

A Governor 'Up'

Gov. Gordon Browning of Tennessee was only one of 30,000 visitors and the unabashed mule the governor is astride in the photo above was only one of 5000 mules when Columbia, Tenn., staged its Mule Day festival. With all cars barred from the main streets, the ordinarily abused mule became something of a town hero for a day. A King Mule was honored—but no Queens of Beauty.

Local Boy Scouts Gain First Place Tie in Contests

Boy Scout troop No. 54 of Midland Saturday won a tie for first place in the annual first aid meet held in Big Spring. The tie for the championship gives the local troop the right to enter the sectional championship contests that will be held in Sweetwater next Saturday. The other team that tied for first, troop 60 of Sweetwater, will also enter the meet.

Competition was stiff throughout the meet as shown by a tie for third place by troop 20 of Colorado and troop 5 of Big Spring. Troop 68 of Pecos won the second place award.

Army Planes Will Be Stationed Here During 'War' Games

Ten giant planes of the 22nd observation squadron from Brooks Field in San Antonio are expected to arrive here tomorrow and be stationed here for three weeks while war games are held in Reeves county.

Aboard the planes that will be stationed here will be 20 officers and 90 enlisted men. Arrangements are being made to take care of them at the airport during their stay here.

While here the planes will make day and night flights over the territory where the war games are being held and will be used by one side in spotting the "enemy" soldiers.

Teachers Invited To Conference at Monahans April 19

Teachers of Midland county have been invited to attend an educational conference at Monahans April 19, sponsored by the state department of education. The conference is specifically for elementary and junior high school teachers and is for the purpose of improving instruction in the elementary school system.

Dr. Moore of Peabody College, Nashville, and Miss Wilson, director of elementary education in the state department of education, will speak to the conference on late developments.

A banquet will be held in the evening at the Monahans high school building, letters to school officials here advised.

VISITS BROTHER.

Miss Dell Rhoden of Lubbock is visiting her brother, J. H. Rhoden, and Mrs. Rhoden.

Revolt of Democrats Foreseen

Reorganization Act Defeated; Others Face Nullification

WASHINGTON, April 9 (AP).—Rejection of the government reorganization bill thrust forcibly upon the White House today a threat of party rebellion against "key" proposals of President Roosevelt in his second term.

To most observers it was an astonishing defeat for the administration from the overwhelmingly democratic house which foes of Mr. Roosevelt have called a "rubber stamp" for him.

Some drew the conclusion that the president's insistence on "reform" legislation as distinguished from the White House today a threat of party rebellion against "key" proposals of President Roosevelt in his second term.

The blow to White House prestige, challenged indifferently during the first four Roosevelt years, was comparable only to the senate's defeat last year of the supreme court bill.

Before the vote on the house floor which killed the government reorganization bill 204 to 196, administration supporters had reiterated that an attack on the measure was an attack on the president. Democrats heard this chant from party stalwarts; they out-numbered republicans better than three to one; but 196 members of the majority party voted to kill the bill, although major concessions already had been made.

Speaker Bankhead told the house that rejection of the reorganization bill spelled "reputation." Mr. Roosevelt's own strong feeling about the measure was evidenced in his remark that its passage in the senate by a handful of votes—showing that body could not be "purchased" by an organized telegram campaign.

Mother, Daughter Declared Slain With Same Gun

AUSTIN, April 9 (AP).—State police ballistic experts indicated unofficially today the bullets taken from the heads of Mrs. W. G. Frome and her daughter, Nancy, West Texas murder victims, were fired from the same gun.

One bullet was of plain lead type and the other steel jacketed. Technicians said they may be .32 caliber, but the findings are not conclusive.

Processing Taxes Not to Be Written Into Revenue Bill

WASHINGTON, April 9 (AP).—The senate refused today to write processing taxes into the \$5,000,000,000 revenue bill. Levies on cotton, corn, wheat, rice and other commodities were asked by Senator Pope of Idaho to raise \$212,000,000 annually for additional farm benefits.

A half-billion dollars is now available under the farm program. Senator Connally of Texas, a member of the finance committee, supported the Pope plan.

Former Midland Woman Succumbs In California

Mrs. M. J. Allen left Saturday night for Fresno, California, following news of the death of her daughter, Mrs. Wellman Buck, the former Miss Eunice Allen, who died in that city Friday night. Funeral services will be held in Fresno Tuesday morning followed by interment there.

Mrs. Buck, member of a pioneer ranch family of this area, was reared at Midland and was a graduate of Midland high school. She is survived by her husband of Fresno; her mother, Mrs. M. J. Allen, two sisters, Miss Mittle Lee Allen and Mrs. S. L. Alexander, and a brother, J. S. Allen, all of Midland; four other sisters, Mrs. R. L. May of Amblers, Texas, Mrs. P. H. McElwain of Visalia, Calif., Mrs. E. C. Lawrence of Prescott, Ariz., Mrs. Frank Adams of Carriazo, N. M., and a second brother, M. J. Allen of Coalinga, Calif.

Mrs. Buck, who leaves a circle of friends among oldtimers of this area, received her A. B. degree from TWC where she made a fine scholastic record. After graduation she taught Spanish for two years in that college, subsequently engaging in YWA work in Hot Springs, Ark., Cadillac, Mich., and Okelousa, Iowa. She also taught English and music in Durango, Mexico, at one time. Recently she had been engaged in government work at Fresno where her marriage to Mr. Buck took place in July, 1937.

She was a member of the Methodist church and had long been active in church work.

TO GIVE SAFETY TALK.

Virginia Ann Hilliard, high school student, will present a safety talk Monday afternoon at 5:45 o'clock, in a broadcast over station KRLH. The program is second in a series of radio programs being sponsored by the Midland safety council.

Puzzle: Find Candidate

Flashing his best campaign smile Gov. Martin L. Davey of Ohio is pictured above surrounded by cheering supporters at Youngstown, O., where he announced that he would be a candidate for reelection. Although Davey had launched his campaign in the steel city as a defiant gesture toward his arch-enemy John L. Lewis and the C. I. O., he surprised the crowd of 3500 by not once mentioning Lewis or the labor body. Davey was in the headlines last summer when he reopened the strike-bound Youngstown steel mills under the protection of the national guard.

New Pool Is Indicated By Wildcat In Ector County

By FRANK GARDNER.

A new pool for Ector was in prospect yesterday as Sinclair-Pratt Oil Company, Argo Oil Corporation, York & Harper, Inc. and Sloan & Zook Company No. 1 Paul Moss developed promising oil showing from upper zone. Last evening, it was drilling in line at 3,955 feet, making about one and one-half barrels of oil per hour, with hole being kept baled down. Operators expect another showing between 4,025 and 4,650 feet.

No. 1 Moss, located 2,310 feet from the south and east lines of section 40, block 44, township 2 south, T. & P. survey, is two miles south of production on the west side of the prolific Harper pool. Marked difference in section and the fact that a dry hole, Honolulu Oil Corp. Ltd. No. 1 Kioh et al, was drilled a mile to the north, between it and the pool, point to No. 1 Moss as defining a separate structure.

After logging a slight showing of dead oil from 3,855-70, it found first upper pay from 3,890-98, filling 250 feet with oil in three and one-half hours.

Three new completions were reported for the Goldsmith pool of Ector at the week-end. Largest was Humble No. 5-B Cowden, with potential of 829.04 barrels a day after treatment with 4,000 gallons at 4-216 feet. Atlantic No. 6 Slator rated 154.56 barrels a day at 4,313 following shot with 300 quarts and acidization with 3,000 gallons. Humble No. 10-C Clarence Scharbauer had potential of 102.40 barrels daily after treating with 3,000 gallons at 4-194.

In the Foster pool, Ector, Stanoil No. 9-B Elliott F. Cowden flowed 1,554.34 barrels in 24 hours, bottomed at 4,184 feet. Upper pay was acidized with 4,000 gallons, then the well was shot after it had reached its total depth.

Landreth Hits Yates High. Yates sand was topped at 2,910 feet, datum of plus 387, by Landreth Production Corporation No. 1 Paul V. Dalmont, south central Gaines test, in the Kirk area. This is 86 feet higher than Yates top in Landreth's No. 1 Kirk, small discovery pumper a mile and a half east by southeast, which topped it at 2,970, datum of plus 301. No. 1 Dalmont

Four OLP's Lead Saturday Landings

Four OLP's led by Pilot Ramsey, came from Abilene Saturday to Sloan Field and departed for Biggs Field at El Paso, forming the largest group to land here Saturday a checkup late in the afternoon showed.

Single landings included: An O-46 flown by Pilot Straubel en route from Hensley Field at Dallas to Biggs Field at El Paso; a BT-2 under Pilot Morris, who came from Biggs Field and after an overnight stay planned to depart for Fort Sill, Okla., today; a PLP flown by Pilot Westmoreland from Biggs Field, who also planned to depart after an overnight stay, going on today to Hensley Field at Dallas.

EX-RESIDENT STOPS HERE.

Johnnie Walker stopped briefly in Midland Saturday en route east from California. He formerly lived here.

was 146 feet high to the discovery on anhydrite, which it topped at 1,830 feet. Last night, it was drilling at 3,030 feet in anhydrite, sand and red rock. Location is 660 feet out of the northeast corner of section 24, block A-21, public school land.

Finley & Cherry No. 1 P. W. Dalmont, test three miles farther northwest, was in red beds as it drilled to 1,810 feet. It is 1,990 feet from the north, 660 feet from the west line of section 6, block A-21.

A semi-wildcat in the Wasson area of the Denver-Wasson field, M. B. K. Drilling Company et al No. 1 York & Harper, Inc.-A. L. Wasson, yesterday had reached 4,356 feet in line. It is 2,200 feet from the north, 440 feet from the east line of section 52, block AX, public school land.

In southwest Gaines, Eastland Oil Company No. 1 Dumber, section 24, block A-12, public school land, is circulating oil to free drillpipe stuck in the redbeds section while it was being pulled. Total depth is 4,305 feet in line. The well topped solid gray lime at 4,110, higher than dry holes to the south and southeast.

Yoakum Wildcat. Helmerich & Payne, Inc. and Conoco No. 1 Ohio-O'Dowd, Yoakum wildcat two miles south and two miles west of production in the Denver-Wasson linking area, is drilling below 4,340 feet in line. Solid lime was topped at 4,290 highest yet found in the entire area. The test is 440 feet out of the northeast corner of section 896, block D, J. H. Gibson survey.

A mile and a half farther east, Shell No. 1 C. A. Dowden, section 894, block D, is preparing to run casing at 4,725 feet in line.

Three-quarters of a mile northwest of the farthest north Denver field producer, Shell No. 1 P. W. Hensley, section 767, block D, is preparing to run tubing after halting drilling at 5,985 in line.

Five miles farther west, Walter J. Donnelly No. 1 University is shut down for new drillpipe at 3,890 in anhydrite.

Roosevelt Says 'No Recrimination' Against House Foes

WASHINGTON, April 9 (AP).—President Roosevelt said today that the house defeat of his government reorganization bill offered no occasion for personal recrimination and there should be none.

Mother of Midland Man Succumbs Fri.

Mr. and Mrs. John Casselman and children left Midland Friday night for Oklahoma upon receipt of the news that his mother, Mrs. D. A. Casselman, had died at Grainsola. Funeral services for the elderly woman will be held this afternoon at Pawhuska, Oklahoma. She is survived by her husband and three other children in addition to the Midland man.

Daladier Is New Premier Of France

Seeking to Form Government Ere Nazi Plebiscite

PARIS, April 9. (AP).—Edouard Daladier, chief of France's defense forces since the first peoples front cabinet took office in June, 1936, promised his radical socialist group in the chamber of deputies today he would have a strong government formed by tomorrow.

France then can face the troubled international situation "with calm and assurance," he said.

The "strong man" of successive Peoples front ministries, who before has been summoned to form governments when the nation was faced with the danger of civil dissension, declared France could not afford to be without a government with Adolf Hitler's Austrian plebiscite coming up Sunday and the Spanish civil war nearing an acute stage.

The minister of defense and war asserted he would be able to form a government whether or not socialists—strongest party in the chamber—agreed to accept posts in the cabinet.

The strike situation, meanwhile remained unsolved. Nearly 60,000 strikers were tying up production in 34 factories, including those supplying the French air force with almost all its plane motors.

Some strikers hoisted red flags over factories.

Sunshine Brings Relief to Snow Covered South Plains

John Bull's Big 'Bullet'

The giant torpedo in the picture above gives some idea of the magnitude of modern instruments of war. It is being slung under a British bombing plane during maneuvers to test Britain's convoy system for merchant ships—the system which was so successful in the World War in bringing cargoes of food and raw-materials to England. Protecting the convoy was the home fleet, attacking, a force including 130 planes like this one. Note that the torpedo is almost as large as the fuselage of a small passenger plane.

\$75,000,000 Expenditure for Exploration Of Oil in Permian Basin Points to Big Year in Area Called District 6 of WTCC

Pointing to the expenditure of \$75,000,000 this year for exploration and development of oil in the Permian Basin, this part of West Texas has never had better prospects for continued growth, according to findings of a Reporter-Telegram staff member in a survey of business of district No. 6 of the West Texas Chamber of Commerce, for the West Texas Today magazine.

District No. 6 comprises the counties of Gaines, Dawson, Borden, Winkler, Ector, Midland, Glasscock, Andrews, Martin, and Howard.

Being entirely a producing area, no part of the world has occupied a more enviable position within recent months than the area comprised by the counties of district six. Unhampered by problems which have confronted industrial and manufacturing centers, these counties have been benefited by comparative favorable conditions in production of oil, cattle, cotton, feed stuffs and sheep, being strong at this time in both financial and physical status.

Even in the counties where oil is not yet produced, such as Dawson, Midland, Borden and Martin, oil money has poured into the coffers of land owners and business men until it has become the major cause of prosperity in the area. The counties of Ector, Andrews, Gaines, Winkler, Glasscock and Howard, where proven fields have established them as important centers of the Permian Basin activity, new fields have been found during the year to spur the activity and further enrich additional land owners.

Revenues from supply houses, gasoline plants and especially the huge payrolls of oil companies, paid to both field men and those carrying on the tremendous office and administrative work, have added greatly to the financial condition of the area.

