Sonora Broncos Grab First State Track Championship

Sonora's "Big Bad Machine" rolled up 74 points in the Class A State Track and Field Carnival to claim the coveted championship trophy. Sommerville finished second with 42 points as their ace trackster, Freddie Fleming, garnered 33 of these points on his own.

Wade Richardson gave notice of things to come Friday morning when he won first place in the pole vault competition clearing 13'6". No doubt, Wade could have gone much higher had he been fresher as the bar was raised to 14 feet. He vaulted with precision and did not miss until the bar was raised to 14 feet.

Saturday broke cloudy and cool with a hint of rain in the air. That was all that was cool however, as the Broncos were full of fire.

The first event of the day was the 440 relay. The Broncos had the third best time going into the meet and it looked as though a second place was the best that could be hoped for, as all the experts had picked the speedy Sommerville team to win.

On the gun, Wade ran very well and carried the stick

around the turn almost even. He gave the baton away to Steve Street who poured on the coal and the quick stepping Bronco simply flew by the field as the Big Red really began to move. Street opened a five yard lead as he and John Weston made the fast exchange work beautifully. Weston came out of the second exchange

charging like a runaway freight train, and added another three yards to an already good lead. Wesley Richardson took the stick from Weston on the third exchange, and the big sprinter galloped home first in 42.7.

This was the best time of the year by the Broncos and was .5 of a second better than the second place team, White Oak.

The Broncos showed plenty of emotion as all the team congregated on the finish line and plenty of back slapping and dancing for joy took place. The race was worth 20 big points and added to the 10 Wade had won Friday the horses were primed for the championship push.

Bruce Kerbow was the next Bronco to step into the starting blocks in the 120 yard high hurdles. Kerbow was given little chance of winning and it looked as if he would have to run spectacularly to place. As the gun sounded Kerbow broke fast and was step for step with the hurdler from Montgomery over the first three hurdles, and was running like he had never run before. By the fifth hurdle they flew and little doubt was left as to who would win as Kerbow began to leave the field and finished first in a great time of 14.5. The hard charging junior had added ten more points to the rapidly rising "Big Red" total.

Steve Street came next and the little red comet got a bad start and had to push hard to finish in a good time of 10.2 for sixth place, and one point for the cause.

Wesley Richardson, the converted quarter-miler got his blocks set to run the 440 and run it he did as he finished in the school record time of 49.3 and third place just .2 of a second out of first and .1 of a second out of second. Wesley had the lead coming off the home turn but tried to push too hard down the stretch and tied up just enough to let the runner nudge him at the tape in a photo finish. However, the third place finish contributed six big points and the total had run to 47 points to 22 for Sommerville.

Now it was time for Kerbow to run again in his speciality. (CONT'D. on page 5...)

Bid for an additional acre of land behind the Buster Shroyer property was submitted by Shroyer, and a verbal agreement from Tommy Thorp for Tract 4, and one acre behind Tract 4 was received.

The commission agreed to consider the bids and accept or reject the offers Thursday afternoon, May 10.

School Board Accepts Teacher Resignations

A special called meeting was held Tuesday afternoon by school board members to approve cancellation of contract with Bob McMinn who had been engaged as High School principal, replacing James Pollard who had previously resigned.

McMinn, former teacher here, has accepted a similar position as Killeen.

The board declared the position of high school principal open and are again taking applications for the post.

In other school business the resignation of Mrs. Doyle (Fae) Morgan, fourth and fifth grade teacher, was approved. The board also approved leave of absence for balance of school year for Mrs. Bill (Margaret) Barker, first grade teacher.

Discussion was held in regards to the need of additional classrooms for the next school year. With the large number of families moving into Sonora, the school feels that an expansion is necessary. The board plans to either purchase steel buildings or consider remodeling of the Junior High building.

Marijuana Charges Lodged Against California Man

A 30-year-old California man, Albert Fink, of North Hollywood, California, was arrested here early Monday morning, and charged with possession of marijuana.

