Sonora Bronco coaches Donald Patton (right) and Jerry Hopkins (background) give some last minute instructions as the Broncos prepare to take the field for their opening game of the season at Ozona last Friday night. The Broncos used an aggressive defense and a surprisingly strong passing game in routing the Lions, 30-0. See Page 6 for full details of the game and Page 8 for details on the Friday night home debut against Junction.

## Martinez Wins Football Contest

A rash of upsets weeded out competitors in a hurry in the first week of the Devil's River News Football Contest, and John David Martinez and Mrs. A.C. Elliott were the only two entries to miss only five games.

Martinez took the \$20 first place prize on the basis of the tie breaker

while Mrs. Elliott took \$10 for her second place effort.

The tie breaker also gave Randy Hutchins the third place \$5 prize as he was the closest to the actual score of the Ozona-Sonora game of those that missed seven games.

Others missing only seven games were Juan Mendoza, Maria Arredondo, W.A. McAndrew, Quade Sutton,

Virgil Polocok, Frances West, Jr. Martinez, Nina Martinez, Ray Gallagher and Hazel McClelland.

Numerous entries had 12 or more prediction missed. Games most often missed were Pittsburgh over Houston, Minnesota over Atlanta, Baltimore over NY Jets, Green Bay over Chicago, Detroit over Los Angeles and Buffalo over Miami.

## Massive Spending Program Gives Needed Update To Hospital Facilities

Hospital Administrator Dennis Robertson, Dr. David Owensby and ambulance attendants Pat Campbell and Thomas Atkins look over the new defibrillator recently purchased by the hospital. The hospital has undergone a large spending program to update equipment and will soon have a new x-ray machine and analyzer.

A spending program of almost \$170,000 to update equipment at Hudspeth Memorial Hospital will soon have Sonora's lab and x-ray departments with some of the finest equipment possible.

A new Datascope difibrillator along with an automatic x-ray processor has already arrived and a complete new x-ray machine and a Dupont ACA clinical analyzer are expected to be operational by the first of October.

The defibrillator which includes a heart monitor is completely portable and weighs only 28 pounds, a big

improvement for mobility over the old 65-pound unit, according to hospital administrator Dennis Robertson.

The unit cost \$6,500 and has many advantages over the old unit, including a jack that can be tied in on mobile transmission from the ambulance to the lab to give and EKG reading.

The defibrillator also gives the hospital staff a backup with the old unit when the new one will be needed for an ambulance run.

The new Picker x-ray machine is expected to be ready by Oct. 1 and all equipment in the x-ray room will be replaced. Cost of the equipment is \$80,000.

The automatic processor for the

x-ray film is already in use and process the film in 2 and one-half minutes, a substantial time savings over the old system.

Robertson appears the happiest over the new analyzer for the lab that should be ready next month also. Purchased at a cost of \$77,166, the machine has a built-in computer with the capability of performing 60 different tests.

Robertson said the machine would be invaluable to doctors since many lab tests that are now being sent off, with a waiting time of one to two weeks can now be processed in the lab within an hour.

The administrator also said Menard and Rocksprings had ex-

pressed an interest in sending their lab work here when the analyzer is installed and a letter will be sent to the area hospitals making the service available.

Other improvements made recently include all new furniture for patient rooms, including electric beds, a new 20 KW generator for emergency power, a Burroughs B-80 computer and a \$100,000 sprinkler systems and smoke detectors, making the building virtually fireproof.

"We are trying to improve our care and the quality of our care," Robertson said. "We want to give the citizens of Sutton County the best possible health care and to continue to improve all along."

## Cancer Society

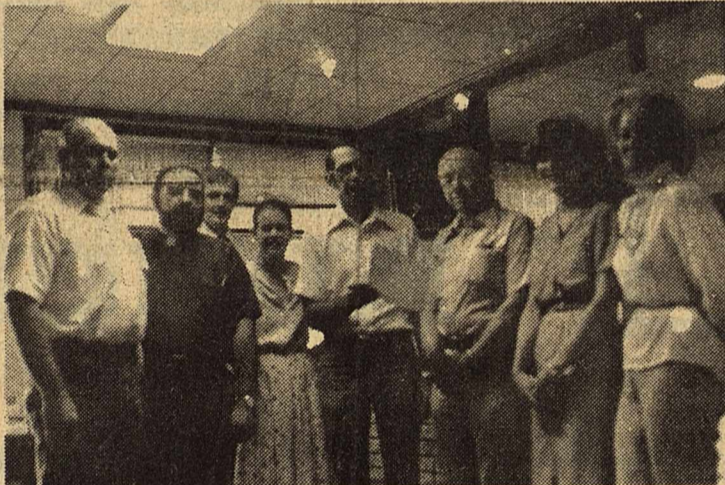

### Schedules

### First Meeting

The Sutton County Chapter of the American Cancer Society will hold its first meeting of the year Thursday in the Founders Room of The First National Bank at 4 p.m.

Dr. Charles Browne will give an update on cancer treatment at the meeting and plans for the coming year will be discussed.

Mary Barrow, local chairman, said the meeting will be as brief as possible and is open to the public.

Chamber of Commerce President Glenn Fisher presents George Wallace with a letter naming him as Citizen of the Month for August. Others looking on during the presentation are (left to right) Mayor Bill Gosney, Rev. Jim Miles, Gary Pair, Christi St. Clair, Fisher, Wallace, Ruthie Bounds and Chamber Manager Lou Thomas.

## Wallace Named Citizen Of The Month

President Glen Fisher announced this week that George Wallace was elected as the August Citizen-of-the-Month in the recent board meeting of the Chamber of Commerce.

George and wife Martha reside at 315 Edgemont Street. He and Martha were married in Greenville, Texas in June, 1951 and are the parents of four children: Joe, of Hereford; David, of Houston; and Jane Doyle and Drew, of Sonora. They have three grandchildren:

Clay, age 6, Jodi, age 4 and Christie, age 2.

George is 55 years old and was born and reared in Sonora.

He has been a 4-H Leader, served on the school board, a Past President of Lions Club, Youth Leadership Leader in the Methodist Church, a Chamber of Commerce Board Member, Little League Coach, Cubmaster (Boy Scouts), and a Bronco Booster. George served as vice president of the Band Boosters Club, as Chair-

man on the Board of the Methodist Church, a member of San Angelo Chapter of Gideons and was the State 4-H Father one year.

"George has contributed many years of his time and money toward the betterment of Sonora and we're happy to have him represented as the August Citizen-of-the-Month", commented Fisher.

Congratulations, George, from the Chamber of Commerce and citizens of Sonora!

## County Vows Close Scrutiny Of 1981 Spending Projects

Sutton County Commissioners Monday gave final approval to their 1981 budget, vowing to cut anywhere they could and to look closely at all spending programs in the coming year.

Precinct 4 Commissioner Juan Gonzales suggested the \$120,000 budgeted for materials in the Road and Bridge Department be cut to \$70,000, allowing for two miles of paving in each precinct and one mile of sealcoat work in Loma Alta.

The Commissioners verbally agreed this might be a good place to make a budget cut, but decided to adopt the portion of the budget as is. They did decide to personally look at all paving programs for the next year before appropriating funds and set Sept. 22 as a tentative date to discuss the priority projects.

