## NUMBER OF DEAD IN BUS CRASH AND FIRE REACHES 20

18 Burned to Death As Motor Hits Bridge Last Night

## TWO DIE TODAY

One Other Expected To Succumb To Injuries

SALEM, Ill., Mar. 25 (AP)—The death toll from a motor bus crash into a bridge abutment and a resultant fire reached twenty today when Mrs. Emily Thomas, Chicago, the driver's wife, and Ted Mullen, Portland, Ore., died today, leaving only three survivors of the crash, one of them in a critical condition.

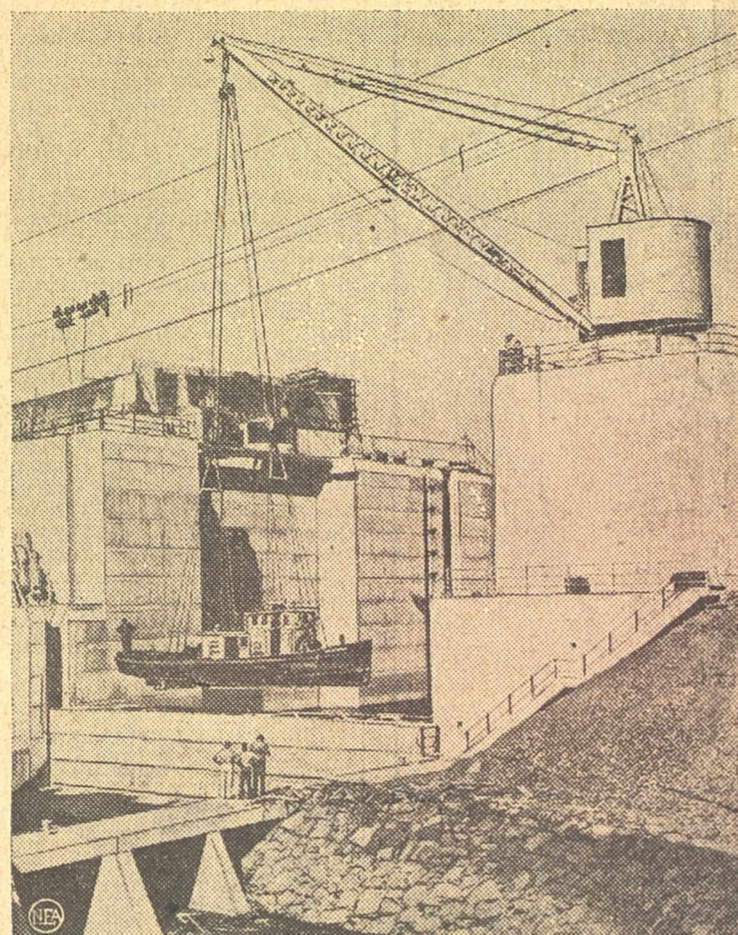

The bus, loaded with a professional roller-skating troupe, enroute from St. Louis to Cincinnati, was going down a slight grade when its right front tire blew out about 50 feet from the bridge on a highway two miles west of here.

The heavy machine careened crazily, dug into the soft shoulder of the highway and rammed into the bridge abutment with terrific force. Hurled on its side, the bus burst into flames when its gasoline tank was smashed.

"The survivors said the bus appeared to explode and all were caught in it," reported Dr. H. L. Logan, of the Salem Community hospital, where the injured were taken.

Omar McMakin, mayor of Salem and owner of the undertaking establishment where most of the bodies were taken, said the bodies were "burnt to a crisp" and identification would be "almost impossible" except through dental work.

### Giving Ships a Lift Over Dam

When the ship lock of the Bonneville dam on the Columbia river is completed, ships will be able to sail through, but during construction a huge crane lifts tugs and other small craft over temporary bulkheads, as shown above. Note the comparative size of the men standing in the foreground.

## FREEZE FORECAST FOR EAST, NORTH PARTS OF STATE

Dust Storm Rolling Toward The Gulf Coast Today

## MIDWEST IS HIT

22-Inch Snowfall Is Felt in South Dakota

DALLAS, Mar. 25. (AP)—The weather bureau forecast freezing weather for a part of Texas tonight, behind dust clouds rolling toward the gulf today.

Freezing is expected in the northern part of East Texas and frost in the southwest, but warmer weather is expected tomorrow.

Crippled communication lines, isolated communities and paralyzed traffic gave evidence of winter's worst snowstorm in the midwest.

Parts of South Dakota felt a 22-inch snowfall. Dust hit Texas, Oklahoma, Kansas and Missouri.

A dust storm, pushed forward by a 30-mile an hour gale out of the northeast, struck Midland about midnight last night, bringing cold and discomfort with it.

Temperatures stayed above freezing during the night, 38 degrees being the lowest recorded in town. At the airport, the mercury dropped to 35.4 at 7 o'clock this morning.

Visibility at the airport this morning at 7 was approximately one and one half miles but had cleared until it averaged five miles at noon. A 20-mile an hour wind, varying from the northeast and the east was blowing this afternoon.

The forecast for tonight is mostly cloudy and colder. Rising temperatures with probably showers are predicted for Friday.

### Evicted Girl Takes Bed to Jail

Curlers in her hair, bedding in her arms and defiance in her expression, this young woman marched off to jail with 85 other feminine strikers when police evicted them from a Detroit cigar factory. The eviction from the cigar plant and another factory incensed labor leaders, brought a general strike threat to Detroit.

## 6000 MARCH OUT THROUGH SNOW AS AGREEMENT MADE

Picket Lines Will Be Retained Until Quarrel Ends

## TALKS CONTINUE

Governor, Lewis And Chrysler Still Conferring

DETROIT, Mar. 25. (AP)—Over 6,000 automobile workers marched in snow from eight Chrysler plants today in which they have been staging a sit-down strike since March 8, but prepared to establish picket lines until the question of exclusive bargaining rights are settled.

A vote in the last plant gave approval of evacuation at 12:40 p. m. today.

The conference being conducted by Governor Murphy, John L. Lewis and Walter Chrysler are to be continued.

Promised evacuation and signing of a tentative agreement to end the 19-day old cab strike in Chicago topped developments Wednesday in the nation's labor disputes.

The promise to clear the Chrysler plants of strikers came from John L. Lewis, head of the committee for industrial organization, after a conference in Lansing, Mich., with Gov. Frank Murphy, Walter P. Chrysler, chairman of the corporation's board and other representatives of opposing factions.

Gov. Murphy said the labor leaders agreed to instruct officials of the United Automobile Workers of America to order their men from the factories at once so negotiations could continue. As a part of the agreement, the governor said, it was provided that the conference would resume today if the plants had been evacuated.

At Chicago, Federal Conciliator J. E. O'Connor announced that representatives of the striking cab drivers and company officials had agreed to terminate the walkout. But an attorney for the strikers said the announcement was "premature" because the agreement had not been approved by the drivers. O'Connor said the officials of the two companies affected by the strike had said they would grant the drivers recognition of their newly formed union and would consider wage and hour demands in later negotiations.

## SENATE DEFEATS MOVE FOR REPEAL OF RACE BETTING

Votes Down Rider On Bill to Pay All Inspectors

AUSTIN, Mar. 25. (AP)—The senate defeated, 24-2, a move to attach the pari-mutuel wagering repeal amendment to a simple appropriation bill to pay race inspectors for the rest of the fiscal year today.

The house passed to Governor Allred a bill to remit for 10 years half of the state ad valorem taxes collected in Harris county. The money is to be used for flood control. Many believed he would veto the bill.

The senate jurisprudence committee is ready to hear arguments tonight on the race betting bill.

## High School Band To Give Free Concerts

The Midland high school band will present a concert in the high school auditorium, Friday evening, March 26, at 8 o'clock. A short and snappy program has been prepared. The public is invited and especially the parents and friends of the band members are urged to be present at this free concert.

Among the numbers to be played are the following:

1. March Militaire, by Schubert.
2. The Rosary, a cornet solo played by Val Borum and accompanied by the band.
3. The Pals, a cornet-trombone duet played by Joe Norman and the band Librarian, Robert Dunnagon, accompanied by the band.
4. The Hungarian Dance, by Brahms.
5. Old Black Joe, with variations, a cornet duet played by Val Borum and Jack Walton, with Frank Nixon on playing the piano accompaniment.
6. Daphnis, the required contest overture in the national contest for 1937.