Deposits of banks located in those counties, according to conservative estimates, have increased within the past few months from twenty-five to forty per cent. The financial status is far above the average for the country.

Physical conditions likewise are strong, with the cattle, sheep and farming territories giving excellent season from the winter rains and

warm snows. In March, often a dry month, light rains fell over practically all the area, stimulating growth of weeds and early grass for the livestock and putting the farm lands in good shape for early plowing and planting. Cattle and sheep prices, although settled to a more conservative basis, have seen ranchmen eased up considerably from the stressing conditions of previous years.

Cotton production last season in Dawson, Howard, Martin, Gaines and Midland, and parts of others, set new ginning records and accounted for heavy business throughout the area. Cotton production in some counties more than doubled that of previous years.

Building activity was one of the major sources of revenue and employment during the year, with most towns setting new records in permits. The building program continues apparently without cessation for 1938.

Although no major cardinal highways have been completed in the area recently, certain definite arteries of travel are in process of final designation. Lateral roads have been built by several of the counties for convenience of those going to new oil fields.

Ranch improvements, under the government's AAA program, have been negligible in this territory, although recently some tank building, fencing and predatory animal work has been started. The reason for this, according to general belief, is that most ranchers in the area have been improving their places considerably for the past few years with funds from oil lease and royalty sales and from better times in the livestock industry.

Towns in the district have grown in some instances from small villages to large centers of population. In Gaines county, both Seagraves and Seminole have enjoyed building booms to make room for the growing population due to oil development. In Winkler county, the towns of Wink and Kermit have grown apace, effecting many improvements to eliminate early shack conditions and to make them substantial business centers. Odessa, because of its huge supply house See (PERMIAN BASIN) Page 2

Damage to Property Is Unestimated

Gales That Whipped Countryside Give Way to Spring Again

By The Associated Press.

Sunshine thawed out the Panhandle and south plains country today but livestock, crop and property damage from a two-day siege of snow, sleet, sub-freezing temperatures, dust and tornado winds won't be known for days.

Throughout the battered section the sun melted snow that had piled 20 feet high in spots and generally fair and warmer weather was the forecast, which reached 77 miles per hour was just a whisper at a four-mile clip today.

Early vegetables, fruit, sheared sheep and spring lambs were major casualties. Cattle loss has not been determined but the wheat belt, prized for its finest season in six years, was known to have received a stiff jolt.

Lubbock was the coldest spot of the night at 23 degrees, while Amarillo registered 24; Wichita Falls, 30; Abilene 30, with heavy frost; San Angelo, 40.

Clouds worth a million dollars hung over East Texas throughout most of the night, eliminating danger of a freeze. Heavy frost and freezing would have resulted, the weatherman said, if skies had cleared.

Temperatures along the coast stayed around 40 with no further danger to crops anticipated.

At Pampa funeral arrangements were made for eight persons who perished of asphyxiation by gas fumes from heaters in a snow-bound cottage. Protection against the frigid blasts—brightly burning fires—brought death as the victims slept.

Rail traffic, delayed as much as 24 hours, was thawing. Amarillo sources reported all Santa Fe and Fort Worth and Denver trains still faced snowdrifts. With a snow plow reported having trouble between Shamrock and Texola.

County agents in the Amarillo sector said the chief damage was to early wheat, with an estimated 30 per cent of the crop believed to be damaged or killed. Most late wheat weathered the storm and the early wheat, if not killed at the roots, had a chance to come back with May rains.

Much of the livestock was saved because ranchmen had taken precautions. Thousands of newly-born lambs, however, were lost.

Republic Steel Is Declared to Have Violated Rulings

WASHINGTON, April 9 (AP).—The Labor Relations Board decided today the Republic Steel corporation had violated the Wagner labor disputes act on eight counts before and during the bloody "little steel" strike last summer.

The board ordered the company to reinstate 5,000 strikers with pay starting from yesterday and to terminate the employe representation plan in five Ohio plants and to reinstate with back pay 27 employes discharged before the strike.

The decision covered only the Republic's Ohio plants. The Chicago plant, where the state sympathizers were killed in a Memorial day riot, was not involved.

Revival at Church Opens Here Today

Rev. James McKissick, President of Randolph Junior College at Cisco, today will open the pre-Easter revival at the First Christian church here.

Rev. McKissick is a former pastor of the church here and is known throughout the southwest for his work. For many years he has been recognized as one of the leading ministers among the Christian churches of the state.

Music during the week will be under the direction of the church choir, led by the director, Mrs. M. A. Park. Services each evening will start at eight o'clock.

The public is cordially invited to attend the services each evening this week.

Biggest Buying Day On Street in Months

NEW YORK, April 9 (AP).—In the biggest opening buying rush in months, stocks were taken from one to more than five dollars a share today. Many blocks of one to six thousand leading shares changed hands.

Brokers attributed the buying chiefly to the defeat of the reorganization bill in Washington.

HERE FROM ODESSA.

Mrs. M. Coleman and daughter of Odessa were visitors to Midland Saturday.

C of C Directors Will Meet Monday

Directors of the Midland chamber of commerce will meet in regular monthly session at the chamber of commerce office in Hotel Scharbauer Monday evening at 7:30 o'clock, Marion Flynn, president, announced Saturday. A report of the financial drive being made by the highway committee will be heard and other business matters attended to. A full attendance is urged.

VISITING HERE.

Mrs. R. D. Mills of Dallas is the houseguest of Mrs. D. H. Griffith.

HERE ON BUSINESS.

S. W. Oberg of Houston, chief of the civil engineering department of the Humble Oil and Refining Co., was a business visitor here Friday and Saturday.

Fighting Syphilis in the Open

Health organizations, including the Midland County Public Health Board, are working diligently at the campaign to stamp out syphilis by bringing the fight out in the open.

A bill, H. R. 9047, has been introduced in congress which is planned to stamp out this dread disease, as a protection to children and to humanity in general. The bill provides for cooperative work between the Public Health Service and state and local health bodies, just as has been done in general public health work, and also appropriates funds for research to find more effective measures for stamping out syphilis. Scientists have predicted that the campaign will be completed in not over thirteen years and that is the extent of appropriations under terms of the bill.

If you would do your part to help end a disease which vitally affects the public health, write a letter to your senator and your congressman, urging passage of the La-Follette-Bilwinkle bill.

This Is Right Down Texas' Alley

No effort should be spared by the people of Texas to secure one of the four agricultural research laboratories provided for in the new farm bill recently passed by congress, supported by \$4,000,000 per year.

A research laboratory is to be located somewhere in the south for research in cotton, presumably not only to improve the product but also to determine new uses for cotton. Texas is the largest cotton producing state and undoubtedly offers the best site for the laboratory. However, these things are not handed out on silver platters to those not asking for same. Citizens of every line of business should be interested in working for this project. "Write your congressman," as the advice usually goes. Whatever it takes, lend your effort to securing for Texas this research laboratory which may aid in creating demands for cotton, thereby affording a better market, year in and year out.

Your Dollar Will Help Crippled Children

Midland people are receiving envelopes containing 100 Easter seals for the aid of Crippled Children's work locally and in Texas, cooperating with work of the International Society of Crippled Children. The price for 100 seals is only \$1.00, which should be mailed to John P. Butler, treasurer.

Let us join hands in a movement which shall not stop until every little crippled child in this old Lone Star state shall have had its opportunity to run and play and enjoy God's beautiful world in which he lives. . . . Let us "KEEP ON KEEPING ON" until these unfortunates as adults can walk and work—that they may be useful—self-supporting—self-respecting citizens of the communities in which they may live.

Japanese poets must write on "War Correspondents at the Front" for the Empress Dowager's monthly poetry contest. Though charged by enemies with having lost their reason, the Japanese are not to lose their rhyme.

The Town Quack

A man told me yesterday that there is quite a bit of favor of the proposed barbecue at which all parties who led the recent school election battle would lay down their grudges and have a big time. Joyce Howell, manager of Hotel Scharbauer, offered to donate two beavers to the cause if both sides would go into it a hundred per cent. I believe the time and place ought to be set and the barbecue arranged. A few people might be there with their fingers crossed, but as long as they keep a smile on their faces, everything will be all right. If you are in favor of this stunt, just to get everybody in a good humor, hunt up some of the ring leaders of both sides and get them to plan the event.

John T. Flynn, writing in the last issue of Collier's weekly, makes some strong statements about the use of old age pension propaganda by office seekers. He may be right. It may be that the real needy should have more money and that a great many who are not needy are getting too much. An office seeker who stakes his campaign on his appeal to sympathy should be investigated to see if he has any other qualifications. And at this writing I do not refer to anyone specifically.

Air Conditioning Is Great Aid to Jobs, Says Babson in Urging America to Produce More, Not Fight Over What Now Exists

BY ROGER W. BABSON.
Copyright—1938—Publishers
Financial Bureau

SAVANNAH, Georgia, April 9. — Hatred between groups in this country is greater now than at any time since the Civil War. Scarcely a day passes that some group is not at another's throat. With 10,000,000 unemployed, it's time for Washington, business, labor, utilities, and investors to pull together. Consequently, I hope this article will be read by President Roosevelt, John L. Lewis, David Lillenthal of the T. V. A., and Wendell L. Wilkie of Commonwealth & Southern. At any rate, I am sending all these men marked copies.

What Not To Do.

(1) Fighting over what now exists instead of trying to produce more is our first big mistake. Only as more is produced is there more to divide. If we distributed the entire national production equally among all the people, omitting small children, it would amount to only about what \$500 can buy. Here is a simple problem for every reader. Total the annual wages of the bread-winners in your home. Then take the number of people in your family, less babies, and multiply this number by \$500. The difference between these two figures will show how much your family would gain or lose each year if the national income was equally distributed. You can see that we will never get far by fighting over what already exists.

(2) Trying to revive old industries is our second big mistake. I would like to see the railroads helped, the farmers helped, the coal miners helped, and other groups helped. "Helping" these groups by bolstering up wages and prices, however, will never put any more people back to work. The trouble with our government financing today is that we

are spending two dollars to save one dollar! Furthermore, we will never get out of debt by getting into more debt. Industries, like people, have a definite length of life. A study of history shows that prosperity has come about through the development of new industries, —never through trying to revive old, existing industries.

A Needed New Industry.

During the past three months, I have devoted a large amount of time to an impartial study of the various new industries on the horizon. I feel that air-conditioning offers the greatest opportunity. If the country would declare a moratorium on political back-biting and spend the same energy on whipping up enthusiasm over air-conditioning, five million people could be returned to jobs. Most of the proposed new industries would put out of work some people who are now engaged in existing occupations. This is not true of the air-conditioning industry. It could directly or indirectly give millions of people jobs and go a long way toward restoring employment to normal conditions.

I will admit that air-conditioning would throw some doctors, and perhaps druggists, out of jobs. I have in mind the fact that air-conditioning greatly improves the health and efficiency of workers in factories, stores, and homes. Remember that air-conditioning is much more than merely cooling your rooms. It means drying the air in summer, and moistening it in winter. There are only three things in life, viz: How we think, how we feel, and how we love. Certainly, air-conditioning can become a great factor in the first two of these and perhaps an influence in the third!

What About the Power Row?

We see much in the papers today

Permian Basin - - -

CONTINUED FROM PAGE ONE

business and oil field payrolls, has grown to more than 10,000 population, taxing its housing capacity at all times even with saws and hammers at work night and day. A new court house, school buildings, hotel addition and many new residences have been built. Midland, which had its heaviest building program in history in 1937, is far ahead of that record for this year, with a new \$65,000 gymnasium under way, an eight story office building to be contracted April 18 by the First National Bank, and hundreds of costly residences erected during the past few months. Andrews houses an ever growing oil population, Lamesa and Stanton have enjoyed strong business from large crops of the past season, calling for considerable construction and remodeling. Big Spring, with its oil business, refinery and railroad shop payrolls and its extensive agricultural revenue, has continued its steady growth, with building activity unabated. Garden City, in Glasscock county, is preparing for outside highway connections which will bring tourist business to this substantial cattle, sheep and oil country.

The 75,000 permanent citizens in district six are preparing for continuous growth of population and industry.

about the row in Congress over the T. V. A. I feel that the Administration has been unfair to the public utilities. They do not deserve the persecution which they have had. On the other hand, if all parties would stop scrapping and unitedly get behind air-conditioning, the whole problem would solve itself. Due to the demands for power from air-conditioning, there will be a shortage of generating capacity even after the new big government dams are in full operation. Some day, when air-conditioning is universally used, the utilities will thank President Roosevelt for his foresight in providing this additional electric power.

Next week I expect to spend in Washington. While there, I shall visit the White House offices, the Senate, and the House of Representatives; also the offices of some of your Congressmen. I expect to find all these offices air-conditioned. Yet less than one-tenth of one per cent of the office buildings, stores, and factories in this country are air-conditioned. Why should these political leaders deny the people something which they themselves consider indispensable? They should pass along this great improvement to others.

What About Relief?
The Roosevelt Administration has gone into debt twenty billion dollars in trying to beat depression. I do not object so much to the money involved. The great harm has been the undermining of character. I often wonder whether, if our Great Western country were unsettled day, our young men and women would have the guts to go out and build the railroads, hew the forests, start the farms, and do the other things which our grandparents did seventy-five years ago.

But let us not cry over spilt milk. Let us blame no one, not even the President, for anything that has been done up to date. From now on, however, let us devote our energies to developing new industries. If possible, let us select industries like air-conditioning which will not compete with existing industries. In this way, relief can steadily be cut down, self-respect will be restored and the country can enter a real period of prosperity and growth.

Easter Seal Fund Bottles Are Placed

"Easter Seal" milk bottles, in which contributions to the crippled

Controlled UNIFORMITY

Cosden Higher Octane Gasoline

Deriving all its crude from one oil field in West Texas... refining it under most careful, scientific regulation and inspection... loading it from Cosden's own loading dock at the refinery in Big Spring, the Cosden Petroleum Corporation absolutely controls the uniformity and quality of Cosden Higher Octane Gasoline, from the oil field to the filling station. Anywhere you buy Cosden Higher Octane Gasoline you can depend on the same, identical, quick-starting, anti-knock, 70-72 octane quality, straight-run gasoline. ALWAYS DEPENDABLE!

