Feed Rate Hearing Is Ended Today

Railroads Decide No Testimony Is To Be Presented

AUSTIN, Dec. 7 (P).—The Railroad Commission's hearing on proposed reduced livestock feed rates into the drought areas ended today when railroads decided to offer no testimony.

The hearing was on application of ranchers who claimed conditions are worse than two months ago.

Ranchers and agricultural agents testifying before the railroad commission yesterday painted a bleak picture of range conditions in 30 South Texas and Panhandle counties suffering from a lack of sufficient rainfall.

They urged the 25 per cent freight rate reduction on livestock feeds granted them until December 31 be extended through the remainder of the winter. A large battery of railroad attorneys opposed any extension and was ready to go into district court here later this week in an effort to enjoin enforcement of the lower rates the rest of this month.

Ten counties were stricken from the group which may receive the reduced rate extension because no one was here to testify regarding their conditions. They were Carson, Dallam, Hansford, Hartley, Moore, Oldham, Potter, Randall, Sherman, and Stephens.

Air Corps Seeks American Flier Lost Near Manila

MANILA, Dec. 7 (P).—The United States army air corps and Philippine government tonight marshaled all available air, sea and land forces for a search for five army officers, one an American. Fear was felt that the five men, flying two planes, had been caught in a typhoon Sunday.

Major General Paulino Santos, Philippine chief of staff, Lieutenant William L. Lee, Jr., United States army, home near Weatherford, Texas, were among those missing.

Cloudbursts flooded rivers and gales ripped out communication lines Monday in the Central Philippine Archipelago as the third typhoon this season brought new destruction to the islands, still suffering from earlier storms.

Only two deaths had been reported from Monday's typhoon, but a serious epidemic of dysentery in Sorogson Province was taking many lives. It was traced to the storm of last Nov. 11. The town of Bulan, alone, reported twenty dead.

Over shattered communication lines fragmentary reports told of heavy crop losses and two deaths. Earlier storms this season killed at least 280 persons and left 200,000 homeless.

The plane in which General Santos left Cebu for Manila was piloted by Lieutenant Lee. It also carried Col. Fidel Segundo, chief of the Intelligence Corps of the Philippine army. Two other army planes which left Cebu at the same time were forced down in Toybas Province by rain and wind. They landed safely.

