Hospital, Nursing Home Week To Be Observed May 12-18

Residents of Sonora will have an opportunity to become better informed about the services, activities and future goals of Lillian M. Hudspeth Memorial Hospital and Lillian M. Hudspeth Memorial Nursing Home during the week of May 12-18.

This week has been set aside for both National Hospital Week and Nursing Home Week. Our local hospital is joining 7,000 hospitals throughout the country in observance of this annual event with the national slogan, "Get to know us before you need us."

On announcing local hospital week activities, Gene Martin, administrator, said, "In this era of vast social and economic change, people are concerned about how hospitals are meeting growing health care needs both inside and outside their walls. They have a right-

ful interest in how effectively and efficiently hospitals are fulfilling their responsibilities, and about the rising costs of health care services.

"The objectives of our national hospital week 1974 activities are to encourage people of this community, as well as

All Sports Banquet Set Saturday

The all sports banquet will be held Saturday night, May 11 at 7 p.m. at the 4-H Center.

Tickets may still be purchased from any member of the Bronco Booster Club, a member of the athletic department and also at the Devil's River News Office.

The banquet is held each year to honor boys and girls active in football, basketball, track, tennis and other types of athletic endeavors.

Speaker at the banquet this year will be Mr. Gene Mayfield, head coach at West Texas State University. The coach is the brother of high school principal, Bill Mayfield.

Tickets are being sold for \$5 each.

those closely involved with the institution to get to know us." Martin added that during this week the local hospital will sponsor guided tours of the hospital.

Nursing home week is being sponsored by the Texas and American Nursing Home Associations, in order to honor patients and residents. The local nursing home will hold open house Sunday, May 12. This year's theme is "Nursing Homes-We Care."

Martin stated that all in the

nursing home profession are going to get the community to come in for a visit.

"We can provide for all of the needs of our patients but one--we can't show them that the community cares--we cannot relieve their feeling of remoteness from community life unless the community does care and does come in," said Martin.

In conclusion Martin stated that the health care revolution that is occurring in America is probably affecting the nursing home more than any other type of facility and that he and his staff want to show people what the nursing home is like and what they are capable of doing for the senior citizens.

INVESTIGATION BY Sheriff's Deputies Bill Webster and Mack West April 26 uncovered 7 to 8 pounds of marijuana, cash in the amount of \$820, a mock .45 caliber pistol

and a large butcher knife. Suspects were arrested and charged in Judge Charles Sherrill's Court on May 2.

Lone Star Gas Co. Has New Representative

Lone Star Gas Company has a new representative in the Sonora area. Mr. Ronnie Crawford, formerly of San Angelo, will replace Mike Tuggle, who was given promotion and moved to Winters Monday.

DISPLAY AWARDS for superior performance in the U.S. Border Patrol were awarded April 30 at the local office. Among those receiving these awards were Carl J. Hard, Kenneth C.

Kordzik, John W. Thompson of Ozona, James M. Hearne of Ozona, and Robert P. Mooney, Chief William S. Eatman of Del Rio is pictured with the men.

MEMBERS OF THE U.S. BORDER PATROL were awarded with various awards April 30 when an awards presentation was held at the local office. Length of service awards went to local officer Sam Stewart for ten

years of service with the agency; John Thompson of Ozona, 15 years; and James Weant of Ozona, 20 years. Also pictured is Chief William S. Eatman of Del Rio.

Alex Binford Resigns

Alex Binford, Sonora's City Manager for the past three years, submitted his resignation to City Council members at their meeting Monday. Binford and his family will move to Livingston, where he has accepted employment as general superintendent of Sam Houston Electric Cooperative.

Members of the council stated that Binford's resignation would become effective May 24 and the city is presently taking applications to fill the position.

The newly formed planning and zoning committee, along with council members, have scheduled a meeting tonight, (Thursday) at the Sonora Wool and Mohair Company for the purpose of discussing an ordinance to control property adjacent to the city limits.

In other business, Oliver Wuest was awarded the contract for the city swimming pool and a check for revenue sharing was received by the city in the amount of \$5,239.

In official action of the board it was decided that the San Angelo Standard Times should be made the official publication newspaper of the City of Sonora. Complaints have been waged with the City regarding the newly elected commissioner, Doyle Morgan, who is publisher of the local newspaper. A letter to Mrs. Pat Robbins, City Secretary, from the Texas Municipal League was in part as follows: (the letter came as a reply regarding inquiry from Mrs. Robbins regarding the local complaints made).

"Thank you for your letter of April 10, stating that the publisher of the only newspaper in Sonora (a weekly) has been elected to the office of city commissioner, and that the nearest city is San Angelo, which is 67 miles from Sonora, and asking whether the city

may run legal notices in the hometown newspaper, or advertise for bids in the newspaper.

