## Natural Gas Well Explosion Injures Three... First Time In Nine Years

A natural gas well exploded here Wednesday, March 30 and three people were injured. They were identified as Gary Gamboa, 19, Marty Wolfe, 21, and Jose Muzquiz, 26. The men were being observed for possible smoke inhalation. All three received second-degree burns over less than 20 percent of their bodies. All were listed in serious but stable

condition in the surgical intensive care unit at the Lubbock General Hospital.

The rig, belonging to Tom Brown, Inc., of Midland and supervised by Travis Gordon, collapsed about 11:30 a.m. There were approximately 45 men fighting this raging fire.

The fire started shortly before 7 a.m. at the No. 2 Hill Randee Fawcett Trust "A" well, located on

the Fawcett Ranch about 10 miles out of Sonora on Highway 277 South.

About 3 p.m. the Red Adair Co. extinguishing team and officials of Brown arrived at the blast.

This was the first rig blowout in Sutton County in nine years. The damage cost of the explosion and the cause of the explosion, was still unknown last Wednesday.

John Tedford and Kiki Lopez, assisted by his father, Lemuel Lopez, Board of Directors, participate in the SCNB Groundbreaking. Onlooking the event were A.W. Bishop, Walter Pope, Hershel Davenport, Randee Caruthers, Doyle Morgan, and W.B. McMillan.

## Sutton County National Bank Starts It's New Development

more on pg. 12

Groundbreaking Ceremonies marking the formal beginning of construction were held Thursday, March 31st, at the Highway 277 North Location in Sonora.

The Board of Directors that organized the bank in 1982 performed the ritual turning of the soil.

The new building will be approximately 8,000 square feet in area and

will be designed for future expansion to meet the needs of a growing community.

The building, designed by Architect Kilian Fehr of the firm Emerson and Fehr of Austin, Texas provided for a structure of nature stone. The building contractor is Templeton Construction Co. of San Angelo.

A.W. Bishop, President of the

Sutton County National Bank said "We're very pleased with the response we've had from the citizens of Sonora and the surrounding area."

"The Sutton County National Bank is a community bank established to support the economic growth and development of the area and to respond to the community needs."

## Voting Results for Sutton County

On Saturday, April 2, the voters of Sutton County went to the voting polls and cast the following votes:

A total of 122 votes were cast in favor of bingo, 53 were against.

In the race for City Council Aldermen, Hershel Davenport, Matt

Davenport, and Lemuel Lopez were re-elected. H. Davenport received 275 votes, M. Davenport, 205 votes, and L. Lopez, 221 votes.

Defeated Alderman candidates included Margaret A. Cascadden with 149 votes, Evelyn Rogers, 61

votes and Tom Clifton, 88 votes.

In the School Board Race, Sammie Stewart won Place 5 with 436 votes, Kenneth Cayce captured 297 votes to 238 for Pete Gomez in the Place 6 race and Jimmy Condra received 437 votes for Place 7.

## Kathryn Parker Wins Conservation Essay Contest for 1983

The Edwards Plateau Soil and Water Conservation District presented five awards, each in the Sonora Jr. High and High School for the top Conservation Essays for 1983.

The board of directors added a conservation poster contest this year. These winners received ribbons for their winning posters.

Mr. Joe Stevens, retired Wildlife Biologist from Clifton, Texas pre-

sented a program to the Jr. High on Mountain Lion hunting and bear hunting in Arizona. He explained the habitat, food, requirements and other interesting information about the mountain lion and bear.

Stevens presented a different program to the high school. He told students about Texas Fur Bearers and their importance to the local economy. He ended the program by

describing a coon hunt. The Edwards Plateau Soil and Water Conservation District directors want to thank the students, teachers, and administration of the Sonora District for their help and participation in the Soil and Water Conservation contest.

Kathryn Parker was the winning essay for 1983, Texas Conservation Awards Program and was entered in the Area II contest.

## Congressmen Loeffler Announces Wool Import Duty

Congressman Tom Loeffler announced that the U.S. Department of Commerce has imposed an import duty of 4.65 percent on wool brought into the United States from Argentina.

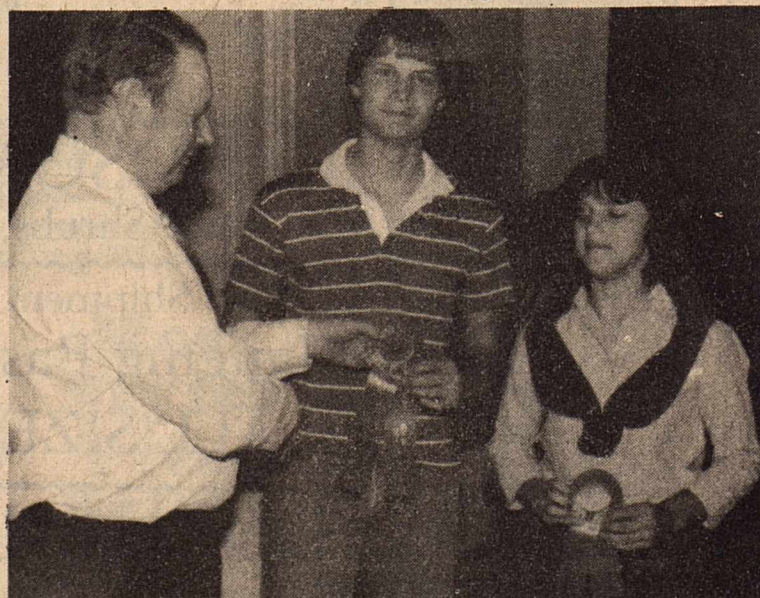

The action comes in response to a petition filed by the National Woolgrowers Association and legislation introduced by Congress association and legislation introduced by Congressman Loeffler which contended that Argentina employs a system of rebates, tax incentives and other bounties to unfairly subsidize wool exported by that country.

When he originally introduced the legislation, Loeffler stated "If we desire to restore balance to the

international system of trade, we must let out resolve be known and we must send a message to those countries which are playing fast and loose with the rules. I cannot think of a better place to start that message than with imported wool."

In announcing the decision, Loeffler added, "I have always supported free trade, so long as it is fair trade. This determination will ensure that our domestic wool industry no longer suffers from the unfair trade being practiced by Argentina."

The announcement by the Department of Commerce will apply to wool entering the United States after January 14, 1983.

Best In Show. Virgil Polocek presents top conservation poster awards To Wayne Hill and Carrie Craddock.

