### Miss Kelley Cusenbary To Wed

The engagement of Miss Kelley Cusenbary and Mr. Eddie Lee Dickie of Woodson, has been announced by her parents, Mr. and Mrs. James R. Cusenbary. Parents of the intended bridegroom are Mr. and Mrs. Ray E. Dickie of Woodson.

The wedding will be held July 27 at Sonora's First United Methodist Church.

The bride-elect is a graduate of San Angelo Central High School and is a junior at Texas Tech University in Lubbock, where she is on the Dean's honor roll.

Her fiance is a graduate of Woodson High School and of Tarleton State University, where he obtained a BS in chemistry.

### Miss Viola Virgen Becomes Bride of Freddy Gonzales In Catholic Rites

Miss Viola Virgen became the bride of Mr. Alfred (Freddy) Gonzales in ceremonies held Saturday at 4 p. m. in the St. Ann's Catholic Church. The Rt. Rev. Michael Fernandez officiated at the double ring ceremony.

The bride is the daughter of Mr. and Mrs. Pedro Virgen. Parents of the bridegroom are Mr. and Mrs. Alejandro Gonzales.

The bride, given in marriage by her father, chose a Priscilla gown of white candlelight silk organza, re-embroidered with Alencon lace. The molded bodice featured a high neck, sheer beaded yoke and long tapered sleeves. Bodice and sleeves of English net were en-

hanced with jeweled lace. The A-line skirt fell to carpet length from the empire waist and swept to a chapel train at the back. A scalloped border of jeweled lace edged the skirt and train. A full length mantilla of imported silk illusion and lace matching that of her gown, swept beyond her train from a small lace-covered coif.

The bride carried white sweetheart roses with white carnations and Fuji mums.

Miss Norma Virgen, sister of the bride, was maid of honor. Bridesmaids were Misses Mary Sue Galindo, Carmen San Miguel, Cindy Favila, Lavina Hernandez, Margarita San Miguel, Lynn Marie Virgen, Diana Gonzales, Glenda Lawson of Del Rio, Gloria Samaniego, Evangelina Pimentel, Dolly Leyva and Rosemary Gonzales.

Mr. and Mrs. Nelson Guajardo of Dallas and Mr. and Mrs. Juan Carlos Gonzales, a brother of the bridegroom, attended the couple as honor attendants.

Miss Emily Jane Gonzales of Houston was flower girl and Mr. Eddie Virgen was ring bearer. Attending the bridegroom as his best man was Narciso Lira. Ushering guests were Hector Perez and Billy Lawson of Del Rio.

Jimmy Galindo, Peter Samaniego, Johnny Gonzales, Robert Galindo of San Antonio, Leroy Chavarria, Juan Perez, Jaime Gonzales, George Hernandez, Luis Samaniego, Alex Gonzales, Jaime Favela and Edward Flores were groomsmen.

Mrs. Marciano Hernandez provided the traditional wedding music.

The bride graduated from Sonora High School May 22 and the bridegroom is a 1972 graduate.

A reception was held at the 4-H Center following the ceremony. Miss Beatrice Gonzales registered guests.

Parents of the bridegroom hosted the rehearsal supper at St. John's Parish Hall Friday night.

Following a wedding trip to Corpus Christi, the couple will make their home in Whidby, Island, Washington where the bridegroom is an aviation electrician with the U.S. Navy.

### Miss Denise Dearing, Rick Street Wed In Pflugerville May 24

In candlelight ceremonies at the Immanuel Lutheran Church of Pflugerville May 24 Miss Denise Elaine Dearing became the bride of Mr. Richard Lewis Street. Parents of the couple are Mr. and Mrs. Harry Leonard Dearing of Pflugerville and Mr. and Mrs. R. L. Street of Sonora.

The Rev. Lee Muehlbrad

officiated at the ceremony with Mrs. Sergei Kabantschuk providing traditional wedding music at the organ. Miss Molly Morris was soloist.

The bride, given in marriage by her father, chose a gown of candlelight silk organza styled with princess lines and trimmed with re-embroidered lace at the neck, sleeves and above

the ruffled hem. A mantilla of lace and tulle was attached to a cap and re-embroidered with lace highlights. She carried a white Bible with an arrangement of orchids, roses and trailing English ivy.

