Scanning Sutton County

Lifeline ready

According to a spokesperson for the Lillian Hudspeth Hospital, "lifeline" has been installed and anyone interested in participating may call the hospital at 387-2521. The auxiliary will be handling applications.

This project is designed for the senior citizens or anyone who would like to participate.

Participants must have a telephone. This is a personal emergency response system with a small personal help button to be worn around the neck or the wrist, or anywhere on the person.

The button is to be pushed when the participant wants to call for help. When the button is pushed, it activates the home unit which automatically dials the emergency number at the hospital.

For more information, contact someone at the hospital, 387-2521.

Spring Concert set

The annual Spring Band Concert for all bands is set for May 7.

The Mighty Bronco Band traveled to Sandy Lake April 26. The band made a one and brought home a trophy.

Congratulations to the Mighty Bronco Band and their directors Forrester Halameck and John Gibson for a very good year.

Class date changed

Due to unforeseen problems, the Advanced Lifesaving Course dates are changed.

The course will now begin Monday, May 13 at the public pool, 4 p.m. - 6:30 p.m. It will meet through Saturday, May 18.

If you have any questions, call Melissa Teaff, (387-2773).

The registration date has been moved to May 6.

The "Learn to Swim Program" will be held June 10 - June 14. Registration will be June 8 at the pool from 9 a.m. - 11 a.m.

The only cost will be the pool fee of three dollars. If you have any questions, call Mrs. Teaff.

4-H competition set

The District 4-H Contests and Fashion Show will be held May 4 at Southwest Texas Junior College in Uvalde.

Assembly for the demonstration contests will be at 9 a.m. at La Forge Hall. Judging will begin soon after, and the results of the contests will be announced beginning at 11 a.m. in La Forge Hall.

Apple Users to meet

The Devil's River Apple Users will be previewing educational software at 7 p.m. Thursday, May 2 at the Vocational building.

Lions to meet

The Westside Lions meet every 1st and 3rd Tuesday at the Commercial Restaurant at 7 p.m.

Clinic scheduled

A Rabies Clinic will be held Thursday, May 2, from 1:30 p.m. to 5:15 p.m. at the Animal Care Clinic, 606 Concho Avenue.

There will be a charge for the vaccinations. Call 387-3784 for more information.

Ozona tourney set

The Ozona Chamber of Commerce will hold its 6th Annual Tennis Tournament Saturday, June 8 in Ozona, with singles, doubles and mixed events.

For complete information write Beth Boyd, The Ozona Chamber of Commerce, Box 1135, Ozona, Texas 76943, or call 915/392-3066.

University president

to speak at 1st Baptist

The First Baptist Church of Sonora will entertain Dr. Jesse Fletcher, President of Hardin-Simmons University Wednesday night, May 8. Dr. Fletcher is well known in Baptist work. He was with the Foreign Mission Board of the Southern Baptist Convention for several years and is the author of "Bill Wallace of China" and "Baker James Cauthen, A Man for All Nations".

Bill Wallace was a Southern Baptist Medical doctor to China who was martyred by the communists in the early fifties. Baker James Cauthen was Executive Director of the Foreign Mission Board of the Southern Baptist Convention from 1954-79.

First Baptist Church is very happy to have Dr. Fletcher come to bring a message on missions and greetings from Hardin-Simmons University, a Baptist University in Abilene.

The Meeting will be held at 6:15 p.m. for supper and follow with Dr. Fletcher's address at 7 p.m. in the auditorium. There will be no charge and the whole community is invited to come join us.

Contract not renewed

BY CAROL JONES

The seven member Sonora Independent School District Board of Trustees voted unanimously Wednesday night for the non-renewal of LaVerne Benton's contract.

In an open hearing held April 24 at 7 p.m., the board heard testimony for over two hours from Mike Ramos, Clay Cade and Mrs. Benton concerning Mrs. Benton's abilities to maintain control and discipline in her classroom.

Mrs. Benton is a fourth grade teacher in Sonora Middle School. She taught 15 years in the Menard School District prior to taking a position with the Sonora I.S.D. five years ago.

It was noted Wednesday night by Ramos, Middle School principal, in cross examination, that the majority of Mrs. Benton's students are classified as medium or low-level in the language and math blocks. When Mrs. Benton testified, she stated that many of her students are hyperactive and that some are just the opposite.

She added that students who are below level require more individual attention, that some are more difficult to manage, and that they have shorter attention spans.

Ramos stated that he recommended Mrs. Benton's contract not be renewed after observations of her performance in the classroom. Ramos has been her principal for two years. His first observation this year, made unannounced, as is his policy with all teachers, took place September 28, 1984.

Ramos noted as problems in the employee performance report: a lack of classroom management, lack of organization, an unattentiveness of students. He further explained the latter by stating that the students were facing in all directions and talking.

He added that one student was kneeling down by Mrs. Benton's desk, going through the contents of a drawer and playing with those things throughout the class period.

Ramos said that he was in that classroom that day for 45 minutes to an hour.

He also stated Wednesday night and in Mrs. Benton's employee performance report that he had observed many stacks of papers cluttering the room. According to Ramos, there were stacks of paper on desks, including the teacher's desk, making it indistinguishable from the other desks in the classroom.

Ramos had a conference with Mrs. Benton the same day of his observation and went over her employee performance report with her.

In the report he stated that he suggested seven objectives concerning the lesson plans that he felt she should improve on. Some of the suggestions were: the teacher should determine what the student must learn, that she should start the lesson making her intentions known to the students, that she should demonstrate orally or visually, and that she should determine when students were ready for independent work then evaluate the students for mastery of the subject.

Ramos testified that at the conclusion of the conference he asked Mrs. Benton to work on these areas and to get comfortable with them. He stated that he then asked her to invite him back to the classroom in the future. Ramos added in his testimony that she did not invite him back to observe her classroom as he requested.

Mrs. Benton later testified that the papers were stacked around the room because she only had one filing cabinet and a metal cabinet. She stated these were papers left over that she planned to keep and use again in an effort to save money.

She also added that, since her class progressed slower than the other fourth grade classes, some of the papers were ones they had not gotten to yet, and "I had to have somewhere to put them".

Mrs. Benton also testified that she felt she had control of her classroom at all times.

Ramos testified Wednesday night that on January 4, 1985 he made another unannounced observation of Mrs. Benton's classroom and was present in the classroom for approximately an hour.

He told the school board that the physical status of the classroom was still the same as when he made the September 28 observation and that there was congestion and stacks of paper throughout the classroom.

He stated that at the onset of the class period, Mrs. Benton had the attention of her pupils. He added that she lost their attention because of what he called "non preparation".

Ramos said that Mrs. Benton appeared to be asking the class where they had left off and what they had done previously.

In Mrs. Benton's testimony, she stated that her reason for asking the students was because of the two-week Christmas vacation. She reported that for two to three days prior to the vacation her students had worked on "Christmas things" and that Monday and Tuesday of that same week she had been absent herself. She added that she was asking to find out what the substitute had covered.

In a conference between Ramos and Mrs. Benton after the second observation, Mrs. Benton told Ramos that she thought she was following the lesson plan.

In an observation report on Mrs. Benton made February 13, 1985 by Clay Cade, elementary principal, Cade stated that her classroom was functional and workable. He testified Wednesday night that the room was not neat and not well decorated. His report stated that there was no particular order for pupil stations and that the classroom was cluttered.

On the subject of control and discipline, Cade stated that some of the students were inattentive and were involved in activities non-related to the lesson.

In his testimony, Cade said that he would agree that the areas of control and discipline were deficient. He had stated in the report that "Better control might prove helpful".

Ramos had testified earlier that House Bill 72 had made it mandatory that two principals observe each classroom on each campus and that he had not discussed anything about Mrs. Benton with Cade prior

to Cade's observation February 13.

Cade testified Wednesday night that he knew nothing about any problems with Mrs. Benton prior to his observation of her classroom.

March 13 Ramos had another conference with Mrs. Benton to fill out the formal teacher evaluation report. Mrs. Benton testified that prior to Ramos filling out the report he asked for her resignation and told her that "Sonora and the students of Sonora I.S.D. would be better off without her".

Mrs. Benton stated that Ramos had offered her a letter of recommendation to another school. She also stated that he told her the formal evaluation would not go on her record if she resigned.

Mrs. Benton told the board that she told Ramos "No" and to go ahead with the evaluation.

