District 4-H Contests On ASU Campus

As many as 800 persons are expected May 5 in San Angelo for the 1973 District 4-H Elimination Contests, on the Angelo State University Campus.

Most of the number will be 4-H boys and girls competing in 31 contests that will test their knowledge and skills in, for example, grass identification, livestock judging, rifle marksmanship and safety, foods and nutrition.

Sutton County contestants in San Angelo will compete in livestock judging, range judging and grass identification.

Big prize for both first and second-place senior winners of each contest is a trip in early June to State 4-H Roundup at College Station.

Others on the campus May 5 will be judges, parents of contestants, 4-H adult leaders and Extension agents from the 20 counties making up District 7 of the Texas A&M Agricultural Extension Service.

The awards will be presented at 1 p. m. in the ASU Gymnasium by Curly Hayes of Abilene, representing West Texas Utilities, which furnishes all ribbons for the annual contests.

W. A. Strauss, chairman of the Board, presented gold watches to the 83 awardees for their 25 years of service with the company. The awards dinner also marked the 43rd anniversary of the company.

On their way home, the Rosfords stopped over in Kansas City, for a visit with former Sonoran, Sears Sentell.

Performing in the one-act play competition will be Claire Langford, Michelle Rousselot, Mark Rousselot, Steve Street, Karen Hemphill, Tryon Fields, Ted Coker, David Wallace, Joe Eustace and Terry Mitchell. Stage crew members also making the trip are Larry Berger,

Molly Sawyer, Curtis Mooney and Sarah Allison, who is not pictured here. Carol Weston will be an entrant in the informative speaking competition; Michelle will enter poetry and Mitchell, prose. District and regional wins by these students have qualified them for the State meet. Those of us who cannot make the trip, will be pulling for them.

Broncos Head For State Track Meet In Austin

The Sonora Broncos will take its power laden track team into the State finals this weekend in hopes of winning the first state track championship ever for a Sonora team.

The Broncos qualified six individual places and both relays to lead all contenders. However the competition will be extremely keen and the boys must score well in all the events qualified to win.

This is the supreme test for any high school athlete and his team. The best from all over the state have gone through a series of eliminations and the ones who are left are the cream of the crop.

Sonora will be led by such standouts as Steve Street who has stepped to a 22.2 clocking in the 220 yard dash which ties the school record. He is entered in the 100 yard dash also in which he has an official best of 9.8. At the regional meet three weeks ago, three watches caught him in 9.6, 9.65 and 9.7. However, the timers gave him 9.9 the same time as the third place contestant who was three yards behind. Street will also run the second leg of the 440 relay team.

Wesley Richardson, another fine sprinter will run the 440 yard dash, a leg on the mile relay and the anchor leg of the 440 yard relay team.

Sutton 4-H'ers At Eldorado Horse Judging Event

Two Sutton County 4-H Horse Judging teams competed in the District 7 4-H Horse judging contests in Eldorado, Saturday April 28.

The junior team composed of Trina Powers, Pam Powers, Rae Ann Draper and Tonia Mittel placed second. Trina was second high individual and Pam was fifth high individual in the junior contest.

Maggie Galbreath, Cathy Ward, Bobby Draper and John Wade placed seventh in the senior division of the contest. The senior division of the contest was extremely close with Schleicher County 4-H placing first and Tom Green County placing second.

Dennis Dunnam, Carey Draper, Marshall Doran and Marcie Mittel also participated in the contest.

Billie Galbreath is coach of the Sutton County 4-H Horse Judging Teams.

Leaders who assisted with the district contest were Mr. and Mrs. Louis Powers, Mr. and Mrs. Albert Ward, Mrs. Margaret Galbreath and Mrs. John Mittel. County Agent D. C. Langford was in charge of registration and tabulation, and was assisted by leaders from Sutton and Schleicher counties.

The next local 4-H horse event will be at the Sonora Junior Horse Show, sponsored by Sutton County 4-H Club, Wednesday, June 6. The District 7 4-H Horse Show will also be held here Saturday, July 7.

Wade Richardson finished second on number of misses last year in the state meet in the pole vault, but he plans to take the crown this year and possibly even the state record of 14'2". Wade will also handle a leg of the 440 yard relay.

