Jersey City Waits in Vain for "Test"

Nobly, banner-bearing throngs surged (as above) through Jersey City, N. J., broad Journal Square prepared to throw out the voices of Representatives Jerry J. O'Connell of Montana and John T. Bernard of Minnesota if the two congressmen elected to speak—without a permit—in defiance of Mayor Frank Hague. But O'Connell (left) and Bernard (right), shown in the photo below as they sat in the International Labor Defense headquarters in New York City just prior to the scheduled Jersey City meeting, finally were persuaded by friends to abandon their venture to avoid possible "bloodshed and violence."

Saturday Shutdowns Are Ordered

Further Reduction Of Texas Production Caused by the Action

OKLAHOMA CITY, May 11 (AP).—The Oklahoma Corporation Commission signed an order today reducing Oklahoma's oil allowable for the remainder of May by 81,000 barrels a day.

DALLAS, May 11 (AP).—Saturday shutdowns were added last night to the Sunday shutdowns which have been in effect in Texas oil fields.

Thompson, chairman of the Interstate Oil Compact commission, said "overproduction of crude, large, overhanging gasoline stocks, together with under-consumption caused by the recession, have combined to bring about a situation that demands prompt, vigorous action by the regulatory authorities charged with the duty of preventing physical waste in oil production."

He said, the Saturday shutdown would amount to a further reduction of 16 2/3 per cent of the Texas output.

WITH HOME DEMONSTRATION CLUBS

Midland county 4-H club members, including an enrollment of 50 girls from Stokes, Prairie Lee, Valley View, Stephenson, Midkiff Ranch, Cotton Flat and Warfield will conduct their annual clothing exhibit in the assembly room at the courthouse in an all day meeting Saturday, May 28.

The girls will exhibit Cuptowels, scarfs, toys, kitchen aprons, hand towels, gowns, smocks, slips, dresses, stories of club work, and all wardrobe demonstrators will exhibit their record books.

On this occasion the girls will be their own judges, working in groups of three, and all articles will be arranged in age groups. For example, all articles made by members nine years old and under, all articles made by members 10 to 12 years old inclusive, and all articles made by members 13 years old and over, will be judged in their separate divisions. Each girl's work will be classed according to her age before January first of this year.

Midland merchants and the chamber of commerce will contribute prizes for winners in this exhibit.

Wardrobe demonstrators are: Julia Koen, Cotton Flat; Pearl Wilson, Warfield; Bonnell Brunson, Valley View; Maxine Cain, Stokes; Eileen Patterson, Prairie Lee; and Minnie Inez Abbott, Stephenson.

Feminine Fancies

Lip rouge is now available in liquid, instead of stick form. The small bottle, priced about the same as a good lipstick, is equipped with tiny brush for application. Oh yes, and a bottle of remover. Apparently, the makers have faith in the staying qualities of the preparation.

The lack of permanency about the usual lipstick is one of the minor obstacles we've encountered in our halting progress toward improvement of the looks that Mother Nature bestowed so grudgingly upon us.

It must have been a very logical-minded person who was disturbed whenever routine was upset who invented the designs for the newest cup towels we've seen. In the sets of towels designed one for each day of the week, the hasty or careless housewife might make the error of getting Saturday's towel for use on Tuesday. Such a mistake is avoided in the new style. Each towel is printed with seven designs, each for one day of the week, and each properly labeled. So whatever day it is used, is the correct day. Altogether too ducky, what?

Note: Smelling salts are now displayed on the drug counter, ready to come to the aid of any dashing maiden who temporarily loses her poise—and her senses. Wonder if this prophesies a return to the Victorian habit of fainting as a favorite indoor sport?

Study in Luke Is Continued by Class

Qualifying for City Tournament To Start Sunday

Midland golfers will start turning in qualifying scores Sunday in the City Tournament that will be held on the Country Club course May 21-22.

The tournament is open to all golfers of the city, regardless of whether or not they are members of the Country Club. An entry fee of \$1 will be charged.

