## SHS Named Mentor School

Sonora High School has been named a Mentor school by the Texas Education Agency. Over 200 schools applied for Mentor status, but only 22 were chosen. Three schools in Sonora have now been named Mentor schools.

According to T.E.A., some of the benefits of serving as a mentor site include 1. recognition as a leader in education, 2. opportunities to engage in state initiatives dedicated to improving education, 3. access to staff development opportunities, 4. eligibility for funding to offset costs of serving as a mentor.

One of the strong points that contributed to the high school attaining this status is the organizational structure of the school. T.E.A. recognized S.H.S. as a school that promotes the continued educational growth of both students and staff. Recognition was also given for flexibility to ensure effective learning opportunities for all students.

Said principal, Terry Marrs, "This is a great honor for us. It is a great honor for the district. It is a great honor for the teachers. What is really impressive is that we have three mentor schools in a district this size. The only other district that I know of that has three mentor schools is Austin. The Austin District has 102 schools."

Terry Marrs, Sonora High School Principal

## Main Street Planning Meeting Successful

They also suggested a staff increase for the Chamber of Commerce so that Chamber offices could be open on Saturdays. Suggestions were also made to clean up entrances to the city as well as create clearly visible welcome signage.

A formal report of the survey and meeting will be forwarded to the Main Street office within the next 60 days. Anyone wishing to have a copy of this report may obtain one by calling Melett Rowland at 387-2558.

Jimmy Cahill (right) visits with Tamela Saldana (left) about tourism in Sonora.

Approximately 45 Sonora citizens attended a Main Street Planning meeting on Thursday, May 19. The meeting was held in the basement of the First United Methodist Church.

Anice Read, Director of the Texas Main Street Program, Melissa Cunningham, Denison Main Street manager, Tamala Saldana, Texas Department of Commerce tourism consultant, Brad Burns, landscape architect with Larson Design Group and Dick Ryan, architect with the Texas Main Street Program gave a 2 hour presentation, suggesting ways to boost retail sales and beautify Sonora.

Said Melett Rowland,

Sonora Main Street manager, "We were very pleased to have these professionals share their ideas with us. We were fortunate to have this venture funded by the Texas Historical Commission. None of these people were paid for their services and they were very kind to share their time with us because of their belief in the Main Street Program."

Some of the ideas that were presented included marketing techniques, tourism drives and promotions, landscaping and architectural recommendations and suggestions to start businesses that are not already in place in Sonora.

Congratulations to the Class of 94 from the DRN

## Letter To The Editor

To the Editor:  
 At yesterday's (May 17) City Council meeting, I witnessed one of the most blatant examples of politics at its worst, when our mayor and city manager attempted a slash and grab effort to gain control of the Senior Center. The most distressing thing was their lack of honesty (I say "their" even though Mr. Pape had the good sense to keep quiet and let his protegee speak for him). If the mayor has a problem with Carole Thorp's management of the Senior Center, why doesn't he (and/or the city manager) call her in and, in an adult, business-like way, discuss the situation? Why attempt to sneak through a plan to appoint some cronies to do his dirty work for him?

I was thankful for the large turn out by those who came to protest the council's decision to name a park after an outlaw/murderer. I hope that their voices were heard loudly and clearly by the council. Basically, what I heard was support for the Senior Center, satisfaction with the job the Committee on Aging is doing, and a definite desire for the city council to keep out of things by not attempting to fix what is not broken.

Finally, I believe Lemuel Lopez owes Carole Thorp an apology for his rude, racist remark. If he had said that to me yesterday, today he would receive notice of a lawsuit for defamation of character. Sonora deserves better than plotting and conniving by its elected officials and employees, and yesterday, the actions of a couple of people reflected badly on the council and on our community. I am going to make it a point to attend every city council meeting that I can, and I hope you will, too. It would be wonderful if the meetings had to be moved to the High School Auditorium, but that probably won't happen as long as they are held at times to keep most working people away.

One final note: why is it there is a plethora of microphones adorning the council chamber, yet much of the discussions between council members is totally inaudible to those in attendance? That seems to be a contradiction to the Open Meeting Act, doesn't it?