The Commissioners Court also went into a short executive session with Sheriff Bill Webster to discuss an investigation into unauthorized use of County equipment.

The investigation stems from an incident at the recent large grass fire when a piece of County equipment, taken to help fight the blaze, was

used by non-county employees and received considerable damage.

After coming out of the executive session, County Judge Charles Sherrill said no formal action would be taken over the case, but said the Commissioners wish to reaffirm their policy that County equipment is to be used only by authorized personnel and that any unauthorized use in the future will result in prosecution.

In other action during the meeting, the Court, acting on the recom-

## Pair Elected Treasurer By Chamber Of Commerce

The Sonora Chamber of Commerce Board of Directors elected Gary Pair as Treasurer in their monthly meeting held September 3.

Pair succeeds Kenneth Land, who has moved to Ganado.

In other board action, the directors voted to combine the city/county map, the colored brochure and the hunting map into one printing, saving time and money in the process.

Plans are to have the one piece (two-sided) printing in color, if cost is not prohibitive.

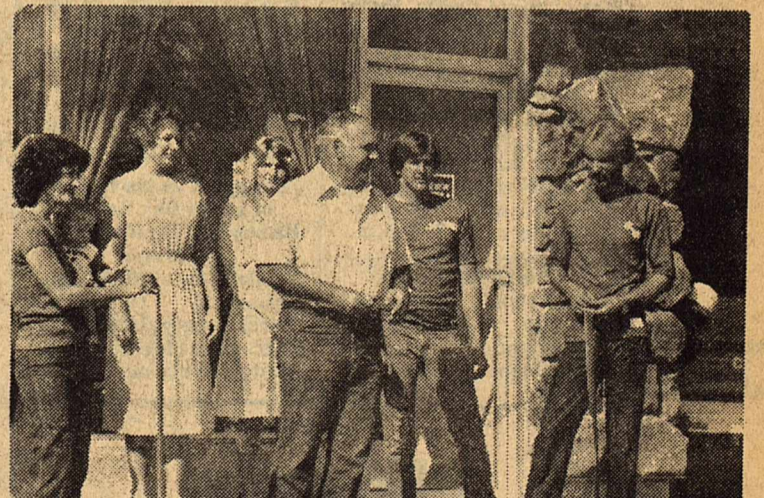

Local advertising will be solicited for the printing and the three-in-one will triple the advertising dollar, as each printing will be an automatic

mail-out for inquirers and for local businesses to hand out to visitors.

Directors attending were Glen Fisher, Effie Harle, Ruthie Bounds, Gary Pair, Reverend Jim Miles, Don Holdridge, and manager Lou Thomas.

Directors set a tentative date for the annual banquet: April 9, 1981. Effie Harle will head the Decorating Committee and Ruthie Bounds will chair the Food Committee.

Directors accepted a proposal from Bill Watkins, manager, Television Enterprises, Inc. to assemble a 12 minute video tape on Sonora. Watkins will donate his services to complete the package.

Owners Glenn and Rhonda Whittington watch the ribbon fall after Mayor Bill Gosney cuts it at the grand opening of the Auto Shop last Thursday. The recently opened auto repair shop was aided with its open house by members of the Chamber of Commerce Red Carpet Committee. Also looking on is employee James Edmonson.

## Minister Speaks by John Waldron St Ann's Church

In the gospel of Luke Jesus Christ noticed how the guests at a wedding were trying to get the places of honor at the table. Jesus advised the people that each should take the lowest place at the table so that when the host approaches, he will raise that person to a higher place. Jesus Christ reminded us frequently of the pride that exists within us. He Himself was and is the Lord of Lords, the King of Kings, the Beginning of the End, yet He became a servant of all, the slave for the human race.

Pride destroys so much of the good we human beings perform. So often we live in competition with others and have feelings of such superiority within us. Jesus warned us never to compare ourselves with anyone else, to consider our worth but not how important we think we are.

Whoever exalts himself shall be humbled and he who humbles himself shall be exalted.

In a practical way Jesus teaches us to be kinder to the poor, the beggars, the crippled, the lame, and the blind than to our families and friends. The less fortunate that any of us cannot repay us; only the Lord can. Jesus Christ spoke to the very heart of mankind. He knows and knew the desires of mankind; He gave us the example of the cross and all the humiliation that accompanied the cross. Jesus Christ asks us to give up our way of thinking, our way of acting and follow His teaching.

Paul writes to us that who can boast of anything he has done that has not in reality been given to him by God himself. No man can boast before the Lord. Today we need to approach the Lord in such humility, for we need His mercy.

## Community Outlook

By Don Holdridge

It never fails to amaze me how many different viewpoints there can be on a single subject.

One particular item that prospective home buyers and businessmen have been keeping an eye on is the lending institution interest rates that have been up and down so much under the Carter administration.

At least one major economist has predicted high interest rates are here to stay and we might as well get used to it. He said interest rates would hit 20 percent again—or even higher.

The other economist said that interest rates would rise slightly after the Democratic Convention, which they did. Then in October, right before the election, they would drop again—for good.

According to his theory Reagan will leave the interest rates down if elected and Carter will be forced to if he is elected to keep any pull at all with Congress.

One aspect that wasn't mentioned was the two month period that Carter would be a lame duck president if not elected.

I guess how bad or how good things are just depends on who you listen to. And sometimes when you listen to them is important.

A case of the same thing was pointed up recently in an entirely different area—high school football.

Two Sundays ago, all the daily papers in Texas came out with their area roundups and most included polls of the coaches in each district of their favorites to win the league.

Of three different papers that cover teams in District 8-AAA, the "supposed" poll of the coaches came up with three different predictions.

The Brownwood Bulletin had Comanche picked as the favorite, the San Angelo Standard-Times picked Sonora while the Abilene Reporter-News called it a three-way tie between Sonora, Comanche and Brady.

What this probably means is that the district race is anything but a cinch. What it also means is that whoever took the Abilene poll ought to think about getting out of sports writing and entering politics.

## Mayor's Proclamation

WHEREAS, Cystic Fibrosis, the number one genetic killer of children, is a crippling and debilitating lung disease, and

# Tri-Cities Desk & Derrick Club

by Frances Dodd

Martha Sublett of Leonard Hudson Drilling Co. Inc. of Pampa attended the September 2 meeting of the newly organized Tri-Cities Desk and Derrick Club of Sonora, Eldorado and Ozona to present the club with their certificate of membership.

Sublett is the Region V director of the Association of Desk and Derrick Club. Region V is comprised of 19 clubs in the northern and western section of Texas, New Mexico and Arizona.

Mrs. Sublett has been an active member of the Association of Desk and Derrick Clubs for seven years and has served her local club in Pampa as president, vice president, secretary and chairman of the Ways and Means Committee, House Committee, Field Trip

Committee and Industry Appreciation Night.

She has also served on regional and association levels where she is currently a member of the board of directors.

During her speech, she said, "I have yet to meet an employer who has not been in favor of this organization for the women in their employ. Most that I know will tell you that their employees are more knowledgeable and better qualified employees after they have been a member of Desk and Derrick".

Martha was accompan-

ied by her husband, Norman, who is employed by Ingersol-Rand. Doris Odum and Norma Briden, fellow club members from Pampa, helped Mrs. Sublett with her program.