Ramos testified that he told Mrs. Benton that he was not going to recommend her contract be renewed. He said he asked her to sign the evaluation, that she signed it and then threw it at him and said "What the hell do you want?".

Ramos stated that he told her that he didn't want her to speak that way, that through all the processes he had treated her with respect and that he expected the same from her.

In cross examination Ramos said that the school policy stated that the evaluation form should be completed before the principal-teacher conference. He

said he liked to go over it with the teacher to give the teacher the opportunity to disagree and discuss the evaluation.

Ramos also admitted that since March 13 was the first notice Mrs. Benton had of the non-renewal of her contract that he could not expect her to accept it calmly and that the emotional stress was intense.

Council for Mrs. Benton asked Ramos why he had listed as a strength on the second observation something he had listed as a weakness in the first observation.

Ramos responded by saying that Mrs. Benton had improved and had had the attention of her students at the onset of the class period January 4.

Mrs. Benton testified that Ramos had told his staff in a faculty meeting the day before her evaluation conference that all their contracts would be renewed.

Following brief summations from Judy Underwood, attorney for the school district, and Eugene Kinsler, a TSTA para-legal representing Mrs. Benton, Johnny Fields made the motion for non-renewal of the contract.

The motion was seconded by Scott Shurley. Board members Joe Garcia, Julio Samaniego Jr., Rosemary Mathews, Sam Perez, Fields and Shurley all voted in favor of the motion.

Sonora I.S.D. Board President Carl Teaff presided over the hearing.

Judge Sherrill to resign May 13

BY CAROL JONES

In a special called meeting of the Sutton County Commissioners Monday, April 29, County Judge Charlie Sherrill tendered his resignation from that position effective Monday, May 13.

Judge Sherrill has been the county judge for Sutton County for over five years and prior to that was the District Judge for the 112th District for 14 years.

Judge Sherrill cited his reason for resigning as going into private practice with the law firm Hollon, Marion, and Richards, Attorneys at Law in Boerne. He will mainly be working with All American Pipeline which is owned by Goodyear Tire and Rubber, handling the Texas legal work for them.

The judge also stated that with the political reshuffling, Tom Loeffler looking at running for Texas governor, and Gerald Geistweidt looking at running for Congress, he (Sherrill) is not ruling out the possibility of running for political office in this district.

Judge Sherrill was appointed as county judge here in 1979 and was elected to that office in 1980 and 1982 without opposition. While he was in office, the county completed the building of the new jail, completed a building for the Emergency Medical Service, built the new annex to the courthouse, completed the county yard, and set up an accounting system for the county.

Projects started but not yet completed include the cemetery, Allison Park, the installation of an elevator in the courthouse, and a purchasing system for the county.

Judge Sherrill has been a Citizen of the Month in Sonora, served as advisory director to the Chamber of Commerce, and is a senior warden in St. John's Episcopal Church.

In a statement to *The Devil's River News*, Sherrill stated that he hopes to keep his residence in Sonora as he considers it home.

Judge Sherrill will now be eligible to serve as a retired District Judge and may serve as a visiting District Judge throughout the state of Texas.

Hollon, Marion, and Richards firm is a full service law firm, specializing in commercial, probate, title, etc. Judge Sherrill received a BBA in Accounting from Texas Tech University and a LLB degree from the University of Texas in Austin.

He studied at the National College of State Trial Judges and National College of Juvenile Judges at the University of Nevada in Reno, Nevada and has taken

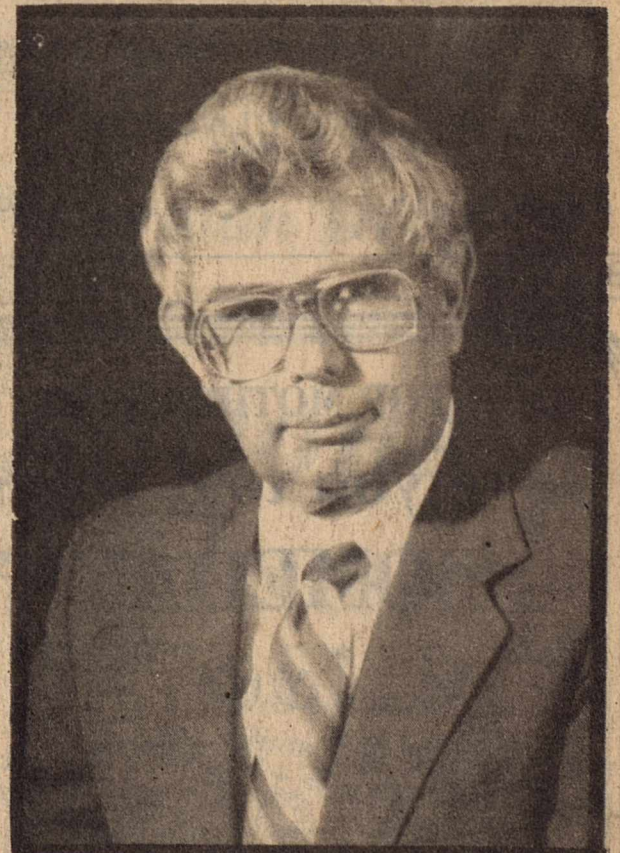

many specialized courses in both schools and other judicial related schools.

The judge is also a veteran of World War II.

Prior to becoming judge of the 112th Judicial District Court of Texas, Sherrill had a private law practice in Fort Stockton and served as city attorney for that town.

The person appointed to fill the unexpired term of Judge Sherrill will serve until the next general election in November, 1986.

The county commissioners are expected to appoint someone at the next regular meeting which is scheduled for Monday, May 13.

COUNTY JUDGE CHARLES SHERRILL

Hopper wins state

Craig Hopper, a junior at Sonora High School won first in Persuasive Speaking last weekend at the state UIL Speech competition in Austin. Hopper also won third in Lincoln-Douglas Debate and sixth in Ready Writing.

Chris Driskell, a sophomore, won third in Newswriting and fourth in Ready Writing.

These students attended the UIL state meet April 27-28 with sponsors Terry Marrs, Kay Clifton, and Kirk Macon.

Congratulations to both of these young men on a job well done.

Winners announced

The first week's winners of the "Where's The Bull" contest were Josie Emiliano and Marilyn McEwin. Each will receive one free ticket to the bull riding May 18.

The contest will continue for two more weeks. Find the bull hidden in one of the ads and call *The Devil's River News*. If you are correct your name will be eligible for a drawing at 5 p.m. Friday.

Two tickets will be given away each week.

CRAIG HOPPER

Around Town

Mrs. Ada Wynn entertained the Tuesday afternoon bridge club at her home April 22. A dessert was served to Mrs. R.A. Halbert, Mrs. Guila Vicars, Mrs. Leva Belle Ross, Mrs. Elizabeth Cusenbary, Mrs. Dorothy Cusenbary-Club Members.

Guests were: Mrs. Pauline Thompson, Mrs. Don Jones, and Mrs. Hazel McClelland, Mrs. Halbert won the high score prize. Mrs. Vicars won second high and Mrs. Ross won the Bingo prize. Mr. and Mrs. Charlie Shannon

and Mr. and Mrs. Bill Savell were in Del Rio last Tuesday.

Mrs. Rip Ward is in the hospital in San Antonio. Hope you are better and home soon Mae.

Mr. and Mrs. Matt Shannon of Big Lake were here visiting their parents over the weekend. Mr. and Mrs. Charlie Shannon and Mr. and Mrs. A.L. Armentrout.

Mrs. Travis Gordon was in Midland over the weekend.

Mr. and Mrs. Vestal Askew were in San Antonio this past weekend.

Mrs. Pearl Preddy dies, funeral held last week

Mrs. Pearl Owens Preddy, 94, of San Antonio died Tuesday, April 16.

Mrs. Preddy had been a member of the First Baptist Church of San Antonio for many years, she was a life member of the Order of the Eastern Star, and a member of the State Association of Pioneers.

She is survived by a daughter, Grepna Smith of San Antonio; a

grandson, Duncan Reid of West Covina, California; a granddaughter, Andre Leonard of Houston; four great-grandchildren; six sisters, Irene Foster of San Antonio, Ellen Ray of Sonora, Louise Allison of San Antonio, Viola Randle of Mabank, and Violet Needham and Lillie Pitts, both of San Angelo; a brother, Wilson Owens of Miles; and numerous nieces and nephews.

Four locals attend training seminar

More than 60 Green Thumb workers and host agency sponsors from a 7-county area met Tuesday, April 16, at the Multi-Purpose Center in Eden, Texas.

