Halloween Carnival Friday

The Halloween Carnival will be held on Friday, October 26 this year. The "Spook Parade" will kick off the activities at 5:15 with prizes for the funniest, spookiest, and most original "spooks."

School dismissed at 2:30 to enable students to set up their booths before the evening begins.

All persons entering the Spook parade are requested to meet at the Courthouse lawn by 4:45 p.m. Queen Contestants and escorts are also asked to be present at the courthouse at 4:45.

The Queen will be named immediately following the parade, and then the carnival will begin.

Numerous booths have been planned by the students to make this

year's Carnival the best ever. The Seniors will have the concession stand, the baseball throw, pumpkin insurance, and the jail house. The Junior class will sponsor the raffle, and the tractor train. The Sophomore class will be holding the sponge throw, and the spook house. Freshmen will be hosting the bean bag, and the duck pond.

Various clubs and organizations will contribute to the success of this year's event. The GAA club will hold the cakewalk, the Band will host the dish toss, and the Speech Department will hold talent show.

Other interesting and intriguing activities include the dart throw, slave auction, ring toss, cork gun, face painting, tinfoil space pillows,

and the turkey raffle.

The Sutton County Division of the American Heart Association will have a blood pressure screening booth. The booth will be free. Everybody is encouraged to have their blood pressure checked. Also, registration forms for the Heart Association Turkey walk will be available at the booth. The Turkey walk will be Nov. 10.

The Halloween Candidates for this year are Linda Smith from the Senior class, with escort David Gordon, and Susan Allen from the Junior Class with escort Cades Pope, Mary Hanna will represent the Sophomore Class, her escort will be Allen Stewart. The Freshmen class will be represented by Sonya Ridgeway, who will be escorted by Phillip Kemp.

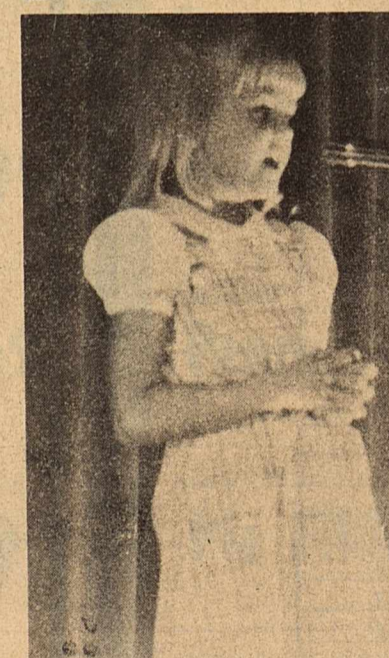

One Note-trick or treating will not be permitted until Halloween, October 31.

Mark Doan Wins Football Contest

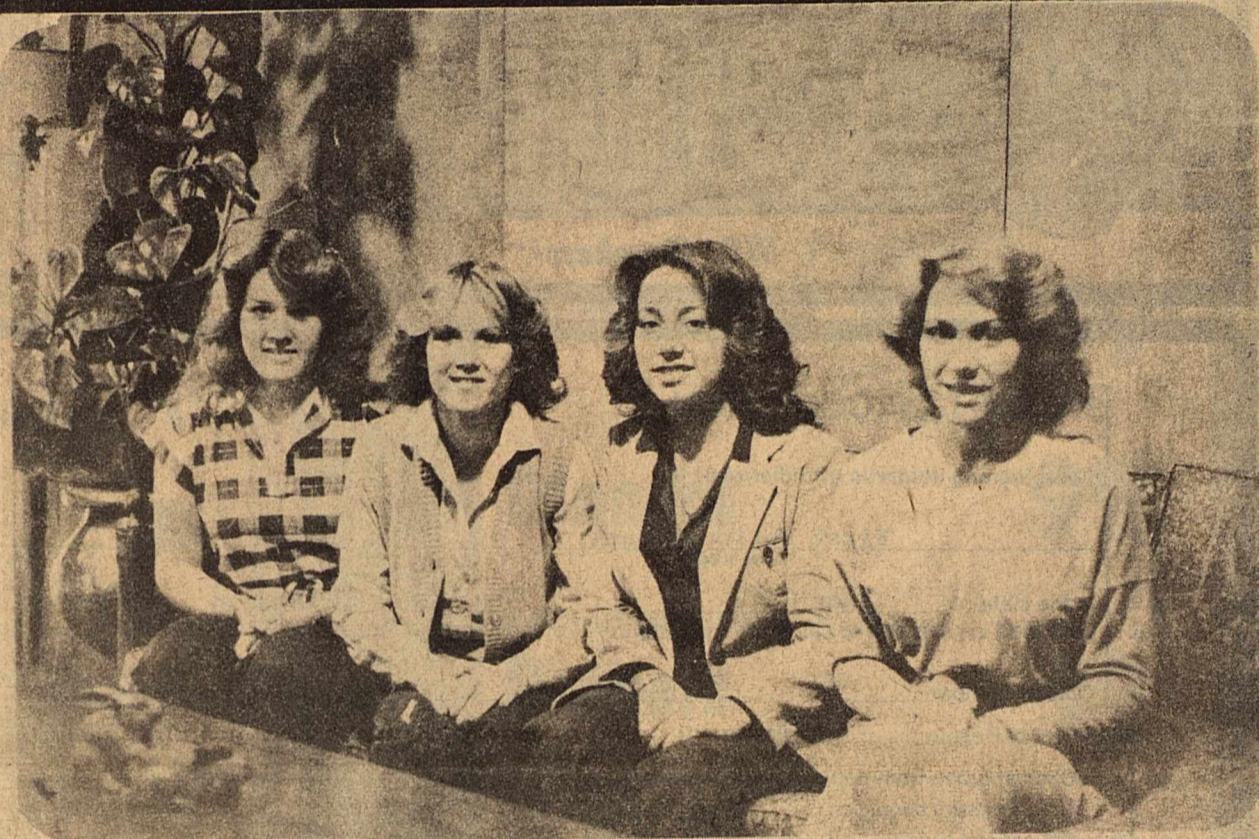

The Devil's River News football contest was close again this week, but the contest was for second the third place. Mark Doan was the only entrant to miss only two games. Based on the tie-breaker, Hazel McClelland edged out Ernest McClelland by two points on the tie-breaker.

Others missing only three games but losing out on the tie-breaker were Miles Miller, Jesse Martinez, Elva Arinez Rubio, Joe Ellis, Eugene Reyna, and Scott Savell.

The Texas-Arkansas and Houston-Seattle games were the two most often missed games. Be sure to get your entry in this week, you may be the winner!

April Smith sang at Saturday Night Live Related Story P 6

Halloween Queen Contestants. Sonya Ridgeway, Mary Hanna, Susan Allen, and Linda Smith. The winner will be selected following the parade.

City Council Adopts

New Animal Ordinance

The following is a verbatim copy of the new Animal Ordinance recently adopted by the City Council of Sonora.

ORDINANCE 184

An ordinance regulating the keeping of cattle, horses, mules, asses, sheep, goats, rabbits, chickens and other domestic fowls, and prohibit-

ing the keeping of swine, within the limits of the City of Sonora:

Providing penalty for violation of this ordinance and repealing all ordinances or parts of ordinances in conflict herewith, excluding the dog and cat ordinance no. 180 adopted May 15, 1979: And declaring an emergency.

Hunter's Guide to be Published Nov. 14 in The Devil's River News. (Photo by Herb Jones)

Show Lambs to be Shorn and Weighed, Saturday, Oct. 27

All lambs to be shown in the 1980 Sutton County Show must be shorn and weighed on Saturday, October 27, 1979. This activity will be conducted at the Sonora stock pens as usual and you will be responsible for getting your lambs that day if you have not already done so. If your lambs have already been shorn, they must be shorn again so that all will be uniform.