A total of 52 holes will be played, and medal play will decide the winner. As many flights as necessary will be provided with 16 golfers to each flight. Prizes will be given the winner, runner-up and consolationists in each flight, and a prize for low qualifying scorer will be awarded.

Jim Smith won the championship flight last year and will be one of the favorites to come through this year. Some stiff opposition for him is expected to develop from Frank Johnson, Frank Stacy, H. S. Forrester and others.

The rules committee in charge of the tournament has urged all golfers who plan on entering to turn in their qualifying scores as soon as possible.

Alcatraz Student Body Is Tough, But Faculty Is a Bit Tougher

This is the second of three stories on "Guarding Alcatraz," written by Capt. A. R. Archer, former guard on "The Rock."

BY CAPTAIN A. R. ARCHER,
(Former Guard at Alcatraz Prison)
SAN FRANCISCO. — When the Spaniards discovered "The Rock," 400 years ago, they called it Alcatraz, from the herds of pelicans roosting on the rocks. They built a fortress, with dark dungeons beneath it. Traces of the fortress and most of the dungeons are still there.

Daylight never penetrates these dungeons, and rats grow large and fierce. A blanket spread on the damp floor, no sanitation but a bucket, a cup of water and some bread. The toughest prisoner doesn't want much of this.

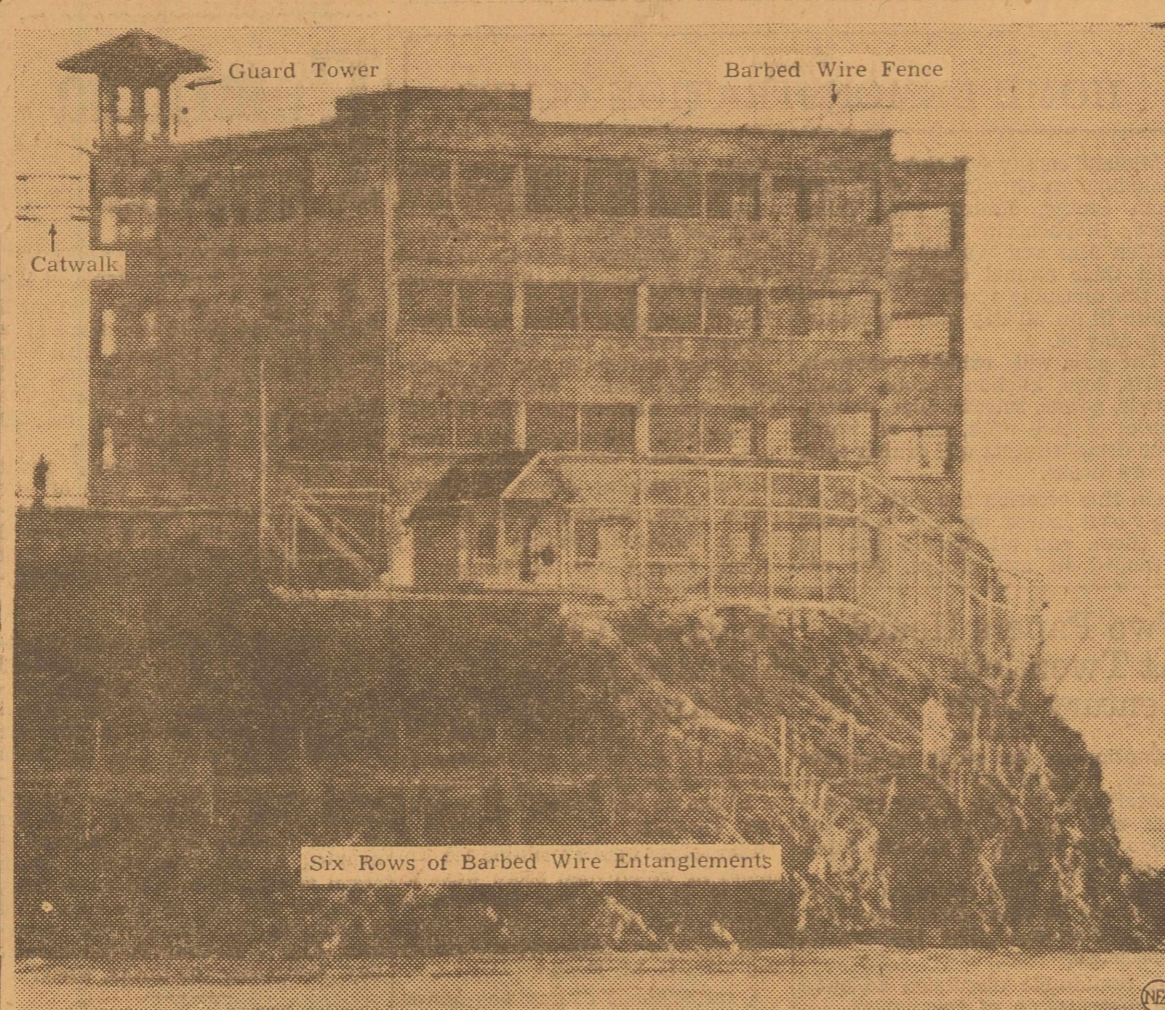

Only slightly better are the little isolation cells of concrete and steel. A narrow grating admits air, but little light. A blanket for the floor, bread and water to eat and drink. A man who got tough with guards could be handcuffed, and a little tear gas could be fed into the cell with him. It could happen.

In other words, Alcatraz has the means for breaking the toughest prisoners. There isn't much trouble because the situation is so hopeless that most prisoners realize it.

Laundry Is Trouble Spot.
MOST of the trouble that does appear starts in the laundry. The prisoners know that if they can tie up production there, they can tie up the prison management all sorts of trouble, and of course they like to do that whenever they can in such a way as not to bring it back upon themselves.

Emery dust in a bearing, a sharp knife on the canvas rolls of an ironer, or a bit of steel in some gears. And then the laundry piles up on the dock as it comes in from the Army transports, the Presidio, and Angel Island.

