Sure, it's clean-up week until Midland is rid of its eye-sores. How are the papers on your vacant lots?

## Amoy Taken By Japanese Blue-Jackets

### All Americans on Island Reported Safe Early Today

SHANGHAI, May 12 (AP).—American blue-jackets today patrolled the small international settlement on Kulangsu island, off the South China coast as 1,000 refugees and soldiers poured in after the Japanese had captured nearby Amoy. All foreigners were reported safe.

SHANGHAI, May 12 (AP).—American authorities early today reported Japanese blue-jackets had captured the important port of Amoy, 600 miles south of Shanghai, driving the Chinese defenders off Amoy island where the city is situated.

The Japanese landing forces backed by warships anchored off the southeast Chinese coast, forced China's Cantonese detachments to retreat to the mainland.

Reports from Americans in Amoy said all United States citizens, including those on Kulangsu island—the principal foreign settlement—were safe.

The United States gunboat Asheville was standing by to evacuate them if the Chinese-Japanese conflict endangered their lives.

Fifty thousand Chinese refugees fled to the foreign settlements to escape bitter fighting in the narrow winding streets of Amoy. The American reports said there were no disturbances, however, on Kulangsu, which is half a mile off Amoy island.

The sudden Amoy attack, launched Wednesday, was Japan's first thrust into South China. Chinese declared it was aimed to prevent the flow of munitions, men and supplies from the south to central China, where Japan's war machine is stalemated with bitterly resisting Chinese armies.

The gunboat Asheville carried a complement of 40 marines and at least 50 blue-jackets ready for service.

United States authorities said the 7,040-ton cruiser Marblehead was standing off at sea between Manila and Hongkong to proceed to the scene if necessary.

Earlier Chinese reported today their forces had counter-attacked in an attempt to drive Japanese from the outskirts of Amoy.

During the day, 14 Japanese planes were said to have flown over Amoy, dropping bombs which started fires. Schools were turned into refuge centers, and other public buildings saw service as hospitals.

Along with the drive of Amoy, Japanese announced they had renewed their general offensive on the central front.

## Hamilton, Partner Steal Auto Today From Terrell Man

DALLAS, May 12 (AP).—Two fugitives, one a brother of the late Raymond Hamilton were identified by a Dallas salesman as the pair which commandeered his car at Terrell early today.

W. J. Farley picked out the photographs of Floyd Hamilton and Ted Walters as the men who forced his machine to the curb in Terrell and commandeered another automobile after leaving him in Dallas.

Hamilton, Walters and Ervin Goodspeed, later captured, fled the Montague jail recently after stabbing the jailer.

## Lump-Sum Claims for Old Age Insurance Now Being Approved

EL PASO, May 12 (AP).—Lump-sum claims for federal old-age insurance are now being approved by the Social Security board at the rate of one every 30 seconds of each working day, according to David S. Pruitt, manager of the El Paso office of the board.

During the first 19 days of April, claims were certified for payment by the Washington offices of the board at the rate of approximately 740 per day, of which 436 were death claims. The remaining 304 were filed by workers reaching the age of 65.

"The average lump-sum payment at the present time for the country as a whole," Pruitt said, "is approximately \$33. The size of these payments is increasing steadily, since they are based on total wages received from covered employment since January 1, 1937."

A lump-sum benefit payment represents 3 1/2 per cent of total wages received from covered employment since January 1, 1937, and up to attainment of age 65 or death. Pruitt said all office managers have been instructed to explain to wage earners the lump-sum claim procedure and to assist those who are eligible to file applications for these benefits.

"The procedure," he said, "is very simple. The claimant is usually requested to file one brief form at the nearest field office of the board. Ordinarily, the only information required is the claimant's name and address, the name and address of his employer, date and place of birth, his social security number, and the amount of wages received."

## More Light on Great Hitler Baby Picture Hoax

The picture at the right shows plump 2-year-old John May Warren squinting at the sun. . . . At left is the retouched photo of Johnny that came back to the United States from Austria by way of England and was widely published as a baby picture of Adolf Hitler.

By NEA Service.

CLEVELAND, May 12.—Freckle-faced Johnny Warren is getting pretty tired of the kids razzing him about Adolf Hitler.

He wishes his schoolmates would just forget about the picture which sent Der Fuehrer into a sputtering rage five years ago, and which still remains the center of an international mystery.

Here's how it happened: In 1933 a photograph purporting to be that of Hitler at a very early age was widely published in the United States. The baby in the picture wasn't a pretty baby. In fact, he looked like a most terrifying brat—obviously a very tough customer at a very early age.

Herr Hitler was made very unhappy by the picture, because it really wasn't Baby Adolf at all. The German government obtained a true picture of Hitler as a baby and sent it over here to be published. The newspapers all said they were sorry, but they didn't know how it happened or the identity of the baby whose picture they had published.

Now it has been discovered who the baby was—none other than John May Warren, now a husky 8-year-old who lives in Lakewood, a suburb of Cleveland. It was a picture of Johnny at 2 years of age which had been published as that of Baby Hitler. But the picture wasn't the real Johnny.

Someone, identity unknown, had obtained a copy of a picture of baby Johnny with his pudgy face all screwed up as he squinted into the sun. Then that same somebody had retouched the snapshot so that Johnny's babyish squint was turned into a diabolical growl.

Somehow—and that's the mystery—the picture got into Austria. Next, the photo was printed by a Dutch paper, which obtained it from an Austrian source which is believed absolutely reliable. The London Daily Herald obtained the picture from the Dutch paper and

printed it, after which the photo came to the United States through regular newspaper channels as an authentic picture of Hitler as an infant.

How did the picture get to Austria? Who was the culprit?

## Forgeron Andrews Wildcat Has Porous and Saturated Lime Cores

By FRANK GARDNER.

Porous and saturated cores in H. S. Forgeron No. 1 Lockhart & Brown today bolstered hopes of a new discovery in Andrews five miles west of the south end of the Fuhrman field. Yesterday, the well had shown some staining and porosity in core from 4,405-23 (previously reported 4,400-20); core from 4,424-43, of which 18 1/2 feet were recovered, had good porosity and was bleeding oil; and latest core pulled—that from 4,445-63—with 18-foot recovery, was coarsely porous lime and sand showing good saturation.

At noon today, the test was coring ahead below 4,463. It is located 660 feet out of the northeast corner of section 20, block A-41, public school land.

H. C. Wheeler No. 1 F. E. Gardner, two and a half miles west of the Means pool in Andrews, was still shut down for orders, bottomed at 4,632 feet. It had swabbed water and oil through casing on last test.

No report other than that it was drilling below 7,780 feet in lime was available today on Frank S. Perkins at No. 1 Cowden, southwest Andrews deep test. It had shown some saturation and slight porosity in three feet recovered of a core from 7,681-89, and odor of oil but no porosity in the seven feet pulled after coring from 7,700-20.

Eastland Well Coring. Eastland Oil Company No. 1 Dunbar, in southwest Gaines, was reported coring ahead below 4,483 feet in lime after drilling plug from 7-inch casing set at 4,280. Leaky casing seat had delayed drilling of plug, forcing additional cement jobs. No test was made before coring was started, but operators said the hole would probably be tested after first core had been pulled. Early acidization was planned. The well has shown intervals of saturation and porosity in the bottom 100 feet in

drilling to 4,483. It is in section 24, block A-12, public school land.

Finley & Cherry et al No. 1 P. W. Dalmont, in southern Gaines, had drilled to 4,910 feet in lime without change and was going in hole to take a core. Three miles to the southeast Landreth No. 1 Dalmont is drilling at 4,797 feet in lime.

J. L. Frick et al No. 1 Atlantic-Riley, test four miles northwest of central Gaines' Seminoole pool, is drilling at 4,620 feet in anhydrite and lime, with top of solid lime expected soon.

Atlantic No. 1 Texaco-University, in southwestern Andrews, is drilling at 1,310 in redrock.

New shallow test in Culberson had been staked, it was learned today. It is L. G. Sheddan et al No. 1 Isaacs, in the center of section 25, block 52, public school land. It is over 12 miles northwest of shallow wells in the Toyah pool in Reeves.

Magnolia No. 1-A McKee, in north Pecos, was drilling shortly before noon at 6,038 feet in gray and brown lime. It is still in the Simpson, middle Ordovician.

Humble No. 1-B Tubb, southeast outpost to the Tubb pool in western Crane, cemented 7 5/8-inch casing at 4,214 with 250 sacks and is waiting for cement to harden. Total depth is 4,230 in lime.

In eastern Crane, Magnolia No. 1 University was shot with 200 quarts from 3,264 to 3,325 and is cleaning out. It has been plugged back to 3,380 to shut off bottom-hole water.

Yoakum Wildcat. Gulf States No. 1 Gulf-Graham, northeast Yoakum wildcat, had shown nothing as it cored to 5,261 feet in lime.