Permit Needed

If you plan to feed your lambs in town, you must secure a permit from City Hall. This is due to the passage of a new City ordinance regulating the keeping of animals in the city limits. You will have to show proof of a rabies vaccination on your lambs to qualify for the permit. Vaccine will be available on the weigh date for those needing it. If you have other questions concerning the space requirements, sanitation requirements, or

any other requirements of the ordinance or if you would like a copy of it, contact my office or City Hall. Most of the lambs purchased through the County Program will know how to eat. Be sure, however, that you have feed and are prepared to keep them from October 27. For new feeders, I would suggest a pelleted ration like P-22 or a beginning formula that is fairly high in fiber and between 9% and 12% pro-

tein. As soon as they are eating well, some ration changes may be needed.

Preston Faris looks forward to seeing you on Saturday, October 27th at 8 a.m. If you have any questions, please feel free to call.

Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages regardless of socio-economic level, race, color, sex, religion or nation of origin.

Spooks to Parade, Friday at 5:15p.m.

We will have seven different groups of children who can participate in the spook parade. Pre-school, Kindergarten, First Grade, Second Grade, Third Grade, Fourth Grade and Fifth Grade children are eligible to participate. The Spooks are to gather at the Courthouse at 4:45

p.m. This year, in order to speed up the carnival, each level will be prejudged to determine fifteen finalists. Only these fifteen spooks from each group will go up on the Queen's platform to be judged. The

parade but they will not go up on the Queen's platform. Each group will have three winners - the spookiest, the funniest, and the most original. Then the judges will choose from these twenty one winners the over all spookiest, funniest and most original.

Loeffler Fights Price Controls

Congressman Tom Loeffler (R-Tx) led a successful fight on the House floor recently against an amendment reimposing price controls on the domestic production of oil, calling the measure "faulty logic" if America is to regain energy self-sufficiency.

"We must pursue every available domestic option toward allowing the free market to increase production of all available American energy resources if we are to regain energy self-sufficiency," Loeffler told his House colleagues.

"This can only be achieved through the elimination of price controls -- not the reimposition of such controls," Loeffler said in opposition to the measure offered by Rep. Toby Moffett (D-Conn), defeated by a vote of 257 to 135.

Loeffler, a member of the House Interstate and Foreign Commerce Subcommittee on Energy and Power, urged his colleagues to consider the benefits to increased production which decontrol offers. The current decontrol policy, he said, would mean increased production by 1985 of between 740,000 and 840,000 barrels per day. "Each of these additional domestic barrels will back out one barrel of costly and vulnerable imported crude."

Loeffler characterized as "faulty logic" reasoning which concludes that reimposition of price controls will reduce the consumers' energy bills. "We will only gain control over prices paid here at home," Loeffler said, "when we achieve an

adequate domestic energy mix to meet our daily needs. Until that time, OPEC will set the price." Loeffler pointed to the fact that since enactment of the Emergency Petroleum Allocation Act of 1973, price controls have not had any effect on

"The cost of imported crude has climbed from \$3 billion in 1972 to a staggering \$60 billion this year...all as we increased our reliance on foreign crude from 4.7 million barrels per day to more than 8 million

barrels per day. Under price controls, during this time, the average price of gasoline has risen from 36 cents per gallon to \$1.00. And under price controls, production in the lower 48 states has declined some 20 percent since 1973, from 9.2 million barrels per day to 7.4 million barrels per day.

Reimposing price controls, Loeff-

ler argued, will result in all consumers paying more for less, would contribute to the outflow of American dollars for OPEC jobs, and would leave the decision of production amounts, price, and to whom it will be sold to OPEC.

"Only decontrol," Loeffler told his colleagues, "will effectively decrease dependency on costly, strategically vulnerable, and economically debilitating crude oil imports."

"Decontrol will generate American dollars, for American jobs, to produce American energy. We cannot afford to continue a policy of OPEC abroad, opaque at home."

Kirk Green, Sonora Resident

Killed in Wreck

A young El Paso native was killed last week in a car wreck in the Pecos area. Kirk E. Green was reported missing on October 16. He was reported to have been traveling to El Paso to visit with his parents.

Sonora. He was employed by Tom Brown Drilling Co.

Kirk E. Green

According to the Texas Department of Public Safety in Pecos, the vehicle he was driving was headed west on IH10. A DPS spokesman in Pecos stated, "He appeared to have been traveling at a high rate of speed and fallen asleep. He hit an embankment, causing the car to catapult over the embankment and roll five times. The deceased was thrown from the vehicle. The vehicle came to rest some 575 feet from the roadway, it was not visible from the roadway," he added.

The wreckage was discovered Monday afternoon by a Highway Department road crew. An autopsy has been scheduled to determine the time and cause of death. The accident is still under investigation.

The deceased has been identified as Kirk E. Green, a resident of

Follow Safety Tips

Wood Burning Stoves Save Energy

If you're trying to save energy by heating with a wood or coal burning stove like in the "good old days", don't let your house go up in smoke, advises Dr. Gary Nelson.

is properly installed. -Make sure your chimney or flue is in good condition and has adequate draft for good venting of smoke and gases. -Keep fires controlled with dampers; don't let

them become roaring hot. -Handle wood and coal carefully. -Install smoke detector (but not in same room) when you install a stove.

First Aid for Fire Accidents

If you are at the scene where a person is badly burned, there are some things you can do to prevent further complications until emergency medical help arrives.

Extinguish Flames
First, make sure that the flames on the person are out. The advice of "stop, drop, and roll" is a good rule to follow. The natural reaction of a person on fire is to run, but that provides more oxygen for the flames.

The person should stop, drop to the ground and roll. A blanket or other covering thrown around him will also smother the flames.

Remove Smoldering Clothing
Remove any smoldering clothing. The longer it remains in contact with the skin, the more severe the burn will become.

However, do not remove the clothing over the head -- pulling a burning or smoldering T-shirt over the head could cause the hair and face to become burned.

Pull the clothing directly away from the skin.

Cover Victim
Once you are sure the fire is completely out and no smoldering clothing remains, cover the victim with a clean linen cloth.

No salves or ointments at this time are recommended.

Actually, the burned area is sterile and it is necessary to keep it from infection from the surrounding environment.

Don't give a severe burn victim anything by mouth, although they may ask for it.

The reason for this is a condition called acute gastric dilation which may happen after a trauma.

In this condition, the stomach fills with air and fluids. Giving the victim any fluids by mouth will only add to the problem.

Reassure Victim
Reassure the person that help is on its way and comfort him as much as possible.

Prugel-Henke Wed

Ms. Susan Jo Prugel became the bride of Dr. Clyde Henke at noon, October 20, 1979. The First Methodist Church in Sonora was the setting for the ceremony with families of the couple in attendance. Rev. Paul Terry, pastor of the church, performed the ceremony.

Favorite hymns and songs of the couple were played by Jane Sawyer Davis at the piano. Matron of honor was Nancy Edgar of Hindsville, Arkansas, sister of the bride. Best

man was Doyle Henke of Chicago, Illinois, the groom's brother. Ericha Emmily Edgar, niece of the bride was flower girl.

Following the wedding ceremony a celebration dinner was held at the Commercial Restaurant. The wedding reception followed at the home of the bride.

Parents of the bride are Mr. and Mrs. Prugel of Sonora. Mr. and Mrs. Werner Henke of Fredericksburg are parents of the groom.

Friends assisting with the wedding celebration were Mark and Kathy Shurley and Drake of Lubbock, Nick and Gail Weeks of Premont, Texas, Kari Eustace of San Antonio, and Brenda Browne Vandiver of Artesia, New Mexico.

Susan graduated from Sonora High School and received her B.S. degree in Foods and Nutrition from Texas Tech University. After a graduate internship in Dietetics at Barnes Hospital in St. Louis, Missouri, she has been employed by the Veterans Administration. She was Assistant Chief, Dietetic Service at Olin Teague Veterans Center in Temple.

Clyde is a graduate of Fredericksburg High School. He graduated magna cum laude from Baylor University with a B.A. in Biology. He graduated a doctor of Medicine from the University of Texas Medical branch in Galveston. He completed a flexible Internship and, an Obstetrics and Gynecological Residency at Scott and White Hospital in Temple, Texas.

After a wedding trip the couple will live in San Angelo Texas.

