Second Cold Wave In Week Hits Here

Continuance of Reciprocal Trade Treaty Urged By FDR

AID TO ECONOMIC RECOVERY, TELLS CONGRESS TODAY

Supports Hull For Extension Of Measure

ACTION IS URGED

House Appealed To For Immediate Labor

WASHINGTON, Jan. 21 (P)—President Roosevelt urged congress today to continue administration of the reciprocal trade treaty program as a means of promoting "durable peace" and "balanced economic recovery," saying discriminations had been removed, and that it guarantees equal treatment in the future under it.

He appealed to the house ways and means committee before which Secretary of State Hull asked for a measure extending the policy for three years.

"The president said the nation's 'vigorous initiative in liberalization of commercial policies is an important factor in arresting the world trend toward national economic isolation.'"

Hull said that the United States had benefited by reduced duties on important agricultural and industrial products and in return this country had reduced exorbitant tariffs.

Queen in a Push-button Blizzard

What the country needs is more of this—man-made weather, a blizzard you can turn off when the snow gets too deep. When Frances Gilmore was chosen to reign over the annual Snow Sports Carnival on Mile High Mountain, her coronation was held in a Los Angeles park. The above picture shows the made-to-order blizzard raging against a background of palms. The queen's court wore varied costumes, from bathing suits to ski outfits.

SAVINGS. LOAN BODY RE-ELECTS ITS DIRECTORATE

Officers Continued For 1937 by The Stockholders

FINANCES SOUND

\$131,196.11 Loaned Financing Nearly 80 Homes

All officers and directors of the Midland Federal Savings & Loan association were re-elected at the annual stockholders meeting Tuesday afternoon, held in the county commissioners' court room.

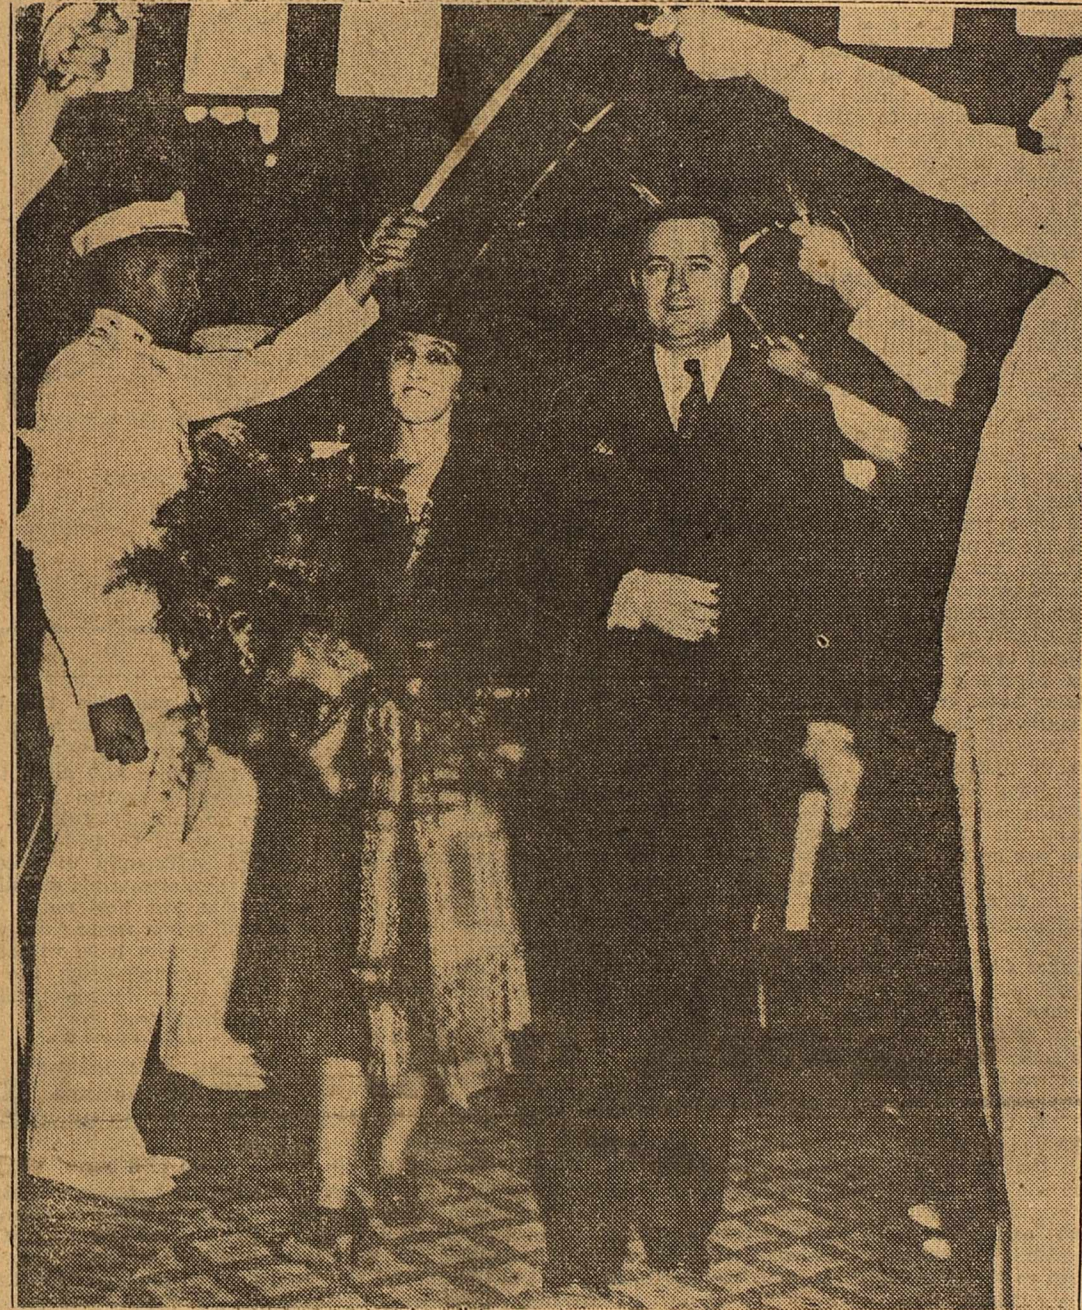

J. R. Martin is president, T. R. Wilson is vice president and W. J. Sparks is secretary-treasurer. Directors include Martin, Wilson, D. H. Roetger, John P. Butler, L. E. Daniel, Addison Wadley and Sparks.

In its two years of existence, the association has loaned \$131,196.11, the financial report showed. Approximately eighty homes have been financed by the organization, a number of applications being now pending.

In addition to the association's own funds, it has qualified to make Federal Housing Administration funds, making it possible to finance practically an unlimited amount of building construction here.

Stockholders expressed great satisfaction at the healthy financial condition of the association, as well as for making possible the construction of so many badly needed homes to aid the city's growth.