Of course laundry strikers are thrown into solitary confinement and given only bread and water. They yell and shout at the guards until they are hoarse. Then perhaps some go on a hunger strike. That is all right for the first day, perhaps the second or third. But about the 10th day, when the striker shows signs of weakening,

guards take him over to "C" block, and the prison doctor comes along with about three feet of rubber tubing and a mess of milk and eggs he has mixed. He makes the patient swallow the tubing, and feeds him through a funnel. Hunger strikers have been known to break their fast almost immediately in the good, old-fashioned way.

One 200-pound guard, during a laundry strike, was dared by a slender prisoner to step inside the cell. Having nerve and weight on his side, the guard accepted the invitation. In fact, he stepped into a beautiful left hook, the marks of which he carried for quite a while. The guard received the next day a copy of a book by an ex-pugilist entitled "I'm a Sucker for a Left Hook."

A curious accident happened very soon afterward. This same prisoner was being taken to the dungeons and oddly enough, he stumbled on the top step and fell all the way to the bottom.

CARDINALS LOSE SERIES OPENER TO HUBBERS, 11-4; BACK HOME FRIDAY

LUBBOCK, May 11, (Special) — The Lubbock Hubbers turned back the Midland Cardinals in the first of a three-game series here yesterday, 11-4.

The Cardinals got off to a one-run lead in the first inning but the Hubbers overcame the deficit in the seventh and three in the eighth.

The Cardinals were kept away from the plate after the first inning until the sixth when they made their final three tallies. Gramly went all the way on the mound for the Hubbers and limited the visitors to five hits. Frischauer lasted the entire game for the losers and gave up 13 hits, in-

cluding doubles by Stevens, Gedzisz and Wilson, a triple by Taylor and home runs by Carr and Stevens. Morris chipped in for Midland with a homer.

Manager Withers of the Cards presented a changed line-up, playing third baseman Larrien at shortstop and utility man Beers at third. Both played well defensively but were as helpless as their mates before Gramly's flailing.