Dr. Rahman Speaks

Prevention of Cancer

Dr. Rahman

Dr. Fazlur Rahman, San Angelo oncologist, was the special guest of the Sutton County Unit of the American Cancer Society for an anniversary dinner, then an open meeting at the United Methodist Church last Thursday evening. Dr. Rahman spoke of the various types of cancer, and of the progress that has been made in dealing with them. For some, prevention is simply a matter of avoiding agents which cause the cancer. Others, however, are not so simple, for many causes are unknown.

One of the common cancers is cancer of the lung, which is largely a result of the use of tobacco. Thus prevention of that type is simple; don't smoke! With the increasing use of cigarettes by women, the rate of lung cancer in women is rapidly approaching the same rate as it has been for men.

Dr. Rahman emphasized the need for regular examination as a preventive tool; breast self-examination, pap smear, X-ray, a knowledge of seven signs of cancer. Most cancers can now be cured if discovered early enough.

Three members of the Society were honored for twenty five years of volunteer service to the Cancer Society; Mrs. Alvis Johnson, Mrs. Ben Cusenbary, and Mrs. Joe Hull. It was noted that Dr. Charles Browne now has thirty two years of service as a volunteer having received his thirty year pin in 1977.

Rebecca Bernal Selected to HSA Directors

Rebecca Bernal has been selected to the Tri-Regional Health Systems Agency (HSA) Board of Directors. The Tri-Region HSA is a private, non-profit corporation empowered by Federal law to perform comprehensive health planning and development activities for a specific geographical area.

The HSA serves 44 counties in Texas including Sutton and Tom Green. Rebecca is the daughter of Mr. and Mrs. B.W. (Willie) Ramos of Sonora. She is employed by the Tom Green Community County Council as a case-worker for Family Day Homes. She lives in San Angelo and has a daughter, Catherine Denece.

Chamber of Commerce News

The State Department of Highways and Public Transportation October issue read that visitors to Texas spent more than \$7 billion in 1978...representing a 12 percent increase over 1977.

Shelley Chaney, Chairman, 'Saturday Night Live In Sonora', wishes to thank citizens who contributed toward cash prizes for SNLIS: The Doyle Morgans, the Les Robertsons, J.W. Sutton Electric Company, the Devil's River News and a thank you to James Gibson of Foxworth-Galbraith, who donated plastic for stage backdrop.

"Appreciated also is the wonderful cooperation from drama teacher Chris Casel, Harold Miller, Dr. Joe Andrews, and anyone who

helped in any way to make our first talent show the big success it was", remarked Chaney.

Out of town judges for SNLIS were Mr. and Mrs. Ernest Chaney of Uvalde and JoAnn Warden of Cope Colorado.

Chaney noted appreciation to Effie Harle of Sonora Floral and Gifts for donation of materials and to the Devil's River News and KVRN Radio Station for excellent publicity and coverage. In conclusion, Chaney appreciated help from her committee mem-

bers Fae Morgan, Jeryl Fields, Jan Robertson, Lynn Swift, Chris Rasberry and Betty Stewart.

Quite a few calls and letters are coming in to the office, requesting information on hunting leases. If you have hunting leases, please call the office at 387-2880, or come by the City Hall.

We are trying to compile an organizational chart on civic and social clubs in Sonora. If you are serving as an officer in an organization, please call 387-2880, so that list may be current.

Has your business outgrown your phone system?

When a business is expanding, so is the load on its phone lines. The usual solution is to add more phones.

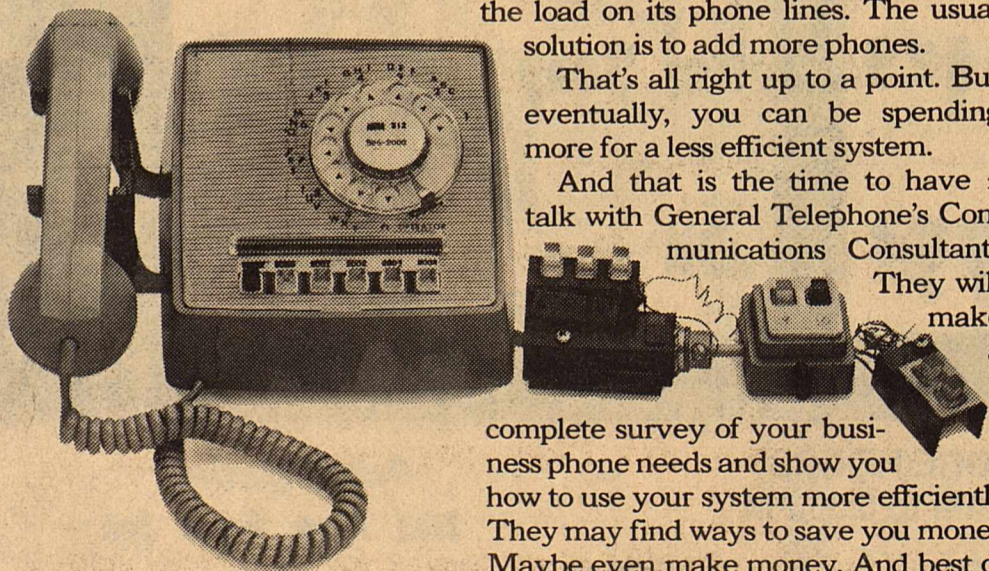

That's all right up to a point. But eventually, you can be spending more for a less efficient system.

And that is the time to have a talk with General Telephone's Communications Consultants. They will make a

complete survey of your business phone needs and show you how to use your system more efficiently. They may find ways to save you money. Maybe even make money. And best of all, there's never any extra charge for their service. Call your General Telephone business office today and make an appointment for a telephone survey.

We keep you talking.

October 19th at Charnax, home of Dr. and Mrs. Charles F. Browne. Hostess of the affair was Mrs.

David Ross Vandiver of Artesia, New Mexico. Attending the luncheon were Ms. Karen Jeanette Eustace of San Antonio, Mrs. Patricia Douglas Browne, and

Mrs. Steven Walker Thorp of Sonora.

The luncheon was served in the garden and included French aperitif wine, gazpacho, crab louis, and homemade onion rolls. Ms. Prugel was presented with a soup tureen, French champagne glasses, and a Waterford crystal bowl. The honoree and guest colored their "Sesame Street" placemats at the end of the meal.

RRC Announces Meeting

Debbie Metzger announced that the Red Carpet Committee will meet for their monthly meeting on Thursday morning at 10 o'clock in the Church of the Good Shepherd on October 25th.

Metzger commended Shelley Chaney and committee members for the very successful 'Saturday Night Live in Sonora' on the 20th, which is the 2nd project undertaken by the Red Carpet Committee, the first being a monthly Newcomer's Coffee held in October.

Metzger added that Jean Sherrill has been appointed to serve on the RCC.

Mrs. Roderick Harrell

Stewart-Harrell Vows Said

Miss Billie Ann Stewart became the bride of Roderick Harrell of Brady in a candlelight ceremony at St. John's Episcopal Church Saturday night. Officiating was the Rev. John W. Fritts, rector, with Charley Carroll as acolyte. Mrs. W.T. Hardy was organist.

The bride's parents are Mr. and Mrs. Bill Stewart of Sonora and the groom's parents are Mr. and Mrs. Bud Harrell of Brady.

The bride's sisters were her honor attendants. Mrs. Steve Mason was matron of honor and Miss Julie Stewart was maid of honor.

Bridesmaids were Miss Kim Collins of Ozona, Miss Kathy Hardegreer and Mrs. Penny Wade of San Angelo, Mrs. Rocky Harrell of Brady and Mrs. Dan Wagner of Sonora.

The groom's brother, Race Harrell, served as best man. Groomsmen were Rocky Harrell, Mike Powell, Ken Whitely Ferd Slocum, Bill Ragsdayle of

Brady and the bride's brother, Mike Stewart of Lubbock.

Ushers were Steve Mason of Lubbock, Ted Archer and Jay Chisholm of Brady and Dan Wagner of Sonora.

The bride wore a candlelight gown in satin richly overlaid with reembroidered French alencon lace. The attached chapel train was edged in lace; pearls trimmed the waistline and sleeves. The bride wore her mothers pearls. The newlyweds will make their home in Brady after a short wedding trip.

