## INSURGENTS HURL FULL POWER UPON TWO REBEL FRONTS

Valencia Is Menaced  
By Offensive Of  
Rebel Troops

**DEADLINE NEAR**  
Reinforcements Of  
Outside Soldiers  
To Be Halted

(By Associated Press)  
Insurgents hurled strong offensive  
on two fronts in the Spanish war  
today, one menacing Valencia, tem-  
porary government seat, and the  
other seeking to isolate Madrid by  
capturing the vital Valencia high-  
way.

Apparently no defensive army is  
obstructing the path toward Valencia  
but the city is mobilizing every  
possible unit of man power.

The government claimed a tell-  
ing counter-offensive on the Madrid  
front with the deadline set for isola-  
tion of the war by international  
patrols starting Feb. 20.

France has rushed armed guards  
to strengthen its vigil on its Span-  
ish frontier.

Government militiamen clung to  
the vital Madrid-Valencia highway  
Tuesday night, targets for insur-  
gent machine gunners command-  
ing the heights along the Jarama  
River.

Government motorcycle couriers  
braved the fire to cross the Argan-  
da bridge on the highway some ten  
miles southeast of Madrid, but other  
traffic detoured for a stretch to the  
north.

Government officers said the  
highway, except for that detour, was  
open.  
Insurgents asserted as early as  
Feb. 9 they had severed the road be-  
tween Valencia and Madrid, main  
artery connecting the besieged cap-  
ital and the temporary seat of gov-  
ernment.

Government reinforcements, mean-  
while, moved into defense positions  
in the region along the Jarama,  
making further insurgent advances  
more difficult nearby.

On some of the hillsides to the  
rear, khaki-uniformed line men ran  
field telephone lines. Occasionally  
they stopped to chat with sweating  
peasants erecting stone fortifications  
above new trenches.

The populace of this village took  
Arganda's elevation to the status of a  
war center without protest. Except  
for the presence of soldiers  
loitering in the main street, the town  
appeared little changed.

## QUARTERLY GROUP LIONS MEETING TO BE HELD HERE

Boy Scout Program  
Today's Feature  
At Luncheon

Members of the Midland Lions  
Club, at their regular weekly lunch-  
on in the assembly room of the  
county courthouse today noon, set  
Friday evening, March 19, as the  
date for the quarterly group meet-  
ing of Lions Clubs of this section,  
which will be held in Midland.  
Committees for the group meeting  
were appointed by President John  
F. Butler as follows: arrangements,  
Claude Crane, M. C. Ulmer, and  
Tom Parker; program, W. F. Heil,  
S. M. Vaughan, R. B. McAlister,  
and Bill Collins.

Today's luncheon was featured by  
a Boy Scout anniversary program  
which was in charge of R. C. Conk-  
ling. Buster Howard, local Boy  
Scoutmaster, in an interesting ad-  
dress, outlined the local Boy Scout  
program for the coming months,  
while listing the objectives, activi-  
ties and benefits of Scouting. How-  
ard stated that local Scouts have  
made an average of 12 hikes per  
year for the past eight years and  
that during that time only two ac-  
cidents have occurred. He discussed  
the Boy Scout Merit badges and told  
of the requirements necessary in ob-  
taining them. Approximately 10 Mid-  
land boys will attend the National  
Jamboree in Washington this year,  
he said.

Darold Wilson, field executive of  
the Buffalo Trail Council, was next  
presented in an inspirational ad-  
dress dealing with citizenship train-  
ing as secured in Scouting. Wilson,  
in enumerating the qualities which  
go to make up a good citizen, lauded  
Scout leaders for their good work  
in putting the Scout movement over  
in Midland in such grand style. The  
speaker told of the expectations and  
duties of a good citizen in both  
personal and public life. Worth-  
while citizens are those who can and  
will do things, he said.

A saxophone duet by Dean "Red"  
Anderson and James Mims, high  
school students, was greatly enjoyed,  
the boys being presented by M.  
A. Armstrong, high school band di-  
rector.

The district convention of Lions  
International, which will be held in  
Big Spring on May 2-3-4, was an-  
nounced.

Guests present at the luncheon in-  
clude (LIONS MEETING) Page 4

## Conducts Famed Cowboy Band

Marion B. McClure, conductor of the famed Hardin-Simmons band will appear in the high school auditorium here tomorrow afternoon at 1:30. The band is one of the widest known in the country, annually making trips over most of the nation. In the past few years they have traveled enough miles estimated to send them around the world seven times. Admission charges tomorrow will be 25 cents for adults, 10 cents for school children.

## 'PACKING' SUPREME COURT IS WRONG SOLUTION, SENATOR CAPPER'S VIEW

This is another of a series of articles presented Reporter-Telegram readers to give them the arguments for and against President Roosevelt's supreme court reform plan, on which the Reporter-Telegram is conducting a poll in co-operation with 700 other U. S. newspapers served by NEA Service, Inc. In this article, Senator Arthur Capper of Kansas sums up his reasons for opposing the president's plan.

By ARTHUR CAPPER  
United States Senator from Kansas  
While I have disagreed with, and have been bitterly disappointed in, several decisions of the U. S. supreme court as to the constitutionality of laws enacted by congress in the public interest, I do not believe the remedy lies in "packing the court" by the chief executive.

I am opposed to President Roosevelt's proposal to name additional judges through the device of allowing one of these for each justice who has attained the age of 70.

I am opposed to giving to the president the power to wield that great an influence upon the decisions of the supreme court.

If President Roosevelt, no matter what his motives may be, can add six members to the court to get the decisions on constitutional questions which he desires, then a succeeding president—if he has the necessary majorities in congress behind him—can add whatever number of justices he finds necessary to get decisions to his liking. That would lead to anarchy in law which would compel a dictatorship.

I believe in maintaining the integrity of the judiciary, just as I believe in maintaining the integrity of the legislative and of the executive branches of the government.

I will say frankly I do not believe the supreme court has given proper weight to the general welfare clause of the preamble to the Constitution in its interpretation of the Constitution itself. The preamble is the heart and soul of the constitution; the constitution, and laws enacted under it, are the means to the ends as set forth in the preamble.

CONGRESS OR THE STATES?  
As an example of what I mean, the minority opinion in the AAA decision took cognizance of the purposes of the Constitution as set forth in the preamble. I have always felt that the minority had the correct view in the decision which invalidated the agricultural adjustment act.

Now I am not a lawyer. It may be that we will have to amend the constitution to give congress the powers it needs to legislate on economic questions. I will admit that this is a slow process. What has happened to the child labor amendment is discouraging to one who believes that government owes protection to its people as well as to people's property.

But it seems plain to me that certain problems of agriculture, of labor, of industry, are beyond the power of the individual states to solve. Either the constitution itself, or the court interpretations of the constitution, block the solution of some of these problems. They are problems that must be solved.

AGAINST SUPER-AUTHORITY  
A constitutional amendment may be the only way out. But I am willing to study all other plans presented, and try to work out a quicker solution. However, that does not mean to take any solution that looks like quick action.

I am thoroughly convinced that the key to the solution of these problems is not just to give to the president the control of powers exercised, whether wisely or unwisely, by the supreme court.

I have been, and am now, sympathetic with many of the objectives of the Roosevelt administration.

## 30-HOUR WEEK IS DEMANDED TODAY BY WMU OFFICERS

New Wage Hikes For  
All Workers Is  
Also Asked

**FIGHT LOOMING**  
Owners Proposing  
Salary Cuts And  
Longer Hours

NEW YORK, Feb. 17. (AP)—The United Mine Workers, opening negotiations with bituminous operators on terms for new wage and hour scale agreements, today demanded a 30-hour week for the 400,000 workers in the soft coal industry.

The miners also asked 50 cents daily wage increase, an increase of 25 cents per ton for pick mining, an increase of 13 cents per ton for coal loaders and two cents a ton for cutters, a guarantee of 200 days' work annually and two weeks vacation with full pay.

The present contract between employers and the union ends March 31.

Operators had proposed to extend the 35-hour week to 40 hours with no change in tonnage rates but a 15 percent cut in hourly rates.

## WOMAN SLAIN, MAN NEAR DEATH AFTER SHOOTING TODAY

Shell-Shocked War  
Vet Takes Life Of  
Step-Daughter

FORT WORTH, Feb. 17. (AP)—H. Grady Jordan, 42, insurance salesman, war veteran, was critically wounded and his step-daughter, Cristel Jordan, 20, was killed in a shooting at their home today.

Mrs. Jordan and daughter, Arlene, told police Jordan shot his step-daughter, then turned the gun on himself because the girl refused to sign an insurance policy over to him.

Mrs. Jordan said that her husband was shell-shocked during the world war.

## AF OF L CHIEF TO FIGHT EXPULSION FROM OWN UNION

Order Assailed As  
'Hitlerism' By  
Green

WASHINGTON, Feb. 17. (AP)—William Green, president of the American Federation of Labor, assailed Tuesday as "Hitlerism" the order for his expulsion from his own union, the United Mine Workers.

"I won't take it lying down," he told reporters after the miners' international policy committee had accused him of "treason" in the General Motors strike and called on union officials to take away his membership.

"I have committed no act that would justify such treatment," Green said. "I think in Germany Hitler sends them to concentration camps, doesn't he, when they oppose his will?"