### Bound for Altar

Film Actor Lyle Talbot and Marguerite Cramer, New York society girl, looked happily engaged in their own matrimonial business when this picture of them was taken as they filed notice in Los Angeles of their intention to wed.

## UNIVERSITY DEAN DECRIES CHANGE IN COURT SYSTEM

Says Confidence In Court Would Be Destroyed

WASHINGTON, Mar. 25. (AP)—Dean Young Smith, Columbia University law school, told the senate judiciary committee today that the Roosevelt court bill would "threaten independence of the supreme court, and might permanently impair confidence of people in that court."

Smith proposed a constitutional amendment providing compulsory retirement of judges at 70 or 75.

## Youngsters Assured Of Coming From Hunt With Plenty of Eggs

Every youngster attending the annual Lions Club Easter egg hunt here Sunday afternoon is assured of coming away from the hunt with some eggs, according to J. Howard Hodge, general chairman in charge of the affair, who added that the grounds will be divided into three sections for children of different ages. One section will be for children between the ages of 10 and 7, another for those between the ages of three and seven and still another for kiddies three years old and under. The grounds will be patrolled to keep the older children from crowding the smaller kiddies. Children above ten years of age will be barred from participation, club members stressing the fact that the hunt is staged primarily for the younger children of the community.

Some 2,000 eggs, 800 hen eggs and 1,200 candy eggs, will be hidden Sunday morning, members of the local Boy Scout troops assisting club members in the hiding of the colorful eggs. There will be plenty of eggs for everyone, and parents are urged to allow their youngsters to participate in the annual affair which has been sponsored by the Midland Lions club here for a number of years.

The hunt will be staged just beyond the city limits at the end of Texas street in the extreme western part of the city, the same location where the hunt was staged last year. No prizes will be awarded in connection with the hunt.

### LONDON CATHEDRAL CLEANED

LONDON, Mar. 25. (UP)—A mammoth spring cleaning job is being undertaken at York Minister. The interior stonework is being cleaned, and it will take 20 years to complete. About 4,500 scrubbing brushes, 6,700 pounds of soap, 720 pounds of pumice powder, and 2,500 floor cloths will be used.

## Rotarians Sponsor Work For Crippled Children

Crippled children's work will be actively sponsored by the Midland Rotary club through the sale of Crippled Children's Seals. It was decided by the board of directors of the organization early this afternoon. The committee to direct the work included Percy J. Mims, chairman, Father Edw. P. Harrison and John P. Howe.

Through cooperation with B. E. McGlamery, supervisor of the crippled children's division of the state department of education, the club will sponsor the sale of 200 seals at \$1.00 each, the funds to supplement those of the state and federal government, as well as private subscriptions in taking care of needy crippled children in Texas.

During the past eighteen months the crippled children's division in the state department of education has provided hospitalization for 2500 crippled children whose parents are unable to provide the needed care. This has been done at an approximate cost of \$350,000.00 from funds supplied by state and national governments and private donations to the Texas Society for Crippled Children.

In spite of the fact that this large number have been cared for, there are yet at least 6,000 crippled children in Texas homes whose parents are not able to provide the needed hospitalization. To this number is being added the monthly average of 100 children in Texas, who are crippled either from birth, disease or accident.

At the present time there are applications for more than 500 children, now in the Austin office, asked for hospitalization. So great has been the asking that funds are exhausted and they are able to care for emergency cases only. In Midland county in recent months they have cared for 5 children. This has been done at a cost of \$320.00. In some of the cases the expenditures are still going on and will continue to do so for some time to come.

At the Easter season the Texas Society for Crippled Children offers for sale the Crippled Children's Seals. Every dollar invested in these seals helps to care for some crippled child either in this or some other Texas county. Such accidents as the terrible explosion in the New London school of last week bring to the crippled children's division numerous calls for hospitalization.

## TREE PLANTING IN DUST BOWL FOUND TO PAY; STRIPS TOTAL 1,277 MILES

WASHINGTON, Mar. 25. (UP)—Planting of hundreds of millions of trees is urged by Department of Agriculture as a check on dust storms that roll each spring across the vast, unbroken expanse of the midwestern dust bowl.

Dust storms already have stripped 50,000,000 acres of top soil in the rich breadbasket of the nation and have damaged 100,000,000 other acres. Recent droughts have made the top soil loose and have added to the destructiveness of dust storms.

Foreseeing the danger of a great American desert in the Middle West if the dust storms were not checked, the federal government began the planting three years ago of a "shelter belt" of trees from Texas to the Canadian border.

This scheme was ridiculed by some and made difficult by two unprecedentedly severe droughts. But the government stuck doggedly to its task, planting millions of trees. Today there are 1,277 miles of shelter strips.

High Number Survive Government workers planted an average of 740 trees per acre. An average of 550 trees survived and now range from 20 to 30 feet in height. Government silviculturists declare the shelterbelt is a proven success.

"Experiences gained thus far in shelterbelt and windbreak planting demonstrates the value of this type of work in the Great Plains region where an urgent necessity exists for an extensive tree planting program," a Forest Service bulletin says. An effective windbreak reduces

## BIG SPRING GROUP ENTERTAINERS AT LUNCHEON TODAY

Kiwanas Club Puts On Program For Rotarians

Big Spring entertainers, representing the Kiwanis club, staged a varied program at the Rotary club today, with club members and visitors accounting for an attendance of approximately sixty.

Garland Woodward, Big Spring attorney, was master of ceremonies, being introduced by W. I. Pratt at whose invitation the neighbors made the trip.

First on the program was an accordion solo, played by Mrs. Walter Broughton.

Goldy Miller, high school boy of Big Spring, entertained with novelty songs, the first in Jewish costume.

Ira Powell, educational director of the Big Spring First Baptist church, sang two tenor numbers, with Mrs. Powell playing the piano accompaniment.

George Boswell, superintendent of schools at Coahoma and a member of the Big Spring Kiwanis club, gave a humorous talk, interjecting good-will to Midland Rotarians from the visitors. Woodward closed the program with remarks of similar nature, expressing neighborliness on the part of Big Spring citizens.

President W. R. Upham of the Rotary club announced a nominating committee, composed of T. Paul Barron, Addison Wadley, John Perkins, Herbert Collins and Barney Greathouse, to propose nominees for club officers, to become effective July 1. He also appointed Clint Lackey chairman of the "on to Childress" committee, for the forty first district conference, and S. A. Debnam chairman of the "on to Lamesa" committee for the new Rotary club's charter night.

Fred Wemple announced an inter-city meeting of Rotary clubs at San Angelo tomorrow noon, with the president of Rotary International as speaker.

Father Edw. P. Harrison made a brief talk on observance of Good Friday, reading Governor Allred's proclamation for the date.

Visitors, besides the entertainers, included Mrs. Garland Woodward, and Cy Bishop of Big Spring, Mrs. W. I. Pratt, Conn Thomas, B. E. McGlamery of Austin, Dave Farris of Fort Worth, W. W. Lackey, John P. Butler, Joe Ward of Wichita Falls.

### LEAVE FOR DALLAS

Roberta and Jane Dunagan left for Dallas today to spend the week end.

## Schoch Suggests Rules To Govern Use of Gas

Says Public Unaware Of Dangers Of Its Use

AUSTIN, Mar. 25. (AP)—Dr. E. P. Schoch, University of Texas professor, suggested today that Governor Allred appoint a commission to formulate rules governing the use of gas in schools. Schoch aided in the inquiry of the New London disaster.

He said that the public was not fully aware of gas dangers and told the governor that explicitly rules should be adopted for the installation of all distributing systems, the use of gas and enforcing observation in public buildings at least and urging observation in private dwellings.

## GLASSCOCK WELL ACIDIZING TODAY

90-Quart Nitro Shot Fails To Better Fleetborn Prospect

Acid treatment of 2,000 gallons is made today in Fleetborn Oil Corporation No. 1 Black Arrow, north central Glasscock prospect a mile southwest of the Dodson & Duffey No. 1 Carter discovery. Nitro shot with 90 quarts from 2,700 to 2,713, the total depth, apparently failed to increase the well's natural yield, estimated at three barrels daily. Located in the northeast corner of section 13, block 34, township 3 south, T. & P. survey, the well topped pay at 2,694.

