

As Cotton Planters Warned Picker 'Kidnapers' Away

"Get Out of Town or Go to Jail" is the blunt warning, shown above, which cotton plantation owners have posted at Gonzales, Texas, giving notice that they will not brook any attempt to lure away their pickers with higher wages or otherwise. An abundant cotton crop and a shortage of workers caused the drastic action. Other signs warn loafers that they must work or face jail terms.

Castaway Kitty 10 Miles Out

Floating on a small raft, 10 miles at sea off San Pedro, Calif., this tiny "Puss in a Boat" was rescued by fishermen who found her bravely defying death as she clung to her bobbing craft. The sea-ginger cat evidently had been cast adrift on the sail raft by her small boy owner.

Film Fauntleroy's Still Friends?

The strong ties of friendship in evidence here between Freddie Bartholomew, left, and Douglas' Scott underwent their greatest test when Douglas, not quite 12, replaced Freddie at M-G-M after Freddie and his aunt collaborated in a "strike" to raise his salary above \$1100. Douglas was hired for \$900 a week, three times his former pay, and besides finishing the picture Freddie was working on, is slated for the Bartholomew role in another picture. Meanwhile, Freddie will have a chance to play his interrupted role in real life. The picture on which he was working was titled, "Thoroughbreds Don't Cry."

New Income Taxes Proposed

Heat Wave Is Broken By A Rain Here

Mercury Drops as .05 of Inch Falls In Midland Today

A light rain early this morning broke the grip of a heat wave that held here for the past two weeks, the total precipitation amounting to only .05 of an inch, but low-lying clouds caused the mercury to be several points lower today.

The rain this morning was preceded by a strong northeast wind that drove flying sand before it, but the sandstorm did not last long before it was settled by the rain. The fall at first was heavy, but tapered off to a light sprinkle and then stopped entirely.

The rain came after one of the hottest days of the past week, the mercury once more climbing above the 100 mark yesterday when it touched 101 at 4 o'clock. The temperature since last Saturday has been below 100, although the mark was almost reached Tuesday when the mercury climbed to 99.

A slight cooling of the atmosphere was all the material good the rain did this morning, the fall not being heavy enough to benefit crops or even lawns.

Ranchmen and farmers admit the need of rain on their crops but it is generally conceded that they are not "suffering" yet. The cessation of hot winds during the latest siege of hot weather has done much to keep the crops from suffering.

Search for Victims Of Plane Crash Is Dropped by Navy

CRISTOBAL Canal Zone, Aug. 5 (AP)—The navy said Wednesday night that the Pan-American-Grace airliner which crashed with 14 persons in the sea off Panama struck the water with terrific force, tearing the ship into scattered fragments.

The violent impact strewn pieces over a wide area, only the plane's steel frame staying intact, and probably pinning bodies of passengers and crew members inside the shattered fuselage, the navy said.

Relinquishing search for the bodies, a navy spokesman said it probably would recall two submarines and two destroyers from the scene of the disaster. No more planes will be sent out.

The navy department in Washington disclosed there was evidence of an explosion aboard the plane at the time of the crash. A dispatch from the naval commandant in the canal zone reported evidences of fire on recovered parts of the wreckage.

It was feared the cabin containing the bodies may have sunk in water more than 1,000 feet deep.

Passage of Farm Loan Measure Is Pushed in Congress

WASHINGTON, Aug. 5 (AP)—A new drive for federal crop loans developed in congress Wednesday despite President Roosevelt's statement he is opposed to them unless general crop control legislation is adopted.

A group of Southern house members decided to ask the President to revive the loans, which have been made on major crops in former years.

Senator Walter F. George (Dem.) of Georgia also announced his state's congressional delegation will consider Thursday asking the administration to loan 12¢ a pound on cotton.

The house group, called together by Representative A. L. Ford (Dem.) of Mississippi, talked of attempting to block the administration's wage and hour and housing bills unless the loans are granted. Ford said President Roosevelt has been known to change his mind and added "I feel he will this time when the facts are presented properly to him."

On motion of Representative Martin Dies (Dem.) of Texas, he named six Democrats to visit the White House as soon as possible and report back to a caucus of farm State Congressmen. The six are Lyndon Johnson of Texas, Malcolm Traver of Georgia, John J. Sparkman of Alabama, Rene DeRouen of Louisiana, David Terry of Arkansas, and Ford.

Ready to Stay Till October. Dies said the group's strategy will be: If the administration refuses to authorize crop loans, the Southern's representation in the house rules committee will be strong enough to block special legislative right of way for the wage-hour and housing bills.

"We are going to insist on general crop loans of immediate adjournment until, say, October," Dies said. Crop control legislation, which the President said Tuesday should be enacted before any crop loans are made, has been put aside by the

Americans Organized To Save Lives

Kai-Shek Declares China Will Fight 'Until Death'

SHANGHAI, Aug. 5 (AP)—United States consular officials in all China today organized the entire American population to guard lives and evacuate residents if necessary, while the Chinese Generalissimo, Chiang Kai-Shek, suddenly proclaimed "we will fight to death."

Columns of motorized Japanese troops rolled northward to halt a Chinese advance from behind the great wall.

American missionaries feared Japanese domination in North China would erase missionary and education work representing millions of dollars in American investments and years of the hardest kinds of toil.

Consul General Clarence Gauss at Shanghai directed the formation of American residents' emergency committees as a safeguard for the 4,000 Americans there. Similar committees were organized elsewhere.

In London, a Chinese embassy spokesman said that China had reached an agreement in principle on the \$100,000,000 loan that may be raised by subscription over the world.

Battle Continues For Custody of 'Kidnaped' Baby

CHICAGO, Aug. 5 (AP)—Swift solution of the "kidnaping" of 30-month-old Donald Horst precipitated a struggle for his custody Wednesday.

On one side were John Regan and Lydia Nelson, who admitted snatching the wide-eyed youngster from the arms of Mrs. Otto Horst last night, but contend he was their child, born out of wedlock.

On the other was Mrs. Horst, who told Assistant State's Attorney Wilbert Crowley she was not the real mother of the lad but gained possession of him shortly after his birth.

The dramatic denouement came after officials brought the two women face to face in the prosecutor's office.

"I am going to ask the Regans to let us keep Donald," Mrs. Horst sobbed. "We love the boy as much as any parents could."

But the Regans insisted that they be allowed to keep the baby. Donald stood bewildered.

Crowley ushered Horst, part owner of a sound equipment company, Mrs. Horst and the Regans into his office.

Young Donald, he told them, would be placed in an orphanage pending a decision on his custody in the civil courts.

Both women wept and fondled the youngster before he was led away.

Regan and Horst promised to hire attorneys for the legal fight ahead. Crowley opined the Regans were the "natural parents" of Donald but commented the Horsts had given him "excellent care" since they obtained him in a manner designed to give "neighbors" the impression he was their real child.

Railroad Strike Cancelled Today

CLEVELAND, Aug. 5 (AP)—The threats of a strike of more than 1,000,000 railroad employees diminished today as a five-cent per hour wage increase announced in Washington brought peace.