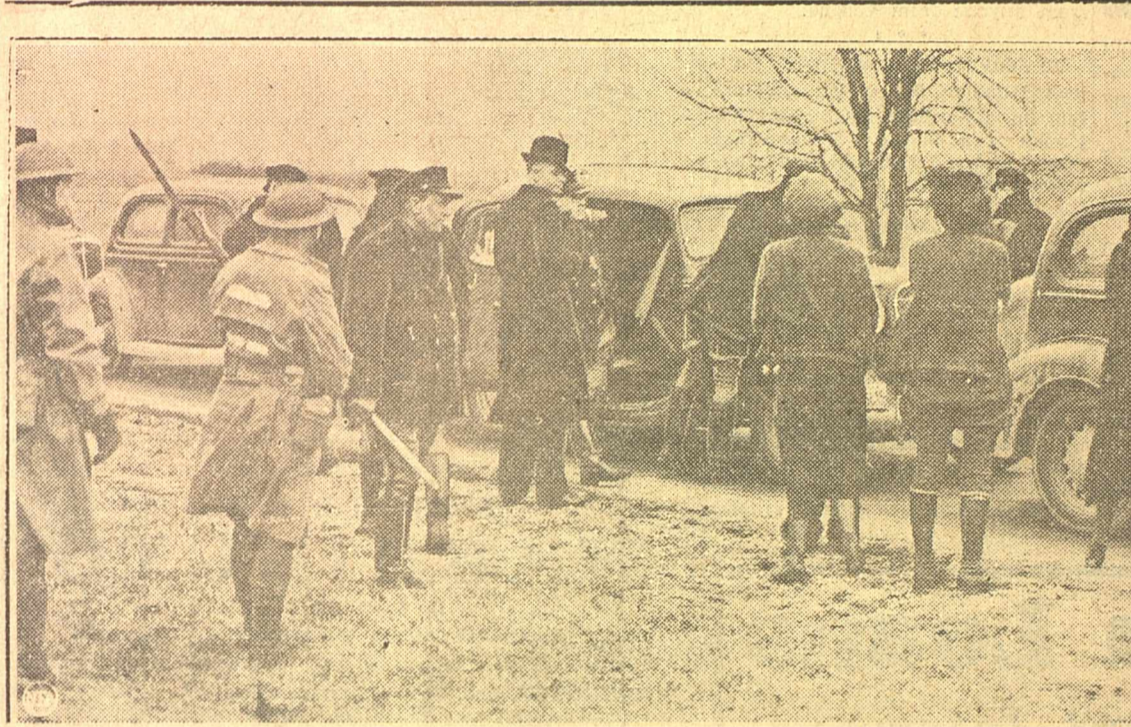

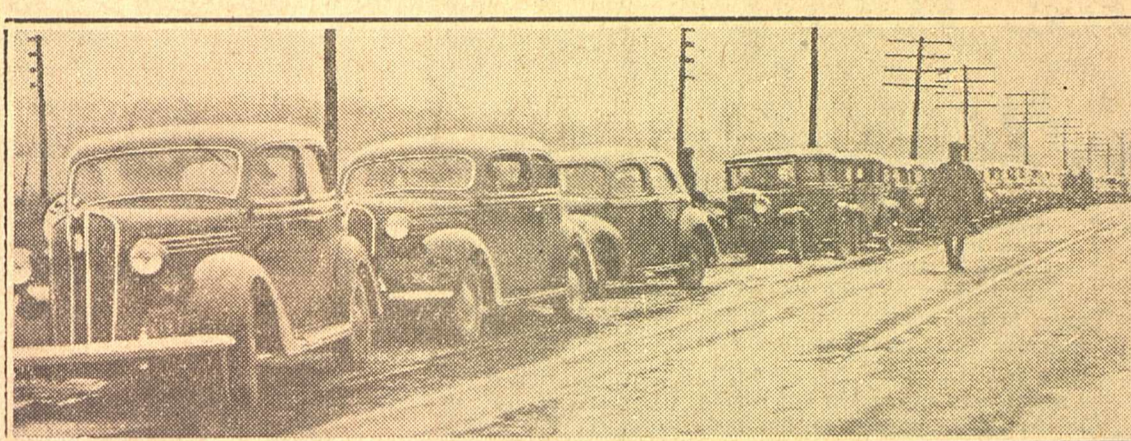

"Here they expel you from your union."  
John P. Frey, president of the federation's metal trades department stepped to Green's side in the renewal of battling inside organized labor's ranks.

"The automobile workers' strike was much more than a strike against General Motors Corporation," Frey said. "It was a strike against the American Federation of Labor and its affiliated international unions."

The auto strike was supported by John L. Lewis, president of the

## Compromise Measure Proposed by 2 Democratic Senators on Court Plan

Unionists' Caravans Blocked By Troops

"On to Anderson!" became the battle cry of militant Michigan supporters of the United Automobile Workers' cause after they read of the riot in which 10 persons were injured when union and non-union workers clashed at Anderson, Ind. But they never reached Anderson. The cavalcade of 50 cars was stopped at the Madison county line (as pictured at top) by National Guards and Indiana police. Their rifles conspicuously in evidence, National Guardsmen backed up the police, who questioned occupants of incoming cars (see lower photo). The unionists were turned back.

## Hardin-Simmons Cowboy Band In City Tomorrow

The famed Cowboy Band of Hardin-Simmons University at Abilene, will play in the Midland high school auditorium Thursday afternoon at one-thirty. A charge of ten and twenty-five cents will be made.

This band has travelled far enough to go around the world seven times, being the official band of several organizations. The band features cowboy stunts such as fancy rope act and promises some of the very best in band music. The official uniform which will be worn by the band on this trip, is the full cowboy regalia, boots, spurs, chaps, colored shirts, bandanas, and ten-gallon hats.

Most of the high school students will be present at the concert but the band-music lovers of Midland may find seats by coming a little earlier than the scheduled time to begin the program.

The proceeds will be divided between the high school annual fund and the Cowboy Band, but the Midland Band is cooperating to the full extent in acting as host to the famous band and members will be in uniform and act as ushers for the program.

Lewis and Green once were close allies in the miners' union, but now are bitter foes. Green and other federation leaders favor organizing workers by separate crafts.

## NEW DELAWARE WILDCAT LOCATION IN WESTERN WARD COUNTY IS ANNOUNCED

L. F. White et al No. 1 Rector-Monroe to Be  
Drilled on Pat Hill's Block

By FRANK GARDNER  
Headlining West Texas oil news today is the announcement of a new Delaware test in western Ward county, the L. F. White et al No. 1 Rector-Monroe, 330 feet from the northeast and southeast lines of section 3, block 1, W. & N. W. survey. The new wildcat will go to 4,800 feet unless oil or gas or water in the Delaware is encountered at a lesser depth. It will be spudded by March 2, and will start with rotary, later switching to cable tools.

The No. 1 Rector-Monroe is in the west corner of a block assembled by Pat Hill, of Pecos. Hill turned 2,600 acres checkerboarded through his block to L. F. White, of Michigan. W. B. McDowell, of Pecos, and Eppenauer Drilling Company, of Fort Worth, for the drilling of the well. White et al will keep the well. Hill retains about half of his original block.

The new test is eight miles north of Barstow and a mile and a quarter east of the old Shipley No. 1 Cynthia Monroe, which is flowing 25 barrels of oil daily. Oil is trucked to Barstow. The Shipley well came in six years ago and has shown no decline in production for the past five years and a half.

Fields Pool Well  
Adams & Bradley No. 1 Edwards, southwest offset to the discovery well in the Fields pool of northwest Winkler, was treated with 1,500 gallons of acid and averaged 40 barrels an hour for the first four hours, then dropped off to about 18 barrels an hour. Its natural potential was 735 barrels a day.

A location of the north, Gulf No. 1-A Edwards is cementing 10 3/4 inch casing at 725 feet. Location is 2,970 feet from the south and 330 feet from the east line of section 6, block C-23, public school land.

Goldsmith Extension  
Gulf No. 11 Goldsmith, three-quarter mile south extension to the Goldsmith pool in Ector, flowed 837 barrels the first six hours of potential test and 573 barrels the next six hours. Using the latter period as a basis, it was assigned a 24-hour potential of 2,292 barrels. Total depth is 4,229. The well was both shot and acidized.

North of the Foster pool in Ector, Sinclair-Prarie No. 2-A Johnson is bailing three-quarters of a barrel of water hourly off bottom. Three-hundred feet of oil is standing in the hole. The well was plugged back 4,180 to shut off bottom-hole water. It is 330 feet from the south and 440 feet from the west line of section 48, block 43, township 1 south, T. & P. survey.

New Pecos Wildcat  
Humble Oil & Refining Company No. 1 Tippet, a new wildcat in Pecos county, has spudded to 60 feet. It is 330 feet from the west and 6,217 feet from the south line of section 538, T. I. & M. survey, several miles northwest of the Tobog pool. The well is a shallow test, scheduled to go to 1,500 feet.

In the Tobog pool, Phil Brown et al No. 18 Tippet pumped 57 barrels a day, natural, from pay between 420 and 483, the total depth.

Humble No. 1 Gray, western Pecos Delaware test, is drilling at 970 feet in red beds.

## WHEELER AND BONE OFFER MEASURE TO CHANGE SYSTEM

Amendment to The  
Constitution Is  
Demanded

**AID TO CONGRESS**  
Would Give Them A  
Right To Re-enact  
Voided Laws

WASHINGTON, Feb. 17. (AP)—Senators Wheeler of Montana and Bone of Washington, both democrats, today proposed a constitutional amendment empowering congress to re-enact by a two-thirds vote any federal law invalidated by the supreme court, predicting it would be "accepted as a compromise" in President Roosevelt's judicial reorganization program.

Under the proposal no action could be taken until the new congress is elected following the supreme court's decisions.

Wheeler, opposing Roosevelt's request for authority to increase the court's membership unless justices over 70 retire, suggested the amendment might be speedily ratified by state conventions.

Three democratic senators, divided on the revision plan, took to the radio last night in continuing effort to win public support for their respective sides of the question.

The speakers were:  
Senator McAdoo (D-Calif.), who called for enactment of the president's program to speed up the work of the courts and "dismissed as unworthy of consideration" charges that the president was attempting to "pack" the supreme court in favor of New Deal legislation.

Senator Van Nuys (D-Ind.), who opposed the proposed enlargement of the supreme court, when its members serve beyond the age of seventy, suggested the amendment might be speedily ratified by state conventions.

Three democratic senators, divided on the revision plan, took to the radio last night in continuing effort to win public support for their respective sides of the question.

The speakers were:  
Senator Thomas (D-Utah), who said that "if the courts take into themselves the power of using judicial review to such an extent that the court becomes the legislative body, contrary to the constitution, and strikes down laws so commonly as it has been done in the last few months, then the will of the people is overcome by a smaller group still, and we have an oligarchy."