The Card manager announced Cliff Battles, shortstop for the Hobbs club last year, had joined the Midland club and would take over the berth today.

The club will wind up the series here tomorrow and the Cardinals will return home for nine games, meeting Clovis, Wink and Hobbs.

Aggies and Owls Meet Friday 13th

COLLEGE STATION. — For the eighth time in eleven years a Texas Aggie team will defy the "Friday-the-thirteenth" hoodoo when Coach Marty Karow's Cadet baseball team plays the Rice Owls in Houston, Friday, May 13, in what will be the thirteenth Southwest conference game of the season for each team.

The lone loss suffered by the Aggies on the jinx date was to Southern Methodist university in baseball, 6-5, in twelve innings in 1928.

Either Lefty Harry Cohn, of Dallas, or Ralph Lindsey, of Kurten, will be the Aggies' starting pitcher. Cohn has won 4 and lost 2 while Lindsey has won 3 and lost 2. Karow plans to shake up the batting order to get more punch in the Aggie attack.

Other probable Aggie starters will include: Jack Doran, Midland, c; Bob Williams, El Paso, 1b; Jack Cooper, Dallas, 2b; Bob Stone, Houston, 3b; John (Chubby) Nolan, Houston, ss; Capt. Woodrow (Woogie) Bell, New Braunfels, lf; Dave Alsbrook, Brownham, cf; and Bailey (Tim) Timmerman, Rockdale, rf.

JOHN ANDREWS BETTER.

Reports received today from Temple said John Andrews, Midland farm operator, was somewhat improved. Amputation of one of his legs was necessary earlier in the week.

Modern Bridge club will meet with Mrs. M. F. Turner, 610 N. Marlenfeld, Thursday afternoon at one o'clock.

Twelve-ite club will meet with Mrs. Harry Prickett, 511 San Angelo, Thursday at one o'clock.

room, bakery, print shop, refrigeration room, shower bath and clothing room are under the kitchen unit. Every opening to the outside of the building is protected by bars of tool-proof steel.

The rear entrance to the cell-block leads to a walled enclosure used as the recreation yard. The prison laundry, woodworking, plumbing and other workshops are reached through this yard, all of which is included in the restricted area which is always under potential gunfire.

NEXT: A prison guard's job is a thankless one, but at Alcatraz this service has been developed into an unusually effective one.

Tax Collections of State Well Above Last Fiscal Year

AUSTIN, May 11.—At the current rate of income, Texas will have collected from all sources a total of \$221,910,936 at the expiration of the current fiscal year in August, 1938, according to a compilation by Comptroller George H. Sheppard.

This figure was arrived at by projecting for the four remaining months of the year the collections of the past eight months, through April, which aggregated \$147,940,427. If the collections continue at the current rate, Sheppard said, the state's cash income in the 1937-38 fiscal year will exceed the 1936-37 total by \$67,790,604, the total for the entire previous year being \$154,120,032.

Of the \$147,940,427 collected, Sheppard said, the tax income amounted to \$72,990,401, leaving \$74,950,026 from "other sources." The bulk of this amount is from federal aid. Other items comprising the total include the note stamp tax, comparatively small; income from automobile licenses which goes directly to the highway department; interest on investments of the available school fund; and insurance taxes collected by the state department of insurance.

The federal aid figure actually includes some direct state taxes—those collected under the term of

"benefits" for unemployment compensation. These taxes pass through the federal treasury, hence are lumped with all federal aid received. Collections from this source account for a large proportion of the increase since the compensation benefit tax has been returned to Texas, for payment to unemployed, only since January, 1938.

On the state taxes, a substantial increase is indicated in most categories. This year, the monthly collection of gasoline taxes has averaged \$4,019,683 as against \$3,873,798 for the 12 months of the prior fiscal year, an increase of \$245,885 a month or a probable total for the year of \$2,950,620.

to clean out hole. It was then treated with 1,000 gallons, injected under pressure, and is now swabbing out acid and load through the tubing. Total depth of the well is 5,260 feet in lime.