Rails still faced a threat of strike for wage raises by five operating brotherhoods.

In Philadelphia trucks began to move normally as flare-ups over a "strike" subsided. Some men refused late last night to recognize the trucking strike over and continued to molest drivers of Atlantic and Pacific Tea company machines.

Sixty-two were arrested. Meanwhile police guards gave trucks safe passage.

Gov. Alfred Replies To Mexican Welcome

MEXICO CITY, Aug. 5 (AP)—Mrs. C. M. Miller, mother-in-law of Governor Alfred, was "slightly under the weather," the governor said today after responding to Mexico's official welcome.

Swiss Army Goes "Over the Top"—of Alps

The tank bristles with guns. Uniformed men watch in the background. The picture might have been made in Germany or Italy of Spain. Militarism is contagious, though. The scene took place at Lake Lucerne, Switzerland—a sample of the little neutral country's preparations to defend its mighty Alps against invasion.

If the Alps prove too steep for the tank corps, the Swiss infantry will jump at the chance to "go over the top"—a high jump like this.

To Circumvent Many Evasions In Country

Treasury Officials Say Will Mean 100 Million Annually

WASHINGTON, Aug. 5 (AP)—The senate-house tax committee today recommended drastic increases in domestic personal holding company taxes as one means of preventing tax avoidance.

The legislation was proposed for enactment at this session on the eight-point program to plug income tax leaks and suggested undistributed net income of foreign personal holding companies be figured in gross income of their American owners.

Treasury officials said enactment of the committee's recommendations would mean an increase of \$100,000,000 in federal revenues annually.

The committee recommended a stiffer tax treatment for various methods used by the wealthy to reduce taxes revealed in a recent investigation.

Savings and Loan Association Plans Advertising Policy

Plans for an advertising and educational policy to be inaugurated by the Midland Federal Savings and Loan Association were discussed this afternoon by officers and directors at a special conference held in the association's offices at Sparks and Barron Insurance and Abstract office.

Howland H. Sargeant, representing the Federal Home Loan Bank of Little Rock, of which the association is a member, is in the city to confer with officials concerning an educational campaign for the local thrift and home financing institution.

"Many people are not familiar with the services offered by the Midland Federal Savings and Loan Association," said W. J. Sparks, the Secretary-Treasurer.

"To acquaint them with the fact that every investment in this association is insured against risk of loss up to \$5,000 by an instrumentality of the United States Government and that we have funds to lend for home financing at reasonable rates in Midland and the vicinity, we plan a vigorous campaign."

Mr. Sargeant pointed out that the Midland Federal Savings and Loan Association has made a record of exceptionally sound growth, and has made very important contributions to the community in aiding residents of Midland with their home financing. Dividends totalling almost \$3000 were paid to members of the association for the six month period ending June 30. Payment was on the basis of 4% per annum, and represented the fifth consecutive semi-annual dividend payment by the association. These dividends were earnings of the association after all operating expenses had been paid and a substantial amount credited to the association's reserve funds.

The Federal Home Loan Bank of Little Rock is one of 12 regional banks in the United States. Through membership in the Little Rock Bank the local association is assured at all times of a line of credit sufficient to meet the needs of home financing or of investors.

Scout Jamboree Is Reviewed Today by Noble at Luncheon

Details and slide lights of the National Jamboree of Boy Scouts of America were related by Billy Noble at the Rotary club luncheon today. The youthful speaker gave facts on the Jamboree itself, anecdotes of experiences of Midland boys and descriptions of interesting places visited. He was introduced by Alf Reese, chairman of the program committee.

H. H. Sargent, representative of the Home Loan Bank Board of Little Rock, Ark., was called on for a brief talk and he commended the progress made here by the Midland Federal Savings and Loan Association, a correspondent of his organization. He called upon the investors of Midland to investigate fully the opportunities offered by his association.

Dean Allen, Tahoka Rotarian, was a guest. Fred Wemple announced the district assembly to be held at Spur August 9 and urged a large attendance from the Midland Rotary club.

Sugar Bloc Leaders Stand Pat on Bill

WASHINGTON, Aug. 5 (AP)—Congressional sugar bloc leaders agreed at caucus today to stand pat on the sugar control bill President Roosevelt has promised house leaders he would veto if it were passed.

Moore-Langdon Well Flows 327 Barrels The First 18 Hours of Potential Gauge

By Frank Gardner
Official potential gauge was started at 1:30 yesterday afternoon on Carter-Continental No. 1 Moore-Langdon, three mile northeast extension to the Wasson area of north-west Gaines. The well had produced 115 barrels of to six o'clock last night, and had made 327 barrels in 18 hours. Gas was estimated at 1,000,000 cubic feet. Total depth of No. 1 Moore-Langdon is 4,995 feet in lime, and 2-inch tubing is set at 4,990. It has been treated with a total of 6,000 gallons of acid, given in three stages of 1,000, 2,000 and 3,000 gallons each. Following the last stage the well flowed 24 barrels the first hours. It was put on test after it had cleaned itself of oil and acid water. Location is 57 feet from the south and 3,185 feet from the west line of section 44, block AX, public school land. Also in the Wasson area, one and a quarter miles southwest of the discovery well, Amerada No. 1 Florence Matthews, in the northeast corner of section 417, block G, C. S. D. & R. G. N. G. survey, after swabbing dry through tubing, was given a six-hour test and swabbed 11 barrels of fluid, 30 percent oil and the rest drilling water. Very little gas was showing. Operators are pulling tubing and will drill deeper.

Phillips & I. T. I. O. No. 1 Brand, section 55, block AX, a mile and a half northwest of the Wasson strike, started coring at 4:20 and had reached 4,848 feet in lime. Phillips No. 1 Wasson, bottomed at 3,200, is w. o. c. with 9 5/8-inch casing cemented at 3,149 feet with 500 sacks. It had logged a show of gas from 3,002-20. Carter No. 2 Sharp is w. o. c. at 4,850, with 7-inch casing cemented at 4,794 with 200 sacks. Amerada No. 1 Cox is drilling at 2,854 in anhydrite and salt. Amerada No. 1 Armstrong is drilling gray lime at 4,792.

Failure occurred for Continental Oil Company No. 1 Dr. E. H. Jones, northwest Gaines well which for a time had been regarded as a new pool opener, when it was reported this morning to be swabbing seven and one-half barrels of fluid per hour, of which 75 per cent was water. No. 1 Jones has been acidized with 3,000 gallons at its present depth of 5,040 feet, and yesterday was credited with swabbing 8.3 barrels of fluid per hour, 10 percent water. It is located 1,980 feet from the north and 660 feet from the east line of section 22, block A-7, public school land. Whether operators will attempt to shut off water by plugging back had not been announced.