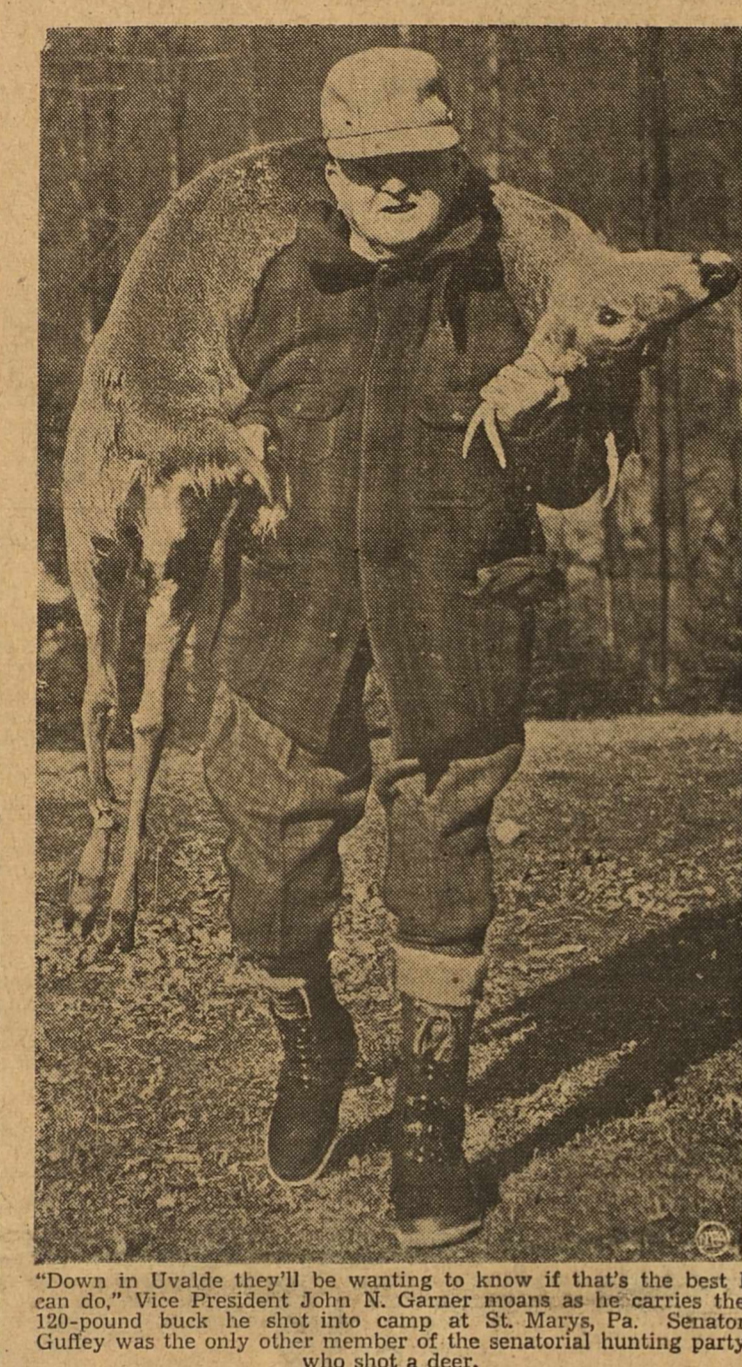

BULLETIN

Mrs. John Kirkhart, Odessa, was knocked down and slightly injured this afternoon at the corner of Wall and Main streets when she was struck down by a car being driven by Miss Gladys Williams, Midland woman. Miss Williams was making a turn onto West Wall, and said that sun in her eyes kept her from seeing the Odessa woman, just off the north curb. She was taken to a hospital and an attending physician, after a preliminary examination, said that her injuries were not apparently serious.

Bangles Go on Sale Tomorrow

BANGLES, BANGLES, who will buy bangles? Wednesday only, Red-Cross bangles will be on sale at every school in Midland during recess, noon, and after school. You can buy one for a penny, a nickel, or any amount you wish to pay. See that every child in Midland has a bangle to wear in honor of the annual drive for funds carried on for tuberculosis sufferers. The sale of Bangles and Christmas Seals make it possible for afflicted children to have the medical care they could not otherwise afford. Buy a bangle!

Buck Up!

"Down in Uvalde they'll be wanting to know if that's the best I can do," Vice President John N. Garner moans as he carries the 120-pound buck he shot into camp at St. Marys, Pa. Senator Guffey was the only other member of the senatorial hunting party who shot a deer.

Baby Killed After Kick By Horse

Two-Year-Old Girl Dies Instantly of Accident at Tarzan

Little Carol Ann Tramel, two and one-half year old daughter of Mr. and Mrs. C. S. Tramel, formerly of Midland but at present living near Tarzan in Martin county, was almost instantly killed today when kicked by a horse at her home.

The child was reported to have followed her grandfather, Frank Walcott, out to the lot where he was working and to have stepped up behind the horse without the man being aware of it. His first knowledge of the accident was when he heard the impact as the horse kicked the girl in one side of the head causing a fractured skull that led to her death before medical assistance could be reached.

The injured child was placed in an automobile and rushed to a Midland hospital but succumbed before reaching here. Had she lived, she would have been three years old next May.

The child is survived by her parents and two older sisters, Margaret and Nina Tramel.

Funeral services for the deceased will be held tomorrow afternoon at 2:30 at the First Presbyterian church with Rev. W. J. Coleman officiating. Interment services will be held at Fairview cemetery.

Two Gains Tests Ordered Plugged, Abandoned Today

By FRANK GARDNER.
Two Gaines county tests ended in failure today, one limiting the western extent of the Wasson pool, and the other defining a pronounced, synclinal eight miles south by southwest of that area.

A. G. Carter No. 2 E. C. Bra on the west edge of the Wasson pool, was ordered plugged and abandoned when it filled 350 feet with sulphur water in 30 minutes after being swabbed down through tubing. Total depth of the failure is 5,014 feet, in lime. It was acidized with 1,000 gallons when bottomed at 4,995, but swabbed only sulphur water after the treatment. No. 1 Brand is located 2,200 feet from the south, 440 feet from the east line of section 54, block AX, public school land.

Mitchell & Sullivan No. 1 Shell Petroleum Corporation-T. B. Riley, 650 feet out of the northeast corner of section 447, block G, C. C. S. D. & R. G. N. G. survey, is dismantling rig and will be plugged tomorrow. Steel-line measurement put total depth at 5,302, two feet past contract. Remarkably fast drilling time, only eight hours, lost in fishing job, was made by Mitchell & Sullivan's crews on the No. 1 Shell-Riley. It started drilling with rotary November 12 and reached 5,302 feet yesterday, averaging more than 200 feet of hole daily. The well topped anhydrite at 2,300 and ran low structurally. It had not yet entered the solid lime when contract depth was reached.

Conoco No. 2 Jones, in northwest Gaines, section 1, block A-8, public school land, is drilling lime at 4,944 feet. It logged salty sulphur water from 4,905-08 and an increase from 4,919-22.

Stogner-Pipkin at 4,455. Depth of 4,455 feet in anhydrite and red rock was reported this morning from Lou Stogner and Gene Pipkin No. 1 Brock estate, wildcat in extreme northwest Yoakum, section 103, block D. It topped first brown lime stringer at 4,180.

In the Bennett pool, Honolulu No. 2-477 Bennett is drilling lime at 4,990; No. 3-677 Bennett is drilling at 3,220 in anhydrite and red rock.