As Governor Allred Prepared to Take Oath

Underneath a canopy of sabers, held by members of the crack Ross Volunteer, Texas A. & M. college organization, smiling Gov. and Mrs. James H. Allred marched Tuesday into the house of representatives where the youthful Texas governor took the oath of office as chief executive of the Lone Star state for his second two-year term.

MERCURY FALLS TO 23 DEGREES AT 1 THIS AFTERNOON

Steady Decline For 21 Hours in City Is Recorded

NO RELIEF SEEN

'Colder' Is Forecast Of The Weather Bureau

For the second time in a week a cold wave out of the north hit Midland today, temperatures showing a decline of 38 degrees in 2 hours. The maximum figure recorded Wednesday was 6 but the mercury dropped steadily from that time until 1 o'clock today when it registered 23.

A strong wind last night gave warning of what was to follow but the mercury did not drop to freezing until 3 o'clock this morning when it finally fell to 32 degrees. A steady decline from that period had reached 24 at noon.

A slow mist that froze as it fell added to the misery of the weather. Car windshields and other exposed glass surfaces froze over, making sight difficult.

To the north, Panhandle cities shivered under rapidly dropping temperatures that threatened to reach zero during the night. Lubbock reported 13 degrees at noon with the mercury still falling. From Plainview north a heavy snow was reported to be falling.

No relief for this area is foreseen before Saturday the forecast being rain, possibly snow, tonight and colder weather Friday.

Only one traffic accident had been reported despite the unfavorable driving conditions. Three persons luckily escaped injury this morning when a car driven by R. C. Sulp of Chicago and one bearing a couple of Mexicans ran together in the east part of town. Both cars were badly damaged but none of the occupants of either were injured.

By Associated Press
A cold wave, slowly moving southward, brought snow and near-zero weather to the Panhandle today.

Moderate temperatures prevailed in the south and east, but they are expected to begin falling soon.

SIT-DOWN GROUP 'CHIEF BARRIER' FOR SETTLEMENT

Secretary Perkins Wants Parties Together

WASHINGTON, Jan. 21 (P)—Secretary Perkins said today that occupation of the Fisher Body plants at Flint, Michigan, by sit-down strikers was the "principal barrier" to negotiations over the nation wide automotive walkout.

The secretary is attempting to bring General Motors and union officials together.

Secretary Perkins, after a conference Wednesday with General Motors officials, said "we have hopes that negotiations may be resumed between the corporation and the striking United Automobile Workers."

Miss Perkins had just talked with Alfred P. Sloan Jr., General Motors president; William Knudsen, executive vice president, and Donaldson Brown.

With her were Gov. Frank Murphy of Michigan and James F. Dewey, department conciliator. They also were present Tuesday at a nine-hour conference with John L. Lewis, chairman of the Committee for Industrial Organization. Lewis is directing the auto workers' strike to enforce a demand that the union be recognized as spokesman for all General Motors employees.

Rotarians Are Introduced To Newest Member

Members of the club were introduced to the newest Rotarian today after the new member Marion Flynn, had been presented to the club. Names, nicknames, club offices, habits and characteristics were given about each member as he stood to be introduced. The program was the third of a series honoring past presidents of the organization. He filled the 1930-31 term.

A skit then was staged, as a take-off on club assemblies. The five members of the cast had not been previously notified, but were selected by the audience, reading their parts from script.

FIRE AT FIREMAN'S EXPENSE

WHEELING, W. Va. (U.P.)—Six fire trucks dashed madly to a fire in the home of Fireman Philip Shaughnessy. It cost \$22 to dispatch the trucks. Damage from the blaze was \$2.

AUDITOR HIGH IN PRAISE OF COUNTY RECORD KEEPING

Condition of Books 'Unimprovable,' He Says

Announcement comes from John Patrick Kinney, C. P. A., who has been conducting Midland county audits since 1925, that the county audit for the year ending December 31, 1936, has just been completed and that he has to report that the general efficiency of all county officials would be hard to improve upon.

This includes especially the economic administration of the Commissioners' Court. Kinney states that during his 20 years of auditing experience in more than 60 Texas counties, that Midland county ranks first in efficiency and economy.

Kinney also states that the records of the retiring treasurer, Mrs. Mary L. Quinn, were checked in detail, that all funds, large or small, which came into her hands have been accounted for. He commends Mrs. Quinn on the thoroughness and proficiency of her work.

The accountants assisting Kinney were: W. J. Willingham, who audited the treasurer's office; R. W. Pichtner, who assisted in auditing the records of the tax assessor-collector; J. B. Brooks, who assisted in checking all dockets for the fee reports; John Edward Doyle, who audited the county clerk's office.

Kinney is of the opinion that citizens of a county should be like stockholders in a large corporation, in that when a corporation has good employees, they should be retained, and that when a county has satisfactory office holders they should be retained for their capability and honesty, he said.

SCHOOL PRINCIPAL SUICIDE VICTIM

W. S. Bellamy Takes Own Life in Home At Dallas Today

DALLAS, Jan. 21. (P)—W. S. Bellamy, Dallas grade school principal, and one of the state's best known educators, was found shot to death today at his Irving home.

A justice of the peace rendered a verdict of suicide.

TOLEDO EMPLOYMENT HIGH

TOLEDO, O. (U.P.)—Employment has reached the highest point here since 1931 with a total of 85,000 workers. This is exclusive of 10,000 employed on WPA projects.

TICKET SALES TO START TOMORROW TO BIRTHDAY BALL

Affair Will be Held On the Night Of January 29

With ticket sales scheduled to start tomorrow to the annual ball honoring the birthday of President Roosevelt, co-chairmen Mrs. Barron Kidd and Miss Ida Beth Cowden today were optimistic over chances of having a record crowd at the affair.

Due to the fact that the Minnet Club had contracted for the use of ballroom and for an orchestra on the night of Jan. 30, their regular dance night, and their inability to withdraw from the contract, sponsors of the birthday ball have changed the date for it to the night of Jan. 29—the eve of the President's birthday.

Sale of advertising in support of the affair has already netted approximately \$100 and more is expected to be made before the final day.

The committee in charge of the affair last year cleared approximately \$225, 70% of which remained in the county for treatment of afflicted children. The other 30% was forwarded to the Warm Springs, Georgia, foundation for their treatment of infantile-paralysis fund.

The co-chairmen this year are determined to make an even better showing and are asking support of the public in their work.

County health officials annually praise the affair as one of the most worthy to be held and urge cooperation of all. Much useful and beneficial work has been completed each year in the county that otherwise would not have been done without the money taken in at the dance, one of the members reported.

PRISON DIRECTOR FOR THE US QUITS

Sanford Bates Resigns Position to Take Up Another

WASHINGTON, Jan. 21. (P)—Attorney General Cummings announced today the resignation of Sanford Bates, director of the federal bureau of prisons.