Games Party Is Entertainment for Pastime Club

Entertaining at the home of her mother, Mrs. Fred Lundie, 311 W. New York, Mrs. J. T. Weathered Jr. was hostess to the weekly meeting of the Pastime club with a games party Friday afternoon.

Bingo and rummy furnished amusement for the group with rummy prizes going to Miss Lahoma Brashear, Mrs. Lewis Sapp, Mrs. J. E. Miller, and bingo prizes to Mrs. May Young, Mrs. J. T. Weathered Sr., and Mrs. W. L. Coody.

Club guests were Mrs. Fred Lundie, Mrs. Lewis Sapp, and Miss Nell Sapp.

A party plate was served to the guests and the following club members: Mmes. Coody, Miller, J. T. Weathered Sr., C. C. Harris, J. Young, Miss Brashear, and the hostess.

The club will meet next Friday with Mrs. W. L. Coody at her home southwest of town.

Mrs. Williamson Is Hostess to Easter Bridge for Club

Joie de Vie club members and a quartet of guests were complimented with an Easter bridge party at the home of Mrs. Frank Williamson, 911 W. Tennessee, Friday afternoon.

Pink rosebuds were used in the party rooms where four tables were laid for the games.

Tallies emphasized the Easter note in bridge accompaniments and prizes were wrapped in Easter colors.

High score prize for club members went to Mrs. John Dublin, second high to Mrs. Russell Conkling, guest high to Mrs. Clarence Scharbauer, and cut to Mrs. J. R. Martin.

Playing guests were: Mmes. Bert Ross, Scharbauer, Frank Cowden, Ellis Cowden.

A party plate was served to guests and the following club members: Mmes. Fred Turner, J. M. Speed Sr., Foy Proctor, Dublin, F. Fuik, Martin, Chas. L. Klapproth, Wade Health, Geo. Glass, Preston Bridgewater, Conkling, Roy Parks, and the hostess.

Miss Edith Mays, E. B. Eidson Wed Saturday Night

Miss Edith Mays, daughter of Dr. and Mrs. Mary Mays and E. B. Eidson were married at the Llano hotel Saturday evening at 10 o'clock, in the presence of a group of friends.

Pink roses, carnations, potted hydrangeas, and calla lilies formed the floral motif for the apartment where the single ring ceremony was read by Rev. J. E. Pickering.

Mrs. Elizabeth Cole was the bride's only attendant.

Acc Doran was best man.

The bride chose for her wedding costume a pleated skirt, with blue lace blouse. She wore a corsage of tiny pink roses and her accessories were in British tan.

Following the ceremony, the wedding party attended the midnight show.

Attending the wedding were, besides the attendants; Mrs. Mary Mays, Mr. and Mrs. J. T. Deavenport, Mr. and Mrs. J. L. Rice, Miss Agnes Fitzsimmons, Mr. and Mrs. Earnest Hutchins, Mr. and Mrs. Grady Harris, Mrs. Chrystene Roten, Miss Margaret Walls, Miss Mary Phelps, Mr. and Mrs. Joe DeMars, Leonard Clements, Mrs. Florence Cole, Miss Mary Elizabeth Newsom, Don Crowder, John Pasnack, Jack Drake, Dreure Crowe, Miss Jewel Bruce.

Today Mr. and Mrs. Eidson will leave for Lubbock and Olney on a two weeks honeymoon trip. On their return they will be at home at the Llano hotel.

The bride has lived in Midland about a year.

Mr. Eidson has lived here three years. He is associated with the Llano barber shop.

Children Take Part On Program for Story Hour

Toya Chapple, small daughter of Dr. and Mrs. Jas. H. Chapple, sang two songs in Spanish and presented a reading as special numbers at the Story Hour in the children's library Saturday morning, Joan Manry also gave a reading, riddles were told by Billy Pate and other children, and Bobby Stubbeman sang a song.

Stories told by Mrs. W. Bryant included "The Keeping of the Bridge" by Arthur Guy Terry; "Alexander the Great and His Horse" by Arthur Guy Terry; "At Mulberry Farm" by Julia Darrow Cowles; "Cupid and Psyche" by Carolyn S. Bailey; "Stop Look Listen" by Berta and Elmer Hader (continued).

Children present were: Valda Dee Pigg, Billie Ludean Pigg, Betty Jean Wilson, Bobby Stubbeman, Patsy Ann Charlton, Don Wigham, Billy Pate, Jo Ann Manry, Billie McKee, Kenneth Overton, Garland Overton, Harlan Overton, Troy Gene Aple, Jimmie Lott, Toya Chapple.

Stitch and Chatter Club Elects Officers

Officers for the Stitch and Chatter club were elected at a meeting of the group at the home of Mrs. Paul Hedges, 406 E. Tennessee, Friday afternoon.

Mrs. Charles Ward was elected president; Mrs. L. M. Hedges vice president; Mrs. V. L. Fezell, secretary-treasurer; Mrs. P. D. Reven reporter.

During the afternoon 22 blocks were quilted on a Star quilt.

Two new members entered the club.

Refreshments were served to eleven members including: Mmes. R. F. Hedges, Jim Gozas, Frank Goode, J. C. Bryant, V. L. Fezell, Walter Rhodes, Jewel Hedges, L. G. Boyett, L. M. Hedges, F. D. Reven, and the hostess.

The club will meet Friday of this week with Mrs. V. L. Fezell, 1400 N. Marienfeld, at 2:30 o'clock.

Mrs. Hudkins Is Hostess to Party For Club, Guests

Mrs. S. H. Hudkins was hostess to the Centennial club and a group of guests with an afternoon bridge at her home, 1200 W. Indiana Saturday, appointments for the party carrying out the motif of the Easter season.

Sweetpeas and daisies were chosen for decoration of the entertaining rooms.

Tallies for the two tables of bridge played were in Easter theme as were the prizes which proved to be Easter eggs moulded from soap. They were awarded to Mrs. J. H. Rhoden for high score among club members, to Mrs. R. C. Crabb for high score among guests, and to Mrs. H. D. Dickson for cut.

An Easter party plate was served at tea time to: Guests, Mmes. Roy Downey, Rea Sindorf, H. A. Hemphill, Dickson, Crabb; club members, Mmes. W. M. Schrock, E. C. Hitchcock, Rhoden, and the hostess.

Easter Theme Is Chosen for Party For Escondida Club

Tallies and prize wrappings carrying out an Easter motif marked the afternoon bridge with which Mrs. D. H. Griffith entertained the Escondida club at her home, 701 N. Marienfeld, Friday.

Mrs. Butler Hurley was awarded the prize for high score in the afternoon's game with traveling prize going to Mrs. Harry Adams.

Mrs. R. D. Mills of Dallas, house guest of the hostess, was presented with a guest gift.

An Easter party plate was served to Mrs. Mills and the following club members: Mmes. Adams, E. C. Hitchcock, Hurley, W. L. Miller, J. R. Norris, S. S. Stinson, O. L. Wood, and the hostess.

M. S. Doss of Seminole was a business visitor here Saturday.

City-County Federation Group Discusses Business

Decision was made to put milk bottles in drugstores and on cigar counters for contributions in connection with the Easter seal sale this week, proceeds to go to funds for aiding crippled children at the meeting of the City-County Federation at the courthouse Friday morning.

Contributions of buttons and buckles were received for the "button campaign" and will be presented to the welfare agency.

Plans were discussed but no decision made on the luncheon for the year's last meeting in May.

Mrs. Wallace Irwin made the treasurer's report.

Present were: Mmes. F. H. Schouten, E. H. Ellison, Irwin, M. R. Hill, I. E. Daniel, Allan Hargrave, F. R. Schenck, F. C. Cummings.

Mrs. Phillips Is Hostess to Bridge For Thursday Club

Choosing anemones and daisies as party flowers and tallies in flower design, Mrs. H. Johnson Phillips was hostess to the Thursday club with a bridge party at her home Friday afternoon.

First prize in the three tables of bridge which occupied the group went to Mrs. H. A. Homphill and second to Mrs. Adlice Abell.

A salad course was served to: Mmes. Abell, Overton Black, Harvey Conger, John Cornwall, O. C. Harper, Hemphill, W. M. Holmes, J. W. Jordan, Robert Muldrow, Paul S. Osborne, R. W. Patteson, W. A. Yeager, and the hostess.

Women Golfers Postpone Trip

Due to inclement weather members of the Women's Golf Association postponed their scheduled trip

Date of Minuet Dance Changed

Minuet club dance will be held in the Crystal ballroom of Hotel Scharbauer, Friday night, April 29, instead of on Saturday night, April 30, according to regular schedule, Mrs. Jas. FitzGerald, club president, has announced.

The April meeting will be the supper dance.

Attention of club members is called to the change in dates.

Theatre Employes Entertained by J. R. Gregorys

Employes of the Yucca, Ritz, and Rex theatres were entertained with a party at the home of Mr. and Mrs. J. R. Gregory, 803 S. Weatherford, Friday night.

Different types of the game "sticks" were the main diversion of the evening. Those making highest score and winning prizes were Mrs. Archie Estes, Milton Kidwell and Charles Oliver.

The Easter motif was carried out in appointments for the three tables of "sticks" and in the salad course.

At the conclusion of play a party plate was served to Mr. and Mrs. Chas. Oliver, Mr. and Mrs. Archie Estes, J. Howard Hodge, Milton Kidwell, Haskell Wadkins, Jack Moore, Allen Dorsey, Dewey Anderson, Edwin Ammerman, Lloyd McLeod, Mrs. Leona Armstrong, Miss Eura Sneed, Vivian Arnett, Gertrude Brown, Kitty Gene Ellis, Tomnye Hewett, Melba Sherwood, Ruby Gregory and the host and hostess.

a sign from heaven, tempting him.

- "Sighed deeply . . . There shall no sign be given unto this generation."
- Healing the blind man of Bethsaida: "As trees walking . . . every man clearly."

II. At Caesarea Philippi:

- "The most conspicuous milestone in the biography of Jesus."—Peake.
- "The most critical episode in the life of our Lord; apex of his ministry."
- Our estimate of life: Worldly-minded or world-minded; spare or sharp.
- Attitudes: Teacher, Son of Man, Prophet, The Christ, the Son of God.

III. Peter's Bold Confession:

- "Who do men say that I am? But who say ye that I am?" The verdict of men.
- "Thou art the Christ, the Son of the Living God." Who is Jesus?
- "Blessed art thou; for flesh and blood hath not revealed it unto thee."
- "Upon this rock I will build my church . . . gates of Hades . . . keys of kingdom."

IV. The Shadow of the Cross:

- "He began to teach them . . . Son of Man must suffer many things."
- "He spake the saying openly . . . be it far from thee . . . Get thee behind me, Satan."
- "Thou art a stumbling block unto me," . . . "mindest not the things of God."
- The gospel of a Person vs. a teaching, a philosophy, a morality.

V. Jesus' Philosophy of Life:

- Unapproached and unapproached in literature. Terms of discipleship.
- "Whosoever will save his life shall lose it." "Lose it my sake, shall save it."
- The paradox of discipleship: The lost life in the larger life.
- "What doth it profit a man?" "Ashamed of me and my words."

VI. Sentence Sermons:

- "The scene at Caesarea Philippi is chronologically and theologically the most conspicuous milestone in the biography of Jesus."—Peake.
- "The Christian gospel is not a teaching merely, or a philosophy merely, or a morality merely; it is the gospel of a Person."—Henry Van Dyke.
- "The Christian gospel centers not simply in what Jesus said, but in what he was and did."—J. D. Jones.
- "Every tongue should confess that Jesus Christ is Lord, to the glory of God the Father."—Paul Phil 2:11.

Midland county museum in the courthouse will be open Tuesday afternoon from 2:30 until 5 o'clock. The public is invited.

Beta Sigma Phi sorority will meet with Mrs. R. Steele Johnston at her home in Odessa Tuesday evening.

Plans Progress for Polo Series With NMMI Team April 24-25; Childers Just Back From Winter Tournaments at San Antonio

Prospects for Midland's team and horses to be pitted against the fast collegiate polo four of New Mexico Military Institute here April 24 and 25 appeared brighter Saturday. Cecil Childers, high goal player who has been in several games and tournaments at San Antonio during the winter, will be here to join Jay Floyd and Rip Smith, with Sheriff Gus White of Lamesa making the fourth.

Clarence Scharbauer Saturday advised Rip Smith, horse trainer and grounds keeper at Midland Fair, that his remuda is at Smith's disposal to mount the hard riding player who formerly was with Wichita Falls. Scharbauer has numerous polo prospects which, with two weeks schooling should give good accounts of themselves.

Jay Floyd, although selling his best trained ponies a few weeks ago, is at work schooling several young horses and will be able to put up a good game in spite of lack of practice on his own part.

Childers is well mounted at present, his horses having made good showings in the San Antonio tournaments. He will ship out immediately after the games here for Kansas City where he will coach a country club polo team this summer.

Gus White, playing regularly with the Lamesa team which is in the West Texas Polo Association series, will be ready for action both from the standpoint of practice and of being well mounted.

However, Captain Floyd said, the Institute team will be the hardest aggregation to be found in this section at present. They have been playing strong polo all season, getting into the finals of the Southwestern Open Tournament at El Paso, recently beating the fast University of Arizona team and being matched today and Monday against the team from the University of Southern California at Roswell. Probably one of the best coached teams in the nation, the collegiates play as a unit, not depending on spasmodic work of individual stars, always creating tough opposition.

Much interest is centered here in the NMMI team, due to the fact that Franklin Cowden, son of Mr. and Mrs. J. Frank Cowden here, plays the number four or safety position. The Cowden family went to Roswell today to see the series with the Californians. The Institute boys have a string of good horses but will not bring the best with them, after suffering a heavy loss from a truck accident last fall. However, Frank Cowden is getting two or three of his top horses in shape, bringing them in from the ranch for young Cowden to use in the games.

Coach Norton of the Institute will be asked to referee the games here, being recognized as one of the foremost polo authorities in the nation and being fair to opposing players as well as his own team, Floyd said.

Marion Flynt, president of the

Brigitte club will meet with Mrs. D. Richardson, 607 North D. Tuesday afternoon at 2:30 o'clock.

Enigma club will meet with Mrs. Geo. Glass, 911 W. Texas, Tuesday afternoon at 2:30 o'clock.

Gamma Phi Beta club will meet with Mrs. A. H. Frazier, 1301 W. College, Tuesday afternoon at 2 o'clock.