Standard No. 1 Sawyer, in the Bohago area, got shut off of bottom-hole by plugging back to 5,269 from 5,403 and is running tubing for a test. Skelly and Sun No. 1 Kiser had plugged back to 5,256 from 5,300 and was still showing about half water in 12 to 15 gallons of fluid bailed out hourly.

In western Yoakum, Wiggins et al No. 1 Bartlett is drilling hard lime at 5,330 feet.

Drilling time indicated that solid lime was topped at 4,365 feet in Toddie Lee Wynne, trustee (American Liberty) No. 1 Willard, southwest Yoakum test seeking to link the Denver and Wasson areas. It is drilling ahead in lime at 4,480. The same owner's No. 1 C. A. Thomas, also between the two pools, was scheduled to be given initial acid treatment this morning. Bottomed at 5,025, it had 1,500 feet of oil in the hole which could not be lowered by balling.

Murchison & Fikes No. 1 Standard-Sawyer, northeast of the Denver, is drilling lime and anhydrite at 4,015 feet.

Over the Top in Pursuit of Fleeing Chinese

Once the Japanese juggernaut got Shanghai's defenders on the move, nothing could be permitted to stop it. Through swamps, across makeshift bridges, over obstacles, troops and machines rumbled in pursuit of the retreating Chinese. With a tank leading the way across the tottering bridge, Japanese foot soldiers hurry to come to grips with the enemy.

Thousands of Natives Flee The Capital

Americans Seeking Refuge Aboard U. S. Gunboat in River

SHANGHAI, Dec. 7 (P).—Japanese stormed the ancient walls of Nanking today. The government had already abandoned the capital, and thousands fled today, but still within the city were 17 Americans, other foreigners, many natives.

Eight Americans took refuge aboard a United States gunboat.

Ninety warplanes unleashed a terrific bombardment of the city as medieval scaling ladders were used at the walls.

Japanese said their forces were progressing according to schedule. Chinese said, except in the Nanking area, they were holding their own.

Japanese correspondents with the troops reported Nanking's eastern suburbs, including the mausoleum of Sun Yat-Sen, father of the Chinese republic, and the mansion of Generalissimo Chiang Kai-Shek, already were in the invaders' hands.

The \$3,000,000 tomb of Sun Yat-Sen, set on the slope of the famous purple mountain, has been considered the shrine of modern China.

The district surrounding it, containing many fine government buildings, held the outstanding material achievements of the nationalist government of China which many Japanese leaders have said must be destroyed.

Correspondents said fires were raging in Nanking.

A brief dispatch from within the city said the great gates were being closed and strengthened with sandbag barricades. The Chinese apparently were preparing to stand within the walled city.

Retrace 2800-Mile Pioneer Trail

In observance of the 150th anniversary of the settlement of the Colonial Northwest Territory in 1787, 36 youths were to re-enact the 2800-mile trek through the wilderness from Ipswich, Mass., to Marietta, O., in which Reverend Manasseh Cutler's pioneers made history. The youths, who above clean equipment, will spend a year plodding from city to city behind the oxen-drawn covered wagon, garbed in buckskin outfits and coonskin caps, presenting a pioneer pageant on their nightly stops.

Former Manager of Hotel Here Subject Of Comment in Book

Arthur G. Jury, former manager of Hotel Scharbauer but now of the Nueces Hotel, Corpus Christi, was the subject of comment on the cover page of the official Hotel Greeters Guide for Texas and Mexico, in its issue of November 28.

Accompanying a picture of the former Midland hotel man was the following article:

"Mr. Arthur G. Jury, manager of the Nueces Hotel in Corpus Christi, is a veteran hotel manager who is always interested in his guests, affording the warm and hospitable greeting of the true hotel man, and his particular type of personality has endeared him to the general public and to the various civic clubs of Corpus Christi, who are always calling on him in various capacities.

"Mr. Jury is thoroughly familiar, through back-ground and experience, with every department of a large hotel. The visitor has only to observe closely the operation of each department to realize this.

"The pleasure pier is only a short walk from the hotel. There it is possible to charter a boat for the day for a party, or to take individual tours with others in the many pleasure and fishing boats that dock at the pier.

"Corpus Christi, and the Nueces Hotel—both await your visit—and to the most beautiful locality on the Gulf Coast."

Gymnasium Bonds Sale Completed

School board officials sold yesterday to the state board of education the Midland independent school gymnasium bonds, to three per cent interest. This was the best sale made to the board of education at this time, and at the lowest rate of interest ever made of school district bonds to the State of Texas. The saving in interest alone, at three per cent rather than 4 per cent, the rate recommended by the state board's bond attorney and the rate at which other school bonds were sold by neighboring cities at this time, amounted to more than \$380,000 for the Midland district. Final acceptance of the very low rate of interest by the state board was due to the splendid financial rating of the Midland schools, and to the very good financial showing presented to the board, spokesmen said. The Midland school board submitted a brief of twelve legal cap pages, giving minute information concerning the financial history and present financial condition of the schools, a financial sheet giving the present status of school funds, their outstanding indebtedness, tax valuations, rate of tax levy, and collections for the past five years, also a sheet giving the schedule of maturities and annual requirements of the proposed \$40,000.00 issue.

