## Suspect on FBI list

In a follow-up of the robbery of the Texaco station on September 17, officers felt when booking the two suspects that one was using an alias.

Further investigation revealed that the suspect, Marvin Clyde Goodwin, was wanted by the FBI for interstate flight to avoid prosecution for murder in New Orleans, Louisiana.

## Wedding has unusual glitter

Stalactites and stalagmites set the stage for the wedding of Rhonda Evanlista and Hollis Herst, both of Reseda, California, as the couple exchanged vows in the Caverns of Sonora on October 8. County Judge Carla Fields officiated for the double-ring ceremony. The wedding marked the third to be performed in the cave since it's opening.

The bridegroom selected the site of the wedding for it's beauty; the bride had not seen the Caverns until the day before the ceremony.

"I always said that when I married, I would marry a beautiful person and that the wedding would be in a beautiful place," Hollis said. "I had been through the Caverns three times and found it to be a very special place. I knew that's where I wanted to get married."

Hollis was born and raised in Texas and worked around the state prior to moving to California several years ago. "The thing that I've found to be true with most people is they stay in big cities and get in a rut. They don't see what's out there. I learned a long time ago that as I travel, I stop along the way. I want to see everything, get the history of the areas and visit the sites."

Rhonda said their friends each had a different concept of 'getting married in a cave.' "We've been teased about bats and people wanted

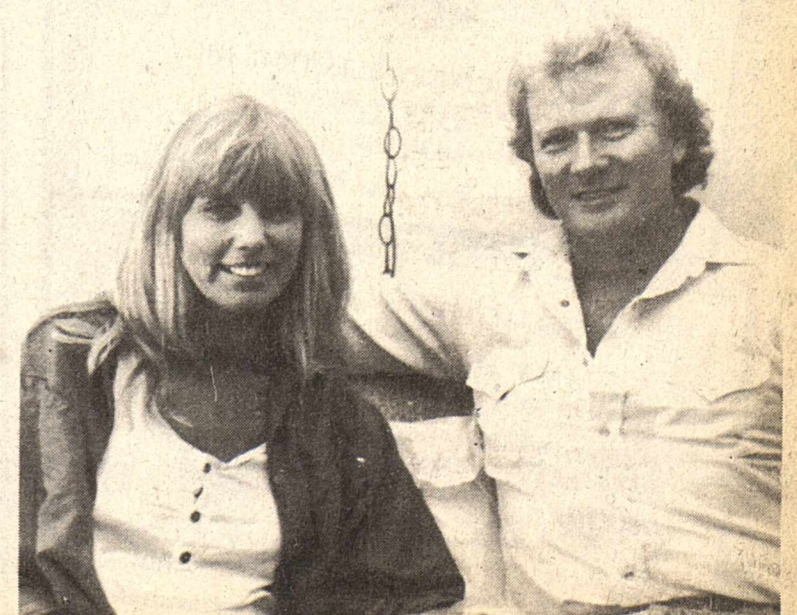

to know if we would wear the little miner's caps with lights. Someone even asked if we would wear animal skins and if Hollis would carry me off by my hair.

"At first when Hollis said he wanted to get married in the cave, I thought it was a little strange. I suggested we go to a nice place in Nevada but then I realized how serious he was. Once I got used to the idea, I decided it was pretty neat."

In attendance for the wedding

were the son of the bride, Michael, sister, brother and nephew of the groom, Virginia, Johnny and Demitrios Santikos of Houston and close friends of the couple, Don and Kim Glunts of Reseda.

Following a trip to Massachusetts, the couple will return to California where the bride is the manager of a Real Estate firm, the groom is employed by McDonnell Douglas and both are working in their own business, Eagle Machine Works.

Commissioner

Mary Scott Nabers

Texas Business Today

## Very costly to overlook

DEAR COMMISSIONER NABERS: I began an exercise studio in 1984 as my first venture into small business. I hired several instructors, obtained a federal ID number, and began filing quarterly payroll returns (941) and the annual federal unemployment return (940).