Bruce Kerbow, the defending state champion in the 330 intermediate hurdles will be in good shape to defend his title. He cruised to a good 39.4 clocking at Belton Saturday night and gave notice that he is ready for all comers. Bruce will also be in the running for the 120 high hurdles and must place high in this race. He will also run the anchor leg of the mile relay.

John Weston runs both relays for the Broncos. John is a fine sprinter and long jumper having turned in bests of 22.8

for the 220 yard dash and a good 21'11" effort in the long jump.

John Brown and Bill Mitchell are the alternates on the relays.

GRASSROOTS OPINION

SULLIVAN, ILL., PROGRESS: "It seems to be the aim of many of today's government organizations, to see that every man (and woman too) shall become a millionaire. The possibility of having to earn the money seldom enters into the scene. The idea is that every person is entitled to much money, and that our government is supposed to provide it. The idea of working for a living seems to have little to do with the 'get rich' schemes. Yes, the day may not be too far away, when each of us will be a millionaire. But what good will all that money accomplish--for when that day comes, bread will probably be costing \$1,000 a loaf!"

LIVINGSTON, TEXAS, POLK COUNTY ENTERPRISE: "When you stop and think about it, passage of any kind of a law to take guns away from the people could be treading on the constitutional rights of free Americans. It's hard to believe that removal of hand guns from the people will keep folks from killing each other. There are knives, clubs, broken bottles, razors and a long list of weapons which are handy enough when people throw reason aside and try to kill. If there were no weapons people would probably

bite each other to death." **SUMMIT, MISS., SUN:** "Federal aid means federal control." **WESTBY, WISC., TIMES:** "The three 'C's' of traffic safety are Caution, Courtesy and Control. Lose any of them and you could be in trouble, especially if you lose control --and control of your temper is just as important as control of the vehicle."

MONROE CITY, MO., NEWS: "We all know our elected officials... (when) congress is not in session have put on their traveling clothes to make extensive investigations in Europe and elsewhere. What they are investigating, no one seems to know. Our officials do assure us however that their missions are indeed important. I'd sum up the whole sordid mess... something like this: Mr. Congressman quite arbitrary, How do your travels go? Here and there and everywhere, Wasting the taxpayers' dough."

LAMBERTVILLE, N.J., BEACON-RECORD: "Biggest fight in Washington is shaping up and the issue is spending. The liberals want to spend billions and the conservatives don't. It's just as simple as that. If we were the betting kind, we would say the liberals will win, for not many people seem to care. When one member of Congress discovered that it required 27 forms to place a person on welfare, we knew that a part of the benefits of the program went to those who were hired to do the administering. Instead of a chorus of objections to this report, all we heard was a few, 'Isn't that terrible' comments. So on and on it will be. Who knows, maybe next year it will take 37 forms and more hundreds to execute them. Did you know that we have 35 people at the Hunterdon county level working only on welfare? Even at \$100 a week, that comes to \$182,000 a year." **LA SALLE, COLO., LEADER:**

"If the value of the dollar doesn't stop dropping and the cost of merchandise doesn't stop rising we may be forced to carry merchandise to buy money."

FORREST CITY, ARK., CROWLEY RIDGE CHRONICLE: "The cry is education! Education! We must have more buildings, classrooms, teachers and escalators. Everybody must be educated! Hardly anybody asks, 'educated for what?' Educated for board-mindness? The great issue of our time is not education versus ignorance. Some of the most educated people in the world are the most wicked. Empty bellies are not, per se, the cause of Communism nor of wars. Germany started two wars on a full belly. The Communists and fellow-travelers in America, and throughout the world, are mostly full-bellied. Full bellies and education, as such, are not bulwarks for or against freedom or morality. The struggle for the world is not based on hunger vs. plenty, ignorance vs. education, totalitarianism vs. democracy. The war for the world is between good and evil."

MORRIS, MINN., TRIBUNE: "Somebody was speaking about taxes the other day and how extremely high they are when the Old Timer said he could remember when he was only his brother's keeper. Now he says he's his Uncle's keeper, too."

