Thomas Named New Rotary President; District Governor Addresses Club

Official Visit to Home Club Made By Wemple

Fred Wemple, governor of the forty-first district of Rotary International, made his official visit to the Midland Rotary Club today, and gave a vivid account of the every day workings of Rotary throughout the world, as well as in the local district, to show that the organization was having great effect in eliminating intolerance, strife, passion and bigotry among people and among nations.

The district governor, having contacted the 62 clubs in the district, recounted specific instances of effective work in the fields of youth movement, crippled children's relief, international correspondence to promote goodwill and understanding, vocational service, betterment of inter-city relations and stabilization of communities.

Quotations from world leaders, to show the general high esteem in which Rotary is held throughout the world were given.

Governor Wemple humorously stated that the only criticism he could give of the local club was the manner in which its members sing "Moonlight and Roses." He claimed that the members put more feeling into the club's theme song, "Ham and Eggs."

Visitors at the luncheon today, which was attended by almost all of the members, included Joe Lismann of Sweetwater, Harry Prickett of Lubbock; Dr. W. G. Whitehouse, George McDonald, Fred P. Carmichael and David M. Ellis of Midland; Dr. O. W. Orson of Seattle, Wash.; Lowe of San Angelo and A. P. Hunter of Dallas.

MUCH PUBLICITY TO BE GIVEN CITY

GOOD OLD DAYS

To those who send up a long wail for "the good old days when working was a pleasure," this excerpt from "Employees' Rules of a Chicago Department Store in the 1880's" noted in the Rotarian Magazine is presented:

1. Store must be open from 6 a. m. to 9 p. m. the year 'round.
2. Store must be swept; counters, shelves, and show-cases dusted; lamps trimmed, filled, and chimneys cleaned; pens made; doors and windows opened; a pail of water and a bucket of coal brought in, before breakfast. (If there is time to do so, attend to customers who call.)
3. The store must not be opened on the Sabbath unless necessary and then only for a few minutes.
4. The employee who is in the habit of smoking Spanish cigars, being shaved at the barber's, going to dances and other places of amusement, will assuredly give his employer reason to be suspicious of his integrity and honesty.
5. Each employee must pay not less than \$5 per year to the church, and must attend Sunday school regularly.
6. Men employees are given one evening a week for courting, and two if they go to a prayer meeting.
7. After fourteen hours in the store, the leisure hours should be spent for the most part in reading.

SILVER LINING

This is a big country we live in—so big that shocks which might be expected to set it teetering on its base go almost unnoticed.

February brought us a titanic strike in the auto industry. Offhand, you would certainly take it for granted that this strike would be reflected in the month's employment statistics—for it kept upward of 100,000 men idle.

But the Monthly Business Review of the Fourth Federal Reserve District remarks: "The latest report of the Department of Labor indicated that in February there was a gain of 215,000 employees over January in the entire country. This probably was considerably greater than the total number of persons affected by strikes at any one time."

It's a big country, pardner—a thundering big country. So big that the number of men at work can rise by 215,000 in a month when a great strike gives us fears for the entire recovery movement!

BEHIND THE SCENES IN WASHINGTON

By RODNEY DUTCHER
Reporter-Telegram Washington Correspondent

WASHINGTON, Apr. 8—Witnesses appearing before the Senate Judiciary Committee in opposition to the president's judicial plan have warned the country against accepting a reform which might open the way either to the German type of non-parliamentary fascist government—or the English system of parliamentary government.

Some of the clearest thinkers on the other side agree with them as to the latter possibility, without admitting that adoption of the Roosevelt proposal would in any way bring the country nearer a dictatorship. Successively within the next decade, certain New Deal strategists would like to see:

Adoption of the Roosevelt plan in the near future—followed by a decline in the prestige and power of the court as an institution.

Ten or 15-year terms for Supreme Court justices, instead of life tenure as at present.

A constitutional amendment such as has been proposed by senator Burton K. Wheeler of Montana, permitting Congress to override Supreme Court negative of its legislation.

Eventual removal of the court's power to declare laws unconstitutional.

Theoretically, that would leave Congress supreme in the field of government aside from the executive branch and its veto power. It would result in a parliamentary form of government more similar to the English than the present system. No English court can declare an act of Parliament invalid.

