## Sonora School Teacher, Charlotte Wilson Named Feb. Citizen of the Month

Mrs. Charlotte Wilson, voted Citizen of the Month at the Chamber of Commerce meeting this month, graduated from Texas University and has been a teacher in the Sonora Public Schools for 28 years and is now the High School Spanish teacher and sponsor of the Spanish Club.

She is very dedicated to her High School students, spending many extra hours practicing with the band, band and vocal soloists.

Mrs. Wilson is a member of The First United Methodist Church, The United Methodist Women, The Order of The Eastern Star and Delta Kappa Gamma.

Charlotte is the wife of the late Leo

James Wilson, a U.S. Postal employee, and the mother of three sons, Jimmy, John and Joe Wilson. She lost her husband in 1964 and has been both mother and father to her family since that time.

She has served many citizens of this community by being organist and accompanist at weddings, showers as well as for funeral services of bereaved families.

She always has a smile in her face and is an inspiration to all around her. She is an honest and true friend to everyone, especially her students, young people and her family. As a secretary at the High School put it, "She is just a busy all-around great

gal." But her greatest achievement is finding time to be just MOM to her sons, daughter-in-laws and grandchildren. This fact is well proven by the love, devotion and respect they show her.

Mrs. Wilson, we are proud of you and congratulate you as Citizen of The Month.

Attending the presentation were Dale Chaney, Shelly Chaney, Carol Parker, Jo Ann Tyner, Mrs. Hal Spain, Charlotte Wilson, Edith James, and Maxine Locklin.

Jo Ann Tyner from Sonora Floral and Gifts presented Mrs. Wilson with a lovely plant.

Pictured above are Dale Chaney, Shelly Chaney, Carol Parker, Mrs. Hal Spain, Charlotte Wilson, Edith James, and Maxine Locklin.

## Sonora Teams Battle with Ballinger

The Junior Varsity and Varsity Boys and Girls played here last Tuesday night. Here are the following scores:

Also they played in Crane last Friday. More highlights of the games are continued on page 5.

JV Girls: Sonora 50 Ballinger 33

JV Boys: Sonora 43 Ballinger 63

Varsity Girls: Sonora 45 Ballinger 57

Varsity Boys: Sonora 51 Ballinger 85

## TIPRO Opposes Oil and Gas Severance Taxes

Leaders of the Texas Independent Producers and Royalty Owners Association warned that proposals to raise Texas oil and gas severance taxes could seriously damage the state's economy.

Harold E. "Gene" Wright, Gilmer, President of the 5400-member Austin-based trade association, declared that proposed increases in severance taxes "could saddle Texas consumers and oil and gas producers with a burden they and the State can ill afford. Higher taxes will raise consumer energy prices in Texas," Wright declared, "and will prevent producers from drilling the very wells that fuel the economy and fund a large portion of the state's tax base."

Wright was responding to a proposed tax increase advocated by the Texas Federation of Teachers, AFL-CIO. He said that Texas education certainly needs to be adequately financed, but suggested that oil and gas already provides a disproportionate share of tax revenues.

"I hope that other teacher organizations are able to discern the problems with the AFL-CIO proposal," Wright continued. "Producers and royalty owners already shoulder their fair share. The petroleum industry pays 28 percent of all state taxes and in 1981 accounted for over 47 percent of state funds used for public education. We pay pipeline tax, severance tax, ad valorem tax, windfall profit tax, income tax, a wire line service tax, oil regulation tax, sales tax on

equipment, and so on," Wright pointed out.

TIPRO State Issues Chairman, Hans Hansen, Midland, faulted the logic behind TFT's severance tax proposal. "The teachers' organization argues that their tax increase is needed in order to bring Texas up to the same level as Louisiana," he commented, "but they ignore the fact that Texas already imposes several other oil and gas taxes which don't exist in Louisiana. If you're going to compare Texas with other states you have to look at the total tax burden," Hansen said. "On the basis Texans already pay more energy taxes than people in most other states."

Industry representatives say they are particularly sensitive to the severance tax issue at the current time because "the general business and political climate is a cause for concern." Julian Martin, TIPRO's Executive Vice President, explained. "Our people are not the only citizens worried by declining oil revenues. Difficulties in marketing natural gas, the proposed federal oil tax of \$5 per barrel, and other tax proposals aimed at independents and royalty owners, are also a source of worry for banks, individual investors, and industrial users of oil and gas." Martin stated further that "adding higher severance taxes to this mix could greatly reduce the capital required for petroleum exploration, leading to serious problems for the entire economy of the State."

## Kasey's Korner Apartments Announces its Grand Opening

The Sonora Chamber of Commerce hosted the Ribbon Cutting for the Grand Opening of the Kasey's Korner Apartments, owned by Mr. and Mrs. David Shurley, with a large crowd of well wishers and interested people present.

A beautiful cake decorated with Kasey's Korner along with cookies

and coffee were served. Also, the visitors were entertained with music by Wayne Thomas of Del Rio, with his one-man band. All was very festive and friendly. A tour of the finished apartments was available, the decor being in off-white and

## Emergency Course Offered

An Emergency Care Attendant Course will be offered in Sonora beginning on February 28. Classes will be held at the Sonora Fire Department from 7:00 to 10:00 each Monday and Thursday evening through April 18. Tuition for the course will be \$40 plus the textbook at \$12.95.

The E.C.A. Course provides basic medical training for Ambulance Attendants as well as training which can be helpful around the house or

office. Topics to be covered in the course include such areas as Cardio-pulmonary Resuscitation (CPR), Airway Obstructions and Choking, Bandaging and Splinting, Basic Life Support, and Emergency Childbirth.

All persons interested in participating in this course are encouraged to contact the Sutton County Emergency Medical Service Office at 387-5132, or Call Georgia Luckie at 387-2372, or Lenora Bullock after 6:00 at 387-5318.

## ISD Meeting Feb. 21

Notice is hereby given that the Board of Trustees, Sonora Independent School District, has ordered a special meeting on Feb. 21, 1983, at 7:00 p.m., in the school administration office, 807 S. Concho, Sonora, Texas for the purpose of consulting with the district's architectural firm on land utilization and the future building program of the

district. In addition, the Board of Trustees has changed the date of the regular March board meeting from Tuesday, March 8, 1983, to Tuesday, March 15, 1983, at 7:00 p.m. in the school administration office, 807 S. Concho. The reason for the change being the district's schedule spring break from Feb. 28 through March 4, 1983.

## Representative to Visit Sonora

State Comptroller Bob Bullock will have a representative from his San Angelo office in Sonora on February 10, 1983, to assist local taxpayers and answer questions about state taxes.

Bullock said Enforcement Officer Oscar H. Gutierrez will meet with local taxpayers at Sutton County Court House from 1 p.m. to 2 p.m.

"If Sonora area merchants, or

anyone else for that matter, have any questions about state taxes or need help in preparing state tax forms, Mr. Gutierrez will be there to assist them," Bullock said.

"We're trying to cut the red tape in this office, and we believe these face to face sessions with taxpayers help do just that," Bullock added.

The San Angelo office serves San Angelo and surrounding counties.

Debra Shahan, David Jennings

## Debra Shahan to wed David Jennings on March 12

Mr. and Mrs. Arthur L. Shahan, Jr. of Pleasanton announce the engagement and approaching marriage of their daughter, Debra Lee, to Mr. David Wayne Jennings, son of Mr. and Mrs. Elmer Wilson and Mr. and Mrs. Byron Jennings, all of Sonora, and grandparents of the groom. The Oakwood Methodist Church in Lubbock will be

the setting for the March 12, 1983 wedding.

Miss Shahan is a 1979 graduate of Pleasanton High School and is currently a senior at Texas Tech in Lubbock.

Mr. Jennings graduated from Sonora High School in 1979, attended Angelo State for two years, and is also presently a senior at Texas Tech.

## Obituaries

### Juanita Ramirez

Juanita Ramirez, 68, of Rankin, died Sunday February 6, 1983 in Hudspeth Hospital in Sonora.

Services were held Tuesday at 2 p.m. at St. Thomas Catholic Church in Rankin. Burial in Rankin Cemetery under the direction of Kerbow Funeral Home of Sonora.

Mrs. Ramirez was born October 14, 1914 in Mexico. Survivors include seven sons; Fidencio Ramirez of Sonora, Gilbert Ramirez,

Raymond Ramirez, and Marsail Ramirez all of Rankin, Frank Ramirez of Ft. Stockton, Eugene

Ramirez of Krum, Ernesto Anaya of Salem, Oreg.; six daughters, Virginia Navarro, and Manuella Cortez both of Smithvills,

Eloisa Torres and Alice Ramirez both of Carrizo Springs, Maria Ramirez of

Krum, Margie Mott of Ft. Walton Beach, Fla.; 41 grandchildren, and 13 great grandchildren.