The simple facts are these: it's cheaper to have a pretty yard, it's cheaper to have a vegetable garden and it's cheaper to enjoy a cool home this summer--in Sonora. Sonora's water charge is cheaper than all the surrounding towns.
Mrs. Leo Bishop of Rocksprings visited with friends here last week.
Mr. and Mrs. Damon Davis, Karen and Dwayne visited relatives in Menard last weekend.
Frank Leslie Moore of Houston spent the weekend here with his parents, Mr. and Mrs. Mike Moore.

Sonora's golfing fraternity, or at least a few of the brothers of swing and hunt, took part in the Iran tournament last weekend with good results. Clayton Hamilton, Curtis Nicholas, Cleburn Cochran, George Barrow and W.P. McConnell all won their first round matches. John McClelland was eliminated in the first round, and J. W. Neville won his first and second round tilts.
Betty Ann Patrick was honored with a party on her ninth birthday Saturday at her home by her mother.
Miss Edith Cooper of Plainview is arriving tomorrow to spend the weekend with her brother, Alfred Cooper and Mrs. Cooper.

APRIL 30, 1943

Marine Pvt. Pat Brown, who is stationed at San Diego, writes: "I am getting along just fine. I have been here six weeks and I have one more week of boot camp training. I am at the rifle range learning to shoot our Garand rifles. We wash our rifles every day, after we are through shooting, with hot water and soap."
Thursday we fire for record and then we will go back to the base for a week or ten days. There we will get our scatter papers. James D. Trainer is still with me, but we will probably be sent to different camps when we break up."
Mrs. Bailey Renfro, Mrs. Foreman Marvin, Mrs. George E. Smith, room mothers, and Miss Emma Hamilton, teacher, honored the second grade with an Easter egg hunt Friday afternoon at the City Park.

Viewpoint

by T. DRISKELL

Watergate has a nasty smell, and it recalls some rather indelicate aromas of the past. The bugging of the democratic headquarters was perhaps a crime in a federal sense and breaking and entering is a crime, but both were totally inconsequential in comparison to the magnitude of the demonstrated distortion of perspective.

The two political parties are involved with the governing of 200,000,000 plus people, not an inane game of "coops and robbers". Small boys on the street rather understood the Republicans had a shoo-in. With McGovern's "bankruptcy now" platform, most adults knew it. The fact that Watergate occurred at all is positive proof that buried in influential positions in the Republican party are individuals who instead of in government positions should be in a school for exceptional (in the modern sense) students.

It's not new, if you will go back to one Senator McCarthy and his, from behind the cloak of legislative immunity, trial and conviction by insinuation which ruined many little people. His perspective, and inherent sense of justice left one wondering if disenfranchisement of Wisconsin citizens was not in order. Fortunately for us, he did not come off too well with the Army's lawyers, but there are still people living under the stigmas he sprayed around so freely. The aroma in retrospect raises the question why he was not pulled into line by his party? The logical answer seems to be the same as the reason no stop was put on the Watergate debacle before it occurred.

The Teapot Dome incident is looking too far under the carpet so we'll let it drop, the aroma becomes overpowering. The democratic aroma of the freezers, cars, and mink coats of the Truman era is certainly no substitute for the scents of Chanel. The presidential impotence in legislation of the Kennedy era--backed by the Bay of Pigs and the cost to our spy network of the Cuban Confrontation did not do much for atmospheric pollution. Johnson's warmed over New Dealism and marriage to the long-haired intellectuals, who turned on him like rattlesnakes when their pet schemes did not work out, left something to be desired.

What am I saying? Quite simply, in the last four presidential elections, I have voted for the man I considered the least of two evils, and now I wonder if I should not have gone evil all the way. I would sure like to see a candidate I could be enthused about, but with party machinery being what it is that is somewhat unlikely.

One wonders if perpetuation in power is not the name of the game with a secondary corollary of a national popularity contest, and tertiary, or is it further down the line, providing good sensible government.
Remembering when the consideration was given to outlawing the Communist Party one can but speculate on whether or not the time has come to consider the Democrats and Republicans.
A lone positive step we can take is to contribute one dollar of our income taxes now and in the future to a presidential campaign. We must have funds for campaigns and we simply cannot afford those tax settlements which may or may not be connected with campaign fund contributions, which may be used for a game of cowboys and Indians or rustlers.

