcon Dam, where they will fish for three days. Meanwhile, Mrs. James Morris and son Jimmy are visiting relatives in Carrizo Springs.

Five fishermen returned home from a fishing trip to Canada. They were Ed L. Mears of Menard, Lea Allison, Jack Neill, Gay Copeland, who piloted the group plane, and Dr. Charles F. Browne, affectionately dubbed "Peanuts" by his companions.

51 YEARS AGO
Mrs. Robert Halbert and Mrs. T. L. Benson, were charming hostesses to the Needlecraft Department of the women's club on Friday, at the beautiful ranch home of Mrs. Halbert.

It was an unusual treat to motor out for the affair, and despite the warm day and a little shower of rain, quite a few ladies accepted this hospitality.

Among those present were Mrs. Harlow of Waco, sister of Mrs. L. W. Elliott, and Mrs. Wilson, mother-in-law of Mrs. Willie Wilson, who were visitors in town.

After a brave effort, the ladies voted weather too warm for work and all moved to the sleeping porch, where those who chose, joined in a game of "Forty-Two", after a salad course was served all voted the afternoon one of the most pleasant of our summer gatherings and motored in again.

Mr. and Mrs. Ted Gilmore and baby returned to their home in Fort Worth Saturday after a ten day visit to Mr. and Mrs. S. T. Gilmore.

Mrs. W. J. White and her guest Miss Gwendoly Callas were in from the ranch 30 miles south east of town Thursday shopping.

Mrs. L. J. Wardlaw and sons Ariel and Jack were in from the ranch in Edwards county Thursday and on their return were accompanied by Misses Dora Lee McKrae and Pansy Buckner of El Paso who will spend a few days on the ranch.

Mrs. Louie Roueche and children were visiting relatives in San Angelo for the past ten days.

Mr. and Mrs. Ford Allen and daughter, Betty Sue, visited in Brownwood last week.

Mr. and Mrs. Jim Hugh Richardson and daughter, Emma Jo, and Mrs. Jack Sharp, spent the first part of the week in Rocksprings, the guests of Mrs. Richardson's brother and family, Mr. and Mrs. Tom Nix.

Louie Trainer, owner of the Piggly Wiggly Grocery, announces that he has sold an interest in the business to Ariel Newton.

Guests of Mr. and Mrs. C. T. Jones last week were Mrs. Geo. McNeely and daughters, Beth Ann and Emily, of Texarkana.

Miss Anne Karnes went to Midland this week the guest of Mr. and Mrs. Gerald Nobles.

George Barrow returned Tuesday night from a two-day fishing trip on North Llano.

Arch Valliant was in San Angelo last week for treatment.

JULY 6, 1961
Sonora Little League All-Stars will meet their Ozona counterparts here Monday night, July 24, in area championship playoffs. Nominees for the All-Star team are Laney Cook, J. V. Cook, Ed Lee Renfro, Frank Fiemo, Noe Chavez, Mickey Esquivel, Gary Hardgrave, Freddy Benson, Hector Noriega, Dorr Scherz, Brent Johnson.

The Devil's River Philosopher Sez... Wants Right To Stamp Classified On Things Given To Everybody

Editor's note: The Devil's River Philosopher on his bitter-weed ranch on Dry Devil's River takes a look at a current controversy this week with his own brand of insight.

Dear editor:

I had always thought that "Classified" was something you paid for in a newspaper's Want-Ad section and wanted people to read, but like everybody else in the country who has seen a newspaper or watched television recently I've learned that Classified means something the Pentagon considers secret and doesn't want anybody else to read.

However in the uproar over the publication of the Vietnam classified documents from 47 volumes (some people wonder what the Pentagon needs with 50 or 60 billion dollars a year but they don't understand the details; have you ever figured up how many rubber stamps it takes to stamp 15 sets of 47 volumes containing 7,000 pages with the words Top Secret-Classified?) there's one point it looks like everybody is missing.

The point is, how come the Pentagon is the only outfit with the right to stamp something Classified and thereby make it against the law for outsiders to see it?

Personally I'd like to see this

right extended, even if a man has to buy his own rubber stamp. Probably could get one at a government surplus sale.