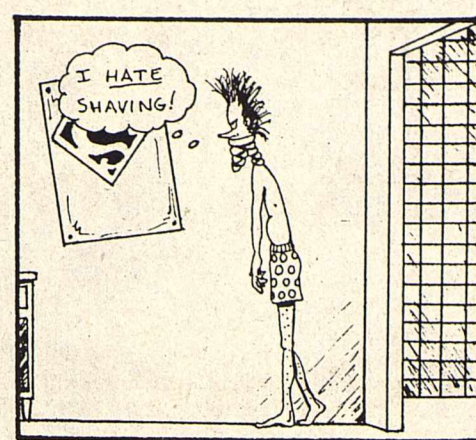

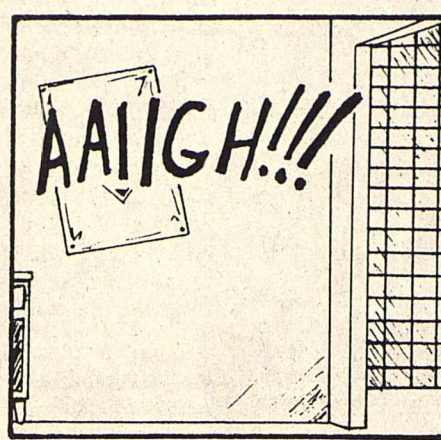

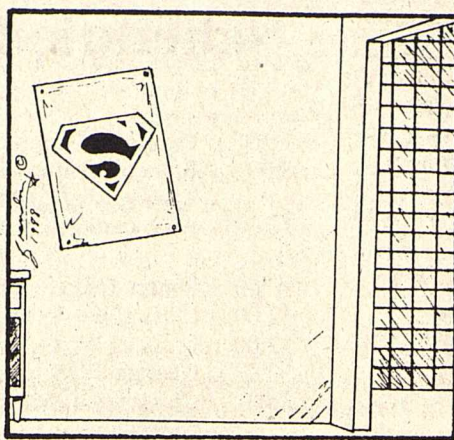

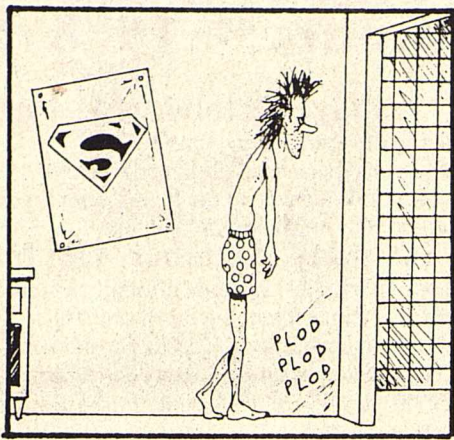

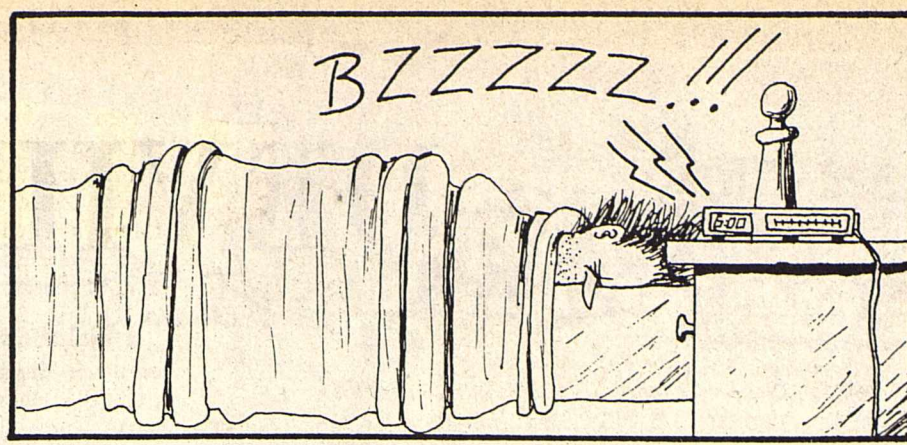

It wasn't until a visit by a Texas Employment Commission examiner in 1987 that I was informed of my duty to also pay taxes to the TEC. The examiner assigned my business an account number and prepared past due quarterly reports. A recent statement from the TEC reflects a balance due of nearly \$1,500, \$400 of which is late payment penalties. And, my tax rate is much higher than it would have been had I been paying taxes from the beginning. I am really upset!

I know I have to pay off this obligation, but my business lost \$14,000 last year and my cash flow is practically non-existent. Is there any way to reduce the amount I owe or waive the penalties? I just didn't know I was supposed to pay!