ALLRED ABANDONS  
HOPE OF GETTING  
PWA ALLOCATIONS  
Must Revise Entire  
List, Governor  
Reports

WASHINGTON, Feb. 17. (AP)—Gov. James V. Allred said last night he had abandoned all hope of obtaining public works allocations of a total of \$50,000,000 for projects for Texas cities and towns having voted bond issues of about \$15,000,000.

"We will never be able to get any money on the old 45-55 basis," Allred said. "We will have to go back home and revise all the projects in our list on the basis of the number of relief workers who can be employed. The State Planning Board will start this work immediately."

"Under the new system, instead of getting 45 per cent of the project's cost from the government, we may get as little as 10 or 15 per cent and that means possibly as low an allocation total as \$5,000,000. The whole situation is very disappointing." He made this statement after conferring with Horatio B. Hackett, assistant PWA administrator, to whom President Roosevelt referred him yesterday.

Among the projects submitted by the governor was one including the proposed high school gymnasium here. School board officials had not announced today just what method will now be considered in new attempts to get the measure completed.

**PATIENTS RECOVER**  
Mrs. John Kelly underwent a tonsilectomy at a local hospital yesterday. She is improving nicely today.

Miss Juanita Miller entered a local hospital for medical treatment Tuesday.

Exclusive of mechanical traps and clay pigeons, Americans spend \$75,000,000 annually for sporting arms and ammunition.

### INTEREST SLIGHT IN COURT REVISION PLAN HERE; PROPONENTS OF MEASURE GAIN ON FOES—VOTE STANDS 19 TO 15

Backers of the Roosevelt plan of remodeling the supreme court by installation of six new member unless judges 70 years of age and older made a slight gain in the Reporter-Telegram poll overnight, nine persons mailed in ballots favoring the idea while only six opponents of the measure mailed replies.

The present standing of the votes here is:  
For the act.....15  
Against the act.....19

Percentage of the gain is shown by yesterday's figures, 13 against the act and 6 for it.

Proof that man and wife usually stick together in their voting is shown by all double ballots (that is, those sent in by man and wife) show the same on all ballots.

Curiously all double ballots recorded have been against enactment of the act. Most of the ballots have been received from married persons but a lot of them are from husbands alone. No ballot has been received from any married woman that one signed by her husband did not accompany it.

Lee Andrew Drake, 63 years old, and his wife, age 62, turned in their ballots with a statement that the court had been "alright" during their lifetime and they can see no use in changing it now.

### Fill Out and Send in This Ballot

Supreme Court Poll Editor:  
Reporter-Telegram  
Midland, Texas.

President Roosevelt has asked Congress to pass a law providing that when a federal judge who has been a judge 10 years or more reaches the age of 70 and does not retire within six months thereafter, the president shall appoint an additional judge to his court. This law, under present conditions, would require the president to add six justices to the United States Supreme Court.

My vote on this proposal is registered here:

I am in favor  of the plan

I am against  the plan

## The Town Quack

(Reserves the right to "quack" about everything without taking a stand on anything).

gaged in that capacity. When B. H. Blakeney visited him at McAllen the other day, Paul T. had just got a \$50 a month raise and said he had heard of the Odessa proposition, but not from anyone from Odessa.

To think that this newspaper overlooked one of the outstanding actors, in yesterday's story about the Dream of a Clown. Thomas Lee Speed, as the housemaid in the triangle scene, acted as if he was "in the know" about the goings-on of the wife and the boy friend.

A lot of people around here, who are always ready to hold a funeral, are asking what will become of the Midland Fair's racing plant if horse race betting is repealed. Well, we will need the big grandstand for the rodeos, we will need the track for the "brush" and cowpony races and we will need the stables for the rodeo stock, the polo ponies, the national guard horses and the remount depot, all of which are possible to land here.

This paper received a circular from a syndicate wanting to sell a feature dealing with racketeers. A copy of one of the articles ended thus: "In every city there are thousands of men and women fleeced every year out of sums totalling millions of dollars."

And then a line appeared at the bottom saying: "Approved by the National Better Business Bureau."

One strong opponent of the president's plan to revamp the judiciary said: "Only they deserve liberty who are willing to fight for it." Anyway, that's boiling it down to a few words.

Rumors have been afloat that Paul T. Vickers, former chamber of commerce manager here, will be en-

### When Does Judicial Reform Begin Here?

### BEHIND THE SCENES IN WASHINGTON

By RODNEY DUTCHER  
Reporter-Telegram Washington Correspondent

WASHINGTON, Feb. 17. — Lines of strategy in what may prove this century's most historic battle now begin to take form.

A struggle—at least comparable in bitter intensity and probably of more far-reaching importance than that over the League of Nations—is in prospect over Roosevelt's program for judicial reform. The opposition, with such old time "irrecon-

cilables" as Senators William E. Borah and Hiram Johnson among its leaders, will seek to employ tactics used in the league fight.

And Franklin D. Roosevelt, as his chief Woodrow Wilson once did, will take his cause to the country—this time through the ether from the fireside at the White House to the firesides of the nation.

The Senate will be the battleground again, as a Roosevelt victory in the House is commonly conceded. When the attack on the league began in 1919 hardly anyone thought Wilson could be beaten. The late Senator Brandegee had assured Borah it was hopeless and Borah had said, "Well, let's go ahead," today Borah is saying, "Well we've got a chance to beat it." Borah and Johnson, like the six justices who would quit the supreme court if Roosevelt had his way, are over 70 years old now.

Republicans are remaining mute for the present, as a matter of concerted policy, explaining privately that "Democrats must win this fight." Reduced to impotent minorities at November's election, they realize they cannot now provide leadership but will throw their force behind Democrats who take the lead.

Just Rubber Stamp  
Chief among the opposition charges will be that Roosevelt has made Congress a rubber stamp and now hopes to bring the supreme court completely under his thumb, making himself an "absolute dictator." Lobbyists and lawyers for special interests are on the job, fearing that if Roosevelt gets more appointees in the court, their trust refuge from New Deal laws passed by Congress will be gone.

The Roosevelt plan may be harder to beat than the League of Nations because Republicans had a Senate majority in 1919 and isolationists needed only to prevent a two-thirds majority ratification vote. It is also uncertain how influential will be the criticisms of nationally-known men who were conspicuous in the campaign against Roosevelt.

The administration campaign to popularize the program began with a national broadcast Thursday night by Congressman Maury Maverick, who introduced the bill, to be followed by an all-important radio speech from Roosevelt.

They Had \$20,000  
It will be continued with public assertions that the judicial power has been outrageously abused, that reforms which Roosevelt has promised and presumably were endorsed in the election can be had in no other way. Speakers will say that pre-depression justices who lived comfortably through the depression on \$20,000 a year should not be allowed to threaten agricultural prosperity, minimum wages, collective bargaining, relief, anti-sweatshop and anti-child labor measures or public works and that the country

### Allred to Invite FDR to Exposition

DALLAS, Feb. 16. — Governor James V. Allred was made bearer of Texas' invitation to President Franklin D. Roosevelt to visit the Greater Texas and Pan American Exposition, opening at Dallas June 12, when the Governor stopped here Saturday en route to Washington.

Included in the Governor's party to Washington was Judge Robert Lee Bobbitt, of San Antonio and Laredo, former Attorney General who was sworn in as a member of the Texas Highway Commission during the 10 minute stop-over in Dallas.

Director General Frank L. McNeny of the Exposition commissioned Governor Allred as Texas' personal envoy to the President and presented the invitation portfolio of photographs and original hand drawings especially prepared for President Roosevelt.

Governor Allred informed Exposition officials he had wired Vice-President John N. Garner to head the Texas contingent when the group is received at the White House Monday.

Two Dallas Texasitans, Mary Blakeney and Frances Bartlett, former while a constitutional amendment is sought.

### Ten States Needed

The country will be reminded as Mrs. Roosevelt already has begun to remind it, that although everyone professes publicly to abhor child labor, the child labor amendment is now 13 years old, with 10 more states still needed for ratification. This amendment merely permits Congress to "regulate or prohibit" labor of persons under 18. The North Carolina House and Governor Hurley of Massachusetts recently have turned down Roosevelt's plea for ratification.

A primary administration argument will be that in this government of checks and balances the executive has a check on Congress through the veto and Congress a check on the executive through power of the purse and power to override the veto.

However, the judiciary has a complete check over both and neither Congress nor executive any check over the court's judiciary.

### Egg Auction Expands On Business Growth

WFOSTER, O., Feb. 16 (U.P.)—The Wooster egg auction, first institution of its kind in this part of the country, is moving into new quarters because of expanding business.

Work has begun on a building which will be the new home of the market. Since its start in 1932, the auction has shown a 20 per cent yearly increase in business and in the year ending Oct. 1 had a sales total of \$285,000.

Between 500 and 600 cases of eggs are sold weekly.

"People who say they do not worry are either over optimistic or untruthful," Dr. Tucker said. "Very abnormal people often do not worry at all."

The American elk is really a deer and is the largest of the deer family. Its scientific name is wapiti.

debutantes, draped the Governor and Judge Bobbitt with serapes—striped Mexican blankets which are worn slung over the shoulder as a part of the native Mexican costume—as good will tokens from the Exposition.

Three Exposition officials: Mr. McNeny, William Kittrell, assistant to the director general, and A. L. Vollman, director of the new Cavalcade of the Americas, joined the Governor's party in Dallas. Mr. Kittrell planned to stop with Governor Allred in Washington, while Mr. McNeny and Mrs. Vollman were to go to New York to confer with producers about a new musical show to be presented in the Dallas Civic Auditorium during the Exposition, June 12 to October 31.

### Worry Called Needless If It's About Worry

RICHMOND, Va., Feb. 16 (U.P.)—Worry is nothing to worry about because a certain amount of worry is normal," according to Dr. Beverley Tucker, Richmond psychiatrist.

Phoenix, Ariz., has an ordinance requiring licenses for bicycles.

## SAFETY---OR THIS?

DEATH, in the guise of heavily loaded motor trucks, rides the highways of Texas every day and every night. The toll of human death and injury of these vehicles is appalling.