Bates, internationally known criminologist, becomes executive director of boys clubs of America.

HERE FROM ABILENE

J. W. Bateman of Abilene was here today. Mrs. Bateman was returned home with him after a visit with her mother, Mrs. I. C. Heald.

Father Coughlin's Supervisor Dead

DETROIT, Jan. 21. (P)—The most Rev. Michael J. Gallagher, 70-year-old bishop of the Roman Catholic Diocese of Detroit, died unexpectedly in a hospital here last night a few hours after he had fallen into a coma.

The bishop, a native of Michigan, was the immediate superior to Fr. Charles E. Coughlin, of Royal Oaks, the founder of the national union for social justice.

"I have lost the best friend outside of my family," was the priest's comment after learning of his superior's death.

NEW VIOLENCE ON MALAGA, MADRID WAR FRONT TODAY

Efforts Among The Neutral Powers At Stalemate

By Associated Press
New violence broke on the Madrid and Malaga fronts in the Spanish civil war today.

Neutrality efforts showed no progress although Italy and Germany will inform Great Britain foreign aid and propaganda must be eliminated from Spain.

The League of Nations council met to discuss protests against Italy-German violation of the Spanish sovereignty. The council is expected to appoint a committee to explore the whole problem of raw materials to all nations, league circles said. The United States and Japan were said to be favorable to the idea.

The projected conference would include nonleague members. Germany, however, even then might refuse to attend such a discussion if it were held at Geneva, league observers believed, despite its frequent insistence it must have more raw materials to speed economic rehabilitation. Germany has looked with cool eye toward any league proposal since it withdrew from membership in 1933 in a dispute over rearmament.

Poland was said to be a strong advocate of a raw materials survey, because it also wants raw materials and colonies.

Valley View School Will Present Play

The Valley View School is putting on a play, "Here Comes Charlie," which will start at 7:45 o'clock January 22, 1937. There will be a musical program from seven o'clock until 7:45. The play will be free to all.

New Delaware Pool Opener Flowing 15 Barrels Hourly

BY FRANK GARDNER

Mason Production Company No. 2 Mrs. Minnie Kyle, wildcat discovery in Loving county, today appeared definitely to have opened the second pool in West Texas producing from the Delaware when it flowed 259 barrels of high gravity oil in 17-hours after nitro shot. The well's rate of yield was holding up well, with production of 15 barrels gaged the last hour. The gauge was still in progress at press time, with the 24-hour period ending this afternoon. Gas volume is estimated at 500,000 cubic feet.

The No. 2 Kyle discovery was shot yesterday afternoon with 120 quarts from 3,653 to 3,688, cleaning itself after the explosion and being allowed to flow into pits for 15 minutes before turning oil into tank. Prior to shooting, it had made an oil head of 54 barrels in 52 minutes, and when shot was run, there was 3,600 feet of oil in the hole. The oil flow is through 5 3/16-inch casing set at 2,910, with the hole uncased for 1,001 feet.

First indication of the importance of the Mason well came late last week when it struck oil and gas in the Delaware sand and began filling up with elevation at 3,653, it topped Delaware black lime at 3,659, drilling 36 feet of that formation and finding it barren. It entered the Delaware sand at 3,895, logged the first oil showing at 3,901 and began filling with oil while drilling from 3,906 to 3,911, the total depth. In shooting the well, operators concentrated the charge above the sand horizon, following the practice of operators in the Wheat pool, hither-to the only pool producing from the Delaware. Pay in the Wheat pool wells is found chiefly at the contact of the black lime and sand.

While the significance of the Mason discovery will not be entirely evident until its production has been gauged over a longer period and until more wells are drilled in the vicinity, it is undoubtedly the forerunner of intensive exploration in the Delaware Basin region. It is located on the Kyle ranch twenty miles northwest of the Wheat pool at Mentone and is 2,310 feet from the north and east lines of section See (OIL NEWS) Page 6

FIVE RAILROAD BROTHERHOODS ASK WAGE RAISE

20 Percent Increase To Be Demanded By Group

CHICAGO, Jan. 21. (P)—A joint committee of five railroad brotherhoods announced Wednesday it had decided to ask for a 20 per cent wage increase applicable to all of the unions. The decision ended a week-long deadlock over how to request for an increase would be presented.

David B. Robertson, president of the Brotherhood of Locomotive Firemen and Enginemen, said the proposed increase would mean \$116,500,000 annually for some 300,000 members of the five unions.

The decision was made at a brief session of the joint committee, which acted on the recommendations made by five separate committees composing it.

A spokesman said no date was set for presenting the wage increase demand.

Spokesmen said the pay hike demand would involve only the "big five" brotherhoods represented at the conference by more than 300 union presidents and chairmen. There are 16 other unions among railroad workers, they said.

Decision on the conference left it up to the executives of each union to send out instructions to the various units, they said, so they can present the requests according to individual contracts.

DOE HAS 5-POINT ANTLERS

DILLON, Mont. (U.P.)—Local residents have no doubts left relative to the possibilities of dual sex. Sheriff Paul Temple brought in a doe deer wearing a full set of male five point antlers.

Texas Finally Has Native Son as The Chief Executive--But Only for 3 Minutes

WASHINGTON, Jan. 21. (P)—Senator Robinson intoned the oath: Redfaced and shivering, John Nance Garner of Irvale, Texas, may have been president of the United States for three rainy minutes today.

Some sticklers for technical details argued that when he was sworn in for his second term as vice president he actually became the chief executive.

According to their thesis, the president's term expired at 12 o'clock noon and Cordell Hull, secretary of state, became the chief executive.

Garner was sworn in at 12:26 p. m., and automatically became president in fact, if not in name, until Mr. Roosevelt intoned his oath at 12:29 p. m.

Anyway, it was a busy day for the Texan. It began this morning when he preceded the president to services at St. John's Episcopal Church.

With Mrs. Garner and his granddaughter, Miss Genevieve Garner, he sat in a front pew in the historic "Church of the Presidents" just across the red-carpeted aisle from the president.

Afterward he hurried down the steps, rain-drops beating against his silk topper, and declined to pose for photographers.

"Cactus Jack" next appeared at the Capitol, braving gusts of rain to sit with Mrs. Garner and his son Tully in a front row.

'Chief' 180 Seconds

When the moment came for him to take what he told friends would be his last oath of office, he stepped forward bare-headed with Senator Robinson, the democratic senate leader.

While heavy rain beat on his heavy black overcoat, the vice president stood gazing into space while

BEHIND THE SCENES IN WASHINGTON

By **RODNEY DUTCHER**
Reporter-Telegram Washington Correspondent

WASHINGTON, Jan. 21. — General Motors strike developments show clearly what the Lewis group and other labor leaders were aiming for when they threw their full weight into the last election. Tactics of Gov. Frank Murphy of Michigan, the general belief among observers that Roosevelt will eventually have to step in to achieve a settlement, the great care taken by General Motors to maintain pleasant public relations, and the breezy confidence of members of the Committee for Industrial Organization may all be taken into account in determining whether this is the same country it used to be insofar as concerns dealings among government, industry, and labor.