J.K.  
Conroe, Texas

DEAR J.K.: I am glad you wrote even though I do not have extremely encouraging news. The TEC cannot reduce the amount of tax you owe, but we can work with you on a payout plan. Discharging the debt in this manner does not, however, abate continuing accrual of interest or penalties. The currently assessed penalties are mandated by law. They attach automatically when tax is not paid at the proper time and the Commission has no legal authority to waive them. I suggest you talk to your local TEC tax auditor about a payout plan.

And, if there are other fledgling business owners out there, take note. Payments of unemployment insurance taxes is a legal obligation if you have employees. It is your responsibility to find out about your legal obligations. Failure to do so often results in unnecessary expense and a much higher rate for several years. It is in your best interest to call the TEC before someone from

the agency calls on you.

Ms. Nabers represents 336,000 employers throughout Texas. If you have any questions you want answered, please write Commissioner Nabers at: TEXAS BUSINESS TODAY, 614 Texas Employment Commission Building, 15th and Congress, Austin, Texas 78778.

## ONE MAN'S OPINION

by T. Driskell

A "lame duck" administrative in a critical election year has certain characteristics which we learned; to those many years ago, while polishing seats in a University. First; the sphere of action tends to become totally external, contrasted to internal in the earlier periods of the term. Second; the critically limited action taken internally tends to be of a "maintenance of status quo" nature with little definition. Third, like an old man, there is a tendency in reminiscence to glorify past deeds. Fourth; above all where voter sentiments are concerned, THERE MUST BE NO BOAT ROCKING!

If you will consider your environment you will recognize the characteristics. It seems to follow that West Texas' petroleum industry, insofar as it consists of independent operators is in for some rough sledding or another ride on the Arabian yoyo. It is sickening to realize that our Congress and our administration has ignored an obvious problem for fifteen years. The problem, involves a national energy policy which we seem no closer to than in 1973.

What must an energy policy consist of? Fundamentally it is quite simple--it must provide a stable price platform on which our domestic petroleum industry, including the independents, can achieve permanent economic health. It must also provide a standby synthetic fuel programs. The development of this program will require that said development is not placed in the hands of the only group with a vested interest in the program not being successful; multi-national oil companies.

What we need is a simple surtax on imported oil to guarantee a stable and constant price for West Texas and all other domestic crude. It should be a flexible surtax that kicks in when foreign oil goes below our production break-even point and vanishes when foreign oil goes above that price. It is so simple, and if it had been done in 1985 the big collapse of our petroleum industry would never have occurred. It is insane for the most powerful nation on the earth to have its economy manipulated by a bunch of sand dune shepherders.

## Depot Diary

by Patricia Johnson

Homecoming is this week. How many of the people coming back to renew old acquaintances and to think about growing up in Sonora remember the Depot? Quite a few I would guess.

We'll be contacting them to ask for help in re-roofing the Depot. Will all of you out there remind those we miss that the Depot really does need a new roof and the only way it is going to get one is for a lot of people to adopt a square foot for \$4. It's not the large donations that are going to accomplish this project.

So far we have 1,266 square feet adopted of the 3,000 on the roof. If we could increase that to 1,501 square feet, we would be over the ridge and on our way down the other side. Make your check to

SCHS-Depot Roof and mail it to Depot Roof, P.O. Box 885, Sonora, Texas 76950 or bring your contributions to Westerman Drug or the Devil's River News.

The Depot will be open this Saturday from 10 to 5 and Sunday 1 to 5. Come see your names on the wall and let us help you visualize what an asset to Sonora the Depot really can be.

The newest adoptors are: Winnie Allen; Bonner Walsh; Jimmy Davis; Milton and Shala Cavaness; Cliff and Nita Browning, Hatch, New Mexico; Larry Finklea; Pascal Allison, San Angelo; Carlos and Shirley Welch; Gary and Kathy Hardgrave; Monte Yantis; Dod and Roberta James; R.L. and Peggy Street; Don and Sandra Cooper.

I have enjoyed meeting some of you for the first time, and have enjoyed visiting with all of you each week. You have told me that you've enjoyed my column, too, and that means so very much to me.

## Polocek, Huber wed

Catherine Michele Polocek became the bride of Brian William Huber in a double ring ceremony on Saturday, October 8, 1988, at St. Luke's United Methodist Church in Lubbock. The Rev. Monte Jones of St. John's Episcopal Church in Sonora officiated.