However, the 3 per cent rate was not accepted without stiff opposition by members of the state board. Each member was contacted personally, and it was pointed out that while a fifty cent levy was allowable for bonds, Midland was allowing only thirty cents for bonds, and while Midland's bonded indebtedness was only \$314,000.00 including the proposed issue, the allowable with the present assessed valuations was \$344,000.00 for the Midland district.

One member of the state board stated in executive session the Midland independent school district had the best reputation of any in the State. Hon. Tom Garrard, a former citizen of Midland, Hon. Ghent Sanderford, a long acquaintance of Superintendent Lackey, and Senator Bowers, a boyhood friend of the Midland school man, took active parts in supporting the three per cent purchase. One member moved that the bonds be bought at 4 3/4 cents, another motion was made to accept them at 3 1/2 per cent. Mr. Garrard moved as a substitute motion that they be purchased at 3 per cent, and his motion carried on the first ballot.

No member of the state board questioned the value of the Midland independent school district bonds but some thought the proposed rate of three per cent was too low, and lower than had ever been accepted for school bonds. Members of the Midland organization used the fact that an issue of road county-wide bonds had been bought from a neighboring county at three per cent. The road bonds were for 15 years, the same as the Midland school bonds.

Postoffice Patrons Are Urged to Send Air Mail Letters Here Thursday

Observance of air mail feeder survey week by sending letters to someone by air mail Thursday was urged today by city officials. The mail will be picked up Friday morning.

Arrangements having been completed Sunday when Louis R. Finlan, district traffic manager of Eastern Air Lines, and his pilot, C. A. Rowe, flew here.

It was pointed out that from this survey might come the possibility of creating feeder lines that will again serve Midland, affording a good business talking point for the city and bringing a beneficial service.

The airmail plane coming here Friday morning will dispatch its

cargo of letters at Houston at 2 o'clock in the afternoon. The test is being conducted by the Postoffice Department to ascertain the advisability of establishing feeder lines connections from certain small cities to stops on major trunk lines.

Allen Tolbert, postmaster, has received several requests from stamp collectors in widely separated parts of the country for the cachet going out on the letters. The cachet to be stamped on letters here portrays Midland as an oil, cattle and agriculture center of the state.

All patrons of the local post-office are urged to take advantage of the service and to mail at least one letter each to be picked up here.

Patients Dismissed During Week-end

Hospital records show a number of dismissals of patients over the week-end.

John Van N. Dorr, geologist for the Superior Company here, was dismissed Sunday, as was Mrs. Jimmie Nazarene of Monahans, and Grady Harris of Midland.

Wayne M. Hill underwent minor surgery at a Midland hospital Monday, while Mrs. John T. Gay of Andrews was dismissed on the same date.

The five-weeks-old infant of Mr. and Mrs. O. W. Davis of Stanton was admitted for treatment this morning.

G-Man Wounded as Trap for Man Fails

KANSAS CITY, Dec. 7 (P).—Henry Snow, federal agent was in a critical condition today from shot gun wounds received in a duel with a suspected extortionist.

Snow and other agents were concentrated near where H. B. Jacobs, coal dealer, said he had been ordered in a letter to pay \$600. A man approached and the shooting ensued.

WASHINGTON, Dec. 7 (P).—Federal Bureau of Investigation headquarters here reported last night one of its agents was shot and wounded at Independence, Mo., in an attempt to trap an alleged extortionist.

Federal agents, F. B. I. headquarters here, accompanied Howard Boone Jacobs of Independence to a spot designated in a note received by Jacobs.

Jacobs, following instructions, dropped a bundle supposed to contain \$600 demanded in the note.

A man, believed to have been the note writer, opened fire and Federal Agent H. A. Snow fell. The man escaped. Snow was taken to the Independence Sanitarium. His condition was not immediately known.

Tax Claim Against Mellon Estate Is Cut 2 1/2 Millions

WASHINGTON, Dec. 7 (P).—The United States board of tax appeals cut the government tax claim against the late Andrew Mellon today from \$3,075,103 to approximately \$700,000.

Government attorneys said the long-pending decision was too complicated to make a more accurate appraisal immediately.

The decision said "the petitioner (Mellon) did not file false fraudulent returns with the intention to evade taxes."

Donald Shepard, executor of the Mellon estate stated "the decision is a victory for Mr. Mellon."

3 Defendants in Price-Fixing Case Will Be Acquitted

MADISON, Wis., Dec. 7 (P).—Federal Judge Patrick Stone announced today he would grant directed verdicts of acquittal for three individuals in the government's gasoline price-fixing case. They are J. A. Welch, Shreveport; R. R. Irwin, Kansas City; Tr. Smith, Tulsa.