In southwest Yoakum, Bohago and Bond No. 1 J. L. West this morning was coring lime at 5,181 feet. Cores from 5,121-34 and from 5,135-47 had shown bleeding zones carrying a little gas, but without much porosity. The same description applied to cores from 5,147-63. Operators plan to run pipe after coring the well a little deeper. It is located 1,980 feet from the north and west lines of section 606, block D, John H. Gibson survey.

Texas No. 1 Walker in section See (OIL NEWS) Page 8

\$20,000 Bond Set For Extortionist After His Arrest

NEW YORK, Aug. 5 (AP)—A Bronx janitor, Wilber Rothar, 42, was held under \$20,000 bond today for allegedly attempting to extort \$2,000 from George Putnam, husband of Angela Earhart, by saying he had found the missing aviatrix and was holding her aboard a ship.

Rothar was captured yesterday by federal officers after allegedly receiving \$1,000 from Putnam as half payment on his promise to deliver Miss Earhart to a New York hospital from a mystery boat off New York. Rothar said she had been under medical care since the vessel picked her up on a South Pacific island.

Ickes Asks Control Of Housing Program

WASHINGTON, Aug. 5 (AP)—Secretary of Interior Ickes today made a formal bid for administrative control of the proposed new federal housing program, as the administration reformed lines to defend the bill against more restrictive amendments.

Ickes said that experience of the Interior department with low cost housing projects justified its consideration.

Utilization of Trench Silos to Conserve The Feed Crop Urged

Editor's note: The following article was prepared for the Reporter-Telegram by S. A. Debnam, county agent of Midland county.

With the continuation of dry weather, much feed in Midland county is going to be permitted to go to waste that could be preserved by using a trench silo. This is not an experiment but a proven method of preserving feed where the maximum amount of feeding value can be utilized. Many farmers in the Panhandle section of Texas, as well as Oklahoma and Kansas, managed to survive in business during a five year drought, by using trench silos to save all kinds of feed, even to Russian thistles, and we can profit by this experiment. If the feed is too short to rowbind, a silo can be made that will harvest it. No cutter or other expensive machine is needed, and a silo can be dug with farm labor.

More than five thousand trench silos were built in Texas last year and many more than that will be constructed this year. Many counties are numbering their silos in hundreds.

Loyalists Rally To Repulse Fascist Army Near Madrid

MADRID, Aug. 5 (AP)—Spanish government forces, rallying to defend the Madrid-Valencia "life line" road, took defense positions north of the highway to Cuenca today and announced they had won a skirmish from insurgent Moorish forces.

A government communique said that hand to hand fighting 10 miles southwest of Teruel resulted in a victory, while insurgents claimed they defeated the enemy near Cuenca in northern Spain.

Evacuation of government-held Santander because of crowding and lack of food was reported considered.

Man Loses Life in New Jersey Blast

PATERSON, N. J., Aug. 5 (AP)—One man, John Laugherty, was killed and 40 were injured when an explosion demolished a building at the World asbestos corporation plant and shook houses for a block around. It was believed the explosion originated in a gas oven.

Several were injured critically.

Another big advantage is that See (UTILIZATION) Page 6

Behind the Scenes in Washington

WASHINGTON, Aug. 5. — A substantial farmer-labor party is in the stage of discussion and planning by leaders of labor and farmer groups.

Labor's Non-Partisan League, a coalition of C. I. O. and A. F. of L. groups organized for political action, is going to have a little brother—the Farmers' Non-Partisan League.

Probably there will be no farmer-labor presidential ticket in 1940, although insiders of the movement hazard the guess that there will be such a ticket in 1944. Meanwhile the two leagues will work closely together in seeking to elect progressive candidates in 1938, and will hold themselves ready for any kind of a political alignment in 1940 — such as the likely split between conservatives and progressives in the Democratic party.

Organization Planned

A CONFERENCE at St. Paul before long, at which farm delegates will predominate and both progressive congressmen and leaders of the labor league will attend, is being planned.

States where preliminary organization is planned are Minnesota, Wisconsin, the two Dakotas, Nebraska and Montana. Assurances have been received that in each county of those states can be found a man who will be active in a farmer

er political movement.

It may have escaped notice, but William M. Thatcher, a leader in the Farmers' Union, and other farm organization men—including the head of the North Dakota Farmers' Union—appeared at the Labor's Non-Partisan League convention here a few months ago. The labor league has announced it would open regional offices which would organize in all counties, urban and rural. Already it has a paid representative at Des Moines, Ia., who will attempt to organize farmers as well as workers.

Close Tie to C. I. O.

ONE factor which may hurt the movement is a widespread impression that the LNPL is a political appendage of John Lewis and the C. I. O. But the LNPL claims it has more than 50 officials of A. F. of L. unions on its executive board — none of whom have resigned — and that more than half its officials are A. F. of L. men.

E. L. Oliver, executive vice-president who is in charge of the movement since Senator George Berry quit as president, is the former director of research of the Brotherhood of Railway Clerks, an A. F. of L. union. Nevertheless, Lewis and Sidney Hillman of the Amalgamated Clothing Workers were the prime movers behind the league's organization and installed Berry, head of an A. F. of L. union as president.

Labor Increasingly Active

LABOR has taken an active part in more campaign than ever before and helped elect many friendly officials last year. In previous decades farmers have shown they can take political action, as in the Populist, Cranger and Bryan movements and recent defections from the Republican party. There is still much radical feeling in Iowa, Nebraska, the Dakotas and Montana—or so one hears—as well as Farmer-Labor governed Minnesota. Labor leaders and the few farm leaders thus far allied hope farmers will respond to their program.

Do Interests Conflict

IT may prove impossible for these men to break down the theory that farmers and workers have fundamentally conflicting interests. It is often argued that wage increases mean increased cost of goods farmers must buy and higher food prices mean lower real wages for workers.

Farmer-labor people will argue that this applies equally to all groups of producers, that higher incomes enable workers to buy more farm products and farmers to buy more labor products, that unity of interest rests in obtaining necessities of life at lower cost, that farmers with their problem of marketing and distribution and workers with their problems of wages and hours should unite to eliminate waste, minimize profits and attack corruption and profiteering in business.

It's just guess work whether this latest farmer-labor movement will get to first base.

(Reserves the right to "quack" about everything without taking a stand on anything).

his leaving town was what brought the rain he will probably be pulling out in a few days for a vacation trip.

Seems that the Lions club is getting ready to elect another fall twister and here is one group's motto: "Let Boyd Scott twist your tail during the coming year."

I don't know whether I would like that or not.

Not long ago, Editor Shuffler over at Odessa suggested the state asylum be located there and the inmates selected from Midland.

Shuffler qualifies for the first candidate if he thinks the institution will be located in Odessa.

It is going to be football time again soon. That means rain and cold weather but we should be ready for it by the time it arrives.

30 Boys Ready to Start Football Practice Monday

Approximately 30 boys turned out last night for the first meeting of prospective candidates for the Midland high school football team this year.

After one look at the size of the boys at the initial meeting coach Taylor admitted that he would probably have to depend more upon speed this year than last as much of the "beef" that was available last year will be missing this fall.