Rotary has been rigged up and new hole is being made in the Superior Oil Company No. 1 Todd (Masonic Units), Ordovician wildcat, 15 miles northwest of Ozona in Crockett county. It had reached 545 feet in shale with spudder. Location is in the center of the southeast of the northeast of section 55, block UV, G. C. & S. F. survey, a mile and a quarter southeast of Stanolind No. 1 Todd, which showed oil in the Ellenburger, lower Ordovician, but fell short of commercial size.

A deep test in Real County, Sun Oil Company No. 1 Oppenheimer & Dietart, was last reported shut down for repairs at 5,620 feet in shale.

Landreth Production Company has staked location for the No. 1 Jones 660 feet from the north and 990 feet from the east line of section 11, block A-42, public school land. It is an offset to Shell No. 1 King, two-mile northwest extension to the Fuhrman pool, which pumped 330 barrels a day, natural, on 24-hour potential test, botomed at 4,486.

In the Means pool in Andrews, Humble No. 17 J. S. Means flowed 663 barrels through 5 1/2-inch casing the first 21 hours of test after treating with 5,000 gallons. Its total depth is 4,530 feet in lime. Humble No. 1-B J. S. Means, wild-See (OIL NEWS) Page 8

### Has Strike Cure

C. M. Chester, above, president of the National Association of Manufacturers, stepped into the labor situation when he offered Congress the association's plan to permit presidential intervention in serious labor disputes. The association offered a program of action in the national strike situation. Chester is president of General Foods Corp.

### NICE-NELLIEISM

Encouraging steps have been taken of late in the fight to reduce the dreadful menace of venereal disease. But the fight will never prosper as it should until we can break ourselves of the nice-Nellie habit of considering the mere names of these diseases improper and shocking.

A sample of this nice-Nellieism was provided by the New York Senate the other day, when it refused to change the name of the state Division of Social Hygiene, in the Health Department, to the Division of Syphilis Control.

"I say this word is not decent," declared an angry senator. "It would be the dirtiest day's work we ever performed if we passed this bill."

Most of the senators seem to have agreed; for the bill was voted down, 30 to 10.

What hope is there of stamping out syphilis, if we are afraid even to mention the disease by name?

### WORTH REMEMBERING

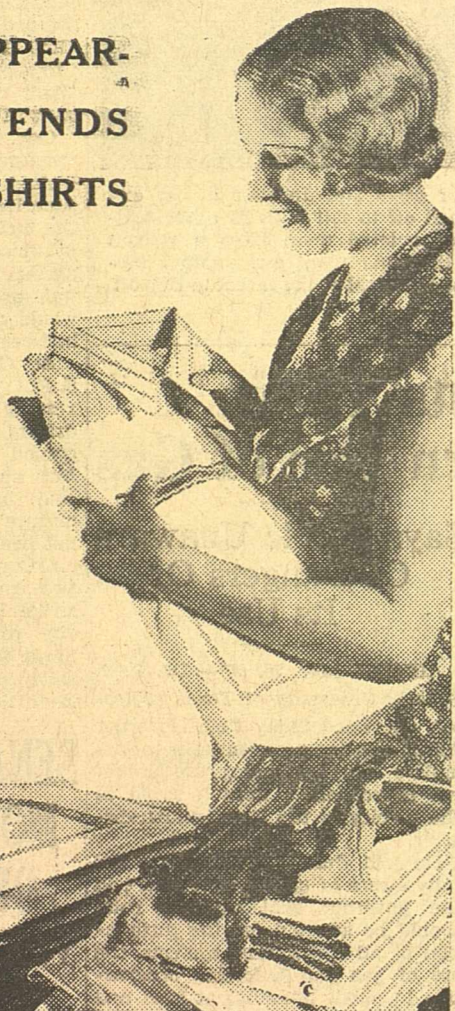

The House of Representatives has passed the McReynolds neutrality bill, smashing down all attempts to broaden its scope. Among the amendments that failed was one, offered by Representative Hamilton Fish, which would have outlawed the export of munitions regardless of whether there was war or peace abroad.

Though it was defeated, this plan of Mr. Fish's might be worth remembering. If, by some calamity, we should get into war tomorrow, a good many American boys would be killed by guns, airplanes, and explosives made in America and sold overseas before war broke out. Mr. Fish was out to prevent that sort of thing from happening; and it is a little bit hard to see why his scheme was not a thoroughly sensible one.

Postal clerks are not to growl at the public." Not even at the humorist who says "Presbyterian" when asked "what denomination"?

### Sequel To The Sitdowns

### BEHIND THE SCENES IN WASHINGTON

By RODNEY DUTCHER  
Reporter-Telegram Washington Correspondent

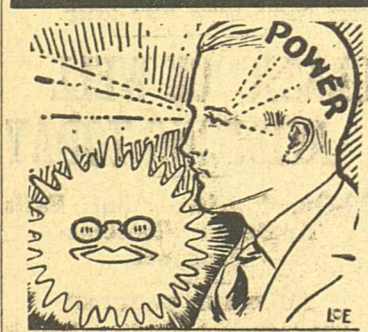

WASHINGTON, Mar. 25—Senator George W. Norris of Nebraska and a rubber band, which he snapped loudly on a pad of paper, became one of the chief sensations of early senate hearings on the Roosevelt Judiciary plan.

Unless something is done to correct the impression, historians are likely to believe that those snappings—which almost disrupted the hearing and did bring a mild reproof from Chairman Henry Ashurst of the Judiciary committee—were the oblivious fiddlings of an absent-minded, nervous old gentleman.

The plain fact is that Norris, who is 75 and was himself once chairman of the Judiciary committee, was only trying to work off his emotions of impatience in some relatively quiet way.

Senator William H. King of Utah, a youngster of 72, was engaged in questioning a witness. During long years here, King has developed a peculiarly individualized style of questioning. It knows no equal when judged by standards of irrelevance, verbosity and complexity.

The usual custom among spectators when King gets started is to relax, yawn, grin, whisper and read newspapers. The witness finds his best course is to say "yes"

### THE GREAT POWER GENERATOR

automatically whenever King stops. But Norris had questions of his own to ask and had to get away for an appointment. It was King's victory. Norris just "couldn't take it."

### Congressmen Reach 70, Too

The seniority system, under which both houses of congress are run by the men who have been there longest, doubtless is as effective as any other which might be devised. Yet, the arguments that Roosevelt applied to the question of Supreme Court justices over 70 years old, applies with equal force—if any—to aged legislators. Everybody knows that some of the most valuable men in Congress are over 70 years old, just as everyone knows that Justices Brandeis, Holmes and others have done some of the best judicial work after 70. On the other hand, Congress has septuagenarians in powerful posts for no other reason than the fact they have served many many terms.

Chairman Robert H. Doughton of the House Ways and Means committee, sometimes called "Muley Bob", is a North Carolina congressman, aged 73. When Chairman Marriner Eccles of the Federal Reserve Board tackled one of the most critical issues confronting the administration, suggesting higher taxes to prevent inflation, Doughton replied to comment with an answer which doubtless will be embalmed as one of the statesman-like utterances of the current era. "Oh, you mean Mr. Heckles!" said Doughton with a laugh. "He's heckling us."

### F. D. R. in Fish Business

Roosevelt, who insists on having his own little joke oftener than anyone else, was saying recently to Senator George Radcliffe of Maryland:

"George, remember when you and I were in the fish business together?" Radcliffe admitted remembering. Not that either of them was ever actually down among the fish, as Al Smith was in the old days of Fulton street. But once upon a time Roosevelt was representative of a Baltimore trust company, working for Radcliffe, the company's vice-president. And the two had to administer the affairs of a bankrupt fish company in New England.

### Buy More Hughes' Books

The Senate Library has had to buy new copies of the book, "The Supreme Court of the United States" by Charles Evans Hughes.

The volume was recently printed in a dollar edition, and it was a large supply of this edition which Senate Librarian Jim Preston bought to keep up with the demand.

Members of Congress, when asked for a treatise on the President's Supreme Court plan, are likely, if they oppose the plan, to send you the majority report of the New York City Bar Association's committee on federal legislation. If they favor the plan,

### Economy Test Run By Chevrolet Co. Brought to Close

The second annual safety and economy test run conducted by the Chevrolet Motor Division of General Motors Sales Corporation under the official sanction of the American Automobile Association Contest Board has recently been completed after a 10,000-mile tour around the rim of the United States.

The run was made in a half-ton commercial pick-up truck carrying a certified payload of 1,000 pounds. Driven by Harry Hartz, veteran racing driver, the truck met with every conceivable kind of road and weather condition during the trip and returned with an enviable string of new records, according to the official certificate of the A. A. A. Contest Board at Washington.

