Jane Wallace, a junior band student, was named band sweetheart for the 1976-77 school year. Jane is a member of the flag girls and plays clarinet in the Bronco Band. She is the daughter of Mr. and Mrs. George Wallace. Named band beau for the 1976-77 school year was Scott Alley, son of Mrs. Sue Alley. Scott is a senior student and a member of the percussion section of the band. Other nominees for band sweetheart were Flaire Lane, Joyce Noriega and Terri Simpler. Other nominees for beau were Jack Lawson and Chip Savell.

Annual Hunting Party Nov. 16

Edwards Plateau Game and Wildlife Association, Downtown Lions Club, Sonora Chamber of Commerce and the Sonora Jaycees are sponsoring this year's annual hunting party scheduled for Tuesday, November 16 at the 4-H Center. The wild game supper will begin at 6 p.m., consisting of venison, turkey, cabrito, wild boar, buffalo and possibly some elk.

An initial charge of \$2 entitles the ticket holder to a meal and one ticket for one of the valuable door prizes to be given away. Additional tickets for prizes may be purchased for \$1. Included in the prizes to be given away during the evening are deer rifles, shotguns, 4x scope, binoculars, savings bonds and a host of other valuable items.

The program for the evening will be furnished

by Dr. Milo Shult, area wildlife specialist of Uvalde. All persons are invited to purchase a ticket and attend this 16th annual hunting party.

Included on the program will be the election of officers for the Wildlife Association, the presentation of the Conservation Rancher of the Year Award, and a drawing by the Independent Cattleman's Association who plan to give away four halves of beef, goats, a Hereford bull, and a Barbado sheep hunt.

It's Girl Scout Cookie Time!

It's Girl Scout Cookie time in Sonora and local Girl Scouts will be taking orders for Girl Scout cookies November 5-14. Delivery will be in January.

Six points for the Broncos! John Elliott goes in for six points with the assistance of 88 Larry Jones, 62 Jack Lawson, 52 [on bottom of pile] Scott Brasher, and 33 Garry Jones. This was the first of two touchdowns

scored by the Broncos in Friday's game against the Kermit Yellowjackets. [All pictures this week are through the courtesy of Bill Harle who loaned Devil photographers his camera.]

Bid Accepted On City Street Repairs

The city council met in regular session Monday to accept the bid of Reece Albert, Inc., of San Angelo for street paving in various sections of the city. Reece Albert's bid was \$71,845 with a contract of 270 days completion from date signed. Other bids were received from Jones Brothers of Odessa for \$81,050 and Sidel, Inc., of San Angelo for \$113,830.

A petition from residents in the area of Tom Green and Oak streets was read to the council regarding a low water crossing in the area which petitioners felt would cause water levels in their neighborhood to be a flooding problem. Aldermen tabled the petition until they could contact the Community Development Block Grant Funding office to see if funds for the low water crossing

may be re-allocated.

Next year's community block grant funding was also discussed by Aldermen. Three previously discussed items are still under consideration for the use of the \$100,000 should the money be allotted to Sonora. Those items being considered are flood and drainage control, a senior citizen meeting house, and the revamping of blighted areas in the community.

John Eaton appeared before the council in regard to land west of the Church of Christ which many years ago had been platted as a city street. The street, which goes up the city hill, has never been in use and Eaton's proposal was that the street be closed and be offered for purchase by the Church. Councilmen told Eaton that when a street is closed it reverts back to

property owners on both sides which in this case was the church. The proposal was passed to close the street with the City retaining utility easement.

Aldermen also approved and signed the 1976 tax roll which was an estimated \$106,000 for 1976.

Thanksgiving holidays for city employees were discussed with City Manager Bob Nevill asking council to give employees both Thursday and Friday off. The only exception to this was Nevill's request that the sanitation department be allowed to work on Friday with regular pay in addition to holiday pay. The request was approved.

The council received a letter from Dr. David Owensby, city health officer, who had been requested to investigate

two areas in town considered health hazards. The report from the health officer did in effect state that both places, one a horse pen and the other an abandoned building, were in his opinion definitely a health hazard. Council agreed to inform both parties involved and give them 30 days to make other arrangements. If no

action is taken by the parties an injunction will be filed with the county judge.

Attending the Monday meeting were Mayor Norman Rousselot; city secretary, Pat Robbins; manager, Bob Nevill, and aldermen, Jack Kerbow, Hershel Davenport, Doyle Morgan and James Trainer.