Magnolia No. 1 J. D. Webb, central Yoakum wildcat two miles southwest of Plains, bailed hole to 4,640 feet, the end of sand line, and is now splicing on more line. It has been plugged back to 5,380 from 5,639 feet, shutting off sulphur water found in core from 5,635-39. Location is 2,200 feet from the north and east lines of section 477, block D.

Perkins Cores Deeper.
Coring from 7,699 to 7,720 in Frank S. Perkins et al No. 1 Cowden, deep Permian prospect in southwestern Andrews, recovered only seven feet of lime, bottom part of the core having been lost. Core showed no porosity but had an odor of oil. Previously, the well had

shown free oil in core-barrel after coring from 7,681-99, with recovery of only three feet of lime showing gas and saturation. Schlumberger survey was said to have shown saturation in last 150 feet to 7,699. The well is located 660 feet from the north, 1,980 feet from the west line of section 15, block A-55, public school land, on a seismograph "high."

Farther southeast in southwest Andrews, Atlantic No. 1 Texaco-University is drilling plug from 10-inch pipe cemented at 1,054 feet with 500 sacks. Total depth is 1,190 in redrock.

H. S. Forgeron No. 1 Lockhart & Brown, five miles west of the south end of the Fuhrman pool in Andrews, cored from 4,400-20, recovering 19 feet and six inches. Top part of core was red sand, then there was some lime showing oil, more sand showing gas, and bottom part was lime bleeding oil. Coring ahead was scheduled. Location is 660 feet out of the northeast corner of section 20, block A-41, public school land.

Gaines Kirk Area.
In the Kirk area, southern Gaines, Finley & Cherry and Sawyer Drilling Company No. 1 P. W. Dalmont, deepening from 4,783 where it swabbed sulphur water after 280-quart shot, had drilled this morning to 4,885 feet in lime, showing no change.

Three miles to the southeast, Landreth No. 1 Dalmont is drilling at 4,767 feet in lime. Standard rig replaced rotary when 4,741 feet was reached.

J. L. Frick and Osage Drilling Company No. 1 Atlantic-Riley, four miles northwest of the Seminole pool in central Gaines, is drilling at 4,575 feet in lime and anhydrite.

H. C. Wheeler No. 1 F. E. Gardner, west of the Means pool in Andrews, is shut down for orders after swabbing water with oil on last test. It is bottomed at 4,632, plugged back from 4,647, and has under-going treatment with 5,000 gallons. McKee at 6,909 feet.

Paris Ranks Eden as Best Dressed, Fairbanks Sr. Next on List of 10

PARIS (UP).—Anthony Eden, former British foreign secretary, heads a list of the world's 10 best-dressed men as named by an international group of men's tailors and shirtmakers with shops in Paris. The British statesman was unanimously selected as "outstanding in general appearance and tailoring."

His nine runners-up include two Americans, two South Americans, one Austrian, three Frenchmen and an Indian. They are:
Douglas Fairbanks, Sr.
Jean Dupuy, French newspaper owner and speedboat racer.
Gary Cooper.
Maharajah of Rajpipla, 1934 Derby winner.
Michel Detroyat, French aviator.
Senor Martinez Hoz, of the Argentine.
Charles Boyer.
Senor Georges Basiva Prado, of the Argentine.
Archduke Otto, pretender to Austrian throne.

None of the male best-dressers is conspicuous or eccentric in his sartorial ways. All of them, however, have a wide variety of suits and the majority of judges conceded that a man should have at least 20 suits to be well-dressed, although one of the world's most expensive tailors declared that "any man is well-dressed when he dresses according to his position."

Eden, though seldom seen by the public in anything but a morning coat and striped trousers, has always been regarded as a leader in men's hat styles. He has the advantage of having natural good looks and a "bearing" which is a tailor's inspiration. He is at all times dressed conservatively.

M. Jean Dupuy always buys three suits at a time of the same design and material—but in three different colors. He is fond of sports clothes and is perhaps the best-dressed on the list.

