Sutton County News Briefs

Tom Loeffler to speak at luncheon

Congressman Tom Loeffler will be the featured speaker at a luncheon saluting President Ronald Reagan and Vice-president George Bush in the Community Room of the Sutton County National Bank on Friday, October 19.

The luncheon will be free of charge, and open to the public.

Band Boosters meet

There will be a regular meeting of the Sonora Band Boosters Monday night, October 8 at 7 p.m. in the band hall at the high school.

All band parents are encouraged to attend.

Local Cubs plan Roundup

The local charter of the Boy Scouts of America Cub Scouts will hold a Cub Scout Roundup on Tuesday, October 9 at the Fellowship Hall of the First United Methodist Church.

Cub Scoutmaster Steve Byrd invites all boys between the ages of 8 and 10 to attend the meeting and to get involved in the scouting experience.

Boys not yet eight years old who would like to be in the scouting program are also asked to attend this organizational meeting, Tiger Cubs, a special group of younger scouts will be forming for the third consecutive year.

All scouts are asked to bring along a parent to the meeting as den mothers and den fathers will be elected. Enjoy the scouting experience! Join the Cub Scouts.

Sunday is deadline for voter registration

Sutton County residents wishing to vote in the November general elections must register before Sunday, October 7. According to Sutton County Clerk Erma Lee Turner, the last date for persons to register in person will be Friday, October 5.

Registration applications may be mailed to County Tax Assessor/Collector Ann Hill through October 7. Those registration forms received will be valid only if postmarked October 6 or 7. The address for the tax assessor/collector office is P.O. Box 481, Sonora, Texas 76950.

Absentee voting in the general election will begin October 17 in the county clerk's office during regular business hours. Absentee voting will continue through November 2, with voters casting their ballots in person Tuesday, November 6.

EMS moves to new building

The Sutton County EMS will be moving into their newly completed ambulance port and office building this week. The new offices are at 211 E. 3rd. The telephone for ambulance service will remain the same - 387-5132.

Golf Tourney October 21

Any Golf Club member interested in participating in the club championship should turn in a 36 hole score total by October 14.

The tournament date is Sunday, October 21 with a \$5 entry fee.

For more information contact the Pro Shop.

Mata-Reyna tie in football contest

Sam Mata and Belia Reyna tied for first place in this week's Devil's River News football contest. Both had two misses on the contest entry form and both were eight points away from the tie-breaker total points in the Dallas Cowboy game of the week. Total points was 37 and both Mata and Reyna guessed 45.

Mata and Reyna will split first and second place prize money and will each receive \$12.50.

Receiving third place money of \$5 will be Luke R. Sanchez who missed three. There were several others who missed three, but Sanchez was only two points off on the tie-breaker.

Mata and Sanchez both obtained their forms from Hershel's Foodway and Reyna's form came from Food Center.

Be sure to get your entry form early and get it turned in to the Devil's River News office by 5 p.m. Friday afternoons.

You may obtain forms from Sutton County National Bank, Hershel's Foodway, Food Center, Kerbow Furniture, Sutton County Steak House, The Ritz, Spains, Inc., Perry's and P.M. Office Supplies.

Governor signs sewer grant

BY BECKY COLLINS

Final approval of the proposed construction of sewer and water lines to the Sinaloa and Loma Alta communities of Sutton County was received from Governor Mark White Monday, September 24.

The grant, totaling \$205,500 for construction of 5,000 feet of sewer lines to that area of the county, will benefit some 85 residences.

"This is a blessing for the people who live in that area, as they have been wanting sewer services for years and years," commented county commissioner Juan Carlos Gonzales (precinct four).

"The residents of Sinaloa and Loma Alta were afraid of annexation by the city in order to benefit from these services, but through the funding from this grant, they

will have sewer and water services. Everybody's happy about the approval of the grant," he added.

Construction on the sewer lines will most likely begin in mid-February, rather than in November or December as was first expected, but the lines will be constructed, and the health hazards imposed through disposal in cesspools will soon be a thing of the past for the residents of Sinaloa.

One hundred eighteen grants, totaling \$29,186,508, were approved by Governor White under the Texas Community Development Project Fund. The state assumed responsibility for administration of this program, formerly the Small Cities Community Development Block Grant Program, in June 1983. The projects were selected through a shared scoring system between the Texas Department of Community Affairs

and Regional Review Committees appointed by the governor in each of the 24 state planning regions.

The Concho Valley Council of Governments worked closely with the Sutton County Commissioners Court as they applied for the grant, and Commissioner Gonzales thanked them for the efforts on the part of Sutton County by stating, "We are very grateful to the Council of Governments that this money was made available".

Four hundred sixty one applications were received by the Community Development Program this year, compared to 300 applications received by the Department of Housing and Urban Development in 1982. White noted "This increase in participation shows both the need for these activities and the outreach efforts by the state to make the program accessible to more communities".

Broncos lose in Brady mud bowl

by Charlie Adams

Sloppy, sloppy, wet, wet, fumble, interception! That is just how things went and went for the Sonora Broncos last Friday at Bulldog stadium in Brady, Texas. Playing nearly the entire game in a steady downpour, the Broncos fumbled nine times losing four and had three pass interceptions for a total of seven turnovers. The Bulldogs took advantage of the second Bronco fumble at the Broncos fifteen yardline and took it in for a score on a 1 yard run by quarterback Albritton. The extra point play was stopped.

The Broncos had their chances but were unable to capitalize on them. Brady lost 3 of 6 fumbles and had one pass intercepted by the Broncos Jessie Guerra. The Broncos first scoring attempt failed at the six yardline when the Broncos fumbled the ball away.

The next Bronco attempt ended in a pass interception in the Brady endzone. The next chance also ended in an interception at the Brady five yardline. The Broncos put together one more scoring attempt only to come up short on a fourth down and 1 yard play from the Bulldog 14 yardline.

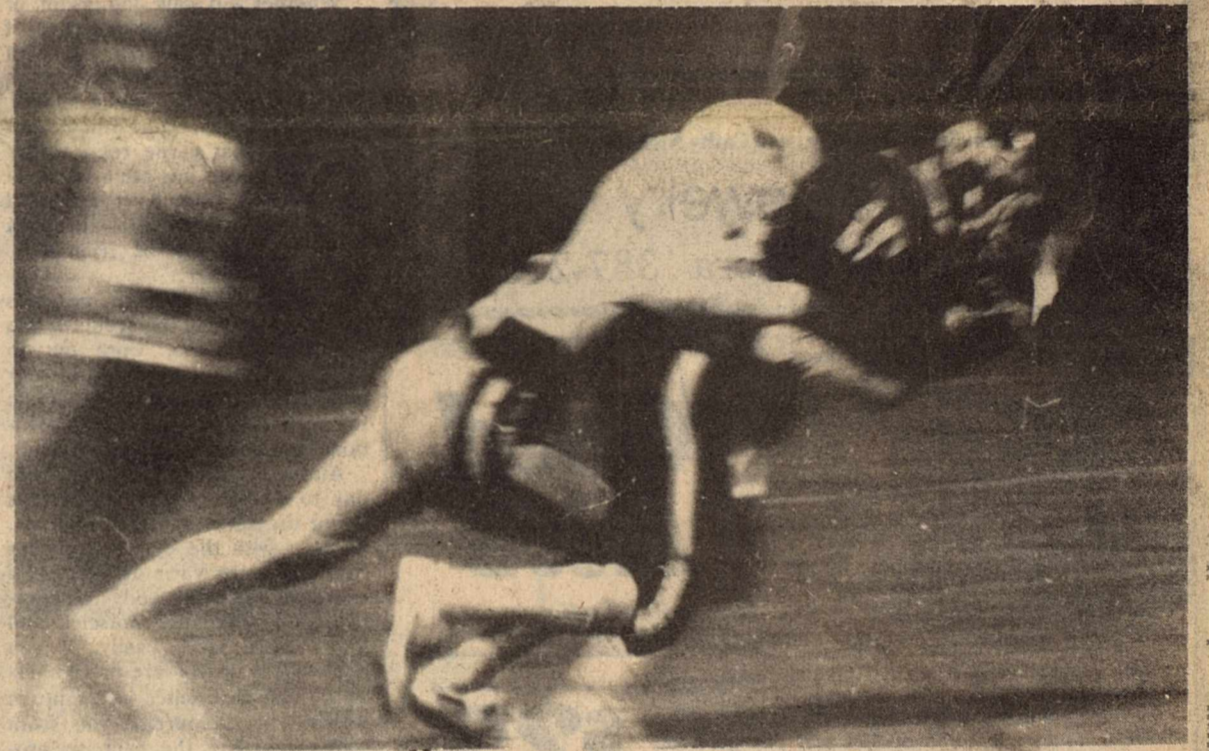

It was a very frustrating night for the Broncos overall, but there were some bright spots. The offense playing under very adverse condition on a very sloppy wet field managed 208 total yards of offense. The rushing game netted 82 yards on 28 attempts. These efforts were headed by Joe Mike Noriega's 37 yards on 14 carries, Scott Miller added 28 yards on 7 tries, Victor Lira got 17 yards on seven attempts. In the passing department, Miller was 8 of 20 with 3 interceptions for a total of 126 yards. Jessie Guerra had four catches for 48 yards, Esau Ramirez had 2 catches for 44 yards, Joe Will Ross had 1 reception for 17 yards and Ricky Mesa also had 1 catch for 17 yards.