Miss Nancy Saringer of Houston served the bride as maid of honor. Bridesmaids were Miss Cindy White of Houston, Miss Mary Hans of Austin, Miss Linda Dearing, sister of the bride of Pflugerville, and Mrs. Ronny McElroy of Lufkin.

Attendants wore gowns of blue Cielo with scooped necklines and short puffed sleeves. The fitted bodices were accented with fully gathered skirts featuring white sashes. They carried nosegays of mixed spring flowers.

Gene Trainer of Houston was best man to the bridegroom with Steve Street and Pat Street, brothers of the bridegroom, Joe Eustace and Harry Dearing, brother of the bride, serving as groomsmen.

Ushers were Don Dearing, cousin of the bride, and Mike Street, brother of the bridegroom. Lester Habecker and Tammy Dearing were candlelighters.

The bride is a graduate of Pflugerville High School and attends Texas Tech University in Lubbock. The bridegroom is also a student at the Lubbock University and is a 1972 honor graduate of Sonora High School.

A rehearsal dinner was hosted by Mr. and Mrs. R. L. Street Thursday at the Barn in Austin. A reception was held in the Church Fellowship Hall following the wedding ceremony.

After a trip to Santa Fe, New Mexico, the couple will make their home in Lubbock, where they will continue their studies.

**FRICITION - THEN RUIN**

Packed into every watch are cogs and wheels, levers and springs. Varying in size and shape, each helps keep time. But look more closely. A thin film of oil adheres to many of the moving parts. Without it there is friction — then wear and . . . damage.

Within most towns, you'll find banks and shops, supermarkets and churches. They vary in size and purpose, yet each contributes to an orderly society.

Faith in God is essential to society. Without it there is friction — then distrust and . . . ruin.

In church people find faith that gives greater meaning to life in a complex and rapidly changing world. Is your life running smoothly? Why not attend church this Sunday?

## Farm Numbers Decline

The number of farms in the United States was 2.84 million in 1973, down about one percent from the previous year.  
USDA estimates the same percentage decline for 1974, continuing a downward trend that started in 1966.

## Our Growing America

HOW OUR INSURANCE INDUSTRY HAS GROWN

Few people realized in 1759 when the first life insurance company opened its doors in America how many Americans would be affected in so many ways by this growing industry. Today, Americans own about \$1.8 trillion of life insurance issued by legal reserve life insurance firms. If this total of life insurance were divid-

ed equally among all U.S. families, each would have had \$24,400 of protection at the end of 1973.

In fact, nearly 145 million individual policyholders, or nearly seven out of ten people in the country, were insured with legal reserve life insurance companies by the end of 1973.

But it wasn't always that

way. When the first American general insurance company started in 1794, it took the company five years to issue six life insurance policies, and within another five years it discontinued its life insurance business. Fortunately, in the beginning, other forms of insurance carried the insurance industry along. Fire insurance was one. The first fire insurance company was organized in 1735 in Charleston, S.C., as "The Friendly Society for the Mutual Insurance of Houses Against Fire." But even before that, the first fire insurance agent popped up: John Copson of Philadelphia, Pa., who inserted an ad on May 25, 1721, in the *American Weekly Mercury* to the effect that he would open an office for fire insurance on "vessels, goods and merchandise."

The year 1847 was big on health, for that's when the first health insurance company opened up, in Boston, Mass. Accident insurance shortly followed in 1863, but it took another year for the first accident insurance policy to be sold, to James Bolter of Hartford, Conn., for \$1,000. The policy covered only the period he spent walking from the post office to his home on Buckingham Street. The premium was two cents, and the agreement was oral!

From its modest beginnings till present-day, the insurance industry has grown at a remarkable pace, mirroring the steady and healthy growth of America. Typical of the growth in this most promising field is one of its leaders; The Home Insurance Group of Companies, the eleventh largest property and casualty insurer in the country. The Home also enjoys a leadership position in commercial multiple peril, where its package policies are among the best in the business and improving all the time. It is also probably the largest writer of excess lines insurance -- the type written on large perils above primary insurance of self-insurance. The Home Group of Companies is one of the family of companies owned by City Investing Company, which is well known for operating companies in promising fields.

