## MOVIE CRAFTSMEN APPEAL TO UNIONS FOR MASS BOYCOTT

Picketing of Shows Demanded Of Members

## TEATY REJECTED

Union Recognition Is Omitted In Proposal

HOLLYWOOD, May 6. (AP)—Striking motion picture craftsmen today appealed for a nation-wide boycott and picketing of movie theatres after rejecting a peace proposal omitting mention of the closed shop and union recognition.

Rejection of the strike after film producers accepted "without qualification" proposals by the Los Angeles Central Labor Council for ending the walkout.

Charles Lessing, head of the Federated Motion Picture Crafts, sponsors of the strike, said he was "in no way interested" in the labor council plan. "The strikes goes right on," he stated.

Before the producers gave their approval of the plan in a statement by Pat Casey, labor arbitrator for the producers' group, Lessing asserted the strike would not end until the producers "come in 100 per cent with our demands."

Strikers would return to work immediately under the partially approved plan, and negotiations on wage scales and working conditions would be undertaken by representatives of each of the unions and producers. The strike involving several thousand workers, was called to win a closed shop and union recognition.

## SAY PRESIDENT TO ASK COURT CHANGE AFTER HIS RETURN

Adverse Vote Facing The Measure In Committee

WASHINGTON, May 6. (AP)—Administration leaders hinted last night that President Roosevelt intends to swing aggressively into the fight over his court reorganization bill soon after he returns to the capital.

He will arrive in Washington May 13 to find his measure facing an adverse vote of at least ten to eight in the senate judiciary committee, and the senate itself so evenly divided that a tie vote has been predicted in some quarters.

What the nature of the chief executive's activities will be—whether he will return to the radio, or seek to swing uncommitted senators by personal persuasion—the president's lieutenants in congress would not say.

They did point out, however, that he will be back in ample time to offer a compromise, if he sees fit to do so. Thus far, however, all compromise proposals have failed to gain his approval.

The committee met to discuss one of the numerous compromise plans a proposal by Senator McCarran (D-Nev.) that the court be increased permanently from nine to eleven, with one associate justice appointed from each of the ten judicial circuits.

Under the president's bill, the chief executive would be authorized to appoint six new justices to the court, unless incumbent justices who have passed seventy years of age retire voluntarily.

## Acceptance Must Be Made of Work Sheets Under ACP By May 15

COLLEGE STATION.—The final date for acceptance of work sheets under the Agricultural Conservation Program has been set for May 15 by the Texas Agricultural Conservation Committee, according to Geo. Slaughter, chairman. The committee has approved an earlier closing date for many counties where the sign-up is well advanced.

Indications are that approximately 240,000 work sheets will be signed for the 1937 program. Of these, some 15,000 cover ranches with a combined acreage of 53,000,000 acres which will take part in the range conservation feature of the program.

The sign-up this year is progressing rapidly, and is three months ahead of the 1936 participation in the program. Slaughter pointed out that due to the advanced stage of the sign-up, it would not be possible for the state committee to accept any work sheets after May 15.

The committee urged that farmers who contemplate filling work sheets do so at once in order to avoid any chance of being left out. Slaughter called attention to the fact that submitting work sheets entitled a farmer to receive payment if he complies with the soil-building and soil-conserving practices indicated in the program, but does not obligate him to enter the program.

## Pre-Coronation Portrait

Posing for their official Coronation pictures, King George VI wears the elaborate uniform of the Admiral of the Fleet while Queen Elizabeth looks regal in a simply jeweled coronet and a multiple-strand necklace of pearls. For the Coronation, however, they will don the vestments dictated by centuries of tradition.

## Trail Drivers Give Way to Truck Drivers, and Steer Herd Reduces Its Time to Hours Instead of Weeks

Truck drivers displaced trail drivers and relegated them to the discard in the delivery this week of 2,000 head of steer yearlings from the Figure 2's to the Muleshoe ranch, a distance of about 135 miles. In sharp contrast to the old way, the 2,000 steers were loaded, trucked overland and unloaded in two days and nights, where to have taken them up the trail and kept them in good flesh would have required from ten days to two weeks.

E. K. Warren & Son, owners of the famous old Muleshoe ranch, with headquarters seven miles from the town of Muleshoe, in Bailey county, bought the calves last fall from Bob Hill, making a deal to winter them on his equally historical Figure 2 ranch northwest of Andrews. When delivery time came, 24

## 'MISS MIDLAND' WILL BE CHOSEN FOR FRONTIER FIESTA TRIP MAY TWELFTH

Entrants in the Frontier Fiesta contest, to be staged at the Yuca Theatre May 12 under auspices of the chamber of commerce, for selection of a Midland representative at the Fort Worth Frontier Fiesta this summer, must turn in their names by Saturday at 5 p. m. It was announced today.

Girls will be entered by a list of 31 merchants signing up to lend sponsorship to the contest, according to the chamber of commerce, provided enough girls may become interested.

The winner at the contest to be staged at the Yuca theatre will receive an expense-paid trip to Fort Worth where the major contest will be staged. Last summer, Miss Faye Cotton of Borger, cafe cashier, won the Fort Worth contest, was queen of the Frontier celebration and is now playing in Universal pictures at Hollywood. This summer's winner has the same opportunity, it has been pointed out.

Girls entering the contest here May 12 do not have to appear in bathing suits, but may be attired in evening gowns. Out of town judges will make the selection.

Midland beauties, thus far, have been slow to enter the contest. Several merchants who had agreed to sponsor an entrant have been unable to secure one. It was pointed out today that the contest may point the way for some girl who now is engaged in stenographic or shop work to enter the movies, or at least to enjoy the expense-paid Fiesta trip at which lavish entertainment is seen. (MISS MIDLAND) Page 8

## DECATUR FARMER SLAYS WIFE AND 'THE OTHER MAN'

Discovers Pair In A Ravine Near His Farm House

## FILE 2 CHARGES

Charged in Death Of Two Victims By Officers

DECATUR, May 6. (AP)—G. F. Harris, 52-year-old farmer, was charged with murder last night after he admitted to Sheriff George Young he fatally shot his wife when he found her with a neighboring farmer in a ravine near here.

The wife, Ruth Harris, 46, died instantly from a shotgun blast. Ernest Taylor, 45, farmer living near the Harris home, perished from his wounds. The charge was filed in connection with his wife's death. A second charge was filed today in connection with the death of Taylor.

Harris told Sheriff Young and County Attorney Nolen Sewell he came home from his part-time WPA job today and found his wife was not there. He said he then walked to a neighbor's farm-home and borrowed a shotgun.

A little later, he related to the authorities he came upon his wife and Taylor in a shallow ravine. From his position on the ridge he called to the man and as the latter raised his head, Harris fired his gun, he said. His wife was killed and Taylor was shot in the head.

Harris said he walked two miles to a telephone and called officers who he led to the scene. He said he previously had discussed the situation with his wife and Taylor and had agreed to leave her if he could take his children. The dead woman leaves a child by a previous marriage. Harris also has been married previously, from which a child was born. Two children were born to the Harris couple.

The farmer was placed in the Wise county jail.