In central Yoakum, Magnolia No. 1 Webb was preparing to shoot, bottomed at 5,400 feet. It plugged back from 5,639 after showing sulphur See (OIL NEWS) Page 8

Johnny Warren today, 8 years old freckle-faced and resembling stern Adolf Hitler not a bit.

Someone knows the answers, but he's not telling. Johnny's mother, now Mrs. Carl Downs, found out about her son's part in the mixup just the other day when she saw the "Hitler version" of her baby's picture reprinted in a magazine. She can't explain it. All she knows is that the picture was taken when the family lived in Westport, Conn., and in the same manner that millions of other proud parents have pictures taken of their young hopefuls.

In any event, Johnny is a right handsome boy now, and certainly doesn't bear any resemblance to the Nazi Fuehrer. And if people will just forget about the Hitler business, Johnny will be happy.

## East Texas Oil Men Protest Action of Railroad Comm.

GLADEWATER, May 12 (AP).—A threat to seek federal regulation of the Texas oil industry if the railroad commission "doesn't change its tactics" was projected last night by independent oil men protesting the shutdown of nearly all Texas fields on Saturdays and Sundays this month.

The possibility of a court test of the commission's order also was suggested at a meeting termed by John C. Schroder, president of the East Texas Independent Petroleum association "the second of a series of mass meetings to acquaint people with conditions in Austin."

Schroder said the "little oil men will have to ask the federal government for aid in obtaining equality and fair treatment if the Texas Railroad Commission doesn't change its tactics."

He charged the East Texas field had been discriminated against since the first Sunday shutdown order of Nov. 15, 1937.

Schroder said 62 Texas fields had been given increased allowances "while we East Texans are held back."

The commission's order was inspired by the threat of crude price slashes due to excessive stocks of gasoline and slackened consumption, it reported.

Otto Staerker, Gladewater, city commissioner and manager of an estate owning about 100 wells, said he would not "shut down my wells on Saturday and Sunday until the railroad commission forces me to and then there will be a court test."

Schroder charged pipe lines were "reducing oil prices in Kansas and they are likely to try the same thing in East Texas."

"The railroad commission is using the market demand law to transfer the production rights of Texas to other Texas fields," he said. The major companies did not "care," they obtained their oil "from other fields."

Karl Crowley, candidate for governor, said the East Texas situation was the "effect of monopolies seeking to force the independents out of business."

## SERIOUSLY ILL

Mrs. E. E. Stevens, for many years a resident of Midland, today was reported to be in a serious condition in a Crockett hospital. She has undergone two blood transfusions recently that caused a slight improvement.

## FOR TREATMENT.

Mrs. J. C. Miles entered a local hospital today for medical treatment.

## HAS TONSILLECTOMY.

Miss Dorothy Hines underwent a tonsillectomy at a Midland hospital this morning.

## DOING WELL.

Mrs. D. M. Ellis is reported to be doing well today following an appendectomy at a Midland hospital earlier in the week.

## New Tax Act Sent to FDR By the House

### GOP Attempts to Defeat Measure Are Beaten Down

WASHINGTON, May 12 (AP).—The new tax bill, reducing the much-created undistributed profits tax to a tattered remnant of itself, received final congressional approval Wednesday but House Republicans opposed that remnant to the very end.

"You are leaving in this bill," asserted Representative Treadway of Massachusetts, ranking minority member of the ways and means committee, "the seed of what may spring up again to injure business."

"We have done our dead level best," said Representative Vinson, (D-Ky.) an administration tax spokesman, "to bring to the House a bill that will be helpful to business."

The House adopted—242 to 89—a compromise conference report on the tax bill. The measure now goes to the White House for President Roosevelt's signature.

The bill, re-enacting much of the existing law, is estimated to yield revenues of \$5,000,000,000 annually. It exempts corporations with incomes of less than \$25,000 from the tax on undistributed profits. Corporations with incomes above that figure would pay an income tax of 16 1/2 per cent if all profits were retained. For a partial disbursement of profits the rate is graduated between the 16 and 19 per cent figures.

By comparison, under the present law—upon which business has laid a major share of the blame for the present depression—all corporations pay a tax of eight to fifteen per cent on their earnings, and an added 12 1/2 to 16 per cent on such portions of those earnings as are not converted into dividends.

While the smaller corporations are exempted by the new law from the operations of the undistributed profits tax, they are required to pay a flat corporate income tax of 12 1/2 to 16 per cent, graduated in accordance with the extent of their profits.

The new bill also drastically revised the tax on capital gains, which also has been blamed for depression hits. Instead of the present graduated tax on capital gains, it would impose the regular income tax rates upon gains from assets held no longer than 18 months. A flat 20 per cent would be levied upon gains from assets held from 18 to 24 months and a 15 per cent rate would be applied to gains from assets held longer than two years.

## Railroad Workers Notified Salary Cuts Due July 1

WASHINGTON, May 12 (AP).—The management of principal railroads notified employees today it intended to reduce basic wages 15 per cent July 1. This action, the statement said, had been compelled by conditions now confronting the railroad industry.

## Engineers' Day at Exposition Is Set

Engineers' day at the International Petroleum Exposition, at Tulsa, May 20, according to invitations sent to Midland oil men. Fourteen engineering and scientific societies will have exhibits in the hall of scientific publications.

W. C. Fritz, secretary of the West Texas Geological Society, received an invitation asking all petroleum geologists to attend the exhibit. As an added attraction, a buffet luncheon will be served in the lower floor of the Exposition cafeteria at 1 o'clock p. m. George Bays, engineer of the Stanolind Oil and Gas Co., has been named host of the day.

Midland men planning to attend that phase of the Exposition include James FitzGerald and R. H. Knox.

## Money for Odessa PO Is Increased

ODESSA, May 12.—Fifty-five thousand dollars has been added to the original \$75,000 appropriation by the treasury department for the construction of a postoffice here, Congressman R. E. Thomson of El Paso advised the Odessa News-Times, Wednesday.

The \$130,000 building is expected to be one of the finest in this section of West Texas. The additional amount is to be included in the emergency relief and public works appropriation bill now under consideration, Thomson said.

## 2 Rowena Men Lose Lives in Collision

HENDERSON, May 12 (AP).—Deputy Sheriff Fred Helveston of Rusk county was found dead in his wrecked automobile today two miles from Overton on the Henderson highway.

BALLINGER, May 12 (AP).—Ed Kunkel and L. B. McCoy, both of Rowena, were crushed to death today in an automobile-truck collision six miles west of here. Dean Young, driver of the truck and J. R. Cotton, both of an Angelo, suffered minor injuries.

## Pecos Man Dies in Wreck in Oklahoma

DURANT, Okla., May 12 (AP).—Ernest Marler, 30, Pecos, Texas, was killed today when the automobile in which he was riding overturned at a curve a mile west of Bokchito, 16 miles east of here.

## TO SAN ANGELO.

Mr. and Mrs. J. Gordon Bird and daughter left this afternoon for San Angelo.

## FROM MONAHANS.

Mrs. John Edwards of Monahans was a visitor to Midland Wednesday.

## Selassie Demands Review of Italy's Ethiopian Conquest

### Building Bows to Cameraman

### Would Mean Defeat of New Pacts

### Assembly Is Known To Be Unfavorable Toward Recognition

GENEVA, May 12 (AP).—Ethiopia's fallen emperor, Haile Selassie today demanded the question of recognizing Italian conquest of his African empire be taken to the league assembly.

The demand, if successful, would wreck the Anglo-French plans to recognize King Emanuel of Italy as Emperor of Ethiopia, for many members of the assembly are against such recognition.

Haile Selassie, too ill to speak, sat at the league council table while his representative read his speech.

After listening in silence to Britain's foreign secretary, Viscount Halifax, announce Britain wanted to give even his title to Italy, Selassie told the council he had come to Geneva to "defend my people."

Selassie's fight to save the last, legal trace of claim to his toppled Ethiopian throne, however, appeared crushed under the weight of British and French influence.

Two of his backers, China and Soviet Russia, decided not to oppose Anglo-French efforts to win the league's permission to recognize Italy's conquest of Ethiopia—a necessary preliminary to French and British friendly pacts with Italy.

Besides the bitter Spanish and Ethiopian questions, two other sharp issues were raised at the council meeting. They were:

1. The threat of Dr. Agustin Edwards, Chilean delegate, that Chile would withdraw from the league, taking other nations with her, unless her demands for reform of the league covenant were acted on.

2. Switzerland's insistence on complete neutrality—freedom from all obligations as a league member—by a "special exceptional statute."

## South Elementary School to Present Program Tomorrow

South elementary school will present a three-part program Friday as second in the series of commencement exercises. The program will be presented twice, Friday morning for the benefit of pupils in the city schools and Friday evening at 7:30 o'clock for the general public. Both performances will be at the high school auditorium.

The high point in the presentation will be an operetta, "Rumpelstiltskin" by Bert Elsmith.