Can't Go Along With Idea Of Curbing Inflation By Increasing All The Taxes

Editor's note: The Dry Devils Philosopher on his bitterweed ranch on Dry Devils River discusses economics this week, more or less.
Dear editor:

Although I didn't have to read it to find out, still according to an article I read in a newspaper last night inflation is getting more serious all the time, not only are prices going up but the rate they're going up is faster than it's been in two decades.

Accordingly, the article said, the chairman of the Council of Economic Advisers said economists are considering a tax increase as one way of cooling off the current inflationary boom. The argument is, if you increase taxes, people will have less money to spend on goods and therefore prices naturally have to come down or at least slow down.

I don't think I understand this. Isn't there some other way? I mean, what's the difference between spending too much money for groceries and spending too much for taxes? This looks like a choice between curbing inflation and curbing me.

If something is going to take all you make, I believe I'd just as soon groceries got it as taxes, I ain't all that mad at inflation. I've long contended that economists are like weather forecasters. They're a lot better at telling you what happened yesterday than what's going to happen tomorrow.

Solving the high cost of living by increasing the high cost of taxes reminds me of the farmer who was faced with a crop failure and a note at the bank he wasn't going to be able to pay. The nearer the note came due the more he worried and fretted. On the final day he went into the

bank and by some tall talking got the banker to renew the note for another year.

"Well," he sighed with relief as he came out, "I'm sure glad I got that debt settled."

Yours faithfully,
J. A.

Tribute To Bessie Browne

This is written in appreciation to Bessie Browne and the Browne family...
By invitation from Dr. Browne to sit with the family during the services at the church, I moved a little closer and sat as a sister to Bessie Browne for truly she was a friend as close as a sister to me...not a life-long friend for we only knew each other six years, but our circumstances were such in those years that we became life friends indeed.
Bessie gave me a home when I needed to be near my husband, as our husbands were together in Eldorado Hospital and Nursing Home. We continued to be close friends and I thank my heavenly Father for such a prayer friend and sister in Christ.
My thanks to Dr. Browne and Mrs. Browne for medical care and kind friendship in so many ways, and to the entire family may I say... "she was a great and good woman".

GREEN NEWS

by MONICA Du RUSSEL
The Ladies Partnership Tournament has come and gone... now a thing of the past, but one to remember as a real fun thing.

All in all, there were 64 golfers representing Ozona, Winters, Del Rio, Eldorado, Brady, Big Lake, San Angelo, Riverside in San Angelo, San Angelo Country Club, and Sonora.

In the Championship Flight, Wanda Neville and Ernestine Hext were first place winners, and Bobbie Fawcett and Sammie Espy came in second. In the First Flight, Sue Anderson and Kay Wilson, both of Brady came in as top winners, while Katie Jones and Tissee Mitchell of Ozona came in second.

Martha Brady and Elnora Bolen of Riverside, San Angelo were first in the Second Flight, while Lois West and Marlene Wood of Winters came in second. Third Flight winners were Muriel Brown and Mary Barrow, with Barbara Snodgrass and Monica Du Russel running second.

Awarded longest drive prize was Erma Jacob of San Angelo, and Cris Gardner of Big Lake won a prize for being closest to the pin on No. 18.

Many of our guests won door prizes which had been donated by a number of the Sonora Merchants, namely—Home Hardware, Morrisons, Ratliffs, Branding Iron, Foodway, Victoria's, Mollies, Foxworth, Neville's, Greenhills, West Texas, Westerns Drug, Hurry Up, Barrows, Mitch's, Sonora Electric, Ruth Shurley, Merle Norman, Tim Thorp, Gulf, Saunders Flower Shop, and The Devil's River News.

A great deal of the success and pleasure of the tournament can be attributed to the help of the men. Some of those who helped to make our Club House neat and clean were Harv Du Russel, George Johnson, Mickey Powers, Batts Friend, Tommy and Steve Thorp, James D. Trainer, and J. W. Neville... and of course Patch Cochran our GreensKeeper who had the course in great shape.
We would also like to thank Cullen Luttrell for giving each of us packets of bluebonnet seeds. Next Spring, we hope the course will be all in bloom with our State Flower.

One more person we want to thank and who we deeply appreciate is Nancy Tittle. Her contribution to the refreshments was a real delight.