### Francisco Morin

Francisco Morin, 84, died at his home Feb. 2, 1983. Funeral services were held Saturday at 10 a.m. at St. Ann's Catholic Church with Rev. Gilbert Rodriguez officiating. Interment was in Sonora Cemetery, directed by Kerbow Funeral Home.

Mr. Morin was born in Eagle Pass, June 1, 1898. A life-long resident of Sonora, he was married to Florincia Andrade in Del Rio in 1924. He was a retired sheep shearer and was a member of St. Ann's Catholic Church.

He is survived by his wife of Sonora, 4 daughters; Oralia Gandar and Eledia Martinez of Sonora; Olevia Prunetta of Kerrville, and Maria Aguilar of Eldorado. 1 sister, Catarina Bill of Kerrville, 15 grandchildren, and 21 great grandchildren.

### ribbon cutting cont.

earth tones, very well designed and beautiful, still functional and easy to maintain. Mrs. Shurley advised the apartments should all be finished within a short time, and also the grounds will be finished shortly thereafter.

Mr. James Trainer officiated with the ribbon cutting for Mr. and Mrs.

Shurley, with Mr. Jim Dover, City Manager and a host of friends in attendance.

The Chamber of Commerce wishes to extend congratulations to Mr. and Mrs. Shurley on the opening of these beautiful apartments that are certainly an added attraction to the City of Sonora.

## New Arrivals

### Matthew Ray Leslie

Mr. and Mrs. Ted Leslie are proud to announce the arrival of their new born son, Matthew Ray.

He was born January 26, 1983 at 1:00. He weighed 5

lbs. 5 oz. and was 18 1/2 in. long.

Grandparents are Mr. and Mrs. Dan Keiby of Sonora and Mr. and Mrs. C.V. Leslie of Monahans.

## Around Town

by Hazel McClelland

Mrs. Bernice Savell and Mrs. Charles Shannon were in San Angelo last Monday visiting Mrs. Shannon's sons, Matt and Savell.

In San Angelo Tuesday were: Mr. and Mrs. W.O. Crites, Herbert Fields, Mrs. W.B. Dillard, Mrs. Guila Vicars, Mrs. R.A. Halbert, Mrs. Vestal Askew, Mrs. Gwen Wardlaw, Mrs. Jack David Wardlaw, and Hazel McClelland.

Mr. & Mrs. Richard Cooper, Elizabeth Jane and Carolyn Cooper and Mrs. Nancy Neill Law of San Antonio were here visiting their parents and grandparents, Mr. & Mrs. Jack Neill, last week.

Chip Savell from Pleasanton, Cody Savell from Waco, and Scott Savell from Big Springs were here last weekend visiting their parents, Mr. and Mrs. Bill Savell.

Mrs. Joe Neill Smith and Mrs. Bill Savell honored Miss Elizabeth Jane Cooper with a Tupperware shower. At the Smith home Feb. 8th, guests were: Mrs. Richard Cooper,

mother of Elizabeth; her sister, Carolyn Cooper of San Antonio; Mrs. Jack Neill, her grandmother; and her aunt, Nancy Law, Mrs. Frank Bond, Bernice Savell, Mrs. Charles Shannon, Mrs. Albert Ward, Mrs. Nellie Moore, Mrs. Armer Earwood, Mrs. Tony Hooper, Mrs. J.L. McPherson of San Antonio, Mrs. Terri Bloys, and Hazel McClelland. Tupperware gifts were given to the bride-elect. Strawberry Crepes and ice tea was served.

Mrs. Clint Langford of Kerrville was here visiting and attended the Fling Ding Dance.

Mr. and Mrs. Gerald Hardgraves were here visiting her mother, Mrs. Lola Tisdell Archer for several days last week.

Mr. and Mrs. Clay Mitchell are proud parents of a baby girl, Sarah Claye born Feb. 7, 1983, in San Angelo Hospital. She weighed 5.15 lbs. She is the grand-daughter of Mr. and Mrs. Calvin VanHoozer and Mr. and Mrs. Crawford Mitchell of Lake Amstead.

## Prison Inmates Speak to Students

"I got hooked on drugs as a young teenager, and the habit finally controlled my life. I stole to support my habit...burglary put me in prison...experimenting with drugs is not worth the price I am paying today..." This is a message of a 19

year old prison inmate. His message, and others like it, is being spread throughout the state through the as-

sembly will be at 1:30 p.m. and the junior high will meet at 2:45 p.m. These assemblies will give Sonora students and excellent opportunity to realize first-hand both the effects of illegal drug use and the consequences which result from this use.

public, especially teenagers, about the dangers and consequences involved in the illicit use of drugs.

On Monday, February 21, the Sonora School System will present these prisoners in two assemblies. The high school

## 4-H Results at San Antonio

Mike Friess led the way placing two of four lambs he exhibited with his heavy weight finewool standing

eighth for the highest placing of any Sutton County 4-Her. Keith Wallace and Lewis Baker also placed two lambs each. 4-H

members placing one lamb were Cathy Doran, Cleve Jones, Rebecca Powers, Stephanie Powers, Christi Spain, Brandy Wallace and Lea Whitehead. Other 4-H members who exhibited were Wheelless Baker, Anita Balch, Anna Balch, Abe Caruthers, Keyes

Caruthers, Cindy Doran, David Love, Steve Love, Tracy Love, Shanna Patton, Blayze Sykes, Jack Sykes, Espy Whitehead and Kelly Whitehead. In addition to the junior lamb show, Sutton County also exhibited seventeen lambs in the carcass show.

Placings ranged from fifth to twenty fifth on eleven of these lambs.

Jim Cooper placed his Simmental steer eleventh in a class of over 40 steers. The steer and all placing lambs will be sold at the Premium Sale on Friday, February 19th.

## GED Needs in Sonora Survey

A unique program, which will help adults in Sonora who have not completed high school to obtain the

GED (high school equivalency certificate), is underway. This survey proposes to

publish lessons in the Devil's River News which will contain a series of mini lessons with instructional notes designed to measure a person's skills in the areas of English (writing skills), social studies, science, literary materials

(reading skills), and mathematics. There will be one lesson per week for 12 weeks.

Adults who wish to participate should contact Wanda L. Nixon in Sonora by calling 387-3903 bet-

ween the hours of 8:30 a.m. and 8:00 p.m. Monday through Thursday. Friday hours are 4:30 p.m. to 10:00 p.m.

Any adult 17 years of age and older and not enrolled in the public schools may participate in this program.

Rev. Crescencio Rodriguez

## Primera Iglesia Bautista Church Announces its New Preacher

Primera Iglesia Bautista Church wishes to announce to Sonora their new preacher, Rev. Crescencio Rodriguez. Rev. Rodriguez has moved here from Merton with his wife, Aida.

Rev. Rodriguez has been preaching for 23 years. He has preached in Merton, Sterling City, Winters, Colorado City, Arckely and Ussylus, Kansas. Rev. Rodriguez is a member of the Southern Baptist Convention. He is

Chairman of the Mexican-Baptist Assoc. and Mrs. Rodriguez has been Sec-Tres. since 1979. They have done Missionary work in Guadalupe Chihuahua, Mexico.

They have 2 daughters and 5 grand children. Rev. and Mrs. Rodriguez would like to invite everyone to visit them at Primera Iglesia Butista Church located at Chestnut and Santa Clara, Sonora, Texas. They also can be reached at 387-2035 or write to Box 855.

## Los Amigos Club Meeting Held

Los Amigos Club held their regular monthly meeting Saturday,

February 12. Mr. and Mrs. Pete Samaniego, III hosted the

event. Newly elected officers are as follows: Pete Samaniego, President; Samuel David Hernandez, Vice-President; Rosemary

Perez, Secretary; Maura Weingart, Treasurer; Ramiro Perez, Public Relations.

The February 19th dance was discussed. It will be held at the 4-H Center building on the 19th day of February, 1983. Music will be provided by "El Coyote" of San Angelo, Texas. Admission will be \$5.00 a person.

## Film to Show at Local Church

Long ago, in a small dusty upstairs room, a group of friends met to share a last meal together. Most of them thought it was the end. One of them knew it was the beginning.

Today, almost two thousand years later, that simple and distant event is

celebrated by people around the world.