## Employees Over 65 Urged to Secure A Social Security No.

AUSTIN, May 6.—Employees over sixty-five years of age who are working for employers subject to the Texas Unemployment Compensation Act are urged to secure Federal Social Security account numbers, chairman-director Orville S. Carpenter announced today.

Mr. Carpenter pointed out that the Federal Social Security Board had made account numbers available for employees in these classifications, who, because of their age, are not covered by the Old Age Benefits section of the Social Security Act, but nevertheless are included in the state unemployment compensation program.

The account numbers may be obtained by applying at any postoffice, and will be used by the Unemployment Compensation Commission to facilitate the keeping of records of employees' earnings from which their benefits will be determined. Benefits, of course, will not be payable until after January 1, 1939.

"It is required that employers' first quarterly summary reports, which will be due on May 31," Carpenter said, "show each employee's account number as well as his name. Appropriate forms for filing these reports were mailed last week to the approximately 12,000 employers subject to the Texas act."

Mr. Carpenter stated today that the Texas Commission has deposited in the Unemployment Trust Fund \$9,041,141.94, a sum sufficient to pay maximum benefits of \$15.00 a week for 15 weeks to 40,182 persons. Refunds or return of contribution payments in the total amount of \$14,745.75 have been received by 240 Texas employers from the Unemployment Compensation Commission to date, Chairman Director Orville S. Carpenter revealed today.

Many refunds were necessitated by erroneous computing of contributions, although at least ninety per cent of the refunds were made to employers who are not liable for the payment of contributions.

"The law provides that any overpayment, or any contribution received from an employer not subject to the act, must be returned promptly," Mr. Carpenter pointed out. "All payments received are carefully checked by the Collections Department, and if there is any error it is found and immediately corrected."

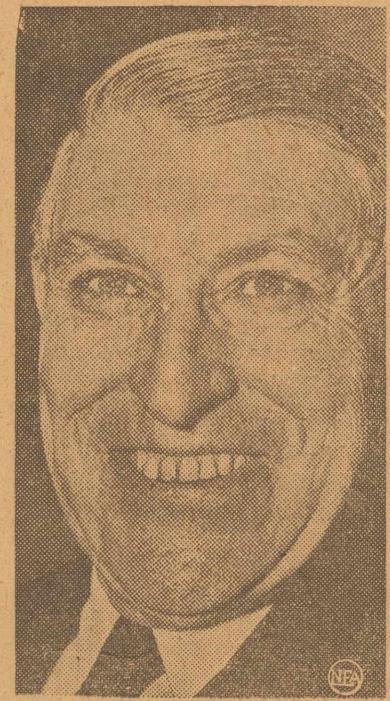

Thus, the employer runs no risk in making contribution payments promptly, and there certainly should be no hesitancy because of legal opinions or doubts. The money is held in trust, it was explained, and for its return in event the law is held invalid. It is not only unnecessary to pay under protest, Carpenter said, but such protest would hinder rather than help in event of refund.

## Spirited Debate Held In Senate Over Overriding Veto on The Trucking Bill

62nd Birthday Reveals Youngest Justice

Laughing off Age

Advancing years hold no terrors for Justice Owen J. Roberts, youngest member of the United States supreme court. The smile that wreathes his whole face tells of his 62nd birthday hope to spend many more years on the high bench, no matter what congress does in the way of limiting the ages of justices. At left he is seen in the garden of his Washington, D. C. home with Mrs. Roberts and their pet dog.

## TWO PRISONERS SHOOT WAY FROM JAIL IN HOUSTON

Jailer Expected To Recover From Wounds

CROCKETT, May 6. (AP)—Bee Rains, Palestine, and a man booked as "Red" Books, Oklahoma, shot their way to freedom from the Houston county jail today. One of the men opened fire on jailer Bill Parker. Parker as he came to their cells took his keys and fled in his car. One bullet hit Parker in the face but he is expected to recover.

## 15-YEAR OLD DEATH MYSTERY WILL BE PROBED IN CALIF.

Slaying of William Desmond Taylor Studied

LOS ANGELES, May 6. (AP)—District Attorney Burton Pitts announced today a renewal of an investigation into the unsolved 15-year-old mystery of the slaying of William Desmond Taylor, film director.

He said that Mary Miles Minter, silent screen star, Mrs. Charlotte Shelby, her mother, Mrs. Margaret Fillmore, a sister, had been subpoenaed to appear before a court grand jury.

## National Mission Work Outlined in Rotary Address

Work of Sunday school missionaries of the Presbyterian board of national missions was outlined in a classification talk by the Rev. W. R. Mann at the Rotary club luncheon today. A separate branch of work from foreign missions, the board is especially interested in extending religious activities to children and to citizens not served by the Presbyterian churches themselves.

Missionaries are located in every state of the union with five in Texas. The Rev. Mann is the oldest in point of service in the state, working in several counties with Midland as headquarters. Although in foreign mission work, the 1,400 foreign missionaries speak only 16 languages, there are 64 languages in use in the national mission work.

Last year the board of national missions spent \$2,484,248; synods and presbyteries not budgeting with the board an additional \$618,164, or a total cost for home missions of \$3,102,412. (ROTARY) Page 8

## Mass Evacuation Of Bilbao Starts

Women and Children, 5,000 in Number, Moved Today

Five thousand weary women and children led mass evacuation of Bilbao today under protection of British and French men-of-war.

Two Spanish steamers took refugees toward France as insurgent air raiders launched four bombardments against the Basque capital. Rebellious anarchists were still fighting the Valencia Spanish government and the local autonomous regime in Barcelona.

Insurgents disclosed a surprise offensive in eastern central Spain had blasted their government foe from the entire Sierra Palomera region north of Teruel.

A swift series of attacks in the last five days swept back the government forces more than 20 miles in a northeasterly direction from a point near the vital highway shooting north from Teruel to Calamocha.

Gen. Emilio Mola, commander of the northern insurgent army, ordered the offensive from his headquarters on the Bilbao front.

Dispatches from the insurgent front disclosed that the government's troops were driven out of the entire area they had gained in five months of infiltrations, minor attacks and their recent victory.

## COMPETENT COURT WORK SAID NEED

Hughes Says Judiciary Must Parallel The Other Branches

WASHINGTON, May 6. (AP)—Chief Justice Hughes today said that a "competent and independent judiciary must parallel legislative and executive institutions in order to safeguard individual rights."

He told the American law institute "a firm and true administration of justice is thus the primary concern of a civilized society."

Police watched all packages and none were opened without inspection and approval.

## CONOCO TO DRILL GAINES WILDCAT

Road Being Built To Test In Northwest Part Of County

BY FRANK GARDNER

A new wildcat location has been staked in northwestern Gaines county, the Continental Oil Company No. 1 Dr. E. H. Jones, 1980 feet from the north and 660 feet from the east lines of section 22, block A-7, public school land. Road is being built to the location, which is nine mile west and three miles south of Amon G. Carter-Conoco No. 1 A. L. Wasson, a drilling well.

The No. 1 Wasson, located in section 48, block AX, public school land, is drilling anhydrite at 3,490 feet. Strong gas flow encountered in the Yates horizon has caused interest in the test to run high, many believing it indicative of structural position.