Insurance policies have been taken out against the birth of twins, the breakage of false teeth, and death

caused by failing sputniks, but the anxious fellow who took out a policy with one insurance firm to insure against baldness certainly proved he had a head for business--and set a shining example for generations of future policyholders. You may never feel the need for such offbeat examples of insurance, but it's nice to know if you do, its insurable. Be assured about that!

### No Need To Squeeze The Oranges

Fresh-tasting orange juice used to be a luxury most Americans couldn't afford.

But today it's an everyday breakfast treat in the average home, thanks largely to agricultural research.

The process for developing frozen orange juice concentrate grew out of research at the U.S. Department of Agriculture lab in New Orleans.

Now, less than 30 years later, you can buy frozen orange juice for about half what you would pay to buy enough oranges to make a comparable amount of juice. And besides that, you can leave the squeezing to the processor.

## TIPS FOR OUTDOORSMEN

by Vern Sanford

### Cautious Cruising

If you're on a pleasure kick it's a good rule to never drive your boat farther from home port than one third of your fuel supply.

Reason is--you'll have more than ample gas to return home safely without running the tank dry. After all, this is supposed to be a pleasure trip.

There's not much fun "padding" even if you're in sight of shore.

### Use Dip Stick For Oil

When you have a flat tire and encounter difficulty removing tight lugs from the wheel of your car or trailer, a few drops of oil will help loosen 'em up a bit.

### No oil handy?

Then remove the dip stick from the engine and let a few drops of the motor oil drip off the measuring stick onto the lug nuts and bolts.

It's not as effective as a squirt of rust remover or a spray can of quick-releasing WD-40, but it's sure better than nothing at all.

### Dual Purpose Gun Rack

Put those gun racks in your car to year 'round use.

When hunting season is over the twin gun rack makes an excellent out-of-the-way place to store your two-piece fishing

rods and reels, and especially if they are enclosed in zipper cases.

### Instant Stove

If you'll carry four three-pound coffee cans and an old grill in your car, you'll have a handy stove.

Fill the cans with sand and place the grill over them.

And if you'll fill a couple of the cans with water instead of sand, you'll have instant warm dishwater.

### Simple Utensil Kit

Does your wife store her "good" silverware in a flannel pocket roll?

Why not use the same idea for your camping knives, forks, and spoons? Use heavy canvas and sew up your own utensil kit... then tie it with a shoestring (which might come in handy also).

### Presto--A Dishpan

Did you ever go camping and find you didn't have a container big enough to use as a dishpan? Dig a hole in the ground and line it with aluminum foil. Emergency pan!

### First Aid

If you should happen to get stung by a bee, and have no remedy handy, a little bit of sugar rubbed over the besting will lessen the pain.

## Summer Cheese Dip

"Cheese" it has been said, "complements a good meal and supplements a bad one." This cheese dip is perfect for summer meals because its cheeses have been seasoned specially to contrast and enhance the crisp, fresh vegetables of summer. The "secrets" are Worcestershire sauce, minced onion and a dash of lemon juice.

The original Worcestershire sauce itself has a completely appetizing aroma and flavor, for in it are combined more than a dozen natural products from as many parts of the world. Keep the bottle handy; it's good in everything except dessert. For instance, the English love to add a dash to tomato juice which might go along with this dip.

### SUMMER CHEESE DIP

2 cups (1 pint) creamed cottage cheese  
1 cup (4 oz.) shredded Cheddar cheese  
½ cup finely chopped onion  
½ cup dairy sour cream  
2 teaspoons original Worcestershire sauce  
1 teaspoon lemon juice  
¼ teaspoon salt

In a mixing bowl combine cheeses and onion. Blend sour cream with Worcestershire sauce, lemon juice and salt. Add to cheese mixture; blend. Garnish with parsley sprig, if desired. Serve as dip for assorted vegetables. Yield: 3 cups.

# The Consumer Alert

by John L. Hill  
Attorney General

Want to look 10 years younger, with a smooth, wrinkle-free skin or a full head of hair? There are some commercial establishments that promise all this and more. They offer such things as face peeling and suture implantation to hold hairpieces.

Unfortunately, some doctors say, what they may also inadvertently deliver to some persons is a discolored, scarred face or an infected scalp.

The court of inquiry held in Dallas last summer to examine practices in the health and beauty industry revealed that some reducing spas offered such related services as face peeling, sometimes called "chemotherapy."