Sheriff Pryce Taylor and Deputy Sheriff Mack West were on routine patrol when they noticed an unfamiliar vehicle—a van and U-Haul trailer, parked on a side street. Taylor and West were joined by DPS Patrolman Larry Hill, and the three officers approached the vehicle. On investigation, they found no one in or near the vehicle, but spotted what appeared to be a plastic bag filled with marijuana inside.

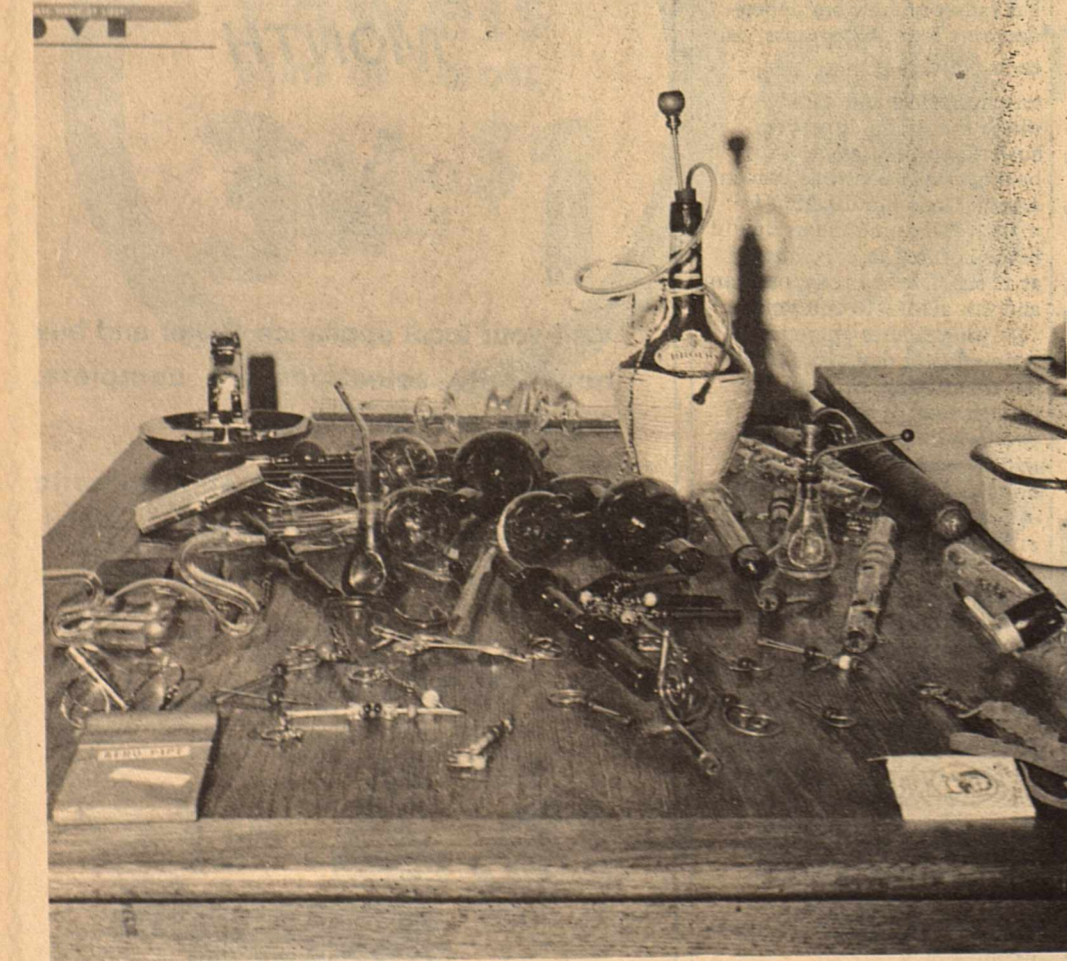

The vehicle was kept under observation until a subject approached, removed some articles, and left. He was followed to a local motel.