E.C.R.F.'s newest film, "In Remembrance", captures an unforgettable story of the men who chose to follow a young teacher from Nazareth and of the night that would change their

world forever!

This is a film about real people, fiercely Jewish, who felt as we feel with doubts, loves, fears, and loneliness that are the common bonds of all humanity. "In Remembrance" is a stunning recreation of the men and events which sur-

rounded the Last Supper, a film for all time and all people. This is a motion picture experience you will never forget!

"In Remembrance", will be showing at the First Assembly of God at 203 E. Pecan, in Sonora, Texas, on Feb. 20th, at 6 p.m.

## Chamber of Commerce News

The Chamber of Commerce is getting many telephone calls and requests for Hunting Leases-any rancher wishing to up-date information on your hunting leases, please call the Chamber office at 387-2880.

The Chamber Office has many calls from tourists requesting information on overnight Hook-Ups, places to Stable Horses if these facilities are available, please call the chamber office.

Any Senior Citizen inte-

rested in the Golden Years Jubilee, in Ruidoso, New Mexico can come by the Chamber office and pick up a registration form...

The Credit Bureau and Chex Alert offices have moved to the Plant Place at 1001-B Crockett Avenue.

The Southwest Texas Jr. College Representative will be in Sonora to speak to students at 11:00 a.m.

The Sonora High School Band will go to Stephenville today, February 16, to compete for Solo and Ensemble honors. Good luck band members!

On Thursday, Freshmen will be taking their TABS test. This is one of those tests you can't really study for, so just relax and try to get plenty of sleep the night

before. Sophomores, Juniors, and Seniors will be getting retakes made Thursday, so no wild parties the night before!

Friday, February 18th, the Boys' Basketball teams will be going to Coahoma to play at 5:00 p.m. Good luck guys.

On Saturday of the nineteenth, there will be a Solo and small Ensemble Contest in Sonora.

## Los Amigos Club Elects Officers

Mr. and Mrs. Pete Samaniego hosted the monthly Los Amigos Club dinner meeting. Macaroni meatloaf, tossed green salad, sauteed zucchini and cherry tomatoes, dinner rolls and chocolate pudding was served.

The meeting was held after the dinner. New officers were elected. Pete Samaniego, president; Sam Hernandez, vice-president; Rosemary Perez, secretary; Maura Weingart, treasurer; and Ramiro Perez for public relations.

Final details were made for the upcoming dance to be held Saturday, February 19, 1983, at the 4-H Center, from 9 p.m. to 1 a.m. Music will be provided by "El Coyote" from San Angelo, Texas. Proceeds go to the Cindy Favila Memorial Scholarship Fund.

## Country Folk

By Jerry Lackey  
P.O. Box 1542, San Angelo, TX 76902

President Ronald Reagan has proposed to help agriculture out of the current shadows of despair with a plan labeled "Payment in Kind."

For those of us who have supported such worthwhile institutions as West Texas Rehabilitation Center, we know what "payment in kind" means. However, I have found a number of farmers who do not.

Payment in kind pays farmers to take land out of production in the form of commodities held by the Commodity Credit Corporation (CCC) rather than in the form of cash. In other words, producers will be paid "in kind" some portion of their ASCS farm program yield (proven yield) to take crop land out of production.

Announced payment levels are 95 percent for wheat and 80 percent for cotton, corn sorghum and rice.

A producer, for example, with a cotton farm program yield of 300 pounds per acre will receive an 80 percent payment in kind or 240 pounds per acre for not producing on a certain tract of land. Payment in kind, therefore, has a two-fold benefit as a method of controlling production of major agricultural commodities and reducing government stocks of wheat, corn, sorghum, rice and cotton.

Payment in kind is designed as a voluntary supplement to the already announced 1983 farm program. Basically, the 1983 program provides a 20 percent acreage reduction for a farmer to be eligible for target price and loan program benefits. The announced 1983 program will remain in effect with payment in kind as an additional program option.

As I understand the plan, a farmer can divert an added 10 to 30 percent of his acreage base over and above the 20 percent minimum. A 500-acre cotton farmer, for example, with a 300-pound per acre farm program yield who plans on diverting 100 acres to be eligible for 1983 farm program benefits, could divert an additional 50 to 150 acres. The farmer who diverted an additional 30 percent would receive a payment in kind of 30,000 pounds of cotton.

A second option may be available for the producer to remove his entire acreage base from production. In other words, he could quit farming for a year — except for erosion and weed control maintenance. This option is available on a limited basis if the USDA does not otherwise meet the desired acreage sign-up goals in each county.

Farmers will be allowed to submit bids in terms of the level of payment in kind required for them to retire their whole farm for one year. The USDA will accept the lowest bids to retire land up to the desired level of production control in each county.

The USDA preference is for the farmer to assume full ownership of commodities that the farmer currently has under CCC loan — either in the regular loan or in the farmer-owned grain reserve.

In fact, the producer who participates in the PIK program and has a CCC loan on the commodity involved must make the commodity (loan collateral) available for payment to himself under PIK. For the farmer who receives his own commodity as PIK payment, the full value of the loan needed to cover the PIK program payment is forgiven.

For the farmer who does not have any commodity under loan or in the farmer-held grain reserve, he will receive PIK commodities from an approved warehouse. Preferences will, of course, be given to warehouses within the producer's own county. The commodity, however, may come from an adjoining county or from the nearest warehouse "in line" to a subterminal or terminal market.

The largest county in the country is San Bernardino, California. At 20,117 square miles, it's larger than nine states.

## Sick Pay Benefits are Taxable Income

Taxpayers who become sick or injured on the job and receive sick pay benefits from their employer must include the payments as income on their federal

tax return, the Internal Revenue Service says. The payments are taxable whether they were made directly by the employer or from a welfare

fund, a state sickness or disability fund or an insurance company, provided the plan was paid for by the employer. Benefits received under

an accident or health insurance policy for which the employee paid the premiums are not considered taxable by the IRS. More information on sick

pay benefits is contained in the free IRS Publication 525, "Taxable and Nontaxable Income," which can be ordered on the handy order form in the tax package.

# CAPITOL UPDATE

John Tower  
U.S. SENATOR for TEXAS  
WASHINGTON, D.C. 20510

When the President sent his new budget to Congress last week, he was taking only the first step of a process which may, regrettably, last the entire year. Approving legislation which collectably becomes the federal budget has become an unwieldy process that Congress in recent years has found impossible to complete much less spend needed time on other kinds of legislation.

Throughout our legislative history there have been two steps to approving the expenditure of federal money authorization and appropriation.

Authorization legislation comes through "authorizing" committees, such as the Armed Services Committee for national defense spending, the Agriculture Committee for spending in that area, and so forth. Since these committees are experts in their assigned subjects, they evaluate requests from the Administration and report legislation to the full Senate for consideration.

The authorization bill sets spending ceilings, specifies how money can and cannot be spent and generally outlines a congressional guide map for the direction government should be taking in the area in question.

Once that legislation has been passed, the next step is appropriation. The traditional emphasis for this second bill considered through the Appropriations Committee is on the amount of money to be spent rather than on issues of policy. Typically, appropriations legislation sets specific spending ceilings for those categories covered by the authorization bill, and it is this figure which sets the actual spending limit.

In 1974, Congress added yet another step to the approval process when it enacted legislation requiring a series of budget resolutions to be passed. The idea behind the legislation was sound. Congress was considering funding for each area of federal responsibility separately, never looking at the overall total. No one had ever had to make tough decisions as to what area to cut in order to make room in the budget for increases in another.

In the course of passing the First and Second Concurrent Budget Resolutions, an overall ceiling on federal spending is established, with target maximums for each budget function. In theory, at least, once the total is established Congress cannot increase funding for one area without decreasing it in another. In this way, Congress retains control on overall federal spending.

During the first years of congressional budgeting, the process was largely ignored. Congress continued to act as before, passing waivers to the requirements of the Budget Act as a routine matter.

In 1981, however, the budget process was brought to life as a serious tool in the effort to control federal deficits. Since then, the spending limits set in the First Concurrent Budget Resolution, passed in the spring, largely govern what can be included in both authorization and appropriations legislation.

Again, the goal of limiting federal spending is one which we must seek to attain. But in practice, superimposing another procedure on the existing ones has slowed down the business of government. The Budget Committee, on which I serve, in many cases has sought to go beyond establishing a reasonable total for federal spending to attempt to impose specific direction for each area -- a task already handled by the authorizing committees. Governing today requires tough budget decisions, decisions which inevitably are hotly contested by special interest groups. Since we now must pass three pieces of legislation instead of two before funding decisions can be considered final, there are three opportunities to fight each action.