Gary Cooper and the Maharajah of Rajpipla are at opposite poles in the masculine fashion world. Cooper made the list be-

Safety in Numbers!
New Figures on Road Maps Help Drivers

New Conoco Maps Make You Think in Hours Instead of Miles

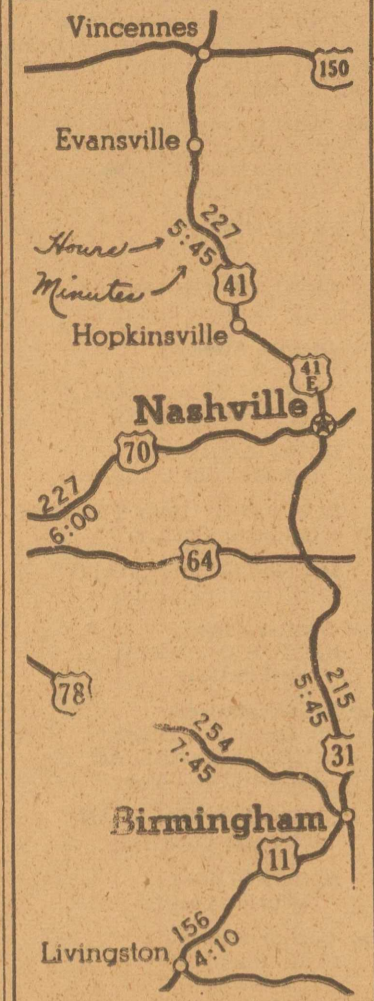

PONCA CITY, Okla.—Numerals that indicate the average driving time from town to town in hours and minutes have been added to United States maps issued by the Conoco Travel Bureau, America's largest free travel service which is maintained by the Continental Oil Company. This new automobile safety development is the most advanced road map improvement in recent years.

The new driving time figures, which are printed in red beneath each mileage figure, are expected to save the driver the trouble of calculating his own probable time and to encourage him to think in terms of reasonable time of arrival instead of the distance he has to cover.

Continental's driving time figures are the result of long investigation and careful checking of practically all of the well-travelled roads in the country. The hours and minutes as they appear on the new maps represent effective but reasonable speeds under normal traffic conditions and over dry roads.

In each case, consideration has been given to the nature of the route and to whether there are an unusual number of hills, turns or other features. For example, where a distance of 182 miles of flat straightaway in Arizona requires only 4 hours and 30 minutes at a safe pace, the same distance in the West Virginia hills requires 5 hours and 27 minutes.

The driver is expected to make allowances if he is in the habit of driving unusually fast or slow or if he encounters bad weather or heavy traffic. In test use, motorists seem to

have no difficulty in learning how much allowance to make after a few trials, and the easy calculation of the probable hour of arrival appears to set a standard that removes some of the uncertainty and makes for more comfortable driving.

course. Wilbur.

The town of White Cloud, Kas., is putting up a bronze slab May 22 to honor the two. For Pete was the first hog that ever put a leprosy child into a hospital.

idea Planted by Uncle.

Before Wilbur got Pete in the Kansas town, some years ago, Wilbur's "Uncle Will," William M. Danner, general secretary of the American Mission to Lepers, came to visit, and he told about the need of supporting leper colonies. He

was the one who said something about \$25 a year being needed to keep a leper in the hospital.

Wilbur couldn't sleep after he heard about the lepers, and when Uncle Will left, Wilbur didn't buy a baseball glove with the \$3 his uncle gave him.

Instead he put \$2 with it and bought a pig.

Wilbur's friends learned about the pig. They brought ears of corn and fed Pete scraps from their school lunches. Even older White Cloud citizens contributed to fatten Pete.

That's how the porker got to be a 250-pounder, which also explains why Wilbur got the \$25 to put Al Sam, a little leper boy, into the Chingmai hospital in Siam for a year.

That ends the story of "Pete the Pig," but the idea lived.

The office staff of the Sunday School Times got a metal "Pete." And every day they fed it "corn in the back" instead of corn on the cob.