The bridegroom's parents hosted the rehearsal dinner at the Circle Bar Restaurant Friday night.

The reception was held at the Waterhole Club after the ceremony.

Members of the houseparty were: Mrs. W.B. McMillan, Mrs. Lawrence Finklee, Mrs. Willie Miers, Mrs. Jerry Don Balch, Mrs. Harold Schweining, MRs. Bob Teaff, Mrs. Harold Schwiening, Jr., Mrs. Bill Tittle, Mrs. Nelson Stubblefield, Mrs. Lano Thompson, Mrs. Gus Eustace, Mrs. Max Hardegreer, Mrs. George Johnson, Mrs. Steve Thorp, Mrs. Richard Olson, Mrs. Sammie Espy, Mrs. Tommy Thorp, Mrs. Dick Street, Mrs. Mickey Powers, Mrs. George Brockman, Mrs. Bruce Kerbow, Miss Marsha Finklee, Miss Lorie Olson, Mrs. Ben Cooper, Mrs. Jess David Cook, Miss Lynn Maness, Mrs. David Gould and Mrs. B.C. Glasscock.

Lucinda Hamilton Engagement Announced

Mrs. Robert V. Kelly of Sonora and Mr. C.T. Hamilton of Brownfield have announced the engagement and approaching marriage of their daughter, Lucinda Ann Hamilton, to Max Franklin Gilley of Dallas.

Miss Hamilton is a graduate of Monterrey High School in Lubbock, and a 1973 graduate of Macon Women's College, where she received a bachelor of Fine Arts degree. She is currently doing graduate work at the University of Texas in Dallas. Mr. Gilley is a graduate of North

Texas State University. He is employed as a court reporter and runs a construction business.

The wedding has been set for noon on November 24 at Preston Hollow Presbyterian Church in Dallas. The best man will be the groom's gaffer, Warren F. Gilley. The maid of honor will be Tedna Owens of Levelland. The bride will be given away in marriage by Robert V. Kelly of Sonora. Rev. Jim Miles will perform the ceremony. The couple will reside at 6177 Llano in Dallas.

Range Field Day Set

You are invited to attend the Range Field Day at Sonora Research Station on October 30 at 9:00 a.m. The Day will begin with an informal organized tour of various grazing management systems led by Dan Rodgers and Rhett Johnson. A dutch treat bar-beque will be available at a

cost of \$3.00 per plate. The afternoon program will consist of four speakers: 1) Jack Groff to discuss Angora goat management using a film made here in Sutton County, 2) Darrell Ueckert with a discussion of juniper and other noxious plant management, 3) Larry White discussing the

analysis of diets and range forages from local present demonstration, 4) Butch Taylor with comments on the role of the goat in range management.

The program will be completed by 3:00 p.m. If you have any questions concerning the program, feel free to call the local extension office.

The Devil Made Me Do It

by Becky Ponsetti
Isn't Autumn nice?

Every year, about this time, the weather begins to cool off, the leaves begin to

fall, and pecans begin to ripen, I am once again amazed at Nature's Handiwork. How can He, or she, make West Texas bloom in the spring without rain, make cool breezes blow in the heat of summer, and make a season as beautifully colorful as Autumn?

Everywhere the signs of cool weather are appearing. Open your eyes and take in all of Nature's "Autumn in West Texas". It appears daily about this time of year. One good thing, it's a free show.

Every year at Christmas, my son receives at least one gift that his father and I can't wait to see broken. These Christmas morning toys are the subject of this week's guide for Early Santas.

Time and again your child will receive toys that will, in truth, drive you nuts. How do you tell persistent Grandmas and other assorted relatives that Junior is not really another Tommy Dorsey?

How do you make them understand, without bruising their feelings, that you would really rather let them leave the toys at the "giver's" house?

I have a few suggestions. Have the EPA assign noise

frequency levels to all toys that make more than their share of noise. Make the toys only work for say, twenty minutes at a time to give parents time to recuperate from the noise. Have a mandatory law that prohibits the sale of noisemakers without including two sets of earplugs for the unhappy parents.

Noisemakers are fun for about half an hour, then they become nuisances. Don't let yourself be accused of giving a noisy present.

Lincoln Logs are a good present for all ages. They are quiet, durable, although sometimes messy, and they allow your child to use his own imagination. Give me and mine Lincoln Logs any day.

Halloween Safety Tips

This Halloween, check safety features for children's "trick or treating" costumes, advises Claudia Kerbel, a consumer information specialist.

She suggests these Halloween costume safety features:

(1) Consider using make-

up to decorate the face rather than wearing a mask which may block vision. Apply cold cream before putting on make-up for easy removal.

(2) Sew or glue reflective tape to both front and back of the costume. Be creative

and incorporate the tape into the costume design.

(3) If possible, give each child a flashlight to use at night. If he/she wants to carry a jack-o-lantern, put a flashlight inside -- never a candle.

Saturday Night Live in Sonora

Chaney Announces Winners

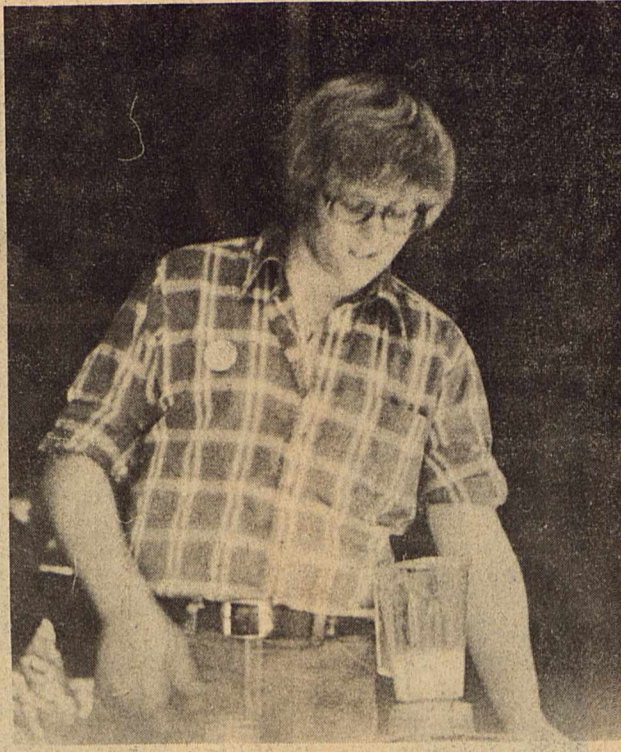

Shelley Chaney announced the following winners in the 'Saturday Night Live in Sonora' Talent Show held Saturday at the elementary auditorium, with

Tom Metzger emceeing. First prize winner in the 4 to 6 year age group were "The Bunnies" from Rhonda's School of Dance. (Names not given are unavailable, will be named at a later date.) In the 7 to 12 age group "Disco Inferno" took 1st prize. This group is from Rhonda's School of Dance. Second place in this category was awarded to April Smith, singing a lively rendition of "I Wish I Was A Teddy Bear".

Cade Pope's "H&L Brock" reading copped first in the 13 to 16 year group and Gary Vick's "Bass-O-Matic" came in as second prize.

In the 17 and older age group, Oscar Galindo and The West Texas Cowboys won first, with Becky Ponsetti's "Rebecca Savage and Update News" winning second.

Out of town judges for the event were Mr. and Mrs. Ernest Chaney of Uvalde and JoAnn Warden of Cope, Colorado.

Garv Vick won 2nd place in the 13-16 year old group of the 'Saturday Night Live in Sonora' talent show Saturday night.

Thought of the Day

What Are Real Treasures ??

He walked a long time and rang many doorbells and "scared a lot of people in order to acquire his Halloween treasures. He wants to sleep with his

dust doth corrupt, and where thieves break through and steal: for also, where your treasure is, there will your heart be also.

treasures beside him, where he can feel the sack with his hand.

These treasures somehow remind you that one of your responsibilities toward your adorable child is to teach him what real treasures are—friends, country, church, good deeds, family, love of God, and quality of spirit, to name a few.