I'll close this with a pat on the back to Councilmember Margaret Cascadden: she is a real community person. She shows up when something is

happening, which is more that I can say for most of the other elected officials in this town and county. Thanks, Margaret, for being there to support and promote Sonora. If some other folk spent more time promoting Sonora and less time promoting themselves, we might really see progress instead of programs.

Sincerely,  
 Monte Jones

Dear Editor:  
 Enclosed find a check in the amount of 18.00 for another year's subscription for the Devil's River News. I was not sure exactly when it started last Summer when I was in

Sonora for a few days for only one of few times in the past fifty years. But I get a very warm feeling reading about the past, particularly some of the happenings of people I once knew and remember. I must admit that my favorite section is ASK THE HISTORICAL SOCIETY. It usually goes back before my time, which is a long ways back. When I get it each Thursday I stop whatever I'm doing and read it from front to back, yea, even the want Ads.

I wish you the best and continued success.

Sincerely yours,  
 Ed Odom

## Freelance

## Philosophy

When I was a boy, I always looked forward to my Dad's Sunday newspaper. He would bring it in the house, give us the funny papers and my brother and I would spread it out on the floor in the living room. We would study that thing every Sunday morning-- until it was time to go to church.

My favorite cartoon strip was Popeye. Popeye wasn't very smart, but he was a good guy. It was by reading Popeye that I found out that spinach makes you strong and that good guys win in the end.

I thought that it might be nice to relive some of those days. So for the summer, we are going to have our own little funny paper.

Let me know what you think. If you like it, we might keep going with it. if you don't, just flip on to the next page. We'll understand.

By the way, thanks for reading the Devil's River News. We appreciate you very much and are proud to serve Sonora and Sutton County.

Until the next time,

May God Bless

May God Bless You, Victoria.

## Livestock Tax Meeting Scheduled

submitted by Ruth Espy

Whether Texas cattle producers will be saddled with a tax on their livestock will be the subject of a Public meeting scheduled for June 22 in Austin by the Texas Animal Health Commission (TAHC).

The new levy is being promoted by some members of the Legislature as a way to underwrite the commission's activities. But ICA leaders, who are working to mitigate the taxes impact on cow-calf producers if not kill the proposal outright, note it would unfairly burden the state's cattle industry.

While TAHC members are on record as "philosophically opposing the concept of user fees to offset the costs of administering animal health activities," commission officials say they are following the direction of the Legislature.

"The message is clear from numerous members of the appropriating bodies that the atmosphere in the upcoming legislative session will not be conducive to accepting reasons, sound or otherwise, for not offering positive options for alternate sources of funding," said Donald Berend, chairman of the commission's Finance Sub-committee.

Charles Carter, ICA legislative director, said a livestock tax would unjustly saddle cow-calf operators with more taxes to pay for state services that benefit all Texans.

"It's clear that certain members of our States'

government are seriously considering taxing livestock as a means of increasing revenue," Carter said. "Pressure is being applied on TAHC members to develop a way of collecting this tax and forwarding the revenue to the State."

Said ICA President Wayne Dierlam: "This livestock tax is being pushed down the throats of Texas producers, yet members of the TAHC are asking us to 'keep the tone' of this June 22 meeting 'positive' and concentrate on productive dialogue that will guide us towards feasible alternatives that are acceptable."

"Certainly, we will continue to offer positive input -- it's in our best interest to do so. But we cannot and will not stand aside quietly as some legislators in Austin try to burden cow-calf operators and the cattle industry with another tax," Dierlam said.

"I don't know exactly what 'feasible alternatives that are acceptable' might be, but it doesn't sound good for Texas' cattle producers," Dierlam said. "Ranchers are burdened with enough taxes and regulations as it is. Developing an animal health tax is just going to create another layer of state bureaucracy pitting cattle producers against government."

ICA encourages all of its members who are opposed to a livestock tax to immediately voice their opposition by writing to Dr. Charles Sherron, Chairman, Texas

Animal Health Commission, 2105 Kramer Lane, Austin, Texas 78711.

