MODERATION OF COLD WAVE THAT BROUGHT FREEZING TO THE ENTIRE STATE IS PRESAGED BY SUNSHINE

Premier Blum to Demand German Re-Armament Halt

ITALY: GERMANY STUDY INTEGRITY OF THE BELGIUMS

Guarantee of 'Good Faith' Wanted By France

REDS ON OFFENSE

Insurgent Towns Are Objects of Air Raid Parties

By Associated Press
Premier Leon Blum of France prepared to demand a halt of the "feverish" German armaments and Italy and Germany considered a guarantee of Belgian territorial integrity in moves holding the attention of European diplomats Saturday.

Authoritative sources said Blum would ask for a cessation of rearmament as a guarantee of good faith toward Franco-German economic and political agreements.

In the Spanish civil war the government made air raids on insurgent strongholds. The insurgents maneuvered for the capture of Malaga strategic Mediterranean port, and renewed their assault on Madrid.

The government charged seaplanes based on German warships, had bombed an air base on the southern coast.

SUCCESS OF THE BIRTHDAY BALL

HERE ASSURED
Last-Minute Drive On Ticket Sales To Start

With only five days left for the purchase of tickets to the President's Ball to be staged here Friday night, co-chairmen Mrs. Barron Kidd and Miss Ida Beth Cowden Saturday were preparing for a last minute drive to sell the highest number of tickets possible for the affair.

Early indications are that a record crowd will attend the affair here this year the fourth such party to be held here. An outstanding orchestra has been procured to furnish music for the dance and officials are confident of success.

Approximately \$100 in the clear has already been assured for the affair without advance ticket sales being considered in that amount. Twice possibly three times as much money is expected to be made thru the sale of tickets.

Contrary to plans of most cities to hold the dance on the night of Jan. 30, the date of the President's birthday, it will be held here the night before because of inability to procure the Crystal Ballroom of the Scharbauer Hotel, scene of the dance on Saturday night.

Of the entire amount of money taken in, 70 per cent of it will remain here and will be used for the treatment of crippled children during the year. The other 30 per cent will go to Warm Springs, Georgia, foundation for the treatment of infantile paralysis.

BIBLE FORMALLY ACCEPTS NEW JOB

Will Resign Post at Nebraska University, Return To Texas Soon

LINCOLN, Neb., Jan. 23 (P)—Dana X. Bible, Nebraska head coach, today accepted the position as athletic director and head football coach at Texas University.

Bible was elected by the board of regents Thursday and signed a 10-year contract reported to call for \$15,000 per year.

The new Texas coach was formerly head coach at Texas A. & M., leaving there for Nebraska where he has won six Big Six conference football championships since that time.

While exploring ruins of Tepe Kagra, Mesopotamia, archeologists found meat bones in a pot, apparently just as they were put on the fire to stew centuries ago.

Most Successful of All Chamber of Commerce Banquets Here Foreseen

Speaker at Banquet Here Tuesday Night

COL. E. O. THOMPSON

NEW IMPOSITIONS ARE PROPOSED FOR CITIZENS IN WARS

Citizenship Rights To be Forfeited If Bill Passed

WASHINGTON, Jan. 23. (P)—A House committee began a study today on proposals to take away the citizenship of Americans fighting in foreign lands.

Spurred by enlistments in the Spanish civil war the State Department has already invoked a law subjecting volunteers to fines and prison sentences.

Two American fliers who recently served for the loyalist forces were questioned by American authorities upon their return to this country. A group of Americans intent upon joining in the war were reported to have been arrested in a foreign nation at the request of American officials.

SAN ANGELO MAN HELD IN ASSAULT

Former Policeman Taken After Shooting in Police Station

SAN ANGELO, Jan. 23. (P)—Bond of \$2,000 was set Saturday for T. J. Longacre, former policeman charged with assault to murder W. B. Wilson, police chief, in a shooting at the police station last night. Longacre was no-billed by a recent grand jury in a night resort slaying.

GOES TO MARKET

Mrs. J. C. Smith, of the J. C. Smith ready-to-wear store, left Saturday night for eastern markets to purchase spring merchandise. Mrs. Georgia Bumpers, formerly with the store, has returned from Wickett and is again on the Smith sales staff.

The Great Seal of the United States was proposed and designed by William Barton in 1782. It is composed of a spread eagle, symbolizing strength, bearing an escutcheon with 13 stripes for the original states. Its right talon holds an olive branch and its left 13 arrows.

CITRUS CROPS OF CALIFORNIA ARE RUINED BY COLD

\$60,000,000 Damage Estimated in The Fruit Zone

LOS ANGELES, Jan. 23. (P)—Sub-freezing temperatures brought new hardships today to Southern California's citrus belt where a cold wave had already done an estimated \$60,000,000 damage.

Ranchers continued to use burning smudge pots in efforts to save their fruit.

Damage from the worst freeze since 1913 may total at least 50 per cent of the current crop of oranges, lemons and grapefruit, value unestimated. Temperatures in the heart of the 250,000 acre fruit empire dropped as low as 16 degrees.

The 16-degree low is two degrees under the official low of 1922 when half the citrus crop was destroyed. Practically the entire crop was lost in the 1913 freeze, in which citrus belt minimum temperatures were not recorded.

In Imperial Valley, rich citrus and vegetable area near the Mexican border, the temperatures sagged as low as 15. This is 100 degrees below occasional summer heats there. It was feared most of the valley's early vegetables as well as fruit, were ruined.

TRUCK DRIVER IS BURNED TO DEATH

Clothing Ignites While Repairing Pump At Arkinda

TEXARKANA, Jan. 23 (P)—Arthur Daverson, Texarkana truck driver, was burned to death near Arkinda, Arkansas, last night when his gasoline-soaked clothing ignited while he repaired a fuel pump.

ATTEND FUNERAL

Mr. and Mrs. E. W. Prime, Mr. and Mrs. W. H. Prime and Mr. and Mrs. J. J. Wadkin and baby returned late in the week from Little Rock where they attended the funeral of Mrs. G. W. Russell, mother of the Mrs. Prime. Her death occurred Friday of last week and the funeral was held Monday.

Ticket Sales Rapid; Record Crowd Is Expected

Completion of arrangements for the staging of the annual banquet of the Midland Chamber of Commerce, which will be staged in the Crystal Ballroom of Hotel Scharbauer on Tuesday evening at 7:30 o'clock, has been announced by committees in charge, everything pointing to one of the most successful banquets ever staged here. A record breaking attendance is indicated by the heavy advance sale of tickets.

Col. Ernest O. Thompson, member of the Railroad Commission of Texas and former mayor of the city of Amarillo, is to be the principal speaker at the banquet, the local chamber of commerce having been very fortunate in securing such an outstanding speaker for the annual event. Col. Thompson, a brilliant and capable speaker, is well known throughout this section of the state and is held in high esteem by everyone, especially by those connected with the oil industry. Col. Thompson having done much for the oil industry during his term as a member of the Railroad Commission. Special arrangements are being made to take care of visiting oil men who will be here to hear Col. Thompson's address.

The interesting and entertaining program for the evening has been arranged by Mayor M. C. Ulmer who will serve as toast-master. According to Mayor Ulmer, the program will be exceptionally interesting and will not be long and drawn out. Two musical numbers, a brief message from President Clarence Scharbauer, the feature address of the evening and the recognition of visitors will comprise the program. The annual report of the chamber of commerce will be in printed form, and will not be given orally. The report of the nominating committee will be heard and officers and directors for the year will be elected.

Heavy Ticket Sale
Approximately 250 banquet tickets had been sold by yesterday afternoon, according to W. B. (Bill) Simpson, chairman of ticket sales, who predicted a record breaking attendance at the banquet. The advance sale of tickets has been much heavier than ever before, and it is thought that between 250 and 300 persons will be in attendance Tuesday evening. Many of the tickets have been sold to oil men and it is predicted that members of the oil fraternity will outnumber all others. The banquet might well be termed as one given in honor of oil men.

All oil men and others who have purchased tickets are urged to be present Tuesday evening. An enjoyable time is promised.