Instructions were given to ends, centers and backfield men to report for work Monday, guards and tackles to make their first appearance one week later. The first couple of weeks of training will be devoted mostly to passing, punting and general "road work" to get the boys in shape for the harder scrimmages that will be started the first Monday in September.

Four new prospects turned out last night but it is believed at least two of them are ineligible through having played last year for other schools, while one of the other newcomers is without previous experience.

Coach Taylor, serving his first year as head official, is fairly optimistic over the prospects of a winning club but admits that fashioning a backfield is going to be his most serious problem. Only one letterman, halfback Taylor, will be back this year. He is expecting to gain the needed help through several boys that failed to letter last year plus some graduates from the junior high ranks.

The coach is planning on seeing the all-star high school game in Waco Saturday night, taking three of the members of the team with him.

America's largest salamander, the hellbender, reaches a length of two feet and is good to eat.

Sufficient sulphur is contained in the human body to rid a dog of its fleas.

"Whatever you use, mister—we've got it!"

Humble Service Stations carry a complete line of motor fuels, motor oils and greases for your service — one for every car, for every purse. Each is second to none in its price class. Whatever the car you drive or the price you pay, you'll find what you use under the Humble sign. This is a feature of Humble's complete service to Texas motorists.

Try Humble service. Stop—today—for service where you see the Humble sign. You'll find a friendly, Texas welcome awaits you, a sincere effort to be helpful. Get acquainted with the Humble station men in your neighborhood and on the highways you travel. Follow the lead of thousands of fellow Texans—get the Humble habit!

HUMBLE OIL & REFINING CO.

A Texas institution manned by Texans

Complete service for you and your car: Spotless restrooms — ice water — free air and water — trained, helpful salesmen — highway information — complete lubrication service — first aid kits — motor fuels and motor oils for every car — accessories.

Humble Dealers are located at convenient points throughout Texas. They are carefully selected men, chosen for their ability as retail merchants of petroleum products. They are friendly, courteous, helpful, and the Humble Company offers them every encouragement in the rendering of a complete service to motorists. . . . Stop for service where you see the Humble sign.

Sailor Roosevelt Praised

GLASSBORO, N. J. (UP) — A former U. S. Navy gunner's mate, 51-year-old Conrad Brangenberg, taught President Roosevelt sloop-rig sailing. Brangenberg instructed Mr. Roosevelt when assigned as a sailing master to him in 1913. "He's among the best sloop yacht sailors in the country," Brangenberg said.

Snakes have vertical inner eyelids: Their outer eyelids are transparent and are fused together.

HAPPY RELIEF FROM PAINFUL BACKACHE

Caused by Tired Kidneys

Many of those gnawing, nagging, painful backaches people blame on colds or strains are often caused by tired kidneys—and may be relieved when treated in the right way.

The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. Most people pass about 3 pints a day or about 3 pounds of waste.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, lumbago, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

What A Veal Pie!

Plain veal turned into one of the gayest dinners any biscuit ever sat on. Called veal pie with cheese biscuit crust, it makes the ideal dinner dish when something different is the order of the day.

By Mrs. Gaynor Maddox
NEA Service Staff Writer
When the spirit fails and dinner looms ahead as an insuperable task, try something that seems brand new. For those days of despair, here is a dinner suggestion full of inspiration. It consists of Veal Pie with Cheese Biscuit Crust, Tomato Aspic Salad with Celery and Horseradish Dressing, Green Peas and a simple dessert of fresh pears,

a mild cheese and coffee.
Veal Pie With Cheese Biscuit Crust (Serves 8)
One-half cup sliced green pepper, 2 slices onion, 3 tablespoons butter, 6 tablespoons flour, 1/2 teaspoon salt, 3 cups milk, 2 cups cooked veal cut in fairly large strips, 1 tablespoon lemon juice.
Melt butter, add green pepper and onion and cook until soft. Add flour and stir until well blended.

A Book A Day

An Adventure Quest on a Scottish River

NEIL M. GUNN, the Scottish author, must have taken a deep delight in writing "Highland River," for in it he describes the part of Scotland from which he came, and the scenes in which he must have revelled as a child.

"Highland River" (Lippincott: \$2.50) is the story of a river and of the growth of a man. In it, a man of 37, now a scientist, looks back on himself as a growing boy in a north Scotland fishing village. A magnificent, victorious battle with a huge salmon imbued the lad with a feeling of intimacy with the river that was to prove a lasting one. In the years that followed, the boy, Kenn Sutherland, set out on many exploratory trips along the river. Avoiding the keen eyes of the keeper of the estate through which the river ran, Kenn and his companions poached for salmon, listened to the airy chorus of curlew and pewee, and crept warily about pre-Drauidic ruins of the Broch, in which human sacrifices had been offered up ages before.

These sojourns gave Kenn a consuming desire to explore the river to its source, a quest whose fulfillment brings the book to a satisfying climax.

The story of Kenn apparently is used by the author as a vehicle for supplying a picture of Scottish life, and this Gunn does very handsomely. While occasional digressions mar the chronological sequence of the story, "Highland River" leaves the reader with a vivid impression of the splendid traits of the seemingly dour Scottish fisher folk, and of the rugged natural beauty that abounds in the north Highlands. Altogether it is a serene, well-written story.—G. P.

MORE CLOTHES?

Hinda Wassau, (above), striptease dancer in Billy Rose's Pioneer Palace Honky-Tonk Revue at the Fort Worth Frontier Fiesta, must wear more clothes, municipal authorities have decreed.

Jeanne Davis Has Birthday Dance at Country Club

Miss Jeanne Davis entertained sixty-five friends Wednesday night with a dance at Midland Country Club celebrating her sixteenth birthday. She is the daughter of Mr. and Mrs. Chappell Davis, 1101 West III

change in attitude of students, Dean Earl and Mr. Rhinesmith point to the fact that out of 600 students licensed to drive automobiles on the campus during the past year, less than a dozen were deprived of this privilege for reasons of scholarship or infraction of university regulations. All but two of these improved their grades or behavior and were reinstated.

New Dignity Disclosed.
"It is no longer fashionable to break rules for the fun of it," declared Mr. Rhinesmith. There is a reserve and dignity among students that did not exist a few years ago.

While the change in attitude of students in general is held largely responsible for the improvement in behavior, some credit should also be accorded the discipline system worked out here, officials point out. "Timing" is the essence of the plan. Dean Earl, Mr. Rhinesmith and others are constantly studying not only what the students are doing, but what may happen in the near future. Thus they are prepared to cope with situations when they arise. Such methods as spying, using "school pigeons" or "making public examples" are not in use, and knowing this, students co-operate with the officials, it is declared.

Drinking Problem.
The problem of a student drinking has greatly lessened lately, it is stated. "Students themselves buy very little liquor," Dean Earl said. "We found that trouble came chiefly from outsiders who brought liquor

on the campus. We have concentrated on this angle of the problem with remarkable success."