That "Trick or Treat" bag somehow reminds you of that scripture in Matthew that goes, "Lay not up for yourselves treasures upon earth where moth and

Services Held for Katherine Willman

Funeral Services were held for Jennie Katherine Willman, 69, of Sonora, on Friday, October 19.

Mrs. Willman was born in Mason County on August 18, 1912. She was married to Ervin Willman in Brady

on November 3, 1928. They moved to Sutton County from Mason in 1934. She was employed as the store manager of Western Drug in Eldorado for 25 years. Mrs. Willman was a lifetime member of the Wesley Service Guild, and a Lifetime Fire Mother of the Sonora Volunteer Fire Department. She was a member of the First United Methodist Church.

Funeral services were conducted by Rev. Paul Terry of the First United Methodist Church. Surviv-

ing Mrs. Willman are her husband, Ervin, and daughter, Mrs. Jack Sharp, of Sonora, two brothers, Robert and Allison Behrens of San Angelo and Mason, and two grandchildren. Her son Joe, preceeded her in death on October 21, 1967.

Pallbearers included Ronnie Cox, J.B. Wright, Doug Campbell, L.P. Bloodworth, Gene West, and Cullen Luttrell. Firemen and Retired Firemen were the honorary pallbearers.

Lee Fawcett, 64 Buried Thursday

Funeral services were held Thursday, October 18, for Lee Baker Fawcett, 64. Mr. Fawcett was lifetime area rancher. He was born in Del Rio on August 21, 1915, and married to Bobbie Halbert in San Angelo on April 19, 1946. He and his wife moved to Sonora from their ranch in Loma Alta during that same year.

He was a member of Texas Sheep and Goat Raisers Association, and a member of St. John's Episcopal Church.

Surviving Mr. Fawcett are his wife, Bobby, his son, Roger of Odessa, two sisters Mrs. Dan Fingcan of Del Rio, and Mrs. Emma Whitehead of Del Rio, two brothers, Walter Fawcett and Elmer Fawcett of Del Rio, and three grandchildren.

Funeral services were conducted by Rev. John Fritz, rector of St. Johns

Episcopal Church. The active pallbearers were his nephews, with honorary pallbearers, W.B. McMillan, Gay Copeland, Charles F. Browne, Virgel Cauthorn, C.C. Bryant, and Charles Sherril attending. Ushers were Bill Morris, Bill Webster, and Dick McMillon.

All memorials are requested to be placed in the Heart Association Fund at St. John's Episcopal Church.

Deep Basins:

AMERICA'S NEXT GREAT SOURCE OF NATURAL GAS?

Producers are finding a lot of "super" gas wells in Oklahoma's and Texas' deep basins. A super well produces enough gas in a year to equal the energy in a million barrels of oil. This is enough gas to heat 1,000 homes for almost 56 years!

Exploration of these ultra-deep basins is gaining momentum now that producers have the technology to drill below 20,000 feet. In fact, many industry experts believe the deep basins will be America's next great source of gas.

The average gas well costs about \$300,000 to complete. A deep well can cost up to \$10 million, which explains why it's often necessary to pay higher prices for the gas we buy.

Lone Star has been buying gas from shallower production in the deep-basin areas for years. Our pipeline network will help us buy new gas selectively, negotiate hard for terms favorable to you, and deliver the gas efficiently and economically.

Producers now have the technology to tap enormous, previously unreachable gas reserves in this area's ultra-deep basins.

Gas. It's plentiful, efficient and right for the times.

Broncos Take Cathedral

The Broncos did in the Irish from Cathedral of El Paso last Friday night with a good offense and a solid defense.

To witness the defensive effort, Cathedral made five first downs in the first quarter but only four first downs the rest of the game. The Broncos held Cathedral to 90 yards rushing and 51 passing.

The offense continues to improve, especially in area of passing. At the end of the first half the Broncos drove 61 yards mostly on the passing game. David Creek completed four of seven passes in the drive.

Jesse Vela caught two of the passes, one of which was for the score with only one second on the clock.

The second touchdown was set up by a 33 yard run by Allen Stewart. The drive covered 89 yards in 11 plays and used up most of the third quarter. The 14-7 lead was enough for the Broncos.

Rex Surber was Sonora's leading rusher for the night with 94 yards on 22 carries. Allen Stewart had 34 yards on 6 carries, Eddie Favila had 71 yards on 16 carries as her returned to the lineup, and David Creek had 35 yards on 7 carries

and one touchdown.

In the passing department, David Reyna caught 2 passes for 51 yards, Jessa Vela caught 2 for 17 yards on one touchdown, and Kent Cagle caught one for 11 yards.

Defensively Charlie Carroll, David Sanchez and David Reyna all had good games defensively.

Cathedral came to town with a much better team than most expected and played a tough game. The Broncos take this week off to prepare for the district opener against Kermit on November 2.

Jumping with Joy. The Broncos jumped with Joy after their Victory over Cathedral.

Police Report

October 12
10:00 a.m. A female caller reported a dog shot in a local trailer park the night before. Officer Ware was advised of the situation.

8:21 p.m. A female caller reported a disturbance in the parking lot of a grocery store. All units were notified.

8:30 p.m. A male caller reported the two subjects who started the disturbance leaving the scene. Sgt. Gesch, Officer Gladden and Deputy Flores advised.

10:39 p.m. A local motel owner reported a vehicle running over a highway sign and a phone box in

front of her business and leaving the scene.

5:28 p.m. A minor accident was reported in a local grocery store parking lot. Patrolman Ware advised.

October 13
10:02 a.m. A male caller reported damage to a local laundromat. Officer Little advised.

5:15 p.m. A female caller reported an abandoned vehicle behind the Wool house. Officers Little and Ware were notified.

10:52 p.m. A male caller reported a fire southwest of J&V, on the Sonora side of IH 10. Deputy Flores was

advised of the situation.

October 14
9:20 a.m. A female caller reported damage to a truck owned by her husband's business. Officer Little notified.

10:44 a.m. A female caller reported a suspicious male subject at her house. Officer Little was notified.

11:45 a.m. An abandoned car was reported in a local grocery store parking lot. Officer Little advised.

October 15
1:05 p.m. A female caller reported the same suspicious male in her yard that had been around town all weekend. Officer Little and Chief Kemp were notified.

3:00 p.m. A female reported a lost or stolen billfold.

October 16
12:45 p.m. A female caller reported a piece of garden hose sliced off during the night, apparently used to siphon gasoline out of another automobile.

2:45 p.m. A male caller requested officer's assistance in getting an ill man to the hospital.

2:45 p.m. A nurse at the Nursing Home reported a missing patient. Chief Kemp was notified.

8:35 p.m. A female caller reported a family disturbance. Sgt. Gesch and Officer Ware were notified.

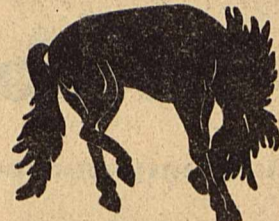

October 17
9:00 a.m. An abandoned car was reported beside the bank. The vehicle was checked out by Officer Little.

October 18
4:10 p.m. An explosion and fire were reported at a local mobile home. Chief Kemp and Officer Little responded. The fire was determined to have been caused when a transformer exploded and caught fire. The fire was quickly extinguished by the Sonora Volunteer Fire Department.

"Crazi Raz" Picks the Winners

"Crazi Raz" fell by the wayside last week due to the "editors" knife. We had so much local news that "Crazi Raz" got left on the editorial room floor.

"Crazi Raz" would have to admit to picking Texas over Arkansas last week and we have another of those games this week with Arkansas taking on Houston.

Sonora open. Eldorado vs Menard. Eldorado will get back on the winning track this week. Eldorado by 7. Angelo St. vs Texas A&I. The ball game of the week in the Lone Star Conference. The Rams will have to get high for this one.

fixing and so does their chances at beating Texas. Texas 20.

Stephen F. Austin vs Abilene Christian. Stephen F. Austin by 3.