Offsetting to the east the discovery oil well at Seminole in Gaines, Shell No. 1 S. F. Mann is mixing more mud after losing returns at 4,901. The well blew out that depth a week ago and operators have tried unsuccessfully to kill it. It is located 660 feet out of the northeast corner of section 22, block G, W. T. R. R. survey.

In Yoakum, Magnolia No. 1 Taylor, section 201, block D, John H. Gibson survey, had drilled to 4,024 in anhydrite. Nine and 5/8 inch casing will probably be run. West of Plains, Bahan & Rhodes and Fitzpatrick No. 1 Shook is drilling below 3,160 feet in anhydrite.

Rating 24-hour potential of 3,808 barrels, Humble No. 10 Tubb is the latest producer completed in the deep Permian play horizon of the Tubb pool in western Crane. Bottomed at 4,435, it was acidized with a total of 4,000 gallons. On test, it flowed 867 barrels in six hours, with potential rating based upon the last four hours of gauging, during which it made 635 barrels. Location is 440 feet out of the northwest corner of section 10, block B-27, public school land.

North of the Tubb pool, Gulf No. 2 McKnight is drilling unchanged at 4,804 feet in lime. When bottomed at 4,750, it balled 59 gallons of oil and an equal amount of water in four hours.

In the Foster pool of Ector, Empire No. 1 Bagley flowed 394 barrels in 17 hours after acidizing with 3,000 gallons at 4,251. It was reacidized this morning with 4,000 gallons. York & Harper and Sloan & Zook No. 1 Buchanan, Foster outpost near the town of Odessa, is drilling anhydrite at 2,022 feet. It topped anhydrite at 2,022 feet. (OIL NEWS) Page 8

## FORCED PASSAGE OF ACT OVER GOV. IS BEING SOUGHT

Measure Defeated In House by Vote Of 110-29

## NEW PARDON LAW

Enacted When Allred Fails to Sign Or Veto Act

AUSTIN, May 6. (AP)—The senate engaged in spirited debate today over a motion to override Governor Allred's veto of the bill exempting merchant-owned trucks from contract carrier classifications. The house voted to override the veto yesterday.

The house cleared way for floor consideration of the appropriation bill as the legislature sent the governor a bill authorizing conversion of most of Padre Island into a state park. The house concurred with senate amendments.

Governor Allred signed a bill giving women equal representation with men on the state democratic executive committee. A bill designed to end controversy over location of a new state pardon board became a law when it was filed without the governor's signature.

The house ordered an investigation into alleged "barbaric and inhuman" treatment of inmates by "certain unscrupulous employees at certain eleemosynary institutions."

Representative Bradbury of Abilene won permission to introduce a bill intended to reduce Texas child marriages. The bill would raise girls' minimum age to 16 and from 14; no change from the present minimum for boys, 16, would be made.

## SEVEN STUDENTS FROM HERE ENTER INT. LEAGUE MEET

Six Athletes and One Declaimer Are Listed

Six athletes and one declaimer will represent Midland high school in the state interscholastic league contests opening at Austin tomorrow. The students, with faculty members accompanying them, were leaving today for the capital.

Track men to compete include Remmel Cowan, Lynn Stevens, Harold Barnes, Woodrow Adams and E. F. Lewis. Tennis singles will be engaged in by Joe Norman. The senior declaimer is Billy Noble.

Faculty members making the trip included Superintendent W. W. Lackey, Principal D. D. Shifflett, Coaches M. A. Baumgarten, Bud Taylor and L. M. Freels. Mrs. Susie G. Noble accompanied her son, Billy Noble.

Registrations will begin at Austin this afternoon. Advance estimates by Roy Bedichek, chief of the bureau of public school interests, said that 5,000 delegates, 1,200 of them contestants, would be in Austin for the three day activities. Numerous special exhibits have been planned for visitors.

## Directors Midland Fair Meet Friday

Directors of Midland Fair, Inc., have been called to meet Friday evening at 8 o'clock at the chamber of commerce office, for important business.

Plans for the 1937 rodeo probably will be decided upon, according to a notice mailed to directors by J. Homer Epley, secretary. The president, Clarence Scharbauer, requested a full attendance.

## Boy Scout Round-Up Will Open Tomorrow

The most important event in the Scout calendar will take place Friday and Saturday of this week, May 7 and 8, at Big Spring, Texas, when more than 800 representatives of the Buffalo Trail Council of the Boy Scouts of America will meet for the annual round-up.

From Balmorhea in the Davis mountains to Aspermont in Stone-wall county, the scouts will gather for participation in a gigantic campfire Friday night and in scouting contests Saturday. Last year more than 700 scouts participated and this year's attendance is expected to surpass last year's fine record by more than 100.

Claude O. Crane of Midland, scout commissioner, will be chief judge. Arrangements for the round-up have been made by George Gentry, district chairman at Big Spring, assisted by a large group of scouts.

The scouts will gather at 4 o'clock. (ROUND-UP) Page 8

### NO 'DEFEAT'

Marvin Creager, managing editor of the Milwaukee Journal, gave to the American Society of Newspaper Editors one of the most sensible comments on the part of the press in American politics that we have yet heard.

Last fall, he remarked, President Roosevelt was triumphantly re-elected despite the fact that a majority of the nation's dailies fought him. Was this, then, a defeat for the press, as many people have said? Listen to Mr. Creager:

"Few editors wish to see newspapers reach such power as to be able to control elections. What we have seen is in no real sense a defeat for the press. It is rather a striking demonstration that the public power of the press lies in informing rather than in exhorting."

In other words, the newspaper is primarily what its name implies—an organ for disseminating news. It did that job very ably in the last campaign. It gave the voters the facts and the voters made up their minds on the basis of those facts. There is no shadow of a "defeat" in that.

### BAR ETIQUET

One of the weirdest court decisions we can recall offhand was recorded in New York the other day, when a magistrate held that a man who failed to remove his hat in a bar in the presence of ladies was guilty of disorderly conduct.

The culprit in question, it seems, was taking his ease in a Second avenue bar, his hat tilted comfortably back off his brow, when a feminine customer came in. The man failed to uncover, and, when the proprietor requested him to do so, he got a bit tough about it. The police finally drew cards in the affair, the man lugged off to court—and the pearl of judicial wisdom mentioned above was the result.

Now we may be old-fashioned and woefully backward-number-ish, but we can't help feeling that a woman who insists that man uncover in her presence has one excellent recourse in such a situation. She can stay out of bars.

### Survey Material Shown at Exposition

AUSTIN, Texas, May 6.—Apparatus used in photographically surveying the Brazos River for the projected flood control and water conservation program on that river will be demonstrated as one feature of the Engineering and Architecture Power Show and Exposition at the University of Texas Friday evening, May 7, according to E. C. H. Bantel, assistant dean of the College of Engineering. The show is being held as a compliment to the thousands of school boys and girls in attendance Friday and Saturday at the State Meet of the University Interscholastic League, and they, as well as the general public, are invited. Hours for the show are from 6 to 11 p. m.

All machinery in every engineering department and facilities of the architecture department will be on display and in operation. Various commercial firms will demonstrate the latest methods in aerial photography and other engineering pro-

### West Texans Move To Improve Farms And Ranch Lands

Conservation of natural resources in various lines is the key note of the operations of many West Texas farmers and ranchmen, according to county agricultural agents in that section.