Some establishments claim to use "secret chemical formulas" to peel away the outer skin, theoretically leaving smooth, youthful skin free of wrinkles and blotches.

But no matter what the secret formula, the process invariably involves applying some caustic chemical (often carbolic acid) to the face to, in effect, "burn away" the top layer of skin.

Plastic surgeons and other physicians sometimes regard the process as a helpful procedure when performed under medical supervision by trained personnel on certain individuals after extensive skin tests. It is sometimes used after surgical face lifts to remove any tiny scars.

However, at the court of inquiry, doctors testified that in the hands of unskilled individuals, the process could result in pain, swelling, redness and blisters. More permanent damage could include infection,

## Fresh Spuds Losing Out

Use of fresh Irish potatoes is on the decline as consumers opt for the variety that's already processed.

In fact, the USDA reports that more than half the nation's potato crop is now used for processing.

Frozen French fries take the biggest bite out of the crop, accounting for 26 percent of the total. Next in popularity are potato chips, dehydrated potatoes, and canned potatoes.

This change in eating patterns is having a big effect on potato growers, says Extension Specialist W. W. Reid of North Carolina State University.

It does provide a more stable market since most processing spuds are raised under contract at a specified price.

But it also means that growers have to choose plant varieties with more care since the potatoes they raise must be the type that will not discolor during processing.

## ASCS Provides Fuel Sources For Farmers

"Sutton County farmers who have been unable to find fuel for agricultural production through regular channels may contact this office," said C. W. Elder, County Executive Director of the Crockett-Sutton County Agricultural Stabilization and Conservation Service (ASCS). "ASCS and the Federal Energy Office (FEO) will operate a triple-decker back-up system for farmers with fuel problems which cannot be resolved through procedures already available.

"The first back-up solves problems quickly and simply. When a farmer comes to the office and reports that his distributor cannot supply fuel, ASCS will attempt to locate a fuel source.

"We will use the second back-up only when we cannot locate fuel locally," Elder continued. "In back-up two, ASCS will contact either the State Energy Office or the Regional FEO in Dallas. The determination of which office will be contacted is dependent upon the type of problem and where it can best be solved. The office contacted will then aid in obtaining the necessary fuel for agricultural production.

"The third back-up phase provides quick communications with FEO through the National Office," said Elder. In certain serious situations the county office will call the National FEO in Washington, D. C. From there, the information is forwarded to the Regional FEO by the opening of business the next day.

**30's CRAZE BIG TODAY**

Last year Americans ate 500 million pounds of pop corn; next year is due to top that.

Pop corn, discovered by the Indians and first marketed in the twenties, really got popping in the thirties when movie theatres made more on selling pop corn than they did on the flicks. It was a time, too, for staying home.

This cozy scene is from 1930's sheet music, "A Bowl of Pop Corn, a Radio and You."

listening to the radio and filling up on hot buttered pop corn. Then, as now, it cost only pennies a bowl.

Although today the electric corn popper is one of the fastest selling small appliances, it is easy to pop corn in an ordinary pan on top of the stove. For about 2 quarts pop corn, heat 3 tablespoons oil in a large heavy saucepan. Drop in a kernel of pop corn. When it pops, add 1/3 cup Jolly Time Pop Corn. Cover pan and shake frequently until popping stops. Add melted butter and salt.

For directions on how to make pop corn balls, caramel corn and other pop corn treats, send for "Recipes for Pop Corn Lovers" free from Jolly Time, Box T 178, Sioux City, IA 51102.

**BSA To Take Part In New Activities**

Beginning next September, members of the Boy Scouts of America in this area will be taking part in new activities related to the Nation's bicentennial, according to A.L. Harrington, Jr., Council Vice President for program of the Concho Valley Council.

For this second year, the program emphasis is Be Prepared For Life: Be Safe, Be Fit, and

will stress conservation of human resources and safety through skill.

More than 6,000 BSA members in 23 West Texas counties will be encouraged through their Cub Scout Packs, Scout Troops and Explorer Units to earn the Presidential Physical Fitness Award as presented by the President's Council on Physical Fitness and Sports.

In addition, during the coming year, there will be swim meets, Reach, SOAR, Council Camporee and other programs.

"Adults, too, will be involved in the observance with the presidential sports award and the defensive driving courses," Harrington said.