We must begin to think of ways to streamline the process so that we can more ably examine carefully each proposed expenditure, keep an eye on the overall spending total and still act expeditiously to keep government running.

## The Consumer Alert

by Jim Mattox  
Attorney General

AUSTIN—The chance to buy merchandise at low discount prices has a lot of appeal for consumers these days because of currently rising prices on many consumer goods.

In the face of such price increases, some consumers have considered joining "buyers clubs" that offer savings on a number of items.

Many of these clubs are able to offer such savings because they can buy in bulk, or because they offer a more limited selection than regular department or specialty stores. In addition, those buyers clubs that operate by mail, with members ordering from catalogs, have no overhead or employee salaries to offset.

But Texans who are solicited to join buyers clubs that may make offers of savings on various kinds of purchases should exercise some caution before committing themselves, say our Consumer Protection attorneys.

Buyers club solicitations often are made by telephone, through the mail, or even in person-to-person or on-the-street contact. They may be followed up by a personal visit from a salesman who occasionally may employ high-pressure tactics.

Salesmen or promotional material for such clubs may paint rosy pictures of the merchandise available and may also indicate unrealistic amounts of the savings consumers can realize if they join and buy through these clubs.

Our Consumer Protection Division points out, however, that what may not be emphasized by the salesman or in the promotional material is that a consumer must pay what usually amounts to a substantial membership fee to get the right to purchase through the club.

After paying such a fee, the consumer may find out that the benefits, products, and savings are not as great as they had been represented to be.

Consumers may find that some clubs occasionally substitute products for those ordered and that such substitutes may be of a different grade or quality than the original order.

Some clubs may also have an insufficient quantity of the products on hand to fill orders, or may require a minimum order.

It may be difficult to get prompt delivery on certain items offered by a buyers club, and in addition, the purchaser

Electric appliances that add humidity to the air, humidifiers, and ones which remove it, dehumidifiers, may be a wise investment.

shopping before agreeing to join such a club, to determine that the prices advertised are accurate and to assure yourself that membership will result in significant savings.

Persons considering membership in a buyers club should take the following precautions, according to our Consumer Protection attorneys:

1. Make sure you have the correct name, mailing address and telephone number of the seller.
2. Get from the salesman or the club itself the names of club members in your area and check with them to see if they have been satisfied with the savings, benefits and products supplied by the club.
3. Do some comparison

7. Examine the club's membership contract carefully. Make sure your obligations and benefits are spelled out.

If you have a consumer problem, consult the Attorney General's Consumer Protection Division, your county or district attorney, or your local Better Business Bureau.

### HUMIDITY

Maintaining a comfortable level of humidity in your home may help you hold down your energy costs.

If high home energy costs have you in a sweat—aim for the right level of humidity.

Dry air absorbs more moisture from your skin than does humid air. The evaporation of body moisture cools you off in hot weather, and makes you feel chilly in cold weather.

That's why a home with the right level of humidity will require less air conditioning in the summer, and less heating in the winter for people to feel comfortable.

A half cup each of ammonia and white vinegar, plus two tablespoons of cornstarch in a bucket of warm water can make a good window washing solution.

A group of larks is known as an exaltation.

## FACTS & FIGURES

More cigarettes are sold in China than anywhere else on earth. Over 700 billion cigarettes are sold there every year.

The world's largest collection of cigarettes is in New York City. It has over 7,000 different brands from 167 countries.

The cigarette with the least amount of tar and nicotine is Carlton in the flip-lid box. According to tests following the same method used by the Federal Trade Commission, it has less than 0.01 mg. tar, 0.002 mg. nicotine.

**Now you have a choice.**

And it couldn't have come at a better time for your financial future.

In just the last few weeks, the financial industry has experienced tremendous changes. As a result, banks are able to offer new, profitable investments that many, many customers can afford. Plus, the banks have been given a great deal of freedom in determining the rates and conditions of these attractive investment plans.

This means that for the first time, you may have the opportunity to earn high interest on every dollar you deposit in a bank. And now you have the freedom to compare investments and interest rates before you decide which bank is best for you.

Now, more than ever, you deserve a choice. And now you have one.

## Approved Charges Under Medicare

Medicare Medical Insurance payments are based on what the law defines as reasonable charges. These charges may be less than those actually billed by doctors and suppliers. Medicare Insurance then pays 80 percent of the approved charge, even if it is less than the actual charge. The approved charges for covered services and sup-

plies are determined by the Medicare carrier under a procedure outlined in the law. The carrier reviews the actual charges made by doctors and suppliers in a given geographic area and, based on this review, establishes new approved charges that become effective about July 1. These approved charges are based on "customary" and "prevailing" charges. "Customary" generally

refers to the charge most frequently made by each doctor and supplier for each separate service or supply provided patients during the course of the previous calendar year; "prevailing" refers to the amount of the charge for each covered service and supply that is high enough to cover the customary charges in three of every four bills submitted during the previous year for each service

and supply. When a medical insurance claim is submitted, the carrier compares the actual charges listed on the claim with the customary and prevailing charges for that particular service or supply. The charge approved by the carrier will be the lowest of the customary charge, the prevailing charge, or the actual charge.

## Senior Games At UT

The second annual Texas Senior Games are on the way. The starter's gun is loaded and will go off on the campus of UT-Arlington, May 18-21. Any Texas resident 50 years of age or older is eligible to compete in any of the over 40 events being offered. In most events, separate contests will be held for men and women in the following age groups: 50-54; 55-59; 60-64; 65-69; 70-74; 75 and older. Registration cost is \$1 for each event, plus nominal facility fees for certain events such as bowling, golf, tennis, and racquetball. The success of the first Senior Games held last year has insured a large turnout of the state's older athletes and game players. Over 600 older Texans competed in our games last year, according to Hal Geldon, executive director of the

Texas Senior Games. "We had people from all four corners of the state compete and expect an even greater turnout this year which appropriately enough will coincide with Older American's Month." Sponsor for the games is a non-profit organization, Texas Senior Games for Fun and Fitness, in cooperation with the Texas Department on Aging and the Governor's Commission on Physical Fitness.

Other supporting organizations include: The American Association of Retired Persons, the Texas Amateur Athletic Federation, Texas Recreation and Parks Society, and the Dallas Morning News. Among the local group that will be working with the participants are: Dallas County YMCA, Arlington

YMCA, Arlington Bicycle Club, and the Arlington Parks and Recreation Department.

The following competitive events have been approved for the 1983 Texas Senior Games: Basketball free throw, men and women; Bicycle races (1/2 mile sprint, 2-mile and 5-mile race), men and women; Billiards (eight-ball), men and women; Bridge, mixed; Bowling, men and women; Checkers, mixed; Forty-two, mixed;

Dancing, mixed (waltz, jitterbug, square, folk-oric); Golf (18-hole), men and women; Swimming, men and women; Horseshoes, men and women; Washer Pitching, mixed; Table tennis, men and women; Tennis, men and women's singles and doubles and mixed doubles; Track and field, men

and women, as follows: 50 meter dash, 100 meter dash, 200 meter dash, 400 meter dash, 800 meter dash, 110 meter high hurdles, triple jump, pole vault, javelin, high jump, 1-mile run, 5,000k and 10,000k runs, discus throw, long jump, shot put, and broad jump; Fun walk, (2-mile, not heel-to-toe), men and women; Raquetball; Jog (3 1/2 mile), men and women; Medals will be awarded to the 1st, 2nd, and 3rd place winner in each age group. All participants will receive certificates. No registrations will be accepted that are post-marked after midnight, May 11. Registration information may be obtained from: Hal Geldon, Texas Senior Games, Box 676, Richardson, Texas 75080, 214/231-6889.

## Poetry Contest Announced

Poems are now being accepted for the sixth annual poetry contest sponsored by CSS Publications. The top 150 poems will be published in a book of poetry to be released this coming fall.

The theme of the contest is "human emotions" and is open to all ages. Cash prizes totaling \$100 will be awarded for the best poems. Poets should submit their poems to CSS Publications,

P.O. Box 23-Q, Iowa Falls, Iowa 50126. A nominal entry fee of \$3 per poem is required. The deadline is March 15. CSS Publications' fifth volume resulting from the annual poetry contests, *The*

*Whisper of Dreams*, was released in 1982 and contains 200 poems by 160 poets from 26 states across the nation. Last year, CSS Publications also published *The Rhyme & Reason of Curt Sysma*.