WEDNESDAY.
Slam club will meet with Mrs. Dobson at her home at the Atlantic Bank Farm Wednesday afternoon at 2 o'clock.

Woman's Wednesday club will meet with Mrs. M. R. Hill, 420 W. Missouri, Wednesday afternoon at 3 o'clock.

Stitch and Chatter club will meet with Mrs. V. L. Feazel, 1400 N. Marienfeld, Friday afternoon at 2:30 o'clock.

Plans Completed for Easter Egg Hunt by Children This Year

Committees have been appointed and plans are being perfected for the annual Easter Egg hunt for the children of Midland and vicinity here on Easter Sunday afternoon, April 17, present plans calling for the largest and most successful hunt ever staged here, according to Ed M. Whitaker, president of the Midland Lions Club, which organization is again this year sponsoring the hunt as it has done for the past several years.

The vacant property at the end of West Texas street, and immediately east of Highway No. 159 will be the scene of this year's hunt, according to members of the grounds committee which is composed of Bill Collins, chairman, Frank Stubbeman and J. Howard Hodge. Last year's hunt was staged at the same location. The grounds will be divided into three sections for children of different ages.

Boy Scouts to Assist.
Members of the two Midland boy scout troops will assist in hiding the eggs, according to Claude O. Crane, Scout commissioner, who had conferred with Scoutmasters Buster Howard and Alvon Patterson regarding the matter.

Eggs for the annual affair are being secured by a committee composed of Ellis Conner, chairman, and George Philippus.

Lester Short, chairman, Claude O. Crane, Thomas Inman, P. A. Nelson, T. Duke Kimbrough and Coach Bud Taylor comprise the hiding committee. The eggs will be hidden Easter Sunday morning, the hunt being scheduled to get underway about 1:30 that afternoon.

Read the Classifieds.
Midland Polo Club, said an active sale of tickets will be conducted prior to the two games. The field at the fair grounds will be put in top condition prior to the series.

Is your kitchen

CLOSED

TO GUESTS?

Today, the kitchen is as important as any other room in the home. Perhaps no other room has so much to do with creating a favorable impression of the house. And guests have a way, these days, of making themselves at home in the kitchen. No kitchen is safe from sudden social invasions at any hour of day or night. Are you proud of your kitchen? Is it a room that you thrill to show to guests? If not, start today to modernize it. There never

was a better time; it has never been so easy. One thing at a time is the sensible way to make these changes. And the natural beginning is to replace the old stove with a modern Magic Chef. No other home improvement will give you so much pleasure. Magic Chef gas ranges have all the advanced features that simplify cooking and baking tasks. You'll be astonished at the way this one change will cheer up the whole room. Many sizes, styles, prices to choose from.

When you buy an "8" to save money **IT'S NEWS!**

The Standard Tudor

FOR YEARS, only the biggest, most costly cars had 8-cylinder engines. When the Ford V-8 engine was first introduced, people welcomed the finer performance that 8 cylinders provided, but kept their fingers crossed on economy. It somehow seemed as if 8 cylinders had to use more gasoline. But the news spread that Ford V-8 cars were giving just as good gas mileage as cars that did not offer 8-cylinder advantages. Good design, not number of cylinders, determined economy. By last year, four million people had stepped up to the 85-horsepower

V-8 class. Then the slightly smaller 60-horsepower Ford V-8 engine was introduced. Reports soon rolled in from owners averaging 22 to 27 miles on a gallon of gasoline. More than any Ford car had ever given! A new standard of economy—a low price—and the smoothness of 8 cylinders! That was NEWS! America bought 300,000 Ford V-8 "60s" the first year and is still buying. If you'd like to know why—if you'd like to save money all ways—see and drive the 1938 version of this thrifty, modern car.

THE "Thrifty Sixty" FORD V-8

Lovely, Lovely, Lovely Laurent

In the spring all ambitious young movie actresses climb into their bathing suits, and this lovely damsel certainly won't hamper her film career by so doing. She's Jacqueline Laurent, and Paris was justifiably sad when she left those parts for Hollywood. Miss Laurent has just completed a role in M-G-M's "Judge Hardy's Children."

NO SERVICES

There will be no services at the Holiness Tabernacle today as the pastor, Rev. O. W. Roberts, is to visit his sick mother in Abilene today where he will be this morning and tonight.

GRAND OPENING SALE

With this great sale of seasonal home drugs, toiletries and sundries, the Midland Drug Company announces the opening of its remodelled and enlarged store. New fixtures . . . new indirect lighting . . . new floor covering . . . new soda tables and booths—but, our policy of nationally advertised brands at rock-bottom prices has not changed one bit. It was that policy which won your confidence and patronage and made possible this greater store. What better way could we have to show our appreciation than to offer you these extra savings over and above our regular, everyday low prices. Come in and help us SALE-abrate.

Oil News-

CONTINUED FROM PAGE ONE

paratory to coring ahead from 5-444 feet, where it has been bottomed for the past two weeks while changing back to rotary. The well is in Simpson lime and shale, middle Ordovician age, which it topped high at 4,775 feet. Location is in section 24, block 9, H. & G. N. survey.

In the Pecos River area of the Pecos Valley pool, Sayre Oil Company No. 1 Potts encountered an estimated 12 to 15 million cubic feet of gas daily in sand at 1,758 feet. Efforts to kill gas flow proved unsuccessful, and the well is being allowed to blow in hopes gas will exhaust. Operators then will deepen.

Humble No. 1 Lewis & Wardlaw, western Tom Green Ordovician test, cored from 7,356-58, recovering two feet of chert and lime. It is now drilling ahead at 7,366 feet in chert and lime.

In the Jordan pool of northern Crane, Atlantic No. 2-A Utex flowed 887.47 barrels in five hours and 45 minutes to rate 24-hour poten-

tial of 3,620.74 barrels. Production was natural and came from pay between 3,350 and 3,555, total depth. In the Crane-Cowden pool, Best Fields No. 15 Anna Gibbs pumped 784.45 barrels a day after treatment with 4,000 gallons at 2,288.

In southwestern Howard, Texas No. 1 H. H. Wilkinson is drilling at 2,320 feet in sandy red shale and anhydrite.

Drillstem Test Shows Mud. Ten-minute drillstem test from 4,430 to 4,608 in Conoco No. 1-G-12 State, Lea county, N. M., wildcat between the Vacuum and Monument pools, showed 70 feet of drilling mud, no oil, gas or water. Operators are preparing to drill ahead. The test is in section 12-18-35e.

Three miles to the west, Conoco No. 1-I-16 State is drilling below 2,390 feet in anhydrite. It is in section 16-18-35e.

Shell No. 1-A State (33-18-36e), five miles northwest of the Monument pool, is drilling at 5,168 in lime, with no shows reported.

Four miles northwest of the Vacuum pool, Repollo 1-197 State is drilling at 3,235 in anhydrite. Location is the southeast corner of section 6-17-34e.

Magnolia No. 1-J State, extending the Vacuum pool's north end three-quarters of a mile farther west, is flowing at the rate of 16 barrels an hour through open 2 1/2-inch tubing. It has been acidized with 4,000 and 7,000 gallons.

Over one-half mile southeast of the extension producer, Amerada No. 1-VA State flowed 62 barrels of oil naturally in four hours through 3/4-inch choke on 2 1/2-inch tubing and is shut in for storage. Amerada No. 1-A VB State is drilling at 4,088 feet in hard gray lime.

Also in the Vacuum pool, Phillips No. 2 Santa Fe is swabbing at the rate of 15 barrels an hour through tubing. Casing pressure is 250 pounds, and total depth is 4,685 in lime. The well has not been acidized.

Ted Weiner et al No. 1 C. M. Parcell, southeast Lea wildcat in section 5-23-38e, is running 13-inch pipe at 590 feet in red rock. In Otero County, N. M., Fred Turner, Jr. No. 1 Ella V. Everett is drilling lime at 2,700 feet.

The daddy longlegs insect has its eyes in the middle of its back.

**Rotarians Go to
Odessa Charter
Night Ceremonies**

Twelve representatives of Midland Rotary Club attended the meeting of the Odessa club Friday evening when the official charter from Rotary International was granted the new organization. District Governor J. Edd McLaughlin of Balldis delivered the charter in person. Elmo Wasson of Big Spring, who was special representative of Rotary International in organizing the Odessa club, presided until the charter was delivered, then turning the gavel over to Joe Pylon, president.

W. I. Pratt of Midland made a brief talk and presented Rotary badges to the new club members. Those from Midland attending were

**Syphilis Film to
Be Shown to Public**

Under the auspices of the state department of public health, a film will be shown in Midland Thursday, April 14, dealing with the subject of venereal disease. The film is a presentation of the syphilis problem designed primarily to explain to the laity the importance of early case finding, correct diagnosis, and adequate treatment.

The film will be shown at 10 a. m. and at 5 p. m. in the district court room of the court house. Admission is free and the public is urged to attend.

\$25.00 REWARD

Will be paid by the manufacturer for any Corn, GREAT CHRISTOPHER, Corn Remedy cannot remove. Also removes Warts and Callouses. 35¢ at Central Pharmacy (Adv.)

Mr. and Mrs. Fred Wemple, Mr. and Mrs. W. C. Maxwell, Mr. and Mrs. E. A. Crites (Crane), Percy J. Mims, W. I. Pratt, Clinton Lackey, Fred Middleton, Luther Tidwell, and Roy McKee. Mr. Crites is a member of the Midland club.

**Rifle Work Being
Studied by Scouts**

Rifle work, under the National

Rifle Association rules, has been adopted as a boy scout project in Midland, according to Guy W. Brenneman, Midland district chairman, who said that rifle practice is being held each week at the rifle range in west Midland. The practices are held under the supervision of scoutmasters Buster Howard and Alvon Patterson.

Midland scouts who have qualified for the Pro-Marksmen award, first of a series of awards offered by the

National Rifle Association, are Billy Preskitt, Clayton Upham, Maurice Bratton, Carrol Smith, Lloyd Fickett and James Pickett.

The pioneers did not invent the sod house. Indians built sod houses before the appearance of the white man.

A fresh leaf beneath a glass cover on packages is the method used by one European manufacturer to "date" food products. State food is shown when a shriveled leaf appears beneath the glass.

Sing a Song of Sixpence

Cast of Characters

ACT I

The King..... Yvonne
Pages and courtiers:

At left..... Marie, Annette
At right..... Emilie, Cecile
Action takes place in the throne room, but it's a very democratic country, this Mother Goose Quintuplet land, for the four official dish-setters-before-the-king all look as though they'd get a piece of that pie... or else.

ACT II

The King..... Yvonne
And how do you like the pert way the king wears that crown!
Also note the inscrutable smile of the ermine-wearing monarch, counting the take after the tax collectors have been on the job.

ACT III

The Queen..... Marie
It's a question, of course, which is the nicest work if you can get it—kinging or queening. Marie, though, is apparently one of the queens of the old school. She knows what she wants and goes and gets it, royal robes or no royal robes.

ACT IV

The Maid..... Emilie
The denouement of this drama marks it as stark tragedy of the social revolution. The moral is that for royalty, there's nothing but singing pies, money, and honey; for the lower classes—all work and what do you get for it? Your nose snapped off.

HOLC Is Largest U. S. Home Owner

WASHINGTON, D. C. —Although the Home Owners' Loan Corporation has become the largest home owner in the country, its ratio of residential properties owned to mortgage loans made is less than that of private lending institutions. The number of properties it has acquired is less than one third of the average of private lenders.

This was revealed by a survey of 82 cities, exclusive of New York and Boston, representing 27 per cent of the nation's urban population, just completed by the Corporation, General Manager Charles A. Jones stated today.

The ratio of acquired one-to-four family homes to mortgage loans held by private lending institutions is 24.2 per cent—that of HOLC is 7.5 per cent, Jones stated.

"The figures are even more striking when it is realized that private institutions made only supposedly good loans, while HOLC was restricted by law to home owners unable to get credit elsewhere," said Jones.

Lending institutions in the 82 cities surveyed held 853,985 residential mortgages, totaling \$2,573,152,000 on Dec. 31, 1936, the last date for which complete figures are available. They owned 170,017 residential properties, valued at \$769,312,000. During 1935 and 1936, they sold 42,720 acquired properties for \$165,337,900.

On Jan. 31, 1933, the HOLC held 941,538 mortgages, totaling \$2,755,049,074. It owned 70,101 properties, with a capital value of \$356,291,233, and had sold 6,582 acquired properties valued at \$24,623,233.

"To get a more exact comparison, it was necessary to exclude the mortgages made by private concerns during the last two years, since, obviously, there has not been time for any considerable number to go to foreclosure," said Jones.

"It is proper to point out that undoubtedly many of these private lending institutions have improved their real estate since Dec. 31, 1936, the last date covered by our survey," stated Jones. "However 1937 was the year of the greatest number of property acquisitions the HOLC will have, due to the backlog of delinquencies accumulated during the three-year lending period. While a comparison of the lending institutions' property acquisitions as of the end of 1936 with those of HOLC on January 31, 1938, is, therefore, not necessarily a true one, it presents a fairly accurate picture.

"The Corporation's comparatively

small percentage of acquired properties is largely due to its ability to cooperate with borrowers through a highly trained loan service personnel," said Jones. "The average HOLC borrower was delinquent over two years in principal, interest, and taxes when his home was refinanced by the Corporation, yet he has clung to his home with tenacity and courage. It is heartening that hundreds of thousands of persons who were threatened with loss of their homes today are acquiring greater equities in them every month."

A cubic inch of water makes approximately one cubic foot of steam.

Manufacture of Glass Is Boosted in Texas

AUSTIN.—The manufacture of glass has received recently increasing public attention in Texas. Dr. E. H. Sellards, director of the University of Texas Bureau of Economic Geology, pointed out in announcing the publication of a bulletin, "Glass Sands in Leon County, Texas," by H. B. Stenzel, geologist in the bureau.

"This attention is based on the realization that fuel in the form of natural gas is abundantly and cheaply available," Dr. Sellards continued. "Raw materials, glass sands, are also present in large quantities.

In the Coastal Plain, glass sands are found in the Simsboro, Carrizo, Queen City, and Sparta formations. These formations are composed chiefly of loose to friable lignitic sands.