The 4-year scouting bicentennial program was developed in order to pledge that the BSA will deliver to the Nation on its 200th birthday anniversary a new generation of prepared, young citizens who are physically strong, mentally awake, and morally straight," Harrington explained.

The council vice president said that the BSA bicentennial observance is boy-oriented in the unit. Members will be encouraged to be involved in bicentennial activities, and units will cooperate with local historic, patriotic, safety, and fitness organizations.

**First Cattleboat Maybe?**

Those famous Texas longhorn cattle can trace their ancestry back further than the Mayflower. Columbus, on his second voyage to America, brought longhorned cattle from Spain to the West Indies. Descendants of these cattle later were taken into Mexico and eventually to Texas.

**DPS Releases Latest Statistics**

Twenty percent of the arrests recorded by the 273, 180 criminal fingerprint cards received at the Texas Department of Public Safety last year were 17, 18 and 19 year olds, the DPS said recently.

Colonel Wilson E. Speir, DPS director, added that the Texas percentages appear to be consistent with those nationwide. "Those in the late

teen years arrested represent a combined total of 19.52 percent of all arrests, he added.

Conversely, the oldest person whose arrest was reported by a fingerprint card was a 96 year old male who was charged with theft.

The Identification and Criminal Records Division at DPS is the state's central collection agency for criminal history information and Joel Tisdale, chief of the operation, said his division experienced another record year.

The 273, 180 criminal arrest fingerprint cards increased by 21, 510 cards over the number for 1972. A daily average of 1, 019 cards were submitted by 635 different Texas agencies and 18 out of state agencies.

Of the total number of cards processed, it was found that 65.18 percent had a prior record existing in the bureau. The remaining 34.82 percent were new to the system, Tisdale added.

In the laboratories bureau, a section of ICR, the polygraph examiners increased their clearance of cases last year by 64 percent over 1972. All in all, they cleared 1, 761 criminal cases.

Another sizeable increase came in the photography section where assistance in specialized photography on physical evidence instances rose from 131 cases to 186 during 1973 for a 42 percent hike.

Another area in which the lab's workload was notable came in the marijuana examinations. Combining the totals of the headquarters and the

nine field labs, there were 40, 157 tests conducted on marijuana during 1973 which shows an increase of 40.8 percent over the 28, 159 examinations in 1972.

The firearms section cases increased from 355 cases in 1972 to 401 in 1973 for a 13 percent climb. In all, they conducted 5, 504 examinations of evidence.

Meanwhile the questioned document section checked 3, 422 documents as compared to 2, 761 the previous 12 months, accounting for a 24 percent workload increase.

The modis operandi bureau, which keeps tabs on known criminals, improved its facilities so as to enable faster and more comprehensive service to police agencies. The bureau's files contain a variety of information including fingerprints, photos, and operational methods used by criminals active in Texas.

The latent fingerprint section received 4, 461 latent fingerprints for examination and assistance was rendered 721 times to city, county and state and federal officers while aiding in 196 different investigations.

Fourth, seven percent of the total services of the labs was given to assisting city police officers while 29 percent of the bureau's energies were contributed to helping DPS law enforcement officers. An additional 21 percent of the labs efforts was aiding county officers while 1.7 percent was devoted to other state peace officers. Rounding out the workload were assistance to federal and other requesting law officers.

And, during the year, the complete criminal history of 73, 337 individuals were coded and filmed which accounted for 492, 034 separate documents.

**If you don't vote this Saturday, the San Antonio political machine will elect their candidate for U.S. Congress.**

*If you DO vote, we can have a conservative minded congressman who will represent ALL the people of the 21st district.*

Unlike Nelson Wolff, the San Antonio political machine's candidate, **BOB KRUEGER** is a man from our part of the district. Bob is from Comal County and as a boy his family taught him to be an honest, hardworking, and conservative minded man.