"Whoever wrote some of our state laws did not have small towns in mind, and their problems. However, Article 988, Revised Civil Statutes of Texas, 1925, provides in part: '... No member of the city council, or any other officer of the corporation, shall be directly or indirectly interested in any work, business or contract, the expense, price or consideration of which is paid from the city treasury...'

This rule also applies to the mayor and commissioners in cities which use the commission form of government. Art. 1163, R. C. S. The prohibition is not against running the notices in the paper; the prohibition is against being paid for this service. If the commissioner wants to perform this service free for the city while he serves on the Board of Commis-

sioners, there is no violation. I would not blame him if he refused to do the work for no charge. However, this is what the statute says. The attorney general ruled in 1945 in Opinion No. 0-6326 that a county is prohibited from purchasing supplies and advertisement from a newspaper owned by the county judge.

The sale of engines at the Sonora Power Plant will be official on July 15, at which time bid notices will be received by city officials.

It was approved by the commission and Mayor Norman Rousselot, that the City Council should start meeting two times each month. They will, beginning on May 20, meet on the first and third Mondays of each month.

Two Arrested On Marijuana Possession

An arrest was made April 26 by Deputies Bill Webster and Mack West, at which time two persons were charged with felony possession of marijuana.

The subjects were stopped during a routine check one mile east of Sonora on U.S. Highway 290. Upon investigation the officers found a marijuana cigarette on a stereo speaker inside the vehicle which prompted a further search.

A thorough investigation uncovered approximately 7 to 8 pounds of marijuana in a box hidden in the rear of the panel truck and \$820 in cash. Also discovered were a mock .45 caliber pistol and a large butcher knife.

The two men were identified as James Vogel and Thomas Wayne Minter, both of El Paso. Bonds were set at \$2500 for each by Justice of the Peace, Mat Adams.

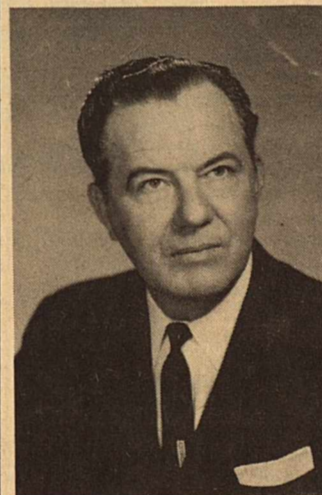

On May 2, Vogel and Minter pleaded guilty to possession of marijuana before District Judge Charles Sherrill, who pronounced sentence.

Vogel was assessed a two year term in the Texas Department of Corrections and Minter received a five year probated sentence.

GRASSROOTS OPINION

LINN, MO., OSAGE COUNTY OBSERVER: "A country can't be all bad when over a thousand people will turn out, some traveling up to a hundred miles, to search for a little 4-year-old girl who had wandered away from home on a winter day. Nor, a country where over a million drivers will ease up on the accelerator when a president, not exactly at the peak of popularity, asks that drivers slow down to conserve gasoline. It's a pretty good country after all."

MANNING, IOWA, MONITOR: "The thoughts of people are more valuable than money. When two people exchange dollar bills, then each still has only one dollar. When they exchange an idea, each then has two ideas."

FINDLEY, OHIO, REPUBLICAN COURIER: "One of the contributing factors to the energy crisis and to other economic problems of the day is the withering influence of too many politicians in putting obstacles in the path of business, destroying incentives to push ahead with progress. These politicians seem to stay up nights figuring out how to make it more difficult for business to function."

PIPER CITY, ILL., JOURNAL: "Seems like we don't hear much about people eating humble pie anymore—maybe it's because it doesn't come frozen."

MARION, WISC., ADVERTISER: "It sure is hard, training the foot to hold up that one-half inch on the foot pedal of our car after the past few years... and what a funny feeling we had a few days ago. We came up on four cars going along at 55 miles per, and then thinking about the gas shortage, decided to go along... but the urge to give 'er h---, came when two big gas eating jobs came and passed all five cars going about ninety... but the urge quit when we happened to think that they must be on welfare and no one could say anything to 'em anyway."

ATLANTA, GA., INQUIRER: "Power is neither black nor white... it is the green of the dollar bill, the maroon of a textbook, and the grey of a pay envelope. It is the color of a decent house, it is the X on the ballot. It is the control by each individual over his own destiny."

News Letter

BY O. C. FISHER
Federal housing subsidies have gotten out of hand. Federally insured housing mortgages are now costing up to \$2 billion annually, and may increase.

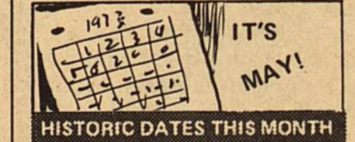

A new housing bill is now under committee study. It remains to be seen what corrective provisions, if any, are included when a bill is reported to the House.