The bride is the daughter of Mr. and Mrs. Virgil A. Polocek. The groom is the son of Mr. and Mrs. Gordon J. Huber of Joliet, Illinois.

Given in marriage by her father, the bride wore a gown of embroidered organza, featuring dimensional bridal roses. Leaves outlined the open neckline, the roses puffed the graceful short sleeves. The dress was a slim silhouette with a half-belt in taffeta bias folds nipping the waist, centered with a ruched dahlia. The bride's chapel length veil of illusion accented with pearls was held by a hand of white satin roses.

The bride wore a single strand of pearls belonging to her great-great-grandmother, which had also been worn by her mother and aunt at their weddings. The sixpence in her shoe was borrowed from her aunt. She wore her mother's blue wedding garter. She carried a cascade bouquet of pink roses, stephanotis and babies' breath.

Maid of honor was Miss Pam Schumacher of Odessa. Bridesmaids were Mrs. Julie Martin of Sonora

and Mrs. Carren Gibson of Lubbock. Cousin of the bride, Miss Sarah Hawes of Universal City, Texas, was junior bridesmaid. They wore tea length semi-fitted dresses of rose-imprinted pale mint green. The pleated front featured a dropped waistline defined by a wide inset band of the same fabric. A large rose-patterned lace collar completed the outfit. The attendants wore babies' breath in their hair. They carried arm bouquets of pink roses, star and yellow lilies, and babies' breath.

The groom wore a grey pin-striped tuxedo and pleated white shirt. His boutonniere matched the bride's bouquet.

Paul Huber of Washington, D.C., brother of the groom, was best man. Groomsmen were Scott Huber, brother of the groom, Joliet, Illinois, and Larry Jacob, cousin of the groom, of West Bloomfield, Michigan. Ushers were Mike Polocek of Lubbock brother of the bride, and brother of the groom Mark Huber of Brooklyn Center, Minnesota, and Gary Huber of Minneapolis, Minnesota. Candlelighter was Kyle Sechrist of Lubbock, cousin of the bride.

Following the ceremony, the bride's parents hosted a dinner-dance reception at Hillcrest Country Club. Dinner tables were illuminated by brass hurricane candlesticks. Teal, clear, rose and

MRS. BRIAN HUBER

pink helium balloons filled the ballroom. The three-tiered, heart-shaped wedding cake featured white lace icing with lavender-throated white orchids trimmed in mint ribbon.

During the reception, the bride and groom were visited by characters Jeff Fuller of Presidio and

Biscuits O'Brien, cowboy cook. Fuller related to the groom stories of his bride's west Texas heritage. Biscuits gave the bride some important cooking lessons.

After a wedding trip to Colorado, the couple will reside in Lubbock where both are employed by Texas Instruments, Inc.

## BRONCO TAILS

News from Sonora High School  
by Cynthia Kepler

Homecoming is here! Sonora High's 2nd Homecoming in the past two years will take place this weekend. Spirit is really high at the high school, and we want everyone to share in it.

The game last week was exciting. I was glad to see that many Sonora fans were on hand to cheer the Broncos on. Even though the Broncos ended up on the wrong side of the 35-27 score, they went off

the field feeling good about the game. Way to go Broncos! This week's game with Llano has the added incentive of being homecoming! Congratulations to last weeks captains Michael Harris and Baldo Castaneda.

Homecoming ceremonies will take place at 7:30 at Bronco Stadium before the game. This year's homecoming court includes Freshman duchess Laura Chalk, Sophomore duchess Angie Stewart, Junior duchess Christi Adkins and the three senior duchesses one of which becomes the new Homecoming Queen. The senior duchesses are Norma Sosa, Kim Cooke and Wheelless Baker. A dance will be held for all current high school student in the foyer of the high school right after the game.

The Mighty Bronco Band had its annual marching clinic Tuesday night in preparation for marching contest.

The Band has been working really hard this year and invites everyone to join them Saturday, October 22, in Brady for their show.

The Spanish Club elected officers at their meeting last Tuesday night.

The 88-89 officers are President-Wheless Baker; Vice-president-Brad Morgan, and Secretary-Treasurer-Rosa Madera.