## Tax Return News

Taxpayers receiving unemployment compensation in 1982 may be required to include some or all of the money they received as income when filing their federal tax return, the Internal Revenue Service says.

Unemployment benefits totaling \$10 or more during the calendar year are reported to the IRS by the agency making the payments. The agency should furnish a record of payments made to

the taxpayer on Form 1099-UC by the end of January 1983.

Detailed information regarding the computation of the tax on unemployment compensation is contained in IRS Publication 905, Tax Information on Unemployment Compensation, which

is available free by using the order blank in the tax package.

201 S. Concho

387-2028

Generally, unemployment compensation payments are taxable, in whole or in part, if the total adjusted gross income, including unemployment compensation, exceeds \$12,000 for single taxpay-

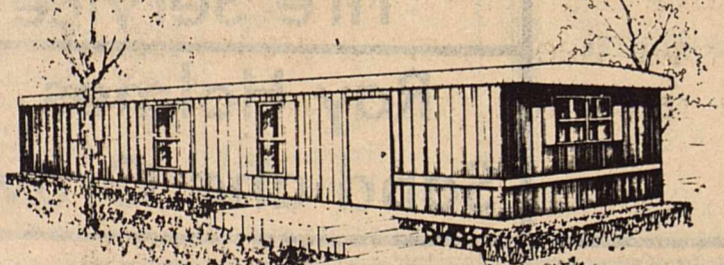

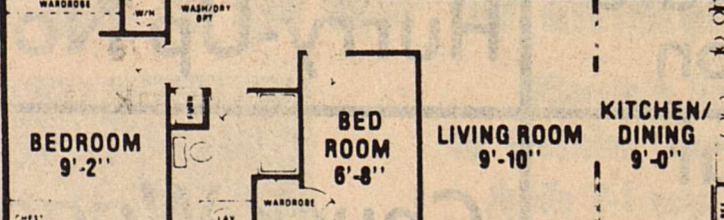

ers or \$18,000 for married taxpayers filing a joint return. Married taxpayers filing separate returns must report all unemployment

## Wool Imports Tarriff Urged by Congressman Tom Loeffler

Congressman Tom Loeffler introduced legislation that will increase the import tariff on wool from Argentina and Uruguay by 10 percent.

This bill is designed to bring about a balance in the international marketing of wool, while providing the necessary time for the Department of Commerce

and the International Trade Commission to investigate the need to impose countervailing duties in response to the unfair trading practices of these nations.

"I strongly support the concept of free trade, so long as it is fair trade," said Loeffler introducing his bill. "It is clear, however, that one area

where 'free trade' is no long 'fair trade' relates to the wool industry."

"Presently, domestic production of wool is experiencing very trying times, both as a result of a drop in our prices and unfair trade practices by such countries as Argentina and Uruguay. Argentina and Uruguay are able to dump millions of

pounds of wool into the United States at a price below our domestic prices because of the heavy government subsidies paid to their producers and exporters. This blatantly unfair trade advantage has a devastating effect on our domestic industry."

"If we desire to restore balance to the international

system of trade, we must let our resolve be known and we must send a message to those countries which are playing fast and loose with the rules."

"What the wool business is seeking is not a handout, but rather a secure future based on fair profits and fair treatment in international trade."

## Poisoning, Tetany, Bloat...

### Major Problems in Cattle Grazing

Nitrate poisoning, grass tetany and bloat are three major problems in cattle grazing on small grain pastures this time of the year, says a beef cattle specialist with the Texas Agricultural Extension Service, Texas A&M University System.

Nitrate poisoning occurs from high levels of nitrate in plants and is mainly a problem with cloudy, overcast conditions, points out Dr. Dennis Herd. Under these conditions, common during the winter season, nitrates accumulate in plants instead of being converted into protein. Nitrate levels are higher in stems of plants than leaves, so nitrate poisoning is more of a problem on heavily grazed pastures, notes the specialist.

To protect animals, remove calves from pastures until plants resume normal growth, recommends Herd. Cattle on hay or grain supplements can tolerate higher levels of nitrate than those on pasture only.

The specialist also suggests giving proper attention to nitrogen fertilization to avoid producing forage with excessive nitrogen content. Splitting nitrogen fertilizer applications may be helpful in preventing nitrate poisoning problems on small grain pastures.

Grass tetany or hypomagnesemia is more of a problem in older cows dur-

ring early stages of lactation, Herd points out. The condition is associated with low blood magnesium caused by a deficiency of magnesium or by extremely high levels of other nutrients in forage. High levels of protein and potassium common in small grain pastures may either depress an animal's digestion of magnesium or may increase its excretion of magnesium, resulting in inadequate blood magnesium levels.

According to the specialist, grass tetany occurs more frequently on heavy, high potassium soils, so producers should avoid applying excessive amounts of nitrogen and potassium fertilizer. Fertilizing with magnesium to increase the magnesium content in plants is not practical, notes the specialist, while spraying magnesium on pastures is expensive and is effective for only a short time.

A practical step to preventing magnesium, says Herd. The mineral mix should contain equal parts of magnesium oxide, salt, bonemeal and cottonseed meal. Each animal needs to eat about one ounce of actual magnesium daily since blood levels decline rapidly with a lack of magnesium intake.

The third problem, bloat, occurs when an animal

cannot rid itself of gas produced in the rumen during normal digestive processes, explains the beef cattle specialist. This usually occurs when an animal can't belch because the gas is entrapped in thick, frothy foam. Normally bloat is not as much of a problem on grass pastures as it is on legume forages such as alfalfa. However, young, fast growing grasses high in protein and low in fiber can cause bloat.

The chemical agent poloxalene provides effective control of bloat if animals eat it in adequate amounts—1.5 to 2 grams per 100 pounds of body

weight. Poloxalene can be added to liquid molasses supplements, molasses blocks and mineral or grain supplements, but getting animals to eat the proper amount is often a problem, explains Herd. Whatever supplement is used should contain no nonprotein nitrogen (NPN) such as urea and little natural protein, he cautions, because supplemental nitrogen will only aggravate the bloat problem.

One effective way to deal with bloat is to remove cattle from bloat producing pastures and to feed hay or a combination of hay and grain until pastures can

## Savory Lamb Loaf

6 Servings

- 1-1/2 cups dry bread crumbs
- 1/2 cup chopped onion
- 1/4 cup chopped mushrooms
- 1/4 cup chopped green pepper
- 1-1/2 teaspoons salt
- 1/2 teaspoon ground pepper
- 1/2 teaspoon crushed rosemary
- 2 eggs, slightly beaten
- 1/2 cup milk
- 1/4 cup chili sauce
- 2 pounds ground lamb

In large mixing bowl, combine all ingredients except lamb. Mix very well. Add lamb and mix just until blended. Shape loaf and place in baking dish or place lamb in 9x5x3-inch loaf pan. Garnish top of lamb loaf with green pepper rings and mushrooms, if desired. Bake in oven preheated to 325 degrees F. for one hour.

Long-term credit that's productive.

## OPEC Countries Meet in Geneva and Reagan Proposes \$5 Excise Tax

The oil minister of the OPEC countries met in Geneva but could not reach agreement on production or prices. Saudi Arabian Minister Yamani called the meeting a "complete failure." Most observers

don't think that there will be a price war, but do expect some drop in the price for oil.

The main problem dividing the OPEC countries is the setting of production. Most of the countries don't

want to cut production because it would reduce their income. And, many of those countries have large foreign debts to pay. But, as long as there's an oversupply of oil in the world, the price will stay down.

President Reagan has proposed a 5 dollar a barrel excise tax on both domestic and imported oil beginning October 1st, 1985 under certain conditions. The tax would go into effect only if the deficit is projected to

exceed 2.5 percent of the gross national product and only if the economy is growing, not in recession. And, the U.S. Supreme Court has said it will not make an early ruling on the constitutionality of the so-called windfall profits ex-

cise tax. In the Permian Basin our rig count for the week of week it was 306. One year Jan. 30, was 284. Last ago it was 478.

## Permian Basin Petroleum Association Energy Report

Treasury Secretary Donald Regan said the Reagan Administration is considering a seven dollar a barrel excise tax on oil. According to news reports, it would mean an increase of at least 16 cents a gallon for gasolining and heating oil. The Reagan consumer oil excise tax would be used

to help lower deficits in future years. If the tax is not passed and the budget isn't cut considerably, the 1988 deficit could be \$300 billion dollars, according to one source.