Mr. Rhinesmith points with pride to the fact that during the past year no student was arrested for reckless driving, in spite of the fact permission to use automobiles was granted to nearly one-fourth of the student body. Students are allowed to maintain cars, but must obtain permits from the enforcement officer.
The gain in student behavior during the past year is regarded as all the more remarkable since, due to business recovery, many students had more money, with consequent temptations.—From Christian Science Monitor.

Beauty Hints Offered;
First Is 4 a. m. Rising

MEDFIELD, Mass. (U.P.)—Mrs. Adeline Holmquist, 42, mother of four children, tells the women of America how to be a "perfect 36."

Mrs. Holmquist, who weighs 135 pounds, admits she is no beautyician or diet expert, but keeping down her waistline also keeps down expenses at her husband's 90-acre dairy farm.

She says she rises daily at 4 a. m., helps milk the cows and then delivers milk in a truck over a 22-mile route. She says it is all the necessary exercise she needs. "It's lots of fun, too."

Why Firestone STANDARD TIRES are EXTRA SAFE

TAPPING RUBBER TREES ON FIRESTONE PLANTATIONS IN LIBERIA

From these plantations comes an ever increasing supply of the world's finest rubber. Economies in producing raw materials, manufacturing and distribution make it possible for Firestone to give you so much for your money.

YOU GET EXTRA PROTECTION AGAINST BLOWOUTS—eight extra pounds of rubber are added to every 100 pounds of cord by the Firestone patented Gum-Dipping process. By this process every fiber in every cord in every ply is saturated with liquid rubber. This counteracts dangerous internal friction and heat that ordinarily cause blowouts.

YOU GET EXTRA PROTECTION AGAINST PUNCTURES—because under the tread are two extra layers of Gum-Dipped cords.

YOU GET EXTRA PROTECTION AGAINST SKIDDING—because the tread is scientifically designed.

YOU GET LONGER NON-SKID MILEAGE because of the extra tough, long-wearing tread.

Firestone Standard Tires give you all these extra value features because they are first-quality tires built with high-grade materials and patented construction features. You SAVE MONEY because you buy this high quality and extra value at such low prices.

Before leaving on your vacation trip, join the Firestone SAVE A LIFE Campaign by equipping your car with a set of new Firestone Standard Tires—today's top tire value.

Growth of Student Dignity Disclosed

EUGENE, Ore.—The "Joe College" type of student, whose behavior made life miserable for deans and administrators, is now as extinct as freshman hazing and other features that distinguished life on the campus a few years ago, it was declared here recently by Virgil D. Earl, dean of men at the University of Oregon.

Dean Earl's observation is supported by O. L. Rhinesmith, automobile enforcement officer who is popularly known as the "campus cop."

Miss Deason and Mr. Newcombe Wed

Miss Carther Deason of Shawnee, Okla., and George W. Newcombe were married August 3, in Big Spring, the Rev. Bickley officiating. Mr. Newcombe is shop superintendent of Hydril Company of Texas at Odessa, where the couple will make their home.

Mr. and Mrs. Newcombe spent the evening with Mr. and Mrs. J. Gordon Bird, district manager for the Hydril Co., at the Broadway Camp Gardens, the guests of M. R. Hill.

Add salt; add milk slowly, stirring constantly until thick and smooth. Bring to boil and boil 2 minutes. Add remaining ingredients. Pour into large baking dish an cover with Cheese Biscuits.

Cheese Biscuits
Two cups flour, 4 teaspoons tartrate baking powder, 1/2 teaspoon salt, 4 tablespoons shortening, 3/4 cup milk, or half milk and half water, few grains cayenne, 1 cup grated cheese.

Sift together flour, baking powder, salt and cayenne; add shortening and mix in thoroughly with fork. Add cheese; mix well. Add

Tomorrow's Menu
BREAKFAST: Sliced bananas with raspberries, cornbread, bacon, blackberry jam, coffee, milk.
LUNCHEON: Grilled sardines, fresh vegetable salad, crisp rolls, orange gelatin, lady fingers, tea, iced cocoa.
DINNER: Fruit cup, veal pie with cheese biscuit crust, green peas, tomato aspic salad, horseradish sauce, pears, cheese, coffee, milk.

liquid to make soft dough. Turn out on floured board and toss lightly until outside looks smooth. Roll out 1/2 inch thick. Cut with small floured biscuit cutter. Place biscuits on top of creamed mixture in baking dish. Bake in hot oven at 450 degrees F. for about 30 minutes until browned.

Tomato Aspic Salad With Celery and Horseradish Dressing (Serves 6)

One package salad gelatin (aspic), 2 cups tomato juice.
Heat 1 cup tomato juice to boiling. Pour over salad gelatin and stir until dissolved. Add 1 cup gold tomato juice. Stir again. Pour into individual moulds and chill until firm. Unmould and serve on lettuce with Celery and Horseradish Dressing.

Celery and Horseradish Dressing
Three-quarters cup mayonnaise, 3 tablespoons chopped celery, 2 teaspoons horseradish.

Jane Wyman in New Film at the Ritz

Young couples have been married in balloons, in lions' dens and elsewhere, but probably no boy or girl were ever before united in the mouth of a stuffed whale.

The wedding is arranged for publicity purposes when the carnival show to which the boy and girl belong has gone so broke that the matter of the next meal is the most profound problem that faces the troupe's personnel.

The boy and girl who take part in the ceremony are William Hopper (son of the late DeWolf Hopper, and now playing his first movie) and Jane Wyman, an attractive little brunette who likewise is having her first leading role.

Labor Conditions Shown Improved

The transition of the United States from an agricultural to an industrial economy, with a steady increase in the wage and salary earning class and raising wage levels is reflected in a compilation of "Facts" issued by the chamber of commerce of the United States.

Some of these facts from recognized sources, brought together under the heading "Work and Wages" are: To provide for the material requirements of the 129,000,000 people of the United States 46,697,000 persons were employed in May, 1937.

Government in the United States—federal, state and local—has the longest payroll—nearly 3,500,000 regular employees.

The Federal Government employed in the "regular establishments" in 1937 1,147,000 persons. Including workers on various relief projects, approximately 3,789,000 received federal government pay checks in February, 1937.

Business—all producing, distributing and servicing activities—paid out in four depression years, 1930-1934, eighteen billion dollars more than it received.

Labor's share of the total income paid to employees was larger in 1936 than in 1929. Labor now receives 66.5 cents of the national income dollar.

Average earnings per hour were

46.4 cents in 1919 and 57.2 cents in 1936.

In terms of 1929 purchasing power the average yearly wage per full time wage earner increased from \$1,337 in 1929 to \$1,678 in 1936.

Based on a 1929-1935 average as 100 the hourly wage index number for 1936 was 142. In 1936 it was 93.2.

The average work week has been shortened from 55.7 in 1900 to 38.9 in 1936.

Taking 1900 as a base, production per man hour increased from 100 that year, to 284.2 in 1936.

Child labor in industry and commerce, the chamber finds, has practically disappeared.