The training seminar featured Mr. John Willen of the Social Security Administration with some timely information for seniors; Ms. Patricia Hohensee, Concho County Home Demonstration Agent, whose subject dealt with cooking for one; and an in-home safety program presented by Green Thumb staff.

Green Thumb, an older worker program, is funded by the Department of Labor through Title V of the Older Americans Act. Sponsored by Texas Farmers Union, Green Thumb provides

part-time work opportunities for seniors in rural areas. Program operation began in 1970 and currently includes 111 counties employing over 1,000 older Texans who are placed with local non-profit organizations to provide needed community services.

Local Green Thumb workers and sponsors attending the seminar included Lenor Dominguez, Victoria Romero, Ernestina Sanchez, and Pauline Crutchfield.

No living person may appear on a dollar bill.

BIRTHDAY CELEBRATED
Eloise Gomez was honored on her 67th birthday Wednesday, April 24 at the Sutton County

Senior Center. She is shown here with her cake. Happy Birthday, Eloise. [Staff Photo--KKN]

Tomorrow proclaimed National Day of Prayer

Thousands of Washington, D.C., workmen will find that their lunch packets for the next few days contain something extra: a small flier reminding them that Thursday May 2, is the National Day of Prayer.

Travelers arriving at Las Vegas, Nevada, or leaving, will see the same basic information, displayed on prominent electronic "reader-boards" near the airport, with others in the downtown shopping area and near the famed Las Vegas "Strip."

In Parkersburg, W.Va., a week of prayer-related activities will climax on May 2 itself, the thirty-third consecutive National Day of Prayer since the Eighty-second Congress made the day an annual observance in 1952.

"It would be impossible for any one person to know about all that was taking place, of course, but we are excited about the many activities we do know about--and we believe they represent only a small fraction of the whole picture," said Mrs. Bill Bright, co-chairman of the National Day of Prayer Task Force.

Herbert E. Ellingwood, chairman of the U.S. Merit System Protection Board, also serves as co-chairman of the independent, nonprofit group, which helps publicize the National Day of Prayer and encourages broad grassroots involvement.

The Task Force is especially urging that all Americans "Take 5 at 12"--take at least five minutes at noon on May 2--to express their thanks to God and pray "for His continued blessing on the nation and its leaders," Mrs. Bright said.

The 1985 presidential proclamation setting aside the National Day of Prayer was issued by President Reagan on January 29. Mrs. Bright noted that her office has learned of at least 10 counterpart proclamations by state governors, with others expected, in addition to numerous local proclamations, prayer breakfasts and luncheons.

Most numerous of all the activities, though, she believes, will be those that never come to national attention, such as prayer-related

worship services on May 2 and "millions of cases in which individuals or small groups simply stop for a few minutes, give thanks to God, and pray for the nation," said Mrs. Bright.

PEANUT SAUCE

1 cup creamy style peanut butter, room temperature
1 cup coconut cream
1 tablespoon soy sauce
3 teaspoons Worcestershire sauce
1/4 t. salt
Dash hot pepper sauce
Juice of 1/2 large lemon

In small mixing bowl, combine ingredients; blend thoroughly. Cover and chill. Serve cold. Makes about 2 cups.

Creek and Granger honored by Sul Ross

More than 100 Sul Ross State University students were honored by the university last week during the annual Student Award's Night ceremonies.

Receiving awards from Sonora were David Creek, Who's Who; and Benny Granger, man of the

year nominee.

In addition to departmental award and scholarships, the university recognized William L. Beaty, assistant professor of business administration, as the outstanding faculty member of the year.

Sonora Arroya Vista Mini Golf Course is Opening Saturday, April 27.

First 5 players to get a hole-in-one will receive a FREE golf cap.

WTU announces changes

Several changes in the accounting and finance areas at West Texas Utilities Co. were announced Thursday, April 25 after the regular meeting of the WTU Board of Directors.

Glen D. Churchill, president and chief executive officer, said the following action was taken by the board:

Larry Connors, formerly controller, was elected Corporate Secretary and was promoted to Director of Accounting and Finance. George Woodfin, formerly Assistant Treasurer and Assistant Secretary, was elected Treasurer and Assistant Secretary. David Carpenter was elected Controller. Sherwyn McNair was elected Assistant Treasurer, and will continue in his present position as Director of Corporate Communications.

Also announced was the resignation of Don Shahan as Secretary and Treasurer to accept a new position with an associated company, Public Service Co. of Oklahoma at Tulsa. Shahan, a native of Abilene, had been with WTU since 1975 and had held his current position since 1979. His new assignment in Tulsa is effective May 1.

Other appointments announced by Churchill included David McDonald, chief accountant in Statistics and Taxes being named

supervisor of the Tax Section, and Mrs. Jame (Wendy) Hargus being promoted from Assistant to the Treasurer to Assistant to the Controller and Supervisor of the Forecast and Financial Analysis Section.

The Thursday board meeting was the first since the recent WTU stockholders meeting, when all directors were re-elected and F.L. "Steve" Stephens was added to the board. Stephens of San Angelo, is president of Town and Country Food Stores, Inc., and had previously served as a WTU director.

In his new position, Connors will have the responsibility over the Company's accounting and financial operations. He is a native of Massachusetts and a 1973 graduate of St. Edwards' University at Austin. He joined WTU as assistant to the controller in 1976 after three years with Arthur Anderson and Co. in Houston and was elected Assistant Controller in 1977 and Controller in 1979. He is a Certified Public Accountant.

Woodfin, a native of Winters and a graduate of Hardin-Simmons University joined WTU's Property Accounting Department in 1966. He later served as a manager in the Treasury Department before being elected Assistant Treasurer and Assistant Secretary in 1978.

Carpenter is a native of Slaton

and a graduate of Texas Tech University. He worked for Houston Lighting and Power Co. for three years before joining WTU in 1978. He was named Assistant to the Controller in 1983. He is a Certified Public Accountant.

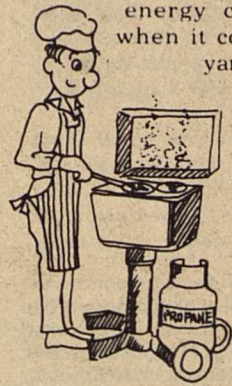

McDonald was born in Stamford and earned two degrees at Hardin-Simmons University. He joined WTU in 1975 and has been a chief accountant since 1979.

Mrs. Hargus is a native of Lamesa, a graduate of Texas Tech, and a Certified Public Accountant. She joined WTU in 1980 as an accountant and was promoted to chief accountant in forecast and planning in 1981 and to Assistant to the Treasurer in 1983.

An Energy Efficient Barbecue?

In these days of rising energy costs, we're all conscious of flicking off unnecessary lights, turning back thermostats, taking shorter showers. But few of us consider energy conservation when it comes to backyard barbecues.

If you're one of the millions of Americans who enjoy outdoor cooking, consider cooking with portable, energy-efficient propane gas. Gas grills cook faster than electric and charcoal grills, saving energy and money. For example, a gas grill will cook four hamburgers in 18 1/2 minutes at a cost of just 1¢. A charcoal grill takes nearly twice as long—34 minutes—and costs approximately 8¢. An electric grill is least efficient, taking 42 minutes of cooking time at a cost of 49¢.

And you won't miss a bit of that wonderful "cook-out" flavor, because it's not the charcoal that makes foods taste good. It's the juice from the meat itself, falling on a hot surface, that creates the smoke that flavors your food.

Now here's a handy tip for gas grill enthusiasts that will keep you from running out of fuel. Simply weigh your propane cylinder on a bathroom scale, and subtract the tare weight (stamped T.W. on the cylinder). This gives you the number of pounds of propane remaining. You can expect your gas grill to burn approximately 1/2 to 1 pound of fuel per hour, depending on whether you cook on "high" or "low." It's simple to determine how full (or empty!) your cylinder is!

For a free, fact-filled booklet on outdoor cooking with propane gas, call the Texas LP-Gas Association's hotline toll-free at 1-800-252-8232.

Hyperactive children may be given too much medicine

Hyperactive children tend to be given more medicine than they need, which may cause physical side effects and even diminish a child's learning ability, a Baylor College of Medicine Child psychologist said.

Child psychiatrists, physicians and general practitioners tend to prescribe drugs more for the child's behavior or conduct, said Ben J. Williams, Ph.D., professor of psychology at Baylor and director of the Hyperactive Assessment and Treatment Program at Texas Children's Hospital.