Webster Elected Sheriff

W.W. (Bill) Webster was elected Sheriff Tuesday in one of Sutton County's largest voter turnouts.

The unofficial count reported to the Devil's River News as of midnight Tuesday showed 1,642 persons appeared to cast their vote.

Webster defeated incumbent Sheriff A.P.

(Pryce) Taylor by a wide margin, 965 to 681.

President Gerald Ford carried Sutton County with 830 votes against 768 for Jimmy Carter.

In other voter interest, Spencer Brown carried Sutton County for District Attorney of the 216th District.

For judge of that district Ronald Sutton had 1,074 votes to Bob Barton's 396.

Funeral Services Held For Mrs. Wallace

Mrs. Libb (Evelyn Trainer) Wallace died at 7:30 p.m., Monday at Hudspeth Nursing Home. Funeral services were held Wednesday at First Methodist Church with the Rev. Paul Terry officiating. Burial was in Sonora Cemetery under the direction of Kerbow Funeral Home.

Mrs. Wallace was born February 18, 1903 in Sonora and married Libb Wallace here June 4, 1922. He predeceased her in death in 1974. She was a member of the First Methodist Church and the Order of the Eastern Star.

Survivors include one daughter, Mrs. Libbye Jo Young of Denver, Colorado; one son, Gene Wallace of Sonora; one brother, C. W. Lum Trainer of Mertzton; five grandchildren, and eight great-grandchildren.

Pallbearers for Mrs. Wallace were Glen Richardson, Doyle Morgan, J. W. Neville, Durwood Neville, Douglass Campbell, Dr. Charles F. Browne, Lee Roy Whitworth and Dennie Hays of Midland.

Youth Football Teams To Be Feted

All four teams of the Sonora Youth Football league will be feted with a party Saturday at 2 p.m., on the Community Park slab.

Parents of these youngsters are asked to bring proofs and money for team pictures to the party.

Wednesday, November 10
1-5 p.m., Community Action Council representative in judge's office, courthouse.
8 p.m., Band Booster's meeting, band hall.

Fred Campbell's Wool and Mohair Report

In Australia the wool market continues firm as it has been thus far this season. Only once during the season has the market shown any sign of weakness and that period was brief and has since resumed its upward trend. The bulk of the offerings continue to go to Japan and Eastern Europe.

The Australian Wool Corporation is currently buying very little wool to add to their stockpile. In fact, they are sellers, rather than buyers as they continue to offer wool out

of their accumulation to the trade in the United States and other countries. Although a strong undertone is evident in the U.S. wool market, not enough wool is being offered or bought to establish much of a market. The best two accumulations of wool in the U.S., are located at Sonora and Belle Fourche, So. Dakota. Both warehouses have planned to offer their wool in sealed bid sales. Sonora has set November 11 as their sale date, and Belle Fourche is contemplating one within a few days of this date.

In the mohair market, clean-up selling continues around the area with spot fall adult bringing \$3.10 per pound and other types are selling at the season's high prices. Only 250,000-300,000 pounds remain unsold in Texas.

There has been a limited amount of contracting the spring clip. It is reported that from 100,000 to 200,000 pounds have already sold at \$3.00. However, there is no rush to buy or sell at this time.

Elementary School News

We would like to say a great big "Thank you" for all of the support and help that the elementary booths received during the Halloween Carnival. We had a great response to our Country Store, which we are very proud of. It was through the effort of parents, teachers and friends that this project was a great success. The elementary Post Office was also a great success with many parents getting a special message from their child. The Bean Bag Toss was enjoyed by many little spooks.

We made approximately \$300.00 from these three booths. The money will be spent on education equipment and materials for the elementary school.

The kindergarten classes had a great treat last week. We made jack-O-lanterns out of pumpkins. After we had cut and carved on our jack-O-lanterns we put candles in them and watched our jack-O-lanterns glow.

For our cooking experience, we cooked our pumpkin seeds and found they taste a great deal like sunflower seeds. The children also learned a new word-ingredients. This came about as we discovered the ingredients for orange icing. In the mixing of the icing, we discovered that putting red and yellow coloring together makes orange. This

week we are going to have cooked pumpkin and see if we like pumpkin or the seeds best.