Harvey Sloan, who has led in the sale of tickets from the start, boosted his total sale to 60 tickets the latter part of the week. Largest individual purchasers are the Humble Oil and Refining Co., 14 tickets, and the Texas Electric Service Co., 12.

Committees appointed by President Clarence Scharbauer are: program, M. C. Ulmer; ticket sale and menu, W. B. Simpson; nominating, J. E. (Bob) Hill, chairman, R. M. Barron, Roy Parks, W. A. Yeager, and T. Paul Barron; audit, Harry L. Haight.

FREEZING FELT AS FAR SOUTH AS CORPUS CHRISTI

Let Up is Expected To be Slow Over All Texas

NEW LOW IN CITY

12-Degree Mark Sets New Minimum In Midland

By Associated Press
Sunshine in the Panhandle Saturday presaged moderation of the cold wave which brought freezing as far south as Corpus Christi.

Most of the state continued to register freezing and the let-up is expected to be slow. There were no serious interruptions in transportation and communications. The Rio Grande valley citrus crops escaped damage. Midland residents cheerfully greeted sunshine Saturday after having shivered under the coldest night of the year Friday. After reaching a maximum of 33 degrees Friday afternoon, the mercury started downward and kept falling until 8 o'clock Saturday morning when it dropped to 12 degrees, one lower than the previous minimum.

The maximum temperature for Saturday was 35 degrees. Warmer weather has been promised for today, the cold wave gradually moderating over all the state.

County Clerk Named Demo Party Officer

Mrs. Susie G. Noble, county clerk, Saturday was notified she had been recommended as Chairwoman of Midland county. Women's Division, of the democratic party in Texas, and that appointment to the post was awaiting her notice of acceptance.

Mrs. Noble has indicated she will accept the position. She was recommended for the post by Mrs. Mae M. Ament of Alpine, district committeewoman.

Production Credit Group to Convene

Stockholders of the Midland Production Credit Corporation will hold their annual meeting Wednesday, January 27, opening at 9:30 a. m. in the county court room. At noon, a luncheon will be held at Hotel Scharbauer.

The corporation, representing a large area of West Texas, has more than 150 stockholders. The meeting probably will have an attendance of 100 or more. S. R. Preston, president, said Saturday.

Officers will be elected and details of operation of the government loan agency will be discussed.

Representatives of the Houston office are expected here for the meeting. H. C. Barnes is secretary and manager.

ON BUSINESS HERE

W. T. Crier of Abilene was a business visitor here Saturday.

'Fishes' in His Submerged Home

His houseboat resting on the bottom of the Ohio river, near Steubenville, O., in one of the floods which raged across nearly a dozen states. Sam Simpson, 54, here is shown trying to fish some of his possessions out of the windows of his inundated home. Simpson saved his wife and three children from the torrents which submerged his 30-foot craft, its roof barely showing in the photo.

BIG ATTENDANCE AT GEOLOGY MEET

John L. Greenfield Is Speaker Of Evening

The largest attendance in many months was evidenced at the meeting of the West Texas Geological Society held Friday evening in the Crystal Ballroom of the Hotel Scharbauer. Seventy-five people heard John L. Greenfield of the Seismograph Service Corporation discuss the "Application of Seismograph Methods in West Texas." A feature of the paper was a thirty-minute motion picture which showed among other things, the movement of seismic waves. A general discussion followed the main address. Business transacted at the meeting included the discussion of plans for a field trip by the Society, and a paper to be given sometime in February by Dr. Charles N. Gould of the National Park Survey.

BUY FOR WADLEY'S

Mr. Addison Wadley will leave Sunday night for Dallas, and Mr. and Mrs. Alf Reese and Mrs. A. Estes will leave Monday morning for Dallas. Mrs. A. Wadley will continue to the eastern markets from Dallas Wednesday.

ON BUYING TRIP

T. R. Wilson and Mrs. Herman Philipp of Wilson Dry Goods Co., have gone to Dallas and eastern points on a buying trip for the store.

LAST HONORS PAID TO GALVESTON MAN

Funeral Services Are Held Thursday for Doctor Jesse Flautt

GALVESTON, Jan. 23. (Special)—Funeral services were held here Thursday afternoon for Dr. Jesse Autry Flautt, 52, widely-known county health officer, who died Tuesday at St. Mary's Infirmary of a sudden heart attack. The physician had been confined there for more than a week with pneumonia.

Dr. Flautt was born at Sardis, Miss., on May 14, 1884. He moved to Texas at an early age and was reared at Midland, Tex. He came to Galveston from Midland in the year 1907 and studied at the medical department of the University of Texas here. Following his graduation with the class of 1911 he served his internship at John Sealy Hospital and began the practice of medicine in Galveston the following year.

Surviving are his wife, Mrs. Rio June Flautt; two daughters, Rio June Flautt, and Jessie Mae, 5 years old; his mother, Mrs. W. C. Cochran; two sisters, Mrs. Robert E. Estes of Midland and Mrs. Robert W. Dickey of Phoenix, Ariz.; one brother, John O. Cochran of Midland, and other relatives.

Except for the period of the world war Dr. Flautt practiced continuously in Galveston from the time of his graduation. In September, 1926, Dr. Flautt was appointed county health officer by the Galveston county commissioners court to fill the place vacated by Dr. J. S. Jones. He was selected from a list of six names of physicians submitted for the place. Dr. Flautt held the position of county health officer from that time until his death.

LEAVE FOR CONVENTION

Vern Holdaway and Chas. A. Pierce left Friday night attend the annual Sales convention of the Kraft Phoenix Cheese corporation being held in Dallas this year for the distributors of the southwestern division. Holdaway has had charge of the distribution of Kraft products in this territory for the past six years and Pierce has been associated with him for the past four years.

JOHNSTONS RETURN

Mr. and Mrs. R. Steele Johnson and son, Milton, have returned from Oklahoma City where they have been for the past two weeks at the bed side of Mr. Johnston's father, Elmer Johnston, 74, who died of a stroke of paralysis January 12.

In early days the weapon hand was bared and held out as a symbol of peace. This is believed to have been the origin of handshaking.

ROOSEVELT CALLS UPON NATION FOR RELIEF OF NEEDY

2 Million Dollars Is Immediate Need Of Victims

20 PERSONS DEAD

12 States Suffering As Flooded Zone Widening

By Associated Press
President Roosevelt issued a proclamation Saturday asking the nation to raise \$2,000,000 as a "minimum relief" fund for flood-stricken states of the mid-west and south.

Over 280,000 persons were homeless as the nation's flood zone spread and the death list increased to 20.

Rescue agencies poured supplies into 12 states to prevent disease as bitter cold added to the suffering but acted to stay the rise of waters.

The Red Cross launched a \$2,000,000 campaign for relief. Coast guardsmen mobilized additional men and boats.

Four persons were dead in Ohio, four in Tennessee, three in Illinois, two each in West Virginia, Kentucky and Missouri; one each in Mississippi, Pennsylvania and Arkansas.

Property damage was estimated at \$5,000,000 and 56,000 persons were homeless in the Cincinnati area.

Milk and food shortage were feared at Portsmouth, Ohio, where 20,000 refugees need aid.

TRIAL OPENS FOR 17 CHARGED WITH PLOT ON SOVIET

Partitioning of The Country to Pair Of Others Charged

MOSCOW, Jan. 23. (P)—Russia opened the trial of 17 once-high bolsheviks today with a report of "full confessions" and to a plot to partition Russia between Germany and Japan and to aid Japan with Soviet oil in event the nation went to war with the United States.

Karl Radek, man of letters, once publicist for the Soviet regime, and 16 accused co-plotters, will face execution if convicted. The men are alleged to have conspired with the exiled Leon Trotsky to overthrow Joseph Stalin's regime.

Driver Announces For City Marshal

Ben Driver announces today his candidacy for the office of City Marshal subject to the City Election to be held April 6, 1937.

Driver has spent most of his entire life in the Midland Country, mainly engaged with his father in the cattle business. Some eight years ago he was appointed Deputy City Marshal under the late Lee Haynes and has had six years experience as a peace officer.

He is well known throughout the country and solicits your support for this office upon the basis of merit and experience, promising careful attention to the general duties.