Officers secured a John Doe warrant for search of the van, trailer, and motel room and at approximately 2:30 a.m., Taylor, West and Hill entered the room where they found an unopened packet of marijuana.

Fink was placed under arrest and charged with possession of marijuana. He was placed under \$2500 bond and jailed.

Fink claims to be a traveling salesman for an organization known as "Great Western Distribution Company of California". He had in his possession samples of pomographic literature, movies and pot-smokers' paraphernalia. Officers estimate they found in the van and trailer over 100 different items used by pot-smokers and narcotic users. A considerable number of each of the different items were found.

Taylor said, "... we are trying to keep trash merchandise from coming in contact with the young people of our area."

ALL THESE ITEMS, AS WELL AS MANY OTHERS, were found in a van and trailer driven by Albert Fink, 30-year-old North Hollywood, California man who was arrested here early Monday morning and charged with possession of marijuana. Sheriff Pryce Taylor and Deputy Sheriff Mack West along with DPS Patrolman Larry Hill made the arrest in a local motel.

THIS SUNDAY IS MOTHER'S DAY... AND who could portray this with more charm and happiness than these two happy mothers and their sweet daughters? Mrs. David (Dena) Porter primping Kelley for the photographer, while Mrs. Nick (Diana) Anderson readies Vicky. The proud fathers, David Porter and Nick Anderson, will have to see that these young ladies remember Mom on her day, as mothers everywhere will be honored.

Play Wins First At State

Stellar performances were given by Sonora High School speech students at the Austin State Interscholastic League meet, resulting in the group of young actors and actresses walking away with the first place award.

Sutton Countians will be treated to two performances of the award-winning play, "The Apollo of Bellac" by Giraudoux, to be given Monday, May 14, one at 7 p.m. and the other presentation at 8:15, in the High School auditorium.

Directed by John Tedford, high school speech teacher, the play is a comedy. Tickets to

the play will cost \$1 and may be purchased in advance from speech students or at the door. It is hoped to have a "full house" for each performance as the play is being given to raise funds for the speech club.

CALENDAR OF FACT AND OPINION

A lot of people have a lot of different ideas about how much profit corporations make. Most seem to think profits are a great deal higher than they really are. A late advertisement of Mobil Oil Corporation's on this mistaken notion supplies a few basic facts: Leading U.S. manufacturing corporations made exactly 4.7 cents profit after taxes---for each dollar of sales in 1971; the highest the figure has been since World War II is 5.8 cents in 1965. The ad also says the reason most people think profits are excessive is because businessmen do a poor job of telling the public the economic facts of life. "As for Mobil," the ad concludes, "we're as upset as anybody about broad-scale misinformation. That's one reason we try to convey facts and some new insights regularly. . . We'd rather light a candle than curse the darkness. We hope more businesses will do the same. Then people's conceptions may someday begin to accord with the brutal facts."

"If a nation values anything more than freedom, it will lose its freedom; and the irony of it is that if it is comfort or

money that it values more, it will lose that, too." --W. Somerset Maugham.

The National Association of Manufacturers takes a dim view of misuse of federal food stamps, as witness one of their editorials: "When the food stamp program was enacted by Congress in 1964 its purpose was to raise the level of nutrition among low-income households. Now the soaring use of welfare assistance by strikers, particularly food stamps, contributes a major threat to effective collective bargaining. It can contribute

to longer strikes, higher settlements, and a continuation of inflation. Industry leaders estimate the cost of giving welfare assistance to strikers will escalate to \$329 million annually. It is time for Congress to re-define the eligibility of receivers of food stamps--and to stop the abusive distortion of the welfare assistance program. Reserve stamps for the truly needy, not the U.S. Treasury strike assistance."

"Where do you live?" Most people don't seem to know precisely, the IRS finds. An astounding 93 percent of returns filed so far this year, reports the Wall Street Journal, "contain incorrect or incomplete answers to a special question asking taxpayers to list their state, county, and incorporated township. The information is needed to parcel our revenue-sharing funds. Correcting the answers is slowing processing of tax refunds, the IRS says."