LSU vs Florida St. Should be a good game and has possibilities for being a determining factor as to Nebraska vs Colorado. No question, you say. Well, the way upsets have happened this year, you can never tell. The crystal ball says Nebraska by a big bunch.

Ohio St. vs Michigan St. Ohio St. by 10.

Washington vs UCLA. Washington by 4. Alabama vs Virginia Tech. The No. 1 Tide will continue to roll. Alabama by 30.

USC vs California. USC soundly beat Notre Dame and probably took them off the Cotton Bowl list. USC by 18.

HIGHEST 4-H COUNTY AWARD - two Sutton Co. 4-H Club members were honored in Uvalde Saturday as recipients of the 1979 Gold Star Award for Sutton County. Gold Star is the highest honor a 4-H Club member can receive in Texas. Sutton County winners this year include Fran Friess and Lance Love. These county winners joined Gold Star winners from 18 other Southwest Texas Counties during the Luncheon in Uvalde Saturday. The annual awards luncheon is sponsored by the Central Power and Light Co.

Inflation, Energy, and Exports

Key Factors Affecting Agribusiness in the 1980's

Inflation, energy, exports and the structure of agriculture are likely to be key issues affecting agriculture in the 1980's.

"Those firms that best anticipate the effect these factors will have on their operations will be in the most competitive position throughout the coming decade," declared Dr. Ronald D. Knutson.

He offered specific suggestions on how farmers, ranchers and business firms might cope with current agricultural conditions during the Houston Agribusiness Conference, Oct. 12.

"The most important effects of inflation upon agriculture include increased cash flow problems and risk confronting farmers," Knutson said. "A major difference between agriculture and the rest of the economy is that no assurance exists that farm prices will rise at the same rate as inflationary cost increases."

Knutson said the increased risk of price declines, combined with double digit inflation, suggest the need to build capital reserves when incomes rise, increase use of forward contracting and hedging, optimize sales near harvest when favorable prices exist, and maximize integration of input, production and marketing functions as a means of spreading risk.

In regard to energy, Knutson emphasized that Texas farmers producing on irrigated land find themselves at a serious disadvantage.

While energy averages 7.9 percent of U.S. farm production costs, energy for irrigated farming in Texas runs as high as 15 percent of production expenditures, Knutson said. Thus, Texas Agricultural Experiment Station and Extension Service developments in new crop production systems that use short season, drought resistant varieties, lower rates of irrigation, fertilizer and chemicals - as well as reduced pressure irrigation are likely to be increasingly important in allowing Texas irrigated areas to compete, Knutson predicted.

He cautioned farmers to use care in making decisions on gasohol production in Texas. Independent studies by universities and U.S. Department of Agriculture economists show gasohol production from grain sources to be of questionable feasibility without subsidies, he ex-

plained.

"Texas lacks a comparative advantage in producing gasohol from grain because of the attractiveness of export markets and costs of shipping grain into the state. The greatest economic feasibility is in agricultural and product resi-

due, sugar cane and sweet sorghum," Knutson said. The economist warned that gasohol will have to compete in the general market for energy. "In a showdown between energy and food, grain for food will take precedence over grain for alcohol."

Stressing that exports are the single most critical factor affecting U.S. grain, oilseed and cotton prices, Knutson said that our nation's commitment to exports has vacillated. He cited how the administration has allowed port facilities to be tied up by strikes

and Congressional debates to license exports.

Knutson defined the structure issue as being one of "family farm survival."

"There are concerns that control of agricultural land and production resources are increasingly becoming

concentrated in the hands of large farms, corporate agribusiness and nonfarm domestic and foreign interests.

"States most affected by structure modification proposals are Texas, California, and Florida. Various structure proposals include stringent limits on farm program benefits, tax changes to discourage non-

farm investment in agriculture, antitrust policy changes restricting vertical integration, and limiting

the benefits of government services such as credit, research and extension activities to small and middle size farmers," Knutson explained.

Sheep And Goat Industry News

Compiled by Texas Sheep and Goat Raisers' Association

Just when you think you've heard it all, somebody comes up with a new idea crazier than the craziest ones before. Now it's human rights for animals-- full human rights.

People themselves are still seeking those rights in many corners of the globe, but at least one academic-type thinks it's time for man's dominion to end. David S. Favre, associate professor of Law at Detroit College of Law, has proposed a constitutional amendment conferring full human rights on "all wildlife of the classification mammal, bird, amphibian or reptile."

Let us not leave the impression that Favre's compassion and concern is limited only to these types of animals--his article in the publication *Environmental Law* announcing the proposed amendment makes it clear that he actually favors extending human status to such other creatures as "bean beetles or waterlife too small for the eye to see."

Pragmatic, realistic and practical soul that he is, however, Favre realizes that a proposal as broad-sweeping as he would like to see might be a little hard for even the most scatter brained of legislators to accept. He thus limits it to the aforementioned animal types, those he considers "the most visible of species with whom humans can identify and understand." Elsewhere in his article he finds "no reason" why human rights should not also be conferred upon the plant kingdom and gives tacit approval to others' demands that minerals, rivers, rocks and hills also share in the decision-making process.

Favre recognizes, surprise, that a few if any of these proposed new "legal persons" would be capable of speaking or acting in their own behalves. He therefore suggests that certain humans do the talking, demanding, suing, striking or whatever else might be necessary for them. There is, of course, a ready-made

assortment of motley human types who would take this role gladly. They are, after all, making millions already for their univited spokesmanship of certain critter "demands"-- how far Favre's proposal would go toward their further enrichment can hardly be imagined.

The whole idea is patently insane, but then so are many of the existing legal aberrations Favre bases it upon. That just goes to show that it could happen. If it ever does, private property ownership will vanish because the rights of people will not prevail over the "rights" of lower life-forms, whatever they may be. Hunting, of course, would be prohibited, as would the taking of any animal life (so much for steaks, mutton, pork or fried fish). That leaves only vegies, but of course if the plant kingdom is given human rights that will also be that. It's possible that we could survive on milk,

can take perverse pleasure in the knowledge that, as we starve, so shall they.

The final upshot of the whole thing would be a rather rapid extinction of

human life through starvation, an apparently happy prospect for the sort of pro-animal, anti-people characters who would support Favre. The rest of us

Sutton County Petro News

Life in the Gas Patch

by Becky Ponsetti

I was beginning to become a little worried that I would never have enough information for my "Gas

Patch" column, when I spied an armful of news releases that explained the apparent quiet in the gas

patch. It has been a better year for the oil and gas industries in Texas. You

have drilled 478 more wells than last year at this time, you have hit 240 less "Dry holes", and you have serviced, deepened, and

plugged back 944 more wells this year in comparison to last.

Statewide, Texas Operators reported 27 oil and gas discoveries during the October 1-15 period.

Gas discoveries included

24 in the Refugio area, 10 in Deep South Texas, five in Southeast Texas, two each in the San Antonio, East Central Texas, West Central Texas, San Angelo, and North Texas area, and one each in East Texas and the Panhandle.

In the October 1-15 period, operators reported 186 exploratory and field tests wound up as dry holes.

New applications for permits to drill oil and gas tests totaled 1,278 in the first half of October, as compared with 799 in the

same period for 1978.

EPNC News
El Paso Natural Gas Company has formed a new subsidiary, El Paso Exploration Company. This subsidiary will be responsible for geological, leasehold acquisition, and production activities.

RRC Chairman Urges Faith in Domestic Oil Supplies

Railroad Commission Chairman John H. Poerner tonight urged Americans to maintain their faith in domestic supplies of oil and gas--"the fuels that have kept us moving so well for so long"--in seeking solutions to their energy dilemma.

Addressing the San Angelo Desk & Derrick Club and guests at an industry appreciation dinner, the energy/transportation regulatory official ticked off statistics and data showing enormous petroleum reserves remain to be recovered in Texas and elsewhere in the U.S. Oil Country.

"If only half of the

domestic energy remaining in the ground is recovered," noted Poerner, "we will have an amount of new oil equal to all of the oil we have used in our entire history as a nation."

However, he emphasized "whether or not we take advantage of our remaining natural resources depends in large measure on the direction that Washington takes in the next few years."