BLACK EARTH, Wis. (U.P.)—A modern paving machine laying 1,700 feet of concrete daily here was operated by a 12-year-old boy from Madison and manned by Indians from northern Wisconsin.

The PAYOFF

By GEORGE KIRKSEY United Press Sports Correspondent

NEW YORK (U.P.)—The New York Giants will have a new manager by 1939—that much seems certain.

Bill Terry's contract is up at the end of the 1938 season, and he has given enough indication that he wants to step upstairs as business manager of the Giants to warrant assuming at this time that the club will have a new pilot season after next.

Who will he be—Chuck Dressen, Gabby Hartnett, Travis Jackson or some darkhorse?

Dressen, who seems to have displeased his owners at Cincinnati, may shift on to New York to serve as coach under Terry and then get the big job. At least, that's one of the rumors floating around. Dressen is one of the smartest pilots in baseball, and would make an ideal man to work under Terry. With material Dressen can get results. At Cincinnati they expected him to work miracles with broken-down veterans and green youngsters.

If Dressen does leave Cincinnati, it won't be because the fans and scribes wanted him to go. Dressen is popular wherever he goes. And he knows baseball. But some owners can only read two things—the standings and the bank balance.

Hartnett—now there's one of the prize major league managerial prospects. Who will get him? When Charlie Grimm was laid up with sciatica in July, Hartnett proved his mettle by taking over the Cubs in the toughest kind of a road trip and keeping them ahead of the Giants.

It will be hard to get Hartnett away from Chicago, but P. K. Wrigley, Jr., will not stand in the way of his getting a better job. The Brooklyn Dodgers made overtures for Hartnett's services last winter, but as soon as they found out his salary they forgot about him. Hartnett makes more catching for the Cubs than they've paid a Brooklyn manager since Uncle Wilbert Robinson.

There has been talk that two American League clubs also are interested in obtaining Hartnett's services as manager if they can get him out of the National League. But that isn't likely to ever happen. Hartnett is a National League man and is destined to stay there. And he'll be a manager by 1939. Will it be the Giants?

Terry sent his pal, Travis Jackson, to Jersey City for seasoning in a managerial sense. Jackson didn't have much to work with, got off badly and didn't have much of a chance to prove his merit. Jackson was one of the smartest players of the past decade, and undoubtedly will prove a successful leader. But Terry may want Jackson to develop young players to send up to the Giants, and get another man for the big job.

Other important changes are due to be made in the Giants' personnel before 1939 rolls around. If they don't win the pennant this season, and it's doubtful if they will, a fair-sized shake-up is scheduled for the winter. Among the big needs are a first baseman, a pitcher to take Hubbell's place and a young catcher to take up the slack behind Gus Mancuso.

Gulf-Ford Clubs, Sinclair-KRLH To Meet Tonight

The second round of soft ball was held tonight at the diamond on South Main street when the KRLH and Sinclair clubs meet in the first game and the Ford and Gulf clubs tangle in the second game. The first game is scheduled to start at 8 o'clock.

The Sinclair and Ford clubs are tied for the second place position in the league standings both must win tonight to maintain their position without some other club catching them. The Gulf club, tied for fourth can displace the Ford club if they are victors tonight but the radio men will be unable to get out of the cellar whether they win or lose.

Managers of the games postponed from Monday night have tentatively agreed to play them off next Wednesday night. The Sinclair and Hardware teams are due to clash in the first game, the Hotel and Ford teams to meet in the second clash.

WPA Musicians Back As Men With the Hoe

LOS ANGELES (U.P.)—Fifty musicians engaged on a Federal Music project here turned the Los Angeles WPA vegetable project into a Garden of Allah, Persian Garden and a few other gardens combined.

Ordered to quit their musical instruments and report to the garden for vegetable growing purposes, they took their instruments with them, gave a symphony concert in the garden that made all the rest of the workers stop work and listen, and then retired downtown to talk it over.

AT THE AIRPORT

Planes landing at Sloan Field today were as follows: A plane owned by the Baker Tool Co. and piloted by Mr. Hurbert same in from Houston, a C33 Douglas Transport was piloted by Mr. Colby, and a BLP Navy plane came in, piloted by Terrell.

John G. Reeves and Archie Groat, radio operators, have returned from San Antonio where they studied the machinery of WVB there. Private DuBois is studying to be a forecaster.

The call letters of the radio station KRLH have been changed from WYYS to WZH.

Approval of 28 New WPA Projects Is Announced by State Administrator

SAN ANTONIO, Aug. 5.—Approval of twenty-eight new Works Progress Administration projects, involving Federal expenditures of \$230,000 and sponsors' expenditures of \$183,800, was announced today by Robert J. Smith, deputy state administrator. Operation of these projects will provide jobs for 1,723 workers.

Included in the newly-approved proposals were 23 road projects covering improvements to 123 miles of Texas roadways.

Projects approved follow:

Bowie County (District 1)
COUNTY—Farm-to-market road improvements; federal funds, \$4,115; sponsor's funds, \$1,092; workers, 57.

Comche County (District 19)
COUNTY—Farm-to-market road improvements; federal funds, \$11,391; sponsor's funds, \$5,709; workers, 31.

Coryell County (District 8)
COUNTY—Farm-to-market road improvements; federal funds, \$4,270; sponsor's funds, \$3,705; workers, 52.

Dallas County (District 4)
COUNTY—Farm-to-market road improvements; federal funds, \$26,950; sponsor's funds, \$12,614; workers, 126.

De Witt County (District 10)
COUNTY—Farm-to-market road improvements; federal funds, \$3,211; sponsor's funds, \$160; workers, 53.

Erath County (District 8)
COUNTY—Farm-to-market road improvements; federal funds, \$4,159; sponsor's funds, \$2,258; workers, 31.

Foard County (District 7)
COUNTY—Farm-to-market road improvements; federal funds, \$28,109; sponsor's funds, \$30,147; workers, 166.

Grayson County (District 4)
COUNTY—Farm-to-market road improvements; federal funds, \$9,343; sponsor's funds, \$4,298; workers, 99.

Harden County (District 7)
COUNTY—Farm-to-market road improvements; federal funds, \$12,965; sponsor's funds, \$7,429; workers, 62.

Jim Hogg County (District 11)
COUNTY—Community sanitation; federal funds, \$4,983; sponsor's funds, \$3,924; workers, 43.

Jones County (District 17)
HAMLIN—City street improvements; federal funds, \$11,334; sponsor's funds, \$8,081; workers, 93.

Lavaca County (District 10)
COUNTY—Farm-to-market road improvements; federal funds, \$11,955; sponsor's funds, \$4,561; workers, 53.

Medina County (District 10)
COUNTY—Farm-to-market road improvements; federal funds, \$18,426; sponsor's funds, \$31,138; workers, 102.

Montague County (District 7)
NOCONA—Sewer system improvements; federal funds, \$1,061; sponsor's funds, \$1,742; workers, 36.