Such predictions are all the more interesting because of the fact that you can find leaders on both sides who agree that the principles of the Wheeler amendment will eventually get into the Constitution. Most conservatives oppose that principle, although some may pretend to favor it as a means of diverting support from the President's plan. Some liberals fear it, believing congressional discretion is not a sufficient safeguard against abrogations of civil and religious liberties.

Didn't Mean Wheeler

Recently this writer mentioned the case of an unnamed senator who was understood to be ready to deliver his own vote and that of his colleague from the same state to the President's plan if he were given a certain circuit court judgeship for himself.

Some of Senator Wheeler's political enemies in Montana are said to have whispered the story that the senator described was Wheeler. That rumor is untrue and absurd.

If Wheeler has any personal ambitions in the court fight—say concerning the presidency of the United States—certainly no one can say they have motivated his course. For one thing, Wheeler's record as a fighting liberal stands out over a long period of years. And for another, Wheeler probably isn't improving any 1940 chances by assuming leadership in the battle against the Roosevelt plan.

Some critics of Wheeler have whispered that he harbored jealousy and dislike of Roosevelt. But the Montana senator denied that vigorously when he appeared before the Judiciary Committee to attack the plan. He pointed out that he was the first senator to come out for Roosevelt's first nomination and had preserved "an exceedingly friendly relationship" with him.

Most Effective Senator

Wheeler led off for the opposition at the hearings because he was the most effective, if not the ablest man the opposition could put up. Especially is he a tower of strength because most of the Democratic senators who make up the backbone of the opposition—such as Burke, Bailey, Copeland, Glass, Byrd, King and Connally—always have been known as conservatives. Wheeler, on the other hand, has led some of the hottest battles for New Deal legislation. He was in an excellent position to point scornfully to a lot of "New Deal liberals who have left or are going to leave to take fat jobs in Wall Street." And Wheeler was emotionally effective when he said he had suffered for his liberalism and wanted to have the court preserved as a bulwark against laws arising from hysteria.

Once when he was trying to oust Attorney General Daugherty, Wheeler accused the Department of Justice of trying to "frame" him in Montana. Wheeler hasn't forgotten. Attorney General Cummings is

one of his pet dislikes, and he loses no chance to say that "we don't need a new Supreme Court; what we need is a new attorney general." It's a good bet that Wheeler derives renewed ardor for the fight from the thought that Cummings might be one of Roosevelt's six new justices.

The Town Quack

(Reserves the right to "quack" about everything without taking a stand on anything).

The other day we commented on the damage youngsters have been doing by shooting out the street lights with air rifles. And now the grown-ups, or larger youngsters have been dealing the city misery by running through the barricades on streets where paving is under way. The breakage of these barriers is not the only cost. When a street is put in condition for certain phases of the work, it is costly to have ruts cut in its surface. The work then has to be done over. Any fair minded automobile driver would not want to create such damage, if he would stop to think. Now, please stop to think!

About the prizes in the joke contest. They will be announced Sunday. You may think we are slow in giving the prizes as some of you were in mailing in your jokes, but we just haven't got a check with the judges yet. Watch this column Sunday for names of the prize winners.

CONSTRUCTION OF BASEBALL PARK STARTS HERE IMMEDIATELY

'GO' SIGNAL FLASHED BY QUERY AS FIVE OTHER CLUBS SIGNIFY THEY'RE READY FOR LEAGUE TO OPEN MAY 6

Manager Hired, Land for Field Bought By Odessa, Last Prospective Holder Of Franchise to Get Started

Plans for immediate construction of the Midland baseball park was announced today by Wray Query, manager of the Midland entry in the West Texas-New Mexico League.

Query also stated a club house large enough to house the members of the Midland team and one other team would be erected as the fence was built.

Players that will go to make up the club have already been chosen by the St. Louis Cardinals, who have a working agreement with Query, and at present are in Albuquerque.

"Headline" Games Of SW to Feature Texas and Baylor

WACO, Texas, April 8. (Spl.)—Coach Morley Jennings' Baylor Bears will attempt to prove that they are the class of the Southwest baseball league when they take on the University of Texas Longhorns, present leader in the race, in a crucial two-game series in Austin Friday and Saturday.

The Bruins were handicapped measurably by rains and cold weather in the opening two weeks of scheduled Southwest competition, but with clear skies and warm sunshine favoring them in this week's practices, the Grizzlies are in fine shape for the important Texas series. Hitting the Baptists is considerably improved over the batting in last week's games the daily practices reveal, and pitcher Jelly SoRelle and Tommy Fine have added steam to their mound work as the warm weather favored them.