Mrs. Odum called up each of the officers and read a list of their duties. Mrs. Briden pointed out each of the regions that make up the association. Jay Straubb served as both pilot and photographer.

We're really proud to be one of the newest chapters of the Association of Desk and Derrick Clubs.

## Chamber Chatter

by Lou Thomas

Thanks to Dolores Hodges, Red Carpet Committee member for helping address envelopes in a mail-out to Chamber of Commerce members.

All C of C members are urged to either mail or bring by the C of C office their suggestions for a Program of Work, to be used as a guideline for the goal-setting process slated to be undertaken at the regular monthly meeting of the Board of Directors on October 1st.

Sarah Kinkle of Atlanta, with Cable Network News (Channel 3) called Tuesday to apologize for not having the "Salute Sonora" on the Take Two Show, but it seems they did not receive the video tape in time, but will call TV Enterprises, Inc. or the Chamber of Commerce whenever they receive the tape and tell us what day the salute will be on.

Localities filmed by Bill Watkins are: Christie St. Clair, Beth Bartz, Robert Brown, Ken Rosford, Jim Dover, Charles Sherrill, Michael Hale, Jack Kerbow, Shelley Chaney, Reverend Jim Miles, Gary Pair, Dr. Joe Andrews, Mayor Bill Gosney, Bill Webster, Glen Fisher and Jimmy Cade.

Ken Rosford was the bidder for Mayor Bill Gosney at the Slave Auction during Sutton County Days, instead of Jim Walker. Thanks for the support, Ken.

September Tourist Talk read that 3,928,000 dele-

gates from convention and business meetings spent \$800 million last year in Texas. Every five years the International Association of Convention & Visitors Bureaus make a comprehensive study of delegate expenditures.

The survey, made in 1979, showed that the average delegate spends \$254 in a city. Breakdown: Lodging: \$97.78, Hotel restaurants: \$40.24, Retail stores: \$27.73, Night Clubs: \$9.36, Sightseeing: \$3.05, Local transportation: \$12.27, Gas-auto service: \$3.27 and Other: \$14.50.

Shelley Chaney announced new committee appointments for the Red Carpet Committee this week: Telephone: Chairman: Olivia Hernandez; Members: Judy Webster, Dolores Hodges, Lori Shuler and Virginia Weatherford; Newcomer's Coffee: Vickie Collier and Clerical: Dolores Hodges.

EARLY TOOTH OVERCROWDING  
By Lonnie M. Pollard, D.D.S.

When should crooked teeth be straightened? As soon as they're detected! The old adage about an ounce of protection is especially true in orthodontics, where crooked teeth can be prevented by early treatment.

Diagnosed at a sufficiently early age, an unusual trend can often be stopped in its tracks and its effects completely erased. To ensure early detection, a child should have a checkup by the family dentist at intervals of about six months, beginning at two and one half to three years of age. Overcrowded and crooked teeth are most likely to make their entrance with the arrival of the four permanent incisors and the four permanent molars at around age six.

Prompt treatment is recommended when teeth are overcrowded. Some baby teeth may be removed ahead of their normal shedding time to allow nature to do a certain amount of tooth straightening. Known as interceptive orthodontics, it involves a one-by-one extraction in a well-planned sequence to make room for a better bite.

## TS&GRA INDUSTRY NEWS

The Texas Sheep and Goat Raisers' Assn. wants to help you bring your ranch road into the twentieth century. Yes, that rough, rutted atrocity that ate the oilpan off your wife's car and turned your new pickup into a sprung-spring jalopy before you ever got the ashtray full. The same road your favorite livestock hauler refused to ever travel again—right after he got the bill for six new truck tires.

Now don't get defensive. We realize you can't afford the kind of high-dollar, high-powered equipment it takes to maintain a road. And we also realize many of you can't find a dirt contractor to do it for you, what with the oil activity going on today and the big bucks the better of these fellows can make maintaining their roads. We're fully aware, in fact, that some of you live in counties where there's no dirt contractor, period.

So how can TS&GRA help? The same way you can help yourself—by urging everyone in Texas to vote "yes" to Amendment No. 7 on the general election ballot Nov. 4. That amendment would change the Texas Constitution to allow certain less-populous counties to do private roadwork with county crews and equipment—for pay, of course.

As things stand, it is generally illegal for counties to work on private roads. Some have done it, but they're operating under authority of maybe-shaky laws that have never been tested in court.

The Constitution, in fact, contains several well-intentioned provisions prohibiting use of tax money or public property for private purposes. We can all see have never been tested in court.

Remember comedian Jerry Clower's story about attending a Texas Tech football game and every time they scored, a cannon went off? This was immediately followed by a mounted mask rider, in black hat and cape, "who shot out and...boogie, boogie, boogie in a fast lope would make the perimeter of the football field."

Traditional as it may be at the Lubbock located university football games, to Clower the scene "was like something you ain't never seen before!"

Well, in Brady the other day, I relived some of those moments while talking with the former Red Raider rider and keeper of the horse. Kim King is now a banker... the agriculture representative of Brady National Bank.

"He is not only turning out to be a top banker, but is the best public relations man this bank has ever had," commented bank president John Chism. "We are thrilled to death that he is on our staff. Kim is good for morale, as well...we just don't have those Monday morning blues around here anymore when he's here."

King's father, Steve, is a veterinarian in Brady. So, the King family is the ranchmen's friends.

Well, after I left Brady I was buzzing down a country road approaching Katelyn. I thought about Stella Gipson Polk. "Why, I'll just go by the 'homeplace' and have a cup of coffee with her, 'telling myself, 'we just never take time to visit in this fast paced world anymore.'"

Stella's brother, the late author Fred Gipson, and I were friends. We used to sit on the deck outside Fred's dream home overlooking the Llano River from its perch atop the hill, sipping scotch and talking about writing.

Stella was a regular feature writer for my publications during my heyday as a magazine editor. I have some beautiful memories with the Gipson family, dating back 25 years or more.

One cold wintery afternoon I drove over to Mason from my ranch in neighboring Kimble County. It was a few days after Christmas

and her husband, Jack, have lived for over 50 years of their lives, we had a very good trip down memory lane. So many times we have revisited the past in that den by the fire when Jack was living...his tales of roping mavericks in the granite hills, and a hundred other stories after the Mason County Wars.

Well, in reality this was just a day with Country Folk, but in the enjoyment of it all we journeyed over a quarter of a century.

The Gipson magic continues to warm the hearts of thousands today. Fred's dozens or so books are available in bookstores across the nation, and in many foreign lands in other languages.

Stella, in turn, continues to spend most of her time writing. Her regional books from Mason County history to the "Country School Days" and Indian fights of the frontier Hill Country are published first in True West and Frontier Times magazines before book form.

There are opponents, of course. Some town folks can't shake the suspicion that private landowners are somehow "getting to them, for instance. Never mind that the bill's wording requires pay for private work. Never mind, either, that in some rural counties, country folks' taxes go to pave their town cousins' streets, genuinely an inequitable situation.

Other opponents claim competition from county crews could harm private contractors. If so, the measure's supporters ask, where the heck are those private contractors when you need a road graded? Further, the 5000-population limitation targets the measure toward counties which are less likely to have contractors, or at least unlikely to have enough to go around. Besides, the amendment would only allow counties to do private work—it wouldn't force them to.