The Broncos defense held Brady to 0 yards passing and 160 yards rushing. The Bronco score came with less than a minute to play in the game when the Brady punter, on fourth down at his own 12 yard line, took an intentional safety in order to get a full kick from the 20 yardline instead of giving the Broncos a chance to block the punt.

Elsewhere around District 7-AAA Colorado City defeated Abilene Wylie to move their record to 4-0. Ballinger also won moving their mark to 4-0. Crane lost to Alpine dropping to 1-3. Ozona lost dropping to 1-3 and Coahoma beat Reagan Co. to move to 2-1-1.

This week the Broncos finally get back home after three straight road games and will host the Reagan Co.

Owls at Bronco Stadium. The Owls are 3-1, with wins over Ozona, and Crane. The game will note some striking similarities as both teams sport a wing-T offense and a basic 5-2 defensive alignment. It should be a good preparation and challenge for the Broncos as they play their last non-district game. Kickoff will be at 8:00 p.m., so, be there to see the Broncos in action.

HANGING TOUGH - The Sonora Bronco Varsity lost a heartbreaker in the mud of Brady's Bulldog Stadium

Friday night. Losing by a score of 6-2, the Broncos hold a 3-1 record. (Caballo Diablo Photo)

\$6 million contract signed

by Becky Collins

The Sonora Independent School District Board of Trustees and Templeton Construction Company of San Angelo signed the final construction contract Thursday, September 27 for the construction of the new high school complex.

The construction contract signed by both parties calls for construction on the project to begin within ten days, and the final completion cost to total \$6,514,094.

Groundbreaking ceremonies were held yesterday at the site of the complex attended by the board of trustees; Phillip Templeton, the prime contractor; Gary Keep with the architectural firm of SHWC, Inc.; and member of the Citizens' Advisory Committee, the group of local citizens instrumental in getting the bond issue for construction of the new high school passed.

Also in attendance were many of the officials from the city and county branches of the our local government.

Board president Dr. Johnny Fields turned the first shovelful of dirt at the site of the new complex.

Following the groundbreaking ceremony, a reception was held in the lobby of the SISD Administration offices for all in attendance.

A Pre-construction conference was also held between Templeton Construction Co., District Construction Supervisor Tom McKenna, and the sub-contractors for the project.

During the special noon meeting on September 27, the Board also attended to a full agenda of items dealing with the business of the district.

A Safety and Maintenance checklist for activity and

bus routes was approved by the Board. The Board noted that the checklists were vital in record keeping and also in the event of an accident to know what kind of shape the buses were in at all times.

Also presented to the Board at the special meeting was a rough draft of the career ladder for teachers in this district. Assistant superintendent Mario Sotelo commented, "The guidelines were designed with great input from the district's teaching staff."

The establishment of a career ladder for teachers is another of the effects of implementation of House Bill 72. Sotelo noted that this evaluation program will only be in effect for one year as a statewide evaluation program will go into effect next year.

The Board also voted unanimously to postpone the October 9 regular board meeting to October 16, 1984.

Stubblefield resigns board seat

The Sonora City Council convened in regular session Tuesday, September 18 to attend to a light agenda of matters.

The resignation of Nelson Stubblefield from the planning and zoning board was accepted. Stubblefield was a charter member of that board and his resignation was due to his wife's ill health. George Wallace was

appointed to the position on the board on a motion made by Alderman Lemuel Lopes, seconded by Alderman James Trainer, and unanimous approval from the council.

The council was then presented with bids from the 1983 Texas Community Affairs Improvements pro-

Ferraro handgun stance told

EDITOR'S NOTE: The following article appeared in the August 15 issue of the American Firearms Industry FFL Business News and was brought to the attention of The Devil's River News by a local citizen. We felt that our readership would be interested in Geraldine Ferraro's stand on the "firearms" issue. Geraldine Ferraro has a long anti-firearms voting

record. Ferraro co-sponsored the restrictive HR 1543 Kennedy-Rodino anti-firearms bill.

In 1981 she co-sponsored HR 40, calling for a complete ban on the manufacture, importation, sale and civilian ownership of firearms. Ferraro is on Handgun Control's favored list for her anti-firearms

Please see Ferraro p. 3

Escalante wins years first meet!

by Charlie Adams

This past Saturday, the Sonora Bronco boys and girls Cross-Country teams saw their first action of the season, amongst very cool conditions at the San Angelo Central Invitational Cross-Country Meet.

Senior distance specialist Jose Escalante won the boys division with an excellent run and time of 16:06 for the three mile course. Manuel Duran came in 24th and Manuel Ramirez was 28th.

In the girls division, Gina Heffernan came in 4th, Gayann Dobbs was 10th, Leslie Webster 21st, Robbie Dickenson 28th, and Mary Ann Rogers 29th.

It was an excellent performance by both groups as they were competing against San Angelo Central, Midland Lee, Midland High, Odessa Permian, Odessa High, Big Spring, Sweetwater, Llano, Crane, and Eden.

Their next competition will be this next Saturday in Kerrville.

Wimberly rites held Saturday

Funeral services were held Saturday, September 29, for Lester Wimberly, 32, of Bangs, Texas. Rev. Paul Hubbard of the Immanuel Baptist Church of Coleman officiated.

Wimberly was born August 31, 1952 in Coleman, Texas as to V.E. Wimberly and Edith Howard. He lived in Coleman County all of his

life until recently, and was a veteran of the Vietnam conflict.

Wimberly was in Sonora working on a drilling rig at the time of his death. He was pronounced dead on arrival at Hudspeth Memorial Hospital by Dr. Gilbert C. Gremmel.

Wimberly is survived by his mother, Edith Howard Bishop, of Bangs, and one sister, Nancy Keeney, of Colleyville, Texas.

Bronco JV wins 14-6 over Brady

by Charlie Adams

The Sonora JV upped its record to 2-0-1 as they defeated the Brady Bulldog JV this past Thursday at Bronco stadium.

Bronco quarterback Mickey Sharp had an excellent night as he hit on 9 of 12 passes for one touchdown. Manuel Duran had five catches and set up the Broncos first score on a diving catch at the Bulldog eleven yard line. The next play Sharp threw to halfback Ismael Duenes for the score. Pat

Badillo booted the PAT

The next score came on a pass from Alex Duenes to Thomas DeHoyos for 20 yards. Badillo again booted the PAT.

The Bulldog score came in the fourth quarter as an attempted pass bounced-off three Bronco defenders into a Bulldog receivers hands for a 45 yard score. The Broncos stopped the PAT play.

The Broncos will play at Big Lake at 7:00 p.m. this Thursday. Beat the Owls.

Mrs. John Tedford is in the hospital in San Angelo - We wish you a speedy recovery Dell.

The Hospital Auxiliary held open house Sunday, 30th - at the Nursing home, honoring the new administrator and his family, Mr. & Mrs. Terry McNutt and children.

Mrs. Vicenta Cervantes, president of the auxiliary presided, Mrs. Mary Barrow, Mrs. Edwin Sawyer, Mrs. Guila Vicars, Mrs. Pauline Thompson, and Mrs. W.O. Crites, officers, served punch, cake and sandwiches. A nice crowd was there to wish the administrator and his family a big welcome to Sonora.

Headlines for Homemakers

BY PAM YOUNG

If the mere thought of touching your toes ten times wears you out before you even start, you are not alone.

Like the typical American (especially if you're over 40) you've probably had a lot of false starts with exercise programs that quickly become routine and tedious. Perhaps that's why only 28 percent of the population exercises regularly.

But if you want to start exercising again and stick with it this time try some of the following hints from fitness experts.

Whether you walk, jog, swim, or exercise, get another member of your family, or a friend to join with you. You will find that having the companionship of a co-exerciser will make the workout much more pleasant. That's one reason why exercise classes are often successful. Even if you can't attend a class, however, you can still get a partner or group of friends to exercise together.