Polled as the favorites for the Southwest title crown, the Bears were a great disappointment to Baylor following last week as they dropped a 7-0 decision to the Rice Owls Thursday and barely won from the Texas Aggies the following day 4-3. The Bruins hit safely only three times against the Houston outfit, but banged the Farmer hurlers for nine safeties while sophomore Fine pitched good ball to maintain the early lead which his teammates gave him.

At present the Steers are resting on their usual top post with three wins and no defeats while the Bruins have only an even break after last week's road trip. Scribes are predicting that the Bruins and Steers will split the series with a game apiece, but the maddened

Quaint French Village Home of Coppersmiths

VILLEDIEU-LES-POELES, France Apr. 8 (U.P.)—The art of coppersmith has been the main industry of this quaint Normandy village for seven centuries now, and throughout this time its secrets have been faithfully passed down from father to son to the proverbial 21st generation.

The village industry began in the 13th century when the Knights of Templar formed a commandery here and instructed the villagers in the ancient science of fashioning copperware. Today 50 families still practice this ancestral art, and the urns, breakers, flagons, jugs, etc., which they make are objects of beauty sought by peasants and tourists alike.

There is no mass production in the village's special industry, and every bit of copperware that comes from Villedieu is distinctive.

Maine Student Designs Home Without Training

NEWTON, Mass., Apr. 8 (U.P.)—Paul Campbell, 21-year-old University of Maine junior, took time out from his studies to build a home.

With no architectural training no knowledge of blue-print drawing, he planned his house, hired carpenters, contractors and had the foundation and frame built.

Remaining in sole charge he finished the modern air-conditioned home. The house has a chimney outside and a garage.

"You can do things if you make up your mind and stick it through," Campbell said.

Academy Prizes Butt Of Coolidge Cigar

ANDOVER, Mass., Apr. 8 (U.P.)—A cigar butt smoked by the late President Calvin Coolidge is among Phillips Academy's prized treasures. Mr. Coolidge came here in May, 1923, to help the school celebrate its sesqui-centennial. When he rose to speak he laid down his cigar and it was recovered by an Academy attaché along with its paper holder and preserved.

Footprints Establish Identity of Infants

BOSTON, Apr. 8 (U.P.)—There's little fear of mixing new born babies at City Hospital.

Besides the regular identification methods this hospital footprints each child as soon as it has been delivered.

The prints are transferred to the chart which accompanies the baby's record in the hospital and is kept in the record vaults permanently. Footprints have proved valuable in the case of twins or triplets. If the mother is unable to identify each child, all she has to do is call the hospital and they will clear up the situation.

Fascism Is In Its Infancy

BABIES, MORE BABIES! IS CRY OF DICTATORS AS GERMANY, ITALY RUN RACE TO INCREASE THEIR MAN-POWER FOR THAT 'NEXT WAR'

Early are the seeds of Nazism and Fascism implanted in the youth of Germany and Italy. . . The upper picture—inadvertently symbolic of the manner in which Adolf Hitler is leading children of the Fatherland toward the training fields for war—shows a low-headed youngster accompanying Der Fuehrer at a military review in Berlin. . . Lower, Premier Benito Mussolini salutes a very young Black Shirt with a kiss.

BY MILTON BRONNER
NEA Service Staff Correspondent
LONDON, April 8.—"Italy must have more babies," the warning cry uttered by Dictator Benito Mussolini, who himself is married and has young children, is matched by "Germany must have many more babies," spoken by bachelor Adolf Hitler, leader of Nazified Deutschland.

In both cases, the complaint in past times has been that the Germans were too crowded in the terri-

tory they possessed and that the Italians were too cramped in their peninsula. Both nations, it was maintained, needed colonies in which to expand. Both needed colonies for raw materials.

Then comes the paradox—this insistence upon more babies, this alarm at the small families. On form, the dictators, worried about the millions of their countrymen being cramped within too small a space, should have been very pleased that the growth in population was slowing up. Instead of which, they are both embarking upon campaigns to speed up production of larger families.

The reasons are:
(1) The assurance of a generation of young people to carry on the work started by the present generation.

(2) A surplus population to do Italy's work of colonization in Libya and Abyssinia and to do Germany's similar work when and if she succeeds in getting her former colonies back.

(3) Biggest reason of all—common fodder. It is a modern axiom of realistic dictators that country is only really a great power when it has a large population because a large population means the possibility of a great army and a great army means the use of threat of great force.