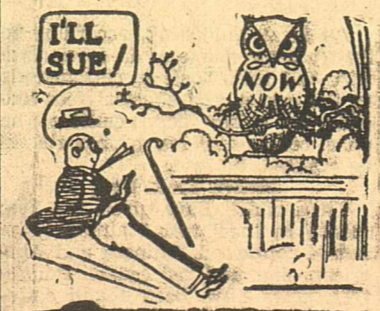

The certificate, issued last week, was based on a day-by-day report made by Stanley Reed, official A. A. A. observer, who accompanied Hartz throughout the trip. The official figures showed an average mileage of 20.74 miles to the gallon of gasoline at an average speed of 31.18 miles an hour throughout the 10,244.8 miles of the run.

Separate records of a coast-to-coast leg of the trip, from Los Angeles to Jacksonville, showed 21.08 miles to the gallon at a speed of 32.23 miles an hour. The 2780.6 miles of the coast-to-coast leg was made in 85 hours and 15 minutes running time on a total of 131.9 gallons of gasoline.

The truck was selected from the regular Chevrolet assembly line at Flint, Mich., by Reed, and Eric Von Hambach, regional representative of the A. A. A. Motor, transmission, rear axle, hood, and gasoline tank

they'll probably send you the minority report.

Among more extended attacks on the proposal, the most effective according to common opinion here, have been the speech of Senator Burton K. Wheeler at Chicago, and the speech of Senator David I. Walsh in New York. If you want what seem the most effective arguments submitted by proponent of the plan, get the Chicago speech of Chairman James M. Landis of SEC next dean of Harvard Law School, or the Senate committee statement of Assistant Attorney General Robert H. Jackson.

filler were sealed before the truck left Detroit December 12. Reed personally broke the seals when necessary for refueling, keeping an accurate record of all gasoline and oil than went into the car.

Hartz took the truck up through the dangerous mountain passes of the Northwest, encountering 37 miles of sheet ice going through Lookout Pass near Missoula, Montana. The thermometer ranged from sub-freezing temperatures in Wisconsin and the Dakotas to 116 degrees sun temperature in Florida.

The truck climbed to the top of the 6000 foot Mule Pass in Arizona in high. Hartz bucked headwinds nearly every mile of his Los Angeles to Jacksonville run. He went from almost 7000 feet above sea level to 250 below at the Salton Sea in California. He rode over the Berkshire Mountains in high. He hit a mud-detour near Cleveland, with mud almost up to the running boards.

In all, the truck encountered snow and ice, hail and sleet, bitter cold and extreme heat, rolling hills and gravel, fog, rain, and mud—Reed's log shows. Yet the same log reveals that for the last 500 miles of the run, the truck averaged better mileage and higher speed than those shown on the averages for the entire run.

"Records like these are ample proof to me of the dependability and reliability of the Chevrolet truck," Hartz declared on his return. "Its performance and ease of handling were even more remarkable than I had expected."

The entire run, according to the official certificate, consumed 493.3 gallons of gasoline and 7 1/2 quarts of oil for a total fuel cost of \$101. The running time for the more than 10,000 miles was 328 hours and 31 minutes. The oil was changed twice during the trip to allow for climatic conditions—once at San Francisco and the second time at

Wilmington, Delaware.

The certified cost per vehicle miles comes to \$0.098 (98/100ths of a cent) according to the Contest Board's official certificate. One pint of transmission lubricant was added after approximately 6500 miles of the trip, and another half-pint after more than 9000 miles. The costs of parts replacements made during the trip came to 73 cents.

The lowest daily mileage recorded according to Reed's records, was 19.41 miles to the gallon, while on several days the records showed

better than 22 miles. The highest was 22.6 miles to the gallon, recorded in South Carolina.

### Actors Want Job, But Want Skin Intact, Too

The one picture in Hollywood which didn't find at least fifty players competing for each role as ordinarily is the case when casting is announced was "Fair Warning," Twentieth Century-Fox film produced by Sol M. Wurtzel now at the Ritz Theatre.

A story of secret murder and sudden romance, with a naive detective coming haltingly to the rescue, its scene is set in notorious Death Valley, and many actors were afraid of literally roasting in the No Man's Land of the Southwest.

The heat, however, proved to be the least of the troubles of the cast finally chosen, which features J. Edward Bromberg, Betty Furness, John Howard Payne, Victor Kilian and Billy Burrud. The crisp, dry air rendered the heat comfortable to bear, but other hazards soon appeared.

Tarantulas, scorpions, snakes and other crawling horrors of the sandhills were everywhere, and treacherous sand pockets, in which the unwary traveler may sink several feet, beset them daily.

Sixty-five per cent of the patrons of confectioners are men; hard-center candies have the widest sale among them.

## Detroit, Old Citadel of 'Open Shop' Becomes Sitdown Strike Test Tube

BY WILLIS THORNTON  
NEA Service Staff Correspondent

DETROIT, Mar. 25.—Reluctantly but with wry good-humor, like a man being pushed into a cold shower by someone else who wants to find out how cold it is, Detroit finds itself the sitdown strike capital of the world.

The city is a proving ground for the labor turmoil of the moment. In the outskirts of the city, General Motors, Ford, and other plants maintain proving grounds, enclosures where new auto are driven over and through all kinds of obstructions as a test. It is rough going sometimes.

Now all Detroit is one vast proving ground for the new industrial vehicle of the sitdown strike. They pop everywhere like firecrackers, with six settled while seven new one break out. An average of from 20 to 40 sitdowns in all parts of the city and in the most varied industries are reported daily. The newspapers have ceased to try to cover them all—it is hard enough merely to keep a complete list of them.

Hotels, department stores, restaurants, five-and-dime stores, cigar factories, laundries, trucking lines, packing plants, hat shops, drug stores, printing plants, lumber companies, warehouses, nut shops, WPA projects, ice plants, iron mills, a corset company and a golf-ball manufacturer—all these have run afoul of sitdown strikes. They form a shifting background to the principal sitdown against Chrysler Motor Co., in whose nine plants 6000 employes sit defiantly to await the outcome of a court injunction a-

gainst their presence there.

**"LIKE TREE SITTING"**

Detroit used to look tolerantly at cities like Toledo, Akron, Cleveland, which had "labor trouble" from time to time. Most Detroiters, from auto magnates to cab drivers felt it can't happen here. Traditionally the open shop citadel of the country, with an industry ranking high in pay rates when times were good, Detroit has for years looked down on more troubled cities.

Even when the wave of sitdowns broke in January, most Detroiters agreed with Harvey J. Campbell, vice-president of the chamber of commerce, that "this is a mania, like tree-sitting." Campbell, noting that "we are a nation of extremists," saw the sit-downs as a wave which would rise to a crest, then recede.

Chester M. Culver, manager of the Employers' Association, dates the rise of the wave from last October when President Roosevelt made a campaign speech in Detroit urging a higher annual wage for auto workers.

However that may be, the sitdown burst on a very much surprised Detroit in January and has been gaining momentum ever since. People who were at first shocked, tolerantly amused, then annoyed, are now beginning to be concerned.

**SIMPLE PROCEDURE**

The sitdown technique caught employers napping. They didn't know what to do about it, and they don't know yet. Practically every settlement has included quick gains in wages or hour conditions favoring the employee.

What is more disquieting to open-shop Detroit, most agreements provide at least some degree of union recognition.

The employers' defenselessness against the sitdown has made Detroit jittery, for the ease with which sitdowns may be staged in almost any kind of an establishment gives every employer a constant feeling of insecurity and instability.

The effect of a continual drumfire of small strikes and at least one big one is beginning to be noticeable. For instance, during the past two months the state of Michigan has lost \$500,000 in 3 per cent sales tax income.

If this state tax is off that much, the effect on retail sales is readily calculable. The loss is having a grave effect on the state's budget, Draper Allen, sales tax director reports, because welfare and relief costs increase at the same time and through the same cause that is cutting down the means to pay them.

The time limit on auto tags had to be extended two weeks because so many people hadn't the money to buy the licenses, due to sitdown strikes. It is impossible to calculate the payroll loss by the six-weeks General Motors strike and the Chrysler and myriad smaller sitdowns, lasting anywhere from 15 minutes to many weeks.