Rather than face the same walls every day, change the scene. If you exercise at home, work out in different rooms. If you walk in your neighborhood, take a walk through the park instead. Change of locations occasionally prevents tedium.

Alternate your exercises from day to day so you're not always doing the same things. However, do start with the easier exercises first in order to warm up. Warm up exercises raise the body temperature and make the muscles and joints move more easily. If you don't warm up you are more likely to get muscles aches and injuries which will discourage you from continuing with the exercise program.

Set a definite starting time for your daily workouts and stick to it. Keeping to the same time slot is usually the only way most people can work a regular exercise routine into their daily schedule.

Set a definite starting time for your daily workouts and stick to it. Keeping to the same time slot is

usually the only way most people can work a regular exercise routine into their daily schedule.

Don't overdo it, your body will only become wearier and your enthusiasm gets lower.

Set goals for yourself and keep a chart of your progress, whether it's miles run or pounds and inches lost.

The homing instinct of the carrier pigeon is so great that these birds can fly more than a thousand miles over unfamiliar territory and still find their way home.

For centuries, the amazing healing properties of the Aloe Vera plant have been utilized by mankind.

Council cont. from p. 1

gram. Bids were received from three companies including Steven and Martin, Inc. of Abilene, \$138,611; Rhode Pipe Co. of Silverton, \$138,876.25; and HBH Construction of Odessa, \$155,525. The council decided after a review of all bids by David Todd, an engineer with Barber, Brannon, and Traylor Inc., to cut out some of the "extras" in the construction and to accept a lower bid from Steven and Martin for \$86,365.70.

The Community Affairs development program will provide money for the replacement of the water main running down Mulberry Street and onto Rock Avenue, thereby providing increased water pressure for that area of the city.

Dennis Fisher approached the council to discuss the "Dead End" sign on his property on Prospect St. Fisher feels the sign is blocking his way for parking and should be removed. He added that barricades should be erected at the end of the street instead. The council tabled this matter until the situation could be investigated further.

Ferraro cont. from p. 1

voting record, and has received money from Handgun Control Inc.

Ferraro is from New York City and has indicated that she favors a national Sullivan-type law which would make the ownership of any kind of firearm, either handgun or long gun, illegal.

Walter Mondale and his staff were perfectly aware of Ferraro's ultra anti-firearms voting record.

In addition, with Mondale's approval, the Democratic Party has written into the Official 1984 Democratic Platform a ban on the sale and manufacture of handguns.

Public Notice

Southwestern Bell Telephone Company hereby gives notice that a Private Coin Service tariff has been filed with the Public Utility Commission of Texas.

Under the proposed tariff, Private Coin Service would be offered for use with a customer-provided instrument-implemented coin telephone at the request of the customer.

Interim approval of the tariff has been requested by Southwestern Bell Telephone Co. and a hearing has been set for Oct. 15. Unless the tariff is approved on an interim basis, the new service is scheduled to become effective on March 7, 1985. The matter has been assigned to Docket 5905.

Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene, participate or further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N Austin Texas 78757.

Further information may also be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227, or (512) 458-0221 teletypewriter for the deaf.

Aviso Público

Por medio del presente aviso, Southwestern Bell Telephone Company anuncia que ha registrado una tarifa referente al Servicio Telefónico Privado a Monedas ante la Comisión de Servicios Públicos de Texas.

De acuerdo con la tarifa propuesta, el Servicio Privado a Monedas podría utilizarse, previa solicitud del usuario, con un aparato telefónico a monedas provisto por el usuario.

Southwestern Bell Telephone Company ha solicitado la aprobación interina de esta nueva tarifa y ha sido fijada una audiencia para el día 15 de octubre. A menos que la tarifa reciba aprobación interina, el nuevo servicio entrará en vigencia a partir del 7 de marzo de 1985. La tarifa se ha registrada bajo el Docket 5905.

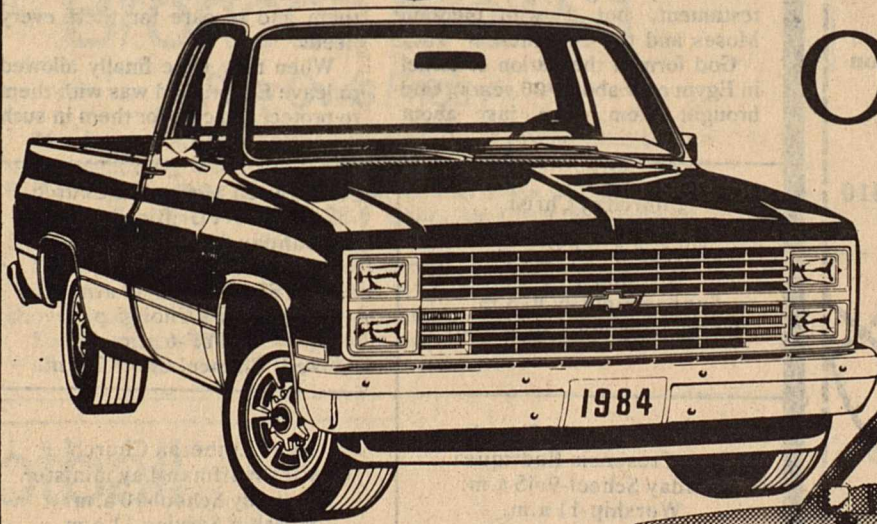

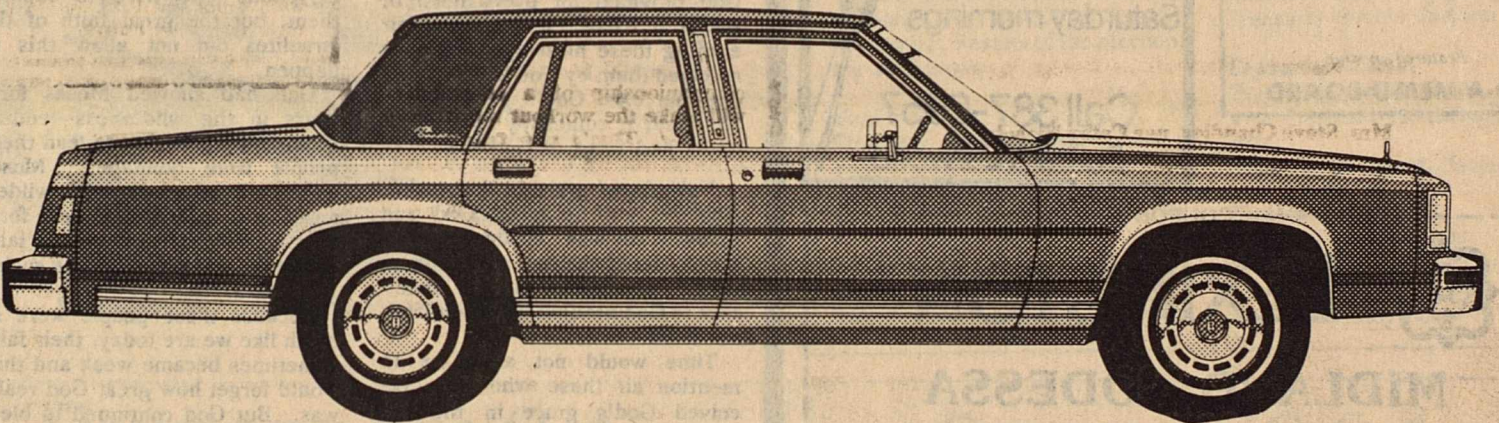

Toda persona que desee intervenir o participar en el proceso debe notificar a la Comisión lo antes posible. Las solicitudes de intervención, participación o información deben dirigirse a: Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757.

Para obtener mayor información debe llamar a Public Utility Commission Consumer Affairs Division, al (512) 458-0223, al (512) 458-0227, o al (512) 458-0221 si requiere teletipo para personas con impedimentos de audición.

Letter to the Editor

Why do I drive so fast on East Second Street?

I have lived on this street for 14 years and never did see very much speeding by our house, up until the 20 mile-per-hour sign was put up. I am sure that sign was put there for the protection of the school children, and a few old people. There are no sidewalks on this street so the children have to walk or ride their bikes on the street.

Many of the fast drivers are parents taking or bringing their

children to or from school. So, why don't you speeders slow down?

Maybe someday you will be coming from the hospital, or the funeral home, after seeing a friend, a relative, or maybe one of your own family. You will ask yourself, "Why was I driving so fast, especially in the school zone?"

Your only answer will be "I can't read or I just don't care, but I really am sorry."