He said the aim in the drug treatment of hyperactivity should be to increase the child's learning potential.

"Parents and teachers should learn how to help the children and not rely on drugs to control their behavior," Williams said.

Williams' research indicates that for some children, higher drug dosages may diminish memory, awareness, judgement capacities and physical development.

Hyperactivity, which is thought to be a genetic disorder, causes children to be overactive, easily distracted, fidgety and impulsive. They are unable to concentrate on a task for any length of time.

"It's like the 'terrible two's' that never end," said Williams who counsels teachers and parents of hyperactive children.

Williams is conducting a study using different dosage levels of

Ritalin, the most common drug used for hyperactivity, to determine which level improves a particular child's learning ability.

"By determining which level of medication is best for the child, we may lessen the chance of side effects such as the decrease in weight and growth," Williams said.

Children taking part in Williams program are placed on three different dosages of Ritalin and an inactive drug. They are assigned tasks that measure their learning

abilities. Their performance is compared to the dosage of Ritalin they received.

Using a 40-pound child as an example the most common prescribed dosage of Ritalin would be .0002 oz. (5 milligrams) given twice a day.

Preliminary results show that giving smaller amounts of Ritalin effectively improves children's learning skills.

Those interested in participating in the study should contact Williams at (713)791-2192.

Children of Alcoholics Month proclaimed

Governor Mark White has joined the Texas House of Representatives and the Texas Senate in proclaiming April 24 through May 22, 1985 as Children of Alcoholics Month.

Children of Alcoholics Month has been designed to coincide with an exhibit of art by children of alcoholics from Texas and other states at RepublicBank of Dallas on these same dates. The exhibit, brought to Texas by the Children of Alcoholics Foundation, sponsored by the Texas Commission on Alcoholism, the Communities Foundation of Texas and RepublicBank Dallas, will be on view for the express purpose of raising public awareness of the unique problems of these vulnerable youngsters who have a four times greater risk than the general public of becoming addicted to alcohol.

Selected pieces of this special art show will be on exhibit in the Rotunda of the Capitol from May 9-12. According TCA Commissioner Margaret Sharpe, the show will feature art by children and adults from alcoholic homes that are being helped by prevention, treatment, and educational programs throughout Texas.

Senator Ike Harris and representative David Cain, both of Dallas were the Senate and House sponsors of the resolutions designating Children of Alcoholics Month.

for Mother's Day

A gift of Russell Stover Candies will bring a smile to Mother's, Grandmothers, and Aunts on Mother's Day. Choose from quality candies made of fresh, wholesome ingredients selected with the greatest care. "Only the finest" for her on this special day.

Wool and Mohair payments received

Sutton County's sheep growers received \$616,552.79 for their 1984 sales of shorn wool and unshorn lambs, and \$760,716.63 for mohair, according to the local office of the Agriculture Stabilization and Conservation Service. In 1983, wool incentive payments totaled \$871,576.76 with 121 producers, and \$475,339.09 mohair payments with 153 producers.

ASCS began issuing wool payment checks to 107 producers and 142 mohair producers on April 10, 1985. Wool producers sold 53,194 lbs. less in 1984 than in 1983. There was 41,858 lbs. more mohair sold.

Incentive payments are computed by multiplying the payments rates times the net dollar return received from the sale of wool and mohair. The 1984 national

average market price for shorn wool was 79.5 cents a pound, 85.5 cents less than the \$1.65 per pound support price. The payment rate--107.5 percent--is the amount required to bring the average price up to the support price. For mohair, the average market price was \$4.30 per pound and the support price \$5.169, making the payment rate 20.2 percent.

To compensate growers for wool on live lambs marketed in 1984, ASCS authorized a \$3.42 per hundredweight payment rate on unshorn lambs sold or slaughtered. The payment is based on the shorn wool payment rate, the average weight of wool per hundredweight of lambs, and the price of lamb's wool relative to the national average price for shorn wool.

Fugitive warrant issued for Machado

Judge Brock Jones, of the 112th District Court, ordered the forfeiture of two \$10,000 bonds and transferred one case to County Court during session on April 19 in Sonora.

According to District Attorney J.W. Johnson, a fugitive warrant was issued for Aleido Machado who failed to appear for trial.

Machado, who had been indicted

on March 8 for burglary of a residence and criminal mischief has been free on \$20,000 bond. He was also indicted for theft over \$750 but less than \$20,000 on April 12.

Frank Coronado was indicted March 8 for aggravated assault. The charge was reduced to a misdemeanor and assigned to County Court, Johnson said.

RRC reports applications

A total of 3,162 drilling applications were processed by the Railroad Commission in March, according to RRC Chairman Buddy Temple. In February, the total was 2,725.

So far this year, oil and gas operators have filed 8,654 applications. Through the same period of last year, they had filed 9,039.

The March total included 2,301 applications for permits to drill new oil and gas tests, 81 to deepen existing holes, 345 to plugback existing holes, and 48 for service (non-producing) wells. Operators also filed 387 amended drilling applications.

Applications for new oil and gas holes in March included 295 in the San Antonio area, 90 in the Refugio area, 197 in Southeast Texas, 126 in deep South Texas, 59 in East Central Texas, 90 in East Texas, 314 in West Central Texas, 146 in the San Angelo area, 385 in the Midland area, 198 in the Lubbock area, 317 in North Texas, and 84 in the Panhandle.

Commissioners to help pave streets

The Sutton County Commissioner's Court has established paving priorities for 1985 and has agreed to assist Sonora city officials with repair of city streets.

County Road and Bridge Superintendent, Joe Ed Harrell said that the severe winter weather had been particularly hard on the county roads. According to Harrell this, plus damage to Station B Road in January had forced his department to reevaluate plans for 1985 projects.

The city of Sonora is also faced with more street damage than anticipated. Commissioners and councilmen have met several times in efforts to hammer out details of working together to solve these problems.

The city had budgeted materials for street repairs but lacks the equipment necessary to repair the heavy damage.

After commending superintendent Harrell for the excellent work he has been doing, commissioners agreed to include city paving in the county planning. Harrell said that work on the city streets may be done in June or July.

Station B Road has been repaired in preparation for seal coating. This will be scheduled during hot weather.

Other projects listed for priority are continuation of the Ross Road paving project and work on Bond Road. City street repairs and repair of old U.S. 290 near Station B Road are also scheduled.

The estimated cost of all these projects is \$307,000, about \$90,000 more than the 1985 budget. County Auditor Charles Graves said that the additional money is probably

available from surplus. In other action commissioners agreed to the emergency purchase of a used pick-up truck from Sonora Ford Sales. The truck will be used for maintenance at the courthouse, cemetery and the new County Annex Building.

MINI PIZZAS

4 English muffins or hamburger buns, split and toasted
1 can (14 3/4 ounces) Franco-American "SpaghettiOs" in Tomato and Cheese Sauce

1/4 teaspoon oregano leaves, crushed
1/2 cup shredded mozzarella cheese

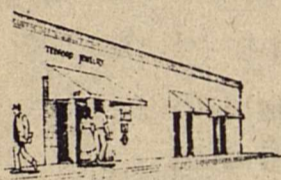

1. On each muffin-half, spoon about 2 heaping tablespoons SpaghettiOs. Sprinkle with oregano; top with cheese.

2. Arrange muffin-halves on cookie sheet. Bake at 350°F. for 10 minutes or until hot and cheese is melted. Makes 8 open-face sandwiches.

Pizza Toppings: Top sandwiches with one or more of the following before baking:

- crumbled cooked bacon
- chopped bologna
- sliced frankfurters
- sliced mushrooms
- chopped green pepper
- sliced pepperoni
- chopped onion
- sliced cooked Italian sausage

F.W. Woolworth opened his first store in Utica, N.Y. on Feb. 22, 1879, based on the principle of selling "nothing over 5 cents." The public did not take to the idea, and he moved to Pennsylvania.

Jewels & Gems

by John Tedford

If you know a lover of the sea, a sea blue aquamarine may just be the perfect gift. The gemstone derives its name from the Greek word for seawater. Thus, it is said to aid travelers who take to the seas. It makes a perfect "bon voyage" gift for someone about to embark on an ocean cruise. Closer to home, aquamarines are said to help establish happy marriages. Should harmony flee, an aqua will help reconcile the partner's differences. For someone who loves a large, durable stone, this intense, deep blue stone is available in large sizes. Be advised, however,

Hint: Evidence of green in aquamarine makes the gem less valuable.

that aquamarine is becoming rarer, as Brazilian mines are being taken over by coffee planters.