Birth Rate Still Disappoints
In Germany the "more babies" campaign was started almost as soon as Hitler got in the saddle in 1933. To encourage young people to marry, the state made them loans to help them set up housekeeping. For every child born to the marriage part of the loan was remitted. Such

marriages also had another effect in Germany. Women were taken out of employment and the vacant places were filled by unemployed men. But, despite all this encouragement and despite the fact that over 500,000 of these Hitler-subsidized marriages have taken place, the birth rate has not risen as the Nazi masters hoped.

Josef Goebbels, Minister of Propaganda, who can always be relied upon to give anything a fresh Nazi angle, says that failure to have children is a crime against the Nazi state and a sign of distrust of the Fuehrer. Special provisions of the new German penal code are being prepared for punishment of sexual immorality, thus encouraging more weddings. There is to be greater tolerance of illegitimate children. It is being borne in upon Germans that once marriage has been concluded, they must have as many children as possible. Families of four children are to be considered a minimum.

Duce Beams on Babies
In Italy it is declared far too many babies have died of infantile

diseases, and young children have succumbed to typhoid fever. The Fascist Grand Council has decreed that henceforth fathers of large families will be given preference in employment. There will be a policy of family wages, making income proportionate to the number of children the wage earner has to support. Marriage loans and dowry insurance will be arranged for newly-wed couples. Districts where there is no marked increase in babies will be partly deprived of government support for hospitals and other public benefits.

The Council put things in a nut shell when it said more babies were needed for military power, economic expansion and the secure future of Italy.

Tidwell Shows To Open Here Monday

The T. J. Tidwell shows and carnival, an attraction which has visited Midland annually for several years, will open a week's engagement next Monday at Pagoda Pool. One of the largest shows touring West Texas, the Tidwell unit has made additions for this year. Something new in the way of rides is the "Octopus" which was an attraction at the Fort Worth stock show. There are three other new rides and some new units on the midway.

The featured free act will present "Dare Devil Daniel," who will entertain nightly at a height of 150 feet.

Pros Tee Off

TOLEDO, Apr. 7 (U.P.)—An army of golfdom's hardest warriors will compete in the annual Inverness Invitational tournament to be held here June 5-6.

The 15 professionals who are to play in the round robin matches were selected on the basis of their performances in winter play.

Three of the two man teams that competed in previous tournaments will return. They are Harry Cooper and Horton Smith; Henry Picard and Johnny Revolta; Crag Wood and Ray Mangrum.

Ky Laffoon, Denny Shute and Tommy Armour, all of whom took part in last year's play, will appear this time with new partners. Laffoon will be paired with Paul Runyan, Shute with Lawson Little, and Armour with Johnny Thomson.

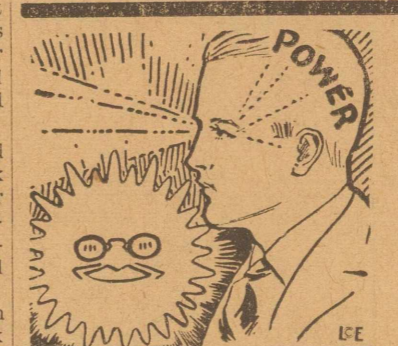

In 1936 Laffoon was teamed with Walter Hagen, who is to embark on a world tour this summer. Shute played last year with Vic Ghezzi, and Armour was paired with Bobby Cruikshank.

Four new players will round out the field. They are Gene Sarzen, who will pair with Dick Metz, and Ralph Guldahl, whose partner will be Sam Snead. Guldahl was the leading money winner on the winter circuit.

Tournament officials, pointing out that the date of the Inverness meet falls between that of the P. G. A. tournament and the National Open, expect it to attract wider attention than it has previously.

Says Varicose Veins Can Be Reduced At Home

Prove It At Small Cost

If you or any relative or friend is worried because of varicose veins, or bunches, as good advice for home treatment as any friend can give, is to get a prescription known as Moone's Emerald Oil.

Simply ask Palace Drugs or your druggist for an original bottle of Moone's Emerald Oil and apply night and morning to the swollen, enlarged veins. Soon you should notice that they are growing smaller and the treatment should be continued until the veins are no longer burdensome. So penetrating and powerful is Emerald Oil that it helps simple swellings due to strain to disappear. (Adv.)