"In Leon county, outcrops of the Carrizo, Queen City, and Sparta sands are extensive. These formations furnish glass sands in two ways: In the original sand formation, and in the sand soil produced by weathering from the original sand beds.

"If the original sand beds are used as raw materials considerable overburden would have to be removed. This overburden consists of soil and subsoil in which iron is generally concentrated by weathering. If the sand soils are used as

Quints Reveal Talent in Play-Acting

By NEA Service.

A new kind of fun has been introduced into the Dionne quintuplets' nursery!

It is pantomime productions of Mother Goose rhymes and stories, played by the quintts themselves, in costumes and everything, just like a real theatre.

There's no better way to enter into the spirit of those rollicking rhymes than to act them out, the quintts' educational mentors believe, and the quintts themselves thoroughly agree.

You might think it difficult for a going-on-four little girl to impersonate Jolly Old King Cole, but it isn't at all, if you have natural pantomimic ability.

All five of the little girls have shown remarkable ability at pantomime, and have entered into the spirit of the game with bubbling glee. Let a box be brought out with costumes in it, and there is an instant rush to dig down and see what is there, followed by frantic efforts to put on the costumes, sometimes with grotesque results.

One of the little Mother Goose "playlets" required only four girls to act it out. There was no costume for Marie, who could scarcely believe that she was left out.

She rushed to the box from which the costumes had come, and made a hasty search. There was no fifth costume for her.

She came back in the room where the "rehearsal" was going on and watched quietly for a few minutes. Then she turned and began to gaze out of one of the nursery windows. She seemed so quiet that one of the nurses went over to her, and found that she was crying bitterly at the thought of being left out of a "performance" that included the other four. A costume was quickly found for Marie, and tears dried quickly and turned to happy laughter.

The quintts cooperate beautifully in "staging" the rhymes, without a sign of jealousy as to who wears which costume.

Periodical medical examinations have also inspired a bit of "acting" on the part of the children, and Marie especially is a sight when she bends down solemnly to place her ear close to her recumbent doll and listen to her "heart action" and "breathing."

The natural talent for mimicry which all children have to some extent is especially strong in the quintts, and it has proved most natural for them to "dramatize" their nursery rhymes.

raw material, very little or no overburden would have to be removed.

"The thickness of the deposits is undetermined. The original sand beds may in some cases reach 40 feet in thickness, depending on the locality. The sand soils reach a thickness of over eight feet. How much thicker than eight feet the soils are has not been determined. It is advisable that auger holes be made in favorable places.

"The horizontal extent of the glass sands is considerable. Deep sand soils, at least six feet deep, were encountered over areas of more than 1,000 acres. Several such areas are located in Leon county.

"In locating a glass sand deposit in Leon county, the Carrizo, Queen City, and Sparta sands should be investigated along the lines of communication—that is, principally along the railroads. All railroads in Leon county cross some of these formations. Preliminary samples should be obtained in a competent manner at likely locations. Test

VIRGINIA ANN HILLIARD WINS CONTEST

The winners of the Ready Writers contest were announced in chapel Thursday morning, April 7, by Miss Ella Landy, the director of the contest.

The three winners were: First, Virginia Ann Hilliard; second, Kenneth Williams; third, Bob Preston. Virginia Ann will represent the school in the district meet.

The eliminations were held Tuesday afternoon at 3:15 o'clock for seven contestants. The theme was not to exceed one thousand words, and no research reading was required as the subjects of the themes were on everyday experiences or personal experiences. The themes were graded on style, content, and originality.

H. E. YEAR BOOKS NEAR COMPLETION

The home economics club members who have been working on the year books of the club stated that they were near completion. The girls, with the assistance of the home economics teachers, are using the hectograph machine which is borrowed from the North Ward. The year books consist of the roll, social calendar, a Girl's Creed, 17 programs for the year, and a list of officers.

COLORADO HOMEMAKERS HOSTESS TO DISTRICT

One hundred representatives from 12 towns attended the district meeting of the Future Homemakers which was held in Colorado, Saturday, April 2.

The program started at 9:30 o'clock Saturday morning in the auditorium of the senior high school building. Beulah Robinson, president of the Colorado Homemakers' club, presided in the absence of the

district president, Fannie Faye Portner.

The following program was presented:

- Greetings—Beulah Robinson.
- Singing—Group.
- Welcome—Robert Coffman.
- Greetings from Colorado P. F. A.—Ross Glover.
- Music—Girls' trio.
- Seven Lamps of Homemaking—Club girls.
- Trombone solo—J. I. Williamson.
- Address to Club—Miss Vera Crippen.

After announcements the meeting adjourned until one o'clock for the purpose of purchasing lunch at drug stores, cafes, restaurants, and hamburger stands.

After the noon hour, Virginia Gurney, a senior at Colorado, gave a French welcome to the club which consisted of chocolate kisses being strewn through the audience. The Colorado club girls then presented a short play, "Why Tell the Truth."

The kitchen band, consisting of a skillet, egg beater, tea kettle, spoon, fly swatter, and a double boiler, played two popular pieces: "Ebbtide" and "Gold Mine in the Sky."

During the business session, the club elected officers for the next year. Beulah Robinson, of Colorado, was elected president, and Iris Muns, of Sweetwater, was elected vice president. For secretary-treasurer, Mary Knapp, of Sweetwater, was selected.

The club accepted Rotan's invitation for the club to meet in Rotan next spring.

A tea hour concluded the meet. Iced tea, cookies, and sandwiches were served by some of the Colorado club girls in a candlelit room. A sprig of bridal wreath adorned the plate.

The members of the Midland chapter who attended were: Miss Vada Crawley and Miss Jean Logan, home economics teachers, and Louise McClain, Marjorie Harwell, Dorothy Young, Maurine McGuire, Berdean Rains, Louise Elkin, Frances Burris, Janelle McMullan, Nita Stovall, Betty Jo Doherty, Jo Ann Dozier, Sybil Richman, Delphya Wood, and Maudine Chandler.

SYMPHONY ORCHESTRA

Wednesday, April 6, 1938, the S.

Louis Symphony Orchestra played in the municipal auditorium in San Angelo, Texas. The West Texas Concert association sponsored the program.

The orchestra, which is an eighty-five piece one, with Valdimir Galtschman conducting, played six pieces, and four encores.

The following people from Midland went: Miss Hestand, Miss Pinson, Miss Smith, Mrs. De Lo Douglas, Mr. Armstrong, Mr. Vann Mitchell, Mr. W. W. Lackey, Mr. and Mrs. Holt Jowell, Mrs. Alma Thomas, and Mrs. Hugh Barnes. Each one said they enjoyed the playing immensely, but the trip down there and back was very bad, because of the sand and snow.

TYPING TEAM IS CHOSEN

Francis Burris, Janelle McMullan, and Lillian Arnett were chosen last week by Miss Mary Waters, typing teacher, to represent Midland in typing in the district meet.

Students trying out for the team were given three 15 minute tests and the scores for these tests were averaged.

These girls, who are all seniors, have been practicing for a good while now, and have greatly increased their speed and accuracy.

RELAY TEAM GOES TO AUSTIN

The relay team of Midland high school accompanied by Coach L. W. Taylor and Coach R. W. Myer left early last Friday morning, April 1, to attend a state relay meet held at Austin on Saturday.

The students who represented Midland were: Lynn Stephens, mile relay, medal relay; Howard Ford, mile relay, medal relay; Harold Barnes, medal relay, mile relay, high jump; and Tommy Wilson, mile relay.

Harold Barnes won third place in high jump.

Pat McMullan, Woodrow Adams, Marion Taylor, Goodrich Hejl and Truman Whittaker, from the high school, and Terrell Miles and Bill Willis, ex-students, also attended the meet.

The group returned to Midland Sunday evening.

LATIN STUDENTS SUCCESSFUL

Two representatives from each year of Latin, Miss Ina Mae Vaughn, instructor, Prin. D. D. Shiflett, Mr. and Mrs. R. C. Fagg, and Mrs. Lillie Koon, went to Mineral Wells, Friday, April 1, where the students entered the Latin contest on Saturday.

Those students who went were: Jane Doran, Virginia Ann Hilliard, fourth year Latin; Catherine Jane Tanner, Billy Noble, third year; Nell Ruth Bedford, James Frank Johnson, second year; Roger Sidwell, Elbert Leggett, first year.

The places won by these students were: first year essay by Virginia Ford, second place; third year essay by Julianan Cowden, first place; fourth year essay by Virginia Ann Hilliard, first place.

The third year team won first and the fourth year team won first place. As individuals, Billy Noble won first, Catherine Jane Tanner won second in third year Latin; and Virginia Ann Hilliard won first and Jane Doran second in fourth year Latin.

JUDGES OF CHORAL CONTEST EXPRESS THEMSELVES

The judges of the choral contest held in Abilene, Saturday, April 2, were Mr. Pierce, Mr. Gontzoff, and a lady from San Antonio.

Mr. Pierce is head of the music department at Trinity University, Waxahachie, Texas. He said the choral singing was splendid, that he tried to be fair in judging all of them. He also admitted that he judged the blending of voices. Outstanding voices should not be permitted in chorus work.

Mr. Gontzoff, the main judge, was from the Imperial Opera company of Moscow, Russia, but at the present he is in Dallas.

Mr. Gontzoff said he was agreeably surprised at the singing, but he did not like "crooning." "The students in America are far more advanced in music than they are in Russia. I am very shocked and pleased," he stated.

The other judge was a lady from San Antonio, but as she left during the contest, her name could not be obtained.

The judges were fair in their grading and they had no favorites.

PICTURES TAKEN TUESDAY

Tuesday, April 4, the students of Midland high school who are trying out for the typing and shorthand teams had their pictures taken.

Marcella Strawn, snapshot editor of the "Catoico," took the pictures of Lillian Arnett, Frances Burris, Ed Dorsey, Bertha Flournoy, and Janelle McMullan, who tried out for the typing team.

The students trying out for the shorthand team whose pictures were taken were: Jack Walton, Claude Thompson, Virginia Ann Hilliard, and Ruth Jo Shirey.

TEACHERS ENTERTAIN WITH BRIDGE PARTY

Miss Jo Hestand and Miss Merle Smith entertained with a bridge party at the home of Mrs. J. R. Norris, 607 N. Colorado, Saturday afternoon, April 9, at 2:30 o'clock.

The guest list included Misses Hoye Jenkins, Annie Frank, Stout, Willette Brickell, Maude Prather, Elizabeth Pratt, Wilda Brickell, Frances Gillette, Jerry Dabney, Eloise Norman, Mary Lowery, Lily Koon, Theresa Klapproth, Agatha Bruner, Norene Kirby, Vera Heifer, Helene Miley, Gladys Penson, Vada Crawley, Ruth Garden, Ina Mae Vaughn, Jean Logan, Mary Waters, Ella Lundey, and Allene Alverson.

Mesdames Alma Thomas, R. W. Myers, M. A. Armstrong, Leonard, De Lo Douglas and Elizabeth Wright.

Dust Eclipse for a Kansas Sun

Swirling black across the Kansas prairies 48 hours after the heaviest rainfall this year, choking dust clouds blotted out the sun, eclipse-like, as shown above in the striking picture taken at Wichita. Descending while twisters ripped through other parts of Kansas, and four other states, the dust clouds were mistaken for tornado formations and some residents ran to shelter in nearest cellars.

BIOLOGY CLASS DIVIDED

Mr. W. H. Hill, biology teacher, divided his biology class Monday, April 4.

The class which contained 32 members was too large for each student to benefit as much as he could in a smaller class.

Instead of one biology class the third period and a study hall the fourth period, one-half of the former class now has study hall the third period and biology the fourth period.

PERSONALS

Jean Davis spent Wednesday in San Angelo.

Miss Vada Crawley is spending the week-end in Abilene.

Miss Logan, clothing teacher, is spending the week-end in Anson, with her parents.

Robert Payne, freshman in the University of Texas, and an ex-student of Midland High school, has pledged Sigma Chi. C. A. Gilsmith, also an ex-student, has already been initiated into the fraternity.

Geraldine Griffith spent the first part of last week in Dallas.

PERSONALITY PLUS

This week we interviewed Helen Armstrong, one of our smartest freshmen and president of her class.

Helen collects dolls from different parts of the world for her hobby. Her favorite sports are: swimming, horseshoe riding, and tennis. Her ambitions are to be an actress or to teach public speaking or English. Fried chicken is Helen's favorite dish. She says she dislikes all foods that Kathryn Jordan makes! Helen doesn't like for people to call her "twee" or "baby sister."

Her favorite colors are pink and blue and she hates bright red fingernail polish. She prefers brunets to blonds.

Helen thinks Barbara Jean Harper is the most beautiful girl in high school but also states that M. H. S. is lacking very much for handsome boys.

YE OLD PROVERBS

"A rolling stone gathers no moss" fits in well with these absentees. You all know how hard it is to make up work, and if you keep coming to school you will not forget your lessons nor will you lose out on assignments.

This brings up down to the old proverb "All that glitters is not gold." Tuesday the sun shine beckons to us and spring calls, but if we follow our impulses and "skip" school the result is always 3 1/3 off our grades and oh so many demerits. Continuing with proverbs, we might put "A penny saved is a penny earned" into our school life. Substituting equals for equals, (please note, Mr. Taylor, that I'm using geometry) a lesson for penny. A lesson saved is a lesson learned, or, you will learn something everyday that you wouldn't have had you been absent. So when you come to school you save a thought and add it to your collection.

Moral: Come to school!

OLD MAN WINTER'S JOKE

Yes! March went out like a lamb all right, but in doing so aroused the animal in April, and you see what it all added up to last Thursday. Out my way the snow banked up on the side of the road and the sand had woven into it so that it looked odd. Yes, but beautiful! Old man winter must have looked into his cellar and have seen he had a good snow that would spoil if he held it over until next winter so he thought he would get rid of it

HOW TO CATCH 'MONIA

When we say how to catch "Monia," we don't mean Mona Heideberg, but we do mean pneumonia. The first object of this article is to show you, gullible reader, just how to catch pneumonia.

First, step under the shower after dressing in the morning. Be sure not to change clothes, but show the crowd that you are a real Tarzan. This will make your cheeks glow with health.

Half chew a hearty breakfast, and rush to school because you are supposed to stay in for some teacher at eight and it is now 8:25.