Some of the children worked very hard writing letters to their parents for the carnival, those who missed getting their child's letter missed a great treat. Each of us are thankful for the children observing good safety rules for Halloween.

Kindergarten is starting our month long study of pilgrims and the way pilgrims lived.

The first grade is getting ready to present our Thanksgiving program. In our program, there will be turkey, pilgrims, Indians, and pumpkins. Miss Strickland, our music teacher, will be working with the children on their music.

In Social Studies the second grade classes have been studying types of houses, various materials used to build houses and the people involved in construction. One day last week we took a field trip to various construction sites to observe workmen in action.

Students of Sonora Elementary enjoy art activities at least once a week. Miss Anne Cowley, who teaches art classes in Jr. High and High School, helps the elementary teachers as an art resource person. Miss Cowley talks to each elementary teacher once a week about art in their classrooms and supplies the teachers with interesting art activities.

The Remedial Reading classes for grades 2-5 are

Hunter Safety Program Set

The 4-H Hunter Safety Program for boys and girls twelve years of age and older will be conducted at the 4-H Center starting Tuesday, November 9 at 6:30.

Rodney Knight, local game warden and adult 4-H leader, will supervise the program and Mickey Powers, Mr. and Mrs. Ted B. Joy, Joe Bill Averitt, Mrs. Jack Hearn, Jr., and Virgil Poloczek will serve as instructors.

All Sutton County boys and girls are invited to participate in the 4-H program regardless of sex, race, color, national origin or religion.

The Sonora Broncos and Kermit Yellowjackets faced each other in a highly exciting game in Bronco Stadium. A field goal in the last

few seconds of the game gave the Yellowjackets a three point win over the Broncos in their first district game.

Triumphs of Science

Little Known Stories Of Things Affecting Our Lives

A group of scientists are working on ways to make your clothes and home furnishings better, safer and less expensive all the time. They came up with about 95 new cotton fabric concepts last year alone.

Now, abrasion resistance can be built into upholstery fabrics. Wearing apparel can be made to take repeated washings and still wear well. Products like tents and sleeping bags, upholstery batting and mattress padding can now be fire-resistant and more comfortable at the same time.

NEW KINDS of fabric design, such as "Martinique" from Fieldcrest, are developed at Cotton Inc. in 100 percent colorfast, shrinkage-controlled cotton.

Cotton sleepwear for children will keep its fire resistance through at least 200 machine washings and dryings, thanks to these scientists at Cotton Incorporated, the fiber company of America's cotton producers.

agricultural self-help program, representing the most widely used fiber in the United States today. Its two main operating branches generate new ideas to reduce cost and develop new products.

Since 1971 when it was established it has furthered such objectives as boll weevil control and "comfort engineered" fabrics, including Natural Blend, a fabric that blends 60 percent or more cotton with man-made fibers to give both cotton comfort and easy care.

A Bishop Looks at Life

by Everett H. Jones
Bishop, Episcopal Church
PRAYER FOR A NEW BEGINNING

During a recent early morning walk I began to meditate on the difference between saying to myself, "This is another day" and saying, "This is a new day."

The former statement puts the accent on life as something routine, repetitious, dull and unexciting. It suggests that I have no right to expect any change in myself, in my associates, or in the world around me. Just the same old grind!

The latter, on the other hand, makes me aware of the freshness in the air, the brightness of the rising sun, and the joyfulness in the bird songs all around me. I am suddenly in a mood to expect the unexpected, to believe in miracles, to realize that God has planned both our personal lives and the life of the natural world as a series of new beginnings.

I then began to apply this contrast in attitudes to our coming national election. Before I knew it there was a prayer in my heart. (It is the kind of prayer I urge you to take with you as you enter the voting booth this 200th anniversary of America.)

"Dear Lord and Father of Mankind, bless us, Your children in America, as we take our part in the government by which we live.

"Guide us as we choose the leaders in whom we put our trust. Especially guide us as we choose our president for the next four years.

"Grant that those who are elected will not think of these coming years as just another administration, but rather as a new beginning in the story of America.

"May they surround themselves with people who have vision, courage and imagination... people who can bring fresh thinking to the problems that confront us.

"May we begin to see in government some of the achievements that have made us great in science, business, education and technology.

"Above all, may we see in them new standards of moral and spiritual leadership...standards that will win our allegiance at home and command respect throughout the world."