In other news, the Texas Public Utility Commission adopted a rule to end automatic pass-through of

fuel cost on electric bills. However, the commission chairman predicted that it will not mean lower electric bills. Beginning April first, electric companies will have to estimate their fuel costs a year in advance, justify the costs at a public hearing and get P.U.C. approval before increasing

rates. Also, most major oil companies will pay one dollar a barrel less for their oil. There is no official word on what the OPEC countries plan to do.

And finally, The Texas Alliance for Human Needs has called for an increase in the Texas oil severance tax

from 4.6 percent to five percent to help pay for a 173 million dollar loss in federal funds to the state.

In the Permian Basin our rig count for this week is 276. Last week it was 284. One year ago it was 483.

## Bob Bullock Holds Checks

State Comptroller Bob Bullock said he has \$1.5 million worth of state checks he can't give the people they're made out to because these people owe money to the state.

"The law says I can't issue a state check to anyone indebted to the state and I intend to collect every penny due before I turn loose of this money," Bullock said.

About 71 percent of the 5,000 checks Bullock is holding can't be sent to the payees because they are behind in their sales or franchise taxes. If these delinquent taxpayers would pay their overdue taxes, Bullock would release checks worth \$899,000.

Bullock said there's almost \$630,000 frozen because people haven't repaid loans obtained under the Hinson-Hazelwood and National Direct Student Loan programs.

"There are 101 retired state employees who have a total of \$40,338 coming to them if they'll pay up," Bullock continued.

"There's also \$516,019 due 866 retired teachers and \$31,089 due 67 state employees."

He said \$5.3 million owed Texas has been collected since 1978 when the law became effective.

With rising food and energy prices, freezers provide an easy and economical way to save money. Here are some tips from Whirlpool home economists that can help you get the most from your freezer:

- Keep the freezer fairly full and keep door openings at a minimum.

- Use air-tight packaging and wraps designed specifically for freezing. Food quality and flavor can be lost through improper wrapping.

- Cook in larger quantities than you need and freeze the excess for later use.

- Use your frozen foods. A steady turnover of food into and out of the freezer makes the best use of food, electricity and space.

## New DuPont Plant to Conserve Energy

A massive new multi-million-dollar Du Pont plant is going up at Victoria, Tex., to produce adiponitrile, a nylon intermediate. The huge investment is justified because the plant embodies a new process, developed by Du Pont scientists, which reduces total energy consumption by almost half compared to an older process. The new technology uses a catalyst to react butadiene directly with hydrogen cyanide, whereas the original process required the introduction of caustic and chlorine. Another plant using the catalyst technology is already in production at Sabine River Works near Orange, Tex., but the newer Victoria plant is even more efficient.

# Eighteen 4-H Members to Attend the Houston Livestock Show

Travis Smith, son of Mr. and Mrs. Hoy Smith, won Champion Angora Goat at the Kimble County 4-H Youth Show. His nannie kids placed 1st and 2nd at the show. The goats were bred by Corky Schwiening of Sonora. Travis is the grandson of Mr. and Mrs. George Schwiening of Sonora.

Eighteen 4-H members from Sonora will be participating in the 1983 Houston Livestock Show and Rodeo February 19 - March 6. Carrying market lambs are:

Anita Balch, Anna Balch, Abe Caruthers, Keyes Caruthers, Cathy Doran, Cindy Doran, Mike Friesz, Cleve T. Jones IV, Rebecca Powers, Stephanie Powers, Christi Spain, Blake Skyes, Jack Skyes, Marshall Tyler, Brandy Wallace, Espy Whitehead, Kelly Whitehead, and Lea Whitehead.

"Our 1983 Show is going to be another spectacular event," noted Show President E. Norwin Gerhart. "With the combination of the finest livestock found anywhere, thousands of hard-working 4-H and FFA exhibitors, an exciting championship rodeo in the Astrodome and 17 of the biggest names in the entertainment world to perform here, the Houston Rodeo in 1983 just can't be beat!"

The world's championship bar-b-que contest celebrates its tenth anniversary this year, highlighting two days of colorful and crowd-pleasing contests. These include men's and ladies' hay-hauling contests, three fiddlers contests, a whistler's contest and two days

educational and entertainment spectacular with a two-week schedule of events to appeal to everyone. In addition to the livestock show, there's the National Cutting Horse Association World's Championship Finals, a world's championship rodeo, a host of exciting contests that kick off Go Texan Days in fun-filled fashion and the rodeo parade to lead things off.

On February 19, the first weekend of activities begins in grand style with the rodeo parade at 10 a.m. through downtown Houston. This parade, with more than 6,000 riders, colorful floats, bands and dignitaries, gets everyone ready to Go Texan.

Monday, February 21, marks the start of actual competition in the world's largest livestock show. The first week is devoted primarily to open show competition, drawing professional breeders and ranch owners from some 35 states to show the best in breeding beef, dairy, swine, poultry, sheep, Angora goats and rabbits.

of horseshoe pitching tournament action. There's even a spectacular fireworks display on Saturday night!

At the horse arena, the National Cutting Horse Association World's Championship Finals will take place, February 17 - 20. The finest cutting horses will compete for the title in open and non-professional divisions, hoping to capture glory, as well as a part of the biggest added money cutting purse ever. Tickets to this event are separately priced at \$6.00 each and may be bought through the rodeo ticket office.

During the second week, junior show exhibitors take over the vast exhibition facility. Traditionally accounting for more than 65 percent of all show entries, the Astrodome is filled to capacity with the results of hard work by youngsters who have their hopes set high at Houston. While junior show competition includes breeding stock, commercial steers and dairy animals, the real spotlight is on the market divisions, where a grand champion can mean an education or a future in agriculture.

There is some junior competition this week as well-breeding sheep and goats and the junior dairy show.

The Horse Arena is filled from February 17 through March 6 with more than 3,000 horses entered in nine shows, including the NCHA world's championship finals. To accommodate all the horses entries, competition here begins earlier than ever.

During the second week, junior show exhibitors take over the vast exhibition facility. Traditionally accounting for more than 65 percent of all show entries, the Astrodome is filled to capacity with the results of hard work by youngsters who have their hopes set high at Houston.

While junior show competition includes breeding stock, commercial steers and dairy animals, the real spotlight is on the market divisions, where a grand champion can mean an education or a future in agriculture.

The Houston Show holds the world's record for

prices paid for all grand and reserve grand champions in each of its five market divisions. With the 1982 Grand Champion Steer bringing \$127,000, it's easy to see why Houston is the place to be.

Community support, volunteer action and civic involvement assure that junior exhibitors will receive prices above market for their animals who make the premium auctions. These same individuals and business also donate \$600 calf scramble certificates for the winners of scramble heifers in the Astrodome's exciting contest.

Across the street at the rodeo in the Astrodome, action is fast and furious as the top professional cowboys and barrel racers pit their skill against the clock and the roughest, toughest rodeo stock anywhere.

Chuchwagon races, the calf scramble and a top star of the recording industry make the Houston Rodeo a total entertainment experience for the whole family.

## Southwest Farm and Ranch Show Presents Designer Fashions

Designer fashions made from Texas natural fibers will take over a portion of the second day, Saturday, March 5, during the Southwest Farm and Ranch Exposition.

Ann Vanderpoorten, Clothing Specialist, Texas Agricultural Extension Service, has announced that the Natural Fibers Fashion Review will be held Saturday afternoon at 4:00 p.m. in the Tarrant County Convention Center Theater.

This is the twelfth year for this exciting showcase of apparel created by home designers.

There will be four divisions in the contest: mother and child; daywear; evening wear; to include formals and cocktail dresses; and a special division for former Grand Champion Award winners.

Each complete ensemble must be made of a minimum blend of 50 percent cotton, wool, or mohair up to 100 percent natural fiber.

Silk and linen are not considered as natural fibers for the purpose of this contest", Vanderpoorten said.

Each ensemble entered in the contest will be designed, made and modeled by the contestant, with the exception of the child's garment.

Attendance at the

Natural Fibers Fashion Review is free and open to the public.

The fashion review is just one of many activities held during the three days of the Southwest Farm and Ranch Exposition.

In addition there will be, on Friday, a New World of Agriculture Forum featuring top horse breeders and horse management specialists, in a program designed to update all horse enthusiasts on the latest techniques in breeding and horse management.

Also, there will be a Future Farmers of America Tractor Mechanics Contest on Friday, with FFA Chapters from schools all over the state competing for prizes in a three tier contest with finals for the event being held in the Tractor Pull Arena at 6:00 p.m.

The main attraction will be the Southwest Farm and Ranch Exposition, with

over 200,000 square feet of the latest farm and ranch supplies needed by farmers and ranchers throughout the Southwest.