—GN—
Then there was our red-faced, flower snitching, decorating committee... none other than Peggy Elliott, who was lifting Mrs. Howell's prize Amaryllis when who should walk upon the scene but Mrs. Howell... Peggy, red-faced, embarrassed but none the less nonchalantly says, "Hello, Mrs. Howell, I didn't expect you back from Mississippi so soon!" Mrs. Howell, gracious lady that she is, allowed Peggy to go on with her pilfering. And here and now we want to thank Mrs. Howell for the flowers which made the club house beautiful, and everyone enjoyed their beauty.

—GN—
We have all lost a very near and dear friend... Lester Archer. We will miss him very much, for he babied, petted, and loved us all, and we loved him.

Where the Deer and the Antelope Play

I should have known everything would be all right when I took Bob home to the ranch during spring break. One of the nicest things about our falling in love has been finding that we agree about almost everything under the sun.

Bob won Mom's heart the minute we got there. Laurie, my little sister, asked, "Come see my bird's nest?" "Sure," Bob said, and away they went. Mom beamed. She thinks anyone who likes children and birds is all right.

Later, Bob played basketball with my brothers and tinkered with the tractor, getting black and greasy right along with Dad. Everybody loved him.

Sunday we all went to church. Standing there, singing with Bob, my family close by, I thanked God for His goodness.

I'm glad that God and his church have been an important part of my life and of Bob's. Our life together will be enriched by this shared reverence.

Your church offers joyous fellowship. Why don't you go—and take your family with you?

Young Men Still Need To Register
Colonel Melvin N. Glantz, the State Director of Selective Service for Texas, has issued a statement reminding young men of their responsibility under Federal Law to register with Selective Service.

"The recent nationwide announcement that the draft has ended has misled some of our young men into thinking they no longer are required by law to register with Selective Service. This is incorrect!", Glantz said.

The State Director pointed out the fact that Selective Service is being reorganized into a stand-by operation to keep draft machinery operative and ready in case of a national emergency that requires the drafting of young men again in the future. He pointed out that although inductions have ended—the Selective Service System continues to operate and the law continues to require each young man to register with Selective Service within 30 days before or after his 18th birthday.

During the reorganization of the System into a stand-by basis, registration may be completed at any one of the 63 Selective Service System Area Offices that will remain open in Texas—or at points in every Texas County where volunteer workers will assist the young man in the simple steps of registration.

The registrar for Local Board #110 in this area is Doyle V. Morgan.

LETTER TO THE EDITOR-

I am seeking information about my great-great grandfather, Jaspas Newton Mabray, who died here in 1905, in his 80's.

He was an early Texas Ranger, Indian fighter, and one of the founders of Bosque County, Texas, in 1854. We understand he died while living with a nephew in Sonora, and was probably buried in the local cemetery; however, we were not able to find his grave.

If anyone knows of his background and death, I will appreciate information.

Odessa To Host State 4-H Horse Show In August

4-H horsemen over the state have their sights set on competing in the State 4-H Horse Show which will be held in the Ector County Coliseum in Odessa the first four days of August.

For 4-H members with home projects, the state show ends a year of practicing and working with their horses with the hopes of capturing some of the top honors at the annual event, points out B. F. Yeates, horse specialist for the Texas Agricultural Extension Service.

Sponsoring this year's show along with the Extension Service is the Odessa Chamber of Commerce.

According to Yeates, events in roping and cutting and English and drill team competition will be open invitational. Competition in the halter, showmanship, western pleasure, reining, pole bending and barrel racing events will be limited to those qualifying at district horse shows over the state. A total of 20 boys and girls from each of the 13 Extension Service districts are eligible

Saffron--The Most Expensive Spice

What spice sells for roughly \$391.68 per pound? It's saffron. The world's most expensive spice comes from Spain--and fortunately, a tiny bit goes a long, long way.

Available in some grocery stores, it's usually sold as a little packet inside a bottle. The 1/16 ounce size generally sells for about \$1.53. In contrast, other spices are packaged and sold in weights of 1-14 ounces.

Saffron is expensive because it comes from the stigma of a crocus-like flower. Each flower has three tiny, delicate orange-yellow stigma filaments. These stigmas must be picked by hand --requiring 224,000 to make a pound of saffron.