Level terrace lines were run on an 80 acre field of William Allison in Sutton county and the terraces have been built. Most of the field is new land and Allison will use it for the production of feed, part of which is to be cured for hay and the rest stored in a trench silo.

A 24 acre field belong to Bryan Hunt of Edwards county has been terraced. The terraces are 24 feet wide with a six foot crest and are 12 inches high. Red top cans will be drilled in strips to aid the terraces in controlling erosion.

Terraces are not the only conservation measures practiced in West Texas. Three years ago, Roger Gillis started to develop game on his Val Verde county ranch. The 32,000 acre block was trapped three years ago and poison for predatory animals was put out during the next two seasons. Several plots of grain sorghums were planted to supply feed for 100 pheasants that were released in the fall of 1936. Some 500 quail have been placed on the ranch.

The need for green manure crops in Bandera county was demonstrated through a series of soil tests which showed that the soil was lacking in phosphorus, magnesium and nitrogen. All samples showed an excess of calcium.

Eric Haquinus, chief of surveys for the Brazos River Conservation and Reclamation District, will personally demonstrate the equipment his engineers are using in mapping that stream. Photographs through red and green film are taken of small segments of the landscape, these are joined together and re-photographed, and resulting film is viewed through red and green spectacles. From this film, thus seen, the river can be mapped with great speed, lower cost, and more accuracy.

### HAPPY RELIEF FROM PAINFUL BACKACHE

Caused by Tired Kidneys Many of those gnawing, nagging, painful backaches people blame on colds or strains are often caused by tired kidneys—and may be relieved when treated in the right way. The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. Most people pass about 3 pints a day or about 3 pounds of waste. If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, lumbago, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

### New Oil Fields Said Probable in Kansas

HOUSTON, May 6.—Much success has been attending the extensive oil exploration of Western Kansas in the past several years, and the findings of many more new fields in that area is in prospect, according to the "Western Kansas Number" of The Oil Weekly.

There are now 155 oil fields in the district, of which 87 were discovered in 1935 and 1936. In the latter year, Western Kansas led all major districts in the United States in the number of new pools found, having supplied 54 new fields.

Moreover, many of these new fields so far are but scantily developed. There are 45 fields in the area with but one well drilled so far; 14 fields have but two wells each; 8 have but three wells each; and several others have four, five, or six wells.

Although inadequate pipe line outlets have retarded drilling in some fields, these facilities are expected to be provided soon, and to stimulate drilling.

At present an exceptionally large amount of exploratory work is in progress in Western Kansas, and major companies have over 5,800,000 acres of undeveloped leases. Last year, 3,500,000 acres were explored by the seismograph method of geophysics. In search of favorable structures, and 1,000,000 acres, were core drilled. Meanwhile, much geological work also was in progress.

With the new fields of the western portion of the state contributing heavily to the state's output, Kansas crude oil production in 1936 was greater than in any previous year, and this year is bringing another new high record.

A large insert map of Western Kansas, in seven colors, showing the oil fields of the district, accompanies the special issue.

Bees do not get honey from flowers. They get nectar, which they transform into honey by adding certain enzymes. These convert the complex sugars of the raw nectar into simple sugars, known to chemists as dextrose and levulose.

## Study Club Meets With Mrs. Leggett

Mrs. L. Waldo Leggett, 420 S. Main, was hostess yesterday to the Modern Study Club. Mrs. John W. Skinner was leader for the afternoon. The subject was "Our Southern Neighbors." Roll call was answered with "Who Are Our Southern Neighbors?"

A paper was given by Mrs. Leggett on "Cuban Politics." Mrs. S. S. Stinson gave an interesting talk on "Mexico." The leader, Mrs. Skinner, led a round table discussion of the subject "Pan American Relations."

Plans were made for a Silver Tea at the Midland Country Club May 19. At the time a pageant, "The Summoning of the Nations," will be presented. Mrs. L. C. Link is director.

Members attending the meeting were Mrs. J. M. Haygood, Mrs. J. M. Hibs, Mrs. R. Steele Johnston, Mrs. Tom Sealy, Mrs. John W. Skinner, Mrs. S. S. Stinson, Mrs. P. A. Nelson, Mrs. R. H. Biggs, and the hostess Mrs. Leggett.

## Mmes. Lewis And Adams Win Prizes

Members of the North Ward P. T. A. wish to thank everyone who in any way had a part in making the annual Benefit Bridge a success.

There were twenty tables of bridge, and the benefit was held in the Crystal Ball Room of Hotel Scharbauer. Mrs. Harry Adams was presented sterling silver candle holders for high score, and Mrs. Glenn Lewis was presented a sterling silver compote for second high.

Proceeds from the annual event will be used to buy supplies and medical attention for needy children of the North Elementary School for the next school term.

Mrs. Robert Hamilton is president of the P. T. A.

## Luncheon With Spring Tang

For the perfect spring luncheon with a pot of tea—a platter spread with a bed of watercress and delicate dandelion greens whereon rest ruddy slices of tomato. Across from the garden, spreads a stalwart row of slices of fry bread. In the center waits Liederkrantz cheese and tender young scallops. Now how could the spirit of mortal be sad with such a luncheon before it?

By MRS. GAYNOR MADDOX  
NEA Service Staff Writer

The spring appetite and the advice of beauty experts suggests luncheon salads. Just what the doctor ordered. But don't hold that against them—they taste good enough to be delightfully indigestible.

**Macedoine Salad**  
(4 to 6 servings)

Two cups cooked cauliflower buds, 1 cup cooked carrot cubes, 1 cup cooked green peas, 1/2 cup cooked baby lima beans, 6 stuffed olives.

Arrange the separate vegetables in small deep dishes and marinate in French dressing. Place dishes covered in refrigerator while standing in the French dressing. Have lettuce cleaned and chilled. For each serving, arrange a crisp bed of lettuce leaves on salad plate, then pile up with marinated vegetables and sprinkle with finely sliced stuffed olives. Serve with more French dressing in a separate bowl. This salad with crisp rolls and a pot of tea makes a refreshing luncheon.

**Pineapple-Cabbage Salad**  
(4 to 6 servings)

One-half head firm young cabbage, 1 1/2 cups diced fresh pineapple

Mix with mayonnaise and cream dressing. Try this with whole wheat muffins and slices of cold ham.

If you like mayonnaise well enough to make it yourself, try this simple recipe.

**Mayonnaise**

One teaspoon prepared mustard, 1/2 teaspoon salt, 1/8 teaspoon pepper, 1/8 teaspoon paprika, 1 egg, 2 1/2 tablespoons best quality vinegar or lemon juice, 2 cups olive oil or salad oil.

Use a large bowl. Mix the dry ingredients—salt, pepper, paprika, and the mustard last. Add egg and beat well, using rotary egg beater. Now begin adding the oil very slowly, only by teaspoons at first. Use at this stage of the making only 1/2 cup of oil, continuing to beat steadily. Next add 1 tablespoon vinegar and beat in well, then add more oil, beating steadily, and more vinegar until all of both oil and vinegar have been used up. Simple and reliable, and this mayonnaise is just the beginning of many salad dressings made with it as the base.