For example, take a man's credit rating. If anything ought to be classified, that should. When a mail order house wants you to buy something on credit and you'd like to too but it first insists on seeing your credit rating, you ought to have the right to say you're sorry but that information is classified but go ahead and fill the order.

If there was some way I could stamp my bank balance Classified and keep some bookkeeper or computer from looking at it, I wouldn't care how high taxes got or how far inflation went.

Boxed in with a hard question about where you were Saturday night? Mark it Classified and restore peace in the family.

The Pentagon is on to a good thing and I'm in favor of passing it around.

Yours faithfully,
J. A.

Mrs. G. Lacy Recent Bride

Mr. and Mrs. Gene Shurley have announced the recent marriage of their daughter,

Suzanne, to Garvin Henry Lacy of Eldorado.

The bridegroom's parents are Mr. and Mrs. Jim W. Lacy, Sr., of San Angelo.

Mrs. Lacy attended Sonora High School and will continue her studies in San Angelo in the fall.

Her husband is a graduate of Eldorado High School. He plans to attend Angelo State University this fall.

The couple is presently making their home in Austin.

Firemen's Corner

by YVONNE CARROLL

The 42nd annual Texas Firemen's Training School will be held from July 18 through July 23 at Texas A&M University. It is sponsored by the Engineering Extension Service, The Texas Education Agency and the State Firemen's and Fire Marshal's Association of Texas.

Courses to be offered will include the following: Firefighting I, II and III; Fire Prevention I, II, III and IV; Fire Dept. Instructor Training; Fire Dept. Administration and Fire Dept. Pump maintenance and pump operations.

Attending the school from Sonora will be Darcy Carroll, Louis Olenick and Gene West.

387-2424

Texas State Fire Marshal, Charles Meadows has again reminded all fire departments that the sale of carbon tetrachloride fire extinguishers are prohibited by state law. Also prohibited by law are any that are not approved by the Underwriters Laboratories, the Factory Mutual and a few others.

387-2424

A Heart-Lung bill passed both houses and is awaiting the Governor's signature to become law. It will provide line-of-duty disability for any fire fighter who is disabled or dies as a result of heart or lung disease, provided the fire fighter has been employed at least six years. ("Texas Fireman's News")

Mr. and Mrs. Kenneth Ray Dixon of San Antonio, are parents of a daughter, Kenda Leigh, who was born in a San Antonio hospital June 17, 1971. She is a great-granddaughter of Mrs. D. Q. Adams.

STRAWBERRY STORAGE
Treating your family with fresh strawberries? Store them whole and uncovered in the refrigerator until ready for use. Washing and stemming them immediately can result in food value loss and increased spoilage. According to USDA, prepare and use as soon as possible, within 1 or 2 days.

U.S. Representative John H. Rousset and family of California were here for a few days last week visiting his brother and family, Mr. and Mrs. Norman Rousset. They were enroute to Washington, D.C. Mr. and Mrs. Bob McMinn, Drew, Kitty and Sarah were in Sonora last week visiting friends. They were on their way to Kileen where they will teach in the schools.

Visiting Mrs. Joe B. Ross is her daughter, Mrs. Lee Chasner and daughter of New Orleans, La., and two grandchildren, James Ross and Suzie Builta of Austin.

Kirk and Ford Bond visited for a week with their grandparents, Mr. and Mrs. Frank Bond.

Mr. and Mrs. H. A. Belk have moved to Mertzon, where he will assume the job of County Agent.

Lt. Col. and Mrs. Claude T. Driskell and sons of Colorado Springs, Colorado, were recent visitors of his mother, Mrs. Juliet Driskell. Also visiting were her grandson and his wife, Mr. and Mrs. Thomas R. Driskell of Uvalde.

Roy Holland of Junction, visited Mrs. Muriel Hamilton and Mrs. Juliet Driskell for a few days.

Visiting Mrs. Ben Berry recently were her twin great-granddaughters, Sherry and Susan Berry of Amarillo and another great-granddaughter, Timberly Laudermilk of Cuero. The twins are the daughters of Mr. and Mrs. Glenn Berry.