The current unusually high subsidy cost stems largely from ill-considered and imprudent housing legislation enacted in the late 60's. Thousands of homes were built and sold willy-nilly, at vastly inflated values under FHA mortgages, with little or no down payments. As a result of ensuing defaulted mortgages, HUD now owns 75,000 single-family homes and 25,000 apartment sites. Another 139,000 homes or apartment units are now in some state of default and about 70% of them will have to be taken over by the government. By next year HUD estimates it will have about 200,000 homes and apartment units on its books.

Much of this dilemma is traceable to the Housing Act of 1968, a 100 page Christmas tree in the field of housing legislation. It was rammed through Congress without ample scrutiny. A good many of us voted against it, and the Washington Evening Star described the measure as "a monstrosity." Now the chickens are coming home to roost, and taxpayers are being forced to pick up the deficits.

A persistent auto salesman, about to lose a sale, made one last valiant pitch: "Just tell me why you can't buy a new car now?"

"Well, I'll tell you," said the man. "I'm still paying installments on the car I swapped for the car I traded in as part payment on the car I am now two payments behind on now."

Viewpoint

BY T. DRISKELL
Baseball season is here, and apparently we have some national decisions coming home to our community. What about girls participating in little league baseball? It seems that Austin has been having a heck of a time with that very question. What is the issue? Many little league teams in Austin have disbanded rather than accept girl players. Looking at the basic concept behind the little league, it seems that there is little basis for sex discrimination, especially in view of subsequent legislation. Is it a problem of ability? Not necessarily. I can remember even when I reached the high school level, there were two girls in junction, one in Rocksprings, and one in Menard who could make me ashamed of my fielding, my throwing and alas my hitting. At the little league level, girls move better, are better coordinated, and seem to have a better concept of relative distance. No, the hypothesis of lack of ability just does not seem to hold water.

Injuries? It is quite true that any time children play with a hard ball moving rapidly, there is a possibility of injuries. It would appear, however, that the injuries to be anticipated should be fewer for girls than those in an equal number of boy players. It has been said that girl players might get their teeth knocked out. With the dental costs these days, a loss of a boy's teeth seems equally important, and considering relative coordination, more likely. No, the injuries argument hardly seems valid. Competitiveness? The American female is probably the most competitive human being on this earth. They live in a world of competition which few men even sense, much less understand. It starts early enough to allow a decided benefit to little league games, and competition against her male peers would virtually assure maximum use of her skills. I believe we just struck out on that score.

Admittedly, the admission of girls would inhibit some things such as language I have heard used in little league training sessions in other cities. Girls simply must have constructive leadership, they cannot be driven. I believe that the alterations in coaching approach which girl players would force would not hurt the little league. In fact some benefit might be derived.

Am I advocating girl players in the little league? No, I am not! It is a question of personal desire, and parental approval. Simply a question which cannot be influenced or answered outside the particular family's sphere. I do not know whether or not it is a valid question in this community, but if it is, it would appear that there is only one answer which is feasible.

If a girl wants to play little league baseball, her parents approve, and she has the ability there is absolutely no reason why she should be discriminated against because of sex. The present social philosophy says, supported by the law, precisely that. I wonder if it is easier to eat chauvinism with, or without catsup. It may not be palatable either way, but if it comes to that, let's dine heartily rather than give up our

The Devil's River Philosopher Sez.....

New Economic Theory Too Much Credit Is Store's Fault

Editor's note: The Devil's River Philosopher on his bitter-weed ranch on the Dry Devil's River gets all twisted up in economic theories this week, his letter indicates.
Dear editor:
A neighbor of mine who works all the time except when he's seeing a doctor about his ulcer brought me a newspaper clipping the other day and said, "look at this."
The article reported on the plight of a young married couple which it said was typical of a lot of young people today. They're head over heels in debt despite the fact they make about \$12,000 to \$14,000 a year.

It went on to describe the situation. The couple needed a car so, not having any cash on hand, borrowed \$500 from a loan company for the down payment and financed the rest in the regular way through the car dealer. They bought gas with credit cards, and when a bank sent them a new-style credit card, they used that to buy other things, like a TV set, etc. Anyway, they soon found out their monthly installments were almost equal to the husband's pay check.

Now what interests me about this is the husband's notion of where the blame lies. "I'll take 10 percent of the blame," he said, "but the stores and credit companies should take the rest because they never once turned me down even though they must have known I was bumping my credit ceiling."