Copies of your letters also should be sent to the State ICA office at 704 E. Wonsley #202, Austin, Texas 78753. ICA will forward copies to Governor Ann Richards and every State Representative and State Senator.

The TAHC's June 22 meeting is scheduled to begin at 1 p.m. and will be held at the commission's offices at 2105 Kramer Lane in north Austin.

"ICA needs to be well represented at the TAHC's June 22 public meeting," Dierlam said. "If you can't attend personally, please send our State ICA office a letter voicing your opposition, and we will see it gets to the right people."

"The time to act is now," he said. "We don't need to waste time or money developing a tax plan creating more government agencies just to tax livestock."

In March 1993, state lawmakers directed the Animal Health Commission to prepare recommendations on how the state can assess user fees" on a broad base of animal species, including cattle, poultry and exotic livestock.

The study must recommend a fee-based recovery system to generate the \$8 million spent annually by the state on animal health services such as the brucellosis testing program -- a federally mandated health services such as the brucellosis testing program -- a federally mandated effort aimed at reducing a public health threat. The recommendations must be presented to the Legislature by mid-January 1995.

Most of the commission's budget currently comes from the state's general revenue fund, with all Texans sharing in the cost to help ensure healthy, wholesome food products for consumers, said Carter, who also noted that less than 3 percent of Texas cattle are vaccinated with state funds.

ICA teamed with other agricultural industry groups in March to defeat a legislative proposal to collect "user fees" to underwrite the brucellosis program in Texas. However, state Sen. Carlos Truan of Corpus Christi was successful in re-introducing this proposal and expanding it to include all Animal Health Commission services.

(A copy of the letter notifying ICA of the June 22 hearing is below.)

To: Interested Livestock Industry Associations

From: Donald Berend, Finance Sub-Committee Chairman, TAHC

Subject: ANIMAL HEALTH COST RECOVERY STUDY.