**Tomorrow's Menu**

**BREAKFAST:** Rhubarb and pineapple sauce, dry cereal, bacon rolls, currant jelly, coffee, milk.

**LUNCHEON:** Green Pea soup in cups, salad and cheese plate, fry bread, tea, milk.

**DINNER:** Grapefruit juice, stuffed lamb chops, new potatoes with parsley butter, shredded string beans, grated carrot and lettuce salad, frozen cream, chocolate angel food, cake, coffee, milk.

apple, 1 green pepper, shredded into long paper-thin strips, 1 white onion, minced, 6 green lettuce leaves, shredded. Shred the cabbage into thin strips. Combine all the vegetables and lettuce and pineapple.

## PLAY REVIEW

\* \* \* \* \*

### "Mr. Pin Passes By"

By Alan Alexander Milne

The morning room at the Marden house in Breckingshamshire is as it was one hundred years ago, and has been described as "mellow," "old-fashioned," "charming" and even "baronial" and "antique." But Olivia George Marden's wife, wants it to be exciting and has let herself go over some new orange and black curtains, which George refuses to have because as he says, what was good enough for his great, great grandfather is good enough for him. But trust Olivia to get not only the curtains, but a carpet and new cushions as well.

Mr. Pin, a wistful, kindly, gentle, little man living in some world of his own, comes to the Marden House to obtain a letter of introduction to a certain distinguished man. While Mr. Pin is waiting for George, Dinah, George's niece and ward, entertains him by inflicting some of the family history on him. She even tells him of Olivia's former husband, Jacob Telworthy, who was a shady swindler, and who died for drink.

George is busy, at the moment with Brian Strange who is trying to get George's consent to his engagement to Dinah. But George refuses to allow them to become engaged because he is opposed to Brian's political views and his views on art. He calls Brian a damned futurist painter chap who paints triangular clouds and square sheep.

In the meantime Mr. Pin remembers that he forgot to send a telegram and leaves to return later. On his return he talks to Olivia while George is writing the letter for him. He, too, has lived in Australia, and while he and Olivia are talking of Australia he mentions that he came over on the boat with a man whom he had once employed but whom he thought dead—said the man was an ex-convict and that his name was Telworthy. Olivia and George are horrified and shocked at this news and George hurries him away quickly without letting him finish his story about the man, thinking only of what people will say and of the horrible publicity about his having lived for five years with Olivia without being legally married to her—Olivia, a bigamist! Oh what a horrible word—to think that such a thing could happen in the Marden family. But Olivia looks at it in another light. She loves George, and is happy with him. George, the typical, narrow minded, English country gentleman, thinks to what it means in the eyes of the law, the church, the country and of the heavens, and thus plans to have the marriage annulled and send Olivia away. Olivia still hopes he will take the stand Brian said he would take if he were in George's place—that is to say to her "You're mine! Let this other damned fellow take you from me if he can—and he can't." But George says he must act in accordance with the laws of the land.

Just as George makes his last effort to convince himself he's right in giving Olivia up, Mr. Pin comes in again and says that he went away so quickly he didn't finish his story about Telworthy—that he died in Marseilles from having swallowed

a fish bone. George is greatly relieved and says they can go to the registry office and be married again very quietly and no one be the wiser. But by this time Olivia has other plans. She makes him propose to her all over again and then says she will "think it over." While she is "thinking it over" she works George over. She makes him behave toward her just like he makes Brian behave toward Dinah. He doesn't even get a kiss until she decides to accept his proposal.

Soon poor, conscientious, little Mr. Pin returns again, very quietly and whispers to Olivia that he was mistaken about the man's name—it was Polwittle. But Olivia never tells George of this visit and lets him continue to believe they must be quietly married again, thus by "innocent deception" and chicanery she not only obtains his consent to Brian's and Dinah's engagement, but she gets new curtains plus new carpets and cushions and even a honeymoon in Paris.

While George is hanging the new curtains, poor Mr. Pin comes back for the last time and whispers to Olivia that the man's name was not Henry Polwittle but Ernest Polwittle—yes, Ernest Polwittle—and he goes away happy. Poor Mr. Pin, perhaps somebody else would have committed bigamy if he hadn't remembered it was Ernest not Henry Polwittle.

(NOTE: This is a resume of the play read by Mrs. A. O. Thomas for the Play Readers Club.)

## MUNICIPAL DOCKET HAS

**8 YEAR OLD CIVIL CASE**

LORAIN, Ohio, May 6 (U.P.)—Civil case number 7-881 on the municipal docket, pending for eight years, is to come to trial soon. The case, a claim for a small sum of money, was filed in 1929. During the eight years it awaited trial, 10,000 other cases were filed.

Tadpoles can be made to turn into frogs at any time by feeding them on thyroid tissue.

## Robyn Club Has Practice Program

The Robyn Club met yesterday afternoon at the Watson School of Music Studio for a Practice Program. A group of piano students who will enter the National Piano Tournament in Abilene this month played the selections that they will play at that time.

Following is the program: Sonata in G (Beethoven), Marjorie Barron.

The Merry Go Round (Wagner), Mildred Brinson.

The March of the Chords (Bilbro), Elaine Hedrick.

Joyous Peasant (Schuman), Dorothy Rose Otho.

Wisteria (Engelman), Pauline Wingo.

Drifting (Williams), Odell Collier.

Dark Eyes (Biestelhorst), Margaret Mims.

The Cathedral of Twilight (Wagner), Alberta Smith.

Little Sambo, Betty Jo Massey.

Silent Night (Carew), Eileen Eiland.

A Chinese Dance (Anthony), Mildred Massey.

Drifting (Williams), Dorothy Barron.

Two violin selections: Blue Bells of Scotland, Dorothy Faye Lynch and Endearing Young Charms, Lewis Wingo.

## BIBLICAL TREES PLANTED

PASADENA, Cal., May 6 (U.P.)—Pasadena Junior College students are planting on the campus rows of Carob trees of the Biblical locust variety that furnished St. John with nourishing beans, in times of distress.

## Announcements

**FRIDAY**

Members of the Ladies' Golf Association meet at 8:30 at the Country Club to play golf. Make luncheon reservations with Mrs. Howe at the club. The Set Bridge Tournament begins at 2 o'clock.

There will be a social meeting of the Belmont Bible class at the home of Mrs. T. O. Midkiff, 1002 S. Marienfeld.

Mrs. Butler Hurley, 604 N. Big Spring, will entertain the Escondido Club at 3:00 o'clock.

Mrs. Lee Cornelius is presenting her pupils in a General Spring Recital at 8 p. m. at the First Christian church.

W. M. U. of the First Baptist church is mailing a box of new and used clothing to the Butler Orphans Home. If you have any contributions, call Mrs. Elliott Barron or Mrs. Troy Eiland.

**SATURDAY**

Children's Story Hour is conducted each Saturday morning from 10-11 a. m. in the Children's Library at the courthouse.

Bird migration baffled nature students of early times. Some authors thought birds buried themselves in mud through the winter, while some believed that migratory birds spent their vacation periods in the moon.

## LOSE UGLY FAT

This Easy, Safe Way

How would you like to get rid of that bulging waist, sprawly hips, double chin and at the same time feel better than you have for years?