Gemstones of every description (diamonds, colored stones, pearls) attractively set in rings, necklaces, earrings, and bracelets await you at Tedford's Jewelry. Many women accumulate, over a period of years, a jewelry wardrobe containing colored gemstones to complement their favorite colors in clothes. The aquamarine might be the ideal place to start, as it coordinates beautifully with blues, grays, black and white.

The Futility of All Endeavor

Don Jones, minister Church of Christ

If you could have anything you wanted to make you happy what would you choose? If your first choice did not make you happy and you were given the opportunity to choose again until you had ten choices. Surely one would think that in at least one of ten times he could find happiness especially if you were already the richest person on earth.

If you thought you could find happiness in things of the world you were wrong. Solomon was the richest man to ever live and he could not find happiness in any of the ten things he tried that were of the world.

In Ecclesiastes Solomon began to explain that all is vanity (Eccl. 1:2). Then in chapter two he named ten things that he had tried to find happiness only to find failure.

Vs. 2. He tried laughter. Laughter he thought would make him happy under any circumstance. Laughter will not remove sorrow, for sorrow will even show through a laugh because it will show that

laughter to appear to be forced or faked. It will not accomplish anything.

Vs. 3. Now Solomon turns to wine for happiness. People who search for happiness in strong drink and drugs only find their troubles multiplied. Solomon used wine to stimulate his mind only to find his senses dulled and again vanity.

Vs. 3. Again he looks to a new thing. This time he seeks happiness in politics. He sought for what was good for man in the few years that man has to live on this earth. No one person can find happiness for all mankind. Those men in high offices promise happiness for everyone only to find that most people at sometime despise what they do for others and usually hate the politician.

Vs. 7. We find number four in his list of vanities. He began to accumulate slaves both men and women. Imagine having slaves to wait on us hand and foot bringing

us anything we had a desire for. Again the story ends the same way and this is in vanity.

Vs. 7. Will find us half way through the list. This time it was livestock. In this area where we live how many times have we thought if only I could have another herd of flock and when they were a reality for us we found ourselves looking again for just one more herd or flock or pasture only to find this was really not what we needed. Vanity again.

Vs. 5. Now I know we can find happiness in silver and gold. We can take silver or gold and trade anywhere in the world for anything we want. We can build big bank accounts and still we seek for more and not find happiness.

Vs. 8. Now music is where he searches for his dream of happiness. Have you ever noticed how music changes with each generation. Everyone thinks their music is best and with lots of music happiness can be found. Once

again Solomon turns up with another vain thing.

Vs. 8. The next thing to try is sex to find happiness. Solomon had 700 wives and 300 concubines, for a grand total of 1000 women in his life. In all of this he was turned away from God to idols. So once again failure.

Vs. 9. To be the wisest man on earth in dealing God's people Solomon began to try his own wisdom only to see that in all of man's wisdom there is only one conclusion and that is vanity.

Vs. 10. Now to look at the last thing on Solomon's list is one that we turn to for happiness. He did not refuse himself any pleasure. This he tried as a reward for all his labors.

Look at verse eleven. "Thus I considered all my activities which my hands had done and the labor which I had exerted, and behold all was vanity and striving after wind and there was no profit under the sun."

PUBLIC NOTICE

AT&T Communications of the Southwest, Inc. ("AT&T Communications"), in accordance with the Public Utility Regulatory Act and the rules of the Public Utility Commission of Texas ("PUC") hereby gives notice of its intent to implement a new schedule of rates for its services. The new rates will be effective May 14, 1985, unless otherwise determined by the PUC. All customers and classes of customers would be affected by the proposed rates.

AT&T Communications has filed a reprice of its tariffs designed to more closely recover access and other costs for WATS and 800 Service and all private line services including Channel Services, Foreign Exchange (FX), DATAPHONE* Digital Service, and OCC Facilities.

Also proposed is the institution of a charge for Directory Assistance to begin to recover access costs incurred for such service and increases in rates for operator assisted AT&T Long Distance calls. The initial minute charge for all AT&T Long Distance calls and additional minute rates for AT&T Long Distance calls 51 miles or less are proposed for increases to reflect the access charges approved by the PUC for such calls.

The proposed new rates for all services would result in an increase in adjusted test period revenues of \$139 million or 12.7 percent.

A complete copy of the proposed tariffs are on file with the Texas Public Utility Commission.

Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene or participate or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Blvd., Suite 400N, Austin, Texas 78757. Further information also may be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227 or (512) 458-0221 teletypewriter for the deaf.

Peso coins cause much trouble

A Dallas vending company manager has a mountain of peso coins in his office that he's had trouble getting a bank to accept.

Not that it really matters all that much. All 10,000 of the coins together are only worth fifty dollars, one-half a penny each.

What does matter is the loss they represent. Those pesos should have been quarters, \$2,500 instead of fifty dollars. And this is not the first pile of pesos he's had to deal with this year.

The problem is that Mexico's new peso coin and our quarter are almost identical in size and weight, making it hard for many vending machines to tell them apart.

Every time a peso is used in place of a quarter a merchant loses twenty-four and one-half cents.

The manager told me that his gum machines in El Paso used to yield \$500 in quarters each time they were serviced. Now he's lucky to get \$25 in quarters. The rest of the coins are pesos. He's had to switch to 10-cent machines to boost his income, even though it's still a loss.

The novelty machines he owns sell 200 toys at a quarter each. He has found as little as \$3 instead of

Spring wool sale moves 98% offered

Western Wool and Mohair Co. of San Angelo sold 98 percent of its total offering of mostly 12-months wool at its first sealed bid sale of the spring held Thursday, reported company co-owner Chip Taylor.

The 292,300 pounds of wool were purchased by six buyers, with Burlington Industries Wool Co. the major buyer with purchases totaling 114,175 pounds. Other buyers included Ford Oglesby of Eldorado, Independent, 80,385 pounds; Forte, Dupe, Sawyer Co., 36,255 pounds; J.P. Stevens and Co., 23,880 pounds; Prouvost, Lefebvre and Co., 23,135 pounds; and Anodyne Inc., 14,500 pounds.

Taylor said bulk of the wools sold from 95 cents to 1.05 per pound, grease basis, with top price reaching 1.16 per pound. Poor wools carrying lots of grease, dirt and vegetable matter sold as low as 45 cents per pound.

"We were pleased with the sale," Taylor said, "particularly with the large numbers of buyers. Most everything sold."

Taylor said that demand for mohair has been "very quiet," with little inquiry.

"Nobody seems to know what the mohair market is going to do, or when it will open up," Taylor observed.

SS requires documentation

At various times, you may be asked to submit evidence to Social Security to substantiate a statement you make. For example, when you apply for a Social Security number, the law requires evidence of your date of birth, identity, and United States citizenship or lawful admission status.

However, Social Security tries to be flexible in regard to the type of evidence it will accept. When proof of age is required, for example, the best evidence would be an official public record of birth. If this is not available, however, other documents may be acceptable, even if they are written in a foreign language. These include religious records, hospital records, school, census and family records, insurance, employment, and labor union records; and military and voting records.

The same kind of flexibility is seen when a person seeks to establish proof of a marriage.

If you plan to visit a Social Security office, you may save good deal of time by calling before hand. It is possible to transact some business completely by phone so an office visit is not even necessary. In addition, if you must visit the office, you can learn what you need and thereby possibly avoid an extra trip.

Anyone who has questions about getting evidence should contact any Social Security office. The people there will be glad to help.

\$50 in a machine, meaning he gave away 188 toys.

The first complaint I heard about the new peso came from the operator at a laundromat in Brownsville. He and other laundromat operators are taking a beating because the coins' diameters are so close that the coins slides on their machines cannot be adjusted to prevent use of pesos.

Eagle Pass City Officials wrote to me expressing concern about the impact of this problem on laundromat, car wash and vending machine operators in their city. Use of peso in the cities parking meters was termed a "nuisance."

Cities along our border with Mexico have suffered enough peso problems. Their business communities have remained hard-pres-

sed from the devaluations, and later fluctuations in value, of Mexico's peso. Obviously these businesses cannot sustain losses caused by this new peso problem over a lengthy period of time.

But the peso-for-quarter switch isn't confined to border cities. It has already started showing up in areas of our country far away from Mexico.