Harvey DuRussell

To the Editor:

On behalf of the **Caballo Diablo** staff, I would like to thank these businesses that advertised on the school page this week: Jimco-Dicon, Hershel's Foodway, First National Bank, Sutton County National Bank, Sonora Ford Sales, San Angelo Savings, Food Center, and Chaparral Motors.

We truly appreciate your support in our new venture, and hope that you enjoy reading all the news about Sonora High School.

Sincerely,
Kirk Macon

God Blesses His People

By Don Jones

Minister, Church of Christ

God has always taken care of people who love Him and follow his teachings. In the Garden of Eden, God provided for every need of Adam and Eve. It was not their earning these blessings, but they received them by God's grace. No one can earn God's goodness or His love, it comes by grace (the unmerited favor of God.)

Noah found grace in the eyes of God because he loved God and followed His way. Noah's faith led him to build the ark according to God's commands, and his obedience to God brought salvation from the flood.

Time would not allow us to mention all those who have received God's grace in the old testament, but I will mention Moses and the Israelites.

God formed the nation of Israel in Egypt over about 430 years. God brought them from just about

seventy people to approximately 3 million during the 430 years. They became a feared people by the Egyptians who tried to suppress them, but the great faith of the Israelites did not allow this to happen.

God had allowed Moses forty years in the wilderness tending sheep to prepare him to lead these people from bondage. Moses would bring them into this wilderness and spend another forty years. This required a lot of faith on Moses' part to undertake such a great task.

Because these people were so much like we are today, their faith sometimes became weak and they would forget how great God really was. But God continued to bless them and to care for their every need.

When they were finally allowed to leave Egypt, God was with them to protect and care for them in such

a way that their faith should have grown stronger every day, but remember they were human like we, and at times, they allowed their faith to fail.

By the great power of God the Red Sea opened and allowed Israel to cross on dry ground. To allow these million people to cross in twelve hours, the sea would have to open at least three miles wide and the people would have to stand 5000 abreast. The sea came together with the Egyptian Army crossing behind Israel and destroyed a great enemy.

Now the problem multiplies and God will again prove his love for his people. Once across the Red Sea, the people will need to be fed. In a desert like this where do you find food to feed anyone, much less three million people? It would take about 1500 tons of food or two freight trains each one being one

mile in length. It would also take several tons of fire wood to build the fires which would require another five trains. With no water in lakes and no rain in the desert, it would take about 1800 tank cars of water each day. With just this amount of care it would take twenty-five trains each day just to feed these people.

To give an idea of how large this gathering was, try to vision a camp site large enough for them. To allow them any room at all, here is what it would take; 750 square feet - twenty-five by thirty miles or two thirds the size of Rhode Island. These were God's people, and God provided for them.

For forty years, God sent many things to them like manna, quail, water from the rock, or anything they needed. This again proved that God will always bless His people.

Caballo Diabolo

Sonora High School

Sonora, Texas

Volume 10, Number 10

"Our Tenth Year of Publication"

Six teachers join high school faculty Two transfer from junior high campus

Six teachers are new to the faculty at Sonora High School this year.

They are Kirk Macon, Jim Baughman, Terry Marrs, Sheila Murr, Bobby Sosa, and Kay Clifton.

Mr. Macon is teaching English IV and journalism at SHS. He obtained his Bachelor of Arts at Sul Ross State University this year. Macon, originally from Sweetwater, graduated from high school in Marathon in 1981. Mr. Macon is single and is in his first year of teaching.

While at Sul Ross, Macon's concentrations were in English, political science, and journalism. He was named Outstanding Eng-

lish Major this year at SRSU. He was editor of the *Skyline*, the university's newspaper, for two and one-half years. He won several awards in journalism in statewide collegiate journalism contests; he was on the Dean's Honor List every semester he was enrolled; and was a finalist for the Man of the Year at Sul Ross this May. He also was voted by the faculty as a member of Who's Who Among American Colleges and Universities.

Mr. Baughman teaches Distributive Education at SHS. He received his Bachelor of Arts from West Texas State University in speech and English. He also attended Angelo State University and worked toward his Master's Degree.

Mr. Baughman has taught in Socorro and Amarillo, and was most recently at Dalhart before making his move to Sonora. He has 13 years of teaching experience: nine in speech, one in English, and three in D.E. Baughman is married to Carol. His youngest son, Jimmy, is currently in the United States Marine Corps. His older son, Benny, is working for the Highway Department in Sonora.

Mr. Sosa is a new face at the high school, having transferred to SHS from Sonora Junior High school this year. He teaches a variety of math courses and world history. He graduated from the University of Texas at El Paso. Prior to moving here, Sosa taught

at Canutillo, Seguin, South San Antonio, Menard and Eldorado. He has been teaching for 18 years. Sosa's wife, Juanita, teaches first grade here. He has two daughters: Cindy, a freshman, and Norma, and eighth grader. He has a son, John, who is in kindergarten.

Miss Murr is teaching a variety of business courses. She holds a degree from Tarleton State University in Stephenville. This year is Miss Murr's first to teach. She most recently has lived in Houston and Dallas, working for the Exxon Company, USA in Houston for three years. She also has been a social worker investigating child abuse in San Angelo. Miss Murr is single, and her parents live in San

Angelo.

Another new face at the high school, but not to most students is Mrs. Clifton, who has transferred from the junior high. Mrs. Clifton teaches English III and Correlated Language Arts I and III. She holds a Bachelor of Arts from Southwest Texas State University and a Master of Secondary Education with English specialization from Sul Ross State University. Mrs. Clifton has taught for nine years.

Mrs. Clifton is married to Tom Clifton, and has three children, Chris, who is 5; Becky, 4; and Derek, 3.

Mr. Marrs, who teaches drama, speech, and debate, comes to SHS from Odessa High School. He has

also taught at Lubbock Coronado. Marrs, originally from Crane, received his Bachelor of Arts and Master of Arts degrees from Texas Tech University.

Mr. Marrs has directed one-act plays that have finished second and third at state University Interscholastic League contests while at Coronado. He was named Coronado's Teacher of the Year in 1977, and this summer he photographed and acted at the Oklahoma Shakespear Festival in Durant.

Mr. Marrs is married to Sherry, who teaches at the junior high. They are the parents of Sarah, 5, and Erin, 3.

New principal talks about Sonora, SHS

"Sonora has a good school system. There is also a strong teaching staff in critical areas. The School Board supports education with taxes and allows the principals the authority to run the school," replied Mr. Jack Asbill, the new principal at Sonora High School.

Mr. Asbill recently moved to Sonora from Garden City, where he was the principal of Garden City High School. He is a graduate of Sterling City High School, in Sterling City, Texas. Asbill received

his Bachelors Degree at McMurry College in Abilene. After receiving his Bachelors Degree, he went on to receive a Masters Degree at North Texas State University in Denton, Texas. Among Mr. Asbill's many hobbies he lists hunting, fishing, and gardening.

He also said, "Sonora High School is great! West Texas students are basically good. They come from good, caring families and most of the students are involved in good activities."

BAND PREPARATION--Just before the Junction game, the Mighty Bronco Band members ready

themselves for a halftime performance.

New class officers

Class officer elections were held at Sonora High School on September 4 and 5. Results of the elections are as follows:

Senior Class
President-Abel Sanchez,
Vice-President-Ruben Garza,
Secretary-Anita Balch,
Treasurer-Debbie Bible

Junior Class
President-Jim Cooper,
Vice-President-Sidonna Ridgeway,

Secretary-Leslie Webster,
Treasurer-Bonnie Jackson

Sophomore Class
President-Mickey Sharp,
Vice-President-Shaumarie Scoggins,
Secretary/Treasurer-Javier Flores

Freshmen Class
President-Alex Duenes,
Vice-President-Delma Chavez,
Secretary-Precia Miller,
Treasurer-Cindy Sosa

Editorial

Wanted: more spirit

Spirit[less]? If anyone has been to a Bronco pep rally lately, they know what this means. It would really encourage them if the team knew the whole student body and town were behind them. It would make them work even harder and make everyone's spirit worthwhile.

The student body seems to be embarrassed to stand up and cheer for our team. Yes, the football team is our team. The school's team. The town's team. They represent us-Sonora-everywhere the team goes.

If the Broncos were to win state, all of us would want to share in the glory, so we should all cheer together now to make the Broncos' enthusiasm grow now when they need it most. Spirit in the pep rallies could really motivate the team.

People feel that there is safety in numbers, so if we all, as a town, unite in boosting the football players' spirit, we would all reap the benefits. Just a few years ago, the gym, on pep rally days, was so loud no one could hear themselves think.