In the five-year period, 1932 to 1936, inclusive, trucks in Texas have participated in 8,416 highway accidents in which 2,195 persons were killed and 11,962 injured. In 1936 alone, their record stood 2,208 accidents with 3,323 persons injured and 576 killed. These actual records of people killed, as shown by Texas newspapers, compared with the number of deaths resulting from all motor vehicle accidents, as given by the Bureau of Vital Statistics in Austin, show that the average Texas truck participates in twice as many fatal accidents as the average passenger car.

The right to grant, condition or deny the use of the highways for profit, belongs to you, the people of Texas, notwithstanding the attempts of the operators of BIG trucks to take it away and give it to the federal government instead. Your present laws, limiting the size, weight and speed of trucks, were enacted by reason of your insistence, and by your insistence they have remained on the statute books. Their amendment would serve the sole purpose of increasing the profits of operators of the BIG trucks, with the certain results of also increasing the mounting injuries, deaths and property losses now taking place on your highways.

Public welfare and public safety demand that existing highway regulations shall be retained and enforced.

100 FILET NET PANELS 50¢

A very outstanding value and we think they look like dollar panels. 38 inches wide, 2 1/4 yards long in ecru only, and you will surely appreciate the value in these, at 50¢ each or TWO for \$1.00

52 x 52 Table Covers 25¢

Absolutely fast colors, and a very outstanding value for February Dollar Days. Not a cloth in the lot worth less than 48¢ and we offer you your choice of 26 of these at 25¢ each or FOUR for \$1.00

54 x 54 Covers 39¢

A value that you would be wasting your time to find elsewhere. Every one fast colors and these are in sizes 54 x 54 and 50 x 50 and ordinarily would be priced at 65¢ to 85¢ each. Take your choice at February Dollar Days at 39¢ each, or THREE for \$1.00

54 x 54 Table Cloths 50¢

Solid white, borders and solid colors in this exceptional value and we believe there isn't a value offered to match this in any store in any town or city in Texas or anywhere else. The values will prove this statement. Each 50¢ or TWO 54 x 54 covers for \$1.00

16 Five Piece Linen Sets

Regular 98¢ values in these five piece linen breakfast sets, size 42 x 42 and 50 x 50 with cloth and four napkins, the set 69¢ or THREE SETS for \$2.00

42 x 42 Table Covers 19¢

Honestly, the values here are such that only seeing them will convince you that you can buy a fast color cover at this price. BUT we do want to impress on you that only at Wadley's do you get any such values. 19¢ each, 3 for 50¢ or SIX COVERS for \$1.00

44 Breakfast Sets 50¢

Again we say that you have never been offered a value like this. Sizes 36 x 36, 42 x 42 and 48 x 48, all with 4 napkins to match, every one fast color and every one a value that only this store offers. Please don't fail to compare these with the usual dollar sets, for every one of them are really worth a dollar. Five pieces sets 50¢ or TWO FOR \$1.00

Pure Linen Dinner Sets \$2.00

Just eleven of these to offer at this price and for fear of seeming too enthusiastic about the value, we will simply say, SEE THEM. White and colors, pure linen, size 58 x 78 and if you can match this value for a dollar more, anywhere, we won't say another word. Remember, these have six napkins and to prove that Wadley's offer you more real value for your money, you buy these at just \$2.00

Star Values in Towels

22x44 Double Thread Towels 20¢

Look the whole State of Texas over for a value like this and you will find that Wadley's Dollar Days give you more value than any store in all West Texas. A heavy, double thread, size 22 x 44 colored border towel, at 20¢ each, or FIVE for \$1.00

80 x 105 Colorfast Bed Spreads

A very outstanding value in a striped wrinkle bed spread in Rose, Blue, Gold, Orchid and Green, at 69¢ each, or THREE SPREADS for \$2.00

Addison Wadley Company

"A BETTER DEPARTMENT STORE" MIDLAND, TEXAS

DEPENDABLE

# Hollywood Glamour Gals

By PAUL HARRISON  
NEA Service Staff Correspondent

HOLLYWOOD, Feb. 17.—Mary Maguire came from "Down Under" a few months ago, and now, in Hollywood, is approaching the top. That's what critics and her employers believe, anyway. The Australian girl started right out here in starring roles, although the fact is that leading parts never have been a novelty for her.

When she was a well-developed ingenue of 12, and about to make her professional debut, Miss Maguire was given the romantic lead in a play. But the department of Education stepped in, and on, that scheme had to be content with the role of a secretary.

Since then, she has crammed a lot of experience into a few years. Astonishingly few years. Miss Maguire's eighteenth birthday is said to be Feb. 23, 1937.

"I seem to be getting younger all the time," she said in the clipped accent which is her greatest handicap in Hollywood.

"At 15 I was a grandmother. That was in a picture called 'Heritage', in which I portrayed a woman's progressive ages. Yes, that was the one which won me the Australian Commonwealth prize. It was posted in celebration of the starting of the movie industry in Australia, although of course it had been trying to get under way for 15 years.

### HAD HER TROUBLES

"I must be a good type for a young mother because, in my pictures, I always seem to have a child or two. My first picture here at Warner Brothers gives me the youngest role I have had in years, but even in it I have a 2-year-old brat—I mean baby. It was quite a sweet child, really, except when it got in front of a camera. Also it would shriek at the sight of Hugh Herbert."

The picture which is released, is titled (at this writing) "That Man Is Here Again." Miss Maguire had a difficult time with the production. She sprained an ankle.

Mary Maguire

She caught cold making rain scenes. She got under a falling lamp and sustained a slight concussion. She collapsed twice during the last two days of shooting. The strange and hard-boiled methods of Hollywood movie-makers bewildered her, for she had been pretty badly spoiled in Australia.

She had been polled "Down Under" because she is a top-flight star there, known from Melbourne to the Northern Territory, and by rich men and bushmen, as "Australia's Sweetheart." When Hollywood heard about that, it misinterpreted the tribute by assuming that she looked like Mary Pickford. She doesn't.

She is 5 feet tall, weighs 104 pounds, and has very nice architecture. Her dark hair is being lightened somewhat for better photographic value. She most resembles Janet Gaynor. Some people insist that she's a miniature Mary Astor. While wearing a hat she has been mistaken by numerous autograph hunters for Simone Simon.

All available portraits of Miss Maguire are a mild libel upon her personality. They make her look downright juvenile. On the screen and the stage, she always has played

ed dramatic roles. When she was 15, and co-starring with Charles Farrell in "The Flying Doctor," she had the part of a bigamist.

### BORROWED MOTHER'S NAME

Her family is very well-to-do. Papa Michael Maguire is an ex-prizefighter and was welter-weight champion of the Antipodes. Later, though, he did very well in business and now owns hotels. "How many hotels?" I inquired.

"Oh, I don't know," said his daughter. "But a lot of hotels."

Her real name is Helen Terese Maguire. Australia knows her as Peggy Maguire. She borrowed her mother's name when she came to Hollywood.

When the family discovered she couldn't tolerate formal schooling, private tutors were hired. "The result is that I know languages and some history," she said. "I can't spell. I can't do sums."

"I began ballet dancing at 4, but my feet were not strong enough and I stopped. Since then I have done interpretative dancing. For a while I taught Hungarian Gypsy and South Sea Island dances. They strengthen the legs. Spessiva, the ballerina, taught me.

"I began the violin at 5 and studied for 10 years. Also the piano until I came here. But I am afraid I play rather badly. I cannot sing. They never can make me dance or sing on the screen.

"Yes, I dance for fun. Here at the studio I went out and practiced with Bobby Connelly when his girls were rehearsing. But I tap rather badly. Sometimes I go down into the basement of our apartment house and dance by myself. It is one my sister likes to do, about an Austrian woman in a Russian prison. First she is chained, and then she breaks her chains. But after breaking her chains she realizes that she is still within stone and bars. So she gradually goes mad and throws herself again and again against the stones.

"What was that? Well, yes, I guess I do it mostly for exercise."

ALWAYS A VILLAIN  
Miss Maguire is trying to acquire a slang vocabulary, but she hasn't learned to swear in the easy fashion of nearly all Hollywood people. She smokes but never drinks. Does on hot dogs, hamburgers and chile; never thinks about diet.

Sports don't interest her much. Her father, who is here with her, never allowed her to see a boxing match, but he took her to a wrestling exhibition a few weeks ago.

"I enjoyed it," she said. "In every match there is a villain who is booed and a hero who is cheered. Also there were two wrestlers who had a lovely fight with the referee."

She was dismayed by the activities of gossip columnists who announced her engagement to every young man with whom she went to a night club. Not only dismayed, but a little frightened. Since before Christmas she has ventured out only with her father. There are no romantic attachments.

Michael (whom she calls "Mick") Maguire is a funny kind of ex-pug. He buys all his daughter's clothes. She said, "He has perfect taste—much better than mine. If I need a frock for the evening I will call him and it will be there. Also the right shoes (her foot size is 1 1/2), and orchids. I love orchids."

They live in an apartment now. Her mother and three theatrically-talented sisters soon are coming over, and then they will have a house. They are figuring on buying Ann Dvorak's home.

Miss Maguire's best friend is another Australian actress, Janet Johnson, recently put under contract by 20th Century-Fox. Johnny Farrell and Maureen O'Sullivan are her friends, too. On the screen she most admires Greta Garbo and Ronald Colman, but hasn't met either of them.

She has a lady chauffeur. The studio, assigned a woman to do

### Time Too Dear

Joseph Krechmar, above, lives on borrowed time and thinks perhaps the interest is too high. Three years ago Dr. Claude S. Beck, Cleveland surgeon, took the only chance of saving Krechmar's life, grafted a muscle from Krechmar's arm to his heart, checked angina pectoris by the novel operation. Krechmar, still not strong enough to work at his trade of ditch digging, is on relief with wife and three children, looks on life drearily, isn't so sure he is lucky.

### THE RUTH INFLUENCE

NEW YORK, Feb. 17.—More home runs were hit in the Yankee Stadium last season than any other park in the American League. Perhaps the boys contracted the habit from Babe Ruth.

her driving after Miss Maguire wrecked her car. The accident occurred because Australian traffic moves on the left side of the street.

NEXT: Paul Harrison, in his fourth article on "Hollywood Glamour Gals" brings us Della Lind, whose studio expects her to leap from obscurity to stardom without the usual siege of preparatory roles.