Receding Traffic Toll

Records of the National Safety Council indicate that automobile drivers are at last beginning to get a little bit more careful—but the improvement is so slight that it is hard to get very enthusiastic about it.

In the first 10 months of this year, for instance, 31,950 people were killed in traffic accidents. The record for the first 10 months of 1936 showed a loss of life of 29,560. There was, accordingly, an increase of 8 per cent in the number of fatalities.

This, however, is offset by the fact that there was an increase of 9 per cent in auto traffic. In proportion to the number of cars on the road, then, we killed fewer people this year than last.

But the gain is pathetically small. Unless we can speed up our improvement, it will be the year 2000 A. D. before the gain is visible to the naked eye.

The move for paper money printed in different colors seems superfluous with so many budgets already in the red.

Paris must be losing its grip on the style market. Those mask and hood models ballyhooed lately were popular in the U. S. years ago.

The Town Quack

During the war American soldiers in England refused to have their spirits dampened by the dense fogs. The colonel of a regiment, making a night tour of a certain camp, was challenged by a sentry who had been standing at his post for two hours in a driving rain. "Who there?" said the sentry. "Friend," replied the colonel. "Welcome to our mist!" said the sentry. P. T. Barnum, the famous showman, was Scotch. And, in order to effectively combat the extremely undesirable demand for free admittance to his famous show, he dug from the Scripture the following quotations, and posted them at the front door of his show: "Thou shalt not pass—Numbers, XX, 18. "Suffer not a man to pass—Judges III, 23. "None shall pass"—Mark XIII, 30. "Neither any son of man shall pass"—Jeremiah, Chapt. 51, 43. "Though they roar, yet they cannot pass"—Jeremiah, 32. "So be paid the fare thereof, and went"—Jonah, Chapt. I, 3. "I'm a self-made man." "You're lucky, I'm the revised work of a wife and three daughters."

Behind the Scenes in Washington

WASHINGTON, Dec. 7. — Opinion appears to vary as to how much of the potential 16 billion dollar housing boom suggested by Roosevelt actually can be realized. The problem of reducing building material and labor costs, which the President will tackle in promised conferences with industry, labor and finance and which he says must be met if the proposed boom is to succeed, is very far from solved. The effectiveness of proposed changes in the Federal Housing Administration law, although calculated to make housing investment slightly more attractive, also is questioned. The administration hasn't yet made up its mind whether to seek to use capital gains tax exemptions, and taxation of income from tax exempt bonds, as a means of pushing money into the housing market. Some experts believe that early next year the pressure of insurance company and mutual savings banks funds yearning for investment will begin to flood into the housing field, regardless of administration moves. Others suspect that the "strike of capital" will balk the Roosevelt effort until the administration makes various concessions to Wall Street or finally defies reluctant private capital and undertakes to launch a huge house-building program of its own. FINALLY, there appears to be much doubt as to just how large a consumer market there is for new housing and just how much potential buyers are renters can afford to pay. After the President's message appeared, the National Housing Committee decided to postpone publication of its report on the available market for dwellings. The report will show that the number of families which can afford to pay \$50 a month for rent is now about a third as large as the number in 1929, when it was figured at about 7,000,000 non-farm families. (Roughly, an income of \$50 a week can economically pay rent of about \$50 a month on a house costing an average of \$5000.) The report will show that 83 per cent of all dwelling units built in the period of 1930-37, when prices of building materials and labor average less than at present, cost \$5000 or more. (Roosevelt makes a "moderate estimate of \$4000 per unit" in the boom which the administration hopes will appear to beat the depression.) **Shortage in Low-Cost Homes.** THE committee's survey will show that there is practically no shortage in houses costing \$5000 or more, no considerable shortage in the range renting between \$30 and \$50 a month, but a great shortage in the range renting from \$20 to \$30 a month. Although the figures may offer no great encouragement to the administration and its hopes, they certainly suggest confirmation of the President's idea that prices and rents of new dwellings must be driven well below present levels if any important results are to be achieved. The National Housing Committee, of which Monsignor John A. Ryan is chairman, is composed of industrialists, labor leaders and others of national prominence. Its survey of the housing market was made through consultation with a number of outstanding economists and statisticians in government and industry. **Middle Class Hit Hardest.** FINDINGS indicate that the middle-income groups which buy average, modest homes have not emerged from the depression as well, proportionately, as the higher income groups and the very low income groups. Although in 1929 it was found that 12.6 per cent of American non-farm families had annual income of less than \$500, only 8 per cent were in that group in 1935. (The average annual WPA wage of \$750 was a factor here.) And while the national income increased 35 per cent from 1933 to 1935, families in the \$50-a-week group increased only 22 per cent. Some housing experts think that raising the insurable limit on FHA loans from 80 to 90 per cent will be no great stimulus to home-building. One reason is that this raises the carrying charge load, offsetting the half-of-one per cent reduction in the FHA rate. Size of the monthly payment, FHA has found has been the chief deterrent to would-be home-owners. **'Holiday Mileage' Voted by Congress** WASHINGTON, Dec. 7. (AP) — Congress voted itself some \$222,000 for traveling expenses to and from the special session—at 20 cents per mile per member. House republicans had some nasty things to say about the action—including an imputation it amounted to an appropriation for Christmas trips home, which in fact would not actually be made. In the senate the members passed without comment. Otherwise, the day, was devoted to wrangling over the farm bill, a house subcommittee decision to make simplifications in the much-criticized capital gains and losses tax, and the approval by the house labor committee of a revised wage and hour bill eliminating the proposed administrative board. The last action was taken a few hours before President Roosevelt's return from a Southern vacation, and left the membership wondering whether he would take affirmative action to oppose the change. The mileage bill made immediately available the money previously appropriated for traveling expenses in connection with the regular session beginning in January. Upon the assumption similar action would be taken to provide "mileage" again for the regular session, Representative Tabe (R-NY) assailed the measure as "throwing the doors wide open without legislative authority" to permit members of congress to collect double mileage from the government, even though they remain in Washington over the Christmas recess. **70 AT REHEARSAL** Approximately 70 persons were in attendance at the practice session of the Christmas cantata last night, and all singers of the city are invited to rehearsals each night at 7 o'clock. Recent Bride Is Honored At Miscellaneous Shower