Part one of the program will consist of numbers by the rhythm band and folk dances, while part two will include declamations and the invocation.

The public is invited to attend the evening presentation.

## Britain to Have 3500 Planes for War Service Soon

LONDON, May 12 (AP).—The Chamberlain government replied today to bitter charges its aerial rearmament program was lagging with a promise Britain would have nearly 3,500 first line warplanes by March, 1940.

This would double the previous objective of 1,750 first line planes in service by March 1, 1939.

## Money for Odessa PO Is Increased

ODESSA, May 12.—Fifty-five thousand dollars has been added to the original \$75,000 appropriation by the treasury department for the construction of a postoffice here, Congressman R. E. Thomson of El Paso advised the Odessa News-Times, Wednesday.

## Selassie Demands Review of Italy's Ethiopian Conquest

### Building Bows to Cameraman

### Would Mean Defeat of New Pacts

### Assembly Is Known To Be Unfavorable Toward Recognition

With two upper windows looking like staring eyes and its lower ones giving an impression of snagle-toothed alarm, this old factory was caught by the camera as it crumpled to earth in a fire which ended its long existence as a Kensington, Conn., landmark. Shortly after the building had been bought by John Carl, of New Britain, as a liquor storehouse, he extinguished a small fire in it, returned next day to find it uncontrollably ablaze.

## South Elementary School to Present Program Tomorrow

South elementary school will present a three-part program Friday as second in the series of commencement exercises. The program will be presented twice, Friday morning for the benefit of pupils in the city schools and Friday evening at 7:30 o'clock for the general public. ## Behind the Scenes in Washington

Editor's Note: The opinions expressed in this article are those of Mr. Dutcher, NEA-Reporter-Telegram Washington correspondent, and are not to be construed as expressing the editorial policy of The Reporter-Telegram.

WASHINGTON, May 12. — Senator Claude Pepper's huge victory in the Florida primaries has set politicians of all factions to wondering whether the size of the Pepper vote can be considered an isolated phenomenon, unrelated to the possible trends in other areas, or whether it is a harbinger of further victories for administration favorites in a year when interest in November's result is, at least for the time being, subordinated to concern over the fate of New Deal and anti-New Deal Democrats at the hands of the voters.

The Florida primary was the 1938 primary season's first clean-cut contest between pro and anti administration forces, but there were few if any politicians in Washington who had any idea that Pepper would run ahead of the com-

bined vote of his four opponents. Pepper enthusiasts were resigned to the belief that the senator would have to engage in a runoff primary with which ever of his opponents drew the largest vote.

The size of his majority is considered by many in connection with the fact that Congressman Lister Hill, also running as a New Dealer and a friend of wage-hour legislation, previously had mopped up in Alabama's senatorial primary. Florida and Alabama have had the only senatorial primaries in the South this year. The unmistakable evidence that progressives can be nominated and elected in the stronghold of conservative Democracy provides a large kettle of food for political thought and speculation.

### Much Money in Campaign.

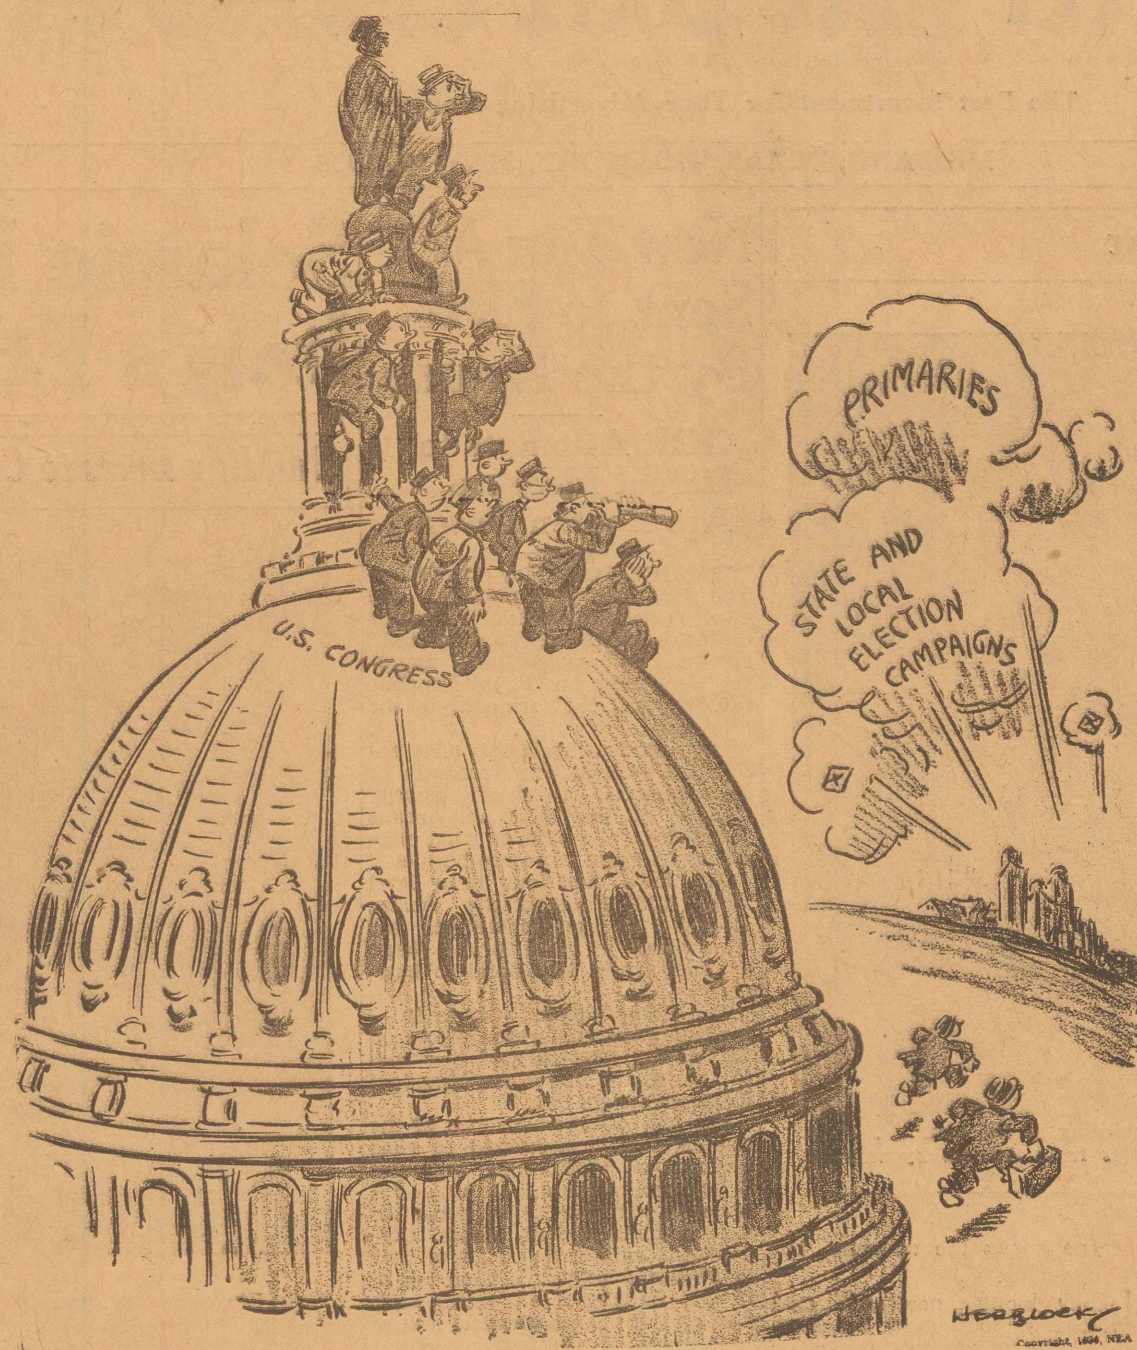

CHARGES have been made that a great deal of money was poured into the campaign to beat Pepper and that the WPA was flagrantly prostituted in the New Deal effort to renominate him. If you assume that either or both charges were true, you must also assume that the same factor or factors will carry weight in other state primary campaigns this year. Incidentally, New Dealers who were working feverishly behind the scenes for Pepper complained that they had little or no help from National Chairman Jim Farley, who had been counted on to dissuade former Governor Dave Sholtz from entering the primary, but had failed to do so.

### No Wage-Hour Significance.

THE Pepper victory was by no means part of a far-flung endorsement of wage-hour legislation, since congressmen in Alabama and Indiana won renomination generally, regardless of their positions on that issue or any other.

This failure of Democratic voters to oust any of the "ins", irrespective of the degree of support they have given various administration measures, is a curious phenomena—

## The Call of the Great Outdoors

It clear that he knows there is such a street in Amarillo.