There are also those who fear the county officials may use the road work business to "play favorites" with friends or reward political supporters with "cheap" charges for road work. Unfortunately for this argument, all charges would be a matter of public record, open to scrutiny by anyone who suspects anything. County officials will undoubtedly have this thought in mind every time they total a bill.

So to summarize, TS&GRA believes HJR 121—Amendment No. 7 on the ballot—is an idea whose time has come. It's a potential boon for many county treasuries, and a necessity for many landowners. We plan to vote "yes", and we hope you will, too.

# Sporting Chance

By Don Holdridge

After having such a miserable week picking last time around, I won't even bother with telling anybody how I did.

I'll just wait until next week and average the two weeks together, then if this week's prognostications aren't any better, I'll forget this whole idea altogether.

### Junction at Sonora

Eagle Coach Lynn Spivey keeps losing 20 seniors every year, but keeps coming up with a winner. This year shouldn't be much different. But after losing to Junction last year, the Broncos have something to prove. Sonora 20-13.

### Iraan at Eldorado

The Braves have dropped a division, but still had enough to push tough McCamey to the limit last week. If they can stop the Eagle passing, or at least slow it down, they can win. Iraan 34-28.

### Wylie at Ballinger

Wylie has been strong in the past, but being short on experience this year may set the mood for a Bearcat upset. Ballinger 14-13.

### Brady at Llano

This is always a close game, but the home field is usually the difference. Llano 21-20.

### Coleman at Rotan

The Bluecats lost everything last year, including quarterback Reggie Childress who opted to concentrate on basketball this season. Rotan is loaded. Rotan 35-8.

### DeLeon at Comanche

I'm probably prejudiced on this one, but the Bearcats are looking for a return to their form of the 1970's and this could be their year to win the county championship back from the Indians. DeLeon 15-14.

### Rice at Clemson

The Tigers have come on strong the past few years and don't give a hoot about the Owls. Clemson 38-13.

### Texas A&M at Georgia

The Aggies have to be at least slight favorites in this one. There's just too much speed. A&M 24-21.

### Auburn at TCU

The Horned Frogs keep improving every year, and Auburn has slipped some—but not that much. Auburn 20-17.

### Baylor at Lamar

Lamar has proved to be a Southland Conference bully, but they're not mean enough to intimidate Mike Singletary. Baylor 17-6.

### Houston at Arizona State

The Cougars are strictly high octane, while departmental problems may result in an energy shortage for their opponents. Houston 31-10.

### North Texas at SMU

In this ongoing soap opera, can Mustang Mania keep the Ponies high in the ratings? Can Mike Ford come back to be All-World? Can Eric Dickerson and Craig James come back from being the world's biggest freshman flops? You bet! SMU 42-21.

### North Carolina at Texas Tech

The Red Raiders defense, kicking game and quarterback Ron Reeves should be enough to keep them in any contest they play all year. Tech 10-7.

### Dallas at Denver

The Cowboys should enjoy the cooler weather for a change. Dallas 17-13.

### Houston at Cleveland

The Oilers always seem to shine in the spotlight of Monday Night contests. Houston 27-21.

### Los Angeles at Tampa Bay

The Ram holdouts are back, but they'll still be behind. Look for a defensive battle. Tampa Bay 7-3.

### Washington at New York Giants

Upset of the week. The Giants always seem to get up for the Redskin tussle. And the Big Apple team is always capable of being better than its record indicates. New York 16-13.

### Philadelphia at Minnesota

The Eagles may be the class of the NFC East, while the old king of the Black and Blue division is really black and blue. Philadelphia 24-10.

### New York Jets at Buffalo

This week's fireworks display. And its not even the 4th of July. New York 45-37.

### Atlanta at New England

Massacre of the week. New England 42-17.

# Broncos Humble Lions In Opener, 30-0

A referee signals a touch-down after quarterback David Creek, hidden somewhere in the pile, sneaks over from the one. Aiding the blocking effort are Mark Doan [81], Mike Villanueva [61], Ben Ingham [50] and Ervey Vallejo [85]. At left, John Blankenship holds for the following extra point as Creek boots it through. Creek figured in all the scoring except for one touchdown as he passed for two TD's, ran for another, kicked two extra points and passed for another.

Sonora	Ozona
17	1st Downs 2
53-185	Rushes-Yds. 23-21
138	Passing Yds. 63
9-12-1	Passing 2-7-2
2-36.0	Punts-Avg. 3-33.3
4-3	Fumbles-Lost 3-3
7-80	Penalties-Yds. 3-25

It was really hard to tell whether Sonora made Ozona look that bad, or Ozona made Sonora look that good, but never-the-less, the Broncos emerged with a 30-0 embarrassment of the Lions in the season opener for both teams.

The game was never a contest as the Broncos rudely held their host to only two first downs and 84 yards total offense, while rolling up 185 yards rushing and 138 passing in dominating every phase of the game.

The Bronco defense went to work on the Lions early, forcing three fumbles and a safety on Ozona's first five possessions.

And while the defenders were taking their toll, the offense used the rushing of fullback Rex Surber and the passing of quarterback David Creek to roll up the points.

Surber ran for 67 yards and a touchdown on 16 carries, while Creek connected on nine of 12 passes for 138 yards and two TD's.

The depth in Sonora's backfield also showed up as each of the 11 backs handled the ball at least once.

Sonora jumped to a quick lead as Ernie Borrego coughed up the ball on the

first play of the game on the Ozona 33.

Ten plays later, Surber bulled over from inches away to light the scoreboard.

The Broncos then faked the point after kick, and Creek passed to Surber all alone for the two-point PAT and 8-0 lead four minutes into the contest.

It took three plays on Ozona's next series before Borrego lost the ball again as an alert Bronco defense recovered on the Lion 27.

A play-action pass completely fooled the Ozona secondary, and Creek hit a wide open Allen Stewart with a scoring strike for the Bronco's second touchdown in 50 second.

Creek booted the extra point this time for a 15-0 margin.

Ozona appeared to have its act together on its next possession as Kim Tambunga ripped off nine yards on first down, but Felix Flores was nailed for a six-yard loss on the next play.

And on third, down, the Sonora pass rush that sacked quarterback Varlyn Aldridge seven times on the night for 36 yards in losses forced another incompletion and a punt on the next play.

The Broncos took over on their own 43 and moved to the Lion 27 before Flores stepped in front of a Creek pass at the one-yard line to squelch the drive.

But disaster struck

Ozona again two plays later as Wesley Barton pounced on a ball separated from Aldo Delgado just seven yards from the goal line.

The Bronco offense got a rare case of the sputters, and after finally moving down to the two, a fourth down pass intended for Mark Doan missed the mark.

The defense took the initiative however as Charlie Carroll and Ervey Vallejo crashed in on Tambunga in the endzone three plays later for a safety and a 17-0 Sonora edge.

Johnny Doan returned the free kick to the 49, only to see a clipping penalty move the ball back to the 34-yard line.

The Broncos then marched 66 yards in 16 plays with Creek going over from the one with 3:17 remaining in the half.

Key plays in the drive were passes of 10 and 13 yards from Creek to Vallejo, a 22-yard aerial to Stewart and a 13-yard gallop by Surber.

Creek's PAT kick gave Sonora a 24-0 lead at the half.