Mrs. W. E. King, the former Miss Billie Adamson, was honored with a miscellaneous shower at the home of Miss Charlene Parrott, 310 S. Fosco, Monday evening. Hostesses for the affair were Miss Parrott, Miss Christine Golladay, and Mrs. A. G. Bohannon.

A blue and silver color scheme was employed, with bouquets of cornflowers and blue and silver Christmas decorations used in the party rooms. A miniature church with the preacher, bride, and flower girl approaching it attracted attention to the mantle in the living room.

Mrs. Donald Parrott presided at the blue and silver bride's book in which guests registered and Mrs. Paul Smith presided at the receipt table.

A contest, "The Bride's Trouseau," was a feature of the evening, the prize being awarded to the honoree.

At the presentation hour, Mrs. King was blindfolded and asked to write her new name backward four times. While this was being done, gifts were brought in and handed up, ready for her to open when the blindfold was removed.

After the gifts were presented, refreshments were served. Plate favors, in keeping with the occasion, were wee figures of a bride and groom.

Guests registering were: The honoree, Mmes. Paul Jackson, Fred Hallman, Paul Smith, Miss Annette Dorsey, Miss Claudine Cottrell, Mrs. Ruth Baker, Mrs. V. J. Your Intestines WANT to Be Regular

If your intestines could talk, they'd tell you that common constipation comes from NEGLECT. Modern meals too often omit Nature's "regulators"—the laxative parts of wheat.

You can avoid common constipation by eating Kellogg's All-Bran.

All-Bran does TWO things. First, it gives you "bulk." It absorbs water and softens mass aids elimination. And second, Vitamin "B"—the vitamin that tones up your intestinal tract and promotes a healthy movement.

Kellogg's All-Bran is a crunchy, toasted cereal. Eat it with milk or cream and fruit—or in cooking. But however you eat it, use it REGULARLY. Eat two tablespoons of All-Bran and drink plenty of water. If you do this every day you can avoid common constipation—and cathartics, too!

Every grocery sells All-Bran. Made by Kellogg in Battle Creek.

ORDER FOLGER'S TODAY. Mountain-grown coffee with a keen, racy tang! It keeps a man happy for life! Here's coffee with that certain exciting something men find irresistible! An enchanting full-bodied flavor, and the lingering tang of rare wine! It's Folger's—different from all the others—because it's mountain-grown! Most of the world's coffee is lowland grown. So in spite of different brand names and packages—they all taste alike! Folger's mountain-grown flavor comes from a volcanic region in Central America. Up there the amazingly rich soil, tropic downpours and bracing crystal air make a marvelous difference in coffee—packing every bean with extra-rich flavor. That's the reason Folger's is the preferred coffee among those who can afford the best. It's served on 16 great railroad systems, transcontinental planes—and in thousands of hotels and restaurants. That's why—if you want to thrill a man—you'll serve him Folger's! ECONOMICAL BECAUSE SO FLAVORFUL! Folger's tangy mountain-grown flavor is so much richer—home-makers tell us they use 1/4 less of Folger's than of ordinary brands! So it's a real economy to enjoy this finest of all coffees in your own home. LOVERS OF DRIP COFFEE: To get richer drip coffee, use Folger's Drip Drip—designed especially for drip-makers, Silex and other glass coffee-makers.

Football Fever Hits Odessa Over Roscoe, Wink Struggle Sat.

ODESSA, Texas, Dec. 7. — Football fever again is gripping this Permian Basin city as it prepares for the invasion of Wink's Wildcats and Roscoe's Plowboys who tangle here on Fly Field at 2:30 p. m. Saturday, December 11.