Appetite In Dumps? Try Dumpling Pie

Men, Especially, Are Fond of This Delicacy

By Mrs. GAYNOR MADDOX
NEA Service Staff Writer

In every man's heart lies a secret spot which nothing can fill but a dumpling. Ladies in love, take this advice—

Dumpling Pot Pie

(4 to 6 servings)

Two cups veal broth, 2 table-spoons flour, 1/2 teaspoon salt, 1/2 teaspoon onion salt, 1/8 teaspoon pepper, 3/4 cup cooked veal, chopped, 3/4 cup raw potatoes, sliced very thin.

Mix 2 tablespoons flour with a few tablespoons cold veal broth. Bring the remaining veal broth to boiling point, then add the flour mixture, stirring constantly to avoid lumping. Use and 1 1/2 quart heat resistant glass cause pan. Boil for 5 minutes until flour is well mixed with broth. Add salt, onion salt and pepper. Add potatoes, then chopped veal. Bring slowly back to boiling point.

Dumpling Batter

One cup flour, 2 teaspoons baking powder, 1/8 teaspoon salt, 2 tablespoons butter, 1/3 cup milk. Sift dry ingredients, cut in butter. Add milk and mix well. Drop by rounded teaspoons into gently boiling broth. Cover tightly and continue to cook over very low flame for 20 minutes without removing cover. Serve at table in same dish—and serve immediately.

Cheese Dumplings in Tomato Sauce

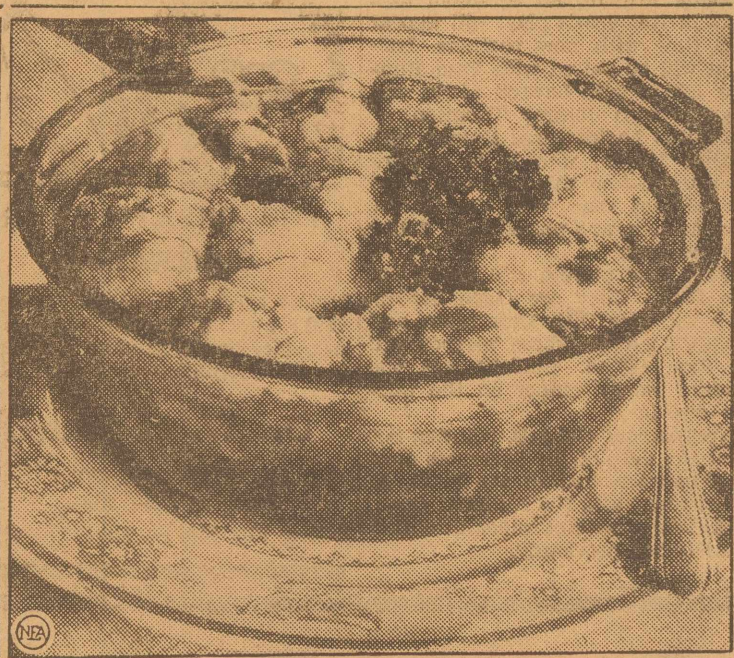

(4 to 6 servings)

One can tomato soup, 1 cup water, 1 bay leaf, 3 whole cloves. Heat ingredients together in 1 1/2 quart glass saucepan.

Dumpling Dough

1/2 cup grated American cheese, 1 tablespoon grated onion, about 1/3 cup milk. Lightly mix together the pre-

pared biscuit flour, cheese, onion and enough milk to make a soft dough. Remove bay leaf and cloves from hot soup. Drop dumpling mixture into gently boiling soup by rounded teaspoons. Cover

Dumplings make the heart grow fonder. And when used in a dumpling veal pot pie, they're the last word in goodness.

Swing Lingo's Hard To Swing Into

BY GEORGE ROSS

NEW YORK, April 8.—Swing lingo has become so complex, moans Tim Pan Alley, that even the tunesters who cherish it as the mother tongue don't savvy any more. A swing expert was saying the other evening that the young crowd which dances to his music has spanned a strange "gut-bucket" gibberish all its own—phrases that even a veteran swingster has difficulty in deciphering.

For example a young couple truck-in' past the bandstand exclaimed, "C'mon, big boy, comb my wig out." The bawdier wined under this extravagant order. For the moment he was as mystified as Toscanini might have been. But he swallowed his pride and almost his two false teeth, then sent out for an interpreter. Seems all the two-some wanted was a higher pitch on the trumpet.