Why doesn't all of Sonora get behind and support our team, the Broncos, to another one of many victories against Reagan County, Here, Friday?

Broncos are 3-1

Play Owls Friday

The Sonora Broncos, after being on the road the past three weeks including last week's 6-2 loss to Brady, will be at home Friday night to take on the Reagan County Owls at 8 p.m.

The class 2A Owls were 28-6 losers to Coahoma, one of Sonora's district foes, last Friday.

Both Sonora and Reagan County sport 3-1 records this season. The Owls finished last season with a 2-8 mark, but are showing signs of becoming a contender.

Sonora went into the Brady game unbeaten, having clobbered Wall 31-14, Junction 23-0, and Eldorado 33-14.

Bronco JV 2-0-1

The Sonora Bronco junior varsity is 2-0-1 for the season.

The victories have been 21-0 over Wall and 14-6 over Brady. The tie came two weeks ago against Junction a 12-12 deadlock.

"We've played fair," said Coach Roy Evans. "We haven't improved like we thought we would. Overall, though, we're pretty young, so it will take time," he said.

New tax law effective

As of Tuesday, October 2, a laundry lists of new items are now subject to Texas sales tax for the first time ever.

That laundry list of new taxes includes just that -- laundry. Texans are going to pay the state sales tax of 4 1/8 percent and any additional local sales taxes on their cleaning bills.

The most common type of bill is dry cleaning personal clothing. A \$20 dry cleaning or laundering bill will jump to \$20.82 -- higher still if any additional local sales taxes are charged.

But the new tax includes more than cleaning bills for clothing. Employee uniforms or linens such as table cloths or cotton napkins sent out to be cleaned will also be taxed.

Drapes that are repaired or steam cleaned will also be taxed. If you have someone shampoo a carpet or rug or have a suit mended or tailored or store a fur coat during the summer months, you must pay the new tax.

Upholstery cleaning and repairs fall under the new tax, as do valet services at hotels and other ironing

or pressing services. Not affected are coin-operated laundry machines operated by consumers, including dry cleaning machines found in some public laundries. But operators of detergent vending machines have to pay the new tax rate too so the price of soap at public laundries may go up, too.

Questions concerning the new tax rate on cleaning can be answered by State Comptroller Bob Bullock's office at 512/475-1931 or on the toll-free line, 1-800-252-5555.

Green Thumb workers attempt burglary seminar

What does a burglar look for when he's looking for an easy target? Homes that present the least risk of detection and the greatest opportunity for easy entry, according to information presented at a recent Green Thumb training seminar.

About 60 Green Thumb workers from 8 counties learned to look at their homes through a burglar's eyes when they met at Eden Tuesday, September 25.

Homes that appear unoccupied and unprotected; homes without

adequate locks and lighting; open or unlocked doors and window; and home sites which provide easy concealment from neighbors and passing motorists wear "Welcome Burglar" signs.

The Green Thumb workers and local agencies present viewed a crime prevention film entitled "Senior Power and How to Use It" that was provided by John Pounds of the San Angelo Police Department.

Also on the program was Gene Hirschfeld of the Department of Public Safety Public Affairs Divi-

sion who shared tips on the different Texas Forts Trails that can be toured.

Diane Parrish, Green Thumb State Director, conducted a question and answer session on administrative matters. Green Thumb is a non-profit program for persons over 55 that supports equal employment/affirmative action guidelines.

Attending the session from Sonora were Leonor Dominguez, Victoria Romero, Ernestina Sanchez, and Pauline Crutchfield.

Local students shake hands with the future

Esmeralda Castilleja, daughter of Mary Helen Sanchez; Carrie Cox, daughter of Ronnie and Alice Cox; and Jesse Lynch, son of Mr. and Mrs. Al Lynch were among several gifted and talented youth from 114 Texas cities and 7 other states who participated in the 4th annual "Shake Hands With Your Future" at Texas Tech University this past summer.

"Shake Hands With Your Future", a summer enrichment program, exposes participants to advanced learning opportunities and to living in a university setting. The three 1984 sessions involved 436 students in the 5th through 12th grades.

Participants selected courses such as biochemistry, leadership, physics, math engineering, fine arts, agriculture, law, musical

comedy performance, time and money management and experimental music.

Classes were taught primarily by faculty of the university and the Texas Tech Health Sciences Center.

Supplementary activities included field trips, lectures, counseling, communication sessions, mentor sessions, recreation and social activities suited to each age group.

The annual program is designed to enrich the educational opportunities to gifted and talented youth.

In order to participate, students must be nominated by a parent, teacher, school administrator, counselor or themselves. Selection is based on high performance on achievement tests, high IQ, creative thinking skills and visual and performing arts abilities.

"Shake Hands With Your Future", an integral part of the Texas Tech Institute for Gifted Students, is administered through the Division of Continuing Education Department. More than 1400 students have participated in the program since its inception in 1981.

Shareholders approve merger

ENSTAR Corporation shareholders voted Tuesday to approve ENSTAR's merger with a subsidiary of Unimar Company. Approximately 17.8 million of 18.5 million Common and Convertible Preferred shares cast were voted in favor of the merger. Approximately 25.4 million Common and Convertible Preferred shares were eligible to be voted at the meeting.

The merger, which will become effective immediately, completes a transaction which began in late June with Unimar's successful, \$20-per-share tender offer for 14.3 million ENSTAR Common shares.

Now that the merger has been approved, each ENSTAR Common share not purchased in the tender offer will be exchanged for \$2 in cash and one Indonesian Participating Unit that will entitle holders to a share of the net cash flow from ENSTAR's interest in its Indonesian joint venture for the next 15 years. Each ENSTAR Convertible Preferred share will be exchanged for \$14 in cash plus seven Indonesian Participating Units.

Trading of the Indonesian Participating Units on a when-issued basis was expected to begin on the American Stock Exchange on September 26 under the symbol UMR.

Unimar Company is a partnership of subsidiaries of Allied Corporation and Ultramar PLC.

IRA deadline near

October 31 is the date by which employers must report on Form 941 social security and withheld federal income taxes for the third quarter of 1984 and pay any taxes due, the Internal Revenue Service says.

This deadline does not apply to those employers who make timely deposits of the full amount of tax due in Federal Reserve or approved commercial banks. They are allowed until November 12 to file Form 941, "Employer's Quarterly Federal Tax Return."

If employers have not received Form 941 by mail, they can order one through the Forms/Tax Information number listed in the phone book under U.S. Government. IRS Publication 15, Circular E--Employer's Tax Guide, is also available through this number.

Annual Devil's River News FOOTBALL CONTEST

\$\$\$WIN\$\$\$

\$15 First Prize!
\$10 Second Prize!
\$5 Third Prize!

Contest Rules Below:

1. Pick up an entry blank from one of the sponsors listed below.
2. Fill it out completely, writing the teams you think will win each week beside the sponsors' names on the entry blank.
3. Each space on the entry blank must have a team entered there. FOR EXAMPLE: If Smith Hardware's ad has sonora vs. Wall in it, and you think Sonora will win, write Sonora beside Smith Hardware's name on the entry blank. Do this for each game and remember to sign your name and choose a tie breaker.
4. Be sure and put your name and list the location where you obtained your entry blank. Entries not filled out completely will be disqualified.
5. The tie breaker picked each week will be the total points you think will be scored in the Dallas Cowboy game of the week.
6. Only one entry may be entered per person.
7. Employees of the Devil's River News and their families will not be eligible to enter.

Safety tips for National Fire Prevention Week

October 7-13 is National Fire Prevention Week and a good time to think about fire safety, since cold weather is approaching, says the Building Advisory Council of Texas.

Most fire fatalities in Texas occur in residences, and most of these are related to home heating and water heaters, according to

data supplied to the State Fire Marshal's Office in Austin.

"Most of these fatalities result from gas-fueled space heaters being placed too close to combustible materials such as walls and furniture," says Dennis Gissell, information specialist with the Fire Marshal's Office. "Placing combustible materials too close to

water heaters also recommend smoke and fire detectors to provide early warning of fires such as these," he adds. "They clearly reduce the amount of lives and property lost in fires."

Gissell recommends that nothing burnable should be placed next to any heating device, especially the open flame of a gas or kerosene

heater. Combustibles should be kept three to six feet away from wood-burning stoves and fireplaces, and the floor beneath should be non-combustible. Consult the manufacturer's instructions or your local fire department or building inspector for information on fire precautions for other heating appliances.

Many fire fatalities result from defective heating equipment. Gissell recommends that any kind of heating device should be a tested and approved model. If installation is required, it should be done by a qualified professional. Afterwards, household heating units should be inspected once yearly to ensure they are operating correctly.