Know that Tryon Fields will really enjoy his trip to Japan to the World Scout Jamboree. In checking through some old issues of the Devil's we found that two other scouts also had the honor of attending World Jamboree for scouts -- the scouts? Wesley Sawyer and Jack Shurley attended the World Jamboree in Holland in 1937. Maybe there have even been others who have had this great experience.

Miss Rachael Shurley, daughter of Mr. and Mrs. Billy Shurley, is here visiting her grandmother, Mrs. E. D. Shurley. Grandmother says Rachael is "working" for her in the store while she is here.

Mr. and Mrs. Tracey Metcalfe were in Mexia over the weekend to attend the kick off celebration of the Mexia Centennial which began July 4 and will continue through the week. They met Monday morning at the Hank Schulte Ranch and were entertained by the "Sweet Adelines". Governor Preston Smith was the honored guest at the coffee and luncheon that followed in the high school auditorium at noon.

Seven queens were chosen to represent the town during the Centennial, one of them being, Mrs. Don Metcalfe, daughter-in-law of our local Metcalfes.

Mary Lois and Buddy Brown have moved back to Sonora. Buddy is re-opening his electrical business and they will occupy their home on Prospect Street.

Mr. and Mrs. J. H. Taylor, local Border Patrol family, have moved to Lincoln, Maine. The Bill Means family will occupy the Lightfoot home formerly occupied by the Taylors. The Cliff Trainers of LaPorte, who were here for the Trainer Family Reunion, left Monday for a trip to Hawaii, with their son and his wife, Mr. and Mrs. C. L. Trainer of Lubbock.

DUPLICATE BRIDGE
Four-table Howell was played Monday night at the Sonora golf clubhouse. Winning first at duplicate bridge were Diane Barfield and Frankie Williams

of Eldorado; second, Fela and Tony Cheatum of Eldorado; third, Mrs. Buddy Brown and Patsy Kilgo of Lubbock and fourth, Mrs. Lue Hillmer of San Antonio and Vivian Mearns.

Mr. and Mrs. Fred Campbell, Bill and Scott vacationed in Guadalajara, Mexico, over the 4th of July holidays.

Mr. and Mrs. Milton Davis and children of Kennedy, visited Mr. and Mrs. Pat Jungk and Carla, the first of the week. Recent visitors of Mrs. Eulah Newell and Mrs. Frankie Gibson were Mr. and Mrs. Bill Peacock of Austin.

Mr. and Mrs. Hal Spain were visiting her parents, Mr. and Mrs. Doyle Morgan, and Marilyn over the weekend. The Spains live in Lubbock. Pam Hancock, who is attending school at Baylor University, visited with her parents, the Rev. and Mrs. Clifton Hancock, over the weekend.

Mr. and Mrs. Jack Wardlaw visited Mrs. Sam Logan

Patients receiving treatment at Hudspeh Memorial Hospital during the period from Tuesday, June 29, through Monday, July 5, include the following:

Elodia Zapata, Rocksprings
Eusebio Baltazar
W. O. Alexander, Eldorado
Cresencia Martinez
Beulah Cook
Louis Gallegos
Manuela Baltazar
Katie Pearl
Ignecia Ramirez
Margaret Schwiening
Jessie Stockard
Lester Archer
D. L. Elliott
Margarita Romero
Maria Flores

*Patients released during the same period.

SCREW WORM ALERT EXPANDED

A confined screw worm case in Bowie County, near Texarkana, should alert stockmen to the need for continuous checking of all animal wounds. It is the first case in the area since 1962. The officials of the eradication program are giving the case close attention and hot-spotting the area with sterile flies flown from the Mission Laboratory. Ground spraying of herds will also be done. Stockmen are urged to send a sample of any worms found in animal wounds to the Mission Lab for positive identification. Local county agents can supply kits for mailing the larvae samples.

In 1800 only one of twenty people in the U. S. lived in cities of over 8,000 inhabitants.

We make Sunday reservations

Thursday we breakfasted in Paris and then had a business lunch in New York. On Friday, we joined a conference in San Francisco. With the new space-age technology, we feel so free, as though we have conquered time and distance and everything.

Well, maybe not everything!

You know some things can't be answered by better machines. So, wherever we are, we go to church on Sunday. How about you?