Nowadays, when a practitioner of Le Jazz Hot shouts, "Cut out you cat," the boys in the band frown. They don't know the addict merely clamors for a fortissimo arrangement. "Lay service on it, sweetest," decoded, means "syncopate sweet and low down" and "The rhythm sends me" is a swing lover's ecstatic way of saying that he is pleased with the perfectly balanced orchestration.

Doubtful Meanings All bass-fiddle players now are

called "Slap-Silly Sammies." And "Creen on it, Caspar" is an exhortation for the clarinet to hit the tremulo trail.

"Bunch it up and break it down" is a plea for a low, seductive finish. "A jiffy-jam" is a piece played so fast and furiously that the stamina of the swingers doesn't allow them to sustain the tune for longer than a long minute.

Some other swing-slang phrases of recent vintage are "Ripen it and rock it" which in good old Noah Webster English means "Get hot, boys." And "Dovetailing the dirt" implies that the musicians have strayed much too far from the original musical theme.

Musicians, by the way, are reluctant to include many of these slangy innovations in the current glossary of Swing. But there seems to be no alternative. "It looks," one of them was saying, "as if we've started a philological Frankenstein. Why, half the stuff doesn't sound like proper English." But he happens to be a high-brow.

Believe in Signs?

In a previous paper on the prankish tricks played by electric light signs which suddenly go haywire, your courier forgot some. Probably the best of them all occurred last year during the now famous quarrel between George White and Rudy Vallee. In that encounter, you may remember, White and Vallee had differences of opinion package and let each other have it. The night following their brief exchange of fisticuffs, something happened to the bulbs on the marquee of the New Amsterdam Theatre. For when both combatants arrived at the theater the next night, the sign read:

GEORGE WHITE

RESENTS

RUDY VALLEE IN 'SCANDALS' The "p" was silent and it almost started another war. And speaking of signs, there is a huge one on a West 27th Street fur shop which reads:

WE MAKE FURS FOR GINGER ROGERS, JOAN CRAWFORD, GRETA GARBO AND JOAN BLONDELLE
But passersby have noticed in tiny type at the bottom of that imposing message, the line:
SOME DAY, WE HOPE.
Directly beneath that, the sign plaintively goes on:
MEANWHILE WE HAVE YOUR BUSINESS

WHEAT CROP--

casting continued high prices this fall for wheat, said a 800,000,000-bushel crop would cause this country to become a net exporter of wheat and would tend to put United States prices on an export basis. Secretary of Agriculture Henry A. Wallace said that if weather conditions are favorable this spring that a wheat crop of 1,000,000,000 bushels is "not improbable." Wheat specialists said the crop virtually is certain to be above last year's.

The condition of winter wheat on Dec. 1, 1936, the last government report, was 75.8 per cent of normal, indicating a 1937 production of slightly more than 800,000,000 bushels, agriculture officials said.

Unofficial Reports Optimistic Private and semi-official reports have caused government wheat experts to expect a condition report of close to 90 per cent tomorrow. This report, however, will deal only with winter wheat condition.

The crop reporting board estimated a harvest of 20,918,000 acres of spring wheat, from a probable seeding of around 23,000,000 acres. Last year 11,212,000 acres of spring wheat were harvested. The yield was 9.6 bushels per acre.

Principal wheat markets of the nation await tomorrow's report with considerable uncertainty. Prices have risen steadily in recent months. American prices have been considerably higher than world prices for several

West Texans Feed Out Livestock For Home and Markets

County agricultural agents of the West Texas section report that there has been, in the past few years, a noticeable trend toward feeding out hogs, sheep, and cattle, both for home use and for market.

Hog producers of Kinble county are using protein supplements for the first time in feeding enterprises. Use of cottonseed meal and tankage in feeding out 22 hogs is estimated by S. R. Schneider to have saved four bushels of corn per head.

when they averaged 192 pounds. The hogs topped the market and returned a good profit. Schneider has purchased two registered sows and a registered male of the Hampshire breed for future use.

The first trench silo built by Fred Thalman of Bandera county is being used to furnish roughage for 18 head of steers he is feeding out. In addition to hegari silage, the steers are receiving cottonseed meal and crushed ear corn, and put on an average daily gain of 2.85 pounds during January.

The county agricultural agent of Reagan and Glasscock counties conducted a trench silo demonstration on the farm of Harry Echols on February 4, when a silo was opened and the silage fed to dairy cows, hogs, horses, and sheep.