According to a Salt Lake Area Chamber of Commerce publication, "Professor K. William Kapp of Basel University, at an International Conference on the Quality of Life said, 'Had there been a computer in 1872 it would probably have predicted that by now there would be so many horse-drawn vehicles it would be impossible to clean up all the manure.'"

One of the best and certainly the longest running comedys on the contemporary scene is mid-lady's eternal pursuit of fashion. Some of the antics achieve unapproachable levels of hilarity. Examples? Start almost anywhere you wish and look as they say "at the big picture".

Skirt lengths—the fashion houses raise the hem lines and the gals with scissors and sewing machines in hand go along. Then those same houses lower the hem line and the gals (particularly if they used the scissors) are caught and it means a new skirt. In England in the late 1940's, a woman's hem line was separated from the sidewalk by a distance inversely proportional to her economic status in the society—a pure function of her affordability of material.

In the 1960's I read about Lady Bird's campaign against outdoor advertising in the Manchester Guardian and the London Times. Returning home and deplaning in New York, one look at the mini-skirts (belts with ruffles) convinced me that Lady Bird blew it completely. From an esthetic standpoint, mini-skirts on long thin legged fifteen (give or take a few year-olds were fine. The average, unfortunately left one wondering if it was a Notre Dame alumnus, and how many lineage scholarships the Irish gave out.

Shoes? We went through the spike heels—a whole woman balanced on two thin needle-like heels. A look at one walking away required the simile of a hippopotamus on ice skates for description. Really, you know, if that had been a stable geometric configuration, the Egyptians would have stood the pyramids on their apexes. It is good to see they are gone, but they have been replaced by chunky heels indubitably designed by an apprentice bootmaker more than likely discharged for mental deficiency. In any case, he duplicated almost perfectly the medieval European yeoman's boot heels. The wedges of the 1940's are rearing their heads again so we have seen a cycle.

Stretch slacks? They are gorgeous on 115 pounds neatly proportioned over 5 feet 6 inches or so. The average polyester pulsatory proposal of pulchritude, however can be a psychological shock. One is frequently left wondering if the omission of Pillsbury or Gold Medal labels from the hip pocket area was intentional or oversight.

Hair? At least West Texas women have the capability of greater deviation than the natural average and provide variation to the tresses that one must conclude are really a wet mop that the user forgot to wring out. If you are accidentally touched by the over-abundant dangling hair, the mop theory is strengthened and added certainty is gained that the mop had cleaned up clear vamish.

An observer with a memory is I suppose, a misfit in this society. One basic, however, which every woman should remember is she is herself, endowed with her own characteristics. It is hard in an era where movie starlets are selected not on acting ability, but rather on how her appendectomy scar photographs, but each individual must inventory her assets and decide which should be displayed, how, and which as the Swiss bankers say, should be hidden assets. Once the decision is made, style modishness should be conformed to only insofar as it enhances her own program and the available equipment.

So your clothes go out of style—do not despair. Merely put them away. If you have enough storage space, and you live long enough—they will be absolutely the latest thing again. The spike heels of the 1960's were not original as we had them in the early 1900's. It is an inane circle which represents pocketbook termites to fathers and husbands—termites that commercial exterminators cannot touch.

We seem to have completely forgotten that the greatest human emotion is anticipation—what an individual sees is never quite what one was going to see—and what one thinks he or she sees, but really partially imagines is the maximum favorable visual impact.

He Says He Has Discovered A New Way Of Selling A Lot More Newspapers

Editor's note: The Devils River Philosopher on his bitterweed ranch on Dry Devils River thinks he has discovered a new idea for newspapers, then changes his mind, his letter this week reveals.

Dear editor:
Located where it is, naturally The Devils River News had no chance to get in on the big Watergate doings, thus missing getting first denounced and then apologized to by some of those around the center of power in Washington, but still there are lessons it seems to me you might profit by if you study some of the sidelights close enough.