- Sunday Job 6:24-29
- Monday Psalms 19:7-14
- Wednesday Psalms 119:97-104
- Friday Proverbs 2:1-8
- Tuesday Psalms 107:31-43
- Thursday Psalms 139:1-6
- Saturday Proverbs 8:5-14

Accent On Health

Texas school children will soon be among the best immunized in the country.

The recent session of the Texas Legislature amended the Texas Education Code to require immunizations against certain childhood diseases as a condition for entering school.

"This new state law will have great impact on the immunization level of the school population and, eventually, all the population of Texas," says Dr. J. E. Peavy, State Health Commissioner. "We are delighted with the law."

The Texas State Department of Health now has authority to set the rules and regulations for implementation of the compulsory immunizations. The Board of Health has set January 1, 1972, as the date by which all children's immunization series must have begun. School districts that have required compulsory immunizations in the past will still maintain their usual September deadlines for proving immunizations to enter school.

The immunizations previously required for all school children were set only by the individual school district, but now the

Hot dogs are an all-time American favorite: more than 14 billion were eaten last year. But many consumers don't know that two kinds of weiners are sold in the market. "All meat" weiners mean the meat consists of a combination of skeletal muscle meats; "all beef" means only beef.

state is requiring immunizations for up to six childhood diseases in some cases.

Elementary students will now be required immunized against diphtheria, tetanus, polio and smallpox. If there is no history of measles, that shot will also be required. All children under 12 years of age must also be immunized against rubella.

The number of required immunizations is fewer for junior high, high school, and college-level students. Junior high and high school requires immunizations against only diphtheria, polio, tetanus, and smallpox. College requires full immunizations against polio if the student is under 19 years of age, and immunization against diphtheria, tetanus, and smallpox within the past ten years.

Nearly every student in the state will be covered by this broad law. Immunizations will be required of students in kindergartens that are associated with elementary schools, all the elementary and secondary public schools, private or parochial schools, academies, colleges, universities, schools for the blind, deaf, mentally ill, and mentally retarded. The only children exempted are those with religious conflicts, or medical problems--those that a physician determines would be injurious to health.

Dr. Peavy said he "urged all parents to contact their physicians or public health clinics now and begin their children's immunization program long before they enter school."

NATION'S FASTEST--The Big Bend, fastest entertainment ride in the nation, is shown in the foreground of this artist's rendering. The huge ride stretches over a large

area at Six Flags Over Texas. The new ride, built in Europe, will carry passengers in toboggan-like cars that speeds up to 50 miles per hour.

Summer Garden Care Suggestions

The prolonged drought conditions throughout Texas calls for gardeners to use special care in cultural practices that can conserve moisture and reduce the amount of irrigation water needed for lawns and woody ornamentals in the landscape.

Thorough waterings and judicious applications of fertilizer, insecticides, or fungicides, are two steps that can help gardeners through the hot, dry weather, according to Everett Janne, Extension landscape horticulturist.

When applying irrigation water, do a thorough job, soaking the soil to a depth of six to 10 inches. If the soil surface is sloping or is compacted, water must be applied at a slower rate to prevent run off.

Deep watering of landscape plants tends to encourage deep root penetration that ultimately provides a greater moisture sup-

ply for the plant. Janne warns that frequent light waterings encourages shallow root systems and once this happens, it is difficult to bring plants through extended drought periods without considerable damage.

Fertilizer, insecticides, or fungicides should never be applied unless there is moisture in the soil because severe foliage burn can occur if these materials are applied when the soil is dry. Janne says that any fertilizer applications should be followed with thorough waterings.

Another way to conserve moisture is to be sure all flowers and shrub borders have a mulch at least two inches thick. A good mulch reduces evaporation from the soil surface, keeps the soil cooler, reduces weed growth and cuts down on soil cultivation. Shredded pine bark, pine straw, wood chips or other readily available organic matter will make an excellent mulch.

In caring for the lawn, Janne adds that raising the height of the lawnmower blade during the hot weather from one-fourth to one half of an inch, will increase the length of the leaf blade, providing shade and reducing the water needed by the grass plant.

Correct Answer is:

malice

The public is entitled to know what is going on, but every nation must maintain secrecy when disclosure could be useful to an enemy and which would, when publicized, be extremely harmful to national security.