While at school, satisfy your gnawing hunger by chewing gum and eating chocolate candy. This forces that half-eaten breakfast down your digestion track.

At noon rush home without your hat or coat and sit by a fire until dinner is served.

Somehow you aren't very hungry? Well, just eat the mashed potatoes and two slices of bread. Down this with a gallon of ice water. Skip back to school on one foot to be sure that your food digests properly.

During the afternoon you may get drowsy, but do not fall asleep because rest will make you drowsier and you might miss part of the lecture.

After you have served all of your demerits for snoring so loud, go to Holdaway's and eat a coney, a cheese sandwich, a bar of candy, and a fried pie before going swimming in the old swimming hole.

The short time left until supper, just amuse yourself with that developed cough. Then, after you have eaten a big fried steak get ready to go to the sand hills (like Cobb and E. B.), on a picnic.

After the visit at the sand hills, if you aren't sick, well, something must be wrong with the theory.

Coming to Rex

In the hands of the law—the ultimate end of the path of vice as shown in the new sensational film "Gambling With Souls" which is coming to the Rex for a two-day engagement, starting tomorrow.

Friday and Saturday—The Mauch twins, Bobby and Billy, in "Penrod and His Twin Brother."

Now thru Monday—Bob Burns, Kenny Baker and Jack Oakie in "Radio City Revels."

Tuesday and Wednesday—Edith Fellows and Leo Carrillo in "Little Miss Roughneck."

Thursday only—Stella Arldier and John Payne in "Love on Toast."

Friday and Saturday—Lou Gehrig (baseball star) and Smith Bal- low in "Rawhide."

Monday and Tuesday—Robert Frazier in "Gambling With Souls."

WE were pretty sure we had a great car when some months ago we checked the final blueprints on the 1938 Buick.

It had the new and mighty DYNAFLASH engine for sparkling action—the sensationally desirable TORQUE-FREE SPRING for a lullaby of a ride.

Looking ahead in that promising day, we figured we had every chance of getting our sales share by reason of what this car gave the buyer for his money.

Now, when times are sterner, it appears we built better than we knew—we've got a car folks just won't do without!

This great new Buick was first introduced to the public last fall. Through September, October, November, it sold in steadily increasing volume.

In a period when sales of other cars were sliding off it went ahead, in one month

actually outselling one of the Big Three of the lowest-priced field.

It's still going ahead—not car Number Seven or Eight, as one might expect by its price-class, but one of the season's Four Best Sellers!

There is only one explanation of such a record when made by a car in the thousand-dollar bracket.

Such a car is so good—has so much of value in it—people just won't do without it!

They buy it not only in preference to other cars—they buy in preference to waiting for easier times and readier money-to-spend!

That's the convincing sort of car you're about to drive when you first take the wheel of a 1938 Buick.

If you haven't yet handled a new Buick, you ought to—just to see what such a car is like!

"Better buy Buick!"

BY JESS RODGERS.

Fincher Withers is not going to let his boys get stale with practice when spring training starts this week. The boys will start working out Wednesday and the first game will be held Sunday, April 17, with a touring club called the Hollywood All-Stars furnishing the opposition. No dope is at hand yet on what the visitors will have, but they are playing several games in this part of the country.

The second and third games of the Cardinals will be played April 20-21 with Secundino Perez Mexican club furnishing the enemy players. Next Saturday night, the Cardinals will journey to Crane and open the Crane season in which dedication ceremonies of the new Crane lighting system will be made. The Crane club will return here the next day for a game.

And speaking of lights, the contract for the lights in City Park has been given and actual construction will start this week. Little Louie Cantelou was the low bidder and will install a Westinghouse system.

Contrary to some reports, the Cardinals will not open the season here under the lights. Withers is of the opinion the nights will be a little too cool at the start of the season for after dark playing and will delay the initial night game for two or three weeks after season opens.

Two other hitherto unsigned players drifted into town Saturday and placed their names on contracts, bringing the total number to 43. The new comers are Charles Ringer from Dexter, Missouri, an outfielder who stands 6/2 and weighs 210, and Norman Lundeen from Springfield, Iowa, a pitcher who has just finished work at the Ray Boat school in Hot Springs, Ark. Lundeen stands five feet ten inches high and weighs 165 pounds. Ringer is a former Missouri University grid and track star and is making his first start in organized baseball.

A contract has also been received from Buzz Brown, outfielder with Hobbs last year. But Brown says he wants to try for shortstop this year. He was one of the fastest men in the league last year and there was nothing wrong in the way he played the outfield excepting he had a weak arm. He hopes to move into the infield this year, where a strong arm won't be needed so badly. He is a left-hand hitter and one of the best bunters that showed in the league last year.

Jodie Tate, Wink generalissimo, was here Friday and after inspecting the local park said it would be the best in the league from all standpoints. The best lighting system, the best playing field and the best clubhouse for the players was how he summed up the situation. Withers is making several improvements in the clubhouse that will help the players. Lockers are being installed for the home team and several other changes are being made—all to add to the comfort of the home team.

At last, a little grass is showing up on the infield. But what was up quickly wilted down under the heavy hand of demon winter. However, it should come right on up now. And the outfield is not going to be as rough as a pasture as it was last year.

Withers is going to place a score board in the park this year that can really be seen. It will be placed on the left field fence and will stand eight feet high. Each numeral will be one foot square. An operator will fix the board so that the man at bat can be identified by looking at the scoreboard. Also, the balls and strikes and outs will be

shown on the board. This will be a big help as last year the fans had no way of knowing the name of the batter without asking the scorekeeper. All they have to do this year will be to look at the number on the back of the player, glance at the scoreboard, and get the identity.

This'n that—Season tickets to all games in the Wink park have been put on sale. . . From Don Alan we learn that Malloy, the noisy little catcher with Odessa last year, signed with the Palestine club after finishing work at the New York Giants' baseball school in Baton Rouge this year. . . Don says that he learned a lot from Frank Snyder but never saw Bill Terry until the final day of the school. . . He says that Bill Nowak, the boy that caused all the trouble between the Giants and Cleveland, did not appear to be any "great shakes" as a player. . . We have at hand an invitation to the Sweetwater golf tournament April 14-17. . . Some local players may enter. . . Watching tennis when the mercury is down around 30 is no fun even if the matches are played inside. . . Joe Norman, Midland hi singles ace, is going to be plenty tough for all comers when he adds a little speed to his first serve. . . There is nothing wrong with the way he plays the ball once they start battling it back and forth. . . Ten women golfers from Big Spring are due to enter the tournament here the last of the month. . . Sponsors expect 50 or more from other towns in this area. . . Withers already has arranged for transportation of the team this year—he is hiring ball players with cars and will pay them by the mile to transport others. . . Coach Sam McClure of Pecos hi has tendered his resignation. . . He plans to go to work for the Texas Department of Public Safety. . . The Pecos scribe reports there is likely will be another vacancy in district 7-B coaching ranks before long.

Mineral Wells Golf Tourney April 21-24

MINERAL WELLS, April 9. — The Mineral Wells Annual Invitation Golf Tournament will open with qualifying rounds on Thursday, April 21, followed with match play, Friday, Saturday and Sunday, with 36-hole finals on Sunday. Indications point to a record attendance this year.

The Mineral Wells Invitation has always proven popular and this year the entertainment will be equal, if not better, than in previous years, according to announcements made by Cecil Young, Sport Chairman in charge.

Thursday night there will be a stag banquet and calcutta pool at the Club House, Friday night a dance. A committee is arranging a program of entertainment for visiting ladies.

The course is in excellent shape. Recent rains have done wonders for the fairways and early this year the greens were re-topped and have been kept in shape since.

Handsome trophies and prizes for flight winners, consolation flights, runner-ups, team play and long driving, and of course tournament winner and finalists.

A number of Texas Ace golfers have signified their intention of entering the tournament, which will bring also an aggregation of the best in West Texas. Tommie Murphy, of Mineral Wells, is the defending champion.

UNIVERSITY INTERSCHOLASTIC LEAGUE

District Meet 31—Midland, Texas

Friday, April 15—Saturday, April 16, 1938

FRIDAY MORNING:

9:00—1. Tennis Singles and Doubles. Contestants meet in auditorium, Senior High School.

FRIDAY AFTERNOON:

- 1:00 Assembly program, Midland High School.
- 1:30—2. Preliminary Debates. Contestants meet in auditorium, Senior High School.
- 2:00—3. Extemporaneous Speaking. Contestants meet in room 300, Senior High School.
- 2:00—4. Junior High School Declaration. Senior High School Auditorium.
- 4:00—5. Senior High School Declaration. Senior High School Auditorium.
- 6:00—6. One-act play. Senior High School Auditorium.

SATURDAY MORNING:

- 9:00—1. Ward School Declaration. Senior High School Auditorium.
- 9:00—2. Finals in Debate. Contestants meet in room 202, Senior High School.
- 9:00—3. Essay Writing. Room 102, Senior High School.
- 10:00—4. Typewriting. Room 208, Senior High School.
- 10:30—5. Shorthand. Room 208, Senior High School.
- 10:30—6. Volley Ball. Odessa Gymn: Odessa, Texas.
- 10:30—7. Junior Rural Declaration. Room 300, Senior High School.
- 10:30—8. Senior Rural Declaration. Room 300, Senior High School.
- 1:00—9. Three "R" Contest. Room 102, Senior High School.
- 8:00—10. One-act play. Senior High School Auditorium.

TRACK AND FIELD EVENTS, LACKEY FIELD:

10:00 SATURDAY MORNING—PRELIMINARIES

- | Track | |
|----------------------------|-----------------------|
| 1. 120 yards high hurdles. | 5. 440 yards dash. |
| 2. 100 yards dash. | 6. 220 yards dash. |
| 3. 380 yards run. | 7. 1-mile run. |
| 4. 220 yards low hurdles. | 8. 1-mile relay. |
| Field | |
| 1. Pole vault. | 4. Running high jump. |
| 2. Running broad jump. | 5. 12-pound shot put. |
| 3. Discus throw. | 6. Javelin throw. |

1:30—SATURDAY AFTERNOON—FINALS.

AWARDS:

- 1. All-round championship cups, and first-place, second-place and third-place individual winners at end of each contest.
- 2. Out-of-District Judges for finals in declamation and debate.

For further information write: W. W. Lackey, Director General, Midland, Texas.

Entries should also be sent to the following Directors: Debate—Supt. Lee Johnson, Wink, Texas. Declamation—Supt. A. M. Blackman, McCamey, Texas. Extemporaneous Speaking—Supt. E. W. Le Fevre, Big Lake, Texas. Essay Writing—Supt. H. G. Secrest, Rankin, Texas. Typewriting—Miss Mary Watters, Midland, Texas. One-Act Play—Miss Agatha Bruner, Midland, Texas. Athletics—L. W. Taylor, Midland, Texas.

Fattest Woman in World Coming With Tidwell Carnival

"Dolly Dimples", the fattest woman in the world, will arrive Monday with the T. J. Tidwell show and carnival for a week's engagement here at the Pagoda swimming pool grounds. Dolly weighs 652 pounds and has a waistline of eight feet six and one half inches.

Traveling in a specially built trailer house-car Dolly despite her huge bulk says she finds life interesting. Her greatest enjoyment she says comes from eating. She eats a peck of potatoes at a sitting, four to six pounds of meat at a time, a loaf of bread at every meal.

Only twenty-five years old, this bulky miss has been in show business for ten years. When she was fifteen she was featured by Ringling Bros., Barnum and Bailey circus as the fattest child in the world. She weighed 380 pounds at the time. Now almost twice that weight she holds the title of the "World's largest woman."

Dolly is a good-looking woman, neatly proportioned, always smiling. Her work consists of greeting visitors who come to her tent and keeping them entertained. She can be seen all next week starting Monday when Tidwell shows get under way.

District League Meet to Be Held Here April 15-16

Although entries have been received from only three schools, Midland high school officials are confident at least a score of schools, represented by more than 200 pupils, will enter the district 31 University Interscholastic League meet here next Friday and Saturday.

Due to Midland's lack of a gymnasium, the volley ball contests will be held in Odessa; all other events will be held here. The track and field events (with the exception of tennis) will be held on the final day of the meet, the preliminaries being scheduled Saturday morning and the finals in the afternoon.

Wink eked out a win in the track events last year by the bare margin of one-sixth of a point but the school is expected to have it somewhat easier in winning this year. Their strongest opposition is expected to come from the local team, and it is not what it used to be.

The literary events will be held in the high school auditorium both Friday and Saturday morning and night. One-act plays will be concluded Saturday night.

Elsewhere on this page will be found a complete program of events.

New Country Club Committees Named

Country Club President R. W. Hamlin Saturday announced the appointment of members of six committees to handle affairs of the club for the coming year.

On the tournament committee, E. B. Dozier (chairman), Sam Laughlin and W. P. Thurmon were named. Clint Lackey (chairman), R. W. Patterson and Mrs. Paul Oles were appointed members of the House committee.

For the social committee, Frank Stacy (chairman), Mrs. Don Sivalls, and Mrs. Ed Culbertson were selected. James Smith (chairman), W. T. Doherty and Gyn Simpson were chosen for the Green committee and Paul Oles, Frank Johnson and Jim Taylor were named to the Rules committee. Oles is chairman.

On the finance committee, Ralph Barron (chairman), D. H. Roettger and W. J. Sparks were appointed.

Midland Netters Take Invitation Meet Held Here

The Midland high school boys tennis teams, both doubles and singles, captured all first place honors in an invitation meet held here Friday.

Joe Norman, ace singles player, easily the class of the tournament, winning three matches without the loss of a set. A couple of little sharpshooters, Frank Wade Arrington and Fred Gordon Middleton, overshadowed the doubles department just about as completely as Norman did in the singles.

Norman advanced to the finals by defeating O'Connell of Ft. Stockton, 6-1, 6-1; Jones of Kermil by a score of 6-1, 6-1 in the semifinals; and Wheaty of Wink in the final game was his victim, 6-1, 6-1, 6-3.

In the doubles, Arrington and Middleton defeated the Kermit, 6-2, 6-1, and defeated the Wink doubles team 6-4, 6-4, 6-0.