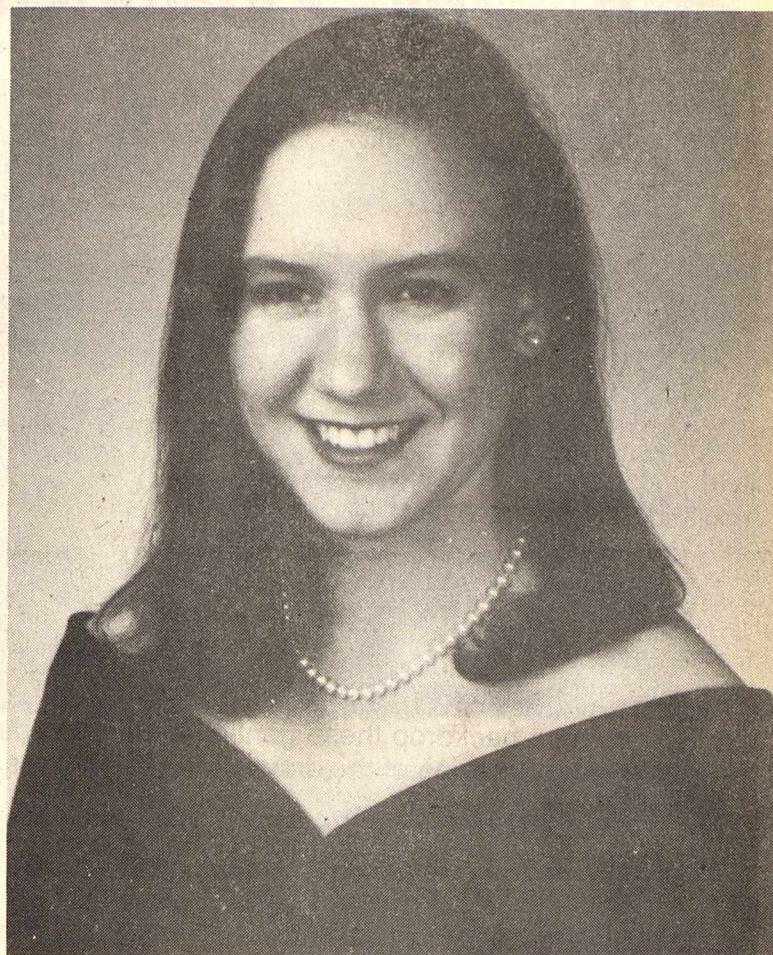

The Animal Health Commission shall study and develop a fee-based cost recovery system which will provide sufficient revenue to offset the state's cost of administering animal health and disease-related prevention, surveillance, diagnosis, control and eradication programs. The study findings, along with a proposed schedule of reasonable and equitable fees that could be assessed livestock producers on an industry-wide basis, shall be submitted to the seventy-fourth Legislature no later than January 10, 1995. (Rider no. 4-Agency appropriation bill-73rd Legislature)

This letter is to invite your association to be represented at an open meeting of the Finance Subcommittee on June 22, 1994 at 1:00 p.m. in the Commission meeting room at 2105 Kramer Lane in Austin, Texas. The agenda for the meeting will be solely to take input from the affected parties on the matter of user fees and how the legislative mandate can be accomplished, and at the same time be fair and equitable. I would like to keep the tone of this meeting positive and concentrate on productive dialogue that will guide us towards feasible alternatives that are acceptable. I submit that your opposition can be much more effective if voiced to your legislators and at hearings on appropriation.

This commission is on record as philosophically opposing the concept of user fees to offset the costs of administering animal health activities. However, the message is clear from numerous members of the appropriating bodies that the atmosphere in the upcoming legislative session will not be conducive to accepting reasons, sound or otherwise, for not offering positive options for alternate sources of funding. Many of you heard commentary on this at the public hearing for the agency as a part of the Sunset Review process.

The staff has a survey, near completion, of all the other states as to what types of fees, if any, they have in place, the total budget figures, and the percent of the budget that is generated, along with additional specific detail. A copy of the report will be forwarded to each of you in early May.

# Ask The Historical Society

With Sonora as a backdrop these gentlemen test the depths of the Dry Devil's River at the Main Street Crossing of the draw after a few inches of rain fell.

by Jo-Ann E. Palmer, Secretary, Sutton County Historical Society

## Q. How did the Devil's River get its name?

A. According to an article published in the FRONTIER TIMES MAGAZINE in February 1938, the Devil's River was given its present name in August of 1848. On August 1, 1848 the San Antonio Expedition of 1848, under command of Captain Jack Hays, with John Connor and one Lorenzo to act as guides and interpreters, along with a company of Rangers from the Llano and citizens from San Antonio, left their camp on the Llano.

They traveled up the South Llano to its headwaters and then crossed to the headwaters of the Devil's River then known as the San Pedro. Due to excessive rains it required three long days to cross this river, and the party changed its name from San Pedro and christened it the Devil's River.

## Q. Has the Devil's River ever flooded the town of Sonora?

A. There was a story told years ago, by men who had scouted this area before it was ever settled, that the draws had flooded so bad one time that they were up to Water Street and running together in front of where the steps onto the courthouse lawn now stand. Several different people told this story but we have been unable to verify to date.

In 1930 12.80 inches of rain fell in October. In 1932 8.92 inches of rain fell in August and 13.83 inches fell in September. In 1935 14.05 inches of rain fell in September and in 1938 12.87 inches of rain fell in July.

In 1972 we had 13.02 inches of rain in August, and in

1974 we had 11.77 inches in August. In July of 1976 10.95 inches of rain fell in July. In 1990 we had 9.20 inches of rain in July, 6.05 inches in September and a total rainfall of 30.21 inches. Last year we only had 16.57 inches of rainfall but this was a lot compared to the annual figures for 1951 and 1952 of 6.13 and 6.91 inches.

People who lived here in the 1930's remember the water being up into Concho Avenue. Some remember people being taken out of their homes on horse back because the water was over their knees. There was over a foot of water in the Ford building and water was coming in the back door of the MacDonald Hotel. The bridges were underwater.

In the 1990's, even with our modern dams and water control systems, the draws were running out of control. Route 277, from Crockett south looked more like a river than a highway. The bridges

had to be closed because water was up over the highway on them. Food Center had water up to their front door and many homes in the lower sections of town were flooded. Run off from the hills was abundant and the already rain swollen draws just could not handle it. Some people had to be taken out of their homes in boats which floated up and down "River 277" and several other streets turned into rivers in town. Just imagine what the damage would have been without the dams.