Peggy Sharp Awarded Certificate of Service

Peggy W. Sharp, a Draftsman with the State Department of Highways and Public Transportation (DHT) in Sonora, has been awarded a 10 year Certificate of Service and lapel emblem by District Engineer D. R. Watson of San Angelo.

Peggy, on the staff of Supervising Resident Engineer Joe W. Lane, began her DHT career as a clerk-typist with Resident Engineer R. A. McCulloch who retired in 1966. She is a graduate of Sonora High School, and attended San Angelo Business College. She was promoted to secretary in 1969, and to draftsman in 1974. Much of her work in recent years has been devoted to the preparation of plans for various projects on Interstate

Highway 10 through Sutton County. Peggy and her husband Jack, have two children, Katherine (Kathy) and

Michael (Mickey). They are members of the United Methodist Church and belong to several dance clubs. She is active in the

Women's Auxiliary of the Golf Club. Her hobbies include golf, dancing, and attending to her yard and home.

Kappa Gamma Meet Held

Kappa Gamma Chapter of Epsilon Sigma Alpha, International, held its monthly business meeting November 1 at the Presbyterian Church with President Linda Young presiding.

Final plans were made for The Dear Hunters Ball to be held November 19 from 9 p.m. to 1 a.m., at the 4-H Barn. Tickets may be purchased at the door for \$5.00 per person. Every-one is invited to attend. Dress will be casual.

Tickets are being sold by members and Tedford's Jewelry for a .270 Remington Rifle to be given away at the dance. The rifle may be seen at Tedford's. Tickets are \$1 each.

The school board approved use of the elementary auditorium for a Christmas program to be presented on December 12 by the Fine Arts Theater of San Antonio for the Children's Ballet. The program is titled "Here Comes Santa" and is written and directed by the founder, Sherron Huffman. After the program, children will be able to visit with Santa.

The philanthropic projects, budget, and schedule of educational programs for the year was presented and approved.

Members voted to prepare a food basket to be given to a needy family for Thanksgiving.

Refreshments were served by Glynda Reppond and Patsy Gibbs.

McMillans Named Chairmen

Dr. David Owensby, president of the Sutton County Heart Association, named Mr. and Mrs. W. B. McMillan heart fund chairmen when the association met October 25. The heart drive will be held in February. Mrs. Marie Aldwell, memorials chairman, announced that she had received \$90 in the fund during the month.

Attending the meeting were Ann Nations, Marie Aldwell, Rev. Paul Terry, Catherine Terry, Mary Owensby, Dr. Owensby, Gene Shurley, Joe Andrews, Mike Stallard, Ada Perez, Joan Cusenbary and Susan Wagener. The next meeting will be held November 28 at the Sutton County Steak House. The association will not meet in December.

Ms. Wagener, regional director of the heart association, told the group about a seminar to be held November 6 at the Houston Harte University Center in San Angelo. The seminar will be entitled "Eat to your Heart's Content". All members are urged to attend.

Physician's Assistants At Texas Heart Institute

One of the latest health care careers, less than ten years old, is that of

Physician's Assistant. The definition of a Physician's Assistant, as given by the American Medical Association, is a "skilled person qualified by academic and practical training to provide patient services under the supervision and direction of a licensed physician who is responsible for the performance of the assistant."

Many of these assistants are trained in specialty areas such as pediatrics, ophthalmology, urology, and surgery. Primary responsibilities are to relieve the physician under whom he works of many routine duties, thereby

allowing the physician to provide care to a greater number of patients. Among the duties of these assistants are routine physical examinations, treatment of minor wounds, removal of casts, changes of dressings, performance of some laboratory tests and other responsibilities related to the specialty in which he is assigned.

Of 113 Physician's Assistants in the State of Texas, two are members of the staff of The Texas Heart Institute. They are John R. Miller and Buren Whitten.

Whitten, who is originally from Eldorado is the son of Mrs. Zella Whitten of Sonora. He is a 1974 graduate of the Physician's Assistant program of the University of Texas Health Sciences at Dallas, where he earned a Bachelor of Science degree.

Prior to joining the staff at the Texas Heart Institute, Whitten worked as an assistant at the Family Health Center of John Peter Smith Hospital in Fort Worth and with the Hyperbaric Facility of the University of Texas Marine Biomedical Institution in Galveston.

Both Mr. Miller and Mr. Whitten have supervised the clinical training of a

number of students since joining the Institute.