### Famous Marine Band A Monument to Sousa

Oldest of the military bands of America, the United States Marine Band has not only won nationwide fame, but it is also an enduring monument to the memory of John Philip Sousa, whose creative genius as a musical and leader has left an indelible stamp on the musical history of both the band and nation.

Nearly seventeen years of service to America has been given by the band before Sousa, as a lad of thirteen, joined the organization in 1867 to learn the mysteries of music. Several years later he became its leader and through the wizardry of his musical genius did much to lift the band to the plane it has won in the hearts of the nation.

Sousa remained with the band as its leader from 1880 until 1892, and during that time wrote many of the compositions which won him the title of "The March King." Under the inspiration of his leadership the band reached a high standard of musical achievement.

Later Sousa won world-wide fame in the capitals of the world, as the leader and conductor of his own band, retaining his place as one of the foremost musical leaders until his death in March, 1932.

Organized in 1798, many famous leaders have directed the band, which made its official debut when President John Adams received at the White House on New Year's day, 1801. Subsequently it has played at the inaugural ceremonies of all our Presidents, and has taken part in many historical episodes.

While Sousa wrote ten operas and several books, the world thrills to the rhythm of his stirring marches. Few of them are more popular than "Semper Fidelis," motto of the sea soldiers and reminiscent of the time when Sousa's inspired baton led the United States Marine Band.

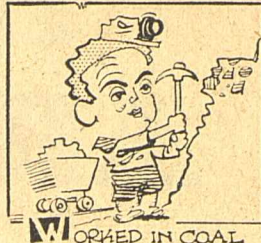

### Program of Health Outlined by Dept.

AUSTIN, Feb. 16.—Outline of a new Texas health program to cope with the changing social goal of "equal opportunity for old and young, adequate health protection for all" was made by Dr. Geo. W. Cox, State Health Officer, at the fourth Texas Conference on Child Health and Protection.

"Present plans of the State Department of Health are designed toward an expansion of activities in line with the current aspects of this new social order. Since health is a purchasable commodity, it behooves us to spend our money in a way that will buy the most health for the greatest number. In a nutshell, our job is to provide preventives with our tax money rather than palliatives, such as job insur-

### HELPFUL ADVICE TO ACNE SUFFERERS

For acne pimples affecting the outer or surface layer of the skin, here is advice that will help improve your complexion.

Every night at bedtime, wash your face thoroughly with Resinol Soap and hot water. Do not rub. Follow with a dash of cold water and dry thoroughly but gently. Then apply Resinol Ointment to the affected skin and leave it on all night. Do this every night, and watch the improvement.

Local treatment is advised as a helpful aid in acne cases, and for more than 40 years the ingredients of Resinol have been found effective.

Resinol benefits by treating the irritated oil ducts, where most surface pimples start. In this way it aids healing of such pimples and also tends to check their recurrence.

Buy Resinol Ointment and Soap in any drug store. For free sample, write to Resinol, Dept. 13, Baltimore, Md.

### McCORMICK-DEERING Kerosene Tractors Operate Perfectly on No. 1 FURNACE DISTILLATE

INVESTIGATION shows that the widely known oil companies now market a No. 1 Furnace Distillate which makes a very satisfactory fuel for McCormick-Deering Kerosene Tractors. The use of this clean, low-priced fuel results in a considerable saving over the cost of kerosene. . . . For your guidance, specifications of a No. 1 Furnace Distillate suitable for use in McCormick-Deering Kerosene Tractors are included in this advertisement.

Tests prove that the number of cylinders in a tractor engine has nothing at all to do with the success or failure of furnace distillate as a fuel. Experience shows, however, that multi-cylinder engines produce a smooth flow of flexible power that lengthens tractor life, improves traction, and reduces driver fatigue. McCormick-Deering Kerosene Tractors have modern 4-cylinder, valve-in-head engines of the most efficient vertical type.

### Specifications of No. 1 Furnace Distillate for McCormick-Deering Tractors:

Gravity, 37 to 37 1/2 Baume, or a specific gravity of .83 to .84 maximum.	Initial drop . . . . . 360° F
Flash, 150° F. maximum. Sulphur not to exceed .03%. Carbon not to exceed .03%. Color, Saybolt Universal 16 minutes.	10% . . . . . 405
	20 . . . . . 420
	30 . . . . . 432
	40 . . . . . 438
	50 . . . . . 450
	60 . . . . . 468
	70 . . . . . 477
	80 . . . . . 484
	90 . . . . . 522
	95 . . . . . 545
	100 . . . . . Not over 600°

## CORRECT WAY OF BUMPING A FRIEND'S CAR TO START IT

YOUR car that is going to do the pushing should be in LOW gear.

The car ahead that you are going to push should be in HIGH gear, with the clutch pedal DOWN.

If possible, get in position where one side of the car behind is about in line with center of the car ahead. This helps if bumpers lock. Car with bumper on top should try to get over the edge of a curb or other high spot that lifts bumper and permits parting. Or the same thing can be accomplished if car with bumper on bottom is maneuvered to a low drain or other depression in the street.

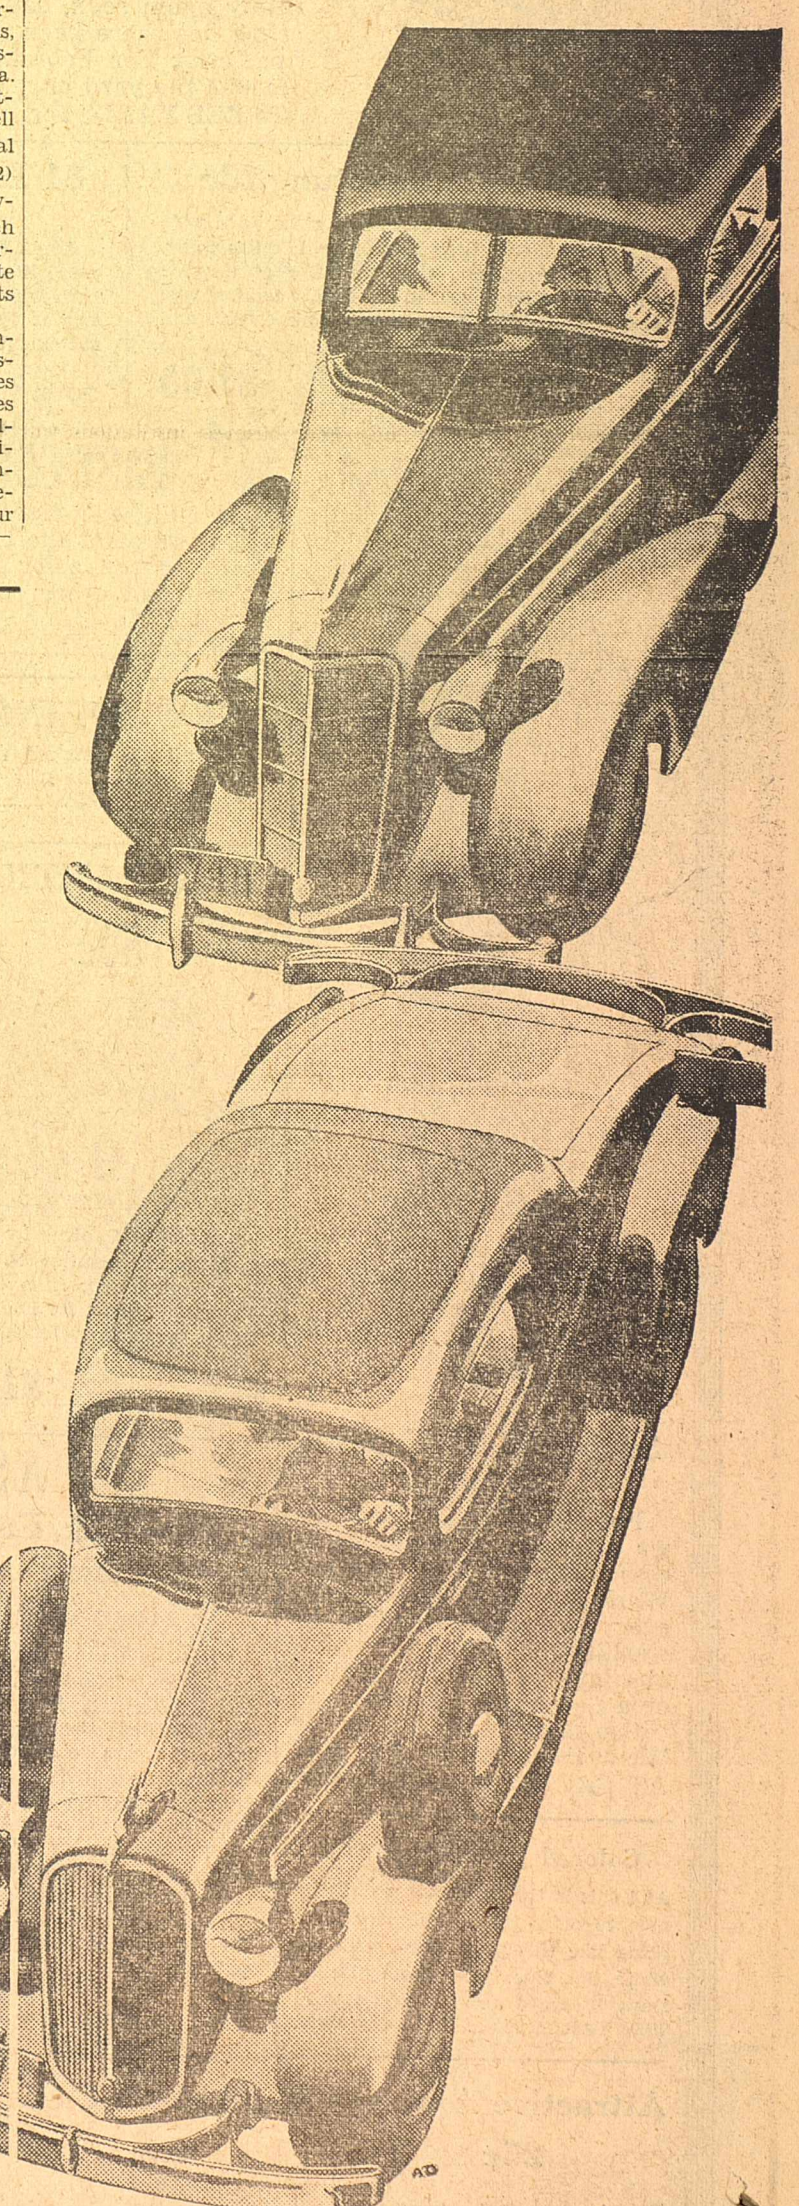

Tell your friend not to let his clutch pedal up until you actually have his car MOVING.