**ON THE BANDWAGON**

The sitdown is contagious. Publicity of the big motor sitdowns spreads the idea into every field. In front of one of the large Detroit hotels, a small, shy boy stood picketing a much larger boy who was selling newspapers. The little fellow carried a sign urging people not to buy papers from the larger one because he had not joined the newsboys' union.

Ripples from the big Detroit strike splash circled the world. High school and college students in Indiana and Illinois, telegraph messenger boys and colored wet-nurses in Chicago, blind institutional workers in Pennsylvania, dog pound attendants in Nebraska, the customers of a Joliet, Ill., beer parlor, all sat down to enforce this or that demand.

A Wisconsin man who wanted to buy a house sat down in its parlor and declared he wouldn't move until his offer was accepted.

### Baylor Boasts Its Strongest Nine In Many Years of Play

WACO, Tex. Mar. 25. (Sp.)—Enthusiasm in the diamond sport runs high at Baylor as the Bears, serious title contenders for the first time in recent years, prepare to open their 1937 conference season Friday on the new Carroll field diamond against the Southern Methodist nine. The two clubs meet on Saturday also.

Coach Morley Jennings' Bruins, gaining confidence from their pair of victories over the week-end, are cocked for their league debut against the Mustangs. The Bruin pilot took advantage of Tuesday's and Wednesday's practice sessions to polish off the rough spots which were evident in the practice matches. Wednesday's drill was the longest of the season to date as Jennings combined hitting, fielding, and base running all in the snappy practice session.

Most encouraging to Bear backers was the splendid work of the Baylor hurlers in the two warm-up contests. Jelly SoRelle, Mike Ducey, and Tommy Fines divided time on the mound Saturday and let the Oak Farm Dairy team of Dallas down with five hits while the rest of the Green and Gold outfit had a perfect day in the field and knocked out nine safeties to win 10-0.

The Jenningsmen repeated the victory song Monday with a similar tone when they downed the Yarnigans of the Dallas Steer outfit by a 10-1 count. Lead by Mitchell Parks and Lloyd Russell who collected three hits each in the game, the Baptists totaled fifteen safe hits for the afternoon, while Saturday's pitching trio worked in top form to hold the Steers to four safeties and one tally.

The veteran SoRelle, who graced the box for the initial three innings in each contest, appeared the cream of the Bruin hurling crop as he pitched with perfect control to allow only one hit in his six innings' duty. Ducey, a southpaw and Waco product, also did a creditable job of hurling, using his cross-fire with unusual results, but did not get perfect support in the field from his teammates.

Fines, sophomore sensation from

Cleburne, showed plenty of steam and curves to the spectators but lacked control at times. He whiffed seven of the Dallas semi-pros that faced him in his three innings Saturday, and added four more strike-outs in the same number of frames Monday.

The hitting strength of the Bruin line-up apparently is grouped in the first half of the batting order as expected. Bill Marsteller, lead-off man and second baseman, worked opposing chunckers for four walks out of five times at the plate in the first contest and landed on base twice in the second match. Parks, next in the hitting order, clouted a home run in the first match and got three singles in four times at bat from the Steers. Russell totaled four safe blows in seven appearances at the plate, but clean-up man Doc Henslee, two year letterman and catcher, with only one hit in the two bouts. Charles Crenshaw, reserve third baseman and outfielder, and Fred Vinson, regular left gardner, were the pick of the remaining hickory twirlers for Baylor.

Russell, Marsteller, and Bolger in the infield and Parks and Vinson in

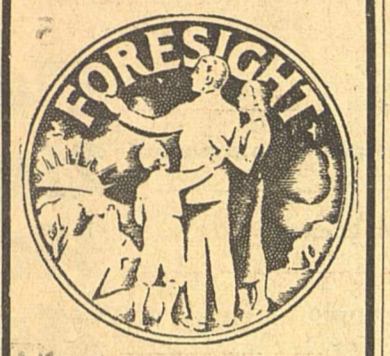

the pastures were outstanding in the ball-snagging department of play.

Only a light drill will be held Thursday prior to the opener the following day. SoRelle is slated to open on the mound.

**PHARAOHS MAY BE REBURIED**

LONDON, Mar. 25 (U.P.)—The Egyptian government is considering re-bury the Pharaohs, whose mummies are now at the Carlo Museum, it has been learned at the Egyptian Embassy in London. A special underground mausoleum probably will be built for them at Giza or Heliopolis, and the kings will be sealed down under the earth never again to be seen by man.

Hats of bright straws, gay ribbons and spring flowers are on parade at the Ritz Hat Shop. Come in and to her home after a minor opera-see them. (Adv.)

veland waitresses, shoe workers in Brooklyn, hospital employes in New York, butchers, bakers and candlestick makers sat down, stayed in, or stood up, to enforce demands.

Even Coptic monks in Cairo, Egypt shut themselves up in their monastery to protest against an unpopular abbot and a general state of boredom.

**SOBERING EFFECTS**

But the more amusing phases of the sitdown situation are overshadowed by the precedents being set in the big Detroit sitdowns. The answers arrived at in the General Motors and Chrysler strikes are going to have a definite effect on industrial relations in the future.

For instance, the General Motors settlement was not entirely a one-way agreement. The union in return for the concessions to it, promised that in future disputes "there shall be no suspensions or stoppages of work until every effort has been exhausted to adjust them through the regular grievance procedure, and in no case without the approval of the international officers of the union."

This guarantee of the employer against unauthorized sitdowns, and against stoppages of work except those formally decreed by the union's officials themselves, involves a greater degree of discipline and responsibility than has been apparent thus far.

**Carl Hubbell Enters New Field; Author of Book For Philco Co.**

Carl Hubbell, famous pitching ace of the champion New York Giants, has become an author. His book "Official Baseball Facts" has just been published by Philco as a herald of the opening of the major league seasons and is being distributed free in every city and town of the

A new shipment of Easter Hats at the Ritz Hat Shop. Don't buy until you see them. (Adv.)

country by Philco radio dealers.

The great Giant hurler indulges in a lot of "inside stories" which will give the baseball fan a new insight into some of the things that daily are happening on major league diamonds. In addition to a great mass of valuable statistical data, Hubbell gives a liberal course in pitching to the "future greats" of baseball.

Included are the 1937 major league schedules, World Series data, record and high-lights of baseball, the greatest pitching, batting and fielding records in the history of the game, official rules, and much other valuable baseball material.

### Sam Houston Allred Gets Publicity Early

AUSTIN, Mar. 25. (AP)—The advent of Sam Houston Allred was attended by much more publicity than usually accompanies the birth of a baby.

Several hours before he was born, the capitol press room was receiving "preparedness" data, his arrival was bulletined over wires or press services a few minutes after it occurred and three hours later he was photographed and his picture rushed by plane to the big daily newspapers.

Sam Houston took it all very calmly, sleeping peacefully in a silk-lined crib, or basket, or whatever is used for such naps in modern days and in gubernatorial mansions. Even the flash of the photographer who took his first picture failed to disturb him. His proud father, in dressing gown after a sleepless night, was the only person who shared the "first" with him.

Soon after the news of his birth clattered to all sections of the state over high-speed teletypes, telegrams of congratulations began pouring into the mansion and the governor's office. They were very quiet offices, for the governor had "taken off" for the day and only his secretary, Mrs. Alma Albert, occupied the suite on the second floor.

Mrs. Albert was the liaison between the mansion and the press correspondents, keeping the latter accurately posted. Said one of her "advance" bulletins: "The new arrival is due at the mansion almost any time now." A few minutes after the birth came the news in this form: "Sam Houston Allred, third son of Governor and Mrs. Allred, was born in the Sam Houston room at 10:20 this morning."

There was immediate disagreement about the capitol over the desirability of naming the baby "Sam Houston." Most took the view it was the Governor's and Mrs. Allred's private business, but one young woman exclaimed, "what a burden that name will be." Some time ago the governor was quoted against naming children after famous persons, but apparently he weakened. Incidentally, several have been named for him.

### HELP KIDNEYS PASS 3 LBS. A DAY

Doctors say your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy. Most people pass about 2 pints a day or about 3 pounds of waste.

Frequent or scanty passages with smarting and burning shows there may be something wrong with your kidneys or bladder.