The rabbit's heart beats 300 times a minute!

TEDFORD JEWELRY

Christmas Collection

Make this the Christmas she'll never forget. The Christmas you gave her diamonds. Our collection is more extensive than ever, offering something she'll love and cherish at a price you can well afford. The Tedford Christmas Collection has it all...

The simplicity of a diamond pendant. The elegance of diamond earrings. Diamonds-by-the-yard. Inexpensively extravagant. The Diamond cocktail ring. Uniquely hers. The diamond wedding set. The new one you've wanted her to have.

Whether it's "Merry Christmas" or "I Love You," a diamond says it all. From the Tedford Christmas Collection.

How To Identify Child Abuse, Neglect

It was late on a wintry night and six month old Barbara was crying. It wasn't a whisper or a soft sobbing. It was a full blown wail that wound up like an air raid siren. Whether she was hungry, grumpy or wet, no one will ever know. After all the terror and pain that followed, it didn't seem to matter much what it was that Barbara was trying to say.

Her mother, already pregnant with her second child, remembers lying in bed and beginning to hate. She hated Barbara for her crying and herself for her hate. As the cries from the nursery crossed that line into shrill screams, Barbara's mother also crossed a line in her mind.

First she went to the kitchen assuming that the baby was hungry. She plopped a bottle into a saucepan filled with water and turned the flame on full. After the water had come to a boil, she tested the formula on her forearm to make sure it wasn't too hot. But she wasn't sure of this, and that didn't really matter either.

Because what Barbara's mother did was set the bottle aside on the counter and walk into the nursery with the pan of scalding water. She stood over the crib and poured the water on Barbara, the child she had so desperately wanted through three barren years of marriage.

Barbara's screams changed, becoming higher, louder, more urgent. Her father roused himself, went into the nursery and found his critically burned child writhing in her crib. Nearby was his wife, pan held limply at her side, eyes blank.

Barbara's bed clothing kept enough of the scalding water from reaching her skin that she survived a sad army of children attacked and grievously hurt by their parents each year in America.

So how do you identify child abuse and neglect? The American Humane Association's Children's Division suggests some key signals of abuse and neglect which may be present in a child's appearance or behaviour.

1. Clothing inappropriate for the weather.
2. Unusual fatigue or listlessness.
3. Lack of proper nourishment.
4. Physical injuries or complaints.
5. Unattended medical problems, such as glasses or dental work.
6. Unusual shyness or aggressiveness.
7. Frequent tardiness or absence from school, or early arrival and delayed departure from school.

The Texas Department of Public Welfare divides child abuse into three categories: 1) physical abuse, or inflicting physical injury on a child; 2) sexual abuse, or forcing a child to engage in sexual activities; and 3)

emotional abuse, which is regularly and over an extended period of time, demanding that a child do more than he is capable of doing and criticizing and humiliating him for not living up to the demand; or making such unclear requirements that the child simply cannot understand what he is supposed to do.

Child neglect is divided into two categories: 1) physical neglect, or the failure to provide sufficient food, clothing, shelter, medical care, education, guidance and supervision; and 2) emotional neglect, or the failure to provide a child with love and affection.

Doctors, emergency hospital staff members, social workers and judges usually list a number of methods when referring to child abuse and neglect. These include beating both with hands and weapons, kicking, torture, strangling, incest, rape, other sexual abuses, suffocation, drowning, shooting, stabbing, scalding, burning, poisoning, dismemberment, starving, imprisonment, freezing and crushing.

"There is no act too violent or sadistic that has not been carried out on some child, somewhere," an intern in a children's ward said.

No national statistics exist for child abuse and neglect, but many experts believe at least two million children are seriously abused each year by adult attacks. About 25 percent are said to be seriously, sometimes permanently, injured. Perhaps 6,000 are killed.

According to CANRIS (Child Abuse and Neglect Report and Inquiring System of DPW), there were 34,828 reported cases of child abuse in Texas in the last annual reporting period (March 1975-March 1976), including 20,112 cases last year. It is one of the leading causes of infant mortality in the United States.

"The most startling statistic of all," said Barry Fredrickson, regional administration in Abilene for the State DPW, "is the number of situations involving abused children which are not reported. Abused children range in age from infants to adolescents, with 50 percent of the abused being six years of age or younger."

We've also found that there is not a socio-economic barrier for child abuse and neglect. The upper income, the middle income and the lower income have all been reported for child abuse and neglect.