In any case, the Commission Chairman continued:

"We must help our producers help us. If free market prices are allowed to prevail in our country, millions and millions of additional barrels of do-

mestic oil can be produced.

"Certainly we must forge ahead as rapidly and intelligently as possible with alternative fuels, but right now and for the rest of this century, there is nothing to fill the role oil and gas have played in our nation.

Texas, in particular, have a vital stake in encouraging optimum production in known fields within the state and "getting on with the job of finding, developing and producing the country's remaining petroleum reserves," said Poerner.

Otherwise, he said, dependence on foreign oil sources will increase and projections that Texas will become a net oil importer in the mid 1980's will likely prove out.

Poerner observed that Texas has produced almost 40 percent of the nation's crude oil in the past, has about 31 percent of current U.S. reserves and will have nearly one third of the nation's remaining oil in

place after primary and secondary recovery methods are used.

"If we can recover only 10 percent of our remaining residual oil by using advanced technology such as tertiary method we can double our future production from today's known reserves," reported Poerner, adding:

"This is an effort that we simply must take."

Poerner warned, however, that the unfavorable operating climate created by the federal government may make a doubling of the oil recovery rate "difficult or in many cases impossible."

Turning to the role of the Railroad Commission in the energy and public service areas, Poerner told the audience:

"I am very proud of the record we have at the Railroad Commission for encouraging maximum efficient production while still protecting correlative rights and preventing waste."

He described "a big step" the Commission is making to upgrade its information base.

"We will soon have computer terminals in the district offices, including the San Angelo office, which will make a wide range of oil and gas data available to our staff and to the public which until now has been stored in Austin," he explained.

"Among other things, docket information, gas well information, NGPA (Natural Gas Policy Act) status reports, oil well completion information and organization reports will become available."

Poerner said a printer capable of copying all information on the terminal will be provided, thus saving time for all concerned.

"Another exciting feature is that information will be available regarding all districts in Texas -- not just the district in which the terminal is located," he added.

PBPA Gives Facts on Energy Situation

From the Permian Basin Petroleum Association.

Did you know that less than 1/3 of all the oil discovered to date is recoverable?

Artificially low, government forced prices are the main reason for this unnecessary loss. With the right place, over two-thirds of all discovered oil will be recovered with current technology. Additional reserves will be discovered, and recovered, through new techniques and new equipment, as prices rise.

with only one oil or gas well for each square mile of surface, it is quickly obvious that many more thousands of wells need to be drilled and completed if we are to achieve even the low one third recovery rate now being accepted.

Additionally, conservation must be practiced by everyone in the Permian Basin and the entire United States. In the Permian Basin, counting all rolling stock of every type, there are over 500,000 vehicles. If each vehicle travelled 14 miles (one gallon) less each week, we could save over 1,000 barrels of oil per day. Apply this to over 110,000,000 autos, trucks and other gasoline, or diesel fuel, consuming vehicles in the United States and we're looking at over 2,000,000 barrels of oil per day.

By freeing domestic crude oil production per day. By using organized conservation, we can cut our needs for imported crude oil by some two millions barrels per day. 3.5 to 4 million barrels of crude oil per day is not energy independence, but a strong step in that direction and we can do it.

At the present time, thanks to all the help from DOE, and its affiliate FERC very little drilling as exploration below 15,000 feet is taking place, but many of these areas are already producing oil and gas at shallower zones. It has been predicted that more gas remains to be discovered than has already been used from those areas.

Many doubt that we can ever be energy sufficient again. No one in the domestic petroleum industry would be so foolish as to predict this. Not with petroleum products alone, that is. However, right here in the Permian Basin,

RRC Reduces Livingston Field Rate

The Railroad Commission has reduced the most efficient rate of production assigned to the 27-year-old Livingston oil field by more than one-half.

The Commission trimmed the MER of the Polk County field to 612 barrels of oil per day from 1,400 barrels daily during Monday's weekly conference on Oil and Gas Division matters. Senior Staff Geologist Bill E. Watson, who conducted a July 10 public hearing on the producing characteristics and potential of the field, recommended the cutback.

The field was discovered in 1932 and presently has 38 wells producing from the Yegua formation. It is

currently assigned an allowable of 612 barrels of oil daily.

The reduced MER was supported by Exxon U.S.A. largest operator in the field with 10 oil wells and one gas well.

In his findings of fact, Watson reported to the Commission that the Yegua reservoir is in an advanced stage of depletion, all wells are limited producers, averaging 9.9 barrels of oil daily, and the field is incapable of producing at an MER of 1,400 barrels daily.

There were no protests to Watson's findings and recommendation that the MER be reduced to 612 barrels daily.

Animal Ordinance Cont. from pg. 1

Be it ordained by the City Council of Sonora, Texas, Council of the City of Sonora, Texas.

ARTICLE I SECTION I-PERMIT TO KEEP

A. It shall be unlawful

for any person to keep any cattie, horse, mule, ass, sheep, goat, chicken or other domestic fowl of any kind, sex or description within the City Limits of the City of Sonora unless the requirements of this Ordinance are met and a permit

is obtained. Only persons who comply with the provisions of this Ordinance shall be entitled to receive such a permit. The fee for such a permit shall be two dollars (\$2.00) per year and monies received from the issuance of such permits shall be used to assist in the cost of the printing of forms for same. These permits shall be compulsory within ten days of the passage of this Ordinance.

B. It shall be unlawful for any person to harbor any horse, goat, sheep, cow, mule or other animal of like species within the corporate limits of the City without first having said animal vaccinated against rabies annually. Proof of this vaccination shall be required before issuance of permit outlined in Article I, Section I.

C. Suspension of revocation: A permit issued under this section may be temporarily suspended by the City of Sonora upon violation by the holder of any of the terms of this Ordinance, or revoked after an opportunity for a hearing by the City Council upon serious or repeated violations. Any public official who receives information and complaints by another resident of the City of Sonora may investigate to see if proof of any existing nuisance exists, and shall notify owner of such animal nuisance by notice of letter. Such notice shall specify the nature of the nuisance and shall designate a reasonable time within which such abatement shall be accomplished. In the event such notice is not complied with within the specified time, the local health officer will be advised, after which legal proceedings will be instituted.

SECTION II - KEEPING OF SWINE PROHIBITED
It shall be unlawful for any person to keep any hog or pig within the city limits at any time, for any reason, and no permit shall be issued authorizing the same.

SECTION III - POISONOUS, DANGEROUS OR WILD ANIMALS
A. It shall be unlawful for any person to keep or harbor any poisonous reptile or dangerous or wild animals within the City. The words "wild animal" includes all animals of a dangerous or ferocious nature as well as animals included to do serious bodily harm to humans or other animals or fowls.

SECTION IV - KEEPING LIVESTOCK NEAR BUILDINGS: AREA REQUIREMENTS FOR AND

MAXIMUM NUMBER OF LIVESTOCK

It shall be unlawful for any person to feed, breed, stable, pasture or keep any cows, goats, sheep, rabbits, chickens, or any other animal of like species in or on any lot, pen, building, parcel of land, stable or other enclosure in the City, any part of which lot, pen, building, stable, parcel of land or other enclosure, is nearer than fifty feet (50') to any building occupied by any person any part of the day or night. A minimum of four hundred (400) square feet of area shall be required for such animal unit and not more than two (2) animal units shall be in any lot, pen, building, stable, enclosure or parcel of land. An animal unit is defined as follows: 4 sheep, 4 goats, 1 horse, 1 cow.

SECTION V - AREA REQUIREMENTS FOR FOWL AND RABBITS

It shall be unlawful for any person to keep, harbor, maintain or permit the presence on any lot or parcel of land within the City any poultry, fowl, or rabbit of any kind, sex or description, other than not more than one for each ten square feet of floor or ground area.