How would you like to get your weight down toward normal and at the same time develop that urge for activity that makes work a pleasure—also gain in ambition and keenness of mind?

Get on the scales today and see how much you weigh. Then get a 4 ounce bottle of Kruschen Salts which costs but a few cents and will last you for weeks. Take one half teaspoonful in a glass of hot water first thing every morning and cut down on fat meats, butter, cream and sugary sweets. After 3 weeks weigh yourself again and note the fat you've lost.

Now you can laugh at the people who pay hundreds of dollars to lose a few pounds of fat—now you'll know the pleasant way to lose unsightly fat and you'll also know that the 6 mineral salts of Kruschen (salts that kidneys, liver, gall bladder and bowels should have to function properly) have helped present you with more glorious health. (Adv)

## Mrs. Stevens Is Hostess to Club

Mrs. Nancy Stevens, 910 W. La., was hostess yesterday to the Junior Woman's Wednesday Club. A phase of the subject for the year "Interior Decoration" was discussed by Miss Lucile Thomas who gave a paper on "The Making of Lampshades, Draperies, etc." Mrs. Ben Black read a paper by Mrs. Hugh West on the subject "Procedure and Harmony."

A refreshment plate was served to one guest, Mrs. Robert Tesch of Fort Worth, who is an associate member, and the following club members: Mrs. Barron Kidd, Mrs. Ben Black, Mrs. Frank Miller, Mrs. W. M. Blevins, Mrs. Alf Reese, Mrs. John M. Speed, Jr., Miss Mary Maude Sparks, Miss Ida Beth Cowden, Miss Lucile Thomas, Miss Ruby Hodges, and the hostess, Mrs. Stevens.

## Play Readers Meet With Mrs. Hodge

Mrs. J. Howard Hodge was hostess yesterday to the Play Readers Club at her home, 408 N. Marienfeld. Mrs. A. O. Thomas very ably read the play "Mr. Pin Passes By" by Alan Alexander Milne.

Mrs. W. Blake Chapman was a guest. Club members present were Mrs. E. W. Anguish, Mrs. R. M. Barron, Mrs. Jack Hawkins, Mrs. Charles L. Klapproth, Mrs. De Lo Douglas, Mrs. W. L. Miller, Mrs. Fred Wilcox, Mrs. A. O. Thomas, Mrs. Wallace Irwin, Mrs. W. T. Schneider, Mrs. E. Hazen Woods, and the hostess Mrs. Hodge.

## THEFT OF SCRAP METAL RISES AS PRICES GO UP

EL CENTRO, Cal. (U.P.)—Europe's and Japan's intensive armaments building program is alleged to be having very definite repercussions on the increase in crime in America.

Sheriff R. W. Ware charges that the increased thefts of farm machinery, brass, cast iron and pipe fittings is due to the increased price which foreign governments are now paying for scrap metal of all kinds.

# Not Created for Philanthropy, Van 'Empire' May Yield \$4,000,000 Windfall for Charity

## Proceeds From Sale In Hands of Ball Foundation

**BY BRUCE CAITON**  
NEA Service Staff Correspondent

Probably the last thought that could have entered the canny minds of the late brothers Van Sweringen, when they were looping together their fantastic "empire," would have been that they were laying up a handsome windfall for charity.

The brothers were not philanthropists. But because they died before anybody expected them to and left the leading strings of their properties in the hands of a quiet Indiana business man who has made millions and given millions away, some \$4,000,000 rests today in the hands of a philanthropic foundation.

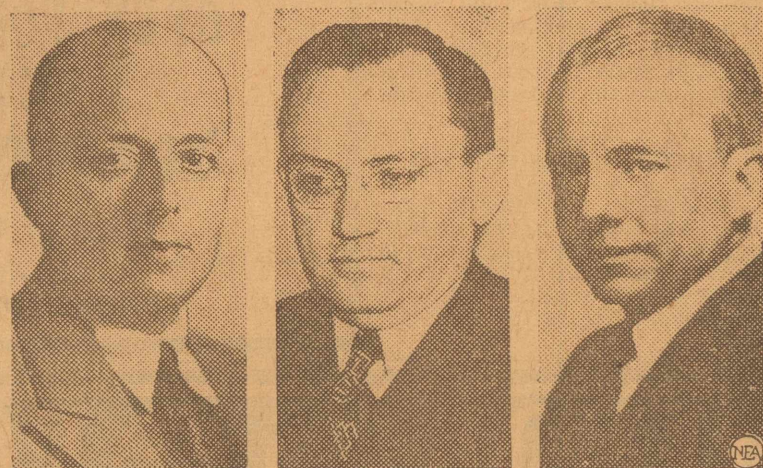

George A. Ball of Muncie, Ind., paid most of the \$3,121,000 for which—at a Wall Street sale, in 1935—the Van Sweringen properties changed hands.

When these properties were resold the other day to Robert R. Young, Frank F. Kolbe and Allan P. Kirby, the price was \$3,375,000.

This, one the face of it, would mean a profit for Ball of about 100 percent. But this deal—like all others connected with the Van Sweringen holdings—is slightly complicated.

L. R. Robinson      George A. Ball      L. A. Pittenger

Allan P. Kirby      Frank F. Kolbe      Robert R. Young

ing charitable trust. To it, he transferred the common stock of Midamerica Corp., the holding company through which he and George A. Tomlinson had acquired the Van Sweringen securities.

Before this trust was created Ball had got back upwards of \$1,000,000 of his original investment when Midamerica sold some 20,000 shares of stock in the Cleveland Railway Co.

These diverse items, then, must be figured in, in addition to the sale price paid by Young, Kolbe and Kirby, when the profit on the whole transaction is gauged.

**Issue In Court?**

The upshot of it all is that the George and Frances Ball Foundation apparently stands to profit by about \$4,000,000 from the deal.

So, unexpectedly enough, the residuary legatee, as you might say, of the Van Sweringen brothers' long and involved efforts at money-making is an organization set up to dispense money for religious and charitable purposes.

That it will begin dispensing money in the near future is improbable. The receiver for the Van Sweringen estate is preparing to go to court to see whether the estate still has the right to exercise the option which the brothers held before their death—an option to buy back the securities they had sold, at the sale price, plus interest.

Until that issue is finally settled by the courts, the George and Frances Ball Foundation is not apt to do anything with its profit except sit on it.

The foundation is managed by a board of directors, composed of the incorporators. Named in the incorporation papers are George A. Ball; his wife, Frances; their daughter, Elizabeth W.; Leland Rex Robinson of Bronville, N. Y., a son-in-law of the late L. L. Ball, the financier's brother, and Dr. Lemuel A. Pittenger, president of the Ball State Teachers College at Muncie.

**Evidence of Generosity**

George A. Ball's record as a philanthropist is a fair sign that eventually the profits of the Van Sweringen empire are apt to be spent on the kind of activities that are not intended to make a profit for anyone.

You could not pass through Muncie for instance—not to speak of staying there for any length of time—without seeing ample evidence of the scope of his giving.

On the outskirts of the city is the Ball State Teachers College.