For example, a Washington newspaper back there during the re-election scramble published a questionnaire sounding out the public on what it thought of President Nixon's decision to mine North Vietnam harbors. Without the President's knowledge, I feel sure, some of his re-election promoters with plenty of cash lying around went out and bought an extra 1,000 copies of the newspaper and had everybody in the office fall to and clip out the questionnaire and vote in favor, producing a lop-sided majority.

Now on the new policy some people now practice, "ask not what your government can do for you, figure out for yourself what it can do for you and get in on it, the same as some big shots do," it seems to me there's an opportunity here for alert newspapers.

I don't know what it'd be, but stir up some hot issue around here, run a questionnaire in the paper, and sell an extra thousand copies to people trying to swing public opinion.

This will take some doing however because first nobody around here has any unreported slush funds to spend on such an operation, and second there

aren't enough issues. On the whole, I'd say that the difference between Sonora and Washington is that while in Washington they have more problems than they have answers, in Sonora you have more answers than you have problems. Maybe it'd be sounder to just let your circulation grow, as I understand it is, at the standard rate of \$4-\$5 a year. These people who buy up big wads of extra copies are here today and gone tomorrow.

Yours faithfully,
J. A.

Miss Jean McNeff, Charles Draper Marriage Ceremony Held In Austin

A wedding ceremony held at Bergstrom Air Force Base in Austin, united Miss Jean Ann Theresa McNeff and Charles Raymond Draper in marriage. The rites were held at 1 p. m. May 5, 1973, in the base chapel.

Parents of the couple are Major-General and Mrs. Edward P. McNeff of B. A. F. B., Austin, and Mr. and Mrs. Raymond Draper.

The bride, given in marriage by her father, chose a formal gown of ivory silk organza, fashioned in a princess silhouette. Jeweled alencon lace formed the Victorian neckline and cafton yoke. Appliques of lace were placed through the long tapered sleeves and dress skirt. A wide band of jeweled lace trimmed the dress hem and chapel-length train. The bride's bouquet was of feathered green spider chrysanthemum, frenched white carnations, apricot sweetheart roses, and white roses. English ivy and white satin streamers complemented the bouquet.

A crescent of matching lace held the bride's veil of silk illusion.

Wedding music was presented by Tim Tlucek, who played the guitar and sang a song he composed especially for the couple.

Miss Virginia Sansing of Austin served as maid of honor; Miss Cathy McNeff, sister of the bride of Austin, was bridesmaid, and junior bridesmaids were Trudy and Rae Ann Draper sisters of the bridegroom.

The maid of honor wore a mint green plaid gown, fashioned with fitted bodice, sailor collar and v-neckline, and long full sleeves ending in self ruffles. Miss McNeff's gown was fashioned the same, but was apricot-

colored. The junior bridesmaids wore mint green dotted swiss dresses. All wore picture hats. Their bouquets were nosegays of apricot rosebuds, feathered green chrysanthemums, tropical roses, apricot and green ribbon streamers and English ivy.

Serving his brother as best man was Bobby Draper. The groomsmen were another brother, Carey Draper, Sam Thompson and Tim McNanes of Yricka, California.

Perry Don Draper, brother of the bridegroom, was ringbearer. Following the wedding a reception was held at the Officers Club at the air force base. A buffet dinner was served to the 300 guests attending and dancing followed the meal.

The couple plan to live in San Angelo, after their return from a wedding trip to Ruidoso, New Mexico.

Attending the wedding from here were Mr. and Mrs. Robert Mooney and family; Mr. and Mrs. Kenneth Sturgeon, Mrs. Dorothy Baker, Lea Allison, Sarah Allison, Mrs. Jim Lacey, Andera Lacey, Mr. and Mrs. Garvin Lacey, Beth Davis, John Wade and Bob Brockman.

REHEARSAL DINNER
The rehearsal dinner was hosted by Mr. and Mrs. Raymond Draper, Mr. and Mrs. George Wallace and Dr. and Mrs. Lonnie Pollard. It was given at the Officers Club at the Bergstrom Air Force Base.