Our Newsletter

By O. C. Fisher

The fair application of the draft law and devious ways to evade military service were left dangling in uncertainty as a result of a recent Supreme Court decision which turned the prize fighter, Cassius Clay, loose because he claimed to have become a preacher in the Muslim faith.

Although the court applied some niceties to its logic in finding fault with induction procedure, it overruled the Selective Service and lower courts which had treated Clay's religious claim as a gimmick, rather than a good faith entry into the ministry.

The reversal of Clay's five-year conviction came as a jolt to those who are made to wonder how many young men could, if they chose, avoid the draft if they had enough money to hire ingenious lawyers who could find legal loopholes that would satisfy the Supreme Court.

IN ANOTHER ACTION, the Supreme Court left unanswered the question of how it is possible for our government to maintain secret documents, no matter how vital they might be to our national security. In this case, government documents were stolen and distributed by an insider, although portions were classified as "Sensitive.. Top Secret."

Green News

by BOBBIE FAWCETT
Our Sonora High School golfers this year did a fine job, and we noticed some of them at the course sporting new golf letters. Those who earned golf letters are as follows:

Tony Renfro, 3rd year letterman; Mark Rousselot, 2nd year letterman; Roger Langford, 1st year letterman; Chuck Browne, 1st year letterman; Eddie Alexander, 1st year letterman and Bruce Baldwin, 1st year letterman.

These boys won district and were second at Regional. They lost by two strokes to Nocona, who won state.

--GN--

The Fourth of July weekend tournament was a success again this year. There were seven teams of five each that participated. These golfers and their families enjoyed a delicious barbecue chicken supper Sunday night.

First place winners were the team of George Johnson, Lucille McMillan, Kyle Donaldson, Charlie Preston and Bill Purser.

Second place--David Wuest, Peggy Elliott, Hillman Brown, Tommy Thorp and Robert Ver-nor.

Third place--Dick Hamilton, Sammie Epy, Wayne Herrmann, Louie Trainer and Kathy Preston.

MEASURING FLOUR--Don't shake the cup! Instead, spoon flour lightly into the measuring cup, then level off with a spatula, says USDA specialists.

THE LAND

THE LAND is one of man's most valuable assets--we think it is prime collateral. In the past 54 years the Federal Land Bank of Houston has made almost 200,000 loans on Texas farms and ranches.

In other words, we specialize in making farm and ranch real estate loans--long term loans with prepayment privileges.

See us today for full details, no obligation of course.

OUTDOORS IN TEXAS

BY VERN SANFORD

Black bass fishing is not expensive. Sure you can make any participating sport costly. A golfer with the most expensive clubs, a velvety leather golf bag, a golf cart and pockets full of super-duper golf balls can run up a big bill at the sporting goods store. And an even bigger bill on the links if he's inclined to wager.

Likewise with the angler who has to have diamond-studded reels and rods with golden guides and all the fancy-pantsy gadgets that the fisherman can buy.

But, listen while I tell you of the least expensive sport you can imagine. It's black-bass fishing with artificial worms.

Not live worms—they're a buck a can. Just plain ole plastic worms like Nick Creme makes over at Tyler. You can buy 'em for a dime apiece at most bargain counters and sometimes "two-fer." But even at 10-times the price they are still the most economical baits you can use.

And look what little you need to go with them! One weedless hook will last a long, long time. Cost for hooks . . . about a dime apiece. Then you'll need a sliding sinker (another dime), or you can use the clamp-ons that run a third as much.

Besides your rod and reel, that's all you need — to have at it. Then if you lose a lure it's not a \$1.50 popping plug but a ten cent plastic worm. And just think how many fish you caught on that artificial worm

before you lost it in the brush or a lunker gobbled it and ran.

Doggone, man, there's just nothin' that will beat plastic worm fishing! Besides, it's the most productive way.

Takes a little patience, but not much. Shucks, you came out to relax, didn't ya? Then take it easy. That's the way to latch onto bass when you're fishing with the artificial worm.

Another thing, man, you can cast right into the middle of a lily pond, at the base of a weeping-willow tree, or into the dardest mess of weeds you've ever seen—and that ole worm-and-weedless-hook comes slithering back, scratchin' bottom all the way, bumping logs and bouncing off rocks just like it was made to last forever.