Other doubles results were: Fort Stockton defeated the Midland second team of Walker and Lanham, 6-2, 6-3; Wink defeated Odessa, 6-6, 6-4, 6-3; Wink defeated the Midland second team, 6-3, 7-5.

In other singles matches: Eidson of Stanton defeated Wynn of Fort Stockton, 7-5, 4-6, 6-4; Wheaty of Wink won over the Odessa entry, Stanton, 6-4, 3-6, 6-2.

GOTCH WOULD BE HORRIFIED

Bob Gregory, lightweight wrestling champion of Europe, may not set the mat world on fire during his American tour, but he sure does know how to bring the photographers flocking. He is shown above "in training" at his New York hotel, assisted by his pretty wife, the Princess, the Babu, daughter of the White Rajah of Sarawak. (Editor's note—Maybe it's the princess who brings the cameramen flocking.) At any rate, some of the old-timers hardly would recognize the rigors of such a training grind.

Lubbock, Clovis Nines Tangle in Sweetwater Tues.

SWEETWATER, April 9. (Special)—The Lubbock and Clovis teams of the West Texas-New Mexico baseball league will play an exhibition game here next Tuesday afternoon at 2:30.

The two clubs are enroute home from spring training at Longview, and this will be their only stop. The game is being sponsored by the Sweetwater Board of City Development.

Texas University Enrollment Passes The 10,000 Mark

AUSTIN.—With enrollment having passed the 10,000 mark and a further increase indicated for the coming fall, the University of Texas faces one of the most critical situations in the fifty-five years of its history, President J. W. Calhoun said Saturday in a statement calling attention to the inadequacy of the present-sized staff for handling such a large number of students.

At the present time there are 308 classes in the university with more than forty students enrolled in each, he pointed out. There are 63 classes which have more than one hundred students each. While large groups of students can be handled with some degree of satisfaction in certain of the larger lecture sections such as history, in which one class contains over five hundred students, it is very difficult in other subjects to give the proper instruction to over-sized classes.

"In this situation the teacher cannot do for his students what he should and could do under more

favorable circumstances," President Calhoun said.

Continuing, he pointed out that it is the student who pays for this over-crowding, and that the state will ultimately be the loser through inferior training given its young people.

The large influx of students has caused administrative authorities of the institution to begin studies looking to the increase of afternoon classes and possibly the inauguration of night classes to relieve congestion in the morning hours. Two laboratory sections are now being conducted at night.

It has also been suggested that certain valuable laboratory courses might have to be discontinued if means cannot be found to increase the instructional staff, Calhoun declared.

"Texas is forced to choose between putting more money into its university and being served by an institution that can do less for her sons and daughters than is done by states like Michigan, Minnesota, and California," President Calhoun said. "There is no possible way to escape both these alternatives. The officials of the university have given Texas a better school than it had any right to expect for what it has cost, but they cannot work miracles. They cannot purchase for Texas as for \$261 that for which Michi-

gan pays \$515, Minnesota \$421, and California \$434 a student. The arithmetic is inexorable."

President Calhoun had called the attention of the board of regents to the urgent necessity of providing relief for the present congestion. He pointed out, however, that the board has no funds at its disposal to meet this situation, the appropriations made by the last legislature having already been budgeted for the current biennium.

Eggs Are Seasonable.

Eggs are usually plentiful and less expensive in the early spring and may be a welcome change for an occasional main course from heavy winter menus. Souffles are an attractive and highly nutritious main dish and may be varied in almost countless ways by adding different ingredients — flaked fish, mashed vegetables, cheese—to the basic egg recipe.

Chevrolet Establishes Unique Business School

William E. Holler, general sales manager of Chevrolet, has established a School of Modern Merchandising and Management for the sons of Chevrolet dealers, which is probably the first time that a large concern has undertaken the task of teaching a second generation the business. The first group of 27 dealers' sons, drawn from every section of the country, is shown here visiting the General Motors Research department under the personal guidance of Charles F. Kettering, vice-president of General Motors in charge of research, and inventor of the self-starter.

Blue Beard's Eighth Bride

Gary Cooper—as a much-married millionaire playboy—and Claudette Colbert—as his tempestuous French wife who tames him—form the screen's newest love team in their new comedy, "Bluebeard's Eighth Wife," which opens today at the Yucca theatre. Ernst Lubitsch produced and directed this picture of life among Europe's smart set.

Unemployed Get Over One Million

AUSTIN, April 9.—Into Texas' checking account for the Unemployed this year has gone \$1,500,000, transferred from the Trust fund in Washington for issuance of Jobless Checks. From \$1,270,085.44 of this amount, checks to about 45,000 people have been issued. The number of weekly checks received by an unemployed man varies according to his previous work record. 147,200 checks, in average amount of \$3.75, have been issued.

Of the 85,897 claimants for benefits, 51,644 have been declared eligible for Unemployment Compensation and checks have been mailed them. Some 17,900 have already received all weekly benefits for which they qualify. At present, the number of applicants being paid in full are nearly equalling the number of new applicants.

Despite the one and one-half million withdrawn, the Trust Fund has steadily increased during the past three months. It stood at \$19,427,744.84 on January 1, when benefit payments became payable. Today it stands at \$23,213,877.81, an increase of \$3,900,132.97, notwithstanding the money withdrawn for the checking account.

This large increase is due because many employers who were delinquent in their State taxes paid in full during January to receive the 90 per cent credit allowed on the Federal taxes.

Under the terms of the Federal

Social Security Act, this money would go to the United States, instead of Texas, if Texas had no Unemployment Compensation Act. Since there is a State Act, the Federal government collects one-ninth of that the State collects, and pays all administrative expenses of the State Act. The State-collected taxes go into the Texas Jobless Fund in Washington and can be paid only to unemployed Texans who qualify under the Act.

Friends and Business Associates of Local Citizens Represented in Special Train of Fort Worth Executives to Visit Here 19th

Many institutions with which Midland business men transact business in Fort Worth will be represented in the goodwill train of 100 Tarrant county citizens here Tuesday, April 19. Their special train, which will visit West Texas and New Mexico points, will leave Fort Worth Monday night, April 18, and will arrive in Midland at 3:15 p. m., Tuesday, remaining here an hour.

Midland citizens have been asked to look over the list of visitors to be here at that time and to arrange

for meeting their friends or business connection representatives when the train arrives.

Following is the list of business executives and the institutions they represent: P. W. Riggins, Continental Oil Company; O. E. Crossey, Montgomery Ward & Co.; Frank R. Jones, Globe Laboratories; Howard Higby, Blackstone Hotel; R. K. Hanger, Canteen, Hanger & McMahon; John P. King, King Candy Company; M. K. Williamson, Head, Texas & Co.; J. H. Brillhart, Fort Worth

Structural Steel Co.; Wyatt C. Hedrick, Wyatt C. Hedrick, Inc.; L. B. Brown Jr., Fakes & Company; J. R. Plummer, Commercial Standard Insurance Co.; C. J. Farrell, Worth Hotel;

R. E. Cox, R. E. Cox Dry Goods Co.; W. O. Gattion, Magnolia Petroleum Co.; John Hendrix, Southwestern Exposition & Fat Stock Show; Van Zandt Jarvis, Southwestern Exposition & Fat Stock Show; Dr. Henry Trigg, Trigg & Trigg; Albert Evans, Jr., Evans & LeMay Advertising Agency; H. H. Wilkinson, Continental National Bank; A. F. Townsend, Fort Worth Transit Company; Leon Gross, Washer Bros.; W. K. Stripling, W. C. Stripling Co.; H. A. Lawrence, Lawrens, Highfill & Terry; Wm. H. Tyler, Tyler & Simpson Co.; A. F. Baek, Sinclair Refining Co.; E. E. Dickie, Williamson-Dickie Mfg. Co.;

A. D. Wellborn, Southwestern Paper Co.; F. J. Adams, Gulf Oil Corp.; O. Coffman, Terrell Supply Co.; R. E. Cowan, Purina Mills; A. C. Barlow, Bain Peanut Company of Texas; Sam H. Bennett, KTAT Radio Station; E. M. Waits, Texas Christian University; E. H. McKinley, McKinley Iron Works; J. Paul Smith, Burrus Mill & Elevator Co.; W. T. Ladd, Hub Furniture Company; J. J. Walden, Southwestern Engraving Co.; L. C. Abbott, Ft. Worth Wholesale & Storage Co., Inc.; G. W. Putnam, Westbrook Hotel; C. D. Reimers, C. R. Reimers Co.; R. L. Bowen, Community Public Service Co.; James T. Taylor, James T. Taylor, Construction; E. P. Hallom, Hallom's; J. E. Fender, Acme Brick Co.; Leo Polishman, Transit Grain & Commission Co.; Law Sone, Texas Wesleyan College; Amos G. Carter, Carter Publications, Inc.; J. R. Red Wright, United States Marshal;

William Holden, Ft. Worth chambers of commerce; Chas. G. Colten, Ft. Worth chamber of commerce; Geo. N. Kerby, Ernst & Ernst; W. P. Bomar, Bewley Mills; Marvin D. Evans, Marvin De Evans Co.; Walter B. Scott, McLean & Scott; Bert Tolbert, Bert Tolbert Machinery Co.; F. E. McGonagill, State Reserve Life Ins. Co.; Harry J. Windmiller, Windmiller Motor Parts Station, Inc.; A. G. Donovan, Fort Worth Stock Yards Co.; John H. Maxwell, Maxwell Steel Company; B. B. Collins, Collins Art Company; Ernest Alton, Ernest Alton Chevrolet Co.; Lionel W. Bevan, The Fair Store; R. C. Bowen, Bowen Motor Coaches; John B. Collier, Jr., Fort Worth Poultry & Egg Co.; R. E. Harding, Fort Worth Nat'l Bank; T. J. Harrell, Harrell's; John A. Hulen, Hulen, Fort Worth & Denver Ry.; Earl Justin, H. J. Justin & Sons; Marvin Leonard, Leonard Bros.; Henry Love, Texas Hotel; E. C. Lowden, Stafford-Lowden Co.; Galen H. McKinney, Waples Platter Co.; Melvin J. Miller, DuBose, Rutledge & Miller; William Mounig, Mounig Dry Goods Co.; H. G. Parr, Well Machinery & Supply Co.;

J. B. Patterson, Southwestern Bell Tel. Co.; L. C. Porter, T. P. Terminal Whse. Bldg.; John N. Sparks, First National Bank; Gaylord J. Stone, Universal Mills; Dave L. Tandy, Hinkley-Tandy Leather Co.; J. B. Thomas, Texas Electric Service Co.; Stanley A. Thompson, Texas Electric Service Co.; Don E. Weaver, Fort Worth Press; Carl Wollner, Panther Oil & Gesteal Mfg. Co.; Joe Oxendine, Postal Telegraph.

Member of First Student Body at Univ. to Return

AUSTIN, Texas. — Joe Riley of St. Petersburg, Fla., member of the first student body at the University of Texas, 85 years ago, has written Dean T. U. Taylor that he will attend the ninth annual Round-Up, ex-student reunion, April 8, 9 and 10.

Of the 218 students who enrolled in the university when it first opened its doors in 1833, thirteen, including Riley, have accepted Dean Taylor's personal invitation to be his guests for the Round-Up. Mrs. J. Marvin Nichols of Fort Worth, Jacob Meade Ralston of Cameron and W. E. Smith of San Antonio will come from their respective homes, while the following Austinians will attend: B. P. Bailey, Mary Lily Alford, Livie L. Rundell, Mrs. W. J. J. Terrell, and Mrs. Robert G. West.

Riley's letter to Dean Taylor sounds a nostalgic note as he recalls his registration experiences: "My Dear Good Friend and Teacher—

"After all these years how are you? Shake!

"I am planning to meet you over there in Austin for that breakfast on April 9. I have tried a number of times to be back at some special meeting at the institution where I spent several years of my life. This time I am going to make a special effort, and after the great thrill I received from your letter I feel that I will succeed.

"Yes, the attendance back there was small compared to what it is now. Just 218, as you say, in that early year of 1833. That was my first year away from home for any

length of time. My mother made my shirts and most of my other clothes. My father had been a pioneer in Texas with Houston, Crockett, Roberts, Burleson, and others, and had been a surgeon in the Civil War, and in the Mexican war before that.

"Now, you ask for my greatest thrill in those early days. Well, here is one at least. The first afternoon about September 15, 1833, I walked up the Avenue with several other young men, and up an outside stairway on the right hand or east side where a sign was up that said students could register for the University of Texas.

"It being late in the afternoon, we found only one man up there, a nice gray or white haired and bearded man, smoking a cob pipe. This proved to be Ex-Governor Roberts, then Professor of Law. Some how the Aid Alcalde talked to me and asked my name. Then he said, 'Yes, yes, you are Joe Riley, youngest son of Dr. John Riley of Cooke county, the great surgeon, wrestler, and athlete! Joe, your Pa used to vote right when I ran several times for Governor. Sometimes Dr. John would speak for me at picnicks when I could not get there. He bantered Sam Houston for a wrestle once,

and Sam backed out.' "Then the Old Governor laid his pipe aside, and looked seriously at me, and asked my age. I would not be the age for entrance until December 6 following. And here comes a thrill. The Governor said, 'Now, Joe, you go up to the capital tomorrow at 9 o'clock, where the rest of the entrance work will be done, and tell them you are the required age, and you will get in.' Then he studied a minute, and added: 'No, Joe, don't do that. Dr. John would never thank me for that advice. Go up there and tell them the truth, but tell them the Aid Alcalde will vouch for you. Insist that they ask you some questions which I think you can answer, and they will let you in. Tell the truth always.'

"Dr. Mallett was chairman that first year, and I told my story to him, and he had a little talk with other members of the faculty. Then Waggener was easy in History, Geography, etc. Leroy Groun was light in Algebra. Dabney had nothing to say. Mallett was satisfied and I was enrolled as a student in the fall of 1833.

"Well, Doctor, here's my fondest hope to be with you April 9. "My highest regards always to you, Joe S. Riley."

Low-Cost Haulage Vital to South's Paper Production

Low-cost transportation as exemplified by the Ford V-8 truck is assuming increased economic importance as a result of its vital connection with the South's huge new pulp and paper industry.

VETERINARIAN
WALLACE E. BROWN, D. V. M.
Large and small animal hospital
MIDLAND DOWNS

DRINK JAX

"THE BEST BEER IN TOWN"

Production of paper begins back in the slash. More men are employed in cutting and transporting logs than in converting them into paper, it is said.