In connection with the Southwest Farm and Ranch Exposition, there will be a championship horse, truck, and tractor pull each evening of the show.

The horse pull will be a first for the Southwest and will feature Belgians ranging in teamweight from 3,600 pounds to 4,600 pounds.

There will also be a class of four-wheel drive modified trucks pulling each evening, in addition to the classes of hot-rod tractors.

Tickets for the tractor pull may be ordered from the Southwest Championship Tractor Pull, Box 5243, Arlington, Texas 76011 or by calling Metro 265-0789.

All locations of Ticketron will handle Horse, Truck and Tractor Pull tickets.

"We know that the Houston Show is an annual family event for fans from all across the state," said Gerhart. "And, it's still as affordable as ever, with ticket prices remaining at \$4.00 and \$8.00, just as they were in 1982.

Attending the Houston exhibitors alike. Renown as the most prestigious

event in the livestock industry, the Show attracts the finest livestock in both the open and junior show divisions. And, with more than half a million dollars in prize money and premium auction prices above market value, the Show once

again offers exceptional rewards for all the hard work involved in raising an animal to win a blue ribbon from Houston.

However, the 1983 Houston Livestock Show and Rodeo is truly an

STATE OF TEXAS)  
COUNTY OF SUTTON)

Before me, the undersigned authority, on this day personally appeared Joyce D. Chalk  
County Treasurer of Sutton County, who by me duly sworn, upon oath, says that the within and foregoing report is true and correct.

Sworn to and subscribed before me, this 10th day of January, 1983

(SEAL)

By \_\_\_\_\_ Deputy.

Joyce D. Chalk County Treasurer.

Edward Lee Jones Clerk,  
County Court, Sutton County, Texas.

### GET PAID FOR YOUR MILITARY EXPERIENCE.

If you're not using your military experience, you're missing a chance to earn extra money. As a veteran from any service, you could start earning \$70 or more one weekend each month in the Army Reserve. Join within 30 months of your discharge, and you get back your old rank. Put your experience to good use, for your community and yourself. Call your Army Reserve representative, in the Yellow Pages under "Recruiting."

ARMY RESERVE. BE ALL YOU CAN BE.

Easy opening for clams and oysters. Wash in cold water and store in a plastic bag in the freezer for an hour.

## 4-H, A Place to Learn

4-H projects are where the "real" learning takes place. 4-H offers exciting projects and activities for every young person between the ages of 9 and 19 who has a curious desire to learn, says Charles Gardner, Extension 4-H and youth specialist with the Texas Agricultural Extension Service, Texas A&M University System.

4-H encourages "learning-by-doing" and provides citizenship and leadership skills. 4-H wants to involve all youth—rural, urban, suburban, teens and pre-teens, and from all races, creeds, ethnic and economic backgrounds. 4-H youth learn, work and play together. In 4-H, young people can learn how to make things, grow things, take care of things and repair things in a wide variety of projects. And the great part about the whole program is that 4-H youth can select what they want to do. Projects include things such as

nature study, wildlife, entomology, animal science, beef cattle, horse, dog care, plant science, gardening, field crops, home economics, foods and nutrition, clothing, automotive, bicycle, small engines, mechanics, electricity, personal development, citizenship, leadership and public speaking. 4-H has a lot to offer. So if you have a desire to learn and want to get involved in an action oriented program, contact the county Extension office, suggests the specialist.

Whether or not a farmer decides to participate in the new payment-in-kind (PIK) program this year depends entirely on his individual situation, says and economist with the Texas Agricultural Extension Service, Texas A&M University System. "Each farmer has got to assess his own operation and his current financial situation, and he's got to 'put the pencil' to all the different parts of the program as they apply to his business," says Dr. Ron Knutson. "There is no substitute for working through the program and making all the calculations you possible can at this point."

## PIK Program, Designed to Help Farmers

The Extension Service has prepared a special worksheet that can help farmers with their calculations. The worksheet is available through county Extension agents. "Farmers need to know their variable costs, which are crucial in determining participation in PIK," emphasizes the economist. "If a farmer is just covering variable costs in his crop production, participation will likely pay." Of course, farmers need to be sure to consider

deficiency payments when they're making their calculations, emphasizes Knutson. Such payments are based on the difference between target prices spelled out in the farm program and actual average market prices. These payments could be substantial this year, particularly for wheat and cotton. However, deficiency payments can be made only on planted acres, so this makes participation in the PIK program less attractive. "If a producer has a tight profit margin, he's a good candidate for participation in the program," believes Knutson, "while participation might be questionable for a farmer with a wider profit margin."

able expenses for herbicides and fertilizer into the land in preparation for planting (mainly, southern and coastal areas)," Knutson says. "Cotton farmers will need to look closely at their operating costs in making a decision while wheat farmers may find it difficult to participate at any level. Rice growers will need to consider participating at the 80 percent or higher level."

Basically, the PIK program is designed to take cropland out of production and to pay participating farmers with surplus commodities—a cotton farmer who participated would be paid in cotton and a corn farmer would receive corn, for example. The farmer can dispose of the commodity in any way he sees fit other than putting it back in government storage. "In other words, the program is aimed at reducing farm product sur-

pluses and eventually raising prices," says Knutson. "Just what effect it will have on prices depends on a lot of things, such as the degree of farmer participation and possible major foreign sales." PIK commodities will first become available in the fall, at which time market prices could soften, particularly if farmer participation in the program is low.

Knutson advises farmers to seek all the information they can get their hands on regarding the new PIK program. County ASCS officials will be administering the program and should have the latest information available as it comes from the U.S. Department of Agriculture. Changes are still likely regarding various details about the program, since the USDA has until Feb. 25 to issue final regulations. The signing deadline for farmers is Mar. 11.

## The Consumer Alert

by Jim Mattox  
Attorney General

AUSTIN—An average of almost 100 car thefts are reported in this state every day of the year. And despite the coordinated efforts of local and state police, only 80 to 85 percent of stolen cars are recovered for their owners.

There are several ways in which vehicle owners can help to prevent car theft.

In fact, one precaution is required by the state law, which dictates that the operator of an automobile must take four steps when leaving a vehicle unattended: 1) Stop the engine; 2) lock the ignition; 3) remove the key from the ignition switch, and 4) set the parking brake. Also, by law, if the car is on a grade, the operator must turn the front wheels to the curb before leaving it.

Ordinary prudence would prompt a person also to roll up the car windows and lock the doors, and to be certain not to leave any valuable articles in view.

It is also advisable to park your automobile in as public and well-lighted a place as possible. Avoid side streets and dark alleys. Do not hide an extra key under the floor mat, in the sun visor, under the seat or any other "safe place." It has been estimated that more than 10 percent of cars are stolen by the use of the owner's own keys. Keep your car locked even when it's in your own driveway or garage. Most car thefts, including the "borrowing" of cars for "joy rides," oc-

cur in residential areas at night.

It's a good idea to keep records of your state plate number as well as your motor vehicle identification number in handy places, such as your wallet and your place of business, to speed police procedures in the event your car is stolen.

In that case, report the theft immediately to the nearest law enforcement agency—your police department, your local sheriff, or the Department of Public Safety.

The enforcement agencies will quickly feed information about the loss and a description of your vehicle into the statewide Texas Crime Information Center Computer. Then the report will be entered with the F.B.I.'s National Crime Identification Center.

Commercial, or organized, car theft operations do not limit themselves to the boundaries of a city or a state. And car thefts are a big business. Your state and local enforcement officials keep strengthening their cooperative efforts, with each other and the F.B.I., to protect Texas consumers against auto theft and related crimes, such as the stealing of auto license plates. You can help, too, by making the car thief's work harder by taking the suggested preventive measures; by being on the lookout for any suspicious activities; and by making an immediate report to police authorities if your car is stolen.

## Coldwater Creek Found in Contempt of Court

Coldwater Creek Operating Inc. of Iowa Park has been found in contempt of court by a Wichita County district court judge for violating a court injunction ordering the company to correct oil and salt water pollution problems in Wichita County.

Coldwater Creek will be fined \$100 per day, after Feb. 14, for each day that work is not done to fully seal and repair wells No. 2 and No. 5 on the company's Foster lease. The court also ordered Coldwater Creek to comply with all other provisions of the temporary injunction issued last Oct. 7.

The October injunction required Coldwater Creek to empty and no longer fill leaking oil storage tanks until they are repaired, seal

and repair the two leaking wells, repair leaks in flow lines on the lease, and remove oil and salt water from pits near the two wells. The company was given six weeks to comply with the terms of the injunction.