John L. Lewis announced that he was authorized by representatives of Murphy to say that troops would not be used to evict strikers, with an implication that the troops would keep anyone else from chasing them out. Murphy then won a 15-day truce for negotiations. The union would take its sitdowners out of G. M. plants and G. M. would promise not to try to produce automobiles in the plants or to move equipment away.

This was a remarkable concession from such a corporation. Everyone who knows labor history realizes what an innovation it was compared to the old-fashioned practice of arresting and beating strikers, using local cops, hired thugs, and militia if necessary.

The point of all this, as seen by many insiders, is that Murphy is a young and ambitious politician who is by no means through running for office in Michigan, that he was on the spot, and practically had to go down the line for labor if he expected to be elected to anything again.

Labor Obligates Governors
Murphy is also a pleasant gentleman of no small talent, a liberal, and presumably fair-minded and friendly to labor, anyway. Possibly he would have acted in the same way regardless of his future hopes.

But the realistic warriors for industrial unionism are not coming on that. They feel Murphy knows he couldn't have been elected last November without heavy labor support and that, what's far more important, he can't be re-elected or sent to the U. S. Senate without labor support.

The union leaders went into politics last year through Labor's Non-

sens to crush the strike by giving organized labor less than an even break is a factor both historic and important.

Big Concession to Union
A writ was issued in Flint on the basis of which authorities were planning to eject sitdown strikers with gas — and clubs and guns if need be. At the first outbreak of violence Murphy ordered in state troops, with assurance that there would be "no riots and no trouble."

All this comes far from adding up to a sweeping C. I. O. victory. Confidence of Lewis and other labor leaders is based on the fact that strikers have succeeded in tying up General Motors production. But few in Washington believe that General Motors and the du Pont-Wall Street interests behind it will

consent to recognize the United Automobile Workers as an exclusive collective bargaining agency.

The issue may boil down to just how much concession John Lewis figures he must get from G. M. to increase C. I. O. prestige among workers sufficiently to accelerate rather than stymie his organization drive, and just how much G. M. and Wall Street figure they can afford to let him have without appreciably strengthening the C. I. O. This tends to make all predictions hazardous.

Drinking Bostonians Want 2-ounce Glasses
BOSTON, Jan. 20 (AP)—Bostonians want a full two-ounce drink when they step up to a bar.

Because of complaints that 1 1/2 or 1 3/4 ounce "jiggers" were meted out though full price of a two-ounce drink was paid, Rep. T. J. Murphy has filed a bill in the legislature to require all glasses in which liquor is served to be marked on the outside as to their capacity.

Canny Bargaining Ahead
All this comes far from adding up to a sweeping C. I. O. victory. Confidence of Lewis and other labor leaders is based on the fact that strikers have succeeded in tying up General Motors production. But few in Washington believe that General Motors and the du Pont-Wall Street interests behind it will

Every Rose Has Its Thorn Or Something

The Town Quack

(Reserves the right to "quack" about everything without taking a stand on anything).

You probably know the battle
You probably know each hero,
You probably know the place
Was the glorious Alamo.

When I copied that poem, I kept wanting to set it to music. In fact the last line came to me like "Alamo."

About one more time for this paper to forecast a cold wave and hit it, and we will start ragging about being weather prophets.

Marion Flynn, an old horse trader, was heard yesterday giving out some sales talk about the Lincoln Zephyr. He said it "breaks off quick, takes up easy and stops on its hind feet. It can turn so quick that all you have to do is make up your mind, and it's already turned."

I wonder how an overcoat would sell in this kind of weather, now that some of the sales are over.

A local timid soul really got a lot of things off his chest the other day. His wife was out of town, so he walked bravely up to her canary's cage and said: "You warbling young rooster!"

Although there are more than 450,000 known species of insects, it is believed that the unknown species comprises an enormous majority.

MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief

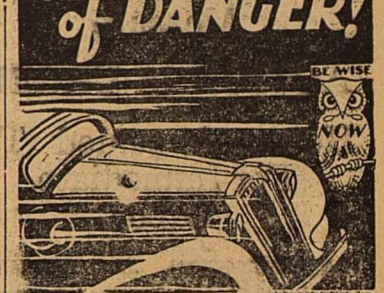

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys.

The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. Most people pass about 3 pints a day or about 3 pounds of waste.

Frequent or scanty passages with smarting and burning shows there may be something wrong with your kidneys or bladder.

An excess of acids or poisons in your blood, when due to functional kidney disorder, may be the cause of nagging backache, rheumatic pains, lumbago, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Deane's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 10 miles of kidney tubes flush out poisonous waste from your blood. Get Deane's Pills.

In automobile accidents PEOPLE get hurt in addition to cars and property. Protect yourself with Personal Accident Insurance, and be able to meet your bills.

NEARLY \$2,000,000 PAID TO TEXAS FARMERS IN CONSERVATION PAYMENTS

COLLEGE STATION, Texas — Checks for nearly \$2,000,000 have been distributed to Texas farmers by the Government in agricultural conservation payments for the 1936 program. A. L. Smith, executive secretary of the Texas Agricultural Conservation Committee and administrative officer in charge of the program in Texas, has announced, on the basis of returns made to his office by the disbursing office. These payments covered 11,193 applications for money grants from farmers in twenty-one counties. All told, it is estimated that agricultural conservation payments in this state for the 1936 program will total \$40,000,000.

Applications are now being received at the rate of 2,000 a day, Smith said. It is estimated the peak load of 3,000 a day will be reached toward the end of the month. Plans to expedite the certifying of applications to the general accounting office so that farmers may receive their checks as soon as possible are being made. It is estimated the average time required from the time of receipt of properly executed applications until the farmer gets his check is eight days.

Only ten of the 254 counties in Texas failed to participate in the 1936 program. A total of 206 counties have completed measurements of land and received their quotas from the state office. Thirteen counties have not submitted measurements and twenty-five submitted insufficient data making necessary a re-check.

A total of 52,106 applications for payments have been forwarded for signatures of producers in 71 of the 206 counties for which quotas have been designated. From 30 of these counties the state office has received 19,976 signed applications of which 2,442 were returned for correction. A total of 34,572 applications distributed in 41 counties have not yet been signed by producers.

Applications from 22 of the 30 counties from which signed applications have been received have been certified for payment to the general accounting office. These include 2,723 applications calling for total of \$2,230,897.38. The general accounting office has suspended 343

of these, totalling \$80,901.49, and approved 12,380, totalling \$2,149,995.89. Forms have been sent to the state committee's office by the disbursing office showing checks covering 11,193 of these applications have been mailed to producers in twenty-one counties for a total of \$1,965,708.24.