Conservation Essay Winners. Joe Mata-5th, Nancy Benson-4th, Lisa Webster-3rd, Mike Polocek-2nd, and Kathryn Parker-1st They all received plaques from V. Polocek

## Obituaries

### Derrel Allen Alley

Derrel (Warty) Allen Alley, 51, of Owensville Rt. 7, Sonora, Texas died Sunday night.

Services were held at 2 p.m., Tuesday, March 29, 1983 at St. John's Episcopal Church with the Rev. Ray Nations officiating. Burial was at the Sonora Cemetery under the direction of the Kerbow Funeral Home.

Mr. Alley was born near Johnson City on September 27, 1931 and moved to Sutton County as an infant, where his family was in the ranching business. He graduated from Sonora High School in 1949, and went on to Texas A&M for two years. Mr. Alley then served in the Armed Forces, before graduating from Texas Tech in 1957. He then went to work for the U.S. Department of Agriculture in 1961, where he was among the first to work

on the Screwworm Eradication Program. After 11 years of service he retired from the government and moved to Sonora to run his mothers ranch.

Survivors include his mother, Myrl Ally of Sonora; three children, Sarah, Suzanne Whitworth of Sonora, John Scott Ally of San Angelo, and Derrel Steve Alley of Sonora; one brother, Eugene Alley of Midland; one sister, Ethel Mae Olson of Sonora; one niece, Lorie Hickman of Big Lake; one nephew, Eric Olson of Alpine; one granddaughter, Lindsay Ann Whitworth of Sonora.

He was preceded in death by his father, J.V. Alley, and one nephew, Robert Alley.

Pallbearers were Harold Schwiening Jr., Phillip Thompson, Scott Shurley, Dickie Street, and Souli Shanklin, and Eric Olson.

### Domingo Gutierrez

Domingo Gutierrez, 65, of Sonora, died Monday in Hudspeth Hospital.

Services were held Thursday at 1:30 p.m. in St. Ann's Catholic Church with Father Gilbert Rodriguez officiating. Burial followed in Sonora Cemetery under the direction of Kerbow Funeral Home.

Mr. Gutierrez was born April 1, 1917 in Brady. He married Maria Ibarra in Jimenez, Mexico in 1940. He moved to Sonora from Del Rio in 1950, and was a sheep shearer, employed by Ben Castilleja. Previ-

ously employed by Lee Fawcett for many years.

Survivors include his wife of Sonora, three sons; Domingo Gutierrez Jr. of El Paso, Robert Gutierrez of Houston, Oscar Gutierrez of Sonora; two daughters; Gloria Badillo of San Jose, Calif., Mary Mae of Santa Fe, N.M.; three brothers; Roque Gutierrez of Washington, Encarnacion Gutierrez of Sonora, Antacelo Gutierrez of Mexico; three half sisters; Josephina DeLeon, Santos Leon, Manuela Espinosa, step

In a 70-year lifetime, the average person eats 880 chickens, 12 sheep, 770 pounds of fish and 35 turkeys.

Dr. Don Williford

### "Lions Journey for Sight"

For the past several weeks, members of the Sonora Lions Club have been soliciting pledges from local residents for the April 9th "Lions Journey for Sight."

Funds raised during the walk-a-thon will benefit the people of Sonora and Sutton County and will benefit traditional Lions Club sight programs. The money we raise will enable us to assist many more blind persons and, hopefully, prevent many more from losing their sight, said Club President Smith Neal.

Lions Clubs International is the world's largest service club organization, with more than 1.3 million members in 156 countries and geographical areas. Clubs operate or support most of the world's eye banks, dog guide training schools, eye research centers and vocational training centers. In addition, Lions Clubs provide many services directly to individuals in their communities.

Those wishing to walk in the Journey or who wish to make a pledge should call or come by the Sonora Junior High--387-3023 or the Sonora Middle School--387-5669.

## First Baptist Church to Hold Spring Revival

First Baptist Church, Sonora, invites the community to join in a Spring Revival, April 10-14, 1983. Services will begin on Sunday morning at 10:50 a.m., and end on Thursday evening. Dr. Don Williford, pastor of the First Baptist Church, Brownwood, will be the evangelist, and Deborah Collins, music and youth director of the First Baptist Church, Sonora, will direct the music. Ms. Carolyn Hataway of Kerrville will

be the pianist. A native of Bangs, Texas, Dr. Williford is a graduate

of Howard Payne University in Brownwood, and holds both the Master of

Divinity and the Doctor of

Mrs. Jan McClelland Glasscock and son J have returned to El Paso. Jan teaches school and works with a Real Estate and Insurance Co.

Mrs. Vestal Askew and Mrs. R.A. Halbert were in San Angelo Tuesday.

## Preccia Miller Named 1983 USA Award Winner

The United States Achievement Academy announced that Preccia Miller has been named a 1983 United States National Award winner in band, basketball, cheerleading, leaderships, student council, and tennis.

This award is a prestigious honor very few students can ever hope to attain. In fact, the Academy recognizes less than 10 percent of all American high school students.

Preccia Miller, who attends Sonora Jr. High,

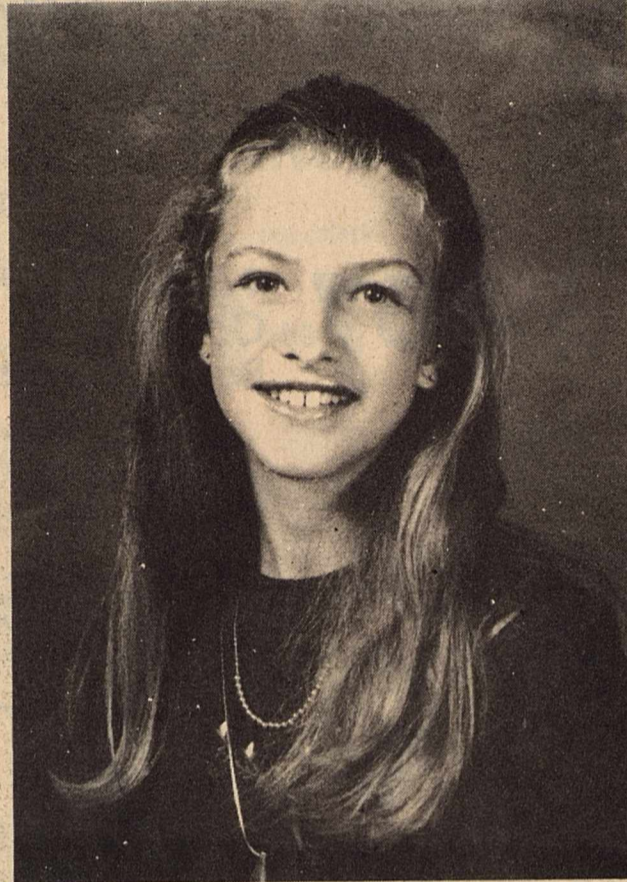

was nominated for this National Award by Mrs. Ronnie Cox, student council sponsor. Mrs. Cox is a member of the Sonora Jr. High faculty.