Fact of the matter is—you sometimes get tired of looking at the ole gnawed-on worm and slap on a new one just for beauty's sake.

They're easy to put on—just like a live worm only they're not slimy. And if you're careful you can use the old wiggler again and again by cutting it shorter and shorter.

Now, how can you beat that? It's the best type of black bass fishing, and as the ole peddler always says—"The best for less." To which we might add—the most productive, too.

If you haven't tried plastic worm fishing—call the ace angler in your town (the guy who brings in the biggest bass)—and ask him how to rig up your gear. You can bet your bottom dollar he knows.

Wet Weather Driving Hazards

The current drought conditions in Texas won't last forever and when the dry spell ends, many Texas motorists may find themselves involved in a wet-weather driving accident.

Wet-weather driving is different, an extensive research project conducted by the Texas Highway Department indicates.

But it need not be as dangerous as the rash of accidents that always seem to happen as soon as the rain starts to fall.

The Highway Department study points toward several actions the motorist can take for his own safety when driving in the rain.

- Slow down.
- Avoid sudden stops and driving maneuvers.
- Make sure tires are in good condition.

The tips are just plain common sense, but, unfortunately, not everyone uses common sense when it rains.

For example, the Highway Department researchers found that high speeds loom large among the factors involved in wet-weather accidents.

Checks made by the research engineers indicate that the average motorist diminishes his normal dry pavement speed by only a few miles per hour in the rain.

But a slight decrease in speed will not provide a good margin of safety in rainy day driving. For one thing, it can take as much as four times more distance to stop on wet pavement than on dry.

Tires are another factor in wet-weather accidents that the driver can do something about. The Highway Department studies, based on analysis of 500 wet weather accidents which occurred in a 10-county area of Central Texas show that slick tires can be murder.

Researchers say tread depth of all four tires should be at least 2/32 of an inch. Any less, and there is real danger of skidding or hydroplaning.

Hydroplaning occurs when a thin film of water builds up between the pavement and the tire. When the tires do not have

good contact with the traveling surface, of course, the driver has no control over his car.

Through research, Highway Department engineers have found ways to improve the roadways for driving in adverse conditions. They have found ways to improve curves; they have found ways to improve the cross section of the roadway so that water will drain faster; they have found ways to develop new skid-resistant surfacing material and many other improvements.

Still, it is up to the individual driver to do his part—slow down, avoid sudden stops or maneuvers and make sure tires are in good condition.

CHILDREN OF THE LATE MR. AND MRS. FRANCISCO MORALES had a family reunion July 4, at the 4-H Center. All the children are living and they are Mrs. Antonio Coronado, Mrs. Fernando Maldonado and Antonio Morales all of Del Rio; Mrs. Pedro Garza and Gregorio Morales, both of San Angelo; Mrs. Edwardo Guajardo, Mrs. Pedro Galindo, Sr., and Francisco Morales, Jr., all of Sonora. About 82 people attended from Fort Worth, Dallas, Del Rio, San Antonio, Marble Falls, San Angelo and Sonora.

"YOUR SUNSHINE CUE--- DON'T OVERDO!"

Lots of sunny days ahead! It pays to be sensible about the time you spend beneath that big ball of fire.

Your American Cancer Society warns that too much strong sunlight, time and time again, is the primary cause of skin cancer.

So make your sunshine cue, "don't overdo!"

Alaska comprises almost one-sixth the entire area of the United States.

LOOKING BACK . . .

. . . BY SONORA MOTOR CO.

MAUD S. SALOON was a landmark in Sonora for many years. (It was offered for sale as early as 1895. In 1899 there was a bowling alley in connection with it.) Pictured, left to right, were John McNicol (the first surveyor), George Mayfield, unidentified man, Charlie Bryson, unidentified man, Jim Barton, Jeff Pierson, Boosie Sharp and Nath Thompson. The identifica-

tion of Mr. Thompson is not certain. Some persons believe the bearded man standing next to Jim Barton to be Uncle Johnny Johnson; however, others say that Mr. Johnson was a youngerman at the time this picture was taken. The picture is dated as an old one by the kerosene lamps used for lighting.