After being here during that "little flood" I can understand fully why the San Antonio Expedition changed the name from placid San Pedro to the Devil's River.

A special thank you to the Sonora Research Station for the information on rainfall.

# EMSing Around

by Barbara Stroud

Our monthly training meeting was held on May 16, with EMT Lenora Pool conducting the class. A film on the Anatomy and Physiology of the body was shown and discussed.

A test was given at the end of the meeting and class was dismissed. Those able to make the meeting received 2 hours of continued education credits.

Our EMT for the month of May is George Keese. He has been a member of the EMS Organization for over 13 years. It takes a dedicated EMT such as George to be able to work a full time job and still be able to volunteer a lot of his time for the community by serving on the EMS. George was voted EMT of the Year in 1986, receiving the Gene West Memorial Award. He has served the organization holding the following offices of Vice President 1984-85, President 1985-86, and Training Officer 1990-91. George is a CPR Instructor for the American Heart Association, an Instructor and Skills Examiner for the Texas Department of Health. George is married to Donna Keese, office tech in the Sutton Co. EMS, and has 2 children. The Sutton County EMS is glad to have George as a member of its team.

Runs for the month of April were as follows: Illnesses - 13; Injuries - 12; Total Runs - 25.

## DID YOU KNOW:

Heat exhaustion results from a serious disturbance of the blood flow. It is shock brought on by the pooling of blood in the vessels just below the skin causing blood to flow away from the body's major organs. Due to prolonged sweating the body loses large quantities of salt and water. Heat exhaustion can occur among the elderly people and can also occur in a fit person who is involved in extreme physical exertion in a hot and humid environment. The most critical problem in heat exhaustion is dehydration, (not getting enough liquid to the

body). If someone you know experiences heat exhaustion, move them to a cool place, make sure they do not get chilled, apply cold wet compresses to their skin, fan them lightly. Administer 1/2 glass of cool water every 15 minutes, for one hour. Have the person lie down and raise his feet 10-12 inches above their head to increase blood circulation to the brain. If the person starts to vomit, stop giving fluids and get them to the hospital.

Sutton County Emergency Medical Service sponsored four American Heart Association Cardio-Pulmonary Resuscitation (CPR) classes on the following dates: April 28, 1994; May 3, 1994, May 12, 1994, & May 19, 1994.

Two of the classes were Course C which consists of adult one-rescuer & two-rescuer CPR, child one-rescuer & two-rescuer CPR, infant CPR, & foreign body airway obstruction management for all three. The other two classes were Course A which consists of adult one-rescuer CPR and foreign body airway

obstruction management.

The instructors for these classes were: Lenora, Pool, EMT; Pat Campbell, EMT; Ramiro Perez, Treva, McReynolds, EMT; George Keese, EMT; Carla, Gamer, EMT and Donna Keese, EMT.

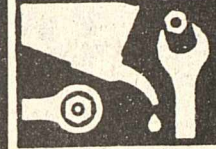

Upon successful completion of a written test and a skills evaluation each participant will be certified for a period of two years with the American Heart Association.

The classes were a great success the individuals taking the classes were: Russell Dempsey, Chris Green, Drew Dempsey, Quirina Perez, Leandra Perez, Brandi Bible, Mark Cooper, Susie Ramirez, Vicky Richardson, Candie Sessom, Kelly Blakeway, Junior Odom, Monica Gonzalez, Melissa Teaff, Dana Evans, Kathleen McManus, Jana Sterling from Eldorado, and from Ozona, Sara Hignight, Julio Martinez, Yvonne Madris, Glenna Ross, Eddie DeLuna and Jason Hignight.

## Cattleman's Association Holds Special Meeting

by Ruth Espy

The Independent Cattleman's Association of Texas, held a special meeting on Wednesday evening at 6:30 p.m. at the Sutton County Steakhouse, on May 18, 1994. Guest speaker was Charles Carter, Legislative Director of the Association.