An excess of acids or poisons in your blood, when due to functional kidney disorders, may be the cause of nagging backache, rheumatic pains, lumbago, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

### Fine Arts Club Met Tuesday

Mrs. A. O. Thomas, 1404 W. Texas, was hostess to the Fine Arts club Tuesday afternoon. Mrs. Tom C. Bobo was leader of the program. Mrs. Fred Fuhrman gave two papers, "Gay Paree" and "The Louvre," "Chopin's Home, Mardinville, France, Province of Lorraine" was given by the leader, Mrs. Bobo. Mrs. Alden Donnelly gave "Finland, The Land of the Suomi."

Mrs. E. H. Ellison was elected as delegate to attend the Eighth District Convention in El Paso, April 5, 6, and 7.

Club members present were Messames Elliott H. Barron, T. Paul Barron, Tom C. Bobo, John Cornwall, Alden S. Donnelly, E. H. Ellison, Fred H. Fuhrman, Robert W. Hamilton, A. N. Hendrickson, J. Howard Hodge, W. Bryant, Paul Osborne, Roy Parks, A. P. Shirey, R. C. Tucker, J. M. White, E. Hazen Woods, Lem Peters, Charles Brown, Harvey Sloan, A. O. Thomas, and Miss Lydia Watson.

### Mmes. Lewis And Hardison Entertain

Mrs. L. G. Lewis and Mrs. Harvey Hardison entertained at the Lewis home, 714 W. Kansas, Wednesday with a luncheon. Miss Jessie Lou Armstrong, bride-elect of Mr. Charles S. Stewart, was guest of honor.

A Mexican cloth covered the luncheon table. The glassware was in blue, and the centerpiece was blue and silver ships on a reflector. The afternoon was spent in sewing and a gift was presented the honoree.

Places were laid for Miss Armstrong, Mrs. Mary Lou Snodgrass, Mrs. Thomas Lee Speed, Mrs. Billy Smith of Odessa, Mrs. Hardison and her mother, Mrs. R. S. Oiler of Pasadena, Calif., and Mrs. Lewis.

### Here's Dance With G-Lamour!

A pictorial definition of the phrase, "putting everything into her dance"—that's this interesting close-up of Dorothy Lamour, taken from a late film in which she portrays a Panama entertainer.

### Novelist Performs 'Impossible' By Writing Story with No E's

LOS ANGELES, Calif., Mar. 25. (AP)—A man out at the National Military Home has written a short novel, 50,110 words, without using a single "e," most-used letter in English. He tied down the "e" bar on his typewriter.

Is the novel freakish or cryptic? No, it is an amazingly smooth piece of work.

Instead of Gertrude Stein, it reads much like Samuel Pepys, or Dickens, or some of the Frenchmen.

The author is sharp-eyed Ernest Wright, 66, a musician in the World War, and a Massachusetts Institute of Technology graduate of '89.

To achieve his astounding feat Wright had to avoid, for instance, such pronouns as "them" they, he and she. He could not use verb past tenses, such as "wanted", etc. He changed the name of one character of his story from Bob to Frank because some kibitzer suggested Bob's full name was Robert, containing an "e".

These were only a few of his difficulties. To appreciate all, just try to write an intelligible paragraph without an "e".

The reporter craftily asked Wright for a snatch-gram at his manuscript. The random pluck brought a page about 16,000 words down containing the following:

### Public is Invited To Attend Service

"The Pilgrimage to the Cross" will be the theme of the Easter Prayer service held by the women of the First Christian church, Friday at 4 p. m.

Special features of this service will be a solo, "I Give My Life To Thee," by Mrs. M. A. Park, and a reading, "Mary at the Sepulchre," by Mrs. Glenn Brunson.

The public is cordially invited to attend the service.

It's a holdover from the dark ages when cows were preyed upon by wolves, lions and tigers, Huff said.

### MIND YOUR MANNERS

Test your knowledge or correct social usages by answering the following questions, then checking against the authoritative answers below:

1. When talking to an acquaintance, does a woman speak of her husband as "Mr. White"?
  2. Does a man speak of his wife as "Mrs. Brown" when talking to a business acquaintance whom he does not know socially?
  3. Is it good taste for a woman to call her husband's parents "Mother Brown" and "Father Brown"?
  4. Is it correct to speak of a physician's wife as "Mrs. Dr. Jordan"?
  5. Should a secretary add "Sir" to "yes" and "no" when speaking to her employer?
- You are talking to an acquaintance who does not know your religious faith, and who speaks disparagingly of your church—
- (a) Argue the point with him?
  - (b) Let the remark pass?
  - (c) Let him know that he has offended you?

- ANSWERS**
1. No, she says "my husband", even to a stranger. To a friend she speaks of him as "Robert," "Mr. White" is reserved for servants.
  2. Yes, to others she is "my wife," to friends, "Judith."
  3. Yes.
  4. No.
  5. Yes, or use "Mr. White" in place of "Sir."
- Be "What Would You Do?" — solution (b).

Mrs. W. G. Attaway, 401 West Ohio.

**SATURDAY**  
Children's Story Hour from 10 to 11 a. m., in the children's library of the court house.

County Museum will be open from 2:30 until 5:00.

The Girl Scouts will meet at 10:30 a. m.

### Announcements

**FRIDAY**  
Midland Country Club Ladies' Golf Association will meet at the club at 10 a. m.

The Missionary Society of the First Christian church will have an Easter Prayer Service at 4 o'clock at the church.

Mrs. W. N. Cole, 607 South Colorado, will entertain members of the Lucky Thirteen Club and their husbands, Friday night at 8 o'clock.

Belmont Bible class meets with a. m.

### Birthday Celebrated By Easter Egg Hunt

Corkey Moss, son of Mr. and Mrs. H. M. Moss, was entertained Tuesday at his home, 809 N. Lorraine, with an Easter egg hunt, in celebration of his third birthday. Easter egg baskets and rabbits were given as favors.

Refreshments of ice cream and cake were served to Harry Bauer, Tommie Gene Richter, Margaret Nell Coleman, Joan Coleman, Doris Bailey, Billy Sue Bailey, Sonny Thompson, Johnny Russell, Diane Walden, David Walden, Billy McCumber and Corkey Moss.

### Cotton Festival Is To be Held April 2

COLLEGE STATION, Mar. 25. (AP)—Earl T. Duke of Claude, agricultural senior at Texas A. & M. College, and Miss Dorothy Ehlinger of New Braunfels, senior at Texas State College for Women, Denton, will reign as king and queen of the sixth annual cotton style show and pageant here April 2.

The annual cotton festival, introduced at the college in 1932, is expected to strike a new note in colorful pageantry this year. Modernistic settings, emphasizing the green and white of the cotton plant and its fluffy fiber, will provide the background for the royal court and the pageant and the cotton ball that will close the festivities.

The court will number about 300, including 100 duchesses representing higher educational institutions of the southwest, A. & M. mothers and former students clubs, and civic organizations of the state. Duchesses, ladies-in-waiting and other court attendants will be escorted by A. & M. cadets.

Duke was named king by the student agronomy society which sponsors the annual festival. Monroe U. May, agricultural senior from Sherman, was named business manager. Miss Ehlinger, president of the student body of Texas State College for Women, was in keeping with custom, elected queen by her fellow students. Miss Virginia Johnson of Seymour, vice president of the woman's college senior class, was named the queen's maid of honor. Proceeds from the festival will be used for traveling scholarships for three winners in the annual cotton contest at the College. Examinations in which have begun. The winners will receive trips for the study of cotton and textile manufacturing in the United States.

### Study Club Met With Mrs. Crawford

The Modern Study club met at 3 o'clock yesterday at the home of Mrs. M. H. Crawford, 901 N. D street. After a short business session, Mrs. J. M. Haygood gave a talk on "The Organization of Inter-city Federation of Clubs" at Peccs. She was also in charge of the program. Mrs. John Skinner gave a paper on "New Russian Peasants".

Mrs. Fred Turner gave a paper entitled "Evolving Russia." There was a round table discussion of "Russia's Relation to World Affairs."

Guests were Mrs. D. G. Stookey, Mrs. L. F. Joplin, Mrs. Ellis Conner, and Mrs. T. A. Pollard.

Members present were Mrs. Fred Turner, Mrs. Steele Johnston, Mrs. John Skinner, Mrs. J. H. Rhoden, Mrs. L. C. Link, Mrs. S. S. Stinson, Mrs. John E. Hills, Mrs. P. A. Nelson, Mrs. Hamilton McRae, Mrs. Tom Sealy, Mrs. Pat Riley, Mrs. J. M. Haygood, and the hostess, Mrs. Crawford.