But since State Press has taken the trouble to add his own slant to the comment on pretty legs, I will reprint his deductions, meanwhile reiterating that I gave Gene Howel credit for the treatise and claimed no opinion of my own in the matter. Said State Press:

Is there a Polk street in Midland? We know there is one in Amarillo, and right nice street it is, too. Also we know that the wind at Amarillo can frolic with the ladies' skirts and bring blushes to the ladies' cheeks. But we never thought of writing a piece about it. We never thought of describing the wind in terms of legs. That wouldn't have occurred to us, although our visits to Amarillo have been few enough to make the Polk street experience memorable. Even now we doubt if the Midland Reporter-Telegram person wasn't drawing more on his imagination than on his point of view. Most of the ladies of Midland and Amarillo travel their home streets in cars, not on foot. Pedestrians are relatively rare. But a good writer can sit at his desk and compose pieces out of his mind's eye rather than out of his regular eyes. Our suspicion is that the Midland contemporary did that. The wind does not blow boisterously with skirts housed in automobile. Moreover, the literature of legs is scant. None of the immortals of the pen made legs his motif. It remained for a Midland journalist to challenge the age-old tabu and add bravura to his opus.

Addison Wadley is having a lot of explaining to do today as to how come the gash on his head. He maintains he has told the same story each time as to how it happened, but I have heard three or four versions of it second-handed. Anyhow, the doctor who was on the trip to Lake Caddo did a neat job of applying the bandage. Some say it took place in a special car chartered by the Dallas Salesmen's club and Wadley was a guest.

## Elviry of the Hill Billies Advises

ELVIRY SAYS: Hollywood, Calif. . . . There is some that allows that hound dog is a body's best fren' an' I don't say a word again' it. Nuthin' better'n a dog fer treatin' a Possum. But I recollect Granpappy Squiffy wouldn't have no truck with no dog. Fer he had a pet hen, Cleopatry. Some sez hens is stupid as a wood tick. But not Cleo. Why that fowl followed Granpa all over the house.

One week she done a thing that made Granma the proudest critter on Goozenbille Ridge. All by herself she laid seven eggs in five days so she could have her week-ends for her own and . . .

"Follar me and the Weaver Brothers to see our picture, 'Swing Your Lady' which is a-coming to the Fucie The-ater Friday and Saturday."

previously noted in the Illinois primary results—in the face of widespread belief that large masses of voters are disoriented. It raises doubt whether any of the conservative Democratic members whom New Dealers would like to defeat this year—such as George of Georgia, Smith of South Carolina and Tydings of Maryland—can be dislodged from their seats.

Van Nuy of Indiana, a Democrat who helped lead the fight against the Supreme Court plan, has been forced to run for re-election as an independent—a doubtful expedient in political-minded Indiana. But that's because of his troubles with the McNutt-Townsend machine rather than any effort from Washington.

## Machine Uses Friction Fuel

ST. PAUL (U.P.)—Friction, bugbear of many an inventor, has been harnessed by Arthur Lazarus, of St. Paul, and may be put to work with results that Lazarus believes will be "amazing."

Lazarus, working in his home workshop, has developed a machine in which friction takes the place of coal, oil or gas to produce low cost heat for homes.

The St. Paul inventor displayed U. S. Patent No. 2,090,873 and forecast the day when his friction machine will:

Heat an average home for less than \$5 a month.

Provide limitless hot water for less than \$1 monthly.

Possibly provide low cost energy for generating steam power.

Supporting his contention that he "has something," Lazarus exhibited a working model of his machine for turning mechanical energy into heat, and a copy of a trade magazine which selected his device for comment as one of the noteworthy patents of the year.

The new heating unit consists of a hollow cast iron cone, with external heat radiating fins. This unit is bolted into a boiler. Within the hollow cone is fitted a motor driven drum, shod with special heat and wear resisting lignum vitae.

The entire device can be operated with a small electric motor, Lazarus said, at extremely low cost. The friction generated by the revolving cone is the only "fuel" required.

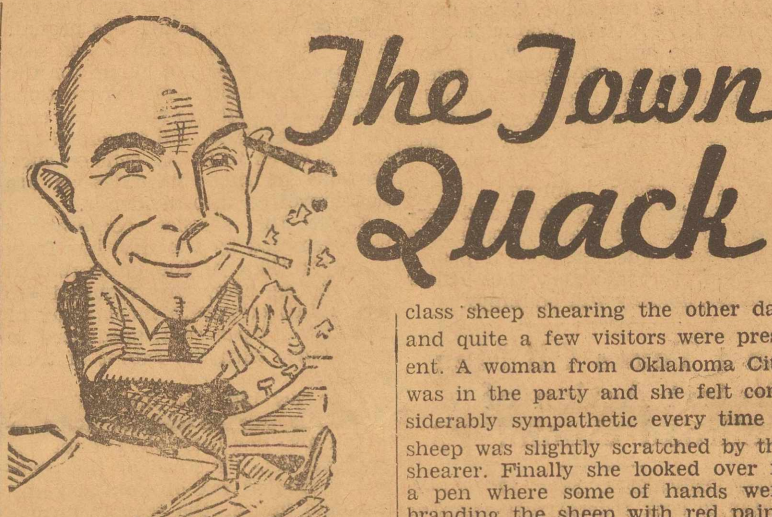

A 1/3 horsepower motor, operating on a part time basis, keeps a 50 gallon tank of water constantly at any desired temperature in the working model.

Lazarus believes his device is superior to any present heating element. He ascribes to it freedom from fire hazard, freedom from gas, smoke, dirt and noise.

### Knot Untied, Quickly Retied.

SAN FRANCISCO (U.P.)—At 10:10 one morning, Mrs. Melva M. Berry was granted an annulment of her marriage to Frank A. Berry. At 10:25 the same morning she was remarried to Berry. She had married Berry in 1933 only to discover recently that at the time of her marriage, her divorce decree had not become final.

Mary, Queen of Scots, became a queen at the age of one week.

Finger printing is not as new as nose printing, according to Little George McEntire. He says the nose prints of Chas. McCann and J. D. Dillard were found all over the window of the nursery room of a Midland hospital yesterday. I well remember a few months ago when I visited that hospital at midnight to see some wreck victims. There stood Little George with his nose pressed against the window of the nursery, looking fondly at his baby.

Donald Hutu who has been in the sheep business for several months now, was pulling off a first

class sheep shearing the other day and quite a few visitors were present. A woman from Oklahoma City was in the party and she felt considerably sympathetic every time a sheep was slightly scratched by the shearer. Finally she looked over in a pen where some of hands were branding the sheep with red paint.

"Oh, look at those nice cowboys," she said. "They're putting mercurochrome on those poor scratched sheep."

One thing I pride myself on, when I steal somebody else's stuff, is to give them credit for it. Recently I clipped a part of Gene Howe's column, in the Amarillo News-Globe, in which he recounted his observations of pretty girls and pretty legs over on Polk street, on a windy day, and I surely made it plain that Howe was the one who saw and said at this. And now comes State Press, in the Dallas News, and reprints the dope from my column, somewhat questioning the fact that there is a Polk street in Midland and making

### HUBBERS TAKE LOOSELY PLAYED SLUGFEST FROM CARDINALS, 19-14

LUBBOCK, May 12. (Special). — The Lubbock Hubbers unleashed their heaviest hitting attack of the season here Tuesday to win a 19-14 batter featured by 38 hits and 11 errors.

The Hubbers made a total of six runs and four doubles in winning the second game of the series and their fourth straight over the Cardinals. The Cardinals did some heavy slugging on their own account, getting two home runs, two triples and four doubles.

Charley Bryan started on the mound for the winners and held the visitors scoreless until the fifth inning. Meanwhile, his mates had landed on Neighbors of the Cardinals for one run in the first, three in the second, two in the third and four in the fourth. Neighbors suffered a recurrence of a back injury received in Hobbs and was relieved by Warren in the last of the fifth. The Hubbers immediately

hopped on the Indian for three runs in the fifth, five in the sixth and two in the seventh.

The Hubbers called on three more hurlers after the Cardinals drove Bryan from the mound in the fifth with six runs and none was especially successful in halting their attack. The Red Birds made four more in the sixth, one in the seventh and three in the eighth.

Shortstop Cliff Battles joined the Cardinals and came through with a couple of triples during the game. The battle was dragged out over three hours and had as an added feature much bickering by managers Miller and Withers with the umpires.

Home runs were hit by Watkins, Stevens, Carr (2), Mize, Hilton of the Hubbers and by Brown and Ballinger of the losers. Doubles were hit by Stevens, Hilton (2) and Gedzius of the winners, Warren (2), Nelson and Larrieu of the Cards.

## Alcatraz Guards Have to Be Good; One Mistake Is One Too Many

This is the last of three stories on "Guarding Alcatraz," written by Capt. A. R. Archer, former guard on "The Rock."