Committees were also selected to get ready for the annual Halloween Costume dance. The date for the dance has been set for October 29. Anyone still wishing to join that has had at least one year of Spanish or is currently taking Spanish needs to speak to Coach Gonzales. Dues are \$5.00.

Another music organization that has been busy is the choir. They have been decorating and working on lots of new music. Their 88-89 officers are: President-Rosa Madera; Vice-president-Abel McGee, Secretary-Aby Samaniego; Treasurer-Manuel Martinez; Sergeant at Arms-Palmira Chavez, and Librarian-Clay Graves.

Seniors need to start making appointments with a photographer to take their senior portraits. This is a chance to get some pictures taken the way you want them taken so, jump at the chance.

The PSAT will be given Saturday in the Library Conference Room. The cost is \$5.25. Students

may pay in advance or bring their money that morning. More information and times are available in the counselor's office. I will emphatically suggest again that this

**Bronco Football 1988**

**Broncos lose to Fredericksburg**

by Decky Spiller

At 8:00 o'clock on Friday, the seventh of October the Broncos began their 1988 district season. For that first game, the Broncos traveled to Fredericksburg. Number thirty, Manuel Martinez made the opening kickoff for the Broncos of forty-one yards. Coverage on kickoffs for Sonora was lead by number forty-one, Jake Kimbrel and

allowed very few yards returning throughout the game. The Bronco defense then took the field and forced the Billies punt. Number twenty-one, Todd Keller made a seven yard return and the Broncos proceeded to put the first points on the board. The touchdown came on a long pass to Keller and the extra point was kicked by Martinez. In the first half the Broncos had

trouble defensively. The trouble was not lack of hustle or desire but mental breakdowns. The Billies took full advantage of those breakdowns by scoring 35 points.

Offensively Sonora had little better luck but it was because of mental error and not hustle. Mental error can be corrected, lack of desire is a permanent affliction that the Bronco football team knows nothing of.

the Fredericksburg defense could and count not do. One doesn't hear much about the offensive line in the words of the announcer or the newspapers but they don't really mind. As long as they give the team a chance to run or pass and score they are content with the knowledge that they did the very best they could.

The line opened holes for Keller to gain twenty-three yards for Espinosa to gain eleven yards, for thirty-one, Erasmo Perez to gain five yards, and for Cahill to gain fifty-three yards. They also protected our passer, Harris as he completed five of his twelve passes for sixty-nine yards to number eighty-four Eddie Virgen, Coronado, Keller and Espinosa. Number ten David Mirike came in for the injured Harris and ran the Bronco offense very well and completed one of his three passes to Virgen for nine yards.

Mirike did throw an interception but he also caught one in his defense position. The Broncos recovered two Fredericksburg fumbles and fumbled once themselves. Harris was forced to punt only once and that was for twenty-two yards. Martinez kicked off three times, two of which were outside attempts, and also kicked two extra points. The Broncos scored three times in the second half by Keller and Virgen. A fake extra point was not successful and the clock just ran out on the Broncos. The final score was Sonora 27, Fredericksburg 35. The Broncos held them scoreless in the second half.

When the Broncos came out for the second half it was a whole new ball game. Sonora dominated the field in every aspect. After a twelve yard kickoff return by Keller the offensive line began to dictate what

The Broncos are bound for the playoffs and they have matured into a solid team. In the words of Coach Hopkins, "O.K. we've had enough experience, let's use our head and win a district championship!"

## Scouting News

Sonora Cub Scout Pack 19 was well represented at the Concho Valley Council CUB-DAD Weekend held at Camp Sol Mayer on the 8th and 9th of October.

The activities for the father/son weekend include BB gun shooting, archery, tomahawks, canoeing, swimming, and a very muddy obstacle course. This was followed by a huge campfire for the 330 Cub Scouts and their dads. The dads then relaxed at a Cracker Barrel meeting while the staff members took the boys on a Night Hike.

The next morning, after a good night sleep, and a big camp breakfast the Cubs and Dads attended Chapel services. Awards

and Closing Ceremonies were held before the campers broke camp and returned home.

Local campers and dads were: Bill Dempsey and Curt, Andrew, and Russell; Wade Fitzgerald and Casey and Alex Gonzales; Bill Burnham and Josh; Jamie Floyd and Jamie and Michael; Lynn Simpler and Reese; Daniel Ponce and Ricky; Manuel Cabezuella and Sergio; Ricky Presley and Christopher; Raymond Youngblood and David; Ron Nicholas and Alan; John Zook and Jon-Jon; Robbie Zook as Den Chief and a Camp Staffer.

