FRIENDSHIP—WITH A JOKER

Student exchanges between the United States and foreign countries have become popular as a means to promote friendship. In at least one city, the exchange is a mass affair, involving half a hundred boys and girls of high school age.

One of the American girls in this city group told, in a stranger metamorphosis than that "saving the na letter home, of a day's sight-seeing around Berlin. But, she reported, their cameras were taken away from them before they were allowed in the plane.

Apparently the motive is the same in Germany. First Term Calm. Apparently the Nazi thought is that "all foreigners are spies" even if they're children.