An offensive pass interference penalty and a fumble stopped the first two Bronco drives of the second half, but David Buitron picked off an Aldridge pass at Ozona 32 to set up the Bronco's final score.

Creek hit a wide open Doan coming out of the backfield on the next play for the final tally.

Creek's kick was wide left, but the score stood at 30-0 with 2:41 remaining in the third period.

Ozona mustered its only threat of the night on the next series as Aldridge hit Delgado in a seam of the Sonora secondary and the speedy senior raced to the Sonora 26.

The completion, coming with 1:45 left in the third stanza, was the Lions first of the game. The second and final one came three plays later as Flores made a juggling catch at a tipped pass on the last play of the quarter.

Ozona finally reached the Sonora 11 before turning the ball over on downs.

Sonora's next series stalled, forcing the Broncos to punt, and fumbles stopped the only other drives of the quarter.

Aldridge spent most of the final period on the ground as he was sacked four times by a Red and White swarm led by Barton, Surber, David Sanchez, Rodney Oliver and Robert Ponsetti.

All the members of District 8-AAA flexed their muscles Friday night as the league teams all emerged unscathed.

In games involving other

teams around the district, Comanche nipped Class AAAA Granbury, 6-0; Ballinger edged county rival Winters, 15-12; Brady surprisingly pounded Junction, 33-7; and Coleman eased by Early, 18-6.

## Freshmen Edge Ozona, 9-8

The Sonora 9th grade football team traveled to Ozona Saturday to start their new season, and came away with a hard fought 9-8 victory over the Lions.

It was a tough game with the outcome up for grabs until the very end.

The Broncos had several chances to score, but stopped themselves by mistakes and fumbles.

The bright spot was the defense which allowed Ozona past the 50-yard line only once.

That one time was a 65-yard touchdown pass

from Lion quarterback Kent Hokit to end Roger Flores.

Meanwhile the Broncos had five scoring opportunities inside the Lion 15-yard line.

With the score 6-0 Ozona linebacker Ronnie Pollard blocked a Lion punt, and after a Bronco fumble, dropped Hokit in the end zone for a safety.

The Broncos finally scored with 2:30 left in the game on an 18-yard run by fullback Tino Martinez. Martinez carried 30 times for 130 yards and also kicked the PAT, giving Sonora a 9-6 lead.

The Lions other points came in the final seconds of the game when quarterback Jeff Brittain intentionally stepped out of the back of the endzone on fourth down to get a free kick, giving Ozona a safety, instead of

risking a possible blocked punt.

After the free kick, Brittain intercepted a Lion pass and the Broncos ran out the clock.

For the game, the Broncos rushed for 210 yards and were two of six for 34 yards in the passing department.

The Broncos defense got interceptions from Tony Garza, Drew Wallace and Brittain as well as recovering two Ozona fumbles. The Broncos' next game will be Thursday in Junction at 5 p.m.

## Jv Battles Ozona To Scoreless Tie

The Sonora junior varsity team found itself in the middle of a defensive football game Saturday, emerging with a 0-0 tie.

Coach Roy Evans commented the team moved the ball well between the 20's, but couldn't get over the goal line. The offense fumbled once on the five-yard line and penalties

stopped several other scoring threats.

Evans singled out Clay Friess on defense and David Nadrachal on offense as having good games.

The JV will travel to Junction Thursday night, playing immediately after the freshman game, probably around 6:30 p.m.

# Meet The 1980 Sonora Broncos

Wesley Barton is a 17-year old senior in his third year on the varsity. The 6-1, 225-pound tackle has no other sports. He is the son of Frank and Sheri Barton and has lived in Sonora nine years.

Robert Noriega is a 5-4, 135-pound split end for the Broncos. This is his first year on the varsity for the 17-year old senior, and he is a member of the track team and band. The son of Mr. and Mrs. Alex Noriega, he is a native of Sonora.

The son of Walter and Dorothy Pope, Cades Pope is a 17-year old senior who has lettered three years. The 6-2, 156-pound center and linebacker is also a member of the track team.

Ervey Vallejo is a 17-year old senior split end for Broncos. The 5-6, 138 pounder has lettered one year and football is his only sport. He is a native of Sonora and the son of Mr. and Mrs. Luis Vallejo.

## From The Offices Of Lloyd Bentsen United State Senator

Oil has long been known as the world's "black gold". But lately, small royalty owners probably have been thinking that oil is "fool's gold."

Last month, I traveled to Austin to preside over a Senate Finance Committee hearing on the impact of the so-called "windfall profit" tax, which is in reality

an excise tax on oil production. This tax hits the pocketbooks of millions of individual royalty owners—as many as 650,000 of them in Texas—who hold title to an average of less than five barrels a day of crude production.

Not even a searing heat wave could deter more than 3,500 citizens from coming

to the hearing to protest what they consider an oppressive, unjust tax.

One by one, they came before the committee to tell how the "windfall" tax was strapping them financially. For many, the tax means the difference between financial independence and dependence on their families or on government assistance.

These witnesses were furious—and I believe they had every right to be.

I was just as disturbed when Congress was debating the so-called "windfall profit" tax. I fought then against strapping this inequitable burden on the backs of hard-pressed small royalty owners.

Among those testifying at the Austin hearing were elderly people who rely on their oil payments as a major source of income. A 78-year-old woman from Houston said the tax meant she would be unable to cope with rising medical and daily living costs. "The government robs Peter to pay Paul; I am Peter," she insisted with conviction about the tax.

Her protest voiced the sense of despair that has surfaced in so many letters that I have received from elderly retirees. A 78-year-old man from Wichita Falls wrote me that he has "never drawn any unemployment compensation, relief or food stamps," but after his May royalty check was cut \$70.96 by the "windfall" tax, to \$136.33 he warns he "may get close".

Letters also came from working people. A man, describing himself as "a blue-collar worker," wrote that he received a royalty check of \$6.12 for one month, after \$2.41 had been withheld for the "windfall profit" tax.

There were also plenty of farmers and ranchers on hand, who won't be able to stay on their farms and ranches without royalty income. "There is no windfall profit in small royalty ownership," said a leader of the Texas Wheat Producers Association. This simply-put phrase aptly summed up the frustrations of thousands of Texas farmers who feel that something besides the drought has been burning them recently.

Farmers and ranchers have to let good cropland go fallow or forfeit good pasture to allow drillers to come in and search for oil.

But they have been willing to take the risk because if oil is found, the royalty payments will help finance new plantings or meet their mortgage payments.

Since only a fraction of the proceeds goes back to the farmer if oil is found, and with the "windfall" tax reducing that fraction by another third or more, can anyone doubt that farmers will think twice before allowing drilling on their land?

The Senate has approved legislation which I co-sponsored that would provide some relief to small royalty owners. My amendment to the Crude Oil Windfall Profit Tax Act of 1980 would permit royalty owners, when they file their annual income tax returns, to apply for a "windfall profit" tax refund of up to \$1,000.

This change will give some help, but the millions of royalty owners in this country will still be paying billions of dollars under the "windfall profit" tax.

There is more to be done. Right now, I am working for passage of comprehensive legislation that would further ease the "windfall" tax burden on small royalty owners. Testimony received at our Senate hearing in Austin will provide needed ammunition in this fight.

Citizens from states that don't produce oil have applauded the "windfall" tax as a "populist" measure. After hearing from these 3,500 people in Austin, I think our neighbors in those states need to rethink their definition of the term "populism".