Kin as Charming as Noted Actress

Actress Lily Langtry was the toast of two continents and her notable charm seems to have been transmitted to her granddaughter, Mary C. Malcolm, 18, shown above just after she and Sir Basil Bartlett, 31, actor and playwright, were married in London.

"Colds-Clinic" cuts In Half Sickness Of School Children

GREENSBORO, N. C. — Sickness from colds was cut in half and school absences due to colds were cut considerably more than half in what is said to be the greatest clinic of its kind ever held, directors of the clinic announced here today.

A total of 17,353 men, women, and children participated as subjects in this "colds-clinic", which consisted of a series of tests of a plan for better control of colds. Although the clinic started during the winter of 1932, the final test was not completed until last March.

As an additional check on the results, the last two series of tests were supervised by practicing physicians. Records, kept under their direction, were tabulated and certified by a well-known firm of public accountants. And the results of these tests under independent medical supervision were better than ever.

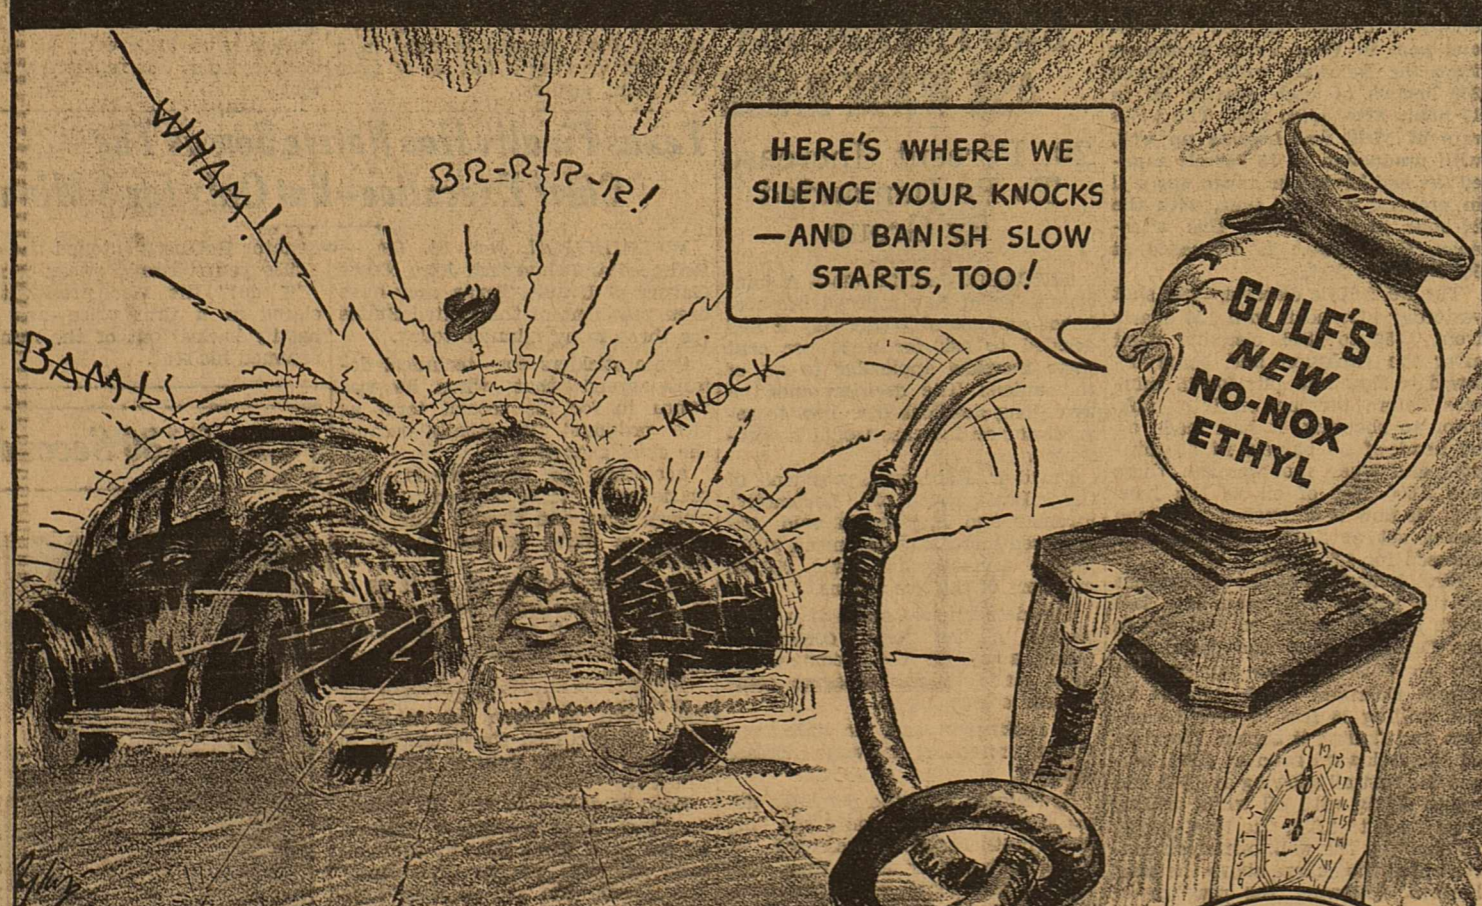

Reports covering the entire clinic show that, in addition to reductions of 50.88% in sickness and 57.86% in school absences due to colds, followers of the plan escaped one out of every four colds, and the colds they did have were shorter by considerably more than one-fourth.

An article based on this clinic, written by Dr. Herbert H. Bunell, former head of the department of biochemistry at the University of Cincinnati Medical School, attracted wide attention when it was published recently.

The plan tested is known as "Vicks Plan for Better Control of Colds in the Home." It was formulated by the technical staff of the Vicks Chemical Company, which has been studying the problem of colds for over 30 years. "Vicks Plan" includes simple health rules to help build and maintain strong resistances to colds. It also prescribes medication for different types and stages of the common cold, including Vicks VapoRub, an external treatment for relieving colds, and Vicks Va-trol for the nose and upper throat, an aid in preventing colds.

The chief of the technical staff which supervised the clinic stated today that the official report on the complete series of tests is now being published in booklet form with a number of explanatory illustrations and charts. He said that copies of this 24-page booklet, although published primarily for the information of physicians, are available on request, without cost, to all persons interested in the problem of colds.

GULF DEALERS BRING YOU ... A NEW KNOCKPROOF GAS!