Present were: Susan Brown, Administrative Director of the Association; Mrs. J.P. Rieck of Roosevelt, TX; M.D. Shurley; Larry Finklea; Mr. and Mrs. George Wallace; Mr. and Mrs. Johnston Holekamp; Mr. and Mrs. Troy Williams of Ozona, Texas; Mrs. Ruth T. Shurley; Mrs. "Rosie" Jones; Bill

Whitehead; Lesa and Arett Wireman and Mrs. Ruth T. Espy.

Johnston Holekamp, Chairman of the Sutton County I.C.A. Chapter - suggested that Crockett, Kimble, Schleicher and Sutton Counties join together and form one chapter. The name of the chapter will be decided at a later date. It was also suggested that the meetings rotate from County to County throughout the year.

If your county would like

to host one of these meetings, please contact the State I.C.A. office at (512) 836-1321.

Carter discussed the following issues to those presents - Clinton's Health Care Program, Private Property Rights, Users Fees and the Clean Water Act.

Carter also discussed the I.C.A. Legislative Seminar which was held in Washington, D.C. in April. A delegation of I.C.A. Board members and members attended the four day

seminar - which included personal visits to their congressmen.

Questions were asked in regard to the issues discussed. These various issues could impact our operations in Agriculture - and Carter said it was to our advantage to closely watch their progress.

This was a most informative meeting, and enjoyed by all present.

The next meeting will be announced at a later date.

## Jordan's Market Report May 19, and 23, 1994

Receipts totaled 944 head. Buyers attendance was fairly good with demand being rather poor. The downward trend in the fat and future markets is certainly being reflected in the feeder and stocker trade. The real choice light weight calves are starting to carry a little more flesh being new crop time and are showing fair demand in a steady to \$4 lower market. The choice medium and heavy weight steer calves are selling fairly active at a \$2.50 lower figure. Big feeder steer yearlings sold steady to \$2 lower. Light weight heifer calves are selling rther poorly going \$15 to \$20 lower than their steer mates. The medium and heavy weight heifer calves are selling uneven going from steady to \$4 lower. Feeder heifer yearlings sold \$2 to \$5 lower. Packer cows and bulls sold \$3 to \$4 lower. Stocker cows and pairs sold steady to \$75 lower.

## I LOVE MY POOL PAL!

**ONE PIECE...**  
MY POOL PAL is the most advanced swimsuit with Underwriters Laboratories component recognized foam (for use in Personal Flotation Devices) built right in.

**UPRIGHT...**  
MY POOL PAL is designed so that children float feet down with their heads in an upright position. Kids gain confidence in the water, therefore allowing for the development of muscles required for more advanced levels of swimming.

**COMFORT...**  
In contrast to other style suits, floats, belts, and vests, the design of MY POOL PAL lets kids play unrestricted in the water, and floats cannot be removed. MY POOL PAL gives children confidence in the water, therefore they are comfortable enough to learn to swim.

**SWIMMING...**  
While wearing MY POOL PAL kids actually learn to swim. They do not become dependent on their POOL PAL. Whether or not the children know how to swim, this extra protection gives parents greater peace of mind, and kids love it.

## Nitsch Named All-American Scholar

The United States Achievement Academy announced today that Shauna Nitsch has been named an All-American Scholar.

The USAA has established the All-American Scholar Award Program in order to offer deserved recognition to superior students who excel in the academic disciplines. The All-American Scholars must earn a 3.3 or better grade point average. Only Scholars selected by a school instructor, counselor or other qualified sponsor are accepted. These scholars are also eligible for other awards given by the USAA.

Shauna Nitsch who

attends Sonora High School, was nominated for this National Award and will appear in the all-American Scholar Directory, which is published nationally.

"Recognizing and supporting our youth is more important than ever before in American history, certainly, winners of the All-American Scholar awards should be congratulated and appreciated for their dedication to excellence and achievement," said Dr. George Stevens, Executive Director of the United States Achievement Academy.

The academy selects All-American Scholars upon the

exclusive recommendations of teachers, coaches, counselors and other qualified sponsors. Once awarded, the students may be recognized by the USAA for other honors.