## Got Back \$1,000,000

Approximately a month ago, Ball created the George and Frances Ball Foundation as a self-perpetuating

## Easterners Put Up Cash as Holdings Change Hands

Most of its buildings were given by Ball.

Not far from the college is the Ball Memorial Hospital, on which was spent \$1,500,000. Both the Y. M. C. A. and the Y. W. C. A. buildings in Muncie are Ball gifts. So is the Y. M. C. A.'s fine summer camp. Mucie's Masonic Temple was made possible by Ball money. The state university has received a million of that money.

The Muncie airport was laid out on land donated by the Ball family, and was equipped with Ball money. The American Legion occupies headquarters given by the family. There is a city golf course, built with Ball Money.

**And Now—**

Nor is that all. Through many years, it is said, deficits at the close of Muncie Community Fund drives were met—*anonymously*—by the Ball family. So were deficits of the Y. M. C. A. and the Y. W. C. A.

The family has contributed heavily to a hospital for crippled children in Indianapolis. A charitable foundation, organized some years prior to the Van Sweringen deal, has quietly handled a great number of activities such as seeing to it that tuberculosis cases are properly hospitalized, carrying on welfare work in the city's depressed areas, providing funds for community gardens in the depression, and so on.

No one apparently has ever bothered to tabulate the net total of all of this giving. That it runs well up into the millions is unquestionable.

When the legal entanglements are finally cleared away, there seems to be good reason to expect that this new Ball foundation will carry on the work on an equally generous scale.

With money realized from the sale of the Van Sweringen empire, which never pretended to be a non-profit making organization!

## Prima Donna and Photographer Old College Chums

Margaret Speaks, prima donna on the Voice of Firestone program, recently made the startling discovery that the official New York NBC photographer was an old friend of her college days at Ohio State University. Miss Speaks will be heard with Richard Crooks on the Monday evening Voice of Firestone program, May 3, over the NBC-Red network at 8:30 E.D.S.T.

## Bank Equipment, Staff Increased

Increasing of the staff and complete modernization of equipment has been under way recently in the First National Bank, in order to keep pace with growth of the territory and to speed up service, officials said.

C. H. Horsley, formerly with the state banking department of Oklahoma, has been employed by the bank and is in charge of the discount window. He at one time was receiver of five insolvent banks for the Oklahoma banking department and, prior to that, was assistant cashier of the National Bank of Commerce at Pawhuska. He and his

## Mystery Figure in Lindy Case

Linked with mysterious rumors of a reported of the Lindbergh kidnaping case was the name of Dennis B. Doyle, 37, above, of the Bronx, N. Y. Reported "new evidence" in the case hinged on a bank deposit of Lindbergh ransom notes.

## CYCLING CLUB OFFICER SERVES HALF CENTURY

**BOSTON, (U.P.)**—Dr. Walter G. Kendall has begun his 51st term as captain of the Boston Bicycle Club.

At 83, but, along with his fellow club members, numbering 51, he is content, because of present-day traffic conditions, to leave the sport to the younger members.

The club, which flourished in the "get-a-horse" days of automobilism, still holds an annual reunion and once each year the members go for a "wheel about the Hub"—but nowadays this trip is made by bus.

## Engineer Tries Iron Pavement To End Skidding

**MINNEAPOLIS, May 6 (U.P.)**—Prof. E. W. Davis, superintendent of the mines experiment station of the University of Minnesota, has a job with a double purpose—highway safety and an additional market for Minnesota iron ore.

Davis was detailed by the state to try to discover a means of building safe highways with iron surfacing. A new market is sought for the vast low grade iron ore mined in Minnesota.

Extensive test have been made and further ones are planned by Davis and his staff.

After more than a year's experiments, Davis has designed a surfacing of iron blocks which prevents forward skidding by an automobile. Tests have proved that another design prevents side skidding to a much greater extent than it has been on concrete.

If Davis evolves out of his two designs a third which will prevent both forward and side skidding, as he hopes to do, a new era in traffic safety is foreseen.

## Sawing of Log To Open Bridge At Golden Gate

**PORTLAND, Ore., May 6 (U.P.)**—Not the "shot heard 'round the world," but the shot that will be heard from coast to coast will signify the program opening for the log bucking contest that will officially open the Golden Gate bridge at San Francisco.

Archie Whisman, Portland, secretary of the Pacific Logging Congress, with his starter's gun, will set three log sawing champions into rhythmic attack on a 36-inch redwood log, only remaining barrier to passage of pedestrians and vehicles over the span.

The international log bucking tourney was decided upon for the ceremony in place of ribbon-cutting, pressing of electric bells or other time worn customs for bridge and other openings.

Whisman was chosen starter because of long experience at officiating at log bucking ceremonies. His shot will make history, for it will be heard across the nation, via radio.

## State Operates Trailer School To Aid Mothers

**MADISON, Wis. (U.P.)**—The Wisconsin board of health this month began to bring "visual instruction in motherhood" to women of the state's rural areas in a house trailer.

The trailer is equipped for showing sound movies of child care to audiences of 15 women, according to Dr. Amy Louise Hunter, supervisor of the state board's bureau of maternal and child health.

## Reduces Varicose or Swollen Veins

**Simple Home Treatment Prove It at Small Cost**

The world progresses. Today many minor ailments that took weeks to overcome can now be helped much more quickly. If you have varicose veins or bunions start today to bring them back to normal size and if you are wise you will do so.

Just get an original bottle of Moone's Emerald Oil at Palace Drugs or any dispensing pharmacist and apply it night and morning to the enlarged veins. It is very powerful and penetrating, and only a little is required.

In a short time the veins should begin to grow smaller and by regular use soon approach normal.

People who want to reduce varicose veins or simple swellings should not hesitate to try a bottle at once. It is so penetrating and powerful that a small bottle lasts a long time. (Adv.)

The "rolling classroom," Dr. Hunter said, is designed to reach the young women and mothers in the thinly populated areas "by the most practicable tie that connects them with their state government—our fine highway system."

Legumes are useful in crop rotation because of their nitrogen-fixing qualities.

**Palace Travel Coach** —the Big-Value Coach!

A sumptuous coach, over 16 feet in length, with sensational features never before found in any except the most expensive trailers—such as a built-in bathtub, a heating stove and two full-size beds to sleep four adults. At \$595, f. o. b. factory, it's the year's smartest buy. Come and see it! Other models 18 ft. and 23 ft. in length at equally moderate prices.

# OILERS RAP NOREN FOR 14 HITS TO TAKE SPLIT: SCORE 9-8

## SIX HOMERS ARE BLASTED OUT BY WINNERS, LOSERS

The Odessa Oilers turned on their vaunted batting attack out at City Park yesterday and when they finally got through they had split the opening series of the year with the Midland Cardinals by winning 9-8.

The Oilers cut the Cards 14-7, however, they had their hands full in coping the game. The youthful Red Birds knocked Toler, starting pitcher, out of the box in the fourth but were kept fairly well in hand by Woods.

There was a total of six home runs garnered during the game with the clubs splitting them 3-3. Dorley, hard hitting Oiler third baseman hit a couple over the left field palings, neither of them coming with a man on. Mollay hit the other for the winners. One man on base at the time.

Nook, Frost and Stine each homered for the losers, the hits by Nook and Stine coming with one man aboard.