Pack 19 would like to thank the dads that could attend and gave their time to make this a special weekend for their sons.

## Beef checkoff making significant advances

Beef producers have used the beef checkoff to make significant advances, in improving how consumers perceive their product.

One of the major accomplishments has been a working relationship between the beef industry and the American Heart Association. In Texas the two have jointly published two brochures to better explain the health benefits of beef.

The most recent brochure, *On the Trail of Hidden Fat*, was distributed to four million Texas shoppers during the AHA's Food Festival Week in September. The groups working relationships has also generated invitations for the Texas Beef Industry Council staff members to provide facts on beef's role in the diet to physician conferences.

Funding of these programs in Texas came from an escrow previously targeted for refunds. Since refunds fell below the escrow balance, the remainder will be invested as checkoff dollars.

Cattlemen could request refunds on checkoff assessments from October 1, 1986 to May 27, 1988. The latter date was when the Secretary of Agriculture announced that producers had approved a permanent checkoff program in a national referendum. No provisions for refunds was made by Congress for the permanent program.

"Our programs with Texas health professionals have allowed beef to be seen in a different light," says Sutton County rancher, Ruth Espy. "You seldom hear anyone question beef's contribution to a healthy diet anymore. That's the type progress we wanted our checkoff dollars to make."

On the national level, the Beef Board has refunded all dollars

requested. The surplus will be invested into checkoff programs as directed by the board's operating committee.

Figures released by the Beef Board show that \$11,056,605.52 were held in escrow for refunds. By August 15, the board had returned \$7,521,433.84 to 14,441 applicants.

Although Texas has the nation's largest cattle population, it ranked third with \$1,191,351.42 in refunds with the nation's importers leading refund requests with \$1,415,580.12. In second place were Nebraska producers who were refunded \$1,207,793.67.

Texas ranked sixth in individuals requesting refunds with 762. The state was surpassed by Missouri, Nebraska, Iowa, Kansas, South Dakota and Wyoming in that order.

On August 26, 1988, everyone who requested refunds received their full checkoff assessment.

Now that the Beef Board no longer has to hold ten percent in escrow, it will have more money for beef programs. The national effort will benefit from the decision of the TBIC board of directors as well. The Texas board will increase its contribution to the Beef Industry Council from 32 percent to 40 percent, which is 80 percent of the 50 cents retained in state.

"The beef industry is gathering momentum," Espy said. "Beef is starting to come back. Now that the program is running on all cylinders, we can see a brighter future for beef."

## 'SELF' CONTROL

by J. Michael Fish

### The 'what and how' of happy

Happiness is our nature. Mankind has been so adept at changing the "natural flow" of things, it is little wonder he attempts to change his own as well. There are people who cling to unhappiness so tightly you would think they felt it was their "inalienable right" to be depressed or to wallow in self-pity.

It is not a reward to be had only after a period of hard work or living according to a certain set of standards. Nor is it a condition for which you should feel guilty or undeserving for having attained.

"We think better, perform better, feel better and are healthier when we are happy," Maxwell Maltz, author of *Psycho-Cybernetics*. All our senses function better and our mind is relaxed when we are thinking pleasant thoughts.

The late Dr. John A. Schindler, of the famous Monroe Clinic, Monroe Wisconsin, defines happiness as, "A state of mind in which our thinking is pleasant a good share of the time." The true nature of the human brain is to function in such a state.

Psychosomatic illness is brought about by unhappiness, and happiness is its only cure and prevention. Stress is very limited in

a happy person, therefore his life is prolonged.

All too often, people learn the significance of acquiring happiness as a habit only after a catastrophic disease has almost claimed their life.

Think about this. If you took control of your conscious mind now; processed only positive ideas; stored information with positive opinions, attitudes and values in your sub-conscious; you could lengthen your life substantially.

When you formulate a 'self' with a personality you most like and are creative enough in your endeavors to be fulfilling, you will be in a state of happiness. Your personality, creativity, attitudes and reactions will reflect such a condition.

Once a state of happiness is achieved, cling to it and build on it as though it were more valuable than all the gold in the world because, my friend, it IS.