New Food Market to Open Here Friday

Announcement is appearing in this issue of The Reporter-Telegram of the opening of the Public Market on West Wall street by Max M. Mallicoat and G. W. Bellott, well-known young business men of this city.

Mallicoat formerly operated the market at Cash & Garry and Bellott worked for John M. Speed at the old Piggly Wiggly here. Each has had considerable experience in the grocery and market business.

Refreshments will be served tomorrow and Saturday to those who visit the new store.

New Variety and Comic Acts Added To Show at Dallas

DALLAS, Aug. 5.—New variety and comedy acts being fitted into the colorful and melodious background of the Casino Revue are sustaining high interest in that outstanding attraction of the Pan-American Exposition. Next of the sparkling array of offerings for the fast paced revue is Vic Hyde, reigning sensation of the entertainment world. Hyde, Nile's Michigan's One Man Swing Band opens Saturday night, August 7, plays three trumpets at once and employs 27 regular orchestra instruments in his work. In addition he has scored remarkable success with his line of cello chatter and a burst of tap dancing. Hyde already is under contract to make pictures in Hollywood and will go there following his Dallas engagement.

Florence and Alvarez, world famous dancers will take over the leading Casino dancing roles August 21. Miss Florence is the daughter of an American diplomat, now serving as minister to South Africa. Alvarez is a native of Mexico City who won fame in the Casino de Paris revue in Paris.

Art Jarrett, who has become Texas' favorite singing personality, with his rendition of "El Gaucho" with the Gaucho chorus and "The Blue Bonnet Song" resumes the singing of "Don't You Know Or Don't You Care" this week.

Phil Harris' ever popular band continues to draw big crowds and will continue until September 8 when Benny Goodman comes to the Casino with his celebrated swing band.

Whalen Withdraws From Mayor's Race In New York City

NEW YORK, Aug. 5 (AP)—Grover A. Whalen, dapper anti-Tammany Democratic candidate for mayor, last night announced his withdrawal from the primary race in favor of Judge Jeremiah T. Mahoney.

The designee of the Democratic leaders of four New York City counties, Whalen wrote them a letter saying "Judge Mahoney is far better equipped than I to wage a fight against the interests which have succeeded in securing temporary possession of Tammany Hall (Manhattan Democratic organization) and are striving to dominate the Democratic organization in the other four boroughs and to secure control of the City of New York."

"While I am grateful to you gentlemen, as I am to the thousands of Democrats who have expressed their confidence in me, I confess I am not the best available man to lead the primary contest against the group now in control of the

AIDS JAPANESE AT PEIPING

The threat of General Chang Tze-chung, above, Mayor of Tientsin, to turn his 38th Division against the anti-Japanese Peiping administration is reported to have paved the way for the capture of the ancient Chinese capital by the Japanese invaders.

Utilization--

CONTINUED FROM PAGE ONE

the feed is removed from the field where shocks will not interfere with grazing the field, and the land can be put up ready for the year's crop often during a wet time in the fall when crops cannot be harvested and labor is idle.

One big advantage, of course, is in preventing the feed from blowing full of dirt. R. D. O'Neal, who is building a trench silo this year, has lost three horses from sand colic from feeding sandy bundle feed and has not only lost much of his feed, but the horses lost, would have paid for the digging of silos for many years to come.

The greatest advantage of trench silos have been left to the last, and that is the superiority of this method over all others in safe-guarding feed. Trench silos do not burn, the feed does not rot, and weavels do not damage it. The feed keeps for years and it is always available in times of drought. The expense of building a trench silo amounts to only the time and labor the farmer puts in. No material is necessary and the most poorly equipped farmer can have a feed storage that is superior to the millionaire's brick barn.

So many people want to wait until they have a surplus of feed before building a trench silo. This is a mistaken idea. Since any feed in the form of silage is worth twice as much in feeding value as the same feed dry, the shorter the feed crop the worse any farmer needs one.

They can be built from one ton to many thousands of tons in size and can be made to fit any farm program; any type of feed may be put in them.

Finally, the time to build one is now. If you are skeptical, build a small one and try it out for yourself. Let's save every bit of feed we can for it is sure to be needed sometime.

New York County Democratic organization, nor am I free to devote all of my time to it."

Whalen, president of the 1930 World's Fair, is a former police commissioner, department store executive (Wanamaker's) and distillery official.

Unique Railroad Bustles

GARDEN CITY, Kas. (AP)—The Garden City Western Railroad, a line that isn't even on the map, has no time-tables, no stations, no agents, and cannot sell a ticket, hauled more wheat than is being loaded in this country on the main line railroad.

OF LOCAL INTEREST

Mr. B. Colcord, geologist of Tulsa, Okla., is in Midland today on business.

Emmons Bahan, who has been in Midland on business, left yesterday for Abilene.

Mr. and Mrs. Chas. Brown returned today from Austin, Texas, where they had gone on business. They visited at Camp Mystic on the way home.

Mrs. B. F. Haag, and son, Merwin, left yesterday for various points of Texas on a vacation trip.

Mr. and Mrs. J. W. Skinner left today for an extended vacation in Ruidoso, N. M., and the surrounding points of interest.

Bobby Martin, son of Mr. and Mrs. J. R. Martin, returned last night from Kansas City, Kansas where he had been visiting relatives. Bobby went to Kansas City from St. Louis, Missouri, after leaving the Boy Scout Contingent which attended the Jamboree.

Bob Reeves returned yesterday from Fort Bliss. He has been there for about six weeks. He is working toward being an officer in the reserve army.

Dr. James Chapple was called to Billings, Montana, yesterday where his mother, Mrs. James Chapple is seriously ill. Dr. Chapple just recently returned from Billings.

J. P. Combest of Jal. N. M., was in Midland Wednesday.

Mrs. J. M. Armstrong and children, Helen and Jimmie, left today for a month's vacation on the west coast. Mrs. Armstrong's mother, Mrs. Mary Galbraith, who has been here for an extended visit, is returning to her home in Seymour, Indiana, tonight.

Mr. and Mrs. Dudley Wood, 1010 West Michigan, returned Wednesday from Cloudford, N. M.

Mr. and Mrs. Tom Sealy, 405 N. Big Spring, have had as their guest, J. B. McCord of Coleman, Mr. Mc-

Labor Ceases To Be A Fighting British Party; Defeated in 10 Elections Lately

LONDON, Aug. 5 (U.P.)—The Labor party, charged by its critics with lacking a fighting policy, has gone down to defeat in 10 recent by-elections. The government did not lose a seat in these contests. Leaders of the party are gravely concerned and appear to be facing a revolt. This is the first time in the memory of living politicians that an opposition party has suffered such defeat in by-elections where usually the opposition candidate increases his roll, and the government candidate loses votes.

In the by-elections since June 10 the total votes recorded were: For the government, 177,319. Against 114,175.

Here are a few figures showing the decline in the Labor vote: At Hillhead (Glasgow) the Labor vote dropped by 2,364, or 25 per cent; at Buckingham it was 2,108, or 15 per cent; at Brake (Plymouth) it was 4,524, a decline of 20 per cent.