THE DAY OF KNOCKING MOTORS is gone!
Never again need you listen to "pings" that mean lost power and harmful hammering.
For Gulf has produced a new No-Nox Ethyl Gas that is absolutely knockproof. It has the top anti-knock rating in motoring history. It can't knock—even in new high-compression cars.
This knockproof fuel plusses the power,

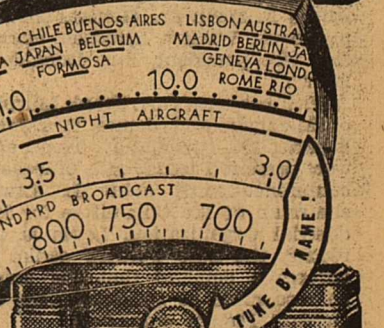

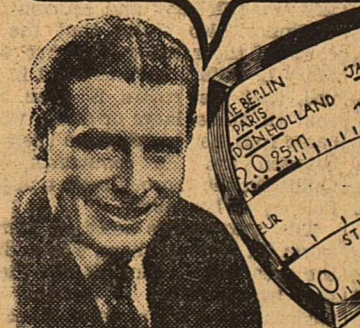

smoothness, and economy of any car. And that's not all. It delivers the world's fastest starts in any weather—abolishes excess choking, crankcase dilution, and battery drain.
Discover Gulf No-Nox Ethyl at the Sign of the Orange Disc. Costs no more than other premium fuels. Pair it with Gulfpride—the world's finest motor oil—and you've got twin winners in your car!

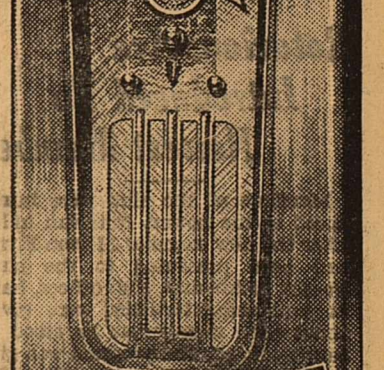

FREE AT ALL GULF DEALERS — New Funny Weekly with full page of puzzles, games, and other features. FUN FOR ALL THE FAMILY!

Society and Clubs

Mrs. J. L. Rush Is Named President Of Woman's Golf Club

The Woman's Golf Association met Wednesday morning at the Midland Country Club at ten o'clock where the club was reorganized for the opening of the season.

Mrs. J. L. Rush was elected president; Mrs. W. B. Harkrider, secretary-treasurer; and Mrs. Frank Stacy vice president and tournament chairman.

It was decided that Friday would be the official meeting day at which time luncheon would be served at the Country Club. It was also announced that Friday 22, the regular meetings would begin.

Those attending were Meses. E. B. Dozier, J. L. Rush, C. A. Mix, Paul Oles, A. P. Loskamp, F. A. Stacy, W. B. Harkrider, H. W. Weir, R. W. Hamilton, W. H. Street, Wright, Pat Riley, John Adams.

'Indian Missions' Is Auxiliary Study

The Business Woman's Auxiliary met at the home of Mrs. John B. Mills January 19, with Miss Juanita Perkins as co-hostess.

The lesson study was on "The Past, Present, and Future of Indian Missions," with the program led by Miss Lucille McMullan assisted by Mrs. Clint Creech and Miss Marguerite Bivens.

Refreshments were served to Meses. Bill Collins, Sherwood O'Neill, John King, Olan Pryor, E. P. Lawson, Hayden Wilmoth, W. J. Coleman, Irwin Wallace, Clint Creech, L. H. Tiffin, J. A. Tibbets, and Misses Marguerite Bivens, Lucille McMullan, Nadale Roberts, and the hostesses.

VISITED ANGELO

Collin Puckett, of Sparks & Barron, attended a regional meeting of the Texas Association of Insurance Agents at San Angelo yesterday.

'Victoria Regina' Is Reviewed By Mrs. R. W. Hamilton

Mrs. Wade Heath was hostess to the Play Readers club Wednesday afternoon at her home. Mrs. R. W. Hamilton reviewed the book, "Victoria Regina," by Lawrence Housman.

The members who attended were Meses. E. W. Anguish, Elliott H. Barron, De Lo Douglas, R. W. Hamilton, Wade Heath, J. H. Hodge, C. L. Klapproth, A. O. Thomas, Fred Wilcox, E. H. Woods, and Mrs. Jack Hawkins.

The following is a resume of the review by Mrs. Hamilton:

"Victoria Regina" by Lawrence Housman, was introduced to America by Gilbert Miller in December, 1936, with Helen Hayes starring in the name part. The play contains ten high lights in the life of the Queen, from the morning of her accession to the celebration of her Diamond Jubilee, and was denied production in England as the personality of the Queen was held to be sacred for stage representation. Eight of these vignettes deal with her meeting with marriage to and happy though occasionally tempestuous domestic life with Albert of Saxe-Coburg.

In the last two scenes, the Queen is more or less a mannequin, carried on the tide of the Victorian Era which she had come to typify. Her personality in its firmness, decency, genuine love for her people and undeniable courage is ably portrayed, also her feminine unreasonableness, jealousy and stubborn pride.

Throughout the play we see her gift of selecting able and honest advisors, Prince Albert taking the leading place during his lifetime.

After reading the play, we wonder just how her great-grandson, Edward, could have valued his heritage so lightly with the precedent of this great, wonderful, little old lady so recently before him.

Genevieve Grant, selected as the "modern Venus" in a contest, poses with Witching Hour, left, and Miss Wacary, picked as model racing greyhounds at a course in her home city, St. Petersburg, Fla.

Modern Study Club Discusses 'Spain'

The Modern Study Club met at the home of Mrs. A. H. Riley Wednesday afternoon where they participated in an interesting discussion of Spain.

Mrs. P. A. Nelson gave an informative paper on "Causes and Leaders of the Spanish Revolution" after which Mrs. R. H. Biggs gave an interesting paper on "The Attitudes of Other Nations."

The members attending were Meses. T. M. Crawford, R. H. Biggs, P. A. Nelson, Tom Sealy, Fred Turner, John M. Hills, J. H. Rhoden, L. W. Leggett, S. S. Stinson, Joe Haygood, L. C. Link, and the hostess, Mrs. Riley.

Famous Pianist To Appear in Abilene

ABILENE, Jan. 21 (Special)—Percy Grainger, famous pianist and composer, will take the February entertainment spotlight here with his February 12 concert from the stage of the Hardin-Simmons university auditorium.

The appearance of the popular composer and pianist will be his first in Abilene and one of his first in the southwest since returning last year from two years in Australia, his native land.

Program for the February 12 concert under the sponsorship of the university artist course includes several of Grainger's own compositions, most popular of which is his "Country Gardens." Debussy, Brahms, Chopin and several of the other concert favorites contribute to the remainder of his program.

Streamlining Cuts Train Expenses \$5 an Hour

LONDON, Jan. 20 (U.P.)—The air resistance of high speed trains can be reduced by 50 per cent without drastic departure from the accepted idea of a railway train, F. C. Johansen, engineering research officer of the London, Midland & Scottish Railway, told a meeting of the Institution of Mechanical Engineers.