This is the kind of economic theory I've been looking for all my life. Up to now, if you hadn't paid your bills at a store, the store blamed you, when all the time it was the store's fault. Instead of sending nasty letters the store should have been getting them. What this is I guess is a domestic adoption of our international economics policy. Internationally, you know we've lent billions and billions of dollars to foreign countries

and when the money comes due they're madder and madder at us. Everything is confusing. Right now we're trying to lend Egypt a lot of money to re-build the Suez Canal and its bombed cities, and at the same time are lending Israel even more to replenish its military hardware which it used up fighting Egypt. If my subscription to the Devil's River News is past due, you know who's to fault.
Yours faithfully,
J. A.

Auxiliary Holds Special Meeting

BY IAN VANDERSTUCKEN
The Lillian M. Hudspeth Memorial Hospital Auxiliary met for a called meeting in the conference room of the nursing home Monday, May 6. The purpose of the meeting was to plan the calendar of activities for National Hospital and Nursing Home Week beginning with an open house in the nursing home Sunday, May 12 from 2-6 p.m. Twelve members were in attendance. Mrs. Maxine Browne was appointed chairman of activities for the week of May 12-19.

The purpose of this special week is to better acquaint the community with the existing program for the care of senior citizens. The program will be projected to include every facet of the central idea, "Get to know us before you need us," for the hospital; and "We Care" for the nursing home. Mr. Gene Martin, hospital and nursing home administrator, outlined the activities of the ensuing week. Mr. Martin designated the auxiliary to inform the public of activities of

residents of the nursing home. Jo Barber, coordinator of activities, heads the arts and crafts program. Projects include weaving, leather work, painting, decorating and making candle holders. These articles will be displayed during the week. A goat barbecue is planned for the residents of the nursing home on May 18. The barbecue will take place in the area in front of the hospital. Bales of hay and western music will add to the setting. Barbecued goat with all the trimmings will be served.

The auxiliary is proud to announce that we now have three new television sets in circulation in the hospital. We hope you will all make a special effort to attend the activities. We'll be there, looking for you! The auxiliary will meet in the conference room Monday, May 13 as previously scheduled.

Does GOD see the gap?

Whenever you hear about a generation gap, you can be sure you're getting a human, biased point of view. Each generation is sure!

Yet there is a divine view. It concentrates on the oneness of all generations . . . on all the blessings and opportunities that God continues to bestow. "His truth endureth to all generations," said the Psalmist.

When Great-Grandma holds little Linda in her arms next Sunday, she'll be thinking gratefully of all the gifts they have in common — from the Lord. And she'll be praying that Linda will be brought up to cherish those gifts.

The generation gap—like all differences — disappears when human intelligence grasps God's point of view.

School Board Approves Partial Payment On New Classrooms

Partial payment of \$10,000 was approved by board members when the Sonora Independent School District's Board of Trustees met in special session Monday. Changes in the new classrooms, presently under construction, were also presented and approved.

A revision of the 1974-75 school calendar was made and approved along with contracts for two new elementary teachers. Martha Jane Lynch, who is presently teaching in the Spring Branch School, and Betty Joe Barrett, formerly of Sterling City, now attending Angelo State University, were approved by the board, pending their decision to accept.

Members of the board approved the request made recently by Mr. Tally Kelso, to be

relieved of his coaching duties and assigned to classroom teaching.

Other items approved by the board was a new salary schedule for classroom teachers. All teachers, it was decided, completing three years of Sonora teaching, will be paid \$500 above State Schedule. Teachers with 0-2 years experience will remain at \$390 above State Schedule.

The Board of Equalization is scheduled to meet at 2 p. m. on Tuesday, June 11. Mrs. Mary Balch was appointed secretary to the board.

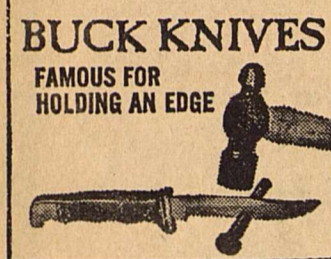

The next meeting of the school board has been scheduled for Monday, May 13.

Looking Back By Sonora Motor Company

THREE HIGH SCHOOL BOYS in the early 1900's were from left to right W. E. Hodges, Lee Allen, and Jesse Allen. If the boys look a little old for high school, it's probably because they were all in their 20's. In the early days many children did not start school until they were at least 8 years old and sometimes stayed out a year or so to work.

Serving the Devil's River Country

Friends:

I want to thank the people of Sutton County and the 21st District for helping us carry the great majority of the counties in this district. Now that I am the only CONSERVATIVE in the race I hope you will join with us to elect a U.S. Congressman who won't forget the needs of you and your family in Washington. Coming from a county about the size of yours I know that we need an independent voice in Washington, not one that is controlled by 10 men in San Antonio. I look forward to visiting with you before the run-off June 1.