Miss Miller will appear in the United States Achievement Academy Official Yearbook, published nationally.

The Academy selects USAA winners upon the exclusive recommendation of teacher, coaches, counselors, or others school sponsors and upon the Standards of Selection set forth by the academy. The

criteria for selection are a students academic performance, interest and aptitude, leadership qualities, responsibility, enthusiasm, motivation to learn and improve, citizenship, attitude and cooperative spirit, dependability, and recommendation from a teacher or director.

Preccia Miller is the daughter of Mr. and Mrs. Jerry Johnson of Sonora, and Mr. and Mrs. Mike Miller of Ozona. The grandparents are Mr. and Mrs. J.B. (Buster) Miller of Ozona.

Preccia Miller

Fresh eggs are rough and chalky in appearance. Older eggs are smooth and shiny.

Girls District Tennis will be held in Sonora at 8:00 a.m. today April 6.

The National Honor Society is having a Brown Bag Luncheon April 6-be there.

April 7 is the date of Girls District Track of he held in Colorado City. Good Luck to all of you.

On Friday, the Golf Team goes to San Angelo to play at Bentwood County Club. Tennis players have a home Dual Meet at 4:00 p.m. with Big Lake.

Also, the District Literary Meet starts in crane with Sonora students entered in both journalist and literary events.

The Literary Meet continues on Saturday. Also the Boys' Varsity & JV Track Team go to Brady Saturday, April 9.

Boys' Freshman District Track Team goes to Ballinger on the same date.

On Monday, April 11, the National Honor Society will hold another Brown Bag Luncheon. What's going on?

Tuesday, April 12, is the date of the Sonora Golf Competition.

The One-Act play goes to Midland today. They leave with hopes and quiet confidence. Nobody else in Sonora wants the honor of winning Area One-Act as much as they. Nobody else will be leaving and arriving at such odd hours and in such uncomfortable veh-

icles as they will. No one has put in many hours of sweat, work and frustration that they have. This takes alot out of the group, for as Tino Martinez said, this kind of winning is different from football. Yes, it is similar in may ways. It takes teamwork, dedication, time, and a good attitude, but the goals are different. In football, its points.

But in the One-Act Play the sole purpose is to convey a message, an emotional impression, upon the judge and the audience. This purpose is not easy to execute. The play can be complex and have several messages at once being delivered. In order to do this, the cast members must stop being friends who attend school together, and suddenly be actors-no fooling around. They must study their character and the character around them, over and over, to understand how they should act and why. They must work together, forgetting their personal differences in their efforts to create an impact. Plus there's all that technical stuff, blocking and preps and crossing, etc., etc., which has to be downpat. It is bewildering to imagine the many good One-Act plays whose cast and crew have worked so hard and put so much into their play, their special message, and to go out and beat them. That's commendable. Good luck to cast and crew of The Basic Training of Pavlo Hammel.

# Alvis Johnson Heads 29th Cancer Crusade

The Sonora Unit of the American Cancer Society met at the home of Mary Barrows, Pres. Tuesday, March 29.

Plans for the kick-off of the 1983 Crusade were finalized. All volunteers are asked to meet and pick up their kits Thursday, April 7, between 2:00 and 5:00 p.m. in the Founders Room of the First National Bank. Refreshments will be served and a film shown.

We wish to thank the volunteers, also the citizens of Sonora for your help and support in the 29th Cancer Crusade in Sutton County. Asking yourself questions about your health and lifestyle, and giving answers or seeking them out, may help save your life," said Mrs. Alvis Johnson, Chairman of the Sonora Unit of the American Cancer Society today as she announced the educational and fund-raising Cancer Crusade beginning April 7.

"A person's risk of developing cancer increases with age. It depends on lifestyle and one's personal and family medical history," Mrs. Johnson said. "During the Cancer Crusade our local Crusaders will be

distributing a new pamphlet, 'Check your Health', that describes several important aspects of cancer risks or warnings," she said.

The simple red, white, and blue pamphlet has questions to be answered "Yes" or "No" by both men and women. For example, it asks "DO YOU SMOKE CIGARETTES?"; "Have any of your close relatives had colon or rectum cancer?"; "Do you have vaginal bleeding between men-

strual periods?"; "Was your first child born after you were 30 years old?";

It also includes a section that explains the significance of the answers. About smoking it says, "Your risk of developing lung cancer and other cancers, heart disease and emphysema increases, depending on how many cigarettes you smoke per day. If you do smoke and stop smoking now, your risk factors will decrease. Safeguard: 'Don't Smoke.'"

"We want to put a pamphlet in every home in Sutton County. If we do a really good job, there's a potential for saving lives right here at home."

Dorothy, Monty Yantis and Lou Faulks represented Sonora Unit at the District IV Cancer Crusade Kick-off in San Angelo, March 24, 1983.

## Trash Hauled Free, April 10-16

**Clean Up Sonora**  
Any citizens who would like to have trash hauled to the landfill during the week of April 10 through April 16 may call City Hall at 387-2558 and request the pickup. This service will be provided free of charge to encourage residents to

clean up their property. Any one interested in the pickup should place their trash in the alley behind their residence in plastic bags if possible. Everyone is urged to participate in the cleanup to help make Sonora an attractive city to

# Bentsen Provides IRS Hints

Now is the time to prepare income tax returns, if it's a chore you haven't tended to yet.

This year there will be several changes to watch

for resulting from passage of the Economic Recovery Tax Act of 1981.

**Individual Tax Rates** were reduced by 10 percent on July 1, 1982.

**Individual Retirement Accounts (IRAs)** may be counted as a deduction now

for some workers who already are covered by a pension plan. It's not too late to establish an IRA and get a deduction for it on last year's taxes. The deadline for doing so is April 15.