BY CAPT. A. R. ARCHER. (Former Guard at Alcatraz Prison). SAN FRANCISCO. — To the workward-bound guard who hurries sleepy-eyed at 6 o'clock on a cold, foggy morning to catch the prison launch at the Fort Mason docks, "The Rock" is a desolate sight. You cannot rub shoulders every day with misery, despair, and hate, without absorbing some of it into your own system.

The men at Alcatraz who are responsible for the safe custody of the country's one-time big-shot racketeers, gangsters, and hoodlums, are a unique body of men. I believe they are the most efficient custodial service in the world. They come from all walks of life, and the present roster of guards at Alcatraz includes such diverse people as these: Railroad engineers, cowboys, electricians and machinists, carpenters, plasterers, radio operators, pharmacists, jewelers, cooks, farmers, sheet metal workers, former prizefighters, a former Royal Northwest Mounted policeman, and one former high school principal.

There are also a missionary of the Mormon church, a Methodist minister, and one former carnival barker and magician. What the last-mentioned gentleman can do with a pack of cards or three walnut shells and a pea on a payday will never be forgotten by some of the Alcatraz guards.

Their Nicknames. CONVICTS who lose their liberty do not always lose their sense of humor, and their insight into other people's weaknesses is no less keen because they have lost sight of their own. The convicts have nicknames for most of the guards, or "screws," as they are known in the underworld.

No one at Alcatraz would be at a loss for a moment to know who was meant by "Gracie," "King Kong," "Frankenstein," "Tug-Boat," "Tuffy," "Double Tuffy," "Fog Horn," "Bucket-Mouth" or "Needle-Nose."

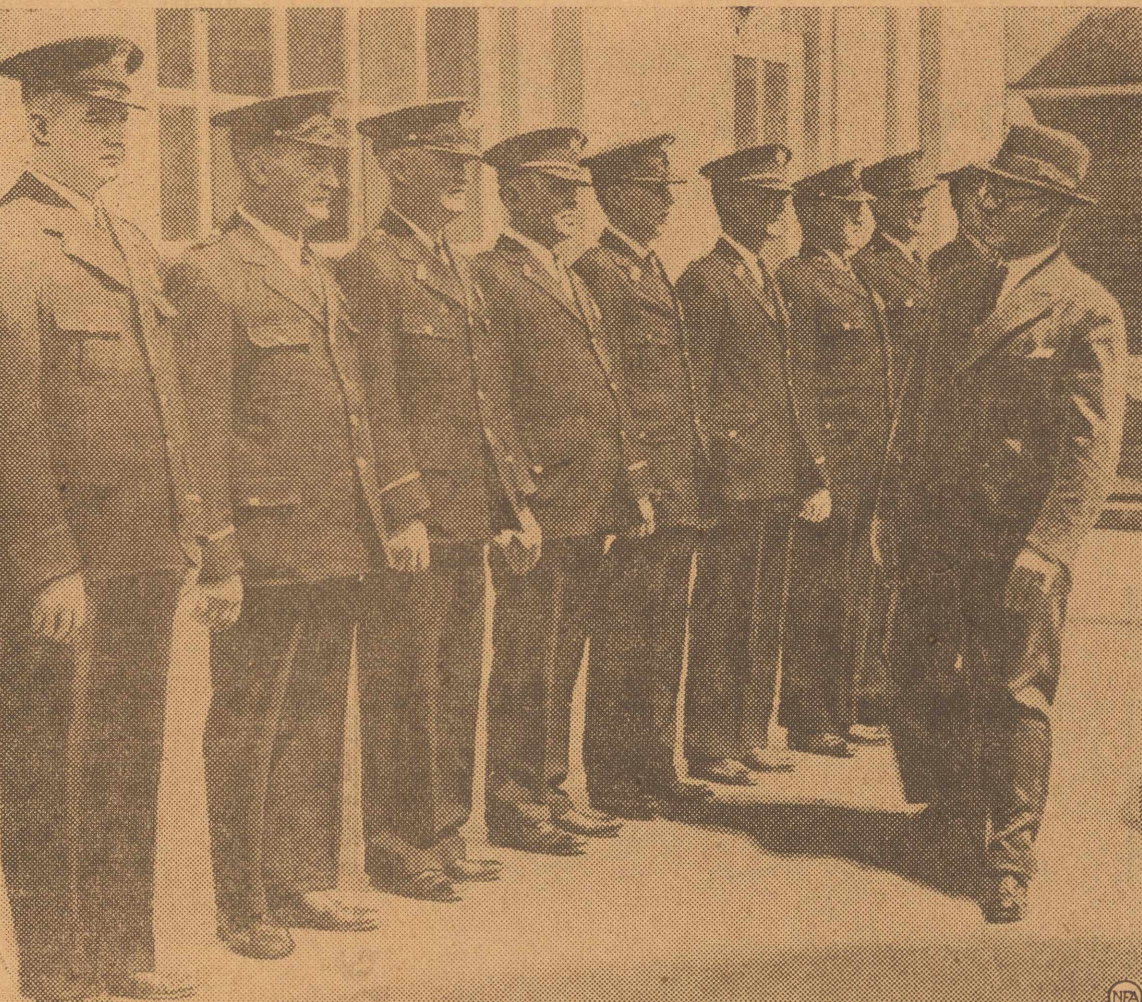

The "cons" also describe the prison launch McDowell as "the fastest boat in the world; it takes you so far in 10 minutes that it may take you 20 years to get back."

The standard set up by the Department of Justice for its prison guards insist on "leadership, courage, initiative, resourcefulness" and other attributes of super-men. I wouldn't claim that this ideal is entirely attained, but the Alcatraz guards are an unusually high type of men for the work. Efforts by prisoners to "get to" the guards for special favors have proved so useless that it is seldom even tried any more.

Their Recreation. An old army post exchange has been converted into a recreation hall where the guards and their families gather when the day's work is done, to play cards, dominoes, or bowl. There is also a gymnasium.

Target practice is held Saturday and Sunday afternoons, and every evening, when the convicts are in their cells. Every guard is expected to qualify in the use of the Tommy gun, .45 pistol, Browning automatic rifle, Springfield rifle, gas riot gun, and sawed-off 12-gauge shotgun.

The targets are in line with the buildings in which are the prison industries, the concrete walls of

Warden James Johnston reviews a group of Alcatraz guards—men charged with keeping in check some of the world's hardest-nosed criminals. Capt. A. R. Archer, who wrote the accompanying article, is a former Alcatraz guard.

which are pock-marked with stray bullets. Occasionally a Browning or Tommy gun gets out of control in the hands of a new guard.

Their Residences. WORKING conditions for guards approach the ideal, but living quarters leave much to be desired. There are 19 houses, in which 24 families live.

Most of the families live in the "Apartment Building," a converted army barracks, through whose paper thin walls noise passes unimpeded. The apartments rent at \$3 a room, with free light, gas or coal to cook with, and all the water you can drink.

No liquor is allowed anywhere on the island, so the guard's icebox contains nothing out food. A commissary is maintained at which staple foods are available at low prices.

Transportation to and from San Francisco for those who live off the island or go to enjoy "days off," is by use of the army steamer Gen. Frank M. Cox and the prison launch McDowell.

And the Weather. THE seasons are badly-jumbled on Alcatraz. Winters comes in June, July and August, when keen, cold winds sweep "The Rock." September, October and part of November bring beautiful days, but the rest of the year anything may happen.

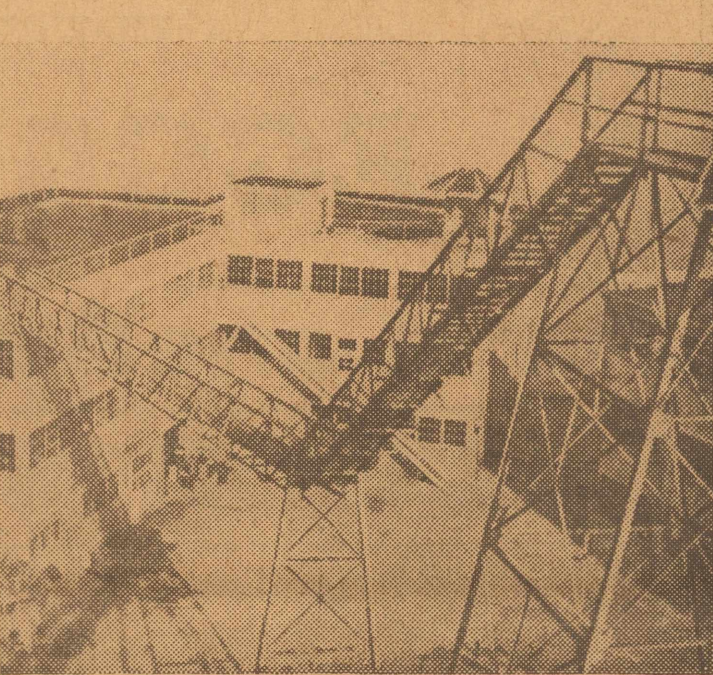

When it rains, which is seldom, it does the job up brown, whipped along on a howling gale parallel to the ground. In addition, fog is likely to come rolling in from the Golden

Gate at any time — black, damp, impenetrable fog.