The Cards took a two run lead in the first frame when Orr walked Randall got on on an error, Serafine and Frost singled. The Oilers got the lead in the second inning when Dorley was hit by Noren, Mollay singled and Miller double. Decker then singled to score Miller.

The Cards once more jumped ahead in the third when they scored two runs on a walk to Orr and a home run by Nook. But the lead failed to last when Miller got on on Serafine's error, stole second and came home on a hit by Toler in the fourth.

The Birds threatened in the fourth when Noren and Stine walked with

two out. Toler was relieved by Woods, who promptly walked Orr, but Randall was an easy out, Woods to White.

The Oilers took the lead fifth and never let go again. Dorley homered for the first run, Pippen singled and Mollay parked one out of lot. Their final two runs came in the sixth when Dorley again homered. Pippen walked, went to second on Mollay's single and came all the way home when Potocar threw into right field trying to pick Mollay off base.

The Cards picked up one in the fifth when Frost reached first on Decker's error, advanced on a walk to Schiffner and came home on a single by Potocar. What promised to be a rally was nipped when Schiffner was caught off second. They added another in the seventh on Frost's homer and their final pair in the eighth when Stine homered after Potocar had reached first on an error.

Manager Joe Davis of the Cards was chased from the park early in the eighth inning when he protested too vigorously a decision by umpire Calloway.

The game was played before only about half the number of spectators that saw the opener Tuesday.

The two clubs tangled in Odessa this afternoon with Manager Davis

slated to take the mound for the Cards.

The score:

CANTON, Ohio, May 6 (U.P.)—Scientific curiosity impelled young Jimmy Whitaker to fill a toy balloon with gas and turn it loose. He had attached a note asking the finder to send it back. Two days later it came to him by mail, from a point 40 miles distant.

A half ton of coal is required to start a freight train and bring it to running speed.

**Pacts Forbids Caging Birds From Mexico**

NEW ORLEANS, (U.P.)—Prosecutions for possession of caged wild song birds were indicated here as federal officials prepared to enforce the amended Migratory Bird Treaty. Formerly the treaty was in operation only between the United States and Canada, but inclusion of Mexico provides protection for birds wintering in the southern country.

Under the classification of migratory birds are: Mocking birds, Indigo and painted buntings, Louisiana summer mallard, fulvous tree duck, the white wing, Eastern ground doves and 140 other species.

Trapping of migratory birds, or be prosecuted.

heretofore a profitable industry in Louisiana, will be stopped, according to Lawrence J. Merovka, federal game management agent here.

In addition owners of caged wild birds must free them immediately

'Stolen Holiday' At Yucca Fri., Sat.

Two plainclothes detectives were employed by Warner Bros. during the filming of fashion salon scenes of Kay Francis' latest picture, "Stolen Holiday," the first National production which comes to the Yucca Theatre on Friday and Saturday.

Their duties were to keep an eye on certain high-priced items in feminine apparel, chiefly fur trimmed wraps, which were kept on the set.

Typical was a coat and shiver fox fur piece worn by Shirley Lloyd studio featured player, as a model in the fashion show. The outfit was valued at \$2,000.

The nature of the scenes necessitated the models changing costumes right on the stage behind screens, so for each of the 58 mannequins used there hung on racks behind the modiste shop for four to eight costly outfits.

"Stolen Holiday" is a thrilling romantic story of the rise of a lovely, but humble mannequin to the position of queen of fashion in Paris, dictating to the whole world what women shall wear.

Others in the cast, besides Miss Francis, include Claude Rains, Ian Hunter, Alison Skipworth, Alexander D'Arcy, Betty Lawford, Walter Kingsford and Frank Reicher.

The first American waffle iron patent was granted to Cornelius Swartout in 1869.

The 14,000 acres of the Shenango water area are paddied by large and small mouthed bass, wall-eyed pike, bluegills, perch, crappies, catfish, bullheads, and a few muskies.

FISHING TO BE LEGALIZED IN PYMATUNING RESERVOIR

CLEVELAND, (U.P.)—The rod and reel men of Ohio and Pennsylvania and others who wish, will be allowed to cast in the waters of the Pymatuning Reservoir, 65 miles east of here, on July 1, for the first time.

This is a hot tip for fishermen, experts say, for Pymatuning's depths are alive with fish, anywhere from 60,000,000 to 65,000,000 in number stocked there for the past two years.

Kay At Yucca

More beautiful than ever and gorgeously gowned, Kay Francis will come to the Yucca Theatre on Friday and Saturday, in her latest role of a Parisian fashion dictatrix in First National's film drama based on France's great swindle "Stolen Holiday."

Harlow and Taylor Coming To Yucca In 'Personal Property'

Right from the arms of Garbo, Robert Taylor stepped into the fervid embraces of Jean Harlow.

The two are co-starred for the first time in the comedy drama, "Personal Property," opening preview Saturday night at the Yucca Theatre, in which Taylor is seen as the ne'er-do-well son of an English family who becomes butler in the house of his brother's fiancée, a widow from Iowa.

W. S. Van Dyke directed the picture, which is Miss Harlow's first under her new long-term contract with Metro-Goldwyn-Mayer.

In co-starring Miss Harlow, who won loud plaudits for her work in "Labeled Lady," with Taylor, who recently completed the role of Armand opposite Garbo in "Camille," the studio has teamed two of its greatest box-office attractions.

The screen play of "Personal Property" was written by Hugh Hills and Ernest Vajda and is based on the stage hit, "Man in Possession," by H. N. Harwood, John W. Conside, Jr., was the producer.

102,412. Of each dollar, 85.9 cents went to the field, 6.7 cents to administration, 4.5 cents to promotion and 2.9 cents to general, including cooperative work with other denominations.

Also on the Rotary club program today was a talk by Mayor M. C. Ulmer who is local director in the West Texas chamber of commerce. He told of the activities of the organization, of the local participation in its work and of the convention to be held next week at Brownwood.

Four new members were elected in the Rotary club today, including Harry Gossett, George T. Abell and Jerry Norris of Midland, and E. A. Crites of Crane. Crites will be one of the club's "outpost" members, an experimental project conducted by Rotary International in which the Midland club is one of two in the United States having such privileges.

May 20 will be civic guest day, it was announced by President Raymond Upham, with club members being asked to bring non-Rotarians of various businesses. The vocational service committee will have charge of the program.

"PERK UP" WITH PURSANG and forget that dull, "half sick" feeling! How do you feel these days? Are you blue, discouraged and "run down"? That dragged-out feeling may be due to a deficiency of iron in your blood. Indoor living, worry and overwork often conspire to bring on this condition. And lack of iron in the blood can make a man or woman imagine almost everything is wrong, when really the trouble can be quickly remedied. If you are "below par" try McKesson's Pursang. It contains organic iron and copper compounds which increase hemoglobin—the substance that makes red blood red. Pursang helps to restore the balance between white and red corpuscles. And at the same time it aids appetite and improves digestion. See how much better you feel after taking the first bottle of Pursang. Wait a week or more and you will hardly believe you're the same person—you'll feel so fit and well! WIX Sanitary Protection without PADS • PINS • BELTS The Original Internal Tampon PACKAGE OF 6—25c