The action was the result of a July 1982 inspection by Railroad Commission field investigators. They documented oil and salt water on the ground near wells and storage facilities, as well as active leaks in some areas. Last August the Commission referred the company to the Texas Attorney General for prosecution for violations of the Texas Water Code, the Texas Natural Resources Code, and Commission rules.

## Taxpayers Who Move Expecting Refund Should Notify IRS and Postal Service

If you move after filing your federal income tax return and you are expecting a refund, notify the post office serving your old address as soon as possible, the Internal Revenue Service says. The IRS Service Center where your return was filed

should also be notified in writing of the address change. This will help the IRS to forward any due tax refund to the new address as soon as possible. When advising the IRS of your address change, your Social Security number must be included in the correspondence.

## Itemizing Deductions Save Tax Dollars

Double check, the IRS says. You may pay less tax by filing Form 1040 because you can claim itemized deductions that cannot be claimed on Form 1040A or 1040EZ. Charitable contributions, interest, certain nonbusiness taxes, medical and dental expenses, certain losses,

and other expenses may be itemized as deductions on Schedule A (Form 1040). The IRS says that some taxpayers must itemize their deductions and some should itemize their deductions because it will save them money. Check the instructions in your tax return package for details.

## Filing Tax Returns On the Deadline—A Tradition to Break

Most every family has its own Thanksgiving, 4th of July, and birthday traditions. Similarly, most taxpayers have their own Federal income tax return filing traditions.

Basically these taxpayers fall into one of two categories. The first category is that of the "Eager Beavers." They are the ones who file around the end of January—just as soon as they have gotten their tax return packages and Wage and Tax Statements.

The other group is the "Last-Minute Finishers." These are the people who spend their April 15's, every year, completing their returns and visiting the post office.

The Internal Revenue Service does not expect you to completely change your ways nor would it be advantageous for everyone to file at exactly the same time. But if you are one of those taxpayers who usually waits until the last minute you might find that filing earlier—even if only a week or a few days earlier—could make a big difference. For one thing, if you are expecting a refund—you will get it that much sooner. Additionally, by not procrastinating for quite so long you will probably be more relaxed and take more time in completing the form. Not rushing will lessen the possibility of making an error which could delay a refund and could help you discover credits or deductions for which you qualify.

Of course, there are many taxpayers who file close to the filing deadline because they must wait for certain necessary forms like the W-2, "Wage and Tax Statement," or 1099, "Statement of Dividends or Interest." The Internal Revenue Service advises these taxpayers who do not receive their statements by January 31 to contact the employer or payer and request that the form be issued. Taxpayers who still have not received their W-2's by February 15 should call the IRS toll-free telephone number for their area.

If you are waiting for Forms 1099, you should know that it is not necessary to attach this form to your completed returns. All that is required is the payment information from the forms; so if you have kept accurate records or can get the information

from the issuing company, you can file without having received the form.

In addition to helping you file early, keeping good records may afford you welcome tax benefits when tax time rolls around by reminding you to claim an expense you might have overlooked.

Homeowners, for example, can claim the energy conservation credit if they insulate or weather strip their homes. The receipts for these expenditures will assist in determining the correct credit as well as serving as documentation.

Other useful receipts, which can be used for itemized deductions, include those for interest on personal loans, finance charges on bank credit card bills and department store accounts, and receipts for state and local income taxes. Keep receipts for stock transfer taxes and sales tax on cars, trucks, motorcycles, airplanes, boats, and mobile homes, as well as general items. These taxes may be deductible.

In the case of divorced parents, the IRS suggests a careful diary of contributions be kept for a child's daily expenses to document support. In certain situations, the parent or person providing more than 50 percent of the child's support can claim the child as a dependent, and thus qualify for a \$1,000 exemption. In some instances, where both parents attempt to claim the exemption, a difference of as little as five dollars can determine who is entitled to it.

If your job requires special uniforms, union dues, or other related items, or if you're planning on job hunting or moving for employment reasons, the IRS says you may be able to claim these expenses on your return. You may also claim expenses for professional journals, contributions to non-profit educational institutions, and charitable or religious organizations. So records are important here, too.

The important thing to remember about filing your Federal income tax return is to file by April 15. If possible, though, file earlier and keep good records during the year; it has its advantages.

## Jan. Oil Discoveries

Railroad Commission Chairman Mack Wallace has announced that Texas operators reported 93 gas and 60 oil discoveries in January 1983.

One year ago, 121 gas and 43 oil discoveries were filed with the state's energy regulatory agency.

Gas discoveries in January included 38 in deep South Texas, 15 in Southeast Texas, 12 in West Central Texas, six in East Texas, five each in North Texas and the Midland and Refugio areas, three in East Central Texas, and two in the San Antonio and San Angelo areas.

Oil discoveries included 17 in West Central Texas, 10 in North Texas, eight in Southeast Texas, six in the San Angelo area, five each in deep South Texas and the Midland area, four in East Texas, two in East Central Texas, and one each in the Panhandle and the Lubbock and Refugio areas.

In January, operators reported 620 exploratory and field tests wound up as dry holes. New applications for permits to drill oil and gas tests totaled 2,385 in January compared with 2,862 in January of 1982.

Applications to drill, deepen, plug back and for service wells in January amounted to 2,697 against 3,099 a year earlier.

Operators filed 782 amended applications to drill. A year earlier they submitted 791 amended requests.

## Tax News

Newlyweds and others who changed their names last year should report their new name to the Social Security Administration (SSA). The name and Social Security numbers on tax returns are matched with those of the SSA in processing the returns, and mismatched numbers or names can delay a refund, IRS says.

Another good way to guard against unnecessary refund delays, the IRS says, is to use the peel-off identification label provided with the tax package. If the name, address, or Social Security number is incorrect, changes can be made directly on the label.

The first full Technicolor film was *Vanity Fair* in 1935. The future Pat Nixon was in it as an extra.

## Odd Jobs

Looking for small carpenter jobs. Putting up paneling; Grass mowing; small plumbing jobs; odd jobs. Call 915-387-2735

## COOKIE SNOWBALLS: TO SERVE—TO GIVE

It's cookie-baking season. Trays of irresistible Coconut Cookie Snowballs promise delicious eating for holiday company. Think of the satisfaction, too, when you earmark a few dozen for gift giving. These rich butter cookies call for just a few ingredients, among them moist, delicate flaked coconut to be enjoyed throughout the cookie. Confectioners sugar glaze complements the cookie gems which are covered with tinted flaked coconut.

### COCONUT COOKIE SNOWBALLS

- 1/2 cup butter or margarine
- 2 tablespoons unsifted confectioners sugar
- 1/2 teaspoon vanilla
- 1 cup unsifted all-purpose flour
- 1-1/3 cups (about) Baker's Angel Flake coconut
- Confectioners Sugar Glaze

Cream butter. Add sugar and vanilla; beat until light and fluffy. Add flour, all at once, and blend well. Mix in 2/3 cup of the coconut. Chill 15 minutes; then shape into 1-inch balls. Place on ungreased baking sheet and bake at 350° for 15 minutes, or until lightly browned. Cool. Tint remaining coconut with food coloring as directed on package, if desired. Dip cooled cookies in Confectioners Sugar Glaze, then in the tinted coconut. Makes 2-1/2 dozen.

Confectioners Sugar Glaze. Add 1 tablespoon (about) hot milk or water to 1 cup sifted confectioners sugar in bowl. Makes 1/3 cup.

## WATCH YOUR ENERGY

HEAT PUMPS ARE REMARKABLE ENERGY-SAVING DEVICES. HERE ARE SOME FACTS YOU MAY NOT KNOW YOUR HOUSE CAN BE CLEANER IF YOU USE A HEAT PUMP. THE CIRCULATING AIR IS FILTERED TO REMOVE FOREIGN MATTER. THE HEAT PUMP ALSO ACTS AS AN AIR CONDITIONER IN SUMMER...THEREFORE IT CONTROLS THE HUMIDITY, REDUCING THE HOUSE'S MOISTURE.

CONTENT. HEAT PUMPS CAN BE USED TO HEAT HOT WATER. IT'S DONE BY ADDING A RECOVERY DEVICE OR HOT WATER GENERATOR THAT UTILIZES THE WASTE HEAT FROM THE PUMP'S COMPRESSOR. THESE TIPS ARE FROM THE NATIONAL ENERGY WATCH—THE ENERGY EFFICIENCY PROGRAM FROM THE ELECTRIC UTILITY INDUSTRY.

## KNOW WHO REPRESENTS YOU