On such an evening, the lighted windows of the prison glow yellow in the fog, and the six rays from the island lighthouse strive vainly to pierce the gloom.

There, reclining on the cots in their cells, reading and smoking, lie America's toughest former public enemies, listening to the island's foghorn beneath their windows mournfully crying "WhoooooOOO."

THE END.

One of the catwalks at Alcatraz. Walking their beats on these, guards keep close tab on activities of prisoners around the Alcatraz grounds.

Rules Suggested on State Track Meets. AUSTIN. — The state meeting of delegates of the University of Texas Interscholastic League, held the closing days of the twenty-eighth annual meet of the League, adopted a report of a committee named by R. E. Price of Nacogdoches, on financial matters of the League's thirty-one district meets and recommended it for consideration of the state executive committee. Other recommendations follow:

Rule making pupils of junior high school ineligible under one-year rule in any school outside of school system of which the junior high school is a part.

Adoption of "Retail Sales Tax" as debate subject for 1938-39 League debates.

Incorporation of the following rule in track and field rules—"Use of an ineligible contestant in a League track and field meet shall disqualify the team from participation in the next higher meet."

Exemption of training school pupils from operation of both "transfer" rules in case transfer is made to a high school in a district in which parents of pupils reside. Teachers college training school pupils to any training school of a higher educational institution.

4 New Courses to Be Offered at the Univ. AUSTIN. — Four new courses not previously given are listed for the 1938-39 long session in the School of Business Administration catalogue just published by the University of Texas. Dr. Watrous H. Irons will teach a course in current financial developments, Dr. J. R. Stockton will offer one on "index numbers in business," Dr. J. A. Fitzgerald, dean of the school, will offer one on liability insurance, and a course on marketing of Texas raw materials other than cotton, will be taught by W. A. Neillander, associate professor.

Jesse Owens Aids "Y." CLEVELAND, (U.P.). — Jesse Owens, the "world's fastest human" helped the Cleveland Y. M. C. A. get off to a fast start by pledging support to its Forward Movement campaign, designed to increase the facilities of the local organization.

### Car Registrations in State Decline

AUSTIN. — New automobile registrations in Texas during April declined sharply below those of both the preceding month and the like month last year, according to the University of Texas Bureau of Business Research. Reports from fifteen representative Texas counties show total registrations of 3,647 cars, a decline of 29.9 per cent from March and a drop of 36.3 per cent from April last year. Registrations totaled 23,693 during the first four months, a decline of 29.4 per cent from the corresponding period last year.

### Pioneer Finds Drawbacks Go With Progress

QUEETS, Wash. (U.P.). — There is no more frontier on the Olympic peninsula, long a tangled wilderness, for civilization has arrived in the Queets, Clearwater and Hoh counties, according to George Northrup, pioneer of Clearwater.

But civilization isn't entirely satisfactory, Northrup said.

"We have a lot of things we didn't use to have," he said, "but not all of them have proved desirable. There is no doubt but that the roads are handy, that our homes are more comfortable, that we can enjoy automobiles and run into town for a movie—but on the other hand we have the padlock, the undesirable visitors who make them necessary and the ever-present traffic dangers which automobiles brought.

"In the old days when we were isolated and the only road out was a trail, and saddle horse was the

## Edyth Louise Lemley Is Presented In Recital by Mrs. Lee Cornelius

Two pupils of Mrs. Lee Cornelius appeared before an appreciative audience in a program Wednesday afternoon at the Cornelius Studio, 706 West Ohio, the occasion being the first special presentation of Edyth Louise Lemley, brilliant young pianist, assisted by Frances Ellen Link, expression student of Mrs. R. Steele Johnston and declamation winner for two consecutive years.

The varied program displayed the versatility of the young musician's technique from the measured formality of Bach to the flowing melodies of Manne and Czerwonky, the delicate perfection of Chopin's A major Prelude and the impressionism of Reinhold's "Gondoliera" to the rich magnificence of Chopin's C minor Prelude and the facile Etude in A flat by Wollenhaupt. Her ensemble playing was demonstrated in the beautiful arrangement of Rimsky-Korsakoff's "Song of India" in which she was accompanied at the second piano by Mrs. Cornelius. Her music study has covered a period of less than two school years.

Following the program, a refreshment plate was served to the group of invited guests which included friends of the family from Odessa and Midland. Assisting Mrs. Lemley in serving were Dorothy Brown, cousin of Miss Lemley and Juandel Jones.

The program as presented follows: Minuet in G Major, J. S. Bach, March in D Major, J. S. Bach, Edyth Louise Lemley, The House With Nobody in It, Joyce Kilmer, Frances Ellen Link, Prelude, Op. 28, No. 7, Chopin, Prelude, Op. 28, No. 20, Chopin, Etude Characteristique, Wollenhaupt.

### Announcements

**FRIDAY.**  
Women's Golf Association will meet Friday morning at 10 o'clock at the Country Club. Hostesses for the day will be Mrs. A. E. Horst and Mrs. R. R. Porterfield.

City-County Federation will hold the last business meeting of the club year in the district courtroom at the courthouse Friday morning at 10:30 o'clock. All members are urged to be present as annual reports will be made and final business transacted. The Federated club luncheon will be held Wednesday, May 18.

Stitch and Chatter club will meet with Mrs. E. L. Reagan, 210 E. Kentucky, Friday afternoon at 2 o'clock.  
Belmont Bible class will meet with Mrs. W. L. Fickett, 905 W. Missouri, Friday afternoon at 3:30 o'clock.

**SATURDAY.**  
Story Hour will be held in the children's library at the courthouse Saturday morning at 11 o'clock.  
Palette club will sponsor a tea-exhibit at the home of Mrs. Clyde Cowden, 111 North D street, Saturday afternoon from 3 until six o'clock. Canvases of the club members will be displayed. Every one interested in art is invited to attend the exhibit.

Paintings by the various club members will be on display during the afternoon.  
Every one interested in art is invited to attend the display, club officials announced.

## SIDE GLANCES

### Dr. George Clark

"I'm worn to a frazzle. All morning I've had to listen to my hairdresser's domestic problems."

## Slam Club Meets At the Home of Mrs. McCormick

Members of the Slam club met with Mrs. D. W. McCormick at her home at the Atlantic Tank Farm Wednesday afternoon for the weekly bridge party.

Three tables of bridge were played. High score prize for members went to Mrs. W. G. Attaway and second high to Mrs. A. D. Hale. Guest prize went to Mrs. B. C. Girdley, bingo prize to Mrs. W. D. Dobson and high cut to Mrs. R. L. Bailey.

Playing guests were: Mmes. Garth Neill, Ernest Neill, Girdley, Miss Winnie Lee McCormick.  
Refreshments were served at the conclusion of the games to guests and the following club members: Mmes. Attaway, Bailey, Hale, W. D. Dobson, Joe Dobson, W. J. Stewart, R. L. Stewart, and the hostess.

## Yellow and Blue Favored Colors for Midweek Bridge

Yellow daisies and blue cornflowers for the centerpiece and yellow and blue wrappings for the prizes introduced a double color note into appointments for the bridge with which Mrs. Fred S. Wright favored the Midweek club at her home, 1010 W. Texas, Wednesday afternoon.

Four tables of bridge furnished diversion for the group with high score prize going to Mrs. Allan Hargrave and cut to Mrs. J. M. Armstrong.  
Club guests were: Mmes. Jack Morehouse, John West, Fred Wingler, Allen Tolbert.

Members present were: Mmes. Armstrong, W. L. Brown, Elliott F. Cowden, I. E. Daniel, J. L. Greene, Hargrave, John House, Frank Johnson, J. B. Leonard, M. D. Self, Don Sivalls, W. E. Wallace, and the hostess.

## Attendance Urged at Federation Meeting

Attendance of all club representatives at the City-County Federation meeting to be held in the district courtroom at the courthouse Friday morning at 10:30 o'clock was urged today by Mrs. F. H. Schouten, Federation president. Since this meeting will be the last business session of the year, important business matters are to be discussed and a full attendance is desired by officials.  
Last meeting for the current year will be the City-County Federation luncheon to be held on Wednesday of next week.

semi-twilight. But since the acquisition of new shades for our office window, we've learned that it is really men who go in for those dusky, indistinct effects.

Sports-minded girls especially will welcome the advent of big leather compact. Monogrammed to order and coming in a series of colors to match costumes, the new vogue is a pleasant variation on the endless theme of a container for lady's daily quota of powder. Smooth calf, alligator, or pig grain calf leathers are used.

Bathing suits are as scanty as ever but they seem to have struck a new high in exotic appearance.