SECTION VI - MAINTENANCE OF PREMISES WHERE LIVESTOCK ARE KEPT* DISPOSAL OF MANURE

Each place in the City used for feeding, breeding, stabling, pasturing or keeping any cow, goat, sheep, horse or any other animal of like species, shall be kept free of offensive odors, flies, and rodents; and other enclosure in or on which any such animal is kept, fed, bred, stabled, pastured or housed shall have a suitable manure box or container in which all manure and droppings shall be placed daily. Each such box or container shall be securely screened and shall be cleaned out and disinfected at least once a week. Manure from such boxes shall not be left in open stacks but shall be removed or buried.

SECTION VII - MAINTENANCE OF PREMISES WHERE FOWL AND RABBITS ARE KEPT

It shall be unlawful for any person to keep any poultry or fowl within any structure in the City without scraping the floor of the room, coop, box or compartment and thoroughly cleaning the area within 48 hours and so maintaining such structure or enclosure that no offensive odors are emitted therefrom.

The interior of such structure or enclosure that no offensive odors are emitted.

The interior of such structure where chickens, or rabbits, or turkeys or any other like species, are kept shall be disinfected with crude oil or some disinfectant on the roosting places at least once in each calendar month to discourage insects, fleas, mites and flies.

SECTION VIII-RUNNING AT LARGE

The term "running at large" shall mean permitting the animal, fowl or rabbit to run or be outside of the fence, cage or other facility for which permit has been issued under the provisions of this Ordinance.

It shall be unlawful for any person to permit or allow any chickens, ducks, turkeys, geese or other fowl, horse, mule, cow, sheep, goat, jack or jennet owned by him or under his control, to run at large within the limits of the City or to wander in or upon or invade the premises of any other person within the corporate limits of the City.

SECTION IX - TIEING ANIMALS TO POSTS, TREES, ETC.

It shall be unlawful for any person to tie or fasten any animal to any lamp-post, awning post, tree, fence or shrubbery belonging to another, or to any hydrant belonging to the City.

SECTION X - RIDING OR LEADING HORSES ACROSS SIDEWALKS OR PRIVATE PROPERTY

It shall be unlawful for any person to ride or lead any horse or drive any team on or across any sidewalk in the City, or across that property belonging to any other person within the corporate limits of the City, except in such places as may be constructed and used for that purpose.

SECTION XI - INDECENT EXHIBITION OF ANIMALS

It shall be unlawful for any person to indecently exhibit any stallion, jack, bull ram or other male animal within the City, or to let or cause to be let any such animal to one of the opposite sex on any property within the limits of the City where the same will be open to the view of the public.

SECTION XII - IMPOUNDMENT OF ANIMALS AND FOWLS

A. It shall be the duty of the animal control officer or any member of the local City Police office to seize and impound in the public

pounding place, any and all animals found in violation of the provisions of this Ordinance.

B. The animal control officer shall, on the day after impounding any such animal, post three notices in public places in the City, one of which shall be at the City Hall. The notices shall describe the animals impounded, and give notice that unless such animals are redeemed, they shall be sold on the fifth day after the posting of such notices, to the highest bidder for cash.

SECTION XIII - SAME - REDEMPTION

The owner of any animal impounded under the provisions of this Ordinance shall be entitled to redeem the same upon satisfactory proof of ownership and the payment of any and all fees which may have been incurred under the provision herein stated.

SECTION XIV - SAME - FEES

The fees of the pound officer for impounding and advertising the sale of such animal impounded under the chapter shall be allowed by State law. Such fees shall be paid from the proceeds of the sale of such animals.

SECTION XV - SAME - RECORD OF SALES, DISPOSITION OF PROCEEDS

The animal control officer shall keep a record of all sales of animals impounded and/or sold under the provisions of this Ordinance, giving a complete description of the same.

If the owner of any impounded animals sold shall make satisfactory proof of his ownership to the animal control officer and City Manager within six months after the sale of said animal, he shall be paid the amount of such sale less the fees required by this Ordinance.

The proceeds of sales, less such fees shall be paid to the City Secretary or depositing into the City's General Fund.

SECTION XVI - EXEMPTION FOR SLAUGHTER HOUSES

Where, at the time of the passage of this Ordinance, the animal or fowl keeper is operating an animal and/or fowl slaughter house and the keeping of animals or fowls incidental to the slaughtering of same is for a temporary period of not exceeding seven (7) days, the provisions limiting the number and regulating the distance from the premises

of other buildings shall not apply.

ARTICLE II SECTION I

Any person, firm or corporation violating the terms and provisions of this Ordinance shall be fined, upon conviction, in a sum

not to exceed Two Hundred Dollars (\$200.00).

Passed and approved this 16th day of October, 1979.

Approved:

s/ Doyle Morgan, Mayor

Attest: s/ Shirley K. Hill, City Secretary

Ask the Experts

about Turntables

When it comes to choosing a turntable that really gets the job done professionally, most of our customers like the Yamaha YPD71. Its got the important basic features you find on the very expensive tables, but the price, a good deal less. You'll get a professional quality table with superbly accurate speed and a tone arm that is perfectly balanced in all directions. Just look at these specs and features:

YAMAHA YPD 71

- Direct drive 33-1/3 & 45 RPM turntable
- Wow & Flutter 0.02% (WRMS)
- Quartz phase lock servo motor system
- Hall element speed sensor
- Speed locked indicator LED
- Die cast aluminum platter
- Long (242 MM) effective tone arm length for minimum tangential tracking error
- Only 7 mg. vertical or horizontal arm bearing friction
- Adjustable arm height
- Low impedance signal cables
- Dual photocell velocity-sensing auto-shut-off & arm lift
- Easy lift head shell
- Ebony Finish Cabinet

If you've been going round and around looking for a perfect turntable, drop by and we'll spin a platter on the Yamaha YPD71. Your search will be over.

Reddy's tips on electric safety

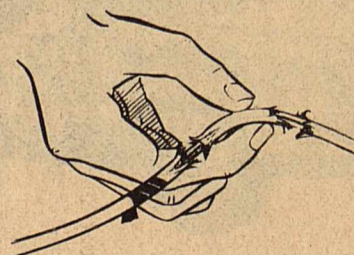

★ When disconnecting an appliance, don't pull cord; pull plug.

★ Be sure each appliance has the type of cord suited to the job it does - heavy duty extension cords for power tools; moisture resistant cords and plugs for outdoor equipment.

★ Have frayed cords replaced promptly.

★ Water conducts electricity; never handle electric appliances or switches with wet hands or when standing on a wet surface.

★ If an appliance has a separate cord, attach cord to appliance before plugging it into an outlet; disconnect cord from outlet before disconnecting it from appliance. Store cords away from cutlery, heat and dampness

★ Don't place cords where they'll be tripped over or be subject to wear (under a well-travelled rug, through doorways).

★ Teach children not to play with or around electric sockets or equipment.

★ Don't use an electric lawn mower or hedge clippers when barefoot, or on wet grass or hedges.

WEST TEXAS UTILITIES COMPANY

Remember, Reddy supplies the electricity - only you can use it safely!

Families Can "Make Do"

Families can muster all of their resourcefulness to meet today's money problems -- and they may become closer in the process, says Lillian Chenoweth.

Of course, this becomes more of a challenge as prices rise and budgets stretch, but the results can mean several major benefits, she says.

Mrs. Chenoweth is a family resource management specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Focus on resources within the family -- and new ways to use them.

Encourage each family member to look within himself instead of always outside.

Recognize the abilities and skills of each person.

All together, those resources will increase the family's resourcefulness.

Resourcefulness also means looking at things you already own instead of only

new things you want to buy.

And it means new ways of "making do" -- to keep from "doing without".

Ideas are limitless, and many can foster new excitement.

Take entertainment, for example.

A family may gather together and tape a letter to the grandparents.

Or they could go on "penny hikes". Take a walk in the neighborhood and flip a coin at each corner to see which direction to go in next. This kind of hike provides entertainment as well as exercise.

Or plant a fall garden together. Contact the County Extension Office for information on what will grow in the space available.

All family members can share in the preparation and the harvesting -- as well as the eating.

Socializing can "go creative", too.

Try a "progressive din-

ner party". Each part of the meal occurs at a different home -- maybe all the homes can be within walking distance so everyone can walk from place to place.

Plan simple foods that children can enjoy so no one needs a babysitter.