Definitely a special occasion spice, saffron's flavor is uniquely bitter yet delightful. In addition, it adds distinctive, appetizing yellow color to foods.

Some cooks use it in various kinds of baking--especially rice, chicken and fish. For a delectable-flavored, yellow rice, boil a pinch of saffron in water for a minute. Then add rice and cook as desired.

Electrical Safety Tips from the people who bring you electricity:

- 1 When buying electrical equipment or appliances, look for the Underwriters' Laboratories seal of approval.
- 2 Never drape electrical cords or wire over radiators or pipes or other metal objects.
- 3 Never place electrical cords in doorways or under carpets.
- 4 Check all extension and appliance cords frequently to make sure they are not worn or frayed. If they are, replace them immediately. Don't patch a broken cord.
- 5 When working outside the house, avoid any contact with overhead power lines or exposed wires.
- 6 When installing a TV antenna, use a sturdy structure well away from power lines. Ground your lead-ins and make sure that they don't cross wiring that carries electricity.
- 7 Never pull a plug from a wall outlet by the cord. Grasp the plug itself and pull it straight out.
- 8 Never leave irons or other heating appliances plugged in when not in use.
- 9 When buying portable tools or appliances, select those with a three-wire plug or cord instead of the usual two-wire connection.
- 10 If you have doubts about appliance grounding, cord sizes, or other electrical questions, check with a licensed electrician.

A Bishop Looks at Life

TOURIST PARADISE

By Everett H. Jones, Retired Bishop of the Episcopal Church

(Bishop Jones is on a cruise along the west coast of Mexico and Central America. He will send travel reports from points along his route.)

Acapulco—In the last few years no area of the world has developed more rapidly and successfully as a magnet for tourists than the beach resorts of western Mexico.

As we have made our way southward from Los Angeles on the diesel engine vessel recently christened "Hanadu" (operated by the Donald Ferguson Cruises) we have stopped at three of the most popular resorts: Puerto Vallarat, Manzanillo, and Acapulco.

Acapulco is, of course, the largest and most famous. In the past season over a million and a half visitors came here. It can now rival the French Riviera, Spain's Costa del Sol, or the Hawaiian Islands for world-wide tourist interest.

This glamorous tourist paradise was so a sleepy fishing village until after World War II. At that time travelling Americans, banned from war-torn Europe, began to discover its charms. Now the influx is so great, the hotels and condominiums so numerous, the beaches so crowded, there is a frenzied search for a place "just like Acapulco used to be."

In this search, one place that has been found is Puerto Vallarat, situated about halfway down the coast from Mazatlan to Manzanillo. Its greatest asset is a magnificent forty-mile-wide bay, with the town itself scattered over the hillsides rising beyond the port.

There is a rapid increase in building (both in homes and hotels) to accommodate the growing population. The town's international reputation is due not only to its scenic and climatic appeal, but also to the fact it was the location for the filming of "The Night of the Iguana" and that it is now the location of a house owned by Richard Burton and Elizabeth Taylor.

Still another "new place" along the indulgent coast is Manzanillo, 169 miles southeast of Puerto Vallarta. It is well-known as the best port on this side of Mexico and it enjoys a thriving trade with the Orient. The present excitement comes from a huge recent development called "Club Las Hadas", which includes a hotel, villas, restaurants, cinema, shops, etc. Already some \$20 million has been spent on this enterprise, and it is expected that the final cost will come to \$80 million.

I have asked myself what are the factors that draw so many people to these resorts. Tourists love to visit new "in places." Here is a foreign land much more accessible, thanks to jet aircraft, than Europe or the Orient. There is the appeal of a mild climate to be enjoyed on great beaches with the Pacific on one side and mountain ranges on the other. There is challenge for the adventurous fisherman. One can drive here and live in a "camper" or one can find a hotel as fine (and as expensive) as those in Miami Beach. Fortunately, Mexico is much more stable politically and economically than it used to be.

It all adds up to the fact that if you are seeking a "refuge from reality", Mexico has some alluring possibilities to offer you.

Well, uh, we do make home improvement loans, but er... why not ask Dad to build on an extra room, to get your brother out of your hair.