In March, I wrote to Secretary of State George Shultz asking him to work with the Mexican government to resolve this problem it becomes any worse or any more wide spread.

A recent reply advised me that the State Department had not been aware of the situation and assured me that State and Treasury department representatives will

join with our embassy officials in Mexico to seek possible remedies with the Mexican government.

This is encouraging, and I will be closely monitoring the progress of these efforts.

The use of peso-for-quarters has the potential of becoming a serious problem for a lot of businesses, one that we should act quickly to correct.

Overlocks: the microwaves of sewing

The "overlock" sewing machine has been used industrially for decades, but a home-version was introduced just last fall. It's being compared to the microwave oven, since it is a new item that supplements a traditional household appliance.

Industry representatives are now forecasting that the overlock machine will account for 10 percent of the sewing machine business

within five years.

Just what does this machine do? Basically, it's a finishing machine that joins together seams, overlocks and trims excess seam allowance. Depending on the make and model it can do rolled hems, pin tucks, decorative edging, lined hems, decorative braids and in some cases, sew entire garments.

Every major sewing machine company offers at least one model

Homemaker Update by Gail Rucker

of the overlock machine, and sells them primarily in fabric stores. The basic types of overlocks include:

*One needle/two threads-trims and overcasts the seams but is not as strong as models with additional threads.

*One needle/three threads-especially recommended for knits because it has stretched built-in, is strong and does rolled hems and other functions.

*Two needle/four threads-overlocks, chain stitches and sews

several other stitches. It's very strong, but not recommended for knits as there is no stretch built-in.

Before selecting an overlock model consider what you want to accomplish, what types of fabric you sew on, how often and how long the machine will be used and if you'll need for both seaming and overcast.

Overlocks are not without their drawbacks for home sewers. The sewer must carefully fit the garment

before finishing seams with the overlock since extra seam allowances are cut off. This means the garment cannot be let out after overlocking.

Home sewers may also have some initial difficulties dealing with the complex threading system. Tensions must also be set for different threads and fabrics. Overlocks require more thread because of the use of multiple threads, so it's recommended that basic colors

be bought in cones. Some machines also require special needles while others use regular machine needles.

Many retail stores are offering seminars and demonstrations of the overlock machine. Since the cost of an overlock can equal or exceed the cost of a regular sewing machine, however, carefully consider your sewing needs before you buy.

Governor designates May for older Texans

Governor Mark White has recognized the social, intellectual and economic contributions of Texans over 60 years of age by designating May as Older Texans Month.

White's official proclamation reads in part, "Our state's over two millions older Texans...demonstrate the values all Texans hold dear. Independence, pride, self-reliance, compassion, hard work and loving guidance are but a few of the attributes we have grown to accept from this important segment of our population."

"It is fitting and proper that we call attention to the 20th anniversary of the Texas Department on Aging by urging all older Texans to remain as active and independent as possible and to take note of the services available through the Older Americans

Act."

White also proclaimed the week of May 12-18 as Senior Center Week in recognition of the nutrition, transportation, health, information, and recreational services offered at more than 400 senior activity centers in Texas. The Department on Aging is a major funding entity for most of these centers.

Information about Older American Month and Senior Center Week celebration and activities in your area can be obtained by calling the Department on Aging's toll-free information and referral number (1-800-252-9240) or your nearest area agency on aging.

The first woman to receive a Nobel Prize for literature was Swedish novelist and poet Selma Lagerlof.

Tom Loeffler Reports

Congress this week considered the President's Easter Peace Plan for Central America. The plan called on both the Contra Freedom Fighters, who are seeking to end tyranny and bring real democracy to their country, and the Sandinistas, who control the Nicaraguan government, to lay down their arms and accept the offer of church-mediated talks on internationally-supervised elections. It also called for the release by the Congress of \$14 million in already-appropriated funds to be used for food, clothing, and medical supplies to be available during the cease-fire. The proposal has my full support.

No matter the outcome of the vote, we must continue working to secure the peace in this region. In my judgment, it is important for everyone, and particularly Texans, to fully understand and recognize the threat which exists just south of the border—one that we must not ignore.

Nicaragua remains at the center of conflict in Central America. While other nations in the region are now—as in the case of El Salvador—in the process of becoming democracies, Nicaragua has failed to fulfill its promise of democratic reform. It has developed a totalitarian police state which forbids freedom of speech, prevents freedom of the press, and severely restricts freedom of religion. In short, the Sandinistas have followed the Cuban example of deception and oppression.

Immediately upon coming to power, two years prior to the formation of the peace-seeking Contra Freedom-Fighters, the Nicaraguan Sandinistas began a tremendous military build-up. The Sandinistas now have 62,000 men on active military duty and another 57,000 in the reserve and militia—far the largest army in Central America. moving to systematically destabil-

ize the other nations in Central America. The Sandinistas of Nicaragua have played the key role as supply and communications center, training bases, and as the headquarters for the Salvadoran guerrillas, thus providing an arms pipeline from Cuba through Nicaragua to rebels fighting against duly elected governments, including El Salvador, Honduras, and Costa Rica.

No one in the United States or in Texas should doubt the seriousness of the threat posed by a Nicaragua free of internal constraints and able to turn its full attention to exporting revolution by subverting surrounding democracies.

Let there be no doubt: with such a Nicaragua, the Soviet Union would have its first stronghold on the mainland of our Western Hemisphere. The Panama Canal could no longer be relied upon in our military and economic planning. Furthermore, and of special concern to those of us living near our country's southern border, continued turmoil in Central America will cause untold millions of refugees to enter the United States. The impact of such a

massive influx of these refugees on employment coupled with the resettlement costs at the State and Federal level for food, housing, and medical supplies is staggering.

Thus far, the Sandinistas have refused to even begin a dialogue with the Contra Freedom Fighters. The President's plan seeks to provide incentives to begin such a dialogue, to set the peace process in motion, and to afford the opportunity for democracy to bud and flourish throughout Central America.

Play write being sought

Uvalde Area Community Theater is sponsoring a playwriting contest for a historical or contemporary play suitable for production in the Uvalde Grand Opera House during the Sesquicentennial celebration. An award of \$1,000 is being offered. The subject must be the Southwest Texas experience. Line is November 1, 1985.

The contest is a Sesquicentennial project of UACT, the Uvalde Arts Council and the Uvalde County Historical Commission. For more information contact: Managing Director, Uvalde Grand opera House, P.O. Box 1451, Uvalde, Texas or call (512) 278-4082.

Haby named

lifetime member

Homer Haby has been named a lifetime active member of the Concho Valley Home for Girls Board of Directors, according to board president, Pattie Ballard.

Haby's appointment was announced at the CVHG's monthly board meeting recently. Haby has served on the board since 1973 and in 1979 donated one of the two San Angelo homes which houses neglected, abused or homeless girls. The Haby and McCaw homes have provided safe shelter and guidance for over 100 girls from 14 Concho Valley counties.

"Over the years, Homer Haby has made numerous generous donations to the CVHG and actively supported the home in many, many inspiring ways", Ballard stated. "This is the board of directors way of expressing our gratitude to Mr. Haby in behalf of the many, many girls who have benefited from the service provided by the homes."

April has been proclaimed Concho Valley Home for Girls Awareness Month. Throughout April, 26 Town and Country Food Stores in the 14 county CVHG service area will donate 10 cents to the CVHG for each 20 ounce fountain drink sold. Additionally, these stores have donated containers displayed on check out counters for public donations.

Our People Make The Difference!

Why do mockingbirds sing so loud?

It is certainly nice to wake up to music of the birds these cool mornings. Turn off the air conditioner, open the windows and have breakfast with symphonic background music. It starts the day so well.

I'm really sure its spring now because the scissortail flycatchers are back and Wednesday I spotted a western kingbird arguing with a mockingbird for territorial rights to a tree in my yard.

All the male mockingbirds are competing for the highest perch and to see who can sing the loudest. They are laying claim to individual nesting territories and defending them against intruders. At times, intruder includes cats, dogs, and people - particularly

cats.

Mockingbirds seem to delight in dive-bombing cats, even plucking hair from their backs. It is awfully difficult for a cat to maintain its dignity while being assaulted by something edible.

Establishment of a territory is of major importance to breeding success in birds. Males normally establish the territory in order to attract a mate. Those without territories will be excluded from breeding.

The territory surrounds the nest site and insures adequate food and room to raise the young birds. It disperses the breeding population to maximize success in getting fledglings off the nest.