Sooner OR Later

### Junior Woman's Club Met With Mrs. Reece

Mrs. Alf Reece entertained the Junior Woman's Wednesday club at her home, 714 W. Kansas. The program consisted of a three-minute talk on current Texas news, by each of the members.

Refreshments were served to one guest, Mrs. Bill Bailey, and the following members: Mrs. Ben Black, Mrs. W. M. Blevins, Miss Ida Beth Cowden, Mrs. Ralph Geisler, Miss Ruby Hodges, Mrs. Barron Kidd, Miss Lucile Thomas, Miss Margaret Miles, Mrs. W. M. Holmes, Miss Georgia Goss, Miss Ruby Hodges, Mrs. Nancy Stevens, and the hostess, Mrs. Reece.

### Mrs. Hurley Is Hostess at Party

Mrs. Butler Hurley, 604 N. Big Spring, entertained at bridge Wednesday afternoon. The Easter motif was carried out in the table appointments and the attractive party plate. Spring flowers decorated the house.

Mrs. Frank F. Fulk won high score, Mrs. Philip D. Larson won high cut, and Mrs. W. L. Miller won low.

Guests were Mrs. J. R. Norris, Mrs. R. R. Cowan, Mrs. S. M.

## Boake Carter speaking: "Luckies don't catch your throat—they're easy and smooth"

"The thing I prize most is my reputation for saying what I think. Here's what I sincerely think about smoking—it's one of the greatest pleasures in the world, but it can be utterly spoiled by throat irritation. My job's tough on the throat and I have to be careful to keep my voice clear. Long ago I found that Luckies are easy and smooth and don't catch your throat. That means everything in a job like mine. Next time you hear the usual 'Cheerio' at the end of my broadcast, you can picture me reaching for a Lucky an instant later."

*Boake Carter*

THE FINEST TOBACCO—  
"THE CREAM OF THE CROP"

An independent survey was made recently among professional men and women—lawyers, doctors, lecturers, scientists, etc. Of those who said they smoke cigarettes, more than 87% stated they personally prefer a light smoke.

Mr. Carter verifies the wisdom of this preference, and so do other leading artists of the radio, stage, screen and opera. Their voices are their fortunes. That's why so many of them smoke Luckies. You, too, can have the throat protection of Luckies—a light smoke, free of certain harsh irritants removed by the exclusive process "It's Toasted". Luckies are gentle on the throat.

## A Light Smoke "It's Toasted"—Your Throat Protection AGAINST IRRITATION—AGAINST COUGH

## MONARCH OF ALL THE SURVEYS

He is neither a bird nor the daring young man on the flying trapeze. And yet he flies through the air with the greatest of ease. He is Alf Engen of Salt-Lake City, Utah, who won the Canadian ski championship by leaping 194 and 208 feet at Banff. Having previously won the United States title, Engen is undisputed North American champion.

kins of Wink, were Midland visitors yesterday.

Irvin (G. G.) Goldoft of the United Dry Goods has been transferred to Tucuman, New Mexico, and is leaving for there tonight.

Mr. and Mrs. Perry Craddock have returned from the Fat Stock Show in Fort Worth.

Mr. and Mrs. J. H. Phillips of Andrews are here visiting Mr. and Mrs. Bill Collins. Mrs. Phillips is a sister of Mr. Collins.

Miss Narel Shirey, who recently underwent an operation at a local hospital, is convalescing at the home of her sister in San Angelo. Mrs. J. H. Massey of Wink, is working at Wilson Dry Goods until Miss Shirey is able to return to work.

Ralph Osborne of the Winters State Bank is now associated with the Midland National Bank.

## Exhibit Space At Show Taken by SA

DALLAS, Mar. 25—Exhibit space of 26,700 square feet, or the size of half a city block, in the Pan American building at the Pan American Exposition, is going to be crowded to hold all the exhibits to be sent here by Central and South American republics. This is the report of two flying emissaries now at the half-way mark of an air tour to the neighbor nations made by letter to Director General Frank L. McNeny.

The first nine countries contacted with invitations and plans by Dr. Roscoe R. Hill of Washington and Charles H. Abbott of the exposition staff have accepted the assignments of space ranging from 720 square feet, or three times the size of an average room, up to 2,650 square feet.

Mexico, in the largest space yet allotted, has a circular exhibit area just inside the Rotonda le las Americas, the entrance foyer of the huge building devoted to the neighbor nations.

Guatemala, with a marimba band announced as a feature of its national government exhibit, will occupy a 2,480-foot space at the opening end of a 372 foot long exhibit hall.

Along this passageway will be ranked, on the left, exhibits of Nicaragua, Peru, Costa Rica and Ecuador; on the right, Cuba, Panama, Honduras and El Salvador. These exhibits already are being assembled. Cuba's acceptance cannot come until the call of the envoys far down their schedule, their last air port of call in mid-April, but assembly of their exhibit is understood to be already started, according to reports to the exposition director.

Dr. Hill and Mr. Abbott have passed Santiago, Chile and Buenos Aires, Argentina, and are returning through Atlantic coast nations. Spaces of 2,310 square feet are reserved for these two antipodean countries.

Ahead of them, still, are Uruguay, Brazil, Trinidad, Venezuela, Colombia and Cuba.

Because Colombia and Brazil are planning outdoor plantings—cacao trees from Colombia and a coffee grove from Brazil, open air spaces in the Pan American building patio are set aside for them. Open air spaces are held, too, for Uruguay and Venezuela.

The airmail reports to Director General McNeny, sent from this southern-most point of the 15,000-mile airplane journey, which is taking an elapsed time of 56 days, brought details of extremely warm and friendly receptions given at the capitals of the Latin American republics.

**BRIDGE PAINTING GOOD JOB**

SYDNEY. (U.P.)—Forty-two men are spending six years painting Sydney Harbor Bridge. When they finish it will be time to start all over again.

**Prove It At Small Cost**

If you or any relative or friend is worried because of varicose veins, or bunches, as good advice for home treatment as any friend can give, is to get a prescription known as Moone's Emerald Oil.

Simply ask Palace Drug Company or your druggist for an original bottle of Moone's Emerald Oil and apply night and morning to the swollen, enlarged veins. Soon you should notice that they are growing smaller and the treatment should be continued until the veins are no longer burdensome. So penetrating and powerful is Emerald Oil that it helps simple swellings due to strain to disappear. (Adv.)

**"Miss Business"**

## "Green Light" Gains High Praise Of Many Here; Opens Sunday

Manager J. Howard Hodge of the Yucca theatre today released a few of the comments gained from the showing of "Green Light" at the theater last week to a selected group.

The picture is to open at the Yucca at the Saturday night preview and run through Tuesday.

Some of the comments follow:

"The RIGHT picture for boys and girls; the signal to go onward in our troubled and disturbed everyday lives"—Mrs. W. L. Miller (Teacher).

"Green Light" is a wonderful picture. It is a great homage to science and religion"—Victoria P. Chapple.

"A wonderful philosophy of life; no one should miss it"—Mrs. Andrew Fasken.

"Splendidly cast and filmed; I enjoyed it more than 'Great Obsession'—Miss Marguerite L. Hester.

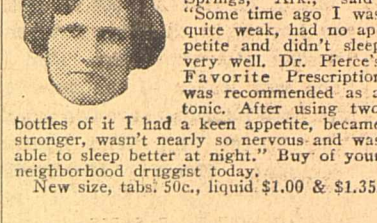

**FACULTY MUST QUIT AT 70**

TOLEDO. (U.P.)—Compulsory retirement at 70 of all members of the faculty of the University of Toledo has been provided under a new pension plan.

**ROADS 'COOKED' IN AUSTRALIA**

BRISBANE, Mar. 25 (U.P.)—"Cooked" roads are the latest idea in Queensland. The state's main road commission has found that "baked" road surfaces are such a success that it has bought another and larger baking machine. The machine bakes the soil and converts it into a hard, lasting surface.

## FROM GIRL TO WOMAN

Mrs. Myrtle Donohue of 713 Rector Ave., Hot Springs, Ark., said: "Some time ago I was quite weak, had no appetite and didn't sleep very well. Dr. Pierce's Favorite Prescription was recommended as a tonic. After using two bottles of it I had a keen appetite, became stronger, wasn't nearly so nervous and was able to sleep better at night." Buy of your neighborhood druggist today. New size, tabs, 50c., liquid \$1.00 & \$1.35.