At best this is hard on your car, but it is a friendly act that you would not deny a fellow motorist marooned by cold. He has troubles enough of his own . . . with a freshly-killed battery . . . flooded engine . . . and sheepish feeling—to say nothing of wasted gasoline.

If you push long enough his engine may finally start, just as it would have done in the very first place, on Special Winter Blend Conoco Bronze—the same sort of Winter friend that you are. Continental Oil Company

## North Ward P. T. A. Met Tuesday

The North Ward P. T. A. met Tuesday afternoon, with Mrs. R. W. Hamilton presiding. There was a short business meeting, and Mrs. Hamilton, president, announced the Union P. T. A. meeting for April, at which time Mrs. Dunn who is a state P. T. A. officer, will speak.

Superintendent W. W. Lackey talked on the subject of the new North Ward school building, and other topics of interest, pertaining to school work. Mrs. Jerry Dabney told of the need for new books in the school, and asked for contributions from any individual who is interested in securing new books for the children.

Mrs. Duke Kimbrough took charge of the question box, and the remainder of the meeting was spent in interesting discussion.

Miss Anderson's room won the attendance prize.

## Bible Class Meets Monday Afternoon

The Woman's Bible Class of the Church of Christ met Monday afternoon at 3 o'clock at the church. Rev. J. M. Camp led the lesson, which was on the subject of "Samson and the Philistines."

Members attending were Mrs. J. M. Camp, Mrs. A. G. Bohannon, Mrs. Nichols, Mrs. Paul Jackson, and Mrs. W. F. Hejl.

## Mrs. Worden Is Hostess to Club

Mrs. W. B. Worden was hostess to the Alpha Club Monday afternoon at her home.

High score at bridge was won by the guest, Mrs. C. R. Inman; second high by Mrs. Jack Brown, and cut prize by Mrs. George Bennett.

A dessert plate was served to Mesdames M. B. Arick, Jack Brown, George Bennett, J. R. Crump, Roy Downey, S. M. Laughlin, E. H. Powers and the hostess, Mrs. Inman was the only guest.

T. J. Richards, here for the past week or two while Mrs. Richards is in a hospital, will fly to Austin tomorrow, bringing Lieutenant Governor Walter Woodul back to Big Spring for the annual banquet of the chamber of commerce. Richard flies the Stinson ship owned by Bob Schermerhorn, president of the Big Spring chamber.

## At Dressing Table? No, Dining!

It's hard to tell, in these decollete days, just when the candid camera has gone formal and when it has invaded milady's dressing chamber. But this was no intrusion of privacy, just an intimate closeup of the charming Mrs. Jay F. Carlisle, Jr., the former Margaret Moffett, in a lovely evening gown at the table with a party of friends in the patio, swank Palm Beach resort.

## Announcements

**THURSDAY**  
Midland county museum is open from 2:30 until 5:00.

Hardin-Simmons Cowboy Band will play at high school auditorium at 1:30. Admission ten and twenty-five cents.

Girl Scouts meet at 3:30 in the Baptist Annex.

Home Arts Club meets with Mrs. Iris N. Bounds, 716 W. Louisiana, at 3:30 o'clock.

1928 Club meets with Mrs. Clarence Scharbauer at 2:30.

**FRIDAY**  
Midland County Club Ladies' Golf Association will play at the club at 10 o'clock. Free instructions will be given by Mr. Howe.

Belmont Bible Class meets at 3:30 with Mrs. W. P. Collins, 710 S. Weatherford.

**SATURDAY**  
County teachers meeting at court house. Midland county museum will be open from 2:30-5:00 p. m.

Story Hour in Children's Library from 10-11 a. m. Mrs. J. R. Ashley in charge.

## Bridgette Club Met With Mrs. Van Huss

The Bridgette Club met Tuesday afternoon with Mrs. Bill Van Huss, 311 N. Marientfield.

High score was won by the guest, Mrs. Lloyd Blackard, and second high by Mrs. S. M. Warren.

Mrs. Van Huss served a salad plate to the following members: Mesdames A. P. Baker, S. O. Cooper, A. E. Horst, W. P. Knight, Kinzie Reese, E. D. Richardson, S. M. Warren, Don Davis, R. R. Cowan, L. A. Tullos, and the guest, Mrs. Blackard, who is visiting her sister, Mrs. Kinzie Reese, here in Midland.

## Jugoslav Boy Jumps 8 Grades in 6 Years

CLEVELAND, O., Feb. 17 (U.P.)—In 1931, Milan Simich, aged 12, was in the first grade in school. Now, he's a sophomore at East High School.

Milan was born here, but was taken to Yugoslavia when he was two years old. When he returned to America in 1931 he couldn't speak English. He started to school again in the first grade at Pittsburgh.

## OF LOCAL INTEREST

"Little George" McEntire, Midland pilot, sold a Curtis Robin plane Tuesday to J. C. Fraser, El Paso oil man. The ship, one of two used here by McEntire is a sister ship of the famous "Ole Miss" and to the historic "St. Louis Robin." It is a three-place cabin ship. Fraser will use it in his business where landings are required on rough country without airport facilities.

Foundation work was progressing today on the I. E. Daniel business block immediately east of the Petroleum building on Texas avenue. Four business institutions will be housed there. Jess Williams of Lubbock is the contractor.

Mr. and Mrs. C. C. Williams and son Jack, of Ponca City, Okla., are here visiting Mrs. Williams' sister, Mrs. Ethel Gravette, and Mr. Gravette. Mr. Williams is a successful farmer, and Mr. Jack Williams is salesman for the Ford Motor Co. in

Ponca City. They are en route to California for a two weeks vacation trip. Mrs. Williams is correspondent for the Blackwell Morning Tribune.

Miss Helen Hilton, formerly of Abilene, has joined the staff of the West Texas proration office here. It is announced by W. R. Bowden. She takes the position vacated by the former Miss Doris Swearingen who was married recently to Paul McFadden.

Mr. and Mrs. R. H. Graves left Wednesday morning for Temple where Mrs. Graves will enter Scott and White Hospital for treatment, for injuries received in an automobile accident last January.

Mrs. Henry M. Half of Dallas is spending today in Midland as the guest of Mrs. W. L. Holmsley. Mrs. Half is a former resident of Midland, having left here in 1922.

## Wallace Autobiography Presented to Faculty

AMES, Iowa, Feb. 17 (U.P.)—More than 100 copies of the autobiography of the late Henry Wallace, founder of the mid-western farm paper that bears his name, have been presented to the Iowa State College library.

In addition to the library gift, John P. Wallace, the publisher's son, has presented 200 volumes of the book to Iowa State faculty members.

The elder Wallace was the grandfather of Henry A. Wallace, secretary of agriculture.

## Lost Earring Returned From Across Atlantic

ALEXANDRIA, Ind. (U.P.)—Some months ago Miss Florence Schott accidentally dropped a pear earring into some rock-wool at the General Insulating & Manufacturing Company plant where she works.

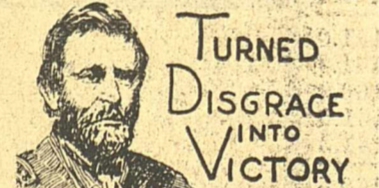

Packed and shipped across the Atlantic the rock-wool arrived at Osterbrogade, Denmark. There a workman unsacking the insulating material discovered the earring.

He brought it to the manager, who in turn took the earring to company headquarters, and from there it was shipped to New York. An executive of the insulating company returned the pearl to Alexandria, remaining a day to check the loser.

When Miss Schott finally received

## STORIES IN STAMPS

BY I. S. KLEIN

## TURNED DISGRACE INTO VICTORY

LIEUT. ULYSSES SIMPSON GRANT resigned from the army in disgrace in 1854, rather than face charges of intemperance. For years he worked as a humble clerk. Then came the Civil War, and Grant tried to come back. But his record was against him, General Halleck, commander of the Army of the West disliked him, and the public disclaimed him.

Gradually, however, Grant's genius fought its way through to recognition. President Lincoln believed in him, and his popularity waxed and waned, as he won and lost battles. Victories at Ft. Donelson, then Vicksburg and Chattanooga heaped honors upon him until Lincoln put him in supreme command of the Union army. When finally he faced General Lee, victory came at last, and great public acclaim.

The honor thrust upon him again turned sour, for during his presidency came the horrors of reconstruction, Black Friday, the Credit Mobilier exposures and the Whisky Ring scandals, which broke his fighting spirit. He sought refuge by travel, and returned penniless and shunned. His picture appears between those of Sherman and Sheridan on the new three-cent army stamp.

ed the earring it was still in rock-wool—the Danish company had packed insulating material around it and enclosed it in a red velvet jewel box. A reward for the unknown Danish worker is on its way to Europe.

## MIND YOUR MANNERS

Test your knowledge of correct social usages by answering the following questions, then checking against the authoritative answers below:

1. Should the host carve enough meat for everyone at the table before he starts serving the plates?
  2. May a man be excused for removing his coat while eating in a public place if he is uncomfortably warm?
  3. May one eat the garnish served with meat?
  4. If the salad follows the meat course, where should the salad fork be placed?
  5. If a salad or dessert fork is the only silver on the table on which side is it placed?
- What would you do if—  
You are host at a party and a friend who has not been invited stops by to call?  
(a) Not mention that you have a party and invite the caller in.  
(b) Tell the caller that you are having a party and insist that

## License Costs \$43.70, Is Paid in Pennies

SCHENECTADY, N. Y., Feb. 17 (U.P.)—"The fee is \$43.70," said the clerk after inspecting Ralph Bentley's application for license plates for his truck.