Approach every problem, challenge, event and situation as another step leading to joy and fulfillment. Ask yourself, "Now, how can I use this to my advantage?" Your sub-conscious will provide several solutions. You

can use any or all of them.

Below is an eight-point plan to happiness. A guide to gain control of your 'self' and to realize the potential for your contributions to those closest to you.

Try it everyday for three weeks, during all your walking hours, and see what a difference it can make in your life.

1. Be as cheerful as possible: in thought, word and deed, relay to those around you that "it is great to be alive!"

2. Feel and act more friendly toward others: to the person across the breakfast table, to the individual behind the counter at the store, to the stranger on the street.

3. Be less critical and more tolerant toward others, their faults, failures and mistakes. Give the other person's actions the benefit of the doubt.

4. Act as if your success was a certainty, "I am the person I want to be and will practice acting and feeling like that person."

5. Don't distort facts with opinion in a negative way: accept facts for what they are and deal with them without your opinions 'coloring' them.

6. Smile at least three times a day.

7. React as calmly and intelligently as possible, no matter what happens.

8. Ignore all negative or pessimistic 'facts' that you cannot change.

### Winters round-up

The sun has yet to crawl over the eastern horizon, but already the smell of flapjacks is mingling with the mesquite smoke of the fire. Cowboys are catching their first mounts from the remuda and the foreman is laying out the days chores.

Well, that's not exactly what will happen on October 29, 1988 in Winters, Texas, but you will get to see the chuckwagons of yesteryear gather at the Winters Rodeo grounds to compete for \$500.00 in prizes. You will also see actual working cowboys representing their ranches competing in working cowboy events in the Ranch Rodeo.

This is just part of a day full of activity dedicated to our Western Heritage and the American Hero, "the working cowboy".

## Are you in the prime?

prime of life

Are you in the prime of your life? "The prime of life means different things to different people," according to Marlene Evans, President of the Sutton County division of the American Heart Association of Texas.

"For some people, it is the early years just out of school. Others see it as their 30's and 40's when they are raising a family and pursuing a career. Still others see it as the time after they have raised their family and retired from their job when they are free to travel and 'enjoy' life."

"Whatever your definition of the prime of life," Evans said, "heart disease and stroke kills people of all ages."

"In fact, nearly one million deaths in the United States each year are a result of heart disease, stroke and related diseases, and one of five (more than 200,000) occur before age 65," Evans said. "In 1986, 22 deaths in Sutton County were caused by cardiovascular disease-that represents 51.1 percent of all deaths in our county."

Preventing this early death and disability is the mission of the American Heart Association. The voluntary health agency is fighting this "prime time killer" with research, professional and public education and community service programs. For more information on how you can help the AHA in Sonora, contact the regional AHA office in San Angelo at (915) 653-1373.

## Nominations open for high school teachers

Nominations which will lead to the recognition of several hundred distinguished high school teachers are being made by principals across Texas. Forms were mailed this week to every high school principal in the state.

The Texas Excellence Awards for Outstanding High School Teachers were created in 1986 by the University of Texas Ex-Students' Association in cooperation with UT's College of Education. Over the past two years, some 600 teachers who were nominated by their principals were recognized in their hometowns for their outstanding contributions.

"The University is appreciative of the important role high school teachers play in preparing their students for later challenges," said U.T. President William Cunningham. "Every student on our campus is a statement of accomplishment for secondary teachers. Without quality high school teaching, the University could not begin to fulfill its mission," he said.

All teachers selected for the award will be recognized through local publicity, and many will be honored by UT alumni clubs in their towns. Ten of them will be invited to the UT campus by special recognition.

The 10 honorees will receive \$1,000, a commemorative sculpture, and an exclusive on-campus conference which will include meetings with top students, faculty, and administrators for informal discussion and intellectual exchange.

The 10 will be selected by a committee composed of distinguished UT alumni, high school officials, and UT students, faculty and administrators.

Dr. Wancee Spirduso, Interim Dean of Education, explained that the program "...is the University's way of raising public awareness of the contributions that teachers make, and raising the esteem of the teaching profession and individual teachers in communities across the state."

According to Roy Vaughan, Executive Director of The Ex-Students' Association, any high school teacher in Texas is eligible to be nominated for the honor by his or her principal.

High school students, former students, parents and Texas Exes are encouraged to recommend nominees to their principal. The deadline for nominations is November 15.