### 52 Gas Discoveries Reported

Texas operators reported 52 gas and 25 oil discoveries during the August 16-31, 1980, period, the Railroad Commission's Oil and Gas Division announced today.

In the year earlier period, 26 gas and 18 oil discoveries were filed with the state's energy regulatory agency.

Through the first eight months of 1980, operators have reported 966 gas and 486 oil discoveries, against 832 gas and 315 oil discoveries in the year-earlier period. Successful exploratory and field completions in the eight months of 1980 total 8,069 oil and 3,712 gas, against 5,369 oil and 3,693 gas completions in the same period last year.

Gas discoveries in the last half of August included 11 in the Refugio area, ten each in Southeast Texas and deep South Texas, seven in West Central Texas, six each in East Texas and the San Angelo area and two in the San Antonio area.

Oil discoveries included five in deep South Texas, four in North Texas and Southeast Texas, three each in West Central Texas and the San Angelo area and two each in the San Antonio, Lubbock and Panhandle areas.

In the August 16-31 period, operators reported 189 exploratory and field test wound up as dry holes.

## The Department Of Energy & How It Spends Your Money

The Permian Basin Petroleum Association has criticized the Department of Energy almost since the time it was created. The following are some examples of the waste, inefficiency and non-productivity we've been talking about.

It was recently disclosed at a Congressional Hearing that 85 percent, or 10 billion, 200 million dollars, of DOE's 12 billion dollar budget is spent on outside consultants—not employed

by the agency. By doing this, DOE is admitting their own 20,000 employees don't know what's going on and they have to rely on outside help. Why not hire people who do know something about the energy business and save the taxpayers 10 billion dollars. What do the 20,000 employees of DOE do? according to 'First Monday' magazine, 10 million dollars worth of the strategic petroleum reserve periodically cannot be accounted for. Three hundred thousand dollars were wasted when DOE destroyed eight million copies of a gasoline mileage guide because they were bound in the wrong covers. According to the DOE Inspector General, 126,000 pieces of mail are lost each year by the Department. By the way, those pieces of mail had the correct names and addresses on them. DOE employees have made personal long distance phone calls costing taxpayers \$500,000. One employee called a "Dial a Dirty Joke" number in St. Louis 42 times in two hours.

Americans have reduced their gasoline consumption by about 8 percent this year. The Federal Government has increased its use of gasoline by 10.7 percent. The Department of Energy needs to be abolished.

The rig count last week was 334. One year ago it was 277.

### Oil, Gas Rules Revisions To Reduce Paperwork

The Railroad Commission has amended three of its oilfield rules pertaining to fresh water sand protection and safety in a move to lessen paperwork and accelerate the handling of operator applications.

The amendments were approved during this week's conference on Oil and Gas Division matters. They vest in the Oil and Gas Division director or his designate the authority to grant exceptions to Statewide Rules 8 (C) (1) (B), 13 and 21.

"With Texas drilling operations at their highest level in more than two decades, the revisions should expedite the processing of producer applications and, in turn, bring more Texas oil and gas on stream more quickly," observed Division Director Bob R. Harris.

Rule 8 is the division's fresh water protection rule. Its amended section now allows the division director or his designate to authorize the use of impervious collecting pits in conjunction with approved salt water disposal operations when evidence supports such action.

As amended Rule 13--the casing rule--allows the director or designate to grant exceptions that permit operators to use the multistage cementing process in securing that surface casing in a well provides protection to fresh water sands. Previously, the authority was held solely by the Commission.

Rule 21 pertains to the placing of operating facilities around a well being drilled or produced in the interest of fire prevention and personnel safety. The amended rule allows the director or designate to grant exceptions when evidence indicates operations and personnel would not be endangered.

Johnny Dean [12] turns the corner on a sweep in Friday's 30-0 victory in Ozona. Leading the blocking are Rex Surber [40], Joe Long-

oria [41] and Mike Villanueva [61]. The Broncos host Junction Friday at 8 p.m. in their home debut.

# Broncos Host Junction Eagles In Sonora Home Opener

Fans who couldn't make the trip to Ozona for the Broncos' season opener last week will have a chance to see the squad here this week as they make their home debut against the Junction Eagles Friday at 8 p.m.

While Sonora was romping over Ozona, 30-0, last week, the Eagles were falling victims to a big play Brady offense, 33-7.

But while it may have been a rough start, Coach Lynn Spivey has established some tradition that will

keep the Eagles strong after winning two consecutive district titles.

The big gun for the Eagles is tailback Bobby Hurley who created a sensation as a sophomore last season. But the runner missed last week's game with a shoulder injury, and his status is in doubt for this week.

The graduation of Johnny Hughes left a big void at quarterback with Carl Field and Ward Broyles battling for the opening. Field

threw a pass for Junction's only touchdown last week.

The Eagles do boast some stars on the team including Stephen Teel (6-3 230) Mark Castillo (6-0 205), David Lacey (6-4 205), and Scott Adams (6-2 200).

Bronco Coach Jerry Hopkins feels Junction's size on the line may cause some problems for his smaller squad, admitting Sonora will have to throw the ball a good bit.

If last week was any indication, the passing game may

be well one of the Broncos' strong points. Quarterback David Creek hit nine of 12 attempts of 138 yards and two touchdowns in the opener. Hopkins said the offense looked pretty good mechanically for the first game, although some mental mistakes came at crucial times.

Hopkins was particularly pleased with the passing of Creek and the pass protection afforded him by offensive line.

He also termed the def-

ense as aggressive, although he said some of the defensive techniques employed may have caught the Lions by surprise.

The squad emerged from the game with no serious injuries, and center-linebacker Cades Pope was to see the doctor today to find out the status on his injured shoulder.

Players having good games according to Hopkins included Creek, Wesley Barton, David Sanchez, Robert Ponsetti and Rex Surber.

**Labor Day: A Reminder that Working is a Fundamental Right**

For millions of Americans all across the country, Labor Day is a time to reflect on one of our most precious freedoms — the freedom to work, and reap the rewards of our labors.

Labor Day is observed each year because it is important to recognize the contributions that American workers have made to our country's social and economic development.

Without workers in America's workplaces, the promise of a continually rising standard of living in this country is an empty promise.

Unfortunately, it is a promise that has recently been shattered for millions of Americans. More workers are now unemployed, and the unemployment rate is higher now, than it has been in the past 3½ years. Unemployment rose at the fastest rate in the history of American labor statistics during the period from March through May of this year.

Moreover, the months ahead do not yet signal a reverse in rising unemployment rates. The deepening recession will continue to throw American workers out of jobs. Estimates are that by the end of the year, as much as 9% of our labor force could be idle.

Creating new jobs depends on the ability of American free enterprise to operate in an environment conducive to investment and expansion. That environment has been hampered for years. Growing government regulation and taxation have cost businesses across the country untold billions that would otherwise have helped to create lasting jobs, the jobs this country will need in the future.

The more government regulates and taxes business, the fewer jobs result, and the lower American productivity drops in relation to other countries. Our goods and services simply become less competitive on world markets.

This is one dimension to the problem. But there is another one that we can understand only in human terms.

