By

RECENTLY, MY better half (you know, the one that fills this space every other week, refers to me as "That good old boy on Maple Street, and is always being quoted by Putt Powell?) decided she would save yours truly a few cents while shopping.

While this was an admirable idea in general, if not downright unusual, yours truly later had to question the method in which the "saving" took place.

She brought home a package of "Brand X" shavers for me to use in the morning.

I tried one of the "Cheap-O" shavers, and after nearly cutting my throat in three different places, I tried as tenderly as possible to explain to my mate that there are certain items with which it doesn't pay to cut corners (no pun intended).

You can get Brand X catfood if you wish (although our cat may bite you. She's the white one you see on the Fancy Feast commercials).

Maybe the Brand X kitty litter would be all right, now and then. But please, Mom, don't vary from my Bic Shavers for sensitive skin.

The late great columnist Paul Crume, who, by the way, was a Parmer County native before achieving fame as author of the "Big D" column in the Dallas Morning News, once had some comments along this line, and some of them bear repeating.

"It is my opinion that the man who shaves more than once with one blade is nuts. His sense of values must be as dull as his razor," Crume once said in his daily column.

The same thing might be said about straying from known successful razors.

Most men find the shaver they like and stay with it. In some ways, it's similar to choosing one's mate, although in many cases this "trial and error bit" goes on longer in choosing the right shaver.

Crume said, "Sure, you can scrape your face thirty times with any blade if you want to. The Indians shaved all their lives with only one clam shell; but they were willing just to pull their whiskers out by the roots."

So you see that the Guinness record for shaving the most times with one instrument is probably held by an unknown American who lived here before Gillette or Bic ever came into being.

One more comment from the writer who called both Lariat and Dallas home: "You have to decide whether you're going to save skin or pennies, and the man who is going to save on razor blades has a long way to go to make his fortune."

I'm not sure what Paul Crume's political leanings were, but when it came to razor blades, the two of us had more in common than just a Parmer County background.

How KINZE designed the world's best Auger Wagon.

Model 440 (440 bushel) Model 640 (625 bushel) Model 840 (825 bushel)

Low-profile, extra-big tank means more clearance for the combine auger. Less than 10 ft. height on all models.

We put the auger up front, where you can see it... control it. Over 12 ft. unloading height.

Hydraulic fold, self-aligning augers, and over-center locks.

3-minute unloading with vertical and horizontal augers. You unload at full capacity, wet or dry, from start to finish. Less grain damage because augers run full. Much more efficient than single auger carts.

High-flotation tires...standard equipment! So you keep moving, even in soft, greasy fields.

Finest American-made, industrial grade components money can buy, with chain oiler and grease-bank for easy maintenance.

2:1 sprocket reduction drive system. Especially important when unloading high-moisture grain.

Jim and Mary Johnston had an eventful weekend when they went to College Station on May 13 to see Diane graduate from Texas A&M University. They returned via Tyler, where Bryan and Allison live and also Dorothy and Rick Son. On May 16, a new baby girl was born to Bryan and Allison's family so grandparents are anxious to return to see the new arrival, named Deirdre Diane.

We're like to congratulate Mark Montoya. Mark is the son-in-law of Jo and John Blackwell and graduated this past Friday from ENMU with a degree in business

administration. Mark is currently employed by Ellis-Blackwell Funeral Home.

Mr. Holly "harvested" our first batch of peas. This batch of peas went through a real 'cold' snap and some hail, but still turned out plump and tender.

We want to thank Lucky and Susan Gonzales for the trees they gave to our nursing home in honor of the Prairie Acres staff for the good care they feel Susan's mother, Leandra Aragon, received while she lived here at Prairie Acres. We do feel honored that Lucky and Susan were pleased and it makes our jobs easier when we know that our families are happy and satisfied.

We're glad to have Edna Buss back with us. Mrs. Buss had hip surgery last week in Hereford and is home recovering very well. Our thoughts and prayers go out to Ruby Jordan, mother of Donita Martin, who also had surgery in Hereford. Ruby is a real sweetheart and we miss her.

Mr. and Mrs. Roy Miller gave memorials to Mable McBroom and Kenneth O'Brian.

Dear Friends:

We live in the greatest part of the United States, the Texas Panhandle. And, regardless of where we went to college - or if we went - each of us can claim West Texas State University as 'our University' because it is the University of this region.

You are aware the Texas Senate passed a resolution authorizing a study of whether West Texas State University should merge with either the University of Texas or Texas A&M systems. Also, there is a House resolution that includes studying a merger with Texas Tech University.

Now 'our University' is undertaking that study, and it is destined to have a dramatic impact on the Texas Panhandle - whatever the findings. An important part of the West Texas State University Regents study is to investigate the pros and cons - reacquaint ourselves with all the wonderful things about West Texas State University, and define what we would like to see happen in the future.

We want to know what you think! Take time to study the enclosed questionnaire, and then check your answers. We welcome your comments. Please return the completed questionnaire to me no later than June 5, 1989.

Thank you so much.

Sincerely yours,
Winfred Moore, chairman

From The Chief's Desk

This week's topic will be the greatest resource we, the American people have, our young people.

I would like to take this opportunity to congratulate our kids for a great school year. We sure had a good year in sports and in scholastics. We even had a young man to distinguish himself by saving his little sister's life.

You know, if we will just stop and think for a moment, we will realize that Bovina probably has the best kids in the whole world, or if we don't have them, we haven't looked at them just right.

Our kids are proud of Bovina. If you don't believe me, then just come to a sports event and watch

how they shine, so they won't be out-done.

Our kids are the first to react when a friend or neighbor needs help or has a sorrow. Sure our kids will be kids and will occasionally cause some kind of problem, but whose don't. We should be proud of our kids, because they are our future. Just remember that when you complain about the kids, they are only doing what they see mama and daddy do or say, in most cases. If your kids have been taught from birth to do the right and honorable things in life, then that's what they will do, when the time comes.

The sad part about the school year coming to an end, is that in too many cases, there will be some kids missing next year because of the use or abuse of alcohol or drugs at graduation parties. Please, I beg you kids, don't use alcohol and drugs and get on the roads and kill yourself or some of

your friends. I make this promise to you now before all the people of Bovina, if you ever drink too much or any at all, and you don't have a safe ride, who is a sober driver, then call me and I will see that you get a ride home. I will not bother you or tell anyone, all I want is for you to be safe. This doesn't only apply to graduation. It applies anytime. Have a great summer vacation.

Pena Is Convicted For Murder

Francisco E. Pena was convicted on a capital murder charge in District Court in Farwell this week.

Pena was arrested following a late-night brawl the weekend of October 22, 1988 in Friona that left Michael Diaz dead from a gunshot wound.

Although Pena was not thought to be the trigger-man in the shooting, he was tried under new proceedings that allows participants in a murder to be tried.

Pena was found guilty of first degree murder, and was sentenced to 15 years in the penitentiary plus a \$7,000 fine.

Ramon Ramirez was identified as the suspect doing the actual shooting in the incident, and has been sought since the October shooting. He is thought to have fled to Mexico after the shooting.

A group of uninvited guests were alleged to have crashed a party on the night in question at 808 Jackson, where the hosts had been planning a baptismal party.

A fight developed, and Michael Diaz, Jr. was shot.

Pena, the man convicted this week in district court, was the one who wrestled with Friona police officer Jim Davis for a gun after being arrested, causing the gun to discharge and blow a hole in the door of the patrol car, and slightly injuring the officer.