**Keogh Plan** deductions for self-employed individuals have been increased to a maximum 15 percent of income or \$15,000 whichever is less. Unfortunately,

it is too late to establish a Keogh for purposes of 1982 taxes, but it isn't too early to consider this for the 1983 tax year.

**The Marriage Penalty,** so called because married couples who are both employed often pay higher taxes than two single individuals earning the same income, has been reduced. Couples filing joint returns this year may be able to deduct up to \$1,500.

In another new feature, **Charitable Contributions** may be deducted up to \$25 (\$12.50 if married filing separately) for persons who do not itemize deductions.

**Child and Dependent Care** tax credits have increased in range up to \$720 for under \$10,000 income and up to \$480 for more than \$28,000 income for care of one child. For two or more children, the new ranges are \$1,440 and \$960, respectively.

Preparing income tax returns can be made easier by following several helpful tips recommended by the Internal Revenue Service.

It's better to start early on preparing tax returns so that if documents or records are missing there will be time to get copies. The more care is taken organizing and filing records during the year, the simpler preparation will be.

The IRS tax package is designed to be filled out in sequence. Reading the instructions carefully step by step should provide all necessary guidance.

When completed, check over the return before filing. One common error is copying the wrong dollar amount from the tax table, which could result in an incorrect bill for more taxes or delayed refund. Be sure to sign the return. On a joint return,

both husband and wife must sign. All signatures must be original, so if you file a photocopy of your return, be sure to sign it after the copy is made. Keeping a copy of the return is advisable.

The IRS provides a "hotline" service for anyone seeking advice on filling out a tax return. In Texas, the toll-free number is 1-800-424-1040.

At best, filing income tax returns is a painful process. As a member of the Senate Finance Committee, I have worked for several years to simplify tax returns and ease the pain as much as possible.

I would hope that these hints from the Internal Revenue Service and such assistance as the IRS hotline will ease the pain a little more.

## Parimutuel Question Heats Up

Texans Against Gambling (TAG), the political action committee of the Anti-Crime Council of Texas (ACT), has released figures on contributions and expenditures including a list of donors to ACT itself.

In a letter to State Representative George Pierce,

Allan L. Maley, Jr. of ACT and TAG said, "There are no legal reporting requirements for the Anti-Crime Council. Having complied with your requests for this information I must tell you that I highly resent your

demand for it." Pierce is a leading proponent of pari-mutuel horse race wagering and Chairman of the House Committee on Urban Affairs where the gambling bill is assigned. Maley is Executive Director of ACT and Executive Director and

Treasurer of TAG which was formed last month to coordinate opposition to House and Senate Bills 440 which would legalize horse race betting.

Maley continued in the letter to Pierce, "Because 'somebody' has 'alleged' that we might have received funds from out-of-state racetracks, you have demanded that we prove otherwise, even though nobody has inferred that there is a scrap of evidence to substantiate that charge."

"If I charge that the mafia is putting money into the campaign of the pari-mutuel gambling interests... will you ask for the authority to subpoena the pari-mutuel backers, and their records, for the purpose of demanding that they prove that they have not received any mafia money?" Maley questioned.

undoubtedly higher," Newby commented, noting that there were 282,304 public intoxication arrests and 112,407 DWI arrests for that year, according to figures recently reported by the Texas Department of Public Safety.

For 1982, the costs are

## Legislative Hearing to be Held

New figures showing that public drunkenness arrests cost the Texas criminal justice system \$36.53 million in 1981 will be presented at legislative hearings Monday (March 21).

The Senate Health and Human Resources Committee is scheduled to hold

hearings at 4 p.m. in the Senate Chamber on Senate Bill 78 by Sen. Chet Brooks (D-Pasadena) and the House Public Health Committee at 2 p.m. or on adjournment in Room 410, Reagan Building, on its counterpart HB 436 by Rep. Frank Madla (D-San

Antonio). This bill allows law officers the option of diverting public inebriates into alcoholism treatment, and sets up the treatment system.

The Study, conducted for TCA by the Research Triangle Institute of North

Carolina, shows public intoxication as the largest single category of alcohol-related crime. Total alcohol-related crime cost \$105 million in 1981.

Driving while intoxicated was the next most costly offense, with a total of \$26.9 million.

For 1982, the costs are undoubtedly higher," Newby commented, noting that there were 282,304 public intoxication arrests and 112,407 DWI arrests for that year, according to figures recently reported by the Texas Department of Public Safety.

## Valley Citrus Growers Face Suppressed Market

Lower Rio Grande Valley growers are harvesting a bitter return on this year's crop of Ruby Red grapefruit. They are being paid \$20-\$25 a ton -- about a penny a pound -- for the country's second biggest grapefruit crop, the result of a 43 percent drop in demand from juice processors.

Despite a 5 million-box decline in grapefruit production nationwide, the fall in processing sales has created an over-supply in the market, forcing prices down. Texas production is forecast at 12 million boxes, down 1,900,000 from last year's record crop.

"The processing industry is not taking its normal amount because the carryover from last year is high," said John Engle of the Federal-State Market News Office in Weslaco. "This means more fruit has to be sold on the fresh market."

In a good season growers are paid \$100-\$125 a ton for fresh market fruit, Engle said.

About 45 percent of the grapefruit and 85 percent of

the Valencia oranges are yet to be picked, according to Les Whitlock, head of the Texas Valley Citrus Committee. Valencias are late-season oranges, which make up about 30 percent of Texas's orange crop. Whitlock said a high percentage of the remaining grapefruit ordinarily would go for processing.

Movement of fresh market grapefruit and oranges was running neck-in-neck with last year's shipments through the end of February. Whitlock reported that 7,126,000 truckloads of grapefruit had been shipped by Feb. 24 compared with 7,372,000 on the same date in 1982. Oranges were running slightly ahead of last year, 4,122,000 cartons to 4,001,000.

With processors not buying "that leaves the fresh fruit packers with nowhere to go with their culled fruit," said Whitlock. "There's a fear that we're going to end up with a considerable amount of grapefruit in the fields."

Whitlock said growers spend \$600-\$800 an acre for growth care of citrus groves.

"Many are going to lose their shirts," she said. "You can't spend this amount and get back \$25 a ton."

Oranges have been enjoying a more favorable market, selling at \$75-\$80 a ton, a figure considered moderate.