Dan Cupid Finally Scores Hit In '37

Dan Cupid, age-old but still youthful appearing archer, after one of his busiest months of all time in Midland last month, finally made his appearance this month as the first couple of the year applied for a marriage license Saturday.

And he didn't make such a hot impression, either, as the groom announced that he was taking the bride to his home at Arden, Texas without loss of time. The groom was William R. Pringle of Arden and the bride was Miss Rommel Pikes of Midland.

As a reward for being the first couple of the year to purchase the license in the county they were given them free by the county clerk.

Second Well In Yoakum Pool Flows 357 Barrels

By FRANK GARDNER
Yoakum county was again the focal point of interest as the week closed when Texas Pacific Coal & Oil Company No. 1 Bennett, second oil well in the pool opened last year by the Honoluli and Cascade discovery, flowed 357 barrels of oil the first twelve hours on test after acidizing. At last reports, the well was still showing through 2-inch tubing and showing about 1,000,000 cubic feet of gas with the oil.

On a three-hour test of natural production before acidizing, the No. 1 Bennett flowed 56 barrels in three hours through tubing swung at 5-2/3 and perforated from 5,155-70. Five thousand-gallon acid shot was run under oil load, and the well flowed an average of 35 barrels an hour the first three hours after treatment. Flowing pressures were 450 pounds on casing and 20 pounds on tubing.

Total depth of the T. P. producer is 5,236 feet in lime. It logged best July from 5,155-70, with gradual increases to bottom. Located in the center of the northeast of the north west of section 678, block D, John H. Gibson survey, it is a quarter mile northwest of the discovery well in the Bennett pool, which is in the southeast part of Yoakum county. The pool opener gauged 235 barrels a day after shot. The big margin in potential rating shown by the new well over the discovery's throws the spotlight on the pool as a source of large production and will probably result in a pipe-line to the area, and more drilling, as a consequence.

Loving County Strike
Mason Oil Company No. 2 Mrs. Minnie Kyle, new Delaware pool opener in west central Loving county, flowed 347 barrels the first 24 hours after shot, a check of figures showed. Plans were to clean the

well out and run tubing with packer. It is making its flow at present through 5 3/16-inch casing at 2,910, 1,061 feet up from bottom.

Location of the strike is 2,310 feet from the north and east lines of section 20, block 55, township 1, T. & P. survey. It topped the Delaware black lime at 3,859,806 feet below sea level, and the sand at 3,895, finding oil in that section from 3,901 to 3,911, the total depth. Steel line measurement before running shot was reported to have shown total depth to be 3,906. Five foot anchor was set and the well was shot with 120 quarts, cleaning itself and flowing by hourly heads.

The No. 2 Kyle is without question one of the most startling discoveries in West Texas in many months. It is located in a region long held doubtful by many authorities. Conditions contributing to its importance See (OIL NEWS) Page 7

Philharmonic Conductor Acclaimed as Youngest

NEW YORK, Jan. 20 (U.P.)—Eugene Ormandy, conductor of the Philadelphia Orchestra, has gained stature in the musical world, and in almost the same breath he has lost another distinction.

The young Hungarian, who emerged from the pit of a movie house orchestra to take the baton of one of the world's leading musical organizations, conducted a statistical survey with John Barbirolli, new permanent conductor of the New York Philharmonic Orchestra, at a reception tendered to the Russian pianist and composer, Sergei Rachmaninoff.

To his chagrin, Ormandy discovered that he had lost the distinction of being the youngest conductor of a major symphony orchestra in America, when he found that Barbirolli was exactly two weeks younger than he was. Both are 37.

The Town Quack

(Reserves the right to "quack" about everything without taking a stand on anything).

you can't post. You just have to sit up on him and take it.

Bob Hill: I'll get that nominating committee haltered when I get ready for 'em.

Timberline Floyd: Fuhrman would scare a horse to death the way he gets on him.

Tommy Wilson: I don't want it on the shelf. A little profit works faster than a high price and no sale.

Ily Pratt: Fred Allen laughs at some of his jokes quicker than his listeners do.

Clarence Scharbauer: I've been here since forty-nine, but Midland's the best I've ever seen it.

Bum Cowden: Let's go fly a while.

P. A. Nelson: J. C. Penney waited a long time to put a store in a town as good as this.

John (Westey) Casselman: (He just grinned. It was Saturday.)

Joe Crump: I know six oil operators who will move here as soon as they can get office space and places to live.

Elmer Bizzell: We've got the best little town and country in Texas.

Elliott Cowden: Make mine a cup of tea.

Ralph Geisler: Yeah, the building's full, but don't put it in the paper yet.

M. W. Whitmore: Why don't you get that market report in the paper?

Chas. Sinclair: I'm not talking for publication.

Headline in Monahans News: "Fate of Local Bank Will Be Known Soon." That's different from my situation. My fate usually is left with the bank.

The SPORTS HORN

BY JESS RODGERS

Happy Birthday to Me! That may not be general opinion but it's the desire of this department—so there.

For the first time since January 24, 1936, today we are celebrating a natal date. (A birthday to youse). Probably by sleeping most of the day.

The records say the editor of this line is now 27 years old. However, we have been tempted a few times in the last few months to challenge the records by applying for an old age pension. But officials say a pension can't collect a pension just because they feel more than 65.

However, it will probably be many years before another is as eventful as the one just past has been—not only personally but to the world in general—Mussolini took Halle Selassie—Midland took Littlefield—Schemling took Louis—Braddock took arthritis—King Edward took Wallie—This department took Barbara. (And got a boy and a Pekinese to boot.)

The publisher took a Buick—The sports editor took a Chevy—Al Smith took a walk—Roosevelt took the votes—Carl Hubbell took the National League pennant—Yankees took the World Series—Several amateur promoters took a headache trying to promote a baseball team in Midland—Ralph Shuffler of Odessa took the same thing as he watched the Bulldogs drub the Bronchos—Bill Collyns quit an oil company and started peddling gas.

Mary McManus took a Dixie Series for Tulsa—his boss fired him—Hans Stuldreher lost every major game at Wisconsin U.—They fired the president of it—Kerrville took first down honors—Amarillo the state championship—Sammy Baugh, at the age of 22, has called upon the people to decide what he will do when he finishes school—Dave Walford has the public, particularly a lot of school officials, where he can tell them what he will do—Jack Chevigny beat the board of regents to the draw by finding him another position—General opinion has it that Dana Bible also beat them to the draw by about \$5,000 and five years—The Reporter-Telegram society editor quit a steady job to go free-lancing—the new one quit free-lancing when she got married.

Mrs. Hal Peck, member of the State Game Commission, and the 1 person we know that is always good for a story, is back from Austin after one of the stormiest sessions of the commission in a long time. Maybe the weather was the cause of it—she reported it rained for 20 straight days.

Mrs. Peck had a perfect alibi for the ill humor that she was in during the meetings. While enroute she lost all her baggage. And who could be in a good humor after that?

And losing the baggage caused Mrs. Peck to be listed as a suicide suspect. Following their first session Mrs. Peck—determined to outwit reporters and other persons wanting the answers to a lot of questions—went to her hotel room left an early morning call and refused to answer any other telephone calls—After arising at 6:30 (and that is really early) she refused to answer any other calls—Imagine her surprise, when, just as she was preparing to leave her room to have the manager hotel detective and housekeeper burst into her room—When early embarrassment died down the manager explained they feared she was either sick or dead, presumably a victim of suicide as it was not such a rarity for persons without luggage to check in and then eradicate themselves—After hearing from Mrs. Peck's own lips that she was very much alive but somewhat sleepy they allowed her to leave.

But regardless of whether it was more than five times the number allowed above for the Big Bend, Carlsbad Caverns National Park, in New Mexico, attracted 150,000; Rocky Mountain National Park, in Colorado, 550,000. These figures are official—announced by the U. S. Department of the Interior.

The Big Bend would have an added tourist attraction in that it is proposed to form an international park by linking the area with a 400,000 acre National Park the Mexican Government is taking steps to establish across the Rio Grande, in the States of Chihuahua, and Coahuila. The two parks would be connected by bridge.