"We encourage everyone to call their local welfare office or the statewide hotline number if they know of any cases of possible child abuse and neglect," said Fredrickson. "The hotline number is 1-800-292-5400. In any case, you may save a life."

Experts report that a two day old gazelle can outrun a full-grown horse.

Kuykendall Named President Of Texas S&WC District

District directors from Texas' 196 soil and water conservation districts elected Kenneth Kuykendall of Cherokee, president and Charles Wood of Lubbock, vice president of the Association of Texas Soil and Water Conservation Districts at the thirty-sixth annual state meeting of district directors held recently in McAllen. Approximately 800 persons attended the meeting.

Kuykendall, a rancher, has served as director and alternate director of the state association for the past nine years. He has also served as a director and chairman of the San Saba-Brady Soil and Water Conservation District for 15 years. He is past president of the Hill Country Association of Soil and Water Conservation Districts and was named as San Saba-Brady Soil and Water Conservation District's Outstanding Conservation Rancher in 1968.

Kuykendall helped organize and is former vice president of the San Saba Valley Resource, Conservation and Development Project. He is also past president of the San Saba County Property Owners Association and a trustee of the Cherokee Home for Children.

Wood, a farmer and rancher, has been a Lubbock County Soil and Water Conservation District Director for 10 years and a board chairman for five years. He has served as secretary, vice president and president of the South Plains Association of Soil and Water Conservation Districts. Wood served as an alternate state association director for five years. He was also honored as the Outstanding Conservation Farmer for Lubbock County Soil and Water Conservation District.

Other directors of the state association are David Tong, Atlanta; Gene Gilbreath, Dublin; and Bill Goldsberry, Edinburg. Dee Brune, immediate past president, also serves on the Board as an ex-officio member.

The purpose of the Association of Texas Soil and Water Conservation Districts is to conduct educational, scientific, charitable and religious work concerning the conservation, maintenance, improvement, development and use of soil, water and renewable natural resources. Headquarters for the state association are located in Temple, Texas. District directors of the

Edwards Plateau Soil and Water Conservation District are George

Brockman, chairman; W.B. McMillan, vice chairman; Armer Ear-

wood, secretary; Bob Caruthers and Vestel As-

Field Goal Clinches Yellow Jacket Win

By Don Holdridge
Pick any random Sunday afternoon and you will probably see a National Football League kicker

boot a field goal in the closing seconds to clinch a close contest.
But how many times does it happen on the

Friday night battlefields? Very seldom, to say the least, but Kermit's Clifton King sailed a 25-yarder through the uprights with 25 seconds left to nip the Sonora Broncos, 17-14.

The winning boot was set up when John Elliott, punting from his own end zone with two minutes showing on the clock, muffed the kick and the Yellowjackets took over on the 25-yard line.

It was the first points Kermit had been able to put on the scoreboard since the first quarter when the Broncos spotted them two quick touch-downs.

The first came on a 25-yard scamper by Clifford Holt on the Yellow-jacket's first possession. King's kick was good and Kermit took an early 7-0 lead.

King was the culprit again minutes later as he picked off an Elliott pass 17 yards from paydirt.

Three plays later Alfred McGilbra was stopped at the three, but fumbled into the end zone where Craig Shore recovered for six points.

The Broncos got on the scoreboard just before halftime on a 90-yard drive. The key play was a 55-yard aerial from Elliott to Gregg Parker.

Elliott finally plunged over for the score after three attempts from the one.

John David Cook's PAT cut the Jacket lead to seven before the halftime buzzer sounded.

The Broncos knotted the score midway through the third period after Cook recovered a Holt fumble at the Kermit 27.

Eight plays later Garry Jones took a quick pitch and sprinted five yards around right end for the touchdown.

Cook's kick pulled the Broncos even and Sonora appeared to have gained enough momentum to go ahead.

Both teams suffered from miscues throughout

the game and neither could mount a serious threat until King's field goal.

The Bronco offense was saddled near its own goal line most of the night. A blocked punt and three interceptions hampered the Red and White while four fumbles stopped several Kermit drives.

Penalties stalled both

teams as each racked up over 70 yards.

The win upped Kermit's record to 5-3 on the year and 1-0 in district while Sonora slipped to 6-2 and 0-1.