Building Advisory Council encourages you to consider fire safety when choosing an apartment, especially if it is for an elderly person.

Look for buildings with firewalls that extend up into the attic. Fires can spread very quickly without them, endangering occupants. Floors, walls and roofs should have a two-hour fire rating. This rating means that it should take two hours for flames to burn through, although in an actual fire it usually takes less time for flames to enter a residence.

If you live in an apartment, check with your manager about fire-safety inspections and report any fire hazards you notice in your or neighboring buildings. The

Colley elected Commander

Merely surviving after a Viet Cong land mine ripped both legs and an arm from his body just wasn't enough for Chad Colley.

He wanted a full life. Handicapping war wounds, no matter how severe, weren't going to stand in the way of this Arkansas businessman, who was recently elected national commander of the 900,000 member Disabled American Veterans (DAV).

The determination that sets off life's winners was obvious in a letter Colley wrote to his wife, Betty Ann, just three days after he was nearly killed.

"Even though I'm banged up pretty bad, I'm still me," he wrote from a hospital bed in Vietnam. "I can put my loss of limbs into an asset. I have a big challenge to undertake now. I'll need your help—not your sympathy...By all means, don't start feeling sorry for me. I'm feeling sorry for those who didn't make it."

A surprisingly up-beat tone for a man who'd just lost three limbs, a man who still faced the danger of death! But, speaking of the Viet Cong, he joked, "It's funny that these people didn't realize how tough I am."

Colley will need that good-hu-

mored optimism and that winning determination as he leads the DAV, America's third largest veterans' organization, during the coming year.

"The heat's on to cut veterans' programs," he explained. "With powerful members of both political parties demanding cuts in federal spending, including programs for disabled vets, we're going to have a battle on our hands no matter who wins or loses in the November elections."

"I'm determined to make sure the Disabled American Veterans wins that battle. The plan is to build our membership strength, passing the million-member mark as soon as possible. And we're going to make the DAV's service and legislative programs even more effective than they've already proven to be."

That kind of steel-willed outlook has always been part of Colley's buoyant personality. He credits an active, happy childhood in a close, loving family as the root of his spirited disposition. Deep religious values also played a role.

While studying math at North Georgia College, he quickly became a campus leader, listed in Who's Who Among Students in American Universities. As a se-

nior, he received the coveted All Sports Award. And when he left the college, he was honored as a Distinguished Military Graduate, and received a commission in 1966.

July 21, 1968, found Colley leading a company of 101st Airborne Division men on a mission 45 miles northwest of Saigon when a land mine explosion threw the young lieutenant into the air. He remembers that he felt no shock or horror after falling back into the crater left by the blast; he was only glad he was still alive.

At a military hospital in Vietnam, his right leg was removed above the knee, his left leg at the hip socket, and his left arm below the elbow. But a year later, Colley was working as a real estate broker. Since then, his career has taken him to the positions of sales manager for the largest home builder in western Arkansas and loan department manager for a federal savings & loan association.

Today, he owns and operates a mobile home and land development company near Fort Smith, Ark., doing business throughout the northern part of the state. But he plans to live in Washington, D.C., during his one-year term at the helm of the nonprofit DAV.

Religious, civic, social and political involvements have always characterized Colley's active life. Recognition of his contributions in

these areas are numerous. The Daughters of the American Revolution awarded him their Honor Medal. The U.S. Jaycees recognized him as a finalist in their national oratorical contest. And he's just completing his fourth year as a board director on the governing body of his hometown, Barling, Ark.

But, perhaps the most meaningful recognition came in 1970 when the DAV honored Colley as the national Outstanding Disabled Veteran of the Year.

With his election as DAV national commander, Colley replaces Dennis A. Joyner, who also lost three limbs in the Vietnam War. Joyner paid Colley a great tribute as he turned the gavel over to him.

"Able-bodied or disabled, young or old, veteran or nonveteran, the wide spectrum of our population can find a common identity with this man," said Joyner. "Chad's positive outlook, his productive record, and the sheer weight of his example have strongly influenced the lives of everyone with whom he's ever had contact."

Lone Star Gas files rate increase

Lone Star Gas Company Representative Gary S. Jennings recently filed an application for a rate increase which would raise the average residential customer's monthly bill in Sonora about \$2.21 in the winter and result in a decrease of about \$.39 in the summer based on an average consumption of six thousand cubic feet.

Based on Lone Star's rate application, a residential customer who uses an average of six thousand cubic feet of gas a month paid \$36.26 for gas service in the winter. Under the requested rate, that same customer would pay \$38.47.

Commercial gas customers' rates would also increase under the requested rate schedule.

"Our customers are accustomed to dependable natural gas service," says Jennings. "This rate increase is necessary to continue a high performance level and for other necessary expenses, such as maintaining and improving the local pipeline distribution system, which are vital to dependable service."

Lone Star's last rate increase in Sonora became effective February, 1982.

"Since that time, every business, including Lone Star, has experienced increased operating expenses," says Jennings. "And, of course, unlike other businesses that can raise their prices as expenses go up, we must apply to the city council for a rate increase. No one likes rising prices, but any business must earn enough money to meet operating expenses and still achieve a reasonable profit. Even though our expenses have gone up, Lone Star still has one of the lowest average operating costs per customer when compared to any of the other major gas utilities in Texas."

Public Notice

Southwestern Bell Telephone Company, in accordance with an order from the Public Utility Commission of Texas, hereby gives notice it has filed a tariff to reduce the monthly rates for the Switched Access portion of the company's intra-LATA Foreign Exchange (FX) Service offering that was implemented starting June 1, 1984. Simultaneously, the LATA-wide toll-free calling scope, also started June 1, would be discontinued and the calling scope would return to that in effect prior to June 1. The Commission has assigned this matter Docket Number 5891.

The net effect of the tariff will be a monthly decrease in total billing of approximately \$700,000 until November 1, 1984. After that time the net effect on the company's revenue is estimated to be negligible.

Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene, participate or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. Further information may also be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227, or (512) 458-0221 teletypewriter for the deaf.

Aviso Público

En conformidad con una orden de la Comisión de Servicios Públicos de Texas, se anuncia mediante el presente aviso público que Southwestern Bell Telephone ha presentado una tarifa con el objeto de reducir las cuotas mensuales que se han cobrado desde el 1 de junio de 1984, por la porción de la tarifa para acceso a la red central necesaria con el uso del Servicio de Zona Exterior (Foreign Exchange (FX) Service).

Simultáneamente, el servicio de llamadas de larga distancia sin cobro dentro del área de servicio que también se efectuó el 1 de junio de 1984, se discontinuará; y el campo de llamadas será al igual que antes del 1 de junio de 1984. Se ha registrado la nueva tarifa bajo el Docket 5891.

El efecto real de la nueva tarifa se verá en la reducción del costo total de facturas de aproximadamente \$700,000 hasta el 1 de noviembre de 1984. Se calcula que después de esta fecha el efecto real para nuestra empresa será despreciable.

Los usuarios de Southwestern Bell Telephone Company que estén interesados en participar en esta reunión, o que requieran mayor información, deben dirigirse por escrito a: Public Utility Commission of Texas, 7800 Shoal Creek Blvd., Suite 400N, Austin, Texas 78757. También se puede obtener información adicional llamando a Public Utility Commission Consumer Affairs Division al 512/458-0223, al 512/458-0227, o al 512/458-0221 si requiere teletipo (aparato para personas con impedimentos de audición).

Southwestern Bell Telephone

DON'T SHOOT AT POWER LINES!

Never shoot at power lines or the insulators that hold them. A severed line could cause a dangerous power outage, and the downed line itself could also be a very serious safety hazard.

Here are a few other tips on how to live more safely — electrically:

Keep Children Away from Outlets!

Don't let small children play near electrical outlets. A child could easily put a finger or some object in an outlet when you're looking away. A wise safety precaution would be to put safety caps in all wall outlets.

Use Power Tools Wisely!

Be extra careful when using power tools. Always be sure the wiring is adequate for the job. See to it that there are enough circuits of the right size, and that all circuits are grounded. Also, never use electric tools in the rain or on wet surfaces.

Electricity.

It's the Power of Choice.

CAPITOL UPDATE

John Tower
U.S. SENATOR for TEXAS
WASHINGTON, D.C. 20510

School has started again, and America's attention is focused upon increasing the quality of education in our classrooms. We must decide whether to allow our schools to decline further or to restore them to the institutions of educational excellence they once were.