"Here you are," said Bentley, as he passed over a water bucket of pennies. "Count them if you don't believe me."  
The clerk sunk his hand in the bucket of 4,370 pennies and said, "Okay."

Bentley walked out with the plates.

he join the group.  
(c) Explain that you are entering and give him a chance to withdraw.

**ANSWERS**  
1. Yes, unless there are vegetables on the platter making it impossible.  
2. No.  
3. Yes, most garnishes are edible.  
4. Between the dinner fork and dinner plate.  
5. Right.  
Best "What would you do" solution—"c".  
The ivy-leaved duckweed weaves itself into a latticework pattern.

I work hard and I play hard... and I guess I smoke more cigarettes than most anybody I know.

The reason is... Chesterfields give me a lot of pleasure.

It's easy to figure why... they're mild, not strong... and they've got a taste and aroma that clicks every time!

Quizzed in Mattson Kidnap Killing

Charged with illegally entering the United States from Canada, Stanislaus Poracki, a sailor, shown here in two views, was held at Pembina, N. D., as federal agents rushed his photograph to Tacoma for possible identification in connection with the kidnap slaying of Charles Mattson. Government agents said Poracki is an ex-convict, slightly demented.

Police Chief Suggests His Own Punishment

BERLIN, Mass., Feb. 17 (U.P.)—Police Chief Clyde Rogers' automobile left the highway and overturned. He investigated the accident, considered the car's speed, the highway's condition and the visibility. Then he found himself at fault. Later Rogers recommended to the motor vehicles inspector that his own license be suspended. The inspector took the case under advisement.

Grasshopper Plagues Date To 1853 in Northwest

FARGO, N. D., Feb. 17 (U.P.)—The 20th Century Northwest farmer experiences nothing new when he finds his crops devoured by grasshoppers, according to J. A. Munro, entomologist professor at the North Dakota Agricultural College. "Historical accounts of this pest indicate that grasshopper scourges occurred in this region as early as 1853," Munro said.

up over the idea. We'll have more than 500 present for the confab, including representatives from Midland, Odessa, Wink, Lubbock, Monahans and Amarillo, Texas, and Clovis, Roswell and Hobbs, N. M., who are interested in obtaining berths in the proposed league. We expect to have every club in the Texas League represented as well as attracting a number of baseball men from other sections of the country. We're now contacting Judge W. C. Bramham of Durham, N. C., president of the National Association who is planning a visit to Hot Springs, Ark., about this time, and we hope to have him on hand to address the meeting. Also, if plans now being projected work out successfully, this will be the occasion of the first attempt to conduct a radio broadcast from the caverns and at least part of our meeting may be carried on a national network.

"Yes, sir," chimed in J. Alvin Gardner, Texas League president and a member of the National Association's executive committee, "those are the plans we're going to carry out and if a setting like that won't start the old ball rolling, we're just up against a hopeless task. Commissioner Landis once told me that trip through the Carlsbad Caverns was the most awe-inspiring experience in his life. If a fellow has a soul at all, he's bound to be touched as he sits in that huge meeting chamber which has been darkened completely and hears that choir singing 'Rock of Ages' during which the place is gradually lighted. I'm sure the representatives of these towns will begin thinking of their indebtedness to the welfare of their communities and be moved to help provide the entertainment and publicity that only baseball can give these towns. Yes, and they may think twice before violating the league salary limit, too."

Much credit for the progress already made in laying the land for the West Texas League belongs to Josephus Pate, the one-time wizard southpaw of the old champion Fort Worth Cats who the last couple of years has been filling the role of umpire. According to Morris, Joe has done a fine job of selling baseball to the folks out West. Business men of the section are reported in a mood to do more than talk baseball. They're about ready to lay some coin of the realm on the counter and enter into the proposition with a keen desire to build up the best league of its class in the country.

Not that we are opposed to the above plan, but it is rather sudden. The idea was discussed only slightly at the meeting here Sunday. Someone is going to have to put out a lot of work to complete a program as visualized by Morris and Gardner. But plenty of folks said the league wasn't even a possibility and see how far wrong they were. B. Cross of San Angelo says that if the West Texas League would get Del Rio in it that it would be a nice compact little affair. Some of his vaunted sarcasm. The few persons that read Cross' column may remember his having written when Joe Pate first appeared in this area that San Angelo would be league headquarters. If he wants the low-down on why San Angelo was not even invited to become a member of the league here it is: One so-called sports writer named Blondy Cross' Most of these concerned felt it would be easier to leave San Angelo out of the league than to put up with him. Short shots: The Texas Mines basketball five won a couple of games last week and are expecting a record breaking crowd at their next appearance in El Paso. They had lost 24 straight prior to a couple of wins over New Mexico Military Institute. Holy Cow! Texas and Texas Mines are to play a football game in Lubbock on April 31. Mines evidently feels the need of experience badly. If solons can stave off a vote on racing until after March 9 they may be able to keep it from being repealed this session of the legislature. But it appears to be doomed unless something happens. We'll stay out of the debate on whether or not it should be. Ben Dublin announces to all and sundry that he would like to see big Ed Konetchy, long-time major leaguer and formerly with the Fort Worth Cats, managing a Midland team in the West Texas League this year. Konetchy is available but he might want too much dinero. Every Southwestern Conference basketball official is probably glad to see the TCU club where it is—on the bottom of the standings. Joe Pate says that when two men can beat five, as Dutch Meyer alleged he was beaten, the coach shouldn't cuss but should try to sign up the two to play for him. Texas Aggies should do opposing pitchers some harm this year when baseball starts. They have 10 lettermen returning who averaged 341 last year.

PUBLIC AUCTION THE UNIVERSITY OF TEXAS OIL AND GAS LEASES TO BE OFFERED FOR LEASE BY THE BOARD FOR LEASE OF UNIVERSITY LANDS

Pursuant to the provisions of Chapter 282 of the General and Special Laws of Texas, passed at the Regular Session of the Forty-first Legislature, approved March 29, 1929, and amended by Chapter 174 of the Acts of the Regular Session of the Forty-second Legislature, the Board for Lease of University Lands hereby offers for sale, subject to the right to reject any or all bids, at public auction in Austin, Texas, at the General Land Office on Friday, February 26, 1937, at ten o'clock a. m., the oil and gas rights in and under the following described University Lands.

Table with columns: Tract No., Block, Section, Description, Acres. Lists various tracts in Upton, Upton-Reagan, Ector, Crane, Andrews, and Pecos counties.

The Board has fixed for Tract No. 75 a minimum cash bonus of \$1.00 per acre AND a well to be completed within one year from date of execution of lease. Said well to be drilled to a depth of 3,300 feet or to sulphur water in the "Big Lime" or to commercial production of oil and/or gas at a lesser depth. The Board has fixed an annual rental on Tract No. 75 of not less than ten cents per acre. A ONE YEAR LEASE ONLY will be awarded on Tract No. 75.

All leases shall carry a royalty of 1/8 of the value of the gross production of oil and gas therefrom. The Board has fixed an annual delay rental of not less than 50¢ per acre on each tract offered, except tracts No. 1 and No. 75.

All oil and gas leases, except Tract 75, sold at this auction will be for a term of five years, or as long thereafter as oil and/or gas is being produced in paying quantities therefrom. Each tract as herein advertised will be a separate and distinct lease from each and all other tracts. There is no limit as to the number of such tracts that may be bid in by any party or company. The Board reserves the right to reject any or all bids. Dated at Austin, Texas, this 19th day of December, A. D. 1936.

BOARD FOR LEASE OF UNIVERSITY LANDS. By: K. H. Aynesworth, Chairman. Mrs. I. D. Fairchild, Member. W. H. McDonald, Land Commissioner

BEARS IN FINAL WITH MUSTANGS HOME GO TONIGHT

WACO, Feb. 17. (Sp.)—Baylor's bruising Bears, who climbed back into a tie for second place in the conference standing by bulldozing Texas' Steers Saturday night, making their final home appearance Wednesday night when they tackle the league-leading Southern Methodist Mustangs. Peppy practice sessions by the Bruins Monday and Tuesday left the Baylor quintet in top shape for their match with the leaders, and the scrappy Wolfmen have earnest hopes of throwing the conference chase into a further mix-up by whipping the leaders.

Apparently the confidence of the slipping Bruins was restored last week-end when they halted the Longhorn stampede by taking a 33-31 decision from the Greymen with a spirited rally in the closing minutes of play. Improved team play and plenty of fight depicted the Baylor team that broke up the alarming advance of the steers. With their season two-thirds spent and despite the fact that their chances at the loop crown are cloudy the Grizzlies will present a dangerous obstacle for the invading Ponies. With Wilson White, ace forward, fully recovered from his flu attack and Hubert Kirkpatrick, 6'6" center, hitting a new stride in both offensive and defensive play, the Waco team will be in the best condition of the year to meet the Methodists. In the words of the genial Bruin mentor, "The boys are in excellent condition, both physically and psychologically."

Outstanding in Baylor's improved play is the excellent brilliance of the pair of Bruin senior guards, Jelly SoRelle and Ken Clark. SoRelle is a scintillating floor man, handles the ball flawlessly, directs the offense, besides displaying a great brand of guarding. Clark, while a bit less brilliant than his teammate guard in offensive tactics, is a jam-up defensive player. His work in guarding has been outstanding for three years in conference competition and he is being given serious consideration for all-conference honors to quote Rice's Jimmy Kirts, "Clark is the out-fightingest man that ever put on a basketball suit." Headed by this great defensive pair, the Bruins will take the court in their last home appearance Wednesday night with a thirst for Mustang blood and to revenge a 26-15 licking of some two weeks ago. With the exception of a double loss to the Aggies, the Bruins hold a win over every other foe in the conference besides the Ponies, and followers of the Green and Gold are confident that their Bruins will dump the Ponies as the fifth team conquered. Starting for Baylor in this crucial

contest will be White and Bubba Gernard, forwards; Kirkpatrick, center; and Clark and SoRelle guards. Buck Avery, reserve forward who showed to advantage against the Longhorns, will see considerable action against the Ponies also. Following the S. M. U. tilt, the Bears have a two-day rest and practice spell before they go to Fort Worth for a return engagement with the Texas Christian Frogs Saturday night.