Mockingbirds and various fly-

Ramblin' Raun Outdoors

by Jerry Raun

catchers are among the more visible and aggressive at establishing and defending territory, but most other birds have a territory. It may include only the immediate area around the nest, but it is defended against the neighbors.

In some colonies of ground-nesting sea birds, where it is almost impossible to walk between the nests, there is almost continual squabbling. To the human eye every nest looks the same, but the birds recognize their own. Rarely are mistakes made and when they are the errant bird is mightily

chastised.

Boundries around territories may be fuzzy or sharply defined. Mockingbirds have well-marked areas within which a rival is quickly and aggressively challenged. The intruder will flee from the defender until he crosses into his own territory. Then the rules are reversed and the chaser becomes the chase.

Once breeding is finished the territories dissolve and aggression fades away until the following spring.

The boundries of adjacent territories may vary from one year to the next. I watched the territorial behavior of two male mockingbirds for three seasons in Austin.

In front of the Texas Memorial Museum, where I was working, there was a broad walkway leading to the museum. Down the middle was an expansion joint filled with asphalt.

The two birds had divided the lawn in front of the museum. The first year the boundary was the

south edge of the walk and was as distinct as the edge of the concrete.

When the northern bird crossed that line into Confederate country he was immediately challenged. Johnny Reb chased Yank back north until the line was crossed and vice-versa.

The next year the Mason-Dixon Line was the expansion joint in the center of the walk. The following year it had moved to the north edge. Apparently, Johnny Reb kept getting the advantage.

Territoriality is important in the life history of many animals other

than birds. Social insects such as bees, ants and termites instantly attack when an individual from another colony intrudes. Disturb an ant hill or bee hive and receive a quick demonstration of aggressive territoriality.

While mammals tend to display less obvious territoriality, it does occur. It may be limited to the breeding season or it may be continuous. A male dog's attention to trees, tires, etc. is a result of territorial instinct. He is leaving his signature for other dogs to notice.

Livestock Report

During the cattle sale April 19, choice light steers and heifers sold steady. Heavy calves and yearlings were \$1 to \$4 lower. Packer cows and bulls sold steady. Stocker cows and pairs were in good demand but not quite so active.

Cattle Report

Choice Light Steer Calves	78 to 84 cents per pound
Choice Medium Steer Calves	70 to 78 cents per pound
Choice Heavy Steer Calves	61 to 67 cent per pound
Medium Quality Steer Calves	58 to 65 cents per pound
Choice Steer Yearlings	63 to 68 cents per pound
Mixed Steer And Bull Calves and Yearlings	55 to 65 cents per pound
Choice Light Heifer Calves	62 to 68 cents per pound
Choice Medium Heifer Calves	60 to 64 cents per pound
Medium Quality Heifer Calves	55 to 58 cents per pound
Choice Heifer Yearlings	57 to 60 cents per pound
Mixed Heifer Calves and Yearlings	55 to 60 cents per pound
Commercial and Utility Cows	35 to 43 cents per pound
Low Yielding Canners	28 to 32 cents per pound
Bulls	45 to 54 cents per pound
Stocker Cows	\$400 to \$475 per head
Stocker Pairs	\$475 to \$575 per pair

On Monday, April 22 there were 8039 goats and sheep sold. Spring lambs were selling \$1 to \$4 lower. Packer sheep sold steady to \$2 lower. Stocker Angoras were steady while packers were \$1 to \$2 lower. Spanish goats were steady to \$1 lower.

Sheep and Goat Report

Choice Spring Lambs	67 to 71 cents per pound
Choice Old Crop Lambs	60 to 64 cents per pound
Heavy Lambs	50 to 60 cents per pound
Gobby Fat Ewes	18 to 22 per pound
Fat Ewes	23 to 33 cents per pound
Thin Ewes	17 to 21 cents per pound
Bucks	17 to 29 cents per pound
Stocker Solid Mouth Ewes	\$30 to \$42 per head
Ewe and Lamb Pairs	\$20 to \$33 counting the noses
Baby Tooth Ewes	\$40 to \$52 per head
Choice Young Angoras	\$50 to \$68 per head
Medium Angoras	\$35 to \$45 per head
Choice Aged Nannies	\$30 to \$40 per head
Choice Aged Muttons

Public Notice

Southwestern Bell Telephone Company, in accordance with the rules of the Public Utility Commission of Texas, hereby gives notice of the Company's intent to implement a new schedule of telephone rates in Texas, effective May 6, 1985, unless otherwise determined by the Commission. The Public Utility Commission of Texas has received the application as Docket 6200.

While proposals as to specific rates vary, it is expected that the requested rate schedule will furnish a 10.5 percent increase in the Company's unadjusted test year intrastate revenues or a 9.7% increase in test year revenues as adjusted for test year customer growth and annualization of test year rate increases. The rate application seeks an annual increase of \$323.9 million in revenues. All customers and classes of customers of Southwestern Bell Telephone Company within Texas will be affected by the proposed changes.

Most rates proposed for increase would increase by about 18.5 percent, including local exchange rates. However, there are some exceptions. For example, those customers residing in cities that will be reclassified into larger rate groups will experience local exchange rate increases greater than 18.5 percent. Also, the rate increases proposed for private line services in El Paso, due to a proposal to restructure such rates, are greater than 18.5 percent.

A complete copy of the new rate schedule is on file with the Public Utility Commission at Austin, Texas and with each affected incorporated municipality served by Southwestern Bell Telephone Company. The Commission staff has contended in the past that all rates are subject to change as a result of Southwestern Bell Telephone Company's rate application. This filing includes, but is not limited to, proposals to increase rates for local exchange service, intraLATA long distance, intraLATA interexchange private line service (which includes foreign exchange service) and to decrease certain access service rates.

Notice to Customers of Other Telephone Companies

This filing includes, but is not limited to, proposals to increase rates for intraLATA long distance and for intraLATA, interexchange private line service (which includes foreign exchange service) and to decrease certain access service rates. Changes in such rates would also affect customers of other telephone companies because such companies provide certain services in accordance with rates specified in Southwestern Bell Telephone Company's tariffs.

Notice to All Customers Concerning Access Charges and Certain New Service Charges

Southwestern Bell Telephone Company, as a part of this filing, is also proposing to reduce certain access rates charged such customers as AT&T Communications, Inc., MCI and other carriers. The resulting reduction in revenues is proposed to be offset by revenues from two new service charges, late payment charges applicable to business customers only and for certain operator services such as busy line verification, plus stimulation of access service charge revenues. Since this portion of the filing, if granted, would have essentially a zero net revenue effect on Southwestern Bell Telephone Company, Southwestern Bell Telephone Company is proposing that this portion of the filing be expeditiously handled by the Commission and not await Final Order.

Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene, participate, or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. Further information may also be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227, or (512) 458-0221 teletypewriter for the deaf.

Aviso Público

En conformidad con las disposiciones de la Comisión de Servicios Públicos de Texas, Southwestern Bell Telephone Company anuncia mediante el presente aviso su intención de establecer un nuevo arancel de tarifas telefónicas en Texas, con vigencia a partir del 6 de mayo de 1985, salvo disposición en contrario de la Comisión. La Comisión de Servicios Públicos de Texas a registrado esta solicitud bajo el Docket 6200.

Si bien existe variación entre las propuestas en cuanto a las tarifas precisas, se anticipa que el arancel tarifario solicitado aumentará en un 10.5% los ingresos intraestatales no ajustados de Southwestern Bell Telephone Company durante el año de prueba, o sea, un aumento del 9.7 por ciento en los ingresos del año de prueba, después de realizar el ajuste por la expansión de los usuarios y por la anualización del aumento de tarifas para el año de prueba. El objeto de esta solicitud de tarifas es lograr un aumento anual en los ingresos de \$323.9 millones. Los cambios propuestos afectarán a todos los usuarios y grupos de usuarios de Southwestern Bell Telephone Company en el estado de Texas.

La mayoría de las tarifas que resultarían afectadas por el propuesto aumento aumentarían aproximadamente en un 18.5 por ciento, incluyendo las tarifas de centrales locales. Sin embargo, existen algunas excepciones. Por ejemplo, los usuarios que residen en ciudades que se reclasificarán para formar parte de grupos tarifarios mayores experimentarán aumentos mas elevados del 18.5 por ciento. Por otra parte, los aumentos de las tarifas propuestas para servicios de línea privada en El Paso aumentarían en más de 18.5 por ciento, como resultado de una propuesta para reestructurar tales tarifas.