CONNER BROTHERS — MIDLAND, TEXAS

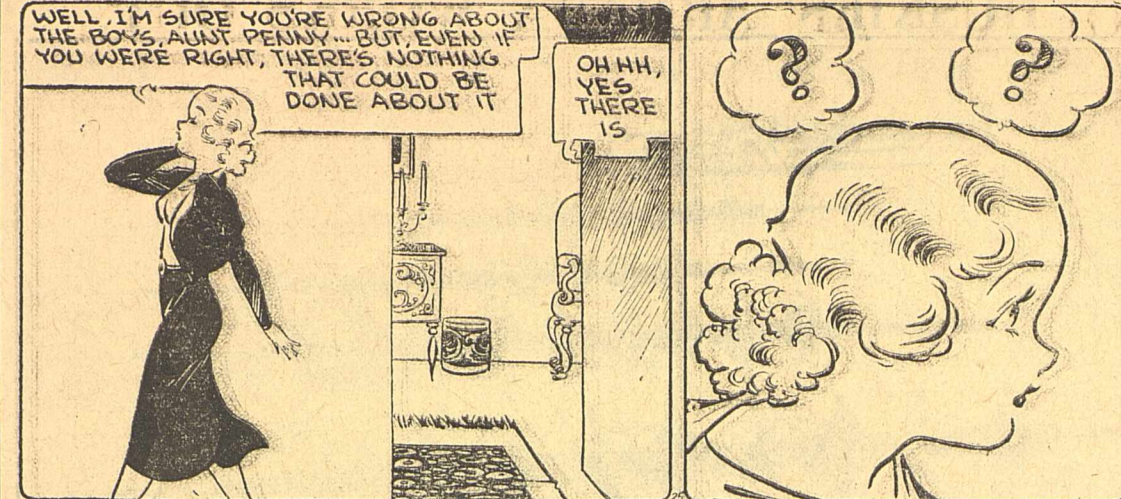

Manitoba Faces Crisis Over Relief Expenses

WINNIPEG, Man. (U.P.) — Relief costs are threatening to force a crisis in the financial affairs of Manitoba. The province has found itself unable to pay its share of relief costs. As a result, it has borrowed from the Dominion treasury. To date relief loans to Manitoba in a seven-year period totaled \$20,000,000 and \$3,000,000 is being added yearly. Interest on relief loans now amount to \$600,000 yearly.

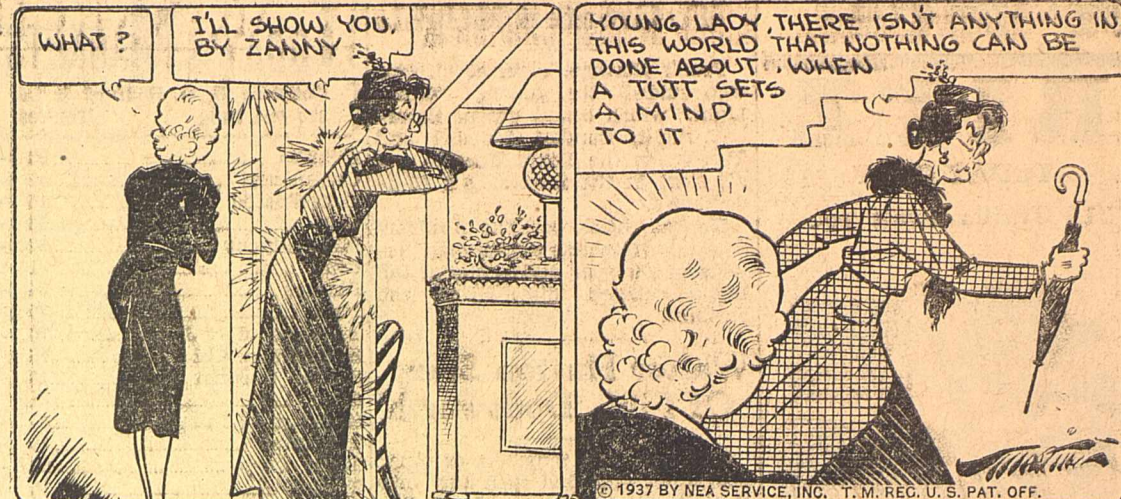

Woman Commander Of Steamboat Recalled

LITTLE ROCK, Ark. (U.P.)—The first woman to hold a master's steamboat license was Capt. Ella Pierson of Little Rock. She was recalled at an "Old Timers" meeting here. Mrs. Pierson, with her husband, also a boat master, first came to Little Rock in 1888. Their craft was best remembered as having the first "wildcat" whistle and the first square prow.

## HUSKIES' ARMADA WORKS OUT

This is almost as many boats as Washington had crossing the Delaware. It's the University of Washington navy, and when you see this armada it's easy to understand why the Huskies hold the world's rowing championship. Here are the four varsity boats, with the 1936 Olympic champions nearest the camera, and the four freshman shells. The Washington navy is working out on Lake Washington for the annual spring regatta April 17 with the University of California in Oakland Estuary.

## LOS ANGELES AREA SHOOK BY QUAKES

LOS ANGELES, Mar. 25 (U.P.)—A heavy earthquake shook Los Angeles and the surrounding area at 8:49 this morning, but no damage was reported. Two shocks were felt. Buildings were shaken in downtown Los Angeles, Glendale, Santa Monica and San Diego. Instead of the heavy jolt as in the first one, the second shock caused a swaying, swinging motion.

## POET, DRAMATIST DIES IN LONDON

LONDON, Mar. 25 (U.P.)—John Drinkwater, 54, famed poet and dramatist, died of a heart-attack while asleep here today. His historical plays, including "Abraham Lincoln," were widely known in the United States.

## King Bros. Circus To Present Show In Midland Tonight

The King Brothers big 3-ring circus arrived in Midland today for two shows, at 2:30 and 8 p. m. today.

## Father Harrison To Conduct Holy Hour

Rev. Edw. P. Harrison, O. M. I., will conduct a Holy Hour over radio station KRLH tomorrow, Good Friday, from 2 until 3 p. m.

## Co-Eds Conceded Right To Goodnight Kisses

KINGSTON, Ont. (U.P.)—Co-eds of Queen's University, who are residents of Ban Righ Hall, can kiss their escorts good night from now on, if they feel like it, but only in the hall foyer.

## BARKLESS DOGS EXHIBITED

OAKLAND, Cal., Mar. 25 (U.P.)—Oakland's latest dog show had one feature that was appreciated by many. It was three barkless dogs. They were African Basenjis, the only dog known without a bark. The species was bred centuries ago in the African Congo but has become exceedingly rare in recent times.

ALL POWER, WHETHER IT BE ELECTRICITY, STEAM, OR HUMAN MUSCLE, COMES FROM THE SUN.

DR. CHARLES G. ABBOT, of the Smithsonian Institution, foremost authority on solar power, estimates that the sun furnishes to the state of New Mexico about 100 times as much energy in a year as that used by the entire United States, as produced by coal, oil and water which, in turn, have received their energy from the sun.

## Mother and Daughter Meet After 23 Years

TILTONVILLE, Ohio, Mar. 25 (U.P.)—After 23 years of separation, Mrs. Mary Greco and her daughter, Dorothy, now 26, have been reunited.

## Fire Box No. 1776 Guards Liberty Cradle

PHILADELPHIA (U.P.)—Fire box No. 1776 stands in front of Independence Hall in Philadelphia. Twice a year the alarm rings, but it's only a fire drill. City officials want to know how quickly the firemen can get to the shrine should a fire break out.

**Tree Planting--**  
Continued From Page One  
The extent of windbreak and shelter planting," Bates said. "Even toward the western edge of the corn belt, direct crop benefits from windbreaks justify belts of a width fully equal to the ultimate height of the trees."  
A small animal of the Pyrenees the fescman has such a long, mobile nose that it can thrust it into its own mouth.

# EASTER SUITS....

that will remember mid-July!

Tailored of Superb  
**HOME SPUNS  
GABERDINES  
GULF WEIGHTS  
DIXIE WEAVES**

When you select your new suit for Easter Sunday don't forget that you should receive as much comfort and enjoyment from it three months from now as you do the first time you slip into it.

These fine suits, as tailored by Hart Schaffner & Marx, will help to do a lot of remembering for you on that score. For here are fabrics which hold their shape, which wear and wear and wear, yet which aren't too heavy for wear in the late Spring and early Summer. In a wide range of checks and stripes.