Girl Scout News

Girl Scouts of Sonora will be taking cookie orders November 5 thru 14. The cookies will be delivered January 14 thru 23, 1977. This is a new method the El Camino Council is trying this year, of selling the Girl Scout cookies. The Scouts will not take the money until the cookies are delivered to the customers.

They will have the old favorites lemon creme, chocolate and vanilla creme, Scot-tea, mint and Savannah(peanut butter), along with two new kinds which are chocolate chip and cheddorette crackers. They will sell for \$1.25 a box again this year.

The cookie chairwoman for Sonora is Mrs. Lou McMillon.

Individual awards will be given girls selling the most boxes. High troop will receive a 4-man floored and screened tent.

Langford Receives Top Service Extension Award

Davis C. "Clint" Langford, Sutton County Extension agent for the past 27 years, was awarded the Texas Superior Service Award for outstanding educational contributions October 29.

Dr. Daniel C. Pfannstiel, director of the Texas Agricultural Extension Service, presented the prestigious award to Langford during the closing general session of the Bimonthly Extension Conference at Texas A&M University. Eleven individual awards and two unit awards highlighted the ceremony.

Langford was cited for exceptional leadership in the development of 4-H, agricultural and community resource development programs to improve the quality of life and net income for the people of Sutton County.

"Langford began working in the community resource development effort before it was a major area of emphasis for the Extension Service, and because of the work, he has had a major influence on many phases of Sutton County life," Pfannstiel said.

County residents have given this county agent complete support in such community projects as building of the Sutton County 4-H Center, the only community center in the county used by all church and civic groups. Pfannstiel added.

"Additionally, Langford has helped promote, fund and build...as well as maintain almost every community recreational facility in the county, including the community swimming pool and multi-purpose recreational park," said the extension director. Langford is headquartered in Sonora.

Langford obtained help from Texas A&M University scientists in preserving the Sonora Caverns, and he developed wild game hunting lease programs for area farmers and ranchers.

Other successes for the award recipient include improvement of cattle, sheep and goat herds, brush control and range improvement work, and flood control projects.

Langford's rural development committee also helped re-establish the Chamber of Commerce, which is now active in planning for facilities and services to meet the needs of a current gas boom that is doubling the area's population. The area now has a new fire house for the rural fire-fighting equipment that Langford helped obtain through educational efforts.

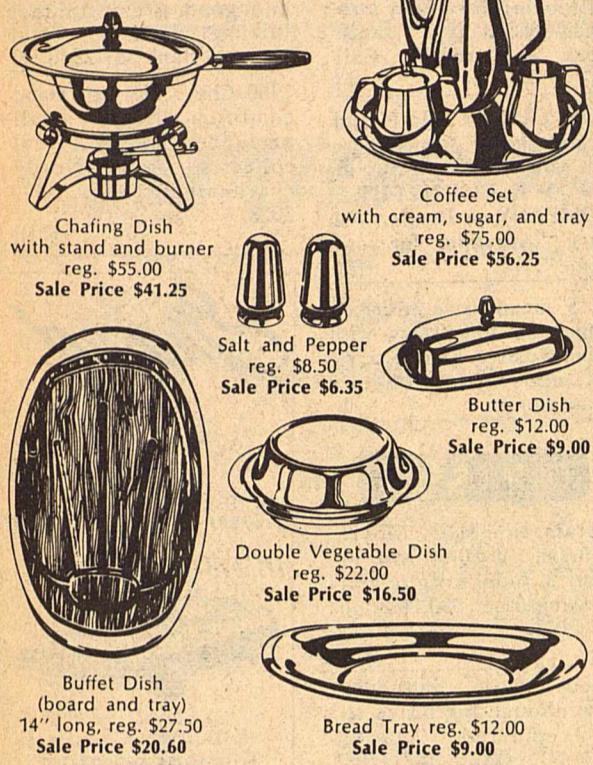

The 28-year extension service educator has both bachelor's and master's degrees from Texas A&M University. He served as an assistant county agent in Medina and Sutton Counties before assuming his present role in Sutton County.

Langford received the U.S. Department of Agriculture's Superior Service Award in 1962 for assisting ranch families of Sutton County to adopt more productive ranching practices and in improving the quality of life for these families.

Two years later, he received the Distinguished Service Award, the highest honor given by the National County Agents Association. The Texas Sheep and Goat Raisers Association also honored him for outstanding contributions to the state's sheep and goat industry.