Una copia completa del nuevo arancel de tarifas se halla archivada en las oficinas de la Comisión de Servicios Públicos en Austin, Texas, así como en cada municipalidad incorporada afectada que tenga servicio de Southwestern Bell Telephone Company. En el pasado, la Comisión ha sostenido que toda tarifa se halla sujeta a cambio toda vez que Southwestern Bell Telephone Company solicite nuevas tarifas. El registro de esta tarifa incluye, pero no en forma limitativa, las propuestas de aumentar las tarifas por servicios de centrales locales, de larga distancia intraLATA y por servicios de línea privada interLATA entre centrales (incluyendo servicios de centrales externas) así como las propuestas de reducir ciertas tarifas de servicio de acceso.

Aviso a los clientes de otras compañías de teléfono

El registro de esta tarifa incluye, pero no en forma limitativa, las propuestas de aumentar las tarifas por servicios de larga distancia intraLATA y por servicios de línea privada intraLATA entre centrales (incluyendo servicios de centrales externas) así como las propuestas de reducir ciertas tarifas de servicio de acceso. Los cambios en dichas tarifas también afectarían a los clientes de otras compañías de teléfono, puesto que dichas compañías proporcionan ciertos servicios de acuerdo con las tarifas especificadas en los aranceles tarifarios de Southwestern Bell Telephone Company.

Aviso a todos los clientes con respecto a los cargos de acceso y a determinados cargos nuevos de servicio

Al registrar esta tarifa, Southwestern Bell Telephone Company también propone reducir ciertas tarifas de acceso que se les cobran a clientes como AT&T Communications, Inc., MCI y otras compañías de larga distancia. La consecuente reducción de ingresos se piensa compensar por medio de dos cargos nuevos de servicio (cargos por pago atrasado que se aplicarían solamente a usuarios comerciales, y cargos por ciertos servicios de operadora, tales como verificación de línea ocupada) además de la estimulación de los ingresos por cargos por servicios de acceso. En vista de que, en caso de otorgarse esta parte del arancel tarifario registrado, su efecto real en los ingresos de Southwestern Bell Telephone Company sería igual a cero, ésta propone que la Comisión tramite dicha parte de la tarifa en forma expeditiva sin esperar la Orden Definitiva.

Toda persona que desee intervenir o participar en el presente proceso debe notificar a la Comisión lo antes posible. Las solicitudes de intervención, participación o información deben dirigirse a: Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. Para obtener mayor información debe llamar a Public Utility Commission Consumer Affairs Division, (512) 458-0223, o (512) 458-0227, o al (512) 458-0221 si requiere teletipo para personas con impedimentos de audición.

MAYOR'S PROCLAMATION "BEAUTIFY SONORA"

WHEREAS, the Mayor of the City of Sonora has declared the 6-12 day of May, 1985 as "BEAUTIFY SONORA" and

WHEREAS, the citizens of Sonora, shall take special pride in the attractiveness of their residence, public buildings and grounds, place of business and industry, and shall make a special effort to make such places attractive; and

WHEREAS, the Mayor and all other City Officials heartily endorse "BEAUTIFY SONORA", and desire all citizens, businesses and industries to join in and support us in this worthwhile project;

NOWHEREFORE, I Billy Gosney, Mayor, do hereby proclaim the 6-12 day of May, 1985, "BEAUTIFY SONORA" in the City of Sonora, Texas and urge all citizens to participate.

WITNESS my hand and seal, this 16 day of April, 1985
Billy Gosney
Mayor

Attest:
Becky Covington
City Secretary

PUBLIC NOTICE

Notice is hereby given for the request for bids to Sutton County for repainting for interior of the Sutton County Courthouse and bids for gravel, asphalt, concrete, and fuel for the Road & Bridge Department.

Specification may be obtained at the County Auditor's Office in the County Courthouse, Sonora, Texas. Final receipt of the bids will be at 9 a.m., May 15, 1985, at the Commissioner's Special Meeting. At such time bids will be opened and accepted or rejected by the Sutton County Commissioners Court.

County Auditor, Box 16, Sonora, Texas 76950 915/387-5380.

Sonora ISD is accepting bids for an underground irrigation system for the athletic complex. Specifications available at the administration office 807 S. Concho, Sonora, Tx. Bids to be awarded in May. Sonora ISD reserves the right to reject any or all bids.

PUBLIC NOTICE SUTTON COUNTY TEXAS COMMUNITY DEVELOPMENT PROGRAM

Sutton County is currently making plans to apply to Texas Department of Community Affairs for Texas Community Development Program funds.

Sutton County will conduct a public hearing to discuss use of past TCDP awards, the amount of funds available, and eligible activities. The public hearing will be held at 229 West Plum Street, St. Ann Parish Hall, at 6:30 p.m. on May 6 1985.

Sutton County encourages individual citizens and citizen's groups to make their views known at this public hearing. The County welcomes the full participation of its citizens in the development of this TCDP application.

Citizens comments may be delivered in advance to the County Judge's office in the County Courthouse at any time prior to the public hearing. Handicapped individuals who may have difficulty in attending this meeting should contact the County Judge's office to arrange for assistance.

For further information, contact Judge Charles Sherrill, at the Courthouse at 387-2711.

ANUNCIO PUBLICO CONDADO DE SUTTON Programa de Desarrollos de la Comunidad de Tejas

El Condado de Sutton esta formando actualmente planes para solicitar al Departamento de Tejas de

Asuntos de la Comunidad para fondos del Programa de Desarrollos de la Comunidad de Tejas.

El Condado de Sutton administrara una audiencia publica para discutir los usos pasados de fondos del Programa de Desarrollos de la Comunidad de Tejas, la cantidad de fondos disponibles y las actividades elegibles. La audiencia publica se tendra en 229 West Plum Street, St. Ann Parish Hall, a las 6:30 p.m., Mayo 6, 1985.

El Condado de Sutton aconseja a cualquier Ciudadano, o a cualquier grupo de ciudadanos a expresar sus opiniones e ideas en esta audiencia publica. El Condado invita la plena participacion de sus ciudadanos en el desarrollo de esta aplicacion del programa de Desarrollos de la Comunidad de Tejas.

Se pueden entregar de antemano comentarios de ciudadanos a la oficina del Juez del Condado al Edificio del Condado a cualquier hora antes de la audiencia publica. Los individuos con desventajas fisicas que pueden encontrar dificultades en asistir a esta reunion deben hacer contacto con la oficina del Juez del Condado para que se les de ayuda.

Para mas informacion, llame Judge Charles Sherrill en el Edificio de Justicia, telefono 387-2771.

Broncos prepare for Regional

BY CHARLIE ADAMS

The Sonora Bronco Fems had a good outing in preparation for this weekend's Region I competition to be held in Odessa's Ratliff Stadium.

The fems traveled West to Iraan and had a good showing. Bonnie Jackson won second in the shot put. Gayann Dobbs took the bronze medal in the 400m. Gina Heffernan took the bronze in the 1600m. run.

The Bronco boys traveled East and ventured into San Antonio's Alamo Stadium for their meet this past weekend. They nor their coaches were too pleased with the Bronco showing. The only Bronco to place in any event was Jose Escalante taking fifth in the 1600m. It could have been the heat, humidity or possibly the intimidation factor of running against the likes of Houston Madison, Houston Wheatley, Galveston Ball, San Antonio Jay and all the other 5-A teams but anyway the Bronco performances were far off being up to previous season best. The Broncos will try to re-group and be mentally up for this weekend Regional Meet in

Odessa.

The Broncos will send Jose Escalante to defend both of his regional wins last year in the 1600m. and 3200m. Ricardo Sanchez will be returning to regional for the second time to try and improve upon last year's 6th place finish in the 800m. Jim Cooper is going to regional for the second straight year in the discus. Esau Ramirez will be in the long jump for his first regional trip. The Broncos will also send their 1600m. relay team of Sanchez, Ramirez, Elias Torres, Manuel Duran and alternate Santiago Faz.

For the Bronco Fems, Gina Heffernan will return to defend her win last year in the 1600m. Bonnie Jackson will compete in the shot put and the 1600m. relay team of Gayann Dobbs, Kate Mathews, Alicia Sanchez, Debbie Shannon and alternate Robbi Dickenson will also compete.

The Regional Meet will start on Friday at 1 p.m. with field event and the running prelims at 3 p.m. The finals start at 1 p.m. on Saturday. Good Luck Broncos!!