The metal "Pete" thrived, too.

From this pig bank came about 100,000 other metal Petes. And from all the banks came more than \$1,000,000—contributed to leper hospitals.

That's why White Cloud is putting up a bronze tablet with an inscription honoring Wilbur and Pete.

Chapman, now a draftsman in a St. Paul engineering company, is going to travel back to Kansas for the unveiling.

From 15 Million To \$5.95 Relief

ST. LOUIS (UP).—Mrs. Samuel H. Leathe, 75 and white-haired, saw a fortune estimated at \$15,000,000 dwindle away in 30 years and learned one cardinal rule from the experience.

She passed the rule along to any other rich person whose money might take the same downward path as hers.

"No matter how much money you have, put some of it aside for future needs," she said.

Mrs. Leathe admitted she learned that lesson too late. Thirty years ago she was reputed to be one of the richest women in Missouri. Today she is living on \$5.95 a month which the relief administration allows her for food.

Bulks Large in Courts.
The decline of her fortune is written on page after page of court records in the files of law firms and accountants over the country.

Most of her money was in large blocks of real estate in St. Louis and Southwest Missouri. Her husband died in 1907 at the age of 84. He was a real estate man and an art collector. He left his entire estate to his widow, but there were 10 lawsuits pending against it.

Leathe asked Mrs. Leathe on his deathbed to settle all the lawsuits. She lost one in the Missouri Supreme Court which forced her to pay a claimant \$359,000; she lost another for \$190,000; another for \$30,000, and about 10 others for various amounts.

Settlements and payments took at least \$670,000 and she paid a number of large legacies and other claims against her husband's estate.

Credit of 2 1/2 Million Asked.
All of this, she said, was paid out of her personal fortune of more than \$2,000,000 on the assurance of the court she would be reimbursed when her husband's estate was settled. With interest and other disbursements she claimed credit for \$2,518,602.

Mrs. Leathe said she made her own money in business. She has kept old newspaper clippings with her statement that she realized a profit of \$800,000 on a 65-mile railroad which she once built on a main right-of-way from Eureka, Ill., to Chicago.

Every complication which could beset the administration of the estate occurred, she said. As a result of all of it the estate is still unsettled. Cases were appealed from one court to another. Records involving some of them vanished from the files of the Supreme Court in Jefferson City, Mo. Some of the real estate, she asserted, has never been accounted for.

She has an absorbing interest in the prosecution of her affairs, which she said, kept her young beyond her years. She stands erect, her eyes are blue and she still uses a judicious amount of makeup.

Only Your Mileage Merchant OIL-PLATES YOUR ENGINE

Do you need any reminder of what oil you bought? Not if it delivers smooth long mileage that you can't forget! Then here's the real big value of the little drain tag you get from Your Mileage Merchant: he marks it with your mileage today as you change to his patented Conoco Germ Processed oil, and then you can keep tabs on how far you go before you ever need another quart in your OIL-PLATED engine.

OIL-PLATING is exclusive with Conoco Germ Processed oil. The patent-guarded Germ Process forces this oil to "magnetize" on to the working parts in the form of im-

planted slippery OIL-PLATING. The parts that used to wear worst and make your oil "rub out" fastest, now possess this all-over, deep-seated OIL-PLATING. It can neither drain down while your engine is stopped, nor let loose in all the whirl of 4,000 revolutions a minute. Therefore OIL-PLATING, done only by Your Mileage Merchant, distinctly tells you why your Germ Processed oil and your car money won't be doing a "disappearing act." Continental Oil Co.

Plaque Honors Pig as Symbol Of High Cause

MINNEAPOLIS (UP).—A man named Chapman is going to travel about a thousand miles this month—all because of a pig.

The pig's name was Pete, and the man's first name is Wilbur.

When Wilbur was 10 years old, Pete was just a suckling. But 6 months later Pete was a big hog, weighing more than 250 pounds.

Wilbur sold Pete for \$25.

But all the same they're building a memorial to Pete and, of