It is inconceivable that Texas will fail to take advantage of this opportunity. The state already has title to approximately 140,000 acres of the 788,000 acres proposed for inclusion within the Texas park. The remainder, all of low economic value, can be acquired for \$1,400,000. The Legislature should lose no time in appropriating this money so that the entire area can be ceded to the Federal Government. Congress has authorized establishments of the park just as soon as these steps have been taken. No further national legislation is necessary. The revenue from increased tourist travel would be clear profit. Development, maintenance, and operation of the park would be taken over by the National Park Service.

Tell your legislator to vote for the Big Bend National Park bill. It will be introduced shortly after the Legislature convenes in January.

Arthur Lefevre, Jr. Houston, Texas.

the stormy weather that the group was trying to emulate or whether it was something else they got their name in print—and plenty.

The commission did several things for their benefit without attracting any attention but when they voted to ask for the resignation of their executive secretary things started popping. Seems that the secretary has been in office for about 10 years, likes the position far better than some of the members of the commission likes him and is not so fond of the idea of surrendering it.

According to Jack O'Brien, San Antonio member of the commission, they decided to ask for the resignation because their sec, was decidedly not a favorite of the legislature. Mrs. Peck strings along with O'Brien in that opinion and insinuates West Texas is entitled to more favors than have been granted—"Sectionalism favoritism" might be called the subject of her pet peeve.

And now to get down to some of the things done by the group—probably more interesting but lacking the reader appeal of the scorable. A delegation from the coast asked the department to open some of the bays and cut channels through Padre Island as filling up of the passes is so serious that dredges are often forced to clear the way—A group also asked the dept. to help the oyster industry in the state as it is far below par at present time. The members readily agreed to do this and any other thing that will build up the lagging business—The department also agreed to allow the Colorado flood control officers to take sand and gravel from the rivers free of charge to use in building of dams—It is not generally known but the sale of sand and gravel from river beds provides much of the income of the department each year—The commission also passed three proposed matters of legislation to be presented to the present session of the legislature—They were: 1-A law demanding a universal hunting license. 2-A law demanding a universal fishing license. 3-A law giving the commission regulatory powers on open and closed seasons on game.

Members of the commission were guests at luncheon at Alamo, Downs Jan. 19 and races run that afternoon were named in honor of the guests. Fourth race of the day was

rank and file of the teachers of the various methods, through cooperation and conference.

Previous biennial conferences have been held at San Francisco, Calif., Edinburg, Scotland; Toronto, Canada; Geneva, Switzerland; Denver, Colorado; Dublin, Ireland; and Oxford, England.

Yawning is a distinct benefit to a human being. It tends to restore the equilibrium of pressure between air in the middle ear and outside air, and often produces a feeling of relaxation.

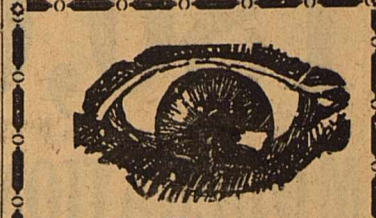

Dean of Education Is Named Organizer

AUSTIN, Jan. 22—Dr. B. F. Pittenger, dean of the School of Education at the University of Texas, has been named organizer for the southwest district for the seventh biennial conference of the World Federation of Education Associations, to meet in Tokyo, Japan, August 2-7, 1937.

"This meeting brings to teachers, members of their families, and friends an unusual opportunity for a pleasant, profitable and economical trip to the Far East," Dr. Pittenger said. "The attractive rate that has been arranged for the trip includes, besides regular steamship accommodations, rail transportation, hotels, sight seeing trips and other incidentals while ashore in foreign lands."

"Since the conference and tours are sponsored by the Japanese government, four members will have an 'entree' into that country which could hardly be available under other circumstances."

Objectives of the Federation are to promote understanding and good will among the nations through the teachers. Its immediate objective is the personal acquaintanceship of the educational leaders and of the

QUESTIONS THAT ARE ASKED ABOUT BANKING

"What obligations does my Bank have to me?"

Your bank is obligated to:

- Safeguard your deposited money with all possible diligence and protect you against loss from fire, theft, or forgery.
- Make your money available to you when you want it.
- Cash your checks upon the order of your signature when presented by yourself or other duly authorized persons.
- Return to you accurate statements of your account with cancelled checks, which are legal receipts for expenditures.

Your bank is able to meet these obligations through honesty and skill in management which renders its services worthy of your support and the confidence of the entire community.

Letter To Editor

Reporter-Telegram, Midland, Texas,

Establishment of the proposed Big Bend National Park will assure Texas of an added and permanent annual income in excess of one million dollars. Here is an untapped source of revenue the Federal Government has agreed to make available.

The average tourist in America, travel agencies have computed, spends a minimum of five dollars per day. Four days in Texas for a tourist visiting the Big Bend National Park, would mean an additional one million dollars placed in circulation in the state each year, if the number of annual visitors to the park totaled only 50,000.

During the past year, over six million people visited the twenty-six National Parks in this country—an average of nearly 235,000 for each park! Only two of these parks—one, in far off Alaska—had an attendance of less than 50,000 so we are extremely conservative in our estimate for the Big Bend.

In neighboring states, Platt National Park in Oklahoma, had 235,000 visitors during the past year

Society and Clubs

Announcements

Monday
The Y. W. A. of the First Baptist church will meet at the Baptist annex for the personal service program at 7:30 o'clock Monday evening. Mrs. E. F. Conner will be in charge.

The Episcopal Auxiliary will meet at the church at 3:30 o'clock Monday afternoon.

The Presbyterian Auxiliary will meet at the church at 3:30 o'clock with Mrs. Andrew Fasken as leader and Mrs. Fred Turner, Mrs. Tom Sealy, and Mrs. L. B. Lancaster as hostesses. After the inspirational meeting a silver tea will be held by the Christian Endeavor and all are invited to attend.

The W. M. S. of the First Methodist church will be entertained at a

social meeting at the home of Mrs. George Glass Monday afternoon at 3:30 o'clock.

The Business and Professional club will meet at 7:30 o'clock in the private dining room of the Scharbauer Hotel.

The W. M. U. of the First Baptist church will meet as follows: Martha Holloway, Mrs. N. W. Big-ham, 310 W. Louisiana; Evangel, Mrs. W. L. Fickett, 905 W. Missouri; Annie Barron, Mrs. R. V. Lawrence, 937 N. Lorraine.

Tuesday
The Delphian club will meet in the private dining room of the Scharbauer Hotel at 9:30 o'clock.

The Woman's Bible class of the Church of Christ will meet at the church at 3:00 o'clock.

The Enigma club will be entertained at the home of Mrs. Harvey Conger at 2:30 o'clock Tuesday afternoon.

The Alpha Club will be entertained at the home of Mrs. Roy Downey at 2:30 o'clock Tuesday afternoon.

Wednesday
The Midweek club will be entertained at the home of Mrs. John House at 2:30 o'clock Wednesday afternoon.

The Fine Arts club will meet at the home of Mrs. A. N. Hendrickson Wednesday afternoon. Mrs. Harvey Conger will be leader.

Thursday
The Bien Amigos club will meet at the home of Mrs. C. A. Mix Thursday afternoon at 2:30 o'clock.

Friday
Mrs. J. R. Norris will be hostess to the Escondida club Friday afternoon at her home, 705 N. Marlenfeld, at 3:00 o'clock.

The Belmont Bible class will meet

Mrs. Frank Cowden Entertains 1928 Club at Bridge

Mrs. Frank Cowden was hostess to the 1928 club January 21 at her home at 3:00 o'clock in the afternoon.

A color motif of yellow and green was carried out in the table appointments and prize wrappings. Mrs. John House won high score. Mrs. Joe L. Crump won second high, and guest prize went to Mrs. O. B. Holt.

An attractive party plate was served to the club guests, Mrs. Ellis Cowden, Mrs. O. B. Holt, and Mrs. George Glass, and the club members, Mmes. J. M. Caldwell, Elliott Cowden, Joe L. Crump, Johnson Phillips, Clarence Scharbauer, William Simpson, Don Sivalls, J. B. Thomas, John House, and the hostesses.