Wink's undefeated Wildcats, although a slight paper favorite, expect to find the husky Nolan county aggregation hard to maul. The Plowboys, likewise, have great respect for the sharp clawed Cats who have slashed their way to eleven consecutive victories this season. The Plowboys dropped the season opener this year to the powerful Olney Class A outfit. The Wildcats opener was played with the Steers of Big Spring who were vanquished 13-2. Last week both clubs romped through their bi-district games with points and power to spare. Roscoe turned Brownfield under 21-6. On the following day the Winkler lads looted to a 39-0 victory over Iraan's Braves.

Powerful offenses and stubborn defenses are indicated by the season records of the two teams. The Roscoe Plowboy record is:

Roscoe 7, Olney 24
Roscoe 25, Roby 0
Roscoe 40, Ballinger 0
Roscoe 6, Baird 6
Roscoe 19, Rotan 0
Roscoe 26, Colorado 0
Roscoe 31, Snyder 13
Roscoe 27, Lorraine 0
Roscoe 41, Merkel 0
Roscoe 21, Brownfield 6.

Total points 243. Opponents 49.

Wink's Wildcats have turned in the following:

Wink 13, Big Spring 2
Wink 12, Hobbs, N. M. 0
Wink 39, Ft. Stockton 7
Wink 72, Kernil 0
Wink 75, Stanton 12
Wink 46, Midland 0
Wink 33, Odessa 6
Wink 47, Monahans 7
Wink 33, Crane 0
Wink 32, Pecos 19
Wink 39, Iraan 0

Total points 464, opponents 53.

The PAYOFF

BY JESS RODGERS.

An article by Blondy Cross, San Angelo Sportswriter, and who probably saw more Class-B football games in West Texas this fall than any other one man, because of its interest to Midland football fans, is hereby presented:
Region 2 Myth Club.

The dept. has been asked to draw up an all-Region 2 mythical football team. The leaders of this region, Warm days do not cause it to boil away—when properly serviced Mobil Frezone will afford satisfactory protection against the hazards of winter driving. Ever-Ready Auto Service. (Adv.)

Roscoe of District 6-B and Wink of District 7-B, scrap it out Saturday afternoon at 2:30 in Odessa for the regional championship.

My request all-Region 2 selection is:

Left end—Pugh, Wink.
Left tackle—Adams, Midland.
Left Guard—Halbrook, Odessa.
Center—Collins, Odessa.
Right Guard—Toone, Roscoe.
Right tackle—B. Ezell, Wink.
Right end—Wilkins, Roscoe.
Quarterback—Bradley, Levelland.
Left halfback—Gray, Roscoe.
Right halfback—Fitz, Roscoe.
Fullback—Webb, Wink.

The District 7-B coaches named Adams of Midland as the districts' outstanding lineman. They named Pugh of Wink as the outstanding end and Webb of Wink as the outstanding back. They did not nominate Beekman Ezell of Wink, but Beekman can play tackle on my team.

Up in Levelland, Coach Bill Stevens thinks he has one of the greatest all-around backs in the state in Millard Bradley.

Coach Squib Carruthers over at Roscoe declares Fitz and Gray are the best backs class A or B in West Texas. Wink will learn about that Saturday, which reminds, the dept. has been queried as to which will win, Wink or Roscoe? Wink will win—if it plays considerably better

football than it did against Pecos in the 7-B final.

All-State B

The Southwestern Sports Magazine in conjunction with the Coca Cola Bottlers of Texas is lining up a mythical all-state class B football team and high powered watches are to be given each player selected.

The writer has been asked to make suggestions on picks from Regions 2 and 3. Knowing well that committeemen of the various other regions are going to flood the magazine's office with names of star players from their sections and that the matter likely will wind up with a lot of straw-pulling and coin-flipping in order to reach a settlement, after going into huddles with various representatives of Regions 2 and 3, I'm cutting my suggestions down to a choice few and checking it up to the men in the magazine's office not to lose them in the shuffle and clutter but to set them aside as bonafide picks registered ahead of the general shuffle.

The state selections from Regions 2 and 3 are:

Albert Mikeška, of Seymour, District 10, at end.
Charley Webb, Wink, District 7, at fullback.
Wallace Gray, Roscoe, District 6, at halfback.
Woodrow Adams, Midland, District 7, at tackle.
Millard Bradley, Levelland, District 5, quarterback.

It also will be suggested that Charley Dye, Brady in District 25 of Region 7, be considered seriously for a backfield position. Region 7, however, is under the selection committee of Harry Blanding, emper scribe.

Wolves and Bears Fals.

DENVER, (UP)—Officials of the City Park zoo are considering an attempt to make their lions lie down with lambs after having no difficulty persuading wolves and bears to share the same quarters.

Fort Necessity Bayonet Found.

UNIONTOWN, Pa. (UP)—A Civilian Conservation Corps worker found an ancient bayonet near the site of historic Fort Necessity, scene of George Washington's first battle and only surrender.