The President's National Commission on Excellence in Education described the declining condition of America's educational system as a "rising tide of mediocrity." For the past 20 years, Scholastic Aptitude Test scores have steadily declined and functional illiteracy has increased. When President Reagan took office, 13 percent of all 17-year-olds were functionally illiterate.

Lack of a quality education for our children has threatened the competitiveness of U.S. industry and the job prospects for many of our young people. The future will be even more competitive as we advance into a highly technical age. Mathematical and scientific skills are particularly important in this context, yet students are not receiving this education in many of our classrooms.

I believe a national commitment to educational reform is needed to return excellence to our schools. And this is beginning to occur.

Recently, Americans have drawn together to meet the rising tide of mediocrity with a tidal wave of school reforms, many of which were recommended by the President's Commission on Education. At least 35 states have raised high school graduation requirements and 11 states have lengthened school days or years. Incentive pay programs to reward better teachers are in place or under consideration in 30 states.

The proposed \$15.5 billion Department of Education budget for 1985 is the largest in history. Any federal funds directed at education should be targeted to programs proven effective such as Head Start, a preschool program for children of low income families. In 1985, Head Start will serve 429,000 children, 63,000 more than in 1980.

Block grant spending also is efficient use of federal funds. These grants are expected to increase 50 percent, giving local education authorities even more flexibility to meet particular needs. President Reagan supports efforts to return control of our schools to parents and local officials. This is the first step in returning to basic values, basic traditions and basic good sense in the classroom.

Texas always has been concerned with quality education for our children. Public education was listed as one of the grievances in the Texas Declaration of Independence from Mexico. In 1836, President M.B. Lamar stressed to the Congress of the Republic of Texas the need for public education. He advocated reserving public lands for schools, a step that was taken with the 1876 Texas Constitution. In fact, Lamar is known in Texas at the "Father of Education."

As a Texan and former teacher, I believe President Reagan's leadership has done much to focus the national attention upon bettering our educational system. We cannot afford to give the future leaders of America a second-rate education.

Ranchers challenged to become consumer oriented in 1985

Cattlemen who succeed in today's tough economic environment will be those who become more consumer and market-oriented and use the best management techniques to produce beef more competitively, according to a past president of the National Cattlemen's Association.

Sam Washburn of Fowler, Ind., said profit opportunities still exist for ranchers willing and able to invest, work, innovate and meet today's changing consumer demands.

His observations were based on a recent study of a special advisory committee to NCA called "The Future of Beef." This report, he said, shows that beef remains by far the most strongly preferred meat.

Washburn, who addressed the Purebred Breeders Symposium at Texas A&M last week, said a most important change has been the "maturing" of the meat industry in general, and the beef business in particular.

Meat is no longer a growth business, as it was from the 1950's

through the 1970's, and average per capita consumption of all meat has leveled off at around 200-205 pounds, retail weight, according to the report.

"This leveling off signals a highly competitive situation. Future beef industry growth will depend on population growth, expansion of exports, development of new beef uses and products, progress in the competitive relationship between beef and other meats, improving beef's acceptance, and capturing a greater share of the available market for meat," Washburn said.

The committee's analysis showed that most ranchers can improve their efficiency and performance just by using technology and techniques now available.

"Efficiency of production and marketing will have to improve for individual cattlemen and the industry. Narrowing of the price spread between beef and its competitors for the consumer's protein dollar is necessary for future profitability," he said.

Research will bring further

advances in beef production, processing and marketing but the greatest advances of this decade will result from increased adoption of techniques and processes already available.

He also urged more unity in carrying out industry programs.

Also addressing consumer concerns about beef was Anne Anderson of Austin, a registered dietitian who has given leadership to consumer education programs of the Texas Cattle Feeders Association, Dairy Council, Inc., and the Beef Industry Council.

The industry has developed its long-range consumer marketing plan with the contemporary beef consumer in mind, Anderson explained. Called "1990-Planning to Get There Profitably," it is designed to make the best use of available resources, and to anticipate future trends, she said.

"This industry-wide commitment involves promotion, public relations, education and research. In education, the program conducted in the nation's public

schools—including the fifth grade in Texas—will reach 47 million of tomorrow's consumers during the next six years. Research also is having high impact as new positive information about beef becomes available," Anderson said.

A six-year research study conducted in cooperation with the U.S. Department of Agriculture showed that beef is lower in calories than was previously thought, lower in cholesterol and still an excellent source of protein, B vitamins and minerals—all good news for consumers, Anderson said.

A new product commanding interest is restructured meat, or meat which has been shaped and formed into a different, more palatable product. This technology offers many exciting possibilities in the years ahead, she commented.

The purebred Breeders Symposium was organized by the Texas Agricultural Extension Service, Texas A&M University System and Texas A&M's Department of Animal Science, in cooperation with 15 cattle breed associations.

DEVRY INC. to offer scholarships

DeVRY INC. will offer 75 full-tuition scholarships at a total value of \$1,102,000 to 1985 high school graduates throughout the United States.

According to DeVRY INC. President Philip A. Clement, each scholarship provides approximately \$14,600 for application fees and tuition, and may be used toward a diploma or Bachelor of Science degree program in either Electronics Engineering Technology or Computer Information Systems. The scholarship can be applied at any DeVRY Institute in the United States.

Finalists will be determined on the basis of College Board scores (SAT, ACT or WPCT) and will be announced in April of 1985. Scholarship recipients will be chosen on the basis of those scores, high school academic achievement, extra-curricular activities and an essay. Announcement of winners will be made shortly thereafter.

Applications are available at the Office of Admissions at the DeVRY Institutes and must be returned before March 19, 1985.

Clement said scholarship recipients will receive a plaque to commemorate the honor and a similar plaque will be presented to the students' high school for permanent display.

The number of scholarships granted to each DeVRY Institute will be determined by the number of applications received by that school. Each of the nine campuses will have the opportunity to award at least one scholarship to an outstanding student from the local area. All 1985 high school graduates are eligible, with the exception of DeVRY, Inc. and Bell & Howell employees and their immediate families.

Spouse abuse does not get better, only worse. The County Liaison from the Family Shelter in San Angelo will be in Sonora at the Senior Citizens Center October 22 from 10 a.m. to 3 p.m. for information about domestic violence and the Family Shelter. Services are confidential.

Until 1796 there was a state in the U.S. called Franklin. Today it is known as Tennessee.

PRP solves special tax problems

Experiencing an uncomfortable feeling akin to indigestion regarding an unresolved tax problem? If you have already tried the normal IRS remedies to solve your problem, the tax agency suggests you try its Problem Resolution Program (PRP) office.

The most common problems brought to the PRP office are complaints about missing refunds, mixed up social security numbers, incorrect billings by IRS, and situations caused by taxpayer

error, the IRS says. They cautioned, however, that the Problem Resolution should not be used as a substitute for normal procedures.

Although most taxpayers will never need the services of PRP, the IRS says that taxpayers with a persistent tax problem will find PRP willing and able to help. Taxpayers can contact PRP through the IRS assistance number listed in the phone book under U.S. Government.

Washington

A CLEAR CHOICE

The American people have been presented a proposal whereby the federal budget deficit would be reduced by raising taxes. The American people are being asked to put their trust in a "pay as you go" budget and a deficit reduction trust fund.

In essence, we have been presented a program that is quite simply an economic roadmap back to the years of the higher taxes, increased spending, and economic stagflation which we suffered under the previous administration. It is an offer that I believe the American taxpayer will refuse because we have already been down the "tax and spend" road and we know all too well the consequences.

In 1980 the prime rate stood at 21.5 percent, GNP was declining at an annual rate of 0.4 percent, and inflation stood at 12.3 percent, eroding the living standard of all Americans.

Under the previous administration, the income tax burden on the median-income family of four increased from \$1,713 in 1976 to

\$2,778 in 1980—a massive 62 percent increase. And without President Reagan's three years of tax cuts, the tax burden for the median income family of four would have risen to \$3,943 by 1984.

According to the U.S. Treasury, if all promises included in the challenger's 1984 platform were kept, our taxes would go up, both directly and indirectly, an average \$1,890 per household, per year.

Most cruel, however, is the proposal to defer President Reagan's tax indexing program, a key tax reform scheduled to go into effect in 1985. Tax indexing has always given the liberal big spenders nightmares, because liberals traditionally rely on the hidden tax increases fueled by inflation-induced bracket creep to fund their favorite programs.

What the liberals will never tell the American people is that even the partial elimination of tax indexing virtually removes any incentive for the federal government to continue to pursue the responsible, conservative policies which have so successfully brought the annual inflation rate from 12.3 percent in

1980 to 3.2 percent today. And, furthermore, the liberal proposal to defer tax indexing would cause the major portion of the new tax burden to fall squarely on the shoulders of middle-income taxpayers, small businesses, ranchers, and farmers.