H. D. Reporters Club Met Saturday

At a meeting of the Midland County Home Demonstration Club reporters Saturday afternoon a new organization was effected.

Mrs. Lura Hollingsworth, C. H. D. agent, gave instructions on the methods of procedure in writing a club story, and Mrs. J. D. Bartlett was elected chairman of the reporters association.

The association's next regular meeting will be on February 27, and each club reporter is urged to be present.

Miss Agatha Bruner Hostess Saturday At Afternoon Bridge

Miss Agatha Bruner entertained at bridge Saturday afternoon at the Abell residence at 3:00 o'clock.

A motif stressing the patriotic colors red white, and blue, corresponded with the novel "Texas" tallies and the tinnis used in the table appointments and prize wrappings.

Miss Mary Kennington won high score for the afternoon, and Miss Jesse Price, second high.

An attractive party plate was served to the guests, Misses Annie Frank Stout, Catherine Odell, Elaine Meadows, Jesse Price, Mary Lowery, Veta Crawley, Ruth Anderson, Mary Kennington, Lois Frazier, Dura Roxborough, Mrs. R. F. Faag, and the hostess.

at the home of Mrs. J. B. Crawford at 3:30 o'clock Friday afternoon at 311 W. Pennsylvania.

Mrs. O. B. Holt will be hostess to the Joie de Vie club at 2:30 Friday afternoon at her home.

The Lucky 13 club will be entertained at the home of Mrs. B. M. Hays Friday evening at 7:30 o'clock.

Saturday
The children's story hour will be held in the library at the county court house at 10:30 Saturday morning with Mrs. J. R. Ashley in charge.

The Mesquite troop of the Girl Scouts will have a hike Thursday afternoon at 3:30 if the weather permits and if not, they will have a luncheon at the Baptist annex.

Good Attendance At Story Hour

The Story Hour for children met in the junior library of the county court house Saturday morning at ten o'clock with Mrs. Billy Bryant sponsoring the morning of entertainment.

The children attending were: Enid Wheeler, Patsy Ann Patterson, Mary Martha Sivalls, Dorothy Turner, Patricia Ann Mix, Ellana Eastham, Royce Williamson, Charles Ray Williamson, Billy Holcomb, Billy Eate, Jane Harrison, Harvey Harrison, Audie Merrill Geneva Merrill James Merrill, Eloise Pickering, Billy Pigg and Valda Pigg of Prairie Lee, and Betty Ruth Pickering.

Mrs. L. H. Tiffin Hostess at Bridge

Mrs. L. H. Tiffin entertained at two tables of bridge Friday afternoon at her home.

A color motif of blue and silver was stressed in the table appointments and the prize wrappings.

High score prize went to Mrs. Butler Hurley, second high to Mrs. Sam Giesey, and high cut to Mrs. W. J. Coleman.

A desert course was served to Mmes. Sam Giesey, Butler Hurley, John B. Mills, W. J. Coleman, S. M. Laughlin, B. W. Reecer, and Mrs. Bill Collins.

Belmont Bible Class At Mrs. Paul Smith's

The Belmont Bible class met at the home of Mrs. Paul Smith Friday afternoon with Mrs. J. M. King teaching the lesson from the first chapter of Hebrew.

Refreshments were served at the social hour to Mmes. C. E. Nolan, C. E. Strawn, J. D. Crawford, John King Jr., J. M. King, R. L. Stewart, W. G. Attaway, Frank Simpson, James Adamson, W. L. Fickett, J. C. Hildman, C. O. Fredrigill, and Mrs. H. C. Carmichael, a visitor.

Valley View Club Plans Month Menu

The Valley View Home Demonstration Club was entertained by Mrs. Lois Lewis on January 19, 1937.

The demonstration for the afternoon was "Planning a Long Time Menu," which Mrs. Hollingsworth gave in a very interesting and instructive manner. When she finished her talk, she helped each person present to plan a menu for one week from which a month's menu may be worked out. By doing this planning for some time ahead, the thrifty home-maker not only cuts down the living budget but also cuts down ill health and the cause for doctors' bills and possibly a hospital bill as well.

This beforehand planning may cause some members of the family to become better acquainted with more delicious and healthful foods and learn to eat them more regularly, which is the one great objective of the project.

As it is permissible for the clubs to have two bedroom demonstrators Mrs. L. M. Jones was named as such along with Mrs. L. B. Stewart, who had previously been named.

The next meeting of the club will be at the home of Mrs. B. L. Mason on February 2, 1937, and the demonstration will be on wardrobe work, the subject being "Line and Design," which is one of the most interesting demonstrations of wardrobe work.

At the conclusion of the business and demonstration, the hostess served "Baked ham and egg sandwiches with pear sweet pickles and hot tea to the following visitors: Mmes. E. D. Sanders, Flora Dell Hudson, and H. M. Carpenter; Members: Mmes. L. M. Jones, W. S. Hudson, C. C. Carpenter, B. L. Mason, Jack Tisdale, Lura, Hollingsworth, C. H. D. A., G. C. Brunson, H. L. Matteson, J. D. Bartlett, and a new member, Mrs. N. P. Blanton.

Miss Ratliff Hostess To Saturday Club

Miss Bennie Sue Ratliff entertained the Saturday Bridge Club January 23 at her home with three tables of bridge.

High score prize went to Miss Ida Beth Cowden and high cut to Mrs. Ben Black.

CHURCHES

ST. GEORGE'S CHURCH

TRINITY CHAPEL

Rev. P. Walter Henckell will conduct services at the chapel at 11:00 a. m. All communicants and visitors are urged to attend.

Today's Sunday School Lesson

By W. W. LACKEY

TWO MIRACLES OF MERCY:

John 5:1-6:71. Print: John 5:2-9; 6:8-15; Read: John 5 and 6, and Matt. 9:32-28; 25:31-40; Col. 1:9-18; Ps. 146:5-10.

I. VITAL MATTERS NONPRINTED

1. Persecution after first miracle. and the fourfold witness of Christ. 2. Walking on the sea, and Jesus the bread of life. 3. The blessings of those in Christ, and the murmurings of the Jews. 4. "To whom shall we go? Thou hast the words of eternal life."

II. AT THE POOL OF BETHESDA:

1. "Sick, blind, halt withered" the impotent man: helpless and friendless. 2. "Wilt thou be made whole?" "Arise, take up thy bed, and walk." 3. "Sin no more," and the mystery of human suffering. 4. The compassion of God, and helping to maintain another man's courage.

III. FEEDING THE FIVE THOUSAND:

1. Only miracle by all evangelists; distinguished from 4 thousand; Matt. 15, Mk. 8. 2. "Whence shall we buy bread, that these may eat?" Philip and Andrew, Christ. 3. "Five barley loaves and two small fishes," "among so many." 4. Giving thanks, getting more than we give, and God's arithmetic.

IV. THE MIRACLES OF CHRIST:

1. Definition: "God's use of his own law-abiding powers." Law over law. Moral. 2. The 37 miracles of Christ, their real purpose, and Christ's opinion. 3. "The very works that I do, bear witness of me, that the Father hath sent me." 4. "And greater works than these" the church, the bodies, the economic status of men.

V. SMALL TALENTS AND FIVE GREAT LAWS:

1. In all his work God uses earth-

ly instruments. 2. He has the right to use any instrument that he pleases. 3. He does not despise an insignificant instrument. 4. He holds us accountable for the right use of the small talents we possess. 5. Consecration vs. ability, the great anonymous company of the Bible.

VI SENTENCE SERMONS:

1. "Beside every pool of mercy or privilege in human life there are one or more unbefriended sufferers."—Theodore Cuyler.

2. "Yield thy poor best and ask not how or why, Lest one day seeing all about thee spread a mighty

crowd and marvelously fed, Thy heart break out into a bitter cry; "I might have furnished, I, yea, even I, the two small fishes and the barley bread!"—Langbridge.

3. "In sickness be not negligent, And to the physician also give place; For there is a time when successful help is in his power, For he also maketh supplication to God."—Ecclesiasticus.

To make a diagnosis successful, And the treatment that it may promote recovery."—Ecclesiasticus.