Low grapefruit prices for consumers have meant specials for consumers. The Dallas division of Safeway with 149 stores from the East Texas border to Big Spring and from Wichita Falls to Temple, has been selling five-pound bags for 98 cents and 15-pound bags for \$3.29. Grapefruit has gone for as low as 10 cents each.

"We'll be having more specials on them," said Vicki Flannery, a Safeway public relations representative.

An H.E.B. store in Austin reported large, Grade A Ruby Reds at 29 cents a pound, 10-20 cents below normal.

While prices are low, it makes sense to take an advantage of them. Dr. Ursprung for Texas grapefruit in that market. Whitlock said fruit recommends grapefruit as a probably will be shipped from good source of Vitamin C, the Valley until June.

One half grapefruit contains 37 milligrams, about half the recommended daily allowance for an adult. Equal to about 40 calories per half, the fruit has small amounts of phosphorus, potassium and the trace minerals selenium and chromium, which are necessary in a healthy diet.

Briley said grapefruit is a complex carbohydrate, which means it takes longer to break down in the system than such simple carbohydrates as candy or baked goods. Complex carbohydrates provide a constant flow of glucose through the digestive tract instead of flooding the system with sugar.

The nutritionist said grapefruit also contains fiber to speed the removal of toxins from the body.

Though prices are low, Whitlock sees a speck of light at the end of the tunnel. "Florida is using its red grapefruit up at a rapid clip."

"We possibly see an advantage of them. Dr. Ursprung for Texas grapefruit in that market. Whitlock said fruit recommends grapefruit as a probably will be shipped from good source of Vitamin C, the Valley until June.

LOWER RIO GRANDE Valley growers are facing a 43 percent drop in demand from juice processors which is causing a surplus of culled fruit and forcing prices way down. The average price per box has been estimated at approximately a penny per pound.

# Exemptions to the Law Limiting the Carrying of Weapons in Texas

(Part 111)

by District Attorney Bill Mason

Bill Mason

The following article is a public service by the Devil's River News through the cooperation of Bill Mason, District Attorney and your local law enforcement authorities. Its purpose is to make you aware of a prosecutor's role, of your responsibility as a resident of Sutton County and how we can work together to alleviate some of society's problems. The following article is the third and final in a series of articles which deal with the possession and carrying of weapons in Texas.

## EXEMPTIONS TO THE LAW LIMITING THE CARRYING OF WEAPONS IN TEXAS (Part III)

There are a number of exceptions to the general rules presented in the previous article which forbid the carrying of weapons in Texas. A commissioned peace officer may, of course, carry a weapon. A private citizen too may have a handgun, a knife with a blade over 5 1/2 inches (also known as an "illegal knife"), or a club at his residence or place of business. One may also lawfully carry a weapon, if it is not a prohibited weapon, for the use of engaging in lawful hunting, fishing, or other sporting activities.

There is also an exception which allows one to carry weapons to or from a repair shop, from an old residence to a new one, or from the place of purchase to one's home. However, in most cases where a handgun, an "illegal knife" with a blade which exceeds 5 1/2 inches long or a club is being carried, it should be carried away from the person such as in the trunk of an automobile or in an inoperable condition. Deviations from the most practical travel route can result in prosecution.

Texas courts have also held that it is all right to carry a handgun "on one's person from one's place of business, or one's home while carrying a large sum of money. However, in doing so, one may not deviate from one's travel route or delay along the way, and such weapon may not be "habitually" carried." This exception to the general rule is strictly limited. Texas courts have held that one does not have a right to carry a handgun, an "illegal knife," or a club on or about one's person for "personal protection," unless doing so falls within some specified exception.

The most common exception to the law against carrying handguns, illegal knives or clubs is the one made for travelers. Most Texans seem to be aware of the fact that it is illegal to carry a handgun while one is "traveling." However, several general legal principles apply in understanding this exception:

(1) In order to legally carry a handgun, an illegal knife, or a club on or about one's person under the traveler's exception, any trip must be made out of the county. While this does not necessarily mean that one must be planning an overnight stay at one's destination, the trip must be made of such duration or distance to make one legitimately a "traveler." In questionable cases, one may be able to claim the status as a defense to prosecution, but it will not prevent the charge from being filed.

(2) One may not deviate too greatly from one's route and still lay claim to the traveler's exception. For example, if one drives to Dallas for the weekend carrying a handgun on or

about his person, he is "travelling" while going to and from Dallas. However, once he arrives at his destination or returns home, he may not then carry the gun around the city or he will be in violation of the law.

(3) If one is legitimately travelling, it is not illegal for him to have a weapon in his hotel or motel room, since the room is treated as the traveler's "home." This means that a traveller must take the first opportunity to stow the weapon when he reaches his destination or returns home. Otherwise, he may be prosecuted for unlawfully carrying a weapon.

It should be noted that what is said here about the law with respect to carrying weapons while travelling applies only within the State of Texas. It may not necessarily be a defense to prosecution in another state or in a foreign country, where the laws may be quite different.

At the beginning of this series of articles it was noted that the law of ownership, possession, and carrying of weapons in Texas is complicated and sometimes confusing. The objective of these articles is to help the law-abiding citizen to stay within the law. If you have any questions as to what is

legal, ask your Prosecutor or another lawyer. This article is provided by Bill Mason, your local District Attorney.

## Congress: Our Worst Economic Indicator

The Budget approved by the House on March 24th is both a frontal assault on our Nation's economic health and the most irresponsible, partisan, political document produced since 1974 when the Congressional budget process began.

Despite recognition from virtually all quarters that an economic recovery is underway, the liberals in Congress chose to break faith with the American people and returned to the politics of business as usual in Washington.

Their budget, fashioned by the Speaker and liberal members of the House, without any consultation with conservatives, is a dangerous document which, without significant modification by the Senate, will place our Nation's economic recovery in desperate jeopardy. This liberal budget attacks in a radical way our last two years of progress toward achieving sustained, strong economic growth and potentially guarantees that we will see a return to the high inflation and high interest rates of the past, with exacerbated unemployment problems.

Truly, we were presented with a tribute to old, bankrupt policies. At the same time that the failed liberal philosophers now have their hands in taxpayers' pockets to fund Federal domestic programs we do not need and cannot afford, they have arbitrarily cut defense spending, raised taxes astronomically and given us no relief from huge deficits.

This disastrous document calls for a \$181 billion increase in domestic spending and a \$265 billion increase in taxes — all over the next five years.