When we talk about lost jobs, we are talking about much more than statistics the economists find useful. We are talking about the man or woman no longer able to put groceries on the table. We are talking about not being able to buy new school clothes this fall. We are talking about scrimping and saving to avoid home foreclosures. And we are talking about the loss of self-esteem for someone who has been told by an employer that it is necessary to trim the payroll.

No job means no means of livelihood. This country should not have to go through such periods of economic instability, when millions who could work can't find a job, and millions of others lose the job they have.

The answer is very simple. It involves revitalizing American industries — by cutting back on regulation and the confiscatory taxes that keep our Nation's businessmen spinning their wheels, and our economy buckling under the pressure of rising prices and recession.

Applying these lasting solutions would also create the lasting jobs we so desperately need.

The critical importance of our workforce to America's economic future — and the ways this country can broaden one of its most important rights — the right to work — should be among those considerations highest on America's agenda for the 1980's.

Postponing decisions on the jobs we will need in the 1980's is risking our future. We do that at our peril.

# Bob Whitehead To Serve As One Of SWTJC Student Facilitators

Thirty-eight outstanding Southwest Texas Junior College sophomores from seventeen area cities and towns, convened on the college campus to prepare to serve as student facilitators during the upcoming academic year.

SWTJC counselors select student facilitators, positions of considerable honor at the college, from nominations from the faculty each year. The chosen students are required to teach an eight week orientation class

to incoming freshmen, help with registration and represent the college at various events in the community.

The students arrived on campus at noon Sunday, August 17, and departed at noon on Wednesday. Sunday evening they enjoyed a special patio supper of fajitas in the new Wayne and Evalyn Matthews Student Center, and during their four days on campus, participated in numerous seminars and practice teaching sessions.

Faculty members and administrators who planned and conducted the training sessions included John Allen Davis, Dean of Student Personnel Services; Registrar; Ismael Sosa, Dean of Student Services; Joe Barker, Director of Student Activities and Counselor; Donald Merritt, Counselor; and Ismael Talavera, Director of Student Financial Aids and Counselor.

Most of the students selected as facilitators have

specific plans for their careers. Many intend to continue their education at four year institutions upon leaving SWTJC, while others have chosen to enter various vocational-technical fields, for which they have prepared at SWTJC. Most are also involved in numerous other organizations and activities on campus and in the community.

One of the 1980-81 SWTJC student facilitators was Bob Whitehead of Sonora.

# Cystic Fibrosis Foundation Needs Volunteers Air Force Weather Course

What is the greatest non-monetary gift you can give the help in the fight against an incurable disease? Your Time.

In this year of financial unrest and uncertainty, the Cystic Fibrosis Foundation stresses the value of volunteers who donate their time freely to help in the fight against Cystic Fibrosis.

The 1980 Breath of Life Campaign will be held during National Cystic Fibrosis Week, September 21-27, in the Sonora area, and Chairman Leslie Thorp is asking volunteers to donate their time to fund raising activities.

According to Mrs. Thorp, "A gift of time is especially meaningful to the families who are living each day knowing that for a child

with CF time is running out. Only 50 percent of the children born today with CF can be expected to live past their 19th birthday. By donating time, volunteers are actually helping to buy time for these kids."

In addition to raising desperately needed funds to support research, clinical care and education programs, the Breath of Life Campaign is aimed towards alerting the public to the signs and symptoms of Cystic Fibrosis.

Residents of Sonora who can give time as volunteers to the Breath of Life Campaign are urged to contact Leslie Thorp at 387-2476.

# Linus R. Martinez Graduates From U.S. Air Force Weather Course

Senior Airman Linus R. Martinez, son of Mr. and Mrs. Antonio B. Martinez of Sonora, Texas, has graduated from the U.S. Air Force weather specialist course at Chanute Air Force Base, Ill.

Graduates of the course learned to use weather information gathering

equipment and to disseminate the information to using agencies.

They also earned credits toward an associate degree in applied science through the Community College of the Air Force.

Airman Martinez will now serve at Dyess Air Force Base, Texas.

### PUBLIC NOTICE

BRIEF EXPLANATORY STATEMENTS OF PROPOSED CONSTITUTIONAL AMENDMENTS GENERAL ELECTION NOVEMBER 4, 1980

#### PROPOSITION NO. 1 ON THE BALLOT

Senate Joint Resolution 35 proposes a constitutional amendment that would authorize the Legislature to permit banks to establish and operate unmanned teller machines within the county or city where the banks are located and to share the use of teller machines on a basis consistent with anti-trust laws, if it finds such operation will serve the convenience of the public. The Legislature has already passed enabling legislation (H.B. 1510) for this proposed amendment. The proposed amendment will appear on the ballot as follows:

"The constitutional amendment permitting the legislature to authorize banks to use unmanned teller machines within the county or the city of their domicile on a shared basis to serve the public convenience."

#### PROPOSITION NO. 2 ON THE BALLOT

House Joint Resolution 97 proposes a constitutional amendment that would grant the State and the accused the right to an interlocutory appeal from the following trial court rulings in criminal cases: pretrial rulings on the constitutionality of a statute; on a motion to quash, dismiss, or set aside an indictment; and on a motion to suppress evidence. The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing appeal of certain pretrial rulings of a trial court in a criminal case by either the state or the accused."

#### PROPOSITION NO. 3 ON THE BALLOT

House Joint Resolution 98 proposes a constitutional amendment that would require a single appraisal of all property subject to ad valorem taxation and would provide for a single board of equalization within each county. The con-

stitutional requirement that the county commissioners court sit as a board of equalization would be eliminated, and elected officials of the county or governing body of the taxing unit would be prohibited from serving as members of the board of equalization. The proposed amendment will appear on the ballot as follows:

"The constitutional amendment requiring a single appraisal and a single board of equalization within each county for ad valorem tax purposes."

#### PROPOSITION NO. 4 ON THE BALLOT

Senate Joint Resolution 18 proposes a constitutional amendment that would allow the Legislature to authorize the conduct of bingo games by certain specified groups for charitable purposes, subject to the limitations that operation of the games must be approved in local option elections and that all proceeds must be spent in Texas. The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to authorize bingo games on a local option election basis if the games are conducted by a church, synagogue, religious society, volunteer fire department, nonprofit veterans organization, fraternal organization, or nonprofit organization supporting medical research or treatment programs and if the proceeds are to be spent in Texas for charitable purposes of the organizations."

#### PROPOSITION NO. 5 ON THE BALLOT

House Joint Resolution 86 proposes a constitutional amendment that would allow the Legislature to authorize the Governor to exercise fiscal control over the expenditure of certain appropriated funds, subject to any conditions and limitations provided by law and subject to the ap-

#### PROPOSITION NO. 6 ON THE BALLOT

Senate Joint Resolution 8 proposes a constitutional amendment that would allow the Governor who appointed a previously confirmed official to remove that official from office subject to the advice and consent of the Senate; and if the Legislature is not in session, to call a special session of the Senate which may last no longer than 2 days for consideration of the removal. The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to authorize the governor to remove appointed officers with the advice and consent of the senate."

#### PROPOSITION NO. 7 ON THE BALLOT

House Joint Resolution 121 proposes a constitutional amendment that would authorize counties with a population of 5000 or less to construct and maintain private roads if they impose a reasonable charge for the work. The Legislature by general law may limit this authority. Revenue received from private road work may be used only for the construction, including right-of-way acquisition, or maintenance of public roads. The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing counties with a population of 5000 or less to perform private road work."