CAMPAIGN AGAINST TUBERCULOSIS IS BEING ACTIVELY WAGED IN MIDLAND

(Editor's note: The following article was delivered by Miss Betty Wilson, county health nurse, at the annual meeting of the Midland county health board this week. Miss Wilson used illustrated posters in depicting subjects discussed. It is presented for its news value.)

BY MISS BETTY WILSON

We have stressed Tuberculosis through the entire year, did the T. B. skin test in the spring, gave 128 tuberculin test, with 33 positive reactions. The T. B. Committee paid for 15 x-rays, out of the 15 persons x-rayed six were sent to the Sanatorium. Eight of the others paid for their own x-rays. Ten people have been sent to the sanatorium from this county this past year.

Three from one family the mother and two children who only stayed two months, when they returned I made a home visit the mother informed me she knew how to take care of her children. Two sisters in one family only remained two weeks. One was a married woman with a child nine years old. We have great need for education among

this class of people. The Burr cottage was used by two people this year before going to the San. One month of the radio programs was devoted to Tuberculosis this year.

We must remember that recovery from Tuberculosis is only accomplished by the recuperative powers of the body. And the management of the patient convalescent from Tuberculosis is as equally important as during the active stage of the disease.

Dr. Francis M. Pottenger National-ally known specialist says no one is too young or too old, too fat or too thin, too rich or too poor. It comes to the city dweller and also to the dweller in the country. No one is immuned. Dr. Pottenger had one man 81 years old apparently had been well and hearty until six months before consulting him.

As you see from this poster Typhoid Fever is contracted through several different sources, polluted water, through contamination of food, sewage system, unclean milk, and a person who may be a typhoid carrier, not apparently ill with the disease. 75% of all typhoid comes in the last six months of the year.

With the State Health Department furnishing the vaccine and our Tuberculosis committee paying the doctor's for administering the vaccine we immunized 462 people in this town and county this past year.

Typhoid fever is far more prevalent than it is generally thought to be. There has not been a single period of one year's time as far back as the records of the Texas State Health Dept. go that shows no typhoid fever in Texas.

The Health Board began its weekly radio programs on March 4th 1936. It has had a health program every week with musical numbers. I wish to take this opportunity to thank Mr. Scharbauer the owner of K R L H and Mr. McAlister also the artists who have appeared on the programs for the interest and time they have given toward this educational health program being sponsored by the board.

The programs have consisted of Infant Care Prenatal Care Communicable Diseases, Dental Care, Vaccination Fatalities, Preparation for Entering school, and School Lunches, Nutrition for the entire family, Sunstroke, What is the Public Health Nurse, Tuberculosis and the Modern Girl, also all Phases of Tuberculosis, Sanitation, Shopping for Milk, New Health for Texas, and numerous other subjects. Mrs. Sloan will give a more definite report on this.

Looking at this poster you only think of the child who shows some physical defect of its bones and muscles. But we have others who are crippled from Tuberculosis in as much as their physical strength is impaired, which means if they are allowed to work too soon after returning from the Sanatorium, or to do strenuous work they will break

down again very soon. So now the Rehabilitation Division of State Department of Education is offering to assist these people to learn some trade or occupation suitable to their strength that will prevent another outbreak of the disease. But they expect our local business men to assist with this program by taking the person into their business and training them.

We also have the epileptic who is considered a cripple, these people may be placed in institutions.

We had four children from this county the past year treated through The Texas Crippled Children's Society. One was a sixteen year old girl who has had arthritis of the left arm for several years. Two boys twins who were so bow legged they could hardly walk. These babies just failed to assimilate their food. The other was a boy who had infantile paralysis. Roosevelt says—"We shall insist that every child, no matter how maimed, should be of use in this world."

Have attended two conventions this past year, both requiring me to be away ten days each. The first one was the National Tuberculosis convention in New Orleans, with 899 people being registered. Twenty five states were represented. The program consisted of various phases of Tuberculosis work. Will list some of the subjects of papers that were given.

Essentials of school health education, which was divided into three parts, Correction of defects, Safety education, Rural health problems, Health needs, Units of work, Bulletin service, Social and vocational rehabilitation, Distribution of mortality of Tuberculosis, Recruiting and training tuberculosis workers, Opportunity for valuation and self appraisal, Strengthening of the state organization, Ingrated assistance program, Tuberculosis in infants and children, Tuberculosis in adolescence.

The Texas Public Health Association meeting was held in Kilgore, Texas. The first three days was an institute held for the nurses on infant and maternity care. We were reviewed back to our training days, then all new and modern methods were given us, by Miss Anita Jones who is a graduate nurse and a Midwife that works for the maternity center Association in New York City.

The remainder of the meeting was devoted to various public health subjects, health work in the school, health work in the business interest. A program of dental health, health program of the parent teachers organization, conservation of vision, sanitation improvement in Texas rural schools, publicity and its relation to public health work, rabies control, the need of health protection for tax payers and citizens. Communicable disease control, the obligation of the medical profession to disseminate public health information, administrative problems in sparsely populated areas, mislabeling of milk bottles in Texas, what next in public health by Dr. Atwater of New York, numerous other subjects that would take so much time to give.

Shall give you a few points about our schools. We have eight schools in the county four of them are one teacher schools teaching through the 7th grade. Three are two teacher schools that teach 9th grade subjects. One is a three teacher school that teaches most of the high school subjects.

Three of these schools are brick veneer, two of them have ccess pools, the others have Pit-type toilets. Six of the schools have drinking fountains in the buildings with lavatories for hand-washing. One has a well, the students bring their drinking cups and go to the well for water. One school has to haul its water. They have an old type cistern dug, but it does not rain often enough in this country to keep a supply of water. It seems the logical way to solve that problem would be to move the school building. With that problem, its very hard to carry out water sanitation in that school. Two of the schools have electric lights.

Our city schools as you know, most of them are very crowded at the present time, especially the elementary schools, every teacher having more students than she can very well do justice toward, where she has several students who are failures, they naturally demand more attention.

The dentist made a dental examination in the colored schools this fall, 43 students were examined. I have made 228 visits to the schools, these visits consisted of various inspections for such diseases as scabies, impetigo, malnutrition, pink eye, some of the childhood contagious diseases. I talked to the children in regard to colds, necessity for care of their teeth, cleanliness of the body, biting the finger nails.

If the teachers think any child needs glasses they are sent to my office for a test. When a slight defect is found they are referred to their doctor. Those that are unable to pay for the glasses the Lions club finances, they paid for ten pair this year.

Have shown three films to the school children, one last spring on "Drinking Health" this fall two "The Life of a Healthy Child" "Behind the

Shadows" which is a tuberculosis film.

May Day health programs was held in four of the city schools including colored school. The rural schools had a combined May Day program at the Yucca Theatre. These programs consisted of various health plays, poems, songs and dances for exercise.

This year we have the health report cards in the schools, the parents check these cards which gives the teacher and myself some idea as to the child's health habits in his home, also what childhood diseases we may be on guard to detect of the child in school.

Had one Junior health class in junior high school this year.

The posture examination given at North Ward school in Oct. was conducted by Mrs. L. C. Thomas, physical instructor in the Dept. of Physical Education for women at the State University of Iowa. With the financial sponsorship of the North Ward Parent-Teacher Association. This examination was conducted in conjunction with height, weight, and general inspection by your nurse. Appointments were handled by Mrs. Alma Thomas principal of North Ward school.

Two hundred and twenty four were examined.

An attempt was made to place the child at ease to establish normalcy. The child's feet were examined, sitting, standing, and walking primarily regarding the habits of normal usage and with particular reference to the long arch. A special exercise program for feet was suggested to the parents in cases in which it seemed advisable. General posture was next inspected from side and back in standing, and walking positions and in a few cases, the sitting position. An attempt was then made by means of suggestions from the examiner and manual aid when necessary to help the child attain his best possible position. By means of a mirror, this improvement was pointed out to the child and the difference between the normal position and the improved position was made clear to the parent.

41% of the children have abnormal long arches which apparently is due to the children wearing boots as the boots do not have any arch support in them. 6% already have flat feet. 19 of these children need at least one term in a supervised correctly to establish and fix good posture habits. Careful training at this time may prevent serious postural defects as well as other complications. Practically all of the children would show a marked and permanent improvement in posture if a regular course in posture training were available in the school's curriculum.