This budget will impose a crushing burden on the American taxpayer because it forces taxpayers to pay from 10 - 35 percent more in income taxes by 1988. In fact, it is the largest proposed tax increase in history! This could be accomplished by repealing the scheduled third year 10 percent tax cut and by canceling the indexing of taxes slated to begin in 1985. Indexing, as we know, redefines income tax brackets so that people earning increased pay as a result of inflation are not penalized for those increases by having to pay substantially higher taxes.

The tax increases resulting from this liberal budget will fall most heavily on the average working taxpayer. The typical, median-income family of four, defined as having earned \$24,300 in 1980 for example, will pay \$3,500 more in taxes by 1988 — a 17.5 percent increase.

Statistics such as this clearly belie the arguments that the economic recovery program is not fair and equitable. The callousness with which the liberals have designed their massive tax increases only serves to demonstrate their total disregard for those they claim to be trying to help.

When the liberals dropped defense spending levels to an approximate 4 percent range of real growth, it was readily apparent to me that they had merely plugged in a number which was purely political in nature, with no respect whatsoever for the needs of defense policy. During the Budget Committee hearings and again during floor debate, I asked the liberals to substantiate their numbers. It is both dangerous and disturbing that they were unable to document the assumptions upon which their recommended spending levels were based and the impact of these assumptions on our national security. Obviously, the only substantiation is that 4 percent allows the liberal budget to add up!

Clearly, we must now hope the Senate can come up with a workable, practical and do-able budget reflecting responsible fiscal policy. Otherwise, Congress will remain, as always, our worst economic indicator.

### Making The Best Cup Of Coffee

It's said that Americans drink about three cups of coffee a day. That adds up to about 25 billion gallons, according to the Pan American Coffee Bureau.

Many choose electric percolators such as the PERK-UP™. It can take all the guesswork out of making coffee. Whether you're brewing four cups or 12, this pot, from the Dazey Company, perks a cup a minute.

This stainless steel body and pump and the wide diameter basket help assure you of coffee that's full-flavored, richly aromatic and hearty every time.

The coffee will remain at serving temperature as long as the pot is plugged in. The easy-to-see brew level viewer shows you at a

## Social Security Beneficiaries to Earn More

Social Security beneficiaries may earn more than ever before in 1983 and continue receiving their benefits, according to Frank Upp, social security district manager in San Angelo, Texas.

Although some benefits may be lost by beneficiaries under age 70 who continue working, the earnings limits for working beneficiaries have been increased. Beneficiaries under 65 may earn up to \$4920 in 1983 without a loss of benefits. Those between 65 and 70 may earn up to \$6600. "Those earning

more lose only one benefit dollar for each two dollars earned over the limit," Upp explained.

Although this retirement test applied to social security beneficiaries under 72 previously, that age has been reduced to 70 this year, Upp added. All working beneficiaries must complete a report of earnings with social security between January 1st and April 15th of the year following one in which they exceeded the earnings limit.

1982 limits were \$4440 for those under 65 and \$6000 for those 65 to 72.

## Hightower and Montford Proposes Admendment

Agriculture Commissioner Jim Hightower and State Senator John Montford (D-Lubbock) presented details of a water conservation proposal that potentially "could save almost 200 times as much water as Texans presently drink."

The proposed constitutional amendment, co-sponsored by Senators Montford and Bill Sarpalus (D-Herford) would create a state Agricultural Water Conservation Loan Fund to make low-interest money available to Texas farmers to convert to more water-

efficient crop irrigation systems. The proposal is a component of a comprehensive "state water plan," a package of legislation unveiled Monday by Lt. Gov. Bill Hobby, Hightower and the senate sponsors of the bills.

"More than 70 percent of all the fresh water used in Texas is used for agricultural purposes," Hightower explained at a Thursday news conference in the Senate Chamber, "so it goes without saying that agricultural water use must be a major component of

any statewide plan addressing Texas' future water needs. We're all in this together, so it's critical that we come up with a plan that urban Texans and rural Texans, West Texans and East Texans can agree on.

"I'm supporting the whole package," Hightower said, "but I'm especially pleased with the approach of this proposal sponsored by Senators Montford and Sarpalus. It will be financed by the sale of bonds, and the loans made to farmers from the fund would be repaid to the

state, so the cost to the taxpayers will be precisely zero. Our farmers will save money on their production costs. And the water they save through more efficient irrigation techniques will then be available to cover the needs of industrial development and population growth. Everybody wins.

"The focus of the entire water plan is essentially on conservation," Hightower noted, "but in no other area of water use is the potential for conservation savings as great as in the agricultural sector.

Currently available technology can achieve 95 percent efficiency of water use—that is, it can get 95 percent of the irrigation water to the plants that need it. The fact is, however, that on the vast majority (71 percent) of the irrigated acreage in Texas today, more than 40 percent of the water is wasted—it's lost to seepage, evaporation or run-off. If we converted all the irrigation systems in Texas to the more efficient techniques, we would save more than 900 billion gallons a year. That's al-

most 200 times more water than every man, woman and child in Texas now can gulp down even in a year-long heat wave."

## No Comparison Between Soviet and U.S. Agriculture

Most discussions regarding the United States and Russia usually center on military strength. But in the crucial area of agriculture and the capacity of each country to feed its own people, Russia is in deep trouble.

"While our exportable food surplus is climbing, the Soviet Union's dependence on imported foods is growing," says Dr. Bill Black.

"This year Russia will import more than 40 million tons of grain, or nearly one-fourth of all the grain fed to Soviet people and livestock. About one-half of their grain imports will come from the North

American breadbasket, mostly from the U.S.," says Black, an economist with the Texas Agricultural Extension Service, Texas A&M University System.

By comparison, the U.S. will export about three times more grain than Russia's total imports, notes the economist.

Black describes the Soviet Union as a centrally planned economy in which the country's leaders annually plan that their agriculture will produce sufficient food to feed their people and livestock. However, each year their production continues to fall short by a growing amount, with bad weather generally

blamed for the deficit.

With 3.7 million people in U.S. agriculture—of which 2.4 million are family farm managers—this nation produced twice as much grain the past year as the Soviet Union with its 26 million farm workers.

"Individual productivity and individual decision-making in the U.S. make all the difference in the world," emphasizes Black. "Our farmers respond daily to market signals and information; they are flexible, adaptive creatures."

In turn, the government makes all the decisions in Russia. Farm workers on collective farms custom-

arily leave their tractors promptly at five o'clock regardless of the circumstances. "This clearly shows that the proprietary initiative of the U.S. farmer is missing," says Black.