The Government vote, too, has declined in these constituencies, but it has held the seats by large majorities, and a decline in the Government vote in by-elections is considered automatic.

What sort of an augury is this for the next general election, ask politicians? It was not so long ago that some Socialist leaders spoke of "Socialism in our time" and they all, with one accord, spoke of the time "when we are in office," which they hoped and expected would be after the first general election.

But now no mention is made by the Labor party leaders in the House of Commons about coming to power. At present and by present indications, it would seem Labor must abandon all hope of forming a government for at least six years.

The slump is attributed to the lack of leadership. Since the break away of Ramsay MacDonald and Philip Snowden, and the death of Arthur Henderson, the party has been like a rudderless ship. As far as policy is concerned the party admittedly has been weak, too weak, in fact, for the government's taste, as a little

Cord is Mrs. Sealy's brother. He left for Coleman this morning.

Misses Velma Johnson, Virginia Ford, and Eddie Jean Cole left this morning for the Cole ranch where they will be for several days.

According to reports received by Mrs. C. C. Watson yesterday, R. G. Hankins, former city editor of the Midland Reporter-Telegram, now employed by the Avalanche Journal of Lubbock, was offered a job with the Associated Press recently. Hankins preferred his present position to the new job and turned down the offer. He has been with the Avalanche for nearly three years, having taken a position with that paper after leaving Midland.

F. A. Baldus and Joe Evans of Fort Worth, officials of the Greyhound Bus Lines, are in Midland today on business.

Mrs. A. W. Lester underwent major surgery in a local hospital this week and is doing nicely.

Mr. and Mrs. Spencer Smith announce the birth of a baby girl in a local hospital August 3. She has been named Joyce Hope.

opposition is not a bad thing, especially in the case of a strong government.

Upset by Conditions. Traditionally, the Labor party opposes rearmament. Equally it opposes dictators. The party found it impossible to reconcile—at least in the minds of the electors—two opposites. In view of the general situation in Europe, opposition to rearmament was patently ridiculous, so, reluctantly, the party gave it support.

This grudging support earned little approval, for it is a fact that few people in this country, however little they like the idea of piling up huge arms reserves, and however desirous they are of living in peace, can think of any alternative.

This Labor, in fact, was forced into the position of supporting the government's policy. Then it supported the government's policy of non-intervention in Spain, but later decided to appeal to the government to abandon non-intervention.

The Labor party, in fact, lacks a definite fighting policy, and that is why it periodically finds itself in the position it is now—that of trailing weakly behind the government.

Opposition Too Weak. So far from pushing the government into action, the government drags the opposition along with it. While all this has been going on, the main opposition of Labor leaders has been heresy hunting. Anyone who does not toe the official party line promptly is labeled a Communist agitator and rebuked. This provides the government press with a good deal of amusement. It does not seem so funny, however, to the present Labor M. P.'s and those who hope to be at the next general election.

Nevertheless, the Labor movement in this country obviously has an important role to play in the future. The movement, as a whole, is far from dead.

Oil News--

CONTINUED FROM PAGE ONE

704 block D, is drilling hard lime at 4,593 feet, while Moore Brothers No. 1 Cleveland, section 706, is rigging up blowout preventer at 3,180 feet in anhydrite and red rock. Denver P. & R. No. 1 Whittenburg, bottomed at 4,587 in lime, is w. o. c. after setting 7-inch casing at 4,448 with 200 sacks.

Mahres Well Heads. Mahres, Slack et al No. 1 Pat Wilson, pool opener from the Delaware horizon in western Ward, made an oil head of 32 barrels at 2 o'clock this morning, 13 hours after shot. The well was shot yesterday afternoon at one with 100 quarts spaced out 7 feet, cleaned self after the shot and making an estimated one million feet of gas. It was believed bridged 100 feet off bottom. Before shooting, operators had set a two-foot lead wool cushion in the bottom of the hole. Total depth was variously reported to be from 5,088 to 5,100 feet. The strike is located 1,850 feet from the southeast and 330 feet from the southwest line of section 133, block 34, H. & T. C. survey.

General Crude No. 1 TXL, north-eastern Reeves Delaware, was testing today show of oil gas encountered in the Delaware. Bottomed at 3,254 feet in sand, it had 250 feet of oil in the hole after bailing for several hours. Some water which had come in with the oil had apparently exhausted. The well topped black lime at 3,240, sand at 3,276, and found the show at 3,288. It is in the center of the north-east quarter of section 15, block 56, township 2, T. & P. survey.

Waddell Well Gauged. Gulf No. 5 W. N. Waddell, second flush producer from the Ordovician formation in western Ward, rated daily potential at 8,179.44 barrels, based upon flow the last four hours of a six-hour test. Gas volume tested 10,309,000 cubic feet, giving the well a gas-oil ratio of 1,260 to 1. It flowed 2,195.08 during the six hours, making 1,363.24 the last four. Flow was through 2½-inch tubing and casing. Located 1,080 feet from the south and east lines of section 4, block B-27, public school land, it topped the Simpson, middle Ordovician, at 5,806, and the Ellenburger, lower member of that age, at 5,956. Pay was found near the Simpson-Ellenburger contact. Total depth is 5,971 feet.

Sinclair-Prairie No. 2 Tubb Community, deep test in section 3, block B-27, is drilling lime at 5,504 feet. Superior No. 1 Todd, Crockett Ordovician test, is coring hard gray lime at 7,587 feet.

Dizzy Spells. "I suffered from dizziness for years and decided to try Kruschen. Of course I know it is my age that is the cause of it all. I am 47 but I have been told this and that would help me so I tried all I could but still had the same old dizziness. Now I'm on my 3rd jar of Kruschen and don't get dizzy nearly so often. I used to get so muddled at times. Now I feel different—altogether much clearer. There must be hundreds of women like me. They must stick to Kruschen every morning." Mrs. L. B. N., August 24, 1936.

Dizzy Spells

How to Help The Passing of Women's Most Critical Years —40 to 50

Kruschen Salts is sold the world over—millions of jars a year. If you want to help avoid headaches, dizziness, smothering spells, weakness, fits of depression—if you want to keep feeling more healthy and happy—up and about your work—take a third teaspoonful of Kruschen Salts in a glass of hot water first thing every morning.

Take it for 30 days and if not joyfully satisfied get your money back from Palace Drugs or any modern druggist. (adv.)

Smartly Correct Stationery
One is prone to think "any sort of paper will do"—and what a detrimental notion! For your letters reflect your taste and personality as definitely as do your frocks—your choice in gloves.

We suggest **Montage Fashionable Writing Papers** as a delightful way to be smartly correct.

Here's a rare opportunity! The complete, effective cleansing treatment of one of America's best known lines at the price of the standard size jar alone.

It includes the scientifically blended Barbara Gould Cleansing Cream and the exquisite Barbara Gould Skin Freshener.

Come in today. Don't miss this chance to secure your Barbara Gould Cleansing Treatment at this exceedingly low price.