A properly trained individual should be available to conduct posture examinations at least twice a year. Subsequent examinations will serve as a check on improvement with training and will serve to discover postural defects in the early stages when it is possible to correct them. It would be advisable for these subsequent examinations to be made by the individual directing the instruction in postural training. A properly trained instructor in Physical Education should be able to fill this position.

To carry out such education in posture training and to make subsequent examinations properly equipped and arranged space facilities should be provided. This should be given special consideration in planning any new building.

In order that the children in the Midland schools may have a complete health examination, medical examination, as well as the height, weight, health-habits, posture examination as given in the fall should be included.

Follow-up program: Individual cases were discussed with the room teacher. A general postural, introduced incidentally, was planned with special emphasis for certain cases. At this time it is not possible to conduct special cases for any of the students.

Have had 1,327 visits to my office

this past year, these visits consisted of whites, Mexicans and colored callers.

MAGIC CHEF GAS RANGE

An extra hour of leisure every day; perfect cooking results every time; greater convenience in meal preparation; a cooler, more comfortable kitchen—these are some of the reasons why a modern, automatic Magic Chef gas range will bring you 365 days of joy and happiness this year and every year for many more years to come. Come in today and let us show you the many new and exclusive features of these latest model Magic Chef gas ranges.

FEATURES OF THE NEW MODERN MAGIC CHEF GAS RANGES . . .

- New High Speed Oven saves baking time, reduce gas consumption.
- New Swing-Over Broiler gives greater convenience, protects the cook.
- Red Wheel Loxan Oven Regulator insures perfect cooking results.
- Timer to tell when food is cooked.
- Automatic Top Burner Lighters.
- Non-Clog Top Burners and Sanitary High Burner Trays save time and work.
- Full insulation keeps both kitchen and cook more comfortable.

Two-Tread Air Cooled SEIBERLINGS

CARRY THE STRONGEST GUARANTEE ON THE AMERICAN MARKET FOR REAL SAFETY

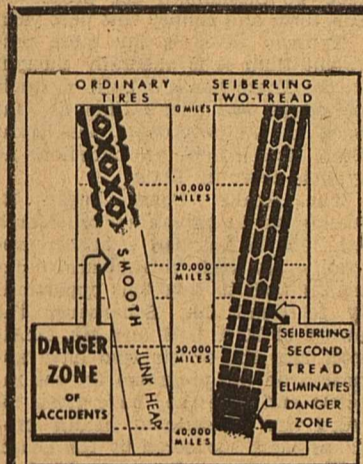

Driving on smooth, badly worn tires is as dangerous as handing a loaded revolver to a child. Smooth tires, like a thief in the night, slip up on you when you least expect them.

TWO-TREAD SEIBERLING tires Never Wear Smooth! When the first tread wears off, the second tread appears, thus, the danger point in ordinary tires becomes the new safety point in TWO-TREAD Seiberlings.

MERLE FULTON Manager

SEIBERLINGS ARE Unconditionally Guaranteed AGAINST ALL ROAD HAZARDS

Above is a scale which represents the life of an ordinary one tread tire. Notice the tread has worn smooth at 20,000 miles. "Too good to throw away," the tire enters the danger zone of accidents. The patented TWO-TREAD Seiberling tire on the right has just run through to its second tread at 20,000 miles. It remains safe and tractive to the last mile!

A SEIBERLING Tire for Every Purse And Purpose!

Choose any of the three famous Seiberling tires illustrated with the knowledge that you have the best single-tread tire money can buy. We make liberal trade-in allowances on your old tires.

Oil News--

Continued From Page One

are the high gravity of its oil and its proximity to a pipe line. The Paso-Tex (Standard Oil Company of Texas) pipe-line which serves the Whelan pool, only other Delaware producer in West Texas, is but 18 miles removed from the Mason area. The Mason Oil Company, of which O. M. Mason is president, is a subsidiary of the Michigan Gas & Oil Company, the value of whose stock has recorded a spurt on the curb market since the well was brought in. Acreage holdings in the area are sufficiently diversified that more wells will probably be started soon. In addition to the Mason Oil Company, which has about 4,000 acres surrounding the well, Argo Royalty Company has leases on 3,000 acres as well as minerals. The T. P. Land Trust is also well represented in the area with several sections in fee.

Terry Test Is Duster

Uscan Oil Company and Illinois Oil Company No. 1 Brownfield, wildcat in southwestern Terry county about eleven miles east of the Youakim pool, is preparing to plug and abandon at total depth of 5,677 feet in hard brown lime. It did not drill into water. Located in section 54, block K, public school land, the original contract depth of the test was 5,500 feet, but it was recently drilled deeper on a day-to-day basis. No shows of any consequence were encountered. It is 17 miles southwest of Brownfield and was started August 16, 1936.

In southeast Terry, W. L. Pickens et al No. 1 Lewright, closely watched wildcat ten miles northwest of the Dawson county discovery, is shut down at 4,432 feet in lime and anhydrite because of broken Kelly. Another Kelly had been ordered from Hobbs and was expected to arrive at the well last night. Top of brown lime was called by sight at 4,270 in the test. It is located in the center of the northeast of the northeast of section 1, block C-37 public school land.

In Gaines county, Amerada No. 1 C. E. Robbins, test a mile south of the Landreth No. 1 Kirk discovery, is drilling below 4,854 feet in lime. It tested about five gallons of oil hourly from show at 4,820-25. Location is in the center of the northwest of the northwest of section 9, block A-22, public school land.

Four miles west and slightly north of the Landreth well, Stanolind No. 1 J. A. Morrow, section 20, block A-24, public school land, is rigging up standard tools. Present total depth is 4,806, with 7-inch casing set at 4,558.

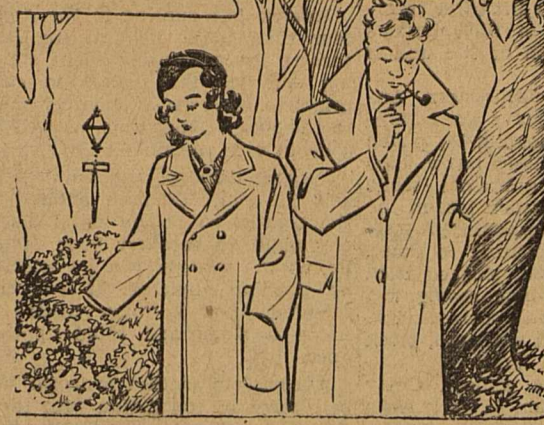

Moxley Test Coring

George F. Getty, Inc. No. 1 Moxley, wildcat five miles southwest of the Means pool in Andrews county, was coring ahead at the week's close. After drilling plug from 7-inch casing set at 4,359, the well was bailed to bottom at 4,698, showing a scum of oil. It was allowed to stand overnight and water was found to have risen 20 or 30 feet. Some attributed the source of the water to formation, while others believed it to be drilling water contaminated by sulphur gas. Location of the No. 1 Moxley is in the center of the northwest of the northeast of section 15, block A-45, public school land.

Humble No. 13 J. S. Means, in the Means pool, was flowing 36 barrels See (OIL NEWS) page 8

'The Big Show' Offers Public Front Row Seat at Texas Centennial Show

Again the astute showmen of Republic Pictures have beaten Hollywood to the punch by obtaining the \$25,000,000 production background of the Texas Centennial at Dallas, for Gene Autry's latest special musical western, showing today and tomorrow at the Ritz theatre. "The Big Show" is really that. Aside from the Texas Centennial atmosphere placed at the photographic disposal of Republic over a period of several weeks, the film boasts a cast of twenty-odd noted names four nationally known radio orchestras, a large University band and numerous specialty singers and performers. The Dallas exposition events captured by a crew of four movie cameras include Henry Ford's \$3,000,000 exhibit, General Motor's building, which cost \$1,000,000, Chrysler's estimated at \$500,000. Back at the studio in Hollywood twenty-one supporting players and four orchestras joined the cast. The players in clude Kay Hughes, leading lady; Sally Payne and Christine Maple, former Follies beauties; William Newell, Grace Durkin, former child star; Max Terhune, famous magician; Smiley Burnette, Marry Russell, Rex King, Harry Worth, Jerry Larkin and Vic Larcado, Wedgewood Nowell, Jeanne Lafayette, Richard Beach and Frances Morris. The radio bands which contributed instrumental music and singing were the Beverly Hill Billies, the Jones Boys, and the Sons of Pioneers. "The Light Crust Doughboys."