Mrs. Paul Schlosser Honors Sans Souci Club and Guests

Mrs. Paul Schlosser was hostess to the Sans Souci club Wednesday afternoon at her home, assisted by Mrs. C. A. Schlosser.

Mrs. R. B. Cowden won high score for club members, Mrs. L. L. Payne won second high, Mrs. O. C. Harper won high guest, Mrs. J. E. Simmons won second high guest, and Mrs. J. W. Rettig won high cut.

The club members present were Meses. M. E. Cole, R. B. Cowden, Walter Cowden, Roy Downey, L. L. Payne, Rea Sindorf, Irby Watson, and Claude Cowden.

The club guests present were Meses. F. F. Fulk, W. D. Anderson, John West, J. M. Armstrong, Paul Osborne, H. B. Prickett, Thelma Jackson, Bert Hemphill, O. C. Harper, W. G. Whitehouse, D. C. Hemmell, J. W. Rettig, W. A. Yeager, R. W. Patteson, Harris Eastham, J. E. Simmons, L. D. Bayless, Mrs. R. S. Anderson, and Miss Georgia Goss.

With ideal streamlining, the possible reduction in air resistance is one of 75 per cent, he said. The corresponding fuel economy is about 55 an hour at 100 m.p.h. Alternatively, the maximum attainable speed could be increased up to 25 per cent, according to the degree of streamlining adopted. Streamlining is on the whole more effective in dealing with the effects of side winds than against head winds or in still air, he said.

Lovely Jeanne Strasser of Beverly Hills, an interested spectator at southern California golf tournaments, calls attention to the sports headlines by wearing the very latest in sport blouses. It is made of linen.

Announcements

FRIDAY
The Belmont Bible class will meet at the home of Mrs. Paul Smith, 900 West Kentucky.

SATURDAY
The Children's Story Hour will be held at 10 o'clock in the Junior Library of the county court house.

'The State of The Language' Discussed By Wednesday Club

The Woman's Wednesday club met at the home of Mrs. Andrew Fasken January 20 with Mrs. J. M. DeArmond as leader for the afternoon.

The subject for discussion, "The State of the Language," was presented in two parts by Mrs. H. C. Barnes and Mrs. George Glass, after which Mrs. John P. Butler conducted a drill on words that are commonly misused.

The following members attended: Meses. H. C. Barnes, J. P. Butler, Elliott Cowden, J. M. DeArmond, George Glass, O. B. Holt, R. L. Miller, John Perkins, and Mrs. Andrew Fasken.

FLOOD AREAS ARE WIDENED TODAY AS RIVERS OVERFLOW

Lives, Property Are Threatened By Waters

The Mid-continent flood area widened today as rivers, swelled anew by rains, inundated thousands of acres of farm lands and menaced life and property.

It is estimated 20,000 families have been driven from their homes. The Ohio river rose to its highest stage since the 1913 disaster.

Coast guards, Red Cross, American Legion and army units have aided the refugees.

Cincinnati business houses have already suffered \$1,000,000 worth of damage.

Floods covered miles of land in Pennsylvania, West Virginia, Ohio, Maryland, Kentucky, Indiana, Illinois, Tennessee, Missouri and Arkansas.

WPA Workers Block Off Old Mine Fire

NEW STRAITSVILLE, O. (U.P.)—Ninety WPA workers have resumed work on three barriers under construction near here to isolate an underground coal mine fire that has burned for years.

Time required for easements at one barrier and a U. S. Bureau of Mines inspection at the others had interrupted the work.

Fifty men, equipped with gas masks, steel shoes and helmets, working on one barrier within 200 feet of the burning coal vein, are nearing an abandoned tunnel which will speed progress of the 600 foot cut.

The cut, when completed, will be filled with earth to stop further spread of the fire.

Forty men, by means of open cuts and tunnels, are constructing two 5400 foot blockades.

WPA officials have estimated it will take from 150 to 200 years for the fire to burn itself out when the barriers are completed.

Mother Nature Traps Six as Moonshiners

LEICESTER, Mass., Jan. 20 (U.P.)—Mother Nature betrayed a group of alleged moonshiners here.

A brook running free while others in the neighborhood were ice-coated aroused the suspicions of Police Chief John O'Keefe. He discovered a pipe pouring a liquid into the water so warm that steam rose from its surface.

Local police, state troopers and federal agents traced the pipe to its source in a farmhouse and there seized a 1,000 gallon still and arrested five men and a woman.

SIDE GLANCES

By George Clark

"Please, darling, try to cough just once for the doctor—the way you've been doing all week."

Josef Hofmann Featured Soloist On Radio With Symphony Orchestra

JOSEF HOFMANN, CELEBRATED PIANIST, who has appeared on the American concert stage for almost half a century, will be soloist with the Ford Symphony Orchestra and Chorus on the Ford Sunday Evening Hour, January 24. The program, which will be conducted by Victor Kolar, will be heard from 9 to 10 P. M. (EST) over the coast-to-coast network of the Columbia Broadcasting System.

Late News

OAKLAND, Calif., Jan. 21 (AP)—The frozen body of a young woman believed to be Anita Boleto of Oakland, was found near here today. The girl was found to have been brutally beaten, dying on the way to a hospital. Evidence was found of terrific struggles near where the body was located.

WASHINGTON, Jan. 21 (AP)—The democratic national committee approved a plan today for a "full-time working, funds-raising organization to rid the party of deficits. Paid money collectors in each state will be provided.

VATICAN CITY, Jan. 21 (AP)—Pope Pius was reported today to have taken another turn for the worse. Great anxiety was felt in the pontifical court for his life.

Local Club Women Attend Federation Meeting at Peecos

Miss Lydie G. Watson and Mrs. J. A. Haley attended the City Federation meeting of the Woman's clubs at Peecos Wednesday where they heard Dr. Lumpkin, president of the Radford School for Girls in El Paso, speak to approximately one hundred women on "Higher Education."

Miss Watson and Mrs. Haley were also presented and gave talks on their respective chairmanships in the Eighth District of Federation of Woman's clubs, "Music," and "Law Observance."

The representatives were also entertained at a luncheon by Mrs. Judge Woolfolk in her home which is noted for its antique furniture, all heirlooms of Mrs. Woolfolk's people who brought much of it from France to Louisiana and from there to West Texas.

GO TO AUSTIN

Bob Beverly of Seminole and Chas. Miller of Barstow were in Midland today, en route to Austin in connection with proposed legislation affecting the cattle and sheep industry.

Mrs. J. C. Ward of Wichita Falls is visiting her parents, Mr. and Mrs. Walter Cowden, here for a few days.

California has flown the flags of 12 nations since 1842.

A CASE OF NERVES!