In this respect, we particularly remember a black woven lastex creation which had the appearance of black satin. But not of plain black satin. All over the suit were scattered tiny embroidered flowers of yellow, green, red, and white. White braided belt and matching shoulder straps gave added attraction to the sun-back suit.

Almost equally unusual, though with the emphasis more on allure than on excitement was a suit of all-over shirred blue lastex. Lovely in

## Mrs. Payne Hostess To Four-Table Bridge Party

Varied spring flowers brightened the entertaining rooms when Mrs. L. L. Payne complimented the Sans Souci club and a group of guests with a bridge party at her home, 1407 W. Illinois, Wednesday afternoon.

The blossom theme was repeated in the appointments for the four tables of bridge, with tallies and score pads in flower design.  
High score prize for guests went to Mrs. R. E. Kinsey, high score for club members to Mrs. E. D. Richardson, and cut to Mrs. Roy Downey.

Playing guests were: Mmes. Kinsey, Jas. H. Chapple, L. G. Mackey, Robert Dewey, L. M. Weatherall, Tom Sealy, R. C. Crabbe.  
A salad-and-dessert course was served at the tea hour to the visitors named and the following club members: Mmes. Barney Greathouse, Richardson, Frank Williamson, Bill Wyche, R. T. Mobley, Tom Rainbolt, Walter Cowden, Downey, W. H. Street, and the hostess.

## Sewing Club Works On Solomon Quilt

Members pieced on a Solomon quilt for the hostess when the Wednesday Sewing club met with Mrs. S. O. Dixon, 400 S. Pecos, Wednesday afternoon.

Six of the old members were present, with five absent.  
At the tea hour, refreshments were served to: Mmes. J. W. Crowley, W. C. Moore, Fred Klatt, J. W. Miller, E. L. Reagan, and the hostess.

The club will meet next Wednesday with Mrs. Moore at 500 S. Mincola.

itself, but almost too revealing for those of the daughters of Eve whose beauty is not that of physical perfection.

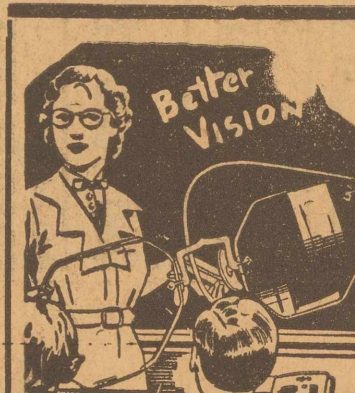

Tailored pajamas that come in sheer batiste shaded and striped in blues or wines are about the most attractive things noticed in lingerie counters in some time. A part of these in wine color stripes with fringed belt of self-material gets a plus rating in goodlooking sleeping apparel for hot summer nights. Washable, of course.

Growups miss a lot of fun through being too dignified to enjoy the things that children do. Take the assortment of ice cream cones, ice cream sandwiches, ices frozen on sticks, and similar coolish concoctions. If the average man or woman were not too afraid of "looking silly" to grasp a wooden handle and leisurely eat the ice in which it is imbedded, he or she might not do so much sighing over the joys of childhood. Might decide that a good many of those joys go right on through life. Even during a sticky-hot summer.

### DOING WELL.

Myrtle Jean Butler, daughter of Mr. and Mrs. Henry Butler who underwent an appendectomy Sunday in a Midland hospital is reported to be improving and her condition satisfactory.

Aversion to using their hands for carrying anything is so strong among the native women of Paramaribo, Dutch Guiana, that they even put letters on their heads, weighting them down with a brick.

## FLAPPER FANNY By Sylvia

"Gee, Fanny, can't you raise my allowance?"  
"No, ma'am... stay within it or go without it."

## Miss Cowden Takes Part in Graduation Activities at TSCW

DENTON, May 12 (Special)—Clad in white and led by their officers, Miss Walter Faye Cowden of Midland and her 288 senior classmates marched into the auditorium, and down the center aisle to their regular assembly seats to the strains of their class song on the organ for their farewell assembly at Texas State College for Women.

The traditional oak chain, carried by sophomore officers, surrounded the seniors on the stage, and the chain borne down the center aisle to mark the senior section was carried by twelve other sophomores.  
Miss Elizabeth Smith of Corsicana, president of the class yielded the symbolic class chain to next

year's senior president, Miss Marguerite Tatom of Dallas, in a ceremony based on the journey of Chaucer's pilgrims to Canterbury.  
Miss Cowden, the daughter of Mr. and Mrs. E. W. Cowden, will receive her degree in physical education in June. The assembly marks the beginning of Miss Cowden's final senior activities.

By popular vote of her club associates Miss May Beth Judkins of Midland was elected 1938-39 parliamentarian of the Business and Professional Women's Club, large departmental club on the Texas State College for Women campus.

Miss Judkins is a junior student at the college working toward her degree in business administration, and is the daughter of Mr. and Mrs. Arthur Judkins.  
There are no rattlesnakes outside of the new world.

## Fine Arts Club Chooses Course of Study for 1938-39

Course of study for next year was chosen by the Fine Arts club in its meeting with Mrs. R. C. Tucker, 608 N. Marientfeld, Wednesday afternoon. The subject will be "International Studies" and a tentative bibliography was presented by Mrs. John Van N. Dorr and accepted by the group.

The program for the afternoon dealt with women in business and consisted of three papers. Mrs. Fred Fuhrman read a paper by Mrs. A. N. Hendrickson on "Beauticians," Mrs. W. H. Gilmore discussed "Decorators."

Mrs. L. G. Byerley's paper was on "Designers."  
Announcement was made that members of the club should call Mrs. T. Paul Barron at 123 for reservations for the Fine Arts table at the City-County Federation luncheon on Wednesday of next week. These reservations should be made by Tuesday, officials said.

Members present were: Mmes. Elliott H. Barron, T. Paul Barron, W. Bryant, Harvey Conger, Alden Donnelly, Fuhrman, A. N. Hendrickson, J. Howard Hodge, Lem Peters, A. P. Shirey, Harvey Sloan, Fred Wilcox, Gilmore, Geo. Kidd, Dorr, Byerley, and the hostess.

Three million or more persons visit the United States national parks every summer.

**Get Wise to Constipation!**  
When you're constipated, it's a great temptation to be satisfied with quick relief. But physics may become a habit. And they don't keep constipation from returning. It's so much better to get at the cause of the trouble.  
If you eat what most people do, chances are the only thing that matters is you don't get enough "bulk." And "bulk" doesn't mean how much you eat. It means a kind of food that isn't consumed in the body, but leaves a soft "bulky" mass in the intestines and helps a bowel movement.  
What to do? Eat a little Kellogg's All-Bran for breakfast every day and drink plenty of water. This crunchy, toasted cereal is not only rich in "bulk"—it also contains the natural intestinal tonic, vitamin B. All-Bran is made by Kellogg in Battle Creek. Sold by every grocer.

**HAPPY RELIEF FROM PAINFUL BACKACHE**  
Caused by Tired Kidneys  
Many of those gnawing, nagging, painful backaches people blame on colds or strains are often caused by tired kidneys—and may be relieved when treated in the right way.  
The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. Most people pass about 3 pints a day or about 3 pounds of waste.  
If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness.  
Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

Stamp to Honor Glenn Curtiss

HAMMONDSPORT, N. Y. (UP).—A special cachet memorializing the late Glenn H. Curtiss, pioneer aviator and the first licensed pilot in the United States, will be provided for use at the Hammondsport postoffice during National Airmail Week, May 15-23.

The stamp will bear a likeness of Curtiss. Beneath the picture will be the words, "The Cradle of Aviation, Hammondsport, N. Y." A native of Hammondsport, Curtiss began his career as a bicycle mechanic. He later operated a factory here manufacturing motorcycles.

With the formation of the Aerial Experiment Association by the late Dr. Alexander Graham Bell, Capt. Thomas Baldwin and others, Curtiss became interested in aviation and made the first pre-announced flight in history, for which he won the Scientific American prize of \$10,000. The flight, made in the "June Bug," covered little more than a mile.

Curtiss established a factory in Hammondsport where during the World war more than 2,500 persons were employed making planes for the Allies. A Curtiss plane, flown by Capt. Paul Beck, U. S. Army, carried the first air mail, Sept. 23, 1911.

GIVES DRINK IMITATION FOR THE EXTRA GALS.

Woman's Wednesday Club Holds Last Meeting of Year

Woman's Wednesday club held its last meeting of the club year at the home of Mrs. Russell Conkling, 811 North D street, Wednesday afternoon.

Mrs. John Perkins was leader for the program on the subject of prevention of war. Subject matter was taken from Virginia Woolf's article, "Women Must Weep," in the Atlantic Monthly Magazine.

Mrs. W. T. Walsh will go as club delegate to the meeting of the Far West Federation at Barstow Saturday, where she will present an address on parliamentary law.