Comedy Hits Peak in 'Theodora Goes Wild,' Irene Dunne Excels in Role

A brilliantly written, superbly acted, delightfully directed romantic comedy, Columbia's "Theodora Goes Wild", showing today thru Tuesday at the Yucca Theater definitely "chooses to run" in the annual critical pow-wows which decide the year's "ten best" pictures. And, what's more, it looms as a dangerous contender. Firstly, "Theodora Goes Wild" is screen entertainment which combines delightful nonsense with a plausible story, scintillating performances by Irene Dunne, Melvyn Douglas and a large supporting cast, sparkling dialogue by scenarist Sidney Buchman and truly inspir-

Bulldogs Win 2 Games, Lose To Barstow, 16-22

The Midland Bulldogs didn't get far in the Pecos tournament held Friday and Saturday but did impress spectators as being one of the best teams in the tourney and one that went out early only because the Goddess of Fate turned both cheeks and body the other direction just when they needed a little help.

Dave Wafford, who is just about as valuable to team morale for the Bulldogs as Napoleon was to the French army, found himself suffering from every ailment Saturday from sprains to dandruff, and finally had to call it a day during the Midland-Barstow game. And with his departure went hopes of a Bulldog victory.

After having triumphed, 23-12, over a Pecos independent quint Friday night after their scheduled opponent, Van Horn, had failed to appear, the Bulldogs started Saturday off right by defeating Pecos III by a 22-17 score but went down before Barstow, 16-22. Armstrong, lanky center for Barstow, swept the Bulldogs off the court as he got away from the ailing Wafford and all subs put after him to account for 15 points. Wafford was high point man for the Bulldogs in each of the three games, making 13, 12 and 9 in the order the games came along. He started the final game like he would make it the banner one of them all but failed to hold up, finally being withdrawn from the

Oil News--

Continued From Page 7

of oil hourly on gas lift after treating with a total of 6,000 gallons of acid. Total depth of the well is 4,543 feet.

A wildcat in southwestern Andrews, American Liberty No. 1 Mayhew, section 23, block A-51, public school land, is drilling below 3,550 feet in lime and anhydrite, while Hannigan No. 1 Logsdon test in the northwest part of the county, is testing casing and preparing to shoot. Total depth is 4,650, plugged back from 5,020, and 7-inch casing was cemented at 4,229 with 60 sacks. The No. 1 Logsdon is in section 5, block A-32, public school land.

Another Andrews wildcat, Getty No. 1 Landley, section 8, block A-45, public school land, is drilling at 3,983 feet in anhydrite.

Producers Completed

Completions recorded at the end of the week included: Reno Oil Company No. 3 Beegman, in the South Ward pool, which flowed 84 barrels a day through 2-inch tubing. It topped pay at 2,185, is bottomed at 2,263, and was shot with 300 quarts.

In North Ward, Gulf Oil Corporation No. 64 Hutchins flowed 1,171 barrels in 24 hours with 1,540,000 feet of gas. It was shot with 430 quarts from 2,533 to 2,754, the total depth. In the Henderson pool of Winkler, Humble No. 10-C Walton flowed 2,063 barrels, natural, on 24-hour test through open 2 1/2 inch tubing. Total depth is 3,053, and gas tested 2,450,000 feet.

Sinclair-Prairie No. 45 Dodge, in Howard county, flowed 200 barrels the first 12 hours after shooting with 700 quarts from 2,500 to 2,770.

A North Cowden pool well in Ector county, Atlantic, Tide Water and Skelly No. 2 Wight, flowed 549 barrels a day, bottomed at 4,290. It topped pay at 4,115 and was shot with 330 quarts.

On re-test after treating with 3,000 more gallons, American Liberty No. 3 Tubb, in the Crane deep Permian pay area, rated 1,250 barrels a day.

The world's largest wheat field is at Hardin, Mont. It comprises 200,000 acres leased through the Interior Department to Thomas Campbell, and is part of two Indian reservations.

Port Stockton and Barstow were to meet in the finals at 10 last night. Score on the game had not been learned at press time.

Interest Mounts In Amateur Hour Here

Interest is mounting in the Amateur Hour to be held at the Ritz theatre every Tuesday night starting Jan. 26. Ten dollars in cash prizes to be given away every week to the lucky contestants, as well as a debut over the radio.

Singing, dancing, and novel stage acts have already been entered in the contest so be on hand Tuesday night to vote for your favorite, as the winners will be selected by popular applause. If you are talented, now is your chance to make a stage and radio appearance.

A complete picture program will be offered in connection with these Amateur programs. The feature picture Tuesday will be John Wayne in "Conflict." Selected short subjects will also be included on the program.

Billy Rose to Judge Texas Tech Beauties

LUBBOCK, Tex.—Billy Rose, famous Broadway and Texas Frontier Centennial theatrical producer, not yet has completed his judgment of Texas beauty.

This spring the producer of "Jumbo" and other Broadway hits will view colored motion pictures portraying the sixteen most beautiful girls of Texas Technological college. From the group he is to select the eight most beautiful co-eds, said Winston Reeves, editor of La Ventana, Texas Tech student yearbook. The winners are to be in the book's beauty section. Rose will be resuming his judging of Texas beauties which he started in Fort Worth this summer in selecting casts for his mid-way productions there.

The sixteen will be selected in a campus-wide election next month, Reeves said. The editor, who is a free-lance photographer, will film each candidate in technicolor and send the movie strips to Rose in New York.

When the weasel's fur turns white in winter, it serves him better in two ways: A white coat is less conspicuous in snow, and also conserves more of its owner's body heat than a dark one.

Bees are the only insects ever domesticated by man.

Tuberculosis

(Continued from page 5)

but when she enters the home she consolidates or brings together all these teachings into an effective demonstration. The principles of health and hygiene are applied in the home to which the visit is made. Among such demonstrations are infant feedings, balanced diet for the family, special diets for the sick, ventilation of rooms, sanitary disposal of waste, control of vermin, isolation for contagious diseases.

Infant care properly begins before the baby is born. We call this prenatal care. Your nurse made 80 visits to homes this year to demonstrate to prenatal mothers and urge them to keep under the close supervision of their family physician.

118 visits were made to homes for instruction in care of infants. The nurse always leaves approved health literature on prenatal and infant care in these visits.

The preschool age is perhaps the most important as to training habits. The things a child learns at this age "sticks" better, and what is learned at home will more likely be carried out in actual practice than those learned away from home. The public health nurse encourages and aids the mother in informing herself of the correct habits and training methods advocated by the best pediatricians and child psychologists. I made 60 visits relative to preschool children in the home.

RITZ

Today and tomorrow—Gene Autry in "The Big Show."

Tuesday and Wednesday—John Wayne in "Conflict".

Thursday—"The Man I Married", with Michael Whalen.

Friday and Saturday—Bob Allen in "The Unknown Ranger."

ed direction by the versatile Richard Boleslawski.

The greatest surprise of all is the introduction of Irene Dunne as a full-fledged comedienne, a bold move by the Columbia Studios bigwigs who were convinced that, given the proper story, "the orchid lady" could romp and rough-house with the best of them.

Miss Dunne's "Theodora" is a small-town nobody who wins great fame under a non-de-plume as the author of a series of spicy, sophisticated novels. Her identity is kept secret until Melvyn Douglas, as a happy-go-lucky illustrator, discovers who she is, follows her home and in a brief courtship wins m-lady's heart.

Having decided to marry Douglas, Miss Dunne is only slightly set back on learning he has an engaged wife. In order to induce Wife No. 1 to give Douglas the divorce he wants, Miss Dunne's "Theodora" goes "wild" in a fashion that had yesterday's audience wild with laughs.