"Some years ago I suffered from nervousness and headaches associated with functional disturbances. I lacked strength and felt miserable day after day," said Mrs. Mary Dunn of 425 S. W. 10th St., Oklahoma City, Okla. "I took Dr. Pierce's Favorite Prescription as a tonic and my condition improved and I felt much better. It helped me from the very first. My appetite increased and I felt much better. Buy of your druggist today. New size, tabs. 50c, liquid \$1.00 & \$1.35."

"PRESTO! CHANGE-O!"

This automobile with the "magical" gears which seemingly shift themselves proved a magnet for crowds in the Motor City recently when it appeared on Detroit streets. This modern motoring magic was accomplished simply by replacing a gear shift lever in the transmission of a Terraplane equipped with the new Selective Automatic Shift. The shifting rod and the attached flag moved from low to second to high and to reverse gears as the gear positions were selected by the driver with

the aid of the Electric Hand, which is visible just below the steering wheel. Similar "magical" Hudson and Terraplane motor cars will be seen in many U. S. cities during the next month when Hudson Motor Car Company invites motorists from coast to coast to try the new Selective Automatic Shift way of driving, it was announced. The Selective Automatic Shift, which eliminates the gear shift lever, is optional equipment on the 1937 Hudsons and Terraplanes.

Skylarks have been introduced in America on several occasions, but each time they soon died out.

More than 75% of the province of Manitoba, Canada, is wooded.

On Dec. 22 the South Pole is nearer the sun than any other point on earth is at any time.

The SPORTS HORN BY JESS RODGERS

Frog Flashes In 1929 the Horned Frogs had a guard for football captain. His name was Lester "Mike" Brumbelow and his number was 44. The Frogs won the conference championship. In 1932 the Horned Frogs had a guard for football captain. His name was Johnny Vaughn and his number was 44. The Frogs won the conference championship. In 1937 the Horned Frogs will have a guard for football captain. His name is Mason Mayne and his number is 44. Man! Has T. C. U. gone superstitious? Sam Baugh, it turns out, is also a 'ladies' man. The girls of C. I. A. voted Sam their "favorite southern conference football player" and gave him a gladstone bag in token of their appreciation. The girls have announced that their award will be an annual one. To date, Sam has received six watches, two rings, three suits of clothes, two hats, the luggage from C. I. A., as well as numerous other lesser gifts. One of his watches came from San Francisco without any indication of who the donor might be. The watch is engraved with his name and the score of the T. C. U.-Santa Clara game. Also, Sam is developing into a professional goer-outer to banquets. He has attended 27 dinners since the Frogs returned from the Pacific coast and has at least six others scheduled. The Horned Frog Band, which accompanied the football team all over the country during the season just closed, has done a bit of "all-opponent" picking. The T. C. U. musicians rate the Baylor band tops for musical ability and the Aggie organization first for drilling. They also place the Aggies at the top for "reception and treatment." T. C. U. is now the official Cotton Bowl champion. Prof. E. W. McDiarmid, chairman of the university's committee on athletics and of everyone. Aside from the famous hot springs this region can boast (11 out of 42), only the Rice Owls remain undefeated. And they have played but two of their 12 games, having won from A. & M. and Texas. S. M. U. has three victories to one defeat, but all of the remaining five conference members have dropped at least two contests. The Frogs have five home games and four road contests remaining on their schedule. They do not meet the Arkansas Razorbacks, pre-season favorites, until March 5 and 6—the final games on their schedule, to be played in Fort Worth.

Hot Springs Nearest Approach to Fountain of Youth, Wells Says

If there ever existed a Fountain of Perpetual Youth, Arkansas can claim that her "valley of smoking waters" almost fills the bill! So says Carveth Wells, internationally known explorer, who will describe attractions of one of the world's finest health resorts—Hot Springs National Park—in his Continental Oil Company broadcast, "Exploring America with Gonoco and Carveth Wells," over station WFAA, Dallas, at 6:30 Saturday night. Ferdinand De Soto was the first man to sample the magical waters of Hot Springs when he visited Arkansas in 1541," Wells relates. "But long before the days of De Soto, the medical value of the water at Hot Springs was so well known among the Indians that the various tribes fought for possession of the valley in which the springs were situated. Today, these health-giving springs have the distinction of being the only ones controlled and supervised by the government. Cost of baths is within the means

'Theodora Goes Wild' Coming to The Yucca Margaret McWade, who scored heavily as one of the "pixilated" aunts in "Mr. Deeds Goes to Town" has an important role in "Theodora Goes Wild," a Columbia comedy starring Irene Dunne and featuring Melynn Douglas, coming to the Yucca Theatre, preview Saturday night, Sunday, Monday and Tuesday. Miss McWade has the role of a strict yet understanding aunt in the picture. And on the same program "Pop-eye the Sailor Meets Sinbad the Sailor," first two reel animated cartoon ever filmed and the first Popeye in full color and three dimensions. Rubber balloon tires for wheelbarrows now are on the market.

1937 Conservation Program is Studied

COLLEGE STATION, Jan. 21—The Agricultural Conservation Program for 1937 will include provisions for range conservation, extension service workers were told by representatives who attended the conference of the southern region at New Orleans. The 1937 program will follow out the basic objectives of the 1936 plan, but has been amplified in several respects. Among the changes are provisions for including commercial orchards and commercial vegetable plantings in the 1937 schedule. Designation of the basic soil building and soil conserving crops remains virtually the same. The ruling on the interplanting of soil-depleting crops and summer legumes, such as corn interplanted with cowpeas, has been altered to classify all the acreage as soil depleting and

Oil News--

Continued From Page One Ector Well Gauged York & Harper and Sloan & Zook No. 1-B Foster, new producer spreading Ector's Foster pool a mile farther northeast, flowed by heads while cleaning out for an output of 420 barrels on the official 24-hour Railroad Commission gauge. Operators will rig up pump after the well has been cleaned out. Located in the southwest corner of section 8, block 42, township 2 south, T. & P. survey, it was shot with 410 quarts from 4,127 to 4,319. Total depth is 4,332, plugged back from 4,348 to shut off sulphur water developed in drilling the last five feet. To Treat Today Acid treatment with 5,000 gallons was scheduled today for Texas Pacific Coal & Oil Company No. 1 Bennett, second well in the Yoakum county pool. It is bottomed at 5,236 feet in line and is variously estimated at from 150 to 300 barrels a day, natural. A short test of natural flow will be taken through 2-inch tubing before acid is run. In Gaines county, Amerada No. 1 Robbins, test a mile south of the Landreth No. 1 Kirk discovery, is reported to have encountered oil showing in drilling to 4,820, the present depth. W. L. Pickens et al No. 1 Lewright southeastern Terry county wildcat, is drilling at 4,377 feet, with a brown lime stringer reported from 4,270 to 4,310. In the southwest part of Terry county, Uscan and Illinois No. 1 Brownfield is drilling hard lime at 5,642. Cuttings from 5,545-57 were chiefly crystalline dolomite showing oil stains. The wildcat will drill ahead for at least several more