#### PROPOSITION NO. 8 ON THE BALLOT

Senate Joint Resolution 36 proposes a constitution-

Breves Declaraciones Explicativas De Las ENMIENDAS CONSTITUCIONALES PROPUESTAS ELECCION GENERAL 4 DE NOVIEMBRE DE 1980

#### PROPOSICION NO. 1 EN LA BOLETA

Resolución Conjunta #35 del Senado propone una enmienda constitucional que autorice a la Legislatura permitir a los bancos establecer y operar máquinas registradoras automáticas (teller machines) dentro del condado o ciudad en donde están los bancos compartiendo el uso de las máquinas registradoras de acuerdo con las leyes antimonopolistas, si acaso esta operación resulta conveniente para el público. La Legislatura ya aprobó la autorización de esta legislación (H.B. 1510) por la proposición de esta enmienda. La enmienda propuesta aparecerá en la boleta como sigue: "La enmienda constitucional requiere solamente una evaluación y una junta para revisión de avalúos en cada condado para determinar los impuestos de ad valorem."

#### PROPOSICION NO. 2 EN LA BOLETA

Resolución Conjunta #97 de la Cámara propone una enmienda constitucional que conceda al Estado y al acusado el derecho de una apelación interlocutoria en los siguientes fallos de la corte en causas criminales: los fallos antes del juicio sobre la constitucionalidad de una ley; sobre la petición para anular, destituir, o desear una acusación; y sobre una petición para suprimir la evidencia. La enmienda propuesta aparecerá en la boleta como sigue: "La enmienda constitucional autoriza la apelación de ciertos fallos antes del juicio de una corte en una causa criminal por el Estado o por el acusado."

#### PROPOSICION NO. 3 EN LA BOLETA

Resolución Conjunta #98 de la Cámara propone una enmienda constitucional que permita a la Legislatura autorizar al Gobernador para que ejerza control fiscal de los gastos de ciertos fondos financieros previamente asignados, sujeto a las condiciones y

#### PROPOSICION NO. 4 EN LA BOLETA

Resolución Conjunta #18 del Senado propone una enmienda constitucional permitiendo a la Legislatura autorizar juegos de bingo por grupos con propósitos caritativos solamente sujetos a las limitaciones de que la operación de los juegos tiene que ser aprobada en elecciones de opción local, y que todas las ganancias tengan que ser usadas en Texas. La enmienda propuesta aparecerá en la boleta como sigue: "La enmienda constitucional autoriza los juegos de bingo bajo elecciones de opción local si los juegos son dirigidos por, ya sea, una iglesia, una sinagoga, una asociación religiosa, un servicio voluntario de bomberos, una sociedad no lucrativa de veteranos, una organización fraternal, o una sociedad no lucrativa que apoya la investigación médica o programas de tratamiento médico y si las ganancias son usadas en Texas para los propósitos caritativos de las organizaciones."

#### PROPOSICION NO. 5 EN LA BOLETA

Resolución Conjunta #86 de la Cámara propone una enmienda constitucional que permita a la Legislatura autorizar al Gobernador para que ejerza control fiscal de los gastos de ciertos fondos financieros previamente asignados, sujeto a las condiciones y

limitaciones provistas por la ley y sujeto a la aprobación de un comité ejecutivo del presupuesto que constará del Gobernador, Gobernador Teniente, Presidente de la Cámara de Representantes, Presidente y Vice-presidente del Comité de Finanzas del Senado, y Presidente y Vice-presidente del Comité de Asignaciones Fiscales de la Cámara de Representantes. La enmienda propuesta aparecerá en la boleta como sigue: "La enmienda constitucional concede al Gobernador el poder para ejercer control fiscal de los gastos de los fondos asignados según la ley."

#### PROPOSICION NO. 6 EN LA BOLETA

Resolución Conjunta #8 del Senado propone una enmienda constitucional que permita al Gobernador remover a un oficial de su cargo aunque este haya sido previamente nombrado por el Gobernador y confirmado por el Senado. El remover al oficial será únicamente bajo el consentimiento del Senado, y si la Legislatura no está en sesión, se convocará una sesión extraordinaria del Senado, la cual no durará más de dos días, para considerar la eliminación del oficial en caso. La enmienda propuesta aparecerá en la boleta como sigue: "La enmienda constitucional autoriza que el Gobernador remueva a los oficiales nombrados bajo consejo y consentimiento del Senado."

#### PROPOSICION NO. 7 EN LA BOLETA

Resolución Conjunta #121 de la Cámara propone una enmienda constitucional que autorice a los condados con una población de 5000 o menos, que construyan y mantengan caminos privados cobrando razonablemente por el trabajo. Por ley, la Legislatura puede limitar esta autoridad. Los ingresos recibidos por trabajo en caminos privados se pueden usar solamente para construcción, para adquisición de derecho de paso, o para el mantenimiento de caminos públicos. La enmienda propuesta aparecerá en la boleta como sigue: "La enmienda constitucional autoriza que los condados con una población de 5000 o menos trabajen en caminos privados."

#### PROPOSICION NO. 8 EN LA BOLETA

Resolución Conjunta #36 del Senado propone una enmienda constitucional que cambie la jurisdicción y autoridad de las cortes de apelación del Estado. La enmienda cambiará el nombre de Cortes de Apelaciones Civiles a, Cortes de Apelación dando a estas cortes jurisdicción de apelación sobre casos criminales y civiles. La enmienda cambiará el título de los Jueces Asociados de la Corte Suprema a, Jueces, y requerirá que los miembros de la Corte Suprema sean abogados con licencia del estado de Texas mientras permanezcan en el puesto. La enmienda propuesta aparecerá en la boleta como sigue: "La enmienda constitucional que cambia el nombre de Cortes de Apelaciones Civiles y el nombre y requisito de los Jueces de la Corte Suprema y dicta la jurisdicción y autoridad de las cortes de apelación."

#### PROPOSICION NO. 9 EN LA BOLETA

Resolución Conjunta #54 de la Cámara propone una enmienda constitucional que defina la propiedad que posee cualquiera de los cónyuges como separada, incluyendo las dos clases de bienes raíces y los bienes inmuebles—los tales fueron propiedad de alguno de los cónyuges antes del matrimonio o fueron adquiridos después como un regalo, ya sea un legado de bienes raíces, o de descendencia. Las parejas que están por casarse o los que ya están casados, y sin la intención de defraudar a sus acreedores preexistentes, pueden repartirse de vez en cuando, entre sí y por escrito, toda o parte de su propiedad. Pueden también intercambiar un interés común en bienes poseídos o que van a poseer por un interés común en la comunidad de bienes. La enmienda permitirá a los cónyuges convenir por escrito que los ingresos o bienes derivados de cualquier propiedad particular seguirá siendo propiedad particular en lugar de ser comunidad de bienes como sería si no existiera este convenio por escrito. La enmienda propone que el regalo de un cónyuge a otro se supone que incluye todos los ingresos y bienes derivados de tal regalo. La enmienda propuesta aparecerá en la boleta como sigue: "La enmienda constitucional permite a los cónyuges el consentir que los ingresos o los bienes que se derivan de los bienes particulares permanecerán como bienes particulares."