AT HOME

Kangaroo mamas have one advantage over "human" mamas - their crib is "built-in." There's no need for them to dash around the house to give Junior tender loving care. He is always nearby, located quite conveniently for mother's attention.

Any mother's attention is crucial in providing a child with the religious foundations needed to produce a responsible adult. Enough freedom so that he can be independent - enough discipline to provide structure for his life. And moral precepts instilled by the Church and parental example.

One day Junior will outgrow mama's pouch or crib. Then, and only then, can parents know if they have been successful.

Track Story from Page 1

the 330 intermediate hurdles. Bruce, the defending champion, felt the pressure mounting and responded with a perfectly run race which notched a first place and ten more points that upped the total to 57, an insurmountable total for all other teams. Bruce's time was 38.4 which is a new school record and his personal best by .7 of a second. Street came out fast in the 220 yard dash and finished sixth in the time of 23.3 off his best of 22.2. This added one point and the "Big Red" just kept on truckin'.

The Broncos knew the meet was theirs after the 220, but one race was left to run, the mile relay. A meeting of the team was called on the astroturf at the bottom of Memorial Stadium by the coaches. The team was told of the situation and that this last race meant nothing as far as the championship was concerned but would be just a matter of pride.

The Broncos made the decision on their own to run to win. Wesley Richardson opened the relay with a good lead off leg and gave Jimmy Galindo a lead which Jimmy did not relinquish. Jimmy handed John Weston the baton and Weston had some trouble getting the baton tucked away and one runner passed Weston on the first turn.

John turned on the juice and was in hot pursuit down the back stretch. As the two came out of the final turn John would not be denied and came down the home stretch building with each step, a lead he handed to Bruce Kerbow. Kerbow ran well and led all the way until the very last as his strength ebbed to give the Timpon Bears a two step victory in 3:27.0 to 3:27.4 for the Broncos. This race concluded the meet and gave the Broncos 74 points, and the Class A State championship.

Several new school records were set this year, and they are as follows:

440 relay—42.7—Wade Richardson, Steve Street, John Weston, Wesley Richardson
120 High Hurdles, 14.5 tied record, Bruce Kerbow
100 Dash, 9.8, Steve Street
440 Dash, 49.3, Wesley Richardson
330 Intermediate Hurdles, 38.4, Bruce Kerbow
220 Dash, 22.2 tied record, Steve Street
Pole Vault, 13'6", Wade Richardson.

GREEN NEWS

by Monica DuRussel

Nine ladies played on ladies day this past Wednesday. Bobbie Fawcett won the game for the week and our putting con-

test goes on for about another month, so don't forget to post your putting scores.

We had a number of guests from out of town last week. Char Collins and Margaret

Cleveland from San Angelo were two who played here Saturday and were rained out.

On Sunday, we had a great crowd. San Angelo, Ozona, and Rocksprings were represented that day---and the rains came once again---this time, tho, players got under cover. Most made the Club House, and they and their carts parked themselves on the patio until the sun came out. Most then went right back to their original positions and played to the end.

Congratulations to our School Boy Golf Team. They came in second at the State meet in Austin---and I think that's great!

NEVILLE'S

Looking Back . . .

. . . By Sonora Motor Co.

The December 6, 1890 issue of the Devil's River News gives us our first clue to education in Sonora. It announces the close of school, and says it opened September 1, 1890 with 45 pupils. By December there were 120 students enrolled, indication of the growth of Sonora. In 1904, the rock building, presently used to educate our junior high students, was finished and the school system was moved to the present

site. A founder of Sonora, R. W. Callahan, donated the land for this building. In August, 1913, an addition to the school was built. This was the south extension to the old rock school house. The high school building was constructed in 1931 and five years later the L. W. Elliott School was built, with the gymnasium being raised seven years later, in 1938.

Here's this business firm asking me to pay this same bill twice. I can hardly get them paid once. Lucky for me, I had my cancelled check showing I already paid the bill. They admitted their mistake, but I was glad to know that a cancelled check is a legal receipt.