Coming from Comal County, Bob Krueger knows what it's like to want a representative who will not forget the people outside the very large metropolitan areas. **BOB KRUEGER IS COMMITTED TO REPRESENTING ALL THE PEOPLE OF THE 21ST DISTRICT.**

Krueger is a straight shooter and has taken a stand on every issue:

- FOR a balanced budget
- FOR the right to work
- FOR a strong national defense
- FOR maintaining all our local military bases
- FOR predator control
- FOR a tough anti-crime and drug abuse program
- FOR an agricultural policy which encourages rather than discourages production
- FOR a fair share tax plan
- FOR oil depletion allowance
- AGAINST Federal Land Use policies
- AGAINST forced busing
- AGAINST general amnesty
- AGAINST gun control
- AGAINST wage price controls
- AGAINST metro-government
- AGAINST a national socialized medicine program

Bob Krueger, like Gov. Coke Stevenson and John Poerner, knows how important it is to have a congressman who'll represent us, not forget us.

Vote against the San Antonio political machine.

### LETTERS TO THE EDITOR

(Editor's note: R. W. (Bill) Chapman, the new manager at Sonora Municipal Airport, submitted this report of activities at our local airfield during his first week on the job. Chapman's first day, May 22, he reports, was the busiest of the week.)

Dear editor:

The first flight of my first day on the job arrived at 8:45 a. m. and flights continued in and out until 7:05 p. m. Visitors to our city included a church group in route to visit a mission, a construction company aircraft (2 flights), two congressional candidates (separate flights), and a chartered ambulance plane to fly Mrs. W. O. Braden to Plano for burial.

A party of young people, babies included, arrived late in the afternoon to attend high school graduation ceremonies and the last flight of the day arrived at 7:05 p. m., which was a young fellow, Kevin Pace, age 18 of Harlingen. Young Pace flew a 1938 model Piper Cub and was on a cross-country ferry flight to California where his mother Hazel (Ace) Pace was scheduled to fly the antique plane in an airshow. Kevin said one of the tricks performed by his mother was to fly the plane low enough to the runway to rip open brown paper bags of white flour tied to the wing tips. The dust cloud formed by the exploding bags of flour, is a sure fire crowd pleaser.

The purpose of this letter is that I may be able to alert persons in Sonora that the airfield is an active place. Joy riders on airport property, such as the two old time residents who drove leisurely down the runway just five minutes after a gas company twin Cessna had taken off; or the two young fellows wearing black hats and driving a late model white coupe, who used the lighted runway for a drag strip at midnight, are endangering their lives and the lives of pilots who might crash their aircraft into them.

The airport is open to the public, but please stop by the office when you drive out. For safety's sake, don't drive on the runway. The airport is open and in operation 24 hours per day.

Bill Chapman

### Pecan Tree Casebearer Prevention Should Be Applied Within Few Days

Control measures for the pecan nut casebearer should be applied during the next few days according to Sutton County Extension agent D. C. Langford. Pecan nut casebearer moths have emerged in an eradicate pattern this year and a second chemical application may be needed approximately 7 days after the initial application according to area entomologist Dr. Mike McWhorter.

The second application should provide the extended nutlet protection needed to reduce damage from casebearer larvae developing from the last portion of the egg laying period. Homeowners and orchardists should continue to examine developing nut clusters for the small white to reddish casebearer eggs to further pinpoint the need for additional chemical applications.

Insecticides may be mixed with various fungicides and

zinc sulfate to improve overall nut quality and tree health. Thorough tree coverage is necessary to obtain maximum benefit from the spray mixture.

Insecticides such as Sevin, Zolone, Malathion or Guthion can be used to control the pecan nut casebearer. The selected insecticide should be mixed and applied according to the directions on the container labels.

Additional information on insecticides and pecan pests can be obtained at the Sutton County Extension agent's office.

### Lions Hear Dowell Agent At Luncheon

Mr. Ben Lawson, field representative for Dowell Chemical in the Sonora area, spoke to members of the downtown Lions Tuesday at the noon luncheon.

Mr. Lawson, who moved here in September of '73, said to Lions members that most of his experience has been in foreign countries.

The Dowell Company, according to the representative, has been in Sonora since February of 1973 and is in the business of cementing and stimulating wells. They have thirty-three trucks in the area and have the second largest station in West Texas located in Sonora.

Thirty-five employees are on the payroll here and this is approximately a total payroll of \$34,000 monthly. Plans of the company, stated Lawson, are to remain in the Sonora area for at least five to ten years.

Dowell also plans a building that will house offices, warehouses and a storage yard.

Mr. Lawson showed Lions members a colored slide program showing the history, development and present methods of cementing fundamentals and well stimulation.

NOTICE TO VOTERS, PRE. 4