Shauna Nitsch is the daughter of Kenny & Kendra Nitsch. The grandparents are Dewitt & Frances Bryan and Lucy Nitsch, all of Winters, Tx.

<b>NORTH</b>	♠ A J 9 7 3	♥ K Q 4	♦ A 5	♣ A Q 2
<b>WEST</b>	♠ 4	♥ 10 9 8 5	♦ Q 8 7 2	♣ 10 7 4 3
<b>EAST</b>	♠ K 10 8 6	♥ 7 6 3 2	♦ 9 6 4	♣ 8 5
<b>SOUTH</b>	♠ Q 5 2	♥ A J	♦ K J 10 3	♣ K J 9 6

The bidding:  
North East South West  
1♠ Pass 2NT Pass  
6NT  
Opening lead — ten of hearts.

Assume you're in six notrump and West leads a heart. There seems to be very little to the play, so you win the heart with the ace and lead a low spade to the jack.

East takes the king and returns a heart to the queen. When you next play a low spade to the queen, West shows out and you discover that the hand is not as simple as you thought.

You have 11 sure tricks and your best chance for a 12th is to guess the two-way diamond finesse. If you're a good guesser, you make the slam

but you shouldn't really find yourself in this pickle. With correct play at the start, you can guarantee the slam against any and all distributions.

The correct approach is to lead a low spade to the ace at trick two, deliberately shunning the finesse. You then return a low spade from dummy and, regardless of how the spades are divided, you have 12 sure tricks.

Let's examine the actual case first. East can't afford to rise with the king, since that would hand you four spade tricks and the slam, so you win the spade with the queen.

Even though West shows out, you are still in fine shape. All you have to do to insure the slam is to lead a low jack on the way back. Win or lose, you have 12 ironclad tricks.

Had West held the K-10-x-x of spades, your task would have been even simpler. East would show out on the second spade lead and you would easily score four spade tricks regardless of how West defended. The question of a diamond finesse would never arise in this case. You would have tricks to burn.

Sonora Junior High School faculty and all the students who participated would like to thank these businesses and individuals for their dedication and support for the Accelerated Reader Program.

## City Recognized For Summer Youth Program

The City of Sonora was the recipient of the Summer Youth Program Award of Excellence for 1993 in ceremonies in San Angelo last Friday. The award was presented by the Concho Valley Private Industry Council and the Concho Valley Council of Governments, sponsors of the program, in recognition of Sonora's efforts to provide young people with meaningful skill training and work experience.

The program places qualifying youths in temporary jobs with public agencies to gain work experience and earn wages to help them return to school. In Sonora, 1993 summer youth workers were employed at the Senior

Citizens' Center and the Public Works Department. One of the participants, Gabriela Gallegos, received the Mayor's Award of Excellence for her work at the Senior Center.

Assistant City Secretary Patti Prather and Senior Center Director Carole Thorp received the award on behalf of the city.

"We are proud to do our part in the Summer Youth Program," said Mayor Lermuel Lopez. "Although we are appreciative and proud of this award, the city's main goal is to provide some of our young people with meaningful work experience."

Sonora will again participate in the Summer Youth Program during the Summer of 1994.

### Public Notice

On March 23, 1994, GTE and Contel ("The Companies") filed applications with the Public Utility Commission of Texas ("PUC") to restructure the Companies' Switched Transport rate category and reduce the Carrier Common Line (CCL) charge of its Switched Access Service. The tariff sheets in GTE and Contel's applications, if approved, will bring the Companies' state access tariffs into structural parity with their interstate tariffs for the Local Transport rate category, which became effective on December 30, 1993.

GTE and Contel propose to implement the new tariffs on a revenue neutral basis. The Local Transport category of GTE and Contel's Switched Access Service is primarily for interexchange carriers.

Persons who wish to intervene should file a motion for intervention with the PUC by June 17, 1994 with reference to Docket No. 12866 (GTE) and/or 12865 (Contel). Requests for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757, or call the Public Utility Commission Public Information Office at (512) 458-0223 or (512) 458-0227 or (512) 458-0221 teletypewriter for the deaf.