It is at once evident that low-cost haulage is all important to the industry. Logs must be moved from forest to plant as cheaply as possible and trucks like Ford V-8s are providing the necessary economical transportation. Even if water transportation is employed, logs must still be hauled to docks.

A hundred million dollars has already been expended for new plants and buildings to house the industry. This figure will ultimately reach half a billion dollars, according to authorities on the subject.

It is estimated that eventually 90 per cent of the nation's supply of kraft products will come from plants scattered through the Carolinas, Georgia, Florida, Alabama, Mississippi and Texas. An annual turnover of close to a billion dollars is being predicted.

Slash pine is used at present only in the production of kraft products, although it has all the necessary qualities for use in the manufacture of book paper, bond paper, rayon and newsprint, according to information coming out of the laboratories. In fact, a newsprint plant is now under construction at Lufkin, Texas.

While the supply of slash pine is considered inexhaustible, steps are being taken to see that it remains so. This is to be accomplished by selective cutting and reforestation.

Thus another giant industry has settled in the southern states, one which seems destined to have a profound effect upon their economic structure. Prediction is being freely made that the South is destined to become the great paper center of the world.

General Decline in Prices Received By Farmers of Country are Recorded

For the United States a one-point decline in the general level of prices received by farmers during the month ended March 15, was reported by the Bureau of Agricultural Economics. At 96 per cent of pre-war on March 15 the index was the lowest since August 1934. It was 32 points lower than in mid-March last year when prices received averaged 128 per cent of pre-war.

Among the major groups of farm products the index of prices received for meat animals advanced 7 points during the month, and cotton and cottonseed rose 2 points. Fruit prices were up one point. Other groups declined although poultry products declined less than usual for this time of year. Prices of dairy products were down about seasonally.

Compared with March 15 last year, however, crop items were much lower while animal products showed substantial but relatively smaller declines. Grains were 90 points lower, cotton and cottonseed down 48, fruit down 64, truck crops 24 points lower, and miscellaneous items down 51. Meat animals were 12 points lower, while dairy and poultry products were eight and nine points, respectively, below those of a year earlier.

Domestic wheat prices continued to decline during the month as crop prospects improved and world wheat prices declined. Prices received by farmers for wheat averaged 80.3 per bushel in mid-March. This was 6.3 cents lower than a month earlier and 43 cents below the average of March 15, 1937.

Prices of corn and other feed grains declined slightly from mid-February to mid-March influenced largely by the decline in wheat prices. Seasonal advances in corn prices in the southern states were more than offset by declines in other regions. For the United States as a whole corn prices declined during the month from 51.7 cents per bushel to 51.3 cents, oat prices from 30 cents per bushel to 29.4 cents, and barley prices from 54.8 cents to 52.9 cents per bushel.

Prices for all these grains averaged considerably lower than a year earlier when smaller crops were being marketed.

Cotton prices advanced during late February partly as a result of prospective acreage reductions under the new farm act. Disturbed political conditions in Europe, however, were partly responsible for a decline in early March. Cotton prices received by farmers averaged 84 cents per pound in mid-March, or only three-tenths of a cent more than the mid-February average. This was considerably lower than the March 15, 1937, average of 13.5 cents.

Domestic wool prices continued to decline seasonally during the month as foreign and domestic markets continued weak. Prices re-

ceived by farmers for wool declined from 20.2 cents per pound in February to 19.9 cents in mid-March. This compares with an average of 31.7 cents a year earlier.

The increase in prices received by farmers for hogs during the month ended March 15 was greater than usual as marketings continued to decrease. Hog prices rose 61 cents from the February level to \$8.36 per 100 pounds in mid-March. At that level, however, prices were still 82 cents lower than a year earlier.

Lamb prices advanced rather sharply during the month ended March 14. They averaged \$7.35 per 100 pounds, compared with \$6.63 a month earlier, but the average was \$1.48 below the March 1937 level.

Prices received by farmers for all dairy products declined slightly during the month ended March 15 as production increased seasonally. The changes were small, however, compared with the big decline which occurred during the preceding month. The more stable prices may be attributed in part to the purchases of butter by the Federal Surplus Commodities Corporation. Butterfat prices declined from 30.5 cents per pound on February 15 to 29.8 cents on March 15. This was about five cents below the average of one year earlier.

Although chicken prices usually rise from mid-February to mid-March they showed very little net change during that period this year. The average price of 15.9 cents per pound on March 15 was 1.5 cents higher than a year earlier when stock of poultry was somewhat larger.

Egg prices usually drop sharply from mid-February to mid-March but this year they declined very slightly during the month. Increases in egg prices in the north, central, west south central and Pacific states where increases in production were much less than usual, almost offset the price declines in the other groups of states. Prices received by farmers averaged 16.2 cents per dozen compared with 16.4 cents in mid-February and with 19.9 cents on March 15 last year.

Prices received by farmers for potatoes decreased in the north, central and south Atlantic states during the month ended March 15, but increased in the other groups of states. Marketings increased by less than the annual amount for this period. Potato prices for the country as a whole increased from

As Light Came to Blind Man

Wild with joy, a loud cry bursting from his lips, Amos Franklin Morrison, above, of Media, Pa., was caught by the camera in this striking picture as he saw light for the first time since he became blind in 1918. Morrison recently underwent delicate operations, to be climaxed by transplanting of corneas from other eyes to his own to restore full vision.

54.6 cents per bushel on February 15 to 56.6 cents in mid-March. Potatoes averaged \$1.31 per bushel on March 15, 1937, when supplies were considerably lower.

According to the report, the average prices received by Texas farmers for most commodities show a slight increase over a month ago.

While wheat declined eight cents, oats one cent, barley one cent, and rice nine cents, grain sorghums five cents, wholesale milk ten cents, from February 15 to March 15, soybeans, butter and buttermilk, turkeys, wool, horses and mules showed no change.

Corn increased one cent, cowpeas advanced ten cents, peanuts four cents, all hay 80 cents, cotton four tenths of a cent, cottonseed one dollar, Irish potatoes ten cents, sweet potatoes five cents, chickens three cents, eggs six tenths of a cent, milk cows one dollar, hogs 30 cents, beef cattle 20 cents, veal calves 30 cents, sheep 60 cents and lambs 50 cents.

Merriment Reigns at Ritz

Jack Oakie, Milton Berle, Ann Miller, and Bob Burns provide musical Merriment in RKO Radio's "Radio City Revels" now playing at the Ritz theatre. Kenny Baker and Buster West are also in the novel filmusical.

At The Library

New books:

"Adventures With Hardy Bulbs," by Mrs. Louise Wilder. The author relates her own experiences with bulbs and discusses not only the characteristics of each plant and the methods of growing, but also some of the plants' life history—their known origin, by whom discovered, and where grown. Attention is given to native bulbs seldom grown, with a view to encouraging their inclusion in the garden of the amateur. Well illustrated with photographs.

"These Foreigners," by William Seabrook. Informal reporting of visits to immigrant groups—Scandinavian, Italian, German, Polish, and Russian—from New York to California. Personal observation convinced the author that these groups are being assimilated and are assets in American life.

"Children of the Rising Sun," by Willard Price. What are the Japanese people like? Hardy of body, strong of will, with the highest literacy ever known to mankind, arrogant for beauty, prone to suicide, they are convinced that they have a "divine mission" to save the world. What is their way of life, what has made them as they are? They live on crowded islands where only fifteen per cent of the land can be cultivated, floating on a sea of volcanic fire, shaken by earthquakes, swept by typhoons and tidal waves. They must fight nature, yet they love it as no other people do. They are trained to toil ceaselessly, to live sparsely, to dream greatly, to worship their emperor and to die gladly for honor. And how in half a century have they built an empire?

To find the answers to these and many other such questions, Willard Price has not only lived for a number of years in Japan, but has traveled the length and breadth of the empire, from the frozen plains of Siberia to the tropical islands on the equator, and has even gone to their outposts on other soil, in the Philippines and in South America. By telling us what the Japanese people are, and why they are so, he explains with clarity and vigor the driving forces of that so-called expansionism upon which other nations look with wonder and bewilderment, if not with actual fear.

"Hell on Ice," by Commander Edward Ellsberg. Nearly six years have slipped by since the Jeannette sailed away through the Golden Gate—the first and last expedition ever to seek the North Pole by way of the Berling Sea. In the half-suppressed logs of that hapless expedition, Commander Ellsberg discovered a story of incredible excitement and variety which he recounts through the vivid personality of George Wallace Melville, the chief engineer.

"So You're Going to Travel!" by Clara E. Laughlin. A handbook of practical, helpful information, laying down general principles of happy and successful travel and answering the thousands of questions that people have asked.

"Opera Front and Back," by H. Howard Taubman. Mr. Taubman, of the music department of the New York Times, has written a book which deals with life in the opera house—not synopses of the stories or biographies and chatter about singers, but about what makes the wheels of opera go round.

"Danger Is My Business," by John D. Craig. In extensive travel and in big-game hunting, the author gained experience as an amateur photographer and became a professional. His specialty is making movies of underwater scenes, and of salvage operations. He tells good stories of hazardous jobs and outlines plans for salvaging the Lusitania.

"New Mexico, the Land of the Delight Makers," by George Wharton James. Presents the history of its ancient cliff dwellings and pueblos, conquest by the Spaniards, Franciscan missions, social life and industries of its Indians, climate, geology, flora and birds, its rapid development and educational system. Numerous excellent illustrations.

"Farewell Toimette," by Bertita Harding. An historical romance based upon a gay episode that occurred during Marie Antoinette's journey from Austria to France in 1770, to marry the French Dauphin. Based upon historical data, with accurate portrayals of the personages who through the Austrian and French courts.

"The Mortal Storm," by Phyllis Botome. This is the story of a German-Jewish family living in a large German city during the early

years of the Nazi regime. Fascism, Communism, Nazism complicate the lives of the characters and give depth to this gripping and moving novel.

"Great Argument," by Philip Gibbs. The moving story of a man who held peace precious in a world lit by the fires of coming war. Edward Jesson, Laborite, M. P., an idealist who had lived through the terrors of the last war and who had learned to hate war's grim stupidity, will typify to many the millions of tolerant, peace-loving men in a world where these qualities seem to have given way to unreason, prejudice, and brutality.

"Badlands," by Bennett Foster. The law wanted Chance Pagan for cattle stealing and an attack on his best friend—crimes he had never committed. To clear his name, he had to apprehend and defeat the real culprit. A colorful "western" by an author who really knows the West.

"This Man Is Yours," by Rob Eden. After her speeding car had struck and injured a young man, the judge of the traffic court decided that it was the responsibility of gay and irresponsible Terry Trevor to see that his hospital bills were paid. The unexpected and exciting complications that follow make up this pleasing love story.

"Gray Sage," by Francis W. Hillen. Here is the modern West—the West of dude ranches and rodeos, of picturesque, hard-riding cowboys and outlaw horses. In telling the story of Gray Sage, the author gives a close-up of these apparently fearless men and women who risk their lives for the entertainment of a fickle audience.

"Blow for a Landing," by Ben Lucien Burman (author of Steamboat Round the Bend): The Pennys were shanty folk until Mrs. Penny determined to become respectable and live on land. The burden of the move fell on good-natured Willow Joe, who gave up his beloved cigar-box guitar, his octave of jugs, and a show-boat career to buy bottom land and build a log house. Floods did not deter his efforts, but in the end the Pennys went back where the house could float and the catfish were free.

"Revolt on the Border," by Stanley Vestal. An historical novel dealing with the most exciting days of the Santa Fe Trail and the American invasion of New Mexico in 1846. On his way to protect his family, John Martik, trader and Indian fighter, meets lovely Molly Revell, also hunting on some mysterious, mysterious errand. A story of romantic adventure.

"The Man Who Murdered Goliath," by Geoffrey Holmes. Robin Bishop, happy-go-lucky newspaper reporter, is assigned to cover the apparent suicide of the wealthiest and biggest man in Los Pinos. But he suspects murder, proves it, and finds the killer. A fast-moving plot with a good sense of humor.

"Curious Happenings to the Itooke Legatees," by E. Phillips Oppenheim. Ten connected episodes dealing with the adventures which five heirs inherit on the Itooke estate, along with the Rooke wealth.

"The Dusky Hour," by E. R. Punshin. The hour of dusk was the climax in the strange case of the man found dead in the chalk pit. Who was he? Why did so many clues lead to the strange London night club? E. R. Punshin leads the harassed detective on a dizzy chase, through a maze of suspicions to a surprise ending.

Annual Reunion at XIT Ranch Slated

DALHART (P).—John Colquitt, general chairman, says he hopes to have a number of Clayton, N. M., pioneers as guests at the third annual XIT reunion here Aug. 8 and 9. They will include A. C. Miera, John Knox and Mrs. Eliza C. Porter.

Miera, 80, a native New Mexican, moved to Garcia Plaza, 35 miles southwest of Clayton when 14, and is thought to be the oldest man in the Clayton area longer than any other man. He says the Goodnight and old Tascosa Trails came together below Garcia Plaza and separated again north of the place. He remembers the herds of cattle that roled northward over them, many headed for El Moro, the railroad five miles east of Trinidad.

Knox moved to Clayton in 1890, upon a doctor's pronouncement he had not more than 18 months to live. Soon after arriving he tottered down the street lined with horses tied in front of the town's 14 saloons. Suddenly from out of one came "Red John" Jones shooting around the feet of Bill Goodnight, nephew of the Texan trail blazer,

YOU GET MORE WATER!
WITH AN Improved **AERMOTOR**
50 YEARS OF LEADERSHIP

THERE is always plenty of water when an Improved Aermotor does the pumping. It supplies more water because it pumps in winds too light for others. It has earned the reputation of "the windmill that runs when all others stand still!"

Bringing you the latest advancements first is the reason Aermotor leads the field. Look at these details, all that you could want in a windmill: Auto-Oiling, Double Gears, Outside Furling, Adjustable Stroke, Perfect Regulation, and Screw-In Wheel Arms that cannot work loose.

There's a difference in electric water systems, also, . . . a big difference . . . in quality and performance. That's why discriminating buyers select Aermotor. Then they're sure of quieter, more economical operation.

Get the facts today.