As long as this situation exists, the Soviet Union will continue to depend heavily on other countries for its food and fiber supplies, notes the economist.

"This long of ships that now connect American farms with Soviet dining

## 4-H'ers Participate in Beef Program

Beyond souvenir stands, commercial exhibits and carnival attractions on the midway lie what many young people might call the "real action" at the fair: the junior livestock judging events and beef cattle exhibits.

Last year's fairs are only a memory now to many of the boys and girls in the 4-H beef program. To others, the experience is to come in the next month or two. Regardless of time, 4-H'ers who take part in judging contests get a real-life workout in decision making and confidence building that perhaps can

never be duplicated, states Charles Gardner, 4-H and youth specialist with the Texas Agricultural Extension Service, Texas A&M University System.

Learn-by-doing experiences like judging and showmanship events are only part of the 4-H beef project. In a variety of projects supervised by the Texas Agricultural Extension Service, 4-H members from 9 to 19 acquire breeding, feeding and management skills they can apply to caring for one or more beef animals.

4-H'ers also can earn awards and scholarships

through the Texas 4-H Foundation, sponsored by the Independent Cattleman's Association of Texas.

A beginning beef project may involve raising one or more feeder calves to market weight, then selling them for a relatively quick return. More advanced 4-H cattlemen can undertake beef breeding and stocker-feeder projects.

Whatever activity they choose, program members keep up to date on current trends in beef production and marketing, says Gardner.

## Bentsen Says Weather Satellite Sale Would Cost Farmers, Hike Deficit

Washington, D.C.—Senator Lloyd Bentsen said Tuesday that, for all anyone knows, the administration proposal to sell weather satellites to private industry would not only cost farmers but add substantially to the federal deficit.

Bentsen, in a letter to Director David Stockman of the Office of Management and Budget, said the administration needs to give more thought and study to this proposal.

forecasting offices was soundly rejected by congress last year because this function is meeting an important national need."

"Timely and accurate weather forecasts are vitally important to farmers. I do believe that it is wise to begin charging farmers for such services as frost warnings. Real net farm income is at the lowest levels since the 1930's and it is not expected to improve much in 1983."

"The administration of the National Oceanic and Atmospheric Administration, in announcing this latest proposal, has states that there are no reliable figures to show that this sale would save money for the American taxpayer. He states, in fact, that it might cost taxpayers \$100 million

merce Dept. study estimated that this sale would cost taxpayers an additional \$190 million per year."

Congress has given the executive branch a clear mandate to serve the public interest in helping to predict the weather, explore and map the globe and assist in the management and wise use of our natural resources through this satellite program," Bentsen said.

"At a time when large federal deficits are plaguing our economy, I would think the administration would seek better information than it now has on the fiscal impact on this proposal before proceeding further," Senator Bentsen said.

"I am deeply concerned about the impact of the administration's recent proposal to sell land survey and weather satellites which are now owned and operated by the federal government," the Senator said.

"A proposition to terminate agricultural weather

or more per year for perhaps 10 years, possibly longer. In addition, a Com-

## Penalties Sought for Pollution Control Violators

The Railroad Commission has asked the state Attorney General to seek court injunctions and civil penalties for pollution control violations by three individuals and two companies.

Railroad Commission inspectors found violations of the Texas Water Code, the Texas Natural Resources Code, and the Commission's rules on three oil leases operated by Charles F. Haas on the east side of Lake Texana in Jackson County, the Culpepper lease in Marion County operated by Canyon Operating Company, the Fette A and B leases in

Cooke County operated by Kiowa Oil and Gas Corporation, and the Karl Arnold A lease in Bee County operated in the past by Karl W. Arnold and Morris Cannan.

Violations charged to Haas included causing or allowing pollution, contamination of surface waters, illegal discharge of produced salt water, unpermitted pits, and collection of water and oil inside the firewalls of a tank battery.

An inspection in December documented waste water being pumped out of an earthen pit onto the ground. The water then

drained along a nearby road directly into Lake Texana. The Commission asked the Attorney General to seek a court injunction against Haas directing that the pits be filled or properly permitted and that the area inside the firewalls which surround storage tanks be cleaned out to reduce a fire hazard.

Unauthorized pits containing salt water were found on the Culpepper lease in Marion County operated by Canyon Operating Company of Seagoville. Commission field inspectors reported the salt water threatens the shallow fresh water table in the area. Inspectors also

found an abandoned well on the lease that had not been properly plugged.

In the Canyon case, the Commission asked for appropriate civil penalties and a court injunction requiring the pits to be filled and the abandoned well to be properly plugged.

Commission inspectors found 17 abandoned wells on the Fette A and B leases in Cooke County operated by Kiowa Oil and Gas Corp. Three of the wells were leaking salt water and oil waste and endangering the fresh water in the area, particularly the Trinity Sands fresh water formation.

The Commission seeks appropriate civil penalties against Kiowa for allowing the salt water and oil waste to leak and an injunction requiring Kiowa to properly plug all abandoned wells on the leases.

Approximately one and a half miles northwest of Mineral, Commission inspectors found an abandoned oil well leaking oil and salt water on the Karl Arnold A. lease in Bee County and threatening fresh water supplies in the area.

Commission records show that Morris Cannan operated the well through December, 1976, when

Karl W. Arnold, the owner of the land on which the well is located, became the operator of the well by signing and filing the appropriate documents with the Commission.

The Attorney General has been asked to seek a court injunction against Morris Cannan to require the plugging of the well and to seek civil penalties against Karl W. Arnold for negligently allowing salt water and oil to leak from the well.

In each of the cases, violations have continued despite written directions from the Commission's Oil and Gas Division to correct them.

## TIPRO President Urges Support of Reagan's Natural Gas Plan

In a blunt letter to the 5,400 members of the Texas Independent Producers and Royalty Owners Association (TIPRO), East Texas producer H.E. "Gene" Wright said the natural gas policy choices in Washington have been narrowed to either reconrol of natural gas prices, or the Reagan Administration's policy of decontrol.

James Broyhill (R-NC), senior Republican on the House Energy Committee, who have said, "Maintaining the Natural Gas Policy Act isn't even in the ballpark."

"There are some people in the natural gas industry who are urging opposition to President Reagan's proposed natural gas legislation," Wright said. They're claiming it favors large integrated companies at the expense of independent producers. Those arguments are wrong," he warned in his letter. "and,

even worse, they deflect the sights of producers and royalty owners from the real threat -- extremely bad legislation that will increase controls on all gas."