Britain Guards Secret Of Super-Speed Bomber

LONDON, (U.P.)—Behind an electrically operated door in a closely guarded workshop at the Bristol Aeroplane Company's huge plant at Filton, the world's fastest bomber is being built.

The performance of the super-speed bomber, which it is claimed will give Britain supremacy in the air in the event of war, is known only to an inner circle at the Air Ministry. The comparatively slow-moving bomber, which is so easily attacked by high speed fighters and which has been a serious problem of air-war tactics, will be wiped out because of the speed of the new machine, it is believed.

Boston University Adds Course on Family Life

BOSTON, Feb. 17 (U.P.)—Boston University's College of Practical Arts and Letters has instituted a course designed to teach girls how to avoid the pitfalls of married life. A psychologist lectures to the pupils on psychological aspects of family life, a physician on physical aspects and a sociologist on social aspects. Officially known as the "Psychology of the Family," the course is open only to senior girls.

Wyoming Counts Noses Of Its Game Animals

CHEYENNE, Wyo. (U.P.)—A census of game animals in Wyoming for 1936 revealed the following figures: Moose, 4,175; elk, 37,160; mountain sheep, 4,812; antelope, 33,450; and deer, 30,525. The number of game animals killed

ed in the state during 1936 was 3,120 elk, 37 moose, 1,607 deer and 27 bear.

The SPORTS HORN BY JESS RODGERS

From George White's Sport Tide column of the Dallas News: Baseball is running into the ground. High officials of the game admit as much. At the same time they reveal plans for the most novel meeting in the annals of the national pastime and possibly the application of a bit of legerdemain in an effort to rehabilitate a territory that for several years has been lying dormant in so far as organized baseball is concerned. J. Walter Morris, Southern promotional director for the National Association of Professional Baseball Leagues, president of the East Texas Cotton States and Evangeline Leagues and a veteran of more than a quarter century in the game who always

has had an eye for color, Monday disclosed the underground method he will employ to reorganize the old West Texas League. Already he has called an organization meeting for Sunday, Feb. 28, to be held in one of the immense chambers of the Carlsbad Caverns seven miles below the earth's surface near Carlsbad, N. M.

"That," mused J. Walter, "at least will be something different. I predict it will be the greatest meeting baseball has ever known and will attract the largest gathering ever to attend a session of this sport. The folks out in West Texas now richer and busier than ever before and in New Mexico, are all steamed

Canyon Hermit Irked; Neighbors Too Close

SALT LAKE CITY, Feb. 17 (U.P.)—Julian Kucke, 78-year-old "hermit of the Wasatch," is disgusted with hermiting. He can't get away from people. It all started early this winter, when snow caved in the roof of Kucke's tiny cabin in lonely Little Cottonwood Canyon, and Wasatch National Forest Rangers forced him to move nearer a highway so they wouldn't be compelled to organize searching parties every week to see how he was faring. So Kucke moved a bit further down the canyon. And now his cabin is surrounded by ERA and OCC workers, building, to make the location a winter resort.

Toothbrush Introduced In France 160 Years Ago

PARIS. (U.P.)—Dentists and public health officials will celebrate an event of first class importance this year, the 160th anniversary of the introduction of the tooth-brush into France. So far, no proposals for public demonstrations or fetes have been proposed, nevertheless thanks will be offered in certain circles. In 1777, one year after the outbreak of the American Revolution, the social revolution of brushing the teeth came to France. It was introduced at the court of Versailles by an English doctor. It met numerous enemies. Knives and forks still were a rarity in those days and most "gentlemen" kept their teeth healthy by picking up a chop joint and gnawing away at the bone. Consulting savory tales of those days, Frenchmen are firmly agreed that tooth-brushes were an innovation.

The best Panama hats are made in Peru, Ecuador, Colombia, and Venezuela.

### M'NUTT IS CHOSEN PHILIPPINE COMM.

#### To Take Position Left Vacant by Governor Murphy of Michigan

WASHINGTON, Feb. 17. (AP)—President Roosevelt today nominated Paul V. McNutt, former governor of Indiana, for United States high commissioner to the Philippines. McNutt takes the place vacated when Frank Murphy was given leave of absence to make the successful race for the governorship of Michigan.

One the average, the English Channel is calm 20 days of every month.

### Sea Lion 'Charged' With Vagrancy

Choosing the lesser of two evils was the impossible task of this sea lion, caught between electrified rails on the tracks of a railroad along the bay at Sausalito, Calif. The animal crawled out of the bay for a bit of track walking, and was shocked to find it couldn't get back. Each time the 1000-pound animal tried to cross the rails it was burned. It is shown above just before police bullets ended its suffering, after efforts to remove it failed.

The Indianapolis Speedway, site of the annual auto races, was built in 1909. The American ovieter crop for 1934 was estimated to be worth \$12,000,000.

### Texas Employers Warned TUCC Tax On Payrolls Due

AUSTIN, Feb. 17.—Chairman-director R. B. Anderson this week issued a final warning to Texas employers that their taxes on 1936 payrolls under the Texas Unemployment Compensation Act must be paid before February 25. "All employers subject to the Act must pay their tax of nine-tenths of one percent on total 1936 payrolls before February 25, or they will lose their credit with the Federal Government," Anderson declared. Payment of the tax can be made by personal check, cashier's check, money order or in cash, Anderson pointed out. He also reminded employers that they must not confuse this payment on 1936 payrolls, which is due February 25, with the payment on January, 1937, payrolls, which is due March 25. "On February 25 employers must pay a tax of nine-tenths of one percent on total 1936 payrolls, while on March 25 employers must pay a tax of one and eight-tenths percent on their total payrolls during the month of January, 1937," Anderson emphasized.

### Hal Grady Wins Publicity Award

LUBBOCK, Feb. 17.—Hal B. Grady, theatre manager here, has received the January silver plaque Quigley award given monthly by the Martin Quigley publications for the best exploitation of motion pictures. Grady's exploitation was in connection with the recent showing of "The Plainsman." An old time chuck wagon stood at the theatre entrance, with employes who had grown beards passing out coffee. Pioneers of the plains received free passes. Grady and Gus Hoenschmidt, assistant manager of the theatre, probably will go to Austin in the near future to receive the award from Governor James V. Alford.

### New Firestone Battery Starts Motors Twice As Fast

Exhaustive tests prove the new Firestone Extra Power Battery for 1937 with Allrubber Separators will start motors twice as fast under the most difficult conditions. After the battery has been chilled to zero for 24 hours, it is placed on a high rate discharger, shown above, and put through the "cold test" at a discharge rate of 300 amperes—average starter drain in extreme cold weather. An attendant records the results from the scientific instruments every 30 seconds while the battery continues to "spin the motor." Firestone engineers have proved by this test that the new Firestone Extra Power Battery will start your motor twice as fast in the most severe winter weather.

### Calotabs Help Nature To Throw Off a Cold

Millions have found in Calotabs a most valuable aid in the treatment of colds. They take one or two tablets the first night and repeat the third or fourth night if needed. How do Calotabs help Nature throw off a cold? First, Calotabs are one of the most thorough and dependable of all intestinal eliminants, thus cleansing the intestinal tract of the germ-laden mucus and toxins.

Second, Calotabs are diuretic to the kidneys, promoting the elimination of cold poisons from the blood. Thus Calotabs serve the double purpose of a purgative and diuretic, both of which are needed in the treatment of colds. Calotabs are quite economical, only twenty-five cents for the family package, ten cents for the trial package. (Adv.)

### Britain Will Abandon Bull's Eye Army Target

LONDON (UP)—Landscapes and animated targets are to replace the bull's eye target, which since the bow-and-arrow days, has been used for practice. British musketry experts believe that this old type of target is not sufficiently advanced for the trained soldier, so it will no longer be used for service shooting, except for beginners. Since scientific research has produced barrels and propellants which give a flatter trajectory, longer range, and a higher degree of accuracy, a more difficult target than the bull's eye is needed.

### SOUTHWESTERN EXPOSITION READY TO OPEN DOORS TO RECORD CROWD MAR. 12

FORT WORTH, Feb. 17.—Southwestern Exposition and Fat Stock Show, celebrating its forty-first birthday, is ready to open its doors on what officials say may be the largest crowd it has ever entertained. The show dates are March 12 to 21 with the grand opening set for Friday night, March 12.

Entries in livestock are expected to fill the new \$200,000 livestock building, according to Manager John B. Davis. It will be the first time that the exposition has used the building. Arrangements have been completed for the Rainbow Garden entertainment. This year the Garden will be located in new quarters immediately west of the coliseum.

"This location is more convenient to the crowds as they leave the coliseum," Davis said. "Immediately after each horse show and World Championship Rodeo performance, the Garden will be open. This is for the main performance at 4:30 and the night show at 10:30 o'clock." Verne Elliott of Johnstown, Colo., joint owner of the bucking horses that will be used in the saddle bronc riding and bareback riding contests has been in Fort Worth several days arranging for the opening of the rodeo.

"We can count on leading contestants of the world being here," said Elliott. "Everything that possibly could be done has been done to bring the best of rodeo livestock." "Not including the numerous cowponies, more than 400 head of rodeo livestock will be used. This includes the Mexican cattle which our rodeo livestock superintendent, Louis Kubitz, purchased in Mexico. The wild brahma steers for steer riding cannot be surpassed."

Considerable improvements have been made at the show this year. Construction of the livestock building caused the Longhorn Cafe to locate in another building. Also, the exposition for the first time is including a cafeteria. The Roundup Club of which Homer Covey is president, is sponsoring six invitation tours to tell people what they can expect at this year's exposition. Other civic clubs of Fort Worth are cooperating in arranging the delegations.

Many leading stables of the United States will enter horses in the annual horse show. Many new merchants exhibits have been arranged. Practically all of the exhibit space for the show has been taken.

Many cattlemen are expected to be guests at the show this year who have not been here in several years. This is due to the fact that the Texas and Southwestern Cattle Raisers Association will hold its annual convention during the exposition dates.

Game-protecting authorities determine whether a species of bird is a pest by killing one and analyzing the contents of its stomach to see if it feeds on valuable grain or harmful insects.

Flies are the food of most spiders and spiders form the food of certain flies.