Pocahontas of John Smith fame, died on board a ship at Gravesend, England.

More than 3,000 children under 5 years of age die every year in the United States, as the result of burns.

It was interesting to note that Mr. Laird who visited Midland during the rodeo in September, and was shown the school plant and the city of Midland by Superintendent Lackey and a member of the school board, was heartily in favor of the three per cent purchase.

Local school authorities say that all possible speed will be used in delivering the bonds to the state board, and in getting favorable action on the PWA grant of \$35,000.00 which is to supplement the bond issue in building the gym.

OIL NEWS

in the Mason pool of northwestern Loving, which produces from the Delaware, was listed by Michigan Gas and Oil Company in its No. 4 Kyle. Official potential test showed flow of 611 barrels of oil, cut seventenths of one per cent with salt water, in 24 hours. Flow was through 2-inch tubing. The well is bottomed at 3,938 feet in sand and was shot with 180 quarts from 3,901 to total depth.

U. S. Warns Against Violations of the Monroe Doctrine

WASHINGTON, Dec. 7. (AP) — Under-secretary of State Sumner Welles, inveighing against the spread of "alien" propaganda on the American continent, indirectly warned foreign nations Monday night, that the United States would not tolerate any violation of the Monroe Doctrine.

Addressing the Inter-American Center of George Washington University the State Department's Latin expert said:

"Any attempt on the part of non-American powers to exert through force their political or material influence on the American continent would be immediately a matter of the gravest concern not only to the United States but to every other American republic as well, and appropriate action would undoubtedly be determined upon as the result of common consultation between them."

Welles did not refer by name to the doctrine, promulgated by President James Monroe in 1823, that the American continents were not to be considered subject to further colonization by any European powers. Nor did he refer specifically to regular radio broadcasts to Latin America from Fascist and Communist countries in Europe, which are known to be causing some concern to officials here.

"I would by no means underestimate the extent to which propaganda of a type alien to our western civilization has been spread on our continent during the past years * * *," he said.

"But, if our democratic civilization of the Americas represents effectively, as we all believe it does, the bulwark of our independence, inter-American life, it will remain unimpaired by the fantasies which suffering peoples in other parts of the world have devised as panaceas for their own momentary ills and by the propaganda which emanates from them."

"through a healthy securities market."

6. Continued government spending until "such time as the use of private capital takes its place."

7. Continuance of the administration's trade agreement program.

The secretary urged farmers and laboring men to "realize the vital importance of capital to the general welfare."

"Today we are witnessing a refusal of capital to invest similar to that of several years ago. It may be that hazards to invest, real and imaginary, are so great that capital either will not or can not come out of hiding and take the risks inherent to all investment."

"But if our system is to endure," Wallace declared, "business must take the government's word that government wishes it well and business must assume those responsibilities of leadership which business claims."

Otherwise, he said, government will be forced to "step into the breach."

BACK FROM TRIP. Mr. and Mrs. Chas. Brown are back in Midland after a vacation trip which he spent hunting in South Texas and she spent visiting in Austin and Waco.

Recovery of Tooth Ailment Predicted For the President

WASHINGTON, Dec. 7. (AP) — White House officials today disclosed an examination of x-rays had disclosed "no bone involvement" in President Roosevelt's unhealed tooth socket. They said it would be unnecessary to scrape the jawbone to help heal it.

The tooth trouble forced the president to cut short his Southern vacation by three days.

The president's general condition was described by Captain Ross T. McIntire, his naval physician, as "excellent." Six days of resting and fishing around the Florida Keys had given him a nice tan and "put

him on his toes," the doctors said.

The president was extended a warm official welcome at the depot yesterday after completing a 26-hour ride by special train from Miami, Fla. Vice President Garner, Speaker Bankhead and six members of the cabinet were on hand.

Missing Man Found In Shaft of Mine

PINCKNEYVILLE, Ill. Dec. 7. (AP) —Lawrence Lee, 28, bookkeeper, lost in Briar Hill mine since Sunday, was found today at the bottom of an air shaft adjoining the mine into which he wandered in darkness. Inspector Leonard Forester said Lee was "fagged out," and put to bed at his home immediately.

7-Point Program to Aid Business Urged By Wallace in Talk

WASHINGTON, Dec. 7. (AP) — Secretary Wallace urged last night that business, labor, agriculture and government unite on a "common-sense" program to "counteract" the business recession.

Speaking in the radio forum of the Washington Evening Star, he said industrial production could be increased at least 40 per cent within three years by the following steps:

1. Revival of housing construction as outlined by President Roosevelt.
2. Revision of tax laws to cure injustices but to maintain revenue.
3. Enactment of farm legislation designed to maintain agricultural purchasing power but protect consumers against excessive prices.
4. Enactment of a "well-drawn" wage and hour law to maintain purchasing power of labor.
5. Assurance of an abundant supply of cheap credit and capital