Wright noted that Representative Richard Gephardt (D-MO), has introduced legislation that would roll back prices to January 1, 1982, among other actions.

"People in the natural gas industry who advocate opposition to the President's goal of achieving a new gas market free of all government intervention

and controls are unwittingly giving support to those like Congressman Gephardt and his allies who plan to deliver a crushing economic blow to producers and consumers," Wright said.

It is "very much in the interest of Texas in general and especially independent producers to free the market of the inequities and distortion that has been created under the Natural Gas Policy Act", Wright said, as he urged TIPRO members to support President Reagan's initiative.

## April Oil Rate Set

The Railroad Commission set the Texas oil production rate for April 1983 at the market demand factor of 100 percent for the 74th month in a row and the 130th time since the Commission first went to the ceiling level in April 1972.

Chairman Mack Wallace and Commissioners Buddy Temple and Jim Nugent directed the continuance of the maximum statewide allowable after receiving and reviewing purchaser nominations for Texas oil in April totaling 2,459,380 barrels per day, an increase of 9,381 barrels daily when compared with March buyer requests. April 1982 nominations total 2,423,538 barrels daily.

Next month's permissible rate of output is calculated to average 2,871,884 b/d with actual production estimated at 2.37 million b/d. The maximum allowable applies to all but 10 fields in Texas that are assigned lower legal rates of flow for conservation purposes. Actual production in April 1982 was 2,428,492 barrels

daily. Wallace reported that April 1983 nominations for the purchase of Texas gas totaled 18,089,172 Mcf/d (thousand cubic feet per day). Gas nominations for March amounted to 19,678,172 Mcf/d. April 1982 gas nominations totaled 19,678,172 Mcf/d. April 1982 gas nominations totaled 24,015,878 Mcf/d.

The next statewide oil and gas hearing will be Wednesday, April 20, at 2 p.m. in Amarillo Hilton Inn.

Major purchasers filed these floor nominations for Texas oil in April: Amoco Production, 173,000 barrels daily, down 2,500 from the previous month; Arco Petroleum Products, 125,500, down 700; Chevron U.S.A. 42,500, up 500; Cities Service, 74,000, unchanged; Conoco, 60,000, up 4,000; Exxon, 275,000, down 2,900; Gulf Oil, 103,000, unchanged; Marathon Petroleum, 67,420, unchanged; Mobil Oil, 183,800, unchanged; Phillips Petroleum, 70,000, unchanged; Shell Oil, 169,800, unchanged; Sun Refining and Marketing, 76,825, unchanged; Texaco, 90,000, down 1,000.

Other purchasers filed

these significant changes in April nominations: Koch Oil Company of Texas, Inc., 100,861, up 2,893; Matador Pipelines of Texas, Inc., 59,452, down 7,534; Mesa Pipe Line Company, 23,922 up 2,830; Murphy Oil Corp., 9,519, up 1,044; The Permian Corp., 195,728, up 1,592; Pride Pipeline Company, 30,800, up 2,700; Scurlock Oil Company,

99,500, up 3,700; W.T. Waggoner, Estate, 3,350, up 1,214.

Chairman Wallace reported that crude oil and petroleum products imported into the U.S. averaged 4,220,000 barrels daily for the four weeks ending Feb. 25, down 847,000 barrels from the same period a year earlier.

## Permian Basin Update

First of all in New Mexico, the legislature adjourned Saturday, the 19th. The emergency school tax was increased from 2.55 percent to 3.15 percent. The increase should bring in about 14 million dollars the remainder of 1983 and some 19 million dollars each year thereafter. Texas Lieutenant Governor Bill Hobby recently said there are three subjects for this year's legislature; money, money and money.

The President of the Texas Independent Producers and Royalty Owners Association, Gene Wright, recently said producers of oil or gas in Texas already pay severance taxes, pipeline taxes, Ad Valorem taxes to special districts, the county and the state, windfall profits taxes, income taxes wireline taxes, sales taxes on equipment and other taxes that are hidden on the surface.

The same organization, TIPRO, just compiled a list of the amount of oil and gas severance taxes paid based on state representatives districts. If the oil & gas severance taxes are raised one percent, Permian Basin producers in Texas would have their taxes increased by about 122 million dollars a year. The Permian Basin now pays 33 percent of the Texas oil severance tax and 17 percent of the gas severance tax.

In the Permian Basin our rig count for this week is 233. Last week it was 242. One year ago it was 402.

## Public Notices

Mayor's Proclamation Beautiful Sonora

WHEREAS, the City Council of Sonora has declared the week of April 10 thru April 16, 1983, as "Beautiful Sonora"; and

WHEREAS, the citizens of Sonora, shall take special pride in the attractiveness of their residence, public buildings and grounds, places of business and industry, and shall make a special effort to make such places attractive; and

WHEREAS, the City Council and all other City Officials, heartily endorse "Beautiful Sonora", and desire all citizens, businesses, and industries to join in and support us in this worthwhile project;

NOW THEREFORE Billy Gosney, Mayor, do hereby proclaim April 10 thru April 16, 1983, "Beautiful Sonora" in the City of Sonora, Texas, and urge all our citizens to participate.

WITNESS my hand and seal, this 15 day of March, 1983.

Mayor-Billy Gosney

Attest: Becky Covington, City Secretary.

Notice is hereby given for request for bids to Sutton County Texas for lighting for the Little League Field at Sutton County Park.

Specifications may be found in the Sutton County Auditor's office in the Sutton County Courthouse.

Final receipt of bids will be a 9:00a.m., Monday April 11, 1983. At such time, bids will be opened and accepted or rejected by the Sutton County Commissioners.

For further information; contact: Sutton County Auditor, Box 16, Sonora, Texas 915-387-5380.

## TIPS ON TRIPS

Planning a motor trip but hesitant about going because you're afraid you may not have enough gas to get there? Conserving gas when you're at home will help assure there's more available

when you go. That's the view of the American Hotel & Motel Association, which offers some gas-conserving tips to travelers:

Call ahead for hotel/motel reservations. This saves gas you would waste driving aimlessly around looking for accommodations. You will also save gas by using the most direct route.

Consolidate shopping trips, organize car-pools and use mass transit if possible. If you must use your car, obey 55 m.p.h. limits, keep it well tuned, and avoid jackrabbit starts.