Other than these new tax proposals, which are guaranteed to shove the economy into recession, this liberal budget reduction plan is incredibly vague. Yet, on the basis of this flimsy document, President Reagan is told to immediately produce a budget. This must seem ludicrous to a President who for the past four years has presented budgets in line-item detail for intense Congressional scrutiny.

As for the so-called "deficit

reduction trust fund," the only trust involved is the blind faith of the American people. On one hand we are told that the \$85 billion in new taxes would be earmarked for the trust fund. Yet on the other hand we are told that \$30 billion is to be spent for new domestic programs.

The obvious question is: "What is the source of the additional \$30 billion?" Somehow, I believe that the long-suffering American taxpayer knows the answer.

The deficit will be reduced only if we continue to reduce federal spending coupled with continued economic growth without inflation. We cannot return to the irresponsible tax and spend policies of the past.

Cable television costs going up

The price of movies is going up—on cable television. New tax laws that go into effect October 2 are going to make cable television more expensive.

Under a tax bill passed by the Legislature and signed by Governor Mark White, cable television service is going to fall under the state sales tax of 4 1/8 percent.

A \$50 per month cable television bill will now total \$52.06. The total sales tax bill for Texans will differ, depending on whether their city

has a local sales tax and an additional tax for mass transit. That local tax usually can amount to another two percent.

With such an added local sales tax, the total bill on a \$50 monthly cable TV bill would climb to \$53.06.

That makes watching reruns of "Casablanca" a little more expensive.

Humphrey Bogart always will stay behind in Casablanca after Ingrid Bergman leaves, but every time Sam plays it again, it's going to cost a little more.

But cable television offers more than reruns, and those other special presentations are taxable, too.

If a person orders a special feature, such as a specially televised concert or boxing match, the state sales tax applies to that also. These are televised events offered to viewers at additional costs.

And with football season upon us, special television presentations of college games through special sports networks could boost the cost of watching the games on your television set.

Questions about the new tax laws can be answered by State Bob Bullock's office on 1-800-252-5555 toll free or the regular number, 512/475-1931.

Tobacco products now taxable

Smokers often face that moment of panic when they are a dime short and a nickel shy in front of a vending machine.

They may face more moments like those beginning October 2.

The Legislature has passed, and Governor Mark White signed, new laws that hike taxes on cigarettes and tobacco products. So smokers will have to come up with a few more coins at the machines.

The Legislature's actions now make tobacco products double-taxed items. Texans will have to pay both a sales tax and a tobacco products tax.

The tobacco products tax went up by one cent to 19.5 cents per pack. But the heftiest increase

comes with the change in sales tax laws.

For the first time, cigarettes, cigars and chewing and pipe tobaccos will fall under the state sales tax.

Generally speaking, Texans will have to pay at least another five cents per pack over the counter, bringing the average price per pack to about \$1.20.

For Texans who live in areas of the state that collect local sales taxes and mass transit taxes, the price of cigarettes will be higher.

Additionally, the vending machine price of cigarettes—already higher than the over-the-counter price—will inch even higher.

HNG announces new sales volumes

Houston Natural Gas Corporation (HNG) announced recently that, under previously executed agreements, new sales volumes averaging a minimum of 150 million cubic feet per day would commence during fiscal 1985. These volumes are in addition to deliveries under a 10-year agreement calling for HNG eventually to supply General Electric with up to 300 million cubic feet per day for cogeneration projects in Texas.

Speaking before financial analysts and industry specialists at an Institutional Oil and Gas Conference in New Orleans, Dr. Kenneth L. Lay, HNG's chairman and chief executive officer said that the Company expects its sales and transportation volumes in fiscal 1985 to be greater than those in

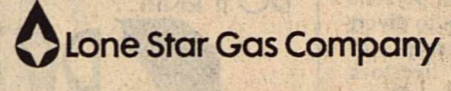

fiscal 1984 based on these new contracts and the expected gradual recovery of the economy along the Texas Gulf Coast.

"While Texas intrastate natural gas sales have decreased some 30 percent in the last three years, HNG's average sales have remained about constant. As a result, Houston Natural's market share during this period increased from 11.5 percent in 1981 to 17.4 percent in 1983," Dr. Lay said.

Houston Natural Gas is a diversified energy company involved primarily in the transmission and sale of natural gas and in oil and gas exploration and production.

PUBLIC NOTICES

Public Notice

Notice of the adjudication of all claims of water rights in the Pecos and Devil's Rivers Watershed of the Rio Grande Basin, and in the Closed Basin;

Notice of the requirement for the filing of sworn water right claims under Section 11.307, Texas Water Code; and Notice of the commencement of hearings on all water rights claims

Notice is given pursuant to Section 11.306, Texas Water Code, and Commission Rule 31 TAC §275.12(c) that all claims of water rights in the Pecos and Devils Rivers Watershed of the Rio Grande Basin, and in the Closed Basin, will be adjudicated pursuant to Section 11.301, et. seq., Texas Water Code, and Commission Order of September 25, 1984.

The Pecos and Devils Rivers Watershed consists of: the Pecos River and its tributaries from the Texas-New Mexico state line to its confluence with the Rio Grande, excluding Barrilla Draw Watershed, but including all use of water under Permit No. 1217, as amended, of the Red Bluff Water Power Control District; and, the Devils River and its tributaries from their headwaters to the river's confluence with the Rio Grande.

The Closed Basin consists of that portion of the basin located within the State of Texas.

On or before December 27, 1984, all persons claiming a right to divert state water, except for domestic and livestock purposes, in the Pecos and Devils Rivers Watershed, and in the Closed Basin, shall file with the Texas Department of Water Resources a sworn claim in accordance with Section 11.307 Texas Water Code, setting forth the following: the name and post office address of the claimant; the location and nature of the right claimed, including a description of any permit or certified filing under which the claim is made; the purpose of use; a description of works and irrigated land; and, all other information necessary to show the nature and extent of the claim.

Instructions and forms for the filing of water rights under Section 11.307, Texas Water Code, may be obtained without cost from the Texas Department of Water Resources, P.O. Box 13087, Austin, Texas 78711, or from the Department's district office at 204A West 5th Street, Odessa, Texas 79761. Use of the Department forms is not mandatory.

copies of the Department's investigation report, together with aerial photographs in the report's appendix, will become available on December 31, 1984 for inspection in the offices of the Texas Department of Water Resources in the Stephen F. Austin State Office Building, 1700 North Congress Avenue, Austin, Texas, and in the Department's district office at 204A West 5th Street, Odessa, Texas 79761.

Notice is further given pursuant to Section 11.308, Texas Water Code, and Commission Rule 31 TAC §275.12(e), of the commencement of hearings to receive evidence on all claims of water rights filed or asserted in accordance with Section 11.307, Texas Water Code, in the Pecos and Devils Rivers Watershed of the Rio Grande Basin, and in the Closed Basin.

At 8:30 a.m. on Monday, January 7, 1985, at the Large Community Hall in Rooney Park, Sanderson Highway, Fort Stockton, Texas, the Texas Water Commission, through a hearings examiner, will convene and commence public hearings in accordance with Commission rules. The hearing on January 7, 1985 will be to establish jurisdiction and to explain the adjudication process and procedure to

be followed at the individual evidentiary hearings. Individual hearings to receive evidence substantiating claims will continue thereafter at hearings to receive evidence - times and places provided by docket notice which will be sent to each claimant. The evidence received at the hearings will form the basis for the Commission's determination of all claims of water rights in the described adjudication area. Failure to appear and present evidence will jeopardize the right to divert and use water asserted in the claims.

Signed this 26th day of September, 1984.

TEXAS WATER COMMISSION

Mary Ann Hefner
Chief Clerk

PUBLIC NOTICE

Notice is hereby given for the request of bids to Sutton County for a (1984 or 1985 Truck Tractor) and one 4000 gallon Water Tank Transport for the Road & Bridge Department.

Specifications may be found in the Sutton County Auditor's Office in the County Courthouse, Sonora, Texas. Final receipts of bids will be at 9:00 a.m., Monday, October 8, 1984. At such time, bids will be opened and accepted or rejected by the Sutton County Commissioner's Court.

County Auditor, Box 16, Sonora, Texas 76950; (915)387-5380.

James L. Jones is not responsible for any debts, other than his own.

Nancy E. Jones is not responsible for any debts other than her own.

To whom it may concern, I do hereby apologize for things I said that weren't true.
Nancy Jones