As outgoing president, Mrs. Geo. Glass, incoming president, at the conclusion of the meeting.

Members present were: Mmes. H. C. Barnes, DeArmond, Andrew Fashen, Glass, C. M. Goldsmith, M. R. Hill, Perkins, Walsh, W. G. Whitehouse, and the hostess.

The club will have a table at the City-County Federation luncheon next week.

No. 3071

CITATION BY PUBLICATION

To the Sheriff or any Constable of Midland County, Greeting:

YOU ARE HEREBY COMMANDED To summon W. H. Cass, the assignee of W. H. Cass, legal representative of W. H. Cass, deceased, the unknown heirs of W. H. Cass and their legal representatives and assigns; Mrs. W. H. Cass, the assignee of Mrs. W. H. Cass, legal representative of Mrs. W. H. Cass, deceased, the unknown heirs of Mrs. W. H. Cass, deceased, and their legal representatives and assigns; Midland Building Association, a Corporation and if defunct, the unknown officers, directors and stockholders of said Midland Building Association, a defunct corporation, their heirs and legal representatives; and if an Association, joint stock company or partnership, all of the unknown owners or claimants of said association, joint stock company or partnership, and all persons claiming any title or interest in land under deed heretofore given to Midland Building Association of Midland, Texas, as grantee, which deed is dated the 17th day of December, 1884, and on record in Volume I, Page 497, of the Midland County Deed Records; and Laura K. Judkins, the assignee of Laura K. Judkins, legal representative of Laura K. Judkins, deceased, the unknown heirs of Laura K. Judkins, deceased, and their legal representatives and assigns; and if she be married, her unknown husband, the assignee of her unknown husband, the legal representative of her unknown husband, deceased, the unknown heirs of her unknown husband, deceased, and their legal representatives and assigns, by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Midland County, to be holden at the Court House thereof, in Midland, Texas, on the first Monday in June, A. D. 1938, the same being the 6th day of June, A. D. 1938, then and there to answer a petition filed in said Court on the 4th day of May, A. D. 1938, in a suit, numbered on the docket of said Court as No. 3071, wherein Nannie D. Cochran, a widow, John Owen Cochran and wife, Ruth Cochran, Robert W. Dickey and wife, Hattie Ella Dickey, are Plaintiffs, and W. H. Cass, the assignee of W. H. Cass, legal representative of W. H. Cass, deceased, the unknown heirs of W. H. Cass and their legal representatives and assigns; Mrs. W. H. Cass, the assignee of Mrs. W. H. Cass, legal representative of Mrs. W. H. Cass, deceased, the unknown heirs of Mrs. W. H. Cass, deceased, and their legal representatives and assigns; Midland Building Association, a corporation and if defunct, the unknown officers, directors and stockholders of said Midland Building Association, a defunct corporation, their heirs and legal representatives; and if an association, joint stock company or partnership, all of the unknown owners or claimants of said association, joint stock company or partnership, and all persons claiming any title or interest in land under deed heretofore given to Midland Building Association of Midland, Texas, as grantee, which deed is dated the 17th day of December, 1884, and on record in Volume I, Page 497, of the Midland County Deed Records; and Laura K. Judkins, the assignee of Laura K. Judkins, legal representative of Laura K. Judkins, deceased, the unknown heirs of Laura K. Judkins, deceased, and their legal representatives and assigns; and if she be married, her unknown husband, the assignee of her unknown husband, the legal representative of her unknown husband, deceased, the unknown heirs of her unknown husband, deceased, and their legal representatives and assigns, are Defendants, and said petition alleging:

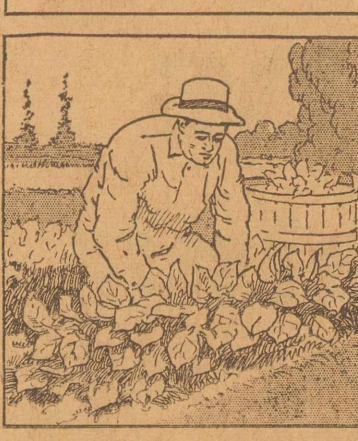

Suit for trespass to try title to All of Lots 11, 12, Block 62, Original Town of Midland, Midland County, Texas; Damages in the sum of \$1.00 and costs of suit and Plea of Three, Five, Ten and Twenty-five years statute of limitation and payment of taxes.

HEREIN FAIL NOT, and have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

GIVEN UNDER MY HAND and the Seal of said Court and issued, at office in Midland, Texas, this 4th day of May, A. D. 1938.

NETTIE C. ROMER, Clerk, District Court, (SEAL) Midland County, Texas, May 5-12-19-20.

Swiss Chard for Summer 'Greens'

Of all garden greens, spinach and Swiss chard are most popular and easiest to grow. For the early crop, spinach cannot be beat, but hot weather puts it out of business, and chard must take its place.

Chard is one of the most prolific bearers of the vegetable garden. It has been rightly named "cut and come again," and will continue producing crisp, tasty leaves throughout most of the summer, if cut near the ground and roots are left undisturbed.

It is an excellent follow-up crop for an early vegetable, such as radishes or peas, although it may also be planted early. Being a relative of the beet, cultural instructions are very similar, the difference between the two is that the chard spends its efforts in creating leaves instead of roots.

Plant seed sparingly in rows and thin to 2 inches apart. When leaves reach considerable size, thin again to 6 inches apart. Cut most mature leaves as needed for the table. Chard benefits from fast growth; this means plenty of moisture, good cultivation and sufficient plant food.

Although it is usually grown for the "greens" only, the midribs and stems are deliciously edible if cooked in the manner of asparagus, and served in cream sauce or butter. They have a delicate flavor, peculiarly their own. Do not overcook chard.

Toronto Streets More Perilous.

TORONTO, Ont. (U.P.)—Despite efforts of safety organizations, traffic fatalities in Toronto have increased by 21 per cent so far this year over the same period in 1937. To date 19 lives have been lost in traffic accidents, compared to 15 for the same period last year.

"Pony Money" in Loot.

ENID, Okla. (U.P.)—Burglars who ransacked the farm home of T. Z. Hayes took only money and merchandise, but they were "horse thieves" to Hayes' boy. Included in their loot was \$10 in pennies the youngster had been saving for five years "to buy a pony."

Traffic Fines \$5 to \$100.

HOUSTON, Tex. (U.P.)—Motorists have been laughing when caught driving through boulevard stop signs because they knew the penalty was only a dollar. But now, city council has clamped down a new emergency ordinance, providing fines ranging from \$5 to \$100, to halt traffic casualties.

do You Suffer from Nerves?

Dallas, Texas, Mrs. Ola Young, 3011 Bertrand St., says: "I was barely able to eat solid food and felt very tired and nervous, was hardly able to get about the house. I used Dr. Pierce's Favorite Prescription and it gave me a splendid appetite and helped to relieve me of that tired, nervous feeling." Ask your druggist today for it in liquid or tablets. New size, tablets 50c.

Lawyers Urged to Be "Vigilant" in Selecting Judges

WASHINGTON, May 12, (U.P.)—Chief Justice Charles Hughes urged today lawyers be "vigilant" in seeking the selection of "good judges" to preside over the nation's courts. He was addressing the American Law Institute.

"The prime necessity in making judicial machinery work to the best advantage is the able, industrious judge," he said.

President Roosevelt, in a letter read at the same meeting, said the country was reshaping legal philosophy to keep pace with the needs of the people.

Tidy Closets. Clothes packed away for the summer hold their shape and do not wrinkle or soil when hung in well made garment bags. One manufacturer makes them of a new dust and water-proof fabric, firm and smooth-surfaced. The colors are rich and dark, the bags close neatly with slide fasteners and are made in two lengths to accommodate long or short garments.

Nevel Luncheon Mats. An unusual luncheon set for informal dining especially suitable for outdoor meals is fashioned of natural color wheat straw with bright borders of two harmonizing colors. Carefully handwoven, these luncheon mats are durable and washable or may simply be wiped off with a damp cloth. Their rather neutral tones are a nice background for gay, informal china and their easy washability is a real laundry economy.

Flood Control Plan Sent to Congress

WASHINGTON, May 12, (U.P.)—A five-year plan of flood control went to congress today with leaders planning to ask an initial appropriation next year to carry it out.

Government acquisition of lands and rights of way connected with development of electricity producing features of the proposed Denison, Texas, reservoir were provided in the bill.

Local Dance Band Being Organized

All persons interested in becoming members of a new dance band being organized here today were urged by Bill Harris, organizer, to be at the Country Club Monday night at 8:30. Several local musicians have already signified their intentions of trying out for a place in the band but others are needed, particularly saxophone players.

IS DISCHARGED. Mrs. Sam Preston was discharged from a Midland hospital after treatment.

Science Studies Finger Nails. LONDON, (U.P.)—Oxford scientists are measuring the growth of finger nails in their search for a standard by which to judge malnutrition.
